Absolutely satisfied with the infrastructure and facilities provided by the college.

Placements: The average package a B.Sc. IT student gets is 2-3 LPA, and the highest

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 18-Aug-2022.

package offered by one company was 7-8 LPA. Many companies like Wipro, Ikea, Godrej, etc., recruit students for the role of developer, programmer and IT database manager. Students should get more than 9 CGPA in their 3rd year of the course to be eligible for placements. Students should have a strong base of programming languages.

Infrastructure: Sathaye College's infrastructure is very good. It provides many facilities to students to provide good quality education. Facilities like library, reading area, gymkhana, sports activities, etc., are available. The college has a canteen, where students can have their breakfast and lunch, and the food quality is very good. You can participate in many sports and represent the college at the national level. Sports like badminton, tennis, swimming, running, weight lifting, etc., are conducted.

Faculty: Sathaye College teachers are highly skilled and experienced. The teachers are very helpful, and they always welcome students if they have any doubts related to the studies. To get placed as a programmer or developer, B.Sc. IT course is very relevant and good for it.

Other: To get placed as a programmer, developer or IT database manager, one should opt for B.Sc. IT course. Sathaye College organises many events like debate competition, drama, play etc. If you are of a minority caste, like VJ/NT, OBC, SC or ST, you can apply for a scholarship.

Yes satisfied because faculty members and teaching.

Placements: My college do provide placement facilities but only for their management students, manh companies visits the college campus for placements. Most of the students gets placed in the company ikya and the highest package was 7LPA and the lowest was 3LPA. 60% of the students gets placed. Also college provides internship for the students to train them for the industry.

Infrastructure: College provides Wi-Fi facilities to the students as well as professors. Infrastructure of the college is one of best in Mumbai. In the library students can get only 1 book at time for 7 days and after 7 days either the students has to renew the book or pay the fine of 1rs per day. Canteen is good, the food quality is also good. The college has huge sports ground for sports and other events.

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 18-Aug-2022.

Faculty: The teachers are extremely helpful, they try their best to help the students at any how. They always explain the concepts with real life examples so that the student can grasp the concepts easily. Faculty members always explain concepts with industrial examples too, so that we can get some knowledge of it too. Semester exams are generally conducted by the University so this is strict exams, passing percentage is 40%. .

★★★★★ Placements 4 ★ Infrastructure 4 ★ Faculty & Course Curriculum 5 ★ Crowd & Campus Life 4 ★

Review of Parle Tilak Vidyalyaya Association's Sathaye College.

Placements: This college has one of the best placements from the top recruiting companies such as TATA, Capgemini, Infosys and many others. The lowest package we get in this course is 2.18 Lacs per annum, and the average package is 5 Lacs per annum. Software developer, software tester, basic programmer, database manager, IT engineer, etc., roles are offered.

Infrastructure: The college has separate common rooms for boys and girls. A canteen is available that provides good food. The gymkhana includes carrom, chess, pin pong, etc., games, and outdoor games such as kabaddi, cricket and football are played under the supervision of specific staff. The library has seating arrangements for boys and girls separately, and we can also get books from the library by showing our library cards to the staff. 2 labs are present on the first floor, chemistry and computer labs. Physics lab and another computer lab are available on the second floor.

Faculty: The teachers are helpful to students. Students can tell their issues to the teachers related to lectures, notes, and as such. Practicals are performed for every subject of every semester. PPT presentations are used to teach most of the subjects. Assignments are given. You can refer techmax books for this course. To be honest, the teaching quality is average (depends on the student how he/she understands it). If a teacher has given notes, you should refer them to score good marks in exams.

Other: I took admission in this course (B.Sc. I. T) because after completing this, I can get more career options in the future. You can take admission in any stream, but Maths is mandatory. Every year, an IT fest is organised in this college with other commerce events. The campus has an enough ground for outdoor activities. We can reach here by Vile Parle (East) railway station at a walkable distance of 10 minutes. Many book stores are available nearby.

