I am absolutely satisfied with the faculty members and college.

Placements: A total of 150 students pass out every year from our college. All students get internships from our college. Our college is more than 50 years old, and the teachers are

well experienced here.

Infrastructure: The infrastructure is good in our college. The library is also good with all books. Lecture halls are very good, and there is a huge dissection hall. There are spacious separate practical labs for every department. The hostel is not much good. The building is very old, and the bathrooms are not good. Our college has all the lab facilities. The hospital is very good with a 1,100-bed capacity and daily 1,500 patient output.

Faculty: Faculty members here are well experienced. This college is affiliated with RGUJS university, and it has a new CBME based course curriculum. The course curriculum is completely relevant for MBBS students. The teaching staff members are very knowledgeable, and staff members of the respective departments have submitted many research papers also.

Our college is very good in all aspects.

Placements: Placements are good in this college. The package is also average. The number of students who get good hospitals will be less, and the average hospital will be more than usual. The practice is not up to the mark. As there are many hospitals in the same city, and the same road the cases are split among the 3.

Infrastructure: It is an old building and all the classes do not have air-conditioners. The hostel is not good, and the transportation is also not provided for the students of the hostel. The hostel and college are 1 km away and the hospital is 2 km away. The infrastructure is not good, and there is no proper auditorium in the college.

Faculty: Faculty members are not good in this college. The curriculum is as usual RGUHS schedule they follow. There are regular classes and posting will be there along with this small group teaching and self-directed learning is also conducted.

Other: In this college, scholarships are provided.
