

CHOOSE YOUR MOVE  
because it's your life.

## A Life Changing Opportunity in the City of Hyderabad

The City of Smiles, endearingly called the pearl city, Hyderabad is known for its' local traditions in art, literature, architecture and cuisines. It blends the culture and tradition with the progress and modernity. It has everything from Heritage Monuments to Hi tech city, Museums to Multiplexes, lakes and parks to lush green Resorts and Gardens. It offers delectable cuisines to delightful shopping experiences. The twin cities of Hyderabad and Secunderabad boast of the signature monument Charminar, Asia's largest Film studio-RAMOJI film city, International Shopping Malls, Seven Star Resorts, Zoo, Gardens and many more. It has got the biggest Race course in the country. Any one, who knows about India, they know for sure about the Famous Hyderabad Biryani.

Nevertheless, the city of the Nizams is a globally famous IT hub, having all the big names from the IT and ITES sector. The spacious Hi-Tec city houses all MNC s like Google, Microsoft, Accenture, TCS, Infosys, WIPRO, Tech Mahindra and many more. The city has major industries like BHEL, ECIL, BDL, DRDO, CCMB, NMDC. It is an excellent destination for career conscious youth, as a large number of corporate houses , MSME s are established here. More so, Hyderabad is one of the favoured city for national and Foreign Investors.

The Vishwa Vishwani Campus is located in Hyderabad amidst the serene and secure cantonment zone, which surrounds some of the Top most Institutions like NALSAR, BITS- Pilani, Airforce Academy, AP Industrial Security Academy and many more.

## Management Education: Destination Hyderabad

### Why MBA / PGDM at Hyderabad?

#### Hyderabad – the futuristic city

Hyderabad with its' vibrant economy and growth rate is offering a wide canvas of career opportunities for the MBA and PGDM qualified candidates when compared to even large metropolitan cities like Mumbai, Delhi, Chennai and Kolkata.

#### Robust Infrastructure and a High Growth Destination

Hyderabad is one of the fastest grown Business cities with IT corridor, special economic zones, investment parks and new townships. In 2009, the World Bank group ranked Hyderabad as the second best Indian city for doing business.

Hyderabad is home to more than 1300 IT and ITES Firms, that includes Global conglomerates like Google, Apple, Microsoft, IBM, Infosys, Deloitte, Tech Mahindra, TCS, HSBC, Dell and many more.

Among the 22 Universities in Hyderabad there are 3 Central Universities (HCU, EFLU, MAUNU), 3 National Institutes (IIT, NIT, IIIT), NALSAR - University, BITS and 5 Top Business Schools (ISB, SMS-HCU, OU-CCMB, GMR Business School and Vishwa Vishwani)

The Information Technology Investment Region (ITIR), Hyderabad is an IT investment region being jointly developed by the Govt of India and Govt of Telangana. The ITIR Project is aimed at providing direct employment to 1.5 million people.

Your gateway to world-class career opportunities

## Nurturing Knowledge. Delivering Values.

### From the Principal Director's Desk

As new technology and market forces make the global economy profoundly competitive, business education needs to be global in outlook, rigorous and bold. New ideas, new products and new economies demand new insights, tools and responses.

Founded in 1998, Vishwa Vishwani Institute of Systems & Management, as one of the few promising Business schools, has sincerely endeavoured to compete with self, in providing the best Management Education.

Vishwa Vishwani's Global Management Program emphasizes management skills training and Application of Technology in business thinking.

Vishwa Vishwani will strive to remain distinctive among the country's great business schools by combining human scale with global reach, thought leadership with great teaching, and rigorous coursework with experiential learning and nurturing valued traditions with innovation.

Vishwa Vishwani owes its' growing success to all people, facilities, and setting in the midst of the natural beauty in the historical city of Hyderabad. The Institute is a place with endless opportunities for intellectual and personal growth. Relationships - with peers, influential alumni, the business world, and other academic institutions - are at the core of the Vishwa Vishwani experience.

I am pleased to invite you to feel this experience being a part of the Vishwa Vishwani's growing Family.

**Shrinivas Acharya.T**

# MBA / PGDM with Business Analytics

The PGDM-Business Analytics is a Two Year Full Time Program, Approved by All India Council for Technical Education, Ministry of HRD, Govt. of India.

## PGDM Business Analytics Program

### Building Industry Relevant Skills

The PGDM Business Analytics is a Two Year Full Time Program in collaboration with INSOFE imparts essential analytics skills which help research, interpret and transform businesses based on data, no matter which management field one is pursuing – HR, Operations, Marketing, Finance or any other. Its modules in Descriptive Analytics, Predictive Analysis and Social Computing develop skills that are applicable across a spectrum of fields besides the in-depth focus on core management topics in the curriculum with the latest software content, real-world industry experiences, hands on lab course, best practices and case studies all into a single unique education program.

Transformation is the key to keeping pace with the ever-changing market. Current trends indicate the undeniable importance of technology in managerial decision making, along with the vital role that data plays in gaining competitive advantage. INSOFE and Vishwa Vishwani have partnered to help students enhance their skills in areas of managerial decision-making and strategy.