Campus, infrastructure and teachers are good.

Placements: Our college conducts all types of events for our better future, and they give us a job as per our ability. The principal of our college is very helpful and cheerful.

Infrastructure: Our college does not provide any Wi-Fi or internet connection. Our college has very good laboratories in which we can study a lot. Our college has a library, and they maintain a register book which is a very good thing. It is disciplined, and we can study all time.

Faculty: Teachers are very helpful, highly qualified and give us knowledge about everything. They have a lot of knowledge. This course curriculum is relevant, and I suggest everyone should join in our college. They teach us very well. All teachers are very good and helpful.

Other: The campus is very good, and the ground is also big and awesome. All students are helpful and friendly.

★★★★★ Placements 4 ★ Infrastructure 4 ★ Faculty & Course Curriculum 4 ★ Crowd & Campus Life 4 ★

It is a good government college.

Placements: Many good companies come to our college for placements like L&T, TCS, Capgemini, etc. You have to give exams and interviews to get selected for it. Many students of our batch got selected for it, and the salary package offered is 1.4-16 LPA.

Infrastructure: I did B.Sc in IT in this college, and it was a 3-year course with 6 semesters. The IT department has 2 classrooms like the first is for lectures, and the second is for practicals. You can also get books through the library card from the library. Practical classrooms have air-conditioners, and a PC is provided for each student.

Faculty: Teachers of our college are very helpful, friendly, qualified and knowledgeable. Teaching quality is also the best. Students can ask doubts in on-lecture or off-lecture. Exams difficulty differs from student to student. If students attend lectures and study well, then exams are very easy.

3.0 ★★☆☆☆ Placements 4 ★ Infrastructure 3 ★ Faculty & Course Curriculum 3 ★ Crowd & Campus Life 4 ★

An honest review of Parle Tilak Vidyalya Association's Sathaye College.

Placements: Around 40 to 50% of students are placed in my course. There is no guarantee about the packages offered. The top recruitment companies are Godrej and others. Only 10-20% of students interested got internships in Godrej. The roles offered in my course include civil services, journalist, tourist, and teaching.

Infrastructure: The facilities in our college are pathetic. There is no Wi-Fi, and all the departments are bad. The staff are not cooperative with students. The labs are in good condition. The classrooms and library are also good. The hostel quality is bad, but the food in the canteen is good, especially Chinese and Maharashtra food. There are no medical facilities. Sports and games are amazing, and the college is top in it.

Faculty: Some teachers are good and help the students, but some teachers are not so helpful to the students. Some teachers are qualified, but some are not. This course is curriculum relevant and makes the students industry-ready.

Other: There is no value for money, and I chose this course because they didn't give me other options. So, I had to choose this one. Not many subjects are offered here as they need to approve for it. Extracurricular activities are good. Events, fests, and campus crowd are the main reasons I am in this college.

It is a good college with the best campus, canteen and playground.

Placements: Sathaye College provides B.Com degree with campus placements in various CA offices and other firms. Few teachers are also part of the paper setting team in Mumbai University. There is also a counselling team to help students with their problems. They solve any kind of problem, no matter what it is.

Infrastructure: There are Wi-Fi facilities, but none of the students knows the passwords for the same. Our college has a very well maintained library, and the canteen is the best place you are going to remember. The cricket ground is also situated near, so you can enjoy there. But the only drawback in our college is the librarian who will not allow boys and girls to seat together.

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 18-Aug-2022.

Faculty: Teachers here are very well qualified, and some of them are qualified CA, CS and have other qualifications. They are very friendly and supportive. Many of them are in the paper setting team in Mumbai University. You can also volunteer as a helper in various activities. You can also see the IGNOU centre in our college.

Other: Many events and fests are organised in our college. Many filmmakers visit our college to shoot, meet and as guests in events.

★★★★★ Placements 3 ★ Infrastructure 4 ★ Faculty & Course Curriculum 4 ★ Crowd & Campus Life 5 ★

Our college is great, and it conducts a variety of activities and intercollegiate fest for fun.

