**Our college is better in infrastructure. The faculty members and management are very neglected.**

**Placements:** Very low placements are available here. This college provided placements in an upcoming software company last year. This college should have a tie-up with more

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 25-Aug-2022.

companies for placements for students in not only software companies but also in other sectors.

**Infrastructure:** The infrastructure of this college is good. This college is built in a peaceful area. Even though it is situated far from the city, transport facilities are very good. The college is surrounded by gardens and fields, so it consists of a cool atmosphere. The college building is also huge for comfort.

**Faculty:** The faculty members of this college do not work for a long time. So, students are provided with new faculty members frequently. The course here is partly relevant to the curriculum. But the college does not follow the proper teaching methods, so students are not able to get jobs with knowledge gained from this college. Semester exams are difficult and also easy. The pass percentage of this college is above 80%.

**Other:** B.Com computer application is the best course available in our locality for various career opportunities. Practical knowledge should be provided in this course by our college by maintaining contacts with auditors and chartered accountants. Events and fests are conducted. Extracurricular activities are conducted very rarely.

**It is good for financially poor students. I'm dissatisfied by infrastructure, faculty & placements.**

**Placements:** Almost 90% of the students get placements and they are only for CSE students because only IT companies offer placements. If any other companies are offering placements (for branches other than CSE), then students only having a higher percentage of CGPA (80% or higher) are being allowed to write exams or to attend interviews.

**Infrastructure:** The infrastructure is a new block recently build earlier this year. We have new lab equipment like lathe machines that were also brought to the college last year (2020), but labs are yet to be repaired. The hostel is only for girl students and 1st-year boy students, boys who are studying 2nd,3rd, and 4th year are not being provided any hostel facilities because there is no building to fit all the boy students. Food served is good, and they serve two times non-vegetarian for nonvegetarians or sweets for vegetarians and other dishes also taste good. Wi-Fi is only available in the girls hostel. No Wi-Fi is available in the boys' hostel (for first-year boy students). Classrooms are pretty good in the new building which was build earlier this year. The library doesn't have sufficient books for the students

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 25-Aug-2022.

and doesn't have a reading atmosphere because of its least space. Decent sports facilities are provided.

**Faculty:** Overall teaching quality is average, and some teachers qualified from the best institutions are not up to the mark in teaching but they are very helpful in doubt clearing. There are few teachers whose pedagogy is very good. The course curriculum is pretty good, and it surely makes students industry-ready as many ethical learnings are included in the curriculum. Semester exams are not that much difficult to pass but students have to be careful and should do their work. The pass percentage is 39% in a subject.

**Other:** Fests are minimal in the college. Only farewell parties, college day, independence day, and republic day are celebrated. More fest and events should be held.

**It is a good college for graduation, and the placements, faculty, and administration were good.**

**Placements:** To be honest, only 20% of students were placed in my course. The highest package offered is 5 LPA, and the lowest package is 1.5 LPA, and the average package was 2.5-3 LPA. IBM, Wipro, Infosys, Tech Mahindra, Appollo, Dr. Reddy's Laboratories, Dell and also other well-reputed companies came here. Most of them were selected for the above-mentioned companies and got internships initially in their final year. Associative roles, voice process, BPO, technical support and clinical research associate roles were offered by the companies.

**Infrastructure:** SKSC college is one of the finest colleges in the Proddatur region. Wi-Fi is available for students. The classrooms are very good and well-ventilated. Fans, lights and windows are available. Fresh air and lighting are good things in this college. Computer labs and botanical labs are very good. The library is well maintained and has lots of books. But unfortunately, there is no hostel and mess available. But a canteen is available on campus. Food was somewhere okay. There is no playground for this college. But indoor games were conducted by the college. Medical facilities are available.

**Faculty:** The teachers are very helpful for students, and they can guide us well. They help us financially if you are really in crisis. Lecturers are highly talented and highly qualified. In fact, most of the faculty members were friendly and senior lecturers. The course curriculum

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 25-Aug-2022.

somewhat makes students ready. Almost 90% of students passed out of 100% during semester exams in this college.

### **Infrastructure is bad, but faculty members are good.**

**Placements:** Almost 10% of the students got placed. The highest salary package offered is 30 LPA, the lowest salary package offered is 20 LPA, and the average salary package offered is 25 LPA. Wipro is the top recruiting company.

**Infrastructure:** The infrastructure of our college is bad. Classrooms and labs are average, and sports and games and medical facilities are not available here. The campus is good, but the atmosphere is bad. Our college does not provide food, hostel, mess, Wi-Fi and library. Our college timings are from Monday to Saturday from 9:15 am to 3:50 pm.

**Faculty:** Faculty members of our college are good, helpful, qualified and knowledgeable. Teaching is also good.

**Other:** I have chosen this course because I want to become a physics teacher. I wish the college to improve practicals and subjects. Events and fests conducted here are bad.

