Please do not take admission in this institute and spoil your career.

Placements: No placement is offered through this college. One or two companies visited the campus. None of our batchmates was placed. The teachers always help their favourite students, which is not good. I think the institute should stop offering BCA course.

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

Infrastructure: The infrastructure of our college was good, but it is of no use when there are no good faculty members. The faculty attend the labs, library and classes to pass their time. It is the worst college I have ever seen in my life.

Faculty: The college has the worst faculty. They have to be replaced. Well-educated faculty members should be recruited. Each subject should be given to a particular faculty. Every faculty teaches all the subjects, but none can teach even one subject properly. One of our teachers from the BCA department is the worst teacher.

Other: Nothing is good in this institute. I would suggest students not to take admission in this worst institute. You can even enquire with the passed out students of the institute, their answer will also be the same.

Amrapali Institute Haldwani Review.

Placements: Placements through college is above average. There having 5 branches ME, EEE, ECE, CS IT. ME having very bad placement record other are above average in placement record. Placements cell takes initiative for better placement as much good as possible.

Infrastructure: Infrastructure is fabulous. Good environment protecting by several trees, awesome library, Good Cafeteria that needs the students to refresh. Having Girls & boys hostel facility in college area that is much safe by rules & regulations. Girls feel safe in campus area.

Faculty: Facilities are well trained. They develop students with their knowledge. Faculty members encourages the students & motivates for their future. Different courses provide there best to their students. Lab facilities are good. Focused on practical than of theoretical.

Other: College conducts too many different events and fests for develop students in extracurricular activities. Connectivity with crowd area & Highway for better transportation. Provide scholarship for brilliant students.

Average placement with good learning.

Placements: Average placement in amrapali Institute of technology and sciences. Maximum placements are from computer science and information and technology branch. Some of the companies such as smart data technology, pc technologies etc. comes every year for the placement.

Infrastructure: Amarapali Institute of Technology and sciences have quite good infrastructure. Along with it, all the labs are equipped with all necessary equipment for practical learning. The college has good surrounding with greenery around. College has canteen and hostel within the campus.

Faculty: Amrapali Institute of Technology and sciences has young faculty members with an average experience. The faculty members emphasize on practical learning. The course curriculum is strictly based on Uttarakhand Technical University and similar to all other university affiliated from Uttarakhand Technical University.

I suggest you to study hard and have a good career.

Placements: Placements are good, and almost 20% of students were placed. Students are offered stipends as well. Companies from NCR region and Mohali were visited and offered jobs with average stipends after the successful completion of course along with the internships. Roles like the developer and process engineer were offered.

Infrastructure: Classrooms and different labs were available on the campus. The quality of the classrooms is good, and all the instruments are available in the labs. All the books are provided from the college to the students. The college provides the Wi-Fi facility only in the hostel. The hostel facility was not good, but they provide the food and other facilities.

Faculty: Faculty members are helpful and qualified. The quality of teaching is good. The college is strict regarding attendance and assignments. Teaching methods include different levels of exams along with the internal and external examinations.

Rules, rules and more rules. There isn't any good placement. Only BPOs visit the campus. Every kind of facility is available at college, but in the end it doesn't even matter. All the college cares about is money, nothing else. This is the truth, some of the faculty members don't have any knowledge.

Review of A.I.T.S., Haldwani: mechanical engineering branch.

Placements: There is no placement assistance till now. For seniors and juniors, fake companies come for placements. Also, for some our batchmates got false placements. The placement officer gets a salary worth nothing in that time. There will not be any placement assistance. They could not even arrange the summer training of students.

Infrastructure: It is average. The building is large. Labs are average and below average. Teachers are average. The management is very poor. The management could not take any decision for the betterment of students. They only care about the money. The campus is lush green with plenty of sports to play. The Wi-Fi is very good. You can connect to Wi-Fi even in the farthest corner. The Wi-Fi speed is also very good. Classroom quality is good but they still use chalk instead of using a whiteboard marker.

Faculty: The course syllabus is vast. The faculty members have little knowledge. But some of them are very good. Lab assistants also have little knowledge. Some of them could not know English. The machines are also not in a good condition. Some machines are purchased from scrap. They just paint and install it. Some machines could not even start. If they did start, they did not work properly.

My reviews regarding this college is not good, in terms of training and placement. Faculty members are well educated and experienced. If you are looking at academics, then it is awesome, otherwise it's not. It lacks sports facilities for the day scholars, it is only meant for boarding students. I would suggest you join this college if you only need to study, nothing else.

Rating is strictly not allowed in our college.

Placements: Many companies like Infosys, Collebra, Deolite, etc., visit here with good salary packages. Average salary packages are offered to students here.

Infrastructure: Infrastructure is quite good. I am a day scholar but my friends said that hostel is good and disciplined. Canteen here serves delicious food at affordable price. We also have a stationary shop for files and other materials.

Faculty: Exams are not so difficult. They are quite normal for an hardworking student. Semester exams are here are conducted by the Uttarakhand Technical University.

Other: Our college provides scholarships and organises extracurricular activities and many more.

Our college provides good infrastructure.

Placements: More than 75% of students are get campus placements. TCS, Infosys, and Wipro offer placements. Minimum salary package is 4 LPA. Maximum salary package depends on skills.

Infrastructure: College provides 24x7 Wi-Fi in the hostel. Campus is so clean and student-friendly with well-decorated libraries. All kinds of sports can be played like volleyball, basketball, cricket, football, etc. Students can join as a member of the social media crew.

Faculty: Faculty and management is good and helpful. For good communication between the teachers and students there are social media groups.

Other: Students can take part in many cultural fests, and events. For good students scholarships are provided.