Placements: Our college provides placements, but it is not up to the mark. Our college doesn't provide placements in well-known companies. About 40% of the students get placements in college. Our college can still work and should tie-up with well-verified companies.

Infrastructure: Our college has a well-maintained infrastructure. The college has a sports ground. The canteen is quite huge, and it offers a variety of dishes. The first-aid facility is available here. The infrastructure is well-developed. Students love the canteen, and they spend their time of the most in the canteen.

Faculty: Faculty members in our college are great. They are friendly and quite understanding. They solve the doubts effectively. Their teaching techniques are very impressive. Some teachers sometimes behave rudely. The only thing they need to correct is to start speaking more in English. They speak in Marathi all the time, which every student can't understand.

Other: Our college conducts various activities and events every time. Our college organises the event and fest named Synergy.

I am satisfied with the college in all aspects.

Placements: B.Com has the most number of students in the college. The highest salary

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 18-Aug-2022.

package offered is 1.45 LPA, and the average salary package offered is 1 LPA. The lowest salary package offered is Rs.90,000 per annum. Commerce course offers various jobs in banks or any companies, and even we can do accounting.

Infrastructure: Labs and classrooms are clean. The library is also good enough and big, and there are different departments. The quality of the food served in the canteen is also good and healthy. Sports facilities are better in college. Medical facilities are also available in our college. They help us as fast as possible.

Faculty: Teachers in our college are very helpful. They help us with the queries. They are well-qualified, and some of them have done PhDs in their field. They train students with their ambitions and help them with some guidance about the field they want to do in future.

Other: It is a huge campus, and our college performs various activities.

★★★★★ Placements 4 ★ Infrastructure 5 ★ Faculty & Course Curriculum 5 ★ Crowd & Campus Life 5 ★

It is one of the best colleges in Mumbai. If you join this college, you will have a better future.

Placements: Companies like TCS, Wipro, L&D Infotech, Mahindra and many more visit the college for placements. The minimum academic percentage required to be eligible for placements is 50%. The highest salary offered in our batch may be Rs. 35,000 per month and the average salary offered is Rs. 20,000 per month. If you get admission in this college, you are very lucky.

Infrastructure: The infrastructure of our college is very beautiful. Our college also has a gym, canteen, library, labs and a huge ground where lots of games like cricket, football, etc., are played. In the canteen, lots of tasty food items are available at affordable prices. Our college fee is also very low for category students.

Faculty: In our college, all faculty members are well experienced and friendly to students. Our college has a lab for every subject for practical work. So, students are ready for their future. Our college also conducts lots of co-curricular activities to increase the interest of students in the subject.

Other: Lots of co-curricular activities are conducted in our college like singing, dancing, sports, games, etc.

It is a beautiful campus with good faculty members.

Placements: Almost 75 to 80% of the students got placed from college. The highest salary package offered was 4.2 LPA for marketing students, and the lowest salary package offered was 2.8 LPA. Top recruiting companies of our college were HDFC, Flipkart, Amazon, etc. Top role offered was as a manager. Almost everyone got internships in good firms.

Infrastructure: The infrastructure of the college was good, with many trees, and they provided good facilities. Wi-Fi was provided only in the computer lab. The library was good with the availability of interesting books. Classrooms were average. All types of sports, such as cricket, football, etc., were available.

Faculty: Teachers in our college were helpful and good. Some of them were PhD holders and graduated from top international universities. Teaching quality was good, and they were helpful even after working hours. The course curriculum was relevant, and it makes students industry-ready.

 Placements 5  Infrastructure 5  Faculty & Course Curriculum 5  Crowd & Campus Life 5 

I am satisfied with always good placements and good infrastructure and facilities.

Placements: Almost 60% of students were placed from B.Sc in IT course. The highest salary package offered for freshers is 5 LPA, the lowest salary package offered was 2.4 LPA and the average salary package offered was 3.5 LPA. Wipro, Capgemini, XLNC, etc., companies recruit students, and campus interviews are also conducted every year. The top role offered to the students was a developer. Almost 60% of the students got placed on the college campus.

