Law college is a lot more than studying law.

Placements: They were good though it was a tough call to sit for placements because many got ppo in the 4th year itself the highest package went up to 16lacs/pa this year. Many firms and banks had come. It was a good exposure to the Law students who were going to

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

be lawyers soon.

Infrastructure: The campus is huge, like really huge with ample of greenery and there is a peaceful atmosphere with cool breeze blowing which is situated in the very centre of Pune city. There is a gym which is okayish a swimming pool which is well maintained and the classrooms are old fashioned but overall it is good. We have an amazing library with around more than 45000 books.

Faculty: The course and curriculum cannot be an area of commenting because the college is affiliated to the Savitribai Phule Pune University, so the course subjects topics everything is supposed to be followed under the guidelines of the sppu. The faculty is good and reliable and experienced.

It is very satisfying to study here. There is a friendly environment.

Placements: Placements are very good here, and most of the companies visit here. Most of the students get selected, and all MNCs like TCS, Infosys, etc., visit here. Most of the students get selected for internships. Extracurricular activities are also conducted in this college, and it is a very good college.

Infrastructure: There is a very good infrastructure, a very friendly environment and a very good nature. The entire college is planted with trees, and there is greenery everywhere. Our college has huge parking for all students and faculty members. Our college also has a huge library which contains all the technical related books.

Faculty: All the exams are conducted properly and strictly by following all the orders. Along with that, the language courses such as Japanese and German are also taught in this college. Our college has a separate area for extracurricular activities, and students go there and learn.

Other: It is a very good campus with a friendly environment.

It is one of the best colleges in the country.

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

Placements: ILS Law College facilitates the students with a placement cell and an internship cell, through which students can procure placements and internships if they choose to do so. The salary packages range from about 4 LPA to 15 LPA. About 60-70% of the students get internships.

Infrastructure: The campus is spread over the area of 200 acres. The infrastructure is a bit old but is also well-maintained. Classrooms are equipped with E-learning facilities. The campus is enabled with Wi-Fi. The library is the largest law library in Asia. The hostel building is old and superb, and there is water damage in some rooms. Mess and canteen are also available, but the quality of the food served is of below-average. The sports facilities are available for cricket, football, volleyball, swimming, basketball and many more sports.

Faculty: Faculty members at ILS are very good, highly knowledgeable and qualified. They also stop after the lecture is over if even one of the students has any doubt. They help students whenever they need any help. The college is affiliated with SPPU and follows the pattern which was designed by them.

★★★★★ Placements 3 ★ Infrastructure 4 ★ Faculty & Course Curriculum 5 ★ Crowd & Campus Life 5 ★

The hostel is average, but overall education is good.

Placements: Almost 40 to 50% of the students got placed in the course. The highest salary offered was Rs. 55,000 per month, the lowest salary offered was Rs. 25,000 per month, the average salary offered was Rs. 35,000 per month student. Almost 10-15% of students got an internship into a recognised company.

Infrastructure: The college provides good facilities to students in their course for their better understanding. Classrooms are well-equipped with projector, podium, etc., for students. Even there is a Wi-Fi facility available on the campus for students. The library is also well-structured and equipped with all kinds of reference books for the students. There is no kind of facility available in the hostel. The infrastructure of the hostel and food served in the mess is poor. There are no medical facilities for students staying at the hostel. Even the hostel students are not allowed to play sports and games in the hostel premises. The ground is hired for some other people.

Faculty: Teachers at ILS Law College are the best. They have immense knowledge and experience in every field of law. If any students are facing any problem, the mentor-mentee system is available for the students by the professors. Many professors are PhD holders of

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

studies. The 2017 pattern course is a little not relevant. There is no reference material available for the students, but the professors at the college make sure that students understand the concept clearly.

★★★★★ Placements 5 ★ Infrastructure 5 ★ Faculty & Course Curriculum 3 ★ Crowd & Campus Life 4 ★

The college provided excellent placements in the year 2019.

Placements: Almost 90% of the students from our course got placed. The highest salary package offered is 38 LPA, and the average salary package offered is 8 LPA, and the lowest salary package offered is 4 LPA. Many students from our course got an internship, and many students also get PPO. Top recruiting companies like Phonepe, Capgemini, Deutsche Bank, Siemens, LTI, TCS, UBS, Credit Suisse and eQ Technologic visit our college for placements.

