## PROSPECTUS

# TEACHERS' ACADEMY

GROUP OF INSTITUTIONS

## GARDEN CITY OF INDIA

Bangalore is the capital and the largest city of Karnataka. It is also called 'Garden City' for its beautiful gardens, flowers and trees which flourish in each and every street. It is India's fifth largest city and India's fifth largest metropolitan area.

After India gained independence in 1947, Bangalore evolved into a manufacturing hub for heavy industries such as Hindustan Aeronautics Limited and Indian Space Research Organization. Within the last decade, the establishment and success of high technology firms in Bangalore have led to the growth of Information Technology (IT) in India. IT firms in Bangalore employ about 30% of India's pool of 1 million IT professionals. The city is also the Training Center for the Indian Air Force, the Madras Engineering Group (MEG) and Central Military Police, the latter two being arms of the Indian Army.

Bangalore is the scientific hub of India and it has the world-renowned and the oldest Research University, Indian Institute of Science. The other research institutes are the Indian Institute of Astrophysics, the Raman Research Institute, the Jawaharlal Nehru Centre for Advanced Scientific Research, the National Center for Biological Science and the Indian Statistical Institute.

Bangalore boasts of its numerous gardens and historical sites such as the Lal Bagh Botanical Gardens which holds a number of flower shows especially during the Republic Day. The Vidhan Soudha or the State Secretariat, the Government Museum of Bangalore, the Vishweshwaraya Technological and Industrial Museum, the Fort of Tipu Sultan and Bangalore Palace are other places which attract several tourists.

The age-old temples of Nandi, the Bull; Venkataramanaswamy; the Gavi Gangadhareshwara and the Someshwara are world-famous for their unique architectural designs.

## WELCOME

Choosing the right college is by far the biggest and the most important decision that'll shape the rest of your career. Especially now, in the light of recent incidents of institutions not matching up to their credentials, making false promises and letting their students down, we at Teachers' Academy urge you to closely examine facts and look into details before you trust your future with an institution.

Teachers' Academy, started by a group of dedicated and experienced teachers from Bangalore vowed to impart quality education to its true meaning and leave a mark in the society for its commitment towards students, faculties and parents. A warm welcome to you to Teachers' Academy Group of Institutions and to the Garden city of India.

To help you make the right choice among the various courses available, we've included a brief insight on each of the programs. If you need further assistance, Counselors at the college will be glad to help you.

## VISION

Our vision is to instill prime human values and thoughtfulness in our students along with achieving educational excellence.

## MISSION

Teachers Academy believes that every individual has fathomless potentiality in them and ideal metamorphosis is only possible through quality education.

The mission of Teachers' Academy is to impart value-based education to all students coming from various socio-economic-cultural backgrounds and academic skills and catalytically transform them into world-class experts.

## PRINCIPAL'S MESSAGE

**Prof. Parameshwarappa D.J.**

Principal

The main motto and objective of Teachers' Academy Education Trust is to impart education at its best charm, have a parents' friendly, student caring environment, and a result oriented perspective, for which the entire college staff and seniors pledge their quality time and dedication.

We make education: comprehensive, balanced, culturally relevant and socially sensitive. Our instructional process is student centered. Each student, a focal point, is considered as an active learner here. Variety of educational methods with modern technology is used for an effective and stimulating learning experience.

Extracurricular activities are designed to appeal the interests and needs of our student scholars.

Besides the academic fraternity, we are equipped with sufficient management and support staff to advocate prompt attention and to cater to the student needs.

I guarantee every student, who enters the portals of this Institution a very unique and an exhilarating experience.

I welcome all aspiring young minds to join this enthusiastic family of Teachers' Academy in the pursuit of knowledge and to serve the world at large.

## ACADEMIC DIRECTOR'S MESSAGE

**Prof. Gangull R K**

Director - Academics

Dear student,

It is with great pleasure that I welcome you to the portals of this great learning Institution, Teachers' Academy Group of Institutions at Bangalore North.

I congratulate you for your decision to join us and I assure you that you have taken the right decision to join this college from among so many colleges here, at Bangalore. The sole aim of Teachers' Academy is to provide quality education to students and at the same time develop a strong student-teacher-parent relationship. A group of dedicated teachers have started this college and I am a part of it with a dream that every student of our college, with the help of a faculty that is committed to excellence, will grow to make a difference in the society.