### **It is an excellent college, but there are no campus placements.**

**Placements:** In our college, the pass percentage for students is average. Students get the highest academic percentage of 88%, while the lowest academic percentage is passing marks. The education provided here is good, but none of the companies visits our college for placements. There are no internships also, and I suggest you to visit our college to check the details.

**Infrastructure:** Within the 30 km radius of our college, there was no good infrastructural college. Only our college has a good building and good parking spaces. Our college looks like a university, and there is a library. The library looks simple and easy, and a lot of books are available. Every student must go to the library to read. Classrooms are huge and can

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 25-Aug-2022.

accommodate a minimum of 200 students. In our classroom, there are virtual class facilities and a projector to show things. Labs and Wi-Fi are available. Labs are clean and good, and particularly there is a lab teacher to explain C, C+, etc.

**Faculty:** Teachers here are expressive, and the way they teach is very good. They have an excellent experience for teaching students, and they teach in a very good way. Their teaching is really related to the course. They provide good knowledge and have skills. Nowadays, teachers are not teaching well.

**Other:** I completed my B.Com, and it was helpful to join in TCS software developer company by learning C, C+, Java, SQL and many more. B.Com is a better course, and I suggest you to join B.Com as it has a good future. Our college conducts a great fest and celebrates fresher's party. It provides scholarships to students in 3 years of the course.

**In our college, the facilities are good. The teachers are also very friendly to students.**

**Placements:** About 95% of students got placed from our course. About 30% of students got internships in companies. Many good roles are offered in our course. Day by day our course is developing well, i.e., students are very interested in this course.

**Infrastructure:** Our department has a good classroom with cleanliness and fans. Everything is good in our classroom, and libraries are also available. The quality of food served is good. The canteen is also not bad, and the medical facilities are great. Sports and games are also very good in our department.

**Faculty:** Our teachers are helpful and qualified. They are also knowledgeable because every question and answer they explain very clearly. Many students get a good pass percentage in their semester exams. About 85% of students will pass.

**Other:** I chose the B.Com course because I know this course.

**I am satisfied with this college.**

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 25-Aug-2022.

**Placements:** Teaching quality in our college is excellent. At least 80% of the students get placed every year. The highest salary offered is Rs. 25,000 per month, and the lowest salary offered is Rs. 11,000 per month. Wipro and Infosys companies offer placements.

**Infrastructure:** All the facilities like library, Wi-Fi, labs and classrooms are available in the college. Quality of facilities in our hostel and the quality of food available in the mess and canteen is good. Medical facilities, sports and games facilities are available. The computer labs are available.

**Faculty:** The teachers are good, helpful, qualified, and knowledgeable. The teaching quality is good. The course curriculum is relevant.

**Other:** Many job opportunities are available in marketing. I am improving my English and statistics skills.

### **Review of Y.S.R Engineering College, Yogi Vemana University.**

**Placements:** There are no placements. Approximately 8 lateral entry students got jobs in SAIL and RINL with diploma qualification. The salary package offered for such candidates is 3.6 LPA after the completion of probation period of 2 years. Regular students might go for higher studies and core related jobs. Based on students' interest, around 5-12 students get their internship opportunity in RINL Visakhapatnam Steel Plant. Very few students go for IITs SRFP.

**Infrastructure:** In the department of metallurgy and material technology laboratory, we have ball mill, jaw crushers, electron microscopes, sand sievers and many others to carry out lab experiments and project work. We are provided with around 200 books and 100 reference books in the library to improve the knowledge. Our classrooms are large, tidy and equipped with projectors for conducting seminars at the departmental level. We have 4 classrooms in total with a seating capacity of around 100 students in each. Students are provided with the hostel in their first year only. Food in the mess is very healthy. Students play cricket, volleyball, football, badminton and kabaddi.

**Faculty:** Teachers are helpful, qualified and knowledgeable. Teachers are M.Tech graduates specialised in industrial metallurgy and nanotechnology from reputed colleges like IITs, NITs, Andhra University, JNTUA and JNTUH. Some of the former teachers are doing

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 25-Aug-2022.

PhD in IGCAR and IISc. The course curriculum is relevant and makes students industry-ready.

### **Our college has good teachers, but there is no hostel for boys neither there are sufficient building**

**Placements:** No placements are provided in our college. Aspirant students will go to other college campuses for an interview for their career. Students are expecting more from our college as it is the only university engineering college in Kadapa district of Andhra Pradesh. We are very eager to get placements.

**Infrastructure:** Our college is located near Proddatur city. We have sufficient labs and Wi-Fi. But there is a lack of building as only one block, i.e., an administration block is available. Sports are encouraged in our college. A library is available with adequate facilities. There is no facility of mess and canteen. The hostel is available for girl students only.

