A. According to the annual report 2022, 1,450 offers were made during IIIT placements 2022. The table below showcases salary package wise offers received during IIIT Noida placements 2022:

No. of Company	Salary package	Offers received
12	INR 30 LPA to INR 57.27 LPA	56
37	INR 12 LPA to INR 29.99 LPA	172
85	INR 6 LPA to INR 11.99 LPA	548
35	Less than INR 6 LPA	674

**Q. Who were the top companies that visited IIIT campus during the placement drive 2022?**

A. Many top companies visited the campus during the placement drive 2022. To know the function-wise companies visited, candidates can check the table below:

IIIT Placements 2022: Top Recruiters		
Adobe	DE Shaw	Amazon
Goldman Sachs	Flipkart	Ernst & Young
HCL	Samsung	Nestle

To know the complete list of companies visited, candidates can check the annual report from the above attachment.

**Q. Is IIIT good for placements?**

A. The university recorded a decent placement report for the year 2022. However, the table below showcases BTech branch-wise participating students and students placed during placements 2022:

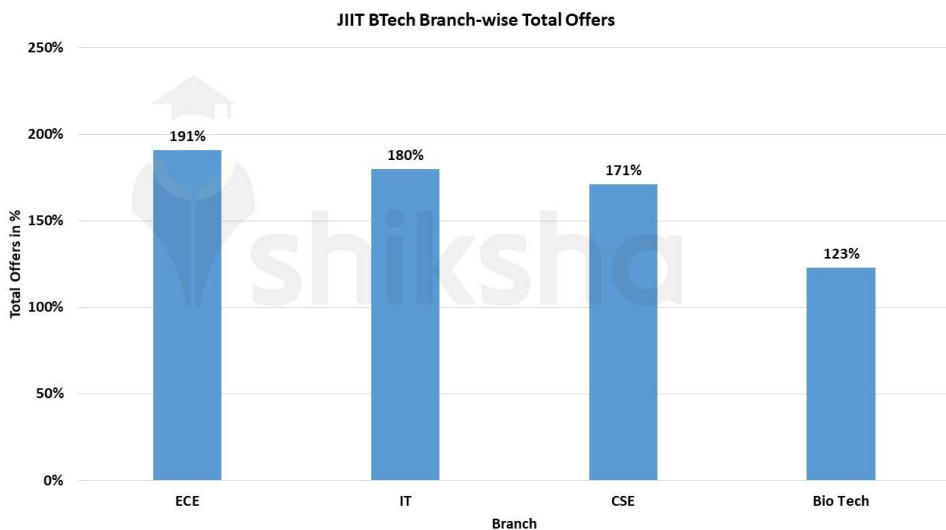

The table below showcases BTech branch-wise total and students placed during placements 2022:

Branch	Total Students	Offers Received
CSE	452	774
ECE	256	489
IT	45	81
Bio Tech	30	37

**Q. How many offers were received for BTech IT (Information Technology) at IIIT during placements 2022?**

A. The university has not released the overall figures recorded for IT students on IIIT placements during placements 2022. Instead, 180% total offers were received during placements 2022. The trend graph below showcases BTech branch-wise total offers recorded in 2022:

The table below showcases BTech branch-wise total offers received during IIIT placements 2022:

Branch	Total offers in %
ECE	191%
IT	180%
CSE	171%

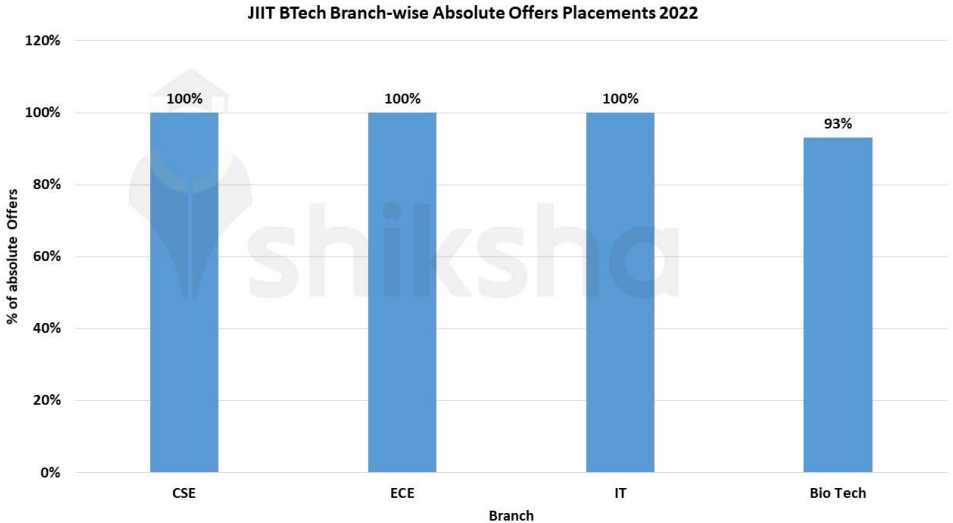

Bio Tech

123%

**Q. What was the BTech placement rate recorded during IIIT placements 2022?**

A. The university has released BTech branch-wise absolute offers in percentage. The graph below showcases course-wise absolute offers during IIIT placements 2022:

The table below showcases BTech branch-wise absolute offers during IIIT placements 2022:

Branch	% of Absolute Offers
CSE	100%
ECE	100%
IT	100%
Bio Tech	93%

**Q. What was the average package offered to CSE students during IIIT placements 2022?**

A. The university has not released the average package offered to CSE students during placements 2022. However, as per Shiksha review, the average package offered to CSE students was INR 9 LPA during the recent placement drive. These stats may vary further once the latest placement statistics are out on the official website. Apart from this, a total of 452 student participants and 774 offers were made during the placement drive 2022. A total of 451 absolute offers were also made.

**Q. How many offers were made to MTech students during IIIT placements 2022?**

A. The university has collectively published placement statistics for MTech and Integrated courses. As per the report 2022, total of 72 offers were made during placements 2022. The table below showcases students participated and total offers made to MTech and Integrated students:

Particulars	Total Students	Total Offers
-------------	----------------	--------------

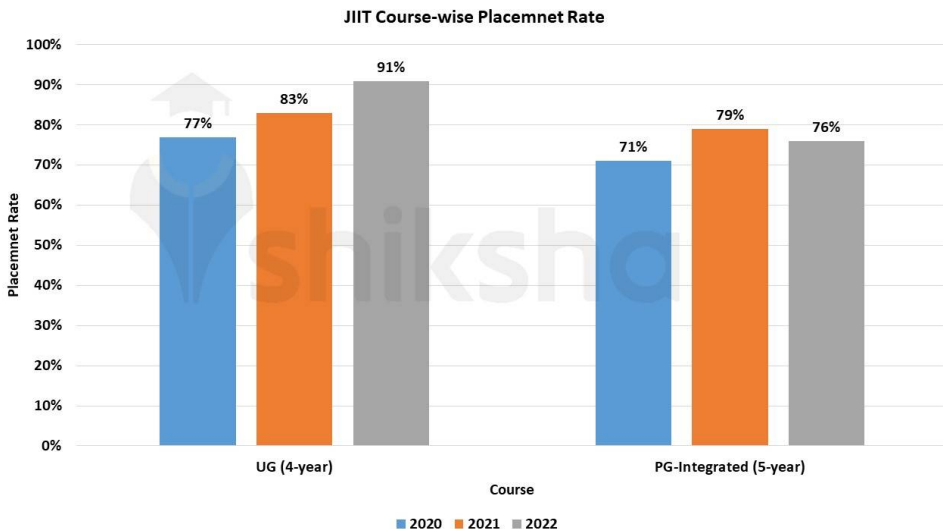

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 25-May-2023.

Integrated	39	61
MTech	9	11

**Q. What was the placement rate recorded during IIIT placements 2022?**

A. The university has not released any course-wise placement rate for BTech or MTech course during IIIT placements 2022. However, as per NIRF report 2023 is available. As per the report the placement rate recorded for UG and PG students for the last three years is mentioned in the graph below:

The table below showcases UG and PG-Integrated (5-year) placement rate in the last three years:

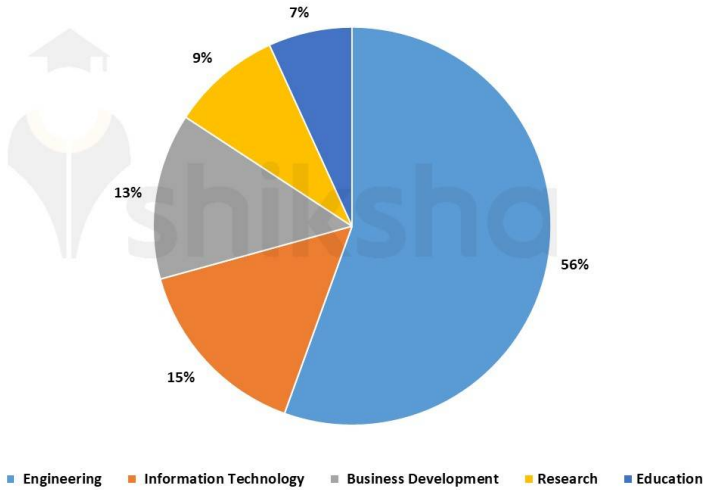

Course	Statistics (2020)	Statistics (2021)	Statistics (2022)
UG (4-year)	77%	83%	91%
PG-Integrated (5-year)	71%	79%	76%

