Placements: Our college is not great at providing placements to the students. Not many companies visit our college for placements. Most of the students here in our college opt for this course for a degree only. Many students want to do their own business and do not want to do the job.

Infrastructure: Our college doesn't have a hostel. I am pursuing management course. It provides all the knowledge related to business. You can surely do this course if you want to run your own business or do management in big companies. Our college also has a huge cricket ground.

Faculty: The faculty members are good enough. They solve every doubt of students. They teach every topic perfectly to the students. They ensure that there's no lack of preparation for students. They all are very supportive of every student. They have done PhDs in their respective fields.

It is the best college with good facilities.

Placements: This college has a good reputation in Surat for B.Com and BBA. I am a B.Com student. The lowest salary package offered to students is 2.5 LPA in this course. Many good companies offer internships. I am not sure, but a maximum of 60% of students get internships. Students can get admission for post-graduation also in this college. Accountant and executive are top roles offered.

Infrastructure: The infrastructure is the best, and it is a huge campus. The canteen facility is available, and students can also get a library facility. Classrooms are good with a good atmosphere, and benches are also good. Good and hygienic food is available in the canteen. There is a huge ground for sports. Many games like cricket, volleyball and many other games are played a year.

Faculty: Teachers here are well qualified with the best knowledge. All teachers have higher degrees, and some also have a PhD. They are also helpful to students who are weak in their studies. The course is quite relevant for the industry. Teachers also have a good experience and very friendly with students.

Other: B.Com is a good bachelor degree for higher studies like CA, CS, CMA, MBA, M.Com, etc. B.Com is good for a career in accountancy. In our college, all festivals are celebrated, and also events like an annual function and farewell are arranged. There is good

connectivity because near our college, BRTS facility is available. Many extracurricular activities are conducted.

I am dissatisfied with college because of college staff members, but they celebrate days well.

Placements: Our college provides courses like BA, B.Com and BCA. The highest salary offered is Rs. 65,000 per month and the lowest salary offered is Rs. 15,000 per month. Most top companies are visiting our college, and the college provides 2 internships, i.e., a summer internship and winter internship.

Infrastructure: In our college, most of the facilities are available like Wi-Fi facilities, computer labs, library, classrooms, campus, sports ground, canteen, meeting rooms and fair safety. Our college does not provide a hostel.

Faculty: Our college has highly qualified teachers, principals and knowledgeable staff members. They not only teach through books but also provide general knowledge and best teaching quality which is helpful to all students. Staff members give guidance to students.

Other: Our college provides scholarship and celebrates days, festivals, sports day and annual function.

I am satisfied because of the good faculty members.

Placements: Almost 40-50% of the students got placed during the 5th semester. The highest salary package offered is around 2.5 LPA. Many companies visit the college. The top role offered was in the finance department.

Infrastructure: The library has a collection of about 5,000 print volumes and an array of electronic resources. The print collection includes books, monographs, research reports, law reports, back volumes of periodicals, etc. Facilities available are cricket ground.

Faculty: The course curriculum is well-structured and gives ample time to adjust to it since it is a bit different from our usual schooling. Faculty members are highly qualified and friendly and go to lengths to help students. There are professors from abroad in the college, which helps in widening our knowledge and perspective about the industry worldwide.

The college has good and friendly facilities.

Placements: So many of my batchmates including me got placements in global companies such as Amazon, Flipkart, Tesla, TCS, Reliance, Space X, etc.

Infrastructure: Faculty members of our college are the most important and best part of this institution.

Faculty: Faculty members of our college create a friendly environment for all the students and studying was not a difficult task for them. It was so much fun there. Exams were conducted through the VN SGU app and it was a great experience for all of us. Exams were in such a civil manner and the results were also so quick that we were out of the exam and we got the results on our phone or registered mobile number.

Other: There were so many fun events including the Holi event, DJ night, etc.

The college has good infrastructure, facilities, events and studies.

Placements: There weren't many students who were placed in B.Com, but students placed

in BBA were quite high. The reason for this could be that most students in B.Com were pursuing other professional courses like CA, CS, Banking, Interior Design etc.

Infrastructure: Our college doesn't have a hostel. The infrastructure is amazing. It is a big and beautiful campus. It has everything from computer labs, a library, clean washrooms, a big canteen with a playground, and also quite big classrooms. It has a soothing aura. A group of friends can enjoy it there after their classes.

Faculty: The faculty members in our college are amazing and helpful. They are really sweet, understanding, and professional. Each professor is more than qualified. They have a knowledge bank. The semester exams are not difficult for you if you are an above-average student. They teach a lot of life lessons.

Other: Our college has plenty of events. You can meet a lot of professionals and connect really well. The college has professional as well as social events that keep students entertained while studying. There is nothing to improve in our college. The staff are helpful. It is great for students pursuing professional courses too. It has a lot of sports events too, and people with talent in any field get recognised.

Absolutely satisfied with the event management team and curriculum.

Placements: Average package is about 2 LPA. Top recruiters are Reliance, Kisna, ONGC, etc. 8% students got internship in Hazira belt of Surat and few students got in Mumbai and Ahmedabad. Top role offered is Senior Executive.

Infrastructure: Our college has all the facilities available with a special library for the members, very well maintained, clean and Hygiene classrooms and other rooms such as computer lab, etc. A sports club and event management is there. Most of the faculty members were very well versed with knowledge and it was a great experience learning from them.

Faculty: Teachers were very helpful and qualified, with well versed knowledge, teaching with their years of experience. The curriculum is updated every year as per the norms and requirement of the industries prevailing, securing jobs for the upcoming people.

Other: This course gives us the knowledge of Accounting and Taxation analysis, which in turn helps us to give our clients the best service.

Review of DRB commerce college.

Placements: The percentage of student placement is very low, considered it as no. I went to my college placement and they were offering very cheap package (150000). Which you can earn by completing you 12th class also. There is no regular placement in my college. The Percentage is very low approximately 8-9%.

Infrastructure: My college has a huge building having total 4 section. It has a big cricket ground and running track. You will not find any thing worthy to eat in the canteen. No wi-fi in college auditorium or any place. It has a good condition of science lab class room and library. No hostel for bachelor students.

Faculty: Many of the teachers used to explain in Gujarat language (specially in 1st year) though you are studying in English medium. Few of the teacher are very interesting to listen. I personally find this course (B.Com.) not useful. The course is very similar to 12th standard of Gujarat board. The passing Percentage was above average.

Other: I chose this course because I am from commerce background and also I want to pursue CA. You will find B.Com the easiest course among all.
