activities.

Placements: About 80% of students were placed in the same streamline, which I choose most likely banking related jobs through our college placements. None of the students got an internship from a bachelor degree of commerce stream from our college. Top roles are not offered here.

Infrastructure: A library, classrooms, computer lab and many more facilities are available here. There is a playground to play volleyball, football and cricket. There is also a sports room to play indoor games. Our college has also participated in all state-level games.

Faculty: Teachers here are very helpful to us. They are good at teaching and also more knowledgeable in their own subject. They all are qualified with professional experience. All professors have a master degree in the subjects which they taught us.

Other: I chose B.Com because I am interested in finance and account related subjects.

Review of C C Sheth College of Commerce.

Placements: The college provides many placement opportunities. I don't know the number of students who got placed. The highest salary offered was Rs. 15,000 per month, and the lowest salary offered was Rs. 10,000 per month. Companies related to ethical hacking, insurance, import and export, etc., visited the campus for placements. There is a placement cell in the college.

Infrastructure: The college provides facilities like labs, classrooms, a library, sports and games, a reading room, and a food corner. Quality of labs is average. Quality of food is good. Classrooms are not much good as it is a very old college. I didn't face any issues regarding the infrastructure during my tenure.

Faculty: Faculty members in our college are outstanding. They are always helpful and responsive. They use practical as well as theoretical methods to teach. The faculty to student ratio is 1:50. The course curriculum is useful. Faculty members are well-qualified and knowledgeable.

Other: Many events are conducted in the college and almost half of the academic year is engaged with events.

There were really good placements in 2016.

Placements: The placements are conducted by various companies, and the job roles offered were back officer, tally, accounts, audits and management. There is a lot of demand for jobs after completing B.Com. There is a good communication in the mother tongue. 50% of the students got an internship from the college, which is great.

Infrastructure: Computer labs for BCA students were pretty good. There is a nice communication with the staff. The internet connectivity is good, and also the devices are updated. There are no hostel rooms. The food is also available sometimes. The campus

was very nice to walk.

Faculty: The faculty members of the college are nice. There are many students studying in the college and communication can be done in their regional language. The teachers behave well with all kinds of students. Also, they help us anytime. Examinations were very good. They also teach even if a single student is present in the class. B.Com, M.Com, B.A, LLB, are the courses available in the college.

Other: The scholarship is available for the reservation category students, and the campus surrounding was amazing. Sometimes, escaping from the classes was good because there is a good place behind the college, which is called riverfront of Ahmedabad, it is a good place, and you can just travel once.

The best college in Ahmedabad.

Placements: We have the best placements in our college. They give a superb opportunity for the students. They offer good jobs with high salary packages. All types of companies visited the campus. About 98% of the students got the internship from the college. Internships offered by this college were in banking, sales, finance, law, account, etc.

Infrastructure: We have a very good infrastructure in our college. We have Wi-Fi with good speed. The computer labs are the best. Many interesting and best books are available in the libraries. Best medical facilities are provided in our college. They teach all the students first, and then they give training. We have the best sports ground and gym facilities in our college.

Faculty: We have the best and humble teachers and professors in our college. They provide the best quality of education. They are highly knowledgeable and helpful. They use very easy teaching methods to teach the students. All the faculty are doing PhDs. The principal and trustee are also humble. All of them are very well-experienced.

when asked about the same. Placements for B.Com and M.Com are not there. Because multinationals or good companies require more qualified professionals as a part of their team.

Infrastructure: The infrastructure of the college is decent. It is not very good as other big colleges but it personifies a studious environment around and that works. The staff room and classrooms are decent and they are not overly done by the college. The campus is also good.

Faculty: The teachers are qualified and their teaching skills are also good. Students are asked to prepare course related assignments to stay connected with the subject and the knowledge with the faculty members is nice. Teaching is done keeping every student in mind.
