Recommended Prerequisite: ((ECE 511 with minimum B- or CS 465 with minimum C) and (ECE 527 with minimum B- or CS 580 with minimum B- or CS 688 with minimum B-)) or permission of instructor

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 619: *Nonlinear Systems and Control.* 3 credits.
Includes motivating examples; analysis techniques include basic fixed-point theory, implicit function theorem, and dependence of trajectories on initial data and parameters. Also covers computational simulation techniques; stability theory including Lyapunov's direct method; nonlinear control systems of input-output and absolute stability; strong positive real transfer functions; feedback linearization of nonlinear systems; nonlinear canonical forms; nonlinear decoupling; sliding control; and applications to adaptive control, neural networks, and robotics. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 521 or equivalent

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 620: *Optimal Control Theory.* 3 credits.
Detailed treatment of optimal control theory and its applications. Topics include system dynamics and performance criteria, calculus of variations and Pontryagin's minimum principle, computational methods in optimal control, and applications of optimal control. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 521 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 621: *Systems Identification.* 3 credits.
Foundations of parameter estimation using the least squares method. Identification of static and discrete dynamic system models. Batch and recursive (online) approaches. Model order estimation. Persistent excitation requirements. The effect of noise on model accuracy. Nonlinear estimation methods: generalized least squares and maximum likelihood. Applications in control, diagnostics, and economy. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 521 and 528 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 622: *Kalman Filtering with Applications.* 3 credits.
Detailed treatment of Kalman Filtering Theory and its applications, including some aspects of stochastic control theory. Topics include state-space models with random inputs, optimum state estimation, filtering, prediction and smoothing of random signals with noisy measurements, all within the framework of Kalman filtering. Additional topics are nonlinear filtering problems, computational methods, and various applications such as global positioning system, tracking, system control, and others. Stochastic control problems include linear-quadratic-Gaussian problem and minimum-variance control. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 521 and 528, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 627: *Adaptive Control.* 3 credits.
Topics include identification algorithms, model reference adaptive control, self-tuning regulators, convergence, stability, robustness, averaging theory, singular perturbation, and intelligent learning schemes. Students are required to study literature and complete a course project. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 521 or equivalent

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 630: *Statistical Communication Theory.* 3 credits.
Introduces optimum receiver design in the additive white Gaussian noise environment. Topics include efficient signal set design, modulation techniques, matched filter, correlation detector, coherent and noncoherent detections, fading and diversity channels, random amplitude and phase, diversity techniques, performance bounds of communications, and waveform communications. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 528.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 631: *Software-Defined Radio.* 3 credits.
Design and implementation of the essential building blocks of a software-defined radio, including sampling, pulse shaping, modulation/demodulation, synchronization, equalization, and coding. Focus is on software implementation and integration of the building blocks in a software-defined radio platform. Other topics include software-defined radio architectures, application development on software radio platforms, and hardware acceleration for software-defined radio. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 531 or ECE 535 or permission of instructor

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 633: *Error Control Coding.* 3 credits.
Introduction to error control coding techniques, which enable the detection and correction of errors that arise in the transmission and storage of digital data. Provides the necessary background in discrete mathematics, algebra, and number theory. Topics include classical linear block codes, convolutional codes, and modern sparse-graph codes; hardware and software implementation of encoders and decoders; and applications of error control coding to modern and emerging technologies, such as contemporary and proposed wireless networking standards, quantum communications, quantum computing, post-quantum cryptography, physically unclonable functions, and secure distributed storage media. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 511 or ECE 528 or ECE 535 or ECE 542 or permission of instructor

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 635: *Adaptive Signal Processing.* 3 credits.
Introduces adaptive systems and adaptive signal processing. Topics include correlation functions and matrices; performance functions; search of minimum; steepest descent and Newton algorithms; least mean squares algorithm; noise perturbed search and misadjustment; sequential regression algorithm and convergence issues; recursive least squares algorithm and forgetting factor; frequency domain algorithms; adaptive equalization; pseudorandom binary sequences and system identification; adaptive interference cancellation; and adaptive beam forming and arrays. Simulates adaptive algorithms. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 528.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 636: *Advanced Digital Signal Processing.* 3 credits.
Theory and practice of advanced digital signal processing techniques. Topics may include efficient high-speed algorithms for convolution, correlation, orthogonal transforms, multirate processing of digital signals, multiresolution time-frequency and time-scale analysis of one- and two-

dimensional signals, and multitaper spectral estimation. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 528 and ECE 535

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 637: *Array Processing.* 3 credits.
Fundamentals of signal processing for sensor arrays, including conventional and adaptive beamformers, space-time random processes, beam pattern design, deterministic null-steering, sparse arrays, and robust algorithms. Applications include sonar, radar, and communications systems. Special emphasis on transferring intuition from discrete-time signal processing to narrowband array processing for uniform linear arrays. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 528 and ECE 535

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 639: *Satellite Communications.* 3 credits.
Comprehensive study of satellite communication systems. Topics include link budget and quality of service considerations, basics of information transmission, digital modulation and demodulation, channel coding and coded modulation, multiple access, networking services for voice, broadcasting and Internet access over satellites, payload and reliability issues, and technological applications. Understanding of satellite system architectures, propagation link characteristics, key communication techniques, power and bandwidth requirements, and various satellite communications systems and applications. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 528 or ECE 542 or ECE 580

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 640: *Small Satellite Development.* 3 credits.
Advanced topics in satellite development life cycle, mission planning, operational considerations, structure, bus architecture, and subsystems such as power, communications, on-board computing hardware and software. In-depth study of lessons learned from CubeSat development, testing, and operations in space, as well as recommendations for the development practice, mission assurance, and required legal and technical compliances. Development executed through group design meetings, take-home designs/assignments, and/or in-house fabrication and testing. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 580 or permission of instructor

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 642: *Design and Analysis of Computer Communication Networks.* 3 credits.
Introduces queuing theory. Other topics include concentrator design, multiplexing, capacity assignments, random access schemes, polling and probing techniques, topology design, flow control and routing, packet radio, protocol specification, and validation. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 542 and 528 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 643: *Network Switching and Routing.* 3 credits.
Fundamentals of switching and routing with application to communications networks, both wireline and wireless. Topics include concepts of space and time for switching and forwarding of data, scalability and performance, label swapping, algorithms for routing and path computation, constrained route optimization, traffic theory, control and signaling, and traffic engineering. The course also covers the concepts and issues underlying the design and implementation of the contemporary switched networks. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 528 and ECE 542.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 645: *Computer Arithmetic.* 3 credits.
Covers computer arithmetic as applied to the design of general-purpose microprocessors and application-specific integrated circuits for cryptography, coding, and digital signal processing. Focuses on efficient implementations of all basic arithmetic operations in three major domains: integers, real numbers, and elements of Galois Fields GF(2n). Illustrates tradeoffs among various hardware algorithms and architectures depending on primary optimization criteria, such as speed, area, and power consumption. Demonstrates the use of software implementations as a source of test vectors for verification of hardware implementations and for evaluating hardware versus software speed-up. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 545 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 646: *Applied Cryptography.* 3 credits.
Topics include need for security services in computer networks and digital devices, basic concepts of cryptology, modern symmetric ciphers, public key cryptography (RSA, elliptic curve cryptosystems, post-quantum cryptography), data integrity and authentication, digital signature schemes, key exchange and key management, standard protocols for secure mail, the web and electronic payments, security aspects of mobile communications, efficient software and hardware implementations of cryptographic primitives, attacks against implementations and relevant defenses, requirements for implementation and validation of cryptographic modules, and security engineering with cryptography. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 542 or CS 555 or CYSE 610 or INFS 612 or permission of instructor

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 648: *Digital Signal Processing Hardware Architectures.* 3 credits.
Addresses topics that include high-level DSP optimizations, such as pipelining, unfolding, and parallel processing; common DSP structures such as FFTs, filters, direct digital frequency synthesizers, and correlators; modeling of DSP algorithms in MATLAB and conversion of MATLAB models into fixed-point VHDL blocks; platform implementation issues: hardware vs. software, FPGA vs. ASIC, power, area, throughput, and applications of DSP hardware. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 535 and ECE 545 or equivalents or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 651: *Advanced Learning From Data.* 3 credits.
Review of machine learning basics to motivate deep learning networks. Examines various deep learning network architectures and models in detail, including deep forward networks, convolutional networks, recurrent networks, and autoencoders. Discusses the training and implementation of deep models, such as hyper-parameter tuning, regularization, and optimization. Introduction of deep reinforcement learning. Involves course projects with a focus on the survey of applications, research problems, and new advances. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: (ECE 527 or DAEN 527 or CS 688) and (MATH 203 and STAT 346 and CS 112) or equivalent

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 653: *Machine Learning Security and Privacy.* 3 credits.
Covers advanced topics in security and privacy of machine learning techniques, including differential privacy, data collection, adversarial machine learning, model watermarking, and formal verification. Students

are expected to complete projects on technical topics related to the scope of the course. They will also get hands-on experience with frameworks such as TensorFlow and Tensorflow Lite. The course will emphasize research skills, such as analyzing research papers, giving technical presentations, and writing summaries and reviews. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 527 (B-) or CS 688 (B-) or permission of instructor

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 660: *Space Systems Engineering.* 3 credits.
Overview of the scientific and engineering foundations of spacecraft systems and interaction among satellite subsystems. Topics include fundamentals on astrodynamics, power, communications, command and data handling, thermal management, attitude control, mechanical configuration, structures and launch systems. In addition to traditional instruction, a number of case studies and a team design project provide further breadth and exposure. Offered by Electrical & Comp. Engineering. May not be repeated for credit. Equivalent to SYST 682.

Recommended Prerequisite: ECE 580 or SYST 520

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 670: *Principles of Command, Control, Communications, Computing, and Intelligence (C4I).* 3 credits.
Provides broad introduction to fundamental principles of command, control, communication, computing, and intelligence (C4I). Applies principles, techniques to wide range of civilian and military situations. Discusses modeling, simulation of combat operations; studies sensing, fusion, and situation assessment processes. Derives optimal decision-making rules. Discusses concepts of C4I architectures and tools to evaluate and design systems such as queuing theory. Offered by Electrical & Comp. Engineering. May not be repeated for credit. Equivalent to SYST 680.

Recommended Prerequisite: ECE 528 or SYST 611 or OR 542, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 673: *Discrete Event Systems.* 3 credits.
Introduces modeling and analysis of discrete event dynamical systems. Course covers elements of discrete mathematics and then focuses on Petri Net models and their basic properties. Relation to other discrete event models of dynamical systems. Offered by Electrical & Comp. Engineering. May not be repeated for credit. Equivalent to SYST 620.

Recommended Prerequisite: ECE 521, or SYST 611 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 674: *Systems Architecture Design.* 3 credits.
Architecture design and representation and the methodologies used to obtain them. Approaches based on system engineering constructs such as object orientation and service oriented architectures are used to design architectures and then represent them in conformance with an architecture framework such as DoDAF. Executable models of the architecture are derived to be used for architecture evaluation. Examples from current practice are used. Offered by Electrical & Comp. Engineering. May not be repeated for credit. Equivalent to SYST 621.

Recommended Prerequisite: ECE 550.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 681: *VLSI Design for ASICs.* 3 credits.
Introduces VLSI design of application-specific integrated circuits (ASICs) from front-end to back-end using HDL and modern design automation software. Covers simulation, synthesis of digital circuits using standard cells, static timing analysis, formal verification, power analysis, test generation/fault simulation, and physical design including floor planning, placement, routing, and design rule checking. Addresses deep submicron CMOS scaling issues and other advanced topics. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 545.

Recommended Corequisite: ECE 586, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 682: *VLSI Test Concepts.* 3 credits.
Broad introduction to basic concepts, techniques, and tools of modern VLSI testing. Fundamentals of defect modeling, fault simulation, design for testability, built-in self-test techniques, and failure analysis. Test economics, physical defects and fault modeling, automated test pattern generation, fault simulation, design for test, built-in self test, memory test, PLD test, mixed-signal test, Iddq test, boundary scan and related standards, test synthesis, diagnosis and failure analysis, automated test equipment, embedded core test. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 586

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 684: *MOS Device Electronics.* 3 credits.
Study of Metal Oxide Semiconductor (MOS)-based device theory, characteristics, models, and limitations. Topics include MOS capacitor, MOSFETs, CMOS, charge coupled devices, scaling, hot carrier effects, latchup, radiation effects, and isolation techniques. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 584 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 685: *Nanoelectronics.* 3 credits.
Emphasizes the fundamental concepts and principles that govern the operation of nano-electronic devices (100 nm down to 1 nm.). Addresses basic device building blocks such as quantum dot (QD), single electron tunneling transistor (SETT), carbon nanotube (CNT), nanowire, etc. Considers the design and analysis of a variety of nano-devices ("quantum" or "mesoscopic" devices) and examine some notable applications. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 584

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 686: *Sensor Device Technology.* 3 credits.
Design and integration of essential sensor devices and arrays for intelligent wearable electronics and human-computer interactions. Study of the relevant electronics and semiconductor device principles, as well as various types of sensors, including optical, thermal, RF, electromechanical, chemical, inertia, and acceleration sensors. The focus is on the physical principles, device development, and advanced electronic characteristics of a variety of sensors. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 530 or ECE 584 or permission of instructor

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 687: *Radio Frequency Electronics.* 3 credits.
This course addresses the design of electronic building blocks for radio frequency (RF) microelectronic circuits. Topics include trade-offs in RF design, transceiver architectures, low-noise amplifiers, mixers, oscillators, frequency-synthesizers, phase-locked loops, and power amplifiers. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 587, 684, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 691: *CubeSat Design.* 1.5 credit.
First phase of a project course focused on design and early prototyping. Design and implementation of a project related to CubeSats, satellite communication ground and space systems, satellite bus modules, embedded hardware and software. Offered by Electrical & Comp. Engineering. Limited to two attempts.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

ECE 692: *CubeSat Engineering.* 1.5 credit.
Second phase of a project course dedicated to project implementation and testing. Design and implementation of a project related to CubeSats, satellite communication ground and space systems, satellite bus modules, embedded hardware and software. Offered by Electrical & Comp. Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisite: ECE 691[B-].
[B-] Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

ECE 698: *Independent Reading and Research.* 1-3 credits.
Independent study under the supervision of a faculty member, resulting in an acceptable technical report. Notes: Requires written report. May be taken no more than twice for graduate credit. Offered by Electrical & Comp. Engineering. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: At least two core courses and permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

ECE 699: *Advanced Topics in Electrical and Computer Engineering.* 1-6 credits.
Advanced topics of current interest in electrical and computer engineering. Topics chosen so they do not duplicate other courses in department. Active participation encouraged in form of writing and presenting papers in research areas. Offered by Electrical & Comp. Engineering. May be repeated within the term.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

ECE 701: *Research Experience in Electrical and Computer Engineering.* 3 credits.
Readings and research for early stage ECE PhD students under the direction of a faculty member. Research findings must be delivered in a

professionally prepared document and an oral presentation in formats consistent with the Research Qualifying Exam. Offered by Electrical and Computer Engineering. May be taken only once. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Electrical and Computer Engr.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

ECE 721: *Nonlinear Systems.* 3 credits.
Includes motivating examples; analysis techniques include basic fixed-point theory, implicit function theorem, and dependence of trajectories on initial data and parameters. Also covers computational simulation techniques; stability theory including Lyapunov's direct method; nonlinear control systems of input-output and absolute stability; strong positive real transfer functions; feedback linearization of nonlinear systems; nonlinear canonical forms; nonlinear decoupling; sliding control; and applications to adaptive control, neural networks, and robotics. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 620 or ECE 621.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 722: *Kalman Filtering with Applications.* 3 credits.
Detailed treatment of Kalman Filtering Theory and its applications, including some aspects of stochastic control theory. Topics include state-space models with random inputs, optimum state estimation, filtering, prediction and smoothing of random signals with noisy measurements, all within the framework of Kalman filtering. Additional topics are nonlinear filtering problems, computational methods, and various applications such as global positioning system, tracking, system control, and others. Stochastic control problems include linear-quadratic-Gaussian problem and minimum-variance control. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 521 and 528 or equivalent, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 728: *Random Processes in Electrical and Computer Engineering.* 3 credits.
Recommended for advanced master's and doctoral students. Provides background in random processes needed for pursuing graduate studies and research in statistical signal processing, communications, control, and computer networks. Covers probability spaces, random variables, Lebesque integration, conditional mean on a sigma field, convergence of random variables, limit and ergotic theorems, Markov processes, and Martingales. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 528 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 731: *Digital Communications.* 3 credits.
Digital transmission of voice, video, and data signals. Covers signal digitization, pulse code modulation, delta modulation, low bit-rate coding, multiplexing, synchronization, intersymbol interference, adaptive equalization, frequency spreading, encryption, transmission codes, digital transmission using band-width compression techniques, and satellite communications. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 630 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 732: *Mobile Communication Systems.* 3 credits.
Topics include modeling of mobile communication channel, signal set and receiver design for mobile communication channel, access and mobility control, mobile network architectures, connection to fixed network, and signaling protocols for mobile communication systems. Examples of mobile communication systems are presented, including pan-European GSM, North American D-AMPS, and personal

communication systems. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 542 and 630.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 734: *Detection and Estimation Theory.* 3 credits.
Introduces detection and estimation theory with communication and radar and sonar applications. Topics include classical detection and estimation theory, detection of known signals in Gaussian noise, signal parameter and linear waveform estimation, and Wiener and Kalman filters. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 528.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 741: *Wireless Networks.* 3 credits.
Theoretical foundation and practice in design of wireless networks. Emphasizes mobility and teletraffic modeling aspects, and networking issues and state-of-the-art performance evaluation methods of radio and system infrastructure applicable to wireless cellular and local networks. Topics include analysis of mobility, handoff, control traffic loading, resource allocation techniques, multiaccess protocols, admission policy and call control, network infrastructure and multilayer configuration, wireless LANs, and packet data systems. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 642 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 742: *High-Speed Networks.* 3 credits.
Theories for design, analysis and evaluation of high-speed networks including scalability, performance, and issues related to local area, metropolitan, and wide area networks. Includes architecture, protocols, and applications of high-speed networks; performance modeling of high-speed networks; flow control and routing; design issues for high-speed switches, interfaces, and controllers; all optical networks and their architectures; examples of high-speed computer networks and Internet working; video, imaging, and multimedia applications; software issues, robustness, and applications; and selected topics in current research areas in high-speed computer networks. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 528 and 642, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 746: *Advanced Applied Cryptography.* 3 credits.
Discusses complex cryptographic algorithms and their implementations in software and hardware. Provides mathematical background necessary to understand, implement, and break modern cryptoalgorithms. Covers implementations of cryptosystems using smart cards, network processors, and other platforms. Discusses side channel attacks against implementations of cryptography, including timing attacks, power analysis, fault analysis, cache attacks, etc. Introduces advanced topics, such as random and pseudorandom number generators, secret sharing, zero-knowledge, and quantum cryptography. Requires a semester-long project devoted to implementation of selected algorithms or protocols in software or hardware, and/or comparative analysis of various algorithms, protocols, or implementations. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 646 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 747: *Cryptographic Engineering.* 3 credits.
Discusses efficient implementations of cryptographic algorithms and protocols in hardware and software, ranging from high-performance to low-power, as well as resistance to side-channel and fault attacks. Covers code breaking algorithms and practical implementations of side-channel attacks. Introduces research techniques. Requires semester-long project devoted to study of a cryptographic engineering problem, including a

comprehensive literature review, problem definition, and research plan. Notes: Course will be partially lecture style, partially seminar. Students will give hour long, in depth presentations on their research topics. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 646 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ECE 751: *Information Theory.* 3 credits.
Introduces information theory, which is mathematical theory of communication systems. Topics include measures of information such as entropy, relative entropy, and mutual information; Shannon-McMillan-Breiman theorem and applications to data compression; entropy rate and source coding theorem; Huffman, arithmetic and Lempel-Ziv codes; method of types, channel capacity, and channel-coding theorem; joint source-channel coding theorem; differential entropy; Gaussian channel; rate distortion theory; and vector quantization. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: ECE 528 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ECE 795: *Engineering Seminar.* 0 credits.
Fulfills seminar requirement for MS in electrical and computer engineering programs. Invited speakers, faculty, and ECE graduate students lecture on current topics and research. Notes: Students must enroll in ECE 795 the final semester they file to graduate. Once the department verifies that the seminar requirement has been met, a grade of S (satisfactory) will be submitted. Students who have not met the seminar requirement in their final semester must continue to register for ECE 795 in subsequent semesters until the requirement is met. Offered by Electrical & Comp. Engineering. May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Special scale.

ECE 797: *Scholarly Paper.* 0 credits.
Student must develop a rigorous, technical report (called Scholarly Paper) on a topic of current interest in Electrical and Computer Engineering and make an oral presentation of this report. Students fulfill this requirement through and individual project in a 600-level or above ECE graduate course. Offered by Electrical & Comp. Engineering. May be repeated within the degree.

Recommended Prerequisite: Completed 18 credit hours of graduate work.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Research

Grading:
This course is graded on the Graduate Special scale.

ECE 798: *Research Project.* 1-6 credits.
Student must complete a one-semester long research project on an ECE technical topic under the guidance of a faculty advisor, and write a research report that will be presented as a departmental seminar. Notes: No more than a combined total of 3 credits may be taken towards satisfying the master's degree, although students may register for more credits. Students may not count both ECE 799 and ECE 798 for master's degree. Offered by Electrical & Comp. Engineering. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Completed 18 credit hours of graduate work.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

ECE 799: *Master's Thesis.* 1-6 credits.
Research project chosen and completed under guidance of graduate faculty member that results in technical report and oral defense acceptable to thesis committee of three faculty members. Offered by Electrical & Comp. Engineering. May be repeated within the degree.

Recommended Prerequisite: 9 graduate credits, and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

ECE 896: *Directed Reading and Research.* 1-6 credits.
Reading and research on a specific topic under the direction of a faculty member resulting in an acceptable technical report. Offered by Electrical and Computer Engineering. May be repeated within the degree for a maximum of 21 credits. Offered by Electrical & Comp. Engineering. May be repeated within the degree for a maximum 21 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Electrical and Computer Engr.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

ECE 899: *Research Topics in ECE.* 3 credits.
Studies advanced research areas in Electrical and Computer Engineering within a course format. Students will develop specialized research skills, which will also involve the presentation of their own work, developed individually and within groups. This course may be repeated for credit if the research areas differ. Notes: This will be an irregularly scheduled course intended for advanced master's students who want to pursue a specific topic to more depth than a typical course offers at the master's level. It will prepare students to undertake their individual research topics when they move on to pursue a Ph.D. program, or enter a research environment in their chosen professional careers. Offered by Electrical & Comp. Engineering. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Completion of at least one 600 or 700 level course in the Research Topic area; and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

ECE 998: *Doctoral Dissertation Proposal.* 1-12 credits.
Work on research proposal that forms basis for doctoral dissertation. Notes: No more than 24 credits of ECE 998 and 999 may be applied to doctoral degree requirements. Offered by Electrical & Comp. Engineering. May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

ECE 999: *Doctoral Dissertation.* 1-12 credits.
Formal record of commitment to doctoral dissertation research under direction of ECE faculty member. Notes: Students must complete minimum 12 credits of doctoral proposal (ECE 998) and doctoral dissertation research (ECE 999) Maximum of 24 credits of ECE 998 and 999 may be applied to degree. Students who choose to take less than 24 credits of ECE 998 and 999 may earn remaining credits from approved course work. Students cannot enroll in ECE 999 before research proposal accepted and approved by dissertation committee. Offered by Electrical & Comp. Engineering. May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Elementary Education (ELED)

200 Level Courses

ELED 242: *Foundations of Elementary Education.* 3 credits.
Examines the historical, philosophical, and sociological foundations of education as they relate to elementary schools, with a particular emphasis on teaching a culturally diverse population. Develops an understanding of the relationship between society and education. Offered by School of Education. Limited to two attempts.

Recommended Prerequisite: EDUC 200: Introduction to Teaching
EDUC 301: Introduction to Diverse Learners

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 257: *Integrating Technology in PreK-6.* 3 credits.
Introduces technology as a tool for working with children across a range of contexts, including early childhood and elementary classrooms. Explores multiple approaches and strategies for technology use in diverse settings. Offered by School of Education. Limited to two attempts.

Mason Core: Info Tech & Computing

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 258: *Children's Literature for Teaching in Diverse Settings.* 3 credits.
Introduces children's literature as a tool for working with children across a range of contexts, including early childhood and elementary classrooms. Explores multiple approaches and strategies for literature use in diverse settings with an eye towards format, genre, curricular connections, and overall utility. Offered by School of Education. Limited to three attempts.

Mason Core: Literature

Recommended Prerequisite: C or better in ENGH 101

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

ELED 305: *Foundations of Elementary Methods and Management.* 3 credits.
Introduces general methods of teaching and management in elementary schools with an emphasis on the intersection of the foundational principles of curriculum, instruction, assessment, and management with clinical/practical experiences to plan instruction for diverse learners. Note: This course has a required field component. Offered by School of Education. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Elementary Education.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 342: *Foundations of Elementary Education.* 3 credits.
Examines the historical, philosophical, and sociological foundations of education as they relate to elementary schools, with a particular emphasis on teaching a culturally diverse population. Develops an understanding of the relationship between society and education. Offered by School of Education. Limited to two attempts.

Recommended Prerequisite: EDUC 200: Introduction to Teaching EDUC 301: Introduction to Diverse Learners

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 357: *Integrating Technology in PreK-6.* 3 credits.
Introduces technology as a tool for working with children across a range of contexts, including early childhood and elementary classrooms. Explores multiple approaches and strategies for technology use in diverse settings. Offered by School of Education. Limited to two attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 390: *Clinical Experience: Theory to Practice Integration.* 1 credit.
Provides a supervised clinical experience and supporting seminar discussion for one full semester in an accredited professional development school. Engages students in observations and scaffolded management and instructional opportunities in a PK-6 classroom. This course has a required field component. Offered by School of Education. May be repeated within the degree for a maximum 3 credits.

Schedule Type: Fieldwork

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

ELED 401: *Classroom Management and Instructional Strategies for Diverse Learners.* 3 credits.
Examines classroom management techniques and instructional strategies for creating an inclusive community and designing and implementing engaging, effective instruction in diverse elementary classrooms. Explores the intersection of and application of management and instruction principles through clinical/practical experiences with diverse learners. Note: This course has a required field component. Offered by School of Education. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (ELED 305[C] or 305[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students in a Bach of Science in Education degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 402: *Differentiating Elementary Methods and Management.* 3 credits.
Provides an introduction to differentiated instruction and management for children in grades PK#6. Emphasizes the assessment of learners, incorporation of varied instructional and management strategies to meet the needs of all learners. Offered by School of Education. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Elementary Education.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Special scale.

ELED 410: *Emergent and Early Literacy.* 3 credits.
Provides research-based introduction to literacy teaching and learning for diverse early elementary children. Emphasizes oral and print-based language development; emergent and early literacy pedagogy. Introduces assessment and instruction of phonological awareness, phonics and word study, decoding, vocabulary, and comprehension. Offered by School of Education. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Elementary Education.

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Special scale.

ELED 411: *Reading Development, Processes, Assessment, and Pedagogy.* 3 credits.
Provides research-based introduction to literacy teaching and learning for elementary children. Emphasizes reading development and processes, reading assessment, and reading pedagogy. Addresses assessment and instruction of reading comprehension, fluency, vocabulary and word study, as well as specific reading disabilities. Investigates of appropriate use of children's literature in classrooms. Offered by School of Education. Limited to two attempts.

Recommended Prerequisite: ELED 410

Registration Restrictions:
Enrollment limited to students in a Bach of Science in Education degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 412: *Writing Development, Processes and Pedagogy.* 3 credits.
Provides research-based introduction to literacy teaching and learning for elementary children. Emphasizes writing development; writing assessment; and writing instruction. Addresses writing with exceptional learners; digital literacy; and the creation of a comprehensive literacy instructional block. Offered by School of Education. Limited to two attempts.

Recommended Prerequisite: Must be taken in programmatic sequence; ELED 410 and ELED 411

Registration Restrictions:
Enrollment limited to students in a Bach of Science in Education degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 420: *Arts Integration in Elem Ed.* 2 credits.
Introduces the value and practical application of integrating the arts into the curriculum. Discusses and develops basic skills in creative drama, puppetry, music, creative writing, art and movement. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Special scale.

ELED 421: *STEM in the Elementary Classroom.* 3 credits.
Develops skills and abilities in integrated STEM teaching at the elementary level, applications of math, science and technology through engineering design, safety practices, and creation of integrated curricula. Examines STEM teaching based on contemporary theory, practice, and standards. Offered by School of Education. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Elementary Education.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Special scale.

ELED 422: *Collaboration in PK-6 Inclusive School Settings.* 3 credits.
Examines knowledge, dispositions, and skills necessary for collaboration within inclusive elementary school environments. Explores communication and problem-solving skills necessary for working with a variety of school professionals. This course requires 15 hours of field experience. Offered by School of Education. Limited to two attempts.

Registration Restrictions:
Enrollment limited to students in a Bach of Science in Education degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 443: *Children, Family, Culture, and Schools, 4-12 Year Olds.* 3 credits.
Examines child and family development and ways children, families, schools, and communities interrelate. Links children's developing physical, social, emotional, and cognitive abilities to planning curriculum and developing instructional strategies. Offered by School of Education. Limited to two attempts.

Recommended Prerequisite: EDUC 200, EDUC 301

Registration Restrictions:
Enrollment is limited to students with a major in Elementary Education.

Enrollment limited to students in a Bach of Science in Education degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 444: *Curriculum and Methods of Teaching in Elementary Education.* 3 credits.
Introduces general methods of teaching and management in elementary schools with an emphasis on using the foundational principles of curriculum, instruction, assessment, and management to plan instruction for diverse learners. This course requires 15 hours of field observation. Offered by School of Education. Limited to two attempts.

Recommended Prerequisite: Must be taken in programmatic sequence.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 445: *Differentiating Elementary Methods and Management.* 3 credits.
Provides an introduction to differentiated instruction and management for children in grades PK#6. Emphasizes the assessment of learners, incorporation of varied instructional and management strategies to meet the needs of all learners. This course requires 15 hours of field observation. Offered by School of Education. Limited to two attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 452: *Mathematics Methods for the Elementary Classroom.* 3 credits.
Introduces methods for teaching all children topics in arithmetic, geometry, algebra, probability, and statistics in elementary grades. Focuses on using manipulatives and technologies to explore

mathematics and solve problems. Offered by School of Education. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Elementary Education.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 453: *Science Methods for the Elementary Classroom.* 3 credits.
Develops skills and abilities in science teaching methods, applications of technology, safety practices, and creation of integrated science curricula. Examines science teaching based on contemporary theory, practice, and standards. Notes: Requires field experience in public schools. Offered by School of Education. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Elementary Education.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 454: *Methods of Teaching Social Studies and Integrating Fine Arts in the Elementary Classroom.* 3 credits.
Focuses on the design and delivery of standards-based integrated curriculum centered on the social sciences. Includes integration of fine arts and examines the central role of the arts in learning. Note: This course requires 15 hours of field observation. Offered by School of Education. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Elementary Education.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 455: *Literacy Teaching and Learning in Diverse Elementary Classrooms I.* 3 credits.
Provides research-based introduction to literacy teaching and learning for children ages 4-12 years. Emphasizes language development; reading and writing processes; emergent literacy; culture, families, and literacy; and literacy integration in the curriculum. Offered by School of Education. Limited to two attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 456: *Literacy Teaching and Learning in Diverse Elementary Classrooms II.* 3 credits.
Provides research-based introduction to literacy teaching and learning for PK-6 learners. Emphasizes literacy and language processes and development; connections among cultures, families, and literacy; and literacy integration in curriculum. Offered by School of Education. Limited to two attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 459: *Research and Assessment in Elementary Education.* 3 credits.
Provides teacher candidates an understanding of research paradigms utilizing systematic evidence to improve practice and further skills in assessment of learning outcomes. Emphasizes linking research and practice, making instructional decisions based on systematically collected data. Offered by School of Education. Limited to two attempts.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisite: ELED 490[*C].
[*] May be taken concurrently.
[C] Requires minimum grade of C.

Enrollment is limited to students with a major in Elementary Education.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ELED 480: *Practicum in Elementary Education.* 3 credits.
Provides a supervised clinical experience for one full semester in an accredited professional development school. Teacher Candidates engage in observations and scaffolded management and instruction opportunities under the guidance of PK-6 Advanced Mentor Teacher/ Mentor Teacher. Offered by School of Education. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Elementary Education.

Schedule Type: Fieldwork

Grading:
This course is graded on the Satisfactory/No Credit scale.

ELED 490: *Internship in Elementary Education.* 3-9 credits.
Provides intensive supervised clinical experience for one full semester in an accredited professional development school. Requires observation, coteaching and teaching of lessons in PK-6 classrooms. Offered by School of Education. May be repeated within the degree for a maximum 9 credits.

Mason Core: Capstone

Recommended Corequisite: ELED 459

Registration Restrictions:
Required Prerequisite: ELED 480[C].
[C] Requires minimum grade of C.

Enrollment is limited to students with a major in Elementary Education.

Enrollment limited to students in a Bach of Science in Education or Post-Baccalaureate Certificate degrees.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

ELED 491: *Internship Seminar in Elem Ed.* 1 credit.
Develops and refines skills as a critical, reflective practitioner with an explicit focus on effects of teacher candidates' actions on others. Offered by School of Education. Limited to three attempts.

Registration Restrictions:
Required Prerequisite: ELED 490[*C].
[*] May be taken concurrently.
[C] Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

ELED 542: *Foundations of Elementary Education.* 3 credits.
Examines the historical, philosophical, and sociological foundations of education as they relate to elementary schools, with a particular emphasis on teaching a culturally diverse population. Develops an understanding of the relationship between society and education. School-based field experience required. Offered by School of Education. Limited to two attempts. Equivalent to EDUC 542.

Recommended Prerequisite: Admission to the Elementary Education licensure program.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

ELED 543: *Children, Family, Culture, and Schools, ages 4-12 Years.* 3 credits.
Examines child and family development and ways children, families, schools, and communities interrelate. Links children's developing physical, social, emotional, and cognitive abilities to planning curriculum and developing instructional strategies. Notes: Requires school-based field experience. Offered by School of Education. May not be repeated for credit. Equivalent to EDUC 543.

Recommended Prerequisite: Admission to the Elementary Education licensure program.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

ELED 544: *Introduction to Elementary Methods and Management.* 3 credits.
Introduces general methods of teaching and management in elementary schools with an emphasis on using the foundational principles of curriculum, instruction, assessment, and management to plan instruction for diverse learners. Offered by School of Education. May not be repeated for credit. Equivalent to EDCI 544.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

ELED 545: *Differentiating Elementary Methods and Management.* 3 credits.
Provides an introduction to differentiated instruction and management for children in grades PK#6. Emphasizes the assessment of learners, incorporation of varied instructional and management strategies to meet the needs of all learners. This course requires 15 hours of field observation. Offered by School of Education. May not be repeated for credit. Equivalent to EDCI 545.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

ELED 552: *Mathematics Methods for the Elementary Classroom.* 3 credits.
Introduces methods for teaching topics in arithmetic, geometry, algebra, probability, and statistics in elementary grades. Focuses on using manipulatives and technologies to explore mathematics and solve problems. Notes: Requires field experience in public schools. Offered by School of Education. May not be repeated for credit. Equivalent to EDCI 552.

Recommended Prerequisite: Admission to the Elementary Education licensure program.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

ELED 553: *Science Methods for the Elementary Classroom.* 3 credits.
Develops skills and abilities in science teaching methods, applications of technology, safety practices, and creation of integrated science curricula. Examines science teaching based on contemporary theory, practice, and standards. Notes: Requires field experience in public schools. Offered by School of Education. May not be repeated for credit. Equivalent to EDCI 553.

Recommended Prerequisite: Admission to the Elementary Education licensure program.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

ELED 554: *Methods of Teaching Social Studies and Integrating Fine Arts in the Elementary Classroom.* 3 credits.
Focuses on the design and delivery of standards-based integrated curriculum centered on the social sciences. Includes integration of fine arts and examines the central role of the arts in learning. Note: School-based field experience required. Offered by School of Education. May not be repeated for credit. Equivalent to EDCI 554.

Recommended Prerequisite: Admission into Elementary Education graduate program; must be taken in programmatic sequence.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

ELED 555: *Literacy Teaching and Learning in Diverse Elementary Classrooms I.* 3 credits.
Provides research-based introduction to literacy teaching and learning for ages 4-12 years. Emphasizes language development; reading and writing processes; emergent literacy; culture, families, and literacy; and literacy integration in the curriculum. Notes: School-based field experience required. Offered by School of Education. May not be repeated for credit. Equivalent to EDCI 555.

Recommended Prerequisite: Admission to the Elementary Education licensure program.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

ELED 556: *Literacy Teaching and Learning in Diverse Elementary Classrooms II.* 3 credits.
Provides research-based introduction to literacy teaching and learning for PK-6 learners. Emphasizes literacy and language processes and development; connections among cultures, families, and literacy; and literacy integration in curriculum. Note: School-based field experience required. Offered by School of Education. May not be repeated for credit. Equivalent to EDCI 556.

Recommended Prerequisite: Admission to the Elementary Education Licensure program.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

ELED 559: *Research and Assessment in Elementary Education.* 1-3 credits.
Provides an understanding of research paradigms utilizing systematic evidence to improve practice and further skills in assessment of learning outcomes. Emphasizes the linkage of research and practice and making instructional decisions based on systematically collected data. Offered by School of Education. May be repeated within the degree for a maximum 3 credits. Equivalent to EDCI 559.

Recommended Prerequisite: Capstone course for degree must be taken last in programmatic sequence.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

700 Level Courses

ELED 790: *Internship in Elementary Education.* 1-6 credits.
Provides intensive supervised clinical experience for one full semester in an accredited professional development school. Provides supervision for teacher candidates in a school placement setting that includes observations and seminar experiences. Offered by School of Education. May be repeated within the degree for a maximum 9 credits. Equivalent to EDCI 790, SEED 793, SEED 794, SEED 795.

Recommended Prerequisite: Admission to Elementary Education program; completion of licensure tests, endorsement requirements, and required coursework.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale.

Engineering (ENGR)

100 Level Courses

ENGR 107: *Introduction to Engineering.* 2 credits.
Introduces engineering profession fundamentals and problem-solving. Topics include description of engineering disciplines, functions of the engineer, professionalism, ethics and registration, problem solving and representation of technical information, estimation and approximations,

and analysis and design. Offered by Electrical & Comp. Engineering. Limited to two attempts.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

ENGR 395: *Engineering Internship.* 0-3 credits.
Students will participate in experiential learning in an industrial setting. Students must identify work opportunity and seek advisor approval prior to registering. Offered by Electrical & Comp. Engineering. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Completion of at least 30 credit hours.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

ENGR 396: *Engineering Co-Op I.* 0-3 credits.
1st Semester of a multi-semester co-operative education experience. Students will apply concepts and theories from the classroom to an industrial setting. Students must identify work opportunity and seek advisor approval prior to registering. Offered by Electrical & Comp. Engineering. Limited to two attempts.

Recommended Prerequisite: Completion of at least 30 credit hours.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale.

ENGR 397: *Engineering Co-Op II.* 0-3 credits.
Second Semester of a multi-semester co-operative education experience. Students will apply concepts and theories from the classroom to an industrial setting. Students must continue employment from ENGR 396 and seek advisor approval prior to registering. Offered by Electrical & Comp. Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisite: ENGR 396[C].
[C] Requires minimum grade of C.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

ENGR 398: *Applied Engineering Abroad.* 3 credits.
Introduces students to applications of engineering processes outside USA. The students will gain hands-on project management, critical thinking, intercultural and career skills by exploring engineering aspects such as auto assembly, airliner manufacturing, metropolitan infrastructure, and bridge designs. By visiting technology museums, students will learn to appreciate the rich history of the country's technology and manufacturing. Offered by Electrical & Comp. Engineering. Limited to two attempts.

Mason Core: Global Understanding

Registration Restrictions:
Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

ENGR 498: *Independent Study in Engineering.* 1-3 credits.
Directed self-study of special topics of current interest in ENGR. Notes: May be repeated if topics substantially different. Offered by Electrical & Comp. Engineering. May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

ENGR 499: *Special Topics in Engineering.* 0-4 credits.
Topics of special interest to undergraduates. Notes: May be repeated if topics substantially different. Offered by Electrical & Comp. Engineering. May be repeated within the term for a maximum 11 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

English (ENGH)

100 Level Courses

ENGH 100: *Composition for Multilingual Writers.* 4 credits.
Intensive practice in drafting, revising, and editing expository essays of some length and complexity. Studies logical, rhetorical, and linguistic structure of expository prose, with attention to particularly difficult aspects of the language for multilingual writers. Methods and conventions of preparing research papers. Notes: Students must attain minimum grade of C to fulfill degree requirements. Offered by English. Limited to three attempts. Equivalent to ENGH 101, ENGH 122.

Mason Core: Written Communication (lower)

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 101: *Composition.* 3 credits.
Provides student writers with the skills and mindsets needed to effectively respond to a range of academic and public writing situations through particular attention to rhetorical flexibility and inquiry-based research. Students learn to engage in a process of discovery and

consider diverse perspectives before making a judgment, taking a stance, or proposing a solution. Students learn to analyze and respond to a range of rhetorical situations (writing in various genres for different audiences and purposes); develop strategies to critically read a range of non-fiction genres; engage in in-depth inquiry and writing processes; locate, evaluate, and synthesize source material to discover and answer complex questions; and reflect on what they are learning and how they are applying new knowledge, as well as on their research and writing processes. Offered by English. Limited to three attempts. Equivalent to ENGH 100, ENGH 122.

Mason Core: Written Communication (lower)

Specialized Designation: Mason Impact.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 121: *Enhanced Composition For Multilingual Writers of English I.* 3 credits.
Provides intensive practice in drafting, revising, and editing essays in common academic genres such as description, exposition, and analysis, with additional language support for building English fluency. Addresses logical, rhetorical, and linguistic structures of expository prose. This course is the first of a two-part course for students in the Undergraduate International Pathway Program. Offered by English. Limited to three attempts.

Specialized Designation: Mason Impact.

Recommended Prerequisite: Admission to the Undergraduate International Pathway Program for international students.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Special scale.

ENGH 122: *Enhanced Composition For Multilingual Writers of English II.* 3 credits.
Provides intensive practice in drafting, revising and editing essays in common academic genres such as argumentation and research based writing, with additional language support for building English fluency. Addresses logical, rhetorical, and linguistic structures of expository prose, and builds critical reading strategies. This course is the second of a two-part course for students in the Undergraduate International Pathway Program. Notes: Students must attain minimum grade of C to fulfill Mason Core degree requirement for written communication (lower level). Offered by English. Limited to three attempts. Equivalent to ENGH 100, ENGH 101.

Specialized Designation: Mason Impact.

Recommended Prerequisite: Satisfactory progress in ENGL 121/ ENGH 121.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Special scale.

200 Level Courses

ENGH 201: *Reading and Writing about Texts.* 3 credits.
Close analysis of literary texts, including but not limited to poetry, fiction, and drama. Emphasizes reading and writing exercises to develop basic interpretive skills. Examines figurative language, central ideas, relationship between structure and meaning, narrative point of view. Offered by English. Limited to three attempts.

Mason Core: Literature

Recommended Prerequisite: 3 credits of 100-level English.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 202: *Texts and Contexts.* 3 credits.
Studies literary texts within the framework of culture. Examines texts within such categories as history, gender, sexuality, religion, race, class, and nation. Notes: Builds on reading and writing skills taught in ENGH 101. Offered by English. May be repeated within the term.

Mason Core: Literature

Recommended Prerequisite: 3 credits of 100-level English.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 203: *Western Literary Tradition.* 3 credits.
Major works of Western literature in historical progression. Focuses on writers such as Homer, Sophocles, Euripides, Dante, Cervantes, Machiavelli, and Montaigne. Notes: All readings are in modern English. Courses build on reading and writing skills taught in ENGH 101. Offered by English. Limited to three attempts.

Mason Core: Literature

Recommended Prerequisite: 3 credits of 100-level English.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 204: *Western Literary Traditions.* 3 credits.
Major works of Western literature in historical progression. Covers writers such as Moliere, Mme. de Lafayette, Goethe, Ibsen, Flaubert, Dostoyevski, Tolstoy, Mann, Kafka, Borges, and Soyinka. All readngs are in modern English. Notes: Courses build on reading and writing skills taught in ENGH 101. Offered by English. Limited to three attempts.

Mason Core: Literature

Recommended Prerequisite: 3 credits of 100-level English.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

ENGH 300: *Cover to Cover.* 3 credits.
Introduction to various topics in English; many have an interdisciplinary emphasis. Appropriate for non-majors. Topic changes each time course is offered. Notes: May be repeated when topic is different. Offered by English. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: ENGL 101/ENGH 101

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 301: *The Fields of English.* 3 credits.
Introduces the fields of English studies, focusing on discipline-specific forms of practice within the concentrations in the major. Explores central concepts including reading, language, medium, text, author/producer. Maps histories and contexts of English as a discipline. Offered by English. Limited to three attempts.

Specialized Designation: Mason Impact.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 302: *Advanced Composition.* 3 credits.
Intensive practice in writing and analyzing expository forms such as essay, article, proposal, and technical or scientific reports with emphasis on research related to student's major field. Notes: Students must attain minimum grade of C to fulfill degree requirements. Schedule of Classes designates particular sections of ENGH 302 in business, humanities, natural sciences and technology, and social sciences. Offered by English. Limited to three attempts.

Mason Core: Written Communication (upper)

Specialized Designation: Mason Impact.

Recommended Prerequisite: Completion of 45 credits.

Registration Restrictions:
Required Prerequisites: (ENGH 100[C], 100[XS], 101[C], 101[XS], U101, 122[C], 122[XS], ENGL 100[C], 101[C], U101, 122[C], HNRS 110[C], 110[XS], NCLC 203[C], INTS 203[C] or 203[XS]) and (ARAB 325[D], 325[XS], 325[XP], L325, CHIN 310[D], 310[XS], 310[XP], 311[D], 311[XS], 311[XP], 325[D], L325, 325[XS], 325[XP], 328[D], 328[XS], 328[XP], CLAS 250[D], U250, 250[XS], 250[XP], 260[D], 260[XS], 260[XP], 340[D], 340[XS], 340[XP], 350[D], 350[XS], 350[XP], 360[D], 360[XS], 360[XP], 380[D], 380[XS], 380[XP], ENGH 201[D], U201, 201[XS], 201[XP], 202[D], U202, 202[XS], 202[XP], 203[D], U203, 203[XS], 203[XP], 204[D], U204, 204[XS], 204[XP], FREN 325[D], L325, 325[XS], 325[XP], 329[D], 329[XS], 329[XP], FRLN 330[D], 330[XS], 330[XP], GERM 325[D], 325[XS], 325[XP], ITAL 320[D], 320[XS], 320[XP], 325[D], L325, 325[XS], 325[XP], JAPA 340[D], 340[XS], 340[XP], KORE 311[D], 311[XS], 311[XP], PHIL 253[D], 253[XS], 253[XP], RELI 235[D], 235[XS], 235[XP], U235, 333[D], 333[XS], 333[XP], RUSS 325[D], 325[XS], 325[XP], 326[D], 326[XS], 326[XP], 327[D], 327[XS], 327[XP], SPAN 325[D], L325, 325[XS], 325[XP], ENGH 2---, INTS 101[D], 101[XS], 101[XP], NCLC 101[D], HNRS 131[D], 131[XS], 131[XP], ELED 358[D], L358, 358[XS], 358[XP], HIST 334[D], 334[XS] or 334[XP]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[D] Requires minimum grade of D.
[XP] Requires minimum grade of XP.

Students with a class of Freshman may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 303: *Humanities College to Career.* 1 credit.
Focuses on career choices and effective self-presentation for soon-to-be graduating students with majors in the humanities. Explores how skills typically learned In humanities majors can be leveraged for a successful transition to post-graduation employment. Offered by English. Limited to three attempts. Equivalent to FRLN 309, HIST 385, PHIL 393, UNIV 420.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 304: *Topics: Literary Surveys.* 3 credits.
Advanced introduction to major movements and representative figures of two or more centuries or periods of American, British, European, or world literature. Notes: May be repeated when topic is different. Offered by English. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 305: *Dimensions of Writing and Literature.* 3 credits.
Teaches students the conventions of writing in literary studies while emphasizing writing process. Develops interpretive skills for further study in the major though the teaching of in-depth close reading, intertextual analysis, and critical reading in scholarship. Offered by English. Limited to three attempts.

Specialized Designation: Mason Impact., Writing Intensive in Major

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 307: *English Grammar.* 3 credits.
Overview of grammatical structure of English including word classes, phrases, and complex sentences. English grammar analyzed using modern syntactic theory. Students engage in language description through problem solving. Offered by English. Limited to three attempts. Equivalent to LING 307.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 308: *Theory and Inquiry.* 3 credits.
Investigates a problem or debate central to the discipline of English. Teaches students how to read, understand, and engage with theoretical texts. Notes: May be repeated for credit when topic is different. Offered by English. May be repeated within the term.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 309: *Topics in Literature.* 1-3 credits.
Studies literature by topics, such as women in literature, science fiction, and literature of the avant garde. Notes: Topic varies. May be repeated for credit when topic is different. Offered by English. May be repeated within the term.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 310: *Topics: Women and Literature.* 3 credits.
Explores experiences of women as both authors and subjects of imaginative literature. Notes: May be repeated when topic is different. Offered by English. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 315: *Folklore and Folklife.* 3 credits.
Topics include folktales, personal narratives, legends, proverbs, jokes, folk songs, folk art and craft, and folk architecture. Considers ethnicity, community, family, festival, folklore in literature, and oral history. Discusses traditions in students' own lives. Offered by English. Limited to three attempts.

Mason Core: Arts

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 316: *Topics in Myth and Literature.* 3 credits.
Studies how traditional mythologies are reflected in English and American literature and other texts as themes, motifs, and patterns. Notes: May be repeated when topic is different. Offered by English. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 318: *Introduction to Cultural Studies.* 3 credits.
Introduces interpretive practices associated with cultural studies. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 319: *Popular Culture.* 3 credits.
Emphasizes popular fiction and adaptation of popular prose genres to media that have strong verbal and visual elements. Relationship between verbal and nonverbal elements of media such as film, comics, and radio. Offered by English. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 320: *Literature of the Middle Ages.* 3 credits.
Selected English narrative, dramatic, and homiletic literature written between 1300 and 1500, exclusive of Chaucer. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 321: *English Poetry and Prose of the 16th Century.* 3 credits.
Poetry and prose of early Renaissance in England. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

ENGH 322: *Shakespeare.* 3 credits.
Introduction to Shakespeare's art. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 323: *Shakespeare: Special Topics.* 3 credits.
Study of one aspect of Shakespeare's art or critical issues surrounding it. Offered by English. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 324: *English Renaissance Drama.* 3 credits.
Major dramas and dramatists of English Renaissance, such as Lyly, Marlowe, Jonson, Middleton, Webster, and Ford. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 325: *English Poetry and Prose of the 17th Century.* 3 credits.
English poetry and prose from 1603 to 1688, excluding Milton. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 330: *Augustan Age: 1660-1745.* 3 credits.
English literature from late 17th century to mid-18th century. Includes Dryden, Rochester, Behn, Defoe, Swift, Pope, and Montagu. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 331: *Age of Sensibility: 1745-1800.* 3 credits.
English literature of later 18th century, time of American and French Revolutions, including new developments in novel, drama, biography, and poetry. Includes Johnson, Boswell, Blake, Goldsmith, Sterne, Gray, Cowper, Burney, Godwin, and Wollstonecraft. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 332: *Restoration and 18th Century Drama.* 3 credits.
Restoration comedy of manners, sentimental comedy, and neoclassical and bourgeois tragedy. Theories of drama and conventions of staging. Includes writers such as Wycherley, Behn, Congreve, and Cowley. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 333: *British Novel of the 18th Century.* 3 credits.
English novel from its beginnings through turn of 19th century. Covers works by Behn, Defoe, Haywood, Richardson, Fielding, Sterne, Burney, Smollett, and Austen. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 334: *British Poetry of the Romantic Period.* 3 credits.
Works of major poets of Romantic period: Blake, Wordsworth, Coleridge, Byron, Shelley, and Keats. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 335: *Prose and Poetry of the Victorian Period.* 3 credits.
Poetry and nonfiction prose by such authors as Carlyle, Arnold, Tennyson, Elizabeth Barrett Browning, Robert Browning, Ruskin, Mill, and Wilde. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 336: *British Novel of the 19th Century.* 3 credits.
Works by Dickens, Thackeray, the Brontes, Eliot, Trollope, and Hardy. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 337: *British Poetry after 1900.* 3 credits.
Emphasizes Hardy, Yeats, Lawrence, Graves, Auden, Thomas, and Hughes. Fiction works employing poetic techniques, such as Joyce's Ulysses, may also be studied. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 338: *British Novel after 1900.* 3 credits.
Works by Conrad, Forster, Lawrence, Joyce, Woolf, Greene, Lessing, Spark, and Fowles. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 339: *British and Irish Drama after 1900.* 3 credits.
English or Irish drama from Yeats to the present. Plays by authors such as Yeats, Synge, O'Casey, Osborne, Wesker, Pinter, Friel, Churchill, and Gems. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 340: *Early American Literature.* 3 credits.
Works of first 200 years of American literature, including Edwards, Franklin, Irving, Cooper, and Bryant. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 341: *Literature of the American Renaissance.* 3 credits.
Major writers of American Renaissance (1830-1865), with emphasis on Emerson, Thoreau, Hawthorne, Melville, Whitman, Poe, Stowe, Douglass, and Dickinson. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 342: *Post-Civil War American Literature, 1865-1920.* 3 credits.
Study of American literature of the Post-Civil War period (1865-1920). A range of genres will be considered with emphasis on the historical contexts of literary production. Attention will be paid to the literary modes of realism, regionalism, naturalism, and modernism. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in lower division composition and Mason Core literature

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 343: *Development of the American Novel to 1914.* 3 credits.
Major American novels of the pre-World War I period with emphasis on Brown, Cooper, Hawthorne, Melville, Twain, Howells, James, Crane, Dreiser, Norris, and others. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 344: *Development of the American Novel since 1914.* 3 credits.
Works by Fitzgerald, Hemingway, Faulkner, Dos Passos, Wolfe, Bellow, and Nabokov. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 345: *American Drama of the 20th Century.* 3 credits.
American drama of 20th century, with special attention to playwrights such as Glaspell, O'Neill, Miller, Williams, Fornes, and Albee. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 346: *American Poetry of the 20th Century.* 3 credits.
Emphasizes work of Robinson, Frost, Stevens, Williams, Pound, Crane, Eliot, and Lowell. May include work of fiction employing poetic techniques, such as Faulkner's The Sound and the Fury . Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 348: *Beginnings of African American Literature Through 1865.* 3 credits.
Concentrating on such poets as Phillis Wheatley, Jupiter Hammon, Lucy Terry, and George Moses Horton, examines significant African American literary, social, and political texts produced through 1865. Special attention to narrative accounts of enslavement and freedom by Frederick Douglass, Harriet Jacobs, and Olaudah Equiano; political writings and orations of David Walker and Sojourner Truth; fiction of Harriet Wilson and William Wells Brown; and nonwritten cultural artifacts such as slave songs and spirituals. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 349: *African American Literature: Reconstruction to 1903.* 3 credits.
Emphasizes several major writers from Reconstruction to beginning of 20th century, concluding with W.E.B. DuBois's The Souls of Black Folk . Concentrating on evolution of African American fiction and poetry as well as political and social discourses on "race," explores how authors such as Frances E.W. Harper, Charles Chesnutt, Pauline Hopkins, Paul Laurence Dunbar, Anna Julia Cooper, Ida B. Wells-Barnett, Booker T. Washington, and DuBois shaped the foundation for 20th-century African American literary art and aesthetics. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 350: *African American Literature Through 1946.* 3 credits.
Focusing on fiction, poetry, drama, and autobiography, explores evolution of African American literature and aesthetics and major social, cultural, and historical movements such as the Harlem Renaissance of the 1920s and emergence of black naturalism, realism, and modernism in the 1930s-40s. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 352: *Topics in Ethnic American Literature.* 3 credits.
Studies particular ethnic American literatures. Focuses on literatures such as Asian American, Native American, Latino/a, Arab American, or Jewish American. Notes: May be repeated when topic (expressed by course subtitle and content) is different. Offered by English. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 355: *Recent American Fiction.* 3 credits.
American short story writers and novelists from World War II to present, including Mailer, Barth, Cheever, Oates, Gass, Beattie, Updike, and Morrison. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 356: *Recent American Poetry.* 3 credits.
Major American poets from World War II to present, emphasizing Roethke, Brooks, Rich, Dickey, Lowell, Ammons, Kizer, Sexton, Clifton, Plath, and Piercy. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 360: *Continental Fiction, 1770-1880.* 3 credits.
Selected European novels in translation. Focuses on continental novel from 18th century to end of 19th century. Includes works of Balzac, Goethe, Gogol, Stendhal, Turgenev, Flaubert, Dostoievski, Tolstoy, and Chekhov. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 361: *Continental Fiction, 1880-1950.* 3 credits.
Offered in cooperation with the Department of Modern and Classical Languages. Focuses on continental novel from beginning of 20th century to present. Includes Proust, Mann, Gide, Kafka, Yourcenar, Beauvoir, Calvino, and Garcia Marquez. Attention to influence of this literature on novel in English. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 362: *Global Voices.* 3 credits.
Studies two cultures other than contemporary British or American culture through exploration of several textual forms such as written literature, oral literature, film, folklore, or popular culture. Specific cultures vary, but at least one is non- Western. Notes: May be repeated for credit when topic is different. Offered by English. May be repeated within the degree.

Mason Core: Global Understanding

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 366: *The Idea of a World Literature.* 3 credits.
Examines history and current status of conceptions of world literature, considering such topics as non-European influences on Western literature, shifting horizons of comparative literature, rise of postcolonial literature, place of translation, and role of international institutions such as UNESCO and the Nobel Prize. Focuses on degree to which these initiatives have been successful in promoting global understanding of literary production. Offered by English. Limited to three attempts.

Mason Core: Global Understanding

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 367: *World Literatures in English.* 3 credits.
Study of selected topics, periods, genres, or authors in literature written in English, originating in Canada, Australia, New Zealand, South Asia, or Africa, for example. Notes: May be repeated when topic is different with permission of department. Offered by English. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 368: *Modern Drama.* 3 credits.
Representative plays of most influential European and American dramatists, with emphasis on dramatic styles such as realism, expressionism, epic, and existentialism. Studies Chekhov, Ibsen, Strindberg, Brecht, and Beckett. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 370: *Introduction to Documentary.* 3 credits.
Considers fundamental concepts of documentary form, style, and subject matter, ethical considerations, and theories of documentary. Includes close analysis of a series of representative film and television texts. Offered by English. Limited to three attempts.

Mason Core: Arts

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 371: *Television Studies.* 3 credits.
Learn to identify and analyze formal elements of television. Learn how to situate and evaluate television in their cultural and historical contexts, interpret specific texts, and understand the relationships among broadcasting and networks, citizenship, audiences, and the public sphere. Offered by English. Limited to three attempts.

Mason Core: Arts

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 372: *Introduction to Film.* 3 credits.
Introduces film medium as an art form. Offered by English. Limited to three attempts. Equivalent to ENGH 555.

Mason Core: Arts

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 375: *Web Authoring and Design.* 3 credits.
Provides a rhetorical foundation for web authoring and design in professional settings. Students will learn basic principles of writing for the web, information architecture, coding for accessibility, and usability testing. The production-oriented component of the course provides instruction in writing valid code and practice with web- and graphic-editing software tools. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 376: *Rhetoric and New Media.* 3 credits.
Critical reading of new media texts and creation of technology-enriched texts in variety of rhetorical genres. Instructs students in rhetoric of new media, whether produced as hypertext, multimedia, or interactive digital productions. Technology-enriched activities present complex textuality of words, images, word-as-image, and kinetic text. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 377: *Digital Creative Writing.* 3 credits.
Combined workshop and studio course in technological and aesthetic issues of reading and writing hypermedia texts with emphasis on poetry, fiction, creative nonfiction, mixed genre, drama, or performance. Explores how genre meets hypertext and hypermedia in original creative work. Includes techniques in authoring interactive hypermedia projects using digital media tools. Notes: May include reading assignments in hypertext and hypermedia theory. Offered by English. Limited to three attempts.

Recommended Prerequisite: ENGL 396/ENGH 396 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 380: *Introduction to Writing and Rhetoric.* 3 credits.
Introduces students to the field of writing studies, with a focus on definitions of writing and rhetoric and research methods applied to the study of writing from the perspective of multiple disciplines. Provides an overview of both historical and contemporary approaches to studying writing as object, process, practice, and occupation. Offered by English. Limited to three attempts.

Specialized Designation: Mason Impact.

Recommended Prerequisite: ENGL 302/ENGH 302 is recommended.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 382: *Writing Nonfiction Genres.* 3 credits.
Advanced practice in analyzing and writing nonfiction forms such as essay, profile, article, and technical or scientific report, depending on student's interests. Notes: Not to be taken concurrently with ENGH 399 or 486, and not to be taken by students who have taken ENGH 486. Not a remedial course. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 386: *Editing for Audience, Style, and Voice.* 3 credits.
Introduces editing as a textual and rhetorical practice. Addresses copyediting, stylistics, and design; revisions based on audience, purpose, and genre; multimedia editing; interactions between editors and authors. (Not a remedial course in fixing sentence errors.) Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 388: *Professional and Technical Writing.* 3 credits.
Intensive study and practice in various forms of professional and technical writing, including proposals, reports, instructions, news releases, white papers, and correspondence. Emphasizes writing for variety of audiences, both lay and informed, and writing within various professional and organizational contexts. Offered by English. Limited to three attempts.

Recommended Prerequisite: ENGL 302/ENGH 302.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 389: *Peer Tutoring in Writing across the Disciplines.* 1 credit.
Experiential learning course in teaching of writing across disciplines. Students receive Writing Center training in theory and techniques of tutoring writing and work a minimum of 3 hours per week in Writing Center. Focus is on practical application of writing theory and pedagogy from course readings, development of tutoring skills, and self-reflection through journals and final paper. Notes: Students must submit two faculty recommendations and a sample of recent academic writing, and complete an interview with the director of the Writing Center. Offered by

English. May be repeated within the degree for a maximum 3 credits. Equivalent to CHSS 390.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 391: *Forms of Poetry.* 3 credits.
Intensive study of and practice in formal elements of poetry through analyzing models and weekly writing assignments. Depending upon specific instructor, can cover rhyme, meter, rhythm, lineation, stanza pattern, traditional and experimental forms, free verse and open-form composition, lyric, narrative, and dramatic modes. Offered by English. Limited to three attempts.

Recommended Prerequisite: ENGH 396.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 392: *Forms of Fiction.* 3 credits.
Intensive practice in the elements and forms of fiction, through analyzing models and completing weekly writing assignments. Covers short stories, short-shorts, longer narratives, and such elements as plot, narrative technique, dialogue, point of view, voice and style, along with tools such as evocation, description, and epiphany. Offered by English. Limited to three attempts.

Recommended Prerequisite: ENGH 396.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 393: *Forms of Nonfiction.* 3 credits.
Intensive study of and practice in various forms of nonfiction writing, through analyzing models and completing weekly writing assignments. Includes in-depth discussion and practice in such forms as biographies, documentaries, editorials, interviews, reports, reviews, and essays. Offered by English. Limited to three attempts.

Recommended Prerequisite: ENGH 396.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 396: *Introduction to Creative Writing.* 3 credits.
Assignments include writing exercises and original works of poetry and fiction. May also include drama or creative nonfiction. Includes reading assignments in covered genres, and may include oral presentations or in-class performance. Original student work read and discussed in class and conference with instructor. Offered by English. Limited to three attempts.

Mason Core: Arts

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 397: *Poetry Writing.* 3 credits.
Workshop in reading, writing poetry. Original student work read and discussed in class and conferences with instructor. Technical exercises in craft of poetry; may include reading assignments. Offered by English. Limited to three attempts.

Recommended Prerequisite: ENGL 396/ENGH 396 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 398: *Fiction Writing.* 3 credits.
Workshop course in reading and writing fiction. Original student work read and discussed in class and conferences with instructor. Includes technical exercises in craft of fiction; may include reading assignments. Offered by English. Limited to three attempts.

Recommended Prerequisite: ENGL 396/ENGH 396 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 399: *Creative Nonfiction Writing.* 3 credits.
Workshop in reading and writing of nonfiction that makes use of literary techniques normally thought of in context of fiction, such as evoking senses and use of dialog. Original student work read and discussed in class and conferences with instructor. Includes technical exercises in artful creating of nonfiction; may include reading assignments. Offered by English. Limited to three attempts.

Recommended Prerequisite: ENGL 309/ENGH 382 or ENGL 396/ ENGH 396, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

ENGH 400: *Honors Seminar.* 3 credits.
Emphasizes growth in awareness of literary scholarship as a discipline, providing opportunity for advanced study in literary and cultural criticism. Covers variety of topics, including consideration of a literary period, genre, author, work, theme, discourse, or critical theory. Offered by English. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Open only to English department honors students.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 401: *RS: Honors Thesis Writing Seminar.* 3 credits.
Provides guidance in research methods to students writing an honor thesis as well as workshop for critiquing works in progress. May be taken concurrently with another approved course offered by English Department, in which case thesis work may substitute for some assigned work in second course by arrangement of both instructors. Offered by English. Limited to three attempts.

Mason Core: Capstone

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: Acceptance into English honors; permission of department and ENGH 400/ENGL 414 or ENGH 402/ENGL 416.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 402: *Honors Independent Study.* 1-3 credits.
Intensive writing course. Honors students concentrating in nonfiction writing and editing may use English 416 to replace English 414 as first course in honors program. Notes: Honors students concentrating in creative writing may use ENGH 402 to replace ENGH 401. Honors students concentrating in nonfiction writing who take ENGH 401 and complete a nonfiction thesis may use ENGH 402 in conjunction with an advanced course in nonfiction writing to replace ENGH 400. Offered by English. Limited to three attempts.

Recommended Prerequisite: Admission to honors program in English, and permission of instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 408: *Topics in Criticism.* 3 credits.
Studies selected approach to literary criticism, as announced, with exercises in critical analysis. Includes new criticism, structuralism, psychoanalysis, and Marxism. Notes: May be repeated when topic is different with permission of department. Offered by English. May be repeated within the term.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 409: *Literary Modes.* 3 credits.
Theory and practice of such modes as tragedy, comedy, tragicomedy, romance, and satire, considered in separate semesters and drawn from variety of periods ranging from biblical times to present, with examples from drama, poetry, and fiction. Notes: May be repeated with permission of department. Offered by English. May be repeated within the term for a maximum 12 credits.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 412: *Topics in Folklore Studies.* 3 credits.
Exploration of various aspects of folklore and folklife such as folklore and literature, folk arts, folk song, and material culture. Notes: May be repeated when topic is different with permission of department. Offered by English. May be repeated within the term.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 414: *Folklore and the Supernatural.* 3 credits.
Examines the role of supernatural phenomena in individuals' everyday lives. Introduces folkloristic approaches to the study of belief, paranormal experiences, and popular spirituality. Topics may include ghosts, spirit possession, superstitions, visions, near death experiences, dream interpretation, magic, the commodification of belief, and the supernatural and new media. Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 415: *Folk Arts and Folk Artists.* 3 credits.
Examines the traditional arts of everyday life, such as festive foods, mementos and other objects of memory, textile arts, pottery, carving in wood and stone, roadside shrines, and more. Explores the folk aesthetics of group-based creativity through the lenses of biography, history, literature, and folklore studies. Considers traditional objects as narratives in material form. Examples drawn from multiple cultures as well as traditions in students' own lives. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 416: *Ethnicity and Migration in Folklore.* 3 credits.
Explores U.S. immigration trends and the historical basis for the concepts of ethnicity, identity, and immigration in folklore scholarship, literature, film, and popular media. The course explores at least three of the following ethnic groups: Latino, Asian, Jewish, European, Arab, or African. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 417: *RS: Topics in Folklore Research.* 3 credits.
Topic-based course in research methods. Students conduct advanced research in folklore studies using traditional and digital research tools and approaches. Notes: May be repeated when topic is different. Offered by English. May be repeated within the degree for a maximum 6 credits.

Mason Core: Capstone

Specialized Designation: Research/Scholarship Intensive, Topic Varies

Recommended Prerequisite: ENGH 305 (3 credit) and 85 credit hours earned.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 418: *Cultural Constructions of Sexualities.* 3 credits.
Introductory survey of cultural, literary, and theoretical constructions of sexuality that seek to complicate traditionally fixed categories of identity. Examines various representations of human sexuality, with particular attention to intersections with gender, race, ethnicity, nationality, and class. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 419: *Topics in Popular Literature.* 3 credits.
Studies specific topic or theme in popular literature. Notes: May be repeated when topic is different with permission of department. Offered by English. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 421: *Topics in Medieval and Renaissance Literature.* 3 credits.
Studies selected topics, genres, themes or authors in medieval or Renaissance literature and culture. Notes: May be taken for credit by English or history majors. Specific topic may vary. Primary emphasis is literary or historical, depending on discipline of instructor. May consider relevant material from philosophy, theology, and art. May be repeated when topic is different. Offered by English. May be repeated within the degree for a maximum 6 credits. Equivalent to FRLN 431.

Specialized Designation: Mason Impact., Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 422: *Chaucer.* 3 credits.
Major works of Chaucer, with emphasis on The Canterbury Tales . Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 428: *Milton.* 3 credits.
Milton's major poetic works, with emphasis on Paradise Lost . Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 431: *Topics: British Literary Periods.* 3 credits.
In-depth study of selected period of British literature. In addition to literary examples, materials may be chosen from art, philosophy, or popular culture of the time. Notes: May be repeated when topic is different with permission of department. Offered by English. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 432: *Topics: British Authors.* 3 credits.
Study of one or two major figures in British literature. Notes: May be repeated when topic is different with permission of department. Offered by English. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 441: *Topics: American Authors.* 3 credits.
Study of one or two major figures in American literature. Notes: May be repeated when topic is different with permission of department. Offered by English. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 442: *Topics: American Literary Periods.* 3 credits.
In-depth study of selected period of American literature. In addition to literary examples, materials may be chosen from art, philosophy, or popular culture of time. Notes: May be repeated when topic is different with permission of department. Offered by English. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 451: *Science Fiction.* 3 credits.
Major works of science fiction in terms of mode, themes, and narrative techniques, especially role of hypothesis in science fiction. Focuses on novels, short stories from early 19th century to present. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Examines the history and criticism of children's literature and the strategies used by authors of children's literature to address their audience. Selected readings range from Puritan to contemporary writing for children, as well as influential works in educational philosophy, such as those by Locke and Rousseau. Offered by English. Limited to three attempts.

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 453: *Topics in Fiction.* 3 credits.
Study of selected topics, periods, or authors. Notes: May be repeated when topic is different with permission of department. Offered by English. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 454: *Topics in Poetry.* 3 credits.
Study of selected topics, periods, or poets. Notes: May be repeated when topic is different with permission of department. Offered by English. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 455: *Topics in Drama.* 3 credits.
Studies selected topics, periods, or playwrights. Notes: May be repeated when topic is different with permission of department. Offered by English. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 456: *Topics in Literary Nonfiction.* 3 credits.
Special studies in literary nonfiction by topic, such as the personal essay, New Journalism, the "nonfiction novel," the memoir, or historical traditions of literary nonfiction. Notes: May be repeated when topic is different. Offered by English. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 458: *RS: Topics in Literary Research.* 3 credits.
Topic-based course in research methods. Students conduct advanced research in literary studies using traditional and digital research tools and approaches. Notes: May be repeated when the topic is different. Offered by English. May be repeated within the degree.

Mason Core: Capstone

Specialized Designation: Research/Scholarship Intensive, Topic Varies

Recommended Prerequisite: ENGH 305 (3 credit) and 85 credit hours earned.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 459: *Internship.* 1-3 credits.
Under supervision of a faculty director, students report and reflect on their work as interns at organizations of their choosing, usually in writing and/or editing positions. For 3 credits, students work on site at least 135 hours as specified in the agreement developed with the internship supervisor and approved by the faculty director. Notes: Contact the English Department one semester prior to enrollment. No more than 3 credits can be counted in concentration or English minor. May be repeated with permission of department. Offered by English. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Permission of internship director. 60 credits. English majors need 18 credits of English (3 credits of 100-level English course; 3-6 credits of 200-level English courses; 3 credits of ENGL302/ ENGH 302 and 6-9 credits of upper-level English courses). Non-English majors must meet the same requirements, except that they replace one upper-level English course with an upper-level course in their major.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 470: *RS: Topics in Film/Media History.* 3 credits.
Advanced studies of development of film language, both as cultural practice and medium for formal innovation. Topics might include studies of national cinemas, historical periods, genres, or individual directors. Notes: May be repeated when topic is different. Offered by English. May be repeated within the term for a maximum 6 credits.

Mason Core: Capstone

Specialized Designation: Research/Scholarship Intensive, Topic Varies

Recommended Prerequisite: ENGL 332/ENGH 372 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 472: *Topics in Film/Media Theory.* 3 credits.
Advanced studies of theories about various aspects of production, distribution, and reception of film-mediated experiences. Topics may include theories of spectator, semiotics, feminist film theory, theories of narrativity, structuralist film theory, or deconstruction. Notes: May be repeated when topic is different. Offered by English. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: ENGL 332/ENGH 372 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 474: *Topics in Film/Media Studies.* 3 credits.
American and foreign films selected by type, period, or director with emphasis varying from year to year. Required viewings, student discussion, and written critiques. Notes: May be repeated for a maximum of 6 credits with permission of department. Offered by English. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: ENGL 332/ENGH 372 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 483: *Technical Editing.* 3 credits.
Instruction in revising, editing, and preparing specialized writing for print production. Emphasizes methods of achieving clarity, accuracy, and completeness. Lecture and discussion on editing and printing techniques; practical exercise in revision, layout, and production. Offered by English. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 484: *RS: Writing Ethnography.* 3 credits.
Study and practice of ethnographic writing. Students conduct ethnographic investigations and practice journal keeping, field note recording, interviewing, transcription, and interpretation. Includes introduction to current issues in ethnographic writing. Offered by English. Limited to three attempts.

Mason Core: Capstone

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: ENGH 302.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 485: *Document Design.* 3 credits.
Theory and practice of using computer programs to design and produce publications including brochures, fliers, newsletters, and small magazines. Includes readings, writing papers. and producing and editing copies and original publications. Offered by English. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 486: *RS: Writing Nonfiction for Publication.* 3 credits.
Workshop course. Intensive practice in advanced nonfiction writing; emphasizes writing for publication. Occasional special topics sections in such forms as autobiography and scientific writing. Offered by English. Limited to three attempts.

Mason Core: Capstone

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: ENGL 309/ENGH 382 or ENGL 399/ ENGH 399 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 488: *Topics in Writing and Rhetoric.* 3 credits.
Advanced studies in rhetoric and writing. Introduces key rhetorical terminology and examines how texts construct meaning and how those meanings are determined within social contexts. Topics may include the relationship between rhetorics and poetics, rhetoric and new media, histories of rhetoric, global rhetorics, argument theory, discourse analysis, theories of technical communication, or advanced theories of composition and pedagogy. Notes: May be repeated when topic is different with permission of department. Offered by English. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Satisfaction of University requirements in 100-level English and in Mason Core literature.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 489: *Proposal Writing and Development.* 3 credits.
Provides foundation in the skills and knowledge required to effectively create proposals for various types of organizations. Emphasizes best practices in management, presentation, and research skills necessary to find funding, manage proposal efforts, and build relationships with funders. Reviews editing, concision, and technical writing skills required for proposal writers. Offered by English. Limited to three attempts.

Recommended Prerequisite: ENGH 302.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 492: *Advanced Fiction Writing Workshop.* 3 credits.
Workshop; intensive practice in creative writing and study of creative process. Intended for students already writing original creative work. Notes: Enrollment is controlled. Submit 8-10 pages of fiction to instructor for review. May be repeated with permission of instructor. Offered by English. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: ENGL 398/ENGH 398 and manuscript review.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 493: *Advanced Workshop in Nonfiction.* 3 credits.
Workshop in varieties of nonfiction, along with creative process and techniques such as research and interview methods. Includes reading and writing of essays, biographies, autobiographies, travel, journalism, etc. Notes: Registration is controlled. Submit 8-10 pages of nonfiction to instructor for review. Offered by English. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: ENGH 396, ENGH 399.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 494: *Advanced Poetry Writing Workshop.* 3 credits.
Intensive practice in the craft of poetry and study of the imagination in creative process. Intended for students already writing original poetry. Notes: Enrollment is controlled. Submit 8-10 pages of poetry to instructor for review. May be repeated with permission of instructor. Offered by English. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: ENGL 397/ENGH 397 and manuscript review.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 495: *Capstone and Thesis.* 3 credits.
Presentations of original work for critique by peers and faculty. Students synthesize what they have learned during prior work in the program through workshops for final revisions of manuscripts for the BFA portfolio. Students submit the revised manuscripts as their final submission for evaluation by faculty. Students receive guidance in research methods as they investigate the lives of writers and learn the procedures for such tasks as submitting original work for publication and applying for jobs. Offered by English. Limited to three attempts.

Mason Core: Capstone

Recommended Prerequisite: ENGH 396; ENGH 391, 392, or 393; ENGH 397, 398, and 399.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 497: *Topics in Creative Writing.* 3 credits.
Intensive practice in creative writing and study of creative process. Workshop course. Concentrates on specialized literary type other than short story or poetry such as playwriting, screenwriting, children's literature, travel literature, autobiography, gothic novel, or translation. Notes: For students already writing original creative work. Students must submit typed manuscript at least one week before registration. Offered by English. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: ENGL 396/ENGH 396 or equivalent and manuscript review. Enrollment is controlled. Contact instructor for manuscript guidelines.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ENGH 499: *Independent Study.* 1-6 credits.
Intensive study of particular author, genre, period, or critical or theoretical problem in literature or linguistics, to be conducted by student in close consultation with instructor. Student produces at least one substantial piece of written work during semester on research findings. Notes: May be repeated with approval of department. Offered by English. May be repeated within the term for a maximum 6 credits.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

ENGH 500: *Research in English Studies.* 3 credits.
Introduces research in English studies, including practice in library methods, writing critical bibliography, evaluating issues and problems, and surveying scholarly activities in department. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 501: *Introduction to Professional and Technical Writing.* 3 credits.
Provides historical and theoretical background in professional writing and editing in a seminar format. Explores professional writing's emergence as a field of scholarship and practice, emphasizes the relationships between rhetorical theories and practice, and introduces students to bibliographic research in the field. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 502: *Research Methods in Professional and Technical Writing.* 3 credits.
Introduces theory, methods, and ethics of conducting research in rhetoric and professional writing. Students learn to conduct and evaluate research that may include rhetorical analysis, discourse analysis, historical methods, ethnography, user-centered design, document and usability testing, and others. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 503: *Theory and Practice of Editing.* 3 credits.
Instruction in revising, editing, and preparing specialized writing for printing. Emphasizes methods of achieving clarity, accuracy, and completeness. Lecture and discussion on editing and printing techniques; practical exercise in revision, layout, and production. Notes: May be repeated when topic is different. Offered by English. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 504: *Internship.* 1-6 credits.
Under supervision of a faculty director, students report and reflect on their work as interns at organizations of their choosing, usually in writing and/or editing positions. For 3 credits, students work on site at least 135 hours as specified in the agreement developed with the internship supervisor and approved by the faculty director. Notes: Contact the English Department one semester prior to enrollment. Offered by English. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

ENGH 505: *Document Design.* 3 credits.
Theory and practice of using computer programs to design and produce publications including brochures, fliers, newsletters, and small magazines. Includes readings, writing papers, and producing and editing copies and original publications. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 506: *Research for Narrative Writing.* 3 credits.
Combines study of basic research tools with field work and writing workshop experience. Helps students develop techniques and skills necessary for writing a research-dependent project of sufficient complexity to be of book or long essay length. Emphasis on finding story behind facts, using material from numerous sources. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 507: *Web Authoring and Design.* 3 credits.
Provides a rhetorical foundation for web authoring and design in professional settings. Teaches basic principles of writing for the web, information architecture, coding for accessibility, and usability testing. Production-oriented component provides instruction in writing valid code and practice with web- and graphic-editing software tools. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 508: *Digital Rhetoric.* 3 credits.
Provides an examination of major works on digital rhetoric and digital media framed by contemporary rhetorical theories that inform the emergent field of digital rhetoric. Course work includes projects that engage in the design, analysis, and assessment of digital media. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 509: *Proposal Writing and Development.* 3 credits.
Provides foundation in the skills and knowledge required to effectively create proposals for various types of organizations. Emphasizes best practices in management, presentation, and research skills necessary to find funding, manage proposal efforts, and build relationships with funders. Reviews editing, concision, and technical writing skills required for proposal writers. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 511: *Graduate Literature Survey.* 3 credits.
Advanced survey of selected genres, periods, areas, styles, and theoretical issues in literature. Notes: Baccalaureate degree highly recommended. Offered by English. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 15 credits of advanced undergraduate work and approval of the department. Baccalaureate degree highly recommended.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 513: *Topics in Literary and Cultural Studies.* 3 credits.
Intensive study of topics involving literary or other texts such as film, television, opera, and folklore. Notes: May be repeated with permission of department. Offered by English. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 15 credits of advanced undergraduate English courses and permission of department; or baccalaureate degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 526: *Special Topics in the History and Criticism of Children's Literature.* 3 credits.
Focuses on the history and criticism of children's literature by concentrating on selected historical periods and literary modes such as "Golden Age" children's literature, contemporary fantastic and children's literature, or Romantic and Victorian children's literature. Recommended Prerequisite: Admission to MFA concentration in poetry; ENGL 464/ENGH 494 or equivalent, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 565: *Forms of Nonfiction.* 3 credits.
Intensive study of and practice in various forms of nonfiction writing through analyzing models and weekly writing assignments. Includes biographies, documentaries, editorials, interviews, reports, reviews, and essays. Notes: Other interested graduate students should contact the English Department at (703) 993-2763. Offered by English. May not be repeated for credit.

Recommended Prerequisite: Admission to MFA concentration in nonfiction; ENGL 489/ENGH 486 or equivalent, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 566: *Forms of Fiction.* 3 credits.
Students seeking permission must submit typed manuscript of original fiction. Intensive practice in formal elements of fiction through analyzing models and weekly or biweekly writing assignments. Intended for students already writing original fiction. Covers description, narration, plot, dialogue, voice, point of view, style, epiphany, and antifiction techniques. Notes: Other interested graduate students should contact the English Department at (703) 993-1180. Offered by English. May not be repeated for credit.

Recommended Prerequisite: ENGL 458/ENGH 492 or equivalent or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Creative Writing.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 570: *Graduate Survey in Film and Media Studies.* 3 credits.
Advanced survey of topics in film and media including theories of production and the circulation of meanings in visual culture. Notes: May be repeated with permission of department. Offered by English. May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 590: *Topics in Folk Narrative.* 3 credits.
Explores types of folk narratives such as mythology, folktale, fairy tale, legend, family narrative, personal narrative. Focuses on tales from around the world. Considers aspects of storytelling such as storytelling as performance, storytelling as therapeutic modality, and storytelling during crises and conflicts. Notes: May be repeated when topic is different. Offered by English. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 591: *Topics in Folklore Studies.* 3 credits.
Explores folklore and folklife topics such as folk narrative and story telling, folklore and literature, folksong, and folk arts. Notes: May be repeated when topic is different. Offered by English. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

ENGH 602: *Pedagogical Research.* 3 credits.
Introduces theories of and hands-on experiences for students interested in studying pedagogical practice, classroom environments, and learners in context. Methodologies include ethnography, case study, grounded theory, quasi-experimental, narrative analysis, Activity Theory, Archival Research, and Assessment. Students will examine the relationships between methodological frames, pedagogical context and theories of learning. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 604: *Internship in Folklore.* 1-6 credits.
Unpaid, approved work-study positions at specific sites arranged by interested students and their advisor. Under supervision of faculty advisor, student works as intern with site supervisor in agency of student's choosing, given advisor's permission. Notes: For 3 credits, students work 120 hours on site and write 3,500 words, or equivalent, given contract with advisor. Contact English Department one semester prior to enrollment. Offered by English. May not be repeated for credit. Equivalent to FOLK 699.

Recommended Prerequisite: A course in folklore, which may be taken concurrently.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

ENGH 608: *Craft Seminars.* 3 credits.
Non-MFA students seeking permission must submit manuscript of original written work in appropriate genre. Various sections offer work in fiction, poetry, and nonfiction, each focusing in different ways on the practices and the craft development of writers. Numerous writing assignments mixed with reading followed by careful analytical and craft discussions. Notes: Assignments vary with genre and specific topic. May be taken concurrently with ENGH 564, 565, 566. Offered by English. May be repeated within the term for a maximum 15 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Admission to MFA program or ENGL 464/ ENGH 494, ENGL 458/ENGH 492, ENGL 489/ENGH 486, or permission of instructor. Non-MFA students must submit manuscript for review prior to registration.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 609: *Online Writing.* 3 credits.
Offers a craft seminar in writing for social media and online platforms. Students develop an online identity and presence, and compose work for public dissemination. Numerous writing assignments mixed with reading followed by careful analytical and craft discussions. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 610: *Proseminar in Teaching the Reading of Literature.* 3 credits.
Methods of teaching literature. Includes study of methods of literary analysis, and ways of developing student responses to literature, with some classroom practice. Notes: Does not satisfy Virginia certification requirement in diagnostic or developmental reading. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 611: *Studies in Rhetoric.* 3 credits.
Reading and discussion of several major texts that address patterns of discourse, communication, and other issues of rhetoric. Notes: Content varies. Recent offerings include 20th century rhetoric, collaborative writing, and computers and rhetoric. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 612: *Cultures of Professional Writing.* 3 credits.
Students work as ethnographers, studying selected sites where people write professionally, and analyzing ways production and reception of writing contribute to and result from local culture of each site. Lecture and workshop format. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 613: *Technical Communication.* 3 credits.
Intensive study of theory and practice of technical and scientific writing, with emphasis on writing for variety of audiences. Focuses on writing and evaluating formal reports, articles for lay and technical audiences, proposals, theses, manuals, and other forms of technical prose. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 614: *Internship in the Teaching of Writing.* 1-3 credits.
Internships provide experience working in a teaching program such as school or writing center. Under direction of faculty member, students must secure cooperation of on-site supervisor. Notes: Students work minimum 3 hours per week per credit to be awarded, keep a weekly reflective and analytical log, and communicate regularly with faculty director. Offered by English. May not be repeated for credit.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

ENGH 615: *Proseminar in Composition Instruction.* 3 credits.
Methods of teaching expository writing. Includes consideration of planning courses, practice in teaching and grading papers, and study of recent developments in teaching writing. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 616: *Nonfiction Writing Workshop.* 1-6 credits.
Intensive practice in craft of nonfiction and study of creative process. Intended for students already familiar with traditional and contemporary nonfiction, and already writing original nonfiction. Notes: At discretion of instructor, reading may be required. May be repeated for credit with permission of department. Offered by English. May be repeated within the degree.

Recommended Prerequisite: ENGL 565/ENGH 565 which may be taken concurrently, and permission of instructor, except for MFA students in the concentration.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 617: *Poetry Writing Workshop.* 1-6 credits.
Intensive practice in craft of poetry and study of creative process. Intended for students already familiar with traditional and contemporary poetic modes and already writing original poetry. Notes: At discretion of instructor, reading may be required. May be repeated for credit with permission of department. Registration is open only to students in the MFA program. Offered by English. May be repeated within the degree.

Recommended Prerequisite: ENGL 564/ENGH 564, which may be taken concurrently.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Creative Writing.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 618: *Fiction Writing Workshop.* 1-6 credits.
Intensive practice in craft of fiction and study of creative process. Intended for students already familiar with traditional and contemporary fiction and already writing original fiction. Notes: At discretion of instructor, reading may be required. May be repeated for credit with permission of department. Offered by English. May be repeated within the degree.

Recommended Prerequisite: ENGL 566/ENGH 566, which may be taken concurrently or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Creative Writing.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 619: *Special Topics in Writing.* 3 credits.
Workshop course. Intensive practice in creative writing and study of creative process. Concentrates on specialized literary type other than short story, such as essay, playwriting, film writing, children's literature, travel literature, autobiography, gothic novel, and translation. Notes: Intended for students already writing original creative work. Other interested graduate students should contact the English department at (703) 993-1180. May be repeated for credit with permission of department. Offered by English. May be repeated within the term for a maximum 30 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Intended for students already writing original creative work.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Creative Writing.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 620: *Topics in Pedagogy.* 3 credits.
Offers advanced study of teaching practices in literature, composition, creative writing, linguistics, folklore, or film and media studies. Notes: May be repeated for credit when topic is different. Offered by English. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 642: *Seminar in British Literature.* 3 credits.
Intensive study of a selected period, movement, or genre in British or world Anglophone literature. Offered by English. May be repeated within the degree for a maximum 24 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 644: *Seminar in American Literature.* 3 credits.
Intensive study of a selected period, movement, or genre in American literature. Offered by English. May be repeated within the degree for a maximum 24 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 646: *Seminar in Advanced Research.* 3 credits.
Intensive study using research methods associated with specific topics, archives, or databases. Notes: Topics vary. May be repeated when topic is different with permission of department. Offered by English. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 661: *Seminar in African-American Literature.* 3 credits.
Intensive study of a period in African-American literature between 1800 and present with focus to be determined by instructor. Considers different genres including autobiography, fiction, drama, poetry, essays, and oral artifacts such as slave songs, spirituals, and hip-hop. Notes: May be repeated when topic is different with permission of department. Offered by English. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 665: *Seminar in Global Culture.* 3 credits.
Examines various cultural texts such as literature, drama, film, and folklore in terms of transnational circulation or production and reception in locations around the world other than Britain and United States. Engages with issues arising from globalization of English and interplay of global cultures. Notes: Texts studied in English or English translation. May be repeated with permission of department. Offered by English. May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 670: *Seminar in Film and Media Studies.* 3 credits.
Advanced seminar in topics in visual representation including film, television, and video, and in theories of production and circulation of meanings in visual culture. Notes: May be repeated with permission of department. Offered by English. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 675: *Feminist Theory and Criticism.* 3 credits.
Presents historically based introduction to major debates within feminist theory and criticism. Stressing gender in literature and its interpretation, explores diverse collection of feminist interpretive practices. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 676: *Introduction to Cultural Studies.* 3 credits.
Advanced introduction to theoretical practice known as cultural studies, with attention to role in textual studies. Part of interdisciplinary cultural studies PhD and MA in English programs. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 681: *Advanced Topics in Folklore Studies.* 3 credits.
Explores advanced folklore and folklife topics such as bodylore, sense of place, festival, folk drama, and folk narrative studies. Notes: May be repeated when topic is different. Offered by English. May be repeated within the degree for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 684: *Proseminar in Poetry.* 3 credits.
For students working on independent reading and research in poetry. Designed for students preparing to take the MFA reading exam in poetry but open to others with comparable reading projects in poetry. Offered by English. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

ENGH 685: *Selected Topics, Movements, or Genres of Literature in English.* 3 credits.
Content varies. Notes: May be repeated with permission of department. Offered by English. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 689: *Advanced Proposal Writing.* 3 credits.
Introduces the federal contract and grants proposal process and provides an overview of the federal acquisition process, the capture and proposal management processes, and best practices for writing winning proposals in the federal arena. Students work individually and in teams to write and

manage proposals. Offered by English. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: ENGH 509.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 690: *Special Topics in Writing and Rhetoric.* 3 credits.
Includes readings and discussion in a wide range of topics related to writing and rhetoric. May focus on a specific theory, method or practice in writing and rhetoric. Notes: May be repeated for credit when topic varies. Offered by English. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 695: *Northern Virginia Writing Project Inservice Program.* 1-3 credits.
Offered at request of school division or other education agency to assist teachers in improving student writing and use of writing to learn. Notes: Content varies. May be repeated for credit with permission of department. Offered by English. May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 696: *Northern Virginia Writing Project Teacher/Research Seminar.* 3 credits.
Acquaints classroom teachers with current research on composing as well as methods of studying writing in school settings. Participants collect data and write up results of their research. Offered by English. May not be repeated for credit.

Recommended Prerequisite: ENGL 615/ENGH 615, ENGL 695/ENGH 695 the Northern Virginia Writing Project Summer Institute, or other course in the teaching of writing.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 697: *Composition Theory.* 3 credits.
Acquaints classroom teachers with theory relating to writing and teaching composition. Focuses on explaining theories of participants, reading works of leading theorists, and developing statement describing implications of theoretical consistency in teaching writing. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 699: *Visiting Writers.* 1-3 credits.
Craft seminars, educational tours, independent studies, and special seminars dealing with selected topics in writing, linguistics, film, electronic media, and literature written in English. Notes: All tours are optional, and may be replaced by specified work conducted on campus. May be repeated for a maximum of 12 credits with permission of department, but no more than 6 credits of ENGH 699 may be applied to master's degree in English. No more than 3 credits of 699 may be applied to literature requirement for MFA degree. Offered by English. May be repeated within the term for a maximum 12 credits.

Recommended Prerequisite: Admission to MFA program or permission of department. Other interested graduate students should contact the English Department at (703) 993-1180.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Creative Writing.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

ENGH 702: *Research Methods in Rhetoric and Writing.* 3 credits.
Explores a variety of text-based and empirical approaches and methods for addressing questions and problems related to public rhetoric and writing programs. Seminar participants work through a complete research design and pilot study. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 705: *Literary Theory and Criticism.* 3 credits.
Major theories of literature and methods of analyzing and evaluating literary works. Notes: Topics vary. May be repeated when topic is different with permission of department. Offered by English. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 710: *Core Readings in Writing Studies.* 3 credits.
Provides students new to the PhD in Writing and Rhetoric with the opportunity to read widely in the fields of composition, professional writing, and public rhetoric. Students will examine and develop graduate-level reading practices, while exploring the main subfields of writing studies. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

ENGH 720: *Histories of Institutional Rhetorics.* 3 credits.
Examines the development of rhetorics within their historical and institutional contexts. Investigates rhetoric and rhetoricians across the development of oral rhetorics and the shift to written genres, the rise of scientific discourses, and the establishment of educational and bureaucratic organizations. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 722: *Composition Pedagogies and Programs in Context.* 3 credits.
Examines scholarship on pedagogy, curriculum design and assessment, faculty development, and program management related to the practice of teaching or training writers in an institutional setting: two- and four-year colleges, K-12 schools, and workplace training seminars. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 724: *Professional Writing Theory and Research.* 3 credits.
Examines current research in the field and the theories that inform it. Special emphasis is placed on workplace contexts and users in technological contexts. Course may include theories and methods such as activity theory, actor-network theory, complexity theory, cross-cultural rhetoric, digital rhetoric, discourse analysis, ethnography, genre theory, usability, and systems theory. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 726: *Rhetorical Theory and Public Spaces.* 3 credits.
Covers the major theories of public rhetoric and the public sphere; explores how rhetoric influences public perceptions; examines publics as a site of interpretive mediation. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 750: *Advanced Workshop in Poetry Writing.* 3 credits.
Intensive practice in craft of poetry for experienced writers. Notes: May be repeated for credit with permission of department. Offered by English. May be repeated within the degree.

Recommended Prerequisite: Admission to MFA concentration in poetry, ENGL 564/ENGH 564, and ENGL 617/ENGH 617.

Registration Restrictions:
Enrollment is limited to students with a major in Creative Writing.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 751: *Advanced Workshop in Fiction Writing.* 1-6 credits.
Intensive practice in craft of fiction for experienced writers. Notes: May be repeated for credit with permission of department. Offered by English. May be repeated within the degree.