**Q. Which sector involves the largest share of IIIT alumni?**

A. The alumni of IIIT Noida are working with top companies such as Amazon, Cognizant, Deloitte and many more. To know the function-wise alumni placements, check out the pie chart below:

### JIIT Alumni Placements

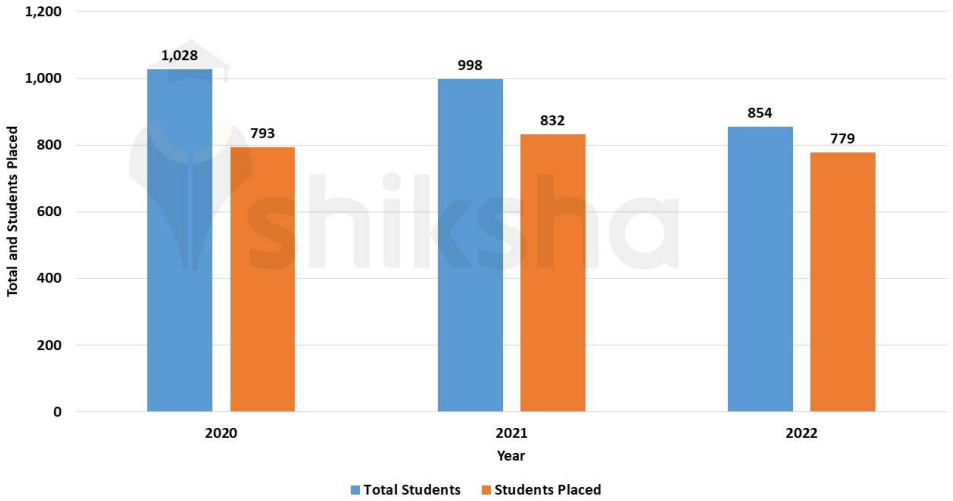

**DISCLAIMER:** The statistics on alumni placements presented above were compiled from various online sources and hence, are indicative.

#### Q. How many UG students were placed during JIIT placements 2023?

A. The University has not released the overall number of UG students placed for the year 2023. However as per NIRF report 2023, 779 out of 854 UG (4-year) students were placed during placements 2022. The trend graph below showcases the total and students placed for UG (4-year) in the last three years:

### JIIT UG (4-year) Studnets Placed Trends

The table below showcases UG (4-year) total students and students placed in the last three years:

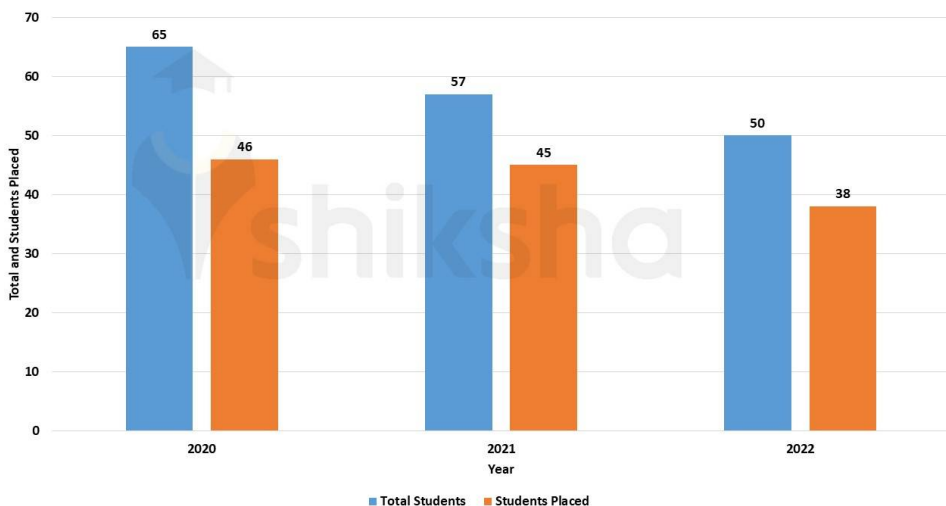

Course	Statistics (2020)	Statistics (2021)	Statistics (2022)
Total Students	1,028	998	854
Students Placed	793	832	779