Infrastructure: The infrastructure of our college is good. Library facilities are good. The hostel is very good. The college mess is hygienic. In the hostel, there are good warden and a good mess. The campus is small but beautiful. Reading hall is huge, and the charging points are also available. Wi-Fi facility is available in both college and hostels.

Faculty: Faculty members in our college are helpful. They provide theoretical knowledge. The course curriculum is relevant, and it does make students industry-ready. Many teachers are PhD holders. Teachers are very helpful. They provide guidance. Staff members are also good.

Other: I have chosen this course because this is the best college for computer engineering course. Technical activities conducted at our college are good.

It is one of the good colleges, but it can be better.

Placements: If you are best then definitely you can get placed in a good company. The college provides placements, and if you are the best, then you will get placed. The average salary package offered is 3 LPA. But not all the students get placed here. Students who have good knowledge in technical skills can get placed here.

Infrastructure: The infrastructure of our college is average. The hostel facility is average.

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

Our college provides workshops, playgrounds, and well-managed classrooms. There is a library with many important books which will definitely help you to study.

Faculty: Faculty members in our college are good and helpful. The study and notes provided by teachers are good and easy to understand, and all the points are covered in that. Exams are held very smoothly. If we get difficulties, then faculty members will definitely understand you and help you if the reason is genuine. Teachers also provide notes for various subjects.

Other: I have chosen this course to gain technical knowledge about this subject as it is much important in today's generation. The best thing about our course is I have developed myself. I become a good programmer and a good personality. I think the college should improve more in extracurricular activities, but as it is a COVID time, so the college is ignoring this.

Good infrastructure and faculty members are also good.

Placements: The placements are really good. All the branches are getting equally placed and many top companies are recruiting students from college. For computer and IT nearly all get placed in good company with good package and also many students getting internships.

Infrastructure: There is a big library and also well-equipped labs. All types of books are available and also, there is a very good Wi-Fi connection. The classrooms are in good condition. There is a good medical facility available and also, many sports are available in college.

Faculty: Teachers are really helpful and the quality of teaching is good. Students also get industrial knowledge and they get full support and guidance from teaches as well as faculty members. Semester exams are moderate. The teachers are highly qualified with Masters and Ph.D.

Good placements in 2019 and 2021.

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

Placements: College is excellent for campus placements. The highest placement this year was 12.5 LPA. Average placement was 7 LPA. The highest placement was offered by B.M.C. company. CS and IT branch placements are excellent. There are a lot of internship opportunities. Many students got placed in companies like paytm money, Amdocs, Deolite, Veritas, etc.

Infrastructure: College is equipped with full Wi-Fi facilities. Library of college is big and reading hall is equipped with AC's and it opened for 16 hrs a day. Classrooms are neat and clean and faculty members are best. There is no hostel facility in college so you have to make arrangements outside the campus.

Faculty: Faculty members are superb and highly qualified. Teachers give their best in teaching and best support to their students. The courses and thr subject offered are relevant. Exams are little bit stuff as compared to University as it is an autonomous college.

★★★★★ Placements 4 ★ Infrastructure 4 ★ Faculty & Course Curriculum 4 ★ Crowd & Campus Life 4 ★

All the cultural events are good.

Placements: About 90% of students are placed in average every year. The highest package was 30 lacs per annum, the lowest package was 5 lacs per annum and average package is 10 lacs per annum was offered. Duetsche Bank, persistent, cisco, etc. About 79% students got internships in our course. Technical, Software developer, Software designer, campus ambassador, financial domain, editorial domain, designing domain, etc. roles were offered.

Infrastructure: There is every facility available within the campus itself such as canteen, hostel, wi-fi, library, ground, basketball club, indoor games, etc. Within library all the study material is available as well as novels and other good books. Canteen has the best food for everyone. Most of the major sports such as badminton, cricket, basketball, football, hockey, marathon and indoor games such as carrom, table tennis, etc. Are being played. Wi-Fi speed is average and such that we can carry our respective work easily. The medical facilities are also good.