Recommended Prerequisite: ENGL 566/ENGH 566, and ENGL 618/ ENGH 618.

Registration Restrictions:
Enrollment is limited to students with a major in Creative Writing.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 752: *Advanced Workshop in Nonfiction Writing.* 1-6 credits.
Intensive practice in craft of nonfiction for experienced writers. Notes: May be repeated for credit with permission of department. Offered by English. May be repeated within the degree.

Recommended Prerequisite: ENGL 565/ENGH 565 and ENGL 616/ ENGH 616.

Registration Restrictions:
Enrollment is limited to students with a major in Creative Writing.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 790: *Projects in Literary Studies.* 3 credits.
Students complete a capstone project guided by instructor and a faculty consultant based on work produced in a previous graduate course. Class meetings focus on building skills in research, revision, and editing, discussing topics related to professionalization both in and out of academia, and revising work in a workshop environment. Students will produce a professional-quality article or similar final project. Offered by English. May not be repeated for credit.

Recommended Prerequisite: 21 credits in MA coursework including ENGH 500, permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

ENGH 797: *Projects in Professional Writing and Rhetoric.* 3 credits.
Students complete a capstone project guided by instructor and a faculty consultant. Reflecting on theories and methods learned in previous course work and applying them to a concrete rhetorical situation, students produce a professional-quality project for a primary audience located in the professional workplace or the discipline of rhetoric and professional writing. Offered by English. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: 21 credits in MA coursework, including the core, theory, PWR and Writing requirements, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Research

Grading:
This course is graded on the Satisfactory/No Credit scale.

ENGH 798: *Directed Reading and Research.* 1-6 credits.
Reading, research, and writing on specific project under direction of department member. Notes: Oral or written report required. For MA students: May be repeated for a maximum of 6 credits with permission of department. For MFA students: 12 credits may be applied to the MFA requirements but no more than 3 credits may count toward completing the literature requirement. Offered by English. May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Graduate Special scale.

ENGH 799: *Thesis.* 1-6 credits.
Students who take ENGH 798 to develop thesis topic and then elect thesis option receive 3 credits for ENGH 799 on completion of thesis. Students who do not take ENGH 798, or who take it to work on project unrelated to thesis, receive up to 6 credits for ENGH 799 on completion of thesis. Offered by English. May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

ENGH 820: *Studies in Rhetorical Theory and Practice.* 3 credits.
Offers advanced study of rhetorical theory, histories of rhetoric, key figures in rhetoric, or rhetorical methods. Notes: May be repeated for credit when topic is different. Offered by English. May be repeated within the degree for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 821: *Writing Program Design and Administration.* 3 credits.
Examines the theory and practice of writing program leadership. Investigates the principles that inform faculty support, curriculum development, program assessment, institutional alignment, and leadership approaches with regard to administering writing instruction. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

ENGH 822: *Studies in Composition.* 3 credits.
Offers advanced study of theoretical, practical, or pedagogical topics related to composition. Notes: May be repeated for credit when topic is different. Offered by English. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 824: *Studies in Professional Writing.* 3 credits.
Offers advanced study of theoretical, practical, or pedagogical topics related to professional writing and technical communication. Notes: May be repeated for credit when topic is different. Offered by English. May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 826: *Studies in Public Rhetorics.* 3 credits.
Offers advanced study of theoretical, practical, or pedagogical topics related to public rhetorics. Notes: May be repeated for credit when topic is different. Offered by English. May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ENGH 897: *Directed Research.* 1-3 credits.
Reading, research, and writing on a specific project under direction of faculty member. Offered by English. May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

ENGH 898: *Qualifying Exams Seminar.* 1-3 credits.
Work on PhD qualifying exams. Offered by English. May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Completion of 36 credits in coursework in the writing and rhetoric PhD Program.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

900 Level Courses

ENGH 998: *Doctoral Dissertation Proposal.* 1-6 credits.
Work on research proposal that forms the basis for the doctoral dissertation. Offered by English. May be repeated within the degree for a maximum 12 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

ENGH 999: *Doctoral Dissertation.* 1-12 credits.
Doctoral dissertation research and writing under direction of student's dissertation committee. Offered by English. May be repeated within the degree for a maximum 21 credits.

Recommended Prerequisite: ENGH 898.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

English for Academic Purposes (EAP)

000 Level Courses

EAP 097: *Verbal Preparation for the Graduate Record Examination.* 0 credits.
Prepares students in the International Graduate Pathways requiring the general Graduate Record Examination test for progression to take the computer adaptive version of the exam where the emphasis is placed primarily on the verbal section. This course primarily emphasizes the verbal portion of the exam along with test language and testing strategies; identifying common test-taking errors; and managing in test anxiety. Offered by INTO Mason. May be repeated within the degree for a maximum 0 credits. Equivalent to INYO 095, INYO 096, INYO 097.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

EAP 098: *Individualized Language Instruction.* 0 credits.
Individualized language instruction for Pathway students. Focus on reading, writing, listening, and speaking skills. Offered by INTO Mason. May be repeated within the degree for a maximum 4 credits.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

EAP 099: *Individualized Language Instruction.* 0 credits.
Individualized language instruction for Pathway students. Focus on reading, writing, listening, and speaking skills. Offered by INTO Mason. May be repeated within the degree for a maximum 4 credits.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

100 Level Courses

EAP 100: *Special Topics.* 0-8 credits.
EAP 100 is to be used as an incubator for special topics courses under development in the Undergraduate Pathway program at INTO Mason. EAP 100 will be used for the various content-based English Language Support courses that are paired with major or content courses required by Undergraduate Pathways students. Language support courses such as EAP 100 run concurrently with credit-bearing undergraduate content course. Offered by INTO Mason. May be repeated within the degree for a maximum 12 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EAP 101: *Language Support for Fundamentals of Communication.* 1 credit.
Academic Language support course for Fundamentals of Communication. Focus on increasing students' comprehension and use of key grammatical structures, vocabulary, word forms, and reading/annotation strategies in oral speech and group discussions. Notes: Students must attain minimum grade of C to fulfill program requirements. Offered by INTO Mason. Limited to three attempts.

Recommended Corequisite: COMM 101

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EAP 102: *Language Support for American Cultures.* 1 credit.
Academic language support course for Undergraduate Pathways students taking American Cultures. Designed to increase students' ability to comprehend and respond to readings, discussions, and lectures related to American Cultures. Emphasizes the development of successful strategies for intrapersonal and small/large group communication activities, student familiarity with anthropological and sociological terminology and effective application of reading /annotating strategies. Also listed as PROV 102. Notes: Students must attain minimum grade of C to fulfill program requirements. Offered by INTO Mason. May be repeated within the degree for a maximum 3 credits.

Recommended Corequisite: PROV 105.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

EAP 103: *Language Support for Public Speaking.* 1 credit.
Academic language support course for Public Speaking. Focus on increasing students' comprehension and use of key grammatical structures, vocabulary, word forms, and reading/annotating strategies in oral speech. Notes: Students must attain minimum grade of C to fulfill program requirements. Offered by INTO Mason. May be repeated within the degree for a maximum 3 credits.

Recommended Corequisite: COMM 100.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

EAP 104: *Language Support World History.* 1 credit.
Academic language support course for Introduction to World History. Focus on increasing students' comprehension and use of key grammatical structures, vocabulary, word forms, and reading/annotating strategies in literacy/reading. Notes: Students must attain minimum grade of C to fulfill program requirements. Offered by INTO Mason. May be repeated within the degree for a maximum 3 credits.

Recommended Corequisite: HIST 125.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

EAP 107: *The Grammar of Academic Writing.* 3 credits.
This course is designed to improve students' understanding of written language and to provide mechanisms that allow students to take advantage of this flexible but structured form of communication. Providing this knowledge and these tools will improve students' abilities to identify and correct grammatical mistakes, write cohesive and coherent paragraphs, and condense essential information-necessary skills for effective academic writing. Offered by INTO Mason. May be repeated within the degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EAP 108: *Language Support for Business and Society.* 1 credit.
Academic language support course for Undergraduate Pathway students taking Business in American Society. This course is designed to increase students' ability to read and analyze qualitative and quantitative information, understand and use business terminology, and utilize oral English fluency and literacy practices/strategies in anticipation of group discussions, debates, and oral/written critiques of business-related current events. Also listed as PROV 108. Notes: Students must attain minimum grade of C to fulfill program requirements. Offered by INTO Mason. May be repeated within the degree for a maximum 3 credits.

Recommended Corequisite: BUS 100

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

EAP 109: *College Reading Skills.* 1 credit.
Academic reading support for Undergraduate Pathways students in specific pathways. Designed to increase students' ability to read, summarize, and analyze texts, including information graphics and visuals. Focuses on student comprehension and utilization of discipline-specific genres/terminology and effective literacy practices/strategies in anticipation of group discussions, reading research, and responding to writing assignments. Also listed as PROV 109. Notes: Students must attain minimum grade of C to fulfill program requirements. Offered by INTO Mason. May be repeated within the degree for a maximum 3 credits.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

EAP 110: *English Language, Composition & Academic Skills for Multilingual Students.* 6 credits.
EAP 110 is a composition course that integrates language instruction with composition instruction as a way of preparing multilingual undergraduate students to be successful academic writers across the curriculum. EAP 110 will focus on critical reading skills across multiple genres. This process will involve annotating, summarizing, and analyzing texts and will serve as the foundation for academic writing in the International Year One Program and beyond. Offered by INTO Mason. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Special scale.

EAP 111: *Language Support for Introduction to Information Technology.* 1 credit.
Academic language support for Undergraduate Pathways students taking Information Technology. Designed to increase students' IT literacy, including familiarity and accurate usage of terms related to digital devices, computer hardware, software, telecommunications, networking and multimedia. Supports students' oral and written academic English skills in anticipation of class lectures, textbook readings, individual assignments, and online discussion boards. Also listed as PROV 111. Notes: Students must attain minimum grade of C to fulfill program requirements. Offered by INTO Mason. May be repeated within the degree for a maximum 3 credits.

Recommended Corequisite: IT 101.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

EAP 112: *Language Support for Introduction to Computer Programming.* 1 credit.
Academic language support for Undergraduate Pathways students taking Computer Programming. This course is designed to increase students' ability to respond accurately to computer programming problems in English, understand and use programming terminology, and utilize oral English fluency and literacy practices/strategies in anticipation of class lectures, lab work, individual assignments, and online discussion boards. Also listed as PROV 112. Notes: Students must attain minimum grade of C to fulfill program requirements. Offered by INTO Mason. May be repeated within the degree for a maximum 3 credits.

Recommended Corequisite: CS 112.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

EAP 113: *Language Support for University Physics.* 1 credit.
Academic language support course for Undergraduate Pathways students taking program University Physics I. This course is designed to increase students' ability to respond accurately to physical problems in English, understand and use mathematical and physics terminology, and utilize oral English fluency and literacy practices/strategies in anticipation of class lectures, lab/recitation work, and online discussion boards. Also listed as PROV 113. Notes: Students must attain minimum grade of C to fulfill requirements. Offered by INTO Mason. May be repeated within the degree for a maximum 3 credits.

Recommended Corequisite: PHYS 160 and PHYS 161.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

EAP 114: *Language Support for General Chemistry I.* 1 credit.
Academic language support for Undergraduate Pathways students taking General Chemistry I. This course is designed to increase students' ability to read and comprehend qualitative and quantitative information, understand and use general science and chemistry-related terminology, set-up and solve numerical problems in English, and take notes from oral lectures and textbook chapters. Also listed as PROV 114. Notes: Students

must attain minimum grade of C to fulfill requirements. Offered by INTO Mason. May be repeated within the degree for a maximum 3 credits.

Recommended Corequisite: CHEM 211.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

EAP 115: *Language Support for Introductory Geology I.* 1 credit.
Academic language support for Undergraduate Pathways students taking Introductory Geology I. This course is designed to increase students' ability to read and comprehend qualitative and quantitative information in English, understand and use general science and geology-related terminology, take notes from oral lectures and textbook chapters, and participate in group discussions. Also listed as PROV 115. Notes: Students must attain minimum grade of C to fulfill program requirements. Offered by INTO Mason. May be repeated within the degree for a maximum 3 credits.

Recommended Corequisite: GEOL 101.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

EAP 120: *Linguistics Capstone.* 0 credits.
Required to complete all standard undergraduate pathways. Provides students with opportunity to demonstrate mastery of English language skills in reading, writing, speaking, listening, grammar and/or vocabulary. Builds on work in language support classes. Includes language assessment, feedback on skills, and review of post-program support. Required during second semester of the Undergraduate Pathways program. Also listed as PROV 120. Notes: A passing grade of "S" confirms the student's English language proficiency is sufficient for degree-seeking study. Offered by INTO Mason. May be repeated within the degree for a maximum 0 credits.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

400 Level Courses

EAP 403: *Interpersonal Communication for International Students.* 2 credits.
This 8-week course requires that students use intensive practice in oral communication contexts typical at American universities to build knowledge and skills for informal interpersonal communication settings with faculty, peers, and students, and skills needed for formal presentations, class discussion, and tutoring. Readings and assignments cover research on first impression management; informative and explanatory communication; conveying emotional support; and listening, and narrative skill. Offered by INTO Mason. Limited to two attempts. Equivalent to EAP 503, PROV 503.

Recommended Prerequisite: Completion of undergraduate degree at a university outside of the US.

Recommended Corequisite: Admission to INTO Mason pathway program or with permission of INTO Mason.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

EAP 404: *Advanced English for Academic Purposes in Reading and Writing.* 2 credits.
This 8-week course is designed for graduate international students who are studying abroad in the U.S., emphasizing advanced skill development in graduate-level English for Academic Purposes for reading and writing within their disciplines. Utilizing a multimodal and interactive format, students will complete guided and independent research papers as well as read, discuss and write about excerpts from college texts and academic journals. Notes: In as much as possible, materials for the course will be discipline specific and individualized course goals will be determined by the needs of the students and their cultural experiences. Offered by INTO Mason. Limited to two attempts. Equivalent to EAP 504.

Recommended Prerequisite: Completion of undergraduate degree at a university outside of the US.

Recommended Corequisite: Admission to INTO Mason pathway program or with permission of INTO Mason.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

EAP 405: *Special Topics in Advanced English for Academic Purposes.* 1-6 credits.
This special topics course is tailored to international students who received their undergraduate degrees outside the United States. The course provides intensive practice and individualized feedback in advanced communication methods appropriate at the graduate level. Offered by INTO Mason. May be repeated within the term for a maximum 6 credits. Equivalent to EAP 505.

Specialized Designation: Topic Varies

Recommended Prerequisite: Completion of undergraduate degree at a university outside of the US.

Recommended Corequisite: Admission to INTO Mason pathway program or with permission of INTO Mason.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

EAP 503: *Interpersonal Communication for International Students: Practicum and Theory.* 2 credits.
The course requires that students use intensive practice in oral communication contexts typical at universities to build knowledge and skills for informal interpersonal communication settings with faculty, peers, and students, and skills needed for formal presentations, class discussion, and tutoring. Readings & assignments cover research on first impression management; informative and explanatory communication; conveying emotional support; listening, and narrative skill. Offered by INTO Mason. May not be repeated for credit. Equivalent to EAP 403.

Recommended Prerequisite: Completion of undergraduate degree at a university outside of the US.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EAP 504: *Advanced English for Academic Purposes Reading and Writing.* 2 credits.
This 8-week course is designed for graduate international students who are studying abroad, emphasizing advanced skill development in graduate-level English for Academic Purposes for reading and writing within their disciplines. Utilizing a multimodal and interactive format, students will complete guided and independent research papers as well as read, discuss and write about excerpts from college texts and academic journals. Notes: In as much as possible, materials for the course will be discipline specific and individualized course goals will be determined by the needs of the students and their cultural experiences. Offered by INTO Mason. May not be repeated for credit. Equivalent to EAP 404.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to English Language, Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EAP 505: *Special Topics in Advanced English for Academic Purposes.* 2 credits.
This special topics course is tailored to international students who received their undergraduate degrees outside the United States. The course provides intensive practice and individualized feedback in advanced communication methods appropriate at the graduate level. Offered by INTO Mason. May not be repeated for credit.

Specialized Designation: Topic Varies

Recommended Prerequisite: Completion of undergraduate degree at a university outside of the US.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the INTO Mason college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

EAP 506: *Graduate Communication in the Disciplines I.* 4 credits.
Students develop strategies for completing research-based writing and presentations in their field and review rhetorical structures and organizational strategies common to US scholarly communications generally and in their particular field. Students will practice strategies at the sentence and discourse levels to increase the clarity, precision, and appropriateness of their communication skills. Group instruction will be supplemented by one-on-one conferencing. Offered by INTO Mason. May not be repeated for credit.

Recommended Prerequisite: Completion of undergraduate degree at a university outside of the US.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to English Language, Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the INTO Mason college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EAP 507: *Graduate Communication in the Disciplines II.* 3-4 credits.
The second course in a series that helps students develop strategies for completing research-based writing and presentations in their field. Students will review rhetorical structures and organizational strategies common to US scholarly communications generally and in their particular field. Students will also practice strategies at sentence and discourse levels to increase the clarity, precision, and appropriateness of their communication skills. Offered by INTO Mason. May not be repeated for credit.

Recommended Prerequisite: EAP 506.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the INTO Mason college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EAP 508: *Graduate Communication in the Disciplines III.* 4 credits.
Students develop strategies for completing research-based writing and presentations in their field. Students will review rhetorical structures and organizational strategies common to US academic scholarly communications generally and in their particular field. Students will also review and practice strategies at the sentence and discourse levels

to increase the clarity, precision and appropriateness of their oral and written communication skills. Group instruction will be supplemented by one-on-one conferencing as students complete a major graduate-level project. Notes: This course may not count towards academic degree requirements at the graduate level without permission from the academic dean/director. Offered by INTO Mason. May not be repeated for credit.

Recommended Prerequisite: Completion of undergraduate degree at a university outside the United States.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EAP 510: *Linguistic Capstone.* 0 credits.
Course builds on work in language support classes throughout the program and enables students to demonstrate acceptable mastery of their academic English language skills in reading, writing, speaking, listening, grammar, and vocabulary. Students take proficiency assessment receive feedback on skills, and review post-program language support resources. Offered by INTO Mason. May not be repeated for credit.

Recommended Prerequisite: Standard pathway students must have completed first semester of program, or at least 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

Environmental Science and Policy (EVPP)

100 Level Courses

EVPP 108: *Ecosphere - Introduction to Environmental Science I-Lecture.* 3 credits.
This course studies components and interactions that make up natural systems of our home planet. It teaches basic concepts in biological, chemical, physical, and earth sciences in integrated format with lecture, laboratory, and field exercises. Note: EVPP 108 and 109 can be used to fulfill a 4-credit lab science requirement. Offered by Environmental Science & Policy. Limited to three attempts.

Mason Core: Natural Science with Lab, Natural Science Overview

Specialized Designation: Green Leaf Related Course

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 109: *Ecosphere- Introduction to Environmental Science I- Lab.* 1 credit.
This course studies components and interactions that make up natural systems of our home planet. It teaches basic concepts in biological, chemical, physical, and earth sciences in a laboratory format. Note: EVPP 108 and 109 can be used to fulfill a 4-credit lab science requirement. Offered by Environmental Science & Policy. Limited to three attempts.

Mason Core: Natural Science with Lab

Specialized Designation: Green Leaf Related Course

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 112: *Ecosphere: Introduction to Environmental Science II-Lecture.* 3 credits.
Studies components and interactions that make up natural systems of our home planet. Teaches basic concepts in biological, chemical, physical, and Earth sciences in lecture format, focusing on major environmental issues from a scientific perspective. Note: EVPP 112 and 113 can be used to fulfill a 4-credit lab science requirement. Offered by Environmental Science & Policy. Limited to three attempts.

Mason Core: Natural Science with Lab, Natural Science Overview

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: EVPP 113 (may be taken concurrently)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 113: *Ecosphere: Introduction to Environmental Science II–Lab.* 1 credit.
Studies components and interactions that make up natural systems of our home planet. Teaches basic concepts in biological, chemical, physical, and Earth sciences in a hands-on laboratory format, focusing on major environmental issues from a scientific perspective. Note: EVPP 112 and 113 can be used to fulfill a 4-credit lab science requirement. Offered by Environmental Science & Policy. Limited to three attempts.

Mason Core: Natural Science with Lab

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: EVPP 112

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

EVPP 201: *Environment and You: Issues for the Twenty-First Century.* 3 credits.
Introduces broad aspects of human-environmental interactions in the contemporary world. Topics range broadly from global populations and wastewater treatment to environmental law, and genetic engineering. Includes both science and science policy of the environment. Offered by Environmental Science & Policy. Limited to three attempts.

Mason Core: Natural Science Overview, Encore: Sustainability

Specialized Designation: Green Leaf Related Course

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 210: *Environmental Biology: Molecules and Cells.* 4 credits.
This course provides environmental science majors with the cellular foundation required for subsequent courses in the BS curriculum with a focus on how biological systems respond to environmental threats. The course emphasizes the connection between cellular processes and a healthy environment, and how this relationship is jeopardized by a variety of chemical and physical environmental perturbations. Offered by Environmental Science & Policy. Limited to three attempts.

Recommended Corequisite: CHEM 211.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

EVPP 301: *Environmental Science: Biological Diversity and Ecosystems.* 4 credits.
This course provides environmental science majors with the necessary background in biological diversity and ecological science required for subsequent courses in the BS curriculum. The course reviews the diversity of life on earth and the structure and functioning of ecosystems and populations. Offered by Environmental Science & Policy. Limited to three attempts.

Recommended Prerequisite: Permission of instructor.

Registration Restrictions:
Required Prerequisites: EVPP 210[C] or 210[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 302: *Environmental Science: Biomes and Human Dimensions.* 4 credits.
This course provides environmental science majors with the necessary background in biomes and human dimensions required for subsequent courses in the BS curriculum. The course reviews the functioning of aquatic and terrestrial biomes and human interactions with and impacts on the environment. Offered by Environmental Science & Policy. Limited to three attempts.

Recommended Prerequisite: Permission of instructor.

Registration Restrictions:
Required Prerequisites: EVPP 301[C] or 301[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 305: *Environmental Microbiology Essentials.* 3 credits.
Provides understanding of microbes and their function as a vital part of an environmental education. The role of microbes is central to many environmental issues such as climate change, biodegradation of toxics, wastewater treatment and drinking water contamination. Course provides an introduction to the breadth of microbiology including essential information for students studying environmental problems and their solution. Notes: Laboratory section (EVPP 306) is a corequisite unless previously completed. Offered by Environmental Science & Policy. Limited to three attempts.

Recommended Prerequisite: EVPP 210 and 30 credit hours, or permission of instructor;

Recommended Corequisite: EVPP 306.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 306: *Environmental Microbiology Essentials Laboratory.* 1 credit.
Laboratory study of environmental microbiology. Course provides an introduction to the microbiological techniques for students studying environmental problems and their solution. Examples include microbiology of natural ecosystems (e.g., Potomac River), bacteria in fresh and estuarine waters and sediments, Indicator organisms (e.g., coliform bacteria), molecular identification of unknown bacteria from nature, and visualization of bacteria in their natural habitat. Notes: Lecture section (EVPP 305) is a corequisite. Offered by Environmental Science & Policy. Limited to three attempts.

Recommended Prerequisite: EVPP 210 and 30 credit hours, or permission of instructor.

Recommended Corequisite: EVPP 305.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 309: *Introduction to Oceanography.* 3 credits.
Introduction to chemical, biological, and geological aspects of oceanic environment. May include field trips. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 309, GEOL 309.

Recommended Prerequisite: Two of the following lab sciences courses are required for a total of 8 credits: [GEOL 101 or 102], [EVPP 108 and 109 or 112 and 113 or 210], CHEM 211 and 213, [BIOL 103 or 213], [PHYS 160 and 161 or 243 and 244].

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 318: *Conservation Biology.* 3 credits.
Introduces science used to identify species in need of conservation, and techniques to manage and protect organisms. Notes: Cannot be taken with Smithsonian Seminar (off campus classes). CONS 401, CONS 411. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 318.

Recommended Prerequisite: BIOL 308 or BIOL 310, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 322: *Business and Sustainability.* 3 credits.
Examines the types of approaches businesses can take to take to respond to sustainability concerns, Designed to prepare students for assisting organizations to incorporate sustainability considerations into their strategic decision-making. Notes: Students from multiple disciplines (business, social sciences, natural sciences, humanities, education, etc.) can participate in the class without having had previous courses in management. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to INTS 332.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: 30 credit hours, recommend EVPP 361/ GOVT 361 Introduction to Environmental Policy

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 326: *Animal Physiology.* 3 credits.
This course will examine animal physiology across different levels of biological organization, from molecules to cells to whole organisms, and will highlight the diversity of physiological mechanisms across different groups of animals. Emphasis will be placed on how ecology and evolution shape the physiology of organisms as well as how physiology forms the basis for how animals interact with their environment. This course will cover all the major physiological systems in animals (e.g., circulatory system) as well as how these systems are integrated to perform ecological functions (e.g., flight). Finally, emphasis will be placed on the effects of environmental change on animal function, and how animals may respond physiologically to such changes. Offered by Environmental Science & Policy. Limited to three attempts.

Recommended Prerequisite: (BIOL 213 or U213), or EVPP 210, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 336: *Human Dimensions of the Environment.* 3 credits.
Overview of current knowledge regarding human and environment interactions and human ecology. Topics include basic theoretical and conceptual issues, relationship between social and biological sciences, human causes and consequences of environmental change, and contemporary perspectives on environmental issues. Offered by Environmental Science & Policy. Limited to three attempts.

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: One of either EVPP 108 and 109; or EVPP 112 and 113; or GEOL 101; or SOCI 101; or ANTH 114; or 60 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 337: *Environmental Policy Making in Developing Countries.* 3 credits.
Overview of environmental policy process in developing countries around the world. Major focus on understanding distinctive problems and dynamics of environmental policy making in poor countries to generate better policy decisions and management. Offered by Environmental Science & Policy. Limited to three attempts.

Specialized Designation: Green Leaf Related Course, Writing Intensive in Major

Recommended Prerequisite: 60 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 338: *Economics of Environmental Policy.* 3 credits.
Introduction to environmental, resource, and ecological economics for non-economist undergraduates. Covers basic theories of scarce resource allocation and examines conditions under which market allocations are efficient and sustainable. Includes graphical and verbal presentation of theory. Offered by Environmental Science & Policy. Limited to three attempts.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: ECON 100 or ECON 103 or ECON 105 or ECON 110, or permission from instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 350: *Freshwater Ecosystems.* 4 credits.
Studies physical, chemical, and biological processes in lakes, streams, and wetlands. Lectures, field trips, and lab exercises teach physical and chemical aspects of aquatic systems and life cycles, and adaptations of aquatic organisms. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 350.

Recommended Prerequisite: CHEM 211/ 213 and CHEM 212/214 or CHEM 155/156 and BIOL 308 or EVPP 301.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 355: *Ecological Engineering and Ecosystem Restoration.* 4 credits.
Provides definition, classification, and practice of ecological engineering and ecosystem restoration. Describes general system ecology, ecosystem restoration (i.e., wetland and river systems), and the use of

natural processes to provide ecosystem services to society. Provides students with a systems-oriented perspective on designing and managing ecosystems. Students will study principles in designing field ecological studies, ecological models, ecological engineering, and explore practices in sustainable ecological design by carrying out a hands-on experimental design project with the field wetland mesocosm on the Mason campus. One field trip is required part of the course. Offered by Environmental Science & Policy. Limited to three attempts.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: CHEM 211 and EVPP 301 or BIOL 308; or permission of instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 361: *Introduction to Environmental Policy.* 3 credits.
Environmental politics and policymaking since the 1970s. Primary focus on United States, with some discussion of global issues. Examines policy strategies and outcomes, ethical and economic debates, political controversies, lawmaking and enforcement, and role of key players. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to GOVT 361.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: 30 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 362: *Intermediate Environmental Policy.* 3 credits.
Examines environmental issues building on learning objectives from EVPP 361. Focuses on environmental and policy issues in the US and internationally, exploring the politics of nature and the interaction of environmental science and politics and resulting controversy. Risk and uncertainty loom large in most environmental issues. "Natural" disasters as well as direct "man-made" problems will be covered. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to GOVT 362.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: EVPP 361 or GOVT 361 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 363: *Coastal Morphology and Processes.* 4 credits.
Studies global coastal geomorphology and processes with emphasis on U.S. Atlantic and gulf coasts. Topics include plate tectonics; sea-level changes; sediment supply; impact of waves, tides, and storms; and human activities. Lectures and extended weekend field trips to mid-Atlantic coast. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to GEOL 363.

Recommended Prerequisite: BIOL/EVPP/GEOL 309 or GEOL 317; or 9 credits in geography, including GGS 309.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 377: *Applied Ecology.* 3 credits.
Introduces ecosystem concepts and applications to natural and managed ecosystems. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 377.

Recommended Prerequisite: 60 credits including 8 credits of biology, geology, or chemistry, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 378: *RS: Ecological Sustainability.* 4 credits.
Introduces the concepts and applications of several important topics relating to ecological sustainability. Focuses on the role of soils in maintaining and managing environmental quality. Teaches students how to understand and interpret scientific data presented in various types of literature covering ecological sustainability. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 379.

Mason Core: Capstone

Specialized Designation: Green Leaf Focused Course, Research/ Scholarship Intensive

Recommended Prerequisite: BIOL 308 or permission of instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 381: *Nature and Culture in Global Wetlands.* 4 credits.
A study of internationally important wetland ecosystems of varying types (i.e., Ramsar wetlands). Emphasizes the link between nature and culture of wetlands in different global regions and focuses on understanding its critical role in the conservation and wise use of global wetlands. The course aims to train the next generation of higher education in the field of eco-cultural literacy and resilience of global wetlands. It provides students with an opportunity to learn about the environmental history and the changes in the ecology of global wetland ecosystems over the decades of human impacts. The course covers different types of wetland systems and their services to and relationship with humanity. The course includes field trips to local wetlands and nature centers, and one final field trip to a Ramsar wetland - a wetland of an international importance. Offered by Environmental Science & Policy. May not be repeated for credit.

Mason Core: Global Understanding

Recommended Prerequisite: EVPP 108 or BIOL 103, or permission of instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 395: *Undergraduate Research in Environmental Science and Policy.* 1-3 credits.
Original research project. May involve field and lab study, computer modeling and analysis, or other original research as appropriate. Research formulated and completed under instructor's guidance. Notes: Culminates in final report. Offered by Environmental Science & Policy. May be repeated within the degree for a maximum 10 credits.

Recommended Prerequisite: 45 credits and at least two upper level science lab courses.

Schedule Type: Research

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 396: *Directed Topic in Environmental Science and Policy.* 1-4 credits.
Study of topics not available in fixed-topics courses. May involve readings, lectures, lab assignments, and tutorials as jointly agreed on by student and instructor. Notes: Culminates in term paper, final exam, or both. Offered by Environmental Science & Policy. May be repeated within the degree for a maximum 8 credits.

Recommended Prerequisite: 45 credits.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

EVPP 401: *Integrated Environmental Assessment.* 3 credits.
Presents strategic planning at the regional level, and focuses on the methods, format, and content of a Strategic Environmental Assessment (SEA), also referred to as a programmatic environmental impact statement (PEIS). Students will conduct research and develop their own SEA for Shenandoah National Park (NP). Offered by Environmental Science & Policy. Limited to three attempts.

Recommended Prerequisite: 60 credit hours completed.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 402: *Applied and Industrial Microbiology.* 3 credits.
Biology of microorganisms of ecological and industrial significance. Includes food production, spoilage and preservation, fermentation technology, waste disposal, water purification, biodeterioration, and decomposition. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 402.

Recommended Prerequisite: BIOL 213, 305, 306 or EVPP 210, 305, 306, CHEM 211 and CHEM 213; CHEM 212 and CHEM 214, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 408: *Mushrooms, Molds and Society.* 3 credits.
Provides a modern, comprehensive knowledge of fungal biology including classification, phylogeny, structure, physiology/metabolism, growth and development, genetics, industrial applications including biotechnology, ecological roles including pathogenic interactions with plants, animals, and man. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 408.

Recommended Prerequisite: EVPP 108 and 109 and 112 and 113 or EVPP 210 or BIOL 213.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 409: *Medical Mycology.* 3 credits.
Provides the student with current knowledge of both the medical and microbiological aspects of fungal diseases in humans, including the etiologic agents, geographic distribution, epidemiology, transmission, determinants of pathogenicity, laboratory detection, and therapy associated with the major human mycoses. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 409.

Recommended Prerequisite: EVPP 108 and 109 and 112 and 113; or EVPP 210; or BIOL 213.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 413: *Histotechniques.* 3 credits.
Introduces theory and methods for the preparation of tissue samples from animal or plant specimens for examination with light or electron microscopy. Offered by Environmental Science & Policy. Limited to three attempts.

Recommended Prerequisite: EVPP 210 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 419: *Marine Mammal Biology and Conservation.* 3 credits.
Covers the evolution, biology, ecology, and behavior of marine mammals from polar bears and sea otters to whales and dolphins. Marine mammal conservation and policy is also a major component of the course; several lecture sessions are devoted to the issue of whaling, threats to marine mammal populations, and recent conservation issues such as marine mammals and noise pollution. The course also includes a number of guest lectures from a variety of international marine mammal experts. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 454, EVPP 519.

Recommended Prerequisite: BIOL/EVPP/GEOL 309 or BIOL/EVPP 449; and 60 credit hours.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 420: *Marine Mammal Biology and Conservation Field Course.* 1 credit.
This course provides laboratory, seminar sessions and field work to accompany EVPP 419-001 - marine mammal biology and conservation. Field work includes several day-long boat trips. The field course may take

place in the US or abroad. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 455.

Recommended Prerequisite: EVPP 419 or BIOL 454, concurrent enrollment is permitted.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 421: *Marine Conservation.* 3 credits.
Provides an overview of threats to the marine environment, and discusses the scientific, socioeconomic, and political issues behind marine conservation. Covers categories of marine pollutants (chemical, biological, and physical contaminants) and their impacts on the marine ecosystem, as well as impacts on humans (health, social, and economic), threats to key marine species (e.g., coral, sharks, turtles, and marine mammals) and initiatives and laws developed to reduce these threats. Scientific and socioeconomic problems that hinder sustainable fisheries management and the science and policy behind the global warming debate are also discussed. Provides an overview of marine environmental law and policy issues related to marine conservation policy. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 450.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: BIOL/EVPP/GEOL 309.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 423: *Beekeeping and Sustainability.* 3 credits.
Lectures and hands-on field experiences examining beekeeping as a tool for sustainable development. Also, they will examine the social impact and implications of beekeeping around the world, and explore its current place in the modern socio-economic structure. Offered by Environmental Science & Policy. Limited to three attempts.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 427: *Conservation Medicine.* 3 credits.
Presents the trans-disciplinary discipline of conservation medicine, the study of relationships between organism and ecosystem health and environmental conditions. Topics include infectious and noninfectious diseases, pathogens, processes, and impacts on human, biotic, and ecosystem health, and how to address the consequences of diseases to populations and ecological communities. Notes: This course will co-meet with EVPP 527. Undergraduate students in this course will have separate (shorter) reading and writing assignments and will be graded according to a different rubric than the graduate students. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 427.

Recommended Prerequisite: 60 credits and BIOL 213 or BIOL/EVPP 305/306 and BIOL 308 OR EVPP 301, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 429: *Environmental Science Communication.* 3 credits.
Communicating environmental science is inherently challenging whether in academia, the public policy realm, or to the general public. The aim of this course is to expose students to the multiple ways environmental science can be communicated. Such exposure will be made both through a theoretical approach by examining science communication literature, as well as through practical, hands-on activities and assignments. Offered by Environmental Science & Policy. Limited to three attempts.

Recommended Prerequisite: Completion of 60 credit hours.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 430: *Fundamentals of Environmental Geographic Information Systems.* 3 credits.
Provides the basic knowledge to explore complex environmental data sets and relationships among biological, ecological, physical and anthropogenic variables using geographic information systems. Using spatial mapping and exploration tools students will be capable of independent analysis of complex environment. Notes: Previous knowledge of fundamentals of geography, coordinate systems and map projections is an asset. Knowledge of operating systems, text editor and spreadsheet is required. Offered by Environmental Science & Policy. Limited to three attempts.

Recommended Prerequisite: EVPP 108 and 109 and 112 and 113; or EVPP 210 and IT 103; or CDS 130 and 60 credit hours; or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 432: *Energy Policy.* 3 credits.
Overview of economic, political, and technological aspects of energy policy development. Students will examine various energy sources in the context of national and global considerations regarding electricity generation, efficiency and conservation, energy economics, and climate change. Updated yearly. The course may include one field trip. Offered by Environmental Science & Policy. Limited to three attempts.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: 60 credits and EVPP 361/GOVT 361, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 434: *Food-Energy-Water Nexus.* 3 credits.
Examines resilience and sustainability challenges that involve the food, energy water nexus, as well as innovative solutions to these challenges. Discussions bridge multiple disciplines, considering the technological, economic, and institutional dimensions of the nexus in various places around the globe at local and national scales. Offered by Environmental Science & Policy. Limited to two attempts.

Recommended Prerequisite: One environmental social science course and 60 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 436: *The Human Dimensions of Global Climate Change.* 3 credits.
Social science investigation of humans' role(s) in global climate change, including diversity of ecological, cultural and policy issues. Focuses on current science, causes and responses, human rights and social justice, vulnerability of marginalized populations, relevant issues associated with communication and behavior change, place of policy, and the multiple existing and potential roles of academic action. Discussion format. Offered by Environmental Science & Policy. Limited to three attempts.

Recommended Prerequisite: EVPP 336, CLIM 101 and 60 credits, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 437: *Orinthology.* 4 credits.
Study of evolution, systematics, phsiology, ecology and behavior of birds, emphasizing field work. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 437.

Recommended Prerequisite: BIOL 308 or EVPP 301 or equivalent or permission of instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 438: *Mammalogy.* 4 credits.
Study of evolution, systematics, physiology, ecology and behavior of mammals, emphasizing field work. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 438.

Recommended Prerequisite: BIOL 308 or EVPP 301 or equivalent or permission of instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 439: *Herpetology.* 4 credits.
Study of evolution, systematics, physiology, ecology and behavior of reptiles, emphasizing field work. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 439.

Recommended Prerequisite: BIOL 308 or EVPP 301 or equivalent or permission of instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 440: *Field Environmental Science.* 0-4 credits.
Directed field studies emphasizing ecology and behavior. Topics vary but include design of field manipulations, data collection and analysis, and introduction to organisms of study site. Notes: Students bear cost of required field trips. May be repeated with permission of Environmental Science and Policy. Offered by Environmental Science & Policy. May be repeated within the term for a maximum 9 credits. Equivalent to BIOL 440.

Recommended Prerequisite: EVPP 301 or permission of instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 442: *Urban Ecosystems and Processes.* 4 credits.
Provides an overview of the challenges and opportunities that urban environments present to the plants and animals inhabiting cities and the ways that those organisms and entire ecosystems respond. Includes ecosystem ecology for engineered ecosystems, along with reviews of urban metabolism, energy budgets, water cycles, and soil ecology. Students design and conduct a small-scale green infrastructure experiment/project on campus. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 442.

Recommended Corequisite: Prereqs: CHEM 211 and CHEM 213; MATH 113 or equivalent; BIOL 308 or EVPP 301; PHYS 243 or permission of instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 445: *Principles of Environmental Toxicology.* 3 credits.
Explores basic principles of toxicology with an emphasis on the environment. Includes the history and scope of the field; absorption, distribution, metabolism and excretion of toxicants; mechanisms of toxic action; genetic toxicology; ecotoxicology as well as specific examples important toxicants. Introduces regulatory toxicology and human and ecological risk assessment. Offered by Environmental Science & Policy. Limited to three attempts.

Recommended Prerequisite: EVPP 210; or EVPP 108 and 109 and EVPP 112 and 113 and CHEM 211 and CHEM 212 and 60 credit hours; or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 449: *Marine Ecology.* 3 credits.
Plants and animals of marine environments and physical and chemical conditions that affect their existence. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 449.

Recommended Prerequisite: BIOL 308 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 451: *Fungi and Ecosystems.* 3 credits.
Considers impact of fungi on ecosystems in terms of effects on biogeochemical cycling, primary and secondary production, and regulating community structure and populations of individual species

through activities as symbionts and parasites. Offered by Environmental Science & Policy. Limited to three attempts.

Recommended Prerequisite: EVPP 301 or BIOL 308 or EVPP/BIOL 305/306; or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 456: *Aquatic Invertebrate Ecology.* 4 credits.
Through lecture, field collections, and laboratory study, students will understand phylogeny, physiology, life histories, behaviors, trophic importance, adaptations, conservation significance and response to global environmental change of aquatic invertebrates. Students will identify invertebrates using appropriate literature and methods and use proper curation to preserve them. Students will become familiar with methods for measuring aquatic invertebrate density, biomass, and diversity. Offered by Environmental Science & Policy. Limited to two attempts.

Recommended Prerequisite: BIOL 308 or EVPP 301 or permission of instructor

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 460: *Infectious Diseases of Wildlife.* 3 credits.
During this course, infectious diseases of wildlife will be examined with emphasis on causes and mechanisms, pathobiology, ecology and epidemiology and population significance. We will explore methods of diagnosis, control, prevention and outbreak investigation as they apply to management and conservation of wildlife populations. Also, diseases crossing species barriers will be examined. Note: Course will co-meet with BIOL 560/EVPP 560. Graduate students In this course will be graded according to a different rubric than the undergraduate stlldents. Offered by Environmental Science & Policy. Limited to three attempts. Equivalent to BIOL 460.

Recommended Prerequisite: 60 credits plus BIOL 308 or EVPP 301 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 465: *Coral Reef Ecology, Health, and Conservation.* 3 credits.
Students will learn about organisms that comprise and inhabit coral reefs and examine how environmental and anthropogenic stressors affect coral reef ecosystems and human society. Current and potential reef restoration solutions will be discussed. Students will engage in open dialogue on reef conservation-related topics including coral health and disease, fishing practices, and policy at the state, federal, and international levels. Offered by Environmental Science & Policy. Limited to three attempts.

Recommended Prerequisite: Permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 466: *Coral Reef Ecology, Health, and Conservation Lab/Field Experience.* 1 credit.
Students will learn to identify different species of corals, fishes, and other reef organisms in the classroom and in the field. Students will be introduced to scientific field methods, including how to make and record observations while diving/snorkeling. Students will deploy these survey methods in the field to collect and analyze data on coral reef ecosystems. Offered by Environmental Science & Policy. May be repeated within the degree for a maximum 1 credits.

Recommended Prerequisite: Permission of instructor

Recommended Corequisite: EVPP 465, if not taken previously.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 472: *Tools and Techniques for International Development.* 3 credits.
Systematic and comprehensive understanding of key concepts and skills essential to effective project management in international developinent. The skill set learned is oriented towards a 'how-to-do/functional' approach that can be applied to projects on environment, poverty reduction, green growth, health, climate change adaptation and mitigation, social development and more. Notes: This course wlll co-meet with EVPP 572. Graduate students in this course wm be graded according to a different rubric than the undergraduate students. Offered by Environmental Science & Policy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 475: *Global Biodiversity Governance.* 3 credits.
Study global biodiversity governance from a political/policy science perspective. Regime and governance literature, and empirical examples including intergovernmental policy, such as biodiversity-related climate change policy (REDD+), and certification standards, such as the Forest Sterwardship Council (RSC), will be examined, with guest lecturers and a simulation of an intergovernmental negotiation. Designated a Green Leaf Course. Notes: This course will co-meet with EVPP 575. Undergraduate students in this course will be graded according to a different rubric than the graduate students. Offered by Environmental Science & Policy. Limited to three attempts.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: One (environmental) social science course.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 480: *Sustainability in Action.* 4 credits.
Provide students with valuable and tangible experience in practical aspects of realizing sustainability goals and to transfer theory into practice. Allows students to engage in real-world, sustainability-related projects that provide benefits for a target community. Identify and attempt to solve a sustainability-related problem or address a sustainability-related need in a specific target community. Notes: Capstone course for the Sustainability Minor see Environmental Science

and Policy department listing for details. Offered by Environmental Science & Policy. Limited to three attempts.

Mason Core: Encore: Sustainability, Synthesis

Specialized Designation: Green Leaf Focused Course, Mason Impact.

Recommended Prerequisite: Completed or concurrent enrollment in all other required Mason Core courses; completion of 60 credits

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 490: *Special Topics in Environmental Science and Policy.* 0-4 credits.
Studies selected topics in environmental science and policy using lectures, guest lectures, student presentations, or laboratory exercises. Notes: Topics vary, but each offering has coherent syllabus. May be repeated for credit if topics are significantly different. Offered by Environmental Science & Policy. May be repeated within the term for a maximum 8 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 60 credits and permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 491: *Special Topics Lab.* 1-2 credits.
Explores selected in environmental science and policy using laboratory exercises. Offered by Environmental Science & Policy. May be repeated within the term for a maximum 4 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 60 credits or permission of instructor

Recommended Corequisite: EVPP 490

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 494: *Internship.* 1-3 credits.
Involves off-campus, professional student work with approved agencies, institutions, non-profits, or businesses. Work must produce one or more academic products such as: comprehensive report, departmental presentation, poster, or article. At least one substantive piece of work will be assessed for each internship credit being undertaken. Scope of work, credits, and academic product(s) are determined in consultation with the internship instructor. Notes: Credit will be assigned based on the number of hours participating in the internship each week: 1 Credit = 4-6 hours/week, 2 Credits= 8-12 hours/week, 3 Credits= 12-18 hours/week. Offered by Environmental Science & Policy. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 60 credits and permission of instructor.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

EVPP 495: *Undergraduate Seminar in Environmental Science.* 1 credit.
Seminars on selected topics in environmental science, using lectures, guest lectures, student presentations, and discussions of current literature. Note: Topics vary. Offered by Environmental Science & Policy. May be repeated within the degree for a maximum 3 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: EVPP 112 and 113 or EVPP 201 or EVPP 302

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

EVPP 503: *Field Mapping Techniques.* 3 credits.
Basic techniques for collecting, recording, and plotting spatial field data, including topographic maps, compass, transit, alidade, and global positioning systems. Field work and field-based research project. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to GEOL 506, GEOL 553.

Recommended Prerequisite: MATH 105 or equivalent, EVSC 110, GGS 102, or GEOL 101 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

EVPP 505: *Selected Topics in Environmental Science.* 0-4 credits.
Topic depends on instructor's specialty. Offered by Environmental Science & Policy. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: A course in Geology or Ecology, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 506: *Science of the Environment I.* 3 credits.
Environmental science is explored in this 2-semester sequence providing the foundation in chemistry (I) and biology (II) required for graduate students with social sciences backgrounds seeking a degree and career in environmental science and policy. Notes: For graduate students entering the Environmental Science and Policy or other programs. Not available to students with undergraduate degrees in the natural sciences. This course is in addition to all other degree requirements. Offered by Environmental Science & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 507: *Science of the Environment II.* 3 credits.
Environmental science is explored in this 2-semester sequence providing the foundation in chemistry (I) and biology (II) required for graduate students with social sciences backgrounds seeking a degree and career in environmental science and policy. Notes: For graduate students entering the Environmental Science and Policy or other programs. Not available to students with undergraduate degrees in the natural sciences. This course is in addition to all other degree requirements. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: EVPP 506 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 515: *Molecular Environmental Biology I.* 3 credits.
Introduces molecular environmental biology covering basic concepts of molecular biology, molecular evolution, and bioinformatics, and application to problems in molecular and environmental biology. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: Introductory biology and genetics or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 518: *Conservation Biology.* 3 credits.
Introduction to the science used to identify species in need of conservation, and techniques to manage and protect organisms. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: Course in Ecology.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 519: *Marine Mammal Biology and Conservation.* 3 credits.
Covers the evolution, biology, ecology, and behavior of marine mammals from polar bears and sea otters to whales and dolphins. Marine mammal conservation and policy is also a major component of the course; several lecture sessions are devoted to the issue of whaling, threats to marine mammal populations, and recent conservation issues such as marine mammals and noise pollution. The course also includes a number of guest lectures from a variety of international marine mammal experts. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to EVPP 419.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 520: *Marine Mammal Biology and Conservation Field Course.* 1 credit.
This course provides laboratory, seminar sessions and field work to accompany EVPP 519-001 marine mammal biology and conservation. Field work includes several day-long boat trips. The field course may take place in the US or abroad, including in Scotland at the University (of London) Marine Biological Station, which is equipped with boats and laboratories. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Corequisite: EVPP 519.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

EVPP 521: *Marine Conservation.* 3 credits.
Provides an overview of threats to the marine environment, and discusses the scientific, socioeconomic, and political issues behind marine conservation. Covers categories of marine pollutants (chemical, biological, and physical contaminants) and their impacts on the marine ecosystem, as well as impacts on humans (health, social, and economic), threats to key marine species (e.g., coral, sharks, turtles, and marine mammals) and initiatives and laws developed to reduce these threats. Scientific and socioeconomic problems that hinder sustainable fisheries management and the science and policy behind the global warming debate are also discussed. Provides an overview of marine environmental law and policy issues related to marine conservation policy. Offered by Environmental Science & Policy. May not be repeated for credit.

Specialized Designation: Green Leaf Focused Course

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 524: *Introduction to Environmental and Resource Economics.* 3 credits.
Introduces theory of external costs and benefits, public goods, natural resource management, and benefit and cost analysis for noneconomists. Lecture-discussion format with student presentations and participation. Analytical problems set, short writing assignments, and exams. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to GGS 524.

Recommended Prerequisite: Basic algebra skills.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 525: *Economics of Human/Environment Interactions.* 3 credits.
Advanced topics in environmental, natural resource, and ecological economics for noneconomist. Emphasizes sustainability, intergenerational equity, and economic-ecological feedbacks. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to GGS 525.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: EVPP 524/GGS 524 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 527: *Conservation Medicine.* 3 credits.
Presents the trans-disciplinary discipline of conservation medicine, the study of relationships between organism and ecosystem health and environmental conditions. Topics include infectious and noninfectious diseases, pathogens, processes, and impacts on human, biotic, and ecosystem health, and how to address the consequences of diseases to populations and ecological communities. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to BIOL 527.

Recommended Prerequisite: Courses in microbiology, ecology, or conservation, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 529: *Environmental Science Communication.* 3 credits.
Communicating environmental science is inherently challenging whether in academia, the public policy realm, or to the general public. The aim of this course is to expose students to the multiple ways environmental science can be communicated. Such exposure will be made both through a theoretical approach by examining science communication literature, as well as through practical, hands-on activities and assignments. Offered by Environmental Science & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 531: *Land-use Modeling Techniques and Applications.* 3 credits.
Surveys literature on spatially explicit empirical models of land-use change. Offers hands-on experience developing and running simple models. Includes statistical models, mathematical programming models, cellular automata, agent-based models, and integrated models. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to GGS 531.

Recommended Prerequisite: GGS 550 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 532: *Animal Behavior.* 3 credits.
Ecological aspects of animal behavior. Offered by Environmental Science & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 533: *Energy Policy.* 3 credits.
Discusses resource options in the context of 3E's: energy security, environment, and economics. Examines how these considerations apply to 3 P's developed by Jennifer Sklarew: priorities, politics, and process. Examines sustainability and environmental angles of resources, reasons for specific nations' policy choices, and possibilities for future energy policies. Considers how energy policies can create cooperation and conflict domestically and internationally. Offered by Environmental Science & Policy. May not be repeated for credit.

Specialized Designation: Green Leaf Focused Course

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 534: *Food-Energy-Water Nexus.* 3 credits.
This course examines resilience and sustainability challenges involving the food, energy water (FEW) nexus, along with innovative solutions to them. Discussions bridge multiple disciplines, considering the technological, economic, and institutional dimensions of the nexus in various places around the globe at local and national scales. Building on these existing empirical cases, students will add their own analysis of a FEW challenge in a place they select. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: One environmental social science course (e.g., policy or economics), or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 536: *The Diversity of Fishes.* 3 credits.
This course delves into the biology and ecology of fishes. Subjects of this class include fish anatomy, taxonomy, evolution, habitat adaptations, community dynamics, and ecosystem interactions. The course will also touch on human impacts on fishes, and conservation. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: Course in ecology or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 537: *Ornithology.* 4 credits.
Study of evolution, systematics, physiology, ecology, and behavior of birds, emphasizing field work. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: Course in ecology or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 538: *Mammalogy.* 4 credits.
Study of evolution, systematics, physiology, ecology, and behavior of mammals, emphasizing fieldwork. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to BIOL 538.

Recommended Prerequisite: BIOL 303 and BIOL 307 or permission of the instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 539: *Herpetology.* 4 credits.
Study of evolution, systematics, physiology, ecology, and behavior of amphibians and reptiles, emphasizing field work. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: Course in ecology or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 542: *Urban Ecosystems & Processes.* 3 credits.
Provides an overview of the challenges and opportunities that urban environments present to the plants and animals inhabiting cities and the ways that those organisms and entire ecosystems respond. Includes ecosystem ecology for engineered ecosystems, along with reviews of urban metabolism, energy budgets, water cycles, and soil ecology. Students design and conduct a small-scale green infrastructure experiment/project on campus. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: CHEM 211, MATH 113 or equivalent, BIOL 308 or EVPP 302, PHYS 243 or equivalent, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 543: *Tropical Ecosystems.* 4 credits.
Terrestrial, aquatic, and marine ecosystems in the tropics, emphasizing plant communities, plant-animal interactions, and role of humans in tropics.Notes: Requires field trip to tropics as part of lab. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to BIOL 543.

Recommended Prerequisite: A course in ecology and permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 544: *Urban Ecosystems and Processes-Lab/Fields.* 1 credit.
The course describes general ecosystem ecology for engineered ecosystems along with review on urban metabolisms of energy, water, soil, and foods with cultural and historical context. Especially, the course focuses on urban water and soil issues that are critical in urban ecosystem functioning involving streams, rivers, and wetlands. The course also aims to review and discuss numerous cases of urban coupled natural and human (social) processes and their relationship with design elements that can be incorporated into creating functional urban landscape (e.g., green infrastructure). The course will engage students in studying up-to-date information on green infrastructure implementation and applications through field trips. The course provides students with an introduction of systemic, interdisciplinary approach on designing and managing urban ecosystems. The course will involve field/design work on a specific theme for each semester it gets taught. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: CHEM 211, MATH 113 or equivalent, BIOL 308 or EVPP 302, PHYS 243 or EVPP 542 or equivalent; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

EVPP 545: *Principles of Environmental Toxicology.* 3 credits.
Explores basic principles of toxicology with an emphasis on the environment, including the history and scope of the field; absorption, distribution, metabolism, and excretion of toxicants; mechanisms of toxic action; genetic toxicology; and ecotoxicology, as well as specific examples of important toxicants. Introduces regulatory toxicolog and human and ecological risk assessment. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: Courses in ecology, physiology and chemistry; or permission of instructor

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 549: *Marine Ecology.* 3 credits.
Presents the Ecology of Marine Ecosystems including from the intertidal zone to the deep sea, and from coral reefs to seagrass beds and polar seas. Overviews the evolutionary characteristics and ecological processes and community structure of species and their habitats; and special problems that confront marine organisms due to anthropogenic change. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: EVPP or BIOL 308 and BIOL/EVPP/GEOL 309 (or the equivalent), or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 550: *Waterscape Ecology and Management.* 3 credits.
Studies physical, chemical, and biological components of freshwater ecosystems with emphasis on streams, rivers, and lakes; links between watersheds and freshwater ecosystems; and impact of human management. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to BIOL 550.

Recommended Prerequisite: A course in chemistry and a course in ecology.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 551: *Fungi and Ecosystems.* 3 credits.
Considers impact of fungi on ecosystems in terms of effects on biogeochemical cycling, primary and secondary production, and regulating community structure and populations of individual species through activities as symbionts and parasites. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to BIOL 559.

Recommended Prerequisite: BIOL 304 and/or a course in microbiology or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 555: *Lab in Waterscape Ecology.* 1 credit.
Field and laboratory approaches to freshwater ecology with emphasis on study design, sampling methods, laboratory and data analysis, and report writing. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to BIOL 555.

Recommended Prerequisite: EVPP 550 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

EVPP 556: *Aquatic Invertebrate Ecology.* 4 credits.
Through lecture, field collections, and laboratory study, students will understand phylogeny, physiology, life histories, behaviors, trophic importance, adaptations, conservation significance and response to global environmental change of aquatic invertebrates. Students will identify invertebrates using appropriate literature and methods and use proper curation to preserve them. Students will become familiar with methods for measuring aquatic invertebrate density, biomass, and diversity. Offered by Environmental Science & Policy. May not be repeated for credit.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 560: *Infectious Diseases of Wildlife.* 3 credits.
Examines infectious diseases of wildlife with emphasis on causes and mechanisms, pathobiology, ecology and epidemiology and population significance. Explores methods of diagnosis, control, prevention and outbreak investigation as they apply to management and conseration of wildlife populations. Also, diseases crossing species barriers will be examined. Note: Course will co-meet with BIOL 460/EVPP 460. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to BIOL 560.

Recommended Prerequisite: Courses on evolution, ecology, zoology, and conservation biology or permission of the instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 563: *Coastal Morphology and Processes.* 4 credits.
Studies global coastal geomorphology and processes, emphasizing U.S. Atlantic and gulf coasts. Topics include plate tectonics; sea-level changes; sediment supply; impact of waves, tides, storms; and human activities. Lecture, extended weekend field trips to mid-Atlantic coast. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to GEOL 563.

Recommended Prerequisite: Course in Geology, Oceanography, Marine Science, or Physical Geography; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 572: *Tools and Techniques for International Development.* 3 credits.
Systemic and comprehensive understanding of key concepts and skills essential to effective project management in international development. The skill set learned is oriented towards a 'how-to: do/functional' approach that can be applied to projects on environment, poverty reduction, green growth, health, climate change adaptation and mitigation, social development and more. Offered by Environmental Science & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 575: *Global Biodiversity Governance.* 3 credits.
Study global biodiversity governance from a political/policy science perspective. Regime and governance literature, and empirical examples including intergovernmental policy, such as biodiversity-related climate change policy (REDD+), and certification standards, such as the Forest Stewardship Council (FSC), will be examined, with guest lecturers and a simulation of an inter governmental negotiation. Designated a Green Leaf Course. Offered by Environmental Science & Policy. May not be repeated for credit.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: One (environmental) social science course.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 577: *Biogeochemistry: A Global Perspective.* 3 credits.
Structure and function of ecosystems, their interactions as components of landscapes, and contributions to the global environment. Emphasizes biogeochemical cycles of natural, disturbed, and managed ecosystems, and integration at landscape and global level as related to current ecological problems such as transfer of nonpoint source pollutants, atmospheric deposition, stratospheric ozone depletion, and global change. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: A course in ecology and a course in chemistry, or Permission of Instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 581: *Estuarine and Coastal Ecology.* 3 credits.
Emphasizes marine biology of estuarine and coastal habitats of Chesapeake Bay region, and factors affecting distribution and abundance of organisms. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to BIOL 581.

Recommended Prerequisite: Course in ecology and permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 582: *Estuarine and Coastal Ecology Laboratory.* 1 credit.
Provides training in field measurement of physical and chemical parameters, and collection and identification of local organisms. Emphasizes the practice of ecological field research. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to BIOL 582.

Recommended Corequisite: EVPP/BIOL 581.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

EVPP 607: *Fundamentals of Ecology.* 3 credits.
Overview of concepts in physiological, population, community, ecosystem, biogeographical and human ecology. Notes: Restricted to graduate students with little or no background in ecology. Students who have taken BIOL 307 or the equivalent elsewhere are ineligible for this course. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to BIOL 607.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 608: *Introduction to Environmental Social Science.* 3 credits.
The course Environmental Social Science - ESS - aims to provide insight into the some of the most relevant social sciences and social scientific perspectives for studying environmental issues. The course introduces students to different social scientific disciplines. They will also learn about different social scientific theoretical perspectives and concepts, which they will apply in a research project. Designated a Green Leaf Course. Offered by Environmental Science & Policy. May not be repeated for credit.

Specialized Designation: Green Leaf Focused Course

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 610: *Bioremediation: Theory and Applications.* 3 credits.
Provides basis for understanding proper application of bioremedial technologies to treatment of hazardous wastes. Includes evaluation of data to determine successful treatment. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to BIOL 610.

Recommended Prerequisite: Course in microbiology and either organic chemistry or biochemistry or Permission of Instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 615: *Molecular Environmental Biology II.* 4 credits.
Applied course covering theory and methodology of molecular environmental biology, including analysis of selected case studies in conservation biology of macro-organisms, molecular systematics, and microbial ecology. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: EVPP 515 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 619: *The Challenge of Biodiversity.* 3 credits.
The Challenge of Biodiversity examines the science and policy of biodiversity conservation, through case studies, current events, guest speakers, class discussion, reading and assignments. Emphasis is placed on problem solving, communication skills and critical thinking. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: 6 credit hours of graduate course work or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 620: *Development of U.S. Environmental Policies.* 3 credits.
Examines nature and historical development of environmental policy in the United States, including consideration of social, political, economic and environmental factors, and ways it is expressed and implemented. Also considers sustainability and emerging issues. Offered by Environmental Science & Policy. May not be repeated for credit.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: 8 graduate credits including graduate course in policy process and course in ecology; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 621: *Overview of Biodiversity Conservation.* 3 credits.
Lectures, reading assignments, class discussions, and orally presented and written case studies to explore what biodiversity is, why it is important, how conservation has evolved, and status today. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: 8 credits of graduate environmental policy and/or science, including ecology, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 622: *Management of Wild Living Resources.* 3 credits.
Examines management of different types of wild living resources: animal and plant, aquatic and terrestrial. Reviews status of resources, analyzes factors that have led to present situation, and considers what may be required to achieve effective and sustainable management. Offered by Environmental Science & Policy. May not be repeated for credit.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: 8 graduate credits of ecology or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 623: *Translating Environmental Policy into Action.* 3 credits.
Guest lecturers, class discussions, written and orally presented case studies, and assigned reading to identify and analyze factors involved in moving from science and policy to concrete action. Provides understanding of basic principles, skills, and strategies. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: 8 credits of graduate environmental policy and/or science, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 626: *Environment and Development in Asia.* 3 credits.
Examine environment and development in selected countries of South, Southeast, and East Asia. Reviews relationship between environment and development, considers background and history leading up to the present, and considers requirements to achieve more effective and sustainable results. Offered by Environmental Science & Policy. May not be repeated for credit.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: A course in policy process, a course in international development and a course in ecology, or Permission of Instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 627: *Environmental Policy in Latin America.* 3 credits.
Examine environmental policy in Latin America. Reviews evolution of environmental policy and relationship between environment and development, considers background and history leading up to the present, and considers requirements to achieve more effective and sustainable results. Offered by Environmental Science & Policy. May not be repeated for credit.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: 8 graduate credits in policy process, international development, and ecology; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 628: *Environment and Development in Africa.* 3 credits.
Examine environment and development in sub-Saharan Africa. Reviews relationship between environment and development, considers background and history leading up to present, and considers requirements to achieve more effective and sustainable results. Offered by Environmental Science & Policy. May not be repeated for credit.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: 8 graduate credits in policy process, international development, and ecology; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 630: *Methods and Logic of Social Inquiry.* 3 credits.
Emphasizes gathering, interpretation, and evaluation of scientific evidence. Develops critical thinking skills and covers logic of scientific inquiry, including various data collection methods such as experiments, observational research, and Q methodology. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: An undergraduate course in statistics and research methods or Permission of Instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 631: *Spatial Agent-based Models of Human-Environment Interactions.* 3 credits.
Discusses key challenges in spatial modeling of human-environment interactions. Reviews agent-based modeling applications in urban and rural interactions, agriculture, forestry, and other areas. Hands-on development of simple ABM models, and investigation of links between GIS and ABM. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to GGS 631.

Recommended Prerequisite: EVPP 531 or CSS 600 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 632: *Qualitative Research Methods for Environmental Scientists.* 3 credits.
Course engages questions of qualitative research methods for scientists conducting human-environment research. Focuses on tools to investigate the human-environment nexis, including community-based conservation and management research and decolonizing methodologies. Students discuss and practice 'triangulation'-- the integration of qualitative and quantitative methods-- a necessary skill for environmental/human-environment research. Offered by Environmental Science & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 635: *Environment and Society.* 3 credits.
Human-environment interactions in human ecology perspective, historical basis of human environmental impact, indigenous and nonindigenous worldviews in context of modernization, environmental degradation and globalization, and contemporary policy and research initiatives geared toward resilience and sustainability. Discussion format. Offered by Environmental Science & Policy. May not be repeated for credit.

Specialized Designation: Green Leaf Focused Course

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 636: *Gender, Race, and the Natural World.* 3 credits.
Advanced study of links among gender, race, and nature using social-psychological framework, original sources, and seminar and discussion. Analyzes ideologies that underpin the interlocking narratives of gender, race, and nature, and examines role of science in producing these ideologies. Offered by Environmental Science & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 637: *Human Dimensions of Climate Change.* 3 credits.
Examines human dimensions of climate change, biodiversity loss, ozone depletion, and related anthropogenic alterations of biosphere. Offered by Environmental Science & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 638: *Corporate Environmental Management and Policy.* 3 credits.
Provides understanding of how environmental issues interact with business strategy decisions. Emphasizes learning about proactive win-win environmental management strategies being implemented by world's leading firms, and shows how government policies and regulations can be designed to simultaneously promote higher environmental protection and competitiveness. Combines mini lectures, participatory discussions. Offered by Environmental Science & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 641: *Environmental Science and Public Policy.* 3 credits.
Effects of human activities on environment. Considers airborne, waterborne, and solid waste contaminants with respect to sources, control, and effect on ecosystems and humans. Focus is on scientific and technical aspects of environmental contamination. Includes discussion of science policy related to these topics. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: A course in Ecology or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 642: *Environmental Policy.* 3 credits.
In-depth examination of U.S. efforts since 1970 to mitigate pollution of air, land, and water. Addresses issues of global concern, including biodiversity loss, ozone depletion, and climate change. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to PUAD 642.

Specialized Designation: Green Leaf Focused Course

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 643: *Microbial Ecology.* 4 credits.
Studies relationships between microorganisms and their natural environment, and methodology for observing the microbes in nature and the biochemistry of environmental systems. Includes discussion of the role of microbes both in creating and removing toxic threats in the environment. Laboratory component includes field sampling/analyses and laboratory isolation and identification of microbes as well as measurement of their physiological activities. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to BIOL 643.

Recommended Prerequisite: A course in microbiology or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 645: *Freshwater Ecology.* 3 credits.
Studies biotic and abiotic interactions that affect structure and composition of freshwater ecosystems. Emphasizes research literature. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: EVPP 550 or Permission of Instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 646: *Wetland Ecology and Management.* 3 credits.
Emphasizes structure, functions, and ecological processes of created and natural wetlands from an ecosystem perspective. Students will be expected to develop an understanding of hydrologic, physicochemical, and ecological aspects of wetlands and the management of these systems through in-class and field/lab works. Each student is required to carry out an individual research project that involves field and lab works, and write a research paper. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: BIOL 307 or EVPP 377, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 647: *Wetland Ecology Lab and Field.* 1 credit.
Use laboratory and field work to study the structure and function of wetland ecosystems. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: EVPP 646 (formerly EVPP 644).

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

EVPP 648: *Population Ecology.* 3 credits.
Surveys ecological models and theory. Topics include population growth and regulation, competition, predator-prey, herbivore-plant, and parasite-host interactions, mutualism, and metapopulation ecology. Offered

by Environmental Science & Policy. May not be repeated for credit. Equivalent to BIOL 648.

Recommended Prerequisite: A Course in ecology or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 650: *Ecosystem Analysis and Modeling.* 4 credits.
Introduces principles, history, and methodologies of systems ecology, emphasizing development and simulation of ecological models for natural resource/ecosystem management, conceptual and symbolic models, and simulation techniques on microcomputers. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to BIOL 650.

Recommended Prerequisite: A course in ecology or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 651: *Multivariate Data Analysis for Ecology and Environmental Science.* 3 credits.
Provides graduate students in ecology and environmental science with tools needed to analyze multivariate data sets. Topics include classification and ordination. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: EVPP 607 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 652: *The Hydrosphere.* 3 credits.
Components and transfer processes within hydrosphere, which consists of aqueous envelope of Earth including oceans, lakes, rivers; snow, ice, glaciers, soil, moisture, ground water, and atmospheric water vapor. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to GGS 656.

Recommended Prerequisite: 2 semesters of calculus and partial differential equations.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 670: *Environmental Law.* 3 credits.
Studies environmental laws such as the National Environmental Policy Act, and regulatory issues such as the Clean Water and Clean Air Acts. Emphasizes critical evaluation of alternatives to unresolved issues in environmental policies. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: Course in Ecology, Environmental Biology, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 675: *Environmental Planning and Administration.* 3 credits.
Examines interaction of man and ecological systems; causes of damage or deterioration in environment; content, oversights, and externalities in management decision processes that affect environment and effectiveness of plan implementation; means of assessing environmental impact; and administrative approaches for minimizing environmental impact. Offered by Environmental Science & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 677: *Applied Ecology and Ecosystem Management.* 3 credits.
Uses ecological principles to manage natural resources. Emphasizes hierarchical levels of organization within ecological systems, and management of ecosystems to conserve biodiversity, natural resources, and environment. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: BIOL 607 or EVPP 607 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 682: *Principles of Environmental Conflict.* 3 credits.
Explores the nature and characteristics of environmental conflict and efforts to manage, resolve or transform it. Students will develop a capacity to assess the strengths and weaknesses of environmental conflict resolution processes while learning about best practices for preventing, preparing for, and addressing environmental conflict. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to CONF 682.

Recommended Prerequisite: EVPP 607, CONF 501, and CONF 502, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 683: *Environmental Conflict Resolution: Situation Assessment, Process Design and Best Practices.* 3 credits.
This course explores best practices for managing, resolving, and transforming environmental conflict using environmental conflict resolution (ECR) processes. Nature and dynamics of environmental disputes, methods for assessing conflict situations, and methods for conducting various forms of ECR processes will be covered in the context of selected case studies with emphasis on student involvement. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to CONF 683.

Recommended Prerequisite: EVPP 682 or CONF 682, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 684: *Environmental Conflict Resolution and Collaboration: Leadership Practicum/Capstone.* 3 credits.
This course is the capstone course for the Graduate Certificate in Environmental Conflict Resolution and Collaboration. Under supervision of the instructor, students will undertake an assessment of an active environmental conflict and recommend a range of processes that promote identified goals for preferred conflict outcomes. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: EVPP 682 or CONF 682, and EVPP 683 or CONF 683.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 692: *Master's Seminar in Environmental Science and Public Policy.* 1 credit.
Explores selected topics in environmental science and public policy using lectures, guest lectures, student presentations, and discussions of current literature. Notes: Topics vary. Offered by Environmental Science & Policy. May be repeated within the term for a maximum 4 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

EVPP 693: *Directed Studies in Environmental Science and Public Policy.* 1-4 credits.
Studies topic not otherwise available in graduate program. May involve reading assignments, tutorials, lectures, papers, presentations, and lab or field study determined in consultation with instructor. Notes: Short study plan required. May not be used to fulfill explicit undergraduate prerequisites for graduate work. Offered by Environmental Science & Policy. May be repeated within the term for a maximum 8 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Research

Grading:
This course is graded on the Graduate Special scale.

700 Level Courses

EVPP 730: *Environmental Policy Research in Practice.* 3 credits.
Course is designed for students interested in social science-oriented environmental research. Student learn how to ground their research ideas in social science theory, develop a central research question and construct original research hypotheses that are grounded in social science literature. They also hone their peer reviewing skills by assessing other students' research and offering constructive commentary. Offered by Environmental Science & Policy. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 12 credit hours of graduate course work at Mason or approval of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

EVPP 738: *Sustainable Enterprise Theory.* 3 credits.
This course is designed to critically evaluate the scholarly research related to sustainable enterprise. The class provides an overview of the major theories, research designs, and methodologies associated with this emerging research domain. Students apply these theories to develop social science research proposals for empirical investigation. Offered by Environmental Science & Policy. May not be repeated for credit.

Recommended Prerequisite: EVPP 638 Corporate Environmental Management and Policy, equivalent class, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 741: *Advanced Topics in Environmental Science and Public Policy.* 0-4 credits.
Studies selected advanced topics in environmental science and public policy. Lectures, guest lectures, student presentations, laboratory exercises. Notes: Topics vary; each offering has coherent theme. May be repeated for credit if topics significantly differ. Offered by Environmental Science & Policy. May be repeated within the term for a maximum 10 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Eight hours of graduate coursework in Environmental Science and Public Policy, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 745: *Environmental Toxicology.* 3 credits.
Studies nature, distribution, and interaction of toxic chemicals released into environment. Topics include acute, subchronic, and chronic toxicity testing; uptake, distribution and metabolism of toxins as well as their distribution in the environment. Emphasizes effects on nonhuman biota, detection and fate of chemicals, and includes discussion of implications for government regulation. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to BIOL 745.

Recommended Prerequisite: EVPP 445 or EVPP 545 or equivalent; or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EVPP 792: *Seminar in Earth Systems Science.* 2 credits.
Seminar for Earth systems science graduate students with background in major systems. Capstone experience. Seminars presented by faculty and students. Notes: Topics vary from semester to semester. Offered by Environmental Science & Policy. May not be repeated for credit. Equivalent to GGS 792.

Recommended Prerequisite: 15 graduate credits and courses on the atmosphere, hydrosphere, and lithosphere.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:

This course is graded on the Graduate Regular scale.

EVPP 793: *Research in Environmental Science and Public Policy.* 1-3 credits.
Library, laboratory, or field investigation under supervision of instructor. Notes: Short proposal required. Offered by Environmental Science & Policy. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 8 graduate credits in EVPP and Permission of Instructor and Chair.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Research

Grading:
This course is graded on the Graduate Special scale.

EVPP 797: *Master's Thesis Proposal.* 1-3 credits.
Work on research proposal that forms basis for a master's thesis. Offered by Environmental Science & Policy. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: 12 credits and permission of major professor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Research

Grading:
This course is graded on the Graduate Special scale.

EVPP 798: *Master's Research Project in Environmental Science and Public Policy.* 1-3 credits.
Experimental, observational, literature-based, or theoretical research project chosen and completed under guidance of faculty member. Proposal required before enrollment. Comprehensive report acceptable to student's committee required for completion. Notes: Students taking EVPP 798 may receive no more than 6 credits for both EVPP 793 and EVPP 798. Offered by Environmental Science & Policy. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Approved project proposal and permission of instructor and Chair.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Graduate Special scale.

EVPP 799: *Master's Thesis in Environmental Science and Public Policy.* 1-6 credits.
Experimental, observational, or theoretical research under instructor's supervision that culminates in production of thesis. Thesis work should be potentially publishable. Notes: No more than 6 credits of EVPP 793 and EVPP 799 may be applied to master's degree. Offered by Environmental Science & Policy. May be repeated within the degree.

Recommended Prerequisite: Approved thesis proposal and permission of instructor and Chair.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

EVPP 894: *Supervised Internship.* 3-12 credits.
Training in application of ecological skills to environmental management and policy under supervision of a qualified environmental scientist at governmental agency, consulting firm, industry, or other acceptable organization. Offered by Environmental Science & Policy. May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: Permission of student's doctoral committee, graduate program director and department chair.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale.

900 Level Courses

EVPP 991: *Advanced Seminar in Environmental Science.* 2 credits.
Topics generally address interface between environmental science and public policy. Offered by Environmental Science & Policy. May be repeated within the term.

Recommended Prerequisite: 8 hours of Ecology or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

EVPP 998: *Doctoral Dissertation Proposal.* 1-6 credits.
Work on research proposal that forms basis for a doctoral dissertation. Offered by Environmental Science & Policy. May be repeated within the degree.

Recommended Prerequisite: Admission to doctoral candidacy.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

EVPP 999: *Doctoral Dissertation Research.* 1-12 credits.
Research on basic or applied problem in environmental science and public policy. Offered by Environmental Science & Policy. May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Executive MBA (EMBA)

600 Level Courses

EMBA 603: *Managerial Economics.* 3 credits.
Develops and applies economic analysis tools in managerial decision situations. Focuses on economic analysis to understand firm's competitive environment. Offered by School of Business. May not be repeated for credit. Equivalent to MSF 603.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EMBA 612: *Managing Costs and Evaluating Performance.* 1-3 credits.
Focuses on developing accounting information for use by managers in planning and control activities. Examines traditional and emerging cost-management systems. Special emphasis on information for decision-making, operational control, and performance evaluation. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EMBA 613: *Financial Accounting.* 3 credits.
Develops framework of concepts and procedures essential for interpreting general-purpose financial statements and internal managerial accounting reports. Emphasizes understanding basic concepts and applying selected procedures to problem-solving situations. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EMBA 623: *Marketing.* 3 credits.
Develops market-based knowledge and skills for effective marketing strategy design, implementation, and evaluation. Develops ability to make marketing decisions in wide variety of institutional and competitive situations. Addresses the importance of companies being market-driven and customer-focused. Emphasis on case studies, team work, and projects. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EMBA 633: *Statistics for Business Decision Making.* 3 credits.
Applies statistical methods in analyzing problems in business decision-making. Topics include descriptive statistics, probability distributions, estimation and hypothesis testing, and linear regression. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EMBA 638: *Services and Operations Management.* 3 credits.
Integrates theory and practice of operations management with mathematical modeling and quantitative techniques of management science. Addresses range of operations management issues, including technology and strategy decisions, systems design issues, project operations, quality control, and inventory planning. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EMBA 641: *Building the High-Performing Team.* 0-3 credits.
Develops the knowledge and skills needed for creating powerful, high-performance teams within and among organizational units. Strategies are offered for alignment of goals, building conditions for coordinated action, generating innovation, and resolving breakdowns. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale.

EMBA 643: *Managerial Finance.* 3 credits.
Introduces theories of finance and their application to the formulation of business policy. Topics include internal financial analysis, financial forecasting, valuation, risk and return analysis, capital allocation, and capital structure. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EMBA 653: *Organizational Behavior and Teams.* 3 credits.
Examines development, theories, and practice of management within organizations. Emphasizes human behavior and how it influences organizational effectiveness. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EMBA 660: *Management of Information Technology.* 3 credits.
Examines computer-based information technologies and their interrelation with management processes, especially problem-solving and decision-making at individual, work group, and organization levels. Topics include management information system life cycle, with emphasis on manager's perspective, and modeling and analysis to support decision-making. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EMBA 678: *Business Strategy.* 3 credits.
Integrates business strategy and policy with functional knowledge developed in other courses and business practice. Issues include formulation of strategy, industry analysis, building core competencies, and strategy implementation. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EMBA 696: *Directed Studies in Executive MBA.* 1-3 credits.
Approval by faculty member and program director required prior to registration. Studies specialized topics in business not otherwise available in the curriculum. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

EMBA 697: *Special Topics in Executive MBA.* 1-3 credits.
Sections established as necessary to focus on various topical issues that emerge in practice of executive business administration. Offered by School of Business. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

700 Level Courses

EMBA 703: *Financial Markets.* 0-3 credits.
Explores the relationships between financial markets and their impact on corporate financial decision making. Considers cross-market interrelationships, including how financial markets respond by creating financial instruments to meet the varying financial requirements of business firms. The course includes a domestic financial residency in New York that focuses on contemporary developments in these markets. Offered by School of Business. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EMBA 718: *Strategic Leadership in National Security Firms.* 3 credits.
Focuses on the essential elements of successful organizational change. Emphasis on understanding the forces for change, as well as developing skills to manage a successful change process. Gives a deeper understanding of organizational leadership and an increased ability to be a successful leader. Incorporates and integrates theory, research, and application, with the ultimate goal of providing the student with practical information about leadership. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EMBA 729: *Critical Infrastructure Protection and Resilience.* 3 credits.
Course provides an introduction to the policy, strategy, and practical application of critical infrastructure security and resilience from an all-hazards perspective. It describes the strategic context presented by the 21st century risk environment, and discusses the challenges and opportunities associated with the following: public-private partnerships; information-sharing; risk analysis and prioritization; risk mitigation and management; performance measurement; incident management; and addressing future risks. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EMBA 730: *Assessing and Managing Risk to Critical Infrastructure Systems.* 1-3 credits.
Course provides an introduction to the policy, strategy, and practical application of an all-hazards risk assessment and management in the context of critical infrastructure security and resilience. Course promotes subject matter understanding, critical discussion of analytic approaches, and proficiency in communicating information on risk methodologies and their' utilization in oral and written form. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EMBA 731: *Partnering and Information Sharing for Critical Infrastructure Security and Resilience.* 1-3 credits.
Course provides an overview of partnerships and information sharing within the homeland security enterprise with a focus on the collaboration and information products, processes, and systems necessary to protect and enhance the resilience of the Nation's critical infrastructure. Course is designed to promote subject-matter understanding, critical analysis of issues, and insight into senior leader decision-making in both the government and private sectors. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EMBA 732: *Critical Infrastructure Security and Resilience and Cybersecurity.* 1-3 credits.
Provides introduction to policy, strategy, and operational environment of cyberspace in context of critical infrastructure security and resilience mission area. Course includes discussion of cybersecurity challenges presented by 21st century risk environment, and opportunities and challenges associated with cyber risk analysis and prioritization; risk mitigation and management; government-private cybersecurity partnerships and information-sharing; attack alert and response; and addressing future cyber risks. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EMBA 733: *Advanced Topics in Critical Infrastructure Protection.* 1-3 credits.
Course provides an advanced focus on critical infrastructure security and resilience policy, strategy, planning, and incident management operations in an all-hazards context. In terms of the audience, this course assumes a base level of student knowledge and practical experience in the critical infrastructure security and resilience field. Offered by School of Business. May not be repeated for credit.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EMBA 734: *Critical Infrastructure Protection Residency.* 3 credits.
This course takes the concepts from previous Critical Infrastructure Protection track courses and provides an opportunity to see these concepts in a "field environment." The course will engage with decision makers to learn how they operate profit generating firms in the critical infrastructure sectors while addressing considerations of security and resilience. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in EMBA - Distance Learning or Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EMBA 735: *Systems Thinking and Dynamics.* 1-3 credits.
Enables students to develop, express, improve, and validate holistic mental models of problems. In doing so, they will build a foundation for better decision making leading to improved business performance. The main strength of the systems-thinking approach is its emphasis on long-term strategic outcomes as opposed to short-term tactical ones. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EMBA 740: *Global Issues for National Security Firms.* 3 credits.
The seminar topics would incorporate student and industry partner feedback and consultation by the Program Director and Academic Director with the GPC and Area Chairs. Possible topics include: European Union, Global Social Entrepreneurship, Emerging Markets and Product

Development. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in EMBA - Distance Learning or Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Special scale.

EMBA 741: *The Business of National Security.* 3 credits.
The seminar topics would incorporate student and industry partner feedback and consultation by the Program Director and Academic Director with the GPC and Area Chairs. Possible topics include: National Defense Commercial Strategy, Competing Internationally in National Defense Sector, Small Business and National Defense. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in EMBA - Distance Learning or Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Special scale.

EMBA 742: *Advanced Topics in Global Business.* 1.5 credit.
The course discusses current issues in globalization and the ramifications of globalization on business strategy; comparatively reviews emerging markets and development in Asia, Africa, and Latin America and in financial services, healthcare, and eGovernment; considers the role of ICT and mobiles in international development; and reviews the role and development of institutions and significance for business in emerging markets. Offered by School of Business. May not be repeated for credit.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to students with a major in EMBA - Distance Learning or Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EMBA 743: *Growth Strategies for National Security Firms.* 3 credits.
Students will be provided an in-depth look at the strategy side of the National Security industry and will learn how security business position and re-position themselves in this changing market place. The process that firms go through to determine their overall strategy will be explored. Offered by School of Business. May not be repeated for credit.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to students with a major in EMBA - Distance Learning or Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EMBA 750: *Capstone Project: Part 1.* 1.5 credit.
Lab-based course provides action learning experience that integrates course content from throughout the EMBA program. Students work in teams to develop solutions to organizational challenges and opportunities. They select a project,evaluate the strategic issues for their assigned clients, design a solution, and present results to an executive panel. Depending on the nature of the issue and faculty requests, team presentations of results include one or more of the following sections: an analysis of the situation; recommendations including changes in goals and organizational design; a plan of action integrating marketing, human resource development, organizational design, finance, and operations; an implementation plan using theories of communication and change management, to include the business case and a business plan. Students are expected to draw upon coursework from multiple disciplines in completing this project. Offered twice in spring semester for a total of 3 credit hours. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EMBA 751: *Corporate Global Strategy.* 1.5-3 credits.
Examines issues in strategy for firms operating in multiple markets or businesses, including diversification, portfolio approaches to corporate strategy, mergers and acquisitions, corporate alliances and joint ventures, restructuring, and coordinating multibusiness corporations. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EMBA 754: *Capstone Project: Part 2.* 1.5 credit.
Students will work in teams to develop solutions to complex organizational challenges and opportunities. The Capstone project is divided into two parts with regard to course work. In Part II, students will evaluate the strategic issues for their client based upon interviews, outside primary and secondary research, and industry analysis. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in EMBA - Distance Learning or Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EMBA 755: *Special Topics in Management.* 1-6 credits.
In-depth examination of advanced topics in management. Offered by School of Business. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EMBA 790: *National Security Residency.* 3 credits.
Develops National Security perspective through seminars led by professors and high-level managers; briefings by officials of government and other policy-making organizations. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale.

EMBA 795: *Global Residency.* 0-3 credits.
Develops global perspective through seminars led by professors and high-level managers; briefings by officials of government and other policy-making organizations; and site visits to production and distribution facilities, research centers, IT units, and other corporate offices. Offered by School of Business. May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

Exercise, Fitness, and Health Promotion (EFHP)

500 Level Courses

EFHP 500: *Workshop in Exercise, Fitness, and Health Promotion.* 1-3 credits.
Provides concentrated full-time workshops, weekend seminars, and workshops on selected topics in exercise, fitness, and health promotion. Notes: No more than 6 credits may be applied for degree credit. Offered by School of Kinesiology. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 520: *Medical Terminology of Health Professionals.* 3 credits.
Analyzes foundation of scientific and medical vocabulary including prefixes, suffices and stems used to form compound words for health professionals. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 522: *Functional Anatomy for Health and Wellness Practitioners.* 3 credits.
Promotes familiarity and proficiency with anatomy of neuromuscular and musculoskeletal systems, which relate directly to sports related injuries. Offered by School of Kinesiology. May not be repeated for credit.

Recommended Prerequisite: BIOL 124, 125 (or equivalent)

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 526: *Prevention, Recognition, and Management of Fitness Related Injuries.* 3 credits.
Promotes familiarity and proficiency with assessment and physical examination of sports-related injuries. Offered by School of Kinesiology. May not be repeated for credit.

Recommended Prerequisite: BIOL 124, 125 (or equivalent).

Recommended Corequisite: EFHP 522.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 598: *Special Topics.* 1-6 credits.
Focuses on projects related to exercise, fitness, or health promotion. Offered by School of Kinesiology. May be repeated within the term.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 599: *Independent Study EFHP.* 1-3 credits.
Studies problem areas in exercise, fitness, and health promotion research, theory, or practice under direction of faculty member. May be repeated. No more than 3 credits may be earned. Offered by School of Kinesiology. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

EFHP 605: *History of American Sport, Exercise, and Physical Culture.* 3 credits.
Role of sport and physical education in Europe and its impact on developments in America. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 610: *Advanced Exercise Physiology.* 3 credits.
Lecture, demonstration, and seminar experiences in applying research findings to understanding physiological function and effects of exercise on people. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 611: *Movement and Fitness Assessment.* 3 credits.
Covers common movement and fitness assessments that can be used to develop an individualized exercise program for various populations. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 612: *Scientific Foundation of Applied Kinesiology.* 3 credits.
An integrated study of human anatomy, physiology, chemistry, and microbiology, presenting a complete picture of how the body functions and the diseases and disorders that cause the body to malfunction. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 613: *Advanced Applied Biomechanics.* 3 credits.
Examines kinetic and kinematic concepts and how they apply to the qualitative and quantitative assessment of human movement. Discusses advanced applied motion analysis techniques. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 614: *Advanced Exercise Nutrition.* 3 credits.
Advanced study of nutrition's relation to physical activity, exercise, and sports. Reviews biochemical, physiological, and behavioral aspects of nutrition in promoting health, fitness, and sports performance. Focuses on nutrient needs during life cycle stages. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 615: *Epidemiology and Environmental Health.* 3 credits.
Principles, methods, and application of epidemiology. Reviews behavioral, psychological, social, and environmental risks to disease distribution. Focuses on lifestyle, exercise patterns, and environmental factors to health and disease conditions. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 616: *Motor Behavior and Development.* 3 credits.
Human motor behavior development and theory with application to evaluation of skill acquisition. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 617: *Corrective and Preventative Exercise Techniques.* 3 credits.
Explores content related to evidence-based exercise interventions to correct and prevent common movement dysfunctions and/or injuries in a variety of healthy populations. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Graduate Certificate degree.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

EFHP 618: *Exercise and Sport Psychology.* 3 credits.
Covers psychological and social-psychological antecedents and consequences of exercise, physical activity, and sports participation. Emphasizes theory and research on personality, motivation, arousal, cognition, attributions, attitudes, self-efficacy, leadership effectiveness, and group dynamics. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 620: *Research Methods for Applied Kinesiology.* 3 credits.
Introduction to the techniques of research generally employed in the fields of exercise science and health. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 621: *Statistical Methods for Applied Kinesiology.* 3 credits.
Introduction to practical and applied aspects of both descriptive and applied aspects of both descriptive and inferential statistics in exercise science and health. Offered by School of Kinesiology. May not be repeated for credit.

Recommended Prerequisite: MATH 102, STAT 250.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 630: *Exercise, Health, and Fitness Program Development.* 3 credits.
Covers exercise and health program development related to fitness and health of adult populations. Notes: Provides 3 to 6 hours of field experience. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 640: *Principles of Strength and Conditioning.* 3 credits.
Analyzes exercise techniques, training program designs, organization and administration, and testing and evaluation using scientific principles of strength and conditioning. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 650: *Scientific Principles of Motor Learning.* 3 credits.
Biomechanical analysis and application of scientific principles of movement to instructing sport skills in physical education and sport programs. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 660: *Management of Exercise, Fitness, and Health Promotion Organizations.* 3 credits.
Advanced study in management and administration of organizations dedicated to human development and improvement of quality of life. Covers application of theories and practices of management and behavioral sciences, fiscal management, marketing, and evaluation

research. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 680: *Ethical Issues in Exercise, Fitness, and Health Promotion.* 3 credits.
Covers formulation of coherent framework for ascertaining good, right, and just; and for assessing evidence and reason underlying positions and arguments. Examines ethical issues in exercise, fitness, and health promotion. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 690: *Scientific Communications Seminar.* 1-3 credits.
Studies and applies written and verbal communication skills in reading, analyzing, writing, and distributing scientific information in Applied Kinesiology. Offered by School of Kinesiology. May be repeated within the degree for a maximum 4 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

EFHP 730: *Motor Learning.* 3 credits.
Appraisal of motor learning theories and an analysis of motor skill development including the roles of information processing, practice, feedback, and motivation. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 794: *Tactical Athlete Field Practicum.* 3 credits.
Emphasizes developing professional skills, applying knowledge to provide exercise interventions to clients at the practicum site and delivering educational content in Tactical Athlete settings. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students in a Graduate Certificate degree.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

EFHP 798: *Project.* 1-3 credits.
Addresses an applied exercise, fitness, and health promotion issue under supervision of graduate faculty member. Offered by School of Kinesiology. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

EFHP 799: *Thesis.* 1-6 credits.
Explores exercise, fitness, and health promotion problem using appropriate research methodology and under supervision of graduate faculty member. Offered by School of Kinesiology. May be repeated within the degree.

Recommended Prerequisite: Completion of all coursework.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

EFHP 810: *Neuromuscular Responses to Exercise.* 3 credits.
Provides an in-depth study of the muscular systems of the human body and how these systems are altered in response to acute and chronic physical activity. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 811: *Motor Learning and Control.* 3 credits.
Examines motor learning theories and analyzes motor skill development including the roles of information processing, practice, feedback, and motivation. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 813: *Musculoskeletal Biomechanics in Human Movement.* 3 credits.
Advanced study of the biomechanical analysis of the musculoskeletal system, including collecting, interpreting, and modeling biomechanical data. Offered by School of Kinesiology. May not be repeated for credit.

Recommended Prerequisite: Graduate Standing or Permission of Instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 815: *Measurement Techniques and Instrumentation.* 3 credits.
Explores the application and implementation of conventional measurement techniques and instrumentation to collect data in Exercise, Fitness, and Health Promotion. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 820: *Careers in the Academy Seminar.* 3 credits.
Examines careers in the academy in a seminar format including faculty role, institutional fit, and the higher education academic job search (including developing cover letters and job portfolio outlines); introduces teaching, research, and service expectations at higher education institutions to help prepare for future academic careers. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

EFHP 825: *Data Analytics in Exercise, Fitness, and Health Promotion.* 3 credits.
Examines data processing, analysis and interpretation using software applications common in Exercise, Fitness and Health Promotion. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EFHP 840: *Doctoral Seminar in Exercise, Fitness, and Health Promotion.* 3 credits.
Examines problem areas in Exercise, Fitness, and Health Promotion research, theory, or practice using a combination of self-directed, guided learning, and critical peer reviews in a seminar format. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

EFHP 860: *Critical Perspectives in Exercise, Fitness, and Health Promotion.* 3 credits.
Critically examines current topics in Exercise, Fitness and Health Promotion, and Applied Kinesiology. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

EFHP 880: *Grant Writing.* 3 credits.
Provides an overview of grants and contracts; examines federal and non-federal proposal development guidelines; emphasizes National Institutes of Health (NIH) research grant mechanisms as a 'gold standard'. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

Film and Video Studies (FAVS)

100 Level Courses

FAVS 110: *Reading and Making Media.* 3 credits.
This course provides the foundations for students to become critical, anti-racist consumers and savvy, ethical producers of digital, visual, and audio media. Students will learn to identify and analyze formal elements of films, television, commercials, and user-generated content (such as YouTube videos and gifs). At the same time, students will develop technical aspects of media production, including videography, sound recording, and video/sound editing. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

FAVS 204: *Ways of Seeing: Perception, Form and Film.* 3 credits.
Explore how the way we see determines the images we make. The course traces connections between 17th century oil painting and 21st century post-modern film, and examines the effects of filmic sound, video diaries, and diasporic filmmaking. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Mason Core: Arts

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 225: *Introduction to World Cinema.* 3 credits.
This course explores the development of world cinema from its beginnings in the late nineteenth century to the 1990s. The course will enable students to comprehend the evolution of the history and language of cinema in order to connect the art of filmmaking with the "outside forces" (i.e., the economic institutions, key figures, historical events and social issues) that profoundly shape and influence it. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Mason Core: Arts

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 250: *Business of Film and Television.* 3 credits.
This course provides an overview of the film & television industry from a business perspective. Students learn basic filmed entertainment business practices and protocol, including film financing, copyright & trademark, anti-trust, trademark, IP licensing, Agents & Managers, Entertainment Unions & Guilds, film distribution, and marketing techniques. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 255: *Video Production for Film.* 3 credits.
This course is a hands-on methods course in video production for film. Through practice, reading, film viewing and discussions, you will be introduced to the art and activity of digital filmmaking across film genres. Students must complete reading, writing, and production assignments that justify and plan for their creative choices. Handouts describing projects, expectations and evaluative criteria will be provided. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Animation or Film and Video Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 260: *Video Editing for Film.* 3 credits.
This course will instruct on the theories and technical expertise pertaining to video editing by utilizing various video editing software. The course will combine lectures, discussions, and demonstrations with hands on projects. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Recommended Prerequisite: FAVS 255 or COMM 208

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 280: *Writing for the Moving Image.* 3 credits.
This course is an introduction to writing for the moving image through lecture, discussion, and critiques of exercises and written works. By the end of the semester, each student will have produced a variety of analyses and/or blueprints for creative moving image projects including short fiction, commercial advertisement, scripted television, collaborative fiction, short non-fiction reality programming. and other forms. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Mason Core: Arts

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

FAVS 300: *Global Horror Film.* 3 credits.
Taking an historical approach through various national and international cinemas, the course begins with horror film's literary and theatrical origins and traces its development into a modern (and postmodern) form of universal storytelling. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 304: *Ways of Thinking: Film, TV, and Beyond.* 3 credits.
We analyze formal elements of fiction films/videos, documentaries, and TV, and develop analytical writing skills, with an emphasis on

collaboration. We consider the choices and processes of filmic storytelling, understanding film in multiple contexts, including production and distribution industries, political, cultural, and commercial systems. Offered by Coll Visual & Performing Arts. Limited to three attempts. Equivalent to ENGH 373.