#### Q. How many MTech students were placed during JIIT placements 2023?

A. The University has not released the overall number of MTech students placed for the year 2023. However as per NIRF report 2023, 38 out of 50 students were placed during placements 2022. The trend graph below showcases the total and students placed for MTech in the last three years:

JIIT Mtech Studnets Placed Trends

The table below showcases MTech total students and students placed in the last three years:

Course	Statistics (2020)	Statistics (2021)	Statistics (2022)
Total Students	65	57	50
Students Placed	46	45	38

### Our college provides very good placements and faculty members.

**Placements:** Placements provided in our college are the best among all North Indian private colleges. ECE students get placed with an average salary package of 9 LPA but all the placements are provided by IT companies, which is good for CSE students but not for ECE students.

**Infrastructure:** Our college focuses more on practical knowledge than conceptual knowledge. Hostel is expensive but the facilities provided are good. Air-conditioners are provided in summer at no extra cost. Sports facilities are not good.

**Faculty:** All the faculty members in our college hold Ph.D. and are helpful to students. The course curriculum is well-designed and updated every year. Our college conducts exams in three phases namely, T1, T2, and T3 with a weightage of 20, 20, and 35 marks respectively in all semesters. This system reduces the extra pressure of final exams for students.

**Other:** Our college organises two fests every year. Campus crowd is good. The nearest metro station is 500 meters away.

### It is a very good college for students.

**Placements:** Placements are very good in this college. More than 98% of students got placed in this course. The highest salary package offered was 1.35 crores per annum. The maximum salary package offered was 8 LPA. The top role offered is SDE. Top recruiting companies are Amazon, Microsoft, Adobe, etc.

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 25-May-2023.

**Infrastructure:** The infrastructure is very good. Wi-Fi is enabled on campus. Classrooms are air-conditioned. The library remains open till 9:00 PM on normal days, and 11:00 PM during exams. All facilities are available in this college. Sports are not conducted. The food quality is average. The food served in the canteen is very good at reasonable prices. Double-sharing rooms with air-conditioners are available in the hostels.

**Faculty:** Faculty members are very good. All teachers are Ph.D. scholars. They are well-qualified and helpful. The course curriculum is placement-oriented. Semester exams are moderate. The coding culture of this college is excellent. All classes are conducted by faculty members. The pass marks are 15 out of 75.

### It is a very good college for students.

**Placements:** Placements are very good. More than 98% of students got placed in our course. The highest salary package offered was 1.35 crores per annum. The minimum salary package offered was 60 LPA. The lowest salary package offered was 10 LPA. The top role offered is SDE. Top recruiting companies are Amazon, Microsoft, Adobe, etc.

**Infrastructure:** The infrastructure is very good. Wi-Fi is enabled. Classrooms are air-conditioned. The library remains open till 9:00 PM on normal days, and 11:00 PM during exams. All facilities are available. Sports are not conducted in this college. The food quality is average. The food served in the canteen is better at reasonable prices. Double-sharing rooms with air-conditioners are available in the hostel.

**Faculty:** Faculty members are very good. Most of them are Ph.D. scholars. They are well-qualified, knowledgeable, and helpful. The course curriculum is placement-oriented. The first test will be the toughest one as you will not be able to settle into this college easily. Exams are conducted within 20 days of joining the college. Semester exams are moderately difficult. If we work hard and manage our time properly, we can easily score good marks in exams.

### Review of Jaypee Institute of Information Technology.

**Placements:** Our college provides good placement opportunities. Almost 99.9% of students got placed in our college. Our college provides internship opportunities. Many big companies such as Google and Microsoft visit our college to recruit students for internships as well as placements. All students got placed with good salary packages.

**Infrastructure:** The hostel is good. Its fee is high. It is not worth the money paid. The food served in the mess is good. The hostel doesn't provide food in the evening, so you have to spend extra money on it. Air-conditioners will be available from 5 AM - 9 PM.

**Faculty:** Exams are conducted 3 times each semester. They conduct lab tests or lab evaluations every alternative week. We have a hectic schedule. Managing time is a bit difficult. CGPA maintenance in this college is a bit difficult, because of the hectic schedule.

