## From the Director's Desk

Dear Recruiters,

It gives me immense pleasure to introduce to you the graduating M.Sc. Economics class of 2020! While we have commenced our journey with a Master's Programme in 2011, we at SSE are confident that we have left the Symbiosis stamp of quality education on our students. This is an outcome of the efforts of our dynamic, committed and experienced faculty members who are the backbone of our institute. We strive to ensure that the environment at SSE remains committed to academic excellence and intellectual freedom.

We provide our students with an education that empowers them with knowledge, familiarizes them with analytical skills and encourages them to be adaptable and result oriented. The course requires discipline and is demanding, but gives plenty of scope for creativity, originality and student initiatives. The students are sensitized to different cultures as they are drawn from various parts of India and the world.

We believe that the graduates from SSE will be pragmatic professionals, competent decision and policy makers while also being sensitive human beings. They will be capable of providing an integrated framework to various economic issues, and all other concerns needed to be addressed at the micro, macro and global levels.

It is my privilege to invite you for placements at Symbiosis School of Economics, Pune. We look forward to a mutually beneficial, and a long-term collaborative relationship.

Warm Regards,

**Prof. Jyoti Chandiramani**

Director, Symbiosis School of Economics

## About SSE

Established in 2008, Symbiosis School of Economics is a young, vibrant and rapidly growing institution, with a demonstrable record of success. SSE is a niche institute seeking to develop intellectual discipline, critical and analytical assessment which will result in rational thinking along with an understanding of the need for constrained optimization and a strong urge to strive towards achieving equilibrium. We at SSE, achieve these goals in an educational environment committed to excellence and academic freedom.

Higher education is critical to successful economic development and quality of life. SSE offers graduate and postgraduate programs in Economics within which students develop the intellectual and professional competencies for successful life and work leadership. The course content is rigorous and the approach is descriptive as well as investigative; it connects the students with every aspect of economic life through various facets – the micro, the macro and the global setups. It is our endeavour to create a class of students who will be capable of including innovations and pragmatism into problem solving in these very spheres. With its interdisciplinary flavour, the curricula prepare students for careers in banks, financial institutions, media and communication, Government, academia and so on. Despite the demanding environment, there is ample scope for creativity, originality and student Initiatives. It is a journey of academic pursuits, which will be ever evolving including different perspectives from varied stakeholders, making our courses increasingly relevant and meaningful.

### Program Highlights

Rigorous and ever evolving curriculum

- Continuous assessment through internal and external assessments - providing opportunity for classroom participation, innovative assessments besides semester end examinations and class tests.
- Co-curricular and extra-curricular activities through eleven active clubs.
- Suitable infrastructure and facilities: ICT enabled lecture rooms, Library, Wi-Fi enabled campus, a well-equipped Gymnasium, Canteen, Health Care Centre, Auditorium, Hostel Accommodation and ICT Centre.
- Unique International Collaborations: SSE through the Symbiosis Centre for International Education (SCIE)
- The Centre for Academic Writing supports students in writing essays, papers and reports of various types. It also publishes an annual journal - *OeconomicaScriptis*- that is a compilation of outstanding academic writing.
- The Centre for Quantitative Learning and Applications facilitates advanced level data analysis and statistical software training (SPSS, STATA, R and other statistical and econometric software) for the students.

# Research at SSE

Faculty at SSE are involved in research in various fields. Students are encouraged to assist on research projects to enhance their learning and research experience.

**Urban Development** - Faculty at SSE have been actively and consciously engaging with researchers, practitioners and academicians over the last few years and developed an informal shared network on various issues, pertaining to the urban agenda. SSE looks forward to starting an Urban Development Centre with the objective to have a focused approach to urban issues, which provides the necessary leverage to implement strategic interventions, test its efficacy and re-orient future responses through outcome measurement/evaluation. The identified focal themes include Governance, Transport, Poverty, Basic Services for Urban Poor (Slums & Housing in Slums) and Urban Finance.

**Sustainable Development** - Faculty researching in this area are exploring how innovation and technology could play a pivotal role in sustainable development. They are also investigating the implications of linkages between FDI, international trade, innovation and the behavioural pattern of skilful human development.

**Emerging Economies** - The changing dynamics of the world economy in favour of emerging economies and the increasing knowledge pool and information on these economies are going to be instrumental in radically transforming the global economy and sociopolitical dynamics, by giving rise to new solutions through research insights for a better understanding of how markets, institutions and technologies will interact in the near future. SSE has a research thrust area for Emerging Economies in order to establish research and consulting linkages between the Government, corporate, researchers and think tanks.

**Behavioural and Experimental Economics** - SSE faculty have been working closely with corporate organizations to approach challenges in the HR and Marketing spaces, using Behavioural economics. Faculty research in experimental economics is aimed towards examining how various aspects of identity and institutions influence decision making by conducting experiments and applying relevant econometric analysis.