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: ENGH 302 or HNRS 360 or HNRS 361

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 311: *Producing I.* 3 credits.
Provides students with the basics of film producing. Students gain creative, business, and legal skills needed to develop, produce and sell an independent, commercially viable motion picture film. Students engage with writing treatments, script breakdown, pitching, budgeting, creating shooting schedules, financing, hiring and managing cast and crew, and other areas in producing. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (FAVS 250[C] or 250[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 312: *Film Lab.* 3 credits.
A hands-on producing class where students take roles as producers, assistant directors, location managers, script supervisors, production and costume designers, casting assistants, etc. in the development, pre-production, and production of a scripted short film. The course moves from development through production in an apprentice style environment with a seasoned director. This gives students "real-world" experience in independent film production. Offered by Coll Visual & Performing Arts. May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Required Prerequisites: ((FAVS 311[C] or 311[XS]) and (FAVS 255[C] or 255[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 320: *Afrofuturism and Their Kin.* 3 credits.
This course is an introduction to the cinematic genre of Afrofuturism, or Black#Speculative#culture, also exploring the sub-genre lenses of Black horror and fantasy. Reading science fiction, horror, fantasy, and other imaginative narrative tropes, we'll consider how the myriad societal fears regarding race intersect with#violence. We'll engage philosophies around horror that analyze tensions between#conjurings#of 'monstrosities' and the ways#in which racial identity is constructed and consumed.##As these artists re-envision the#Black diasporic past, present, and future, they present alternative#visions of the futures of blackness. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 331: *Cinematography.* 3 credits.
This course aims to recreate a professional camera department environment. By the end of the course, students should be able to understand and perform the function of first assistant cameraperson or second assistant cameraperson on a camera crew. Students will understand the history, function, art, craft, and science of cinematography. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (FAVS 204[C] or 204[XS]) and (FAVS 255[C] or 255[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 333: *Sound Editing and Recording.* 3 credits.
This course instructs students on the theories, techniques and technologies pertaining to recording audio in the field and studio and to audio editing and mixing for film and video. The course will be lecture based with practical lab and field exercises applying concepts and equipment presented during the lecture. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Recommended Prerequisite: FAVS 204 and FAVS 255 or permission of instructor

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Film and Video Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 352: *Ethics of Film and Video.* 3 credits.
An examination of ethical issues associated with image production and consumption. Topics include the technological development of the film apparatus, privacy, the pursuit of objectivity, excess, consent, and representing others. All issues highlight the increasingly sophisticated and powerful role of film and media authorship. Students will develop a more complex view of the ethics of screen representation (both fiction and nonfiction) and be encouraged to take stock of the ethics of their own media literacy. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Mason Core: Synthesis

Recommended Prerequisite: Completion or concurrent enrollment in all other required Mason Core courses and completion of 21 credits within the Film program.

Registration Restrictions:
Required Prerequisites: ((ENGH 302[C], 302[XS], HNRS 360[C], 360[XS], 361[C] or 361[XS]) and (FAVS 250[C] or 250[XS]) and (FAVS 255[C] or 255[XS]) and (FAVS 280[C] or 280[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 356: *Film Marketing.* 3 credits.
Provides students with a variety of film and television marketing business strategies and creative skills, including publicity, press kits, advertising, trailers, poster design, film credits, box art, branding, licensing & merchandising, and distribution. As aspiring media entrepreneurs, students learn to professionally manage their careers whether in low-budget independent film or Hollywood blockbuster tracks via self-promotion & publicity. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (FAVS 250[C] or 250[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 365: *Documentary Filmmaking.* 3 credits.
An introduction to documentary filmmaking in which each student makes a short digital documentary, from concept development to finished piece. The class covers essential technical skills, emerging styles of nonfiction film, and documentary storytelling techniques. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (FAVS 250[C] or 250[XS]) and (FAVS 280[C] or 280[XS]) and (FAVS 255[C] or 255[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 366: *Video Production for Social Change.* 3 credits.
This course reflects a professional production environment where student teams, under the instructor's supervision, produce effective pieces for local community based non-profit organizations. Students will learn the business of working with a real-world nonprofit client and storytelling skills that advance the client mission. Beginning with the discovery process, students will engage the client in assessing their needs and goals for producing a video. They will develop a creative concept/strategy, a budget, and a statement of work/contract. Small teams will then produce their client project as they learn the storytelling strategies that engage by connecting with an audience. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Recommended Prerequisite: FAVS 280, FAVS 331, and FAVS 333

Registration Restrictions:
Required Prerequisites: FAVS 255[C] or 255[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 375: *Fiction Film Directing.* 3 credits.
This course examines techniques for directing fiction films. Students study the directorial approaches of a variety of directors by viewing and critiquing classic films. Students learn about the director's role in each stage of film production. Students shoot, direct and edit fictional scenes and sequences intended to develop and convey the beginnings of the authorial signatures. Notes: Intended for Film and Video Studies majors only. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: ((FAVS 250[C] or 250[XS]) and (FAVS 280[C] or 280[XS]) and (FAVS 255[C] or 255[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 377: *Interactive Storytelling for Social Change.* 3 credits.
Students study the craft of interactive and transmedia storytelling while producing media projects for impact and action. Transmedia is a way of telling stories across media platforms, for both fiction and non-fiction. This allows creators to engage television and film audiences for greater impact. Students will study interactivity as a readily used marketing tool in the film and television industry. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (FAVS 255[C] or 255[XS]) and (FAVS 280[C] or 280[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 378: *Web Series.* 3 credits.
A production course that explores the creative and logistical process of creating a fiction series for the web. Production techniques for web series will be explored, including permissions, contracts, and budgets for web development. The course will consider and study successful web series and explore contemporary discussions and professional organizations centered on web series. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Registration Restrictions:

Required Prerequisites: ((FAVS 250[C] or 250[XS]) and (FAVS 280[C] or 280[XS]) and (FAVS 255[C] or 255[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 380: *TV Writing.* 3 credits.
Students learn about the profession of writing scripted television. Examines the principles and processes of development for television drama and other genres and programming categories. Students become acquainted with the expectations and responsibilities of staff and freelance writing. Develops skills in writing for the small screen(s) by practicing established techniques and identifying contemporary trends. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: FAVS 280[C] or 280[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 399: *Special Topics in Film and Video Studies.* 1-3 credits.
In-depth presentation and exploration of topical studies. Notes: Subject matter varies. May be repeated when taken under different topics. Offered by Coll Visual & Performing Arts. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

FAVS 400: *Career Development Seminar.* 3 credits.
This course prepares students for a career in the film and video industry beyond the university. Students complete a professionally reviewed resume, cover letter, and experience a formalized interview. Students prepare a written grant proposal and pitch a film project with professional advisors. This class fosters development of a professional online presence and strengthens students' communication techniques in public speaking. Offered by Coll Visual & Performing Arts. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: FAVS 352[C], 352[XS], ENGH 302[C], 302[XS], HNRS 360[C], 360[XS], 361[C] or 361[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 431: *Advanced Cinematography.* 3 credits.
Builds on the foundation of FAVS 331 and explores advanced techniques in lighting and in post-production (color correction). Where cinematography focuses on cinematography from the perspective of film (celluloid), Advanced Cinematography explores digital cinematography, its advantages and limitations. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: FAVS 331[C] or 331[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 433: *Advanced Sound.* 3 credits.
Students will learn about advanced fundamental theory, tools, and techniques needed to create and/or implement sound for film. We will utilize the industry standard software Pro Tools. Students will learn nonlinear sound editing, digital audio processing, frequency manipulation, synthesized sound techniques and mixing. We will focus on the power of sound and the contributions it can make not only in enhancing the visuals of a film but in contributing to telling the story within itself. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: FAVS 333[C] or 333[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Audio Production or Film and Video Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 450: *Internship in Film and Video Studies.* 3 credits.
On-the-job training in film and video studies through approved fieldwork study programs. Internships are arranged and supervised by the FAVS director. Notes: Required for all FAVS majors. Offered by Coll Visual & Performing Arts. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 75 credits, 15 credits in core/elective FAVS courses, and permission of the Internship Coordinator.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 455: *Studio and Field Productions Practicum.* 3 credits.
Practical knowledge in studio and field productions. Students complete a minimum 150 hours of work as assistants to engineers, producers,

directors, and organizers of video production facilities on campus. Offered by Coll Visual & Performing Arts. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: COMM 355 and permission of instructor.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 460: *Advanced Video Editing.* 3 credits.
This course will instruct students on the theories, techniques and technologies pertaining to video editing for fiction and documentary films, as well as commercials. The course will combine lectures, discussions, and demonstrations with hands on projects. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: FAVS 260[C] or 260[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 475: *Advanced Fiction Directing.* 3 credits.
Focuses on casting and directing actors, working with production designers, assistant directors, and visual and aural storytelling on an individually directed project. Teaches students how to direct the shooting, production and editing of a fiction film or webisode which further develops their authorial signature. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (FAVS 375[C], L375[C] or 375[XS]) and (FAVS 260[C], 260[XS], 460[XS] or 460[C]) and (FAVS 280[C] or 280[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 483: *Feature-Length Scriptwriting.* 3 credits.
This course is an introduction to the development and analysis of feature length screenplays. The approach combines lecture, discussion, screening and presentation of student work. By the end of the semester, each student should have a complete first draft of an original screenplay. Students will also complete story reports and coverage reports of screenplays by other writers. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: FAVS 380[C] or 380[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 490: *Independent Study.* 1-6 credits.
Independent research on specific project under direction of selected faculty member. Offered by Coll Visual & Performing Arts. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 496: *Advanced Visual Storytelling.* 3 credits.
A culminating capstone seminar devoted to analyzing and synthesizing knowledge and skills gained through undergraduate course work in the screenwriting concentration, resulting in substantial individualized writing projects. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Mason Core: Capstone

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: FAVS 204, FAVS 250, FAVS 255, and FAVS 280.

Registration Restrictions:
Required Prerequisites: FAVS 483[C] or 483[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 497: *Senior Film Practicum.* 3 credits.
A senior capstone course for students in the Production/Post-Production and Producing concentration. Students put their areas of focus (cinematography, editing, sound design, producing, etc.) into practice. Students play a key role in film projects directed by other students throughout the semester. This course includes a written/research component. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Mason Core: Capstone

Recommended Prerequisite: FAVS 255 and FAVS 280

Registration Restrictions:
Required Prerequisites: FAVS 460[C], 460[XS], 431[C], 431[XS], 433[C], 433[XS], 311[C] or 311[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 498: *Development for Senior Project.* 3 credits.
An introduction to the Directing and Producing capstone sequence. In this course, directors and producers engage with the creative process of researching and developing material in film and video for their senior projects. A senior project in Directing and Producing is constituted by a short fiction or documentary film, webseries episode(s) or parallel film project with a running time of 15 minutes or less. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: ((FAVS 250[C] or 250[XS]) and (FAVS 255[C] or 255[XS]) and (FAVS 280[C] or 280[XS]) and (FAVS 260[C], 260[XS], 460[C] or 460[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FAVS 499: *Senior Project.* 3 credits.
Culminating capstone course in producing and directing that results in the completion of a senior project and related written and visual promotional materials. A senior project in Directing and Producing is constituted by a short fiction or documentary film, webseries episode(s) or parallel film project with a running time of 15 minutes or less. Offered by Coll Visual & Performing Arts. Limited to three attempts.

Mason Core: Capstone

Registration Restrictions:
Required Prerequisites: FAVS 498[C] or 498[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

FAVS 535: *Sound and Lighting.* 3 credits.
This course will instruct students on the theories, techniques, and technologies pertaining to recording audio and lighting scenes in both field and studio video productions. The course will be lecture based with practical lab styled exercises reinforcing topics presented during lecture. Offered by Coll Visual & Performing Arts. May not be repeated for credit.

Recommended Prerequisite: Admission to the MAIS in Film and Video Studies or permission of instructor.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FAVS 550: *Internship.* 3 credits.
On-the-job training in film and video studies through approved fieldwork study programs. Internships are arranged and supervised by the FAVS director. Offered by Coll Visual & Performing Arts. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

FAVS 565: *Documentary Filmmaking.* 3 credits.
A documentary filmmaking workshop in which each student makes a short digital documentary, from concept development to finished piece. The class covers essential technical skills, emerging styles of nonfiction film, and documentary storytelling techniques. Offered by Coll Visual & Performing Arts. May not be repeated for credit.

Recommended Prerequisite: Admission to the MAIS in Film and Video Studies or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FAVS 570: *Screenwriting.* 3 credits.
Screenwriting course emphasizing student development in screenplay form, structure, and storytelling with emphasis on craft, character, and story culminating in a screenplay. Offered by Coll Visual & Performing Arts. May not be repeated for credit.

Recommended Prerequisite: Undergraduate degree or equivalent, or permission of instructor.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FAVS 575: *Fiction Film Directing.* 3 credits.
This course examines techniques for directing fiction films. Students study the directorial approaches of a variety of directors by viewing and critiquing classic films. Students learn about the director's role in each stage of film production. Students shoot, direct and edit fictional scenes and sequences intended to develop and convey the beginnings of the authorial signatures. Offered by Coll Visual & Performing Arts. May not be repeated for credit.

Recommended Prerequisite: Admission to the MAIS in Film and Video Studies or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FAVS 590: *Independent Study.* 1-6 credits.
Independent research on specific project under direction of selected faculty member. Offered by Coll Visual & Performing Arts. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Undergraduate degree or equivalent or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

FAVS 597: *Independent Production.* 1-3 credits.
Media or creative production activities under direction of faculty member. Requires completed production; written report, oral exam may be required. Offered by Coll Visual & Performing Arts. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

FAVS 599: *Special Topics.* 1-6 credits.
In-depth presentation and exploration of topical studies. Notes: Subject matter varies. May be repeated when taken under different topics. Offered by Coll Visual & Performing Arts. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Undergraduate degree or equivalent, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

Finance (FNAN)

300 Level Courses

FNAN 300: *Personal Finance.* 3 credits.
Emphasis is on understanding the importance of developing financial goals and how financial decisions affect those goals throughout their lifetime. In addition, students will develop their own financial goals along with a financial plan that would enable them to meet those goals. This course may be taken for regular grading or S/NC. Students must notify instructor which option they want. FNAN 300 may be taken for general elective credit by School of Business students. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Special scale.

FNAN 303: *Financial Management.* 3 credits.
Introduction to the fundamental concepts, principles, and analytical tools in finance. Topics covered include time value of money, security valuation, capital budgeting, risk and return analysis, and cost of capital. Notes: School of Business students will not be permitted to make more than three attempts to achieve a C or higher in FNAN 303. The third attempt requires School of Business academic advisor approval. Those who

do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information see the Termination from the Major section under Academic Policies. The final exam for FNAN 303 may be scheduled to take place for all sections at the same time during the final exam period. Accommodations will be made for exam and religious conflicts and for certain official university-sponsored activities. Offered by School of Business. Limited to two attempts.

Recommended Prerequisite: BUS 103 and BUS 200.

Registration Restrictions:
Required Prerequisites: (ACCT 203[C], 203[XS], 204[C], 204[XS], U203 or U204) and (BUS 210[C], 210[XS] or U210) and (MATH 108[C], 108[XS], 113[C], 113[XS], 114[C], 114[XS], HNRT 225[C], 225[XS], MATH U108, U113, U114 or HNRT U225).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 311: *Principles of Investment.* 3 credits.
Introduces analysis of the valuation of equity and debt securities given modern capital market theory. Includes discussion of portfolio analysis as related to valuation of securities. Notes: Lecture, discussion, and computer-assisted research. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (FNAN 301[B-] or L301) or (FNAN 303[B-] or L303).
[B-] Requires minimum grade of B-.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 321: *Financial Institutions.* 3 credits.
Discusses basic objectives of financial institutions in light of industry structure and regulatory environment, and decision variables that management should concentrate on to achieve objectives. Includes role of financial institutions in allocation of funds in financial markets. Notes: Lecture, discussion, and computer-assisted research. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (FNAN 301[B-] or L301) or (FNAN 303[B-] or L303).
[B-] Requires minimum grade of B-.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 341: *Introduction to Firm Valuation.* 3 credits.
Examines techniques for analyzing, understanding, and applying financial information in decision situations. Topics include financial statement analysis, development of financial models, and financial planning and forecasting. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (FNAN 301[B-] or L301) or (FNAN 303[B-] or L303).
[B-] Requires minimum grade of B-.

Non-Degree level students may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 351: *Principles of Real Estate.* 3 credits.
Studies dimensions and specialties involved in public control and private development, sale, finance, and management of real estate. Includes land planning, land-use control, appraisal, finance, brokerage, property management, and investment. Notes: Lecture, discussion, and computer-assisted research. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (FNAN 301[C] or L301) or FNAN 303[C], 303[XS] or L303.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 390: *Introduction to Financial Planning and Wealth Management.* 3 credits.
This course provides an introduction to the financial planning process for students interested in a career in financial planning and wealth management. Course topics include education, insurance, and retirement planning. The course also will cover professional responsibilities and regulations governing the financial services industry. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:

Required Prerequisites: (FNAN 303[B-] or L303) and ((ACCT 303[C], 303[XS] or L303) or (ACCT 330[C], 330[XS] or L330)).
[B-] Requires minimum grade of B-.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

FNAN 401: *Advanced Financial Management.* 3 credits.
Analyzes decision-making in firm, emphasizing conceptual structure of problems and using advanced analytic techniques. Topics include current asset management, capital budgeting and structure, dividend policy, long-term financing, mergers, and corporate planning models. Notes: Lecture, discussion, and case analysis. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (FNAN 301[B-] or L301) or (FNAN 303[B-] or L303).
[B-] Requires minimum grade of B-.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 411: *Investment Analysis and Portfolio Management.* 3 credits.
Analyzes modern techniques of portfolio management including evaluating standards for selecting individual securities to include or delete from portfolios. Presents risk-return analysis for portfolios and portfolio performance measures. Lecture, discussion, computer assisted research. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (FNAN 311[C], 311[XS] or L311).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take BUSA crses, Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 412: *Futures and Options Markets.* 3 credits.
Introduces options, commodity, and financial futures markets as they function to provide pricing mechanisms and alternative investment vehicles. Lecture, discussion, and computer-assisted research. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (FNAN 311[C], 311[XS] or L311).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 421: *Money and Capital Markets.* 3 credits.
Discussion of how financial markets are organized, their role in the allocation of funds to various market segments, and interaction between markets. Topics include aggregate flow of funds analysis; and money, government, corporate, and mortgage markets. Lecture, discussion, and computer assisted research. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (FNAN 321[C], 321[XS] or L321).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 430: *Empirical Methods in Finance.* 3 credits.
Examines statistical and econometric techniques used in analyzing financial data and developing financial models. Combines development of understanding of fundamental concepts with applications. Includes extensive use of standard software. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Recommended Prerequisite: BS degree status.

Registration Restrictions:
Required Prerequisites: (FNAN 311[C], 311[XS], 321[C] or 321[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the Ineligible to take BUSA crses, Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 431: *Venture Capital and Private Financing of Startups.* 3 credits.
This course focuses on how venture capitalists arrange the financing for a company; what they look for in a business plan; how they value a business; and how they structure the terms of an agreement. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: FNAN 301[B-] or 303[B-].
[B-] Requires minimum grade of B-.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 432: *Fixed-Income Securities.* 3 credits.
Focuses on analysis of fixed-income securities, including corporate and government bonds, mortgage-backed securities, and derivatives. Major topics include institutional features of fixed-income securities markets, valuation, analysis of risks, and portfolio management decisions. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Recommended Prerequisite: BS degree status.

Registration Restrictions:
Required Prerequisites: (FNAN 311[C] or 311[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 436: *Probability Methods for Finance.* 3 credits.
This course focuses on the development and use of probability models for analyzing risks and financial decisions. Emphasis is on Monte Carto simulation modeling, linear programming, and decision analysis of complex problems in corporate finance and in investment analysis. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (FNAN 301[C], L301[C], 303[C], 303[XS] or L303[C]) and (OM 210[C], BUS 210[C] or 210[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the Ineligible to take BUSA crses, Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 440: *International Financial Management.* 3 credits.
Introduces management of contemporary firm's international financial operations. Topics include foreign exchange risk, political risk, returns and risks of international projects, international money and capital markets, financial accounting, capital structure, and cost of capital. Lecture, discussion, readings, and problems. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: FNAN 301[B-] or 303[B-].
[B-] Requires minimum grade of B-.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 441: *Advanced Topics in Firm Valuation.* 3 credits.
Course will focus on complex valuation techniques and build on the knowledge and skills developed in FNAN 341. Course will cover: research and value companies of different sizes, value private equity, mezzanine financing, develop advance discounted cash flow models, and other relevant topics. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: FNAN 341[C], 341[XS] or 302[C].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 444: *Sustainable and ESG Investments.* 3 credits.
The course is an introductory resource for students who aim to be investment advisors, financial planners or other financial professionals who want to learn the basics of sustainable, responsible and impact investment. The course covers the implementation of environmental, social, and governance (ESG) data into security analysis, discusses the latest trends and research, and explains how to communicate your

expertise in sustainable and impact investment. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisite: FNAN 303[B-].
[B-] Requires minimum grade of B-.

Students with a class of Freshman or Sophomore may **not** enroll.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Students with the Ineligible to take BUSA crses, Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 451: *Real Estate Finance.* 3 credits.
Studies mechanisms of real estate finance, sources of funds, loan contracts, principles of mortgage risk analysis, and secondary mortgage markets. Develops analytical skills including using microcomputer and appropriate software. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (FNAN 351[C], 351[XS] or L351).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 454: *Real Estate Development.* 3 credits.
Examines commercial real estate development process and principles plus actual residential, office, retail, and industrial projects. Includes financial analytical techniques to investigate project feasibility, density, financing viability, cash flows, and valuation. Emphasis placed on real-world, entrepreneurial, decision-making skills for developing commercial real estate. Lecture, discussion, project analysis. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (FNAN 351[C], 351[XS] or L351).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 462: *Honors Seminar in Finance.* 3 credits.
Provides an in-depth study and analysis of contemporary developments and topics of interest in finance. Topics and format will vary. Enrollment is limited and competitive. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major in Finance.

Non-Degree or Washington Consortium level students may **not** enroll.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 472: *Fintech and Blockchain in Finance.* 3 credits.
As the underlying technology that enables decentralized peer-to-peer currencies such as Bitcoin, blockchain has been touted as a revolutionary innovation to fundamentally change many aspects of business. How does blockchain actually work? How could it be applied to different business scenarios? Is blockchain truly the "next big thing" or just another hyped up buzz word? In this course, we'll conduct an objective investigation into the current status of blockchain development, and have an open dialog around its future promises. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: FNAN 301[B-] or 303[B-].
[B-] Requires minimum grade of B-.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 477: *Student Managed Investment Fund.* 3 credits.
Provide each student with real world and hands-on experience in security analysis and portfolio construction through the management of the GMU Student Managed Investment Fund. Participants will collectively make investment decisions of the fund, the overall portfolio composition, and will employ various financial models used to assess sector, industry and individual security strength/weakness in their decision-making. Students will be required to perform the necessary quantitative and qualitative work, Bloomberg analysis, and present their research to all other fund members/faculty each semester. Security selection will be based on a diversified equity portfolio approach seeking to enhance risk-adjusted returns versus commonly used market benchmarks. Faculty and professional mentors will train students in the application of fundamental analysis and security selection through several lecture/workshop sessions. Increased interaction with the DC area investment community. Offered by School of Business. Limited to two attempts.

Specialized Designation: Entrepreneurship, Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: FNAN 311[B-] or 341[B-].

B- Requires minimum grade of B-.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 483: *Ethical and Professional Standards in Finance.* 3 credits.
This course is a complete study of the Code of Ethics and Standards of Professional Conduct. The material focuses on all ethical issues that may arise in the financial industry and will include: duties to clients, integrity of capital markets, professionalism with clients, duties to employers, investment analysis, conflicts of interest, and duties as a CFA/CFP charter member. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisite: FNAN 303B-.
B- Requires minimum grade of B-.

Students with a class of Freshman or Sophomore may **not** enroll.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Students with the Ineligible to take BUSA crses, Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 488: *Applied Equity Research.* 1 credit.
Students develop and apply equity research skills in a companion class to the Chartered Financial Analyst (CFA) Institute Research Challenge, a competition between university-sponsored teams that assume the role of research analysts by researching a designated publicly traded company, preparing a written report on that selected company, and then presenting their findings to a panel of judges. Enrollment is limited and requires permission from the instructor. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Permission of the Instructor

Registration Restrictions:
Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 491: *Special Topics in Finance.* 3 credits.
Advanced study of special topics in finance. Offered by School of Business. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Required Prerequisites: (FNAN 301C or L301) or (FNAN 303C or 303XS).
C Requires minimum grade of C.

XS Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 492: *Internship in Finance.* 3 credits.
Opportunity to gain practical, professional experience in conjunction with academic development. An internship is an important part of academic and career preparation. May be used as elective credit, but may not be repeated. Notes: No more than 6 credits of School of Business internship coursework (BUS 492 or FNAN 492) can be applied towards a student's 120 (BU) degree applicable credits. Students must receive departmental approval in order to register for this course; please contact the School of Business Office of Career Services for internal eligibility requirements. Offered by School of Business. May be repeated within the degree for a maximum 6 credits. Equivalent to ACCT 492, BUS 492, MGMT 492, MIS 492, MKTG 492, OM 492, OSCM 492.

Recommended Prerequisite: 75 credit hours

Registration Restrictions:
Required Prerequisites: FNAN 301B- or 303B-.
B- Requires minimum grade of B-.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 493: *Financial Planning and Wealth Management Capstone.* 3 credits.
Financial planners need unique skills and knowledge to successfully serve clients. Students will learn the cognition and decision-making of clients and planners, the techniques to facilitate effective counsel, and the planners' professional responsibilities including those of the CFP(c) Board. Students will apply their knowledge through a collaboration with an employer or a financial planning clinic in which they will create a financial plan for an actual client. A third attempt will require academic advisor approval. Offered by School of Business. May be repeated within the degree for a maximum 6 credits. Equivalent to ACCT 493.

Specialized Designation: Writing Intensive in Major

Recommended Corequisite: FNAN 411

Registration Restrictions:
Required Prerequisites: (ACCT 390C, 390XS, FNAN 390XS or 390C) and ((FNAN 311C or 311XS) and (ACCT 351C or 351XS)).
C Requires minimum grade of C.
XS Requires minimum grade of XS.

Enrollment limited to students with a class of Senior Plus or Senior.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take BUSA crses, Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 498: *RS: Contemporary Topics in Finance.* 3 credits.
Course focuses on contemporary topics in finance and will be writing Intensive. Possible topics include: financial institutions, asset pricing, valuation and capital markets, 2008 crisis and the Federal Reserve/ Treasury's intervention, emerging economies and exchange rate conversion, stability of the European Union and its currency. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Specialized Designation: Research/Scholarship Intensive, Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: FNAN 341[C], 341[XS], 311[C], 311[XS], 321[C], 321[XS], 401[C] or 401[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FNAN 499: *Independent Study.* 1-3 credits.
May be repeated to a maximum of 6 credits if topics vary. Degree status. Research and analysis of selected problems or topics in finance. Notes: Must be arranged with instructor and approved in writing by associate dean for undergraduate programs before registration. Written report required. May be repeated if topics vary. Offered by School of Business. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Finance majors with at least 9 upper-level credit hours.

Registration Restrictions:
Students with a class of Freshman or Sophomore may **not** enroll.

Students with the Ineligible to take FNAN crses, Ineligible to take FPWM crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

Folklore Studies (FOLK)

500 Level Courses

FOLK 501: *Advanced Introduction to Folklore and Folklife.* 3 credits.
Graduate-level introduction to folklore studies. Covers core concepts in folklore such as text, tradition, performance, aesthetics, group, and identity. Surveys major folklore genres. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FOLK 510: *Folklore and Ethnographic Research Methods.* 3 credits.
Introduces ethnographic fieldwork in folklore. Topics include identifying subjects of study, developing research strategies, initiating fieldwork, establishing rapport, reflexivity, representation, technology, and library and archival research. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FOLK 550: *Topics in Public and Applied Folklore.* 3 credits.
Explores topics in public and applied folklore, such as cultural documentation, public programming, museums and material culture, festival management, and public humanities. Offered by English. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FOLK 560: *Topics in Genre and Theory.* 3 credits.
Explores topics related to folklore genres and theory such as folk narrative, folklore and the supernatural, performance theory, gender and sexuality, bodylore, and sense of place. Offered by English. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FOLK 570: *Topics in Regional Folklore Studies.* 3 credits.
Explores topics in regional folklore studies such as folklore in Latin America, Africa, the Middle East and Central Asia, China/East Asia, and regional cultures in the U.S. Offered by English. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

FOLK 601: *Folklore Theory and History.* 3 credits.
Overview of the history and theory of folklore studies. Covers theories and approaches central to the practice of folklore. Extends into contemporary approaches to folklore study and collection. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FOLK 690: *Field School for Cultural Documentation.* 3 credits.
In-depth training in ethnographic field research and fieldwork practicum. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FOLK 699: *Internship.* 1-3 credits.
Unpaid, approved work-study positions at specific sites arranged by interested students and their advisor. Under supervision of faculty advisor, student works as intern with site supervisor in agency of student's choosing, given advisor's permission. Offered by English. May be repeated within the term for a maximum 3 credits. Equivalent to ENGH 604.

Recommended Prerequisite: A course in folklore, which may be taken concurrently.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

FOLK 790: *Project.* 3 credits.
Students complete a capstone project guided by instructor and a faculty consultant based on work produced in a previous graduate courses. Class meetings focus on building skills in research, revision, and editing, discussing topics related to professionalization both in and out of academia, and revising work in a workshop environment. Offered by English. May not be repeated for credit.

Recommended Prerequisite: 21 credits in MA coursework including FOLK 501, permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

FOLK 799: *Thesis.* 3 credits.
Original research endeavor related to student's work in MA program. Offered by English. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

Foreign Language (FRLN)

300 Level Courses

FRLN 309: *Humanities College to Career.* 1 credit.
Focuses on career choices and effective self-presentation for soon-to-be graduating students with majors in the humanities. Explores how skills typically learned in humanities majors can be leveraged for a successful transition to post-graduation employment. Offered by Modern & Classical

Languages. Limited to three attempts. Equivalent to ENGH 303, HIST 385, PHIL 393, UNIV 420.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRLN 330: *Topics in World Literature.* 3 credits.
Major works of world literature with varying perspectives and topics, such as specific cultures, histories, myths, or music and the arts, as represented in literature. Notes: May be repeated when topic differs with permission of department. Offered by Modern & Classical Languages. May be repeated within the term for a maximum 9 credits.

Mason Core: Literature

Specialized Designation: Topic Varies

Recommended Prerequisite: ENGL 101/ENGH 101 and 45 credits or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRLN 331: *Contexts for Global Cinema.* 3 credits.
Major works of world cinema with varying perspectives and topics, such as specific genres, periods, schools. Notes: Coursework in English. May be repeated when topic is different with permission of department. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 9 credits.

Mason Core: Global Understanding

Specialized Designation: Topic Varies

Recommended Prerequisite: ENGH 101 or permission of instructor.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

FRLN 380: *Topics in the Sociopolitics of Language.* 3 credits.
Addresses relationship between language and other social and cultural systems (macro sociolinguistics), and critical study of people's ideas about language (language ideology). Utilizes comparative approach to explore ways people use language to perform and communicate various social identities and categories; how and why people attach social meanings and values to particular ways of using language; development of official and unofficial language policies; and impact of language policies. Notes: May be repeated when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: ENGL 101/ENGH 101 and 45 credits, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRLN 385: *Multilingualism, Identity, and Power.* 3 credits.
Study of individual and societal aspects of multilingualism including language choice, linguistic maintenance and shift, code-switching, language planning, educational policy, and representations of multilingualism. Interdisciplinary approach emphasizes the social and political aspects of multilingualism, as well as the relationship of language to cultural, ethnoracial, and national identities and categories. Offered by Modern & Classical Languages. Limited to three attempts.

Mason Core: Synthesis

Recommended Prerequisite: Completion or concurrent enrollment in all other required Mason Core courses.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

FRLN 430: *Topics in Comparative World Literatures.* 3 credits.
Explores comparative studies of a topic through literary works written in at least two different languages. All material provided in translation. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRLN 431: *Medieval Intellectual Topics.* 3 credits.
Focuses on topic in intellectual history of Middle Ages. Emphasizes literary or historical, depending on discipline of instructor. Relevant material may be drawn from philosophy, theology, and art. Notes: May be taken for credit by English or history majors. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to ENGH 421.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRLN 490: *Internship in Foreign Language Studies.* 1-6 credits.
Qualified students work with schools, social service programs, government agencies, interest groups, museums, or corporations locally or abroad. Specific arrangements must be made with, and approved by, a faculty member of the specific language program during semester prior to enrollment. For each credit, student works on site at least 45 hours. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

FRLN 510: *Bibliography and Research in Foreign Languages and Literature.* 3 credits.
Use of basic bibliographical tools and methodologies for scholarly research in French, German, and Spanish. Taught in cooperation with university library staff. Offered by Modern & Classical Languages. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRLN 525: *Literary Translation.* 3 credits.
Critical approach and analysis of diverse texts such as poetry, drama, essay, and novel excerpts. Offered by Modern & Classical Languages. May not be repeated for credit.

Recommended Prerequisite: Graduate standing or permission of department and advanced coursework in literary translation.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRLN 530: *Topics in Comparative World Literatures.* 3 credits.
Explores comparative studies of a topic through literary works and/or other cultural production (cinema, pop culture, etc.) from at least two different language traditions. All material provided in translation. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRLN 550: *Special Topics.* 3 credits.
Themes, periods, or genres vary from semester to semester. Focuses on topics that incorporate one or more languages taught in department, but instruction is in English. Notes: May be repeated with permission of department. Offered by Modern & Classical Languages. May be repeated within the term.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRLN 551: *Special Topics.* 3 credits.
Themes, periods, or genres vary from semester to semester. Focuses on topics that incorporate one or more languages taught in department, but instruction is in English. Notes: May be repeated with permission of department. Offered by Modern & Classical Languages. May be repeated within the degree.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRLN 565: *Theory of Translation.* 3 credits.
Lectures on nature, function of translating process. Evaluates theories of translation with respect to text typology. Critiques selected translations from target languages to English and vice versa. Offered by Modern & Classical Languages. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRLN 572: *Integrating Technology into Language Learning.* 3 credits.
Explores pedagogical and theoretical basis for integrating interactive technologies into language learning programs, and examines potential for learning, teaching, testing, and research. Includes hands-on analysis

and evaluation of materials. Notes: Prior experience with technology not required. Offered by Modern & Classical Languages. May not be repeated for credit.

Recommended Prerequisite: Graduate standing or permission of department, language teaching methods course, and language teaching experience.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRLN 573: *Basic Issues in Language Pedagogy.* 3 credits.
Explores major issues controversial in language pedagogy. Topics include communicative competence as pedagogical goal, role of explicit grammar teaching, proficiency movement, cultural authenticity, student-centered learning, and technology. Offered by Modern & Classical Languages. May not be repeated for credit.

Recommended Prerequisite: Graduate standing or permission of department, language teaching methods course, and language teaching experience.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRLN 575: *Heritage Language Education.* 3 credits.
Overview of the field of heritage language education, Including consideration of the linguistic and sociocultural characteristics of heritage language students, empirical research on heritage language education, and a range of instructional approaches, including critical pedagogy. Offered by Modern & Classical Languages. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRLN 590: *Internship and Seminar in Translation.* 3 credits.
Internships are nonpaying, work-study positions that focus on the practice of translation. Qualified students placed with area institutions, interest groups, agencies, or corporations. Notes: Placement depends on availability of positions. Offered by Modern & Classical Languages. May not be repeated for credit.

Recommended Corequisite: Internships are nonpaying, work-study positions that focus on the practice of translation. Qualified students are placed with area institutions, interest groups, agencies or corporations. Requires admission to the translation certification program. Please contact Dr. Cordero in the department. Individualized Section Form required.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

FRLN 600: *Workshop in Foreign Languages.* 1-6 credits.
In-service workshops, tours, and seminars on selected topics in literature, language, bilingualism, culture, methodology. Notes: May not be applied toward MA in foreign languages without permission of department. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRLN 620: *Literary Theory and Criticism.* 3 credits.
Studies nature of literary work, and analyzes contemporary critical approaches to literature. Notes: May not be taken for credit by students who previously received credit for FRLN 615. Offered by Modern & Classical Languages. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRLN 650: *The Teaching of Culture in Foreign Language Programs.* 3 credits.
Purpose and methods of study of culture, with emphasis on strategies and techniques for teaching culture in foreign language programs. Offered by Modern & Classical Languages. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRLN 660: *Approaches to the Study of Language.* 3 credits.
Linguistics and its relationship to other disciplines, including study of generative grammar with syntactic problems drawn from commonly taught foreign languages. Offered by Modern & Classical Languages. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRLN 670: *Topics in Language Learning and Teaching.* 3 credits.
Provides in-depth examination of a particular topic in language learning and teaching. Includes consideration of language acquisition and/or educational research as well as pedagogical implications and practice. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Forensic Science (FRSC)

100 Level Courses

FRSC 101: *Principles of Forensic Science.* 3 credits.
The forensic sciences encompass the skills and expertise of individuals from a multitude of scientific disciplines to assist in the investigation of cases of legal significance. This course is designed to provide the student with a broad introduction to the methods and techniques utilized by today's forensic professionals. We will explore the application of the physical, medical, natural and engineering sciences to specialized legal contexts, investigation of a crime scene, the role of law enforcement crime labs, and other important issues relating to forensic investigations. Offered by College of Science. Limited to three attempts.

Mason Core: Natural Science Overview

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

FRSC 200: *Survey of Forensic Science.* 3 credits.
This course will familiarize students with the basic principles, professional practice, quality assurance, and quality control measures employed in the practice of forensic science in the American system of justice. An introduction to topics including the nature of evidence and the law, crime scene investigations, serology, DNA analysis, bloodstain pattern, trace evidence, microscopy, forensic pathology, anthropology, odontology and entomology/ Offered by College of Science. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRSC 201: *Introduction to Criminalistics.* 3 credits.
This course will provide an overview of the field of criminalistics, with a focus on the recognition, collection, preservation, and analysis of physical evidence. During the course, the student will be introduced to topics such as fingerprints, question documents, firearms, drugs of abuse, explosives and arson to prepare them for additional, more in-depth classes in criminalistics/forensic science. Offered by College of Science. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

FRSC 302: *Forensic Trace Analysis.* 3 credits.
This course will provide an overview of the field of forensic science with specific emphasis on areas of trace and biological evidence, including topics such as the analysis of hair, soil, glass, paint, and other trace material. A laboratory component provides an introduction to microscopy which assists students master the foundation tools used in analyzing forensic trace evidence. Offered by College of Science. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: (FRSC 200[C] or 200[XS]) and (FRSC 201[C] or 201[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRSC 303: *Forensic Evidence and Ethics.* 3 credits.
This course will acquaint the student with the application of scientific methods and the interaction it may have with legal principles. It will prepare the student for future applications of forensic science with its role in the administration of justice, courtroom testimony, and the ethical rules and duties under codes of professional conduct and practice. Offered by College of Science. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: ((FRSC 200[C] or 200[XS]) and (CRIM 100[C] or 100[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRSC 304: *Forensic Chemistry.* 3 credits.
Introduction to the chemical principles and methods used in the application of forensics toward the elucidation of criminal activity and to support litigation. Students will be learning the fundamentals of statistics (QA/QC), chromatography (GC and LC). and instrumentation (microscopy, FTLR, and MS) that wilt enable forensics analysis of trace evidence relating to: drugs, explosives, toxicology, arson, firearms, volatiles, and hair/fibers. Offered by College of Science. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: (FRSC 200[C] or 200[XS]) and (FRSC 201[C] or 201[XS]) and (CHEM 211[C] or 211[XS]) and (CHEM 213[C] or 213[XS]) and (CHEM 212[C] or 212[XS]) and (CHEM 214[C] or 214[XS]) and (CHEM 313[C] or 313[XS]) and (CHEM 315[C] or 315[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRSC 305: *Forensic Chemistry Laboratory.* 1 credit.
This course will correlate laboratory exercises to the theoretical and investigative principles of forensic chemistry. The laboratory experiments and activities have been designed to expand on and support the material taught in the lecture section of the Forensic Chemistry course (FRSC 304). Students will have hands-on experience with basic forensic chemistry procedures and commonly used laboratory instrumentation. This laboratory course will enable students to explore the use of presumptive testing, controlled substance analysis, blood alcohol measurements, explosive residue analysis, ignitable liquid residue analysis, and chemical enhancement techniques used at crime scenes and in investigative procedures. The students will have hands-on experience using TLC, GC, GC/MS, and FTIR instrumentation and they will learn the fundamentals of how they operate and how to interpret the data generated by these systems. Offered by College of Science. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: ((FRSC 200[C] or 200[XS]) and (FRSC 201[C] or 201[XS]) and (FRSC 304[*C] or 304[XS]) and (CHEM 211[C] or 211[XS]) and (CHEM 212[C] or 212[XS]) and (CHEM 213[C] or 213[XS]) and (CHEM 214[C] or 214[XS]) and (CHEM 313[C] or 313[XS]) and (CHEM 315[C] or 315[XS])).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

FRSC 325: *Molecular Biology.* 3 credits.
This course will cover the structure and function of genes. Students will study nucleic acid structure and the mechanics of replication, repair, transcription, and translation in bacteria, archaea, and eukaryotes. A central goal is understanding gene expression and regulation at all levels, and the structure-function relationships of nucleic acids and proteins. Critical experiments will be examined to learn how our current understandings have developed from experimental results. Techniques in molecular biology will be examined in lecture as necessary to understand experiments and concepts. The course will also cover protein structure and function- especially protein interactions with nucleic acids- and post-translational events that effect the functional output of genes. The course will also pursue a selection of topics which varies from year to year but all impact on interpretation of forensic DNA evidence. Offered by College of Science. Limited to three attempts.

Recommended Corequisite: FRSC 326

Registration Restrictions:
Required Prerequisites: (BIOL 213[C] or 213[XS]) and (BIOL 214[C], 214[XS], STAT 250[C] or 250[XS]) and (BIOL 311[C] or 311[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRSC 326: *Molecular Biology Laboratory.* 1 credit.
This laboratory course will cover basic laboratory methods in molecular biology. The emphasis will be on existing and emerging techniques utilized in forensic DNA laboratories. Techniques will include, extraction, quantitation, STR typing, and SNP microarray genotyping. Offered by College of Science. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (BIOL 213[C] or 213[XS]) and (BIOL 214[C], 214[XS], STAT 250[C] or 250[XS]) and (BIOL 311[C] or 311[XS]) and (FRSC 325[*C] or 325[*XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

FRSC 401: *Crime Scene Investigations.* 3 credits.
This course provides the scientific principles of crime scene investigations by applying the basic knowledge of proper documentation, collection and preservation of physical evidence. Proper crime scene protocols and evidence processing techniques will be performed in areas such as, forensic photography, sketching, blood stain pattern analysis, trajectory, skeletal remains, and fingerprinting. Offered by College of Science. Limited to three attempts.

Recommended Prerequisite: Completion of 90 credits

Registration Restrictions:
Required Prerequisites: (FRSC 200[C] or 200[XS]) and (FRSC 201[C] or 201[XS]) and (FRSC 303[C] or 303[XS]) and (FRSC 302[C] or 302[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Forensic Science.

Enrollment limited to students in the SC-BS-FRSC program.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRSC 404: *Advanced Instrumentation in Forensic Chemistry.* 4 credits.
This course will introduce advanced themes of forensic science and the application of analytical chemistry using state-of-the-art instrumentation hardware and software platforms. Students will perform hands-on experiments using instruments that are commonly found at the federal level and in more advanced state crime laboratories. The students will be exposed to widely used concepts in the advanced forensic analysis of drugs of abuse, toxicology, arson, inks, paints, polymers, and explosives. In addition, the operational concepts of commonly used analytical instrumentation such as GC-MS, FTIR, and TQMS will be taught, demonstrated, and used by the students. More advanced instrumentation will also be introduced in the course that may include: LC/MS, LC-MS/MS, QE+ with ESI and API front ends, high resolution mass measurements, MALDI-TOF, and advanced portable instruments. Offered by College of Science. Limited to three attempts.

Recommended Prerequisite: FRSC 303 or Permission of Instructor

Registration Restrictions:
Required Prerequisites: (CHEM 314[C] or 314[XS]) and (CHEM 318[C] or 318[XS]) and (CHEM 321[C] or 321[XS]) and (MATH 114[C] or 114[XS]) and (STAT 250[C], 250[XS], BIOL 214[C] or 214[XS]) and (FRSC 304[C] or 304[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRSC 405: *Independent Research Methods.* 3 credits.
This course is designed to allow students to complete an approved independent forensic science research project under the guidance of a faculty mentor. A formal research proposal will be prepared and submitted. In addition to conferring with the instructor regularly regarding the process of their research, students will also be introduced to research and writing methods througout the course. Offered by College of Science. Limited to three attempts.

Recommended Prerequisite: Completion of 90 credits or permission of instructor.

Registration Restrictions:
Enrollment limited to students in the SC-BS-FRSC program.

Schedule Type: Research

Grading:
This course is graded on the Undergraduate Regular scale.

FRSC 406: *Forensic Internship.* 3 credits.
This course is designed to allow students the opportunity to enhance their academic coursework with field work either at an approved agency or under the guidance of an approved faculty mentor that will substantially correlate with a discipline of forensic science. For successful completion, the student must complete a minimum of 135 hours of work. Offered by College of Science. Limited to three attempts.

Recommended Prerequisite: Completion of 60 credits or permission of instructor.

Registration Restrictions:
Enrollment limited to students in the SC-BS-FRSC program.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

FRSC 415: *Selected Topics in Forensic Science.* 1-3 credits.
Topics vary according to instructor's specialty. Note: If multiple courses are taken, topics must be different. Offered by College of Science. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRSC 418: *Analytical Thinking and Violent Crime Profiling.* 3 credits.
This is a course on Analytical Thinking in the context of Criminal Investigative Analysis (CIA) from a forensic, and behavioral perspective. CIA is commonly referred to as Profiling. CIA is the behavioral interpretation of a violent crime scene, or series of scenes through the lens of multiple crime scene behaviors. During the course, concepts of Criminal Investigative Analysis will be discussed including such topics: victimology, offender risk Level, method of victim access, crime scene planning, the presence and absence of forensic evidence, offender motivation, body disposal, anthropological perspectives etc. Subject matter experts will make presentations on a variety of topics relevant to CIA. A wide variety of cases will be discussed including, both criminal and terrorism cases, and current cases that are being discussed in the media. Offered by College of Science. Limited to three attempts.

Recommended Prerequisite: Permission of Instructor. Eligibility for registration will be determined by the following: a minimum of 30 credits completed in the Natural Sciences Core and 19 credits completed in the Forensic Science Core. Student shall have consistent high achieving marks in the major with a minimum of a 3.4 major GPA.

Registration Restrictions:
Enrollment is limited to students with a major in Forensic Science.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRSC 420: *Forensic Toxicology.* 3 credits.
Examines toxic substances and their effects on human cellular and organ systems. The course focuses on human physiological concepts, the human enzymatic detoxification processes, methodologies for identifying toxins, and specific toxic analytes. Offered by College of Science. Limited to three attempts.

Recommended Prerequisite: Completion of Forensic Science Foundation courses

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRSC 450: *Practical Forensic Skeletal Biology.* 3 credits.
Practical forensic skeletal biology is the application of human skeletal biology that includes all aspects of musculoskeletal anatomy, physiology, and changes due to pathogens as it applies in a medico-legal context. It also includes in-depth knowledge of bone as a source of cellular regeneration for normal repair as well as highly specialized knowledge of surface anatomy, including all aspects of human growth and development. Actual cases in combination with hands-on practical experiences in the classroom and at our outdoor training facility will examine how modern forensic science examines human thanatobiomes, apeneumones, volatile organic compounds, modern survey techniques to determine the postmortem fate of human remains. Offered by College of Science. Limited to three attempts.

Recommended Prerequisite: At least 60 credit hours.

Registration Restrictions:
Required Prerequisites: ((FRSC 200[C] or 200[XS]) and (FRSC 201[C] or 201[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRSC 460: *Forensic DNA Analysis.* 3 credits.
This course will provide an understanding of body fluid identification and molecular biology testing methodologies as applied to the analysis of forensic samples. The process of forensic DNA analysis will be covered in depth. Current topics in forensic DNA analysis will be reviewed including population genetics, validation, quality assurance, the CODIS database, Y-STRs, mitochondrial DNA testing, SNPs and contem ora research. Offered by College of Science. Limited to three attempts.

Recommended Corequisite: FRSC 461

Registration Restrictions:
Required Prerequisites: (FRSC 200[C] or 200[XS]) and (FRSC 201[C] or 201[XS]) and (BIOL 213[C] or 213[XS]) and (BIOL 311[C] or 311[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRSC 461: *Forensic DNA Analysis Laboratory.* 1 credit.
This laboratory course will present the most common serological and DNA laboratory techniques associated with forensic casework as taught in the lecture section of the Forensic DNA Analysis course. Students will have hands-on experience with basic forensic DNA procedures including the examination and identification of bodily fluid stains, DNA extraction, quantitation, PCR amplification, genotyping, and interpretation. Offered by College of Science. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (FRSC 200[C] or 200[XS]) and (FRSC 201[C] or 201[XS]) and (BIOL 213[C] or 213[XS]) and (BIOL 311[C] or 311[XS]) and (FRSC 460[*C] or 460[XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

FRSC 470: *Forensic Genomics.* 4 credits.
This course will cover advanced principles and methods related to DNA typing in a forensic context. The course will review the current applications of DNA typing, and then address emerging methods and technological advances. The focus of the course will be on methods and techniques involved in Investigative Genetic Genealogy. A second focus of the course will be on how to properly interpret these data. Particular emphasis will be placed on how these emerging methods can advance the field of forensic DNA typing and lead to new capabilities in human identification. Students will gain an understanding of the capabilities and limitations of these emerging areas within forensic science, covering how they build on current practices. Data review and analysis from forensic DNA results will be included in the course. Offered by College of Science. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (BIOL 213[C] or 213[XS]) and (BIOL 214[C], 214[XS], STAT 250[C] or 250[XS]) and (BIOL 311[C] or 311[XS]) and (FRSC 460[C] or 460[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

FRSC 499: *Comprehensive Examination.* 0 credits.
The comprehensive examination ensures that the student is prepared to engage in an entry level forensic profession, in advanced forensic training or a graduate program. Students are required to pass this examination

prior to graduation. Offered by College of Science. May be repeated within the degree.

Registration Restrictions:
Required Prerequisites: ((FRSC 200[C] or 200[XS]) and (FRSC 201[C] or 201[XS]) and (FRSC 302[C] or 302[XS]) and (FRSC 303[C] or 303[XS]) and (FRSC 304[*C] or 304[XS]) and (FRSC 401[*C] or 401[XS]) and (FRSC 460[*C] or 460[XS])).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students in the SC-BS-FRSC program.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

500 Level Courses

FRSC 500: *Introduction to Forensic Science.* 3 credits.
This course will provide an overview of the foundation and history of forensic science. During the course, the various disciplines and specialties within forensic science will be discussed such as biology, chemistry, toxicology, microscopy, odontology, and anthropology. Additionally, the different types of physical evidence and instrumentation encountered in the field will be reviewed. Topics within ethics and quality assurance are also discussed. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 510: *Basic Crime Analysis.* 3 credits.
This course examines the role of the crime scene investigator, search, seizure and related legal issues; crime scene documentation (note taking, photography, sketching, and measurements); processing of latents and 2-D and 3-D impressions; collection, packaging and preservation of physical evidence. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 511: *Advanced Crime Scene Analysis.* 3 credits.
Advanced Crime Scene Analysis is designed to build on concepts introduced in FRSC 510 (Basic Crime Scene Analysis), and to provide an enhanced foundation in the field of criminalistics for those students who are interested in learning the application of science to solving crimes. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (FRSC 510[B-] or 510[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 512: *Physical Evidence Laboratory.* 3 credits.
This is a series of practical laboratory exercises that introduces the student to the analysis of physical evidence including the examination of pattern and trace evidence such as hairs, tool marks, firearms evidence, and shoe prints; processing of fingerprints using various chemicals, powders, and alternate light sources. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (FRSC 510[B-] or 510[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

FRSC 513: *Forensic Photography.* 3 credits.
This series of lecture and practical photography exercises introduces the student to photographic crime scene documentation techniques including concepts of controlling exposure, lighting, focus, and composition as it relates to matters of a forensic nature; photographic documentation of criminal artifacts including fluorescent fingerprints and Blue Star treated blood stains. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 514: *Survey of Forensic Chemistry, Biology, and DNA Analysis.* 3 credits.
This course will provide an overview of the history, theory and principles of the various processes of Forensic Biology and Chemistry analysis, including quality assurance. General applications of chemistry analysis as applied to forensic evidence will be covered, as well as, the biology and genetics of DNA and the typing systems used in Forensic DNA analysis. The technology and instrumentation used in forensic chemistry analysis and the analysis of biological fluids and DNA will also be covered. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 515: *Selected Topics in Forensic Science.* 1-3 credits.
Topics vary with instructor's specialty. Offered by College of Science. May be repeated within the term for a maximum 21 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 516: *Forensic Drone Photography.* 3 credits.
This course explores the rapidly expanding use of Unmanned Aerial Systems (UAS) or Unmanned Aerial Vehicle (UAV) also referred to as a drone to assist forensic investigators to document scenes. These capture platforms allow the user to document events using both video and photographs from a vantage point not easily obtained. The data collected can then be further extracted to form maps and models of the scene. Students in this course will first be taught the knowledge and skills necessary to apply for a FAA Part 107 Commercial Drone (UAS) license. Next, they will develop their piloting skills to capture data through a series of lectures and practical problems typically found by forensic investigators. Finally, a survey of legal requirements for drone use and procedures to follow to seek authorizations to fly in certain areas. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 517: *Questioned Document Examination.* 3 credits.
Theory and principles of handwriting and printing processes, paper manufacture and fiber analysis, fracture match comparison, ink analysis, and indented writing examinations; methods of examining questioned documents. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 518: *Analytical Thinking & Violent Crime Profiling.* 3 credits.
This is a course on Analytical Thinking in the context of Criminal Investigative Analysis (CIA) from a forensic, and behavioral perspective. CIA is commonly referred to as Profiling. CIA is the behavioral interpretation of a violent crime scene, or series of scenes through the lens of multiple crime scene behaviors. During the course, concepts of Criminal Investigative Analysis will be discussed including such topics: victimology, offender risk Level, method of victim access, crime scene planning, the presence and absence of forensic evidence, offender motivation, body disposal, anthropological perspectives etc. Subject matter experts will make presentations on a variety of topics relevant to CIA. A wide variety of cases will be discussed including, both criminal and terrorism cases, and current cases that are being discussed in the media. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 520: *Toxicology.* 3 credits.
Forensic Toxicology examines the adverse effects of alcohol, drugs and other chemicals on the human body. A lecture style course integrating pharmacology, toxicology and analytical chemistry to understand how

the principles of toxicology are applied to the legal system. Offered by College of Science. May not be repeated for credit.

Recommended Prerequisite: Advanced level undergraduate course in Chemistry, Biology or Biochemistry or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 525: *Molecular Biology.* 3 credits.
This course will cover the structure and function of genes. Students will study nucleic acid structure and the mechanics of replication, repair, transcription, and translation in bacteria, archaea, and eukaryotes. A central goal is understanding gene expression and regulation at all levels, and the structure-function relationships of nucleic acids and proteins. Critical experiments will be examined to learn how our current understandings have developed from experimental results. Techniques in molecular biology will be examined in lecture as necessary to understand experiments and concepts. The course will also cover protein structure and function- especially protein interactions with nucleic acids- and post-translational events that effect the functional output of genes. The course will also pursue a selection of topics which varies from year to year but all impact on interpretation of forensic DNA evidence. Offered by College of Science. May not be repeated for credit.

Recommended Prerequisite: The successful completion of coursework in topics covering Cell Biology, Statistics, and Genetics.

Recommended Corequisite: FRSC 526

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 526: *Molecular Biology Laboratory.* 1 credit.
This laboratory course will cover basic laboratory methods in molecular biology. The emphasis will be on existing and emerging techniques utilized in forensic DNA laboratories. Techniques will include, extraction, quantitation, STR typing, and SNP microarray genotyping. Offered by College of Science. May not be repeated for credit.

Recommended Prerequisite: The successful completion of coursework in topics covering Cell Biology, Statistics, and Genetics

Registration Restrictions:
Required Prerequisites: FRSC 525[*B] or 525[*XS].
[*] May be taken concurrently.
[B] Requires minimum grade of B.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

FRSC 530: *Law and Forensic Science.* 3 credits.
A detailed examination and analysis of the law affecting forensic science across the discipline range. Special emphasis is given to the laws affecting evidence, courtroom procedure, ethics, and professional responsibilities of the forensic expert. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 540: *Advanced Forensic Chemistry.* 3 credits.
The principles of forensic chemistry will be addressed in this course, including analytical chemistry, instrumental methods of analysis, sample handling, drug chemistry and toxicology. Offered by College of Science. May not be repeated for credit.

Recommended Prerequisite: Undergraduate degree in chemistry or biology. The student must have a good understanding of general Chemistry including polarity and acid/base chemistry. A student should have taken Organic Chemistry, and be able to identify functional groups and other chemistry structures that make up a molecule. Any exposure to instrumental techniques such as gas chromatography, mass spectrometry and infrared spectroscopy are helpful.

Registration Restrictions:
Required Prerequisites: ((FRSC 541[*B-] or 541[XS]) and (FRSC 514[B-] or 514[XS])).
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a concentration in Forensic Chemistry Analysis.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 541: *Forensic Chemistry Laboratory.* 1 credit.
This course will familiarize students with chemical knowledge gained from experimental observations and studies in the laboratory. Students will examine, test and establish for themselves the forensic chemistry discussed in the lecture courses. Note: The successful passing of a Virginia Department of Forensic Science background check is required prior to gaining access to this laboratory course. Offered by College of Science. May not be repeated for credit.

Recommended Prerequisite: Undergraduate degree in chemistry or biology. The student must have a good understanding of general Chemistry including polarity and acid/base chemistry. A student should have taken Organic Chemistry, and be able to identify functional groups and other chemistry structures that make up a molecule. Any exposure to instrumental techniques such as gas chromatography, mass spectrometry and infrared spectroscopy are helpful.

Registration Restrictions:
Required Prerequisites: FRSC 540[*B-] or 540[*XS].
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a concentration in Forensic Chemistry Analysis.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

FRSC 550: *Issues in Forensic Anthropology.* 3 credits.
This course examines issues related to the recovery and analysis of human skeletal remains in a medicolegal context. Topics include detection and mapping approaches for human remains, assessment of biological information from the skeleton (such as sex, ancestry, age, and stature), and the analysis of skeletal trauma. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 560: *Advanced Forensic DNA Sciences.* 3 credits.
This is a seminar style course providing an overview of the history, theory and principles of the various processes of Forensic DNA analysis. The biology and genetics of DNA and the typing systems used in Forensic DNA will be reviewed. The technology used in the analysis of DNA, including data analysis, interpretation, CODIS database and statistical applications will also be covered. Offered by College of Science. May not be repeated for credit.

Recommended Prerequisite: Undergraduate coursework in molecular and/or cell biology, as well as genetics, prior to taking this course or permission of instructor.

Registration Restrictions:
Required Prerequisites: ((FRSC 561[*B-] or 561[XS]) and (FRSC 514[B-] or 514[XS])).
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a concentration in Forensic Biology Analysis.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 561: *Forensic DNA Laboratory.* 1 credit.
This laboratory course will provide comprehensive coverage of the various types of DNA testing currently used in forensic biology laboratories. Students will have hands-on experience with the analytical equipment employed and the techniques used for human identification in forensic casework, such as, DNA extraction, quantitation, PCR amplification, genotyping, and interpretation. Note: The successful passing of a Virginia Department of Forensic Science background check is required prior to gaining access to this laboratory course. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: FRSC 560[*B-] or 560[*XS].
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a concentration in Forensic Biology Analysis.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

FRSC 570: *Trace and Physical Evidence Concepts.* 3 credits.
Prepares students to evaluate physical evidence through the use of microscopic, chemical, and instrumental means. The course will emphasis the scientific procedures used to identify the evidence, the analysis of data generated during the identification phase, and the inductive reasoning process which allows the forensic scientist to draw conclusions based on the evidence at hand. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 580: *Facial Reconstruction.* 3 credits.
This course begins with an introduction to methods used in image analysis, and the methods of facial reconstruction. The course will then explore modern techniques applied to several areas of forensic imaging. Advance topics in forensic sculpturing, 3D imagery, and post-mortem imagery will be explored. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 590: *Medicolegal Death Investigation and Pathology.* 3 credits.
Introduction to the pathology and physiology of the human body with an emphasis on scientific and medical terminology, in addition to the various techniques used in medicolegal death investigation. Discussion of death scene analysis, autopsy procedures, and unidentified remains. Overview of the role of the medical examiner's office within the United States and an introduction to the forensic investigation of sudden and unexpected deaths, including homicides, suicides, accidents, accidental deaths, and various traumatic deaths. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (FRSC 510[B-] or 510[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

FRSC 600: *Forensics Seminar.* 1 credit.
Presentations are made about selected topics in law enforcement, homeland security and forensic science presented by professionals working in the field and forensic science research presented by GMU graduate students. Students must also write an article, not to exceed four pages, chosen by the students from a set of recent, peer-reviewed scientific journals established by the instructor. Students will analyze the scientific method used in the article and critique the research performed. Notes: Students enrolled in the forensic science MS program must attend at least 80% of the seminars. Offered by College of Science. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

FRSC 610: *Forensic Research Project.* 1-4 credits.
This course is a two semester course required for all graduate students prior to graduation. The first semester course consists of a 1.0 Credit Course where the students select a research topic and a qualified research advisor (faculty member or affiliated forensic science professional). The second semester course is a 3.0 Credit Course where the students perform their research, write their research paper and make a presentation of their research project to GMU Forensic Science Faculty members. Offered by College of Science. May be repeated within the degree for a maximum 4 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Forensic Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Research

Grading:
This course is graded on the Graduate Special scale.

FRSC 620: *Face and Biometric Pattern Analysis.* 3 credits.
This course will familiarize students with the basic principles and uses of biometrics for automated searches and comparisons by forensic

examiners. This course will review the basics of face, fingerprints, iris, and speaker recognition. Students should gain an understanding of how automated systems and forensic examiners perform recognition. Students will also learn the capabilities and limitations of biometric recognition. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 630: *Fingerprint Identification.* 3 credits.
This course will cover the exploration of the techniques and methods of identification, capture and analysis of fingerprint evidence, including consideration of the fundamentals of fingerprint patterns, classification formulas and extensions, techniques for taking good fingerprints, problems in fingerprinting, preparation of fingerprint charts for court testimony, and practical exercises for capturing fingerprints. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 640: *Legal, Privacy and Ethical Issues in Identity Analysis.* 3 credits.
This course will review basic policies and doctrinal guidance related to the applications of biological, physical, chemical, and medical sciences to questions of evidence and law. In doing so, students should gain a basic understanding of the high level policies, protocols, standards, privacy, civil liberties, and doctrine related to the forensic sciences as they are practiced relating to identity analysis. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 650: *Identity Analysis Applications.* 3 credits.
This course will review the basics of biometrics and how the various biometric modalities can be used to aid in identification and identity verification. The course will also focus on how biometrics and forensics are used, or can be used, in various applications from military uses, intelligence/counter-terrorism, border and immigrations control and in support of state development. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 670: *Forensic Genomics.* 4 credits.
This course will cover advanced principles and methods related to DNA typing in a forensic context. The course will review the current applications of DNA typing, and then address emerging methods and technological advances. The focus of the course will be on methods and techniques involved in Investigative Genetic Genealogy. A second focus of the course will be on how to properly interpret these data. Particular emphasis will be placed on how these emerging methods can advance the field of forensic DNA typing and lead to new capabilities in human identification. Students will gain an understanding of the capabilities and limitations of these emerging areas within forensic science, covering how they build on current practices. Data review and analysis from forensic DNA results will be included in the course. Offered by College of Science. May not be repeated for credit.

Recommended Prerequisite: The successful completion of coursework in topics of Cell Biology, Statistics, Genetics, and Forensic DNA Analysis.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 690: *Capstone - Moot Court & Expert Testimony.* 3 credits.
In this course, students will learn and practice how to incorporate forensic science theory, research, analysis, writing and speaking skills into a life like moot court experience. They will learn how and why forensic science evidence is admitted into court proceedings, and their role in the admission of evidence. Topics will include Federal and state rules of evidence; admission of forensic science testimony into criminal and civil cases; the process of being qualified as an expert witness, including the Voir dire Process; The role and responsibility of expert witnesses; Developing an Expert Witness Curriculum CV, and trial preparation; Proper laboratory and CSI report development and writing for presentation in court, and developing proper speaking skills for

courtroom testimony. Offered by College of Science. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((FRSC 500[B-] or 500[XS]) and (FRSC 510[B-] or 510[XS]) and (FRSC 530[B-] or 530[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FRSC 699: *Comprehensive Examination.* 0 credits.
The comprehensive examination ensures that the student is prepared to engage in a forensic profession. Students are required to pass this examination prior to graduation. Offered by College of Science. May be repeated within the degree.

Registration Restrictions:
Required Prerequisites: ((FRSC 500[B-] or 500[XS]) and (FRSC 510[B-] or 510[XS]) and (FRSC 530[B-] or 530[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

700 Level Courses

FRSC 790: *Internship in Forensic Science.* 1-3 credits.
On the job experience for graduate students in industry, government laboratories, investigative units, or approved study programs with forensic science employers. Students work in observational, experimental, or theoretical research, and prepare weekly journals, as well as midpoint and final evaluations completed by the employer. The student is responsible for applying to and obtaining the internship prior to registering for this course. Offered by College of Science. May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Forensics or Forensic Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

FRSC 799: *Master's Thesis.* 1-6 credits.
Project chosen and completed under guidance of graduate faculty member. Comprehensive report (thesis) acceptable to student's advisory committee is required. Offered by College of Science. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

French (FREN)

100 Level Courses

FREN 101: *Elementary French I.* 3 credits.
For students with no knowledge of French. Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Notes: Students may not receive credit for FREN 101 and FREN 110. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to FREN 110.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in French

FREN 102: *Elementary French II.* 3 credits.
Continuation of FREN 101. Notes: Students may not receive credit for FREN 102 and FREN 110. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to FREN 110, FREN 115.

Recommended Prerequisite: FREN 101, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in French

FREN 110: *Elementary French.* 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Notes: Students may not receive credit for FREN 110 and FREN 101, 102. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to FREN 101, FREN 102, FREN 115.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in French

FREN 115: *Review of Elementary French.* 3 credits.
Reviews elements of French for students who have studied French previously. Notes: Students may not receive credit for FREN 115 and

FREN 102, or 110. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to FREN 102, FREN 110.

Recommended Prerequisite: Appropriate placement score, or permission of department.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in French

200 Level Courses

FREN 201: *Intermediate French I.* 3 credits.
Further development of skills in listening, speaking, reading, and writing. Notes: FREN 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: FREN 102 or FREN 110, appropriate placement score, or permission of department.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in French

FREN 202: *Intermediate French II.* 3 credits.
Applies language skills to reading, composition, and class discussion. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: FREN 201, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Fulfills Frgn Lng requirment, Taught in French

300 Level Courses

Grading:
This course is graded on the Graduate Regular scale.

FREN 553: *Topics in North African Francophone Literature and Culture.* 3 credits.
Analyzes a selection of literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts with a focus on the construction of identity: Maghreb in pre and (post)colonial era, recent ideological trends in writing. Advanced critical research and writing required. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FREN 554: *Topics in Francophone Caribbean Literature and Culture.* 3 credits.
Analyzes a selection of important literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts: the construction of identity through and beyond Negritude, Antillanite, Creolite, and migration. Advanced critical research and writing required. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FREN 555: *Special Topics related to Francophone Literature and Culture.* 3 credits.
Analyzes a selection of important literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts: gender studies, migration and identity-building, ethno-social tensions, political strife, religious conflicts throughout the francophone world . Advanced critical research and writing required. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FREN 557: *Topics in Quebec and French-Canadian Literature and Culture.* 3 credits.
Analyzes representative literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts. Emphasizes contemporary works. Advanced critical research and writing required. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FREN 561: *Linguistic Structure of Modern French.* 3 credits.
Analyzes phonology, morphology, and syntax of modern standard French, through a close study of selected texts (newspaper articles, short stories, novel excerpts, informal correspondence). Advanced critical research and writing required. Offered by Modern & Classical Languages. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FREN 562: *Stylistics.* 3 credits.
Describes and analyzes the variability of forms and styles and the more complex aspects of the French language. Develops writing skills through readings, discussions, and compositions. Advanced critical research and writing. Offered by Modern & Classical Languages. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FREN 563: *History of the French Language.* 3 credits.
Analyzes a selection of literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts with a focus on the construction of identity: Maghreb in pre and (post)colonial era, recent ideological trends in writing. Advanced critical research and writing required. Offered by Modern & Classical Languages. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FREN 564: *Advanced Translation.* 3 credits.
Analyzes theories and methods of translation, with a focus on translation practice (French to English and English to French) of a varied selection of texts (periodicals, short stories, novel excerpts, newspaper articles, etc.) Advanced critical research and writing required. Notes: Translations from French to English and English to French. Offered by Modern & Classical Languages. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FREN 565: *Special Topics Related to the French Language.* 3 credits.
Content varies: diachronic or synchronic study of the French language or one of its aspects; sociolinguistics; language teaching methodology; etc. Advanced critical research and writing required. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FREN 567: *Special Topics related to French and Francophone Literature and Culture.* 3 credits.
Explores issues related to the francophone world. Emphasis on comparative issues, not geographical areas. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 15 credits of French at the 300 level or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FREN 570: *French and Francophone Cinema.* 3 credits.
Topics such as early days of French cinema, a nouvelle vague, women film directors, Quebecois, African and Caribbean films, selected by type, period or director. Advanced critical research and writing required. Viewing of films outside of class time. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

FREN 575: *Grammatical Analysis.* 3 credits.
Analyzes selected texts, authors, movements, and issues within comparative historical and cultural contexts as related to France and to various francophone regions of the world or with an interdisciplinary approach. Advanced critical research and writing required. Offered by Modern & Classical Languages. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

FREN 798: *Directed Reading and Thesis Research.* 3 credits.
Reading and research for thesis under direction of a faculty member. Notes: Open to degree students who desire to work on independent study with a faculty mentor or who have completed at least 24 credits and have been approved by the French Graduate Faculty to conduct research for a M.A. thesis. See Modern Classical Languages Graduate Student Handbook for complete explanation of the thesis option. Offered by Modern & Classical Languages. May not be repeated for credit.

Recommended Prerequisite: Degree students who desire to work on independent study with a faculty mentor or who have completed at least 24 credits and have been approved by the French Graduate Faculty to conduct research for a M.A. thesis.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Graduate Special scale.

FREN 799: *Thesis.* 1-6 credits.
Research on approved thesis topic under direction of thesis committee. Notes: Students must register for a minimum of 3 credits in the first semester of 799 and maintain continuous enrollment in 799 while writing and submitting the thesis. Offered by Modern & Classical Languages. May be repeated within the degree.

Recommended Prerequisite: FREN 798 and approval of director.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

Geography and Geoinformation Science (GGS)

100 Level Courses

GGS 101: *Major World Regions.* 3 credits.
Patterns, problems, and prospects of the world's principal human-geographic regions. Emphasizes areal differentiation and role of geographic differences in interpreting current world scene. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 102: *Physical Geography.* 3 credits.
Interrelated processes affecting global distribution and character of climate, soils, vegetation, hydrology, and landforms. Includes elements of mapping. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Mason Core: Natural Science Overview, Encore: Sustainability

Specialized Designation: Green Leaf Related Course

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 103: *Human Geography.* 3 credits.
Overview of major ideas and approaches to studying spatial aspects of human social and behavioral systems. Surveys distribution and movement of human populations, characteristics and distribution of cultural mosaics, patterns of economic interdependence, and study of forces of cooperation and conflict among people from global perspective. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Mason Core: Social/Behavioral Sciences, Encore: Sustainability

Specialized Designation: Green Leaf Related Course

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 110: *Introduction to Geoinformation Technologies.* 3 credits.
This course introduces students to basic geoinformation technology concepts and applications. Students learn about and apply spatial data collection analytic tools and methods, including geographic information systems, and web-based map developments. Lectures examine social trends, ethical issues including privacy state of the art technological research and developments of geoinformation technologies in industry, government, education, and everyday life. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Specialized Designation: Mason Impact.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 121: *Dynamic Atmosphere and Hydrosphere.* 4 credits.
Systematic study of weather, climate, energy, and hydrologic systems viewed from a geospatial and global perspective. Studies the spatial distribution and relationships of the Earth's climate and hydrologic systems to other Earth systems, as well as the processes driving and changing them, including energy, climate, weather, and water resources. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Mason Core: Natural Science with Lab, Encore: Sustainability

Specialized Designation: Green Leaf Related Course

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 122: *Dynamic Geosphere and Ecosphere.* 4 credits.
Systematic study of biogeography and soils, viewed from a geographic, or spatial, perspective. We will study the spatial distribution and relationships of Earth's biomes and soils systems to other Earth systems, and the processes driving them, including energy, climate, nutrients, chemistry, and moisture. Cannot be combined for credit with EVPP 110 or EVPP 111. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Specialized Designation: Green Leaf Related Course

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

GGS 210: *Introduction to Spatial Computing.* 3 credits.
This course introduces students to Geo-Spatial Data Analysis. Students will learn the basic techniques for data collection and storage, data processing and data mining using location data. Students will work with geospatial objects, such as points, lines and polygons and get hands-on experience in processing spatial data. Basic geometric algorithms for point-in-polygon tests and line-segment intersection tests will be presented. Techniques for spatial navigation, such as shortest path algorithm in free space and in spatial networks will be discussed. Technical challenges such as storing, reading and parsing geospatial will be highlighted and students will conduct geo-spatial data analysis in teams. To analyze data, this course will give an introduction to data analysis concepts including regression, clustering and classification of data. In addition, awareness will be raised for spatial privacy threats, and possible risks associated with uncontrolled publishing of location based data. Offered by Geography/Geoinformation Sci. Limited to three attempts. Equivalent to GGS 366.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

GGS 300: *Quantitative Methods for Geographical Analysis.* 3 credits.
Comprehensive introduction to quantitative methods in spatial analysis, with emphasis on solving geographical research problems. Topics include nature of spatial data; collection of spatial data; preparation of spatial data for mapping, geographic information systems, and statistical analysis; descriptive spatial statistics; areal sampling theory and methods; probability theory and distributions; hypothesis testing; correlation and regression; and areal and point pattern spatial statistics. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Specialized Designation: Mason Impact.

Recommended Prerequisite: 30 credits, including GGS 102 and 103 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 301: *Political Geography.* 3 credits.
Distribution and effects of power on landscape, particularly on national and global scales. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Recommended Prerequisite: 30 credits

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 302: *Global Environmental Hazards.* 3 credits.
Introduces applications of observational and modeling techniques to natural hazards and the threat they pose to the world, as well as a general introduction to global climate change and its effect on regional and local scales. Examples include topics of interest to different countries and regions of the world, such as earthquakes, sand and dust storms, slope failures, volcanoes, land slides, droughts and desertification, floods, hurricanes and typhoons, severe weather, wild fires (U.S., Indonesia, Africa, S. America), sea-level rise, and tsunamis. Covers Earth system science topics related to the above hazards and their coupling with anthropogenic hazards as well as how societies respond to natural disasters and mitigation. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: 30 hours and undergraduate status

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 303: *Geography of Resource Conservation.* 3 credits.
Provides analysis of world resources distribution, conservation, and preservation; and problems resulting from their natural occurrence and utilization. Uses knowledge from physical and social sciences to develop complex and sophisticated understanding of issues surrounding natural resource exploitation and management, conservation, and preservation. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Mason Core: Encore: Sustainability, Synthesis

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: 30 credits, and completion or concurrent enrollment in all other required Mason Core courses.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 304: *Population Geography.* 3 credits.
Spatial distribution of population, its causes and effects, and changing patterns resulting from population mobility. Emphasizes spatial characteristics of variables such as age, sex, race, education, and income. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Mason Core: Encore: Sustainability, Synthesis

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: 30 credits and completion of or concurrent enrollment in all Mason Core requirements.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 305: *Economic Geography.* 3 credits.
Analyzes pattern of distribution of world economic activity, spatial economics behind this pattern, and influence of distribution on other spatial systems. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Recommended Prerequisite: 30 credits

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 306: *Urban Geography.* 3 credits.
Structure and internal differentiation of cities. Variety of perspectives on nature of cities, and opportunities for intensive use of space. Urban problems and alternatives in their spatial context. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 307: *Geographic Approaches for Sustainable Development.* 3 credits.
Sustainability lies at the intersection of the environment, society, and economics. This course explores the concepts of sustainable development at different geographical scales (local, national and international). We examine the applications, indicators, measurement tools of sustainable development for analysis and decision making in support of environmentally sustainable development from a geographic perspective. Case studies and problem-solving exercises will be used to stimulate learning and provide practical experience in addressing sustainable development issues. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: GGS 102 or GGS 121 or GGS 122 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 308: *Field Mapping Techniques.* 3 credits.
Basic techniques for collecting and recording spatial field data, including topographic maps, compass, transit, alidade, and geographic positioning systems. Includes field work. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Recommended Prerequisite: MATH 105, GGS 102 or GEOL 101, and 30 credits.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 309: *Introduction to Weather and Climate.* 3 credits.
Foundations and elements of weather and climate from an Earth system perspective; analysis of spatial and temporal distribution of weather and climate controls as bases of global climate change and geographical variation. Monitoring weather and climate with satellite remote sensing and in situ data products. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Recommended Prerequisite: GGS 102, 121, or equivalent, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 310: *Cartographic Design.* 3 credits.
Focused on the creation and application of maps, with an emphasis on thematic mapping. Includes fundamental mapping principles (projection, scale, generalization, symbolization), spatial data selection and acquisition, and effective design choices for geospatial communication, utilizing mapping software and digital outputs. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 311: *Geographic Information Systems.* 3 credits.
Fundamental concepts and theories for appropriate use of geographic information systems (GIS). Topics include social and cultural contexts of the use of geographic information, sources of digital geospatial data, and methods of input, storage, display, and processing of spatial data for geographic analysis using GIS. Lectures, hands-on exercises familiarize students with current technology. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Specialized Designation: Mason Impact.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 312: *Physical Climatology.* 3 credits.
Quantitative description of nature and theory of the climate system, dynamics of atmosphere-ocean-land surface, internal interactions and response to external forcing, description of the climate record and simple climate models. Offered by Geography/Geoinformation Sci. Limited to three attempts. Equivalent to CLIM 312.

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: 30 hours; and GGS 121, MATH 113, PHYS 243-244, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 314: *Severe and Extreme Weather.* 3 credits.
Behavior of weather events ranging from small scale (e.g., thunderstorms and tornadoes) to mesoscale (e.g., fronts and hurricanes). Introduces the dynamical and physical processes, atmospheric boundary layer processes, and coupling between different spatial scales that create and shape severe and localized weather events. Offered by Geography/Geoinformation Sci. Limited to three attempts. Equivalent to CLIM 314.

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: MATH 113 or equivalent; CLIM/PHYS 111/112 or EOS 121 or GGS 121.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 315: *Geography of the United States.* 3 credits.
Diversity of US physical and cultural landscapes. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Recommended Prerequisite: 6 credits of geography or American Studies, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 316: *Geography of Latin America.* 3 credits.
Regional survey of physical resources, populations, cultural characteristics, and economic activities in Latin America. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: 6 credits of Geography or Latin American Studies, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 317: *Geography of China.* 3 credits.
Survey the physical, resources, environmental and population characteristics of China, and its urban, economic, and transportation systems development from a geographical perspective. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 319: *Air Pollution.* 3 credits.
Description of major types of air pollution and introduction to how their characteristics are influenced by interaction with the atmosphere. Topics include sources and distribution of pollution from local to global scales, effects of radiation and wind on pollution, modeling of plume dispersion

and pollution effects on climate. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: CLIM 111 or GGS 121.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 320: *Geography of Europe.* 3 credits.
Environmental, economic, social, and political factors influencing regional structure of Europe. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Recommended Prerequisite: 6 credits of Geography or European Studies, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 321: *Biogeography.* 3 credits.
A survey of the relationship between distribution of plants and animals on the earth surface and the physical geography and environmental characteristics. Offered by Geography/Geoinformation Sci. Limited to three attempts. Equivalent to BIOL 374.

Recommended Prerequisite: GGS 122 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 322: *Issues in Global Change.* 3 credits.
Provides the basis for evaluating existing and emerging issues in the environmental sciences at the regional and global scale, using interdisciplinary scientific principles. Combines activities designed to provide an understanding of the following: first principles underlying regional/global issues in the environmental sciences, with attention to links among the disciplines of atmospheric sciences, biology, ecology, hydrology, oceanography, geology, human health, toxicology, and mathematical modeling; concepts of systems control, feedbacks, modeling, and hierarchical scales (spatial and temporal); role of retrospective analyses in developing a scientifically sound basis for evaluation and analysis; and studies of specific issues of interest on a regional to global scale. Offered by Geography/Geoinformation Sci. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: GGS 121, GGS 122, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 325: *Geography of North Africa and the Middle East.* 3 credits.
Environmental, economic, and social factors of differentiation of regional structure and distribution of resources in North African and Middle Eastern countries. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 326: *Geography of Eastern Europe and Russia.* 3 credits.
A regional study of Eastern Europe and European Russia in terms of population patterns, economic activities, urbanization, planning and politics, migration, religion, landscape, and physical geographic features. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Recommended Prerequisite: 6 credits of geography or Russian studies, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 330: *Geography of the Soviet Succession States.* 3 credits.
Analyzes geographic factors involved in history, economic development, and geopolitical situation of the former Soviet Union. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: 6 credits of geography or Russian studies, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 333: *Issues in Regional Geography.* 3 credits.
Geographical study of particular region or relevant regional issue. Offered by Geography/Geoinformation Sci. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 30 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 340: *Health Geography.* 3 credits.
Spatial approaches to the study of health and disease. Topics include disease ecology and diffusion, and geographic perspectives on improving health care delivery. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Recommended Prerequisite: Course in statistics.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 344: *Military Geography.* 3 credits.
The geographical study of warfare. Investigations on the effects of physical and cultural geographic features on military operations

with focus on the scale of operation and usage of maps. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 354: *Data Analysis and Global Change Detection Techniques.* 3 credits.
Introduces basic time series methods, especially those used in detecting trends and randomness in time series data. Various data related to global changes on different temporal and spatial scales will be identified, and the relevant analysis methods will be used to those data so that students can detect or confirm changing trends or lack of them in data. Other topics such as data formats, data visualization, and data mining may also be included based on the background of the student body. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Recommended Prerequisite: IT 104, STAT 250, or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 357: *Urban Planning.* 3 credits.
Reviews spatial, policy, and administration principles that guide urban planning activities in the United States. Outlines differences between theory and practice and provides tools, methods, and perspectives commonly incorporated into practice of urban planning and policy analysis. Offered by Geography/Geoinformation Sci. Limited to three attempts. Equivalent to GOVT 357.

Recommended Prerequisite: 30 credits

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 366: *Spatial Computing.* 3 credits.
Comprehensive introduction to spatial computing using modern computing environments with emphasis on programming and problem solving. Introduces students to modern programming practices using both paradigms of imperative and object-oriented programming. Topics include 1) working with geospatial objects, such as points, lines and polygons; 2) hands-on experience in processing spatial data; 3) solving classic spatial computing problems, such as point-in-polygon tests and line segment intersection tests efficiently; 4) techniques for spatial navigation, such as shortest path algorithms spatial networks; 5) technical challenges such as storing, reading and parsing geospatial data. Tutorials and instruction assume no prior programming experience in Python or other programming languages. Offered by Geography/Geoinformation Sci. Limited to three attempts. Equivalent to GGS 210.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 379: *Remote Sensing.* 3 credits.
Foundations of remote sensing, and of processing, analyzing, and using remotely sensed data for monitoring the earth. Introduces key concepts in electromagnetic radiation, passive (panchromatic, multi-, and hyper-spectral) and active (microwave and Lidar) sensor systems, and methods for information extraction, including image interpretation and analysis, measurement and rectification, classification, and digital image processing. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 380: *Geography of Virginia.* 3 credits.
Natural and cultural forces of Virginia. Studies regional makeup and analysis of human and environmental characteristics. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Recommended Prerequisite: 30 credits

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 384: *Special Topics in Geospatial Intelligence.* 3 credits.
Selected topics concerning human activity on earth derived from the exploitation and analysis of imagery and geospatial information that describes, assesses, and visually depicts physical features and geographically referenced activities on the Earth. Offered by Geography/Geoinformation Sci. May be repeated within the term.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 398: *Selected Topics in Global Change.* 3 credits.
Covers selected topics in global change not covered in fixed-content global change courses. Notes: Content varies and is determined by instructor. Offered by Geography/Geoinformation Sci. May be repeated within the term.

Specialized Designation: Topic Varies

Recommended Prerequisite: 30 credits or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 399: *Select Topics in GGS.* 3 credits.
Content varies; determined by instructor. Offered by Geography/Geoinformation Sci. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies, Non-Western Culture

Recommended Prerequisite: 30 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

GGS 400: *Colloquium in Geoinformation Science.* 1 credit.
Presentations in specific research areas of Geography and Geoinformation Science by faculty and staff, Mason faculty in related programs, and professional visitors. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Recommended Prerequisite: 60 credits or permission of instructor.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 410: *Introduction to Hyperspectral Imaging.* 3 credits.
Introduction to quantitative measurements by remote-sensing methods covering quantitative spectroscopy, spectral and thermal signatures, atmospheric physics, and the electromagnetic spectrum. Emphasis on the scientific principles involved and the transition of the technology to real-world applications. The requisite materials to begin to understand hyperspectral imaging (HSI) technology and its many civil and military applications are presented. Covers necessary mathematics used in the analysis of n-dimensional data. Topics include hyperspectral concepts, data collection systems, data processing techniques, case studies, and U.S. national policy issues. Data processing techniques include N-dimensional space, scatterplots, spectral angle mapping, spectral mixture analysis, spectral matching, and other techniques. Applications and case studies include environmental, medical, agricultural, and military. Includes ground, airborne, and spaceborne hyperspectral systems. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Recommended Prerequisite: PHYS 243-244, 245-246, MATH 113 and 114, GGS 353, GGS 416 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 411: *Geovisualization.* 3 credits.
Cartography course focused on thematic map design, with an objective to produce a portfolio of well-designed, professional grade maps. Theoretical concepts and principles will be introduced using practical examples and written assignments. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: GGS 310[C] or 310[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 412: *Air Photography Interpretation.* 3 credits.
Methods and techniques of interpreting and using information contained in aerial photography, including applications to various aspects of physical and cultural landscape. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Recommended Prerequisite: 60 credits and GGS 102 or 103, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 415: *Seminar in Geographic Thought and Methodology.* 3 credits.
Focused on the trajectories and presentation of geographic thought, geographic research techniques, and methods of analysis. Students produce original research that engages current scholarship. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: GGS 300[C] or 300[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 416: *Satellite Image Analysis.* 3 credits.
Examines methods and techniques of interpreting and using information obtained by non-photographic remote sensing systems, with particular emphasis on space-borne platforms. Includes analysis of imagery for both physical and cultural environments. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Recommended Prerequisite: 60 credits and GGS 412, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 422: *Drone Remote Sensing.* 3 credits.
An advanced remote sensing course that focuses on the fundamentals of collecting and processing drone-based sensor data for various scientific applications. Explores the principles involved in drone-based photogrammetry, 3D reconstruction, multi-spectral and LiDAR sensing, whilst providing hands-on experience with drone mission planning, data acquisition and data processing. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: GGS 379[C], 379[XS], 416[C] or 416[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 426: *Physical Fundamentals of Remote Sensing.* 3 credits.
An introduction to fundamental physical principles of remote sensing as applied to Earth science. Focus on the physical and mathematical principles underlying satellite remote sensing techniques. Topics include radiometric information, satellite orbits, atmospheric corrections, data records, and in situ measurements. Current and planned satellite instruments, particularly those operated by NASA, NOAA, and USGS,

are utilized. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 429: *Remote Sensing of the Environment and Earth System.* 3 credits.
Theory and methods for remote sensing features and phenomenon comprising the Earth system. Topics include surface and atmospheric information retrieval, radiation budgets, atmospheric gas detection, mapping the cryosphere, measurements of vegetation and biomass, soil moisture, and precipitation. Focus on satellite-based systems, with applications to both passive and active sensor systems. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: GGS 379[C], 379[XS], 416[C] or 416[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 456: *Introduction to Atmospheric Radiation.* 3 credits.
Helps students learn about the fundamental aspects of atmospheric radiation. The goal is to understand their essential roles in advanced remote sensing, atmospheric sciences and global and environmental change. It will provide a foundation for and will be beneficial to students in taking advanced courses in those areas. Offered by Geography/Geoinformation Sci. Limited to three attempts. Equivalent to CLIM 456.

Recommended Prerequisite: GGS 353/GGS 309 and a course in physics, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 462: *Web-based Geographic Information Systems.* 3 credits.
Managing geospatial data is at the core of an emerging Billion-Dollar industry. This course will provide the students with the knowledge to manage and query geospalial data using relational database management systems and how to build Javascript-based Web mapping applications on top of a database to communicate and interact with the data. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Recommended Prerequisite: GGS 311

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 463: *RS: GIS Analysis and Application.* 3 credits.
Explores existing and potential capabilities of geographic information systems in conducting spatial analysis and modeling. Topics include spatial data acquisition and advanced spatial analytical techniques. Major purpose of course is to extend fundamental theories and concepts in GIS so students are able to conduct research with and on GIS. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Specialized Designation: Research/Scholarship Intensive

Registration Restrictions:
Required Prerequisites: (GGS 300[C], 300[XS], L300 or 300T) and (GGS 311[C], 311[XS], 311T or L311).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 470: *Special Topics in Geographic Techniques.* 3 credits.
Content varies in the subject of Geographic Techniques. Offered by Geography/Geoinformation Sci. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: GGS 110.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 480: *GGS Internship.* 1-3 credits.
Approved study programs with specific employers. Notes: Credit determined by department. Contact department one semester before enrollment. Offered by Geography/Geoinformation Sci. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Open only to authorized GGS majors with 90 credits and GPA of 2.50 or higher in GGS courses.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 490: *Practicum in Geographical Applications.* 1-3 credits.
Application of geographical research tools and techniques in conjunction with faculty instruction and research. Individualized sections taught by arrangement with full-time faculty. Offered by Geography/Geoinformation Sci. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Authorized GGS majors with 90 credits.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 495: *GGS Senior Research Project.* 3 credits.
Applications of research tools and techniques on specific GGS topics, in conjunction with faculty instruction and research. Individualized sections taught by arrangement with full-time faculty. Offered by Geography/Geoinformation Sci. Limited to three attempts.

Recommended Prerequisite: 90 credit hours, authorized major.

Schedule Type: Research

Grading:
This course is graded on the Undergraduate Regular scale.

GGS 499: *GGS Independent Study.* 1-3 credits.
Individual study of selected area of geography. Notes: Requires directed research paper. May be repeated with permission of the department. Offered by Geography/Geoinformation Sci. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Open only to authorized GGS majors with 90 credits and GPA of 2.50 or higher.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

GGS 501: *Geography and Geoinformation Science Distance Education Orientation.* 1 credit.
Describes study structure and basic expectations (In terms of time commitment, expectations, technical Issues and communication) for distance education courses in the Geography and Geoinformation Science department. Notes: The course is self-paced, enabling students to proceed at their own speed. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale.

GGS 505: *Transportation Geography.* 3 credits.
Structure, principles, location, and development of world transportation. Critical role of transportation in moving people, goods, and ideas at international, national, regional, and urban levels. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: 6 credits of geography

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 507: *Geographic Approaches for Sustainable Development.* 3 credits.
Sustainability lies at the intersection of the environment, society and economics. This course explores the concepts of sustainable development at different geographical scales (local, national and international). We examine the applications, indicators, measurement tools of sustainable development for analysis and decision making in support of environmentally sustainable development from a geographic perspective. Case studies and problem-solving exercises will be used to stimulate learning and provide practical experience in addressing sustainable development issues. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 516: *Geography of Latin America.* 3 credits.
Regional survey of physical resources, populations, cultural characteristics, and economic activities in Latin America. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 517: *Geography of China.* 3 credits.
Survey the physical, resources, environmental and population characteristics of China, and its urban, economic, and transportation systems development from a geographical perspective. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 518: *Geography of North Africa and the Middle East.* 3 credits.
Environmental, economic, and social factors of differentiation of regional structure and distribution of resources in North African and Middle Eastern countries. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 520: *Geography for Teachers.* 3 credits.
Emphasizes problems and techniques in teaching geography; and current developments in research, methodology, and philosophy in the discipline. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 524: *Introduction to Environmental and Resource Economics.* 3 credits.
Introduces theory of external costs and benefits, public goods, natural resource management, and benefit and cost analysis for noneconomists. Lecture-discussion format with student presentations and participation. Analytical problem set, short writing assignments, and exams. Offered by Geography/Geoinformation Sci. May not be repeated for credit. Equivalent to EVPP 524.

Recommended Prerequisite: Basic algebra skills.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 525: *Economics of Human/Environment Interactions.* 3 credits.
Advanced topics in environmental, natural resource, and ecological economics for noneconomist. Emphasizes sustainability, intergenerational equity, and economic-ecological feedbacks. Offered by Geography/Geoinformation Sci. May not be repeated for credit. Equivalent to ECON 895, EVPP 525.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: EVPP 524/GGS 524 or equivalent

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 526: *Geography of Eastern Europe and Russia.* 3 credits.
A regional study of Eastern Europe and European Russia in terms of population patterns, economic activities, urbanization, planning and politics, migration, religion, landscape, and physical geographic features. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 531: *Land-Use Modeling Techniques and Applications.* 3 credits.
Survey of literature on spatially explicit empirical models of land-use change. Hands-on experience developing and running simple models. Techniques covered include statistical models, mathematical programming models, cellular automata, agent-based models, and integrated models. Offered by Geography/Geoinformation Sci. May not be repeated for credit. Equivalent to EVPP 531.