**Other:** Many fests are held in our college. Our college location is the best.

### Every College is good, it gives you opportunities, you work and grab it.

**Placements:** College placements are good, an average person with good skills can expect a decent package of around 7-11 LPA, whereas an excellent person with great skills could expect around 15-40 LPA. The average package of the college is around 7-8 LPA, the highest package of 2023 batch was 83.3 LPA on campus. Moreover, startups dominates over product based companies. Around 90% student got placed and some other usually goes for higher studies. On talking about roles, most of student got placed for SDE roles. College offers very less internship opportunities, so you have to search for internships off campus.

**Infrastructure:** Normal facilities are available in the college mainly Wi-Fi, classrooms are good and are fully air conditioned, library is good and have sufficient amount of space and many books. But the expenses of the hostel are too high when compared to the facilities made available. Mess food quality is decent, Café is sometimes overpriced. Sports facilities are only in the 128 sector, whereas 62 sector do not have any kind of sports facilities available. Doctors are available in morning, and if in emergency, you have to contact to your respective warden.

**Faculty:** Talking about the academics in college, it is hard as compare to other colleges. But in some time, you get adapted to it. We have 3 exams in a semester which is as T1, T2, T3. First two consists of 20 marks while T3 consists of 35 marks, remaining is internal marks given by your respective subject faculty. As from total 100 marks, you need to score above 15 in written exams and total 30 including all labs, assignments, attendance. Semesters are hard but passing criteria is good. Teachers are way too good, and knowledgeable, most of them are IIT qualified Ph.D. holder. Passing percentage goes around 30%.

**Other:** College life is good, there is good metro connectivity near the college. Honestly I was amazed by the crowd and location of the college which was the main reason for me to take this college, placements are good if you have good Coding skills and good knowledge about DSA. There is no scholarship in the college and very less extracurricular activities. Some societies are very active and some are not that active. Also a small advantage of this college is you can attend fest of both 62 and 128 sector.

### All you need to Know About IIIT, Noida.

**Placements:** Around 99% were placed previous year (2022). The highest was 1.15Cr by Amazon (1 offer) the lowest was 6L (many offers) Average was 11.01L. Top recruiters were Amazon, Morgan Stanley, Accenture, Adobe, DE Shaw, Goldman Sachs, etc. Top roles are SDE, WOW, PP, etc.

**Infrastructure:** Wi-Fi is available throughout the campus (Not very fast). Labs are well-equipped. Library is nice and have all necessary books. Cafe is also good. Hygienic food. Hostel have double sharing rooms, with restricted Wi-Fi as anywhere else. Jaypee Hospital is nearby the 128 campus. I don't know about 62.

**Faculty:** Teachers are very helpful (except some), and qualified obviously. Teaching style is above average (for me is it great). Curriculum is great and everything has its use ahead at stone point. But some useless course such as Workshop is also present (like anywhere else).

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 25-May-2023.

### Satisfied because placements are decent and better than many other private colleges.

**Placements:** In B.Tech, placements in computer science are decent. Average package will be around INR 11 L. P. A, median around INR 8 L. P. A. and the highest package is around INR 70 lacs in the academic year 2022-2023. The lowest package will be around INR 5 lacs p. a. Placements in computer Science branch is above 95%. Top recruiting companies include Adobe, Amazon, De-shaw and many others.

**Infrastructure:** Quality of food in the mess is excellent. Quality of facilities in hostel is decent, not too good not too bad. Nearly, all sports and games are available but their grounds are very small. Library is quite okay. Nearly all academic books required are available. WIFI speed is not very good at college.

**Faculty:** Some teachers are very rude, but some teachers are very helpful and interact with students and their problem. All the teachers are qualified, more than 90% faculty members are Ph.D. holders. Teaching quality is okay. Course curriculum is relevant, college do not have useless subjects like Chemistry in the first year. Semester exams are on average level, not very hard, not very easy.

### I am satisfied with my overall experience.

**Placements:** Almost all students in the CSE batch got placed. The highest salary package offered in our course is 53 LPA, and the average is 9 LPA. Big companies such as Microsoft, Amazon, Google, Tower Research, etc., visited our campus for recruitment.

**Infrastructure:** High-speed Wi-Fi is available. There are well-equipped labs for all types of technical tasks such as high-speed computing and electrical experiments. All rooms are fully air-conditioned and provide a comfortable environment for students to study and prepare for their exams.

**Faculty:** Faculty members are very good and highly educated. They understand the needs and try to explain the importance of the course to students. The curriculum is up-to-date. It helps students to get not only technical knowledge but also life lessons. It helps with self-grooming.
