**Our college has good teachers, but we need more to cater to needs.**

**Placements:** Maximum eligible students got placed. The salary offered varied from Rs. 20,000 to 40,000 per month. Toshiba and Reliance Petrochemical were the top recruiters for our course. Marketing executive and engineering executive are the top roles offered in our course. The salary package offered in our course varies from 3 LPA to 5.5 LPA.

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

Internships are offered in companies like Indian Oil, Rourkela Steel Plant and Visakhapatnam Steel Plant.

**Infrastructure:** The hostel and library are good, and they are recently renovated. Classrooms are also good, and there are a lot of machines to learn in the tool room and plastic processing department. The testing department also provides a good amount of knowledge regarding the various testing process.

**Faculty:** Faculty members here are good, but we need to have more growth. They are qualified and knowledgeable. The course curriculum is also good but needs to be updated by the university, which is being updated and has started to be at par with industry standards and has begun to show results improvement.

**Other:** As it is a central government institute, a lot of events are organised, and students will attend with the help of college concession in Chennai, Ahmedabad, Mumbai, etc. Our college organises sports and fest in February and March and tech fest in September.

**Good college for future but the problem have to be solved by us.**

**Placements:** Around 80% of students were placed in our course. The highest package of 25000 is given and the lowest of 12000 is given and average of 15000 is given as starting package offered in our course. Many companies came to recruit students. 70% of students got internship in good companies.

**Infrastructure:** Our college provided with good facilities like good labs to every instruments and good qualified teachers to teach us, library provide good books and Wi-Fi is available but the password is not given us till now. I'm a day scholar, so I'm don't know about hostel properly, but the food served in our college is very bad.

**Faculty:** Teachers are very helpful and qualified in their own fields. There teaching quality is very good, we can easily remember and understand their teaching. They are highly educated. Faculty members prepare students with good ways to face problem and solve it in industries. Semester exams were little bit of hard to pass.

**Other:** This course has good future for students and they prepare us how to face problems in industrial places. The best thing about our course is the teachers are very helpful and understanding. The things I would wish for improvement are machine quantity.

### **This campus is good for every aspirant who wants to be a doctor.**

**Placements:** Every year our college offers admission to 250 students in an MBBS course who get selected through the national eligibility cum entrance test. After 5 and a half years, including 1 year of internship, students pass out and get posted at different health care centres like PHC, CHCs and different hospitals.

**Infrastructure:** Our college has a huge academic block with Wi-Fi. Our classes and practicals are conducted in that block and respective departments. It is a hospital campus, so there is a lot of crowds always. There are also canteens in hostels to provide delicious food to us.

**Faculty:** In our college, every teacher is a doctor and professor. Along with their duties, they conduct our classes regularly and attend our practicals. They do not skip any class. The curriculum is most relevant for students. About 10-semester exams and 4 university professional exams are conducted here.

### **There are good faculty members and good placements in 2021.**

**Placements:** About 80% of students were placed from our course. The highest salary offered in our course is Rs. 25,000 per month, and the lowest salary offered is Rs. 12,000 per month. The average salary offered is Rs. 15,000 per month. Many companies visited here to recruit students. About 70% of students got internships in good companies and good posts.

**Infrastructure:** Our college provides good facilities like good labs with every instrument and well-qualified teachers to teach us. The library provides good books, and Wi-Fi is available, but the password is not provided to us until now. I am a day scholar, so I don't know about the hostel properly. However, the food served in our college is very bad. The food served in the canteen is average, and the medical facilities are good.

**Faculty:** Teachers here are very helpful and qualified in their own fields. Their teaching

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

quality is very good, and we can easily remember and understand their teaching. They are highly educated. They prepare students with good ways to face problems and solve them in industries. Semester exams were a little bit hard to pass. The passing percentage is 30%.

**Other:** This course has a good future for students, and they prepare us for how to face problems in industrial places. The best thing about our course is the teachers are very helpful and understanding. I wish that our college should improve the machine quantity. Events are organised every month, and different types of campus activities are organised. Extracurricular activities are conducted in our college.