Infrastructure: The infrastructure of our college is good. Our college provides free Wi-Fi, but it is restricted for some websites. However, it is useful for normal browsing. Canteen food is not that bad, but according to its rate, it is the best. Quality is also best. The cafeteria is also huge. For sportspersons, there is a gymkhana where they can play indoor games, and also there is a huge ground for outdoor games.

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 18-Aug-2022.

Faculty: Teachers in our college were very helpful. The IT department HOD Mr Arvind Khadye sir is always helped students at any time and situation, and he always motivates us. All study materials, including practicals and extracurricular activities, are good and help students mostly in terms of gaining hands-on experience. Apart from theoretical knowledge, it also gives practical, which makes students industry-ready.

Other: I have chosen this course because I want to make my future in the IT field, and I like to do programming. If college faculty members can provide extra activities for programming like festivals and competitions, then students will more excitingly participate and know about basic programs.

It is one of the best colleges.

Placements: More than 40% of students got placed in my course. The highest package offered is 6 LPA, the lowest package is 3 LPA, and the average package is 4.5 LPA. Recruiting companies are WhitehatJr., PurpleTutor, Crisil, Kotak Securities, WallStreet Forex, etc., along with some other prominent companies.

Infrastructure: The department is awesome. It has a small library with 6 classes in the department. AC classrooms are available for guest lectures. The college has a gymkhana along with a big ground. An auditorium is available for intercollege events. The canteen and food were decent. My experience has been awesome.

Faculty: The teachers were helpful. The course curriculum was extremely relevant. It feels like what I have studied is what I am using in the corporate world. On a scale of 1 to 10, the difficulty of semester exams is 7. Prof. Shashank Pai and Prof. Shruti Karande are among the best faculty.

Other: Intercollege events are conducted every year, like Synergy and Colloquium.

The college is quite good, but placements for BMS 2022 students are

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 18-Aug-2022.

disappointing.

Placements: In our college for the BMS department, 0 companies appeared for campus placement which is so disappointing. There are no placements. I do not know about the BMS department roles. For the IT department, top roles like business analyst and trainee are offered here.

Infrastructure: The library of the college is good. You can find all the books required for your syllabus. IT Lab facility is average. The canteen is the best part as it has a lot of space to chill out with your friends and a variety of things to eat. Sports events organised are top-notch here.

Faculty: Teachers in the BMS Department are well-qualified. Their teaching skills with practical implementation are on point. The course curriculum is not relevant to the current year and scenario, so the syllabus should be updated on industry-level knowledge for real-life preparation. Semester exams are not so difficult.

Other: I have chosen this course due to my interest in the financial field. The best thing about the course is I can relate it to all the knowledge I possess. The syllabus should be upgraded, and it does not give so much relation to the updated knowledge outside it. Fest organised is the best part of college in 2019. When I was at the FY Synergy event, I had a great experience as a marketing consultant. It also conducts extracurricular activities like the debate, which is a plus point in my class.

Satisfied with the course offered by the college.

Placements: Placements offered by Sathaye college are good depending on the company approaching the college. Since due to covid the placements were not offered due to online classes. The lowest package offered by this college is approximately 3 LPA depending on the company.

Infrastructure: Infrastructure is excellent with well maintained and ground provided for sports and other activities. The canteen is also good with quality food. From June 2022 the college is providing ground with cricket turf, volleyball, football and running track. The sports room is also provided with carrom, chess and table tennis.

Faculty: The faculty is excellent with a minimum of 5 years of experience. Visiting faculty are also great from well-known colleges. Faculty are cooperative and ready to help students regarding their academics or future career planning. Semester exams are moderate for regular students. Students have to score at least 35 out of 100 in each subject to pass the semester.

Other: BMS department conducts big excellent events like synergy and colloquium. There are other cultural activities conducted by the college. There is also the Rotaract club of Sathaye college which conducts activities and events.
