**Our college and infrastructure are good.**

**Placements:** Minimum 55% of the students got placed in our course. In our course, the

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

highest salary package offered is 25 LPA, and the lowest salary package offered is 2.5 LPA. Top recruiting companies in our college are Amazon, HCL, Dell and Wipro. Many companies visited our college.

**Infrastructure:** Classrooms are very neat and clean. The quality of food available in the mess and canteen is normally good in taste. There are many facilities for hostel students. The library is open 24x7 for hostel students, so students can help each other. All games like indoor and outdoor activities are available in the college for students at any time.

**Faculty:** Teachers are very helpful and qualified in this college. Teaching methods and quality are very good and in a friendly manner. Teachers are very helpful and knowledgeable. It is not difficult to pass our semester exams. Students are often confused about the terms to BE, i.e., bachelor of engineering and B.Tech, i.e., bachelor of technology. Some colleges may offer BE, while some colleges offer B.Tech.

**Other:** I have chosen this course because I want to become an automotive engineer and mechanical engineer. There is nothing to improve in the course. The objective of the scheme is to realise the vast talents that may be hidden due to financial constraints. Under this scheme, students have been awarded scholarships worth more than 100 crores in the last year only. From this college, many students can take and apply for scholarships by giving papers.

**Absolutely satisfied with the college, as it is very good and has good infrastructure.**

**Placements:** After +2, students can apply for this college in this course or any other course. The lowest package offered by the companies is 2.5 Lacs per annum, and the highest package offered by the companies is 25 Lacs per annum. The top recruiting companies are Amazon, Wipro, HCL, Dell, LG, Bajaj, Syska etc. Many companies visited our college.

**Infrastructure:** There are many facilities in our college, like 24/7 Wi-Fi, 24/7 open library for hostel students, and very neat and clean classrooms. The quality of food available in mess and canteen is good. Many facilities are available for the hostel students.

**Faculty:** In counselling, candidates are called according to their rank and are asked to write down their priorities of branch and college. Candidates with higher ranks are first given a

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

seat of their choice. With the number of engineering colleges rising every year, getting admission is not that big a problem. The teachers are very helpful, knowledgeable and teach in a friendly manner. There is no difficulty for students to pass the exams. A minimum of 45% marks is required in each semester.

**Other:** I chose this course because I want to become an automotive engineer or mechanical engineer. I strongly believe in the fact that monetary constraints should not be an obstacle for a student to have access to quality education. So, the university offers India's largest private scholarship scheme. The objective of the scheme is to recognise the vast talents that may be hidden due to financial constraints. Under this scheme, students are awarded a scholarship of 100+ crores in the final year only.

### **This college is really excellent for placement facilities.**

**Placements:** It is required to have about 40%-50% of marks for students to attend placements here. Above 75% of the students can get placed through campus placements of our college. The highest salary package offered in our course is 25 LPA, and the lowest salary package offered is around 2 LPA-2.5 LPA. Top recruiting companies for our course are Amazon, Dell, HCL, Wipro, LG and many more companies. About 75% of students get internships from our course in Amazon company.

**Infrastructure:** There are many facilities and infrastructure in our college and course. There are neat and clean classrooms and 24x7 open libraries for hostel students. Wi-Fi facility is also available here. The quality of facilities provided in our college is very good. Our college had outdoor sports and indoor games for students.

**Faculty:** There is no difficulty in passing the semester exams in this college. The minimum passing percentage in exams is 40% of marks. The teachers here are very helpful, knowledgeable and qualified. Their teaching method is very good, and they teach in a friendly manner. The course curriculum makes students ready for the industry.

**Other:** I strongly believe in the fact that monetary constraints should not be an obstacle for students to have access to quality education. So, our university offers India's huge private scholarship scheme. Under this scheme, students have been awarded a scholarship worth more than 100 crores in the last year only. I have chosen this course because I have to

**Certified by NBA committee in 2019. Many programs and workshops are arranged.**

**Placements:** As there are very few companies for biotechnology very few students are placed on the basis of UG. Some students are placed in IT companies. But there are various opportunities after M.Tech from good universities. If someone is interested in research then this branch is best.

**Infrastructure:** Huge infrastructure. Central library is available. Knowledge center is available. Hostel is best and food of hostel mess is also good. Hostel is 4 to 5 km away from college. Medical facilities are also available. Interested students can participate in university sports. Also annual sports competition are arranged.

