**Our college is good if you want to study and wants knowledge, but the management is not up to mark.**

**Placements:** In terms of placements, our college is not good. Previously, many reputed companies like L&T visited our college for placements. But now due to huge competition in the civil field, only small companies are visiting and offering a salary package of merely around 2 LPA. So our college is not good in terms of campus placement selection.

**Infrastructure:** Our campus is very good and has a good study environment. Our college has a lush green building, which has proper lighting and ventilation. Our college has a well-equipped library with all needed books, refreshers and also Wi-Fi facility. The library has a good study environment with all facilities and proper cleanliness.

**Faculty:** All faculty members here are qualified and experienced as most of them are retired JEN, Ex- Ens. They have a teaching experience of more than 10 years and share their job experience in the civil branch. There are also good faculty members in the electrical branch in most important subjects like TOS, DCS. For the civil branch, the teachers are the best.

**Other:** I have chosen the civil engineering course because I have an interest in this branch. Most of our family members are associated with this civil engineering, so I have got that environment where I developed my interest in this subject from my childhood.

## **Our college is the best, and there is a student-friendly environment on campus.**

**Placements:** Placements in our college are not good. Only a few students got campus placements this year with low salary packages. Neither any top companies like L&T take any interest in our college. But most of the students have cleared mostly competitive government exams.

**Infrastructure:** Our college is best known for its civil and mechanical engineering courses. The civil course is best and known all over Jaipur. The college building is well-designed and has proper lighting and ventilation across it. The classrooms are designed perfectly. The college has a brilliant and reader-friendly book library. The canteen of our college is not good, but the mess is good and it serves delicious meals. Hostel of our college is good and has all types of air-conditioned and non-air-conditioned rooms as per student's demand. College conducts sports fest for a week every year. Medical facilities are good because there is a hospital in a range of 200 metres from college.

**Faculty:** All the teachers in our college are well qualified, and most of them have teaching experience of more than 10 years and are retired from various government and high post private sector companies. So they also share their job experience with students to prepare them for good posts in engineering services.

**Other:** I have chosen civil engineering course because I have much interest and curiosity in construction. I want to know how the buildings and bridges are constructed.

## **It is the best college for civil engineering.**

**Placements:** About 80% of the students from our course got placements. The highest salary offered is Rs. 40,000 per month, while the average salary offered varies from Rs. 20,000-25,000 per month. The lowest salary offered is Rs. 15,000 per month. L&T is the top recruiter for our course, and HTML jobs are the top roles offered in our course. Almost 100% of the students got internships of six months to one-year duration. Kautilya college was established in 2000, and in the starting year, it provided the best results in Rajasthan Technical University and became number one college in Rajasthan for civil engineering. This college is in first position for civil engineering under Rajasthan Technical University.

**Infrastructure:** Our college has the best infrastructure and well facilities. Lab and library all

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

are well-structured, and Wi-Fi facilities are available for 24x7 in the college and hostel. The internet lab also has high-speed Wi-Fi facilities, so students can search and know about their fields. Hostel services are also very well, and a scheduled plan is followed in the hostel. The environment of the hostel is also well. The mess serves good quality food as homemade quality food never competes with it.

**Faculty:** Our college has skilled and experienced faculty members. They all are related to the technical field and are experienced and seniors. Many of them are retired officers from higher posts such as engineer and chief engineer. They provide the best academic and field knowledge, and they share their work experience, which is really helpful to us in our career.

**Other:** I chose engineering course because I always attracted toward innovation and new technology. In this course, I chose civil engineering, which is related to the infrastructure, and we innovate a unique and safe structure to stay. If our college provides practical knowledge of the site and practical experience, then our course will be surely improved. Site visits provide experience and help to know about the site. Our college organises sports events and tech fest every year, which help students to reset and refresh their mind. Sports make students fit and healthy. Our college provides scholarships for students who have a good percentage. Our college supports students who have poor economic conditions economically. Activities, extra workshops, software classes and conference are also conducted by our college at every interval of time.

### The college has good infrastructure.

**Placements:** Placements in our college are well done. The salary package offered is also good for the students due to the best faculty members. Core companies like CAE visit our campus for placements.