We offer various scholarships to enable students of all backgrounds to have access to education. Our main focus is ensuring that students receive industry relevant education to stand out in this highly competitive global marketplace. A college should not only focus on the infrastructure and outlook of the campus but do what is necessary to build their students' career. It is helplessly noted that students after graduation from many institutions are just students with a university certificate and are not employable and they keep hunting for a job and at the end, settle down with some work not related to their studies. As the education system is basically THEORY-CENTRIC, they study only the university syllabus in such institutions and are not trained in the necessary employability and life skills. The industry requirement is not fulfilled and hence there is a gap. To bridge this gap the mentors of Teachers' Academy together with the industry professionals have conceived a highly researched 100% job oriented, result guaranteed program, **TESTIFY™**, which offers a unique blend of theoretical and cutting edge functional inputs to students making them complete in all respects.

So don't be another graduate hunting for jobs. Let Teachers' Academy help you achieve what you dream and I promise, you will not be let down.

I once again welcome you to Teachers' Academy where your journey of education will be more exciting.

## THE TEACHERS' ACADEMY STORY

Bangalore, few decades ago known as clean and green cool vibrant city for retirement living, later turned into software capital of India, these days silicon city, is also becoming a prominent hub for providing professional and core education system. Teachers' Academy Group of Institutions, situated 12kms away from central Bangalore, located in Hennur Main Road, near Kammanahalli actually was the brain child of a group of student-caring lecturers, who realized after working in different institutions that there

were so many deficiencies and lapses in many college managements and their education systems as an impact of which their students failed to make it big in this competitive world.

Student success  
starts here !

Parents send their wards to institutions to get quality education and career guidance and it becomes the moral responsibility of the educational institutions to bring the best out of the students. Keeping students' interests first in mind, our mentors started a learning center for distance education from Manipal Education Group - 'Sampoorna Academy of Management & Science' at HBR layout, Bangalore in 2006 offering various Bachelors & Master Degree programs to over 1200 working professionals, and 'Prime Tutorials' at Lingarajpuram, yet another educational institute offering quality pre-university coaching to over 500 students. These mentors along with few other like-minded teachers from different colleges came together and conceived Teachers' Academy: an epitome for quality education.

Teachers' Academy has technically integrated smart screen class rooms, biometric attendance system, high-end Science Laboratory, Library and Non-profit Canteen facilities, in addition to internet accessed text material, and notes sharing are made easy among students' groups through college website.

Our founders, promoters, board of directors and the faculties: all being from education background for almost one and a half decades, have an eye for every detail and the value added services that are extended to students are designed by them after a lot of research and pondering. They have taken an initiative towards providing better education with spectacle teaching techniques.

## MESSAGE FOR THE PARENTS

Dear Parents,

A hearty welcome to you from Teachers' Academy Group of Institutions!

I congratulate you on your decision for allowing us to mentor your child. In the hands of very dedicated and experienced faculties, your child will be given excellent guidance and platforms to explore his potential skills and to reach the zenith of success in his profession of interest.

Children's behavior, competency and performance in academics are all kept under constant surveillance by our society and peers, because of which parents and children are under constant pressure to perform well. Though every child is special in his or her own way, we under societal pressure fail to identify the special traits exhibited by them and impose our opinions and decisions on them. Thus, we unknowingly become responsible for their downfall. Hence, I request all parents to be patient, responsive and supportive towards your children, have faith in their decisions and this will transform them to be a lot more confident and successful individuals in the long run.

Besides this, it is also important for you to:

- Provide the right atmosphere and space at home for his study
- Ensure that your ward maintains very good attendance at college. (Let them not miss college for silly reasons like headache, etc. However, he/she should not come to college if they are seriously sick. Every class is important and the continuity will be lost if he/she is absent)
- Ensure that your ward comes to college on time and reaches home on time after college
- Call and talk to their teachers if you have any college related concerns
- Ensure that your ward comes to college in college uniform
- Ensure that Electronics gadgets and cell phones not be used in the college campus. (Parents may keep in touch with their wards through dedicated telephone lines provided by the college.)
- Keep yourself informed about their daily academic and extra-curricular activities
- attend the parents'-teachers' meetings timely and feel free to meet any teacher or staff of the college at any point of time to attend to your concerns

I look forward to working with you and your child as we start this new academic year because.... together we make a difference.