# M.Sc. Economics Program

The M.Sc. Economics programme is interdisciplinary. The programme seeks to develop intellectual discipline, critical and analytical thinking with a view to groom passionate individuals capable of taking up responsibility. We have a highly rigorous and relevant curriculum, catering to the dynamic nature of global markets. We, at SSE, strive hard to create an enabling framework to facilitate the smooth translation of skills to jobs.

We select the best students from the applicant pool and provide them with a platform where their skills are put to test. To safeguard the efficacy of the program, SSE has a highly comprehensive screening process. This induction criterion serves as a filter to enrol the best candidates across different disciplines with proven excellence not just in academia but also in extracurricular activities. We have an eclectic mix of student backgrounds ranging from economics, commerce, mathematics, statistics, management, and marketing. This diversified student base brings to the table a broad set of ideas, innovations and a broad framework of dynamic iterations. This talented student community, together with the knowledge ethic imbibed at SSE ensures that students are prepared to take on roles as managers, economists, statisticians, analysts and entrepreneurs.

SSE adopts innovative and proactive methods of pedagogy with emphasis on holistic developments of individuals. The coursework has been designed to acclimatize students to the rigors of a highly competitive workplace. Inherent with the coursework is a system of Continuous Evaluation (CE) that provides critical evaluation of a candidate's performance from time to time. The curriculum places a lot of importance on intensive application-based research and analysis. Further, to strengthen the skill set, the students undergo workshops where they are trained to handle and implement data packages and software like SPSS, STATA and R.

As part of the course, all students are required to complete a two-month Industry Internship. The objective of the internship is to give students the opportunity to experience real world applications of theories they have studied.

At the end of the two years students are well prepared to face the challenges of academia, research, business and industry requirements.

# Specializations

## M.SC. Economics International Trade

The specialization in International Trade broadly explores the principles of economics related to the causes and effects of trade beyond geographical and political boundaries. This, in turn, explains the patterns and consequences of transactions and interactions between the inhabitants of different countries, including trade, investment and migration and other factors. Parts of the specialization also involve investigating the consequences of trade activities on economies in perspectives of resources, preferences and institutions. This specialization module highlights the angles of politico-economic policy variables on world economies, as well, particularly in the post-globalized era.

## Student Profile

**Aakash Menghani**

**Email id:** menghani.shewaram.2018@sse.ac.in  
**Graduation College:** Symbiosis College of Arts & Commerce, Pune  
**Degree:** B.Com (Hons.) Banking & Finance  
**Summer Internship:** National Stock Exchange, Mumbai  
**Research Interest:** Economic Policy and Research

**Ahana Maulick**

**Email id:** ahana.maulick.2018@sse.ac.in  
**Graduation College:** St Joseph's College (Autonomous)  
**Degree:** B.Com (Hons.) Banking & Finance  
**Summer Internship:** National Stock Exchange, Mumbai  
**Research Interest:** International Trade, Political Economics and Data Analytics

**Amreta Saha**

**Email id:** amreta.saha.2018@sse.ac.in  
**Graduation College:** Vidyasagar College, University of Calcutta  
**Degree:** B.Sc. Economics (Hons)  
**Summer Internship:** Marketysers Global Consulting LLP  
**Research Interest:** Equity Research, Asset Valuation, Risk Management, Global Value Chains, Data Analytics

**Anish Morzaria**

**Email id:** anish.morzaria.2018@sse.ac.in  
**Graduation College:** K. C College, Mumbai  
**Degree:** B. Com  
**Summer Internship:** 7i Capital Advisors LLP  
**Other Internships:** HBD Consulting LLP  
**Research Interest:** Capital Markets, Investment Banking

**Anuja Mathur**

**Email id:** anuja.mathur.2018@sse.ac.in  
**Graduation College:** International College for Girls, Jaipur  
**Degree:** B.Sc. (Hons.) Economics  
**Summer Internship:** Institute of Economic Growth, Delhi  
**Research Interest:** International Business, Marketing, Finance and Trade, Trade Policy and Data Analysis

**Arjun Choudhary**

**Email id:** arjun.choudhary.2018@sse.ac.in  
**Graduation College:** G.H.Raisoni College of Engineering, Nagpur  
**Degree:** B.E. (Mechanical)  
**Summer Internship:** Sustainable Development Goals: 2030, SSE, Pune  
**Other Internships:** Pat's Engineering Ltd., Nagpur  
**Research Interest:** International Trade, Data Analytics, Automobile Industry, Portfolio Management, Business Operations

**Arunabh Saha**

**Email id:** arunabh.saha.2018@sse.ac.in  
**Graduation College:** St. Joseph's College (Autonomous)  
**Degree:** B.A. Economics, Political Science & Sociology  
**Summer Internship:** IndiaSpend, Mumbai  
**Research Interest:** Aviation Industry, International Political Economy, International Relations, Trade Finance

**Chitragana Kandpal**

**Email id:** chitragana.kandpal.2018@sse.ac.in  
**Graduation College:** Dyal Singh College, Delhi University  
**Degree:** B.A. (H) Economics  
**Summer Internship:** NITI Aayog, New Delhi  
**Research Interest:** International Trade, Trade Finance, Public Finance, Data Management and Analysis

