**Overall, our college is good, but now students want some changes.**

**Placements:** Navyug Commerce College is one of the famous colleges of Surat. I think this college was 30-40 years old, and it is also a very reputable college. On the campus, there are three branches like commerce college, science college and arts college. Every year

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

many companies recruit students from here, and many students participate in interviews on the university campus. B.Com, B.Sc and B.A are three main courses in Navyug College. The salary package offered by companies to passed students is around 3 LPA to 5 LPA. Almost 60% of the students will pass out every year from our college.

**Infrastructure:** Navyug Commerce College is an old college, but its infrastructure is not old. Every year renovation is done by our college. In my passed out year, a new bathroom was under construction on the campus because of the increasing number of students every year. They used new marbles on the campus this year. On the entire campus, there are cameras with high-quality graphics. Every student is safe from threats. Navyug sports quota is Surat's number one sports quota. Every year many students get selected in NCC. Every year many students won medals in state-level games.

**Faculty:** Earlier, there were many experienced teachers here, and professors are available. But now, new faculty members have joined, and they don't have experience in teaching. However, they are good but not perfect as old teachers. The course is hard, and students can't grasp it much. However, if students adjust to the new syllabus, then all courses are easy. This course is much needed in the market.

**Other:** I chose B.Com because I want to opt for the account field. B.Com is the main course for accounts in graduation course. But today all courses are old, and I suggest our college to provide more knowledge with modern courses in this course. In Navyug, almost every festival, event, Dj party and many fashion days are organised by the students' council every year. Scholarships are also provided by our college and government. But there is only one problem that staff members here are very lazy at work and solve many problems very late.

**Navyug Commerce College is the best college in VNSGU for studies and also sports.**

**Placements:** There is no guarantee for placements in the college. We have to achieve a job or any other income source on our own using our aptitude skills. There is no much difference between the highest, lowest and average packages. The starting salary offered is between Rs. 5,000-15,000 per month. The competition for getting a job after doing B.Com is very tough.

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

**Infrastructure:** The infrastructure of our college is pretty good compared to other colleges. The building is old, but the management is maintaining it well. The entire college is Wi-Fi enabled, but it provides only limited data to use. There is a lack of a canteen facility. Sports facilities are good.

**Faculty:** Faculty members in our college are well qualified, helpful and knowledgeable of subjects like statistics, English, accounts etc. Quality of teaching is very high and effective. Some theoretical subjects do not have good professors as the above-mentioned subjects have. Otherwise, the staff members are the best of all.

**Other:** The college organises the prize distribution event every year. Many events and fests are organised in the college by different groups. The college conducts good sports activities as well.

**There were very good facilities.**

**Placements:** Almost 42% of the students got placed. The highest salary offered was Rs. 10,000 per month. The lowest salary offered was Rs. 6,000 per month. Almost 45% of the students got internships. All students are also good. This college was too good. The college provides a great job.

**Infrastructure:** There are very good facilities. All things are good in college like food, education, and other things. There are Wi-Fi enabled labs. Classrooms are good. The quality of sports, medical, and canteen facility are good. The fresh food was served in the canteen. There were very good sports and games like cricket, basketball, and volleyball. All classrooms were good and clean.

**Faculty:** Teachers here are very helpful in all subjects. Their nature is good. They also work a lot for students. All students are also good. It is the best college.

**Faculty were very good and supportive.**

**Placements:** This college was one of the beautiful places that I've ever seen in my life. The college is good at almost all the aspects, and the students in this college are also excellent. No tough roles are offered to students. Companies from the banking sector and many

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

others from the private sector visit the campus to hire students. FM Radio firms offer internships to many students.

**Infrastructure:** Classrooms present in the college are excellent. The library is very silent, and even the medical and sports facilities provided here are good. Quality of classrooms is good, and all the classrooms are equipped with projectors. An open auditorium is also available on the campus. I didn't face any issues with the infrastructure of our college during my tenure. Overall, the campus and the classrooms are good here.

**Faculty:** Our faculty members organise many activities and many other competitions like drama, singing, art, and sports, etc. They help students to perform in national-level events too. Our college also rewards the students who perform well in these activities. Our teachers are well-educated and are very helpful. Overall, the teaching quality is the best.

### Good college and good for study.

**Placements:** All the students got placed except who are interested in higher study and counselling, and placement team of Aspee Shakilam Agricultural Biotechnology Institute, i.e., ASABI was good and enthusiasm, and more students oriented to place every student.

**Infrastructure:** Aspee Shakilam Agricultural Biotechnology Institute set up a good lab like a lab for tissue cultural, biotechnology, nanotechnology, animal biotechnology, biochemistry, and crop physiology. Every year, institute check the medical status of every student of the institute.

**Faculty:** The teacher and professor of Aspee Shakilam Agricultural Biotechnology Institute was expert in his/her own area and good knowledge towards his or her area. They are highly qualified. Both methods of teaching were used as backboard and power point which is very helpful.