Recommended Prerequisite: GGS 550, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 533: *Issues in Regional Geography.* 1-6 credits.
Geographical study of particular region or relevant regional issue. Notes: Content varies. May be repeated with permission of the department. Offered by Geography/Geoinformation Sci. May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 540: *Health Geography.* 3 credits.
Spatial approaches to study of health and disease. Topics include disease ecology and diffusion, and geographic perspectives on improving health care delivery. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: Course in statistics.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 544: *Military Geography.* 3 credits.
The geographical study of warfare. Investigations on the effects of physical and cultural geographic features on military operations with focus on the scale of operation and usage of maps. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 550: *Geospatial Science Fundamentals.* 3 credits.
Introduces geospatial sciences, emphasizing concepts and theories of cartography, remote sensing, air photo interpretation, Global Positioning Systems, spatial data structures, and geographic information systems. Lectures accompanied by hands-on exercises. Notes: Only available for students without previous course work in cartography. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 551: *Cartographic Design.* 3 credits.
Focused on the creation and application of maps, with an emphasis on thematic mapping. Includes fundamental mapping principles (projection, scale, generalization, symbolization), spatial data selection and acquisition, and effective design choices for geospatial communication, utilizing mapping software and digital outputs.Additionally considers cartographic research and the usage of spatial data analysis in research contexts. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 553: *Geographic Information Systems.* 3 credits.
Fundamental concepts and theories for appropriate use of geographic information systems (GIS). Topics include social and cultural contexts of the use of geographic information, sources of digital geospatial data, and methods of input, storage, display, and processing of spatial data for geographic analysis using GIS. Lectures, hands-on exercises familiarize students with current technology. Additional focus on published scholarship and current research in the field. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 554: *History of Cartography.* 3 credits.
History of cartographic portrayal of Earth from ancient times through 19th century, emphasizing interrelation of human culture, technological development, and geographical knowledge as reflected in maps. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

GGS 560: *Quantitative Methods.* 3 credits.
Survey of quantitative methods commonly used in geographic research. Emphasizes spatial analysis techniques. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: Previous course work in statistics, or GGS 310 or 550.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 562: *Photogrammetry.* 3 credits.
Treatment of photogrammetric problems, including least squares adjustments, image coordination refinements, collinearity equation, resection, relative orientation, and analytic aerotriangulation. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 412, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 563: *Advanced Geographic Information Systems.* 3 credits.
Discusses advanced GIS concepts including spatial data structure, spatial analysis, programming data fusion, Internet components, and spatial database management. Hands-on activities demonstrate concepts and specific applications in both cultural and physical geography. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 553 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 579: *Remote Sensing.* 3 credits.
Examines use of various types and combinations of electromagnetic energy to obtain spatial information. Concentrates on nonphotographic and spaceborne remote sensing platforms and sensors. Examines essential operational parameters for existing and future systems and strategies for visual extraction of features. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 412, or GGS 550, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 581: *World Food and Population.* 3 credits.
Topics include maldistribution of population, regional disparities in growth rates and income distribution, food production, and world hunger. Discusses population policies, with emphasis on Third World countries. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 590: *Selected Topics in Geography.* 1-3 credits.
Analyzes topics of immediate interest. Notes: Content varies. Offered by Geography/Geoinformation Sci. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

GGS 605: *Systematic Applications of GIS.* 3 credits.
Provides those working with spatially referenced data the technical skills to use GIS to conduct spatial analyses on socioeconomic phenomena related to labor, retail, and real estate markets. Introduces and emphasizes the development of technical and methodological skills to understand the potential and the pitfalls of using GIS for spatial analyses of socioeconomic phenomena. Offered by Geography/Geoinformation Sci. May be repeated within the term.

Recommended Prerequisite: GGS 553

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 615: *Economic Geography.* 3 credits.
Analyzes pattern of distribution of world economic activity, spatial economics behind this pattern, and influence of distribution on other spatial systems. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 622: *Drone Remote Sensing.* 3 credits.
An advanced remote sensing course that focuses on the fundamentals of collecting and processing drone-based sensor data for various scientific applications. Explores the principles involved in drone-based photogrammetry, 3D reconstruction, multi-spectral and LiDAR sensing, whilst providing hands-on experience with drone mission planning, data acquisition and data processing. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 579 or permission of instructor

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 626: *Physical Fundamentals of Remote Sensing.* 3 credits.
An introduction to fundamental physical principles of remote sensing as applied to Earth science. Focus on the physical and mathematical principles underlying satellite remote sensing techniques. Topics include radiometric information, satellite orbits, atmospheric corrections, data records, and in situ measurements. Current and planned satellite instruments, particularly those operated by NASA, NOAA, and USGS, are utilized. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 579

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 629: *Remote Sensing of the Environment and Earth System.* 3 credits.
Theory and methods for remote sensing features and phenomenon comprising the Earth system. Topics include surface and atmospheric information retrieval, radiation budgets, atmospheric gas detection, mapping the cryosphere, measurements of vegetation and biomass, soil moisture, and precipitation. Focus on satellite-based systems, with applications to both passive and active sensor systems. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 579

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 631: *Spatial Agent-Based Models of Human-Environment Interactions.* 3 credits.
Discusses key challenges in spatial modeling of human-environment interactions. Reviews agent-based modeling applications in urban and rural interactions, agriculture, forestry, and other areas. Hands-on development of simple ABM models and investigation of linkages between GIS and ABM. Offered by Geography/Geoinformation Sci. May not be repeated for credit. Equivalent to EVPP 631.

Recommended Prerequisite: GGS 531 or CSS 600, or permission or instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 644: *Fundamentals and Interpretation of Imaging Radar.* 3 credits.
Provides understanding of components, functionality, and use of radar remote sensing for acquiring spatial information. Concentrates on operational systems. Includes hands-on assignments. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 579, or other basic course in remote sensing.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 650: *Introduction to GIS Algorithms and Programming.* 3 credits.
Introduction to programming methods and their application to Geographic Information Systems, including the fundamentals of object-oriented programming and GIS-specific data structures and algorithms. Employs an object-oriented language such as Visual Basic.Net, and existing freeware and commercial GIS libraries. Topics covered include variables, arrays, control structures, objects and classes, raster and vector data structures, spatial algorithms, and spatial indexing methods. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 553 or equivalent introductory GIS course, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 653: *GIS Analysis and Application.* 3 credits.
Explores existing and potential capabilities of geographic information systems in conducting spatial analysis and modeling. Topics include spatial data acquisition and advanced spatial analytical techniques. Major purpose of course is to extend fundamental theories and concepts in GIS so students are able to conduct research with and on GIS. Additionally includes elements on scholarly publication and engagement. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Corequisite: C or better in GGS 311 OR B- or better in GGS 553

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 655: *Geovisualization.* 3 credits.
Cartography course focused on thematic map design, with an objective to produce a portfolio of well-designed, professional grade maps. Theoretical concepts and principles will be introduced using practical examples and written assignments. Includes theoretical concepts and applications of interactivity and animation, and research on map design and analytic cartography. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: B- or better in GGS 550, GGS 551, or permission of instructor

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 656: *The Hydrosphere.* 3 credits.
Covers components and transfer processes in hydrosphere, which consists of aqueous envelope of Earth including oceans, lakes, rivers, snow, ice, glaciers, soil moisture, ground water, and atmospheric water vapor. Offered by Geography/Geoinformation Sci. May not be repeated for credit. Equivalent to EVPP 652.

Recommended Prerequisite: Two semesters of calculus, partial differential equation recommended; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 657: *The Lithosphere.* 3 credits.
Global-scale overview of lithosphere; the solid nonliving Earth, its materials, cycles, plate tectonic and geomorphic processes; and history, including interactions with and history of hydrosphere, atmosphere and biosphere, and methods of analysis. Offered by Geography/Geoinformation Sci. May not be repeated for credit. Equivalent to GEOL 601.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 658: *Terrain Mapping.* 3 credits.
Covers fundamental methods of digitally representing terrain data, major technologies, and programs for generating terrain data; methods for quantifying terrain error and assessing terrain data quality; and a variety of applications. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 553 or equivalent, or permission or instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 660: *Automated Cartography.* 3 credits.
Survey of algorithms and techniques to generalize information on maps and in geographic information systems. Covers simplified representation of geographic objects, surfaces, and thematic information. Includes GIS programming component. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 650 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 661: *Map Projections and Coordinate Systems.* 3 credits.
Covers development of various map projections and coordinate systems, property analysis, distortions, and applications. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 310 or 550

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 664: *Spatial Data Structures.* 3 credits.
Studies spatial data structures and their application in digital cartography, geographic information systems, and image-processing systems. Examines raster and vector data structures, and attribution schemes and topological models. Includes data transformation, information loss, data quality, and the role of metadata. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: B or better in GGS 560.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 670: *Introduction to Atmosphere and Weather.* 3 credits.
Applies climatic concepts to natural and human-modified environments, and analyzes climatic change. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

GGS 671: *Algorithms and Modeling in GIS.* 3 credits.
Examines several fundamental GIS algorithms based upon computational geometry and computer graphics. Also discusses issues in modeling features of different dimensions and surfaces in GIS. Significant programming expected. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: B or better of GGS 560.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 674: *Environmental Impact Analysis.* 3 credits.
Scientific and administrative processes involved in environmental impact analysis and environmental impact statements. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 675: *Location Science.* 3 credits.
This course presents the theory and practice of Location Science - the study of the optimal or near optimal spatial location or allocation of facilities, routes, personnel, or other assets. A variety of algorithms and heuristics for location problems is presented. Lectures and both in-class and take-home exercises reinforce students' mastery of the techniques and understanding of advanced theoretical issues. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 680: *Earth Image Processing.* 3 credits.
Focuses on how geoinformation technologies, including GIS, RS, and GPS, and spatial analytical techniques can be integrated to address various situations in environmental risk assessment, monitoring, and planning. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 416 or GGS 579 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 681: *Social Media Analysis.* 3 credits.
The course covers theory, principles, and analytical techniques in geospatial analysis of social media, including data collection, location-based and cyberspace social network analysis, content analysis, and geovisualization of such data. Examples of applications in various domains are used to demonstrate and explore the use of social media analysis. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 550 or GGS 553 or permission of the instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 684: *Selected Topics in Geospatial Intelligence.* 3 credits.
Covers topics relevant to geospatial intelligence, especially addressing emerging trends, focused intelligence applications, and relevant technological advances, not covered by existing courses. Sample topics addressed in this course include geosensor networks, landmine detection using remote sensing techniques, the use of unmanned aerial vehicles in geospatial intelligence, and the use of virtual reality techniques for geospatial information modeling and analyst training. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Specialized Designation: Topic Varies

Recommended Prerequisite: Students must be admitted to the Geospatial Intelligence Certificate program or have permission from the program's academic director.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 685: *Capstone Course in Geoinformatics.* 3 credits.
This course is intended to provide a capstone experience for graduate students by synthesizing knowledge and experience that they acquired in earlier coursework to address a complex geospatial intelligence problem. The course requires analytical, collaborative, and communication skills. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: 12 credits in the geospatial intelligence certificate program or permission of program coordinator.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 689: *Seminar in Geographic Thought and Methodology.* 3 credits.
Focused on the trajectories and presentation of geographic thought, geographic research techniques, and methods of analysis. Students produce original research that engages current scholarship. Additional content focuses on disciplinary breadth and depth in relation to the student's research interest. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Corequisite: GGS 300 or GGS 560

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GGS 692: *Web-based Geographic Information Systems.* 3 credits.
Management of geospatial data by means of a database system. Communication of geospatial data over the Internet using browser-based interfaces. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 550 or equivalent, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 695: *Geography and Geoinformation Science Graduate Internship.* 1-6 credits.
Approved study programs with specific employers. Students and employer supervisors must demonstrate relevancy of study program to degree requirements. Offered by Geography/Geoinformation Sci. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

GGS 698: *Directed Readings and Research.* 1-3 credits.
Reading and research on specific topic under direction of faculty member. Notes: Written report required; oral exam and report may be required. Offered by Geography/Geoinformation Sci. May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

GGS 700: *Comprehensive Exam.* 1 credit.
Preparation and completion for the comprehensive exam within the GGS department. Instructor should be the chair of the examination committee. The exam committee will specify exam content. Offered by Geography/

Geoinformation Sci. May be repeated within the degree for a maximum 12 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale.

GGS 704: *Spatial Demography.* 3 credits.
Intermediate-level, population geography course discussing demographic concepts and spatial dimensions of population. Features various indices, measures, and models commonly used in human geography. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: Prior courses in quantitative methods and GIS recommended.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 721: *Biogeography.* 3 credits.
Provides broad understanding of how physical geography and environment influence spatial and temporal distribution of plants and animals on Earth's surface. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: Courses in ecology, chemistry, and geology.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 740: *Hyperspectral Imaging Systems.* 3 credits.
Provides requisite materials to understand hyperspectral imaging technology and its many civilian and military applications. Emphasizes scientific principles involved and technology application to real-world imaging systems. Topics include hyperspectral concepts and system tradeoffs; data collection systems; calibration techniques; data processing techniques and software; classification methods; and case studies. Data processing techniques include N-dimensional space, scatterplots, spectral angle mapping, spectral mixture analysis, spectral matching, and mixture tuned matched filtering. Discusses ground, airborne, and spaceborne hyperspectral remote sensing systems. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: CSI 660 or equivalent, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 754: *Earth Science Data and Advanced Data Analysis.* 3 credits.
Covers accessing and applying Earth observations and remote-sensing data for Earth system science research and applications. Major topics are data formats, analysis and visualization tools, advanced data analysis methods, and data applications. Also covers combining innovative information technology techniques and Earth science data to set up online data centers for accessing data through the web. Offered by Geography/Geoinformation Sci. May not be repeated for credit. Equivalent to CSI 754.

Recommended Prerequisite: GGS 579 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 756: *Physical Principles of Remote Sensing.* 3 credits.
Emphasizes fundamental physical and mathematical principles of remote sensing. Also provides overview of the current Earth Observation System as well as the National Polar-Orbiting Operational Environmental Satellite Systems (NPOESS), and NPOESS Preparatory Project missions. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 753 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 759: *Topics in Earth Systems Science.* 1-6 credits.
Covers selected topics in Earth systems and global changes not covered in fixed-content Earth systems and global changes courses. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 760: *Advanced Topics in Remote Sensing.* 3 credits.
Content varies in the area of remote sensing. Offered by Geography/Geoinformation Sci. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: GGS 579 or GGS 680.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 772: *Cloud Geographic Information Systems.* 3 credits.
Examines different aspects of science and technology in the context of distributed GIS. Includes general concepts, architecture, component design and development, and system integration as well as other advanced topics, including interoperability and agent-based GIS. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: Introductory course in GIS and some programming experience, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 773: *Interoperability of Geographic Information Systems.* 3 credits.
Advanced course addressing theories, standards, and implementations of web-based interoperable geographic information systems for online data and information services. Reviews international standards, including OGC, and associated tools for interoperability. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 754 and GGS 553, or a course in GIS.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 777: *Remote Sensing Natural Hazards.* 3 credits.
Provides an overview of major natural hazards, their governing dynamics and remote-sensing techniques used to study, forecast, and mitigate hazards. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 579 or GGS 680; or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 787: *Scientific Data Mining for Geoinformatics.* 3 credits.
Covers specialized data mining algorithms, geoscience data models, and data information systems. Emphasis on domain-specific data mining algorithms suitable for spatial data and spatio-temporal data with geoscience and geoinformatics applications. Introduces real geoscience data mining applications in detailed applications. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: Competency in programming at the level of CSI 601-607 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 791: *Advanced Spatial Statistics.* 3 credits.
Advanced course focusing on analyzing georeferenced or spatial data represented as points or polygons. Addresses higher moments, point pattern analyses, and interpolations of points to surfaces. Includes spatial regression. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Recommended Prerequisite: GGS 560 or STAT 535/554, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GGS 792: *Seminar in Earth Systems Science.* 2 credits.
Capstone experience. Seminars presented by faculty and students. Offered by Geography/Geoinformation Sci. May not be repeated for credit. Equivalent to EVPP 792.

Recommended Prerequisite: 15 Graduate Credits including CSI 655, GGS 656, and GGS 657, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:

This course is graded on the Graduate Regular scale.

GGS 795: *Seminar in Regional Analysis.* 3 credits.
Analyzes and synthesizes physical and cultural elements of geography in selected region. Should be taken near end of master's degree program. Provides opportunity to apply selective knowledge gained in previous systematic courses to specific region. Offered by Geography/Geoinformation Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GGS 798: *Master's Research Project.* 1-6 credits.
Reading project chosen and completed under guidance of graduate faculty member resulting in acceptable technical report. Notes: For students enrolled in Earth Systems Science master's program or the Geoinformatics and Geospatial Intelligence master's program. Offered by Geography/Geoinformation Sci. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Admission to Earth Systems Science MS program or Geoinformatics and Geospatial Intelligence MS, 12 graduate credits, and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

GGS 799: *Thesis.* 1-6 credits.
Degree candidacy and departmental approval of thesis proposal. Offered by Geography/Geoinformation Sci. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Admission to Earth Systems Science MS program or Geoinformatics and Geospatial Intelligence MS, 12 graduate credits, and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

GGS 840: *Hyperspectral Imaging Applications.* 3 credits.
Introduces advanced hyperspectral imaging and multisensor concepts with emphasis on real-world civilian and military applications. Topics include advanced hyperspectral concepts, multisystem tradeoffs, data collection and processing systems, imaging radar systems, laser systems, calibration techniques, data fusion, quantitative remote sensing techniques, data compression techniques, case studies, and U.S. national policy. Applications and case studies include environmental, homeland security, medical, military, disaster mitigation, agricultural, and transportation. Offered by Geography/Geoinformation Sci. May not be repeated for credit. Equivalent to CSI 854.

Recommended Prerequisite: Permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

GGS 900: *Geography and Geoinformation Science Colloquium.* 1 credit.
Presentations in specific research areas of Geography and Geoinformation sciences by faculty and staff, Mason faculty in related programs, and professional visitors. Notes: Maximum 3 credits may be applied to Earth systems and geoinformation sciences PhD. Offered by Geography/Geoinformation Sci. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GGS 998: *Dissertation Proposal.* 1-12 credits.
Covers development of research proposal that forms basis for doctoral dissertation, under guidance of dissertation director and doctoral committee. Notes: May be repeated, but no more than 12 credits of GGS 998 may satisfy doctoral degree requirements. Offered by Geography/Geoinformation Sci. May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: Doctoral student or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

GGS 999: *Dissertation.* 1-12 credits.
Doctoral dissertation research under direction of dissertation advisor. Notes: May be repeated, but no more than total 24 credits in GGS 998 and 999 may be applied to doctoral degree. Offered by Geography/Geoinformation Sci. May be repeated within the degree for a maximum 24 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Geology (GEOL)

100 Level Courses

GEOL 101: *Introductory Geology I.* 4 credits.
Covers Earth, processes that operate within Earth and on surface, and human interaction with Earth. Topics include minerals, earthquakes and seismology, isostasy, igneous processes and rocks, paleomagnetism and plate tectonics, weathering, mass movements, rivers and streams, groundwater, glaciers, and marine processes. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Mason Core: Natural Science with Lab, Encore: Sustainability

Specialized Designation: Green Leaf Related Course

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 102: *Historical Geology.* 3 credits.
Earth processes in historical context. Topics include sedimentary rocks and principles, deformation and metamorphism, mountain building and plate tectonics, geologic time, fossils, and historical development of continents. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Mason Core: Natural Science with Lab, Natural Science Overview, Encore: Sustainability

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: GEOL 101

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 104: *Historical Geology Laboratory.* 1 credit.
Practical investigation of earth processes in historical context. Topics include sedimentary rocks and principles, deformation and metamorphism, mountain building and plate tectonics, geologic time, fossils, and historical development of continents. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Mason Core: Natural Science with Lab

Registration Restrictions:
Required Prerequisites: (GEOL 102[*C], 134[*C], 102[XS] or 134[XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 134: *Evolution and Extinction.* 3 credits.
Evolution and Extinction is a science class for non-science majors that explores how diversity of animals and plants has changed through geologic time, when mass extinctions occurred, when major diversifications of life occurred, and how the position of continents on the surface of the earth influenced the evolution, extinction, and distribution of life, landforms and the atmosphere. Designated a Green Leaf Course. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Mason Core: Natural Science Overview, Encore: Sustainability

Specialized Designation: Green Leaf Related Course

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

GEOL 302: *Mineralogy.* 4 credits.
Crystallographic, optical, chemical, and physical properties of minerals. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Specialized Designation: Mason Impact.

Recommended Prerequisite: GEOL 101 and 102 with a grade of 2.0 or better and CHEM 211.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 303: *Field Mapping Techniques.* 3 credits.
Basic techniques for collecting, recording, and plotting spatial field data including use of topographic maps, compasses, transit, alidade, and global positioning systems (GPS). Designated a Green Leaf Course. Notes: Includes field work. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Specialized Designation: Green Leaf Related Course, Mason Impact.

Recommended Prerequisite: 30 credits including MATH 105 or equivalent and GGS 102 or GEOL 102.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 304: *Sedimentary Geology.* 4 credits.
Introduces sedimentation, sedimentary petrology, facies analysis, and stratigraphy. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (GEOL 101[C] or 101[XS]) and (GEOL 102[C] or 102[XS]) and (GEOL 302[C] or 302[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 305: *Environmental Geology.* 3 credits.
Investigates geological principles directly relating to environmental hazards. Geological causes and effects of natural disasters such as earthquakes, tsunamis, volcanoes, floods and landslides; climate variability and change; prediction of, and planning for geological hazards and disasters and understanding their major societal impacts; and medical geology. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Specialized Designation: Green Leaf Related Course, Writing Intensive in Major

Recommended Prerequisite: GEOL 101 and one of the following: GEOL 102, GEOL/BIOL 309, GGS 309.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 306: *Soil Science.* 3 credits.
Composition, classification, physical properties, and origin of soils. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Specialized Designation: Green Leaf Related Course, Mason Impact.

Recommended Prerequisite: GEOL 101 and CHEM 103 or 211.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 308: *Igneous and Metamorphic Petrology.* 4 credits.
Genesis, classification, and recognition of igneous and metamorphic rocks. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Recommended Prerequisite: MATH 105 or higher, and GEOL 302 (grade of C or higher)

Registration Restrictions:
Required Prerequisites: (GEOL 101[C] or 101[XS]) and (GEOL 102[C] or 102[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 309: *Introduction to Oceanography.* 3 credits.
Introduction to chemical, biological, and geological aspects of oceanic environment. May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts. Equivalent to BIOL 309, EVPP 309.

Recommended Prerequisite: Two of the following lab sciences courses are required for a total of 8 credits: [GEOL 101 or 102], [EVPP 108 and 109 or 112 and 113 or 210], CHEM 211 and 213, [BIOL 103 or 213], [PHYS 160 and 161 or 243 and 244].

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 312: *Invertebrate Paleontology.* 4 credits.
Classification, evolutionary trends, and distribution of common invertebrate fossils. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts. Equivalent to BIOL 336.

Recommended Prerequisite: GEOL 101 and GEOL 102, or BIOL 103, 104, or BIOL 213, 303, 304.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 313: *Hydrogeology.* 3 credits.
Geological and hydrologic factors controlling occurrence, distribution, movement, quality, and development of groundwater. Designated a Green Leaf Course. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: GEOL 101 or GGS 102, MATH 113 and CHEM 211.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 315: *Topics in Geology II.* 1-3 credits.
Discusses particular topic in geology. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: GEOL 101 or GEOL 102 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 316: *Computers in Geology.* 3 credits.
Uses of mainframe and microcomputers, with emphasis on geologic applications. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Recommended Prerequisite: GEOL 101, 102, 302, one semester of mathematics, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 317: *Geomorphology.* 4 credits.
Analyzes processes that occur at Earth's surface and resulting landforms. Labs stress recognition and evaluation of landforms using maps and aerial photographs, and methods of data collection used in study of surficial geology. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: Grade of 2.0 or better in GEOL 101 and 102, or 6 credits of GGS, including GGS 102; GGS 412 is strongly recommended.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 320: *Geology of Earth Resources.* 3 credits.
A survey of earth resources, including metallic and non-metallic ore deposits, mineral resources, precious gems, sand and gravel, water, and air. Designated a Green Leaf Course. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: GEOL 101, GEOL 102, GEOL 302. GEOL 305 strongly suggested.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 321: *Geology of Energy Resources.* 3 credits.
A survey of energy resources, including fossil fuels, renewable, nuclear and unconventional sources. Emphasis on origin, use and implications of development. Designated a Green Leaf Course. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: GEOL 101 or GEOL 102, and completion of all Mason Core science requirements.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 325: *Planetary Geology.* 3 credits.
Covers the geology and geologic processes of the terrestrial planets, moons, and other small bodies in the solar system including dwarf planets, asteroids and comets. The emphasis is on understanding past and present surface geologic processes. Observation session at campus observatory may be required outside of class hours. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: GEOL 101[C], 101[XS], 102[C] or 102[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 332: *Paleoclimatology.* 3 credits.
Explores the natural evolution of Earth's climate with the goal of providing a baseline for understanding present climate variability and future trends through increased knowledge of the physical, chemical, and biological processes that influence climate over the long-term. Designated a Green Leaf Course. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: GEOL 102 or BIOL 103 or EVPP 110.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 334: *Vertebrate Paleontology.* 4 credits.
Vertebrate Paleontology explores the evolution of vertebrates from the early Paleozoic to Recent. The course will cover the systematics, anatomy, paleogeography, and ecology of extinct vertebrates. Discussions will include fishes, early tetrapods & amniotes, dinosaurs, birds and mammals. Lab portion includes paleontology techniques, analysis, and study of fossil specimens and casts. A weekend field trip is included. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts. Equivalent to BIOL 334.

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: Any two courses from the following list: GEOL 101, GEOL 102, BIOL 103, BIOL 104, BIOL 213, BIOL 303 or the permission of the instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 363: *Coastal Morphology and Processes.* 4 credits.
Studies global coastal geomorphology and processes with emphasis on U.S. Atlantic and Gulf coasts. Topics include plate tectonics, sea level changes, sediment supply, waves, tides, storm impacts, and human activities. Lecture and extended weekend field trips to mid-Atlantic coast. Designated a Green Leaf Course. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts. Equivalent to EVPP 363.

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: GEOL 309 or BIOL 309 or GEOL 317 or 9 credit hours in Geography including GGS 309.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 364: *Marine Geology.* 3 credits.
This course will present a global overview of the geologic origin and composition of the ocean seafloor, and an introduction to the basic principles of the geologic processes occurring in the marine environment. Primary topics include geologic, tectonic and sedimentary characteristics of the deep ocean basins and continental margins; transport and deposition of marine sediments; micropaleontology and paleoceanography; geochemistry and hydrothermal systems; and marine mineral resources. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Recommended Prerequisite: GEOL 101, GEOL 102, GEOL 302, and CHEM 211.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 392: *Geology and Earth Science Seminar.* 1 credit.
Undergraduate experience that includes discussion of scientific articles and attneding seminars presented by outside experts, faculty, or students. Offered by Atmospheric/Oceanic/Earth Sci. May be repeated within the degree for a maximum 4 credits.

Recommended Prerequisite: 30 credit hours.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

GEOL 401: *Structural Geology.* 4 credits.
An introduction to both qualitative and quantitative methods of structural geology with emphasis on identifying and analyzing geologic structures in nature as well as learning the fundamentals of geological stress and strain, rock mechanics, and plate tectonics. Notes: field trips may be required. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: ((GEOL 302[C] or 302[XS] and (GEOL 317[C] or 317[XS]) and (GEOL 304[C] or 304[XS])) or GEOL 308[C] or 308[XS]) and (((MATH 110[C] or 110[XS]) and (MATH 111[C] or 111[XS])) or MATH 113[C] or 113[XS]) and (((PHYS 160[C] or 160[XS]) and (PHYS 161[C] or 161[XS])) or ((PHYS 243[C] or 243[XS]) and (PHYS 244[C] or 244[XS]))).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 402: *Geological Development of North America.* 3 credits.
Geological history of North America in terms of plate tectonics. Geological development and history of North America's major regions. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Recommended Prerequisite: GEOL 101, 102, 302, 304, 308 and 401.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 403: *Geochemistry.* 3 credits.
Includes stable isotope, crystal, water, and organic geochemistry; geochronology; and geochemistry of rocks. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Recommended Prerequisite: GEOL 101 and 102, and CHEM 211.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 404: *Geological Field Techniques.* 1-6 credits.
Mapping techniques involved in collecting geological field data. Notes: Includes field work. Offered by Atmospheric/Oceanic/Earth Sci. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: (GEOL 101[C] or 101[XS]) and (GEOL 102[C] or 102[XS]) and (GEOL 302[C] or 302[XS]) and (GEOL 304[C] or 304[XS]) and (GEOL 308[C] or 308[XS]) and (GEOL 317[C] or 317[XS]) and (GEOL 401[C] or 401[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 408: *Practicum for Geology Laboratories.* 1 credit.
Studies techniques to make geology lab effective component in geological education. Discusses developing testing materials, supplemented by experience operating geology course lab section. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Recommended Corequisite: Open only to GEOL/ESS majors with 80 credit hours and permission of Chair.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 409: *Practicum for Geology Laboratories.* 1 credit.
Studies techniques to make geology lab effective component in geological education. Discusses developing testing materials, supplemented by experience operating geology course lab section. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Recommended Prerequisite: Open only to GEOL/ESS majors with 80 credit hours and permission of Chair.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 410: *Research Proposal Preparation.* 1 credit.
Prepares students for research in GEOL 411. Includes literature research, initial data collection, and preparing research proposal. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Recommended Prerequisite: Geology or Earth Science major with 90 credits, cumulative GPA of 2.80 or higher, and permission of the Geology undergraduate coordinator.

Schedule Type: Research

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 411: *Geological Research.* 3 credits.
Geological research: data collection and reduction, interpretation, preparation of written report, and oral presentation of results. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Recommended Prerequisite: GEOL 410.

Schedule Type: Research

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 412: *Physical Oceanography.* 3 credits.
Course describes the global patterns of temperature, salinity, currents and waves in the world's oceans, and how these patterns influence marine biota, climate, and human activity. Course introduces key concepts which explain physical features of the ocean ranging from microscopic turbulence to global circulation. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts. Equivalent to CLIM 412.

Recommended Prerequisite: MATH 113 or MATH 115, and PHYS 160 or PHYS 243, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 417: *Geophysics.* 3 credits.
Basic principles of geophysics including gravity, magnetism, and seismic reflection and refraction. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts. Equivalent to PHYS 417.

Recommended Prerequisite: GEOL 101, MATH 113, one year of PHYS or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 420: *Earth Science and Policy.* 3 credits.
Discusses Earth science issues that have policy implications. Course uses a broad definition of Earth science, from atmosphere to geosphere. Taught seminar-style, with emphasis on discussion, reading, writing, critical analysis, and student oral presentations. Notes: Course may include field trips. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Mason Core: Encore: Sustainability, Synthesis

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: 18 credit hours in major or minor (geology, Earth science, ocean and estuarine science, or global and environmental change), and one of the following social science based courses: EVPP 361; ECON 103; ANTH 114; GGS 103; GLOA 101; GOVT 132 or 133; HIST 125 or 130; or SOCI 101, 102, or 120.

Recommended Corequisite: All other required Mason Core courses.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 441: *Great Events in Earth History.* 3 credits.
Through 4.5 billion years, Earth has undergone tumultuous changes, from the origin of life and atmospheric oxygenation, to mass extinction events and human evolution. In this seminar-style course, each week will involve an in-depth, student-led discussion on one 'Great Event' that helped shape the course of Earth history. The course is also focused on scientific literacy, with emphasis on reading the primary literature and writing/communicating effectively in a scientific setting. Offered by Atmospheric/Oceanic/Earth Sci. Limited to two attempts.

Recommended Prerequisite: GEOL 101

Registration Restrictions:
Required Prerequisites: GEOL 102^{C} or 102^{XS}.
^{C} Requires minimum grade of C.
^{XS} Requires minimum grade of XS.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 458: *Chemical Oceanography.* 3 credits.
The world's oceans, including a variety of closed basins and estuaries, comprise a complex and dynamic system of chemical processes that interact with biological, geological, physical, and atmospheric processes to play a significant role in defining the earth's fragile environment. This course will present an overview of the origin, occurrence, and distribution of the chemical components in sea water and an introduction to the basic principals of the chemical processes taking place in the marine environment. Designated a Green Leaf Course. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts. Equivalent to CHEM 458.

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: CHEM 211 and CHEM 212, and CHEM 321 or GEOL 302.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GEOL 480: *Internship.* 1-3 credits.
Approved study programs with specific employers. Notes: Contact department one semester before enrollment. Offered by Atmospheric/Oceanic/Earth Sci. Limited to three attempts.

Recommended Corequisite: Open only to authorized majors with 90 credit.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

GEOL 500: *Selected Topics in Modern Geology.* 1-3 credits.
Topic designated in class schedule. Notes: Lecture, lab, field trip. Offered by Atmospheric/Oceanic/Earth Sci. May be repeated within the degree.

Specialized Designation: Topic Varies

Recommended Prerequisite: Baccalaureate degree in geology, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

GEOL 501: *Selected Topics in Modern Geology.* 1-3 credits.
Topic designated in class schedule. Lecture, lab, field trip. Offered by Atmospheric/Oceanic/Earth Sci. May be repeated within the degree.

Specialized Designation: Topic Varies

Recommended Prerequisite: Baccalaureate degree in geology or Permission of Instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GEOL 503: *Special Topics in Earth Science.* 1-6 credits.
In-service course to strengthen and update knowledge of Earth science. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. May be repeated within the degree.

Specialized Designation: Topic Varies

Recommended Prerequisite: Employment or anticipated employment as an Earth Science teacher.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GEOL 504: *Sedimentary Geology.* 4 credits.
Introduces sedimentation, sedimentary petrology, facies analysis, and stratigraphy. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((GEOL 101[C] or 101[XS]) and (GEOL 102[C] or 102[XS]) and (GEOL 302[C] or 302[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

GEOL 506: *Soil Science.* 3 credits.
Explores the composition, classification, physical properties, and origin of soils. Offered by Atmospheric/Oceanic/Earth Sci. May not be repeated for credit. Equivalent to EVPP 503.

Recommended Prerequisite: Previous lab-science courses in each of the following: geology and chemistry (8 credit hours); or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GEOL 512: *Invertebrate Paleontology.* 4 credits.
Classification, evolutionary trends, and distribution of common invertebrate fossils. Offered by Atmospheric/Oceanic/Earth Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

GEOL 513: *Hydrogeology.* 3 credits.
Geological and hydrologic factors controlling occurrence, distribution, movement, quality, and development of groundwater. Offered by Atmospheric/Oceanic/Earth Sci. May not be repeated for credit.

Recommended Prerequisite: Previous lab-science courses in each of the following: geology, calculus, and chemistry (12 credit hours); or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GEOL 521: *Geology of Energy Resources.* 3 credits.
Survey of global non-renewable and renewable energy resources. Topics include petroleum, natural gas, coal, nuclear, geothermal, solar, wind, and hydro power, and biofuels. Course discusses global production, usage, impacts and future prospects of these resources, and data capture,

analysis and modeling of finite resources. Offered by Atmospheric/Oceanic/Earth Sci. May not be repeated for credit.

Recommended Prerequisite: GEOL 101 or GEOL 102, and completion of all Mason Core Natural Science requirements or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GEOL 525: *Modeling Earth Signals and Systems.* 3 credits.
Provides instruction on time series analysis customized for Earth signals and systems such as climate, Earth-space orientation, earthquakes, geomagnetism, river flow, tides and many other timedependent phenomena. Concepts including linear systems, filtering, spectrum estimation, harmonic analysis and hypothesis testing are applied to time series data sampled from natural processes to address a variety of scientific problems. Offered by Atmospheric/Oceanic/Earth Sci. May not be repeated for credit.

Recommended Prerequisite: MATH 114 and STAT 250 or equivalent or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GEOL 532: *Paleoclimatology.* 3 credits.
Explores the natural evolution of Earth's climate with the goal of providing a baseline for understanding present climate variability and future trends through increase knowledge of the physical, chemical, and biological processes that influence climate over the long-term. Offered by Atmospheric/Oceanic/Earth Sci. May not be repeated for credit.

Recommended Prerequisite: Previous lab-science courses in geology and/or atmospheric science and/or oceanography (12 credit hours); or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GEOL 534: *Vertebrate Paleontology.* 4 credits.
Explores the evolution of vertebrates from the early Paleozoic to Recent. Covers systematics, anatomy, paleogeography, and ecology of extinct vertebrates. Discussions include fishes, early tetrapods and amniotes, dinosaurs, birds, and mammals. Lab portion includes paleontology techniques, analysis, and study of fossil specimens and casts.Notes: A weekend field trip is included. Students who have taken GEOL 334 as an undergraduate may not take 534 as a graduate student. Offered by Atmospheric/Oceanic/Earth Sci. May not be repeated for credit.

Recommended Prerequisite: Undergraduate degree in biology or geology or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

GEOL 535: *Quantitative Stratigraphy.* 3 credits.
Quantitative stratigraphy is a branch of geology that applies statistics to reconstruct the time sequence of geological events recorded in sedimentary strata. Methods of interpolation and error analysis used for defining stratigraphic boundaries and events, time scale estimation using integrated chronostratigraphy, and intercalibration are examined. Students receive advanced training in graphic correlation, constrained optimization, ranking and scaling, and dynamic programming. Offered by Atmospheric/Oceanic/Earth Sci. May not be repeated for credit.

Recommended Prerequisite: MATH 114 and STAT 250 or equivalent or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GEOL 536: *Paleontology Seminar.* 1-2 credits.
Paleontology Seminar presents topical research in paleontology and paleobiology in a structured discussion among graduate students and paleontology faculty. A theme for the seminar is chosen each semester the course is offered, tailored to the interests of the students. Offered by Atmospheric/Oceanic/Earth Sci. May be repeated within the degree for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GEOL 541: *Great Events in Earth History.* 3 credits.
Through 4.5 billion years, Earth has undergone tumultuous changes, from the origin of life and atmospheric oxygenation, to mass extinction

events and human evolution. In this seminar-style course, each week will involve an in-depth, student-led discussion on one 'Great Event' that helped shape the course of Earth history. The course is also focused on scientific literacy, with emphasis on reading the primary literature and writing/communicating effectively in a scientific setting. Offered by Atmospheric/Oceanic/Earth Sci. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GEOL 553: *Field Mapping Techniques.* 3 credits.
Explores basic techniques for collecting, recording, and plotting spatial field data, including topographic maps, compass, transit, alidade, and global positioning systems. Field work and field based research project. Offered by Atmospheric/Oceanic/Earth Sci. May not be repeated for credit. Equivalent to EVPP 503.

Recommended Prerequisite: Previous courses in geometry or trigonometry or equivalent; and environmental science, geography, or geology or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

GEOL 563: *Coastal Morphology and Processes.* 4 credits.
Investigates global coastal geomorphology and processes, with emphasis on U.S. Atlantic and Gulf coasts. Topics include plate tectonics; sea-level changes; sediment supply; impacts of waves, tides, storms; and human activities. Lecture and extended weekend field trips to U.S. mid-Atlantic coast. Offered by Atmospheric/Oceanic/Earth Sci. May not be repeated for credit. Equivalent to EVPP 563.

Recommended Prerequisite: Previous courses in geology, oceanography marine science, earth science, or physical geography; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GEOL 565: *Paleoceanography.* 3 credits.
Investigates ocean evolution through geologic time. Earth's sediment archive provides proxy data on paleo-ocean chemistry, biology, geology, and physical properties. Class examines proxy reconstructions of oceanic conditions such as circulation, salinity, stratification, anoxia, and biogeochemistry. Discusses the history of ocean basins, with case studies from Precambrian to Holocene. Offered by Atmospheric/Oceanic/Earth Sci. May not be repeated for credit.

Recommended Prerequisite: Previous course in oceanography or marine science and 16 credits of geology or earth science courses, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

GEOL 601: *The Lithosphere.* 3 credits.
Global-scale overview of lithosphere, solid non-living Earth, materials, cycles, plate tectonic and geomorphic processes; and history, including interactions with and history of hydrosphere, atmosphere and biosphere, and methods of analysis. Offered by Atmospheric/Oceanic/Earth Sci. May not be repeated for credit. Equivalent to GGS 657.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GEOL 694: *Supervised Internship.* 3-12 credits.
Training in application of geological skills under supervision of a qualified earth scientist at governmental agency, consulting firm, industry, or other acceptable organization Offered by Atmospheric/Oceanic/Earth Sci. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Permission of student's MS thesis committee, graduate program director and department chair.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

700 Level Courses

GEOL 700: *Comprehensive Exam.* 1 credit.
Preparation for and completion of written comprehensive exam within AOES department. The comprehensive exam is given as part of the degree requirements in lieu of writing a master's thesis. Instructor should be the chair of the examination committee. The exam committee will specify exam content. Notes: No more than 1 credit of GEOL 700 may be applied toward the master's degree. Offered by Atmospheric/Oceanic/Earth Sci. May be repeated within the degree for a maximum 2 credits.

Recommended Prerequisite: At least 15 graduate credits, approved project proposal, and permission of major advisor or chair of the examination committee.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

GEOL 792: *Seminar in Earth Systems Science, Geology, & Earth Science.* 1 credit.
Capstone experience that includes discussion of scientific articles and attending seminars. Seminars presented by outside experts, faculty, and students. Offered by Atmospheric/Oceanic/Earth Sci. May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: 15 Graduate Credits including GEOL 601 or equivalent, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GEOL 798: *Master's Research Project in Earth Systems Science.* 1-6 credits.
Experimental, observational, literature-based, or theoretical research project chosen and completed under guidance of faculty member. Proposal required before enrollment. Comprehensive technical report acceptable to student's committee required for completion. Notes: No more than 6 credits of GEOL 798 may be applied to master's degree. Offered by Atmospheric/Oceanic/Earth Sci. May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: 15 graduate credits, approved project or thesis proposal, and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

GEOL 799: *Master's Thesis in Earth Systems Science.* 1-6 credits.
Experimental, observational, or theoretical research under major advisor's supervision that culminates in production of thesis. Thesis work should be potentially publishable. Offered by Atmospheric/Oceanic/Earth Sci. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Approved thesis proposal by thesis committee, and permission of major advisor or instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

German (GERM)

100 Level Courses

GERM 101: *Elementary German I.* 3 credits.
Designed for students with no knowledge of German. Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Notes: Students may not receive credit for GERM 101 and GERM 105 or 110. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to GERM 110.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

GERM 102: *Elementary German II.* 3 credits.
Continuation of GERM 101. Notes: Students may not receive credit for GERM 102 and GERM 105 or 110. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to GERM 110.

Recommended Prerequisite: GERM 101.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

GERM 110: *Elementary German.* 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Notes: Lab work required. Students may not receive credit for GERM 110 and GERM 101, 102, or 105. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to GERM 101, GERM 102.

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

200 Level Courses

GERM 201: *Intermediate German I.* 3 credits.
Further development of skills in listening, speaking, reading, and writing. Notes: GERM 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: GERM 102, GERM 110, appropriate placement score, or permission of department.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

GERM 202: *Intermediate German II.* 3 credits.
Applies skills to reading, composition, and discussion. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: GERM 201.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Fulfills Frgn Lng requirment, Taught in German

300 Level Courses

GERM 301: *Culture and Civilization.* 3 credits.
Covers development of German civilization from 18th century to present. Includes German cultural contributions to world civilization. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: 60 hours or Permission of Instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GERM 310: *Conversation and Composition.* 3 credits.
Develops fluency in speaking and proficiency in writing German through discussion, reports, and compositions based on texts dealing with contemporary events and issues. Notes: Not for native speakers of German. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: GERM 202 or equivalent, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

GERM 312: *Great Cities in Germany, Austria and Switzerland.* 3 credits.
Examines famous cities, such as Berlin, Nuremberg, Vienna, and Weimar, in their cultural and historical context. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: GERM 202 or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

GERM 315: *German for the Global World.* 3 credits.
Explores the complexity of globalization in the context of Germany in relation to Europe and the greater world. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: GERM 202 or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

GERM 316: *German for the Business World.* 3 credits.
Introduces terminology and structural features of business German. Emphasizes acquiring vocabulary and developing facility in reading German business articles and correspondence. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: GERM 202 or equivalent, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

GERM 318: *Translation of Texts.* 3 credits.
Introduces principles and techniques of translation. Translation of texts from the natural and social sciences, current events, and contemporary culture. Notes: Translations mainly from German into English. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: GERM 202 or equivalent, appropriate placement score, or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

GERM 325: *Major Writers.* 3 credits.
Works of major German, Austrian, and Swiss writers in translation. Notes: Writers studied vary. May be repeated when topic is different with permission of department. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Mason Core: Literature

Recommended Prerequisite: ENGL 101/ENGH 101 or equivalent or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GERM 329: *Representations of the Holocaust.* 3 credits.
Examines the Holocaust through film, literature, autobiography and museum culture. Students critically discuss causes of the Holocaust in Nazi Germany and explore its impact on German, Austrian and American culture. Offered by Modern & Classical Languages. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GERM 340: *Topics in German Literature and Film.* 3 credits.
Topics in German literature and film from Goethe to the present. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: GERM 202 or equivalent, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

GERM 355: *Readings in Poetry (Topic Varies).* 3 credits.
Intensive reading of German poetry in its historical context. Studies genre characteristics and development. Types of poetry studied vary. Notes: May be repeated for credit when subject is different, with permission of department. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: GERM 202 or equivalent, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

GERM 365: *Topics in German History and Culture.* 3 credits.
Studies German narrative prose, such as autobiographical texts, fairy tales, short stories, film, and other forms of (artistic) expression in their historical context. Topics to be studied vary. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: GERM 202 or equivalent, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

GERM 370: *German Through the Arts.* 3 credits.
Focuses on advanced-level language development through the investigation of German arts (film, music, theater, paintings, etc.) in their historical and cultural contexts. Oral and written competence achieved by means of integrated vocabulary and grammar study in content-based instruction. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: GERM 202 or equivalent, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

GERM 375: *Readings in Drama.* 3 credits.
Intensive reading of German dramas in their historical context. Study of genre characteristics and development, including performance aspects. Genre varies; may be historical drama, radio play, or epic theater. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: GERM 202 or equivalent, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

400 Level Courses

GERM 415: *Advanced Grammar and Style.* 3 credits.
Studies syntax, idiomatic features, and levels of style. Extensive practice in different types of written expression. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: 15 hours of GERM or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

GERM 418: *Advanced Composition.* 3 credits.
Develops proficiency in writing German through intensive practice in preparing guided and original compositions. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: Completion of 15 hours of GERM or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

GERM 442: *The Age of Goethe.* 3 credits.
Major works of Enlightenment, Sturm und Drang, Classicism, and early Romanticism. Emphasizes drama and poetry by Goethe and Schiller, with additional works by Lessing, Kleist, and other important writers of the era. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: 15 hours of GERM or Permission of Instructor. Must have satisfactorily completed GERM 440 or 441.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

GERM 444: *The Literature of Romanticism.* 3 credits.
German Romantic poetry and prose. Background and some theory included. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: 15 hours of GERM or Permission of Instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

GERM 480: *Special Topics.* 3 credits.
Special topics on language, literature, or culture by theme, approach, or era. Notes: May be repeated for credit with permission of department. Offered by Modern & Classical Languages. Limited to three attempts.

Specialized Designation: Topic Varies

Recommended Prerequisite: 15 hours of GERM or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in German

Global Affairs (GLOA)

100 Level Courses

GLOA 101: *Introduction to Global Affairs.* 3 credits.
Surveys wide range of global topics: previous periods of globalization, international organizations and law, transnational corporations and global economy, immigration and refugees, world environmental concerns, world culture, war and peace, paradoxical presence of nationalism and fundamentalism in global world, and antiglobalization movement.Offered by Global Affairs. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

GLOA 305: *Global Affairs College-to-Career.* 1 credit.
Focuses on career choices and effective self-presentation for soon-to-be graduating students with majors in Global Affairs. Explores how skills typically learned in humanities majors can be leveraged for a successful transition to post-graduation employment.Offered by Global Affairs. Limited to three attempts. Equivalent to UNIV 420.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

GLOA 400: *Global Affairs Capstone.* 3 credits.
Students draw from interdisciplinary core and concentration coursework in order to synthesize, compare and consolidate the various approaches and theories explored throughout the major through a focus on a pressing global issue. Additionally, course is designed to further develop research, writing, presentation, and organizational skills.Offered by Global Affairs. May be repeated within the term for a maximum 6 credits.

Mason Core: Capstone

Recommended Prerequisite: Completion of GLOA 101 or SOCI 120 and 18 credits in major.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GLOA 450: *Topics in Global Affairs.* 1-3 credits.
Selected topics in global affairs. Content varies. Notes: May be repeated for credit when topic is different.Offered by Global Affairs. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: GLOA 101 or SOCI 120.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GLOA 480: *Study Abroad.* 1-6 credits.
Study abroad under supervision of Mason faculty. Course topics, content, and locations vary. Notes: May be repeated with permission of department.Offered by Global Affairs. May be repeated within the term for a maximum 12 credits.

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

GLOA 490: *Independent Study in Global Affairs.* 1-6 credits.
Reading or research on specific topic related to globalization, under direction of faculty member. Notes: At least one written paper required. Course may involve combination of reading assignments, tutorials, presentations, or off-campus activities.Offered by Global Affairs. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Global Affairs majors with 90 credits, GLOA 101, and permission of instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

GLOA 491: *Honors Seminar in Global Affairs.* 3 credits.
Emphasizes an interdisciplinary approach to the study of global affairs. Covers a variety of topics, including consideration of economic, political, and cultural forces at work in the complex interactions among global processes.Offered by Global Affairs. Limited to three attempts.

Recommended Prerequisite: Admission to Global Affairs honors in the major.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GLOA 492: *Honors Research Project in Global Affairs.* 3 credits.
Honors-level research on specialized topic in Global Affairs culminating in substantial paper and oral presentation.Offered by Global Affairs. Limited to three attempts.

Recommended Prerequisite: Completion of GLOA 491 with minimum grade of B.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GLOA 495: *Global Experiential Learning.* 1-18 credits.
On-the-job training in transnational or international fields through approved internship programs. Notes: Enrollment and credits controlled by Global Affairs Program. Contact Global Affairs Program one semester before planned enrollment.Offered by Global Affairs. May be repeated within the term.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

GLOA 599: *Issues in Global Affairs.* 1-6 credits.
Studies current issues and debates in global affairs. Notes: May be repeated for credit when topic is different.Offered by Global Affairs. May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

GLOA 600: *Global Competencies.* 3 credits.
Explores the nature of globalization. Students will understand the characteristics of the current global system; be familiar with key global issues and debates; have an advanced understanding of and appreciation for organizations, languages, cultures in many global contexts; and be better habituated to thinking across disciplinary lines.Offered by Global Affairs. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GLOA 605: *Interdisciplinary Research Methods.* 3 credits.
Designed to provide students with an overview of basic techniques in quantitative and qualitative methods with special attention to epistemological and ethical concerns in global studies research. Course includes a discussion of the theoretical assumptions that shape research questions and design, practical exercises in research techniques, and analysis of methodology in practice.Offered by Global Affairs. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GLOA 610: *Economic Globalization and Development.* 3 credits.
Focuses on the intersection of countries and firms in the arenas of international trade, investment and finance, as the lenses into understanding better today's "global" economy: countries of differing levels of economic development and economic system structure, factors of monetary union and currency disequilibria, trade liberalization or protectionism, market entry, cross-border variables, risk and relations. Offered by Global Affairs. May not be repeated for credit.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GLOA 615: *Case Studies in Globalization.* 3 credits.
Introduces interdisciplinary, social theoretical approaches and themes useful to understanding today's global issues and then applies them to a particular case study. Considers scholarly debates around globalization in the context of this case study.Offered by Global Affairs. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GLOA 690: *Independent Study.* 3 credits.
Reading or research on specific topic related to globalization, under directions of faculty member. Notes: At least one written paper required. Course may involve combination of reading assignments, tutorials, presentations, or off-campus activities.Offered by Global Affairs. May not be repeated for credit.

Recommended Prerequisite: 12 MA credits and permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment limited to students in the LA-MA-GLOA program.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

GLOA 710: *Seminar Abroad.* 3 credits.
Intensive program in a foreign setting focusing on a deep overview of the research specialization of the supervising faculty member. Required pre-departure component to set the intellectual, logistical and culture terms of the abroad period. Locations vary from year to year. Notes: May be repeated with permission of program.Offered by Global Affairs. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GLOA 720: *Capstone Research Seminar.* 3 credits.
Provides students with the opportunity to engage in significant original research an analysis of a topic in global affairs. Topics vary from year to year.Offered by Global Affairs. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

Global and Community Health (GCH)

200 Level Courses

GCH 205: *Global Health.* 3 credits.
This course examines the biological and social aspects of major international health issues, especially in the areas of infectious disease, nutrition, and environmental health. Other topics include population groups with special risks, policies and programs designed to reduce health inequalities, and basic methods used to study global health. Offered by Global and Community Health. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

GCH 300: *Introduction to Public Health.* 3 credits.
Explores the principles and foundations of public health and its practice in the United States. Emphasizes the public health system's contributions to improving individual, community, and population health. Offered by Global and Community Health. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 305: *Introduction to OneHealth.* 3 credits.
Introduces the transdisciplinary One Health approach of solving complex health issues by recognizing the interconnectedness of human health, animal health and environmental health. A One Health approach to health issues is important because the majority of diseases in humans are spread from animals thus successful public health interventions require the cooperation of human, animal, and environmental health communities. Offered by Global and Community Health. Limited to three attempts.

Recommended Prerequisite: GCH 205 or EVPP 210 or BIOL 213

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 310: *Health Behavior Theories.* 3 credits.
Examines theory for understanding health and health behaviors and their role in the development, implementation, and evaluation of public health programs. Offered by Global and Community Health. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 320: *Community Health and Literature.* 3 credits.
This on-line course explores key historical worldwide public health events and humankind's responses to them, through in-depth study of selected literary works. The course includes investigation of scientific, social, cultural, geographical, and political factors that affect health and policy development on local, community and global levels. Offered by Global and Community Health. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 325: *Stress and Well-Being.* 3 credits.
Explores the influences of stress on population-based health issues. The causes and pathways of the stress experience are explored from an ecological public health perspective. Theoretical aspects of stress and coping are considered, along with methods for relieving and preventing the stress response in both individuals and communities. Offered by Global and Community Health. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 332: *Health and Disease.* 3 credits.
Introduces the etiology, control, and prevention of human disorders from a public health perspective. Focuses on health problems and potential prevention throughout the life span. Offered by Global and Community Health. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 335: *Applied Health Statistics.* 3 credits.
Emphasizes the statistical concepts and procedures used in applied public health practice and research. Students will learn to use SPSS to analyze, interpret, and present statistical findings. Offered by Global and Community Health. Limited to three attempts.

Recommended Prerequisite: Any Mason Core quantitative reasoning course.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 350: *Health Promotion and Education.* 3 credits.
Introduces the principles of health promotion and education, including history; philosophical and theoretical foundations; professional preparation, ethics, and responsibilities; and work settings. Assessment of health information/sources and the development of effective health promotion and education strategies for diverse populations are emphasized. Offered by Global and Community Health. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 360: *Health and Environment.* 3 credits.
Examines principles and methods, risk factors, prevention and control, and policies related to the aspects of human health determined by biological, physical, and chemical factors in the environment at the local, regional, and global levels. Offered by Global and Community Health. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 370: *Sexuality and Human Behavior.* 3 credits.
Introduction to human sexual behavior with an emphasis on the interaction between psychological, social, and biological factors. Topics include sexual differentiation and development, sexually transmitted infections and HIV, sexual orientation, patterns of sexual behavior, and the sexual health of individuals, communities, and global populations. Offered by Global and Community Health. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 376: *Health Ethics, Leadership, and Advocacy.* 3 credits.
Examines legal and ethical issues in public health practice and the skills necessary for effective leadership. Includes personal and organizational ethics, management and leadership styles, and public health advocacy. Offered by Global and Community Health. Limited to three attempts.

Recommended Prerequisite: GCH 350.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 380: *Public Health Research Methods.* 3 credits.
Emphasizes the formation of public health research questions and selection of appropriate study designs to address them. Offered by Global and Community Health. Limited to three attempts.

Specialized Designation: Mason Impact.

Registration Restrictions:
Required Prerequisites: GCH 300^{C} or 300^{XS}.

[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

GCH 405: *Global Health Interventions: History and Systems.* 3 credits.
Examines the history, development, and implementation of international health policies and programs, with an emphasis on maternal and child health, undernutrition, and infectious diseases. Offered by Global and Community Health. Limited to three attempts.

Recommended Prerequisite: GCH 205

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 406: *Global Health Interventions: Emerging Issues.* 3 credits.
Examines strategies for addressing emerging global health issues, with an emphasis on noncommunicable diseases, aging, mental health, and injuries. Offered by Global and Community Health. Limited to three attempts.

Recommended Prerequisite: GCH 205.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 410: *Physical Activity and Public Health.* 3 credits.
Examines the theory, discipline and practice of the emerging field of physical activity and public health. At the population level, physical activity assessment techniques are addressed as well as the effects of physical activity on health. Community-level needs and programs are also analyzed. Offered by Global and Community Health. Limited to three attempts. Equivalent to RHBS 410.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 411: *Health Program Planning and Evaluation.* 3 credits.
Addresses planning, implementation and evaluation of highly effective health programs. Emphasis is placed on using evidence-based approaches to program design and evaluation and working productively with communities. Offered by Global and Community Health. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: (GCH 310[C] or 310[XS]) and (GCH 380[C] or 380[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 412: *Fundamentals of Epidemiology.* 3 credits.
Explores health research methods for measuring population health, designing and implementing observational and experimental studies, reading health science publications, and applying research findings to global and community health. Offered by Global and Community Health. Limited to three attempts.

Recommended Prerequisite: One of the following: GCH 335, STAT 250, BIOL 214, OM 210, PSYC 300, or SOCI 313.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Community Health, Global Health or Public Health.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 426: *Global Emerging Infectious Diseases.* 3 credits.
Explores emerging infectious diseases with an emphasis on prevention and control interventions at the local through global levels. Offered by Global and Community Health. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 445: *Social Determinants of Health.* 3 credits.
Examine the social determinants of health and the application of this framework to social work and public health policy and practice interventions. Explore the many social justice factors that affect health and consider which community systems and social change approaches may decrease or eliminate health inequities. Offered by Global and Community Health. Limited to three attempts. Equivalent to SOCW 445.

Recommended Prerequisite: 45 credits or permission of the instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 450: *Culture, Sexuality and the Global AIDS Epidemic.* 3 credits.
Examines how the cultural values and mores regarding sexuality shape HIV/AIDS social policy and how these values and mores facilitate and hinder prevention and care efforts. Also examines several sexuality-related topics that interface with culture (e.g., gender, the sex industry, homosexuality) and the effectiveness of prevention and care initiatives around such issues as condom use, blood donation restrictions, immigration laws, sex education, and HIV testing. Offered by Global and Community Health. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 465: *Community Health Capstone.* 3 credits.
Analyzes current public health issues, and policies and program used to address these issues. Integrates and applies skills and knowledge learned across the community health curriculum to develop a program that addresses a current public health issue. Develops professional skills

necessary for the field of public health. Offered by Global and Community Health. Limited to three attempts.

Mason Core: Capstone

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: GCH 380[C] or 380[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 466: *Physical Activity in Public Health Capstone.* 3 credits.
Analyzes current physical activity and public health issues, policies, and programs used to address these issues. Integrates and applies skills and knowledge learned across the community health curriculum to develop a legislative advocacy plan that addresses a current physical activity and public health issue. Develops professional skills necessary for the field of public health. Offered by Global and Community Health. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: ((GCH 376[C] or 376[XS]) and (GCH 380[C] or 380[XS]) and (GCH 410[C] or 410[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 480: *Health Maintenance and Health Aspects of Aging.* 3 credits.
Studies physiological and psychological factors that influence health and have implications for preventive measures in disease and health disorders. Examines nutrition, nature of health problems, and methods of assessing physical and psychological needs. Offered by Global and Community Health. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 491: *Study Abroad in Public Health.* 0-6 credits.
Study abroad under supervision of George Mason University faculty. Course topics, content and locations vary. Offered by Global and Community Health. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 494: *Special Topics in Global and Community Health.* 3 credits.
Selected topics analyzing specialized areas in global and community health. Notes: Content varies. Lecture, seminar, laboratory, workshops. Offered by Global and Community Health. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 497: *Pre-Internship Seminar.* 1 credit.
Prepares students for future professional roles including the GCH 498 internship. The coursework will include resume and cover letter writing, interviewing skills, networking, communications, professionalism, job search strategies, and relationship dynamics in the workplace. Students will select and prepare for a possible GCH internship. Notes: This course must be completed with a grade of B or better in order to be considered for enrollment in GCH 498 Community Health Internship. Offered by Global and Community Health. Limited to three attempts.

Recommended Prerequisite: GCH 300 and completion of 60 credit hours, or instructor's permission.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GCH 498: *Global and Community Health Internship.* 3,6 credits.
Provides advanced students with the opportunity to apply community health knowledge while working under the supervision of a community preceptor in a local health organization. Students submit an application to the GCH internship coordinator the semester prior to enrollment for review. Students who have demonstrated academic excellence will receive priority internship placement. Notes: A criminal background check and proof of vaccination status may be required of students prior to beginning an internship. This course provides experiential learning in a community health organization under the direction of a faculty advisor and a preceptor in the community health organization. Students are expected to understand the roles and functions of the community health organization and complete a project approved by the faculty advisor and the preceptor. Offered by Global and Community Health. May be repeated within the degree for a maximum 6 credits.

Recommended Corequisite: GCH 497 with B or better.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

GCH 499: *Independent Study in Global and Community Health.* 1-6 credits.
Provides individual study of a particular problem area in global and community health research, theory development, or education under the direction of faculty. Offered by Global and Community Health. May be repeated within the term for a maximum 6 credits.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

GCH 500: *Foundations of Public Health.* 3 credits.
Focuses on foundational principles and practices of public health, including historical origins, professional competencies, ethics, core functions and essential services, determinants of health, cultural competence, and communication strategies for diverse populations. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 515: *Lesbian, Gay, Bisexual, Transgender, and Queer Health.* 3 credits.
Examines health status and health disparities among lesbian, gay, bisexual, transgender, and queer (LGBTQ) communities across the lifespan. Measurement and methodological considerations in LGBTQ health research, as well as health-related interventions targeting LGBTQ populations will be emphasized. Notes: Offered every other year. Upper level undergraduates interested in taking this course are encouraged to contact the instructor. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 535: *Public Health Preparedness and Response.* 3 credits.
Examines principles and practices of preparedness for and response to all-hazards, with a focus in the US and select global applications. Provides an overview of roles of public health workers and organizations in emergencies. Discusses significance of collaborating and coordinating with emergency management agencies and other stakeholders. Also reviews at-risk individuals, behavioral health, ethical, and legal issues during public health emergencies. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 543: *Global Health.* 3 credits.
Examines the major causes of morbidity, mortality, and disability in high, middle, and low income countries and the social, economic, and environmental factors that contribute to the global burden of disease. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 560: *Environmental Health.* 3 credits.
Examines principles and methods, risk factors, prevention and control, and policies related to the aspects of human health determined by biological, physical, and chemical factors in the environment at the local, regional, and global levels. Offered by Global and Community Health. May not be repeated for credit.

Specialized Designation: Green Leaf Related Course

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 565: *Public Health Toxicology.* 3 credits.
Focuses on the general mechanisms of toxicity and direct and indirect effects of major environmental and occupational agents. Considers the genetic, physiologic, and psychosocial factors that affect susceptibility to adverse health outcomes associated with environmental or occupational hazard exposure. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 571: *HIV/AIDS: Concepts, Principles, and Interventions.* 3 credits.
Overview of HIV disease, including retrospective and current concepts and analyses, global and societal effect, and cutting-edge research. Examines development of therapeutic tools and skills to educate, reduce risks, control infection, and affect care and healing of client, family, and community, and issues of increasing dilemma for health care professionals. Offered by Global and Community Health. May not be repeated for credit. Equivalent to NURS 571.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 591: *Study Abroad in Public Health.* 3 credits.
Study abroad under supervision of George Mason University faculty. Course topics, content and locations vary. Offered by Global and Community Health. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 594: *Special Topics in Global and Community Health.* 3 credits.
Selected topics analyzing specialized areas in health care. Notes: Content varies. Lecture, seminar, laboratory, and workshops. Offered by Global and Community Health. May be repeated within the degree for a maximum 6 credits. Equivalent to HAP 594.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

GCH 600: *Health Promotion Methods.* 3 credits.
Fundamental principles and practices of public health promotion and education, including historical origins; professional responsibilities; ethics; health behavior and learning theories; models for planning, implementing and evaluating programs; health literacy; public health advocacy; and the development, selection and implementation of effective instructional materials, methods, and interventions. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 601: *Introduction to Biostatistics.* 3 credits.
Applies selected biostatistics techniques to public health and health system management issues. Includes univariate and bivariate statistics, and regression analysis. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 604: *Fundamentals of Epidemiology and Biostatistics.* 3 credits.
Introduces methods for measuring population health and designing epidemiological studies, integrating statistical inference and interpretation of epidemiological data. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 607: *Evidence-Based Public Health Practice.* 3 credits.
Examines strategies for implementing evidence-based approaches in public health practice by applying principles of scientific reasoning and

the systematic use of data. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (GCH 604[B-], 604[XS], 712[B-] or 712[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 609: *Community Assessment and Partnerships.* 3 credits.
Examines strategies for conducting community assessments using community-based participatory approaches to identify factors affecting the health and well-being of population and community health. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 610: *Health Behavior Theory.* 3 credits.
Introduces students to the fundamentals of social and behavioral sciences, emphasizing current health behavior theories and models. Students develop an understanding of the theoretical and scientific basis of health promotion/health education interventions and develop community need and asset assessment skills. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 611: *Health Program Planning and Evaluation.* 3 credits.
Addresses the process of program planning, development, and fundamental evaluation principles, emphasizing health promotion programs. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: GCH 609[B-] or 609[XS].
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 618: *Environmental and Occupational Risk Assessment.* 3 credits.
Focuses on how environmental and occupational health risks are identified and quantitatively characterized. Introduces risk communication strategies for technical and non-technical audiences. Introduces students to the development of testable models of chemical exposure. Offered by Global and Community Health. May not be repeated for credit.

Recommended Corequisite: GCH 560.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 620: *Public Health Promotion Strategies.* 3 credits.
Examines the fundamental principles and practices of public health promotion and education, including historical origins; professional responsibilities, competencies, and ethics; structurally and culturally competent programs; health literacy and communication; public health advocacy; and the design of population specific health promotion materials, methods, and evidence-based interventions. Offered by Global and Community Health. May not be repeated for credit.

Recommended Prerequisite: GCH 610

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 626: *Migrant Health.* 3 credits.
Examines principles and methods for addressing the health concerns of migrant and mobile populations, including immigrants, refugees, asylum seekers, internal migrants, and internally displaced persons. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 632: *SAS for Health Research.* 3 credits.
Introduces students to data management and analysis in the SAS statistical package environment. Guides students through the selection and execution of appropriate analyses for different types of data. Teaches students appropriate written presentation and interpretation of data analysis results. Examples focus on applications to public health research. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (GCH 601[B-], 601[XS], 604[B-], 604[XS], 804[B-], 804[XS], HAP 602[B-], 602[XS], 719[B-] or 719[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 640: *Global Infectious Diseases.* 3 credits.
Examines ethical approaches for the prevention and control of infectious and parasitic diseases of global importance. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 645: *U.S. and Global Public Health Systems.* 3 credits.
Examines the organization, financing, and delivery of health services for individuals and populations in the United States and across the globe. Compares international health systems and policies. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 650: *Global Non-Communicable Diseases.* 3 credits.
Examines sustainable, evidence-based approaches for the prevention and management of NCDs of global importance. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 651: *Behavioral Research Methods.* 3 credits.
Explores quantitative and qualitative research methods, principles and techniques necessary for implementation of health science research. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: GCH 601[B-], 601[XS], 804[B-] or 804[XS].
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 690: *Independent Study.* 1-3 credits.
In-depth studies of selected area of health science theory, research, or practice under direction of faculty. Offered by Global and Community Health. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

GCH 691: *Project Management in Public Health.* 3 credits.
Course examines project management roles and environments, the project lifecycle and various techniques of work planning, and control and evaluation to achieve project objectives. Emphasizes leadership, communication, grant writing and ethics. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

GCH 700: *Social and Ecological Determinants of Health.* 3 credits.
Examines the evolution and transformation of public health in the United States and globally. Explores the social and ecological determinants of health that are associated with health disparities, and the public health methods that are essential for Public Health 3.0. Analyzes the models, frameworks, methods, and policies that can be used to bridge the research-practice gap in public health. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 712: *Introduction to Epidemiology.* 3 credits.
Explores epidemiological methods for measuring population health, designing and implementing observational and experimental studies, critically reading the public health literature, and applying research findings to global and community health. Offered by Global and Community Health. May not be repeated for credit.

Recommended Prerequisite: Graduate level statistics course

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 722: *Infectious Disease Epidemiology.* 3 credits.
Focuses on the epidemiology of infectious and parasitic diseases. Emphasizes study design and data analysis to support the prevention and control of communicable diseases. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (GCH 712^{B-}, 712^{XS}, 604^{B-} or 604^{XS}).
$^{B-}$ Requires minimum grade of B-.
^{XS} Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 726: *Advanced Methods in Epidemiology I.* 3 credits.
Develops epidemiological skills through critical review of public health literature and synthesis of evidence. Focuses on interpretation and communication of epidemiological methods and biostatistical analyses. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: GCH 712^{B-} or 712^{XS}.
$^{B-}$ Requires minimum grade of B-.
^{XS} Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 727: *Advanced Methods in Epidemiology II.* 3 credits.
Focuses on the development of testable research hypotheses that address issues of public health significance, utilizing principles of causal inference. Emphasis on linkage of research hypothesis to appropriate and relevant epidemiologic study designs. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (GCH 726^{B-} or 726^{XS}) and (GCH 804^{B-} or 804^{XS}).
$^{B-}$ Requires minimum grade of B-.
^{XS} Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 728: *Meta-Analysis for Population Health Research.* 3 credits.
Focuses on conceptual understanding of the quantitative methods used to synthesize evidence on population health issues. Methods for pooling evidence across independent studies, pooling binary/continuous outcomes, differences between fixed and random effects models, and guidelines for appraising published systematic reviews/meta-analyses. Offered by Global and Community Health. May not be repeated for credit.

Recommended Prerequisite: GCH 726

Registration Restrictions:
Required Prerequisites: (GCH 805[B-], 805[XS], HAP 719[B-], 719[XS], NURS 805[B-] or 805[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 730: *Interventions in Public Health.* 3 credits.
Application of intervention mapping to the design of theory-based interventions for target populations; collaboration with communities to design and implement interventions; selection of evidence-based interventions (EBIs); adaptation of EBIs for new populations; dissemination of EBIs; and cultural and ethical issues related to intervention development, implementation, evaluation, and sustainability. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: GCH 609[B] and 610[B].
[B] Requires minimum grade of B.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 731: *Monitoring and Evaluation of Public Health Interventions.* 3 credits.
Examines frameworks, models, and strategies for monitoring and evaluating public health interventions, including policies and programs. Special emphasis on the development of evaluation and communication plans. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: GCH 730[B].
[B] Requires minimum grade of B.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 732: *Chronic Disease Epidemiology.* 3 credits.
Focuses on the epidemiology of chronic diseases, including cancers, cardiovascular and lung diseases, and mental health disorders. Emphasizes study design, critical reading, and public health approaches to disease control, such as surveillance and screening. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (GCH 712[B-], 712[XS], 604[B-] or 604[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 742: *Behavioral Epidemiology.* 3 credits.
Focuses on applying epidemiological principles to the study of behavior and human health, emphasizing the role of behavior in public health, determinants of behavior, and research methods for studying health and disease in relation to behavior. Notes: Offered every other year. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (GCH 712[B-], 712[XS], 604[B-] or 604[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 752: *Nutritional Epidemiology.* 3 credits.
Focuses on the examination of the methodologies of dietary assessment and their application to design, conduct, analysis, and interpretation of epidemiologic studies related to nutrition. Introduces the practical application of nutritional epidemiology to health programs and policy. Notes: Offered every other year. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (GCH 712[B-], 712[XS], 604[B-] or 604[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 762: *Environmental Epidemiology.* 3 credits.
Focuses on applying epidemiological principles to the study of the environment exposures and human health, emphasizing research methods and data analysis, critical review of research, communication of research results, and applications to public health. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (GCH 712[B-], 712[XS], 604[B-] or 604[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 772: *Social Epidemiology.* 3 credits.
Focuses on applying epidemiological principles to the study of social factors and human health. Prepares students to measure population-level social determinants of health and quantitatively evaluate their relationship with health and disease. Requires students to translate information and analyses into summaries suitable for technical and non-technical audiences. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (GCH 712[B-], 712[XS], 604[B-] or 604[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 780: *Practicum Seminar.* 0 credits.
Provides students with guidance and preparation for engaging in the public health practicum. Notes: This course should be taken one semester prior to enrollment in the GCH 790 Practicum in Public Health and GCH 792 Integrative Learning Experience. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Special scale.

GCH 782: *International Research Ethics and Methods.* 3 credits.
Prepares students to conduct global and community health research. Discusses ethical issues in international health research. Develops plans for identifying a research project, collecting and analyzing data, and reporting results of international health research. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((GCH 543[B-] or 543[XS]) and (GCH 604[B-] or 604[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 790: *Practicum in Public Health.* 3 credits.
The practicum provides students with an in-depth supervised experience in an approved public health organization. The practicum will require students to complete a project related to an actual public health issue that is a focus within the organization. Offered by Global and Community Health. May not be repeated for credit.

Recommended Prerequisite: Students must be enrolled in the MPH program in good standing and have completed 21 credit hours in the MPH program.

Registration Restrictions:
Required Prerequisites: (GCH 780[C], 780[XS] or 780[XP]) and (GCH 792[*B-] or 792[*XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.
[B-] Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale.

GCH 792: *Integrative Learning Experience.* 0 credits.
Provides an integrative learning experience to demonstrate synthesis of the Master of Public Health foundational and concentration competencies. Students produce a written product appropriate to educational and professional objectives. Taken in conjunction with GCH 790 and is part of the MPH practicum requirement. Offered by Global and Community Health. May not be repeated for credit.

Recommended Prerequisite: Must be enrolled in the MPH program in good standing and have completed at least 21 credit hours in the degree program.

Registration Restrictions:

Required Prerequisites: (GCH 790[*B-] or 790[*XS]) and (GCH 780[C], 780[XS] or 780[XP]).
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.
[C] Requires minimum grade of C.
[XP] Requires minimum grade of XP.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

GCH 794: *Global Health Research Capstone.* 3 credits.
Provides a supervised, collaborative research experience on a global health topic that allows students to synthesize, integrate, and apply the knowledge and skills acquired in coursework. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (GCH 651[B-] or 651[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students in the HH-MS-GLOH program.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Special scale.

GCH 795: *Advanced Special Topics in Global and Community Health.* 1-3 credits.
Advanced special topics course to address in-depth study of contemporary areas of global and community health insufficiently covered in other courses. Notes: Fulfills elective requirement for MS in global health degree and global health certificate program. Topics vary. May take up to 6 credits within their degree program. Offered by Global and Community Health. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Must be enrolled in a graduate program and have permission of the instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 799: *Thesis Research.* 1-6 credits.
Thesis research and writing. Offered by Global and Community Health. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Completion of 30 hours in the Master of Science program.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

GCH 804: *Biostatistics for Public Health I.* 3 credits.
Examines regression modeling including ANOVA techniques, linear regression and logistic regression. Using public health and health care research data, students will apply statistical methods and interpret output from a statistical computing package. Offered by Global and Community Health. May not be repeated for credit.

Recommended Prerequisite: A graduate-level statistics course.

Registration Restrictions:
Required Prerequisites: (GCH 604[B-] or 604[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 805: *Biostatistics for Public Health II.* 3 credits.
Examines data analysis techniques for data management, data cleaning, exploratory data analysis, and statistical modeling, and applies these approaches to public health data using a statistical computing package. Introduces advanced statistical analysis techniques including Poisson regression, longitudinal data analysis, survival analysis, and analysis of survey data. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: GCH 804[B-] or 804[XS].
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 806: *Advanced Multivariate Statistics and Data Analysis for Health Care Research.* 3 credits.
Examines canonical correlation, discriminant analysis, factor analysis and causal analysis (path models and structural equation modeling). Students analyze and interpret data using these statistical techniques.

Offered by Global and Community Health. May not be repeated for credit. Equivalent to NURS 806.

Recommended Prerequisite: GCH 805 or NURS 805, or equivalent multivariate statistics course.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 807: *Measurement Theories and Applications in Public Health Research.* 3 credits.
Theories, principles, and techniques presented as foundation for the development and evaluation of instruments for use in health care research. Includes review of statistical techniques required for understanding measurement theory, reliability, validity, item analysis, and instrument construction. Students required to design, construct, administer, analyze, and evaluate an original instrument or evaluate an existing instrument in health care research. Notes: Completion of GCH 805/NURS 805 or GCH 806/NURS 806 is highly recommended. Offered by Global and Community Health. May not be repeated for credit.

Recommended Prerequisite: GCH 805/NURS 805 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 814: *Biostatistics for Public Health III.* 3 credits.
Examines statistical techniques for the analysis of longitudinal, multilevel, survival, and other epidemiologic data. For epidemiologic research hypotheses, students will select appropriate state-of-the-art statistical methods, utilize statistical computing software to evaluate results, and communicate scientific findings. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (GCH 805[B-] or 805[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 824: *Advanced Data Analysis for Epidemiologic Research.* 3 credits.
Emphasizes theory and practice of advanced computational methods for controlling for confounding, evaluating effect modification, and approaches for addressing missing data, using multivariable and other models in the context of major epidemiological study designs. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: GCH 814[B].
[B] Requires minimum grade of B.

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 826: *Design of Epidemiologic Research.* 3 credits.
Focuses on the application of strategies for addressing key methodologic challenges that arise when carrying out epidemiologic research and incorporates experiential learning components. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: GCH 727[B] and 805[B].
[B] Requires minimum grade of B.

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 830: *Research Grant Writing for Public Health.* 3 credits.
Examines universal principles and concepts of writing effective research grant applications for public health with the emphasis on submitting proposals to agencies that support public health research. Offered by Global and Community Health. May not be repeated for credit.

Recommended Prerequisite: GCH 726 and GCH 805/NURS 805/HAP 719

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 851: *Advanced Research Designs and Analysis for Social and Behavioral Health Sciences.* 3 credits.
Examines and analyzes data from group-randomized and controlled quasi-experimental trials, including longitudinal and time-series experiments in social and behavioral public health research. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: GCH 804[B] and 651[B].
[B] Requires minimum grade of B.

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GCH 880: *Epidemiologic Research Seminar.* 3 credits.
Facilitates the development of students' dissertation research through an emphasis on critical review of the epidemiologic research literature. Includes integrative discussions of contemporary challenges in epidemiology. Offered by Global and Community Health. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: GCH 727[*B] and 814[*B].
[*] May be taken concurrently.
[B] Requires minimum grade of B.

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GCH 890: *Doctoral Seminar.* 0-3 credits.
Explores contemporary issues and innovations in public health research and population health. Focuses on the responsible conduct of research. Emphasizes professional development activities, such as scientific communication skills, preparing for the job market, and career planning. Offered by Global and Community Health. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

900 Level Courses

GCH 998: *Doctoral Dissertation Proposal.* 1-9 credits.
Focuses on the development of a doctoral dissertation proposal in their area of concentration under the direction of their dissertation committee. Includes the development of research hypotheses, literature review, study methods, data analysis, and detailed publication strategy. Offered by Global and Community Health. May be repeated within the degree for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

GCH 999: *Doctoral Dissertation.* 1-9 credits.
Doctoral dissertation research and defense under the direction of their dissertation committee. Offered by Global and Community Health. May be repeated within the degree for a maximum 18 credits.

Registration Restrictions:
Required Prerequisite: GCH 998.

Enrollment limited to students with a class of Advanced to Candidacy.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Government (GOVT)

100 Level Courses

GOVT 101: *Democratic Theory and Practice.* 3 credits.
Comparative exploration; topics include contemporary analysis of the meanings of liberty, equality, representation, property rights, voting rights, and civil responsibilities. Offered by Schar School of Policy & Govt. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 103: *Introduction to American Government.* 3 credits.
An overview of key organizing principles of American government, including its institutions, history, and various aspects of political participation. Offered by Schar School of Policy & Govt. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 132: *Introduction to International Politics.* 3 credits.
Nature of international politics, approaches to study of international politics, state and nonstate actors in international system, patterns of action and interaction between nation-states, international institutions, and major global issues. Offered by Schar School of Policy & Govt. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 133: *Introduction to Comparative Politics.* 3 credits.
Discusses methods and subject matter of comparative political analysis. Includes political systems, politics, participation in politics,

government structures, policy-making process, and evaluation of political performance. Offered by Schar School of Policy & Govt. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 134: *Grand Challenges to Human Security.* 3 credits.
The complexity and diversity of the international system gives rise to myriad security threats outside of the traditional force- and conflict-based study of international security. This course provides the tools to understand, reflect on, and critically examine broad contextual threats to global security, including: demographic change, environmental (climate change, pollution and habitat destruction) change, technological change (impact on jobs, decent work and job creation), sustainable development (keeping in mind climate change and impact on agriculture, for example), forced migration, humanitarian emergencies, and the United Nations (UN) human security approach to identify challenges and approaches to tackle these issues.Offered by Policy, Govt, and Intl Affairs. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

GOVT 300: *Research Methods and Analysis.* 4 credits.
Emphasizes asking clear, researchable questions and using appropriate evidence to answer them. Introduces broad range of evidence including quantitative and qualitative information. Studies design and analysis of surveys, government archives, case studies, and interpretations of events in journals. Examines ethical implications of information technologies. Notes: Required for all majors in government and international politics, and public administration. Strongly recommended before or during first semester of enrolling in 300-level courses. Offered by Schar School of Policy & Govt. Limited to three attempts.

Mason Core: Info Tech & Computing

Recommended Prerequisite: 60 hours or permission of instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 301: *Public Law and the Judicial Process.* 3 credits.
American judicial organization and operation, role of the Supreme Court in policy formation, and selected constitutional principles. Offered by Schar School of Policy & Govt. Limited to three attempts. Equivalent to CRIM 301.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 302: *American Political Development.* 3 credits.
Examines American political development, both in itself and compared to other nations. Addresses the extent to which theUnited States has or has not been exceptional in its development as a nation state. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 103.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 304: *American State and Local Government.* 3 credits.
Nature, organization, functions, and problems of American state and local governments. Notes: Students may not receive credit for GOVT 204 and 304. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 305: *Contemporary American Federalism.* 3 credits.
Legal, administrative, fiscal, and political dimensions of evolving American federalism. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 307: *Legislative Behavior.* 3 credits.
Organization, processes, functions, and roles of legislature and U.S. Congress members. Topics include state legislatures and cross-national comparisons as time and resources permit. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 308: *The American Presidency.* 3 credits.
Survey of modern presidency, including constitutional origins of office, growth and influence of White House staff, Cabinet, presidential appointees and control of executive branch, relations with Congress, and domestic and national security policy making. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 309: *Government and Politics of Metropolitan Areas.* 3 credits.
Government, politics, and problems of metropolitan centers and surrounding areas. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 311: *Public Opinion and Electoral Behavior.* 3 credits.
Studies actions of voters, candidates, and political parties in relation to the expression of relevant public opinion in a democratic system. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 103 and 300.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 312: *Political Parties and Campaigns.* 3 credits.
Characteristics and functions of political parties, influence of parties and other political forces on electoral decisions, and emphasis on parties' inability or ability to hold government accountable to citizens. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 313: *Political Psychology.* 3 credits.
Examines political topics through a psychological lens. Review of theoretical approaches, methods and themes. Political psychology has been used to explore the motivation of presidents, why some groups will seek to kill off other groups through acts of genocide, how the authoritarian state can emerge, and what goes through your mind as you go to cast your ballot on Election Day. Offered by Schar School of Policy & Govt. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 318: *Interest Groups, Lobbying, and the Political Process.* 3 credits.
Role, internal operations, strategies, and activities of interest groups. Evaluates ability of these groups to enable citizens to influence or control government and enhance democratic process. Considers conditions under which social movements become, or fail to become, effective interest groups. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 319: *Issues in Government and Politics.* 1-3 credits.
Studies special issues relevant to government and politics. Topics announced in advance. Examples include politics and the arts, ethnic conflict and the political system, gender politics, and changing dynamics in political institutions. Notes: May be repeated when topic is different with permission of department. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 322: *International Relations Theory.* 3 credits.
Advanced inquiry into international relations. Studies theories, concepts of international relations, and major forces and issues in international politics. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 132 or 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 323: *Classical Western Political Theory.* 3 credits.
Lectures, discussions of developments in Western tradition of political thought from time of Greek city-state to late medieval Christendom. Topics include nature and purpose of politics, relationship between individual and state, political significance of religion and tradition, and concept of natural law. Offered by Schar School of Policy & Govt. Limited to three attempts. Equivalent to PHIL 323.

Recommended Prerequisite: GOVT 101, or three credits of Philosophy.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 324: *Modern Western Political Theory.* 3 credits.
Lectures, discussions of developments in Western tradition of political thought from Renaissance to mid-19th century. Topics include rise of individualism in political theory, early developments in social contact theory, theories of radical popular sovereignty, and early criticisms of liberal theory. Offered by Schar School of Policy & Govt. Limited to three attempts. Equivalent to PHIL 324.

Recommended Prerequisite: GOVT 101, or three credits of Philosophy.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 327: *Contemporary Western Political Theory.* 3 credits.
Lectures, discussions of developments in Western tradition of political thought from mid-19th century to today. Different sections focus on various political theories that have been influential during this period, such as liberal, libertarian, conservative, communitarian, Marxist, feminist, and postmodern thought. Notes: May be repeated when topic

is different. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 12 credits. Equivalent to PHIL 327.

Recommended Prerequisite: GOVT 101 or three credits of Philosophy.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 328: *Global Political Theory.* 3 credits.
Theory and history of political community, governance, and development as understood around the world, including China, Japan, India, Africa, Latin America, and the Islamic world; relations of power in modern conceptions of the political; comparative visions of world order in the context of emerging global powers. Offered by Schar School of Policy & Govt. Limited to three attempts.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: GOVT 101 or 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 329: *Issues in Political Theories and Values.* 1-3 credits.
Studies special issues relevant to theoretical and value aspects of government and politics. Topics announced in advance. Examples include ethics and politics, ethics and environmental policy, changing perspectives on civil rights and liberties, religion and politics, and changing views of public space. Notes: May be repeated when topic is different with permission of department. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 331: *Government and Politics of Latin America.* 3 credits.
Contemporary political systems of Latin America, with emphasis on institutions, political processes, and political behavior. Presents case studies of several key Latin American politics; discusses problems of political development. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 332: *Government and Politics of the Middle East and North Africa.* 3 credits.
Societies of Middle East and North Africa and their response to impact of internal sociocultural-political determinants and external forces. Focuses on contemporary politics, ideologies, popular manifestations, institutions, and operations. Offered by Schar School of Policy & Govt. Limited to three attempts.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 333: *Government and Politics of Asia.* 3 credits.
Government structures and political processes of Asian countries. Examines patterns of conflict and cooperation, and issues of economic development and political reform in rapidly changing world. Offered by Schar School of Policy & Govt. Limited to three attempts.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 334: *Government and Politics of Europe.* 3 credits.
Examines governance and political systems in Europe at the national and supranational levels, with emphasis on actors, institutions, processes, and behavior. Explores key policies in a variety of fields, such as social policy, migration, and economic and monetary union. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 337: *Ethnic Politics in Western Europe and North America.* 3 credits.
Studies resurgence of ethnic nationalism in industrial democracies of Western Europe and North America, and the comparative analysis of policy issues related to ethnonationalism. Case studies drawn from the industrial democracies. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 338: *Government and Politics of Russia.* 3 credits.
Examines continuity and change in Russia's Soviet era and post-Soviet era politics and international relations. Offered by Schar School of Policy & Govt. Limited to three attempts.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 339: *Issues in the Politics of Advanced Industrial Societies.* 1-3 credits.
Studies selected current political issues in industrial democracies of Western Europe and North America. Specific topics chosen each semester to reflect contemporary political concerns in these countries, but political process in advanced industrial countries is organizing principle throughout the course. Notes: May be repeated when topic is different. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: GOVT 103 or 133 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 340: *Central Asian Politics.* 3 credits.
Comparative examination of political change in Central Asia with attention to national identity formation, political economy, political conflict, political Islam, and democratization. Offered by Schar School of Policy & Govt. Limited to three attempts.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 341: *Chinese Foreign Policy.* 3 credits.
Discusses theories and practices of Chinese foreign policy decision making, which are then used to understand China's relations with United States, Japan, Russia, Europe, and its Asian neighbors, and China's policy in issues such as human rights, environmental protection, and nuclear nonproliferation. Offered by Schar School of Policy & Govt. Limited to three attempts.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 342: *Diplomacy.* 3 credits.
Origins of organized diplomacy: tasks, procedures, instruments, and problems of diplomacy. Emphasizes current, future roles of diplomacy. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 343: *International Political Economy.* 3 credits.
Introduces international political economy. Examines interplay of economics and politics, and applies these to different issues. Focuses on issues of contemporary significance, with attention to historical issues and basic political and economic concepts. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 132, 133; or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 344: *American Foreign Policy.* 3 credits.
Central issues surrounding the conduct of America's foreign relations, with special emphasis on structural and constitutional questions, national policy objectives abroad, and conduct of foreign policy in a democracy. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 345: *Islam and Politics.* 3 credits.
Covers politics of religion in Muslim societies; history, ideology, and practices of key individuals, movements, and institutions; case studies of political Islam in the Middle East, Asia, Africa, and the West; plurality and diversity of political expression in Muslim world; nature of democracy in Islam; and Islamic state. Offered by Schar School of Policy & Govt. Limited to three attempts.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 346: *American Security Policy.* 3 credits.
Approaches U.S. National security policy from perspective of organization and implementation of specific policies. Applies theoretical concerns to historic cases to illuminate problems that continue to challenge country. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 347: *International Security.* 3 credits.
Explores enduring security problems and new developments. Examines effects of international system on defense policies of states, particularly tensions of world caught between emerging interdependence and national demands. Encourages development of critical-thinking and group and oral presentation skills. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 132.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 348: *Political Violence and Civil War.* 3 credits.
Covers major theories on the causes and consequences of political violence and civil war. Topics include the onset of civil wars, civil war processes, conflict termination, and post-conflict recovery. Covers practical public policy issues of conflict resolution and intervention, as well as methodological approaches and challenges in political violence research. Issues of political violence and civil war are explored in diverse world regions.Offered by Policy, Govt, and Intl Affairs. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 351: *Administration in the Political System.* 3 credits.
Administrative structures and processes in political setting of public management. Presents organization and administrative theory, critiques, and current practices; and examines impact of changes in social, political, and economic environment on concepts, models. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 353: *Social Entrepreneurship.* 3 credits.
Introduces students to the different steps that social entrepreneurs work through to drive social change: identifying problem to address, developing a strategy to address the social need, fundraising, growing the organization, tracking results, and maximizing impact. Offered by Schar School of Policy & Govt. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 354: *Nonprofit Sector in Society.* 3 credits.
Introduces students to the thousands of soup kitchens, shelters, health clinics, educational institutions, arts agencies, and other organizations that make up the U.S. nonprofit sector. Topics covered include: the internal structure and operation of nonprofits; the role of nonprofits in delivering services, advocating for particular points of view, and providing vehicles for caring and self-expression; and the partnerships that nonprofits form with donors, government agencies, and businesses to address social problems. Offered by Schar School of Policy & Govt. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 355: *Public Personnel Administration.* 3 credits.
Analyzes techniques and tools in human resource management including merit system, classification, compensation, evaluation, recruitment, and labor relations. Emphasizes current legal and policy issues in personnel administration, such as diversity and privatization. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 351.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 356: *Public Budgeting and Finance.* 3 credits.
Covers tools and techniques in budgeting and financial management in U.S. governments, including management of public financial institutions, budgetary process and reform, and relationship of public budgeting to national economic policy. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 351.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 357: *Urban Planning.* 3 credits.
Reviews spatial, policy, and administration principles that guide urban planning activities in the United States. Outlines differences between theory and practice and provides tools, methods, and perspectives commonly incorporated into practice of urban planning and policy analysis. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 351

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 358: *Nonprofit Financial Planning.* 4 credits.
Provides understanding of social mission and entrepreneurial cross pressures underlying financial planning and accounting in nonprofit sector. Topics include revenue sources and projections, entrepreneurial techniques, and cost analysis for nonprofit and nongovernmental entities. Lectures, student case studies. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: 60 credits or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 361: *Introduction to Environmental Policy.* 3 credits.
Environmental politics and policy making since the 1970s. Primarily U.S. focus, with some discussion of global issues. Examines policy strategies and outcomes, ethical and economic debates, political controversies, lawmaking and enforcement, and role of key players. Offered by Schar School of Policy & Govt. Limited to three attempts. Equivalent to EVPP 361.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: 30 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 362: *Intermediate Environmental Policy.* 3 credits.
Examines environmental issues building on learning objectives from GOVT 361. Focuses on environmental and policy issues in the US and internationally, exploring the politics of nature and the interaction of environmental science and politics and resulting controversy. Risk and uncertainty loom large in most environmental issues. Covers "natural" disasters as well as direct "man-made" problems. Offered by Schar School of Policy & Govt. May be repeated within the degree for a maximum 12 credits. Equivalent to EVPP 362.

Recommended Prerequisite: EVPP 361 or GOVT 361 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 364: *Public Policy Making.* 3 credits.
Processes, agencies, and politics involved in the proposal making, implementation, evaluation, and revision of U.S. public policy. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 365: *State and Regional Public Policy.* 3 credits.
Examines public policy decisions that affect local and state jurisdictions in context of federal system of government. Examines context, substance, and impact of such policies as housing, transportation, land use, crime prevention, service delivery, and health care. Offered by Schar School of Policy & Govt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 366: *Public Policy Analysis.* 3 credits.
Methods of public policy analysis, evaluation, and research. Studies design and development of alternative courses of government action and evaluation of results, and problems in applying systematic analysis to political issues. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 300.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 367: *Money, Markets and Economic Policy.* 3 credits.
Applies basic economic concepts and principles to issues facing the U.S. and global economies. Topics include productivity and economic growth, taxes, health care, globalization, income distribution and financial crises, with an emphasis on market structure, social institutions and the not-always rational behavior of investors and consumers. Offered by Schar School of Policy & Govt. Limited to three attempts. Equivalent to ECON 367.

