I recommend this college for students who only want a degree.

Placements: Only 1% of the students got selected in the campus placements. Only 2 or 3 companies visit the college for campus placements. Only 1 or 2 students get selected. Sometimes no students are selected for the job. Top roles are not provided to the students, but the placement group tries their best for off-campus placements. It provides study

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

materials for off-campus placements in companies like TCS, Wipro and Cognizant or in MNCs. The college is not good for placements.

Infrastructure: The college is huge and very beautiful. It has a huge playground. The library and lab are very good. Classrooms are just average. Wi-Fi facility is not available, but we can use the internet in computer labs. The hostel is good, and the quality of food served is excellent. Medical facilities are also good here.

Faculty: GTU syllabus is very good, but it needs some improvement. The course curriculum does not make students industry-ready. Teachers are not that good except a few. Their teaching quality is below average. The first 2 semesters are very hard, and after that, you can pass the exams easily because we can predict which are the important questions by just looking at the previous year questions papers.

It is a beautiful college with average facilities and below-average faculty members.

Placements: Only 5% of the students get selected in placements. Top recruiting companies do not visit our college for placements. There are a few scopes for placements. Top roles are not offered in the college. Training and placement group tries their best to get your dream job by giving notifications whenever there are vacancies in companies like TCS, Wipro, Cognizant, Accenture and Capgemini.

Infrastructure: The college is beautiful with a beautiful tree and a huge playground. The hostel facility is quite good. The library is also good. There is no free Wi-Fi facility for students, but you can use ethernet. The food served in a mess is very good, and everyone likes it. A new food item is served every day. Labs are good. Medical facilities are also good here.

Faculty: GTU syllabus is very good, and it makes students industry-ready. Teachers in our college are less qualified. Only a few teachers are capable. Their teaching quality is below average. Even the director of the college is not good. He does not do anything for the improvement of the college. You will find it difficult to pass the exams for the first two semesters, and after that, it will be easy.

This college is for those who want to study, enjoy, and invest their time in campus life.

Placements: Around 70% of the students get placed in this college. The lowest salary package offered is 2.4 LPA, and the highest salary package offered is 6.1 LPA. Bosleo, TCS, Tech Mahindra, 1Rivett, etc., are the MNCs that recruit students from our college. Almost 100% of students get internships. Roles offered are as a web developer, software developer, etc.

Infrastructure: Labs, classrooms, air-conditioned buses, hostels, canteens, and many other facilities are provided. Hostels are costly, but the facilities are best such as food, canteen, rooms, sports, games, Wi-Fi and many other facilities are provided to enhance students of the college.

Faculty: Teachers in our college are very helpful and highly qualified. The course curriculum is relevant, and teachers give their best to make students industry-ready. GTU exams are very difficult, but with the help of our teachers, we are always ready to perform our best.

Other: Our college organises Ekatra Techfest which is a national-level event in which students come from different places and enjoy the event at their best. Because these are also the part of college journey, our college always motivates students towards it.

I would not recommend this college if you are looking for a good career.

Placements: Only 5% of the students got selected in placements. No top recruiting companies visit here. There is no scope for placements from college. Students don't get any training from college. I would not recommend this college if you want to get a job.

Infrastructure: Hostel facility is quite good and the library is also good. But free Wi-Fi is not provided. The food served in the mess is very good and everyone likes it. Every day new food item is served. Labs are also good but no teacher is skillful to teach us. Medical facility is good.

Faculty: Teachers in our college are less qualified. They don't have good knowledge about the course which they teach. Only a few teachers are only capable. Teaching quality is

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

below average. Even the director of the college is not good. He doesn't do anything for the improvement of the college.

Other: Many events are held on campus and they are good.

Perfect location of college and all the facilities are very supportive to students.

Placements: According to past history not more than 30% students are getting placement from campus. The students who are placed from campus are actually not getting enough salary. But from the point of internship campus provides at least 80% placement in companies.

Infrastructure: Faculty members are very supportive to the future of students and they always try to give their best to students. LIT has evergreen campus and wonderful scenario. There is also a boys and girls separate hostel facilities are there. Apart from these there is a lack of Wi-Fi in campus.

