- OXL association with Pure Design Solution, OXLUGA and OXL Films.
- OXL managed the Special Guest Lectures, Seminars and Brain Storming sessions.
- OXL helping students to get handsome remuneration from national and multinational companies and campus placements.

OUR AIM

The world of multimedia is a gold mine of career opportunities for those who have an aptitude for combining their creative talent with technological skills. It is a world in which such creative people use text, graphic, animation, audio and video with computer interactivity to create new visual and virtual world. OXL sees tremendous employment potential in this sector of multimedia and hence offer its programs which don't have a parallel in North India. OXL multimedia have been conceived to aid the youth minds on an international platform so that our talent does not need to travel to Mumbai, Hyderabad and Chennai for professional education in 3D Animation and other New Media Courses. We are committed to drive the evolution of OXL as a brand which is synonymous with the highest quality, most comprehensive is built on the groundwork of years of experience, credibility and expertise. We make sure that our student are able to transform their ideas from the germination stage to splendid frustration.

OUR MISSION

Empowerment Through
Technology

CAREERS

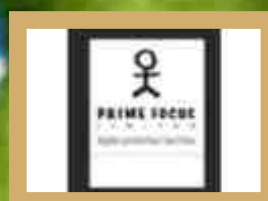

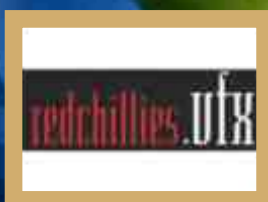

Animation, Non-Linear Editing and Graphics is one of the youngest, fastest changing and most rewarding industries in Computer Animations. Well-trained professionals are always in demand. Animation Movies, Creating Television Commercials, Engineering, and Architecture are some of the many projects where countries all over the world get their outsourcing done from India. After their relevant courses in 3D, Non-Linear Editing and Graphics; students have a broad spectrum of fields to choose from.

You Could be **Placed** with these prestigious **Companies**

We, at OXL Multimedia, provide our students with an appropriate environment to develop their skills which meet industry requirements. Our students have been placed across various levels in top most animation & production companies.

* OXL School of Multimedia regularly conducts placement workshops to prepare students to face job interviews & aptitude tests. OXL students are taught skills such as resume writing, presentation skills, and time management in these workshops so that they become completely industry-ready by the time they complete their course.

CAREER COURSES

It is not the technology that initiates good results, but an artist. So our every endeavor is to teach you to interact transparently with the software. OXL's curriculum is designed, developed, tested and taught by some of the most recognized Industry Professionals. Our approach is to pioneer an effective way to prepare students and professionals for their career in the Computer Graphics Entertainment Industry and to provide real education in the field of Multimedia.

Our Programs are designed to produce well-rounded artists versed in technical, digital and traditional skills mandatory to succeed in the fields of Animation, Visual Effects and Graphic Designing.

ACGPD

Duration: 576 Hrs

We are not here to teach you different tools but we propagate "Create not operate". We will not flood your knowledge with software but would streamline your knowledge to reach the pinnacle of Industry. Story boarding & script-writing being the key process we teach our students their guidelines. Students are taught Photoshop and given various projects to test their expertise. We enlighten our students on the methodology of Sketching & Clay Modelling.