**It is a decent college to study in.**

**Placements:** Placements have not been good in recent years. Many people did not get selected, and hardly one or two students get selected, which can be considered good. Companies like Tech Mahindra or Apollo visit our college for placements. About 65% of students from our course get placed. The average salary package offered is 3.5 LPA. Our college has expanded its field of study to medical and has opened a multi-speciality hospital. It also offers courses like B.Tech in computer science, electrical, electronics, civil and mechanical. It also provides BCA and nursing courses.

**Infrastructure:** The hostel life is excellent. The water facility and electric facilities are good. Wi-Fi facility is available for students. Medical facilities are provided inside the campus. Sports facilities are quite huge. It provides a badminton court, a gym and a swimming pool.

**Faculty:** Exams are conducted semester wise. Before each semester, we are required to give two internal tests, which are held in 4 months span. Tests are not that hard, and we can score good marks with just classroom studies. The course curriculum is based on basic engineering modules.

**Other:** Our college organises one or two events during one and a half month span. I hope that our college focus on their placement training.

**It has an exceptional campus life.**

**Placements:** Placements here are not good when compared to other colleges. The highest salary package offered varies from 3 LPA - 4 LPA. Some well-known companies like Tech Mahindra and Appolo visit the campus. Somewhere around 45-60% of the students get placed in some companies.

**Infrastructure:** The facilities are decent for this cost. Water facilities and electricity are available for most of the time of the day. The library has quite a number of books from which one can study. The classrooms though have less lighting but are decent enough.

**Faculty:** Teachers in our college are quite helpful with studies and hold some extra classes and doubt clearing classes separately. The staff members are quick with their job and give proper guidance to the students with whatever difficulty they face, on and off-campus. The semester exams difficulty level is moderate.

### Our institution is well-known in the polymer industry.

**Placements:** Our college won't give 100% placements. Academically good students with proper knowledge can get jobs. If you want to get a job, you need to be the best. Else you won't get a chance to join any job.

**Infrastructure:** Infrastructure is good, and the library has books from which students can gain good knowledge. All kinds of sports are played. The canteen is also good for hangout, and the quality food provided is also good. Labs have all types of instruments and chemicals.

**Faculty:** Teachers are helpful, and they provide notes after every lecture. Even I have done a diploma from CIPET, and after that, I am pursuing B.Tech and willing to do M.Tech too from this college, which makes me more knowledgeable in the polymer industry. Faculty members are good, and they help and look for each student.

**Other:** I have chosen this course because this course is quite different from others. It is not like mechanical or electrical, and it has its own study of polymer.

### Good college with good facility, good infrastructure, good placement, so I really love my college.

**Placements:** Student securing 620+ mark in NEET can join in this college. During Internship it give 30000 per month and during DM more than 50k+ package is given according to their department. As it is very old institute it gives good education as well as good package.

**Infrastructure:** All department and campus have availability of Wi-Fi. Every dept has its own good labs. All classroom is AC room and Wi-Fi available. Hostel is also good. Each room can accomodate 3 students. Separate PG and UG hostel. All hostel also have Wi-Fi. Campus have also gym room, a big ground for sports, indoor sport facility, so many canteen is present in hostel campus.

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

**Faculty:** As the college is very old in Odisha all faculty are highly qualified, experienced, friendly. As so many patients come to hospital so practical study can be taught so easily. Exams are not difficult. Pass percent is nearly 96%. Many students secure good rank in various national level entrance exam.

**Other:** From childhood my aim was to a medico. So I choose it. Service to mankind is motto of this course. Every year there are so many annual fest, function occur. So many scholarship is given to the students.

### **Absolutely satisfied with the faculty and good placement in 2020.**

**Placements:** More about 70% of students were placed in our course. The top recruiting companies for our course are ONGC, Vedant, Hindustan zinc ltd. etc. 70% of students got internship from our course and in Vedant and in different mining companies. GSI is the top role offered.

**Infrastructure:** The infrastructure of the college and hostel are very good. There is no Wi-Fi by the way but the classroom and lab are neat and clean and every necessary equipments are present. The quality of food are very good and medical facilities are also good.

**Faculty:** The teachers are very helpful, qualified and knowledgeable. The teaching experience are very good. This course is curriculum relevant and it makes the students industry ready. It's pretty difficult semester exams in our college and pass is 60%.

**Other:** This is the course for the job in mining, remote sensing and other mineralogical industry. Everything is pretty good in this course and nowadays main students are looking into this subject. Events and fest are often occur in our college. Scholarships are also for the merit students.

delloid 3 40% Programming There are many more companies coming every year for our campus selection They provide each and everyone who are selected students a very good package of money .