### Achieving Greater Heights

The PGDM Business Analytics Program aims to create managers and leaders who understand the implications of humongous volume of data generated by the enterprises today. With the rise of multimedia including social media

this has become an integral need from corporate leaders. With the program in analytics the students will be able to help their employers gain better customer insights, manage risk, and financial metrics more effectively, and help strive for unique market differentiation. The program covers all the relevant general management topics and includes the courses on Descriptive and Predictive Analytics, Data Mining, Big Data and Financial Planning. In later semesters the focus is on Business Analytics in various industries like Retail, Manufacturing, BFSI and more.

The program is a holistic, comprehensive one with customized offerings for management students, ensuring the right results & benefits by collaborating at various levels, be it curriculum support, software foundation skills, capability building or experiential learning through Live Projects which brings together the latest software content, real-world industry experiences, hands on lab course, best practices and case studies all into a single unique education program.

## BIG DATA: The next frontier for innovation, competition, and productivity

Business Analytics is one of the fastest growing business job specialisations as a result of the extensive use of electronic databases for record keeping and electronic commerce in the digital economy.

According to a recent Wall Street Journal, companies barraged with data

from the Web and other sources, want employees who can both sift through the information and help solve business problems. As the use of analytics grows quickly, companies will need employees who understand the data.

## Demand & Prospects of Business Analytics

Throughout the world, the demand for people with the skills and mindset for quality data analysis is still far ahead of its' supply. In fact, a report by the McKinsey Global Institute claims that by 2018 the US alone is expected to have a shortfall of 140,000-190,000 people with critical analytical skills. Yet employees who have control over and the ability to analyze ever-growing sets of data are increasingly moving ahead, receiving higher pay in organizations around the globe. The key career options may be that of business analysts, data scientists, information analysts and project managers. The potential recruiters in the area of Business Analytics in India are large IT players like Infosys, TCS, HCL Technologies, Cognizant, IBM, Dell, Wipro, Accenture, SAS and also a number of specialist Business Analytics companies.

## Industries Driving Business Analytics Growth

Manufacturing, Retail, Financial Services, Banking & Insurance, Telecom, Health Care, Logistics and Supply Chain.

MGI studied big data in five domains healthcare in the United States, the public sector in Europe, retail in the United States, and manufacturing and personal location data globally. Big data can generate value in each. For example, a retailer using big data to the full could increase its operating margin by more than 60 percent. Harnessing big data in the public sector has enormous potential, too. If US healthcare were to use big data creatively and effectively to drive efficiency and quality, the sector could create more than \$300 billion in value every year. Two-thirds of that would be in the form of reducing US healthcare expenditure by about 8 percent.

In the developed economies of Europe, government administrators could save more than €100 billion (\$149 billion) in operational efficiency improvements alone by using big data, not including using big data to reduce fraud and errors and boost the collection of tax revenues. And users of services enabled by personal-location data could capture \$600 billion in consumer surplus.

## Chart the course of your career.

### Programs Offered

PGDM - Dual Specialization

PGDM - Marketing

PGDM - Business Analytics

PGDM - Pharma Management

## Industry Institute Partnership Programs

In the past decade a lot has changed in the interconnected and intelligent world. We believe that it is imperative to share and collaborate across industry and academia to build knowledge, solution and talent for this challenge.

Today's business leaders require greater flexibility, a broader vision and the ability to operate in an increasingly diverse environment. Hence, it becomes imperative for them to keep abreast of modern concepts so as to increase their efficiency and productivity. The PGDM collaboration with TechMahindra and CallHealth Programs of Vishwa Vishwani, Hyderabad functions as a facilitator in enabling participants from the industry to understand and appreciate the latest industry offerings.

The Program delivery and teaching is conducted at the Vishwa Vishwani Campus. The Course work highlights the change you bring at your work... with respect to your peers, colleagues, organizations and environment. The program focuses on strategizing the complexities of a business situation. Instruction aids such as simulations, videos, cases, books, reading material and online resources form an important part of the teaching strategy.

The PGDM Programme is fully Approved and Accredited by All India Council for Technical Education, Ministry of Human Resource Development, Government of India.

---

# Building skills beyond the classroom

---

While the education gained in the classroom is without a doubt beneficial, At VV we strongly believe using what was learned and applying it to real world learning opportunities will lead to a more robust and well-rounded education.

Teaching and learning can become inherently spontaneous and student-centered when moved from the confines of the classroom into the world at large. From the collaborative learning atmosphere that results from the unique relationships developed outside the classroom, to the deep learning that occurs when students must put into practice “in the real world” what they have theorized about from behind a desk

## The class Less Classrooms

- ◆ Field Trips
- ◆ Service Learning and Community Engagement
- ◆ Study Abroad
- ◆ Technology Outside the Classroom
- ◆ Assessment of Field Experiences
- ◆ Resources for research on Experiential Learning

## Personality Improvement Program

The Skill Development Activities through the integral teaching learning mode helps the students in excelling their personal effectiveness. Besides the various core and specialized functional areas taught through a rigorous academic delivery, we extensively focus on building the personal skills of the students

### Vishwa Vishwani focuses on Key Personal Development Skills :

- ◆ Communication Skills
- ◆ Interpersonal Communication
- ◆ Listening & Speaking
- ◆ Multitasking
- ◆ Work/Life Balance
- ◆ Social & Professional Etiquette
- ◆ Confidence Building
- ◆ Self Determination & Motivation
- ◆ Value Identification
- ◆ Accountability
- ◆ Integrity
- ◆ Self Actualization & Personal Identification
- ◆ Identifying Personal Strengths & Weaknesses

Vishwa Vishwani 's outbound training program helps the students to unlearn and relearn their thinking, behaviour and personality.

