A good college for BAMMC .

Placements: I don't know yet since I'm in FY but I have seen placement cell working and there many students for the interviews. But it has a good placement cell as one of the alumni had got placement in a sports company in a United Kingdom and one got a job of teacher in SVKM's DJ Sanghvi itself.

Infrastructure: First of all it's A+ grade college by NAAC and the classrooms are well furnished with AC and there is pure drinking water supply and there's also a huge library and the campus is the best as it is a campus for Mithibai Nm as well UPG and the building is also too good.

Faculty: Teachers are the best they guide us for exams as well as give real life values and learnings. And the exams are tough but it's for our good and the way they teach helps us to grow in the field. Teachers and the faculty are well known with their field and subjects as our teachers are the one who wrote the syllabus as well as writer books for publishers like vipul.

4.4 ★★★★★ Placements 4 ★ Infrastructure 5 ★ Faculty & Course Curriculum 5 ★ Crowd & Campus Life 3 ★ Value for Money 5 ★

I am absolutely satisfied and obviously provided more than the expectations.

Placements: Many students were placed in Deloitte and many were also placed in other companies like TCS, Capgemini, etc. Due to the covid havoc, the average salary package offered was 3 LPA but there were a lot of students who were placed in Deloitte for 3.5 LPA - 4 LPA for operations role. Many companies visit our campus for placements but getting through the procedure is obviously a battle.

Infrastructure: I've never seen an educational institution as good as SVKM colleges like NM, Mithibai, Usha Pravin, NMIMS, etc. World-class and huge fully air-conditioned classes, big laboratories and a decent canteen with a huge variety of pure vegetarian food at affordable prices. Dosas are like the paradise world entity. It also has an advanced and huge 2-floored library.

Faculty: I want to say that faculty members are strict. Most of the professors hold Ph.D. and multiple other degrees as well. It would be good if we don't talk about the relevance of the curriculum because the path that the education system follows is absolutely the worst. So it's not the college's fault. However, the professors teach their level best.

Other: The events and fests of the college are actually world-famous all over Mumbai. A lot means a lot of fests. There is always some or the other thing going on. The campus always looks decorated with papers, posters, and stalls. There are a lot of committees if you're that kind of person. It is heaven. I wasn't because I've always been shy and introverted.

5.0 ★★★★★ Placements 5 ★ Infrastructure 5 ★ Faculty & Course Curriculum 5 ★ Crowd & Campus Life 5 ★ Value for Money 5 ★

I am satisfied with the placement and faculty members our college.

Placements: Placement training is given to students. The highest salary package offered was 11 LPA. Teachers encourage and motivate the students in the right direction. Top companies hire students for the roles like social media Executive SEO and manager copywriter.

Infrastructure: Classrooms are good with air-conditioners, a smart TV projector, and a library with a variety of books which help students to perform better in their studies. All the classes are neat and clean and clean washroom facilities are available. The computer lab is well-equipped.

Faculty: Faculty members are qualified and quite helpful. Most of the faculty members are currently working in the industry. They keep us updated with everything. The course curriculum is according to Mumbai University which is quite good, and it makes students industry-ready.

Other: I choose the B.M.M. advertisement graduate course because I wanted to do a master's in the advertisement. There is nothing in the college that needs to be improved.

5.0 ★★★★★ Placements 5 ★ Infrastructure 5 ★ Faculty & Course Curriculum 5 ★ Crowd & Campus Life 5 ★ Value for Money 5 ★

Our college has good infrastructure and placements, good quality of teaching and teachers.

Placements: Around 80% of the students were placed in good known companies who participated in training

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 19-Mar-2023.

and placement programme. The salary packages offered by the companies that visit here for campus placements are different and range from 1.8 LPA to 18 LPA. Deloitte, TCS, Wipro, Infosys, etc., visit here.

Infrastructure: The facilities provided by our college were excellent. Wi-Fi had good speed and was well-secured. Labs were well maintained and clean, and classrooms were also well maintained with new projectors. Everything was modern. I didn't stay in the hostel, so I don't know about the facilities provided there.