Mason Core: Social/Behavioral Sciences

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 368: *Tools for Economic Policy Analysis.* 3 credits.
This course outlines the economic framework for studying public policy, taking a more quantitative approach than GOVT 367. Topics include consumer and producer behavior under different market structures, how and why markets can fail to produce socially desirable outcomes, income distribution, and macroeconomic growth. Emphasizes using economic models to evaluate both market outcomes and policy interventions. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 367.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 398: *Study Abroad.* 3 credits.
Study abroad. Course topics, content, and locations vary. Notes: GOVT 398 may only be applied to a major or minor with prior written approval from the department. A maximum of 6 credits may be applied to the BA in government and international politics, the BS in public administration, or any minor offered by the Schar School of Policy and Government. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 12 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 399: *Research Practicum.* 1-3 credits.
Applies research methods in context of assisting with faculty research. Individualized sections taught by arrangement with full-time faculty. Methods adopted vary, but generally include library research, data collection, data analysis, and report construction. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: GOVT 300 and Permission of Instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

GOVT 400: *Issues in Political Analysis.* 1-3 credits.
Studies special issues relevant to analytical approaches to studying government and politics. Topics announced in advance. Examples include advanced statistical methods, time series analysis, game theory, social network analysis, geographic information systems for politics, social science experiments, and causal inference. Notes: May be repeated when topic is different with permission of department. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 9 credits. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Required Prerequisites: GOVT 300[C] or 300[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 407: *Law and Society.* 3 credits.
Explores relationship between law and society, including concept of law; origin, development, and role of law in society; and relationship between law and social change. Assesses different approaches and methodologies. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: CRIM 100 or GOVT 301.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 409: *Virginia Government and Politics.* 3 credits.
Examines history of politics in Virginia and current political issues. Particular attention to changing dynamics of political parties, key legislative issues, and policies of recent administrations. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 412: *Politics and the Mass Media.* 3 credits.
Responsibilities and freedoms of mass media in democracy. Explores Influence of media on citizens' opinions, elections, and decisions of public officials. Offered by Schar School of Policy & Govt. Limited to three attempts. Equivalent to COMM 412.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 414: *Politics of Race and Gender.* 3 credits.
Examines political, economic, and social impact of public policies and implications for race, gender, and age. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 420: *American Political Thought.* 3 credits.
Major political values and theories in America from formation of American republic to present. Covers changes in American political values in crisis periods and contemporary American political theory including pluralism, elite theories of democracy, and empirical political theory. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 422: *Constitutional Interpretation.* 3 credits.
Examines Supreme Court's interpretation of constitutional powers of Congress, presidency, and judiciary. Includes examination of major decisions concerning state regulation, taxation, and interstate relations. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 423: *Constitutional Law: Civil Rights and Liberties.* 3 credits.
Studies First Amendment freedoms of speech, press, assembly, association, and religion; right to privacy; and Fourteenth Amendment equal protection. Offered by Schar School of Policy & Govt. Limited to three attempts. Equivalent to CRIM 423.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 427: *Feminist Political Thought.* 3 credits.
Explores feminist political thought in historical context. Topics include feminist political movements, feminist critiques of political philosophy, and feminist contributions to political theory. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 101, WMST 200, 3 credits of PHIL, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 428: *Advanced Democratic Theory.* 3 credits.
Explores various theoretical approaches to nature and justification of democracy. Topics may include liberal, communitarian, pluralist, and deliberative theories and their critics; constitutionalism; role of markets; and transnational democracy. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 101; or one course in PHIL.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 430: *Comparative Political Leadership.* 3 credits.
Comparative political leadership, relationships between political cultures and types of leadership, patterns of leadership recruitment, and linkages

between political elites and citizenry. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 433: *Political Economy of East Asia.* 3 credits.
Discusses different theoretical perspectives of East Asian political economy; transformation of East Asia; and issues such as money, finance, trade, investment, environment, and energy. Focuses on issues of contemporary significance, but attention also given to history. Offered by Schar School of Policy & Govt. Limited to three attempts.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: GOVT 133 and 60 credits, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 434: *Democracy in Global Perspective.* 3 credits.
Comparative study of structures and performance of democracies around the world since 1975. Examines growing influence of global forces such as economy, media, and culture in process of democratization. Examines select current elections. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 435: *Data Analysis for Comparative and International Politics.* 3 credits.
Provides practical tools for organizing and conducting original empirical research in the fields of comparative and international politics. The course considers both the analytical logic of quantitative methods and their practical application using statistical software. Topics may include (but are not limited to) data management practice, comparative public opinion, categorizing regime types, implications of international organization, global health and energy policy, and empirically assessing political violence, conflict, and civil war.Offered by Policy, Govt, and Intl Affairs. Limited to three attempts.

Recommended Prerequisite: GOVT 300 and 3 credits of Mason Core Quantitative Reasoning

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 441: *Grand Strategy.* 3 credits.
Why, how, and for what purposes do states employ their national power abroad? This is a big question that cuts to the core of higher-order questions regarding foreign policy formulation and deployment. This class provides an advanced introduction to the relationship between war, peacetime settlements, politics, and strategy.Offered by Policy, Govt, and Intl Affairs. Limited to three attempts.

Recommended Prerequisite: GOVT 132

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 443: *Law and Ethics of War.* 3 credits.
Explores sources of morality in armed conflict, and implications of such ideas for international relations. Examines content and philosophy of modern law of war. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 132.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 444: *Issues in International Studies.* 1-3 credits.
Major issues in international systems, including international political economy and security. Notes: May be repeated when topic is different with permission of department. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 445: *Human Rights.* 3 credits.
Explores philosophical, legal, and political issues at heart of modern international human rights movement. Examines historical background legal architecture of modern human rights movement. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 132.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 446: *International Law and Organization.* 3 credits.
Nature, sources, and subject of law of nations; law and individual; territorial questions; nature, sources, and functions of international organizations; international transactions and organizations; war and present; and future status of international law. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 447: *Revolution and International Politics.* 3 credits.
Historical overview of modern revolutions as well as different theories about causes and consequences of revolutions. Special attention to Marxist-Leninist, Arab nationalist, and Islamic revolutions. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 448: *Ethics and International Politics.* 3 credits.
Ethics and international politics ask students to wrestle with dilemmas raised by a desire to behave morally in an international system in which consensus about ethical matters is absent. Distributive justice and use of force are two overarching themes. Students also develop, apply, and justify their own perspectives on ethical problem using philosophical theory, history, and social science research. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: 60 hours and GOVT 132 or PHIL 151.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 452: *Administrative Law and Procedures.* 3 credits.
Law of public office. Studies procedures followed by and the legal limits on administrative agencies and their officers and employees. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: GOVT 351.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 460: *Surveillance and Privacy in Contemporary Society.* 3 credits.
Philosophical perspectives, historical context, technological developments, and institutional changes that surround controversies about privacy and surveillance in contemporary society. Explores public and private institutions doing surveillance, how they calculate and manage risk, and legal constraints on surveillance activities. Offered by Schar School of Policy & Govt. Limited to three attempts. Equivalent to CRIM 460.

Recommended Prerequisite: CRIM 100.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 464: *Issues in Public Policy and Administration.* 1-3 credits.
Analyzes selected policy issues in administering public policies. Topics announced in advance. Examples include environmental policy, government regulation, federal mandates, state policy, and regional policy. Notes: May be repeated when topic is different with permission of department. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: GOVT 103 plus 60 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 467: *Current Issues in Economic Policy.* 3 credits.
Applies basic concepts of economics, political science and ethics to some of the most pressing issues facing the U.S. and global economies. Topics include productivity and economic growth, taxes, soaring costs for health care and higher education, globalization, income inequality, financial crises, the size of government and the proper role of regulation. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: Open to PPE concentrators or permission of instructor.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 469: *Philosophy, Politics, and Economics.* 3 credits.
Covers issues in the philosophy, economics, and political science of institutions, information, and collective action. Through case studies of existing legal and political institutions, applies the insights to problems in politics, policy making, social theory, and social, moral, and political philosophy. (Specific content varies). Offered by Schar School of Policy & Govt. Limited to three attempts. Equivalent to ECON 460, PHIL 460.

Recommended Prerequisite: PHIL 358, ECON 412, and GOVT 467, or permission of instructor.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 480: *Internship.* 3 credits.
Approved internships with specific employer. Programs relate in some capacity to government, politics, public policy, or the law. For 3 credits, a minimum of 135 hours is required. 3 credits of GOVT 480 may be applied to field study requirements. No more than 6 credits of GOVT 480 may be applied toward a student's 120 (Schar) degree applicable credits. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: GOVT 101, GOVT 103, GOVT 132, and GOVT 133.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

GOVT 490: *Synthesis Seminar.* 3 credits.
Readings, individual or group projects, and discussion of papers reflecting on connections between liberal arts and sciences and political world. Notes: Course topic varies by semester. Offered by Schar School of Policy & Govt. Limited to three attempts.

Mason Core: Synthesis

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: GOVT 300 and 18 credits in major.

Registration Restrictions:

Enrollment is limited to students with a major in Administration of Justice, Global Affairs, Government and Politics, Government Intl Politics, International Studies or Public Administration.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 491: *Honors Seminar.* 3 credits.
Readings, individual or group projects, and discussions of seminar papers. Notes: Subject varies. Offered by Schar School of Policy & Govt. Limited to three attempts.

Mason Core: Synthesis

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: GOVT 300 and 18 credits in major.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

GOVT 496: *Directed Readings and Research.* 1-3 credits.
Reading and research on specific topic under direction of faculty member. Notes: Written report required; oral report of research may be required. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Major in government and international politics with 90 credits and permission of instructor and department.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

GOVT 500: *The Scientific Method and Research Design.* 3 credits.
Grounds students in the principles of the scientific method as the framework for investigating all research questions in political science, whether qualitative or quantitative in character (or both). Focus is on sound and rigorous research design. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 510: *American Government and Politics.* 3 credits.
Examines institutions and processes of American government, including separate institutions of power in national government, theory and practice of federal system, role of interest groups and political parties, and effects of media and public opinion on electoral behavior and policy making. Seminar examining normative and empirical research. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Political Science.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GOVT 520: *Political Theory.* 3 credits.
Analyzes selected major works of ancient, modern, or contemporary political theory that illuminate basic problems and questions for people engaged in political or civic life. Examines justice, liberty, equality, autonomy, rights, obligation, participation, and nature of politics. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: Admission to the MA in political science or permission of department.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 530: *Comparative Politics.* 3 credits.
Examines fundamental issues in comparative politics and provides broad coverage of the central themes under study. Designed to help students think theoretically and critically about the study of comparative politics, its scientific objectives, and its epistemological assumptions. Within this context, students will look at concepts and approaches, as well as important theories and debates that characterize the subfield. Helps prepare students for qualifying exams in comparative politics. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GOVT 540: *International Relations.* 3 credits.
Focuses on changing structure of international politics, post-Cold War security issues, effect of globalized economy and information technology revolution, enhanced role of global corporations and nongovernmental organizations, and rise of nonsecurity issues in emerging international agenda. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GOVT 550: *Seminar in Theories of Public Administration.* 3 credits.
Reviews the theoretical traditions in American public administration, from the earliest days of the founding to the present. Concludes with consideration of contemporary theoretical debates over the proper role of public administrators and controversies about conflicting demands made on the public service and the public sector. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: GOVT 510.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 560: *Topics in Government and International Affairs.* 3 credits.
Explores topics of contemporary and emerging concern in government and international affairs. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

GOVT 603: *Seminar in the Courts and Constitutionalism.* 3 credits.
Analyzes the role, influence, and effects of courts in creating constitutional legal norms and interpreting them. Special attention is paid to the courts as a political institution. Lecture and discussion; students are expected to read and analyze both court cases and case studies. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 604: *Seminar on Congress and Legislative Behavior.* 3 credits.
Examines theories and empirical research on the U.S. Congress and legislative behavior, including elections, representation, structures, and processes. Also examines Congress' impact on the design and implementation of public policy, interactions with other branches of government, and comparisons with parliamentary systems. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: GOVT 510.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 605: *Seminar on the Presidency.* 3 credits.
Examines the American presidency from a number of substantive and methodological perspectives. Readings and discussions in the course appraise the presidency within the system and focus on the role the presidency plays in formulating and implementing public policy. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: GOVT 510.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:

This course is graded on the Graduate Regular scale.

GOVT 631: *Seminar in Comparative Politics and Institutions.* 3 credits.
Examines theories and practices of governance and development in comparative national settings. Course explores key subsets of the comparative politics literature in depth, including institutional change, regime types and transitions, democracy and authoritarianism, states and state-society relations, revolution, social movements, political cultures, and methods. Course is explicitly conceptual and cross-regional. Notes: May be repeated when topic is different. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GOVT 632: *Politics and Societies of the Middle East.* 3 credits.
Studies the Middle East in comparative perspective, using social scientific categories of analysis. Topics include: regime types, their basis and causes; influential political trends such as Arab nationalism, Ba'athism, and political Islam; the role of kinship, religion, and tribe in opposition and regime politics; the regional oil economy and economic crisis; democratic liberalization; and the growth of civil society. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

GOVT 706: *Federalism and Intergovernmental Relations.* 3 credits.
Examines broad trends in governance, including theory and practice of federal, state, and local governments. May include privatization, devolution, mandating, regulatory reform, and comprehensive federalism reform. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: GOVT 510.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 717: *Qualitative Methods.* 3 credits.
Focuses on scientific design of qualitative research questions and use of specific qualitative methods in scientific analysis. Covers when and how to use qualitative research methods to answer empirical questions in political science; primary data collection methods (interviews, observations, document review); the appropriateness of different research approaches; procedural and ethical concerns that may arise in use of qualitative methods. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: GOVT 511 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 719: *Issues in American Politics.* 3 credits.
Examines significant issue in American politics and political behavior. Analyzes topic of contemporary and emerging concern. Notes: May be repeated when topic is different. Offered by Schar School of Policy & Govt. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: GOVT 510.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 720: *Advanced Seminar in Political Theory.* 3 credits.
Contemporary, historical, and comparative study of key themes in Political Theory. Topics may include theories of sovereignty, power, democracy, secularism, political economy, justice, humanism, race, empire, colonialism, gender, and sexuality. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 725: *Democratic Theory.* 3 credits.
Examines democracy in terms of versions of liberalism, theories of social capital and civic participation, and discourses about civil, political, and human rights. How is democracy conceptualized normatively and empirically? What underlying economic, social, and cultural conditions promote democracy? What role do institutions play in

creating and sustaining a stable democratic society? Takes a broadly comparative perspective, focusing on variety of established and emerging democracies around the world. Elective for students specializing in American government or international politics and comparative governments. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 726: *Theories of Justice.* 3 credits.
Overview of ancient and modern theories of justice with application to contemporary issues involving justice system and other social and political institutions. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to CRIM 700.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 731: *Advanced Seminar in Comparative Politics.* 3 credits.
Assumes basic proficiency in comparative analysis. Regionally based examination of key debates in the comparative politics field. Key theoretical and methodological debates are addressed through in depth examination of regional political processes. Regions include Latin America, Asia, Middle East, European Union, Africa, and Russia. Notes: May be repeated when topic is different with permission of department. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: GOVT 530.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 733: *Islam and Politics.* 3 credits.
Provides an overview and understanding of the multifaceted nature of political Islam in the contemporary world. Covers brief history of Islam, formation of modern states in the post-colonial Muslim world, nature of contemporary Islamic radicalism and militancy and the future of Islamism. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 739: *Issues in Comparative and International Politics.* 3 credits.
Explores issues of contemporary and emerging concern in comparative and international politics. Notes: May be repeated when topic is different. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: GOVT 540.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GOVT 741: *Advanced Seminar in International Politics.* 3 credits.
Examines theoretical and methodological issues central to study of international relations by focusing on specific topic: American foreign policy, diplomacy, international law and organization, international relations theory, international ethics, human rights and humanitarian intervention, the environment, and others. Notes: May be repeated when topic is different with permission of department. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: GOVT 540.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GOVT 742: *International Negotiation.* 3 credits.
Examines frameworks and perspectives that have guided scholarly work on negotiation. Students will analyze complex cases of negotiations in the areas of security, trade, and the environment, and practice negotiating key security and environmental issues on the agendas of nations and international organizations. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 743: *International Political Economy.* 3 credits.
Examines interplay of international politics and economics. Discusses theoretical perspectives and analytical tools in academic field of international political economy, and applies theories and tools to trade, investment, exchange rates, development, regionalization, and globalization. Explores how international economic and political forces increasingly shape domestic interests, and how domestic politics affect international political economy. Lecture, discussion. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: GOVT 343 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GOVT 744: *Foundations of Security Studies.* 3 credits.
Introduces students to a selection of the original sources of the most important ideas that form the basis of security studies as a subfield of political science. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 745: *International Security.* 3 credits.
Examines interplay of international politics and international security. Discusses theoretical perspectives and analytical tools in academic field of international security, and applies theories and tools to nuclear, biological, and chemical weapons, strategy and defense, and arms control. How domestic issues affect defense policies, terrorism, changing nature of international conflict, and human security will be examined. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: GOVT 540.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GOVT 753: *Collaborative Public Management.* 3 credits.
Examines design and management of public service programs relying on various levels of government, the nonprofit and private sectors for delivery, with focus on organizational networks, their management, and tools (e.g., contracts, grants, loans, regulation, and tax credits). Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 755: *Seminar in Politics and Bureaucracy.* 3 credits.
Explores research and theory on political causes and effects of actions of government bureaucratic agencies. Readings examine origins of agencies, influences on decisions and programs, sources of internal and external accountability, pathologies of bureaucracies, and contributions bureaucracies make on effective and just governance. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: GOVT 510.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 758: *Homeland/Transportation Security Administration.* 3 credits.
Examines the terrorist attacks of 9/11, vulnerabilities of the aviation security at that time, failure of elected officials and administrators to act more decisively to improve security before 9/11, and the policy and administrative responses to the 9/11 attacks, including the creation of the Transportation Security Administration and the Department of Homeland Security. Includes the development of radical Islam and the rise of Osama bin Laden and Al Qaeda. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

GOVT 794: *Internship.* 1-6 credits.
Work-study program with specific employers. Notes: Contact internship coordinator one semester before enrollment. Credit determined by department. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Admission to graduate program and 12 credits. Notes: Contact internship coordinator one semester before enrollment. Credit determined by department. May be repeated for a maximum of 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale.

GOVT 796: *Directed Readings and Research.* 1-6 credits.
Reading and research on specific topic under direction of faculty member. Notes: Written paper required. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: 15 credits of GOVT courses at 500 level and above, and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

GOVT 798: *Political Science Research Project.* 3 credits.
Research project related to student's concentration under supervision of a faculty advisor. Student produces substantial and original contribution to political science knowledge on model of article in scholarly journal. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: 24 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Graduate Special scale.

GOVT 799: *Political Science Thesis.* 1-6 credits.
Substantial and original research paper with guidance of faculty advisor. Thesis proposal must be approved in advance by advisor and two faculty members who comprise thesis committee. Completed research must be approved by committee and defended publicly in oral presentation. Offered by Schar School of Policy & Govt. May be repeated within the degree.

Recommended Prerequisite: 24 credits and approval of thesis proposal.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

GOVT 800: *PhD Research Seminar.* 3 credits.
Provides an opportunity for PhD students in political science to present and refine independent research, and to further improve understanding of social scientific method as they prepare for conference presentations, qualifying exams, and subsequent dissertations. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Political Science.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

GOVT 998: *Doctoral Dissertation Proposal.* 3,6 credits.
Work on research proposal that forms basis for doctoral dissertation. Offered by Schar School of Policy & Govt. May be repeated within the degree.

Recommended Prerequisite: Advancement to candidacy.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

GOVT 999: *Doctoral Dissertation Research.* 1-12 credits.
Research on approved dissertation topic under direction of dissertation committee. Notes: May be repeated for up to 9 credits in a semester. Offered by Schar School of Policy & Govt. May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Graduate School of Business (GBUS)

500 Level Courses

GBUS 540: *Analysis of Financial Decisions.* 3 credits.
Provides a survey of financial decision-making. Assists students with developing a framework within which they can understand the linkages between financial decisions and organizational performance. Examines methods for using information based on financial statements in making decisions and assessing performance, evaluating investment opportunities, and choosing among alternative sources of funds. Focuses on public firms in the corporate sector as well as applications for privately-held companies and organizations in the government and non-for-profit sectors. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GBUS 551: *Leadership.* 3 credits.
Distinguishes between leadership and management, and focuses on the critical roles and functions of leadership, including communication ability, use of power and influence, providing direction, aligning an organization's systems, motivating a workforce, and creating a culture for effectiveness. Focuses on strategies for developing oneself as an effective leader. Integrates theory, research, and applications. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

GBUS 613: *Financial Reporting and Decision Making.* 3 credits.
Foundation course focusing on economics and analysis of business transactions and related financial reporting issues. Topics include introduction to accounting framework used in financial reporting; and analysis of financial statements, economic events and their impact on financial reports, and impact of accounting methods on financial reports. Offered by School of Business. May not be repeated for credit. Equivalent to BMGT 613, MBA 613.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Students cannot enroll who have a major in Business Administration.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

GBUS 623: *Marketing Management.* 3 credits.
Develops market-based knowledge and skills for effective marketing decision making, strategy design, implementation, and evaluation in wide variety of institutional and competitive situations. Addresses the importance of companies being market-driven and customer-focused. Emphasis on case studies, team work, and projects. Offered by School of Business. May not be repeated for credit. Equivalent to MBA 623.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students cannot enroll who have a major in Business Administration.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

GBUS 643: *Managerial Finance.* 3 credits.
Introduces theory and practice of finance within corporations. Topics include intertemporal choice, valuation, capital budgeting and structure, working capital management, and risk and return analysis. Offered by School of Business. May not be repeated for credit. Equivalent to BMGT 643, MBA 643.

Registration Restrictions:
Required Prerequisites: (GBUS 613[B-], MBA 613[B-], GBUS 613[XS] or MBA 613[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Students cannot enroll who have a major in Business Administration.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

GBUS 653: *Organizational Behavior.* 3 credits.
Emphasizes development of conceptual tools for understanding and analyzing individual and group behavior in organizations and organizational processes. Considerable focus on developing relevant skills for working in groups and teams. Lectures, discussions, case analyses, and class exercises. Offered by School of Business. May not be repeated for credit. Equivalent to MBA 653.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students cannot enroll who have a major in Business Administration.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

GBUS 696: *Directed Studies in Graduate School of Business.* 1-3 credits.
Approval by faculty member and program director required prior to registration. Studies specialized topics in business not otherwise available in the curriculum. Offered by School of Business. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

GBUS 697: *Special Topics in Graduate School of Business.* 1-3 credits.
Sections established as necessary to focus on various topical issues that emerge in practice of business. Offered by School of Business. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

GBUS 720: *Marketing Analytics.* 3 credits.
Marketing analytics is a systemic approach to harnessing data/ information to drive effective marketing decision making . The objective of this course is to equip you with the tools required to address fundamental marketing decision problems using a data-driven approach. It will train students to view the marketing processes and relationships systemically and analytically. Offered by School of Business. May not be repeated for credit. Equivalent to MBA 720.

Recommended Prerequisite: Grade of B or higher in STAT 515 or STAT 554

Registration Restrictions:
Required Prerequisites: (GBUS 738[B-], MBA 738[B-], GBUS 738[XS] or MBA 738[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Business Analytics or Data Analytics Engineering.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Graduate Certificate or Master of Science degrees.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GBUS 721: *Marketing Research.* 3 credits.
Develops skills to plan and implement effective marketing research studies. Topics include research design, data collection, statistical analysis, and use of database systems. Offers perspective on how managers can use market data to develop successful product or service strategies. Note: Students enrolled in the Business Administration MBA program and the Business Analytics Graduate Certificate should not take this course, since an equivalent course is included in the MBA program. Offered by School of Business. May not be repeated for credit. Equivalent to MBA 721.

Recommended Prerequisite: Grade of B or higher in (STAT 515 or STAT 554).

Registration Restrictions:
Enrollment is limited to students with a major in Business Analytics or Data Analytics Engineering.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GBUS 738: *Data Mining for Business Analytics.* 3 credits.
Examines how data warehouses and data mining are used to help businesses successfully gather, structure, analyze, understand and act on relevant data, both operational and contextual. Note: Students enrolled in the Business Administration MBA program and the Business Analytics Graduate Certificate should not take this course, since an equivalent course is included in the MBA program. Offered by School of Business. May not be repeated for credit. Equivalent to MBA 738.

Recommended Prerequisite: B or higher in (STAT 515 or STAT 554).

Registration Restrictions:
Enrollment is limited to students with a major in Business Analytics or Data Analytics Engineering.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GBUS 739: *Advanced Data Mining for Business Analytics.* 3 credits.
This course covers business analytics using advanced data mining methods for the purposes of developing predictive models and forecasting . The course will develop the concept of feature selection to identify what dimensions to best use for constructing decision making models. Offered by School of Business. May not be repeated for credit. Equivalent to MBA 739.

Recommended Prerequisite: Grade of B or higher in STAT 515 or STAT 554

Registration Restrictions:

Required Prerequisites: (GBUS 738[B-], MBA 738[B-], GBUS 738[XS] or MBA 738[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Business Analytics or Data Analytics Engineering.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Graduate Certificate or Master of Science degrees.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GBUS 740: *People Analytics.* 3 credits.
This course seeks to develop business leaders who understand how people data can be leveraged to improve firm performance. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MBA 738[B] or GBUS 738[B]).
[B] Requires minimum grade of B.

Enrollment is limited to students with a major in Business Analytics or Data Analytics Engineering.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

GBUS 744: *Fraud Examination.* 3 credits.
Introduces strategies and techniques for fraud prevention and detection. Focuses on financial fraud such as bribery, contract rigging and kickbacks, embezzlement, fraudulent financial reporting, payroll fraud, and misappropriation of inventory and other assets. Note: Students enrolled in the Business Administration MBA program and the Business Analytics Graduate Certificate should not take this course, since an equivalent course is included in the MBA program. Offered by School of Business. May not be repeated for credit. Equivalent to ACCT 636, MBA 744.

Recommended Prerequisite: B or higher in (STAT 515 or STAT 554).

Registration Restrictions:
Enrollment is limited to students with a major in Business Analytics or Data Analytics Engineering.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Greek (GREE)

100 Level Courses

GREE 150: *Classical Greek I.* 3 credits.
Addresses linguistic, semantic, and cultural aspects. Covers basic structure and vocabulary, its place among other world languages and its unique role in development of modern thought. Notes: Lectures, discussions supplemented by web-posted material. Offered by Modern & Classical Languages. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

GREE 160: *Classical Greek II.* 3 credits.
Expands proficiency, refines grasp of morphology and syntax, and fosters greater command of vocabulary. Introduces selected original passages from Greek classical authors. Notes: Lectures, discussions supplemented by web-posted material. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: GREE 150 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Health (HEAL)

100 Level Courses

HEAL 110: *Personal Health.* 3 credits.
Focuses on individual health improvement by studying mental/emotional well-being, fitness, nutrition, drug abuse prevention, consumerism, safety and other topics. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

HEAL 200: *School and Community Safety.* 1 credit.
Focuses on safety in home, school, road, work, and community settings. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HEAL 220: *Dimensions of Mental Health.* 3 credits.
Focuses on integrating behavioral and sociocultural factors in studying mental health. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HEAL 230: *Introduction to Health Behavior.* 3 credits.
Introduces health behavior in context of health psychology. Explores various theoretical models to understand health, illness and sick-

role behaviors. Studies health and disease from a biopsychosocial perspective. Examines means of preventing and treating health problems. Offered by School of Education. Limited to three attempts.

Mason Core: Social/Behavioral Sciences, Encore: Well-Being

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HEAL 250: *Introduction to School Health.* 3 credits.
Presents an overview of school health programs. Focuses on the content of health education in K-12 schools and provides an introduction to health education instruction. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

HEAL 310: *Drugs and Health.* 3 credits.
Analyzes drug use, with emphasis on positive aspects, and presents alternatives to drug misuse and abuse. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HEAL 325: *Human Sexuality.* 3 credits.
Covers the biological, psychological, emotional, and sociocultural factors related to human sexual behaviors. Includes topics such as anatomy, gender, sexual response, sexual behaviors, sexual orientation, relationships, reproduction, contraception, sexual difficulties and solution, sexually transmitted infections, and sexual coercion. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HEAL 327: *Women's Health.* 3 credits.
Examines health issues unique to women, including health care, food and exercise, reproductive and gynecological issues, chronic diseases, and issues of violence. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HEAL 331: *Men's Health.* 3 credits.
Examines socio-cultural influences on men's development and expression of health beliefs and practices. Explores health issues specific to men. Analyzes research literature on interventions to improve men's health. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HEAL 350: *Interventions for Populations and Communities at Risk.* 3 credits.
Identifies culturally, physically, emotionally, mentally, and demographically diverse populations and communities at risk. Covers implications for developing innovative programs and role of HFRR interventions. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HEAL 351: *Relationship Health.* 3 credits.
Describes development of healthy relationships. Examines influencing factors. Analyzes current research. Designs strategies for maintaining healthy relationships. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HEAL 372: *Health Communication.* 3 credits.
Applies research-based models and theories of health assessment and promotion at individual, organizational, agency, and community levels. Uses communication approaches and skills in context of behavior change strategies, including policy and program development. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

HEAL 405: *Teaching Methods in Health Education (K-12).* 3 credits.
Presents methodology and resources for teaching health education in K-12 schools. Offered by School of Education. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: HEAL 250[C] or 250[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Physical Education.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

HEAL 516: *Program Development and Resources in Health Education.* 3 credits.
Open to licensed and provisionally licensed health and physical education teachers in the commonwealth of Virginia and students in ASTL physical education program. Focuses on program development, health content, methodology, and resources for teaching preK-12 health education.
Notes: Distance learning course. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: Licensed and provisionally licensed health and physical education teachers in the Commonwealth of Virginia, and students in the Physical Education masters program.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Health Administration and Policy (HAP)

200 Level Courses

HAP 201: *Health Professions Careers.* 3 credits.
Acquaints students early in their college education with a variety of health professions careers. Provides overview of the health care system, and identifies the current supply and demand for health care professionals. Presents information about educational and licensing requirements as well as expected salaries. Defines professionalism and outlines the principal rights and responsibilities of being a health care professional. Offered by Health Administration & Policy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 202: *Medical Terminology.* 3 credits.
Prepares students with a basic understanding of medical terminology needed to work in a wide variety of healthcare environments. Offered by Health Administration & Policy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 290: *Lifestyle Management.* 3 credits.
In this introductory course on practical application of Bayesian causal modeling techniques and Statistical Process Control tools, students make resolutions and analyze their progress toward goal achievement. Each student maintains a diary and analyses it using Bayesian causal modeling techniques to understand the constraints and causes leading to their success and failures. Students analyze their pattern of success using Statistical Process Control tools and engage cyclical assessment of their self improvements. Offered by Health Administration & Policy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

HAP 301: *Health Care Delivery in the United States.* 3 credits.
Introduces students to the history of health care delivery in the United States from pre-colonial times to the present. Exposes students to how healthcare services are organized, accessed, and delivered. Explores influences that impact access and healthcare public policy decisions; factors that determine the allocations of healthcare resources; the establishment of priorities within the healthcare system; and the relationship of healthcare costs to measurable benefits. Comparisons are made with healthcare delivery systems in other countries. Offered by Health Administration & Policy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 308: *Public Health Informatics.* 3 credits.
Provides students with a basic understanding of public health Informatics and its applications. Students will understand the basic technological tools and building blocks needed to utilize these tools in to improve their personal and professional productivity. Offered by Health Administration & Policy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 309: *Healthcare Accounting.* 3 credits.
Introduces basic concepts, standards, practices and terminology underlying financial and managerial accounting as applied in healthcare organizations. Key concepts include accounting principles and conventions; financial reporting; valuations of assets; analysis, interpretation, and communication of financial information; the management of costs and profitability; and the use of spreadsheets and other tools. Offered by Health Administration & Policy. Limited to three attempts.

Recommended Prerequisite: HAP 301.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 310: *Healthcare Ethics.* 3 credits.
Introduces current ethical ideas and issues in healthcare and the healthcare system. Case studies require students to apply critical thinking in ethical decision making situations encountered by healthcare professionals. Offered by Health Administration & Policy. Limited to three attempts.

Recommended Prerequisite: HAP 301.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 312: *Healthcare Law.* 3 credits.
Introduces students to the legal environment in healthcare with emphasis on laws and regulations of routine importance to healthcare managers in the areas of labor, contracts, real estate, medical malpractice, general

business, and intellectual property. Offered by Health Administration & Policy. Limited to three attempts.

Recommended Prerequisite: HAP 301.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 318: *Introduction to IT Methods for Healthcare.* 3 credits.
Reviews computer hardware and software with applications in healthcare. Covers basic features of operating systems (Windows and Linux), reviews use of basic office applications and introduces their advanced features. Introduces advanced tools to access and analyze healthcare data. Introduces basic programming concepts. Offered by Health Administration & Policy. Limited to three attempts.

Recommended Prerequisite: IT 103 or IT 104 or equivalent.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 360: *Introduction to Health Information Systems.* 3 credits.
An introduction to basic information management in health care service organizations. Provides an overview of health information systems for selected administrative functions and clinical care services, including electronic data interchange for billing and claims management, institutional approaches to ensuring data security and privacy, and information management and decision support for managers and clinicians. Offered by Health Administration & Policy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 361: *Health Databases.* 3 credits.
Introduces students to the design and use of various health and healthcare databases, and provides hands-on experience with database design and use. Reviews database management systems. Examines the application of databases for both clinical and managerial purposes. Offered by Health Administration & Policy. Limited to three attempts.

Recommended Prerequisite: HAP 360

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 392: *Human Resources Management in Healthcare.* 3 credits.
Exposes students to the major issues, laws, administrative processes, procedures, and psychological factors related to the human resource function in healthcare. Offered by Health Administration & Policy. Limited to three attempts.

Recommended Prerequisite: HAP 301.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 395: *Healthcare Finance.* 3 credits.
Introduces finance in health care organizations. Reviews issues in reimbursement structures, regulatory mechanisms, cost control, and related factors affecting financial management of health service organizations including financial decision support skills. Offered by Health Administration & Policy. Limited to three attempts.

Recommended Prerequisite: HAP 301.

Registration Restrictions:
Required Prerequisites: HAP 309[C] or 309[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 396: *Strategic Health Management and Planning.* 3 credits.
Introduces past and present interventions that affect supply and demand for health care at community, state, regional, and national levels. Presents health planning and regulatory entities, and discusses strategic and program planning in context of current economic and market conditions. Offered by Health Administration & Policy. Limited to three attempts.

Recommended Prerequisite: HAP 301

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

HAP 403: *Assisted Living/Senior Housing Management and Philosophy.* 3 credits.
Overview of growth of assisted living industry, its role in health care continuum, current or proposed regulatory environments, and differences between assisted living and other forms of senior health care and senior living services. Specific instruction provided in philosophy and day-to-day management of assisted-living communities, including resident care, operations, finance and budgeting, human resources and staffing, and successful marketing and community relations. Also examines industry future, including cutting-edge programs and technologies, and approaches to creating next generation of assisted-living services. Offered by Health Administration & Policy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 404: *Senior Housing Sales and Marketing.* 3 credits.
Introduction and analysis of sales and marketing practices within senior housing environments, including but not limited to Active Adult (55+), assisted living, Alzheimer's assisted living, and Continuing Care Retirement Communities (CCRC's). Offered by Health Administration & Policy. Limited to three attempts.

Recommended Prerequisite: HAP 301.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 408: *Societal and Health Related Needs of the Aging Population.* 3 credits.
Introduces students to the social, medical, emotional, and cognitive supports available to older adults in the United States. Provides an overview of societal and health related needs relating to aging. Exposes students to aging services available to older adults. Explores the physical and emotional needs of the elderly. Offered by Health Administration & Policy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 410: *Introduction to Health/Medical Practice Management.* 3 credits.
An introductory course in the leadership and management of ambulatory health service practices and small provider organizations. Content covers a variety of health/medical practice management functions, including administrative systems, operations and strategies for effective management of quality, efficiency and business performance (contracts and marketing), and human resources. Trends in practice integration and affiliations with multiprovider groups and larger enterprises will be covered. Offered by Health Administration & Policy. Limited to three attempts.

Recommended Prerequisite: HAP 309.

Registration Restrictions:
Required Prerequisites: HAP 301[C] or 301[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 411: *Introduction to Revenue Cycle Management.* 3 credits.
Introduces the revenue cycle process and its role within a clinical practice setting to support the overall financial health of the organization. Offered by Health Administration & Policy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 416: *Leadership and Management of Health Systems I.* 3 credits.
Introduces theoretical concepts and their application to the leadership and management of effective health care organizations. Explores the structure and function of health-related organizations and selected administrative and operational issues in program development and service design, emphasizing strategies for effective performance management, decision making, and communication. Offered by Health Administration & Policy. Limited to three attempts. Equivalent to NURS 436.

Recommended Prerequisite: Complete all 300-level course requirements.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 417: *Leadership and Management of Health Systems II.* 3 credits.
Explores challenges to providing effective leadership and management of health care organizations and systems of care related to operational issues such as personnel management and labor relations, information management, conflict and goal alignment, financial management, accountability, and quality and safety improvement. Focuses on identification of management skills, technology, and strategy that influence optimal performance and communication between clinicians, administrative staff, and managers. Offered by Health Administration & Policy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: HAP 416[C] or 416[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 425: *Health Economics and Policy.* 3 credits.
An introduction to the role of economics in health care policy. Concepts used by economists to analyze health outcomes, health behaviors, health care markets, health insurance markets, and the role of government. Concepts are linked to current health policy debates, Relevance and limits of the health economics approach to analyzing health issues are discussed. Offered by Health Administration & Policy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (HAP 301[C] or 301[XS]) and (ECON 103[C] or 103[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 430: *Process Improvement in Healthcare Organizations.* 3 credits.
Introduces the process of quality management in healthcare organizations. Exposes students to the principles, models, and tools of quality management. Presents guidelines for implementing total quality in healthcare. Contrasts quality assurance, quality control, quality improvement, and quality management. Offered by Health Administration & Policy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: HAP 301[C] or 301[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 436: *Electronic Health Data in Process Improvement.* 3 credits.
Focuses on using electronic health records (EHRs) to improve health care processes. Compares means and rates of clinical & managerial processes. Uses EHRs in risk-adjusted statistical process control. Uses Excel to analyze data on patient satisfaction, wait time, mortality/

morbidity, and cost of care. Offered by Health Administration & Policy. Limited to three attempts.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 440: *Mobile Health.* 3 credits.
Introduces emerging technologies used in Mobile Health (mHealth). Students will examine the impact and potential of mobile devices on health. Students will conceptualize and design health apps that incorporate evidence-based guidelines and capitalize on the mobility, portability, and input and output capabilities of smartphones and tablets. Offered by Health Administration & Policy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 442: *Introduction to Health Care Politics and Policy.* 3 credits.
Reviews health care system issues and trends, and economic concepts, ways to understand the critical role of public health policy and the policy-making process in the United States. Identifies the major political institutions and policy processes that shape health policy. Examines the past and present health policy and its impact on changes in the ability of patients to access health services, the practice of health sciences professionals. and the quality and process of care. Explores the role of politics at both the federal and state government in health policy-making and critical aspects of the U.S. health system are compared to those of other countries. Offered by Health Administration & Policy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: HAP 301[C] or 301[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 445: *Introduction to Health Services Research.* 3 credits.
An introductory course for undergraduate students in understanding the basic methods of interdisciplinary health services research and program evaluation in health systems and policy. Emphasis is placed on understanding, assessing and using relevant findings from health services research. The course covers a variety of topics related to policy, management, and program evaluation in health delivery systems. Offered by Health Administration & Policy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: HAP 301[C] or 301[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 456: *Health Data Mining and Analysis.* 3 credits.
Introduces data mining and analysis in health. Exposes students to fundamental concepts of data mining, machine learning, data preprocessing and data visualization within the context of health applications. Students learn practical skills needed to apply these methods to health problems illustrated by case studies. Offered by Health Administration & Policy. Limited to three attempts.

Recommended Prerequisite: HAP 318 or IT 106 or IT 109 or equivalent, HAP 361 or IT 214 and knowledge of SQL, Completed required math core, or permission of instructor

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 458: *Clinical Informatics Applications in a Health Care Setting.* 3 credits.
Provides health informatics students with an overview of how various health professionals use data from various information systems to support clinical decision-making and improve patient outcomes. Leverages classes, laboratory simulation and field work in a health care setting. Introduces students to team-based working relationships/work in the health care environment and the use of health information in that setting. Exposes students to simulated and real health environments with the focus on the use of information technology to support clinical workflows, data collection and decision making. Teaches students to collaborate with healthcare professionals in order to promote patient care goals for safety, efficiency, effectiveness, timeliness, is patient-centered, and equitable. Offered by Health Administration & Policy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: ((HAP 318[C] or 318[XS]) and (HAP 360[C] or 360[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 459: *Health Data Standards and Interoperability.* 3 credits.
Introduction to prevailing and emerging data standards applicable in health information technology. Students will learn about standard-making organizations, such as HL7 and Healthcare Information Technology Standards Panel (HITSP), and their standardization processes. The structure of and relationship between standard terminologies applicable in healthcare, such as International Classification of Diseases (ICD-10-CM), Logical Observation Identifiers Names and Codes (LOINC) and Systematized Nomenclature of Medicine--Clinical Terms (SNOMED-CT), will be explained. Offered by Health Administration & Policy. Limited to three attempts.

Recommended Prerequisite: HAP 301 or permission of instructor. HAP 361.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 460: *Information Technology Project Management.* 3 credits.
Identifies methods and skills for managing health care information technology (IT) projects. Students learn tools such as critical path analysis, resource management, crashing projects, vendor selection,

quality assessment, and risk analysis. Offered by Health Administration & Policy. Limited to three attempts.

Recommended Prerequisite: HAP 360.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 461: *Internet and Web Technology Applications for Healthcare.* 3 credits.
Introduces students to the major applications of Internet and Web technology in healthcare. Two major applications are studied: online promotion/marketing for consumer-oriented health web sites, and online Personal Health Records (PHR). Students will learn about Search Engine marketing and the practical skill of creating an online health marketing/promotion campaign. They also will learn to create and manage PHR. The technological challenges such as reliability, privacy, security and organizational barriers to adoption are discussed. Offered by Health Administration & Policy. Limited to three attempts.

Recommended Prerequisite: HAP 360.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 462: *Privacy and Security in Health Informatics.* 3 credits.
Health information security and privacy issues in the current healthcare system. Evaluates methods to achieve privacy and security. Discusses the important role of sound security policies and procedures; looks into technical solutions and non-technical solutions for achieving privacy and security. Offered by Health Administration & Policy. Limited to three attempts.

Recommended Prerequisite: HAP 360.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 464: *Electronic Health Record Configuration and Data Analysis.* 3 credits.
Covers basic features and functionalities of an electronic health record (EHR). Introduces methods to access and analyze patient data from an EHR. Provides students with hands-on experience on EHR systems. Offered by Health Administration & Policy. Limited to three attempts.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 465: *Integration of Professional Skills and Issues.* 3 credits.
Assists students in synthesizing the varied dimensions of their roles as health professionals in a global society. Provides opportunities to examine issues in health care through reflection on the natural and behavioral sciences, humanities and other prerequisite coursework. Selected topics examined through writing, presentation, reading and discussion. Prepares the student to actively engage in critical thinking, professional writing, and self-reflection. Provides the student the opportunity to develop a persuasive argument, receiving peer and instructor feedback. (Writing intensive course). Offered by Health Administration & Policy. Limited to three attempts. Equivalent to NURS 465.

Mason Core: Synthesis

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: (HAP 301[C] or 301[XS]) and (ENGH 302[C] or 302[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major in Health Administration.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 467: *Advanced Information Technology Project Management.* 3 credits.
Teaches project management methods and techniques with focus on health IT projects. Covers knowledge, skills, and abilities associated with certification (Certified Associate in Project Management).
Notes: Certification is not provided in this course. Offered by Health Administration & Policy. Limited to three attempts.

Recommended Prerequisite: HAP 460 or HAP 417 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 489: *Pre-Internship Seminar.* 3 credits.
Provides students with guidance and preparation for engaging in the internship. Offered by Health Administration & Policy. Limited to three attempts.

Mason Core: Capstone

Recommended Prerequisite: Senior standing.

Registration Restrictions:
Required Prerequisites: HAP 301[C] or 301[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Health Administration.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 494: *Special Topics in Health Administration and Policy.* 3 credits.
Selected topics analyzing specialized areas in health administration and policy. Notes: Content varies. Lecture, seminar, laboratory, and workshops. Offered by Health Administration & Policy. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

HAP 498: *Health Administration Internship.* 4 credits.
Provides variety of applied management experiences in a health systems or related organization (field agency), under the direction of a HAP faculty member and a preceptor in the field. Students integrate and apply critical-thinking, project-planning, and management and communication skills in the internship experience and toward completion of an approved internship project. Notes: Taken in last semester of studies. Capstone course involves a two-hour weekly seminar and a 12-hour internship in a health-related organization. Offered by Health Administration & Policy. Limited to three attempts.

Mason Core: Capstone

Registration Restrictions:
Required Prerequisites: HAP 489 or 489[XS].
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major in Health Administration.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

HAP 499: *Independent Study in Health Administration and Policy.* 1-6 credits.
Provides individual study of a particular problem area in health administration and policy research, theory development, or education under the direction of faculty. Offered by Health Administration & Policy. May be repeated within the term for a maximum 6 credits.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

HAP 555: *Computer Programming in Health Applications.* 3 credits.
Introduces concepts of computer programming of health applications with a focus on open source software. Students are provided with an overview of open source software and introduced to open source EHR (Electronic Health Record) systems. Includes practical exercises in programming to customize and extend the capability of health information systems are explored, implemented and tested. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: HAP 318 or IT 106 or IT 109 or equivalent, HAP 361 or IT 214 or equivalent, HAP 464 or equivalent, basic knowledge of programming, Linux, and SQL required, or permission of instructor

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 594: *Special Topics in Health Care.* 3 credits.
Selected topics analyzing specialized areas in health care. Notes: Content varies. Lecture, seminar, laboratory, and workshops. Offered by Health Administration & Policy. May be repeated within the degree for a maximum 6 credits. Equivalent to GCH 594.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

HAP 601: *E-Commerce and On-line Marketing for Health Services.* 3 credits.
Explores development of online health services; organization of online businesses; online marketing, financial, and clinical transactions; and venture capital and the IPO process. Explores creating and maintaining web pages and databases. Reviews literature on effect of computer services on patient care and health care organizations. Also reviews examples of both successful and bankrupt technology firms in health care. Student groups draft business plan and develop early version of service proposal. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 602: *Statistics in Health Services Management.* 3 credits.
Focuses on descriptive and inferential statistics with applications of various statistical techniques to health services management. Topics include sampling, measures of central tendency and dispersion, probability distributions, hypothesis testing, analysis of variance, correlation, linear regression, and chi-square analysis. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 609: *Comparative International Health Systems.* 3 credits.
Uses Roemer's Model of Health Systems to examine resource allocation, management, and health outcomes in the United States and around the globe. The structure and functioning of national health systems based on geographic location and governance in developing and developed countries (democracies, monarchies, and communist nations). Resource allocation across the continuum of nations and relationship to national health needs, health status, and longevity are examined. Notes: An online course in comparative international health care systems. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 618: *Computational Tools in Health Informatics.* 3 credits.
Introduces computational tools used in health informatics. Reviews hardware and software needs and uses. Topics covered include operating systems, virtualization and high performance computing, basic programming in a scripting language, basic data analysis and data integration skills, and use of specialized software. All topics are covered in context of specific solutions used in health information systems. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 621: *Organization Behavior and Healthcare Leadership.* 3 credits.
Applies organizational behavior and theories of leadership to the management of interdisciplinary teams and decision making in healthcare organizations. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 622: *Healthcare Information Systems Analysis and Design.* 3 credits.
Introduces system analysis, modeling, design, and management of large-scale healthcare information systems. Describes both traditional and data-driven analysis and design methods. Different aspects of systems analysis and design are illustrated using examples from healthcare industry case studies applied to a group project. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 635: *Role of Government in Health Care and Public Health.* 3 credits.
Provides a foundation for how and why federal and state governments are involved in health care and public health. Introduces students to contemporary public policies that address inequities in access and quality of public health and health care services. The process of how public health policy is formulated, implemented and evaluated is covered in detail. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 640: *Current Issues in Health Policy.* 3 credits.
Introduces students to current health policy issues, the public policy process, and their influence on the organization and financing of health care. Attention is given to the 1) roles of key players in health policy formulation and implementation, and 2) public policy responses to major issues such as disparities and un-insurance coverage, cost-containment, and quality of care. Differing perspectives on reforming health care are debated. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 645: *Introduction to Health Services Research.* 3 credits.
An introductory course in the basic methods of interdisciplinary health services research and program evaluation in health systems and policy. The course covers topics related to policy, management, and program effect and evaluation within health delivery systems, including research design, existing data systems, measurement of quality and basic cost benefit, and effectiveness analysis. Offered by Health Administration & Policy. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: HAP 678.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 647: *Regulatory Requirements for Health Care Systems.* 3 credits.
Helps health care professionals understand link between infrastructures of organization and regulatory and accreditation processes for health care organizations. Covers major accrediting agencies and their roles, accreditation principles, and survey process. Focuses on hospitals with reference to ambulatory care, managed care organizations, rehabilitation centers, laboratories, and home health and long-term care facilities. Emphasizes requirements of Joint Commission on Accreditation of Health Care Organization and regulations mandated by Health Care Finance Administration. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 652: *Essentials of Health Insurance and Managed Care.* 3 credits.
Focuses on the health insurance and managed care private sector. Topics include moral hazard; the history of private benefits plans; types of health plans; provider network management; provider payment; medical and quality management; health plan operations including marketing/sales, claims, member services, IT, finance; and relevant health policy, and federal and state laws and regulations affecting private health plans. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 661: *Policy Development and Analysis for Community Health Programs.* 3 credits.
Prepares students to critically analyze issues and develop skills pertinent to effective policy development for community and family public health programs. Explores what constitutes a vulnerable population and examines current government programs and policies supporting these programs for such populations. Recent case examples ground students in current issues faced by community groups and other health interests. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 670: *Introduction to Health Informatics.* 3 credits.
Examines applications of information technology in healthcare. Considers a wide range of technology applications – from enterprise application systems to EHR (Electronic Health Records), to current trends in information technology and related regulatory initiatives. Examines how these technologies enable the healthcare industry to manage information and knowledge resources most effectively and deliver superior services to its customers. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Corequisite: HAP 678 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 671: *Health Care Databases.* 3 credits.
Introduces students to design and query of health databases. Provides hands-on experience with design, maintain and make queries of

databases. Explores uses of health record systems. Includes review and analysis of databases and database management systems. Examines application of databases to clinical and business transaction. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 672: *Health Data: Vocabulary and Standards.* 3 credits.
Explores the challenges and possible solutions to ensure the interoperability between health information systems, representation of health data using standardized vocabulary and standards of communication. Covers topics such as data standards and semantics, policy, and theory and practice of standardization. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: HAP 618 or HAP 671 or permission of instructor

Recommended Corequisite: HAP 678 or permission of instructor

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 675: *Project in Health Data Analysis.* 1-4 credits.
Focuses on analysis of data from electronic health records. Includes instruction on preparation of data including (a) removing inaccurate information, (b) organizing the timing of events/variables, (c) summarizing time-based variables. Students will work on real data obtained by them from a practicum through an employer or real data supplied by instructor. Students will complete a literature review, describe methods used, present results, and discuss findings. Offered by Health Administration & Policy. May be repeated within the term for a maximum 4 credits.

Recommended Prerequisite: HAP 361 and HAP 602 or equivalent statistics and database courses.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

HAP 678: *Introduction to the U.S. Health System.* 3 credits.
Explores the U.S. healthcare system focusing on health system development, key influences, accessibility, financing, changing components and the effects of the system on patients, providers, financers, government, insurers, and society. The role of population health management and public health is explored, including the impact of social, cultural, economic, and environmental factors on health care systems and practices. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 680: *Applied Public Health Leadership and Management.* 3 credits.
Survey course in leadership, management, and planning applied to public health systems. Students apply theoretical knowledge from a variety of disciplines relevant to development and implementation of public health policy, regulatory directives, public health program planning and management (including human resources and financial management), and the design and evaluation of public health services/functions. Content includes strategies for ensuring access to essential public health services and use of evaluation and monitoring systems to ensure the safety, efficiency, and effectiveness of local public health programs/systems. Course emphasizes leadership, communication, systems thinking, data-driven decision making, and ethical practice in public health systems. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HAP 686: *Quality Improvement in Health Services.* 3 credits.
Examines how quality in healthcare is measured and controlled in order to improve processes and outcomes. Demonstrates how interdisciplinary teams analyze quality by applying a variety of quantitative methods (such as statistical process control, histograms, and Pareto charts); and qualitative methods (such as root cause analysis, affinity diagrams, nominal group technique, and flow charts). Analyzes performance improvement techniques designed to improve processes. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 690: *Independent Study.* 1-3 credits.
In-depth studies of selected area of health science theory, research, or practice under direction of faculty. Offered by Health Administration & Policy. May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

HAP 700: *Introduction to Health Informatics.* 3 credits.
Examines applications of information technology in healthcare. Considers a wide range of technology applications – from enterprise application systems to EHR (Electronic Health Records), to current trends in information technology and related regulatory initiatives. Examines how these technologies enable the healthcare industry to manage information and knowledge resources most effectively and deliver superior services to its customers. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Corequisite: HAP 678 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 701: *Health Data: Vocabulary and Standards.* 3 credits.
Explores the challenges of representing health care data using standardized vocabulary in health information systems. Topics include data standards and semantics, policy, and theory and practice of standardization. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Corequisite: HAP 678, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 702: *Managerial Accounting in Health Care.* 3 credits.
Examines the controllership function of health care organizations and systems (for-profit and not-for-profit) with emphasis on policy formulation and evaluation of performance, including cost methods and systems, measurement criteria, and managerial planning, methods, and techniques. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: Graduate-level statistics course.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 703: *Financial Management in Health Systems.* 3 credits.
Examines tools and methods of financial management in healthcare organizations and systems with emphasis on allocation and use of funds. Analyzes costs and constraints of alternative source of funds, and applies financial decision instruments and effect on operational management and market value of entity. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: Graduate-level statistics course.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 704: *Contemporary Issues in Health Systems Management.* 3 credits.
Analyzes the challenges confronting healthcare leaders in a new era characterized by economic incentives and changing relationships between providers, payers and purchasers, new delivery models and payment mechanisms, and advances in clinical integration, information technology, and quality improvement. Explores leadership strategies required for achieving financial stability while delivering greater value. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 705: *Strategic Management and Marketing in Health Care.* 3 credits.
Explores the role of strategic planning in healthcare organizations and the process by which they formulate, implement, and evaluate strategic decisions. Reviews the contemporary issues and trends impacting the strategic imperatives for healthcare organizations, including ways in which organizations evaluate and address the health needs of the communities they serve. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 706: *Integrated Health Systems Management.* 3 credits.
Explores emerging structures for financing and delivery of comprehensive health services in integrated health systems. Covers successful development and management of alliances, provider hospital organizations, and managed care systems with emphasis on strategies for vertical integration, community partnering, contract negotiation, governance, and management of antitrust situations. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 707: *Human Resource Management in Healthcare.* 3 credits.
Examines how people are managed within health care organizations to achieve performance consistent with the organization's strategic objectives. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 708: *Quantitative Methods in Health Care Management.* 3 credits.
Presents a framework for decision making in health care management. Covers epidemiological, statistical and decision modeling tools commonly used in health care management. Includes measures of risk, forecasting, decision trees and statistical quality control. Students use Excel to analyze data sets related to the application of these techniques in assessing health care related problems. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: HAP 602[B].

[B] Requires minimum grade of B.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 709: *Health Care Databases.* 3 credits.
Introduces design and use of health and medical databases, providing hands-on experience. Explores uses of medical record systems. Includes review and analysis of databases and database management systems. Examines application of databases to clinical and managerial transaction. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

HAP 711: *Quality Improvement in Health Services.* 2 credits.
Examines how quality in healthcare is measured and controlled in order to improve processes and outcomes. Demonstrates how interdisciplinary teams analyze quality by applying a variety of quantitative methods (such as statistical process control, histograms, and Pareto charts); and qualitative methods (such as root cause analysis, affinity diagrams, nominal group technique, and flow charts). Analyzes performance improvement techniques designed to improve processes. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 712: *Topics in Public Policy.* 3 credits.
Presents selected topics current in public policy related to health care and health care administration. Offered by Health Administration & Policy. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Research

Grading:

This course is graded on the Graduate Regular scale.

HAP 713: *Project Management in Health Information Technology.* 3 credits.
Applies body of knowledge in project management to the implementation of information technology and systems in healthcare organizations. Examines how tasks such as needs assessment, project planning, project cost analysis, risk management, and management of personnel are readily included in the use of health information systems. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 715: *Health Economics.* 3 credits.
Uses economic tools to illuminate the healthcare delivery and financing systems in the US. Explores the production of and demand for health, health care, and health insurance, and how incentives affect choices. Focuses on the US but also draws examples from other countries, since health economics principles apply everywhere, even though values, resources, priorities and constraints vary. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 717: *Population Health Informatics.* 3 credits.
Provides students with foundational principles, informatics tools, methodologies, data sources, terminologies, and policy issues related to the emerging field of population health informatics. Examines key concepts such as registries, electronic health records, epidemiological databases, and quality reporting. Employs specific health informatics tools throughout the course, with many opportunities for gaining practical experience. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: HAP 709.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 718: *Consumer Health Informatics.* 3 credits.
Exposes students to the emerging subfield of health informatics, which is at the intersection of public and community health, health education, and more traditional informatics areas. Demonstrates the use of technology to increase awareness and improve population health. Reviews issues involved in consumer health informatics, and explores hands-on informatics tools and applications. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: HAP 709.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 719: *Advanced Statistics in Health Services Research I.* 3 credits.
Covers principles and methods of statistical data analysis and inference. Emphasizes the use and application of various data analysis techniques and their assumptions. Computer outputs will be used to demonstrate the application of statistical techniques in analyzing health related data sets. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: HAP 602 or GCH 601 or an equivalent statistics course.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 720: *Health Data Integration.* 3 credits.
Students learn to manipulate large databases, create link table queries, write SQL application programs, understand sources of data conflicts, and identify methods of integrating ODBC databases with legacy data. Covers data warehousing, methods of analyzing large databases, including Bayesian belief networks and machine learning in health care context. Features semester long data integration group project. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 721: *Project in Data Analysis.* 1-4 credits.
Focuses on analysis of data from electronic health records. Includes instruction on preparation of data including (a) removing inaccurate information, (b) organizing the timing of events/variables, (c) summarizing time-based variables. Students work on real data obtained by them from a practicum through an employer or real data supplied by instructor. Students must complete a literature review, describe methods used, present results, and discuss findings. Offered by Health Administration & Policy. May be repeated within the degree for a maximum 4 credits.

Recommended Prerequisite: HAP 361 and HAP 602 or equivalent statistics and database courses.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

HAP 725: *Statistical Process Control in Healthcare.* 3 credits.
Provides students with hands-on experience with data from electronic health records. Introduces students to causal analysis of observational data, including propensity scoring and stratification. Provides students with access to simulated data from electronic health records. Exposes students to trends that influence the quality management system and drivers for change, including measures used by CMS to strengthen value based payment. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

HAP 730: *Health Care Decision Analysis.* 3 credits.
Students analyze practice patterns and find optimal methods of improving them. Uses decision analysis and failure mode analysis in health care settings. Students integrate scientific evidence, patients' preferences, and experts' opinions to identify optimal alternatives. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: Graduate-level statistics course.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 740: *Management of Health Information Systems.* 3 credits.
Introduces health and medical information systems with emphasis on systems analysis and design to support managerial and clinical communications and decision making. Explores trends and innovations in information technology and systems, focusing on managerial oversight of health and medical information systems. Explores contemporary management strategies for information systems personnel. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 742: *Health Policy Development and Analysis.* 3 credits.
Provides an overview of the core elements of a health policy analysis, including problem definition, background, policy options, and recommendations. Explores the policymaking process, key stakeholders, and types of analytic frameworks used in the development of U.S. healthcare policy. Students will apply key concepts and frameworks to analyze a health policy issue and clearly communicate information in written assignments and oral presentations. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 745: *Health Care Security Policy.* 3 credits.
Focuses on health security and privacy policy and compliance issues. Students will develop policies for the type of threats faced by facilities. The legal and business policies for facility, personnel, travel, information, and patient security will be discussed. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 746: *Health Policy Leadership.* 3 credits.
Examines leadership strategies to influence health policy-making from a community stewardship and interest group advocacy perspective. Students will develop an understanding of how health and socio-economic issues affect the development, implementation and change of health policy, appreciate the complexity of engaging the public policy process, and selectively employ strategies to influence politics and the policy making process. Offered by Health Administration & Policy. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 750: *Legal Issues in Health Administration.* 3 credits.
Examines legal issues facing the healthcare industry. Prepares health professionals to understand legal principles, statutes, regulations, and case law related to managing health care organizations and health professionals ' practice. Students are provided with practical knowledge of health law and its application to actual work experience. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 760: *Philosophy of Science in Health Services Research.* 3 credits.
An introductory course on the theory and philosophy of science and humanism that relate to the design and conduct of health services research. The course examines selected theories on the nature of reality (ontology), the justification of knowledge claims (epistemology), and how knowledge is constructed (methodology) in design and analysis of health services research. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: Admission to a doctoral program or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 761: *Philosophy of Science and Research Methods.* 3 credits.
Introduces the philosophy of science and methods used to conduct health services research. Examines the justification of knowledge claims (epistemology), approaches to research study design, and the application of analytic methods and data to develop knowledge in field of health services research. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: Admission to a doctoral program or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 764: *Health Policy and Government Payment Systems for Health Care Services.* 3 credits.
Examines the rationale for government intervention in provider payment and explores the current policy issues and politics of major government provider payment systems, including Medicare and Medicaid, and examines options for managing these programs more effectively. The course will "follow the money" as it flows through government and provider payment systems, model potential changes in such systems, and identify policies for improving the operation of these programs and payment systems. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 770: *Medical Decision Making and Decision Support Systems.* 3 credits.
Introduces the complex subject of medical decision making. Examines systematic approaches to decision making. Explores principles governing the design, application, and maintenance of clinical decision support systems. Laboratory time provides learning experience in various applied situations. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: HAP 701 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 774: *Artificial Intelligence in Health.* 3 credits.
Reviews artificial intelligence (AI) methods in the context of health applications. Covers AI approaches to problem solving, uncertain reasoning, human-computer interaction, machine learning, intelligent optimization and simulation. Students are provided with theory and practical exercises in the context of Electronic Health Records and intelligent devices used in health. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: HAP 618, HAP 671, HAP 719, HAP 752 or permission of instructor. Knowledge of Python programming and SQL are required.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 777: *Health Data Visualization.* 3 credits.
Introduces the principles and techniques of data visualization with special focus on applications in healthcare. Students will learn practical skills to make visually appealing graphics on web browsers to present their data using a publicly available JavaScript library D3 (Data-driven documents). Notes: Assumes that students have baisc knowledge of the web, browsers, HTML, CSS, and JavaScript programming. Offered by Health Administration & Policy. May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HAP 780: *Data Mining in Health Care.* 3 credits.
An introductory course to data mining and knowledge discovery in health care. Methods for mining health care databases and synthesizing task-oriented knowledge from computer data and prior knowledge are emphasized. Topics include fundamental concepts of datamining, data preprocessing, classification and prediction (decision trees, attributional rules, Bayesian networks), constructive induction, cluster and association analysis, knowledge representation and visualization, and an overview of practical tools for discovering knowledge from medical data. These topics are illustrated by examples of practical applications in health care. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: Graduate-level statistics course.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

HAP 789: *Pre-Capstone Professional Development Seminar.* 1-3 credits.
Provides students with guidance and preparation for engaging in the capstone practicum. Offered by Health Administration & Policy. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale.

HAP 790: *Capstone Practicum in Health Systems Management.* 3 credits.
Field practicum in health systems management where students function as an integral member of an organizational entity to complete a non-thesis project while continuing to build skills in leadership, critical thinking and systematic problem analysis. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: All coursework in the major.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

HAP 793: *Final Project in Applied Health Policy.* 3 credits.
Provides students experience in executing an approved written research project related to a public health policy issue. Students will demonstrate skills learned in the MSHMP program. Projects require students to understand different positions related to a particular policy issue, to assess existing evidence and research related to the policy issue, and to formulate additional research questions. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

HAP 799: *Master's Thesis.* 1-6 credits.
Provides students with skills to develop their research proposal, conduct their research, and complete their thesis in a relevant field of study. Offered by Health Administration & Policy. May be repeated within the degree.

Recommended Prerequisite: Admission to one of the master's programs in the department and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

HAP 819: *Advanced Statistics in Health Services Research II.* 3 credits.
Covers principles and methods of advanced statistical data analysis and inference with applications in health services research. Emphasizes the use and application of various data analysis techniques. including multivariate statistics. regression and longitudinal data analysis. Use of statistical software STATA demonstrates the application of statistical techniques in analyzing health related data sets. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: HAP 719.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

HAP 823: *Comparative Effectiveness Analysis using Observational Data.* 3 credits.
Applies linear and logistic regression to analysis of comparative cost and effectiveness using massive data in electronic health records. Emphasizes (1) ridge regression and (2) propensity scores. Covers the following topics: (1) counterfactual framework and assumptions, (2) data balancing, (3) matching or weighting, and (4) sensitivity analysis. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (HAP 671[B-] or 671[XS]) and (HAP 719[B-] or 719[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate level students.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

HAP 824: *Social Determinants of Health: A Multilevel Evidence-Based Approach.* 3 credits.
Apply multilevel approaches to analyze public health problems through the lens of social determinants of health. Students will identify a current public health problem and examine its causes or risk factors at individual, interpersonal, organizational, community, and policy levels, and explore appropriate strategies to address the problem. Students will learn writing a systematic literature review manuscript and using appropriate datasets to explore the social determinants of the health problem. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

HAP 835: *Causal Inference in Health Services Research.* 3 credits.
Discusses the nature of causation and alternative means of inferring causal relationships. Included are experimentation, matching, instrumental variables, conditioning, and mechanism in network models. Covers a broad range of methodological considerations that emerge in identifying causal effects. The focus is less on analysis of data and more on considerations of causal inference in non-randomized study design. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

HAP 846: *Advanced Health Economics.* 3 credits.
Prepares students to conduct economic analysis of the health care market. Covers topics such as the supply and demand of health care services, health insurance and the role of asymmetric information, technology and the cost of health care, the role of government in health care, and health externalities. Highlights current empirical work using state-of-the-art econometric techniques to illustrate how knowledge is advanced and consensus emerges and dissipates over time. Offered by Health Administration & Policy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

HAP 850: *Health Informatics Research.* 3 credits.
Introduces technical research methods in the field of health informatics. Reviews quantitative, qualitative and mixed research methods applied to study health informatics problems. Contrasts research methods used in health informatics to those traditionally used in health services research and health sciences. Provides students concrete examples of health informatics research. Allows students to work on research projects individually and in groups. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: HAP 719 or HAP 819, HAP 761, HAP 780

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

HAP 865: *Health Services Research Seminar.* 3 credits.
Builds student professional skills in publishing papers, disseminating research findings at conferences, translating research into practice and policy, and career development. Advances student knowledge in a variety of research topics pertaining to both health systems and policy, and health informatics. Includes student and faculty presentations on completed research studies and those in-progress. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: Complete most core courses (e.g. research methods) in the doctoral program or have instructor's permission to register

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HAP 868: *Advanced Research Seminar in Health Policy Analysis.* 3 credits.
Seminar on advanced research methods that analyzes theoretical and analytic foundations to critique health services research and health policy analysis. Students synthesize, integrate, and apply theoretical knowledge and advanced skills relevant to health services research, policy analysis, and program evolution. Notes: Limited to doctoral students having completed core courses in statistics and research design, or permission of instructor. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: HAP 703 or equivalent or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

HAP 880: *Advanced Health Data Mining.* 3 credits.
Provides the knowledge and skills needed to analyze health data using modern tools. Describes analytics of administrative and clinical data. Covers concepts and tools for big data analvtics and NoSQL data analytics. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: HAP 719, HAP 780, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

HAP 925: *Advanced Methods in Qualitative Research for Health Care.* 3 credits.
Builds upon the foundation of qualitative research in health care. Designed to develop skills in data generation techniques; data analysis using NVivo and text analysis software, including narrative and intentions analysis; application of standards for qualitative research; and utilization of various styles for qualitative reports and research proposals. The course also reviews mixed methods designs for research studies. Offered by Health Administration & Policy. May not be repeated for credit.

Recommended Prerequisite: NURS 920 or HAP 835

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

HAP 940: *Advanced Independent Study.* 1-9 credits.
Prepares doctoral-level students for the field comprehensive exam in their program of study, and builds knowledge and skills in a specific or individualized health related topic. Designed for doctoral-level students, this independent study course is built by the student with the advice of the potential independent study faculty/dissertation director. It may involve data analysis, synthesis and/or evaluation of research evidence, theory and/or exemplary practice in an area of inquiry or scholarship depending on the student's program of doctoral study. Offered by Health Administration & Policy. May be repeated within the degree for a maximum 18 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

HAP 998: *Doctoral Dissertation Proposal.* 1-9 credits.
An independent study for HAP doctoral students resulting in the development of a doctoral dissertation proposal. Includes development of the research problem, study methods, data analysis and literature review. Notes: The course must be supervised by a HAP faculty member qualified to serve as a dissertation chair. Offered by Health Administration & Policy. May be repeated within the degree for a maximum 36 credits.

Recommended Prerequisite: Advancement to candidacy.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

HAP 999: *Doctoral Dissertation.* 1-9 credits.
Under faculty direction, develop dissertation proposal and complete the dissertation. Offered by Health Administration & Policy. May be repeated within the degree for a maximum 25 credits.

Recommended Prerequisite: All courses in the PhD program.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Health and Human Services (HHS)

400 Level Courses

HHS 432: *Healthy Aging.* 3 credits.
Offers a broad perspective of normal aging in the older adult, and the impact of chronic disease and psychosocial and cultural factors on the aging process. Offered by Health and Human Services. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HHS 480: *Research Internship in Public Health.* 3 credits.
The student works as a member of a team engaged in population health research and attends a bi-weekly research seminar. Under direction of the course seminar leader and the faculty research mentor, the student will acquire selected research skills and develop introductory research writing and presentation skills. Offered by Health and Human Services. Limited to three attempts.

Recommended Prerequisite: Open only to CHHS majors or students who have completed CHSS minor or certificate courses.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HHS 490: *COVID-19 Response Internship.* 1-3 credits.
Emphasizes public health and clinical infectious disease control and prevention measures at the community level in response to the COVID-19 pandemic in a practicum field experience under the direct supervision of a preceptor. Provides students a boots-on-the ground opportunity to make a positive impact on health and economic well-being of a variety

of local communities. Focuses on all aspects of the Virginia COVID-19 vaccination protocol plan, including recruiting critical populations: vaccine storage, handling and administration (if qualified): second dose reminders, program communication; safety monitoring; and program monitoring. Offered by the College of Health and Human Services, open to all major. Students are required to complete 45 hours of contact per credit hour. May be repeated within degree for a maximum of six credits. Offered by Health and Human Services. May be repeated within the term for a maximum 12 credits.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Special scale.

HHS 491: *Foundations of Clinical Research.* 1 credit.
Provides students with fundamental concepts and basic analytic methods pertaining to the design, analysis, and interpretation of clinical research. Outlines the research process by introducing the components of research - from beginning a literature search, to designing an experiment, to selecting appropriate outcome measures, and collecting data. Offered by Health and Human Services. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

HHS 492: *RS: Internship in Clinical Research.* 3 credits.
Provides students with experiential learning in a research laboratory that focuses on clinical health research. Students are matched with a clinical research supervisor that provides both research and professional development mentorship. Through this opportunity, students enhance their research, critical thinking, problem-solving and presentation skills. An application must be submitted in the semester prior to enrollment in the course. During the semester prior to entry, students may be asked to acquire certain competencies/certifications in order to fully participate at their research site (e.g., human subjects research protections training, lab safety, certification, HIPAA training). Offered by Health and Human Services. Limited to three attempts.

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: Course is open to honors college students only.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

HHS 597: *Approaches to Quantitative Data Analysis in Public Health Research.* 3 credits.
Examine univariate and bivariate statistical procedures appropriate for analyzing quantitative population health research data. Includes selecting, applying, and interpreting data analysis procedures. Offered by Health and Human Services. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

HHS 646: *Social Gerontology.* 3 credits.
Examines physical, psychological, sociological, cultural, spiritual, and economic aspects of aging and explores the challenges of service delivery to older persons. Considers the impact of aging populations on the social structure, economy, demography, and social policy of society and identifies social and cultural forces that influence older persons and their families, with special regard to caregiving, institutionalization, and social roles in retirement. Offered by Health and Human Services. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HHS 648: *Aging and Health.* 3 credits.
Provides an overview of normal aging and explores factors that affect health and well being in older adults; demonstrates strategies for maintaining health and managing chronic illness in older adults; examines common misconceptions about aging and healthcare issues; and explores the process of normal aging and the presentation of common health conditions in older adults. Offered by Health and Human Services. May not be repeated for credit. Equivalent to NURS 648.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HHS 690: *COVID-19 Response Practicum.* 1-3 credits.
Emphasizes public health and clinical infectious disease control and prevention measures at the community level in response to the COVID-19 pandemic in a practicum field experience under the direct supervision of a preceptor. Provides students a boots-on-the ground opportunity to make a positive impact on health and economic well-being of a variety of local communities. Focuses on all aspects of the Virginia COVID-19 vaccination protocol plan, including recruiting critical populations:

vaccine storage, handling and administration (if qualified): second dose reminders, program communication; safety monitoring; and program monitoring. Offered by the College of Health and Human Services, open to all major. Students are required to complete 45 hours of contact per credit hour. May be repeated within degree for a maximum of six credits. Offered by Health and Human Services. May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale.

700 Level Courses

HHS 702: *Public Health Promotion and Disease Prevention.* 3 credits.
Prepares students to address public health needs of individuals or groups through health promotion and disease prevention. Emphasis is placed on research evidence and motivational interviewing to improve healthy lifestyle, prevent disease and manage chronic conditions. Offered by Health and Human Services. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

800 Level Courses

HHS 810: *Systematic Reviews of Health Research.* 3 credits.
Applies systematic methods for evaluating current research in order to develop empirically-based decisions about the next major research questions that need to be addressed in the students' selected area of inquiry. Offered by Health and Human Services. May not be repeated for credit.

Recommended Prerequisite: Master's degree in a health-related discipline.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HHS 818: *Advanced Ethics of Health Research.* 3 credits.
Analyze ethical issues associated with designing and conduction public health research in diverse populations and settings. Offered by Health and Human Services. May not be repeated for credit.

Recommended Prerequisite: Master's degree in a health-related discipline.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HHS 825: *Conducting and Publishing Health Research.* 3 credits.
Apply scientific and ethical principles of inquiry by participating in a guided public health research practicum and seminars. Apply principles of writing for scientific publication. Offered by Health and Human Services. May not be repeated for credit.

Recommended Prerequisite: Master's degree in a health-related discipline.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

HHS 850: *Teaching Practicum in Public Health.* 0-3 credits.
Provides supervised teaching experience of selected public health courses. Focuses on effective strategies for facilitating student learning, methods of assessment and testing, and using student and peer feedback for self-improvement. Examines the principles and practices of effective classroom management. Offered by Health and Human Services. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Minimum of 18 graduate hours in a health-related field.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Enrollment limited to students in the Health and Human Services college.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

Hebrew (HEBR)

100 Level Courses

HEBR 101: *Elementary Hebrew I.* 3 credits.
Designed for students with no knowledge of Hebrew. Introduction including grammar, vocabulary, oral skills, listening comprehension, and reading. Offered by Modern & Classical Languages. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Hebrew

HEBR 102: *Elementary Hebrew II.* 3 credits.
Continuation of HEBR 101. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: HEBR 101 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Hebrew

HEBR 150: *Introduction to Biblical Hebrew.* 3 credits.
Introduces basic vocabulary, grammar, and development of reading skills with introduction to religion and culture of ancient Israel that produced the Hebrew Bible/Old Testament. Offered by Modern & Classical Languages. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Hebrew

HEBR 160: *Readings in Biblical Hebrew.* 3 credits.
Continuation of HEBR 150 to increase students' proficiency in vocabulary and understanding of morphology and syntax. Selected passages from Hebrew Bible read; students introduced to text formation and analysis. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: HEBR 150 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Hebrew

200 Level Courses

HEBR 201: *Intermediate Hebrew I.* 3 credits.
Further development of skills acquired in HEBR 101 and 102, including grammar, oral expression, listening comprehension, reading, and writing. Notes: Lab work required. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: HEBR 102 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Hebrew

HEBR 202: *Intermediate Hebrew II.* 3 credits.
Continuation of HEBR 201. Notes: Lab work required. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: HEBR 201 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Fulfills Frgn Lng requirment, Taught in Hebrew

Higher Education (HE)

600 Level Courses

HE 601: *The Community College.* 3 credits.
Studies institutional character of the community college, including history, purpose, clientele, organization, finance, and social function. Studies issues currently faced by community colleges. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HE 602: *College Teaching.* 3 credits.
Describes issues that affect teaching and learning and provides basic tools to use in college classroom. Teaches how to plan course, develop syllabus, promote learning among diverse students, and implement classroom assessment techniques. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HE 605: *Learning Assessment.* 3 credits.
Focuses on classroom and program-level learning assessment, and describes the political and historical context for assessment. Offers hands-on practice of assessment for instructors and student affairs professionals. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:

This course is graded on the Graduate Regular scale.

HE 606: *Cultural Pluralism in Higher Education.* 3 credits.
Examines the role of cultural pluralism in U.S. higher education. Focuses on issues of race, ethnicity and gender, and their implications for the change processes of colleges and universities. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HE 610: *Research Methods in Higher Education.* 3 credits.
Provides an introduction to higher education research methodologies, analysis, and decision-making through introduction of basics of research design including problem identification, literature review, method selection, data collection and analysis, application, writing, and ethics. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HE 624: *Finance and Fiscal Management in Higher Education.* 3 credits.
Overview of higher education finance and fiscal management. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HE 641: *Introduction to Helping Skills.* 3 credits.
Focuses on helping skills that assist others in reflecting on concerns, considers possible causes of problems, and contemplates options and strategies for problem solving. Introduces students to and practices basic helping skills. Explores ethical issues surrounding helping skills and determining when to refer students to professional counselors. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HE 644: *Organization and Administration of Student Affairs.* 3 credits.
Focuses on development and organization of student personnel programs and services in institutions of higher learning. Covers philosophy, methods, and techniques. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HE 645: *The Contemporary College Student.* 3 credits.
Analyzes changing demographics, barriers, and developmental issues facing college students. Studies impact of college environment on student development, and interaction between students of varying subcultures and the environment. Examines technology issues and their impact. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HE 646: *Student Development Theory.* 3 credits.
Addresses developmental issues facing students, including adult students; factors that affect development; and the need to work with individuals, groups, and organizations within the campus community to establish conducive learning environments. Application of psychosocial, cognitive development, identity, and person-environment interaction

theories are considered in depth. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HE 685: *Practicum.* 3 credits.
Experiential learning that could include supervised on-the-job experience, academic service learning, community outreach, or research field work in approved college or university setting or public agency involved in higher education. Develops skills applicable to higher education. Approval of practicum coordinator needed one semester before registration. Notes: Minimum 150 hours of work and participation in internship seminar. Offered by Higher Education Program. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Admission to certificate or MAIS/Higher Education program; approval of advisor and practicum coordinator; 9 credits of core requirements.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

HE 701: *Higher Education Law.* 3 credits.
Introduces students to laws and legal issues that impact higher education and establishes a general familiarity with higher education law. Uses a case study approach to teach students to recognize when a legal issue presents itself in situations involving students, faculty, or administration. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HE 702: *Contemporary Issues and Fundamental Theories in Higher Education.* 3 credits.
Examines key concepts, issues, questions, contemporary concerns, theories, and literature relevant to scholars and practitioners of higher education. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HE 703: *Higher Education in the Digital Age.* 3 credits.
Higher education is undergoing rapid transformation in the 21st century, due in large part to emerging digital technologies. This course explores the changing landscape, including face-to-face and online teaching and learning, student affairs, infrastructure, and administration. Combining reading, writing, viewing, and hands-on learning, students examine issues through the content and lens appropriate for their discipline and learning goals. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HE 704: *The Scholarship of Teaching and Learning.* 3 credits.
Overview of scholarship on teaching and learning in higher education. Focuses on ways students learn, how learning can be improved, and different methods of conducting research into teaching and learning. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HE 705: *Access and Social Justice.* 3 credits.
Examines the inequitable structural systems that produce unequal access to higher education. Explores the meaning of social justice in higher education, and emphasizes policy, administrative processes, and educational practices. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HE 706: *Students in Postsecondary Education.* 3 credits.
Provides in-depth study and analysis of current issues with today's college students. Examines theories relating to college student success including college access and choice, college's impact on students, student retention and attrition, and student learning and engagement as well as current issues affecting contemporary college students and higher education institutions. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HE 707: *Scholarly Digital Storytelling.* 3 credits.
This course explores scholarly digital storytelling as a compelling medium for redefining academic research, intended audiences, and scholarly communication. Students create a scholarly digital story based on their academic area of interest. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HE 710: *Leadership in Higher Education.* 3 credits.
Focusing on the leadership of higher education and the role leaders play in institutional transformation, this course explores the complex social and political environments and the current and future trends of higher education. This focus occurs through the foundational grounding of leadership theory and research. Students will be challenged to employ multiple perspectives of leadership in higher education. Offered by Higher Education Program. May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HE 711: *Policy Studies in Higher Education.* 3 credits.
Intended as a toolkit for the understanding and creation of evidence-based analysis of public policy issues at all levels of governance, this course examines examples of policy research and analysis prompted from discussion around higher education policy issues. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HE 712: *Assessment and Program Evaluation in Higher Education.* 3 credits.
Examines educational assessment and evaluation practices and methods. Students critique and design an evaluation study and an evaluation report. Reviews ethical issues and impact of assessment and evaluation for students, employees, and programs. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HE 713: *The Internationalization of Higher Education.* 3 credits.
Explores the internationalization of higher education through various lenses including administration, student services, curriculum integration, study abroad, and branch campus development. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HE 721: *History of Higher Education.* 3 credits.
History of higher education from colonial period to the present. Examines philosophical, political, social, and economic forces that have influenced development. Reviews today's issues and challenges. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HE 722: *Organization and Administration in Higher Education.* 3 credits.
Provides concepts of organization and administration in contemporary institutions from macro to micro perspectives. Studies theory and practices of the organization as it relates to governance, structure, and management of the institution. Offered by Higher Education Program. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HE 792: *Special Topics in Higher Education.* 1-3 credits.
Covers current topics in higher education. Notes: May be repeated when topic is different. Offered by Higher Education Program. May be repeated within the degree.

Specialized Designation: Topic Varies

Recommended Prerequisite: Admission to doctoral program or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HE 797: *Higher Education Capstone.* 3 credits.
This capstone course guides students in the creation of a learning and professional practice portfolio. The portfolio is a compilation of academic work and other forms of educational evidence assembled for the purpose of (1) evaluating coursework quality, learning progress, and academic achievement; and (2) determining whether learning standards or other academic requirements for courses and the program have been met. Students should enroll in the HE 797 course in their last academic year. Offered by Higher Education Program. May not be repeated for credit.

Recommended Prerequisite: Students must be in the last academic year of their course work.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HE 799: *Higher Education Thesis.* 1-3 credits.
Original research related to student development or higher education. Offered by Higher Education Program. May be repeated within the degree. Equivalent to MAIS 799.

Recommended Prerequisite: HE 610

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

HE 897: *Directed Reading in Higher Education.* 1-6 credits.
Independent reading on topic agreed on by student and instructor. Offered by Higher Education Program. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Admission to the doctoral program and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Arts, Doctor of Philosophy or Master of Interdiscply Studies degrees.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

HE 998: *Doctoral Dissertation Proposal.* 1-3 credits.
Contact program for permission to register. Work on research proposal that forms basis for doctoral dissertation. Offered by Higher Education Program. May be repeated within the degree.

Recommended Prerequisite: Completion of all course work and qualifying exams.

Registration Restrictions:
Enrollment is limited to students with a major in Education (Community College).

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Arts degree.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

HE 999: *Doctoral Dissertation.* 1-12 credits.
Doctoral dissertation research and writing under direction of dissertation committee. Offered by Higher Education Program. May be repeated within the degree.

Recommended Prerequisite: HE 998 and appointed dissertation committee.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to students with a major in Education (Community College).

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Arts degree.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

History (HIST)

100 Level Courses

HIST 100: *History of Western Civilization.* 3 credits.
History of Western civilization from ancient Mediterranean origins through medieval and modern development of Europe to contemporary world. Notes: Students who take HIST 100 may not receive credit for HIST 101 or HIST 102. Offered by History & Art History. Limited to three attempts. Equivalent to HIST 101, HIST 102.

Mason Core: Western Civilization

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 101: *Foundations of Western Civilization.* 3 credits.
Evolution of Western culture from ancient Mediterranean world to formation of modern Europe in 17th century. Notes: Students may not receive credit for HIST 101 if they have taken HIST 100. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 102: *Development of Western Civilization.* 3 credits.
History of Western institutions and ideas from 17th century to the present. Notes: Students may not receive credit for HIST 102 if they have taken HIST 100. Offered by History & Art History. Limited to three attempts. Equivalent to HIST 100.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 121: *Formation of the American Republic.* 3 credits.
Social, political, economic, and intellectual growth of American institutions from colonization through Reconstruction. Notes: Students may not receive credit for HIST 121 if they have taken HIST 120. Offered by History & Art History. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 122: *Development of Modern America.* 3 credits.
History of the United States since 1877. Notes: Students may not receive credit for HIST 122 if they have taken HIST 120. Offered by History & Art History. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 125: *Introduction to World History.* 3 credits.
Analytical approach to world history overview that surveys major features of principal existing civilizations of world, as originally formed and as altered by key global processes including forces of modernity. Offered by History & Art History. Limited to three attempts.

Mason Core: Western Civilization

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

HIST 202: *Freshman/Sophomore Seminar in Global History.* 3 credits.
Focuses on skills, methods of learning, and subject matter to introduce discipline of history. Notes: Topics vary. Offered by History & Art History. Limited to three attempts. Equivalent to SYST 202.

Recommended Prerequisite: Freshman or sophomore standing.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 251: *Survey of East Asian History.* 3 credits.
Surveys history of China and Japan from prehistoric times to ca. 1600. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 252: *Survey of East Asian History.* 3 credits.
Surveys history of China and Japan from early modern times (ca. 1600) to present. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 261: *Survey of African History.* 3 credits.
Focuses on the sub-Saharan region and examines evolving systems of kinship power, spirituality, and slavery. Explores the interactions between Africans and global influences from the religions of the book and colonialism to the politics of development and continuities and changes in production. HIST 261 surveys African history from the earliest times to 1800. HIST 262 surveys African history from 1800 to the present. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 262: *Survey of African History.* 3 credits.
Focuses on the sub-Saharan region and examines evolving systems of kinship power, spirituality, and slavery. Explores the interactions between Africans and global influences from the religions of the book and colonialism to the politics of development and continuities and changes in production. HIST 261 surveys African history from the earliest times to 1800. HIST 262 surveys African history from 1800 to the present. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 271: *Survey of Latin American History.* 3 credits.
Surveys colonial era to 1825. Emphasizes interactions of United States, Latin America. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 272: *Survey of Latin American History.* 3 credits.
Surveys development of independent Latin America since 1825. Emphasizes interactions of United States, Latin America. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 281: *Survey of Middle Eastern Civilization.* 3 credits.
Survey of Middle Eastern history from rise of Islam to present, emphasizing processes that led to emergence of economic, cultural, social, and political institutions that characterize region today. Surveys period from rise of Islam in 570 to medieval period (ca. 1258) Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 282: *Survey of Middle Eastern Civilization.* 3 credits.
Survey of Middle Eastern history from rise of Islam to present, emphasizing processes that led to emergence of economic, cultural, social, and political institutions that characterize region today. Surveys medieval period to present. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

HIST 300: *Introduction to Historical Method.* 3 credits.
Introduces research skills and methods, as well as historical interpretation, culminating in written and oral presentations. Notes: Topics vary according to instructor. History majors strongly urged to take HIST 300 as soon as possible after reaching 30 credits. Grade of C or better is required to graduate with BA in history. Students may repeat HIST 300 only with permission from the Department of History and Art History and repetitions are limited. Offered by History & Art History. Limited to three attempts.

Mason Core: Synthesis

Specialized Designation: Mason Impact., Writing Intensive in Major

Recommended Prerequisite: History majors with 30 credits or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in History.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 301: *Classical Greece.* 3 credits.
Political, social, economic, and cultural history of classical Greece from development of the city-state through 5th century. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 302: *Classical Rome.* 3 credits.
Political, social, economic, and cultural history of classical Rome from founding of the city through fall of Roman republic. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 304: *Western Europe in the Middle Ages.* 3 credits.
Survey of development of European society from collapse of Roman rule in 5th century to advent of Black Death in 14th century. Emphasizes political, social, cultural, and intellectual growth of society that developed from Roman, Catholic, and Germanic roots. Offered by History & Art History. Limited to three attempts.

Recommended Prerequisite: 6 hours of history or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 305: *The Renaissance.* 3 credits.
Survey considering Renaissance as phenomenon rather than chronological period. Emphasizes growth of humanism in Italy in 14th and 15th centuries, development of new political concepts, and laicization of society. Includes transmission of these developments to transalpine Europe in late 15th and 16th centuries. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 306: *The Reformation.* 3 credits.
Late medieval ecclesiastical conditions and reform movements, late scholasticism, Protestant Reformation, Catholic Reformation, dynastic rivalries, and religious wars. Concludes with Peace of Westphalia. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 307: *Old Regime and Revolutionary Europe.* 3 credits.
Political, social, economic, and cultural history of Europe from 1648 to 1815. Crisis of authority, consolidation of the state, absolutism, colonial expansion, the Scientific Revolution and the Enlightenment, and the French Revolution and Napoleon. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 308: *Nineteenth-Century Europe.* 3 credits.
History of Europe from Congress of Vienna to outbreak of World War I. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 309: *Europe in Crisis: 1914-1948.* 3 credits.
Two world wars, the Great Depression, and political and cultural revolutions transformed Europe as never before. Explores causes and consequences of these tumultuous events, and concludes with consideration of reconstruction that caps period. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 312: *Nationalism in Eastern Europe.* 3 credits.
Examines history of modern Eastern Europe from mid-19th century through collapse of communist regimes in 1989, and includes focus on Yugoslav wars of 1990s. Nationalism provides organizing theme; topic approached through literature, political, social, cultural, and new media sources. Class sessions emphasize discussion of central issues and sources. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 314: *History of Germany.* 3 credits.
Political, diplomatic, economic, social, and cultural development of Germany from dissolution of Holy Roman Empire to present. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 315: *STEM and Society: A History.* 3 credits.
Students will use case histories to explore the cultural and social aspects of global STEM development during the Scientific and Industrial Revolutions, roughly the period from 1700 to 1900. Students will be required to critically analyze articles, books chapters, other readings and media, and articulate their findings and viewpoints in classroom and online discussions and presentations. They will also work in a team project which will present its results to the class in live and online formats. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 316: *History of Modern Architecture.* 3 credits.
This course covers the history of modern architecture in the Western world from the mid-19th century to the present. Introduces movements such as Art Nouveau, Futurism, Modernism, and Post-Modernism in their political, social, and cultural contexts. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 321: *Modern France.* 3 credits.
Surveys two centuries of French history presenting an introduction to the multidisciplinary study of culture, politics, and society. Course begins with the 1789 French Revolution, covering the nation's long and difficult transition to democracy and ends with the consideration of enduring discourses of liberty, equality, and secularism in the contemporary political and social landscape. Covers major events such as revolutions, wars, and uprisings, as well as the experiences of ordinary citizens, social practices, and cultural techniques. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 322: *Modern Britain.* 3 credits.
History of Britain from mid-18th century to present. Focuses on social, political, and economic transformations of industrialization; culture of 19th-century industrial society; problems of late 19th-century economic competition and imperialism; creation of welfare state; and experience of post-World War II political, social, and economic realignments. Offered by History & Art History. Limited to three attempts.

Recommended Prerequisite: 6 hours of history or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 326: *Stalinism.* 3 credits.
Examines Josef Stalin and Stalinism as a political, economic, social, and cultural system, with a focus on the period from Lenin's death in 1924 through Stalin's death in 1953. Explores the history of rapid industrialization, collectivization of agriculture, famine, terror, war, Cold War, and human suffering in the Soviet Union and Eastern Europe. Offered by History & Art History. Limited to three attempts.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 327: *The Soviet Union and Russia Since World War II.* 3 credits.
Analyzes the Soviet Union, the Cold War "enemy" of the United States, from victory in World War II under Joseph Stalin through collapse in 1991. Studies the fifteen independent countries that emerged from the Soviet collapse, including Russia, the Baltic States, Ukraine, Belarus, Moldova, Central Asia, and the Caucasus, which continue to influence world politics and culture today. Offered by History & Art History. Limited to three attempts.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 328: *Rise of Russia.* 3 credits.
Political, social, and cultural development of Russia from early times to the end of the 19th century. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 329: *Modern Russia and the Soviet Union.* 3 credits.
Russia and the Soviet Union from the early 20th century to the present. Focuses on the Russian Revolution and the political, social, cultural, and economic developments of the Soviet and post-Soviet eras. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 334: *American Scriptures.* 3 credits.
In this course, students will analyze texts that Americans have treated as “scripture.” Students will read texts that present themselves as scripture, such as selections from the Book of Mormon and a Holy Sacred and Divine Roll and Book (a Shaker text). They will also read texts that have attained a sort of canonicity within American culture, such as the Declaration of Independence and Martin Luther King Jr.’s “Letter from Birmingham Jail.” Students will thus gain more than a valuable familiarity with a variety of American religious traditions. They will also reflect on the way that, even in a digital age, texts continue to shape American identity. Offered by History & Art History. Limited to three attempts. Equivalent to RELI 334.