**Infrastructure:** The college has the best labs available for the course. Classrooms are comfortable as per students. The college provides good facilities such as a hostel, quality of food, sports and games. There is an event organised every year in the last month of semester.

**Faculty:** Teachers of our college are well-qualified, helpful and always try to give their knowledge. Teachers are qualified with M.Tech and PhD. Teaching quality is good. The institute is very helpful to make the students industry-ready. Lab teachers are good, and

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

they take good lab classes.

**Other:** I chose this course because of my interest in construction work and tried to construct a unique structure in my life. Practical knowledge should be given to the students, so there is excitement for learning. Nowadays, there is no crowd in this course. Fest is organised in the college every semester.

**KITE is one of the best colleges in this region. About 80% of the students got placed.**

**Placements:** Almost 70% of the students from our course got placed. The highest salary package offered is 8.5 LPA, and the average salary package offered is 5.6 LPA, and the lowest salary package offered is 3.5 LPA. Top recruiting companies like L&T, Pinnacle, Simplex, GRIL, Continental Construction Corporation Limited, etc., visit our campus for placements. About 80% of the students from our course got an internship in companies like Simplex, L&T, Continental Construction Corporation Limited, etc. Top roles, like design engineer, site engineer, structural engineer, water engineer, estimator, etc., are offered to the students.

**Infrastructure:** Our campus provides all kinds of facilities like all laboratories and Wi-Fi facility on the full campus. There is a library in our department and campus also. High tech and modern classrooms are available with all the required facilities. Rooms are equipped with LAN and Wi-Fi facility. Quality of the food served is good. Ambulance and medical facilities are provided for students. Sports meet is conducted every year, and inter-department matches are also conducted here. Indoor and outdoor games facilities are available in the hostels.

**Faculty:** Teachers in our college are helpful, qualified and knowledgeable. Our college only recruits IIT and PhD faculty members. They provide faithful knowledge. The course curriculum is relevant, and it makes students industry-ready. Our syllabus is based on RTU and exams are conducted by RTU.

**Other:** I have chosen this course because it covers so many job roles, sectors and skills, and it provides a creative career. This course can take you around the world. It shows the tangible world to you. It provides the best platform and resources to work with. The things I wish would improve about our course are that the internship period should be extended for 6

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

months instead of 3 months for every year of students to enhance their practical knowledge as well. The annual festival organised at our college was a perfect platform for the students to showcase their vivid talents. Our college organises event named Amalgam with different cultural activities, fun and frolic. All the events are conducted to encourage the student's skills, talent and confidence. Our college provides scholarship to the students.

### **It has all helpful teachers, well-updated laboratories and good placement opportunities if you want.**

**Placements:** From our college, approximately 60% of the students get placed from every passed out batch from the civil branch. If we consider the overall branch placement information, the placement rate increased to 75%, while the other 25% of the students opt for the government sector. Some others opt for the fields as per their interest. The highest salary package offered is 3.5 LPA, and the lowest salary package offered is 2.1 LPA. Major companies which visit here for placements are related to the civil branch, and they are L&T, Tata, GRIL, etc. In our course, surveying, soil and design roles are offered.

**Infrastructure:** Labs of our college are famous in Jaipur. They are approved by NABL and have all the civil branch laboratory equipment which is most required to understand the theory of the syllabus. All labs have Wi-Fi facility and are up to date and also have many unique features. I am a day scholar, so I don't know much about the hostel. However, according to my hostel friends, they provide best services in the hostel, along with Wi-Fi facility, sports, gym and other requirements.

**Faculty:** All the teachers here are well qualified, and some of them are also retired from PWD, JDA, NAHI, CPWD, L&T and other sectors, so they are more helpful and related to civil branch. This college makes every student ready for the industry because it focuses more on laboratory things and practice of practical course.

**Other:** I have chosen civil engineering because my family members are from a civil background. I chose this college because of its faculty members and laboratory practices.

It is a good college for civil engineering, and all the lab facilities are available here. ★★★★★

**Placements:** Placements for students are very good in our college. The highest salary package offered is 4 LPA. The civil engineering branch has high internships, and placements are also high for the civil branch compared to other branches. Many companies visit our college and provide jobs in their companies.