**Prof. Ganguli R K**  
Director – Academics  
Teachers' Academy Group of Institutions

Good ideas are common – what's uncommon are people who'll work hard enough to implement them.  
- Ashleigh Brilliant

....Teachers' Academy Implements.

**Mentors:** "The mediocre teacher tells. The good teacher explains. The superior teacher demonstrates. The great teacher inspires." - William Arthur Ward

Teachers are the backbone of any educational institution. Apart from the necessary infrastructure we have a team of dedicated mentors who are student friendly and result oriented. We have one of the best faculty team to support the Teachers' Academy student community who are involved not only in teaching the university syllabus but also guiding them to the right direction.

**Study after College hours:** Students spend a few years with us and it is quite a precious time in a student's life and this needs to be aptly utilized to incubate the young minds so that they turn out to be the best in the world.

During their years of study, students find time-management the most difficult. Hence, to help them overcome this difficulty, our mentors have designed time-tables for not only the regular every day classes but also separate ones for their home study.

We ensure that not much of work is carried home by extending their hours of stay in the campus, beyond the college hours, to study in the presence of their teachers. This will help them understand the concepts better and clarify their doubts with their very own teachers. Out of 9½ hours of college every day, two short and one long breaks are given in-between the classes. Exam preparations are made during the extended study hours. The parents can rest assured on our mentors for the results and the well being of their wards.

**Live Recording of Classes:** If a student is absent during lesson hours, we ensure he does not lose the continuity of the chapter and go astray. This is achieved by live recording of the lectures. The absentee may download the same from our website and get prepared for the next class.

**Live Video of Classes:** We have outstation as well as out-of-country students studying here. Parents of such children may feel relieved by watching their children on-campus through our CCTV cameras installed in all the classrooms at any time live from our website.

**Stay Connected:** As we do not allow mobile phones in the campus, we have provided common telephones at every floor so that parents can call their wards anytime for any emergency.

**Student Portal with Individual Student Login:** Every student or parent can login to the portal and view the student's performance, attendance, results, assignments, etc and also share their queries and doubts. Parents can find the weekly progress report on the website and all information related to college activities will be on the portal.

**Counseling:** Today's students, live under stress and pressure that were not so apparent in the past. They are exposed to the erosion of values in society, materialism, competitiveness and insecurities that can leave an irreparable impact on their young minds. Proper counseling helps them to identify these problems, heal them and help them to move on. Our professional counselors are at service for this purpose at any given time. Any kind of a psychological or personal problem will be addressed by them with utmost confidentiality.

**Destiny™:** Destiny™ is a mosaic of training programs from different domains and is a part of every day's timetable. This encompasses communication skills training, personality development programs and soft skills training with various other features.

**Online Library:** If the compulsory library hours is insufficient for a student then the student can access all the books of our library sitting at home online 24x7.

**Weekly Tests:** Public exams will become a everyday issue after appearing for weekly tests throughout the year.

**Extras:** Apart from the regular syllabus, we are offering various curriculum related, job oriented certified training programs from various recognised certification organisations which will help our students to become job ready for various industries. These programs are tailor made according to the students level of understanding and keeping an eye on their future goal.

**Attendance:** The college do not have physical attendance system. The reason behind this is to save time and accurate monitoring of a student time in & out. Biometric attendance system is server based and automatic SMS push alert is sent to parents.

## GYANDEEP SCHOLARSHIP - REWARDING MERIT

Teachers' Academy Education Trust offers 'Gyandeeep'— a nationwide scholarship offered to deserving students of Teachers' Academy, is first of its kind in the field of PU Education.

The Gyandeeep scholarship is offered to students of both Science & Commerce streams.

### Highlights

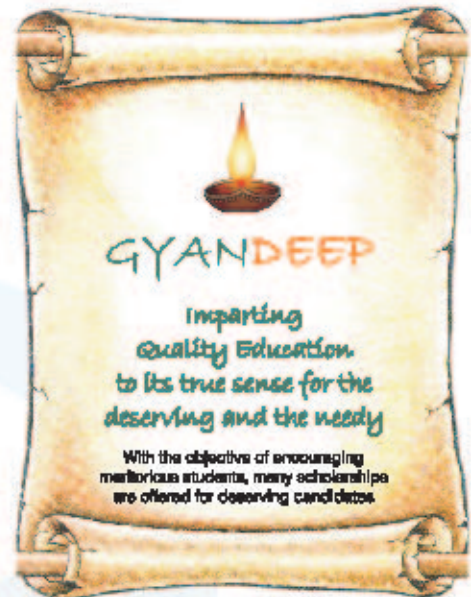

Gyandeeep provide up to 100% of course fee waiver. We offer these scholarships for 10% of our fresh students joining us every year.