**Infrastructure:** We have fast Wi-Fi and labs with well-infrastructure. There are clean classrooms. In the hostel, we have good food and clean rooms. It is having many more facilities. Best facilities are provided, and all staffs working here have good behavior. They are well-mannered, and they talk and behave well.

**Faculty:** Teachers in our college are more efficient, qualified and excellent in their jobs. This course curriculum is relevant and makes students industry-ready. Semester exams are so difficult, but our teachers give us the best education. The pass percentage is 30%.

**Other:** I opted for this course because it is based on information and technology It should have certain books to follow for the betterment in the course.

### It is a better choice for students.

**Placements:** About 50% of the students from our course got placed. The fixed salary offered is Rs. 28,000 per year. Top recruiting companies like Wipro and Infosys visit our campus for placements. First division students got selected for the campus placements. You can learn top to bottom of software analysis in this course.

**Infrastructure:** Classrooms are good, and there are also smart classrooms. You can get books from the college library. The hostel facility is not available here. But private hostels are available. You can participate in annual college sports. The food served in the canteen is good.

**Faculty:** Teachers in our college are helpful in every situation. They are well-qualified and knowledgeable. Their teaching quality is good. The course curriculum is relevant, and it makes the students' industry-ready. Semester exams are quite difficult to attempt, but if you are smart, then it is easy for you.

**Other:** I have chosen this course because I want to become a software engineer. If the lab facility gets updated, then our course will be better. Fresher and farewell parties are organised by students.

### **I am dissatisfied because of the faculty members, infrastructure, facilities, etc., in 2020.**

**Placements:** Our college doesn't provide placements as it has only B.Sc. None of the recruitment companies come for our courses. It only graduates. There are no salary packages offered. Even internships are not provided by the college. It is directly affiliated with Utkal University. Here we can do only B.Sc.

**Infrastructure:** Hostel facility is not provided. There is no Wi-Fi. But the classrooms are good and the infrastructure is average. Other facilities are poor like a library and sports. Not only in this college, but most of the colleges lack behind sports and other facilities.

**Faculty:** Studying in this college is good only because of the teachers. As they give us the best learning platform. Exams held are average. It is directly affiliated with Utkal University. The curriculum is good. The pass percentage is 90%.

### **It is greatly appreciative of everything provided to me by this college.**

**Placements:** On average, about 90% of students were placed from our college. The highest salary package offered once was 6 LPA, and the average salary package offered was 2 LPA. Top recruiting companies were Google, IMFA, etc., for our college. About 70% of the students got internships from the course, mostly in IMFA, and some students got in Google. The topmost thing about our course is the peak knowledge gained about the programming world.

**Infrastructure:** Wi-Fi in our college is super helpful and the fastest I could ever get. Laboratories, classrooms and a library are just top-notch in their respective categories. The lifestyle inside the campus, i.e., the food and hostel mess, are fantastic. Along with that, there are the best medical facilities and engaging sports and games time.

**Faculty:** The teachers here are friendly and helpful in all the fields. They are qualified up to masters and PhDs. They are well trained. This course curriculum is out of the box and is way more than enough to make students industry-ready for the future. The semester exams

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

are quite strict and mind-bending.

**Other:** I chose the computer science course because I have an aim to be a master of programming. It is the best thing about this course. This course doesn't need any improvement as it is already the best course available right now. The campus organised various events, including occasional fests. There is plenty of campus crowd and surroundings.

### Review of SCS Autonomous College.

**Placements:** About 70% of the students were placed from our course. Top companies like Wipro, CoCubes, Infosys, etc., recruit students from our course. I do not have sufficient information about how many students got internships in companies from our course. Top roles like teaching and lectureship are offered in our course.

**Infrastructure:** There is a very good atmosphere for study. Good facilities and infrastructure are available for our course or our department like a library, classroom, practical room, lab, etc. There are good quality facilities for the hostel and also for the mess. A healthy type of food is available in hostels and mess. A huge field is also available for sports.

**Faculty:** The teachers here are very helpful, qualified and also knowledgeable. Their teaching quality is excellent, and they also help us in our studies. They solve our doubts very easily, and they behave friendly with us. This course makes students industry-ready.

