I am satisfied with this college.

Placements: Our college offers roles like digital marketing, finance, human resource and defence. Our college was made by Dada JP Vaswani, and he was a great spiritual man.

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

Infrastructure: Our college provides facilities like Wi-Fi facility, canteen, hostel, E-library and indoor games. The college is good, and students can afford to choose this college because the fees are in the budget. The college focuses on the women empowerment and makes them ready for the career after college. I am satisfied with it. Our college conducts all the activities related to sports, defence, seminars from top personalities. Overall, the facilities in our college are average. The canteen was average.

Faculty: Faculty members in our college are very supportive. I learnt about the value of time. They make students aware of the corporate world. We went for visits like factory visits, and it was basically girls college. They make women ready for the corporate world.

Other: All events and festivals are celebrated at the college. We organise everything by ourself, so that is why they teach students how to manage events.

The college has good infrastructure and facilities.

Placements: Almost 80% of the students got placed in our college. The top roles offered are strategic thinking, finance manager, HR training and development and SEO analyst. The highest salary package offered in our course is 4-5 LPA and the lowest salary package offered is 2 LPA. Almost 100% of the students got internships in CA firms, AAI and ONGC.

Infrastructure: All the infrastructure and facilities are available on the campus like Wi-Fi, labs, classrooms, library and board room. The quality of the facilities in our hostel was mediocre, and the quality of the food available in the mess was very bad. There are no sports and games facilities here.

Faculty: Teachers are very helpful, qualified and knowledgeable. Their teaching quality is also good. The course curriculum is relevant, and it does make the students industry-ready. The college provides many industrial visits to the students so that they get industry exposure.

I am very much satisfied with the faculty members.

Placements: Our senior batch had very good placements. Our batch also had very good

placement opportunities. Companies like Northern Trust, SKP, etc., have visited our college. Different positions were offered in various domains such as HR, finance and marketing. The college provides good placement opportunities.

Infrastructure: The college has very good infrastructure. We have a gym for students to maintain their physical health as well as a sanctuary for mental health. We have smart classrooms with modern facilities. The library has a great collection of books. The campus is very good and has good infrastructure.

Faculty: The college has highly skilled and educated faculty members. They use modern teaching techniques such as PPTs and question-answers. We had many industrial visits to get industry exposure. Teachers are very supportive in assignments and solving our queries. Overall, the college has good faculty members.

Other: An inter-college fest called Rays is conducted every year. The college has many scholarship programmes.

Sadhu Vaswani College, Pune.

Placements: There are good placements. Nobody leaves handy, and everyone gets on the good side. And faculty makes sure that they get placed. The director makes sure that the student gets perfectly placed according to his level. Best companies come over here. Airtel, cognizant, Zensor, Bajaj Finserv, and many more. Highest salary can be anything like 6-7 lacs per annum or more. But, lowest is 2-3 lacs per annum, but not less than this.

Infrastructure: The best infrastructure. Cleanliness is the priority of the college. The college has all the best facilities one could have. Projected classrooms, well-maintained table and chairs, digital library. We are having access to all data, lots of games, etc. There is Wi-Fi access, and it is connected 24*7 in college and labs. There is no problem with the college as it the best.

Faculty: The things are done on time. Teachers make sure that course could be done on time and help them even after the course. The time management and curriculum is best for SVIMS. They make the student study very well. Director at the end makes sure that everything is going on time with the curriculum or not. This is the best I have.

Other: The best in college, studies, spirits, and teachers. Everything is done with the

blessings of Sadhu Vaswani. Canteen, maids, faculty, all are very well accessible and made us study and not leave college even after the college. To be timely, and without any hectic. We live there. That place is our half home. There is no problem at college. Thanks to our guru Sadhu Vaswani ji for this best facility to our growing. The best thing about our college is we pay fewer fees for best study.

My college is good but the student's strength is low, so I don't like that.

Placements: The placement in our college is good for our batch and my seniors too. My seniors are placed in good companies like H&R block, banks and many more companies. There are international placements too. Few students were placed in Dubai as well. Around 75% of the students are placed because many students are already working and some students do not want a job from the college.

Infrastructure: All the classrooms, library and seminar hall are clean, and our campus is cleaned every day. The Wi-Fi facility is not available for students, and sports and games are also not provided because it's a girls college and many students don't like to do any activity. Overall, the college is very clean, and the atmosphere is also good.

Faculty: All our faculty members are very helpful and good. They are qualified and knowledgeable. They help in every manner so that the students understand the concept. All are friendly and see that the students are comfortable with their teaching method.

Great infrastructure but the saddest college ever.

Placements: It is the most pathetic college, the Director has no decision making powers. The placement officer, who lacks communication skills runs the entire college. Do get admitted here if you want your career to go in the dustbin. Enjoy the empty canteen, the college only has good infrastructure. Mental harassment is an added benefit here.

Infrastructure: Wi-Fi works properly Classrooms have AV facilities Library is stocked with good books Computer lab has good internet facilities and language lab Canteen is non-

existent. Washrooms are clean. Mental health goes for a toss here courtesy the placement officer who is an alumni and keeps flashing her innerwear.

Faculty: The college sees at least 4 faculty members leave the college in an academic year, citing "personal" reasons. The truth is that at the end, only the placement officer and the director would remain in the college as they do not deserve any other well-qualified professors.