**Faculty:** Every teacher is well qualified. Almost all held their Ph.D. degree. Apart from the study, there are many other activities held to make students ready for placement like soft skills, communication skills etc. Many programs and workshops are also arranged.

**The college has excellent faculty members, modern infrastructure and a friendly campus environment.**

**Placements:** The college has its own training and placement cell. Placements in our college are good, and it depends on the students' personality and abilities. Companies like Amazon, Infosys, Infotech, etc., visit our college every year to hire students. The salary package offered by companies ranges from a minimum of 1.5 LPA to maximum of 6 LPA. It also depends on the student's abilities.

**Infrastructure:** The infrastructure of our college is brilliant. Labs and classrooms are sufficiently big, and every lab has projectors for digital learning. All labs are well-maintained with proper instruments. Wi-Fi is also available in our college. The canteen can be improved, but the food served in the canteen is delicious. Medical facilities are provided in our college. University sports and games are also played on the college campus.

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

**Faculty:** As per the chemical branch concern, most of the faculty members have completed their PhD. All faculty members are experienced, and their teaching methods are impressive. The course is as per the university syllabus. All teachers are trying to give extra knowledge to students.

**Other:** The annual event of our college is fabulous, and various fest and events are regularly conducted in various departments. Many extracurricular activities are also conducted in our college, which may be different as per departments.

**The review of Lokmanya Tilak Jankalyan Shikshan Sanstha's Priyadarshini Institute.**

**Placements:** Placements in our college are very good, and they depend on students' abilities too. As far as the placements of our branch are concerned, almost 4 to 5 companies Infosys, Infotech, and Amazon, etc., visit this campus to hire the students of our branch every year.

**Infrastructure:** We have a fabulous infrastructure with smart labs and classes with the medical facilities. This college is the best regarding sports and digital studies. Even the

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

quality of the food offered is excellent. The college also provides good ambulance and transportation facilities too.

**Faculty:** Our faculty members are very good and experienced. They have completed their PhDs, and they have good connections with upcoming multinational projects. The college allocates a mentor to every student, and this helps the students to build good interactions with faculty. Overall, our faculty are excellent.

**Other:** Events, fests, and extracurricular activities are organised here. There are no issues with scholarships.

## Review of Lokmanya Tilak Jankalyan Shikshan Sanstha's Priyadarshini College.

**Placements:** About 50% of the students get placed in various companies. The average salary package offered is around 4 LPA, and the highest salary package offered is 12 LPA by Indian Navy. Multinational companies like Mahindra and Mahindra, Amazon, UltraTech and various local companies like Spinco Biotech and others visit the campus every year. However, the placement rate is low because of the rigorous hiring procedure followed by the companies. There an effective placement cell which helps the students to improve their interview-facing skills. One can rely on the placements cell for placements. The college also ofefr many internship opportunities.

**Infrastructure:** The infrastructure and the campus are very beautiful. The college is well-equipped with functioning labs and equipment for every branch. All the necessary infrastructural facilities are available here. The Wi-Fi facility is provided all the time. Our classrooms are huge, spacious and well lit. We have a medical room in case of emergency. The library is always packed with great books, and we also have a canteen available on the campus.

**Faculty:** Faculty members are dedicated and are well versed in their respective fields. Most of the teaching faculty members have completed their PhDs. the course curriculum is designed by Nagpur University. The course is always followed and the methods used by our teachers are quite effective. Various industry tours are planned, and they share all the practical methods used in the industry.

**Other:** Many events are organised throughout the year. There are many events organised

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

by various departments. We also have a big and most awaited annual event named Saptrang which is organised about a week long. The college has good tie-ups with reputed companies and online event planning institutes. Many other extracurricular activities are organised by Rotaract Club and NSS.

### Good placements in 2019 year.

**Placements:** 90% of student got placed from college. Companies like Syntel, persistent, Tcs, Tech Mahindra and so on visited our campus for placement drive. The highest package is 4 LPA. The top roles are system analysis engineer, software engineer and so on.

**Infrastructure:** Well furnished labs with good numbers of PCs and the entire infrastructure of the college is so good. The labs are properly arranged by the number of computers. The college library is big enough to sit and read books. There is a water filter machine in our college for the students.

**Faculty:** The teachers are so kind and always helps us in studies related difficulties. Half of the teachers are Postgraduate. Not only Postgraduate but also some are doing research on the projects related to IT companies. All over there are IT industries, so every business starts with IT. It is relevant.