Mason Core: Literature

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 335: *The African American Experience in the United States: African Background to 1885.* 3 credits.
History of African American experience in United States including African origins; trans-Atlantic slave trade; development of slavery in colonial, revolutionary, and antebellum periods; abolitionist movements; and African American participation in Civil War and during Reconstruction. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 336: *The African American Experience in the United States: Reconstruction to the Present.* 3 credits.
History of African American life in post-slavery America, and rise and consequences of racial segregation in 19th and 20th centuries. Examines African American response to continued racial inequality and repression. Covers great migration, urbanization, black nationalism, and civil rights era, as well as contemporary debates about race. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 339: *History of Baseball.* 3 credits.
Examines development of baseball in U.S. context of labor, intellectual, economic and political events including racial segregation. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 340: *Basketball and the American Experience.* 3 credits.
Explores history of basketball in the United States since the late 1800s. Examines how basketball reflects and informs attitudes toward race, ethnicity, gender, and national identity. Possible topics include YMCA movement, Jews in basketball, racial segregation, growth of college basketball, international politics, evolution of black aesthetic, ABA-NBA merger, women's basketball, Magic Johnson-Larry Bird rivalry, Michael Jordan, and basketball's professionalization, commercialization, and globalization. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 341: *History of Sport in the United States.* 3 credits.
Examines the roots of American sport in colonial play and recreation, the emergence of organized and national sports, issues of gender and race in the sporting world, and the intersection of U.S. sport with events such as the Civil Rights Movement and the Cold War. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 342: *History of the Olympics and the United States.* 3 credits.
Traces history of American participation in the Olympics from 1896 to the present. Topics may include American leadership in the Olympic Movement, the historical legacy of American Olympic host cities, American Imperialism, Nazism, issues of race, gender and ethnicity in the Olympics, the Cold War and Olympic boycotts, and commercialization of sport. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 343: *Women during the Enslavement Era.* 3 credits.
This course examines the history of African American women in antebellum America, both the general experiences of enslaved and nominally free women, and the lives of noted women who were involved in the public arena as orators, writers, preachers, abolitionists and women's rights activists. Within the context of the national political debates and compromises that took place on the issue of slavery and the status of free blacks, the course uses an intersectional analysis in examining the effect of gender, class and race on the development of ideologies concerning abolition, colonization, women's rights and enslavement. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 344: *Black Social Movements.* 3 credits.
The course examines the underlying causes of the increased violence and oppression African Americans faced post-Reconstruction and the organizational responses of blacks to the drastic curtailment of their basic rights. During this period of Jim Crow ascendancy, African American life was circumscribed by race riots and lynching, police brutality, segregation, job exclusion, housing discrimination, unequal educational opportunities and disfranchisement. Race and gender ideology figured prominently in white justification for violence and the restrictions meted out against blacks. In addition to examining the changing political and economic conditions that gave rise to various protest and civil rights organizations and movements, the course analyzes the different personalities and ideologies of leaders in these organizations, explores the divisions that sometimes impeded a movement's effectiveness, and investigates the gendered meanings of what it meant to be black and white in America. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 345: *Women's Activism: From Jim Crow to Black Power.* 3 credits.
At the turn of the 20th century popular culture categorized African American women as desexualized Mammies or immoral Jezebels. These devastating depictions were also linked to the myth of black men as hypersexual rapists of white women whose image was infused with a heightened purity. This course examines the simultaneous struggles of black women to defend their name and fight all forms of race and sex proscriptions from the turn of the century period of Jim Crow segregation and disfranchisement through the Civil Rights and Black Power Movements of the 1960s. This course establishes that the activism of women was central to struggles to overturn segregation, end lynching, and secure political and civil rights. The course explores the effects of sexist and racist ideologies on their lives and activism, the changes in their economic and political status, the legal and social barriers they faced, and the ways in which they were defined within families and within popular culture. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 350: *U.S. Women's History.* 3 credits.
History of women and their changing status and gender roles in American society from colonial period through "second wave" of feminism in 1970s. Explores images and lives of women of different class, ethnic, and regional origins. Also focuses on women's political, economic, and legal conditions, and changes in them. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 351: *History of the Old South.* 3 credits.
History of South to outbreak of Civil War, with particular emphasis on rise of sectionalism. Focuses on development of distinct Southern culture through emergence of economic, political, social, agricultural, and intellectual institutions. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 352: *The South since 1865.* 3 credits.
History of South during Reconstruction, Redeemer era, and New South, with particular emphasis on race relations. Covers political, economic, cultural, and intellectual development from aftermath of war. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 353: *History of Traditional China.* 3 credits.
China from earliest times to period of modern Western intrusion. Development of traditional Chinese culture, society, and government. Offered by History & Art History. Limited to three attempts.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 354: *Modern China.* 3 credits.
China from 1644 to the People's Republic of China. Emphasizes coming of West and various stages of Chinese reaction. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 356: *Modern Japan.* 3 credits.
Japan from Meiji Restoration to World War II. Emphasizes Japan's modernization in face of challenge. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 357: *Postwar Japan.* 3 credits.
History of Japan from World War II to present. Examines Japanese experience of several key moments: Japan's defeat in Pacific War, reconstruction during U.S. occupation, rise to economic prominence during 1960s and 1970s, and cultural and international identity crisis during 1980s and 1990s. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 358: *Post-1949 China.* 3 credits.
Puts People's Republic of CHINA (PRC) into historical context by assessing legacies of China's socialist revolution (1949-1976) and post-socialist reforms (1978-present). Explores revolutionary heritage of the Chinese Communist Party, goals and agendas of china's socialist state, ideologies and policies shaping urban and rural development, individual agency and responses to revolutionary mass mobilization and market reforms. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 359: *Modern Iraq.* 3 credits.
Examines the politics of Iraq under the British mandate, as an independent state under the monarchy, and as a republic after the revolution of 1958, emphasizing the social composition of Iraq's people and its ruling elites. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 360: *History of South Africa.* 3 credits.
Explores the historical processes that led to the rise of African kingdoms, colonialism, industrialization, resistance movements, and legalized segregation. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 364: *Revolution and Radical Politics in Latin America.* 3 credits.
During 20th century, Latin America has witnessed both peaceful political movements and violent revolutions aimed at achieving social justice. Considers several of these movements in comparative perspective: Mexican Revolution, Arbenz government in Guatemala, Allende regime in Chile, Cuban and Nicaraguan revolutions, and Brazilian Worker's Party. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 365: *Conquest and Colonization in Latin America.* 3 credits.
Examines forms of conquest and colonization practiced by Aztec, Inca, Spanish, and Portuguese in what is now Latin America. Includes role of ideology and religion in imperial rule, use of warfare to create empires and colonies, and implementation of political and economic systems

to rule subject people. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 366: *Comparative Slavery.* 3 credits.
Examines systems of slavery from ancient world to modern world, with special emphasis on Atlantic slave trade and slave societies in Latin America and Anglo America. Considers impact of slaves and slavery on cultural, economic, and political systems in Africa and Americas from 16th to 19th centuries. Offered by History & Art History. Limited to three attempts.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 367: *History, Fiction, and Film in Latin America.* 3 credits.
Explores modern Latin American history through different types of texts: scholarly histories, historical novels, fictional films, documentary films, and oral history. Explores ways these texts produce knowledge about the past. What motivates different approaches? What counts as evidence? How do we know what really happened? How do we decide what mattered and what did not? Also introduces several important episodes in 20th century Latin American history. Offered by History & Art History. Limited to three attempts.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 370: *War and American Society.* 3 credits.
Examines war and American society from the colonial period to the post-Cold War era, including how military institutions, war, and the preparation for war have affected American society, and how Americans have thought about military service, experience war, and made peace through their history. Special emphasis on civil-military relations and the role of war and militarism in American culture. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 373: *The Civil War and Reconstruction.* 3 credits.
Analyzes the history of the American Civil War from its origins in the late 18th century to the withdrawal of federal troops from the south in 1877. Examines the political, social, and economic issues that led to war; the home fronts, war leadership, diplomacy, combat motivation, and grand strategy; problems associated with reconstituting the nation's political institutions; and the integration of millions of newly freed slaves. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 377: *The Vietnam War.* 3 credits.
Covers the causes, major events, and legacies of America's Vietnam War, including an introduction to Vietnamese history and culture, American decisions for war, strategy and major military engagements, diplomacy and peace talks, and the aftermath of the conflict in Vietnam and United States. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 378: *History of Aviation.* 3 credits.
Examines history of aviation from origins to the present in the context of culture, economics, politics, society, technology and war. Addresses such topics as the emergence of aerospace engineering as a profession, the evolution of aerospace technology and growth of the industry, military aviation, the Space Race, and aviation art, literature, music and film. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 380: *Uncovering the U.S. Past Through Film.* 3 credits.
Examines Hollywood films as historical sources that reveal the social, political, cultural and economic landscapes of their historical moment. Explores the ways films participate in pressing national debates over gender, race and ethnicity , and national security. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 384: *Global History of Christianity.* 3 credits.
Exlpores the history of Christianity around the world in the context of political and social structures as well as religious beliefs and practices. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 385: *Humanities College to Career.* 1 credit.
Focuses on career choices and effective self-presentation for soon-to-be graduating students with majors in the humanities. Explores how skills typically learned in humanities majors can be leveraged for a successful transition to post-graduation employment. Offered by History & Art History. Limited to three attempts. Equivalent to ENGH 303, FRLN 309, PHIL 393, UNIV 420.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 386: *Topics in History.* 1-6 credits.
Study of historical topics of special interest. Notes: Topics announced in advance. May be repeated for credit when topic is different. Offered by History & Art History. May be repeated within the term.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 387: *Topics in Global History.* 3-6 credits.
Study of historical topics or periods of special interest in global, Latin American, African, Asian, or Middle Eastern history. Notes: Topics announced in advance. May be repeated for credit when topic is different. Offered by History & Art History. May be repeated within the term.

Mason Core: Global Understanding

Specialized Designation: Topic Varies, Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 388: *Topics in European History.* 3 credits.
Study of historical topics or periods of special interest. Notes: Topics announced in advance. May be repeated for credit when topic is different. Offered by History & Art History. May be repeated within the term.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 389: *Topics in U.S. History.* 3 credits.
Study of historical topics or periods of special interest. Notes: Topics announced in advance. May be repeated for credit when topic is different. Offered by History & Art History. May be repeated within the term.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 390: *The Digital Past.* 3 credits.
Teaches the fundamentals of information technology within the context of a history course. Students learn fundamentals and skills as well as how our society became so enamored of and dependent on these knowledge and information tools. Understanding a new technology requires understanding how new technologies transform the societies that embrace them. Emphasizes the use of free and open-source software whenever possible. Offered by History & Art History. Limited to three attempts.

Mason Core: Info Tech & Computing

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 391: *History of Virginia to 1800.* 3 credits.
Discovery and settlement of Virginia. Colonial period with emphasis on development of representative government and race relations, Golden Age of Virginia dynasty, and coming of Civil War. Offered by History & Art History. Limited to three attempts.

Recommended Prerequisite: 6 hours of history or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 392: *History of Virginia Since 1800.* 3 credits.
Decision to secede, Civil War and Reconstruction, Readjustors and Populism, disfranchisement and Constitution of 1902, and rise of Senator Harry F. Byrd. Recent developments. Offered by History & Art History. Limited to three attempts.

Recommended Prerequisite: 6 hours of history or Permission of Instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 393: *Topics in Film and History.* 3 credits.
Study of historical periods or topics from perspective of feature films and documentaries. Notes: Topics available in advance from the department. May be repeated when topic is different. A maximum of 6 credits may be applied to the BA in history. Offered by History & Art History. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 394: *Globalization and History.* 3 credits.
Explores major events in the making of the modern world from a global perspective, with emphasis on interconnections and the historical development of power, authority, and governance. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 395: *Topics in Digital History.* 3 credits.
Introduces students to issues and methods in digital history through study of a particular topic Offered by History & Art History. May be repeated within the term for a maximum 15 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 396: *Introduction to Public History.* 3 credits.
Explores the role of historical memory in shaping public perceptions of the past, with emphasis on museums , monuments, and other public and popular culture expressions of historical information and themes. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 397: *Topics in Public History.* 3 credits.
Introduces students to issues and methods in preserving history and presenting historical information to a variety of audiences through museum exhibits, websites, public commemorations, and other means. Offered by History & Art History. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 398: *Historical Study Abroad.* 1-6 credits.
Intended for participation in formally organized course offered by Center for Global Education during intersession or spring break. Notes: May be repeated with permission of department. Offered by History & Art History. May be repeated within the degree for a maximum 6 credits.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 399: *Internship.* 1-9 credits.
Approved work-study programs in cooperation with specific organizations including area museums; archives; historic sites; and local, state, and federal agencies. Notes: Credit determined by department. Offered by History & Art History. May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment is limited to students with a major in History.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

HIST 401: *Colonial America.* 3 credits.
Intensive study of colonial American history from European origins through Revolutionary War. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 403: *Revolutionary Era in American History, 1763-1812.* 3 credits.
Study of formative years of new republic from Treaty of Paris of 1783 to election of 1820. Offered by History & Art History. Limited to three attempts.

Recommended Prerequisite: 6 hours of HIST or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 404: *Jacksonian America, 1812-1854.* 3 credits.
Study of age of Andrew Jackson. Emphasizes democratic institutions that emerged as dominant influences in American society. Offered by History & Art History. Limited to three attempts.

Recommended Prerequisite: 6 hours of history or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 426: *The Russian Revolution.* 3 credits.
Era of revolutionary activity from 19th century to end of 1920s, with emphasis on Russian Revolutions of 1917. Explores why revolutionary situation developed; political, social, and cultural issues at stake; why it took various forms; and revolution's contribution to nature of Soviet state and post-Soviet problems. Offered by History & Art History. Limited to three attempts.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: 45 credits or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 436: *European Society and Culture: 19th and 20th Centuries.* 3 credits.
Examines major cultural trends in Europe since French Revolution. Major themes include romanticism; socialism; Marxism; and social effect of modernization, science, and societies. Offered by History & Art History. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 460: *Modern Iran.* 3 credits.
Modern Iran, from 1800 to present, in context of several broad themes: institutional structure of state; role of great powers in Iran and Iranian response to economic, military, technological, and ideological challenge posed by West; interaction of religion and other ideologies and politics; economic development and impact on politics and society; and ways historians have sought to understand and interpret modern Iranian history. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 461: *Arab-Israeli Conflict.* 3 credits.
Overview of history of Arab-Israeli conflict. Examines conflict from various perspectives: over land and between competing nationalisms and identities; in terms of national interests of various states, including Israelis and Palestinians as well as other Arab governments and great powers; and in terms of peace making and conflict resolution. Some knowledge of history of Middle East since World War I strongly advised. Offered by History & Art History. Limited to three attempts.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 462: *Women in Islamic Society.* 3 credits.
Surveys history of women in Islamic society from rise of Islam to present day. Examines historical processes that affected role and status of women in society, and specific topics around which issues of gender status and identity coalesced, especially in modern period. Offered by History & Art History. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 465: *The Middle East in the 20th Century.* 3 credits.
Political, social, and cultural history of Middle East since World War I. Emergence of Israel, Arab nationalism, and political and economic influence of Middle East in world affairs. Offered by History & Art History. Limited to three attempts.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: 6 hours of HIST or permission of Instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 490: *Honors Directed Readings.* 3 credits.
Students must have completed at least one course in the field, or with the professor, chosen for these honors courses. Notes: The 3 reading credits should be taken before 3 research credits, though they may be taken concurrently. Either may be taken concurrently with HIST 499. Linked, individualized courses, usually given by same instructor. Involves directed readings. Offered by History & Art History. Limited to three attempts.

Recommended Prerequisite: Acceptance into the departmental honors program and permission of instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 491: *Honors Directed Research.* 3 credits.
Students must have completed at least one course in the field, or with the professor, chosen for these honors courses. Notes: The 3 reading credits should be taken before 3 research credits, though they may be taken concurrently. Either may be taken concurrently with HIST 499. Linked, individualized courses, usually given by same instructor. Culminates in research paper related to subject of readings. Offered by History & Art History. Limited to three attempts.

Recommended Prerequisite: Acceptance into the departmental honors program and permission of instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 498: *Directed Readings/Research in History.* 1-3 credits.
Readings, research conducted on individual basis in consultation with instructor. Notes: Only 3 credits may be applied to credits for degree. Offered by History & Art History. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: History majors with 90 credits and Permission of Instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

HIST 499: *RS: Senior Seminar in History.* 3 credits.
Research on specialized historical topic culminating in seminar paper and oral presentation. Synthesis course; students expected to integrate knowledge and skills acquired in Mason Core courses. Notes: Subject determined by instructor. Student may present no more than 3 credits for graduation credit. Must receive passing grade to graduate with BA in history. Offered by History & Art History. Limited to three attempts.

Mason Core: Synthesis

Specialized Designation: Research/Scholarship Intensive, Writing Intensive in Major

Recommended Prerequisite: History majors with 90 credits

Registration Restrictions:
Required Prerequisites: (HIST 300[C] or 300[XS]) and (ENGH 302[C], ENGL 302[C], ENGH 302[XS], HNRS 110[C], 110[XS], 210[C], 302[C] or 302[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in History.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

HIST 510: *Approaches to Modern World History.* 3 credits.
Introduces historical study of world beyond Europe and United States. Students read major theoretical works and case studies of particular regions. Examines imperialism, national identity, and various forms

of popular resistance; familiarizes students with range of scholarly approaches, including world systems theory and subaltern studies. Offered by History & Art History. May not be repeated for credit.

Recommended Prerequisite: Admission to graduate program in history.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 525: *Problems in Latin American History.* 3 credits.
Analysis of selected problems. Emphasizes reading and discussion of historical interpretations, and development of bibliography. Notes: May be repeated for credit when topic is different. Offered by History & Art History. May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 535: *Problems in Comparative World History.* 3 credits.
Investigates selected problems in global and comparative history, covering multiple countries or world regions. Notes: May be repeated for credit when topic is different. Offered by History & Art History. May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 555: *Problems in Asian History.* 3 credits.
Discussion of readings and historical interpretations and compilation of a comprehensive bibliography on given theme. Notes: Topics announced by instructor. May be repeated for credit when topic is different. Offered by History & Art History. May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 565: *Problems in African History.* 3 credits.
Analysis of selected problems in African history. Emphasis on reading and discussion of historical interpretations and development of bibliography. Notes: May be repeated for credit when topic is different. Offered by History & Art History. May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 575: *Approaches to Middle East and Islamic History.* 3 credits.
Introduces students to the central issues and debates surrounding the study of the Middle East, Islam, and Muslim societies. Covers key methodological issues including the role of area studies vis-a-vis disciplinary approaches and debates on the politics of knowledge production and historiography. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 576: *The Crusades.* 3 credits.
Explores the interaction between the Christian East, the Muslim World and the Christian West. Examines primary sources (in translation) and secondary sources that render a wide spectrum of ideologies and scholarship on the crusading movement. Emphasizes cultural interaction and transmission, warfare and coexistence between competing societies from Western Europe, Byzantium, and the Middle East. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 585: *Problems in Middle Eastern History.* 3 credits.
Analyzes selected problem. Emphasizes reading and discussion of historical interpretations, and development of bibliography. Notes: May be repeated for credit when topic is different. Offered by History & Art History. May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 598: *Historical Study Abroad.* 1-3 credits.
Intended for participation in formally organized course offered by the Center for Global Education. Offered by History & Art History. May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

HIST 605: *Themes in European History I.* 3 credits.
Survey of European history from 1500 to 1815. Designed for individuals entering graduate program who need to strengthen preparation in this area, or who seek to enhance knowledge of latest interpretations in field. Stresses factual knowledge and its interpretation. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 606: *Themes in European History II.* 3 credits.
Survey of European history from 1815 to present. Designed for individuals entering graduate program who need to strengthen preparation in this area, or who seek to enhance knowledge of latest interpretations in field. Stresses factual knowledge and its interpretation. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 610: *The Study and Writing of History.* 3 credits.
Methodology of the historian including techniques of research, use of documentation and other sources, development of bibliography, and synthesis of material. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 613: *Colonial North America.* 3 credits.
Examines European colonization in North America from a variety of perspectives, including cultural interaction, exchange, and conflict among Native, European, and African peoples, the political, social, economic, and cultural development of European colonies, and historical interpretations of the colonial era within national, continental, Atlantic, and world-historical frameworks. Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

HIST 615: *Problems in American History.* 1-6 credits.
Readings and discussion of bibliographies, interpretations, and research trends in topics selected by instructor. Notes: May be repeated for credit when topic is different. Offered by History & Art History. May be repeated within the term.

Specialized Designation: Green Leaf Related Course

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 617: *Topics in the American Civil War Era.* 3 credits.
Joint project of instructor and students into various aspects of common topic in Civil War era, with emphasis on historiography and historical method. Offered by History & Art History. May not be repeated for credit.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 618: *The Age of Jackson, 1815-1854.* 3 credits.
Survey of social, cultural, intellectual, economic, and political changes in United States during period of rapid growth and expansion. Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 620: *Development of the Early Republic, 1783-1815.* 3 credits.
Investigates breakdown of Confederation, Constitutional Convention, and role of revolutionary ideology of republicanism. Discusses leadership and policies of republic in hostile international context. Students read extensively in monographic literature and prepare research paper. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 622: *U.S. South Since 1865.* 3 credits.
Provides a graduate level survey of the major themes and trends in the historical literature on the U.S. South since 1865. Topics covered include Jim Crow, the New Deal, the long Civil Rights movement, the rise of the Sunbelt, and the changing role of the South in national politics. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 623: *Recent U.S. History, 1945 to Present.* 3 credits.
Selected political, social, economic, diplomatic, and cultural forces that shaped the post-World War II American experience. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 627: *Disasters in U.S. History.* 3 credits.
Examines disasters as lived experiences and cultural constructions from the seventeenth century to the industrial era. Presents so-called natural disasters as partly the result of human agency. Shows how that storms,

fires, and other unfortunate events become “disasters” only when they intersect with human lives. Uses case studies of disasters to explore their larger cultural and social contexts. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 629: *The Gilded Age and Progressive Era.* 3 credits.
Examines history of United States from 1877 to 1918, with attention to history of reform movements and politics, and social history of the period. Familiarizes with major issues and historical literature of the period. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 630: *U.S. Women's History.* 3 credits.
Wide-ranging survey of burgeoning field of women's history, emphasizing critical evaluation of sources and interpretation. Readings represent variety of approaches, which may include material culture studies, medical history, history of sexuality, political history, and social and cultural history. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 631: *Era of the American Revolution.* 3 credits.
Examines history and historiography of revolutionary era, with special emphasis on social and ideological interpretations of period. Includes events leading to War for Independence, war itself, and social and political effects of war on American society. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 633: *Reconstruction Era.* 3 credits.
Examines Reconstruction as an era in which the federal government became increasingly powerful, but also one in which people on the ground, including former slave and rebels, western settlers, and Natives were able to resist or overthrow its actions. Addresses the rise of liberal individualism and the freedom of contract, as well as the way events on the ground resulted in more regionally focused, pragmatic understandings of rights. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 634: *Interwar America: 1918-1939.* 3 credits.
Considers issues of United States between the two world wars. Explores various ways issues complemented and contradicted each other in rich and complex historical era. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 635: *Problems in European History.* 3 credits.
Investigates selected problems. Readings, discussions, development of bibliographies. Primary sources used where possible. Notes: May be repeated for credit when topic is different. Offered by History & Art History. May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 636: *Political Culture in Twentieth-Century Germany and Austria: Continuities and Discontinuities.* 3 credits.
Recent interpretations of key political events of 20th century. Asks if there were fundamental continuities in structure of German and Austrian society that can be observed throughout the period under review. Offered by History & Art History. May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in history or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 639: *Society and Politics in Western Europe, 1750-1914.* 3 credits.
Focuses on changes in social conditions and ramifications in political life. Attention to urbanization of workers, changes in peasantry, growth of middle classes, decline of nobility, and major political developments and expansion of liberal reforms. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 640: *Metropolitan Cities of Europe in the Nineteenth and Twentieth Centuries.* 3 credits.
Studies individual cities, and investigates particular cities in depth. Considers economic, social, cultural, and political features of urban life. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 642: *Humanism and the Renaissance.* 3 credits.
The Renaissance as a unique period in European cultural history from ca. 1350 to 1520. Concentrates on Italian situation as standard, with consideration given to manifestations of Renaissance in northern Europe, especially Germany, until Reformation. Focuses on recent studies of political, social, intellectual, and religious changes. Students write class reports and a larger bibliographic paper. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 644: *Society and Culture in Early Modern Europe.* 3 credits.
Overview of most recent historical work on social and cultural history of premodern West, ca. 1400 to 1800. Uses theoretical approaches and empirical methodologies of other disciplines, especially social anthropology, sociology, and literary theory, to shed new light on popular culture, class, manners, taste, rituals, religion, language, gender, and the state. Formulates new topics of research and poses new questions, and suggests new approach to more traditional topics such as politics, religion, and ideas. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 646: *Stalinism.* 3 credits.
Explores differing interpretations of the history of Stalinism. Topics include Soviet ideology, terror, Stalinist culture and society, the politicization of everyday life, industrialization and urbanization, family and gender politics, nationalities policies, and foreign policy—all of which combined to create the strange new culture that has been called

Stalinism. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 661: *Religion in North America to 1870.* 3 credits.
Dimensions of religion and religious experience in early America, from the beginnings of European settlement into the mid-to-late nineteenth century. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 662: *U.S. Religion since 1870.* 3 credits.
Dimensions of religion and religious experience in the United States, from the mid-to-late nineteenth century through recent decades. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 663: *Topics in U.S. Religious History.* 3 credits.
Readings and discussion of bibliographies, interpretations, and research trends in U.S. religious history. Topics selected by the instructor. Notes: May be repeated when topic is different. Offered by History & Art History. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 664: *Indigenous North America.* 3 credits.
Examines recent historiographical debates in the field of US Indigenous history and situates Indigenous peoples within the broader context of US cultural, social, and political history. Introduces students to various historical methodologies for working with Indigenous peoples as well as the politics of Indigenous history. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 677: *The Vietnam War.* 3 credits.
Considers the causes, major events, and historiographic debates of America's Vietnam War including the war's antecedents in Vietnamese history, American decisions for war, strategy and major military engagements, the American antiwar movement, and diplomacy and peace talks. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 679: *War and Remembrance.* 3 credits.
Considers various approaches to the study of public or collective memory as it pertains to war, in particular how people around the world have constructed memories of war and how those memories have been expressed in literature, popular culture, memorials, and commemorative activities. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 680: *Introduction to Digital Humanities.* 3 credits.
Introduces students to key concepts, tools, and practices of digital humanities. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 685: *Topics in Applied History.* 3 credits.
Addresses specific topics in applied history selected by the instructor, with emphasis on combining theoretical analysis and readings with attention to practices and skills of applied history. Offered by History & Art History. May be repeated within the degree for a maximum 15 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 688: *Topics in History and New Media.* 3 credits.
Covers specific topics in history and new media selected by the instructor, with an emphasis on combining theoretical analysis and readings with hands-on projects and problem-solving. Notes: May be repeated for credit when topic is different. Offered by History & Art History. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 689: *Teaching and Learning History in the Digital Age.* 3 credits.
Examines what happens when instructors integrate new media technology into history classroom. Includes consideration of learning theory, new media theory, and an in-depth examination of state-of-the-art in practice. In the final third of semester, students produce practicum that is either working history teaching web site or concept paper for site, depending on student's degree of technical sophistication. No prior facility with information technology required. Course appropriate for graduate students working as teachers or planning career in teaching. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 690: *The Administration of Archives and Manuscripts.* 3 credits.
Introduces principles and practices of managing records and administering archival and manuscript collections, public and private. Designed for graduate students with special interest in historical sources as well as for those specializing in applied history. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 691: *Museum Studies.* 3 credits.
General introduction to museums of history and museum studies in the United States, intended for interested citizen as well as for assistance to students in course and career choices. Explores development, present state, and future possibilities of U.S. Museums, with some reference to international developments. Offered by History & Art History. May not be repeated for credit.

Recommended Prerequisite: 6 hours of U.S. HIST or permission of department.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 692: *Historical Editing.* 3 credits.
Introduces fundamentals of historical editing of documents, including microform, word processing, and computer techniques. Designed for those seeking introduction to various areas of applied history, and those intending to edit historical documents for publication. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 693: *Historic Preservation.* 3 credits.
General introduction to historic preservation in the United States, intended for interested citizen and to assist students in course and career choices. Explores development, present state, and future possibilities of historic preservation in the United States, with some reference to international aspects of preservation. Offered by History & Art History. May not be repeated for credit.

Recommended Prerequisite: 6 credits of U.S. history or permission of department.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

HIST 694: *Digital Public History.* 3 credits.
Introduces students to the theories and methods central to doing digital public history, and develops the skills necessary for students to plan and execute their own projects. Topics include digital strategy development, developing effective digital exhibits, describing and publishing digital collections, mobile computing and curating the landscape, creating participatory history projects, and effective methods for evaluating digital public history work. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 696: *Clio Wired: An Introduction to History and New Media.* 3 credits.
Students with limited computer competency should consult department before enrolling. Introduces changes that new media and technologies are bringing to how we research, write, present, and teach about the past. Students explore theoretical and historical issues as well as learn hands-on skills in digital history. Notes: Students with limited computer competency should consult with department before enrolling. Offered by History & Art History. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 697: *Creating Historical Knowledge using Digital Methods.* 3 credits.
Seminar; students create original historical knowledge by using digital and computational techniques. Offered by History & Art History. May not be repeated for credit.

Recommended Prerequisite: HIST 696 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 698: *Programming for History.* 3 credits.
Seminar; focuses on developing proficiency in a variety of programming languages and tools for humanistic and historical purposes. Offered by History & Art History. May not be repeated for credit.

Recommended Prerequisite: HIST 696, or literacy in new media.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:

This course is graded on the Graduate Regular scale.

700 Level Courses

HIST 711: *Research Seminar in U.S. History.* 3 credits.
Research in specialized topics using primary sources. Offered by History & Art History. May be repeated within the term for a maximum 6 credits. Equivalent to HIST 797.

Recommended Prerequisite: HIST 610 or permission of department.

Registration Restrictions:
Enrollment is limited to students with a major in Cultural Studies, Education (Community College) or History.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 794: *Internship in Applied History.* 1-6 credits.
All internship placements must be approved by the department to ensure suitability to student's program. Introduces applied history through work and study at historical museum, site, library archive, editing project, or other approved agency. Offered by History & Art History. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Admission to graduate program in history and 3 hours of applied history.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale.

HIST 795: *Practicum in Digital History.* 3 credits.
Exposes students to various projects in digital history through work and study at the Center for History and New Media. All placements must be approved by CHNM to ensure the suitability of students and projects. Offered by History & Art History. May be repeated within the degree for a maximum 12 credits.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in History.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale.

HIST 796: *Directed Readings.* 1-6 credits.
Independent reading on topic agreed to by student and faculty member. Offered by History & Art History. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

HIST 797: *Research Seminar in History.* 3 credits.
Research in specialized topics using primary sources. May be repeated for credit when topic is different, or with same topic with permission of the department. Offered by History & Art History. May be repeated within the term for a maximum 6 credits. Equivalent to HIST 711.

Specialized Designation: Topic Varies

Recommended Prerequisite: HIST 610 or permission of department.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Cultural Studies, Education (Community College) or History.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

HIST 798: *Directed Research and Writing in History.* 3 credits.
Intended for students in department's predoctoral track who are not writing master's thesis. Goal is to produce substantial and original contribution to historical knowledge on model of article in scholarly journal. Offered by History & Art History. May not be repeated for credit.

Recommended Prerequisite: Admission to MA program, HIST 610, and research seminar.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Graduate Special scale.

HIST 799: *Thesis.* 1-6 credits.
Master's thesis research and writing under direction of faculty committee. Offered by History & Art History. May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

HIST 803: *Doctoral Readings for Major Field.* 3 credits.
Independent readings for PhD students on topic agreed on by student and instructor, taken in preparation for completing major field exam. Should be broadly comprehensive of field, and cover major historical themes and historiographical debates. Offered by History & Art History. May be repeated within the term for a maximum 20 credits.

Recommended Prerequisite: Admission to doctoral program.

Registration Restrictions:
Enrollment is limited to students with a major in History.

Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

HIST 804: *Doctoral Readings for Minor Field.* 3 credits.
Independent readings for PhD students on topic agreed on by student and instructor, taken in preparation for completing minor field statement. Designed to help student master literature of subfield that is subject of field statement. Offered by History & Art History. May be repeated within the term for a maximum 20 credits.

Recommended Prerequisite: Doctoral standing.

Registration Restrictions:
Enrollment is limited to students with a major in History.

Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

HIST 810: *History Doctoral Colloquium.* 1 credit.
Introduces array of scholars and scholarship through discussions of innovative historical events, important theories, and significant methodological breakthroughs in history. Offered by History & Art History. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Doctoral standing.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

HIST 811: *Doctoral Research Seminar.* 3 credits.
Students pursue research projects in their areas of specialization. Offered by History & Art History. May not be repeated for credit.

Recommended Prerequisite: Doctoral standing.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

HIST 998: *Doctoral Dissertation Proposal.* 1-6 credits.
Work on research proposal that forms basis for doctoral dissertation. Offered by History & Art History. May be repeated within the degree.

Recommended Prerequisite: Advancement to candidacy.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

HIST 999: *Doctoral Dissertation Research.* 1-12 credits.
Doctoral dissertation research and writing under direction of student's dissertation committee. Offered by History & Art History. May be repeated within the degree.

Recommended Prerequisite: Completion of HIST 998.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Honors College (HNRS)

100 Level Courses

HNRS 110: *Principles of Research and Inquiry.* 4 credits.
Introduces students to a wide range of disciplinary research practices. Students learn how to pose and pursue a focused research question, identify and evaluate the multiple perspectives and approaches involved, analyze pertinent evidence, and write and speak clearly by participating in scholarly conversation.Offered by Honors College. Limited to three attempts.

Specialized Designation: Mason Impact.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business)., Honors College (STEM). or Honors College. attributes.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

HNRS 122: *Reading the Arts (Topic Varies).* 3 credits.
Course topic varies by semester and section. Students will pursue focused questions or investigate specific topics in the arts by considering selected works of art and/or literature in historical, social, and formal contexts. Inquiry may be complemented by attendance and/or

participation in creative activities.Offered by Honors College. Limited to three attempts.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with the Honors College (Business)., Honors College (STEM). or Honors College. attributes.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

HNRS 130: *Identity, Community, and Difference (Topics Vary).* 3 credits.
Pursues focused questions about how different conceptions of identity, community and difference are articulated and practiced in specific social and historical contexts. Students will explore how questions about individuality and subjectivity are asked in the humanities, arts, and/or social sciences.Offered by Honors College. Limited to three attempts.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with the Honors College (Business)., Honors College (STEM). or Honors College. attributes.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

HNRS 131: *Contemporary Social Issues (Topic Varies).* 3 credits.
Course topic varies by semester and section. Students will pursue a focused question about contemporary social issues. Students consider and apply theories, methods and evidence from the social sciences and humanities. Topics range in focus from global to local issues involving how power and inequality shape social and institutional structures.Offered by Honors College. Limited to three attempts.

Specialized Designation: Topic Varies

Registration Restrictions:
Required Prerequisites: HNRS 110[C], 110[XS], 302[C], 302[XS], 108[C] or 108[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with the Honors College (Business)., Honors College (STEM). or Honors College. attributes.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

HNRS 240: *Reading the Past (Topic Varies).* 3 credits.
Course topic varies by semester and section. Students will pursue focused questions about a historical problem or situate a contemporary social issue in historical context. Students assess what is at stake in specific historiographic debates, consider how historical narratives are constructed and contested, and/or apply historical perspectives to analyze pressing social issues.Offered by Honors College. Limited to three attempts.

Specialized Designation: Topic Varies

Registration Restrictions:
Required Prerequisites: HNRS 110[C], 110[XS], 302[C], 302[XS], 109[C] or 109[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with the Honors College (Business)., Honors College (STEM). or Honors College. attributes.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

HNRS 260: *Society and Community Engagement Topics (Topics Vary).* 3 credits.
Course topic varies by semester and section. Students pursue focused questions about a problem facing a community, society, or government. Students assess what is at stake in specific debates, consider how narratives are constructed and contested and/or apply multiple perspectives to analyze pressing social issues.Offered by Honors College. May be repeated within the degree for a maximum 6 credits. Equivalent to HNRS 230.

Specialized Designation: Topic Varies

Recommended Prerequisite: Completion of 30 credits

Registration Restrictions:
Required Prerequisites: HNRS 109[C], 109[XS], 110[C], 110[XS], 302[C] or 302[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with the Honors College (Business)., Honors College (STEM). or Honors College. attributes.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

HNRS 261: *Community Connection Practicum (Topics Vary).* 3 credits.
Course topic varies by semester. Students will identify and address a challenge or question in response to the needs of the community. All students will contribute to and benefit from rigorous discussion among of a cohort of students representing multiple disciplines. Where relevant, the conversation also includes stakeholders from the community. Students learn to account for their own and for other points of view, and to adapt communication practices to reach those who do not share their backgrounds or expectations. As a result, they integrate new directions & approaches as well as alternate, divergent or contradictory perspectives or ideas.Offered by Honors College. May be repeated within the degree for a maximum 6 credits. Equivalent to HNRS 230.

Specialized Designation: Topic Varies

Recommended Prerequisite: Completion of 30 credits

Registration Restrictions:
Required Prerequisites: HNRS 109[C], 109[XS], 110[C], 110[XS], 302[C] or 302[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with the Honors College (Business)., Honors College (STEM). or Honors College. attributes.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

HNRS 300: *Advanced Study Abroad.* 0-6 credits.
Offers students in the Honors College the opportunity to take advanced study abroad courses that focus on in-depth research or engaged learning. Offered by Honors College. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business)., Honors College (STEM). or Honors College. attributes.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

HNRS 302: *Principles of Research and Inquiry for Transfer Students.* 3 credits.
Introduces students to a wide range of disciplinary research practices. Students learn how to pose and pursue a focused research question, identify and evaluate the multiple perspectives and approaches involved, analyze pertinent evidence, and write and speak clearly by participating in scholarly conversation.Offered by Honors College. Limited to three attempts.

Specialized Designation: Mason Impact.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business)., Honors College (STEM). or Honors College. attributes.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

HNRS 360: *Multi-Disciplinary Topics (Topic Varies).* 3 credits.
Course topic varies by semester and section. Students will ask and refine manageable research questions focused on a topical theme selected by the instructor. Students will evaluate, analyze, and synthesize new or existing evidence and explicitly identify and explain the implications of connections between their findings and existing scholarship.
The results of projects developed in this research seminar will be communicated in the form of papers, public or digital communications, visual representations, public presentations, performances, and/or other significant deliverables.Offered by Honors College. May be repeated within the degree for a maximum 6 credits. Equivalent to HNRS 353.

Specialized Designation: Topic Varies

Registration Restrictions:
Required Prerequisites: HNRS 260[C], 260[XS], 261[C] or 261[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with the Honors College (Business)., Honors College (STEM). or Honors College. attributes.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

HNRS 361: *Multi-Disciplinary Practicum (Topic Varies).* 3 credits.
Course topic varies by semester. Students in HNRS 361 identify and address a challenge or question that emerges from their individual goals & interests or in response to the needs of the community. All students in HNRS 361, whether pursuing individual or community challenges, contribute to and benefit from rigorous discussion among of a cohort of students representing multiple disciplines. Where relevant, the conversation also includes stakeholders from the community. Students learn to account for their own and for other points of view, and to adapt communication practices to reach those who do not share their backgrounds or expectations. As a result, they integrate new directions & approaches as well as alternate, divergent or contradictory perspectives or ideas. Course deliverables include strengthened and transformed proposals, reports, and/or prototypes.Offered by Honors College. May be repeated within the degree for a maximum 6 credits. Equivalent to HNRS 353.

Specialized Designation: Topic Varies

Registration Restrictions:
Required Prerequisites: HNRS 260[C], 260[XS], 261[C] or 261[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with the Honors College (Business)., Honors College (STEM). or Honors College. attributes.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

HNRS 490: *Undergraduate Apprenticeship.* 1-3 credits.
Independent work with a faculty mentor on an inquiry-based project involving research, creative activities, or teaching and mentoring. Notes: This course is open only to undergraduates who have been accepted to the Undergraduate Apprenticeship Program.Offered by Honors College. Limited to three attempts.

Recommended Prerequisite: 45 credits and acceptance into the Undergraduate Apprenticeship Program.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

Honors College (Science/Math) (HNRT)

100 Level Courses

HNRT 125: *Applied Quantitative Reasoning.* 3 credits.
The course will emphasize statistical reasoning and develop statistical thinking using real-life examples. The following topics will be covered: descriptive statistics, probability, probability distributions, estimation, and

single sample hypothesis testing.Offered by Honors College. Limited to three attempts.

Mason Core: Quantitative Reasoning

Registration Restrictions:
Enrollment limited to students with the Honors College (Business)., Honors College (STEM). or Honors College. attributes.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

HNRT 225: *Applied Calculus.* 3 credits.
Theory and applications of calculus for nonSTEM students. Assumes a previous introductory course in calculus. Topics include exponential models in the life sciences and business, theory of integration and may include improper integrals, infinite series, differential equations, or probability.Offered by Honors College. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business)., Honors College (STEM). or Honors College. attributes.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Human Development and Family Science (HDFS)

200 Level Courses

HDFS 200: *Individual and Family Development.* 3 credits.
Examines how individuals and families function and develop over the lifespan. Uses a multidisciplinary approach to integrate theories of family science and human development emphasizing the role of contextual factors in contemporary families' lives. Explores the impact of gender, socioeconomics, race/ethnicity, culture, and immigrant status on human development and family relationships. Introduces a basic model of scientific inquiry and theorizing. Offered by School of Education. May not be repeated for credit.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HDFS 250: *Family Financial Literacy and Resource Management.* 3 credits.
Introduces personal and family financial planning and resource management throughout the lifespan. Integrates theories of family finance and resource management using a multidisciplinary approach. Emphasizes role of contextual factors in contemporary families' financial lives. Explores impact of gender, socioeconomic, race, ethnicity, and culture on family finance and resource management. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

HDFS 300: *Individual and Family Services Delivery.* 3 credits.
Offers an overview of human services delivery with a focus on families. Explores the historical and social contexts as well as the theoretical orientations of systems that shape delivery of services to families. Examines: 1) economic and cultural barriers that prevent families from gaining access to services; 2) social policy surrounding services for families; 3) ethical and legal issues in family services. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: HDFS 200.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HDFS 301: *The Hospitalized Child and Family.* 3 credits.
Examines the philosophy, purposes, and concepts of Child Life Specialists. Explores developmental and psychological needs of hospitalized children, their families, and those who provide services to children. Examines the impact of illness and illness-related stressors on the dynamics of the family and strategies for coping. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: HDFS 200 or permission from instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

HDFS 400: *Advanced Family Processes.* 3 credits.
Examines family system dynamics and processes, with an emphasis on cultural and contextual factors that influence family functioning and well-being over the lifespan. Examines both healthy and dysfunctional family processes (including abuse, neglect, and family violence). Explores evidence-based practices and interventions that promote family health, resilience, and well-being. Offered by School of Education. Limited to three attempts.

Mason Core: Synthesis

Recommended Prerequisite: HDFS 200 or permission from instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HDFS 401: *Family Law and Public Policy.* 3 credits.
Examines contemporary family life and the impact of government laws, policies, and programs on families over time and across contexts and cultures. Explores the intended and unintended consequences of policies for diverse families across a variety of policy matters, from anti-poverty and social welfare policies to health and environmental policies. Offered by School of Education. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: HDFS 200 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HDFS 480: *Special Topics in Human Development and Family Science.* 3 credits.
Provides study on selected topic or emerging issue in Human Development and Family Science. Offered by School of Education. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

HDFS 498: *Internship and Analysis in Human Development and Family Science.* 1-6 credits.
Enables students to discuss work-related experiences within the context of developmental and family theories and research. Fosters and promotes professional development through class and small group discussions, activities, lectures, guest speakers, and practical assignments. This is the first course in a two-course series that supports students in their internship and in transitioning from student to professional. Offered by School of Education. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: HDFS 300[C] or 300[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Human Devl and Family Science.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

HDFS 499: *Advanced Internship and Analysis in Human Development and Family Science.* 1-3 credits.
Supports students in the development and implementation of a program for staff and/or clients at internship site. Examines internship-related experiences within the context of developmental and family theories and empirical research. Contemplates and prepares for the transition to professional. This course is the second required internship experience. Note: Students will have 10 hours in the classroom and complete field-based hours that align with course credit hours. A 3 credit course requires 125 hours in the field, a 2 credit course requires 83 hours, and a 1 credit course requires 42 hours. Offered by School of Education. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Required Prerequisites: (HDFS 498 or 498[XS]) and (PSYC 301[C], 301[XS], SOCI 303[C], 303[XS], INTS 434[C] or 434[XS]).
[XS] Requires minimum grade of XS.
[C] Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Human Devl and Family Science.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

Information Security Assurance (ISA)

500 Level Courses

ISA 562: *Information Security Theory and Practice.* 3 credits.
A technical introduction to the theory and practice of information security, which serves as the first security course for the MS-ISA degree, is required as a prerequisite for all subsequent ISA courses (at the 600 and 700 levels) and subsumes most topics covered by the CISSP examination. Also serves as an entry-level course available to non-ISA students, including MS-CS, MS-IS, and MS-SWE students. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: INFS 501, 515, 519, and SWE 510, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISA 564: *Security Laboratory.* 3 credits.
Provides hands-on experience in configuring and experimenting with commodity-networked systems and security software in a live laboratory environment, with the purpose of understanding real-world security threats. Takes both offensive and defensive approaches and exposes students to a variety of real-world attacks, including viruses, worms, rootkits, and botnets. Possible mitigation and defending mechanisms, such as firewalls and intrusion detection software, also covered. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: ISA 562 and CS 531 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

ISA 650: *Security Policy.* 3 credits.
Focuses on security policy and its management for information systems having national and international connectivity. Issues include legal, international, cultural, and local factors. Students are expected to participate regularly in presenting material, in discussion of recent security issues, and by writing short papers on major current issues. Offered by Computer Science. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (ISA 562[B-] or 562[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISA 652: *Security Audit and Compliance Testing.* 3 credits.
Presents the fundamental concepts of the IT-security audit and control process that is being conducted in a plethora of environments, including government, the financial industry, and the healthcare industry. The goal of this course is to enable the students to structure and perform audits based on the specifications of Sarbanes-Oxley, HIPAA, and FISMA audit programs. Covers all the CISA certification requirements in depth. Students completing the course are encouraged to attempt the certification exam on their own. Offered by Computer Science. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (ISA 562[B-] or 562[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISA 656: *Network Security.* 3 credits.
An in-depth introduction to the theory and practice of network security. It assumes basic knowledge of cryptography and its applications in modern network protocols. Studies firewalls architectures and virtual private networks and provides deep coverage of widely used network security protocols such as SSL, TLS, SSH, Kerberos, IPSec, IKE, and LDAP. It covers countermeasures to distributed denial of service attacks, security of routing protocols and the Domain Name System, e-mail security and spam countermeasures, wireless security, multicast security, and trust negotiation. Offered by Computer Science. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (((ISA 562[B-] or 562[XS]) and (INFS 612[B-] or 612[XS])) or (CS 555[B-] or 555[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISA 673: *Operating Systems Security.* 3 credits.
Covers fundamentals and advanced topics in operating system (OS) security, including OS-level security mechanisms and policies in investigating and defending against real-world attacks on computer systems, such as self-propagating worms and large-scale botnets. Basic OS security techniques, such as logging, system call auditing, and memory protection, will be discussed. Recent advanced techniques, such as honeypots and honeyfarms, system randomization, vulnerability fingerprinting, and virtualization, will also be introduced. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: ISA 562.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISA 674: *Intrusion Detection.* 3 credits.
Studies methodologies, techniques, and tools for monitoring events in computer system or network, with the objective of preventing and detecting unwanted process activity and recovering from malicious behavior. Topics include types of threats, host-based and network-based information sources, vulnerability analysis, denial of service, deploying and managing intrusion detection systems, passive versus

active responses, and designing recovery solutions. Offered by Computer Science. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((ISA 564[B-] or 564[XS]) and (ISA 656[B-] or 656[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISA 681: *Secure Software Design and Programming.* 3 credits.
Theory and practice of software security, focusing in particular on some common software security risks, including buffer overflows, race conditions and random number generation, and the identification of potential threats and vulnerabilities early in the design cycle. Emphasis is on methodologies and tools for identifying and eliminating security vulnerabilities, techniques to prove the absence of vulnerabilities, and ways to avoid security holes in new software and on essential guidelines for building secure software. Explores how to design software with security in mind from the ground up and integrate analysis and risk management throughout the software life cycle. Offered by Computer Science. May not be repeated for credit. Equivalent to SWE 681.

Recommended Prerequisite: SWE 619.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISA 697: *Topics in Information Security.* 1-6 credits.
Special topics in information security and assurance not occurring in regular ISA sequence. Notes: May be repeated for credit when distinct offerings of course differ in subject. Offered by Computer Science. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

ISA 763: *Security Protocol Analysis.* 3 credits.
Teaches how to design, understand, verify, and test communication protocols so they meet their objectives of recognizing the basic components of a communication protocol; specifying security properties accurately; modeling actors and mal-actors against which a protocol ought to be secure; discussing verification and testing methods and their limitations by ensuring that the specified protocol satisfies stated security objectives in the presence of specified mal-actions; designing a medium-size protocol that satisfies a specification of requirement; using existing tools to specify and verify security protocols; and testing protocols for satisfying their security objectives. Offered by Computer Science. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ISA 656[B-] or 656[XS].
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISA 764: *Security Experimentation.* 3 credits.
Teaches how to conduct security experimentations and empirically demonstrate, validate, and evaluate security vulnerabilities, exploits, and defense mechanisms. By the end of the course, students will gain a deeper understanding and first-hand experience on capturing packets of interests from both wired and wireless networks, and replying interested network flows and how shellcode various buffer overflows attacks, worms, spyware, rootkits, botnets, anonymous communication and traceback mechanisms work. Offered by Computer Science. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((ISA 564[B-] or 564[XS]) and (ISA 656[B-] or 656[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISA 785: *Research in Digital Forensics.* 3 credits.
Focuses on research-related aspects of digital forensics including open problems in digital forensics, countermeasures against digital forensics, and fundamental and practical limitations of current digital forensics techniques. Also covers currently established techniques and tools for digital forensics as well as common legal and ethical issues. Offered by Computer Science. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (((ISA 562[B-] or 562[XS]) and (INFS 612[B-] or 612[XS])) or (CS 555[B-] or 555[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISA 796: *Directed Readings in Information Security.* 3 credits.
Research and analysis of contemporary problem in information security. Notes: Prior approval required by faculty sponsor who supervises student's work. To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Written report also required. Offered by Computer Science. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Graduate standing in information security and assurance, with at least 12 prior credits in MS.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Research

Grading:
This course is graded on the Graduate Special scale.

ISA 797: *Advanced Topics in Information Security.* 3 credits.
Special advanced topics not occurring in regular ISA sequence. Notes: May be repeated for credit when distinct offerings of course differ in subject. Offered by Computer Science. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISA 798: *Research Project.* 3 credits.
Research project chosen under guidance of full-time graduate faculty member, resulting in written technical report. Notes: Prior approval required by faculty sponsor who supervises student's work. To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Offered by Computer Science. May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: 18 credits applicable toward MS.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Thesis

Grading:
This course is graded on the Graduate Special scale.

ISA 799: *Thesis.* 1-6 credits.
Original or expository work chosen and completed under supervision of graduate faculty member, which results in technical report accepted by three-member faculty committee. Report must be defended in oral presentation. Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Offered by Computer Science. May be repeated within the degree.

Recommended Prerequisite: 18 credits applicable toward MS or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

ISA 862: *Models for Computer Security.* 3 credits.
This class will be focused on current research in Security with emphasis in Network and Software Security. Notes: May be repeated with change in topic. Offered by Computer Science. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: (ISA 562[B-] or 562[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISA 863: *Advanced Topics in Computer Security.* 3 credits.
Current topics of advanced research. Content varies depending on faculty interests, research developments, and student demand. Requires substantial student participation. May include formal models for computer security, multilevel data models, multilevel database management system architectures, secure concurrency control protocols, distributed secure system architectures, integrity models and mechanisms, security policy, and requirements analysis. Offered by Computer Science. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Required Prerequisites: (ISA 562[B-] or 562[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Information Security Management (ISM)

600 Level Courses

ISM 603: *Fundamentals of Information Security.* 3 credits.
This course will cover foundational technical concepts as well as managerial and policy topics on a variety of information and cyber security topics. The purpose of the course lectures, reading, in-class presentations, and examinations are to ensure that students have sufficient technical awareness and managerial competence related to information security and assurance. Students will examine the nature of threats and vulnerabilities, cryptography, software vulnerabilities, managing risk, and security controls. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major in Information Security Mgmt.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISM 620: *Security of Communication Networks.* 3 credits.
This course provides students with a knowledge of network security and related topics in securing communication networks. In context of CIA triad of information security, threat classifications to the communication networks are discussed: eavesdropping (confidentiality), man-in-the-middle (integrity), and denial-of-service (availability). Real world examples of attack methods and attacks on communication networks and networked applications are discussed to translate principles into reality. Security design and architecture consisting of authentication, authorization, access control, traffic monitoring, secure protocols are covered. The course adopts "learning by doing" to connect principles to practice and provide insight into practical implementation. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major in Information Security Mgmt.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISM 630: *Data Security Management.* 3 credits.
The course covers principles and practices of assessing data security needs, and implementation of the necessary data security plan covering databases as well as unstructured data in files, cloud, etc. More specifically, the course will focus on database security principles, database auditing, database reliability and implementation of database controls and security. In context of CIA triad of information security real world examples of attack methods and cases of database breaches are discussed. Database and data security implementations are covered through hands-on “learning by doing” exercises undertaken with commercial database products. Class project requires students to undertake security requirements assessment, conduct an audit and present a data security plan. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major in Information Security Mgmt.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISM 640: *Analytics Driven Management of Security Operations.* 3 credits.
This course teaches how to use analytics to support decision making of information security managers. The course teaches how to create effective analytics driven tools for security monitoring, incident detection and for informing decisions in formulating response to incidents as well as ongoing review of information security policies. The course teaches you how to create reports, charts, dashboards, lookups, and alerts. Using examples and hands-on exercises with commercially used tools such as Splunk, to familiarize students with real-world implementations. The course bridges this knowledge with creation of incident handling and response plans to maintain business continuity. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (ISM 603[B-], 620[B-] and 630[B-]).
[B-] Requires minimum grade of B-.

Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major in Information Security Mgmt.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISM 692: *Internship and Professional Development Experience.* 3 credits.
Professional experience in conjunction with academic development. Hands-on experience is an important part of academic and career preparation and may be completed by an internship, consulting project, independent study or additional global experience. Must involve an average of 15 hours per week and be approved by program director. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major in Information Security Mgmt.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

ISM 710: *Managing Information Security with Vendors and Partners.* 3 credits.
This course addresses various important information security issues related to IT and non-IT vendors and partners of organizations operating in an increasingly global economy. Topics covered includes information security related issues that need considered when managing IT vendors of hardware, software, or managing services (cloud, IT operations, security). Other topics covered include supply chain and cybersecurity, information security considerations during organizational change, downsizing as well as mergers and/or acquisitions. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: ISM 603[B-].
[B-] Requires minimum grade of B-.

Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major in Information Security Mgmt.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISM 720: *Economics of Information Security.* 3 credits.
Cybersecurity is more than a technical problem: security failures are caused as often by bad business decisions and incentive systems as by bad technical designs. This course provides an introduction to fundamental economic issues behind cybersecurity. It focuses on understanding the factors affecting the security decisions of organizations and individuals in the ecosystem of security products/services, as well as economic mechanisms and tools that help make better security decisions, through the lens of economic concepts and principles. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major in Information Security Mgmt.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISM 730: *Information Security Governance, Policy, & Compliance.* 3 credits.
Information security governance allows for an organization to set security goals, responsibilities, and metrics to drive a successful security program. A successful security program begins with policies, and is monitored and improved through compliance requirements and metrics. This course takes students through understanding different security governance frameworks, information security policies, and cyber compliance requirements that organization must be aware of and practice in order to maintain an effective security posture. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: ISM 603[B-].
[B-] Requires minimum grade of B-.

Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major in Information Security Mgmt.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISM 747: *Information Security Risk Management and Audit.* 3 credits.
This course is focused on assessing the information security posture of an enterprise along available control frameworks, control objectives, logging, monitoring, reporting, and change management actions of the enterprise. Students will learn the process of risk assessment and management, and creating a control structure with goals and objectives, audit a given IT infrastructure against it, and if found inadequate, establish a systematic remediation procedure. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: ISM 603[B-].
[B-] Requires minimum grade of B-.

Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major in Information Security Mgmt.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ISM 792: *Special Topics in Information Security Management.* 3 credits.
This course uses a seminar-based pedagogy to examine topics of state-of-the-art in information security based on faculty research and student interest. Sections established as necessary to focus on various topical issues that emerge in the research and practice of management of information security. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: ISM 603[B-].
[B-] Requires minimum grade of B-.

Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major in Information Security Mgmt.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Information Systems (INFS)

500 Level Courses

INFS 501: *Discrete and Logical Structures for Information Systems.* 3 credits.
Study of discrete and logical structures for information systems analysis and design including basic set theory and proof techniques, propositional and predicate logic, trees and graphs, finite state machines, formal languages and their relation to automata, computability and computational complexity, formal semantics-operational, axiomatic and denotational approaches. Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: Completion of 6 hrs of undergraduate mathematics.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

INFS 515: *Computer Organization Course and Operating Systems.* 3 credits.
Computer hardware architecture concepts including number systems, machine representation of numbers, instruction set formats, addressing techniques, memory organization, internal processor structure and operation. Symbolic assembly language fundamental operating systems concepts: process synchronization and scheduling, interprocess communication, memory management, virtual memory, deadlocks, file I/O and disk management, and LINUX operating system case studies. Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science. Offered by Computer Science. May not be repeated for credit. Equivalent to ECE 445.

Recommended Prerequisite: Undergraduate courses or equivalent knowledge in structured programming in a high-level language.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

INFS 519: *Program Design and Data Structures.* 3 credits.
Study of the fundamentals of data structures and algorithms applied in programming solutions to application problems. The course stresses programming in a modern high-level language. Laboratory required. Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: Undergraduate courses or equivalent knowledge in structured programming in a high-level language.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

INFS 612: *Principles and Practices of Communication Networks.* 3 credits. Introduces principles of computer networks and applications to Internet. Discusses details of layering, protocols, performance, resource allocation, management, security and other contemporary issues related to networks. Examples of course material are protocols such as HTTP(S), DNS, TCP/IP, RSVP, SNMP, algorithms such as Dijkstra's link state routing; and security measures such as firewalls and encryption, the principles behind them and analysis of performance. Notes: No substitutions can be made for this class. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: INFS 501, 515, 519, and SWE 510, or equivalent

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

INFS 622: *Information Systems Analysis and Design.* 3 credits. Integration of computing technologies, systems analysis, system design practices, and management criteria in the design of large-scale information management and decision-support systems. Includes cases, computing lab. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: INFS 501, 515, and 519, or equivalent

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

INFS 623: *Web Search Engines and Recommender Systems.* 3 credits. Study of Web search engines and recommender systems. Topics to include classical information retrieval methods, Boolean retrieval systems, ranked retrieval, performance metrics, Web crawling, link analysis, overall search engine architecture, fundamentals and classification of recommender systems, learning user interests and object properties, and case studies. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: INFS 501, 515, 519, and SWE 510.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

INFS 640: *Introduction to Electronic Commerce.* 3 credits. Studies electronic commerce from both managerial and technical perspectives. Topics include e-commerce models and concepts; Internet and web protocols and infrastructure; e-commerce marketing and branding; security protocols and standards; e-commerce payment systems; and case studies of business-to-consumer, business-to-business, consumer-to-consumer, and e-government. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: INFS 501, 515, and 519; and SWE 510 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

INFS 697: *Topics in Information Systems.* 1-6 credits. Presents special topics in information systems not occurring in regular INFS sequence. Notes: May be repeated for credit when distinct offerings of course differ in subject. Offered by Computer Science. May be repeated within the degree.

Specialized Designation: Topic Varies

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

INFS 740: *Database Programming for the World Wide Web.* 3 credits.
Information systems accessible through web and Internet are becoming prevalent. Course focuses on technologies and industry standards for accessing and manipulating persistent data that are suitable for web applications. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: INFS 614.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

INFS 760: *Advanced Database Management.* 3 credits.
Study of advanced database models and languages, database design theory, transaction processing, recovery, concurrency, distributed database, and security and integrity. Discusses recent developments and research directions. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: INFS 614.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

INFS 770: *Knowledge Management for E-Business.* 3 credits.
Addresses knowledge management (KM) from managerial, technical viewpoints in context of large organizations doing business over web and Internet. Topics include KM life cycle for knowledge creation, aggregation, dissemination, and sharing; ontology modeling, design, and engineering; role of standards such as XML, RDF, web services, and semantic web for e-business; business rules and reasoning engines; and digital rights management for e-business. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: INFS 622 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

INFS 772: *Intelligent Agents and the Semantic Web.* 3 credits.
Course covers the role of intelligent agents in cooperating to access, harvest, sift and winnow information and knowledge from the semantic web. Topics include agent architectures, practical reasoning and deductive agents, beliefs-desires-intentions (BDI) framework for agent reasoning, commitments and actions; Semantic Web ontology languages, description logics, reasoning and rule languages; and agent communication languages, protocols and standards. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: INFS 614

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

INFS 774: *Enterprise Architecture.* 3 credits.
This course presents the basic concepts and methodologies for the discipline known as Enterprise IT Architecting within a framework, structure, and methodology. Enterprise IT Architecting is a necessary step for designing and developing a system of information systems. It includes the definition of the business, work, functional, information and technical perspectives. As such, it is the enabling approach for the system development process that builds complex information systems. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: INFS 622 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

INFS 796: *Directed Readings in Information Systems.* 3 credits.
Research and analysis of contemporary problem in information system development. Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Prior approval required by faculty sponsor who supervises student's work. Written report required.. Offered by Computer Science. May be repeated within the term for a maximum 12 credits.

Recommended Prerequisite: Graduate standing in information systems, with at least 12 prior credits in MS.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

INFS 797: *Advanced Topics in Information Systems.* 1-6 credits.
Special advanced topics not occurring in regular INFS sequence. Notes: May be repeated for credit when distinct offerings of course differ in subject. Offered by Computer Science. May be repeated within the degree.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

INFS 798: *Research Project.* 3 credits.
Research project chosen under guidance of full-time graduate faculty member, resulting in written technical report. Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Prior approval required by faculty sponsor who supervises student's work. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: 18 credits applicable toward MS.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Thesis

Grading:
This course is graded on the Graduate Special scale.

INFS 799: *Thesis.* 1-6 credits.
Original or compilary work evaluated by a committee of three faculty members. Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Offered by Computer Science. May be repeated within the degree.

Recommended Prerequisite: 18 credits applicable toward MS.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

Information Technology (IT)

100 Level Courses

IT 102: *Discrete Structures.* 3 credits.
Introduces ideas of high-level program design and discrete structures. This course focuses on problem-solving and includes an introduction to programming, Boolean algebra, symbolic logic, digital circuits, set theory, combinatorics, discrete probability, mathematical induction, recursion and a basic introduction to trigonometry. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 108^{*C}, 108^{XS}, 113^{*C}, 113^{XS}, HNRT 225^{C} or 225^{XS} or ((MATH 123^{C} or 123^{XS}) and (MATH 124^{*C} or 124^{XS}))).
* May be taken concurrently.
^{C} Requires minimum grade of C.
^{XS} Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 104: *Introduction to Computing.* 3 credits.
This course, using both lecture and laboratory practice, introduces students to basic computer concepts in hardware, software, networking, computer security, programming, database, e-commerce, decision support systems, and current developments in 3-D printing, virtualization, and Siri-like systems. Additional lectures examine social, legal, ethical issues including privacy, intellectual property, health concerns, green computing, and accessibility. Students learn techniques to search, evaluate, validate, and cite information found online. Hands-on lab includes spreadsheets, databases, presentation, HTML 5, CSS, cybersecurity, blogs, wiki, and mobile app development. Offered by Info Sciences & Technology. Limited to two attempts.

Mason Core: Info Tech & Computing

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 105: *IT Architecture Fundamentals.* 3 credits.
Introduces students to fundamental hardware and software concepts of information technology (IT) to understand the basics of modern computing environments. Students acquire a comprehensive understanding of a computer system's essential components, component interdependence, and binary functions, factoring in performance, data communication models, telecommunication basics, and information security. Recent trends and advancements in mobile computing, telecommunications, and IT infrastructures are discussed. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 106: *Introduction to IT Problem Solving Using Computer Programming.* 3 credits.
Introduces techniques for developing solutions to business problems using procedural programming as an IT resource/tool. Students apply problem solving concepts by analyzing problems and constructing, testing, and implementing algorithms using pseudocode, desk checking, and procedural programming. Topics include: program flow, control structures, programming fundamentals, and integrating program modules into a cohesive solution. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 103[C], 103T, 103X, 104[C], 104[XS] or 104T) and (MATH 112[*C], 125[*C], 125[XS], IT 102[*C] or 102[XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 109: *Introduction to Computer Programming.* 3 credits.
This foundation course is designed to teach students problem-solving skills using procedural programming that is required for the Information Technology degree program. The course accomplishes the goals through hands-on experience in the lecture class as well as through computer laboratory work. Topics to be discussed include, but are not limited to: variables, conditionals, functions, strings, iteration, testing, storage types and files. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 103[C], 103T, 103X, 104[C], 104[XS] or 104T) and (MATH 112[*C], 125[*C], 125[XS], IT 102[*C] or 102[XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 191: *Review of Computing Fundamentals.* 1 credit.
Provides an extensive understanding of computing fundamentals. Topics include: hardware, software, networking, computer security, programming, database, e-commerce, decision support systems, and other emerging technologies. Open only to students with transfer credit comparable to IT 103 or IT 104 who have not attempted IT 191 or IT 104. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 193: *Review of Multimedia and Web Design.* 1 credit.
Provides an extensive understanding of concepts and techniques for designing and developing attractive and accessible websites with multimedia components. Introduces and discusses technological, aesthetic, and human factors. Open only to students with transfer credit comparable to IT 213 who have not attempted IT 193 or IT 213. Offered by Info Sciences & Technology. Limited to three attempts.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 194: *Review of Database Fundamentals.* 1 credit.
Provides an extensive understanding of database fundamentals. Topics include: database classifications, data models with extensive coverage of the relational model, entity-relationship and extended entity relationship models, normalization, advanced data modeling, and Structured Query Language (SQL) programming. Open only to students with transfer credit comparable to IT 214 who have not attempted IT 194 or IT 214. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 196: *Review of IT Problem Solving Using Computer Programming.* 1 credit.
Provides an extensive understanding of techniques for developing solutions to business problems through an iterative design and implementation approach. Open only to students with transfer credit comparable to IT 106 who have not attempted IT 106 or IT 196.

(MATH 112 prior completion or co-registration is strongly recommended.) Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

IT 206: *Object Oriented Techniques for IT Problem Solving.* 3 credits.
Introduces techniques for developing solutions to business problems using object-oriented programming as an IT resource/tool. Students apply problem solving concepts by analyzing problems and constructing, testing, and implementing object-oriented solutions using object-oriented analysis and design, data modeling, and object-oriented programming fundamentals. Topics include: Unified Modeling Language (UML), classes, inheritance, polymorphism, and exception handling. Notes: Students cannot receive credit for both IT 108 and IT 206. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 106[C], 106[XS] or 196[C]) and (IT 102[C], 102[XS], MATH 112[C], 125[C] or 125[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 207: *Applied IT Programming.* 3 credits.
Building on fundamentals of problem solving, logic and algorithm development, and procedural programming, this course further develops these skills while covering server side scripting languages and relational database connectivity. Students will use open source software tools to develop database-enabled web applications. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 106[C], 106[XS], 109[C], 109[XS], 196[C], CS 112[C] or 112[XS]) and (IT 102[C], 102[XS], MATH 112[C], 125[C] or 125[XS]) and (IT 214[C], 214[XS] or 194[C]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 209: *Introduction to Object Oriented Programming.* 3 credits.
Introduction to Object Oriented Programming (OOP) is intended for students who want to advance their basic programming skill to the next level by learning the OO programming paradigm. This course is designed to teach the benefits of OOP, including faster development, code reusability and less code maintenance. The course accomplishes the goals through hands-on experience with a number of coding assignments. Topics include, but are not limited to: OOP design, objects, class, methods, inheritance, testing, debugging, graphical user interfaces (GUIs). Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: ((IT 109[C] or 109[XS]) and (IT 102[C], 102[XS], MATH 112[C], 125[C] or 125[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 213: *Multimedia and Web Design.* 3 credits.
Through lecture, class demonstration, class discussion, and hands-on lab experience, introduces multimedia and web computer graphics. Focuses on development of web-enabled multimedia applications from practical business perspective. Introduces and discusses technological, aesthetic, and human factors. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 103[C], 103T, 103X, 104[C], 104[XS] or 104T).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students cannot enroll who have a major in Civil and Infrastructure Engr, Computer Engineering, Computer Science, Electrical Engineering or Systems Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 214: *Database Fundamentals.* 3 credits.
Covers fundamentals of relational database management systems and their use in business environments. Topics include: database classifications, data models with extensive coverage of the relational model, entity-relationship and extended entity-relationship models, normalization, advanced data modeling, and Structured Query Language (SQL) programming. Students design and implement a real-world relational database and create complex SQL queries to retrieve data from the database. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 103[C], 103X, 103T, 104[C], 104[XS], 104T, CS 112[C] or 112[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students cannot enroll who have a major in Civil and Infrastructure Engr, Computer Engineering, Computer Science, Electrical Engineering or Systems Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 216: *Systems Analysis and Design.* 3 credits.
Students survey and apply techniques in analyzing and modeling information systems. Requirements are derived in various domains and abstracted at conceptual, logical, and physical levels. Process, data, and state modeling are applied through a project that follows a systems development lifecycle. Object modeling is explored and contrasted with data and process modeling. Individual and group modeling assignments are required. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 106[C], 106[XS], 109[C], 109[XS], 196[C], CS 112[C] or 112[XS]) and (IT 206[C], 206[XS], 209[C], 209[XS], CS 211[C] or 211[XS]) and (IT 194[C], 214[C] or 214[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 223: *Information Security Fundamentals.* 3 credits.
Introduces concept of information security. Discusses need for organizational policy to define required services such as confidentiality, authentication, integrity, nonrepudiation, access control, and availability, and mechanisms to implement those services. Covers different types of security including physical security, computer security, and network security; common threats to and attacks against information systems, including accidental damage, identity theft, malicious software, and "spam"; and defensive measures. Notes: Students cannot receive credit for both IT 221 and IT 223. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 103[C], 103T, 103X, 104[C], 104[XS] or 104T) and (IT 101[C], 105[C] or 105[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students cannot enroll who have a major in Civil and Infrastructure Engr, Computer Engineering or Computer Science.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 293: *Applied IT: Junior Transition.* 1 credit.
Focuses on transition issues for sophomores and transfer students in Information Sciences and Technology programs. Assists sophomore and transfer students with choice of concentration, course selection, and career readiness. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Students with a class of Freshman may **not** enroll.

Enrollment is limited to students with a major in Information Technology.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

IT 300: *Modern Telecommunications.* 3 credits.
Comprehensive overview of the fundamental principles of telecommunications, including current status and future directions of the public switched telephone network, cellular networks, satellite networks, and computer networks. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (((IT 101[C] and 212[C]) or IT 105[C] or 105[XS]) and (MATH 108[C], 108[XS], 113[C], 113[XS], HNRT 225[C] or 225[XS] or ((MATH 123[C] or 123[XS]) and (MATH 124[C] or 124[XS]))) and (IT 102[C], 102[XS], MATH 112[C], 125[C] or 125[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 304: *IT in the Global Economy.* 3 credits.
Explores how IT changed nature of society and contributed to evolution of global economy. Examines changing nature of work, education, and communication, and ethical issues such as intellectual property rights, computer-related crime, privacy concerns, and public policy issues. Offered by Info Sciences & Technology. Limited to two attempts. Equivalent to CS 306.

Registration Restrictions:
Required Prerequisites: IT 103[C], 103T, 103X, 104[C], 104T or 104[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 306: *Data Structures and Algorithms in Java.* 3 credits.
Fundamentals of data structures and analysis of algorithms. Large programs written in a modern, high-level programming language. Stresses abstraction, modular design, code reuse, and correctness. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 206[B] or CS 211[B]) and (IT 102[C], 102[XS], MATH 112[C], 125[C] or 125[XS]) and (IT 216[C] or 216[XS]).
[B] Requires minimum grade of B.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 309: *Data Structures and Algorithms in Python.* 3 credits.
Fundamentals of data structures and analysis of algorithms. Large programs written in a modern, high-level programming language. Stresses abstraction, modular design, code reuse, and correctness. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 209[B] or CS 211[B]) and (IT 102[C], 102[XS], MATH 112[C], 125[C] or 125[XS]) and (IT 216[C] or 216[XS]).
[B] Requires minimum grade of B.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 314: *Database Programming.* 3 credits.
The course introduces students to the Oracle Developer application development utilities and tools and describes how to create and manipulate databases in Oracle database management system. The course provides an extensive overview of SQL and introduction to PL/SQL. Topics include data definition and manipulation languages, stored procedures, triggers, indexing techniques, and elementary query optimization. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 106[C], 106[XS], 109[C], 109[XS], 196[C], CS 112[C] or 112[XS]) and (IT 214[B] or 194[B]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 315: *Mobile Development.* 3 credits.
Introduces students to Mobile Development on the iOS and Android Platforms. Provides an overview of mobile platforms and devices including evaluation, uses, design and development of applications. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 206[C], 206[XS], 209[C], 209[XS], CS 211[C] or 211[XS]) and (IT 213[B] or 193[B]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 322: *Health Data Challenges.* 3 credits.
Covers methodology and tools used to work with health data structures supporting organizations' needs for reliable data that are captured, stored, processed, integrated, and prepared for further querying, decision making, data mining and knowledge discovery for a variety of clinical and organizational purposes. Data security and privacy, data standards, data interoperability, health information exchange, and big data analytics are discussed. Tools like R and R Studio are used to work with data sets at a statistical level, analyze, visualize and predict outcomes. Offered by Info Sciences & Technology. Limited to two attempts. Equivalent to BENG 322.

Registration Restrictions:
Required Prerequisites: (IT 214[B] or 194[B]) and (STAT 250[C], 250[XS], 344[C] or 344[XS]).
[B] Requires minimum grade of B.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 324: *Health Information Technology Fundamentals.* 3 credits.
Explores challenges in the development and implementation of information systems and informatics tools in healthcare environment. Discusses the importance and benefits of electronic health records (EHRs). Students learn about EHRs' creation, management, and evolution, and their use for clinical decision support. In addition, students will learn about health care access, telemedicine models, health information security, privacy, federal laws, regulations and standards, and discuss their impact on healthcare delivery. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: IT 214[B] or 194[B].
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology or Information Technology.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 328: *Health Information Emerging Technologies.* 3 credits.
Provides an introduction to networking in the healthcare environment and covers a wide range of topics on emerging health information technologies. Discusses internet protocols, safety procedures, and data privacy considerations in healthcare environments, and processes required to design, secure, and troubleshoot a network to support healthcare organizations. Mobile computing, patient portals, personal health records, telehealth, health information exchange are discussed. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 341[C] or 341[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 331: *Web I: Web Development.* 3 credits.
Introduces the principles and techniques necessary for successful client-side web development. Topics such as HTML5, Cascading Style Sheets, JavaScript, DOM, XML, AJAX, and jQuery are presented. Students will learn to develop attractive and interactive web pages and applications and use client-side web-scripting languages to solve problems both with a text editor and more powerful WYSIWYG HTML editors. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 106[C], 106[XS], 109[C], 109[XS], CS 112[C], 112[XS] or IT 196[C]) and (IT 213[B] or 193[B]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 332: *Web Server Administration.* 3 credits.
Covers the installation, configuration, and administration of Web servers, FTP servers, and DNS servers. Additional topics include security setups, administration, and associated performance issues. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 213[B] or 193[B]).
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 335: *Web Development using Content Management Systems.* 3 credits.
Through lectures and hands-on lab experience, presents web development techniques using content management systems (e.g. Joomla, Dot net nuke). Introduces characteristics of various types of websites (corporate portals, intranets and extranets; online magazines, newspapers, and publications; e-commerce and online reservations, government applications, small business websites). Presents methods, languages, tools related to web content management systems from an applied perspective. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: IT 213[B] or 193[B].
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 341: *Data Communications and Network Principles.* 3 credits.
Focuses on primary aspects of data communications and networking. Open Systems Interconnection (OSI) and Internet models; Layer 1 interfaces and cabling configurations; IP network addressing, network design, router and port configurations; security protocols; static routing, RIPv2, and OSPF configurations; TCP, UDP, data reliability, and error correction methods; Telnet, FTP, TFTP, HTTP, SMTP, POP, and DNS protocols. Notes: This course is 50 percent lab work of configuration of routers and network design, implementation, and testing. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (((IT 101[C] and 212[C]) or (IT 105[C] or 105[XS])) and (IT 106[C], 106[XS], 109[C], 109[XS], 196[C], CS 112[C] or 112[XS]) and (MATH 108[C], 108[XS], 113[C], 113[XS], HNRT 225[C] or 225[XS] or ((MATH 123[C] or 123[XS]) and (MATH 124[C] or 124[XS]))) and (IT 300[*C] or 300[XS])).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 342: *Operating Systems Fundamentals.* 3 credits.
Practices and procedures for installing and configuring modern operating systems, including user accounts, file, print, and terminal servers, mobile computing, and disaster recovery. Through practical lab sessions, students receive real-world experiences with multiple operating systems. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: ((IT 101[C] and 212[C]) or (IT 105[C] or 105[XS])) and (IT 106[C], 106[XS], 109[C], 109[XS], 196[C], CS 112[C] or 112[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 343: *IT Project Management.* 3 credits.
Provides essential strategies and procedures for planning, organizing, staffing, monitoring, and controlling design, development, and production of system to meet stated IT-related need in effective and efficient manner. Fulfills writing-intensive requirement for BS in information technology. Offered by Info Sciences & Technology. Limited to two attempts.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: IT 293[C] or 293[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Enrollment is limited to students with a major in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Enrollment limited to students in a Bach of Individualized Study, Bachelor of Applied Science or Bachelor of Science degrees.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 352: *Security Administration of Linux Systems.* 3 credits.
Provides theoretical foundation and practical experience installing, configuring, and maintaining Linux systems with an emphasis on best practices for security. Students develop a heterogeneous suite of clients and servers with firewalls and other networking components. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: IT 223[B] and ((IT 101[C] and 212[C]) or IT 105[C] or 105[XS]) and (IT 106[C], 106[XS], 109[C], 109[XS], 196[C], CS 112[C] or 112[XS]) and (IT 342[C] or 342[XS]).
[B] Requires minimum grade of B.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology or Information Technology.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 353: *Information Defense Technologies.* 3 credits.
This course will examine and assess the role of information technology as a tool of warfare and civil defense. Topics will be discussed from both defensive and offensive perspectives and will include asset tracking, asymmetric warfare, network centric warfare, physical attacks, cyberterrorism, espionage, psyops, reconnaissance and surveillance, space assets, and applications of GPS and cryptographic technology. Students will research and write about the social, ethical, and political effects of such technology. Notes: For INFT and AIT majors, minors and certificates, and BAS cybersecurity concentration only. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 101[C], 105[C] or 105[XS]) and (IT 223[B]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 357: *Computer Crime, Forensics, and Auditing.* 3 credits.
Covers computer crime, relevant laws, agencies, and standards. Presents auditing, logging, forensics, and related software. Explores legal principles such as chain of evidence, electronic document discovery, eavesdropping, and entrapment. Students get hands-on experience with forensics tools. Notes: For INFT and AIT majors, minors and certificates, and BAS cybersecurity concentration only. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:

Required Prerequisites: (IT 103X, 103[C], 103T, 104[C], 104[XS] or 104T) and (IT 223[B]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 366: *Network Security.* 3 credits.
Examines information security services and mechanisms in network context. Topics include symmetric and asymmetric cryptography; message authentication codes, hash functions and digital signatures; digital certificates and public key infrastructure; access control including hardware and biometrics; intrusion detection; and securing network-enabled applications including e-mail and web browsing. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 206[C], 206[XS], 209[C], 209[XS], CS 211[C] or 211[XS]) and IT 223[B].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 369: *Data and Application Security.* 3 credits.
Introduces concept of data and application security. Discuss challenges of database, and application and industrial control system security. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 207[*C] or 207[XS]) and IT 223[B].
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 390: *Rapid Development of Scalable Cloud Applications.* 3 credits.
Presents software engineering, programming techniques, platforms and tools necessary for rapid development of scalable applications including: cloud platforms; scalable data storage solutions; web applications development environments. The course will provide a general overview of such techniques but will concentrate on selected ones in each term. The students will work in small teams and must develop scalable prototypes during the course. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 206[B], 209[B] or CS 211[B]) and (IT 213[C], 213[XS] or 193[C]) and (IT 214[C], 214[XS] or 194[C]).
[B] Requires minimum grade of B.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

IT 409: *Python Web Programming.* 3 credits.
This course covers layers of the n-tier architecture. It teaches students how to use Python and Django framework for building web sites. It starts with developing a web application with Python and adding additional features to that application. These features include, persisting data to an RDBMS systems such as Postgres SQL, securing the developed applications including user authentication, logging and debugging, and testing. Finally, we will explore developing RESTFul web services with Python/Django and integrating them with a Python web application. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: IT 209[B] or CS 211[B].
[B] Requires minimum grade of B.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 410: *Web Programming.* 3 credits.
This course covers layers of the n-tier architecture. Students will build web applications using available frameworks at each tier, such as Java Server Faces and Servlets for the UI tier, Web Services for the business tier and Java Database Connectivity for the persistence tier. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: IT 206[B] or CS 211[B].
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 413: *Digital Media Editing.* 3 credits.
Examines three areas of digital media editing- tools for editing, content and logic decision process, and information technology used by major corporations for development and distribution- through video examples from entertainment industry and corporate productions as well as hands-on editing experience. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 213[C], 213[XS] or 193[C]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 414: *Database Administration.* 3 credits.
Explores advanced concepts of database administration using enterprise-level database management system. Topics include: backup, recovery, corruption, automatic management, resource management, job scheduling, space management, memory management, storage management, diagnosis and corresponding tools. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 314[C] or 314[XS]) and (IT 214[B] or 194[B]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 415: *Information Visualization.* 3 credits.
Provides an overview of information visualization applications in intelligence analysis, decision support systems, and network monitoring. Covers human factors, human interface with information, and current and future trends in information visualization. Students also learn to develop a rudimentary visualization application. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 213[B] or 193[B]).
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 429: *Security Accreditation of Information Systems.* 3 credits.
This course explains basic principles of performing FISMA certification and accreditation (C&A) of an IT System. The course covers methodology for completing C&A, explains the role of the Certifier and the Information System Security Officer (ISSO), and gives students real world experience with IT Systems in the Federal Government. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 105[C], 105[XS] or 212[C]) and (IT 223[B]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 431: *Web II: Advanced Web Development.* 3 credits.
Introduces students to database-driven Web application design and development on cloud platforms and frameworks, and Web presentation using server-side coding and advanced techniques. Additional topics include LINQ, AJAX, and RESTful Web services. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 331[C] or 331[XS]) and (IT 213[B] or 193[B]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 441: *Network Servers and Infrastructures.* 3 credits.
Covers IP networking concepts and practices for IPv6 addressing, DHCP and DNS in IPv6 networks, secure communication over VPNs, VoIP architecture, Virtual Computing, Cloud Computing, MPLS, traffic monitoring and network connectivity between operating systems. Students learn the latest technologies of IP networks and understand application-level services used in the Internet. Lab sessions focus on installation of applications on virtual servers. Notes: Term project. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 341[B] or L341) and (IT 102[C], 102[XS], MATH 112[C], 125[C] or 125[XS]).
[B] Requires minimum grade of B.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 442: *Cloud Infrastructure.* 3 credits.
This course covers the fundamentals of building IT infrastructure on a cloud platform. A broad overview of the cloud platform will be discussed and then individual elements of cloud services will be covered deeply. Students learn how to optimize different services by understanding cloud-based solutions. In addition, students explore best practices and design patterns for architecting optimal IT solutions on cloud. A combination of lectures and hands-on lab assignments expose students to the leading cloud computing paradigms and services. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisite: IT 341[B].
[B] Requires minimum grade of B.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 445: *Advanced Networking Principles.* 3 credits.
This course focuses on Layer 2 and 3 of the OSI model and WAN technologies. Frame Relay and ISDN, complex router configurations of Variable Length Subnet Masking (VLSM), Classless Inter-Domain Routing (CIDR), Network Address Translation (NAT), Dynamic Host Configuration Protocol (DHCP), and study of Network Management Systems available for Data Communications Networks. Layer 2 involves Ethernet-switching components, including detailed hands-on configuration covering all aspects of switches using the command-line interface method. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 341[B] or L341).
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 451: *Cloud Services Management.* 3 credits.
The course offers a top-down view of cloud services management including the techniques for building, deploying and maintaining various cloud models. Through hands-on lab assignments and real-world standard projects students will learn how to deal with cloud architecture challenges, such as load balancing, auto scaling, configuration management, caching, adaptive virtualization, on-demand resources provisioning, monitoring, and access control. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: IT 442[C] or 442[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 455: *Wireless Communications and Networking.* 3 credits.
Covers fundamental principles underlying wireless data communications. Topics include wireless transmission basics, radio propagation issues, antennas, digital modulation, spread spectrum techniques and their applications, and popular standards: WiFi, WiMAX and Bluetooth. Also presents practical knowledge to enable the design, testing, deployment, debugging and commissioning of WiFi, WiMAX networks and point-to-point microwave systems. Discussions on cellular network technologies are also included. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 101[C], 105[C] or 105[XS]) and (IT 102[C], 102[XS], MATH 112[C], 125[C] or 125[XS]) and (IT 341[B] or L341).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 461: *Application Development in Cloud.* 3 credits.
Introduces techniques for developing applications to take advantage of availability, security, performance, and scalability of the cloud. Students will learn the serverless framework and deploy and test serverless

applications on a cloud platform. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: ((IT 106[C], 106[XS], CS 112[C], 112[XS], IT 196[C], 196[XS], 109[C] or 109[XS]) and (IT 214[C], 214[XS], 194[C] or 194[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 462: *Applied Cyber Threat Analysis.* 3 credits.
Studies security policies, models, and mechanisms for secrecy, integrity, availability, and usage controls. Topics include models and mechanisms for mandatory, discretionary, and role-based access controls; authentication technologies; control and prevention of viruses and other rogue programs; common system vulnerabilities and countermeasures; privacy and security policies and risk analysis; intellectual property protection; and legal and social issues. Notes: For INFT and AIT majors, minors and certificates, and BAS cybersecurity concentration only. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 105[C], 105[XS] or 212[C]) and (IT 223[B]) and (IT 369[*C] or 369[XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 466: *Foundations of Cryptography and Security.* 3 credits.
Detailed study of certain symmetric and asymmetric cryptographic schemes; analysis of network data (including "packet sniffing"); security at different network layers (including IPSec, SSL/TLS and Kerberos); and secure e-commerce. Teaches principles of designing and testing secure networks, including use of network partitioning, firewalls, intrusion detection systems, and vulnerability assessment tools. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: ((IT 223[B]) and (IT 366[C] or 366[XS]) and (IT 341[C] or 341[XS]) and (IT 206[C], 206[XS], 209[C], 209[XS], CS 211[C] or 211[XS]) and (IT 102[C], 102[XS], MATH 112[C], 125[C] or 125[XS])).
[B] Requires minimum grade of B.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 467: *Network Defense.* 3 credits.
Practices and procedures for defending business-class, heterogeneous networks against threats (including system failure, environmental events, human error) and attacks (including intrusion, malicious software, denial of service). Through practical lab sessions, students receive real-world experience designing networks, installing and configuring system components, detecting and recovering from problems and attacks, and gathering data to support prosecution of offenders and refinement of countermeasures. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 366[C] or 366[XS]) and IT 223[B].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 471: *Big Data on Cloud Systems.* 3 credits.
This course focuses on cloud-based big data solutions. Students learn to create and use big data analytical environments using cloud data services and tools. Also covered is employing best practices for designing big data cloud environments for performance, security, and cost effectiveness. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: ((CS 112[C], 112[XS], IT 106[C], 106[XS], 196[C], 109[C] or 109[XS]) and (IT 214[C], 214[XS], 194[C] or 194[XS]) and (IT 442[C] or 442[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 479: *Digital Media and Web Design Capstone.* 3 credits.
Student team-based experience grounded in the work of the preceding courses in the digital media and web design minor. Each individual student will produce a portfolio of digital media and web-design related products and features that demonstrate core competencies in coding, design, content, and accessibility. Students will work in cross-disciplinary

teams to carry out a client-based web design project, the process and outcomes of which will also be represented in the individual portfolio. Offered by Info Sciences & Technology. Limited to two attempts. Equivalent to AVT 479, COMM 479, ENGH 479.

Recommended Prerequisite: Before enrolling in the Capstone seminar, students need to have completed all required courses for the Digital Media and Web Design Minor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 481: *Cloud Security.* 3 credits.
This course covers the fundamentals of building security into cloud platforms and how to securely manage and access cloud environments using hands-on lab environments. Students will learn how to access cloud environments using IPSec utilizing the respective cloud VPN gateways. Students will also be exposed to identity and access management in the various platforms, how to create and assign roles to users and groups, how to audit actions taken, and how most commonly utilized security services in the cloud environments operate. Students will learn to separate out environments using virtual networks for project and system segmentation and learn how to apply virtual firewall rules and network access control lists. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: IT 223[C] or 223[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 484: *Voice Communications Technologies.* 3 credits.
Examines current and emerging technologies for transmission of voice signals over telecommunications systems. Highlights significant differences between the requirements for voice and other forms of data. Topics provide a balance between traditional voice technologies and those that use data networks. Real-world implementations are analyzed to determine reliability, quality, and cost effectiveness. Includes lab experiments with analog and digital technologies. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 300[C] or 300[XS]) and (IT 341[B] or L341).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 488: *Fundamentals of Satellite Communications.* 3 credits.
Provides a comprehensive overview of the principles of satellite communications systems. Major topics include satellite orbits and constellations, the space segment, antennas, modulation, coding, satellite access methods and link analysis. Also covers satellite applications, with emphasis on recent developments in the satellite communications field. Hands-on design experience is gained through the use of readily available vendor software systems. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 300[C] or 300[XS]) and (IT 341[B]) and (MATH 108[C], 108[XS], 113[C], 113[XS], HNRT 225[C] or 225[XS] or ((MATH 123[C] or 123[XS]) and (MATH 124[C] or 124[XS]))).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B] Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 491: *Introduction to Applied Natural Language Processing.* 3 credits.
This is an introductory course on natural language processing. It will focus on studies of textual data using rule-based and statistical methods. Our goal will be to create computer programs that analyze, interpret, and even generate human language. Offered by Info Sciences & Technology. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: IT 209[B] and (STAT 250[C] or 250[XS]).
[B] Requires minimum grade of B.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 492: *Senior Design Project I.* 3 credits.
Students use information technology as a tool to redesign business processes so the enterprise can achieve its objectives. Student teams analyze the business processes of real organizations, quantify the negative impact caused by current process challenges, then develop and present a compelling Business Case for Change. Students develop skills critical for preparing and delivering effective verbal briefings and presentations. Notes: Restricted to AIT/INFT majors. Offered by Info Sciences & Technology. Limited to two attempts.

Mason Core: Capstone, Synthesis

Registration Restrictions:
Required Prerequisites: (IT 206[C], 206[XS], 209[C], 209[XS], CS 211[C] or 211[XS]) and (IT 207[C] or 207[XS]) and (IT 213[C], 213[XS] or 193[C]) and (IT 214[C], 214[XS]

or 194[C]) and (IT 223[C] or 223[XS]) and (IT 300[C] or 300[XS]) and (IT 341[C], L341 or 341[XS]) and (IT 343[C], 343[XS], CS 321[C] or 321[XS]) and (MBUS 300[C], 300[XS], MSOM 300[C], ACCT 203[C] or 203[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major in Applied Information Technology or Information Technology.

Enrollment limited to students in a Bachelor of Science degree.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

IT 493: *Senior Design Project II.* 4 credits.
Students, in teams, complete projects demonstrating preparedness as an IT professional. This work includes ethical challenges, status reports and engineering notebooks evaluated during class. Teams members develop detailed designs, build solutions up to Beta, present final written reports and final verbal presentations before review panels of business leaders. Students must register for the section that continues their IT 492 section. Offered by Info Sciences & Technology. Limited to two attempts.

Mason Core: Capstone

Registration Restrictions:
Required Prerequisites: (IT 492[C] or 492[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Applied Information Technology or Information Technology.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

IT 498: *Independent Study in Information Technology.* 1-3 credits.
Directed self-study of special topics of current interest in IT. Notes: Topics must be arranged with instructor and approved by department chair before registering. Offered by Info Sciences & Technology. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: 60 credits.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

IT 499: *Special Topics in Information Technology.* 3 credits.
Topics of special interest to undergraduates. Notes: May be repeated if topics are substantially different. Offered by Info Sciences & Technology. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 60 credits.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Washington Consortium level students may **not** enroll.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

700 Level Courses

IT 796: *Directed Reading and Research.* 1-6 credits.
Reading and research on specific topic in information technology under direction of faculty member. Offered by Info Sciences & Technology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

IT 797: *Directed Reading and Research.* 1-3 credits.
Reading and research on specific topic in information technology under direction of faculty member. Offered by Info Sciences & Technology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

800 Level Courses

IT 896: *Directed Readings and Research in IT.* 1-6 credits.
Students pursue research on a specific topic under direction of faculty Offered by Info Sciences & Technology. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Completed qualifying exams, or permission of instructor.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

IT 990: *Dissertation Topic Presentation.* 1 credit.
Students put together a professional presentation of a research proposal and present it for critique to fellow students and interested faculty. Notes: This course is only offered once per year in the Spring semester. Offered by Info Sciences & Technology. May not be repeated for credit. Equivalent to CEIE 990, CS 990, ME 990, STAT 990.

Recommended Prerequisite: Completion of all coursework for the PhD in Information Technology, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

IT 998: *Doctoral Dissertation Proposal.* 1-12 credits.
Work on research proposal that forms basis for doctoral dissertation. Notes: No more than 24 credits of IT 998 and 999 may be applied to doctoral degree requirements. Offered by Info Sciences & Technology. May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

IT 999: *Doctoral Dissertation.* 1-12 credits.
Formal record of commitment to doctoral dissertation research under direction of faculty member in information technology. Note: Students must be advanced to candidacy before registering for this course. Students may not take IT 998 and 999 at the same time. Offered by Info Sciences & Technology. May be repeated within the degree.

Recommended Prerequisite: Admission to Doctoral candidacy; students must submit the Doctoral proposal and have it approved prior to registering for this course.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Integrative Studies (INTS)

100 Level Courses

INTS 101: *Narratives of Identity.* 6 credits.
Explores the concept of identity through the study of literature and oral communication. Introduces aesthetic, cultural, and historical aspects of these forms of communication as well as their psychological, political, and practical significance, with special emphasis on the role of communication in a free society. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Literature, Oral Communication

Specialized Designation: Mason Impact.

Registration Restrictions:
Enrollment limited to students with a class of Freshman.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 102: *Global Networks and Communities.* 6 credits.
Prepares students for participation in a global society by investigating global and local issues in a historical context. Considers critical topics of western civilization, globalization, (neo)colonialism, imperialism, and hegemony. Students gain an in-depth perspective of the intricate relationships between people and cultures at various moments in our history. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Global Understanding, Western Civilization

Specialized Designation: Green Leaf Related Course, Mason Impact.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 103: *Human Creativity: Science and Art.* 6 credits.
Investigates the vital role played by human creativity in fine arts and natural sciences. Fosters an understanding of the aesthetic and intellectual components of the arts while exploring the scientific method, the relation of theory and experiment, and the development and elaboration of major ideas in science. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Arts, Natural Science Overview

Specialized Designation: Green Leaf Related Course, Mason Impact.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 195: *Field-Based Work.* 1-6 credits.
Directed field studies in topic not otherwise available to students. Notes: Topics vary, but entire course or significant component is located off campus. In addition to fieldwork, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult the Center for Social Action and Integrative Learning for more information. Offered by School of Integrative Studies. May be repeated within the term for a maximum 24 credits.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

INTS 202: *Public Speaking and Critical Thinking Skills.* 4 credits.
Combines process of learning to speak in front of audiences with analysis of arguments and persuasive appeals. Students learn how to create and present effective speeches, adapt messages to specific audiences, and evaluate and critique messages produced for others. One credit of experiential learning enables students to examine public speeches, news stories, political campaigns, and advertising, among others, to make meaningful connections between public speaking theory and practice. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Oral Communication

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 203: *Inquiry for Action: Facilitating Change.* 6 credits.
Examines the relationships between academic research, individual acts and society's social and political structures. Students design a community-based research project, explore a rich array of qualitative and quantitative approaches, apply information and communication technologies to all aspects of the research process, and learn from individuals and organizations outside the classroom. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Info Tech & Computing, Social/Behavioral Sciences

Specialized Designation: Mason Impact.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 204: *Leadership Theory and Practice.* 4 credits.
Examines historical and contemporary leadership theories and invites students to be reflective of their own leadership experiences through the lenses of those theories. Students develop critical lenses through which to evaluate their own self-awareness, effectiveness in groups, and ability to navigate structures and systems. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 210: *Sustainable World.* 4 credits.
Covers basic issues in the natural and social sciences that underlie current environmental problems. Considers ethical matters such as equity as they pertain to global resource consumption, pollution, and climate change. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Natural Science with Lab

Specialized Designation: Green Leaf Focused Course, Mason Impact.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 211: *Introduction to Conservation Studies.* 3-6 credits.
Provides foundation for the integrative study of environmental conservation. Formal and informal writing assignments and oral presentations designed to strengthen critical thinking and communication skills important to students who pursue conservation-related professions. Instructors encourage students to use course assignments and off-campus work to identify suitable educational and career paths within the conservation world. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Natural Science Overview

Specialized Designation: Green Leaf Related Course

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 244: *Beats, Rhyme, and Culture.* 4 credits.
Examines the history of hip-hop and the effect it has had on our society. The primary focus is to consider hip-hop as a medium of communication that impacts, represents, and misrepresents the life experiences of youth in the United States. Students are exposed to historical, socioeconomic, and musical/aesthetic contexts of this genre through in-class activities and by attending related cultural events. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 245: *Visual Culture and Society.* 4 credits.
Explores the role of visual culture in contemporary society including an examination of photography, the visual and performing arts, film and video, and electronic media. Readings focus on the historical foundations of visuality as well as theories of visual culture and aesthetics. Students investigate the ways that forms of visual culture function in society and how these are linked to race, class, and gender as well as politics and economics. Students will gain hands-on experience working with contemporary visual media tools such as computer graphics and digital video editing. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Arts

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

INTS 249: *Digital Literacy.* 4 credits.
Investigates information literacy, the mobile web, and interactive and immersive media, including gaming, social networking, blogging and micro-blogging, intellectual, political and civic collaborations, digital aesthetics and emerging digital cultures and art forms. Explores major theories of digital literacy and culture and introduce diverse social, artistic, theoretical and cultural practices that characterize today's digital domains and virtual environments. Notes: One experiential credit is required in this class. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Info Tech & Computing

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 275: *Special Topics.* 1-18 credits.
Studies topics of special interest to undergraduates. Notes: May be repeated for credit when topic is different. Offered by School of Integrative Studies. May be repeated within the term for a maximum 18 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 291: *Living-Learning Community.* 0-1 credits.
Bridges students' academic interests with their residence hall living experience. Students with common interests live together in the same residence hall and develop personal and academic relationships with other students and faculty from their chosen Living Learning Community focus. Offered by School of Integrative Studies. May be repeated within the degree for a maximum 8 credits.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 292: *Leadership for Sustainability.* 0-1 credits.
For students living in the Sustainability Living Learning Community and/or students panicipating in the Greenleaf ENCORE Series. Develop your understanding of sustainability in both theory and practice. Learn how change happens at Mason and identify contributions you can make to Mason's continuing pursuit of campus sustainability. Offered by School of Integrative Studies. May be repeated within the degree for a maximum 8 credits.