Faculty: All the teachers are very dominating to the students. Each one is selected by their well developed skills. This college provide best learning atmosphere and facilities plays a vital role here. This college is considered under gtu University of Gujarat.

Other: I choose this course because computer engineering field is evergreen field and recruitment of such engineers are never gonna stop.

The college is impressive with low fee, good placements and highly qualified faculty members.

Placements: Placements in our college are very good. There is no recruitment from many companies. The average salary package offered is 2.5 LPA. The highest salary package offered is 3 LPA in the year 2017. Placements are very regular, and it offers to students at easy.

Infrastructure: The whole college is well-built. There is a separate section for each course with highly qualified faculty members. Labs are well maintained. Hostels are very strict, and

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

there is no ragging. Canteen and mess are very good and hygienic. Faculty explain every topic by performing in the labs.

Faculty: All the faculty members in our college are highly qualified. Majority of them have done their masters in their particular subject which they used to teach. Some teachers are PhD holders, and they have much better explanations tricks. All the faculty members are very helpful even in off lectures.

★★★★★ Placements 3 ★ Infrastructure 4 ★ Faculty & Course Curriculum 5 ★ Crowd & Campus Life 4 ★

Good facilities, very satisfied by the faculties, beautiful campus, very strict rules to be followed

Placements: There are companies which come every year for placements. Also, a project fair is conducted every year in which various companies buy the final year projects if they like them. Interviews are taken of all the students during the placements by the companies that come for the same.

Infrastructure: There are more than 400 computers in the engineering college. Classrooms are big and facilities are appropriate. Also, there are different playgrounds for all the different sports. Sports weeks is conducted every year. There is a college clinic in the campus in case if medical conditions. Also, there are rooms for resting with clean beds and facilities to rest if not well.

Faculty: The faculty members are very friendly and helpful. The teachers try their best to teach every unit of the book before the semester ends. All the practicals are explained in depth. The concepts are cleared from the base. The faculty members make you understand topics until your doubts are cleared regarding the same. The teachers are very kind.

Other: Cultural festivals are conducted every year. Many events take place throughout the year. A national level tech fest Ekatra2k18 took place this year. Various workshops are conducted as well.

The placement is good at Laxmi Institute of Technology for me. The faculty are good.

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

Placements: The placements available in LIT are in many companies. Major companies give placements nearby Vapi for our benefit. I live at Vapi too. The placements of Laxmi Institute of Technology are good. Many companies from places like Vapi, Bhilad, Daman, Silvassa, etc. visit here.

Infrastructure: The college is located near a mountain, and the environment is natural and good for studying here. In LIT, all the facilities sports, library, medical facilities are available. The college organises sports events for various indoor and outdoor sports.

Faculty: The college has high-level faculty who have a better knowledge. They use methods like written and project study also. They give industry exposure too. They help us regarding studies in college time or after college time too. The faculty are qualified and knowledgeable.

Other: In any event, Laxmi Institute of Technology has the best compared to other colleges. Apart from the reserved category, others also have some scholarships. The activities are not better but good.

3.2 ★★★★★ Placements 2 ★ Infrastructure 4 ★ Faculty & Course Curriculum 4 ★ Crowd & Campus Life 3 ★

Dissatisfied with the over implementation of rules and regulations, but the infrastructure is good.

Placements: The number of placements provided in the college was very few. The students were hired at very low packages. But, the companies visiting were famous brands like Maruti Suzuki, Jio, Oracle etc. The chances of placements are very less. You need to be in a rankers list and work hard to get placed.

Infrastructure: The campus is huge and has almost every facility here like swimming pool, hostels, canteens and mess with most hygienic food. Quality of food provided in the canteen is average, but the quality of the food in the mess is great and affordable also. The college has various labs, but certain machines and equipment aren't working.

Faculty: The faculty have great knowledge, but the students should have a good relationship with them to acquire knowledge. Classrooms don't have a good learning environment. But, you will have to prepare well for the university exams. One can ask for the faculty's help to improve knowledge and skills.

Other: The college conducts its annual events like sports and cultural events. An entire week is dedicated to conduct various indoor and outdoor sports like badminton, cricket,

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

kabaddi, football, table tennis, chess, carrom, and many others. Ekatra is the cultural event generally held in March, which includes various technical as well as non-technical events.

