This college have less student its the main reason for my dissatisfaction.

Placements: In 2014 to 2017 in chemical engineering no company came at campus. None of my senior placed in any company by campus interview. College provide summer vocational training duration of 6 weeks. No internship is provides. In 2016 SBI came in

campus but no placement.

Infrastructure: Whole campus have Wi-Fi even hostel also. Canteen food is average. Library have most of books. Sports week celebrated every year. Only first Aid provide at college. Labs have less equipment. Some equipment work properly. Rest of equipment are only show piece.

Faculty: In chemical engineering all the teacher have master degree or Ph.D. Teaching quality is very good. They use board and smart class method. Every teacher have good experience. There are no industry exposure. All the teacher are helpful. They specially focus weak student.

Other: Scholarship is providing for Sc and ST student. If any General student take good rank in entrance exam than he will get scholarship. Lots of events organisation in campus like annual day, farewell party, engineer day, teachers day etc.

RN College of Engineering and Management provides the best environment for engineering and management students as it has amazing facilities and the placements are very good. The laboratories are well-equipped with latest technology machines. The teachers are highly qualified and experienced. The classrooms are well furnished and the hostel facility is also up to the mark. Overall, it is a good college.

This college is not good. There will not be any practical classes. You will not find any the good teacher for the subjects with the practical knowledge. Most important thing, There is no good student or friendly environment. There is no placement for the students but on the college's website they will show you the 100 % placement tag. So, please be aware. I think it will be waste of money.

Dissatisfied because of the result of B.Tech. Good placements and really good infrastructure.

Placements: The placement of this college is 100%, but not satisfactory. They placed students with the lowest packages this year. All the students were placed from PMKVY course. The college shows that its engineering students were placed this year.

Infrastructure: Infrastructure of this college is good. Campus is fully Wi-Fi enabled. Labs of the college are good. The library containing approx. 100000 books. Special focus is given to sports and games. There is no medical facility in the campus.

Faculty: Faculty of the college is only B.Tech / M.Tech qualified. Faculty members are supportive and motivate the students to achieve their goals. The courses of this college are based on AICTE which are perfect according to the syllabus. Overall, the results of B.Tech course are the worst.

Other: There is no campus crowd. Infrastructure of the college is good. They also held extracurricular activities.

3.6 ★★★★★ Placements 4 ★ Infrastructure 3 ★ Faculty & Course Curriculum 4 ★ Crowd & Campus Life 4 ★

Overall this is a good college in my views for a student who want a better surrounding.

Placements: I got selected as a trainee in sonata software ltd I am in a probationary period of 6 months after that I will be posted as a junior assistant. And I am a lucky person because I have got a job in sonata software. And this company is feeling good and their environment is very good.

Infrastructure: Infrastructure here is good than average libraries are well maintained, also it has smart classes for better learning, there are various play equipment within the college for a stress-free mind. Overall the infrastructure is great here and I will recommend it.

Faculty: The faculty of the college is average but the teachers here are supportive and helpful in need. I liked the teaching method the most through different ideas and concept mostly like correlating with our surroundings. And this college Wi-Fi and smart class also available for students.

Other: Here fest festival was awesome.