Faculty: All the teachers here were very helpful, well qualified and subject experts. They have good knowledge about their respective subjects, and their quality of teaching was excellent. The curriculum makes students ready for the industry. Semester exams difficulty varies from the first year to last year. The pass percentage is 70%.

Other: I chose this course as I was interested in it.

4.8 ★★★★★ Placements 5 ★ Infrastructure 5 ★ Faculty & Course Curriculum 5 ★ Crowd & Campus Life 5 ★ Value for Money 4 ★

It is the best college in all aspects.

Placements: It provides the best placements. Around 90% of students were placed in top companies like Deloitte, Wipro, JP Morgan. All the great companies visit to hire students. The average salary package offered was 3.6 LPA. Students also got internships opportunities.

Infrastructure: The infrastructure was best in their respective subjects. Wi-Fi was enabled on the campus. It also provides the best canteen for students. The laboratories session was a great environment, and all tools were provided by the college. Sports and games and all fun sessions were available once a month.

Faculty: Passing percentage was 100%. Papers were set by taking consideration of all student's capabilities, and courses were a little outdated because of Mumbai University. But gives enough confidence to self-learn. Teachers were very friendly, and helps in every stage of life.

Other: I opted for this course, because of my interest in it. I opted for BSCIT and, now doing M.Sc. from the same college. They should update syllabus, and the practical session should be there for designing software. This college was the best. I would suggest it to everyone.

5.0 ★★★★★ Placements 5 ★ Infrastructure 5 ★ Faculty & Course Curriculum 5 ★ Crowd & Campus Life 5 ★ Value for Money 5 ★

The college has great infrastructure, learning environment, and a good crowd.

Placements: 90% of students got placed in companies such as L&T, Wipro and Capgemini etc. The highest package offered for B.Sc. IT was 6 LPA, and for BMS, it was 18 LPA. There is a placement cell in our college, which gives the best advice and trains us for the interview. They also conduct many mock interviews to make the students ready for the real interview.

Infrastructure: The infrastructure is really good. It has premium classrooms with centralised AC. The library is shared among NMIMS as well as UPG students, and it is on the 3rd floor of the building. The library is of 2-floors. There are a total of 3 labs, and all the desktops in the labs are of good quality. You can learn programming languages.

Faculty: The teachers are very friendly with students. Everyone is helpful. Their teaching quality is good. They

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 19-Mar-2023.

teach using the smart board installed in every classroom. The teachers are really experienced, and even the visiting faculty provide good knowledge apart from the syllabus.

Other: UPG has many great fests, and many celebrities visit our college. They support our college fest. The canteen is really big, in fact, it's a restaurant within the college.

3.6 ★★★★★ Placements 1 ★ Infrastructure 4 ★ Faculty & Course Curriculum 3 ★ Crowd & Campus Life 5 ★ Value for Money 5 ★

Think twice before taking admission here.

Placements: I didn't even get to sit for placements, and not by my own choice. I was denied by the college. We had no prior introduction to the placement cell, and hardly any company comes to the campus. If you are looking to take admission in UPG, you should assume that you will have to look for opportunities on your own after college.

Infrastructure: The infrastructure of our college is good. We have classes on only two floors in an eight-floor building. 10 different colleges are run on the remaining floors. The classrooms are all air-conditioned, and we can take advantage of the same facilities that other SVKM colleges enjoy.

Faculty: BMM is probably the most flexible degree you will ever do. If you want your degree to dictate what you do in life, look somewhere else. The degree itself is a good introduction to the media world and rewires your brain to think like a media executive. Apart from that, don't expect much.

Other: The best part about the college has to be the people. Students from all over the world with varied interests, goals and skills come here. Even though I don't attribute my growth directly to the college, I can't deny the growth I have had in the three years because of the people I met and the exposure I got from them.

4.6 ★★★★★ Placements 3 ★ Infrastructure 5 ★ Faculty & Course Curriculum 5 ★ Crowd & Campus Life 5 ★ Value for Money 5 ★

Absolutely satisfied with the faculty and infrastructure of the college.

Placements: The placements were mainly related to the field of journalism. However, companies approaching were exceptional. Placements are based on the caliber of the student. For placements, we need to have a certain amount of percentage attendance to be maintained in order to get approved for placement facilities.