**Infrastructure:** Facilities and infrastructure of our college are very good, and all the facilities are available in our college hostel. The quality of the food served is good, and mess, canteen, medical facilities and sports ground are available. Many sports programs are organised in our college.

**Faculty:** Teachers here are very good, helpful and have a good nature. They have a better knowledge of their subject, and they all are experienced with more than 5 years. They all are much better. It is a 4 years course, and the course curriculum makes students industry-ready.

**It is the best college for civil engineering course as it has best-trained teachers in this course.**

**Placements:** Our college is known for its civil courses. Many top companies like L&T and many companies visit our college and interested students from our college. But now onwards due to lack of interest of students in civil courses companies are not visiting our campus for placements. This year only 5 students got placement in our college out of around 160 civil students.

**Infrastructure:** The hostel of our college is good. The food served to the students is not of good quality, but it has varieties. The hostel rooms are good with enough space and all essential facilities. The college provides good quality of computer labs. Canteen of college is always locked. The building of our college is well designed and have appropriate lighting and ventilation.

**Faculty:** The college provides good qualities of teachers but only in the civil department for which our college is known for. Other branches like CS, mechanical and ECE have less and average teachers. The strength of the students in these branches is very less that is around 20 students. Our college has the best teachers in the civil department. They are well qualifies, and most of them are retired engineers.

**Other:** I have chosen civil engineering because in this course there are good job vacancies among all engineering courses in the government sector.

**My college is best in civil engineering as compare to other college.**

**Placements:** Placement in college are good as compares to other college and they provide a good environment for placement. The 75% of student's are getting job last year which is a good sign of education. My college is good in civil engineering and provide a good civil engineering with complete knowledge. The maximum salary offered is 6 to 7 Lacs and the lowest is 2.3 Lacs per annum. The students get field jobs more as compare to office jobs.

**Infrastructure:** Infrastructure is very good and My college is very big on size. There is a separate building for labs. There is almost all the labs are present. Other facilities like Wi-Fi, labs, library, medical sports and games are also present. Sports events are held every year. In my college a big canteen is also available in which all food items are available at affordable prices. Hostel rooms are big and windy.

**Faculty:** The teachers are very helpful and well qualified. All the teachers are doing M.Tech. From reputed colleges and many Prof. are Ph.D. holders also. The teaching method is modern and techno friendly. No I did not get any industry exposure till yet but soon we will go to a industry for skill development.

**Other:** My college stand at 7 position in Rajasthan amongst all the private engineering colleges of Rajasthan.

## A good college for civil engineering and for good future.

**Placements:** The placements in our college are very good compared to other colleges. They provide a very good environment for placements. This college provides a very good environment for personality development. Last year, about 75% of the students got a job. The maximum salary offered is 5-6 LPA, and the lowest salary offered is 2 LPA. According to my opinion, Kautilya College is the best in civil engineering in Rajasthan. Students can get the best job in civil engineering at this college.

**Infrastructure:** The infrastructure of our college is very nice, and it is huge. My college has separate buildings for labs which provide a good atmosphere. Other facilities like Wi-Fi, games, sports block, library, labs are also present in our college. Every year, my college organises sports and other events. My college has a big canteen in which every food item is available. My college has a big hostel.

**Faculty:** The teachers are very good, helpful and well qualified. My faculty is very good, and they have done M.Tech from reputed colleges. The teaching methods are very nice. My college faculty gives their best in education. I didn't get any industry exposure till now. Soon, we will go to industry for skill development.

**Other:** My college stands at 7th position in Rajasthan amongst all the private engineering colleges in Rajasthan.

### Absolutely dissatisfied. Main reason is faculty members and placements.

**Placements:** There no placement in this college. I just hate this college so much. I want to inform everyone please do not waste your career by taking this college for graduation. The worst college of Rajasthan. No recotd for the placement. Hostel is very poor. Food in this hostel is also very poor to eat. No one CAT eatthe floor of kautilya hostel. Don't waste your time in kautilya institute by taking admission into it. Please go for better colleges than kautilya institute. Its just \*\*\* college. No facilities for the students. And faculty members are also from very poor knowledge of workand teaching.