We have a good campus and good infrastructure.

Placements: Our college provides good placements for students every year. The number of companies visiting the campus for placements increases every year. They give good placements based on talent. First, they take a lecture in the auditorium, and then they start the interviews. They discuss the packages after the interview has been done.

Infrastructure: Our college has a good infrastructure. Laxmi Institute of Technology building is well-maintained. The class and labs are also well-maintained. We have facilities for sports, library and study room. Gym and swimming pool is also available in our college. A big ground is available for playing cricket and football, and there is a basketball court too. There is a small park, and we have a canteen at our college.

Faculty: Teachers of Laxmi Institute of technology are very good, helpful and friendly. Every teacher has a different style of teaching. They help the students in studies and gives proper guidance to every student. For every course, they are different teachers. For every branch, we have a different teacher.

Other: Every year, we celebrate Ektra with full of joy. We celebrate the events like the signature day, culture day and sports days.

The college is good to study, but sometimes, we get less time to complete the syllabus.

Placements: Our college provides placements to students. Many good companies come for placements in the final year of a batch. They came from Surat, Valsad, Vodadra and even Mumbai. They offered good packages based on the talent of students and as per post in the company.

Infrastructure: We have 7 computer labs in total for different subjects. Classrooms and one seminar hall are available in our department. The library has everything in standard edition and journals are also available related to our department. We have too many

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

playgrounds for different games.

Faculty: The faculty members in our college are well-educated. They are ready to help any student at any time. All the faculty members have done ME degree in a specific course. The courses are as per GTU, the faculty gave us extra knowledge for our future. All the faculty members have different teaching methods, but we understand their teaching methods as they try to teach easily. They provided us more practical knowledge because we want more practical knowledge to sustain in the industries.

Other: Our college organises many events, tech fest like sports week, etc.

Placements, infrastructure, and faculty in the college are good.

Placements: There are placements in the college. Companies that visit the campus are not that reputed. If those companies offer the jobs to students, then they get very less salary. Only 1 to 2 students out of all got placed on the campus placements. Nearby companies like Softyoug and Techniga which are located at Vapi visited the campus for placements.

Infrastructure: The infrastructure of the college is good. There are many labs in the college, are computers specifications are also good. The whole campus is enabled with the Wi-Fi facility. There is one library in the college as it provides all the materials for reading. Reading room and sports room are present in the college. Playgrounds for football and cricket are available. There is one canteen, but it is far from the college. The hostel is good, but it is costly.

Faculty: Teachers in the college are qualified, but only some teachers are helpful to students. Some have very good teaching skills. Some faculty members provide bookish knowledge. Some teachers are very friendly and have technical knowledge. They give proper advice to students which can be helpful in the future.

It is good for engineering. The college imparts knowledge to everyone.

Placements: In Laxmi Institute of Technology, you get good placements at the beginning. For placements, the number of companies increases every year in our college to give jobs to the students. The companies also give good salary packages to the students. The students also have to work hard to get the jobs.

Infrastructure: The college is huge and good. The building of Laxmi Institute of Technology is well-maintained. All facilities that are required for engineering are available and maintained. Security is also very good. The labs and classrooms are also well-maintained. The library and sports are also available.

Faculty: The teachers of the Laxmi Institute of Technology are very helpful to all the students. All faculty members of my department and also other department are knowledgeable and strict. The faculty members give extra knowledge about other things, and they always motivate the student. The nature of the faculty members is good.

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 07-Sep-2022.

Best college in this area.

Placements: The placements are held at end of the final year. Many companies come to our college. We get the pre-placement experience in our college. Many students also go for the internship, and we get some amount stipend. There is a placement cell which is useful for many of us, and it gives motivation to our juniors too.

Infrastructure: The infrastructure is very huge. The library, sports room, reading room, labs, big football and cricket grounds, mess facilities, hostels, canteen, swimming pool, and many other facilities are available in this college. There is a bus facility available on this campus which is very good.

Faculty: The teachers are very helpful. They provide their time to the students, and also solve all the problems of the students. They complete their syllabus on time and gives study materials. The students also get good knowledge from the teachers who are well experienced. Concerning teachers, this college is good.