Specialized Designation: Green Leaf Focused Course

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 294: *Service-Learning Experience.* 1-15 credits.
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams. Offered by School of Integrative Studies. May be repeated within the term for a maximum 15 credits.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 295: *Field-Based Work.* 1-18 credits.
Directed field studies in topic not otherwise available to students. Notes: Topics vary, but entire course or significant component is located off campus. In addition to fieldwork, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult the Center for Social Action and Integrative Learning for more information. Offered by School of Integrative Studies. May be repeated within the term for a maximum 24 credits.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 299: *Study Abroad.* 1-6 credits.
Intended for participation in formally organized course offered by Center for Global Education. A maximum of 15 credits may apply toward INTS degree requirements. Offered by School of Integrative Studies. May be repeated within the term for a maximum 16 credits.

Schedule Type: Fieldwork

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

INTS 300: *Law and Justice.* 3 credits.
Combines various teaching methods including lectures, the Socratic method, case studies, discussion of readings and films, debates, and active inquiry-based learning to investigate the major institutions in the American legal system. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 301: *Science in the News.* 3 credits.
Examination and discussion of the current trends in science as reported in the popular media. Students learn how to evaluate the science that is reported so they may become informed consumers; discuss how scientific advancement might shape society by looking at how science and society have changed together over time; and use examples from the past to discuss future trends. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Natural Science Overview

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 303: *Introduction to International Studies.* 3 credits.
Explores a multi-disciplinary approach to addressing world issues. Combines lectures, field trips, discussion of readings, films, case studies, projects, and active inquiry-based learning to examine the natural environment, infectious disease and globalization, media and technologies, and war and violent conflict, with an attempt to deepen community members' understanding of an increasingly interdependent world. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 304: *Social Movements and Community Activism.* 4 credits.
Examines how citizens, individually and collectively, accomplish social change in society through case study analysis. Considers advantages and limits of social change strategies from communication and social movement theory perspectives. Surveys topics including how leaders maintain momentum in face of opposition; how movements and organizations use slogans, symbols and music to inspire followers; and how participants construct persuasive media campaigns and political arguments to facilitate policy change. Notes: One credit of experiential learning enables students to explore their role as social advocates and effective citizens in context of community. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 305: *Conflict Resolution and Transformation.* 6 credits.
Examines the nature and dynamics of conflict and ways to resolve and transform conflict. Experiential learning is used as the vehicle through which students explore their assumptions about communication and develop their skills for resolving interpersonal conflicts. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 310: *Violence and Gender.* 3-6 credits.
Using nonfiction, research documentaries, oral histories, case studies, literature, feature films, music, dance, and visual arts, examines the dynamics of violence through different cultural lenses. Students work in university and community settings to integrate their academic experiences with practice. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 311: *The Mysteries of Migration: Consequences for Conservation.* 6 credits.
Investigates the biology of migration and its implications for science policy. Students consider the phenomenon of migration in the context of natural history, conservation, and cultural issues. The course includes several weekend trips for field study. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Natural Science with Lab

Specialized Designation: Green Leaf Related Course, Writing Intensive in Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 312: *Images and Experiences of Childhood: Social Construct, Literature, and Film.* 3-6 credits.
Immerses students in the images of childhood through the media of literature, video, and poetry, with a strong emphasis on historical perspectives of childhood. The class is interactive, requires some work in groups, and requires classroom participation. Offered by School of Integrative Studies. Limited to three attempts. Equivalent to HIST 386, HIST 498.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 314: *Conflict, Trauma and Healing.* 6 credits.
Develops in students an appreciation of human resilience and helps them acquire better coping mechanisms. Imparts knowledge of the nature and dynamics of trauma and healing. Investigates the difficulties people face in responding to settings of conflict such as war, school shootings, abuse, domestic violence, including natural disaster. Examines case studies from a variety of personal, national, and international settings. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 315: *Spirituality and Conflict Transformation.* 6 credits.
Examines dimensions of spirituality, including peacemaking efforts in large-scale conflicts, conflicts within faith communities, and interpersonal disputes. Experiential learning explores spiritually informed resolution. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 316: *Introduction to Childhood Studies.* 4 credits.
Focuses on the study of childhood from birth to adolescence from the perspective of several disciplines. Covers childhood theory, research, and policy and their applications to decisions regarding children and youth. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 317: *Issues in Family Relationships.* 4 credits.
Dynamics of family systems and issues that shape relationships among family members. How families evolve as members grow, leave, and create related family systems; family roles and forms; and communication patterns, decision- making, conflict, stress, and power. Content draws from family communication, family relations, psychology, and counseling. Lecture, discussion, observation, analysis, research, and role-playing. Notes: One credit counts for experiential learning; students complete 45 credits of course-related work outside classroom. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Recommended Prerequisite: Minimum of 55 hours completed.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 319: *Contemporary Youth Studies.* 3 credits.
Examines the history of positive youth development, how scholars study youth, and the theories they use to guide their research. Evaluates the policies and programs aimed at empowering youth. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 320: *Construction of Differences: Race, Class, and Gender.* 6 credits.
Investigates race, sex, sexual orientation, and social class in contemporary American society. Examines commonalities in the construction of these categories and experiences of those who occupy them. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 321: *Parent-Child Relations.* 3 credits.
Introduces students to concepts and challenges in parenting, along with family diversity and risk factors. Considers interactions between parents and children from birth to adolescence as well as cross-cultural, historical, and societal influences. Explores efforts that have been successful in changing detrimental parenting actions. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 322: *Teacher: A Historical Perspective.* 3 credits.
Examines the rich heritage of the teaching profession in Western society. Traces the history of educational philosophy and teaching, beginning with the ancient Greeks and culminating in the 21st century United States. Using the exploration of the various philosophies of education as a foundation, examines contemporary images of teachers in literature and film. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 331: *The Nonprofit Sector.* 4 credits.
Readings, classroom discussions and activities, and practical experience reveal historical, legal, and socioeconomic forces that define and influence the American nonprofit sector. Explores structures, issues that affect nonprofit management, governing, and financial systems. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Recommended Prerequisite: Sophomore standing.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 332: *Business and Sustainability.* 3 credits.
Examines the types of approaches businesses can take to take to respond to sustainability concerns, Designed to prepare students for assisting organizations to incorporate sustainability considerations into their strategic decision-making. Notes: Students from multiple disciplines (business, social sciences, natural sciences, humanities, education, etc.) can participate in the class without having had previous courses in management. Offered by School of Integrative Studies. Limited to three attempts. Equivalent to EVPP 322.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 334: *Environmental Justice.* 4 credits.
Examines historical and contemporary sociopolitical and socioeconomic conditions that have given rise to the environmental justice movement. Analyzes how individuals contribute to environmental justice or injustice through everyday decisions. Considers how environmental justice movement responds to these issues. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Specialized Designation: Green Leaf Focused Course, Writing Intensive in Major

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 336: *Poverty, Wealth and Inequality in the US.* 3 credits.
Explores the social, cultural, political, and spiritual implications of poverty, wealth, and inequality in the United States. Examines the ways in which class identity informs one's views of the world and its politics; how socioeconomic status affects one's access to education and other social goods; and how dominant discourses and stereotypes related to poverty influence mass perception regarding a range of social issues, from educational policy to welfare. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 337: *Social Justice Consciousness and Action.* 3 credits.
Explores the many spaces at which the quest to strengthen social justice consciousness interacts with processes and commitments for personal transformation. Analyzes through the lens of the activist and in the spirit of bringing mindfulness to activism, how we come to see and experience the world. Examines how socialization informs consciousness. Offered by School of Integrative Studies. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 344: *Youth, Music, & Social Change.* 4 credits.
Introduction to the theoretical underpinnings of music, popular and youth culture, and social and political change. While music is generally relegated to a subcategory of popular culture, or viewed as a mere minor facet of youth culture, in this class we will examine its impact and importance as a rhetorical and communicative vehicle, specifically in regards to its instrumentality in social and political movements. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 346: *Art as Social Action.* 4 credits.
This learning community explores historical records to understand different ways art has been produced, distributed, and consumed. Examines ways artists have affected change in their worlds. Through interdisciplinary studies, teaches major social movements and artists and theories used in socially engaged art. Students engage in experiential learning outside classroom as course requirement. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Arts

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 347: *Gender Representation in Popular Culture.* 3-6 credits.
Explores the way in which masculinity and femininity have been represented across the decades in television, movies, music videos, pop art, and print media. Provides a review of the scholarship on the historical and contemporary roles of women and men in society, and examines the contradictions and expectations associated with gender roles. Incorporates active group learning through creative, insight-oriented exercises, critical thinking and discussions, and group presentations and media research activities. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 348: *Digital Futures.* 3,6 credits.
Investigates important contemporary issues such as surveillance-privacy, censorship, piracy, gender and ethnicity, digital labor and play, mobile media and globalization, and the commercialization and political potential of the digital public spheres. Introduces students to the latest technological, philosophical and creative thinking on the future of human society in a digital age. Offered by School of Integrative Studies. Limited to three attempts.

Recommended Prerequisite: NCLC 249 or INTS 249

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 355: *Mindfulness, Meaning & Well-Being.* 3 credits.
Explores the science of well-being, including theories and practices linked to various domains of well-being such as mindfulness, resilience, life-satisfaction, happiness, mind-body wellness, and meaning and purpose. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 356: *Foundations of Resilience and Well-Being.* 3 credits.
Focusing on the individual in context, examines the growing research, science, and literature on well-being and resilience. Considers the many ways in which resilience can be learned and developed on individual, community, and organizational levels. Explores how resilience promotes growth and restores efficacy and agency, leading to higher levels of flourishing. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 360: *The Built Environment.* 6 credits.
Examines, records, and interprets objects, structures, and landscapes that compose our built environment. Draws on the fields of historical archaeology, architectural history, and urban geography, and employs photography, cartography, and evocative writing to represent the material world we inhabit. Builds on study of one neighborhood in Arlington, Virginia, and expands to entire metropolitan area. Offered by School of Integrative Studies. Limited to three attempts. Equivalent to ANTH 315, ANTH 399.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 361: *Neighborhood, Community, and Identity.* 3-6 credits.
Examines processes of neighborhood formation and transformation in the context of urbanism, suburbanism, immigration, and transmigration. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 362: *Social Justice and Human Rights.* 3 credits.
Considers the philosophical foundations of social justice and human rights. Explores the interpretive difficulties related to identifying what constitutes human rights abuses, and evaluates regional perspectives on human rights. Analyzes institutions that strive to promote and enforce social justice and human rights standards including the United Nations system, regional human rights bodies, and domestic courts. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 363: *Social Justice Narratives.* 3 credits.
Analyzes depictions and aspects of social justice and injustice in contemporary literature (children's literature, historical fiction, creative nonfiction, biography and essays). Students will develop an informed awareness of the complex perspectives, uses and boundaries of literature and will learn to recognize and analyze how literature depicts stories related to social justice, tolerance, equality and social change. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 365: *Independent Study.* 1-12 credits.
Individualized section form required. Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/laboratory study (determined in consultation with instructor) Students are encouraged to work as a team on a particular topic. Notes: Maximum 12 credits can be used to fulfill graduation requirements. Offered by School of Integrative Studies. May be repeated within the term for a maximum 12 credits.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 370: *Sustainable Food Systems.* 6 credits.
Examines the evolution of US food systems with particular emphasis on the national capital region. Students place conventional agriculture and food systems in historical context; examine changing representations of food systems in film, literature, and other media; and research alternative systems that emphasize sustainability. Through a combination of classroom work and experiential learning, this course asks students to contemplate how capitalism, industrialization, and environmental ethics shape our land, culture, and society. Offered by School of Integrative Studies. Limited to three attempts.

Specialized Designation: Green Leaf Focused Course

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 371: *Food Systems and Policy.* 3 credits.
Examines the roles of individuals, corporations, and government in creating and communicating food policy. Students explore the rationale and rhetorics of US agriculture, food production and the environment, food and beverage processing, food safety and labeling, food sales and marketing, dietary guidance, and federal food assistance programs. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Specialized Designation: Green Leaf Related Course

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 375: *Special Topics.* 1-18 credits.
Studies topics of special interest to undergraduates. Notes: May be repeated for credit when topic is different. Offered by School of Integrative Studies. May be repeated within the term for a maximum 18 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 390: *International Internship.* 1-6 credits.
Internship credit may be applied to 12 credits required in experiential learning. Notes: Students may take no more than 6 credits in any one semester, unless approved by director of experiential learning or executive director. Structured and supervised professional experience, within an approved agency, for which the student earns academic credit. The primary purpose of an internship is to connect the student's academic course work to experiences and challenges outside the university classroom. The faculty also expects that students will enhance their competencies and skills and explore career options. Offered by School of Integrative Studies. May be repeated within the term for a maximum 24 credits.

Mason Core: Global Understanding

Recommended Prerequisite: Sophomore standing and permission of instructor.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Special scale.

INTS 391: *Understanding Integrative Studies.* 3 credits.
Familiarizes students with the theory and practice of integrative learning. Challenges students not only to learn but also to think deeply about what, why, how, and for what purposes you learn. Focuses on exploration of identities and civic engagement as a global citizen. Emphasizes lifelong learning and preparation for academics and careers. Develops oral and written communication skills, critical thinking, and research skills. Offered by School of Integrative Studies. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Enrollment is limited to students with a major in Integrative Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 394: *Service-Learning Experience.* 1-15 credits.
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams. Offered by School of Integrative Studies. May be repeated within the term for a maximum 15 credits.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 395: *Field-Based Work.* 1-18 credits.
Directed field studies in topic not otherwise available to students. Notes: Topics vary, but entire course or significant component is located off campus. In addition to field work, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult the Center for Social Action and Integrative Learning for more information. Offered by School of Integrative Studies. May be repeated within the term for a maximum 24 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 396: *Teaching Assistant Experience.* 1-6 credits.
Teaching assistantship and peer-mentoring duties carried out through existing university programs, such as Technology Assistants, Writing Tutors, and Residence Advisors. Also includes teaching assistantship arrangements for specific courses detailed in individualized course contract signed by instructor and student. In addition to peer mentoring/advising, course work may include logistical support, reading assignments, papers, presentations, and portfolios. Offered by School of Integrative Studies. May be repeated within the degree for a maximum 6 credits.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 397: *Add-On Experiential Learning.* 1-3 credits.
For students who wish to add one or more experiential learning credit to existing experiential learning course or learning community. Notes: May also be used by students who wish to add an experiential learning component to course that provides no experiential learning credit (with permission of instructor). Unless experiential learning add-on requirements are spelled out in course syllabus, requirements for add-on experiential learning credit must be detailed in individualized course contract signed by instructor and student. Offered by School of Integrative Studies. May be repeated within the term for a maximum 4 credits.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 398: *Experiential Learning.* 1-15 credits.
Experiential-based individualized studies, mentored by instructor. Notes: Topics decided by student and instructor and approved by executive director. Requirements must be detailed in individualized course contract signed by student, instructor, and executive director. May include reading assignments, papers, journals, and portfolios. Offered by School of Integrative Studies. May be repeated within the term for a maximum 15 credits.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 399: *Study Abroad.* 1-6 credits.
Intended for participation in formally organized course offered by Center for Global Education. A maximum of 15 credits may apply toward INTS degree requirements. Offered by School of Integrative Studies. May be repeated within the term for a maximum 32 credits.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

INTS 400: *Temptress: Constructs of Sex and Power.* 3 credits.
Examines the portrayal of powerful and/or sexual women throughout history, identifying famous historical "temptresses" and investigating the facts known about them. Explores representations and perceptions of contemporary female sexuality, considering possible future concepts and images of female power and sexuality. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 401: *Conservation Biology.* 6 credits.
Provides students with a working knowledge of conservation biology. Integrates the study of social, economic, and political factors with biodiversity, population modeling, habitat degradation, and management issues. Students confront the leading edge of this exciting field by developing real species conservation plans. The experiential learning component of the course will include trips to the Smithsonian Institution's Conservation and Research Center in Front Royal, Virginia,

to study with nationally known experts. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Natural Science with Lab

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: Junior standing or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 402: *Plants and People - Sustenance, Ceremony, and Sustainability.* 6 credits.
Examines the direct relationships between people and plants by integrating perspectives from both ethnobotany and economic botany. Provides students with an appreciation of the fundamental role of plants and plant-derived products in all aspects of human life in both industrialized and non-industrialized societies. Explores how plants and their uses have shaped both past and present cultures around the world. Offered by School of Integrative Studies. Limited to three attempts.

Specialized Designation: Green Leaf Focused Course

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 403: *Conservation Behavior.* 6 credits.
Introduces students to conservation behavior, a field that seeks to apply theories of animal behavior towards solving biological conservation and wildlife management problems. Consists of interactive lectures, readings (including a text and primary literature) and discussion, and hands-on, inquiry-based experiential learning while working in groups at the National Zoo to design and conduct independent behavioral-based research on endangered species. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Natural Science with Lab

Specialized Designation: Green Leaf Related Course

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 404: *Ethics and Leadership.* 4 credits.
Uses an interdisciplinary approach to deepen and broaden student's learning about theories, models, and constructs related to the study and practice of ethics and leadership. Teaches students to develop ethical decision making strategies, communicate effectively in diverse group settings, value civic engagement and actively apply ethical leadership skills. Includes experiential learning activities and discussions that connect formal knowledge with real world experiences and includes one credit of experiential learning. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 405: *Women and Leadership.* 4 credits.
Examines leadership within the context of the theoretical principles of women's studies through discussion of course texts, interactive exercises, field trips, documentary films, guest speakers, and reflection. Investigates the role that gender plays in the various forms of leadership and leadership styles. Explores the historical record of women in leadership roles, identifying the barriers as well as the opportunities. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 406: *Global Leadership.* 3 credits.
Develops a concept of global leadership, emphasizing the critical importance of ethical decision-making, social responsibility, and cultural awareness. Students formulate the construction process of a global mindset and begin to develop a personal philosophy of global leadership. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 410: *Contemporary Health Issues.* 3-18 credits.
Looks at a variety of health and health care issues. Examines several of the major health concerns of women and, to a lesser degree, men. Also explores the biology and medical implications of these diseases and how our society deals with potential life-altering information. Examines who is making the decisions on the allocation of research funds and prevention of diseases. Offered by School of Integrative Studies. Limited to three attempts. Equivalent to WMST 300.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 416: *Refugee and Internal Displacement.* 3 credits.
Provides students with a deeper understanding of refugee and internal displacement. Explores causes of displacement and its impact on people and societies. Studies the role played by governments, non-governmental organizations (NGOs) and the international community in addressing problems faced by refugees in internally displaced persons in terms of relief assistance and humanitarian services. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 417: *Human Trafficking and Smuggling.* 3,6 credits.
Explores the complexity of human trafficking and smuggling, one of the fastest growing criminal enterprises in the world. Examines forms of human trafficking and smuggling and the countries that serve as source, transit or destinations of trafficked and smuggled individuals and groups. Studies the role of the international community in addressing trafficking and smuggling, including regional and national authorities and non-

governmental agencies. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 419: *Youth Resistance and Advocacy.* 3 credits.
Focuses on contemporary perspectives on youth, resistance, and advocacy, both in the form of social movements and subcultures. Asks questions such as: When do everyday activities constitute "resistance"—and resistance to what?—and how do everyday forms of resistance relate to broader forms of historical change? How do these forms of resistance perpetuate forms of exclusion and inequality? Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 420: *Work Effectiveness Skills.* 3 credits.
Develops a variety of work-readiness skills needed to become successful in both local and global marketplaces. Topics and skills covered include communication, problem solving in the business setting, workplace ethics, listening skills, how to influence others, building team project rapport, and meeting effectiveness skills. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 422: *An Experiential Approach to American Foreign Policy.* 3-6 credits.
Takes an experiential approach to the study of American foreign policy. Through case studies, discussions, group projects, and directed research, students learn how foreign policy is made and executed and how they as citizens, activists, or officials can influence national decisions. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 431: *Principles of Fund Raising.* 4 credits.
Examines history of philanthropy and public policy, and the economic and legal frameworks that shape it. Combining theory and practice, students study human behavior, communications, and management systems that are hallmarks of successful fund raising, and begin to develop skills to generate donations, foundation grants, and other unearned revenue for a nonprofit organization. Notes: Includes 1 experiential learning credit. Offered by School of Integrative Studies. Limited to three attempts.

Recommended Prerequisite: INTS 331.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 434: *Research for Social Change.* 3 credits.
Introduces interdisciplinary research methods for social change. Explores students' epistemological assumptions, and use tools of inquiry and discovery to explore transformative approaches to scholarship. Examines multiple critical approaches to inquiry including auto-ethnography and ethnography, feminist and indigenous research methods, participatory action research, critical quantitative analysis, and more. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 435: *Leadership in a Changing Environment.* 4 credits.
Examines diverse definitions and processes of change across multiple complex contexts. Focuses on identifying innovative, collaborative solutions to seemingly intractable social problems. Explores topics such as social change and globalization, creative conflict resolution, the nature of power, oppression and influence, and systemic leadership. Offered by School of Integrative Studies. Limited to three attempts.

Recommended Prerequisite: 60 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 436: *Social Justice Education.* 4 credits.
Examines educational policy, practice, and materials using a variety of lenses informed by social justice theory and praxis. Investigates ways in which racism, sexism, economic injustice, heterosexism, ageism, and other forms of discrimination influence schools and educational access and opportunity for youth. Considers and practices what individuals and communities can do to ensure that all students have equitable educational opportunities. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 437: *Critical Race Studies.* 3 credits.
Engages students in an examination of the forms and impacts of racism, as well as movements for racial justice, in the United States. Draws on theoretical frameworks including critical race theory and intersectionality theory in order to examine the structural roots of racism and the implicit and explicit ways in which racism manifests today. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 438: *Representations of Race.* 4 credits.
Investigates the social and cultural construction of racial categories that have led to inaccurate and stereotypical representations that persist and cause harm today. Offered by School of Integrative Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 440: *Death, Dying, and Decision Making.* 3 credits.
Interdisciplinary examination of clinical care of dying persons along with psychosocial issues related to processes of death and dying. Special emphasis on application of ethical principles in resolving complex problems for individuals with life-threatening illnesses and their families as care givers or decision makers. Students consider the changing norms and mores surrounding end-of-life decisions and explore the care available to terminally ill patients. Offered by School of Integrative Studies. Limited to three attempts.

Recommended Prerequisite: 60 credits or Permission of Instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 450: *Social Innovation in Action.* 4 credits.
Develops students' capacity to engage in positive social change. Examines social innovation approaches, including social and political entrepreneurship, philanthropy, corporate responsibility and social movements. Explores how social innovators catalyze multistakeholder collaborations across commercial, governmental and nonprofit sectors, exploring social innovation through case studies, best practice analyses and relevant readings. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 451: *Leadership and Organizational Problem-Solving.* 4 credits.
Offers a dynamic, practical, and hands-on approach to synthesizing our leadership philosophy with real problem-solving and decision-making skills. Through cases and experiential learning, students will work through framing and diagnosing problems as well as identifying and implementing solutions. Integrates students' interests with the tools necessary to be an organizational problem-solver. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 455: *Consciousness and Transformation in Action.* 3 credits.
Covers how principles and practices of consciousness and transformation relate to the major and career pathway it represents. Includes the theory and practices for deepening the student's own experience with the mindfulness and contemplative approaches to inquire. Capstone course for the minor in consciousness and transformation. Offered by School of Integrative Studies. Limited to three attempts.

Recommended Prerequisite: NCLC 355 or INTS 355.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 456: *Self-Care and Well-Being for Helping Professionals.* 4 credits.
Prepares students to understand and meet a distinct set of challenges facing professionals in careers that involve directly helping others. Studies research findings about factors such as stress, burnout, and compassion-fatigue that undermine professional success and longevity in these career fields. Explores the fundamental tenets of the science of well-being, learning the vocabulary and core principles related to aspects of self-care and well-being such as positivity, strengths, mindfulness, and resilience. Offered by School of Integrative Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 465: *Independent Study.* 1-12 credits.
Individualized section form required. Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/laboratory study (determined in consultation with instructor) Students are encouraged to work as a team on a particular topic. Notes: Maximum 12 credits can be used to fulfill graduation requirements. Offered by School of Integrative Studies. May be repeated within the term for a maximum 12 credits.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 470: *Professional Pathways in Sustainable Food Systems.* 1 credit.
Culminating experience for Environmental and Sustainability Studies majors enrolled in the Sustainable Food and Agriculture concentration. Focused on helping students see how their specific talents, interests and experiences can prepare them for specific professional roles within the emerging field of sustainable food systems. Offered by School of Integrative Studies. Limited to three attempts.

Specialized Designation: Green Leaf Related Course

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 475: *Special Topics.* 1-18 credits.
Studies topics of special interest to undergraduates. Notes: May be repeated for credit when topic is different. Offered by School of Integrative Studies. May be repeated within the term for a maximum 18 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 490: *Internship.* 1-6 credits.
Students may take no more than 6 credits in any one semester, unless approved by executive director. A maximum of of 12 credits can apply to the degree. Structured and supervised professional experience, within an approved agency, for which the student earns academic credit. The

primary purpose of an internship is to connect the student's academic course work to experiences and challenges outside the university classroom. The faculty also expects that students will enhance their competencies and skills and explore career options. Offered by School of Integrative Studies. May be repeated within the term for a maximum 12 credits.

Recommended Prerequisite: Sophomore standing and permission of instructor.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Special scale.

INTS 491: *The Senior Capstone Experience.* 3 credits.
Should be taken semester before graduation; 85 credits required. Graduation requirement for integrative studies students. Students complete final SIS portfolio and senior exposition. Provides information on issues of professional development (interviewing skills, resume development, career strategies, and alumni opportunities). Offered by School of Integrative Studies. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 492: *Graduation Portfolio.* 0 credits.
Offered by School of Integrative Studies. May be repeated within the degree.

Specialized Designation: Writing Intensive in Major

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

INTS 494: *Service-Learning Experience.* 1-15 credits.
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams. Offered by School of Integrative Studies. May be repeated within the term for a maximum 15 credits.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 495: *Field-Based Work.* 1-18 credits.
Directed field studies in topic not otherwise available to students. Notes: Topics vary, but entire course or significant component is located off campus. In addition to field work, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult the Center for Social Action and Integrative Learning for more information. Offered by School of Integrative Studies. May be repeated within the term for a maximum 24 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 496: *Teaching Assistant Experience.* 1-6 credits.
Teaching assistantship and peer-mentoring duties carried out through existing university programs, such as technology assistants, writing tutors, and residence advisors. Also includes teaching assistantship arrangements for specific courses detailed in individualized course contract signed by instructor and student. In addition to peer mentoring/advising, course work may include logistical support, reading assignments, papers, presentations, and portfolios. Offered by School of Integrative Studies. May be repeated within the degree for a maximum 6 credits.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 497: *Add-On Experiential Learning.* 1-3 credits.
For students who wish to add one or more experiential learning credit to existing experiential learning course or learning community. Notes: May also be used by students who wish to add an experiential learning component to course that provides no experiential learning credit (with permission of instructor). Unless experiential learning add-on requirements are spelled out in course syllabus, requirements for add-on experiential learning credit must be detailed in individualized course contract signed by instructor and student. Offered by School of Integrative Studies. May be repeated within the term for a maximum 4 credits.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

INTS 498: *Experiential Learning.* 1-15 credits.
Experiential-based individualized studies, mentored by instructor. Notes: Topics decided by student and instructor and approved by executive director. Requirements must be detailed in individualized course contract signed by student, instructor, and executive director. May include reading assignments, papers, journals, and portfolios. Offered by School of Integrative Studies. May be repeated within the term for a maximum 15 credits.

Specialized Designation: Writing Intensive in Major

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Special scale.

500 Level Courses

INTS 504: *Leadership Theory, Praxis, and Development.* 3 credits.
Explores contemporary leadership theories, models, and concepts using a theory-to-practice-to theory framework. Covers leadership theory, supporting research, and practical application. Focuses on active learning through classroom presentations, course texts, a reflection on

theory and practice, and team work. Offered by School of Integrative Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

INTS 534: *Research for Social Change.* 3 credits.
Introduces interdisciplinary research methods for social change. Explores students' epistemological assumptions, and employs methods of inquiry and discovery to explore transformative approaches to scholarship. Examines multiple critical approaches to inquiry, including auto-ethnography and ethnography, feminist and indigenous research methods, participatory action research, critical and quantitative analysis. Offered by School of Integrative Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

INTS 535: *Leadership in a Changing Environment.* 3 credits.
Examines change and its elements by asking students to explore and design innovative, collaborative solutions to seemingly intractable social problems. Considers and discerns topics such as social change and globalization, creative conflict resolution, the nature of power, oppression and influence, and systemic leadership. Explores methods of personal and social transformation and examine the strategies, and ideas of effective social change advocates in the 21st century. By the course's end, each student will develop a creative proposal for solving a societal problem. Offered by School of Integrative Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

INTS 537: *Critical Race Studies.* 3 credits.
Engages students in an examination of the forms and impacts of racism, as well as movements for racial justice in the United States. Draws on theoretical frameworks including critical race theory and intersectionality theory in order to examine the structural roots of racism and the implicit and explicit ways in which racism manifests today. Offered by School of Integrative Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

INTS 538: *Representations of Race.* 4 credits.
Investigates the social and cultural construction of persistent and harmful racial categories. Offered by School of Integrative Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

INTS 540: *Contemporary Issues in Social Justice & Human Rights.* 3 credits.
Students will examine, study the socio-historical significance of, and consider solutions for some of the most pressing social justice and human rights issues in the world today. The issues examined will cut across identity, region, and scope, and may include concerns as varied as human trafficking, hegemony, animal abuse, child labor, and sexism. Offered by School of Integrative Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

INTS 550: *Social Innovation In Action.* 3 credits.
Develops students' capacity to engage in positive social change. Examines social innovation approaches, including social and political entrepreneurship, philanthropy, corporate responsibility and social movements. Explores how social innovators catalyze multistakeholder collaborations across commercial, governmental and nonprofit sectors, exploring social innovation through case studies, best practice analyses

and relevant readings. Offered by School of Integrative Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

INTS 575: *Special Topics.* 3-4 credits.
Studies topics of special interest to graduate students pursuing integrative, multidisciplinary degrees. Offered by School of Integrative Studies. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

INTS 595: *Experiential Learning.* 1-3 credits.
Offered by School of Integrative Studies. May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

INTS 675: *Special Topics.* 3-4 credits.
Studies topics of special interest to graduate students pursuing integrative, multidisciplinary degrees. Offered by School of Integrative Studies. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

Interdisciplinary Studies (MAIS)

600 Level Courses

MAIS 600: *Special Topics in Interdisciplinary Studies.* 3 credits.
Examines broad social, cultural, political, environmental, and scientific issues through a variety of disciplinary lenses. Topics vary. Offered by School of Integrative Studies. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Graduate or Non-Degree.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

MAIS 695: *Experiential Learning.* 1-3 credits.
Provides practical work experience via an internship, service-learning project, consultancy, or field study that the student brokers with a third party. Students may not use work done previously or their current employment for course credit. All experiential learning placements must be approved by the student's concentration head prior to registration to ensure suitability to the student's program.Offered by Interdisciplinary Studies. May be repeated within the degree for a maximum 6 credits. Equivalent to MAIS 795.

Recommended Prerequisite: 12 credits in the Interdisciplinary Studies program or permission of the program director.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Non-Degree level students may **not** enroll.

Enrollment limited to students in a Master of Interdiscply Studies degree.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

MAIS 696: *MAIS ProSeminar.* 1 credit.
Introduces students to the structure of the Interdisciplinary Studies (MAIS) program; students create a portfolio of their work which continues during their studies; the portfolio prepares students for the capstone project or thesis.Offered by Interdisciplinary Studies. May not be repeated for credit. Equivalent to MAIS 796.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Non-Degree level students may **not** enroll.

Enrollment limited to students in a Master of Interdiscply Studies degree.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

MAIS 797: *Interdisciplinary Studies Proposal.* 1 credit.
Focused on formulating and writing a MAIS project or thesis proposal.Offered by Interdisciplinary Studies. May not be repeated for credit.

Recommended Prerequisite: Admission to MAIS and completion of 21 credits of graduate course work, including any required research methodology course; MAIS 696.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MAIS 798: *Interdisciplinary Studies Project.* 1-5 credits.
Research project related to student's concentration taken under supervision of faculty advisor and project evaluation committee.Offered by Interdisciplinary Studies. May be repeated within the degree.

Recommended Prerequisite: MAIS 797 and prior approval of a project proposal by the committee chair, two committee members, and MAIS director.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

MAIS 799: *Interdisciplinary Studies Thesis.* 1-5 credits.
Original research endeavor related to student's MAIS program concentration. Research must result in document meeting MAIS and university standards.Offered by Interdisciplinary Studies. May be repeated within the degree. Equivalent to HE 799.

Recommended Prerequisite: MAIS 797 and prior approval of a project proposal by the committee chair, two committee members, and MAIS director.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

International Commerce and Policy (ITRN)

500 Level Courses

ITRN 500: *Global Political Economy.* 1-4 credits.
Foundation course in the ICP program. Explores issues and ideas affecting global security, stability, growth and development from country, regional and thematic perspectives. Introduces students to key concepts, policies, and practices that underpin international commerce, international relations more broadly, and non-governmental transnational activities. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 501: *Data Analysis for Global Political Economy.* 3 credits.
Provides the skills necessary to conduct qualitative and quantitative research and analysis of data related to global political economy. Students obtain practical information on sources of data, their origins, strengths, and weaknesses. Helps develop tools for statistical analysis of data, leading up to binary regression, and includes the use of software for analyzing and displaying information. It covers major data sources and indices related to international economic policy, including trade data, economic and financial indicators, and development indicators. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 503: *Macroeconomic Policy in the Global Economy.* 1-4 credits.
Provides an analytical introduction and overview of basic concepts in macroeconomic theory with an emphasis on applications to problems in the United States and the contemporary global economy. Covers topics such as inflation, growth and business cycles, fiscal and monetary policies, balance of payments and exchange rates. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 504: *Microeconomics and Trade Policy.* 1-4 credits.
Provides a foundation in microeconomics, including supply and demand analysis, elasticities, the theory of the firm, allocative efficiency and market failure. Covers applications of this microeconomic foundation to international trade theory, trade policy analysis, preferential trade agreements, and international production. Emphasis is on graphical and algebraic analysis. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

ITRN 602: *Global Financial Crises and Institutions.* 3 credits.
Examines the modern financial sector: how it operates, its regulation, and its role in risk transmission and crisis formation. Reviews global financial markets and instruments. Considers the role of multilateral and regional financial institutions in management of crises, macroeconomic adjustment, development policy and capital flows with emphases on financial crises including the 2007-09 crisis. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ITRN 503[B-], 503[XS], 503[B-] or 503[XS].
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 603: *Global Trade Relations.* 3 credits.
Examines U.S. trade policy in the context of global trade relations. Considers the global trading system from legal, institutional and political perspectives, giving particular attention to trade agencies in the United States and abroad, international agreements, and the World Trade Organization. Trade policy formation is analyzed within the context of competing interest groups and corporate strategies. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (ITRN 504[B-] or 504[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 604: *New Technologies in the Global Economy.* 3 credits.
Addresses the role and impact of new technologies on global trade, production, and finance. New technologies considered include digital, robotics, artificial intelligence, blockchain, machine learning, and virtual presence. Applications covered include global value chains, financial technology, cryptocurrencies and monetary policy, innovation management, logistics, and international development. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 605: *Technology, Culture and Commerce.* 3 credits.
Examines and applies the major dimensions of technological and cultural analysis to global commerce and policy. The course assesses theories of technological change and cultural perspectives that have relevance to the flows of peoples, information, goods, capital and technology across national and cultural boundaries. It focuses on the political economy implications of technological change for commercial, national and global policies. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 612: *International Business Operations and the Multinational Corporation.* 3 credits.
Examines international business environment and challenges facing companies in conducting operations in increasingly interconnected global marketplace. Focuses on issues of management and organization, and resolution of conflicts that may arise between business organizations and home and host governments. Also focuses on role of multinational corporations in international environment, and impact on global trade, economic development, and political system. Also studies trade and international investment theories and world financial environment. Explores broad issues such as sovereignty of decision making and global impact of business activities. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

ITRN 701: *Special Topics in International Commerce and Policy.* 1-3 credits.
Offers specialized courses on various aspects of international commerce and policy. Offered by Schar School of Policy & Govt. May be repeated within the term.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 702: *Special Topics in International Commerce and Policy: Study Abroad.* 3-6 credits.
Provides opportunity for study abroad under supervision of Mason faculty. Notes: Course topics, content, and locations vary. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 710: *International Business Transactions: Finance and Investment.* 3 credits.
Focuses on techniques for financing trade and payment methods, including letters of credit, counter trade, and other approaches. Covers issues of direct concern in financing international business operations, such as preparing financing proposals, risk insurance, international taxation, pricing policies, and currency conversion and foreign exchange risk management. Introduces foreign direct investment, alliances and acquisitions, joint ventures, and other methods for investing overseas. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 711: *United States Law and Global Trade.* 3 credits.
Surveys types of regulations imposed by United States, foreign governments, and international institutions on transnational business activities. Reviews principal regulatory bodies in United States and overseas, and powers and authorities. Covers tariffs and customs regulations; product safety and environmental restrictions; intellectual property, copyright, trademark, and patent regulations; and licensing rules. Also covers special restrictions that may be imposed because of political considerations such as embargoes, munitions controls, and antibribery and antiboycott regulations. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 712: *World Trade Organization and Global Trade.* 3 credits.
Focuses on legal aspects of international trade regulation by studying international legal and political regime established under WTO, and assessing impact of domestic economic legislation on U.S. trade regulations. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 715: *Global Environment and the World Economy.* 3 credits.
Examines growing relationship between environmental interdependence and developing world economy. Assesses increased globalization of environmental and health issues with a focus on the impact on those issues on international transactions involving trade and development. Attempts to develop an understanding of relationship of scientific

knowledge to global environment in context of existing political and economic institutions. Emphasizes formulating and assessing policies and structures for corporations, nations, regions, and international organizations. Tensions among free trade, international competitiveness, and regulatory responses are central. Gives attention to practices of nations and international organizations, emerging forms of regional and international cooperation, and growing use of multilateral agreements. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 716: *European Union in the International System.* 3 credits.
Examines current developments in European market integration from global perspective. Emphasizes impact of single market, and proposed economic and monetary union of United States and other major trading partners. Examines European economic relations with Eastern Europe, former Soviet Union, and Lome Pact countries. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 720: *Regional and Supranational Organizations.* 3 credits.
Assesses role of international organizations in international system today, and focuses on wide range of international and regional economic and political institutions. Emphasizes changing nature of these organizations in relation to nation states, and relationship of international organizations to U.S. national security and economic interests. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 736: *Sources of Growth in East Asia.* 3 credits.
Examines extraordinary economic success of East Asian NIEs and some of their problems. Focuses on understanding proximate sources of growth, role of technological development, and salient political issues. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 738: *Fundamentals of International Marketing.* 3 credits.
Offers working knowledge of principles and practices that enable managers to effectively market organizations, products, services, and brands. Emphasizes international dimensions of marketing where appropriate. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 740: *Trade and Regulatory Compliance.* 3 credits.
Acquaints students with legal, regulatory, and practical issues in importation and exportation of merchandise. Topics include theoretical framework for government oversight of international movement of goods; legal issues between parties and governments; and practical guidance concerning structuring of import and export transactions to avoid legal and tariff liability. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 744: *The Politics of International Competitiveness.* 3 credits.
Provides inquiry into governance problems of public managers and political leaders as they cope with global competitiveness in post-industrial era. Focuses on integrating public and private sectors worldwide, with special emphasis on U.S. role and how it influences such areas as technology transfer, national security, electronic commerce, trade policies, money flows, and human resources. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 756: *National Security and the Global Economy.* 3 credits.
Examines impact of globalization and changes in international economic and political systems on concepts of national security. Emphasizes nexus of economic and security concerns in post-Cold War era, with particular attention to emerging issues including trade and economic

security, proliferation of advanced military technology and control of weapons of mass destruction, international drug trafficking, and defense conversion. Focuses on implications of changing security requirements on U.S. defense and economic policy and activities. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 758: *Global Market Planning Practicum.* 3 credits.
Provides opportunity to develop international market plan for specific industry or service sector. Students consult with industry experts and use key trade databases to develop strategic plan that recommends market entry strategies. Completed market plan submitted to industry experts for use and dissemination. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 760: *International Environmental Politics.* 3 credits.
Examines growing concerns related to global environmental issues and problems they pose to domestic, foreign, and international political institutions. Covers major environmental issues including global warming, ozone depletion, cross-border flow of pollution, and threats to biodiversity. Assesses strengths and weaknesses of traditional political institutions in dealing with these issues and providing for sustainable economic development while limiting environmental damage. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: ITRN 500.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 761: *European Political and Economic Union.* 3 credits.
Examines movement for European integration since World War II, focusing on political and institutional development of European Community/Union. Topics include theories of European integration, Treaties of Rome, Single European Act, Maastricht Treaty, European Union (EU) policies and programs, and EU's external relations. Analyzes changing nature of U.S.-EU relations and prospects for EU enlargement into Central and Eastern Europe. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 764: *Trade, Investment, and Politics in East Asia.* 3 credits.
Examines issues related to international transactions involving Korea, China, Taiwan, and Hong Kong, with some attention to Japan. Focuses on trade and financial relations between these East Asian nations and United States. Assesses impact of culture and domestic political and economic institutions within these states, and roles in regional institutions and in international system. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 765: *Trade, Investment, and Politics in Sub-Saharan Africa.* 3 credits.
Examines role and potential of sub-Saharan Africa in international trading system. Emphasizes political, historical, cultural, and development factors. Focuses on perspectives of U.S. firms and on international institutions trading or investing in region. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 766: *Trade, Investment, and Politics in the Middle East and North Africa.* 3 credits.
Examines major economic, political, and cultural issues that influence trade and investment relations with Middle East and North Africa. Focuses on roles of international and regional institutions in economic development, and develops understanding of challenges facing region and their implications for formulating trade and investment strategies by U.S. firms. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 767: *Political Economy and Integration in Latin America.* 3 credits.
Examines contemporary political, economic, and cultural dynamics of Latin American and Caribbean regions. Emphasizes issues and trends that affect U.S.-Latin American political, business, and trade relations, particularly recent political and economic reforms. Examines roles of domestic interest groups and decision-making systems in individual countries, and evolution of regional integration arrangements and integration with international system. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (ITRN 503[B-], 503[XS], 504[B-], 504[XS], PUBP 720[B-] or 720[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 768: *Global Intellectual Property Rights and International Trade.* 3 credits.
Examines national and regional systems, international contractual relations (licensing), and the evolving global system for protecting intellectual property. Addresses current international treaty system and the ongoing multilateral efforts to strengthen worldwide intellectual property protection. Examines intellectual property regimes worldwide, including regional and bilateral challenges and opportunities, and relevant U.S. law and policy responses. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 769: *International Entrepreneurship.* 3 credits.
Introduces practical planning approach for small and medium-size entrepreneurial firms seeking to enter international marketplace. Focuses on key business and financial documents related to doing business overseas; and assesses role of language, technology, and information systems in formulating successful business strategy. Role playing and simulated negotiations provide opportunities for students to sharpen business skills. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 770: *International Contract Negotiation.* 3 credits.
Reviews growing role of arbitration in international transactions. Examines international, national, and government arbitration bodies, with particular emphasis on how differing cultural characteristics affect negotiating behavior and effectiveness of arbitration. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 771: *Trade, Investment, and Politics in South and Southeast Asia.* 3 credits.
Focuses on trade and finance issues in the most dynamic countries of South and Southeast Asia. Assesses cultural and political factors, regional trade patterns, and institutions, focusing on implications for regional development and business opportunities for U.S. firms. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 772: *International Telecommunications.* 3 credits.
Focuses on developments in international telecommunications and satellite regulation. Examines regulatory environment, and business and financial aspects of global telecommunications industry. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 773: *International Strategic Management.* 3 credits.
Presents comprehensive approach to international strategy formulation, implementation, and evaluation processes affecting policy and program development within multinational firms and government agencies. Integrates marketing, finance, accounting, and management. Covers techniques for forecasting international business, political, economic,

technological, legal, and sociocultural forces. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ITRN 791: *Advanced Trade Policy.* 3 credits.
Covers international trade theory, trade policy analysis, regional economic integration, and institutional arrangements governing world trade. Examines dispute settlement regimes, and relationship between trade and environment. Includes WTO and constituent agreements in the areas of goods, services, intellectual property, and trade-related investment measures. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

International Year One (INYO)

000 Level Courses

INYO 044: *Business Math Preparation.* 2 credits.
Notes: The successful completion of this course will serve as a prerequisite for MATH 108 in lieu of the Math Placement Test. Offered by INTO Mason. May be repeated within the degree for a maximum 6 credits. Equivalent to MATH 008.

Recommended Prerequisite: AE Level 3 Core AE Level 3 OCS or admission to an INTO Mason Pathway program.

Registration Restrictions:
Enrollment is limited to English Language level students.

Schedule Type: Seminar

Grading:
This course is graded on the ABC/NC Undergraduate Special scale.

INYO 045: *STEM Mathematics Preparation.* 2 credits.
Notes: The successful completion of this course will either: a) Serve as a prerequisite for Math 105 Pre-Calculus in lieu of the Math Placement Test or b)Prepare the student to achieve the necessary score on the Math Placement Test for entry into MATH 113. Offered by INTO Mason. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: AE Level 3 Core AE Level 3 OCS or admission to an INTO Mason Pathway program.

Registration Restrictions:
Enrollment is limited to English Language level students.

Schedule Type: Seminar

Grading:
This course is graded on the ABC/NC Undergraduate Special scale.

INYO 095: *Quantitative Preparation for the Graduate Record Examination.* 0 credits.
Prepares students in the International Graduate Pathways requiring the general Graduate Record Examination test (GRE) for progression to take the computer adaptive version of the exam with primary emphasis on the quantitative section. This course emphasizes test language and the quantitative portion of the exam along with testing strategies; identifying common test-taking errors; and managing test anxiety. Offered by INTO Mason. May be repeated within the degree for a maximum 9 credits. Equivalent to EAP 097, INYO 096, INYO 097.

Registration Restrictions:
Enrollment is limited to English Language level students.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

INYO 096: *Verbal and Quantitative Preparation for the Graduate Record Examination.* 0 credits.
Prepares students in International Graduate Pathways requiring the general Graduate Record Examination test for progression to take the exam for students whose pathways require a primary focus on verbal and quantitative sections. This course emphasizes test language and vocabulary, in addition to: testing strategies; practicing logical, rhetorical, and mathematical problem-solving; identifying common test-taking errors; and managing test anxiety. Offered by INTO Mason. May be repeated within the degree for a maximum 0 credits. Equivalent to EAP 097.

Registration Restrictions:
Enrollment is limited to English Language level students.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

INYO 097: *Verbal, Quantitative, and Academic Writing Preparation for the Graduate Record Examination.* 0 credits.
Prepares students in International Graduate Pathways requiring the general Graduate Record Examination test (GRE) for progression to take the exam for students whose pathways equal emphasis on all three areas of the exam. This course emphasizes test language and vocabulary, in addition to: testing strategies; academic writing preparation; practicing mathematical problem-solving; identifying common test-taking errors; and managing test anxiety. Offered by INTO Mason. May be repeated within the degree for a maximum 0 credits. Equivalent to EAP 097.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale.

100 Level Courses

INYO 100: *Transition INTO Mason I.* 1 credit.
Assists first-year international and multilingual Year One students with their transition from high school to college life. It helps prepare students for successful progression to their chosen degree plan the

promoting acculturation to academic norms and expectations at Mason, the development of self-efficacy, and engagement with the Mason community. It encourages to seek out and take full advantage of a wide range of campus resources. Offered by INTO Mason. Limited to three attempts. Equivalent to UNIV 100, UNIV 140.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INYO 101: *Transition INTO Mason II.* 1 credit.
Serves as a continuation of INYO 100. It provides extended first-year transition support for standard pathway students in the second semester. Offered by INTO Mason. May not be repeated for credit. Equivalent to UNIV 101, UNIV 141 Offered by INTO Mason. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: INYO 100^{C} or 100^{XS}.
^{C} Requires minimum grade of C.
^{XS} Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

INYO 103: *Precalculus Support for INTO Mason Year One.* 1 credit.
INYO 103 is a support course for INTO Mason students enrolled in MATH 105. In this course, students will learn to use and identify the language of Precalculus Mathematics and students will be provided guided practice activities to reinforce the MATH 105 lectures. Offered by INTO Mason. Limited to three attempts.

Recommended Corequisite: MATH 105

Registration Restrictions:
Enrollment is limited to English Language level students.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale.

INYO 104: *Linear Modeling Support for INTO Mason Year One.* 1 credit.
INYO 104 is a support course for INTO Mason students enrolled in MATH 111. In this course, students will learn to use and identify the language of Linear Modelling and students will be provided guided practice activities to reinforce the MATH 111 lectures. Offered by INTO Mason. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: MATH 111^{*C} or 111^{XS}.
* May be taken concurrently.
^{C} Requires minimum grade of C.
^{XS} Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale.

INYO 105: *American Cultures.* 3 credits.
This course provides an introduction to US cultures with a focus on diversity within American society. The course uses the concept of culture as a basis for discussing differences in Americans' experience of family life, work, education, the arts, national and ethnic identities, gender, religion and more. Through ethnographic readings, literature, film and field projects, students develop a better understanding of similarities and differences across the American experience. Offered by INTO Mason. Limited to three attempts.

Mason Core: Global Understanding

Recommended Prerequisite: Multilingual students who have limited experience with US Cultures; INTO Mason Standard Year One Students.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Special scale.

INYO 106: *Introduction to Research Methods for International Students.* 3 credits.
Academic research is the fundamental element of university-level education. Despite the variations in research disciplines. they all share basic concepts of academic inquiry. This course is designed to teach the methods. norms and procedures of undergraduate research in the humanities and social sciences. It should equip international students with the essential skills needed to successfully produce a quality academic paper. Offered by INTO Mason. Limited to three attempts.

Specialized Designation: Mason Impact.

Recommended Prerequisite: Admission to the INTO Mason Undergraduate Pathway program.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Special scale.

200 Level Courses

INYO 206: *International Peer Learning Partnership.* 0-1 credits.
This course is an experiential credit course for undergrad students partnering with Undergraduate International Pathway Program students to develop academic skills. Offered by INTO Mason. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of at least 15 credits at Mason with a GPA of 3.0 or higher and a program participation offer from INTO Mason.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

INYO 207: *International Peer Educational Leadership.* 0-3 credits.
This course is an experiential leadership course for students partnering with Undergraduate International Pathway Program students as peer educational mentors. Offered by INTO Mason. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Sophomore status or higher.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

500 Level Courses

INYO 501: *Graduate Transitions for International Students I.* 2 credits.
Designed for the Graduate International Pathways program, this course is the first of a two-part transitional course series for international students. This course covers an introduction to the U.S. higher education environment, engagement with university resources and policies, and development of graduate-level academic skills. Notes: This course is for graduate students whose highest degree is from a non-US institution. This course may not count towards academic degree requirements at the graduate level. Enrolled students are required to take INYO 502 the following consecutive semester. Offered by INTO Mason. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to English Language, Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Special scale.

INYO 502: *Graduate Transitions for International Students II.* 2 credits.
Designed for the Graduate International Pathways program, this course is the second of a two-part transitional course series for international students. This course covers academic adjustments to study in the U.S., graduate study and career readiness, and communicating academic progress and career goals through digital portfolios. Notes: This course is for graduate students whose highest degree is from a non-US institution. Offered by INTO Mason. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Special scale.

INYO 504: *Accelerated Graduate Transitions for International Students.* 3 credits.
Designed specifically for international students at INTO Mason who are enrolled in a one-term Graduate International Pathway, this course emphasizes academic adjustments to study in the U.S., engagement with university resources and policies, and communicating academic progress and career goals through digital portfolios. Notes: This course is for graduate students whose highest degree is from a non-US institution. Offered by INTO Mason. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to English Language, Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

INYO 508: *Special Topics Content Support in the Disciplines.* 0-6 credits.
This Special Topics Content Support in the Disciplines course is tailored to international students enrolled in the INTO Mason Graduate Pathways Program. The courses will be designed to support INTO Mason graduate students in their major courses, providing individualized feedback and foundational information for those courses. Offered by INTO Mason. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

Italian (ITAL)

100 Level Courses

ITAL 101: *Elementary Italian I.* 3 credits.
Designed for students with no prior knowledge of Italian. Includes elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Notes: Students may not receive credit for ITAL 101 and ITAL 110. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to ITAL 110.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Italian

ITAL 102: *Elementary Italian II.* 3 credits.
Continuation of ITAL 101. Notes: Students may not receive credit for ITAL 102 and ITAL 110. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to ITAL 110.

Recommended Prerequisite: ITAL 101.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Italian

ITAL 110: *Elementary Italian.* 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Notes: Students may not receive credit for ITAL 110 and ITAL 101 or 102. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to ITAL 101, ITAL 102.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Italian

200 Level Courses

ITAL 201: *Intermediate Italian I.* 3 credits.
Further development of skills in listening, speaking, and writing. Notes: ITAL 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: ITAL 102, ITAL 110, or permission of department.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Italian

ITAL 202: *Intermediate Italian II.* 3 credits.
Application of language skills to reading, composition, and discussion. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: ITAL 201 or permission of department.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Fulfills Frgn Lng requirment, Taught in Italian

300 Level Courses

ITAL 320: *Topics in Italian Film and Literature.* 3 credits.
Explores Italian history through the lens of literary and cinematic movements from 1911 onwards. Compares the representations of historical movements in different artistic languages, from poetry and prose to the moving image. Topics include neorealism, Fascism, the Resistance, the Mafia and others. Offered by Modern & Classical Languages. Limited to three attempts.

Mason Core: Literature

Specialized Designation: Topic Varies

Recommended Prerequisite: ENGH 101, or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ITAL 325: *Major Italian Writers.* 3 credits.
Works of major Italian or Italian-American authors in translation. Writers to be studied vary. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Mason Core: Literature

Specialized Designation: Topic Varies

Recommended Prerequisite: ENGL 101/ENGH 101 or equivalent or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ITAL 330: *Advanced Italian: Language and Culture I.* 3 credits.
Develops linguistic and critical proficiency in Italian language and culture for students who have completed intermediate studies in Italian. Analyzes authentic texts that reveal the diversity of Italian experience in regional, national and international contexts. Fosters advanced reading, writing, speaking, and listening skills that will enable students to understand and to critique Italian with greater ease and sophistication. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: ITAL 202; appropriate placement score; or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Italian

ITAL 331: *Advanced Italian Language and Culture II.* 3 credits.
An advanced course that emphasizes linguistic fluency and cultural awareness in contemporary Italian realities. Highlights changes in the domestic, regional, and national spheres. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: ITAL 330; placement score or permission of the instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Italian

ITAL 340: *Italian through Arts.* 3 credits.
Develops linguistic proficiency and historical and cultural awareness through the study of a thematic selection of films. Fosters advanced reading, writing, speaking, and listening skills, incorporating advanced-level grammar and vocabulary in a content-based approach. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: ITAL 202, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Italian

ITAL 360: *Southern Italy.* 3 credits.
Examines the history and culture of southern Italy with an eye toward cultural and linguistic competence. Students analyze authentic texts ranging from literature to journalism that treat a specific area of southern Italy. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: ITAL 202 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Italian

400 Level Courses

ITAL 420: *Global and Local Italy.* 3 credits.
Examines Italian culture in its urban, regional, national, and diasporic manifestations. Analyzes authentic texts, from literature to journalism, in the spirit of a cultural studies approach. Fosters advanced reading, writing, speaking, and listening skills that will enable students to understand and critique contemporary Italy with greater ease and sophistication. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: ITAL 330.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Italian

Japanese (JAPA)

100 Level Courses

JAPA 101: *Introduction to the Japanese Language.* 3 credits.
Includes basic grammar, oral expression, listening comprehension, and reading and writing. Notes: Students may not receive credit for JAPA 101 and JAPA 110. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to JAPA 110.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Japanese

JAPA 102: *Introduction to the Japanese Language.* 3 credits.
Includes basic grammar, oral expression, listening comprehension, and reading and writing. Notes: Students may not receive credit for JAPA 102 and JAPA 110. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to JAPA 110.

Recommended Prerequisite: JAPA 101, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Japanese

JAPA 110: *Elementary Japanese.* 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, reading, and writing. Notes: Students may not receive credit for JAPA 110 and JAPA 101, 102. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to JAPA 101, JAPA 102.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Japanese

200 Level Courses

JAPA 201: *Intermediate Japanese I.* 3 credits.
Further development of skills acquired in JAPA 101 and 102, including grammar, oral expression, listening comprehension, reading and writing. Use of written language (katakana, hiragana, and kanji) emphasized. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: JAPA 102, JAPA 110, or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Japanese

JAPA 202: *Intermediate Japanese II.* 3 credits.
Continuation of JAPA 201. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: JAPA 201 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Fulfills Frgn Lng requirment, Taught in Japanese

JAPA 240: *Introduction to Japanese Culture.* 3 credits.
This introductory survey course covers Japanese history, culture, and society from prehistory until the present day. It is designed to familiarize students with key aspects of Japanese culture that inform contemporary viewpoints and social issues. This class will provide a foundation of basic knowledge about Japan that will serve as a springboard for future engagement with the nation, its people, and its cultural legacy. Offered by Modern & Classical Languages. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

JAPA 310: *Japanese Culture in a Global World.* 3 credits.
Study of globalizing Japanese cultural phenomena from the 19th through the 21st century. Explores how movements of ideas, technologies and products across borders influence both local and global ideas and practice. Offered by Modern & Classical Languages. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Recommended Prerequisite: ENGL 101/ENGH 101 or equivalent or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

JAPA 320: *Japanese Cinema.* 3 credits.
Comprehensive analysis of Japanese cinema based on cross-cultural perspectives and cultural criticism. Major developments and trends as viewed in selected Japanese films with emphasis on post war and contemporary eras. Knowledge of Japanese history, communication, and cultural studies or film and media studies helpful. Notes: May be repeated when topic is different with approval of department. Offered by Modern & Classical Languages. May be repeated within the term for a maximum 6 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

JAPA 330: *Advanced Reading and Speaking I.* 3 credits.
Designed for students to develop conversational proficiency and reading skills. Students work toward a mastery of linguistic and sociolinguistic rules by incorporating reading and speaking abilities through class discussions, reports, and presentations. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: JAPA 202, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Japanese

JAPA 331: *Advanced Reading and Speaking II.* 3 credits.
Designed for students to develop conversational proficiency and reading skills. Students continue to develop mastery of linguistic and sociolinguistic rules by incorporating reading and speaking abilities through class discussions, reports and presentations. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: JAPA 330, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Japanese

JAPA 340: *Topics in Japanese Literature.* 3 credits.
Study of selected topics in Japanese literature in English translation. Content varies. Notes: May be repeated when topic is different with permission of department. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Mason Core: Literature

Specialized Designation: Topic Varies, Non-Western Culture

Recommended Prerequisite: ENGH 101 or equivalent, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

JAPA 350: *Readings in Japanese Culture.* 3 credits.
An integrated content-based Japanese course designed to advance students' oral and writing skills, as well as their critical understanding of Japanese culture and mythology. Introduces a variety of genres, such as rakugo (traditional comical story-telling), shinwa (myths), and mukashi-banashi (folk legends). Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: JAPA 202, appropriate placement score, or permission of department.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Japanese

JAPA 360: *Topics in Japanese Popular Culture.* 3 credits.
In-depth look at anime and manga in order to arrive at a deeper understanding and appreciation of the cultures and histories that generated these art forms, as well as how they continue to shape international entertainment media and fan subcultures. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

JAPA 370: *Video Games and Japan.* 3 credits.
Examines video games as digital works of art, literature, and social engagement within the context of contemporary transnational mediascape. Includes study of the history and development of Japanese video games, as well as the markets and cultures surrounding them. Offered by Modern & Classical Languages. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

JAPA 380: *Japan in Motion.* 3 credits.
This course introduces student to the evolution of Japanese performing arts from representations in Japanese mythology to the various folk and classical styles of performance. Among the aims of this course is to provide the classical foundations of Japanese performance and the ways it influenced modern and contemporary theater, cinema, and popular culture. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: (ENGH 101[C] or 101[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

400 Level Courses

JAPA 410: *Readings in Japanese Modern Fiction.* 3 credits.
This course will further develop the student's language skills and advance their Japanese proficiency level through the comprehension of selected Japanese popular fiction. Students will advance their Japanese comprehension (reading, writing, and speaking) and also foster a deeper understanding of Japan through the examination of the emergence of the Japanese modern identity. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: JAPA 300-400 course conducted in Japanese in addition to JAPA 331; appropriate placement score; or permission of instructor

Registration Restrictions:
Required Prerequisites: (JAPA 331[C] or 331[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Japanese

JAPA 420: *Animals and Nature in Japan.* 3 credits.
Serves as an introduction to ecocriticism through the lens of Japanese culture from the late medieval period to the present day. Themes relating to the study of the natural world will be approached from a multidisciplinary perspective, and the class will address topics concerning Japanese history, religion, and folklore. Offered by Modern & Classical Languages. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

JAPA 440: *Integrated Study of Japanese Language and Society I.* 3 credits.
Integrated approach to study of Japanese language and society through grammar review, vocabulary and kanji development, intensive practice in spoken and written Japanese, and sociological and cultural readings and analysis. Includes class discussion, oral and written reports, and out-of-class direct interactions with native speakers. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: JAPA 331, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Japanese

JAPA 441: *Integrated Study of Japanese Language and Society II.* 3 credits.
Integrated approach to study of Japanese language and society through grammar review, vocabulary and kanji development, intensive practice in spoken and written Japanese, and sociological and cultural readings and analysis. Includes class discussion, oral and written reports, and out-of-class direct interactions with native speakers. More emphasis on actual use of Japanese language. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: JAPA 440, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Japanese

Kinesiology (KINE)

100 Level Courses

KINE 100: *Introduction to Kinesiology.* 3 credits.
Provides overview of the field of kinesiology in the form of an introductory course. Exposes students to the history of the field, and its emphasis on evidence based knowledge. Explains policies and procedures for the major. Explorers career options. Offered by School of Kinesiology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

KINE 110: *Physical Activity and Wellness.* 3 credits.
Introduces theoretical and practical information related to physical activity and its effect on personal wellness. Through physical activity literacy and personal reflection, this course engages individuals in the dynamics of fitness-wellness across the lifespan. Offered by School of Kinesiology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

KINE 200: *Methods of Exercise Instruction.* 3 credits.
Provides conceptual and practical introduction to performing common exercises with proper technique utilizing free weights, resistance training machines, cardiovascular equipment, body weight and other fitness techniques. Develops exercise leadership skills through the communication, instruction and demonstration of cardiovascular, resistance and flexibility exercises. Offered by School of Kinesiology. Limited to three attempts.

Recommended Corequisite: ATEP 300; KINE 310

Registration Restrictions:
Required Prerequisites: (BIOL 124[C] or 124[XS]) and (BIOL 125[C] or 125[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

KINE 250: *Endurance Sport Program Design.* 3 credits.
Provides students with knowledge necessary to train another individual safely and effectively for endurance sports. Emphasis will be placed on

running; however, cycling and swimming will be covered. Topics covered include: functional, physiology, psychological aspects of endurance competitions, basic nutritional requirements, injury reduction, training techniques, safety, race management, and history of endurance sports. Offered by School of Kinesiology. Limited to three attempts.

Recommended Prerequisite: BIOL 124, BIOL 125, ATEP 300, KINE 200.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

KINE 260: *Behavior Modification for Physical Activity.* 3 credits.
Provides students with basic knowledge of theories associated with health behavior change and exercise psychology. Examines the factors which influence adopting healthy behaviors as well as behavioral interventions to improve adherence to health and fitness programs. Introduces students to the effects of exercise on mental health. Offered by School of Kinesiology. Limited to three attempts.

Recommended Prerequisite: KINE 100

Recommended Corequisite: KINE 200

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

KINE 310: *Exercise Physiology I.* 3 credits.
Introduces students to the physiologic, neuroendocrine, and biochemical changes of the human body that are associated with exercise and work. Offered by School of Kinesiology. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (BIOL 124[C] or 124[XS]) and (BIOL 125[C] or 125[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

KINE 311: *Exercise Physiology Lab.* 1 credit.
Demonstrates the body's physiological responses to exercise with specific testing and assessment procedures commonly used in the field of Kinesiology. These laboratory experiences will allow students to apply the theories they are learning in lecture. Offered by School of Kinesiology. Limited to three attempts.

Recommended Prerequisite: ATEP 300

Registration Restrictions:
Required Prerequisites: (BIOL 124[C] or 124[XS]) and (BIOL 125[C] or 125[XS]) and (KINE 310[*C] or 310[XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

KINE 320: *Principles of Human Nutrition.* 3 credits.
Assesses dietary habits and patterns in relation to nutrient requirements across the age spectrum and for a variety of populations. Emphasizes weight control, diet in relation to physical activity, and current nutritional controversies. Offered by School of Kinesiology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

KINE 330: *Seminar in Kinesiology.* 3 credits.
Prepares students for the fieldwork experience in KINE 341: Kinesiology Internship I. Topics covered include: professionalism, review of evidence-based position papers, and discussion of contemporary issues in kinesiology. Offered by School of Kinesiology. Limited to three attempts.

Recommended Prerequisite: Junior standing (60 credit hours)

Registration Restrictions:
Required Prerequisites: (KINE 100[C] or 100[XS]) and (KINE 200[C] or 200[XS]) and (KINE 370[C] or 370[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

KINE 341: *Kinesiology Internship I.* 3 credits.
Provides a paid or voluntary supervised professional experience in an approved exercise science professional setting under the supervision of a practicum University Supervisor and Agency Supervisor. Current CPR, AED, and First Aid Certification required. Offered by School of Kinesiology. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (KINE 200[C] or 200[XS]) and (KINE 310[C] or 310[XS]) and (KINE 330[C] or 330[XS]) and (KINE 350[C] or 350[XS]) and (KINE 370[C] or 370[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Special scale.

KINE 350: *Exercise Prescription and Programming.* 3 credits.
Provides study of the design and implementation of exercise programs for the general population. Offered by School of Kinesiology. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (KINE 200[C] or 200[XS]) and (KINE 310[C] or 310[XS]) and (KINE 370[C] or 370[XS]) and (ATEP 300[C] or 300[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

KINE 360: *Strength Training: Concepts and Applications.* 3 credits.
Provides students with an opportunity to develop an in-depth understanding of the principles of strength training and conditioning, including: anatomical and physiological considerations, lifting techniques, equipment selection, program development/evaluation, and weightlifting safety; thus enabling them to teach and train client. Offered by School of Kinesiology. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: ((BIOL 124[C] or 124[XS]) and (BIOL 125[C] or 125[XS]) and (KINE 310[C] or 310[XS])) and (ATEP 300[C] or 300[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

KINE 370: *Exercise Testing and Evaluation.* 3 credits.
Provides students with an opportunity to develop a understanding of the assessment and evaluation process during exercise in the determination of physical fitness. Offered by School of Kinesiology. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: ((BIOL 124[C] or 124[XS]) and (BIOL 125[C] or 125[XS]) and (KINE 310[C] or 310[XS])) and (ATEP 300[C] or 300[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

KINE 380: *Exercise Prescription and Programming for Special Populations.* 3 credits.
Provides the study of the pathophysiology of common diseases and conditions with concentration in the design and implementation of exercise programs. Offered by School of Kinesiology. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (KINE 200[C] or 200[XS]) and (KINE 310[C] or 310[XS]) and (KINE 330[C] or 330[XS]) and (KINE 350[C] or 350[XS]) and (KINE 370[C] or 370[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

KINE 400: *Biomechanics.* 3 credits.
Focuses on kinetic and kinematic concepts and how they apply to the quantitative assessment of human movement. Analyzes human movement and the functional dynamics of tissue such as muscle or bone. Offered by School of Kinesiology. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (BIOL 124[C] or 124[XS]) and (BIOL 125[C] or 125[XS]) and (KINE 360[C] or 360[XS]) and (ATEP 300[C] or 300[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

KINE 410: *Exercise Physiology II.* 3 credits.
Provides study in the advanced theory of exercise physiology. Knowledge related to the physiologic, neuroendocrine, and biochemical changes of the human body associated with both a single bout of exercise and chronic exercise training will be addressed. Offered by School of Kinesiology. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (BIOL 124[C] or 124[XS]) and (BIOL 125[C] or 125[XS]) and (KINE 310[C] or 310[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

KINE 420: *Sport and Exercise Nutrition.* 3 credits.
Explores the fundamental biochemical and physiological rationale for optimal nutrient intake for health, physical fitness, and athletic performance. Specific attention is focused upon the relationship nutrition has with exercise, physical fitness, health, and athletic performance. Offered by School of Kinesiology. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (KINE 310[C] or 310[XS]) and (KINE 320[C] or 320[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

KINE 441: *Kinesiology Internship II.* 3 credits.
Provides a supervised professional experience in two separate approved kinesiology professional settings under the supervision of both a University Supervisor and an Agency Supervisor with emphasis placed upon exercise programming and implementation for both clinical (site 1) and performance (site 2) populations. Current CPR, AED, and First Aid Certification required. Offered by School of Kinesiology. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (KINE 341[C] or 341[XS]) and (KINE 360[C] or 360[XS]) and (KINE 380[C] or 380[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Special scale.

KINE 450: *Research Methods.* 3 credits.
Covers the development of empirical research designs for both practical and theoretical problems in allied health fields such as kinesiology, therapeutic recreation, and athletic training. Includes literature review of hypothesized relationships, and formulation of research proposals. Offered by School of Kinesiology. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: (STAT 250[C], 250[XS], SOCI 313[C], 313[XS], EDRS 220[C] or 220[XS]) and (ENGH 302[C] or 302[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

KINE 490: *Kinesiology Internship III.* 12 credits.
Provides a directed, field-based experience, in which students observe and participate in conditions, practices, and settings where sought career roles are conducted. The kinesiology fieldwork coordinator must approve placement for the practicum. Both a University supervisor and an approved agency supervisor with recognized professional certifications coordinate and oversee the student's internship experience. Current CPR, AED, and First Aid Certification required. Offered by School of Kinesiology. Limited to three attempts.

Mason Core: Capstone

Registration Restrictions:
Required Prerequisites: (KINE 330[C] or 330[XS]) and (KINE 341[C] or 341[XS]) and (KINE 400[C] or 400[XS]) and (KINE 410[C] or 410[XS]) and (KINE 420[C] or 420[XS]) and (KINE 441[C] or 441[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman, Junior or Sophomore may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

KINE 499: *Independent Study in Kinesiology.* 1-3 credits.
Study of a topic regarding theory, research, or practice in kinesiology under the direction of a faculty member. May be repeated, but no more than 3 total credits hours may be earned. Offered by School of Kinesiology. May be repeated within the degree for a maximum 3 credits.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

KINE 500: *Special Topics.* 1-6 credits.
Studies selected topics in the field of Kinesiology. Offered by School of Kinesiology. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Admission to the Kinesiology MS graduate program or approval of course instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

KINE 501: *Independent Study.* 1-3 credits.
Studies problem areas in Kinesiology research, theory, or practice under direction of faculty member. Offered by School of Kinesiology. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Admission to the Kinesiology MS graduate program or approval of course instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

KINE 506: *Exercise Psychology.* 3 credits.
Covers psychological and social-psychological antecedents and consequences of exercise, physical activity, and sports participation. Emphasizes theory and research on personality, motivation, arousal, cognition, attributions, attitudes, self-efficacy, leadership effectiveness, and group dynamics. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

KINE 600: *Scientific Foundation of Applied Kinesiology.* 3 credits.
Examines the sub-fields of Kinesiology and the scientific practice of studying current issues related to physical activity, movement and health. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

KINE 601: *Advanced Exercise Physiology.* 3 credits.
Explores in-depth topics on the effects of physical activity on physiological function. Includes the examination of exercise physiology concepts through analysis of research publications. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

KINE 602: *Movement and Fitness Assessment.* 3 credits.
Covers common movement and fitness assessments that can be used to develop an individualized exercise program for various populations across the lifespan and ability level. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

KINE 603: *Applied Biomechanics.* 3 credits.
Examines biomechanical theory and the application of mechanics to understand human movement across the lifespan and ability level. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

KINE 604: *Motor Control and Learning.* 3 credits.
Appraisal of motor learning theory and the neuromuscular system as it relates to human movement across the lifespan. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

KINE 605: *Research Methods in Kinesiology.* 3 credits.
Introduces research methodology utilized in the field of Kinesiology to address important health issues related to physical activity across the lifespan. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

KINE 606: *Applied Sport and Exercise Nutrition.* 3 credits.
Advanced study of nutrition's relation to physical activity, exercise, and sports. Reviews biochemical, physiological, and behavioral aspects of nutrition in promoting health, fitness, and sports performance. Focuses on nutrient needs during life cycle stages. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

KINE 607: *Exercise Programming: Movement Selection and Progression.* 3 credits.
Explores how to develop individualized exercise programs based on fitness assessment data, lifestyle, client goals and preferences. Emphasizes movement selection and progression with regards to the individual's movement capabilities. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

KINE 608: *Data Science in Kinesiology.* 3 credits.
Introduction to practical and applied aspects of both descriptive and inferential statistics in kinesiology. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

KINE 609: *Applied Strength and Conditioning Programming.* 3 credits.
Analyzes exercise techniques, training program designs, organization and administration, and testing and evaluation using scientific principles of strength and conditioning. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

KINE 610: *Corrective and Preventative Exercise Techniques.* 3 credits.
Explores evidence-based exercise interventions to correct and prevent common movement dysfunctions and/or injuries in a variety of populations. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Graduate Certificate or Master of Science degrees.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

KINE 615: *Advanced Technology to Measure Human Movement.* 3 credits.
Explores common methods of measuring human movement and performance in Kinesiology. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

KINE 798: *Directed Inquiry.* 3 credits.
Studies problem areas in Kinesiology research, theory, or practice under direction of faculty member. Offered by School of Kinesiology. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

KINE 799: *Thesis.* 1-6 credits.
Explores a problem in the field of Kinesiology using appropriate research methodology and under the supervision of graduate faculty member. Offered by School of Kinesiology. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Completion of all coursework.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

KINE 890: *Research Experience I.* 6 credits.
Engages student in advanced literature review development, research design, evaluation methods and statistical applications in Kinesiology. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

KINE 891: *Research Experience II.* 3 credits.
Engages student in advanced data collection, management, analysis and interpretation to develop a scholarly product. Prepares students for dissertation proposal in Kinesiology. Offered by School of Kinesiology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

KINE 897: *Independent Study.* 3,6 credits.
Structured learning experience to extend and develop skills and knowledge relative to the field of Kinesiology. Offered by School of Kinesiology. May be repeated within the term for a maximum 9 credits.

Registration Restrictions:

Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

KINE 998: *Doctoral Dissertation Proposal.* 1-6 credits.
Provides information and support for students as they develop their dissertation proposal. Note: May be repeated, but no more than 6 credits of KINE 998 may satisfy doctoral degree requirements. Offered by School of Kinesiology. May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: Admission to candidacy in PhD program and successful completion of doctoral qualifying exam.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

KINE 999: *Doctoral Dissertation Research.* 1-12 credits.
Focuses on doctoral dissertation research under direction of dissertation chair and committee members and initiation of projects stemming from student research. Offered by School of Kinesiology. May be repeated within the degree.

Recommended Prerequisite: Faculty approval of dissertation proposal.

Registration Restrictions:
Required Prerequisite: KINE 998.

Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Korean (KORE)

100 Level Courses

KORE 101: *Intro to the Korean Language.* 3 credits.
Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to KORE 102, KORE 110.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Korean

KORE 102: *Intro to the Korean Language.* 3 credits.
Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to KORE 101, KORE 110.

Recommended Prerequisite: KORE 101 and 102 must be taken in sequence.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Korean

KORE 110: *Elementary Korean.* 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to KORE 101, KORE 102.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Korean

200 Level Courses

KORE 201: *Intermediate Korean I.* 3 credits.
Continuation of basic Korean listening, speaking, reading, and writing skills. Online and lab work required. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: KORE 102, KORE 110, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Korean

KORE 202: *Intermediate Korean II.* 3 credits.
Continuation of KORE 201. Online and lab work required. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: KORE 201, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Fulfills Frgn Lng requirment, Taught in Korean

300 Level Courses

KORE 300: *Korean Culture and Society.* 3 credits.
Provides a broad overview of Korean people, society, and culture, mainly focusing on basic culture codes. Starting from the ways of Korean people's interaction, the course explores distinctive features of expression such as joy, excitement, sadness, frustration, and anger. Various authentic materials and course books will offer the framework for students to understand unique Korean cultural phenomena and their

sociohistorical background. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

KORE 301: *Advanced Korean Language and Culture.* 3 credits.
Develops advanced level Korean language skills and cultural awareness in interpersonal, interpretive, and presentational modes of communication. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: KORE 202; appropriate placement score; or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Korean

KORE 305: *Business Korean.* 3 credits.
Develops intermediate- to high- level Korean reading, writing, listening and speaking skills while increasing culture awareness in Korean business settings through authentic materials and hands-on projects with people in the Korean business community. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: KORE 202, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Korean

KORE 310: *Traditional Korean Literature in Translation.* 3 credits.
Develops students' advanced knowledge of traditional Korean literature and culture through exploration of pre-modern Korean literary texts (those written before 1900). Students will gain a fundamental understanding of Korean literature and culture and gain a deeper perspective on Korean cultural products by reading traditional Korean literary genres and learning about their social, historical, and cultural backgrounds. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: ENGH 101; or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

KORE 311: *Modern Korean Literature in Translation.* 3 credits.
Offers an overview of South Korean literature in the twentieth and twenty-first century. Examines the literary representations of modern Korean histories and investigates the origins and evolvement of modern Korean literary genres. Offered by Modern & Classical Languages. Limited to three attempts.

Mason Core: Literature

Recommended Prerequisite: ENGH 101; appropriate placement score; or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

KORE 320: *Korean Popular Culture in a Global World.* 3 credits.
Develops students' critical understanding of transnational and global perspectives of culture flow using various cultural products and art forms of Korea. Provides students with the understanding of the histories and social contexts of Korean popular culture. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

KORE 321: *Korean Proficiency through Visual Culture.* 3 credits.
Develops Intermediate-high level Korean reading, writing, listening, and speaking skills while increasing understanding of Korean culture through authentic Korean visual culture such as films, TV dramas, commercials, and music videos. Students who complete the course will gain an understanding of local and global Korean visual culture as well as acquire upper level Korean linguistic proficiency. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: KORE 202, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Korean

KORE 325: *Major North and South Korean Writers.* 3 credits.
Introduces students to major contemporary and twentieth-century Korean writers from both South and North Korea. Students acquire a balanced knowledge about North and South Korea's representative writers and their influential literary texts along with sociohistorical backgrounds of each society. Offered by Modern & Classical Languages. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: ENGH 101; appropriate placement score; or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

KORE 331: *Special Topics in Advanced Korean Reading.* 3 credits.
This course introduces students to advanced-level reading materials. Topics will vary. This course is designed for students who have a high-

intermediate level of Korean proficiency and the goal for this course is developing advanced level Korean proficiency, literacy, and acquiring sociohistorical knowledge of Korean society. Offered by Modern & Classical Languages. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: KORE 202; appropriate placement score; or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Korean

KORE 332: *Special Topics in Advanced Korean Speaking.* 3 credits.
Introduces students to advanced-level materials to improve proficiency in speaking. Topics will vary. This course is designed for students who have a high-intermediate level of Korean proficiency and the goal for this course is developing advanced level Korean proficiency in speaking, public speaking, presentation skills and acquiring social-cultural knowledge of contemporary Korean society. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: KORE 202; appropriate placement score; or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Korean

KORE 340: *Transformation of Language and Culture in North and South Korea.* 3 credits.
Develops advanced level North and South Korean reading, writing, listening, and speaking skills and increases culture awareness through authentic Korean visual culture. Distinguishes cross-linguistic and cross-cultural differences of North and South Korean language and culture and develops advanced level Korean linguistic proficiency. Offered by Modern & Classical Languages. Limited to three attempts.

Specialized Designation: Topic Varies

Registration Restrictions:
Required Prerequisites: KORE 202[C], 202[XS] or 250[C].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Korean

KORE 370: *Advanced Korean Writing.* 3 credits.
This course is designed to develop students' advanced level Korean writing skills. Students will learn technical, formal, and stylistic writing useful for document preparation and a various professional setting. Offered by Modern & Classical Languages. Limited to three attempts.

Specialized Designation: Topic Varies, Writing Intensive in Major

Recommended Prerequisite: KORE 202; appropriate placement score; or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Korean

KORE 385: *Introduction to Korean Linguistics.* 3 credits.
Introduces the study of Korean linguistics, including phonetics, phonology, morphology, syntax, semantics, pragmatics as well as its variation and change. Combines the discussion of theoretical issues with the empirical analysis of the Korean language. Offered by Modern & Classical Languages. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

KORE 410: *Special Topics in Korean Linguistics.* 3 credits.
Explores a selected theme in Korean linguistics with a focus on its lexicology, sound system, and language variation. Combines discussion of theoretical issues with the empirical analysis of Korean. Offered by Modern & Classical Languages. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: KORE 202 or equivalent; appropriate placement score; or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Korean

KORE 440: *Special Topics in Translation of Korean.* 3 credits.
The objective of this course is introducing basic theories and practices of translation and developing students' professional translation skills using various authentic Korean media texts or literary texts. Students will learn to apply text identification, text analysis, and resolve translation issues while they are practicing translating Korean texts into English. Offered by Modern & Classical Languages. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 300 level KORE course conducted in Korean; appropriate placement score; or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Korean

KORE 450: *Korean Cultural Studies.* 3 credits.
Explores histories and contemporary applications of Korean cultural studies and cultural analyses, including cultural production and consumption in domestic and transnational scopes, reception and fandom, semiotics, postcolonial and postmodern theory, visual and media studies, and quantitative and qualitative methods. Students consider representative Korean cultural products, and also learn about the Western development of Cultural Studies. Offered by Modern & Classical Languages. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 300 level KORE course conducted in Korean; appropriate placement score; permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Korean

KORE 490: *Internship in Korean Studies.* 1-9 credits.
On-the-job training using Korean language in diverse settings through approved internship placements. Note: See department for the application process. Offered by Modern & Classical Languages. May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: KORE 202 and one KORE 300-level core course

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Korean

Latin (LATN)

100 Level Courses

LATN 101: *Elementary Latin.* 3 credits.
Introduction including basic grammar, vocabulary, and development of reading skills, and introduction to Roman civilization. Notes: Must be taken in sequence. Offered by Modern & Classical Languages. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

LATN 102: *Elementary Latin.* 3 credits.
Introduction including basic grammar, vocabulary, and development of reading skills, and introduction to Roman civilization. Notes: Must be taken in sequence. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: LATN 101.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

LATN 201: *Intermediate Latin I.* 3 credits.
Intensive review of elementary grammar. Introduces more advanced grammatical constructions and patterns of usage, continued development of reading proficiency, and vocabulary and readings in Latin literature. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: LATN 102 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

LATN 202: *Intermediate Latin II.* 3 credits.
Study of advanced grammatical constructions, vocabulary, and patterns of usage. Reading of selections from Roman authors of late Republic and early Empire, and study of cultural and political backgrounds. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: LATN 201 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Fulfills Frgn Lng requirment

300 Level Courses

LATN 351: *Roman Prose Literature.* 3 credits.
Introduces major work of prose, themes, and literary qualities. Emphasizes interpretation and stylistic analysis. Concentrates on one complete work; topics, authors vary. Notes: Readings in Latin. May be repeated when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: LATN 202 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

LATN 352: *Roman Poetry.* 3 credits.
Introduces major work of poetry and themes, meters, and poetic techniques. Emphasizes interpretation, metrical and stylistic analysis, and poet's role in society. Topics and authors vary. Notes: Readings in Latin. May be repeated when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: LATN 202 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

LATN 451: *Studies in Roman Literature.* 3 credits.
Focuses on a single Latin author or literary genre. Approaches subject from variety of interpretive perspectives, and uses secondary literature as

well as primary texts. Topics and authors vary. Notes: Readings in Latin. May be repeated when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: LATN 351/352 or equivalent or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

LATN 452: *Studies in Roman Literature.* 3 credits.
Focuses on a single Latin author or literary genre. Approaches subject from variety of interpretive perspectives, and uses secondary literature as well as primary texts. Topics and authors vary. Notes: Readings in Latin. May be repeated when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: LATN 351, 352 or equivalent or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Latin American Studies (LAS)

400 Level Courses

LAS 499: *Research Seminar in Latin American Studies.* 3 credits.
Research on specialized topic in Latin American Studies culminating in substantial paper and oral presentation. Students expected to integrate knowledge and skills acquired in Mason Core courses. Notes: Must receive passing grade to graduate with a BA in Latin American studies. Offered by Humanities & Social Sciences. Limited to three attempts.

Mason Core: Synthesis

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: 90 credits

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

Linguistics (LING)

100 Level Courses

LING 100: *Human Language.* 3 credits.
Introduces students to human language, the fundamental role it plays in human communities and interactions, and its complex, systematic inner workings. Dispels common myths about language and ask questions such as: How do babies learn language? Do animals have language? Can humans invent languages? What is a dialect? How do languages differ and change? Offered by English. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

LING 306: *General Linguistics.* 3 credits.
Overview of grammatical structure of English including world classes, phrases, and complex sentences. Analyzes English grammar using modern syntactic theory. Students engage in language description through problem solving. Offered by English. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

LING 307: *English Grammar.* 3 credits.
Overview of grammatical structure of English including word classes, phrases, and complex sentences. Analyzes English grammar using modern syntactic theory. Students engage in language description through problem solving. Offered by English. Limited to three attempts. Equivalent to ENGH 307.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

LING 450: *Introduction to Sociolinguistics.* 3 credits.
Overview of the study of language variation and change. Topics to be covered include the interaction between language and social factors (age, sex, social class), dialects of English, speech communities, language contact, and language and gender. Offered by English. Limited to three attempts.

Recommended Prerequisite: LING 306.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

LING 480: *RS: First Language Acquisition.* 3 credits.
Examines first language acquisition from a linguistic perspective. Covers the development of a first phonology, syntax, and semantics. Emphasizes research methods in the study of child language. Offered by English. Limited to three attempts.

Mason Core: Capstone

Specialized Designation: Research/Scholarship Intensive

Registration Restrictions:
Required Prerequisites: (LING 306[C] or 306[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

LING 485: *Semantics and Pragmatics.* 3 credits.
Developments in theoretical linguistics that explore how language form is related to meaning and context. Topics include reference, lexical

semantics, logic, quantification, truth conditions and sentential meaning, presuppositions, and speech acts. Offered by English. Limited to three attempts.

Recommended Prerequisite: LING 306.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

LING 486: *Syntax I.* 3 credits.
Nature and form of syntactic theory, and examination and analysis of the properties of several major natural language syntactic structures. Offered by English. Limited to three attempts.

Recommended Prerequisite: LING 306.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

LING 490: *Generative Phonology.* 3 credits.
Sound systems of English and other languages from perspectives of phonological theory. Topics include articulatory phonetics, distinctive features, nature of phonological representations, rhythm and stress, and phonological universals and constraints. Offered by English. Limited to three attempts.

Recommended Prerequisite: LING 306.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

LING 499: *Independent Study.* 1-3 credits.
Intensive study of particular theoretical problem in linguistics conducted by student in close consultation with instructor. Student produces substantial piece of written work on research findings. Notes: May be repeated with permission of instructor. Offered by English. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: LING 326 and 3 other LING credits and permission of instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

LING 507: *Field Work in Applied Linguistics.* 3 credits.
Field work providing working experience in language-teaching program or educational research organization. Notes: Contact the department one semester prior to enrollment. Offered by English. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: LING 326, 520, 521, or 582.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 520: *Introduction to Linguistics.* 3 credits.
Introduces terminology and methodology of modern linguistic science, and detailed structural analysis of English phonology, morphology, and syntax. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 521: *Applied Linguistics: Teaching English to Speakers of Other Languages (TESOL).* 3 credits.
Theories and basic principles of teaching a second language, especially as they relate to English language. Introduces students to methods of teaching English to speakers of other languages. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 690 or LING 687

Registration Restrictions:
Required Prerequisites: (LING 520[B-] or 520[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 522: *English Grammar and Pedagogy.* 3 credits.
Overview of structure of modern English, and of principles of grammar pedagogy. Begins with word classes and ends with analyses of complex sentences. Students learn to tap intuitions about English for analysis of grammatical structure, and to evaluate pedagogical strategies for teaching English. Offered by English. May not be repeated for credit.

Recommended Prerequisite: One linguistics course or permission of instructor.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 523: *English Pronunciation and Pedagogy.* 3 credits.
Description and analysis of sound system of modern English, and principles and strategies for teaching speaking and listening. Topics include segmental phonetics, syllable structure, connected speech, and prosodic phenomena. Offered by English. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (LING 520[B-] or 520[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 525: *Practicum in ESL.* 3 credits.
Involves preparation and presentation of lessons to adult English as second language (ESL) learners under guidance of mentor teacher and practicum professor. Field experience consists of observation and teaching in assigned ESL classroom. Offered by English. May not be repeated for credit. Equivalent to LING 625.

Recommended Prerequisite: LING 521.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

LING 534: *Historical Studies of the English Language.* 3 credits.
Either a chronological survey of development of English from Old and Middle English to Modern English and American English, taking into account historical changes in phonology, morphology, syntax, and semantics. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 570: *Computational and Quantitative Methods.* 3 credits.
Introduces programming and quantitative language data analysis. Builds fundamental skills in computational tools such as Python and R. Notes: This course assumes no background in coding. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 520 or equivalent

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 580: *First Language Acquisition.* 3 credits.
Examines first language acquisition from a linguistic perspective. Covers the development of a first phonology, syntax, and semantics. Methodology in studying child language is discussed. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 520 or one of the following: LING 690, 786, 785 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 581: *Psycholinguistics.* 3 credits.
Study of the psychological aspects of human language. Explores the processes that allow humans to produce and comprehend language, including speech, sign, and writing. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 520, 690, or 786; or permission of instructor.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 582: *Second Language Acquisition.* 3 credits.
Examines second language (L2) acquisition from linguistic perspective. Compares first and second language acquisition. Explores factors contributing to L2 variation, including linguistic universals, transfer, age, input, and affective considerations. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 306, 520, 690, or 786; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

LING 625: *Practicum in TESOL.* 3 credits.
Involves preparation and presentation of lessons to adult English learners under guidance of mentor teacher and practicum professor. Field experience consists of observation and teaching in assigned classroom. Offered by English. May not be repeated for credit. Equivalent to LING 525.

Recommended Prerequisite: LING 522, LING 523

Registration Restrictions:
Required Prerequisites: LING 521[B-] or 521[XS].
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

LING 650: *Introduction to Sociolinguistics.* 3 credits.
An overview of the study of language variation and change. Topics to be covered include the interaction between language and social factors (age, sex, social class), dialects of English, speech communities, language contact, and language and gender. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 520, 523, or 690.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 675: *Computational Linguistics I.* 3 credits.
Introduction to the central questions and techniques of Natural Language Processing and Computational Linguistics. Topics include language modeling, part of speech tagging, estimating linguistic complexity, and comparison of human and machine learning. Offered by English. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (LING 570[B-] or 570[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 685: *Typology.* 3 credits.
Overview of typological traditions describing the scope of diversity and similarity across languages. Topics include classical and contemporary approaches to human language typology and the place of human language in the broader typology of communication systems. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 689 and LING 687

Registration Restrictions:
Required Prerequisites: (LING 520[B-] or 520[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

LING 686: *Special Topics in Linguistics.* 3 credits.
Detailed advanced study of selected area of linguistics. Notes: Content varies. May be repeated for credit with permission of department. Offered by English. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 687: *Syntax I.* 3 credits.
Introduction to the nature and form of syntactic theory including major concepts, phenomena, and techniques for analysis. Examines and analyzes properties of natural language syntactic structures. Offered by English. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (LING 520[B-] or 520[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 688: *Semantics and Pragmatics I.* 3 credits.
Developments in theoretical linguistics that explore how language form relates to meaning and context. Topics include reference, lexical semantics, logic, quantification, truth conditions and sentential meaning, presuppositions, and speech acts. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 520, LING 690, or LING 687; or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 689: *Morphology.* 3 credits.
Explores word-level patterns of variation in language. Overview of current approaches to morphology, morphological variation in world languages, and the dominant descriptive and theoretical models of this variation. Connections to typology, psycholinguistics, and computational approaches are discussed. Offered by English. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (LING 520[B-] or 520[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 690: *Phonology I.* 3 credits.
Sound systems of languages from the perspective of phonological theory. Topics include distinctive features, nature of phonological representations and processes, rule interaction, and universal constraints. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 520 or equivalent

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 691: *Theories of Language.* 3 credits.
Seminar in linguistic metatheory. Examines wide range of theories about language and linguistic theory, including those of Saussure, Bloomfield, Chomsky, and others. Readings from original sources. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 520, 690, or 786; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 692: *Phonology II.* 3 credits.
Recent trends in phonological theory. Topics include stress assignment, tone spreading, and vowel harmony, from within nonlinear framework.