**Faculty:** Faculty members of our college are very good as they are the key to the success of the students. We have adequate staff with more knowledge. All the teachers are well qualified and knowledgeable to educate engineering. The course curriculum is not bad, but more changes are required.

### **I am dissatisfied with this college because of infrastructure and some faculty members.**

**Placements:** About 60% of the students got placed in our college. I think the highest salary offered to the students is Rs. 60,000 per month. Top recruiting companies like TCS, IBM and Texes visit our campus for placements. I do not know about the roles offered to the students. About 50% of the students got an internship at our college.

**Infrastructure:** There is no much better infrastructure for our course at our college. Labs are good in our department. It provides average classrooms. The library is a bit better, and

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 25-Aug-2022.

most of the books are available. There are poor quality and facilities in our hostel. The college provides hostel facility for boys only for one year. There is no problem with girls because it provides hostel facility for 4 years. A mess is average. It does not provide medical facilities. Sports and games are conducted.

**Faculty:** Professors in our college are highly qualified and highly knowledgeable. Some teachers are helpful. Professors are kind and strict about studies. The course curriculum is relevant, and it will surely make the students ready for software companies.

**Other:** I have chosen this course because of my interest in computers. I wish the college should improve coding in our course. The college does not organise fests in our college. There is no much crowd. Scholarships available to the students are better. It conducts sports in March and April.

### Review of Loyola Degree College (YSRR).

**Placements:** Placements of Loyola are not up to standards as only 4-5 companies visit here for placements. So, only a few students get jobs, and remaining students need to find jobs through outside sources. Our college also does not provide internships. However, faculty members here support students to find jobs through other sources.

**Infrastructure:** Loyola has the best infrastructure, along with a hostel. Our college also provides a library, sports ground, park and gym for all students without any membership fee. Wi-Fi facility is not available, but there is a digital library for all students. Classrooms are clean, and medical facility and canteen are available.

**Faculty:** Faculty members in Loyola are friendly and helpful. They are experienced in their respective subjects, but the practical knowledge required for the industry is not provided effectively. The teaching quality is fine.

**Other:** It is a very good college for students, and the best thing here is student clubs. We can make good friends here. Many curricular activities are conducted by our college.

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 25-Aug-2022.

## **Absolutely dissatisfied because of infrastructure and facilities.**

**Placements:** Coming to placements, we don't get any companies for placements in our college. Students must go to other colleges for placements. Especially in civil engineering department campus placements are not even conducted since the establishment. Internships depends on student and college don't force any one to do. Only few do their internships .

**Infrastructure:** Hostel- There is hostel for girls for all four years and when coming to boys hostel is only for first years and the remaining three must stay off-campus. Food is alright and maintenance is a bit unsatisfying. College- We only have one building and they are constructing the second one. Coming to labs, few are not available and few are older. We don't have any canteen but we do have a ground.

**Faculty:** Teachers are good , helpful , qualified , knowledgeable. Only those who have completed their masters are recruited and their teaching quality is satisfactory. The course curriculum is relevant but coming to field students may not be ready, but they are ok with theoretical matters.

**Other:** I like civil engineering so I choose this. Coming to course they need to develop labs, equipments, site works, etc. Only college day is celebrated and no other events, fests are conducted in our college.

## **I am satisfied with this college.**

**Placements:** About 40% of the students from our course got placed. I don't know about the salary offered to the students. A top recruiting company of our course is Bharati Cement. A top role offered to the students was an accountant. Some students got an internship at our college. The college offers good ideas to the students, and they helped them in achieving their targets and their marks.

**Infrastructure:** The college provides facilities like labs, classrooms, a library, etc. The college does not provide hostel facility. Even the classrooms are wide enough. The total campus is good. The library has so many books related to all the courses like science, commerce, maths, history, etc.

**Faculty:** Teachers in our college were helpful, qualified and knowledgeable. Their teaching quality is good. After B.com it is suggestible to do further PG courses. They are talented,

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 25-Aug-2022.

and they can easily clear the doubts of the students. They help the students by telling the students how to write and get good marks in the exams.

**Other:** I have chosen this course because I belong to the commerce subject in my inter. I wish more accounting should be added to our course. Events are organised at our college. Scholarships are available.

### **It is a good college for studies and sports.**

**Placements:** Our college provides better placements among all the colleges. For our branch, there are no placements since 2008. But for other branches, placements are good. It provides a very good atmosphere to attract companies. There are highly experienced faculty who teach us how to crack the interview.

**Infrastructure:** The infrastructure of our college is very good and extreme. Wi-Fi facility is available in all blocks. The college provides hostel facility for girls is with better food and security. The college does not provide hostel facility for boys.