Other: This college conducts techfest, youth fest, and a sports week.

★★★★★ Placements 5 ★ Infrastructure 5 ★ Faculty & Course Curriculum 5 ★ Crowd & Campus Life 5 ★

The best college for medium class students with the great facilities and education system.

Placements: The placement in Laxmi is good, and I am not saying the best but at its level good. Many companies like Anchor, Kabra, L&T come for the placement. Truly saying my friend got placed from here and he is working with Kabra in Daman with the starting salary of Rs. 15,000 per month. The placement salary depends on the student's knowledge, skill, and behaviour. So, don't take tension about it, If you are a scorer, then you will surely get a job with starting of Rs. 20,000.

Infrastructure: The infrastructure of the college is good and has all the facilities like ATM, canteen, mesh, Wi-Fi, computer labs, garden, sports field like football, tennis, cricket. It also has the swimming pool. The food in a mess is good, Rs. 40 full diet. The labs are well-maintained, and everywhere CCTV is available. The security is good. The hostel is good, but it is costly to stay. But it has a hostel 500 meters outside of college, which is good and at low cost compared to it.

Faculty: The faculty members are good, have a good education and a proper way to teach. In my companion, the education system is good here. For every two to three days, the college has the different activities like allocation, competition, fun fair, and tech fest, where the student can show up their talent. They publish winners photo on their facebook page.

Other: In my terms, the college is the best regarding the education, facilities, and teaching methods. The only thing is it is costly. For B.E, it charges Rs. 75,000 yearly in additional Rs. 6,500 additional fee for the first at a time of the admission. It provides the health insurance on the college campus. Regarding, the network connectivity mobile has a few network signal. For travel, there are rickshaws, which can take you to the nearest railways station in just Rs. 10. The scenery from the college is good, which is surrounded by the mountains and eco-friendly environment.

★★★★★ Placements 1 ★ Infrastructure 3 ★ Faculty & Course Curriculum 2 ★ Crowd & Campus Life 3 ★

Dissatisfied with the education they provide to students.

Placements: The placements were below mediocre level. Rarely, only 1-2 students got placed on the campus placements. The salary offered ranges between Rs. 7,000 to Rs. 10,000 per month. Local companies around the college visit the campus for placements. The internship is a big issue for students, as the college never allowed students due to attendance issues.

Infrastructure: The library is adequate for many books on the campus. The classrooms are spacious enough. Labs are regularly updated with necessary equipment, but system setup is outdated. The quality of food is average in the canteen. Renting a hostel is expensive, but you will get facilities worth the money.

Faculty: The teachers were just in a rush to complete syllabus instead of providing good knowledge. Their teaching quality is poor. Traditional methods are proposed as they just read from books and utter the same. The teacher to student ratio was 1:10. Industrial exposure for students was never given importance on the campus. The course curriculum was outdated during my tenure, but today's technology is way ahead.

Other: The events and activities were celebrated with zeal and enthusiasm. Sports week events were also organised for students to encourage their physical health. The campus surroundings were green with a calm atmosphere. Scholarships were provided only to reserved candidates. Extracurricular activities were organised very often on the campus.

This college helps to learn and grow better.

Placements: The placement percentage of the senior batch is 60%. The highest salary package offered is Rs. 30,000 per month and the lowest salary package offered is Rs. 10,000 per month. The average salary package offered is Rs. 15,000 per month. All the companies that visit the campus look for the students who have subject knowledge and who have done their internships in the fields related to their requirements.

Infrastructure: The college provides the Wi-Fi facility. Classrooms are under CCTV surveillance. The library and the campus atmosphere are good. The campus is filled with good vibes. If I talk about the medical facilities, an ambulance and a doctor are available on the campus. As far as sports and games are concerned, both the indoor and outdoor games are available. The college also has a swimming pool.

Faculty: Teachers are very helpful, and they help both the poor and good students. They are qualified and knowledgeable. The quality of teaching is good, and the students can understand the concepts very well. They conduct an industrial visit in the first semester and explain about the industry. The industry exposure provided is good.

Other: Technical fest and all the Indian festivals are celebrated. Students also participate in the events conducted in other colleges like Eco talk and other activities.