**Infrastructure:** Infrastructure is just normal not so good classroom. Condition is normal. There is lab and other auditorium which quite smaller than the classroom for just max 50 tp 60 students can sit there. And hostel infrastructure is also verypoor bathrooms and rooms are very poor and the only good thing in this college is infrastructure of the lab of civil engineering and there is a basketball ground in the middle of the college and there is a

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

ground for cricket and volleyball and there is a mess which is in poor condition related to food and facilities.

**Faculty:** Faculty members of this college is very poor. However some of them are good about tier knowledge and work experience about the teaching and some are just graduated teacher they don't know how to handle the class and how to teach. And lack of knowledge and course is although average and but covered not many subjects but course is average.

**Other:** Campus has no placement for the students they make the students fool for the placement and fest is conducted by the students every year. State government scholarship can be available for the students and in extra curricular activities including fest and sports games for the students.

### Review of KITE - Kautilya Institute of Technology and Engineering.

**Placements:** Our college had provided good placement opportunities. They had invited companies for all the branches, but they mainly focused on the civil branch. High-level civil companies were attached to this college. Because the college was famous for civil engineering. Passed out students also got placed in good companies with high salary packages.

**Infrastructure:** The infrastructure of the college was good. All facilities were placed systematically. Hostel facilities were also good, and it was situated within the campus. All the machines in the labs were in working condition. Classrooms were spacious with a good seating arrangement. Classrooms were equipped with the digital boards and power point presentation screens.

**Faculty:** Faculty members here were good and highly qualified. Expert lecturers were available. Faculty members were hard working. Their basic standard like body language and skill language are excellent and have a positive attitude.

**Other:** The college and the college management was good.

**Dissatisfied with the placements, but happy with faculty and infrastructure.**

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

**Placements:** The number of placements from the college isn't even that high. The placements for our senior batch was good many of them got selected and got a good salary of about Rs 15,000 - 20,000 per month. The minimum required percent for the sitting in the placement is 65% which is quite a good thing and finally its quite a useful thing for the new generation engineers.

**Infrastructure:** The infrastructure of the college is quite good with the labs, classes, library all are amazing. Obviously, it is known as the best college for civil engineering in all Rajasthan for a reason, but yeh the college lags behind in the quality of food in the canteen which isn't that good, The hostel rooms are quite good for a good healthy stay in the hostel.

**Faculty:** Mostly, the teachers in the college are helpful. They are not offended when we ask something to them. The teaching quality of the teachers is also good, and teaching is done with both normal classes as well as smart classes which helps in a lot of ways. We do get quite a bit of industry exposure as well as visits often arranged for the better understanding of the industries.

**Other:** Events in the colleges are not much, to be honest. The students don't have much of interest in it because of the poor arrangement made by the college. The college is good for the extracurricular activities in the campus.

**Overall, the college is well-reputed but need some changes to make college days more interesting.**

**Placements:** There is a spacious training and placement cell for the placement of final year students. The college management also offers the internship in reputed organizations like Jaipur Development Authority (JDA). The internship is provided on the merit basis. The placement in civil engineering branch is appreciating. Core companies recruit most of the students every year, and the college management co-operates with the students as well as companies. Regular workshops and seminars regarding placements are conducted in the college.

**Infrastructure:** The college has well-equipped laboratories and testing lab for each department. The laboratories for civil engineering are of high standard and the best in Jaipur city. All the expensive testing instruments and machines are available in the college laboratory. The college contains hydraulics lab, road materials testing lab, surveying lab, geotechnical lab, and many more. There is a well-equipped library with many journals, almost

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

every standard book, e-library, etc., is accessible in the college. Clean and hygienic canteen and separate hostel for juniors and seniors with all facilities are available on the campus. The college has the separate sports team and playing grounds for different sports.

**Faculty:** The college strictly follows the AICTE norms and syllabus. The curriculum is according to Rajasthan Technical University. The minimum qualification for faculty members is M.Tech. All the teachers are highly qualified, and they provide superior guidance to the students. The college regularly organises educational tours, industrial visits, and camps to inhibit industry exposure. Smart classes are also there to provide audio-video lectures.

**Other:** "Enilaze3.0", the national level technical and cultural fest is organised by the college every year. The national and international conference is organised by the different departments every year. Fresher's and farewell parties are also entertained.