**Faculty:** Faculty members in our college were too good at teaching. They provide all type of materials for better understanding. They mingle with students very well so we can share information very easily. I think the course curriculum is 60% relevant to the industry. So we are ready to face industry after graduation only. They used to teach us how to lead our life and studies as well.

**Other:** I have chosen this course because it is my father's dream to become metallurgist, but due to some reasons, he can't study, so I took that. In February, it organises a fest called college day. Excellent games and cultural activities are also conducted.

### **I am highly satisfied with college and moderate placements held in 2019.**

**Placements:** Around 10% of the students from our batch got placed. The highest salary offered is Rs. 40,000 per month and the lowest salary offered is Rs. 15,000 per month.

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 25-Aug-2022.

Cognizant, Cozent and Amazon are the top recruiting companies for our course. BPO, manager and engineer are the roles offered to the students of our course. In our course, the highest salary package offered is 4.80 LPA, the lowest salary package offered is 1.80 LPA and the average salary package offered is 2.40 LPA. About 5 to 10% of the students got an internship from our course in companies like Amazon and Cozent.

**Infrastructure:** Wi-Fi is available in our college, but it contains a password. The college should remove the password for Wi-Fi. Labs are good, but some computers are very old, which are very difficult to operate. Classrooms are good, and the library is one of the best one in our college. No other college can beat our college in quality.

**Faculty:** Some teachers in our college are time passing, but some of them are very good at teaching and give advice to students. This course curriculum is relevant for the students to get ready for the industry.

**Other:** I have chosen this course because it is helpful to get ready for a job. The college needs to improve communications skills for the final year students and better to implement a subject in the final year, like in the first year of the course. Many fests are conducted in our college in a year.

### Satisfied by choosing this college to set goals in my life.

**Placements:** 50% of our batch got placements and the salary ranges from 10000 to 16000 rs per month. MSN laboratories and other pharma companies offered placements for my group in production department. No internships taken by our classmates. I also got placement in MSN laboratory with package 2,50,000 per annum.

**Infrastructure:** In our college we have digital library with Wi-Fi facility. We have facilities like laboratories of physics and chemistry. Hostel has good facilities like hot water and good quality food. Canteen is also there and the food is affordable. We have big ground with many sports kits like cricket, badminton etc.

**Faculty:** Some teachers are well educated and Masters in there subjects respectively. Some teachers are not that much knowledgeable especially in physics department but they manage with their knowledge. It can make students industry-ready like Pharmaceuticals etc.

**The college is not only giving standard education but also gives a social responsibility.**

**Placements:** About 20% of students from our course got placed. The salary offered by some companies ranges between Rs. 30,000-35,000 per month. Some other companies offered a salary that ranges between Rs. 40,000-50,000 per month. Tech Mahindra and some IT companies visited our campus for placements. Best roles like government jobs, executive manager and assistant manager are offered to the students. The salary offered in our course ranges between Rs. 15,000-25,000 per month. Almost 97% of an internship from our course.

**Infrastructure:** The college provides good facilities for students. Labs and classrooms are clean and good. It offers a pleasant and good environment. The college does not provide Wi-Fi facility for students. There are sufficient books in the library. Classrooms are clean and good. There are about 400 members in the hostel. Quality of the food served is average, little spicy and salty. The canteen is good. Sports are conducted twice per week.

**Faculty:** It is one of the best places to get educated from the curriculum and staff members. Teaching quality is the best. Faculty members in our college are good. They are graduate professors. The course curriculum is relevant. Every student will shine like a star after completing their course from this college. More companies are taking a step to work with our colleagues.

**Other:** I have chosen this course because I am interested in this course. The best thing is there are good facilities in our course. Still, I wish the college should improve more in our course as there are unknown subjects in every field. Every year fests and events are organised at our college.

## **This is the best college in Rayalaseema regions in Andhra Pradesh.**

**Placements:** There are no placements in this college, but the college management sends us to off-campus drives conducted by APSSDC and others. At that time, the faculty members support and guide the students, and they also give training to students in the college. The faculty members on the campus work more than their working hours for giving the training to students.

**Infrastructure:** Loyola Degree College has good infrastructure. Computers labs, chemistry lab, physics lab, botany lab, and zoology lab are available on the campus. It has a big library consisting of not only subject books but also other books such as competitive books, novels, etc. It has a big playground for students to play. A lot of greenery is available in this college.

**Faculty:** The faculty members of Loyola Degree College are talented, and almost all are M.Sc. postgraduates. Some of the faculty members are PhD holders. The faculty members freely interact with students, and they are friendly. They are available for more than working hours, and if needed, they conduct events for students to boost up them.

**Other:** Loyola Degree College conducts several events such as NCC, NSS, LACT, Literacy, and also celebrates festivals like Sankranti Sambaralu, Christmas, etc.

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 25-Aug-2022.