**Other:** All things are digitalized so this computer course is very helpful to get a jobs in IT industries.

### I am highly satisfied that I got selected in this college.

**Placements:** Around 60-70% of the students get placed every year, and it is one of the best institutes, according to placements. It also had a dynamic T&P coordinator who will help you in every way to enhance knowledge and make you perfect in every field to get placed. In our batch, around 80% of the students got placed.

**Infrastructure:** The infrastructure of our college, as well as the department, is awesome. High-speed Wi-Fi facility is available in our college. Classrooms are average, but they can be

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

made better. The library is one of the best, and it has all types of books which you need. I like spending my time in the library as it is a good place.

**Faculty:** Teachers here are very helpful, well-qualified and have more than 5 years of experience. Some of them are PhD holders, and they had an experience of more than 10 years and will give you more knowledge about the things you want to know better. The principal of this institute is well-qualified and have more than 30 years of experience in teaching.

### **Our college provides good infrastructure and facilities.**

**Placements:** Less number of students got placed because a limited number of companies visit our college for placements. Due to some eligibility criteria student will not allow sitting in placements. The salary package offered ranges between 1.2-2.0 LPA. Top recruiting companies like Collabera, Thinksynq, HNI India and Tech Mahindra visit our campus for placements

**Infrastructure:** The infrastructure of our college is good. Facilities provided by the college are also good. Labs are good, and the canteen is also good. All departments have different labs for students. The library is good, and whenever we need books or newspaper, we can easily get it. Everything is good here.

**Faculty:** All teachers in our college are helpful and supportive. Whenever we have some queries, then they will solve it. If teachers are not good, then HOD will take action immediately by discussing with students and teachers. They should provide more practical knowledge for the industry like computer languages.

**Other:** I have chosen this course because I always wanted to take admission in computer branch. I wish the college should provide more practical knowledge rather than theoretical knowledge, so teachers need to focus on practical knowledge.

**S** Shubham Gawhane | B.Tech. in Chemical Engineering - Batch of 2020 ✔ Verified

2.2  
★★★★★ Placements 1 ★ Infrastructure 5 ★ Faculty & Course Curriculum 3 ★ Crowd & Campus Life 1 ★

**Absolutely dissatisfied with the faculty. However, other facilities of the college are good.**

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

**Placements:** Placements of the college are too low. Almost 5-10% of students get placed. The salary package offered is Rs. 15,000-20,000. Companies like Amazon visited our campus. The roles in customer care service fields are offered. Almost 30-35% of students have opted for internships. The average stipend offered is Rs. 3,000-4,000 per month during the internships. There is a placement cell, but I have no idea regarding its efficiency.

**Infrastructure:** Infrastructure is the only good thing in our college. The quality of food is average. The quality of lab equipment is average, and errors can be seen while performing an experiment. The hostels are good. The library and medical facilities are good enough. Until now, I haven't faced any issues regarding the infrastructure of the college.

**Faculty:** Teachers are qualified, although the quality of teaching is very poor. Only a few teachers have a good quality of teaching. The teaching methods are same as in ancient times. Theoretical practice is much more than the practicals, and they should provide more practical knowledge than the theoretical concepts. The college hasn't organised any industrial visits for last years.

**Other:** Overall, the facilities provided by the college are good. However, they need to improve the approach towards teaching the students and quality of teaching.

3.2 ★★★★★ Placements 3 ★ Infrastructure 5 ★ Faculty & Course Curriculum 3 ★ Crowd & Campus Life 3 ★

**The college looks good, but is average. Overall, it is a very mediocre college.**

**Placements:** The 3rd and the 4th year students are hardly found on the campus, so getting to know seniors is difficult. The placements in the college are too mediocre with the highest going to Rs. 5.5 LPA while the lowest being Rs. 1.4 LPA. About 60% of the students got placed last year, and the companies like the Tata, L & T were among the recruiters.

**Infrastructure:** The infrastructure of the college is good with sufficiently big labs and classrooms. The canteen can be improved but the food there is good. As for the sports, there is no encouragement for that, and you will just have to do your classes and go home, which happens all the year back. No one is aware of the Wi-Fi facility even if it is present on the campus. The students will be intrigued by the infrastructure, but soon realise that it doesn't even matter.

**Faculty:** The faculty of the college is just fine. You shouldn't expect anything extra or something different from them. At times, the classes can get you really boring, leaving you waiting for the recess the whole day. Though, the staff is more than enough. The industrial

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

exposure in the college is unheard of. The course curriculum will make you the engineer, but the world already has millions of them, not more not less.