Infrastructure: From Wi-Fi access, library, AC classrooms, computer labs, Photography labs, canteen etc. Everything is more than enough. The quality of every single thing is excellent. There are medical services provided too and the canteen food is very hygienic too.

Faculty: The teachers are very helpful and qualified with excellent experience. Teaching quality is satisfactory and the mentors are there to look forward if there's any query related to anything. The course curriculum is relevant and the professors makes students industry ready for the real world.

Other: Events, fest, campus crowd, connectivity are the major and most amazing things about the college.

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 19-Mar-2023.

Our college provides good faculty members, amazing infrastructure, and many events.

Placements: TCS is the major popular company on campus currently. The placement cell is good, knowledgeable, and strict as they are meant to be by the officials. The salary packages offered are average and are also up to one's own skills. Altogether people are satisfied by the placement.

Infrastructure: The infrastructure of the college is very well presented and is quite amazing. Washrooms are cleaned every hour. There is also a huge library on the campus and it is very well maintained. The canteen is also good. Many people enjoy hanging out and having food.

Faculty: Faculty members in our college are very much knowledgeable and are quite known for their curriculum. Students like their teaching methods. Doubt solving sessions are also being held every now and then to help students for their betterment. Overall they have good faculty members.

2.6 ★★★★★ Placements 1 ★ Infrastructure 4 ★ Faculty & Course Curriculum 1 ★ Crowd & Campus Life 4 ★ Value for Money 3 ★

Fine infrastructure with limited courses, very economic and a good crowd.

Placements: We were around 120 students doing Bachelor of Mass Media which was the batch of 2018 (passing year). I've little idea about the number of students being placed because of the unavailability of the big companies. As per the record, there were hardly 3-4 companies who came in for the placements which were not only for one college but many that come under SVKM.

Infrastructure: Well-equipped with air conditioned library, computer labs and classrooms, Wi-Fi, huge canteen with ample food options and hygienic food. It has its own organised festivals but limited outside participation. Lacked sports activity with no in house facility. Well-equipped with modern day machines to help students practice and understand things better.

Faculty: Faculty is not as qualified as it must be, outside faculty helped us a lot from their industry experience. In house lacked practicality. The curriculum is outdated and need to be looked upon. Privatisation may help the institute keeping the fee economic.

Other: Lacks practical knowledge and very wide course. It can help students to choose if it's limited.

UPG is known for its BMM, and it had great teachers. Projects provided by teachers are amazing.

Placements: I'm not aware of placements as I did not attend for them. However, pool placements are conducted for BMM in UPG and Mithibai.

Infrastructure: Our college has 2 elevators, 4 canteens, Wi-Fi enabled campus, smart board, air-conditioners, recording studio, projectors and 3 computer labs. The college is sprawled over 4 floors, and there is a medicinal centre. Our college encourages active participants in sports and games. The canteen food is amazing, and a variety of dishes provided in the canteen are great. They guide you very well. The classroom is equipped with a whiteboard, smart board and projector. Our college has a computer lab and a recording studio.

Faculty: Faculty members at UPG are amazing and have great knowledge in their field. The course curriculum is

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 19-Mar-2023.

amazing and has great subjects.

Other: This course has taught me a lot, and subjects are great and even better with the projects, where students get real learning. The best thing about our course is there are more projects and more industry interactions. I wish our college provide assistance with internships. Aahan was a great festival celebrated here, and Chali Kahani was also something very special.

4.8 ★★★★★ Placements 4 ★ Infrastructure 5 ★ Faculty & Course Curriculum 5 ★ Crowd & Campus Life 5 ★ Value for Money 5 ★

UPG has everything that a student wishes to have in their graduation college.

Placements: Placement of UPG is shared with Mithibai and NM college. Companies coming to campus are all top companies and many of them are listed companies. Pay scale ranges from 2.5 Lacs to 6.5 Lacs. Companies like citi bank, kpmg, Edelweiss etc. Come to campus. Majority of the students are placed through the campus.