**Other:** I have a dream to study commerce at my degree level in an autonomous college, so I selected this college.

### The campus life is remarkable.

**Placements:** In the past, placements are good, but in recent times, there the placements are not good. Only one or two companies like Mahindra visit our college for placements. The highest salary package offered is 4 LPA. Most of the students get placements from CSE

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

and ENTC courses. Apart from that, the electrical branch students also get placement.

**Infrastructure:** The fee structure is quite affordable. For medical facilities, our college has its own hospital, so there is no problem. The food served is healthy. A variety of sports are played at our college, but the remarkable thing is that we own a BCCI approved cricket ground.

**Faculty:** Exams are average. The difficulty level was moderate. The course curriculum is like any other engineering college. Teachers are quite helpful. They spend time on doubts clearing and explore a variety of questions. The time teachers spend on the practicals, which makes the student prepared for any task while enhancing their understanding of the topic and concept.

**Other:** Every now and then, our college conducts fest and extracurricular activities. So you can enhance your presenting skills and explore more of your hobbies.

### Review of Rajdhani Degree College, Bhubaneswar.

**Placements:** Our course is a general course, so there are no placements from college. All the students are currently continuing their course, so they are not placed anywhere, but there is a large exposure for higher studies in this line. Many of our seniors got seats for post-graduation in Physics in reputed universities like IIT, Utkal University, BHU etc.

**Infrastructure:** Our faculty members are dedicated and very concerned about our academics. Though our batch faced the bizarre situation of Covid-19, our teachers never neglected us. They took all our classes and completed all the syllabus in online mode. Our college doesn't have any Wi-Fi connectivity, but our classrooms and labs were well-constructed with tile flooring and good ventilation. Our library has a huge collection of books with a very friendly librarian. But in our college, there are no hostel facilities for unreserved students. The hostel facilities are provided only for ST students, which is a drawback of our college.

**Faculty:** All our teachers are highly qualified. Most of the teachers are PhD holders and completed their education from reputed universities. They teach us completely relevant topics in class which are very helpful in exams. As our question papers are set by the university, the exams are moderate. The pass percentage is 90%.

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

**Other:** I was highly interested in Physics from my intermediate time, that's why I took admission in this college. The best thing is that by studying Physics, I am able to understand the universe better. As our college is a government college government gives us a scholarship of 5,000 per year during the course.

**It is a good experience to study in this college. It is the best professional college in Odisha.**

**Placements:** Almost 70% of the students got placements in our college. Top recruiting companies of our college are TCS, IBM, Wipro, Infosys, Capgemini, Cognizant, etc. Roles offered in our course are data analyser, data testing, data science, front-end and back-end developer, software designer and software developer.

**Infrastructure:** Better hostel and canteen facilities are available here. Books are issued per semester, and all subject books are issued according to the syllabus. Issued books are noted on the library card. Annual sports and functions are held on time. Medical and casualty facilities are also available here.

**Faculty:** Teachers are highly qualified and have better teaching ability to teach students in how they get understand properly. Faculty members do their hard for making students career brighter and prepare them for better campus placements. Semester exams are not difficult because the schedule is operated by Utkal University.

**Other:** I have chosen this course because BCA is a better professional course nowadays. To know about the current situation in technical status we have to study it first. So BCA is better than others. The campus was placed in a very silent and peaceful environment. It is better for studying.

**The education and infrastructure is upto the mark, the placement facilities can be improved.**

**Placements:** About 50% of the students get the placement depending upon their abilities. The highest salary is about 5-6 Lacs per annum, an average of 3-4 Lacs per annum and the lowest can be 2-3 Lacs per annum. If you have better knowledge of coding and data handling then the package may increase.

**Infrastructure:** The infrastructure is up to the mark having lifts and AC labs and a Library. The classrooms are sufficient and having respective departments for each subject. The college also provides Wi-Fi whose speed depends upon your location. The hostel has sufficient rooms with 2-3 individuals in one room. The hostel food is also of good quality and is provided on time.

**Faculty:** The teachers are highly qualified and are knowledgeable. They clear your doubts on time and give you extra classes if you ask for. The course is also better and the exams are of medium level such that a weak student can pass and a capable student can score good.

**Other:** The college also provides scholarship for meritorious students.

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.