**Devika Mehrotra**

**Email id:** devika.mehrotra.2018@sse.ac.in  
**Graduation College:** Delhi College of Arts and Commerce, University of Delhi  
**Degree:** B. A. (Hons) Economics  
**Summer Internship:** Reliance Nippon Life Asset Management Limited (RNAM), Mumbai  
**Other Internships:** Ernst and Young LLP, Gurgaon; Ventura Securities Limited, Lucknow  
**Research Interest:** Analytics, Market Research, Equity Research, Risk Assessment, International Trade and Macroeconomic Research

**Jyoti Sharma**

**Email id:** jyoti.sharma.2018@sse.ac.in  
**Graduation College:** Loreto College, University of Calcutta  
**Degree:** B. Sc. Economics(Hons)

**Summer Internship:** National Testing Agency, Noida  
**Other Internships:** Public Affairs Centre, Bangalore  
**Research Interest:** Data Analytics, Risk Management, International Trade Analytics, Policy Analytics, Market Research

# Specializations

## M.SC. Economics Development Studies

Development Studies include the broad areas of economics that explore the causes, needs and processes of development in low-income countries. It also involves the study of the structural change phenomena caused by the advancements that these economies witness in the course of their growth process. The specialization focuses on theories and methods, both spatial and temporal, which help in forming policies at the domestic and international levels to achieve optimal social ends. The module also concentrates on certain aspects and issues of economic development across post-war periods, spanning right up to the liberalized and globalized new world economies. It is geared towards a multidisciplinary approach that encompasses social and political angles, other than pure economic concerns.

**Research Interest:** Development economics, PDS scheme analysis, Market Research and Strategy for a new product.

# Specializations

## M.SC. Economics Urban Development

Urban Studies across the country has largely been considered a technical field of study involving constructing and designing urban spaces, largely looking past critical economic factors. Symbiosis School of Economics has developed a course on Urban Development that takes into account economic and socioeconomic factors of urbanization and incorporates other aspects of urban space as well. Globally, the significance of sustainable development has emphasized the need for experts of different backgrounds to work together to build sustainable cities, which is also the 11th Goal of the Sustainable Development Goals listed by the United Nations. The course is interdisciplinary in its approach. Students are exposed to technically grounded subjects like Geographic Information System (GIS), the importance of financial management and governance at ULBs, studying of energy, water and sanitation resources in the nation and the need to bring down urban poverty. Understanding the spread of land in urban areas and planning urban spaces accordingly is the key focus of the course.

**Summer Internship:** Marketysers Global Consulting LLP  
**Research Interest:** Urban Finance, Public Policy, Urban Planning

# Why Recruit Us?

Economics, a social science and highly inter-disciplinary subject still remains one of the most sought-after courses by recruiters in both the corporate and research arena. At SSE we believe that a mere theoretical understanding of the subject will not enable any of the stakeholders- students, professors and the institution as a whole, to grow. Thus, our aim is to inculcate the right 'skills' and 'attitude' in the students who will become policy makers in the future. The MSc. Program provides our students opportunities to develop employable skills through the following dimensions of the course:

**Evaluation** - An example of how we ensure that traditional economics and coursework taught can be interpreted by students in the real-world scenario is through our rigorous internal evaluation systems. This internal evaluation consists of research papers, assignments, presentations and quiz. Each component carries equal importance in judging student's originality, creativity and most importantly their ability to apply what they have learnt.

**Research** - Research and development is a core component of any modern-day business/industry. Students undergo a rigorous research methodology course that augments their abilities as a researcher. The research papers and assignments along with internships undertaken by the students provides them with a better understanding of the global economic scenario and issues and also make them more capable in performing tasks in an efficacious manner.

**Data Analysis** - The technical skill sets acquired by the students through the course of the programme which comprises of time series analysis, modeling, forecasting and the use of various software provides them with the opportunity to handle the strenuous task of analyzing the large pool of economic data.

**Policy Analysis** - The economic indicators governing the market forces of the country are influenced by the decisions taken by policy makers. The Students are equipped with the required knowledge of understanding the market forces and subsequent effects of the policies on the economy.

**Economic Journalism** - The various clubs and cultural events of the college provide a platform for the students to the voice their opinions on the economic scenario and issues through debates, group discussions and various new media instruments such as podcasts, presentations and short films. Many of students undertake internships in the field of economic journalism. Thus, the students are able to paint an unbiased and informative picture of various economic changes and policy effects that take place worldwide.

**Development Sector** - The institute offers a rigorous and comprehensive course on Development Economics which facilitates a clear understanding of the economics behind the working of the development sector and the various problems faced in that area. The wide work experiences of the faculty from different areas of the development sector further gives a first-hand account of the way things work in these areas, providing a clear and authentic perspective of the work life in the development sector. Given the exhaustive course, an excellent faculty as well as the experiences gained by interning in a diverse range of organisations both in the public and private sectors, students are well prepared for work in the government as well as non- government organisations in the development sector, urban economic development, research institutes and think tanks, corporate social governance and policy making.

We look forward for your support and invite you to be part of the campus placement.