Infrastructure: Infrastructure of UPG is upto the present expectations of the students. It has free access to Wi-Fi, library, music recording room etc. Quality of labs is amazing, all the machines are working properly and each student gets a computer to work upon. Canteen is just like any other restaurant, you name the dish and you get it with atmost quality. In terms of infrastructure, no mumbaikar can expect more than this.

Faculty: Since the college has limited courses so the professor are able to give personal attention to each and every student. Professor are multi talented. Course curriculum covers everything from a management perspective and it is a course that a student should consider if they wish to pursue MBA further.

Amazing course, Amazing Faculty.

Placements: Placement cell is a common cell for NM, Mithibai & UPG. The placement officers were very good & were very helpful. Excellent training was provided to the students on getting prepared. The highest package offered was 7 Lacs for NM & good companies were brought on campus.

Infrastructure: The infrastructure is impeccable. The opportunities provided by the college for building oneself are commendable. From well-equipped computers to the projectors, classrooms and washrooms, the college has provided us with the best of the infrastructure.

Faculty: The faculty are one of the best in B.M.M. The course was well in line with industry requirements & our teachings were extremely helpful in getting a job & performing well in it. The teaching methods used were all excellent.

Other: The college fest is Aahan. The crowd is super savvy. Committees are Rotaract, film making, etc.

The college and faculty are good, but they should improve the placement process.

Placements: Placements were better than previous batches. There is a placement cell to guide students for

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 19-Mar-2023.

the placements and help them crack interviews. The highest salary package offered was 3.5 LPA. Companies like Deloitte, TCS, Infosys, and many more visited the campus for placements. Many small companies hire a lot of students, so almost every student gets placed.

Infrastructure: The infrastructure of this college is better than other SVKM colleges. This is a small college, but the labs and classrooms are much better. The food served in the canteen is good, and the canteen serves only vegetarian food varieties. Also, there is a Wi-Fi facility for students and teachers.

Faculty: Faculty members of the college are the best. There is a teacher for every subject. Also, they are knowledgeable and qualified. The methods used for teaching are understandable, and we get prepared well for the exams. They prepared PPTs to teach us easily, and it even helped us to understand the concepts properly.

Other: Campus crowd is awesome, and most of the students belong to Gujarat.

You must take admission in Usha Pravin Gandhi College for securing a better future.

Placements: Placements in our college were offered based on the grades of students. Around 75% of the students were placed. Salaries were offered depending upon the company. The salary packages were mostly average. Many IT companies like TCS, Infosys, and Capgemini visited the campus. Roles like programmer, tester, and developer were offered.

Infrastructure: The infrastructure of UPG was the best. They provided students with all the best facilities like Wi-Fi, labs, classroom, and library. Quality of labs and classrooms was excellent. Quality of food available in the canteen was good. There aren't any hostel rooms in the college. We didn't face any infrastructure related issues in the college.

Faculty: All the faculty members in our college were helpful and provided the best solution to the problems we faced. Teaching quality was at par. Different methods like PPTs and videos were used for teaching. The student to faculty ratio was 50:1. The course curriculum was useful and provided great opportunities for our future in different IT sectors.

Other: On every special occasion like friendship day, the college conducted some events. They conducted different games for students.

Absolutely satisfied because of the faculty and the exposure received.

Placements: Companies that visited college were mostly IT firms. For management and media courses the placement opportunities were comparatively less. The average stipend was close to around 3-4 Lacs per annum. The IT companies were well known firms such as Capgemini, TCS etc.

Infrastructure: Labs and classrooms were well-equipped with the required technology. The campus had the best canteen in town with a variety of food options available. There is no hostel facility of the college but there are a number of PG options available around the campus.

Faculty: The teachers were well qualified. They were helpful through out the course. Not only academic help,

Disclaimer: This PDF is auto-generated based on the information available on Shiksha as on 19-Mar-2023.

but faculty also supported in various curricular activities. Industry exposure was given for various subjects such as rural marketing. There were 60 students per class. Presentation and cases were used to teach.

Other: College festival - aahan (professional and cultural fest) Committee - NSS, Rotaract clup of upg, mentorship, cultural committee, sports committee, women development cell etc.

5.0 ★★★★★ Placements 5 ★ Infrastructure 5 ★ Faculty & Course Curriculum 5 ★ Crowd & Campus Life 5 ★ Value for Money 5 ★

The best college to provide placements.