**Other:** All the events were organised every year.

**It is good for those who cannot afford higher fees.**

**Disclaimer:** This PDF is auto-generated based on the information available on Shiksha as on 17-Aug-2022.

**Placements:** I have completed my graduation in 2014 from Navyug Commerce College, and then, I opted for higher education. I got placed in a very reputed company where graduation was necessary. As per my knowledge, there are no campus placements during my tenure.

**Infrastructure:** Every kind of facility required for the students is available in the college. There are facilities like library, laboratory, and well-developed classrooms. Apart from all the above facilities, there is a huge ground where every student can play. But there is a major problem with the parking facility.

**Faculty:** Students can apply for science, commerce and arts in this college. During my tenure, the principal was changed, and after that, things were good. The new principal recruited good, supportive and experienced faculty members.

**The college is bad, but the place of the college and garden are good.**

**Placements:** This is the best college in Surat. There are sports as well as education. Senior lecturers behaviour is very bad, and the class teacher is very bad, and the principal of the college behaviour is nice. None of the students got the internship from Navyug College. This college is for the best student but not for the lowest ones. There is a placement cell which is effective or useful in Navyug College.

**Infrastructure:** The literary department is present in this campus. It has the old type of classrooms which are bad. It is located in Pune. Navyug college has no Wi-Fi facility. There is an old library where the students are not allowed into it. There are no medical facilities. I rate sport as 4 out of 5. The big camps are available. There are facilities like cricket ground and parking.

**Faculty:** A few faculty members had the best knowledge in their subjects. The teachers are not helpful and not highly educated. The experience with them was bad. There are no many facilities given to the students, so it is a bad college. The college place is beautiful, but no proper study will be available.

It's a very good college. It have very experience professor giving his/her best knowledge to students and helps to make a career in which students are interested. They also arranged extra activity game and other activity to give students a new platform for a career. Principal and professor also support to all students and campus are wide having big ground to play, trees around college, good parking facility and wide study rooms with fresh air and light. As per my view it is Good College.

**The ground is so small in the college.**

**Placements:** There are 90% students in our curriculum. All the packages in our course were the same. Adani foundation. Life All the students learned from college can go well and get higher roles. 80% of the students have got jobs in the company so the college is good.

**Infrastructure:** Everything except the wi-fi. Our hostel has all the facilities. There is Wi-Fi but not used. College people keep it closed and water festivals, libraries are everything. There is a medical center next to the college so there is no problem for treatment.

**Faculty:** Yes, Teacher helpful, qualified, and knowledgeable. Teaching quality is good. Yes this course curriculum relevant. It makes students industry ready. There are jobs in all industries and that is why I like this college very much. Teachers and peons are good.

**Other:** You chose this cell because doing this course can get you a good job in the company and also do business so I did this course.

**It is an amazing college. I am satisfied with my admission to this college.**

**Placements:** Our college provides an internship. Many companies like J. Z. Shah and R. V. Patel visit our college to hire students.

**Infrastructure:** There is no Wi-Fi facility in the college. All classrooms are huge and beautiful. The food served is good. Medical facilities are available in college. The sports facilities are amazing. The canteen is a good and clean place of the college. The food served is amazing. All classrooms are equipped with projectors. It also has a computer.

**Faculty:** All teachers in our college are good and knowledgeable. There is no hard work for students and no regular attendance force for students. Every period attendance is very important. Their teaching is good.

**Other:** I have chosen this course because it provides jobs. B.Com course is average. The scholarship is not edible for me because I am from a general caste. I scored 52.97% in academics, so I have chosen this course in this college.

**P** priyam bhutra | Bachelor of Commerce (B.Com.) - Batch of 2018

**Good placement record every year.**

**Placements:** The placements are fair and not so satisfactory, as the companies coming are just local or state level, not outside state. The average placement offer is around 10000-200000, the senior batch was quite good and helpful. Around 53% students were placed from last year batch.

**Infrastructure:** The college infrastructure is well developed and is quite good, having good benches. Library is updated, sports equipment are in ample amount, medical facilities are good as there is a separate man kept for medical. Hospital is nearby. Wi-Fi is not available, canteen is having good food.

**Faculty:** The teachers are very good in nature and well qualified with having almost above 5-10 years of experience in their respective fields. The students to faculty ratio is 60:40. The college gets every year an industry round for exposure. The curriculum is up-to-date and useful.

**Other:** There are many events held every year such as inferno, immun, etc. Campus crowd is good, scholarship programme is well mannered.

1.6 ★★☆☆☆ Placements 1 ★ Infrastructure 2 ★ Faculty & Course Curriculum 2 ★ Crowd & Campus Life 2 ★

### **It is a good course with the worst teachers.**

**Placements:** The average salary offered is Rs. 15,000 per month, which was not much, but in Surat, it is much to get it. In Surat, there were no top companies, so students cannot join them. Students need to go to other cities like Mumbai, Chennai, Kolkata, etc.

**Infrastructure:** The Wi-Fi facility was good here, but students do not promote it anyway. It should provide some good facilities like the campus, etc. Our college does not provide a hostel because our college was far behind other colleges across the city.

**Faculty:** Teachers in our college were not very helpful. If students asked them for a solution, then they just denied it and told students that they did not know anything. If students told them that they do not need to learn from them, then they just get out of our class.