**Other:** Don't get an admission into the college as it is really boring. The college is as good as any other college, and the vice versa is also true. It is a very typical college which looks good from the outside. The parking is also good, though you can't bring any cars. Only the staff can bring their four-wheeled vehicles. The fees are very high, and you have to pay them without a scholarship.

Placements 3 ★ Infrastructure 5 ★ Faculty & Course Curriculum 4 ★ Crowd & Campus Life 4 ★

**It is a good college and it balances both studies and extracurricular activities.**

**Placements:** Around 30-40% of the placements are provided in our college. The highest package offered was 9 LPA, and the lowest package was 1.5 LPA. The college has a placement cell which trains students for the campus selections. Many companies like Mahindra, Infosys and Amazon visit the campus to offer placements.

**Infrastructure:** The college has good infrastructure. Every branch has a separate wing, and everything is separated properly. A canteen is provided outside the main building, and one is in the mechanical department so that no one gets distracted by the noise. A basketball ground, volleyball ground and proper parking space are also available.

**Faculty:** Faculty members in our college are well qualified and knowledgeable. They respond in a proper way to all the queries of students. Every student is asked to give a seminar so that they can overcome stage fear and build confidence. Sometimes, live examples are given in teaching so that every student can understand the concept easily. Teachers and students have proper interaction.

**Other:** Every branch conducts events. The main event is the sports event called Udaan which is conducted for both students and faculty members. The cultural event is called Saptarang. Extracurricular activities are conducted by the NSS unit.

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

3.6 ★★★★★ Placements 2 ★ Infrastructure 5 ★ Faculty & Course Curriculum 4 ★ Crowd & Campus Life 4 ★

### **The teaching staff, infrastructure, and facilities of the college are satisfying.**

**Placements:** There is a training & placement cell in the college. The placements vary with every branch. Around 40%-50% of the students from CSE and ECE departments get placed. Overall, the placement rate is 20%. The highest package offered is 9.38 LPA, and the lowest package offered is 1.40 LPA. T&P cell provides internships in companies like NPPTI, TCS, etc.

**Infrastructure:** Greenery surrounds PIET. The infrastructure of the college is very good. The labs are very clean and provided with basic facilities. The college provides 24 hrs Wi-Fi facility available for the students and faculty members as well. The library is provided with all necessary books required, and various numbers of journals are available for chemical and biotechnology branch students, also for other branches. The sports and games facilities are negligible in the college. However, we can participate in university sports. The boys hostel is not that much good and safe. However, the girls hostel is quite good, clean, and safe. The quality of food offered in the canteen is worst.

**Faculty:** The faculty members are much qualified and knowledgeable, especially for the branches like biotechnology and chemical. Most of the faculty members of the college are doctorate holders. The quality of the teaching is good. They use very simple techniques for education and to teach the concepts. The college depends upon AICTE norms. The college organises an industrial visit and tours for the students, where they can get industry exposure. We visited the central forensic lab in 2nd year. The course curriculum is useful, but it feels like school and is very disciplined.

**Other:** The college organises various fests and events. Saptarang is the college culture and sports fest organised in February every year. Every year, Nirmiti is the national level paper and model competition organised. Every year, many departmental level technical and non-technical events are organised. The campus is surrounded by greenery, and it creates a good environment for studies. The departmental student forum organises extracurricular activities. The college does not provide scholarships for students.

**PIET is a good college, but its education system is the worst.**

**Placements:** I have heard a lot about the placements in our college. But, the packages offered in our college are very low. Students are not technically capable of working even in a local IT company. Placements are good for the students with high scores though they don't have any interest in technical or practical knowledge.

**Infrastructure:** The infrastructure of the college is really good. All the classrooms are hi-tech and well-maintained. Drinking water facilities are available. Washrooms are good. The canteen is average, and the food provided is average. Wi-Fi is available all over the campus, but sometimes, it doesn't work. Its speed is good enough reaching 2-3 Mbps.

**Faculty:** The faculty in our college are undoubtedly good, but they are always interested in what the university wants and passing the students in exams. They don't allow us to gain extra knowledge from other institutes. The course curriculum is of RTMNU university. It is outdated. Now, I am in 3rd year, but I never understood the application of our concepts in the real world. As I am always interested in real life applications and gaining practical knowledge, I am not satisfied with the course.

**Other:** Extracurricular activities conducted in the college are good, but no such events are conducted which make students aware of corporate needs. Campus surroundings are calm and pleasant. The scholarship is always an issue in our college.