Placements: The highest package offered to the students was Rs. 2.5 LPA. Companies like L&T, TCS, Wipro, Deloitte, etc., visited the college to offer placements. Students with a CGPA of 6.5 are allowed for placements, but the college tries to provide placements to all the students. Otherwise, the college is excellent for placements.

Infrastructure: The infrastructure of the college is superb. Wi-Fi facility is available all the time, and it is good. All the students can use it. The library has more than 2000 books, and it is the best for the students who want to study there. Sports are essential, and thus, the college plays an excellent role in sports too. All the computer rooms, classrooms and library are air-conditioned.

Faculty: The faculty members are very helpful. Every professor is well experienced and qualified. They use PPTs and sometimes explain verbally according to the students' coordination. They also provide extra knowledge other than books. Almost every student interacts with the respective professor very well.

Other: Aahan event is the best as it helps all types of students in taking part in it. The crowd is the best. Students are taken to field trips to gain extra knowledge.

One of the best colleges for management studies with a great infrastructure and faculty members.

Placements: The college offers good placements with companies like Morgan Stanely, HDFC, Axis, Capgemini, L&T and many more. The college also conducts various soft-skills sessions to make sure the students develop communication and various other managerial skills which are essential for working in the organisations.

Infrastructure: The college has the best infrastructure compared to various other colleges in the suburban areas. The college library is well-equipped with all the reading materials like textbooks, magazines and other reference books written by renowned authors. IT labs are well-equipped with computers of the latest technology and classrooms are structured with proper seating. Projectors are available in all the classrooms and the IT lab.

Faculty: The college has the best faculty members on campus. Faculty members are well versed with current market trends. The college also arranges for experienced visiting faculty members for various subjects. The course curriculum is at par with the course curriculum suggested by MU. Courses are completed well on time so that students get adequate time for preparing for the exams.

Other: The college should have a gymkhana with carrom, chess and TT for students to get refreshed, and should also encourage student for various sports.

UPG is the best college, you won't get regret after joining here.

Placements: The placements are way too good in any of the SVKM colleges you pick up. Usha Pravin Gandhi College of Management is too good and cooperative in terms of the placements. They even do have a placement cell so mostly 99 out of 100 get placed. It is the best college in Mumbai.

Infrastructure: The infrastructure in Usha Pravin Gandhi College of Management is too good. It has Wi-Fi access all over the campus. The classrooms are so comfortable and awesome. It has air conditioners in it. It also has an on-campus doctor for the medical help.

Faculty: No college can have better faculty than Usha Pravin Gandhi College of Management. The college ensures that you have learnt more than the syllabus. It even keeps remedies for the students who haven't learnt subject properly due to the absence of lectures or something.

Other: It organises three fests for a year Aah, N Lit and Techvanza.

4.2 ★★★★★ Placements 4 ★ Infrastructure 3 ★ Faculty & Course Curriculum 5 ★ Crowd & Campus Life 4 ★ Value for Money 5 ★

I would Highly recommend this college as this college is worth the money.

Placements: Various Companies do come during the last year of the college. Jobs are offered on Students ability and Its caliber basis. College faculty do help in training students for the placements. Average package are around 2-4 Lacs approximately. Various marketing and finance companies do visit the campus of this last year companies which visited were Barclays Bank, Delloite, Endurance International, etc.

Infrastructure: UPG college is a three floor buliding. Where in this college it does have a library, canteen. Infrastructure wise the college is average but yes it is always said that small things gives happiness and UPG is one of them. We do also have Wi-Fi facility around the foyer and the non teaching staff is also friendly.

Faculty: There are Three Bachelor's programme offered in our college which are BMS, B.M.M. BScIT and two Masters progerm one in Media and outer one in M.Com. All the courses are taught by qualified teachers and all the teachers are friendly. Curriculum is Excellent and well taught.

Other: There are various events, festivals, seminars held around the college. This include their Festival Aahan. There are also other various committees in the college which are National Service Scheme, Mentorship programme, Entrepreneurship-Cell, Rotaract Club, Women Development Cell, etc.