### Eligibility

- Students who score above 75% in the Gyandeeep Scholarship Test
- Students who have scored more than 80% at their PU exams
- Students below poverty line with good scholastic record and aptitude.

Students should be enrolled in any of our Pre-University programs to apply for the scholarship. The scholarship will be awarded based on the student's performance in the qualifying exam. For more details please contact our counselors at the college office.

We encourage all the parents to freely contribute to our Gyandeeep Scholarship Fund to add to our efforts to support more and more students every year.

## Destiny™ - U choose, we help U achieve

There are huge job opportunities in various sectors like banking & finance, IT, insurance, retail, telecom etc. To bridge the gap between the industry demand and the academy syllabus, the program **Destiny™** was conceived by the faculties of Teachers' Academy together with industry professionals. It is a full proof 100% result guaranteed program which makes our students employable in various industry sectors. This program will direct your career graph in the right direction.

100%

### Common Training modules

## FACILITIES

### FACULTIES

Holding the attention of the entire class for long hours without letting them to get distracted or bored while teaching is the greatest challenge any teacher faces in his or her career. Our trained and experienced teachers have overcome this challenge by adopting many teaching aids along with the usage of latest technology in the class rooms. Our teachers are easily accessible at any given time and students can take their guidance for their regular studies and for project works as well.

### CLASS ROOMS

The college has a radiant ambience with well ventilated classrooms, glass doors with heat radiation protection and comfortable furniture in all the six floors of the campus. Classes are technically updated and integrated with interactive smart boards and DLP projectors for visual based education. All classrooms are networked with optical fiber high speed internet connections.

### LIBRARY

Library on the fourth floor of the campus is equipped with a broad spectrum of book collections. Bulletin boards in the library are always filled with the latest updates on books.

These books are also available at our Digital Library and students can access these books online through our Online Library, which means our library is open to students 24x7, throughout the year.

### LABORATORY

The college is provided with state-of-the-art computer lab for students. The college has ensured to setup sophisticated science & computer laboratories with latest devices and equipments to instigate experimental learning among the students.

### AUDITORIUM

The college auditorium is used throughout the year by our students for various get togethers, management fests and other cultural programs.

TEACHERS!  
ACADEMY

## FACILITIES

### SEMINAR HALL

Our seminar hall with state-of-the-art equipments has been setup for students to deliver seminars as a part of their DESTINY program. The seminar hall is also used for conducting guest lectures frequently.

### CANTEEN

Every student may not have affordability to consume food in decent hotels and it's expensive too. So, we have provided cleanly maintained canteen food at cost price. That can even save time rather going out for food.

### TRANSPORTATION

The college being centrally located is well connected with public buses and the students have the provision to opt for college buses for their pickup and drop from major localities of the city.

### PARKING

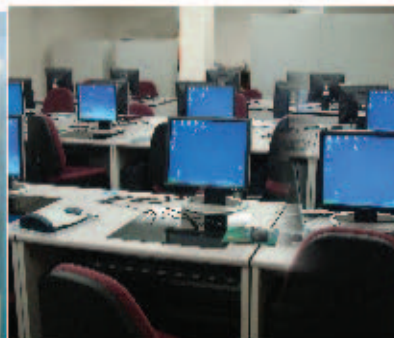

Vehicle parking facility is available to students at the college basement to ensure safety and security.

### HOSTEL

Separate girls and boys hostel accommodations are available for out-station students. The rooms are well furnished, ventilated and clean. 24x7 security is provided to both the hostels. Hostel mess, which is within the hostel building, provides hygienic food for its inmates.

### PLAYGROUND

The college has provided a huge play ground for the student who are interested to take part in various sports activities. The ground is also used for the college sports and various other cultural programs.