Faculty: Every teacher/professor in our college are well qualified and are very knowledgeable. The teaching quality is very great and they are friendly also. The curriculum is totally relevant and they make students prepare for everything. The semester exams are above average difficult because it makes students more aware about the exams and the

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

pass percentage is 35%.

Other: Currently I am pursuing computer engineering course the best things about Mike Ross are the syllabus like it teaches the data structures and Java python and C+. So it make the students aware of nearly everything and make them the better programmer as well and ready for the further challenges. More information and details about the particular subject would be the improvement I'd like to see within my syllabus. There are a lot of events in Vishwakarma institute of information technology are the events such as aavishkar Karadank and many events and fests are conducted every year. The campus life is great as well as the surroundings are there are many opportunities for the scholarship as well as extra curricular activities such as games and sports and many more.

College has experienced and high educated faculty members. All necessary facilities.

Placements: Placements are good for our college. Around 85% - 90% students get placed. Faculty members take serious efforts to bring some of the most prestigious companies depending on course. Faculty members provide knowledge about every thing you need to know by arranging many internships and programs.

Infrastructure: Our college has huge infrastructure. Also they provide a well lit library which contains almost every study material that you need. Hostels here are also very good and you get every facility at the hostels, hostels are most important part because around 50% students come from outside Pune. The college concentrates less towards sports. Other than that it provides students with all the facilities they basically need. Labs are very well maintained and have all instruments and materials.

Faculty: Faculty members are highly qualified and are really helpful. Teaching level of faculty members is very high, they try to provide individual attention to students. Also they are always ready to help students with their problems. Level of exam is a bit high which pushes students to study more. Semester exams are not very tough, they have moderate difficulty. They provide practical knowledge by arranging internships, site inspection, etc.

Other: Other than the academics our college arranges many seminars. It also has various clubs in which everyone can actively participate. Really amazing college.

Absolutely satisfied with the faculty members, training and placements.

Placements: Placements are very good in the college. In recent times the highest package of 43 lacs per annum was grabbed by a girl from CS dept. in Microsoft company. Also another one was of 41 lacs to a girl from CS dept. in Adobe company. Also the other department are also working well in placement. The average package is about 4-5 LPA.

Infrastructure: All the infrastructure in the campus is very impressive. Nothing is compromised in the infrastructure. The only lack is about a playground and a canteen eventually we will get a canteen in the new building. Labs are well-equipped and advanced in all terms.

Faculty: All the faculty members are free and very supportive. They will help you in every manner they can. All the staff are well qualified and very well trained for everything. Many professors are Ph.D. holders. And also a teacher guardian is appointed behind every 25 students to whom you can share all your problems official or unofficial.

Delighted and feel Optimistic, Good Placements, Great faculty and infrastructure and facilities.

Placements: The students are placed based on their academic and curriculum performance. The average package is between 3 to 5 Lacs. The top is well known recruiting companies are Nvidia, TCS, Infosys, Wipro, Cognizant, ZenSar, Capgemini, Persistent, HDFC Bank, Webwing Technologies, LTI. The students got internships with hands-on experience based on their interests.

Infrastructure: The department provides and has established more than 10 labs such as Power Electronics Lab, Electronics Design Lab, Optical and Microwave Lab, VLSI Lab, Digital Electronics Lab, Electronics and Mechatronics Lab, Microprocessor and Microcontroller Lab. The classroom is well designed and developed having fans and light with a smartboard. College also provides Wi-Fi for students. The Library is big with 2-storey and always open

Inspite of pandemics, our college placed students in TCS and Infosys .

Placements: Our college provides the best placements for BE students. The coding club almost places every student in the club. The staff is experienced and they help students a lot to achieve their aim to get placed in their dream company. The coding classes are excellent, and every student can code their own program.

Infrastructure: Wi-Fi facility for hostel and campus is too good. There is a good network to watch recorded lectures for those who miss it. The LMS (learning management system) is best for those who are unable to attend lectures due to any issue. There is every lecture available for students who missed it, even practical.

Faculty: Teachers are masters in their subjects. All the professors are Ph.D. holders. One can proudly say that he got placed in respective company with help of teachers. Training and placement session help students a lot to counter the tricky questions asked in the interview by interviewer.

Other: I opted for this course because computer engineering has the top college placement rankings followed by civil and mechanical. It is quite strange but true.
