#### In this college, teachers are very rude and strict.

**Placements:** The placements are not good in this college, not a single student was placed in our course. Students were not offered good packages. There are not any recruiting companies for our course. No students got any internships from our college, and also there are not any top roles offered.

**Infrastructure:** In our college, only a few facilities are available, and the infrastructure is very bad. There is no Wi-Fi facility on the campus. There are many science laboratories and classrooms which are very dirty and dull. The quality of food served is not good and unhygienic. Medical facilities and sports facilities are also not available in this college for students.

**Faculty:** Teachers are very less qualified. They are not very helpful and knowledgeable. The teaching quality is also not good. They visit the classroom only to take attendance. Because of teachers students have to face a lot of problems in their exams.

**Other:** I opt for this course because of my interest, but after taking admission students lost their interest in science, and do not think about science in their entire life.

**I am absolutely dissatisfied because of faculty, no placements, and poor infrastructure.**

**Placements:** The college doesn't provide any kind of placement opportunities. The teachers were not co-operative at all. All teachers were jealous and reduced the morale of the students and also exploited them till they lose their last hope and had no regular lectures.

**Infrastructure:** No facilities were provided and there was no medical room. If you felt sick, the teachers won't let you go out and take medicines. They will compulsorily make you sit in the classrooms, insult you, and force you to attend lectures. No one can go outside college before 1 pm.

**Faculty:** Exams were conducted by faculty members who were not cooperative. The only focus of the facilities was imposing fines. On the average class of 26 students, there are 14 supplies in the graduation university exams. Even the gold medalist is not given any award or prize for good performance.

**Other:** Fests were conducted but no studies on campus.