SCHOOL OF ENGLISH

Teachers' Academy School of English has designed English programs which is tailor made as per the students' requirement. The academy has excellent faculty, who are well qualified, experienced and dedicated. Individual attention is the key for successful training. In some cases, like Pre-Basics class, one to one coaching is provided. The teaching methodology is modern, simple and fun filled. Students are not grilled into boring grammar exercises. Grammar is taught through games, discussions, debates and role play. Teaching aids include recording systems, televisions, VCDs and video camera. The relaxed and friendly atmosphere promotes easy learning. The institute has well equipped spacious classrooms with computer, projector, camera and speakers. The modules and courses have been carefully prepared by experts catering to the requirements of students' level of English language. We have various programs like Foundation, Intermediate, Diploma, Advanced Diploma, IELTS (International English Language Testing System), TOEFL (Test Of English as a foreign Language) and other short term and long term programs.

### Program Highlights

- Flexible study format to suit your requirements
- Curriculum designed by our expert trainers
- Worksheets and class test at regular intervals to assess your progress
- Audio visual classes
- Fun filled learning activities

TEACHERS'  
ACADEMY

## STUDENT COUNSELING

Our Student Counseling team provides programs and services which are tailor made according to the students need and are designed to assist students in achieving emotional well-being necessary for success. Our mission is to help students manage academic and personal demands more effectively. Our professional staff is always available at the campus and all counseling is confidential.

In the present days most of the students live under stress and pressure for various reasons and only effective counseling can help them recognise these problems and cope with them. Our specialised team of counselors are focused and they are capable of handling such issues in an intelligent way.

## CAMPUS INTERVIEW & PLACEMENTS

Our placement cell caters to both IT & Non-IT segments into Junior/middle/senior level candidatures also providing services of head hunting and "group" selections. The cell operates not only our In-house students but for the general candidates also.

Our campus interview team selects the right candidates for the clients, train the candidates to the tune technically and aesthetically to the satisfaction of the clients and hand them over to the Company for induction process. In the process, the Company incurs lesser costs, get the best advantageous services and are devoid of time factor. All the burdens of selection process is handled by our In-house consultants.

We believe, HR is the most precious asset of any organization. And selecting the right candidate who can "by merits and attitudes" match the expectations of the employer is of utmost concern not only for our clients but for us too. We just do not go only by merits, but the right attitudinal candidate too which most other HR consultants seldom practice. More, after preliminary selection, we impart them sufficient training if found necessary so that the candidate is fully equipped to take the chair immediately without any "ifs and buts".

Being into the field of information and academics, our motto is to provide the best to our clients at the right cost that is unmatched in the industry.

The following aspects are of utmost importance to us :

The candidate is not a commodity to us but an asset to our prospective clients and we stress on value addition to the traits and other attributes of the candidates by giving adequate training even before he/she is sent for an interview. We try to impart the culture of the Clientele Co into them right at the first instance itself. We tell them straight - this is what is expected of you and this is what is in store for you from the Company. We believe in fast induction of the incumbents.

We ensure (we do not believe in insurance as it is a post damage exercise) that the candidate is fully aware of his/her future with the Company. Placing the right candidate for the right job him/her having understood the basic responsibilities and authorities is what we believe in for attainment of long-term results.

We care for our placed candidates as also our esteemed clients in a balanced manner even after the placement is effected to ensure that we get "happy notes" from both the sides.

As for the candidates, the search should end here.

As for our esteemed client, the confidence should be that once the responsibility is placed with us, the matter ends over there.

## ADMISSION PROCESS

### Indian Students

The students are required to go through the course details and the eligibility criteria provided along with each course in this prospectus. In case of any queries feel free to approach our academic counsellors personally or through e-mails through the "Enquiry" page in the website.

Application forms and brochures can be obtained in person from the college office. Alternatively, the same can be couriered or mailed to the students upon receiving a formal request. To apply for a particular course, the students are required to submit necessary documents to the college.

Applicants eligibility for the course applied would be checked and the students will be informed. The students will have to provide the following documents at the time of admission.

Documents required:

- Applications for admission must be submitted in the prescribed form along with attested copies of all marks cards starting from 10th std, Transfer Certificates, Migration Certificate from their respective colleges, 3 passport-size photographs and a self addressed stamped envelope before the stipulated date.
- Short listed candidates must attend their interviews on the dates notified.
- Selected candidates must submit their original marks card and Transfer certificates and pay the prescribed fees at the time of admission. Fees once paid will not be refunded under any circumstances.
- All admissions are subject to the approval of the Universities.
- Parents / Guardians photographs

For more information or clarification and FREE academic counseling visit our website at: [www.teachersacademybangalore.com](http://www.teachersacademybangalore.com)