## PGDM – Part Time

The PGDM (Part-Time) program is a 24 months management course that offers you a unique opportunity to enhance your knowledge base, maximize your leadership potential, and expand your corporate network, all while maintaining a balance between your personal and professional lives.

The program allows you to continue your full-time professional activities while developing skills that boost your career to an international management level and that will raise your profile within their current organization.

The PGDM – Part Time is designed for working professionals, to sharpen their business acumen and analytical skills, as they move up the corporate ladder.

The program aims at preparing a genre of T-shaped professionals - persons with domain expertise coupled with appreciation for the broader perspective of the organizational goals along with leadership qualities. The participants will acquire a definitive edge over others as they master the skills to handle unprecedented business situations resulting from the growing complexities and dynamics of the corporate world.

## Eligibility Criteria

Any recognized Bachelors degree of minimum 3 years duration with 50% in graduation and a minimum of 1-3 years relevant full time post qualification experience at executive level.

## PGDM (Executive)

The PGDM (Executive) program is a 15 months management course that provides accelerated learning experience that transforms high-potential managers into powerful leaders. This is an intensive program designed to enhance skills and capabilities essential for responsible positions at senior management.

The PGDM (Executive) is designed for working professionals, to sharpen their business acumen and analytical skills, as they move up the corporate ladder.

The program promotes an innovative approach, creativity and a design way of thinking in all aspects of business, in sync with the demands of the industry. The intensive curriculum with specializations like Marketing, Finance, Human Resources, Information Technology & General Management compressed in the short duration enables an impactful second stint of their career.

The program allows you to continue your full-time professional activities while developing skills that boost your career to an international management level and that will raise your profile within their current organization.

## Eligibility Criteria

Any recognized Bachelors degree of minimum 3 years duration with 50% in graduation and a minimum of 5 years relevant full time post qualification Managerial / Professional experience.

Entrepreneurs and members running family businesses – Graduates above 25 yrs. of age.

# Vishwa Vishwani approach prepares you for success in any industry

Effective learning begins with the process of unfreezing the previous learning to refreeze the new insights. At VV, the learning process starts with the Induction program-VARADHI, where, the new students from heterogeneous academic and social background undergo the training on Team Work, Relationship Building, Time Management, Handling Stress and other soft skills along with fundamentals of Business Management. This prepares them to get into the core program, with a refreshing mind and preparedness.

The Mentoring Process is supported by the expert and eminent mentors from Birla Institute of Management.

## Pedagogy

VV strongly believes in experiential learning and assign highest priority to get the academics delivered by a judicious mix of industry mentoring and academic rigor.

The teaching Methodology is a combination of class room lecture and activity based learning, with focus on self learning and practice. The teaching of each subject is planned and designed in accordance with the curriculum. Each course is taught and assessed using practical tools like case analysis, presentations, Field exercises, Quizzing and Discussing. The learning evaluation is done based on continuous assessment program (CAP) and End-term examination. Business simulation, Management Games, Role play, Language Labs are the other advanced tools that enhance the learning effectiveness.

Learning at Vishwa Vishwani begins with extensive orientation and training on team building, culture bonding and sharing. This enriches and enhances the learning process.

# Industry Interface & Career Management

## Industry Interface

Business Management Education cannot be delivered in isolation from industry- because ultimately it is the industry, which is going to provide opportunities to the graduates for performing and proving their mettle. Hence industry interface is core to a Business school and at Vishwa Vishwani we religiously practice it.

## Corporate Relation Centre

The Corporate Relations Centre at Vishwa Vishwani is exclusively dedicated to this endeavor, The centre consistently works towards relationship building and networking with industry, by inviting eminent professionals from industry, at all levels to our campus every week and expose the students to the rich and valuable experiential insights of corporate challenges, shared by these industry guests.

## Summer Training Program( STP)

A crucial component of the Management program is the Summer Training Program, where, the students undergo 6-8 weeks of Internship in an organization. The Corporate Relations Centre facilitates the Summer training program in collaboration with industry and corporate houses.

## Career Management and Pre Recruitment Training

The centre facilitates the campus recruitment drive and conduct job fitment training and career mentoring. Our track record in placements has been excellent not only in terms of numbers, but also in terms of quality placement and Return on Investment

## Industry Associations

Vishwa Vishwani is associated as Member/ Life member with NHRD, AIMA, AIMS, AMDISA, ISTD, etc. This collaboration and relationship building has been instrumental in giving our students the opportunity for doing their summer training and final campus placement.