Discusses segmental structure and underspecification. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 690.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 693: *Phonetics.* 3 credits.
Introduction to phonetic theory and phonetic representation, including articulatory, acoustic and perceptual characteristics of human speech. Students will learn and practice acoustic analysis, perceptual testing, production and transcription of speech sounds from the world's languages. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 520 or equivalent

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

LING 770: *Research Methods.* 3 credits.
Conceptualizing and conducting second language research, including process of developing research questions, gathering data, obtaining permission from institutional review board, choosing data collection measures, and coding linguistic and nonlinguistic data. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 690 or LING 785 or LING 786, and LING 582, or permission of the instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 775: *Computational Linguistics II.* 3 credits.
Practical introduction to automated data collection and using linguistic resources for computational and quantitative data analysis. Topics include existing resources, licensing and data sharing issues, ethical considerations, and the speed, consistency and precision issues that arise when collecting linguistic data from a variety of corpora. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 689

Registration Restrictions:
Required Prerequisites: (LING 675[B-] or 675[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 782: *Second Language Acquisition II.* 3 credits.
Advanced course in second-language acquisition theory. Detailed analysis of internal and external constraints. Variation addressed from linguistic, psychological, and environmental perspectives. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 582 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 785: *Semantics and Pragmatics.* 3 credits.
Developments in theoretical linguistics that explore how language form relates to meaning and context. Topics include reference, lexical semantics, logic, quantification, truth conditions and sentential meaning, presuppositions, and speech acts. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 520, 690, or 786; or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 786: *Syntax I.* 3 credits.
Nature and form of syntactic theory. Examines and analyzes properties of several major natural language syntactic structures. Offered by English. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 787: *Syntax II.* 3 credits.
Theoretical treatment of syntactic phenomena that have emerged as standard problems for syntactic analysis. Problems include binding, extraction, and quantification. Extensive reading in primary theoretical literature. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 786.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 788: *Semantics and Pragmatics II.* 3 credits.
Advanced course in semantic and pragmatic theory. Study of meaning under truth-conditional, model-theoretic framework explored and related to syntax and pragmatics. Offered by English. May not be repeated for credit.

Recommended Prerequisite: LING 785 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 790: *Phonology II.* 3 credits.
Recent trends in phonological theory. Topics include laboratory methods, exceptional language sources, and constraint-based theories. Offered by English. May not be repeated for credit.

Recommended Corequisite: LING 690

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

LING 798: *Directed Reading and Research.* 1-3 credits.
Reading, research, and writing on specific project under direction of departmental member. Notes: Open only to students who have completed at least 18 credits of LING courses. Prior approval by faculty member required. Written report required. May be repeated with permission of director. Offered by English. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 18 credits of linguistics courses.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Graduate Special scale.

LING 799: *Thesis.* 1-6 credits.
Students who take LING 798 to develop thesis topic and then elect thesis option receive 3 credits after completing thesis. Students who do not take LING 798, or who take it to work on project unrelated to thesis, receive up to 6 credits after completing thesis. Offered by English. May be repeated within the degree.

Recommended Prerequisite: Open only to students who have completed at least 18 credits of LING courses.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

LING 882: *Seminar in Language Acquisition.* 3 credits.
Advanced topics seminar in current language acquisition theory. Notes: Topics vary. Offered by English. May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: LING 782 or permission of the instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

LING 886: *Advanced Syntax Seminar.* 3 credits.
Advanced course in current syntactic theory. Notes: Topics vary. Offered by English. May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: LING 786, LING 787, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

LING 887: *Advanced Syntax Seminar.* 3 credits.
Advanced course in current syntactic theory. Notes: Topics vary. Offered by English. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Required Prerequisites: ((LING 786[B-] or 786[XS]) and (LING 787[B-] or 787[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

LING 890: *Advanced Phonology Seminar.* 3 credits.
Advanced topics seminar in current phonological theory. Notes: Topics vary. Offered by English. May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: LING 692 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

LING 897: *Independent study.* 3 credits.
Independent reading on a topic agreed on by student and faculty member. Offered by English. May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: PhD rank or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

LING 898: *Advanced Qualifying Seminar.* 3 credits.
Work on PhD qualifying paper. Offered by English. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Completion of 33 credits of core courses in linguistics.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

LING 998: *Doctoral Dissertation Proposal.* 1-6 credits.
Work on research proposal that forms basis for the doctoral dissertation. Offered by English. May be repeated within the degree.

Recommended Prerequisite: Advancement to candidacy.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

LING 999: *Doctoral Dissertation.* 1-12 credits.
Doctoral dissertation research and writing under direction of student's dissertation committee. Offered by English. May be repeated within the degree.

Recommended Prerequisite: LING 998.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Management (MGMT)

300 Level Courses

MGMT 303: *Principles of Management.* 3 credits.
Examines managerial work under range of business models. Managerial functions and activities including planning, organizing, balancing conflicting demands, leading and controlling are examined in depth and in context of current organizational examples. Discuss variety of pressures contemporary managers face. Notes: Students cannot receive credit for both MGMT 301 and MGMT 303.School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MGMT 303. the third attempt requires School of Business academic advisor approval. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see Academic Policies. Offered by School of Business. Limited to two attempts.

Recommended Prerequisite: BUS 103 and BUS 200.

Registration Restrictions:
Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 313: *Organizational Behavior.* 3 credits.
Course expands management knowledge through defined focus on organizational behavior (OB). OB is field of study aimed at predicting, explaining, understanding and changing human behavior as it's reflected in organizations. Science of OB is interdisciplinary in nature and draws from psychology, sociology, social psychology, and group dynamics. Course explores dynamics between individual and organization through this behavioral science lens. Notes: Students cannot receive credit for both MGMT 301 and MGMT 313. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: MGMT 303[C], 303[XS], L303 or 303T.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 321: *Introduction to Human Resource Management.* 3 credits.
The field of human resource management examines what can or should be done to make workers more productive and satisfied. The course builds on MGMT 303 by introducing key concepts and techniques that managers need to attract, retain, develop, compensate, and motivate quality talent. Also emphasizes legal and ethical considerations in human resource management. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Specialized Designation: Mason Impact.

Registration Restrictions:
Required Prerequisites: MGMT 301[C], L301, 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

MGMT 412: *Diversity in Organizations.* 3 credits.
Builds on MGMT 303 by emphasizing intrapersonal, interpersonal, organizational, and societal phenomena relevant to issues of diversity. Examines phenomena and processes in general and with regard to specific dimensions such as gender, race, and ability. Designed to increase students' knowledge of diversity in organizations, understanding of others' perspectives, and ability to work well with people who differ from themselves. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Specialized Designation: Mason Impact.

Registration Restrictions:
Required Prerequisites: MGMT 301[C], L301, 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 413: *Organizational Development and Management Consulting.* 3 credits.
Introduces theory and practice of organization development. Assumes some basic knowledge of organizational behavior, and addresses how to use knowledge about organizations to change them. Focuses on ways of understanding organizations with attention to theoretical underpinnings of field and diagnostic models, and processes for entering organizations. Later sessions focus on contracting, data collection, organizational diagnosis, data feedback, and change technologies. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MGMT 301[C], L301, 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 421: *Advanced Human Resource Management.* 3 credits.
Builds on MGMT 321 by using a case-based approach to deepen understanding of HRM practices. Students conduct projects requiring application of strategic HR processes. Includes discussion of advanced topics not thoroughly covered in MGMT 321. Relevant for management majors, particularly those seeking a human resource management career. Helps prepare for SHRM Professional in Human Resources certification exam. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MGMT 301[C], L301, L303, 303[XS] or 303[C]) and (MGMT 321[C] or 321[XS]).
[C] Requires minimum grade of C.

XS Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 431: *The Legal Environment for Employee and Labor Relations.* 3 credits.
Examines the legal aspects of employee and labor relations from a managerial perspective. Topics include the employment at will doctrine; wrongful discharge; federal and state employment discrimination legislation; and regulation of employee welfare. Includes lectures, cases, and readings. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: BULE 302C, L302, 303C, L303 or 303XS.
C Requires minimum grade of C.
XS Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 441: *International Strategy.* 3 credits.
Course focuses on seven inter-related pillars underpinning international strategy and these areas are: global environment and marketplace, global competitiveness and manufacturing including role of USA, global macroeconomics and financial infrastructure, global management approaches and management of transnational firms, new forces that shape global strategy, and globalization lessons learned and its limitations. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MGMT 301C, 303C, L301, L303, 301T, 303T or 303XS.
C Requires minimum grade of C.
XS Requires minimum grade of XS.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 451: *Introduction to Entrepreneurship.* 3 credits.
Provides students an introduction to key concepts, methods, and frameworks of innovation and entrepreneurship. The experiential component of the course will be supplemented by readings, written work and presentations, and classroom discussion. The course will explore and explain the importance of entrepreneurship, entrepreneurs, and their firms in addition to allowing students to experiment with various entrepreneurial concepts and activities. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MGMT 301C, L301, 303C, L303 or 303XS.
C Requires minimum grade of C.
XS Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 452: *Experiential Entrepreneurship.* 3 credits.
Provides students opportunity to experience entrepreneurship at advanced level through hands on development of a new firm, product or service. Students identify an innovative opportunity to work on or will work with local startup or organization developing innovative new product or service. Focuses on opportunity recognition and execution and introduces students to day to day experience of innovators and entrepreneurs. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MGMT 451C, 451XS, MBUS 304C, 304XS or MGMT L451.
C Requires minimum grade of C.
XS Requires minimum grade of XS.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 453: *Starting a Business.* 3 credits.
Examines the paths to small business ownership, including starting an enterprise or purchasing an existing business. Focus will be on franchising and licensing, as well as family-run enterprises. Students will gain a broad understanding of location choice, facilities and layout, in addition to the legal issues associated with small business creation. Harvesting and exiting options will also be explored. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MGMT 301C, L301C, 303C, L303C, 303XS, MBUS 304C or 304XS.

[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 454: *Social Impact and Entrepreneurship.* 3 credits.
This course takes a business-oriented multidisciplinary case study approach to exploring the growing field of social innovation and enterprise: that is, the course investigates the historical context of social entrepreneurship, methods and models of social enterprises, marketing social innovation, limits of market-based models, skills needed to tackle wicked problems, and quantitative methods for assessing and measuring impact. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Specialized Designation: Mason Impact.

Registration Restrictions:
Required Prerequisites: MGMT 301[C], 303[C], 303[XS], MBUS 304[C] or 304[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 461: *Cross Cultural and Global Management.* 3 credits.
Explores theory and practice of managing culturally diverse organizations in domestic and international contexts. Topics include management customs and practices in different world regions, cross-cultural communication and learning, and the developing culturally and internationally sophisticated employees and managers. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MGMT 301[C], L301, 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 462: *Honors Seminar in Management (Topic Varies).* 3 credits.
Topic and format vary. In-depth study of topic of interest to managers and organizations. Notes: Enrollment limited and competitive. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Specialized Designation: Topic Varies

Recommended Prerequisite: Invitation of professor.

Registration Restrictions:
Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 463: *Negotiations in Organizations.* 3 credits.
Focuses on theory, processes, and practice of negotiation within and across organizations, including attention to ethical issues. Explores systematic ways to increase quality of negotiated agreements, including methods of preparation and use of rational assumption, bidding and decision criteria. Format includes negotiation exercises, lecture, and discussion. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MGMT 301[C], L301, 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 464: *Teamwork and Interpersonal Skills.* 3 credits.
Focuses on intensive development of high professional-level skill set for collaboration and leadership in contemporary environments. Builds on content introduced in MGMT 303. Attention to developing personal leadership capabilities, collaborating in traditional and virtual environments, improving group processes, project management, tolerating ambiguity, improving communication, creative problem solving, time management, coaching, and empowering employees. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MGMT 301[C], L301, 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 471: *Competitive Strategy.* 3 credits.
Explores industry structures and competitive behavior of firms. Attention to how firm uses tangible, intangible, and human resources to develop sustainable competitive advantage, and how competitors interact in marketplace. Introduces tools and concepts to analyze industry dynamics and competitive interactions of firms in these industries. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MGMT 301[C], L301, 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 491: *Current Topics in Management.* 3 credits.
Advanced study of management concepts and selected topics. Incorporates intensive analysis of management problems of long-term strategic significance or current urgency for organizational planning and operations. Includes significant contemporary research findings. Offered by School of Business. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Required Prerequisites: MGMT 312[C], 313[C], L312, L313 or 313[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 492: *Internship in Management.* 3 credits.
Opportunity to gain practical, professional experience in conjunction with academic development. An internship is an important part of academic and career preparation. May be used as elective credit, but may not be repeated. Notes: No more than 6 credits of School of Business internship coursework (BUS 492 or MGMT 492) can be applied towards a student's 120 (BU) degree applicable credits. Students must receive departmental approval in order to register for this course; please contact the School of Business Office of Career Services for internal eligibility requirements. Offered by School of Business. May be repeated within the degree for a maximum 6 credits. Equivalent to ACCT 492, BUS 492, FNAN 492, MIS 492, MKTG 492, OM 492, OSCM 492.

Recommended Prerequisite: 75 credit hours

Registration Restrictions:
Required Prerequisites: MGMT 301[B-] or 303[B-].
[B-] Requires minimum grade of B-.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

MGMT 499: *Independent Study.* 1-3 credits.
Research and analysis of selected problems or topics in management must be arranged with instructor and approved in writing by associate dean for undergraduate programs. Notes: Written report required. Offered by School of Business. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Management majors with at least 9 upper-level management credit hours.

Registration Restrictions:
Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree or Washington Consortium level students may **not** enroll.

Students with the Ineligible to take MGMT crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

700 Level Courses

MGMT 711: *Seminar in Organizational Behavior.* 3 credits.
This course is designed to expose doctoral students to a broad foundation in organizational behavior research. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MGMT 712: *Seminar in Strategic Management.* 3 credits.
This course is designed to expose doctoral students to a broad foundation in strategic management research. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

800 Level Courses

MGMT 892: *Special Topics in Strategic Management.* 3 credits.
Selected topics reflecting specialized areas in management. Content varies. May be repeated when topic is different. Offered by School of Business. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MGMT 893: *Special Topics in Organizational Behavior.* 3 credits.
Selected topics reflecting specialized areas in organizational behavior. Offered by School of Business. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Management of Information Systems (MIS)

300 Level Courses

MIS 303: *Introduction to Business Information Systems.* 3 credits.
Introduces fundamentals of hardware, software, and networking. Emphasizes role of technology in improving contemporary business processes and competitive advantage. Includes basic relational concepts, hands-on experience in building business database applications and decision support using spreadsheet software. Notes: Students cannot receive credit for both MIS 301 and MIS 303.School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MIS 303. The third attempt requires School of Business academic advisor approval. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies. Offered by School of Business. Limited to two attempts.

Mason Core: Info Tech & Computing

Registration Restrictions:
Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MIS 310: *Database Management Systems.* 3 credits.
Introduces design, implementation and querying relational databases with a focus on business requirements. Theoretical database concepts are accompanied with hands-on experience. Term project includes requirements analysis, design and implementation of a substantial business database application. Notes: School of Business students may not receive credit for both MIS 310 and IT 214. Requires hands-on implementation using software package. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MIS 301[C] or L301) or MIS 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take BUSA crses, Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MIS 320: *Networks and Security.* 3 credits.
Introduces students to fundamentals of networking technologies and their role in businesses. Emphasis is on understanding the business implications of different networking technologies and solutions. Students learn to identify and understand the business requirements, and bring together the different technological components to design the required communication solutions. Also focuses on the types of security threats to the business network infrastructure, and approach to tackling such threats through business practices combined with appropriate technological solutions. Notes: The course also includes lab work and exercises. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MIS 301[C] or L301) or MIS 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MIS 330: *Systems Analysis and Design.* 3 credits.
Understanding systems analysis and design methods is a necessary skill for contemporary business analysts, managers, software engineers and system users. Provides students with the foundations for effectively using modern systems analysis and design tools and methodologies for developing modern software and applications. Topics include systems planning and feasibility analysis, requirements analysis, economics, systems design and project management. Notes: Requires team project. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: MIS 310[C], 310[XS], IT 214[C] or 214[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MIS 341: *Cloud Computing Essentials.* 3 credits.
Explores the adoption, applications, benefits, deployment, economics, models, risks, services, strategy, and values of the cloud computing from the business and managerial perspective. Surveys the cloud technology, introduces the characteristics and service models of cloud computing, and examines the impact and value of cloud computing. Students will gain the knowledge of the cloud computing principles and concepts needed to evaluate, adopt, deploy, and manage cloud environments. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MIS 303[C], L303 or 303[XS]) or (MIS 301[C] or L301).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MIS 350: *Introduction to Programming for Business Applications.* 3 credits.
This course covers design and implementation of computer programs (Java) to solve business problems using structured and object-oriented programming techniques. Students become familiar with program development life cycle using Java supported by a modern development environment. Students complete assignments involving problem solving and development of business application. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

MIS 410: *Advanced Database Systems.* 3 credits.
Covers advanced database development and administration topics including triggers, stored procedures, indexes, performance tuning, and security. Students will use a state-of-the-art industrial strength database management system as a tool to familiarize themselves with database concepts. Students will conduct exercises on business reporting using databases and front-end applications. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MIS 310[C], 310[XS], IT 214[C] or 214[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MIS 412: *E-Business Systems Development.* 3 credits.
Introduces students to the development of web-based information systems for E-business. Students learn to develop web-based database applications for eCommerce using ASP.NET. Also covers Web 2.0 technologies and contemporary business trends and issues related to web application development. Emphasizes technologies, methods, and application development tools. Notes: Requires team project and computer lab. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MIS 301[C] or L301) or MIS 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MIS 415: *Information Systems Audit and Control.* 3 credits.
Covers IT governance, controls, auditing applications, systems development, and operations. It examines trends and define recent advances in technology that impact IT controls and audits - including cloud computing, web-based applications, and server visualizations. It covers IT strategy, business value of IT, as well as controls for IT projects, outsourcing, contracts, cloud computing, etc. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MIS 301[C], L301[C], 303[C], L303[C] or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MIS 420: *Information Security and Assurance.* 3 credits.
Covers technical concepts, and managerial and policy topics in information and cyber security. Lectures, reading, in-class presentations, hands-on exercises, and examinations ensure that students have sufficient technical awareness and managerial competence related to information security and assurance. Examines the nature of threats and vulnerabilities, cryptography, software vulnerabilities, managing risk, and security controls. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MIS 320[C] or 320[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MIS 430: *Data Warehousing.* 3 credits.
Deals with the challenges faced by businesses in managing large amounts of data and making meaningful use of this data for informed decision making. Introduces students to data warehousing fundamentals, practices, and technologies; and their application to solving business problems. Specific emphasis is on designing of data warehouse to meet the business requirements and hands-on learning of the design principles through implementation on commercially used data warehouse technologies. Also introduces students to OLAP solutions and data mining approaches to supporting business decision making. Notes: Term project required. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MIS 310[C], L310, 310[XS], IT 214[C] or 214[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take BUSA crses, Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MIS 431: *Data Mining for Business Applications.* 3 credits.
This course covers data mining methods and tools for business analytics to improve managerial decision making. The objective is to understand data mining methods and their suitability for decision making in a variety of business domains. The students will learn how to apply appropriate analytical tools to gain useful insights from real-life datasets. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: (MIS 301[C], L301[C], 303[C], 303[XS] or L303[C]) and (BUS 310[C], 310[XS] or OM 210[C]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take BUSA crses, Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MIS 432: *Advanced Data Mining.* 3 credits.
This course covers business analytics using advanced data mining methods for developing predictive models. It includes feature selection to identify dimensions for constructing decision making models. More advanced techniques such as decision trees, neural networks, and other classification and prediction methods will be covered. Emphasis on applications will include hands-on experience using commercial data mining software and real business data. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MIS 431[C] or 431[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the Ineligible to take BUSA crses, Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MIS 433: *Programming for Analytics.* 3 credits.
This course will introduce students to solving a broad set of data analysis problems using the popular programming language Python. It will cover basic Python skills and data structures, how to load data from different sources, rearrange and aggregate it, and finally how to analyze and visualize it. The course will also introduce students to several Python libraries. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: BUS 310[C] or 310[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take BUSA crses, Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MIS 441: *Cloud System Management.* 3 credits.
Explores managing cloud platforms and deploying applications on cloud platforms from the business and managerial perspective. Students learn to operate, monitor, and manage cloud computing systems, such as Amazon Web Services (AWS), as well as deploy and scale applications in cloud environments. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MIS 341[C] or 341[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MIS 462: *Honors Seminar in Management Information Systems (Topic Varies).* 3 credits.
Topic and format vary. In-depth study of a topic in the area of information technology management. Enrollment limited and competitive. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Specialized Designation: Topic Varies

Recommended Prerequisite: Degree status in ISOM (or DMIS) major; permission of department.

Registration Restrictions:
Students with a class of Freshman, Junior or Sophomore may **not** enroll.

Non-Degree or Washington Consortium level students may **not** enroll.

Students with the Ineligible to take BUSA crses, Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

MIS 491: *Seminar in Management Information Systems.* 3 credits.
Analyzes selected topics that highlight latest developments in information resource management field, including contemporary research findings and case studies of information systems in business and other organizations. Offered by School of Business. May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: (MIS 301[C] or L301) or MIS 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

MIS 492: *Internship in Management Information Systems.* 3 credits.
Opportunity to gain practical, professional experience in conjunction with academic development. An internship is an important part of academic and career preparation. May be used as elective credit. Notes: No more than 6 credits of School of Business internship coursework (BUS 492 or MIS 492) can be applied towards a student's 120 (BU) degree applicable credits. Students must receive departmental approval in order to register for this course; please contact the School of Business Office of Career Services for internal eligibility requirements. Offered by School of Business. May be repeated within the degree for a maximum 6 credits. Equivalent to ACCT 492, BUS 492, FNAN 492, MGMT 492, MKTG 492, OM 492, OSCM 492.

Recommended Prerequisite: 75 credit hours

Registration Restrictions:
Required Prerequisites: (MIS 301[B-] or 303[B-]) and (OM 301[B-] or 303[B-]).
[B-] Requires minimum grade of B-.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take BUSA crses, Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

MIS 499: *Independent Study in Management Information Systems.* 1-3 credits.
Research and analysis of selected problems or topics in information resource management. Offered by School of Business. May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: (MIS 301[C]) or MIS L303[C].
[C] Requires minimum grade of C.

Students with a class of Freshman may **not** enroll.

Non-Degree or Washington Consortium level students may **not** enroll.

Students with the Ineligible to take MIS crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

700 Level Courses

MIS 721: *Seminar in Information Systems.* 1.5 credit.
This course is designed to expose doctoral students to academic research in information systems. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Business.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MIS 722: *Seminar in Economics of Information Systems.* 3 credits.
This course is designed to expose doctoral students to a broad foundation in economics of information systems research. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MIS 723: *Seminar in Technology Research in Information Systems.* 3 credits.
This course is designed to expose doctoral students to a broad foundation of technology in information systems research. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

800 Level Courses

MIS 892: *Special Topics in Information Systems.* 3 credits.
This course is designed to expose doctoral students to a specialized topic within the information systems field through theoretical, quantitative and empirical work in the topic area. Offered by School of Business. May be repeated within the degree for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Management of Secure Information Systems (MSEC)

500 Level Courses

MSEC 510: *Foundations of Cyber Security.* 2 credits.
Provides an overview of the introductory topics in cyber security, which will be the basis for the other security-related in the MSIS. Topics include basic concepts on CIA (confidentiality, integrity, and availability), risk management, disaster recovery, access control, basic cryptography and software application vulnerabilities. Notes: 4 class sessions will be 3.5 hours long.1 class session will be 2 hours and 20 minutes long.(5 classes; 16 hours and 20 minutes total) Offered by Volgenau School of Engineering. May not be repeated for credit.

Recommended Prerequisite: Admission to MSEC program.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MSEC 511: *Security Practices in the Enterprise.* 2 credits.
Provides the practices and methods currently used by information security professionals to manage and operate the secure IT infrastructures in the enterprise industry and in the US Federal Sector. It

covers tools and knowledge required to design, execute, and/or evaluate the INFOSEC standards and procedures required of government and industry. The topic includes security operation center (SOC), network security, malware countermeasures, operational systems security, risk analysis and incident response practices. Notes: 4 class sessions will be 3.5 hours long.1 class session will be 2 hours and 20 minutes long.(5 classes; 16 hours and 20 minutes total) Offered by Volgenau School of Engineering. May not be repeated for credit.

Recommended Prerequisite: MSEC 510.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MSEC 520: *Networking Principles.* 2 credits.
Introduction to the principles guiding the design and operation of modern communication networks; using the structure provided by layered service models, this course explores systematically the architecture and protocols of large, decentralized networks. Topics include medium access control in local area networks, switching, routing, and addressing, reliable and secure transport, flow and congestion control. Throughout, examples are drawn from the suite of Internet protocols. Offered by Volgenau School of Engineering. May not be repeated for credit.

Recommended Prerequisite: Admission to MSEC program.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

MSEC 620: *Networking Security.* 2 credits.
Provides a comprehensive introduction to network security concepts and problems and the mechanisms and tools to secure networks. Focuses on the Internet; discusses the threats to and from the Internet and examines existing Internet security techniques and protocols and their limitations. Topics include secret key and public key cryptography, Hash algorithms, authentication, IPSEC/VPN, IPSEC key exchange, SSL/TLS, firewall, anonymous communication, and VoIP security. Offered by Volgenau School of Engineering. May not be repeated for credit.

Recommended Prerequisite: MSEC 510 and 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MSEC 630: *Secure Information System Governance, Regulation, and Compliance.* 2 credits.
Provides insight into secure information system governance, regulations, and compliance including noteworthy legislation, regulations, and compliance issues as well as commonalities and significant differences between departments and agencies within the Federal Executive Branch (FEB). The course is presented as formal lectures complemented by group discussion. Each topic is addressed as part of the larger Secure Information System structure. Notes: 4 class sessions will be 3.5 hours long.1 class session will be 2 hours and 20 minutes.(5 total class sessions; 16 hours and 20 minutes total). Offered by Volgenau School of Engineering. May not be repeated for credit.

Recommended Prerequisite: MSEC 510

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MSEC 641: *Enterprise Security Threats.* 1 credit.
Provides a broad exposition of emerging cyber-security threats for large-scale enterprises: Denial of Service (DoS), insider attacks, remote exploitation. It covers defenses that may mitigate or curtail some aspects of these emerging security threats. Offered by Volgenau School of Engineering. May not be repeated for credit.

Recommended Prerequisite: MSEC 511.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MSEC 642: *Enterprise Security Technologies.* 2 credits.
Provides an overview of enterprise security tools used in advanced security IT departments of enterprises today. In addition to understanding the tools, their capabilities, and their gaps, students participate in hands-on laboratory exercises with enterprise security tools. Notes: 4 class sessions will be 3.5 hours long.1 class session will be 2 hours and 20 minutes long.(5 class sessions; 16 hours 20 minutes total) Offered by Volgenau School of Engineering. May not be repeated for credit.

Recommended Prerequisite: MSEC 511.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MSEC 650: *Seminar: Enterprise Security Case Studies.* 1 credit.
Provides an exposition of large enterprise security systems including operational requirements, threat model, security analysis, economic analysis, and defense posture options that expose the operational and economic trade-offs when architecting Enterprise security. Offered by Volgenau School of Engineering. May not be repeated for credit.

Recommended Prerequisite: MSEC 641.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

MSEC 696: *Directed Studies Management of Secure Information Systems.* 1-3 credits.
Approval by faculty member and program director required prior to registration. Studies specialized topics in business not otherwise available in the curriculum. Offered by Volgenau School of Engineering. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Admission to the MSIS program or permission of the program director.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

MSEC 697: *Special Topics in Management of Secure Information Systems.* 1-3 credits.
Sections established as necessary to focus on various topical issues that emerge in practice of management of secure information systems. Offered by Volgenau School of Engineering. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Admission to the MSIS program or permission of the program director.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

700 Level Courses

MSEC 710: *Global Residency.* 1-4 credits.
Students spend a week in an international residency. Emphasis is on how other nations deal with management of secure information system, the management of those systems, and related public policy issues. Corporate site visits are combined with presentations by professors from universities outside the United States and relevant practitioners. Students are required to write a paper summarizing their observations and attend pre-residency preparatory sessions. Offered by Volgenau School of Engineering. May be repeated within the degree for a maximum 4 credits.

Recommended Prerequisite: Admission to Executive MS in Management of Secure Information Systems.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MSEC 720: *Capstone Project in Management of Secure Information Systems.* 1-3 credits.
Teams undertake a strategic evaluation and plan for the management of secure information systems. They develop plans that include technical, organizational, and policy aspects. A report is produced and presented to the entire cohort for discussion. Offered by Volgenau School of

Engineering. May be repeated within the degree for a maximum 3 credits. Equivalent to TECM 737.

Recommended Prerequisite: Admission to Executive MS in Management of Secure Information Systems.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Special scale.

Marketing (MKTG)

300 Level Courses

MKTG 303: *Principles of Marketing.* 3 credits.
Examines marketing principles and practices for analyzing, creating, delivering, capturing, and communicating value to customers. Focuses on managing customer relationships using market-driven strategies, particularly segmentation, targeting, and positioning. The role of customer satisfaction in achieving organizational objectives and ethical decision making in a global economy are also emphasized. Notes: Students cannot receive credit for both MKTG 301 and MKTG 303. School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MKTG 303. The third attempt requires School of Business academic advisor approval. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MKTG 307: *Federal Government Marketing.* 3 credits.
This course explores the government procurement process and contracting from the perspective of marketers and contractors engaged in the federal community. Students will review and analyze the procurement practices of major government contractors and seek to understand the challenges associated with conducting business with the United States government. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MKTG 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the Ineligible to take MKTG crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MKTG 310: *Consultative Selling.* 3 credits.
The course is designed to help professionals learn consultative selling techniques to apply in their various professions and industries when working with clients and customers. The skills developed help sales associates solve client and customer problems. The goal is to enable professionals with customer- facing responsibilities to effectively build the skills and trust necessary with customers that result in long term and profitable relationships. Offered by School of Business. Limited to two attempts.

Recommended Prerequisite: MKTG 303 or MBUS 303

Registration Restrictions:
Students with a class of Freshman may **not** enroll.

Registration Restrictions:
Required Prerequisites: (MKTG 303[C] or 303[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take MKTG crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MKTG 351: *Marketing Research.* 3 credits.
Presents the concepts and techniques underlying the marketing research process and their role in managerial decision making. Focuses on skills required to conduct a marketing research project: qualitative and quantitative research designs, survey methodology, instrument creation, sampling procedures, data collection, data analysis, and reporting of findings. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Specialized Designation: Mason Impact.

Registration Restrictions:
Required Prerequisites: (MKTG 301[C], L301, 303[C], 303[XS] or L303) and (BUS 310[C], L310, 310[XS], STAT 250[C], 250[XS] or L250).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take BUSA crses, Ineligible to take MKTG crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MKTG 352: *Marketing Analytics for New Product Development.* 3 credits.
In today's technology-enabled world, organizations collect lot of information as a part of their business operations and pool it with data acquired from outside sources. Marketing analytics is a systematic approach to harnessing this data/ information to drive effective marketing decision making. Students will learn to analyze historical data, market research data, and competitive information for making strategic marketing decisions. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MKTG 301[C] or L301) or (MKTG 303[C], 303[XS] or L303) or MBUS 303[C] or 303[XS] and (BUS 310[C], 310[XS], STAT 350[C] or 350[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Students with the Ineligible to take BUSA crses, Ineligible to take MKTG crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MKTG 353: *New Product Development.* 3 credits.
This course focuses on all aspects of the new product and new service development process, from insight and inspiration through design and product launch. The course also explores current topics and best practices in innovation management, such as open innovation, managing creativity in organizations, and product design, and rapid prototyping. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MKTG 301[C] or L301) or (MBUS 303[C], L303 or 303[XS]) or (MKTG 303[C], L303 or 303[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Students with the Ineligible to take MKTG crses or terminated from BU major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MKTG 355: *Direct Marketing.* 3 credits.
Covers the whole process of direct and interactive marketing; planning the campaign, developing the creative approaches, selecting media, offering it to the potential buyers, seeing that the offer is fulfilled and

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale.

MKTG 602: *Basic Statistics for Marketing.* 0 credits.
The primer course is designed for students with no prior background in statistics. It will introduce students to basic statistical concepts and their use in marketing. The skills developed will help students understand core statistical topics. The goal is to enable students to get prepared for more in-depth courses in Marketing. Offered by School of Business. May be repeated within the degree for a maximum 0 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Marketing.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale.

MKTG 610: *Consultative Sales.* 3 credits.
The course is designed for marketing professionals who consult with clients for the purpose of identifying needs and developing long term sales relationships. Important customer facing skills are applied in the process of identification of new business opportunities, working with clients to identify needs, developing shared goals and objectives, practicing negotiation and sales skills, and implementation of solutions. The skills developed will help professionals solve client and customer problems. The goal is to enable professionals with customer-facing responsibilities to effectively build the skills and trust necessary with customers that result in long term and profitable relationships. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Marketing.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MKTG 612: *Consumer Behavior.* 3 credits.
Examine concepts, processes, and approaches that inform and answer what, how, when, where, and why people consume and more generally make decisions. Understand how consumer behavior is relevant to one's professional and personal life. Develop current knowledge of how individual psychology, socio-cultural, ethical, and global factors influence consumer behavior and attitudes. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Marketing.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MKTG 615: *Digital Marketing Strategy.* 3 credits.
This course will provide students with an in-depth understanding of digital marketing strategy and its application for driving organizational performance. It will provide hands on experience in different digital marketing tools, including web design, email and digital display, mobile marketing, organic and paid search, search engine optimization, web analytics, and email marketing. The students will gain proficiency in utilizing different digital tools to formulate and execute an integrated digital marketing strategy for an organization. Emphasis will be placed on ethical professional practices in collecting and analyzing customer and market data that is required for effective digital marketing. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Marketing.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MKTG 623: *Marketing Strategy.* 3 credits.
Using lectures, readings, cases, and team activities, students are actively involved in hands-on experiences related to marketing strategy decisions. Topics include segmentation, targeting, positioning, new product development, pricing, advertising, distribution, global marketing, corporate social responsibility, sustainability, and resource allocation. The central objective is to develop proficiency in managerial decision-making based on principles in resource advantage theory to positively affect organizational performance. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Marketing.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MKTG 625: *Marketing Data Visualization and Analysis.* 3 credits.
In today's technology enabled world organizations collect a wealth of marketing information as part of their business operations. Marketing Data Visualization and Analysis is a systematic approach to harnessing this data and information to drive effective marketing decision making that involves sustainable utilization of key marketing resources to improve overall organizational performance. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Marketing.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MKTG 633: *Business to Business Marketing.* 3 credits.
The objective of this course is to understand Business-to-Business marketing theory and to develop decision making skills needed to build and manage business marketing strategy. Topics to be studied include relationship strategies in business markets, e-commerce strategies for business markets, business market buyer behavior and segmentation, managing product, pricing, communications, and channel strategy for business markets, the role of selling and sales management in these markets, and managing sustainability in B2B markets. It will teach how to develop a B2B marketing strategy for both national and global markets, gain an understanding for developing a B2B marketing plan, and controlling and measuring a B2B strategy. Extensive use of B2B case studies to develop decision-making skills will form part of this course. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Marketing.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MKTG 637: *Marketing for a Better World.* 3 credits.
This course will provide students with an in-depth understanding of how marketing can be a force for creating a better world. It will introduce students to sustainability trends and dynamics and provide knowledge of how different societal forces affect consumer well-being. Students will also gain skills to develop assessments of the global environment, multiethnic consumer profiles, pressing societal issues, and sustainability trends to derive a more inclusive marketing strategy. To this end, the course will underscore how corporate social responsibility helps shape future success of organizations. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Marketing.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MKTG 651: *Marketing Research.* 3 credits.
Students are actively involved in the design and development of qualitative and quantitative research studies. Topics include focus groups/interviews, surveys, and experiments. Activities involve training in ethical conduct of research involving humans, design of research instruments, selection of appropriate samples, data collection, data analysis, and reporting. Students critically evaluate research in terms of its quality and provision of useful information. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Marketing.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MKTG 652: *Customer Analytics.* 3 credits.
This course teaches students how to arrive at strategic decisions using customer analytics. The course covers key concepts such as customer acquisition, retention, customer lifetime value, churn management, customer preference mapping, and conjoint analysis utilizing customer data and statistical analysis. It emphasizes ethical professional practices in the collection and analysis of customer data. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Marketing.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MKTG 653: *Retailing and Pricing Analytics.* 3 credits.
This course teaches students to arrive at strategic retailing and pricing decisions using a data-driven approach. The course covers key retailing decisions such as loyalty program design and execution, market basket analysis, store location and trade area analysis, forecasting, and merchandising decisions along with foundational aspects of

pricing analytics such as how a firm sets and adjusts pricing and coordinates with different internal and external constraints to maximize its profitability sustainably. The course also aims to familiarize students with the key concepts and applications of quantitative models of demand estimations and consumer responses to pricing decisions. It further covers the various cutting-edge pricing tactics and strategies adopted by marketing managers. Additionally, it gives students an opportunity to work with different data sets to make pricing decisions in simulated environments. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Marketing.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MKTG 690: *Applied Client Project.* 6 credits.
This course will provide students the framework and opportunity to work on an applied marketing project with a real business. The objective is for students to work on solving marketing problems that the client is facing. Students will work in groups to understand the marketing problem, break it down into meaningful questions, and then engage in a strategic marketing planning exercise to propose actionable solutions. The course will involve active interactions with the client. Students will be expected to utilize all the knowledge and skills they have learnt in the earlier courses in the M.S. in Marketing program, while demonstrating ethical professional practices. After completion of this course, students can expect to have completed an applied client marketing project, which they can showcase on their resumes. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Marketing.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Mathematics (MATH)

100 Level Courses

MATH 104: *Trigonometry and Transcendental Functions.* 2 credits.
Exponential and logarithmic functions, trigonometric functions, and analytic trigonometry. This course does not satisfy the university's quantitative reasoning requirement. May not be taken for credit after receiving a C or better in MATH 105 or in any MATH course numbered 113 or higher. May not take MATH 105 for credit after receiving a C or better in MATH 104. Notes: May not be used as credit toward BA or BS in mathematical sciences. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisite: minimum score of 07 in 'Math Placement Algebra II'.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 105: *Precalculus Mathematics.* 4 credits.
Reviews mathematics skills essential to studying calculus. Topics include equations, inequalities, absolute values, graphs, functions, exponential and logarithmic functions, and trigonometry. Notes: Call Mathematical Sciences Department at 703-993-1460 for details. May not be used as credit toward BA or BS in mathematical sciences. This course does not satisfy the university's quantitative reasoning requirement for the BA degree. May not be taken for credit after receiving grade of C or better in any MATH course numbered 113 or higher. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisite: minimum score of 13 in 'Math Placement Algebra I'.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 106: *Quantitative Reasoning.* 3 credits.
Quantitative skills for real world. Topics include critical thinking, modeling by functions, graphs, growth, scaling, probability, and statistics. Offered by Mathematics. Limited to three attempts.

Mason Core: Quantitative Reasoning

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 108: *Introductory Calculus with Business Applications.* 3 credits.
Functions, limits, derivative, and integral. Applications of differentiation and integration. Notes: Call Mathematical Sciences Department at 703-993-1460 for details. Students who have received credit for MATH 113 or 114 may not receive credit for this course. Offered by Mathematics. Limited to three attempts.

Mason Core: Quantitative Reasoning

Registration Restrictions:
Required Prerequisite: minimum score of 13 in 'Math Placement Algebra I'.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 110: *Introductory Probability.* 3 credits.
Elementary set theory, probability, and statistics. Offered by Mathematics. Limited to three attempts.

Mason Core: Quantitative Reasoning

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 111: *Linear Mathematical Modeling.* 3 credits.
Matrix algebra, systems of linear equations, Markov chains, difference equations, and data fitting. Offered by Mathematics. Limited to three attempts.

Mason Core: Quantitative Reasoning

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 112: *Discrete Mathematics for IT.* 3 credits.
Introduces ideas of discrete mathematics including mathematical induction, sets, logic, graphs, trees, basic counting arguments, and discrete probability. Students who have received credit for MATH 125 may not receive credit for this course. Notes: Intended for IT students; does not count toward a major or minor in mathematics. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: minimum score of 13 in 'Math Placement Algebra I', MATH 105[C], 105[XS], 108[C], 108[XS], 113[C] or 113[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 113: *Analytic Geometry and Calculus I.* 4 credits.
Functions, limits, the derivative, maximum and minimum problems, the integral, and transcendental functions. Offered by Mathematics. Limited to three attempts. Equivalent to MATH 115, MATH 124.

Mason Core: Quantitative Reasoning

Registration Restrictions:
Required Prerequisites: (minimum score of 07 in 'Math Placement Transcendentals', MATH 105[C], 105[XS] or 104[C]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 114: *Analytic Geometry and Calculus II.* 4 credits.
Methods of integration, conic sections, parametric equations, infinite series, and power series. Offered by Mathematics. Limited to three attempts. Equivalent to MATH 116.

Registration Restrictions:
Required Prerequisites: (MATH 113[C], 113[XS] or U113) or ((MATH 123[C] or 123[XS]) and (MATH 124[C] or 124[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 115: *Analytic Geometry and Calculus I (Honors).* 4 credits.
More challenging version of MATH 113. Functions, limits, the derivative, maximum and minimum problems, the integral, and transcendental functions. Offered by Mathematics. Limited to three attempts. Equivalent to MATH 113.

Mason Core: Quantitative Reasoning

Recommended Prerequisite: Permission of instructor.

Registration Restrictions:
Required Prerequisite: (minimum score of 65 in 'Math Placement Transcendentals').

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 116: *Analytic Geometry and Calculus II (Honors).* 4 credits.
More challenging version of MATH 114. Methods of integration, conic sections, parametric equations, infinite series, and power series. Offered by Mathematics. Limited to three attempts. Equivalent to MATH 114.

Registration Restrictions:
Required Prerequisites: MATH 115[C], 115[XS], U115, 113[A] or 113[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[A] Requires minimum grade of A.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 123: *Calculus with Algebra/Trigonometry, Part A.* 3 credits.
Math 123, with 124, is a two semester sequence for students with limited math background who desire careers in the sciences. In two semesters, students progress from algebra through the basic calculus covered in Math 113. Math 123 integrates the beginnings of calculus through the derivative with relevant precalculus algebra and trigonometry. Notes: Students who successfully complete Math 123-124 are considered the same as having successfully completed MATH 113 and can sign up for Math 114, Calculus II. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (minimum score of 13 in 'Math Placement Algebra I' and minimum score of 07 in 'Math Placement Algebra II') or MATH 105[C], 105[XS] or 104[C].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 124: *Calculus with Algebra/Trigonometry, Part B.* 3 credits.
Math 123, with 124, is a two semester sequence for students with limited math background who desire careers in the sciences. In two semesters, students progress from algebra through the basic calculus covered in

Math 113. Math 124 will review basic differentiation and applications and then proceed to cover integration including transcendental functions. Notes: Students who successfully complete Math 123-124 are considered the same as having successfully completed MATH 113 and can sign up for Math 114, Calculus II. Offered by Mathematics. Limited to three attempts. Equivalent to MATH 113.

Mason Core: Quantitative Reasoning

Registration Restrictions:
Required Prerequisites: MATH 123[C] or 123[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 125: *Discrete Mathematics I.* 3 credits.
Introduces ideas of discrete mathematics and combinatorial proof techniques including mathematical induction, sets, graphs, trees, recursion, and enumeration. Offered by Mathematics. Limited to three attempts.

Mason Core: Quantitative Reasoning

Registration Restrictions:
Required Prerequisites: minimum score of 13 in 'Math Placement Algebra I', MATH 105[C], 105[XS], 108[C], 108[XS], 113[C] or 113[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 175: *Mathematics of Cryptography: An Introduction.* 3 credits.
Every day, 143,000 terabytes of data are transferred across the internet, including financial transactions, medical records, and sensitive client data. Half of this traffic is secured through encryption, relying on mathematical algorithms such as the RSA to encode the data in a way that only the recipient can decode. In this class, we will see how cryptography works first-hand. We will start with classical ciphers (Atbash and Caesar ciphers) and develop our mathematical techniques and programming abilities until we are able to implement RSA from scratch. Topics covered in the course lead into the following majors: mathematics, computer science, electrical engineering, and cyber security engineering. Offered by Mathematics. Limited to three attempts.

Recommended Prerequisite: B or better in a calculus course.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

MATH 203: *Linear Algebra.* 3 credits.
Systems of linear equations, linear independence, linear transformations, inverse of a matrix, determinants, vector spaces, eigenvalues, eigenvectors, and orthogonalization. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (MATH 114[C], 114[XS], 114T, 116[C] or 116[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 213: *Analytic Geometry and Calculus III.* 3 credits.
Partial differentiation, multiple integrals, line and surface integrals, and three-dimensional analytic geometry. Offered by Mathematics. Limited to three attempts. Equivalent to MATH 215.

Registration Restrictions:
Required Prerequisites: (MATH 114[C], 114[XS], 114T, 116[C] or 116[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 214: *Elementary Differential Equations.* 3 credits.
First-order ODEs, higher-order ODEs, Laplace transforms, linear systems, nonlinear systems, numerical approximations, and modeling. Offered by Mathematics. Limited to three attempts. Equivalent to MATH 216.

Registration Restrictions:
Required Prerequisites: MATH 213[C], 213[XS], 213T, 215[C] or 215[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 215: *Analytic Geometry and Calculus III (Honors).* 3 credits.
Vectors and vectorvalued functions, partial differentiation, multiple integrals, line integrals, surface integrals, and transformation of coordinates. Offered by Mathematics. Limited to three attempts. Equivalent to MATH 213.

Registration Restrictions:
Required Prerequisites: (MATH 114[C], 114[XS], 116[C] or 116[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 216: *Theory of Differential Equations.* 3 credits.
First- and second-order equations, existence uniqueness of solutions, systems of differential equations, and phase plane analysis. Offered by Mathematics. Limited to three attempts. Equivalent to MATH 214.

Registration Restrictions:
Required Prerequisites: (MATH 203[C], 203[XS] or U203) and (MATH 213[C], 213[XS], U213, 215[C], 215[XS] or U215).
[C] Requires minimum grade of C.

[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 271: *Mathematics for the Elementary School Teachers I.* 3 credits.
Concepts and theories underlying elementary school mathematics including problem solving, patterns, sequences, set theory, numeration, number sense, operations and properties of integers, whole, rational, irrational and real numbers, number theory, ratio, proportion, percent and mathematical systems. Notes: Does not count toward major in mathematics. Offered by Mathematics. Limited to three attempts.

Recommended Prerequisite: Grade of C or better in 3 credits of college math.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 272: *Mathematics for the Elementary School Teachers II.* 3 credits.
Continuation of MATH 271. Concepts and theories underlying elementary school mathematics including functions, algebra, geometry, statistics, and probability. Notes: Intended for school educators; does not count toward major in mathematics. Offered by Mathematics. Limited to three attempts.

Mason Core: Quantitative Reasoning

Registration Restrictions:
Required Prerequisites: (MATH 271[C] or 271[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

MATH 300: *Introduction to Advanced Mathematics.* 3 credits.
Introduction to proofs and the language of mathematics. Topics include induction, equivalence relations, cardinality, and basic properties of the real numbers. Designated as a writing intensive course for mathematics majors. Notes: Primarily intended for mathematics majors. Offered by Mathematics. Limited to three attempts. Equivalent to MATH 290.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: ((MATH 114[C], 114[XS], 114T or 116[C]) and (MATH 125[C], 125[XS], 125T or 175[C])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 301: *Number Theory.* 3 credits.
Prime numbers, factorization, congruences, and Diophantine equations. Offered by Mathematics. Limited to three attempts.

Recommended Prerequisite: Completion of 6 hours of MATH.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 302: *Foundations of Geometry.* 3 credits.
Axioms, theorems and proofs of Euclidean, non-Euclidean, and projective geometry. Fundamental concepts of incidence. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: MATH 114[C], 114[XS], 116[C] or 116[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 307: *Mathematical Modeling.* 3 credits.
Focuses on the development and analysis of mathematical models that make qualitative and quantitative predictions. Students will address particular situations while learning general modeling strategies. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (MATH 203[C] or 203[XS]) and (MATH 214[C], 214[XS] or 216[C]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 312: *Geometry.* 3 credits.
Two and three dimensional analytic geometry, geometric transformations, projective geometry, conics and quadric surfaces, spherical geometry, vector geometry. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (MATH 114[C], 114[XS], 116[C] or 116[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 313: *Introduction to Applied Analysis.* 3 credits.
Vector differential calculus, vector integral calculus, and complex analysis. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (MATH 213[C], 213[XS], 213T, 215[C] or 215[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 314: *Introduction to Applied Mathematics.* 3 credits.
Fourier analysis, series solutions of differential equations, Bessel and Legendre equations, Sturm-Liouville problems, and partial differential equations. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (MATH 214[C], U214, 214[XS], 216[C] or U216).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 315: *Advanced Calculus I.* 3 credits.
Number system, functions, sequences, limits, continuity, differentiation, integration, transcendental functions, and infinite series. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: ((MATH 213[C], 213[XS], 215[C] or 215[XS]) and (MATH 300[C] or 300[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 316: *Advanced Calculus II.* 3 credits.
Sequences of functions, Taylor series, vectors, functions of several variables, implicit functions, multiple integrals, and surface integrals. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (MATH 315[C], 315[XS] or L315).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 321: *Abstract Algebra.* 3 credits.
Theory of groups, rings, fields. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: ((MATH 213[C], 213[XS], 215[C] or 215[XS]) and (MATH 300[C] or 300[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 322: *Advanced Linear Algebra.* 3 credits.
Abstract vector spaces, linear independence, bases, linear transformations, matrix algebra, inner product, and special topics. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: ((MATH 203[C], 203[XS] or U203) and (MATH 300[C] or 300[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 325: *Discrete Mathematics II.* 3 credits.
Advanced counting, binomial identities, generating functions, advanced recurrence, inclusion-exclusion, and network flows. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (MATH 125[C], 125[XS] or 125T).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 351: *Probability.* 3 credits.
Random variables, probability functions, special distributions, and limit theorems. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: MATH 213[C], 213[XS], 215[C], 215[XS] or 215T.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 352: *Statistics.* 3 credits.
Estimation, decision theory, testing hypothesis, correlation, linear models, and design. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (MATH 351[C], 351[XS] or L351).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

MATH 400: *History of Math (Topic Varies).* 3 credits.
Explores internal controversies and dynamics of mathematics in larger intellectual and social settings. Topics vary but might include differential equations devised for mechanics and astronomy by Euler, Lagrange, and Laplace; foundation of mathematical analysis from Cauchy to Weierstrass; algebras of Galois and Boole; or creation of non-Euclidean

geometry and Cantor's transfinite sets. Notes: Credits may not be used toward "upper division" math hours required of math majors. Offered by Mathematics. Limited to three attempts.

Mason Core: Synthesis

Specialized Designation: Topic Varies

Registration Restrictions:
Required Prerequisites: MATH 300[C] or 300[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 401: *Mathematics through 3D Printing.* 3 credits.
Incorporates new mathematics from a large variety of fields into the design and creation of 3D printed models, as well as the written and oral communication of these mathematical ideas. Topics vary but might include regular and quasiregular tilings, Platonic and Archimedean solids and their duality, orientable and non-orientable surfaces, fractals, chaotic attractors, Riemann surfaces, and data visualization. Offered by Mathematics. Limited to three attempts.

Mason Core: Capstone

Recommended Prerequisite: MATH 300 and at least 3 credits of Mathematics above MATH 300.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 405: *Honors Thesis in Mathematics I.* 3 credits.
A project, which is intended to result in a thesis, is to be chosen and completed under the guidance of a full-time faculty member. An oral presentation is required for MATH 405. Offered by Mathematics. Limited to three attempts.

Specialized Designation: Mason Impact.

Recommended Prerequisite: MATH 315, three additional credits of MATH above the 300 level (excluding MATH 400) and admission to the Honors Program in Mathematics.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 406: *RS: Honors Thesis in Mathematics II.* 3 credits.
A project, which is intended to result in a thesis, is to be chosen and completed under the guidance of a full-time faculty member. Oral and written presentations are required in MATH 406. Offered by Mathematics. Limited to three attempts.

Specialized Designation: Research/Scholarship Intensive

Registration Restrictions:
Required Prerequisite: (MATH 405[C]).
[C] Requires minimum grade of C.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 411: *Functions of a Complex Variable.* 3 credits.
Analytic functions, contour integration, residues, and applications to such topics as integral transforms, generalized functions, and boundary value problems. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (MATH 214[C], 214[XS] or 214T) or (MATH 216[C] or 216T).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 413: *Modern Applied Mathematics I.* 3 credits.
Synthesis of pure mathematics and computational mathematics. Emphasizes interplay between discrete and continuous mathematics. Mathematical structure revealed from equilibrium models in discrete and continuous systems. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (MATH 203[C], 203[XS] or 203T) and (MATH 214[C], 214[XS] or 214T) or (MATH 216[C] or 216T).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 414: *Modern Applied Mathematics II.* 3 credits.
Continuation of MATH 413, which involves synthesis of pure mathematics and computational mathematics. Fourier analysis and its role in applied mathematics developed (differential equations and approximations). Discrete aspects emphasized in computational models. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: MATH 413[C] or 413[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 431: *Topology.* 3 credits.
Metric spaces, topological spaces, compactness, and connectedness. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (MATH 315[C] or 315[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 441: *Deterministic Operations Research.* 3 credits.
Survey of deterministic methods for solving real-world decision problems. Programming model and simplex method of solution, duality and sensitivity analysis, transportation and assignment problems, shortest path and maximal flow problems, project networks including PERT and CPM, introduction to integer and nonlinear programming, dynamic programming, and game theory. Emphasizes modeling and problem solving. Offered by Mathematics. Limited to three attempts. Equivalent to OR 441.

Registration Restrictions:
Required Prerequisites: (MATH 203[C], 203[XS] or 203T).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 442: *Stochastic Operations Research.* 3 credits.
Survey of probabilistic methods for solving real-world decision problems. Probability review, queuing theory, inventory theory, Markov decision processes, reliability, decision theory, simulation. Emphasizes modeling and problem solving. Offered by Mathematics. Limited to three attempts. Equivalent to OR 442.

Registration Restrictions:
Required Prerequisites: (MATH 351[C] or 351[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 446: *Numerical Analysis I.* 3 credits.
Significant figures, round-off errors, iterative methods of solution of nonlinear equations of a single variable, solutions of linear systems, iterative techniques in matrix algebra, interpolation and polynomial approximation. Offered by Mathematics. Limited to three attempts. Equivalent to OR 481.

Registration Restrictions:
Required Prerequisites: (MATH 203[C], 203[XS] or 203T) and (CS 112[C], 112[XS] or 112T).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 447: *Numerical Analysis II.* 3 credits.
Numerical differentiation and integration, initial-value and boundary-value problems for ordinary differential equations, methods of solution of partial differential equations, iterative methods of solution of nonlinear systems, approximation theory. Offered by Mathematics. Limited to three attempts. Equivalent to CDS 410.

Registration Restrictions:
Required Prerequisites: (MATH 214[C], 214[XS], 214T, 216[C] or 216T) and (MATH 446[C] or 446[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 453: *Advanced Mathematical Statistics.* 3 credits.
Topics from statistics relevant to the field of actuarial science, such as: forecasting and time series, maximum likelihood tests, sufficiency, most powerful tests, distributions of quadratic forms, topics from nonparametric statistics, Bayesian statistics, and linear models. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: MATH 352[C], 352[XS] or STAT 356[C].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 478: *Introduction to Partial Differential Equations with Numerical Methods.* 3 credits.
Introduces basic facts about partial differential equations, including elliptic equations, parabolic equations and hyperbolic equations. Methods of solution, characteristics, initial/boundary-value problems, and numerical approximation techniques. Offered by Mathematics. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (MATH 203[C], 203[XS] or 203T) and (MATH 214[C], 214[XS] or 214T) or (MATH 216[C] or 216T).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 491: *Reading and Problems.* 1-3 credits.
For mathematical sciences majors only. Independent study in math. Notes: Must be arranged with instructor before registering. Offered by Mathematics. May be repeated within the term.

Recommended Corequisite: For mathematical science majors only.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 493: *Topics in Applicable Mathematics.* 3 credits.
Topics that have been successfully used in applications of mathematics. Notes: Subject determined by instructor. Offered by Mathematics. May be repeated within the degree for a maximum 12 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 6 credits of MATH at or above the 310 level.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 494: *Topics in Pure Mathematics.* 3 credits.
Topics of pure math not covered in other courses. Topics might include Galois theory, cardinal and ordinal arithmetic, measure theory, mathematical logic, and differential geometry. Notes: Subject determined by instructor. Offered by Mathematics. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 6 hours of MATH at or above the 310 level.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MATH 495: *Undergraduate Seminar.* 1 credit.
Offered by Mathematics. May be repeated within the degree for a maximum 3 credits.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

MATH 551: *Regression and Time Series.* 3 credits.
Mathematics of regression, exponential smoothing, time series, and forecasting. Material included in this course constitutes Society of Actuaries Validation by Educational Experience (VEE) for applied statistics and corresponds to part of Casualty Actuary Society Exam 3. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 352, STAT 652, SOA exam P, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 553: *Advanced Mathematical Statistics in Actuarial Sciences.* 3 credits.
Topics from statistics relevant to the field of actuarial science, such as: forecasting and time series, maximum likelihood tests, sufficiency, most powerful tests, distributions of quadratic forms, topics from nonparametric statistics, Bayesian statistics, and linear models. Offered by Mathematics. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: MATH 352[C], 352[XS], STAT 356[C], 356[XS], MATH 554[C] or 554[XS].

[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 554: *Financial Mathematics.* 3 credits.
Simple and compound interest, annuities, present and future value, yield rates, capital budgeting, amortization schedules, mortgages, bonds. Material corresponds to the Society of Actuaries Exam: Financial Mathematics (FM). Not appropriate for graduate science and engineering majors not considering actuarial or financial career. Cannot be counted toward MS or PhD degree in mathematics. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 113.

Recommended Corequisite: MATH 114.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 555: *Actuarial Modeling I.* 3 credits.
Two-semester sequence covering portions of the material corresponding to the Society of Actuaries Exam M, Casualty Actuary Society Exam 3, and Joint Board Exam EA1. The remaining material for these exams is covered in MATH 551 and 653. Topics include survival distribution and life tables, life insurance, life annuities, net premiums, net premium reserves, multiple life and multiple decrement models, pensions, insurance models including expense, and nonforfeiture benefits and cash values. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 554 and either MATH 351 or STAT 344.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 556: *Actuarial Modeling II.* 3 credits.
Two-semester sequence covering portions of the material corresponding to the Society of Actuaries Exam M, Casualty Actuary Society Exam 3, and Joint Board Exam EA1. The remaining material for these exams is covered in MATH 551 and 653. Topics include survival distribution and life tables, life insurance, life annuities, net premiums, net premium reserves, multiple life and multiple decrement models, pensions, insurance models including expense, and nonforfeiture benefits and cash values. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 554 and either MATH 351 or STAT 344.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 557: *Financial Derivatives.* 3 credits.
Fundamentals of pricing derivative securities, including Black-Scholes formalism and no-arbitrage pricing models. Exotic options, Monte-Carlo simulation, and interest rate models. Material corresponds to the Society of Actuaries Exam MFE: Act. Models and Fin. Econ. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 554 and either MATH 351 or STAT 344, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

MATH 600: *Special Topics in Mathematics.* 1-6 credits.
Mathematical workshops, special courses, or other projects. Offered by Mathematics. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 601: *Analysis I for Teachers.* 3 credits.
Develops continuous ideas of calculus with particular emphasis on concepts as opposed to computational aspects of calculus. Specific topics include decimal representation of real numbers, sequences, series, and limits; differentiation to find speed, slopes of curves, and tangents; integration to find volumes and distances and area under curves. Optimization problems including maximization of area and volume, and modeling of these concepts. Graphing techniques supported by theory of calculus and graphing utilities such as TI-83 calculator or computer software such as Maple. Notes: Background in mathematics desirable but not necessary. Some topics from college algebra will be reviewed in class, but thorough understanding of high school algebra and trigonometry expected. Offered by Mathematics. May not be repeated for credit.

Recommended Corequisite: Open only to inservice math teachers at the middle or secondary level, or by permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 602: *Analysis II for Teachers.* 3 credits.
Develops continuous ideas of calculus with particular emphasis on concepts as opposed to computational aspects of calculus. Specific topics include decimal representation of real numbers, sequences, series, and limits; differentiation to find speed, slopes of curves, and tangents; integration to find volumes and distances and area under curves. Optimization problems including maximization of area and volume, and modeling of these concepts. Graphing techniques supported by theory of calculus and graphing utilities such as TI-83 calculator or computer software such as Maple. Notes: Background in mathematics desirable but not necessary. Some topics from college algebra will be reviewed in class, but thorough understanding of high school algebra and trigonometry expected. Offered by Mathematics. May not be repeated for credit.

Recommended Corequisite: Open only to inservice math teachers at the middle or secondary level, or by Permission of Instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 604: *Geometry for Teachers.* 3 credits.
Covers standard topics from Euclidean geometry, and includes discussion of non-Euclidean geometries. Emphasizes informal and explorative approach to geometry, and makes use of geometry sketchpad. Other topics include geometric constructions, and role of proof in geometry. Notes: Background in mathematics desirable but not necessary. Offered by Mathematics. May not be repeated for credit.

Recommended Corequisite: Open only to inservice math teachers at the middle or secondary level, or by permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 605: *Discrete/Finite Mathematics for Teachers.* 3 credits.
Thorough understanding of high school algebra assumed. Discusses finite mathematics in juxtaposition to continuous ideas of calculus. Topics may consist of elementary counting and combinatorics including recursion and difference equations and their analogy to calculus; thorough discussion of probability and central measures of statistics; and graph theory and its connection to geometry. Notes: Background in mathematics desirable but not necessary. Offered by Mathematics. May not be repeated for credit.

Recommended Corequisite: Open only to inservice math teachers at the middle or secondary level, or by permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 607: *Algebraic Structure for Teachers.* 3 credits.
Expands on customary operations on integers and rationals to discuss systems that mimic these operations. Emphasizes multiplicative and additive inverses and their corresponding identities as they occur in other systems. Topics might include permutation groups, rigid transformations, groups of symmetry of the plane and connection to geometry, and matrices treated as linear transformations and connections to solutions of systems of equations. Notes: Background in mathematics desirable but not necessary. Thorough understanding of high school algebra assumed. Offered by Mathematics. May not be repeated for credit.

Recommended Corequisite: Open only to inservice math teachers at the middle or secondary level, or by permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 608: *Problem Solving in Mathematics.* 3 credits.
Introduces variety of challenging mathematical problems appropriate for middle school student to analyze, and solving problems using mathematics learned in previous courses. Also asks students to search for such problems and orally present solutions. Notes: Background in mathematics or science desirable but not necessary. Assumes exposure to most of topics covered in MATH 601, 604, 605, and 607. Offered by Mathematics. May not be repeated for credit.

Recommended Corequisite: Open only to inservice math teachers at the middle or secondary level, or by Permission of Instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 610: *Number Systems and Number Theory for K-8 Teachers.* 3 credits.
This course covers the topics: ways of representing numbers, relationships between numbers, number systems, the meanings of operations and how they relate to one another, and computation within the number system as a foundation for algebra. It also includes episodes in history and development of the number system, and will examine the developmental sequence and learning trajectory as children learn this material. Offered by Mathematics. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 611: *Geometry and Measurement for K-8 Teachers.* 3 credits.
The course explores the foundations of informal measurement and geometry 'in one, two, and three dimensions. The van Hiele model for geometric learning is used as a framework for how children build their understanding of length, area, volume, angles, and geometric relationships. Visualization, spatial reasoning, and geometric modeling are stressed. As appropriate, transformational geometry, congruence, similarity, and geometric constructions will be discussed. Offered by Mathematics. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 612: *Probability and Statistics for K-8 Teachers.* 3 credits.
An introduction to probability, descriptive statistics, and data analysis. Topics studied will include the exploration of randomness, data representation, modeling. Descriptive statistics will include measures of central tendency, dispersion, distributions, and regression. The analysis of experiments requiring hypothesizing, experimental design and data gathering will also be discussed. Offered by Mathematics. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 613: *Algebra and Functions for K-8 Teachers.* 3 credits.
The course will examine representing and analyzing mathematical situations and structures using generalization and algebraic symbols and reasoning. Attention will be given to the transition from arithmetic to algebra, working with quantitative change, and the description of and prediction of change. Offered by Mathematics. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 614: *Rational Numbers and Proportional Reasoning for K-8 Teachers.* 3 credits.
This course will cover the basic number strands in fractions and rational numbers, decimals and percents, and ratios and proportions in the school curriculum. Instruction will cover interpretations, computations, and estimation with a coordinated program of activities that develop both rational number concepts and skills and proportional reasoning. Offered by Mathematics. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 619: *Topics in Mathematical Logic.* 3 credits.
Special topics in foundations of mathematics not included in regular mathematics curriculum. May be repeated for credit. Offered by Mathematics. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 621: *Algebra I.* 3 credits.
Groups, linear algebra, and matrix groups. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: Familiarity with basic properties of groups and rings or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

MATH 624: *Euclidean Geometry.* 3 credits.
Euclidean space, geometry of k-dimensional planes, the affine structure of Euclidean space, rigid motions and similarities, parallelotopes and volumes, convex polytopes, quadric surfaces, and additional topics by instructor's choice. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 315 and MATH 322, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 625: *Numerical Linear Algebra.* 3 credits.
Theory and development of numerical algorithms for solving variety of matrix problems: linear systems, least squares problems, eigenvalue problems, and singular value decomposition. Direct and iterative method, analysis of sensitivity to rounding errors, and applications. Offered by Mathematics. May not be repeated for credit. Equivalent to CSI 740.

Recommended Prerequisite: Computer literacy, including some programming experience.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 629: *Topics in Algebra.* 3 credits.
Special topics in pure and applied algebra not covered in regular algebra. May be repeated for credit when topic varies. Offered by Mathematics. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 631: *Topology I: Topology of Metric Spaces.* 3 credits.
Covers definition and basic examples of metric spaces, open and closed sets, subspaces and finite products, sequences and convergence, compactness and separability, continuous functions, uniform continuity, metric space C(X) and uniform convergence, and homotopy. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 315 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 639: *Topics in Geometry and Topology.* 3 credits.
Special topics in geometry and topology not covered in regular geometry and topology sequence. May be repeated for credit when topic varies. Offered by Mathematics. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 641: *Combinatorics and Graph Theory.* 3 credits.
Covers enumerative combinatorics, including partially ordered sets; Moebius inversion and generating functions; and major topics in graph theory such as graph coloring, Ramsey theory, and matching. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 321 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 644: *Convex and Discrete Geometry.* 3 credits.
Basic properties of Euclidean space, convex sets and convex cones, convex hulls, extremal structure of convex sets, support and separation properties, polyhedra and polytopes, special classes of convex sets, Helly-type theorems, selected problems of discrete geometry. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 315 and MATH 322, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 649: *Topics in Combinatorics.* 3 credits.
Special topics in combinatorics not covered in regular combinatorics sequence. May be repeated for credit. Offered by Mathematics. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 653: *Construction and Evaluation of Actuarial Models I.* 3 credits.
Economics of insurance, individual risk models for short term, collective risk models for single period, collective risk models over an extended period, and applications of risk theory. Material included in this course corresponds to portions of the Society of Actuaries Exam M and Casualty Actuary Society Exam 3. The remaining material for these exams is covered in MATH 551, 555, and 556. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 351 or STAT 644 required. MATH 555 recommended but not required.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 654: *Construction and Evaluation of Actuarial Models II.* 3 credits.
Nature and properties of survival and loss models, methods of estimates from complete and incomplete data, tabular and parametric models, and practical issues in survival model estimation. Material included in this course corresponds to most of the Society of Actuaries Exam C and Casualty Actuary Society Exam 4. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 556 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 655: *Pension Valuation.* 3 credits.
Basic mathematics used in pension actuarial work without regard to pension law. Material included in this course corresponds to all of the Joint Board Exam EA-2A and portions of the Society of Actuaries Exam 8. This course cannot be counted toward the MS or PhD degree in mathematics. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 556, SOA Exam EA-1, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 661: *Complex Analysis I.* 3 credits.
Topology of complex numbers, holomorphic functions, series, complex integration. Meromorphic, multivalued, and elliptic functions. Offered by Mathematics. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 671: *Fourier Analysis.* 3 credits.
Study of fundamental ideas in Fourier analysis. Topics include orthonormal systems, Fourier series, continuous and discrete Fourier transform theory, generalized functions, and introduction to spectral analysis. Uses applications to physical sciences, linear systems theory, and signal processing to integrate topics. Offered by Mathematics. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 673: *Dynamical Systems.* 3 credits.
Contemporary topics in nonlinear dynamical systems illustrated in mathematical models from physics, ecology, and population dynamics. Traditional qualitative analysis of difference and differential equations provides background for understanding chaotic behavior when it occurs in these models. Topics include stability theory, fractals, Lyapunov exponents, and chaotic attractors. Offered by Mathematics. May not be repeated for credit. Equivalent to MATH 661.

Recommended Prerequisite: Elementary courses in linear algebra and differential equations.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 674: *Stochastic Differential Equations.* 3 credits.
Introduces stochastic calculus and differential equations. Includes Wiener process, Ito and Stratonovich integrals, Ito formula, martingales, diffusions, and applications, including financial applications. Simulations and numerical approximations of solutions. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 214 and 351.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 675: *Linear Analysis.* 3 credits.
Metric spaces, normed linear spaces, completeness, compactness, continuous (bounded) linear transformations, Banach spaces, Hilbert spaces, and orthogonal series. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 315 and MATH 322, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 677: *Ordinary Differential Equations.* 3 credits.
Qualitative and quantitative theory of ordinary differential equations. Phase portrait analysis of linear and nonlinear systems, including classification of stable and unstable equilibrium states and periodic orbits. Poincare-Bendixson theorem, Lyapunov stability and Lyapunov functions, and bifurcation theory. Optional topics include averaging and perturbation methods, numerical solution techniques, and chaos. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 214 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 678: *Partial Differential Equations.* 3 credits.
Physical examples, characteristics, boundary value problems, integral transforms, and other topics, such as variational, perturbation, and asymptotic methods. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: Elementary differential equations course.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 679: *Topics in Analysis and Potential Theory.* 3 credits.
Special topics not covered in regular analysis or potential theory sequence. May be repeated for credit when topic varies. Offered by Mathematics. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 680: *Industrial Mathematics.* 3 credits.
Takes examples from industry and goes through complete solution process: formulation of mathematical model of problem; solution, possibly by numerical approximation; and interpretation and presentation of results. Emphasizes working in groups, relating mathematics to concrete situations, and communication and presentation skills. Offered by Mathematics. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 683: *Modern Optimization Theory.* 3 credits.
Introduces basic mathematical ideas and methods for solving linear and nonlinear programming problems, with emphasis on mathematical aspects of optimization theory. Reviews classical topics of linear programming, and covers recent developments in linear programming, including interior point method. Considers basic results in nonlinear programming, including very recent developments in this field. Offered by Mathematics. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 685: *Numerical Analysis.* 3 credits.
Computational techniques for solving problems arising in science and engineering. Includes theoretical development as well as implementation, efficiency, and accuracy issues in using algorithms and interpreting results. Specific topics include linear and nonlinear systems of equations, polynomial interpolation, numerical integration, and introduction to numerical solution of differential equations. Offered by Mathematics. May not be repeated for credit. Equivalent to CSI 690, OR 682.

Recommended Prerequisite: Computer literacy, including some programming experience.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 686: *Numerical Solutions of Differential Equations.* 3 credits.
Finite difference methods for initial value problems, two-point boundary value problems, Poisson equation, heat equation, and first-order partial differential equations. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 214 and MATH 446 or 685.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 687: *Variational Methods.* 3 credits.
Weak formulation of partial differential equations, energy principles, Galerkin approximations, and finite element methods. Includes review and development of necessary analysis. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 446 or 685, and elementary differential equations course.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 689: *Topics in Applied and Computational Mathematics.* 3 credits.
Special topics in applied and computational mathematics not covered in the regular applied and computational mathematics sequence. May be repeated for credit when topic varies. Offered by Mathematics. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 697: *Independent Reading and Research.* 1-6 credits.
In areas of importance, but with insufficient demand to justify a regular course, students may undertake a course of study under the supervision of a consenting faculty member. Written statement of the content of the course and a tentative reading list is normally submitted as part of the request for approval. Literature review, project report, or other written product is normally required. May be repeated for credit. Offered by Mathematics. May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

MATH 721: *Algebra II.* 3 credits.
Rings, fields, and Galois theory. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 621.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 722: *Algebraic Topology.* 3 credits.
Covers simplices and simplicial complexes, cycles and boundaries, simplicial homology, homological algebra, homotopy and the fundamental group, cohomology. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 621 and MATH 631 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 723: *Combinatorial Structures.* 3 credits.
Studies structural properties of objects encountered in pure and applied combinatorics. Topics include partially ordered sets, codes, designs, matroids, buildings, symmetrical structures, permutation groups, and face lattices of polytopes. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 321 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 724: *Commutative Algebra.* 3 credits.
Study of commutative rings and their ideals, and of modules over commutative rings and their homological properties. More specific topics include Noetherian rings, primary decomposition, completions, graded rings and dimension theory with applications to algebraic geometry. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 621.

Registration Restrictions:

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 725: *Algebraic Geometry.* 3 credits.
This course is an introduction to Algebraic Geometry. Topic include: Affine Varieties, Projective Varieties, Morphisms, Rational Maps, Nonsingular varieties and curves, Sheaves, Schemes, Divisors, Projective Morphisms, Differentials, and Sheaf Cohomology. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 724

Registration Restrictions:
Required Prerequisites: (MATH 621[B-] or 621[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 732: *Topology II: Set-Theoretic Topology.* 3 credits.
Topics include review of basic set theory (including cardinal numbers products of sets, the Axiom of Choice), definition of topological spaces, bases for topological spaces, forming new topological spaces by taking subspace, quotients, and products, separation properties (Hausdorff, regular, Tychonoff, and normal spaces) compactness, the Lindelof property, separability, connectedness, continuity and homeomorphism, manifolds. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 631 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 740: *Differential Topology.* 3 credits.
Differential forms, manifolds, smooth maps, vector fields, the Euler characteristic, integration on manifolds, and de Rham cohomology. Notes: MATH 740 will be an elective course acceptable (but not required) for the PhD Degree in the Mathematical Sciences offered by the Department of Mathematical Sciences. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 621 and MATH 631, or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 741: *Lie Groups.* 3 credits.
The course is an introduction to Lie Theory. Topics include: Lie Groups and Their Lie Algebras, Homomorphisms, Lie Subgroups, Coverings, Simply Connected Lie Groups, Exponential Map, Continuous Homomorphisms, Closed Subgroups, The Adjoint Representation, Correspondence between Lie groups and Lie algebras, Root Systems, Dynkin Diagrams, Classification of simple Lie algebras, Introduction to Representations of Lie Groups. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 740

Registration Restrictions:
Required Prerequisites: (MATH 621[B-] or 621[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 762: *Complex Analysis II.* 3 credits.
Harmonic functions, generalizations of the maximum principle, entire and meromorphic functions, analytic continuation, and the Riemann mapping theorem. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 661.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 763: *Functions of Several Complex Variables.* 3 credits.
Covers the important results for analytic functions in several variables, including analyticity in several variables and the differences between the theory of one and the theory of several complex variables. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 661 and MATH 762 or an equivalent preparation in one complex variable.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 772: *Wavelet Theory.* 3 credits.
Study of the theory and computational aspects of wavelets and the wavelet transform. Emphasizes computational aspects of wavelets, defining the Fast Wavelet Transform in one and two dimensions. Developing the appropriate numerical algorithms. Includes developing the theory of wavelet bases on the real line, discussing multiresolution analysis, splines, time-frequency localization, and wavelet packets. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 315 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 776: *Measure and Integration.* 3 credits.
Lebesque measure and integration. Theory of Lp spaces with p between one and infinity on the real line. Theory of linear operators on Banach spaces, including the Hahn-Banach theorem, open mapping theorem, closed graph theorem and the uniform boundedness principle. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 675.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 781: *Advanced Methods in Applied Mathematics.* 3 credits.
Bifurcation theory and perturbation methods for solutions in ordinary and partial differential equations. This course will develop and apply these mathematical tools in current scientific fields, such as biology, materials science, or financial mathematics. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 677 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 784: *Nonlinear Functional Analysis.* 3 credits.
Techniques in nonlinear functional analysis with applications. Contraction mapping principle, Frechet and higher derivatives, the implicit function theorem, Lyapunov-Schmidt method, and bifurcation theory. Finite and infinite dimensional degree theory with applications in partial differential equations. Notes: Different backgrounds may be appropriate, but generally, a student is expected to be an upper level graduate student who has already taken Linear Analysis. Since the applications given in the course are for differential equations, some familiarity with differential equations is extremely useful. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 675 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 790: *Classical Potential Theory.* 3 credits.
Potential theory of Laplace's equation in Euclidean space. Harmonic functions, superharmonic functions, potentials, polar sets and capacity, the Dirichlet problem, the Martin boundary, boundary behavior of superharmonic functions using real variable techniques, and minimal fine limit techniques. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: MATH 675 and MATH 776.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MATH 795: *Graduate Seminar.* 1 credit.
Mandatory for all PhD students. Weekly seminar graded on presentations and attendance. Faculty presentations on potential thesis topics and presentations by students. Offered by Mathematics. May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Enrolled in the PhD program in Mathematics.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

MATH 799: *MS Thesis.* 1-6 credits.
Original or compilatory work evaluated by committee of three faculty members. Offered by Mathematics. May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

MATH 800: *Studies for the Doctor of Philosophy in Education.* 1-6 credits.
Program of studies designed by student's discipline director and approved by student's doctoral committee, which brings the student to participate in current research of discipline director and results in paper reporting the original contributions of student. Enrollment may be repeated. Offered by Mathematics. May not be repeated for credit.

Recommended Prerequisite: Admission to the Ph.D. in Education program to study in mathematical sciences.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale.

900 Level Courses

MATH 998: *Doctoral Dissertation Proposal.* 1-9 credits.
Work on research proposal that forms basis for doctoral dissertation. May be repeated for credit. No more than 24 credit hours of 998 and 999 may be applied to doctoral degree requirements. Offered by Mathematics. May be repeated within the degree.

Recommended Prerequisite: Successful completion of qualifying exam.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

MATH 999: *Doctoral Dissertation.* 1-12 credits.
Formal record of commitment to doctoral dissertation research under the direction of a faculty member. May be repeated for credit. No more than 24 credit hours of 998 and 999 may be applied to doctoral degree requirements. Offered by Mathematics. May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

MBA--Interdisciplinary (MBA)

600 Level Courses

MBA 601: *Online MBA Orientation.* 0 credits.
The main objective of this course is to help students understand program expectations and time commitment and prepare themselves for online communication and technology requirements necessary to successfully complete their online MBA degree. Offered by School of Business. May not be repeated for credit.

Recommended Prerequisite: Enrollment in the online MBA program or permission of the MBA academic director.

Registration Restrictions:
Enrollment limited to students in a Master of Business Admin degree.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale.

MBA 603: *Managerial Economics and Decisions of the Firm.* 3 credits.
Provides fundamental understanding of applying microeconomics concepts to managerial decision making. Explores principles of microeconomic theory, including market supply and demand, production and cost functions, industry structure, and product and resource pricing. Offered by School of Business. May be repeated within the degree for a maximum 3 credits. Equivalent to MSF 603.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

MBA 612: *Managing Costs and Evaluating Performance.* 3 credits.
Examines impact of cost and cost allocation on performance and evaluation. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: MBA 613^{B-}, 613^{XS}, GBUS 613^{B-} or 613^{XS}.
$^{B-}$ Requires minimum grade of B-.
^{XS} Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Regular scale.

MBA 613: *Financial Reporting and Decision Making.* 3 credits.
Foundation course focusing on economics and analysis of business transactions and related financial reporting issues. Topics include

introduction to accounting framework used in financial reporting; and analysis of financial statements, economic events and their impact on financial reports, and impact of accounting methods on financial reports. Offered by School of Business. May be repeated within the degree for a maximum 3 credits. Equivalent to GBUS 613.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

MBA 623: *Marketing Management.* 3 credits.
Develops market-based knowledge and skills for effective marketing decision making, strategy design, implementation, and evaluation in wide variety of institutional and competitive situations. Addresses the importance of companies being market-driven and customer-focused. Emphasis on case studies, team work, and projects. Offered by School of Business. May be repeated within the degree for a maximum 3 credits. Equivalent to GBUS 623.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

MBA 633: *Statistics for Business Decision Making.* 3 credits.
Uses statistical methods as analytical tools for understanding and solving business problems and supporting business decision making. Includes descriptive statistics, sampling, inferencing and regression. Extensive use of applied business scenarios to illustrate concepts and computer software for data analysis. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

MBA 638: *Operations Management.* 3 credits.
Focuses on design, planning, and control activities to produce and deliver goods and services in modern organizations. Introduces wide range of operations management decisions, such as operations strategy, process analysis and design, capacity planning, supply chain management, total quality management, and project management. Uses quantitative modeling, case studies, and computer software to analyze and solve operations management problems. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Required Prerequisites: (MBA 633[B-] or 633[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

MBA 643: *Managerial Finance.* 3 credits.
Introduces theory and practice of finance within corporations. Topics include intertemporal choice, valuation, capital budgeting and structure, working capital management, and risk and return analysis. Offered by School of Business. May be repeated within the degree for a maximum 3 credits. Equivalent to GBUS 643.

Registration Restrictions:
Required Prerequisites: (MBA 613[B-], GBUS 613[B-], MBA 613[XS] or GBUS 613[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:

This course is graded on the Graduate Special scale.

MBA 653: *Organizational Behavior.* 3 credits.
Emphasizes development of conceptual tools for understanding and analyzing individual and group behavior in organizations and organizational processes. Considerable focus on developing relevant skills for working in groups and teams. Lectures, discussions, case analyses, and class exercises. Offered by School of Business. May be repeated within the degree for a maximum 3 credits. Equivalent to GBUS 653.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

MBA 662: *Management of Information Technology.* 3 credits.
The strategic, economic and managerial aspects of managing an organization's IT assets are covered. The business value of IT is understood and assessed in context of its impact on the organization's structure and strategy. The course includes discussion on major issues pertaining management of IT infrastructure. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Accounting or Business Administration.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Regular scale.

MBA 678: *Strategic Management.* 3 credits.
Capstone course focusing on strategy development at business unit and corporate level. Cases, readings, and project format familiarize students with strategic management function and help them develop analytical, organizational, and managerial skills to analyze complex business situations. Provides opportunities to integrate knowledge gained in prior course work. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Required Prerequisites: ((MBA 643[B-], 643[XS], GBUS 643[B-] or 643[XS]) and (MBA 603[B-] or 603[XS]) and (MBA 613[B-], 613[XS], GBUS 613[B-] or 613[XS]) and (MBA 638[B-] or 638[XS]) and (MBA 653[B-], 653[XS], GBUS 653[B-] or 653[XS]) and (MBA 623[B-], 623[XS], GBUS 623[B-] or 623[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

700 Level Courses

MBA 701: *Business Valuation.* 0-3 credits.
Develops framework for business analysis and valuation using financial statement data. Analyzes management decisions such as equity valuation, creditworthiness, merger valuation, corporate financial structure, and management communication strategy. Offered by School of Business. May be repeated within the degree for a maximum 3 credits. Equivalent to ACCT 701.

Registration Restrictions:
Required Prerequisites: MBA 613[B] or GBUS 613[B].
[B] Requires minimum grade of B.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 702: *Corporate Financial Policy.* 3 credits.
Applies theories and methods of corporate financial management to series of complex cases. Topics include capital projects as real options, cost of capital and capital structure, firm valuation, project finance, and merger and acquisition analysis. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Required Prerequisites: (MBA 643[B-], 643[XS], GBUS 643[B-] or 643[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

MBA 703: *Financial Markets.* 3 credits.
Explores relationship among financial markets including global equity markets, U.S. Treasury securities, and exchange-traded and over-the-counter financial derivative instruments such as futures, options, swaps, and asset-backed securities. Offered by School of Business. May not be repeated for credit.

Recommended Prerequisite: Completion of MBA core or permission of instructor and MBA 643 with a grade of B or better.

Registration Restrictions:
Enrollment is limited to students with a major in Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

MBA 705: *Venture Capital and Private Finance.* 0-3 credits.
Considers market microstructure of venture capital and private finance: costs and benefits from employing private financing, interaction between the financiers and entrepreneurs, financial analysis of potential ventures, and investor exit strategies. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 706: *Investment Analysis.* 3 credits.
Focuses on analyzing equity securities and debt instruments given implications of efficient market hypothesis and modern capital market theory. Offered by School of Business. May not be repeated for credit.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Required Prerequisites: MBA 643[B-], 643[XS], GBUS 643[B-] or 643[XS].
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

MBA 707: *Futures, Options and Other Derivatives.* 3 credits.
This course focuses on the mechanics of derivatives markets, with a strong emphasis on identifying and managing risks in financial products. Topics include: rationale behind the major pricing models and their application to derivatives securities, arbitrage and pricing, hedging, common trading strategies with options, and the fundamental concepts of risk measures and risk management. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Business Administration.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Master of Business Admin degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MBA 708: *Taxes and Business Strategy.* 0-3 credits.
Provides framework for making managerial decisions in global tax environment. Examines business decisions such as location of facilities, employee compensation, mergers and acquisitions, capital and asset structure, and business form. Offered by School of Business. May be repeated within the degree for a maximum 3 credits. Equivalent to ACCT 708.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 709: *Risk and Portfolio Management.* 3 credits.
This course is focused on asset allocation and portfolio construction, with a strong emphasis on measuring performance and managing risk. Topics include: the rationale behind the most commonly used performance and risk measures and models for portfolio construction, stress testing, scenario analysis, derivative securities, trading strategies, and hedging impact those risk measures and models, and the consequences of those interactions. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:

Enrollment is limited to students with a major in Business Administration.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Master of Business Admin degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MBA 711: *Entrepreneurship.* 3 credits.
Considers fundamental aspects of entrepreneurship and process of new venture creation. Draws on broad range of business disciplines including management, marketing, finance, and accounting to develop evaluation and execution skills. Offered by School of Business. May not be repeated for credit.

Recommended Prerequisite: Completion of MBA core or permission of instructor, and MBA 643 and MBA 653

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

MBA 712: *Project Management.* 3 credits.
Focuses on designing, planning, monitoring, and controlling projects. Involves practical examination of how projects should be managed from start to finish, including specific emphasis on how to avoid common pitfalls. Includes hands-on experience with a common project management software package. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration, Business Admin - Fast Track or Information Security Mgmt.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

MBA 713: *Managing Human Capital.* 0-3 credits.
Effective management of human capital drives values for the firm and, in today's business environment, is a source of competitive advantage. Course prepares managers and entrepreneurs to leverage human capital by aligning practices with strategic objectives. Course provides systems perspective noting interrelationships between practices designed to attract, retain, & motivate human capital. Opportunities provided for personal skill-building on topics; interviewing, providing performance feedback, rewards, career development and termination. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 714: *Managing Growth of Small Businesses.* 0-3 credits.
Focuses on unique challenges faced by small and entrepreneurial firms that seek long-term growth. Builds on concepts and knowledge of creating start-up company, and introduces processes and strategies required to become significant player in industry segment. Designed for students interested in understanding opportunities and problems in their own businesses, employment in small or entrepreneurial businesses, or exploring corporate entrepreneurship within large firms. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA or MSA core requirements or permission of the program director.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 715: *Advanced Project and Program Management.* 0-3 credits.
Examines advanced topics in project and program management with specific attention to issues and skills that managers needs to effectively manage multiple projects and programs. Topics include project selection, multiple project resource allocation, and organization of project office. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Required Prerequisite: MBA 712[B].
[B] Requires minimum grade of B.

Enrollment is limited to students with a major in Accounting, Business Administration, Business Admin - Fast Track or Information Security Mgmt.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 716: *International Business Strategy.* 3 credits.
Focuses on the globalization of business activities, the strategic challenges faced by companies in global competition, and how companies strategically respond to these new competitive challenges. Offered by School of Business. May not be repeated for credit.

Recommended Prerequisite: Completion of MBA core requirements and concurrent enrollment in MBA 678.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

MBA 717: *International Finance.* 0-3 credits.
Advanced analysis of managing firm's international financial operations. Topics include currency risk, political risk, returns and funding of international projects, international markets and accounting, and cost of capital. Lecture, discussion, readings, and cases. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA or MSA core requirements or permission of the program director.

Registration Restrictions:
Required Prerequisites: (MBA 643^{B-}, 643^{XS}, GBUS 643^{B-} or 643^{XS}).
$^{B-}$ Requires minimum grade of B-.
^{XS} Requires minimum grade of XS.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 718: *International Marketing.* 0-3 credits.
Addresses marketing process for products and services within major international markets. Topics include marketing mix strategies using standardization, localization, or globalization approaches. Emphasizes the introduction of service innovations and new products in the global market. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA or MSA core requirements or permission of the program director.

Registration Restrictions:
Required Prerequisites: MBA 623^{B-}, 623^{XS}, GBUS 623^{B-} or 623^{XS}.
$^{B-}$ Requires minimum grade of B-.
^{XS} Requires minimum grade of XS.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 720: *Marketing Analytics.* 3 credits.
Marketing analytics is a systematic approach to harnessing data/information to drive effective marketing decision making. The objective of this course is to equip you with tools required to address fundamental marketing decision problems using a data-driven approach. It will train students to view the marketing processes and relationships systematically and analytically. Offered by School of Business. May not be repeated for credit. Equivalent to GBUS 720.

Recommended Prerequisite: MBA 738 or equivalent.

Registration Restrictions:
Required Prerequisites: (MBA 738^{B-}, 738^{XS}, GBUS 738^{B-} or 738^{XS}).
$^{B-}$ Requires minimum grade of B-.
^{XS} Requires minimum grade of XS.

Enrollment is limited to students with a major in Business Administration.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Master of Business Admin degree.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Regular scale.

MBA 721: *Marketing Research.* 3 credits.
Develops skills to plan and implement effective marketing research studies. Topics include research design, data collection, statistical analysis, and use of database systems. Offers perspective on how managers can use market data to develop successful product or service strategies. Offered by School of Business. May not be repeated for credit. Equivalent to GBUS 721.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Required Prerequisites: MBA 633[C], 633[XS] or 633[XP].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

MBA 722: *Consumer Behavior.* 0-3 credits.
An integrated analysis of internal and external influences on consumer decision making, purchase, and consumption behaviors with attention to marketing strategy implications. Emphasizes demographics, lifestyle, situation, perception, learning, and attitude formation and change, focusing on customer segmentation, satisfaction, loyalty, and product-person relationships. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 723: *Supply Chain Management.* 0-3 credits.
Examines logistics of supply chain systems, including inventory management, distribution channels, and information systems. Emphasizes strategic alliances and international issues. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 724: *Marketing Communications.* 0-3 credits.
Examines all forms of communication and sources of brand or company contacts as potential message channels in building relationship with customers. Focuses on integrated planning process for all communication elements, including consumer and trade advertising, public relations, direct and database marketing, promotions, and sales presentations to achieve synergy in communicating with various constituencies. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of the MBA core or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 725: *Leadership.* 3 credits.
Overview of major conceptualizations of leadership and motivation in organizations. Integrates theory, research, and applications. Students apply principles of leadership and motivation to their own work situations and case evaluation. Offered by School of Business. May not be repeated for credit.

Recommended Prerequisite: Completion of MBA core or permission of instructor and MBA 653.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

MBA 726: *Negotiations.* 3 credits.
Focuses on theory, processes, and practice of negotiation within and across organizations, including attention to ethical issues. Explores systematic ways to increase quality of negotiated agreements, including methods of preparation, effective communication, and various strategies to increase power. Format includes negotiation exercises, lecture, and discussion. Offered by School of Business. May not be repeated for credit.

Recommended Prerequisite: Completion of MBA core.

Registration Restrictions:

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

MBA 727: *Management Consulting.* 3 credits.
Management Consulting is a practice-based course designed to provide a fundamental background in consulting, both from the perspective of the outside management consultant, and the inside (in-house) corporate consultant. Students will examine best practices in consulting to address complex organizational challenges and opportunities within a medium-to-large sized corporate setting. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Business Administration.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Master of Business Admin degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MBA 728: *Organizational Change.* 3 credits.
Organizational Change Management (MBA 728) presents a systems view of organizational change that includes intervention strategies, data collection, diagnosis, and the integration and management of system-wide organizational change. The course begins with the investigation of previously defined organizational change management theories and explores the relevance of those theories in the 21st century organization. MBA 728 is designed to expose the student to an array of academic theories and models that challenge the intellectual perception of organizational change. The objective of this challenge is to introduce the student to the unique nature of all organizational change initiatives while creating a foundation that will support the real-time integration of more successful change within their respective organization. Offered by School of Business. May not be repeated for credit.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Management.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 730: *Management of Technology and Innovation Processes.* 0-3 credits.
Students will develop a strong conceptual foundation for managing technological innovation. It introduces frameworks for analyzing how firms can create, commercialize and capture value from products and services. Topics covered comprise the formulation of innovation strategies, the process of developing new products and services, and how to create and manage an innovative organization to drive revenue growth. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Admission to the MBA program or permission of the program director.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 738: *Data Mining for Business Analytics.* 3 credits.
Examines data driven decision making. Covers both predictive and descriptive analytics techniques commonly used in businesses. Offered by School of Business. May not be repeated for credit. Equivalent to GBUS 738.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Required Prerequisites: MBA 633[C], 633[XS] or 633[XP].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

MBA 739: *Advanced Data Mining for Business Analytics.* 3 credits.
This course covers business analytics using advanced data mining methods for the purposes of developing predictive models and forecasting. The course will develop concept of feature selection to identify what dimensions to best use for constructing decision making models. Offered by School of Business. May not be repeated for credit. Equivalent to GBUS 739.

Recommended Prerequisite: Grade of B or higher in MBA 738 or equivalent.

Registration Restrictions:
Required Prerequisites: (MBA 738[B-], 738[XS], GBUS 738[B-] or 738[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Business Administration.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Master of Business Admin degree.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Regular scale.

MBA 740: *People Analytics.* 3 credits.
This course seeks to develop business leaders who understand how people data can be leveraged to improve firm performance. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MBA 738[B] or GBUS 738[B]).
[B] Requires minimum grade of B.

Enrollment is limited to students with a major in Business Administration.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Master of Business Admin degree.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Regular scale.

MBA 742: *Governance and Ethics.* 0-3 credits.
Focuses on developing understanding of corporate governance issues and ethical decision-making. Topics include examination of internal and external and international governance issues, and ethical analysis in current business environment. Offered by School of Business. May be repeated within the degree for a maximum 3 credits. Equivalent to ACCT 742.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 744: *Fraud Examination.* 0-3 credits.
Introduces strategies and techniques for fraud prevention and detection. Focuses on financial fraud such as bribery, contract rigging and kickbacks, embezzlement, fraudulent financial reporting, payroll fraud, and misappropriation of inventory and other assets. Offered by School of Business. May be repeated within the degree for a maximum 3 credits. Equivalent to ACCT 636, GBUS 744.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 745: *International Financial Reporting.* 0-3 credits.
Examines accounting from an international perspective, including the study of various functional areas of accounting across countries and the reporting requirements encountered by companies engaged in international trade and making foreign direct investments. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA or MSA core requirements, or permission of program director.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 746: *Real Estate Analysis and Valuation.* 0-3 credits.
Overview of real estate assets, markets, and decisions. Emphasizes development of analytical techniques and information required for implementation. Includes legal, economic, and public policy perspectives. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA or MSA core requirements or permission of the program director.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 748: *Real Estate Investment.* 0-3 credits.
Develops frameworks for analyzing decisions about investing in real estate assets. Focuses on acquisition and analysis of information required to evaluate potential performance of assets. Applications of theories and techniques through case studies. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA or MSA core requirements or permission of the program director.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 752: *Turning Ideas into Successful Companies.* 0-3 credits.
An advanced course in entrepreneurship focused on discovery and development of an achievable business concept. The centerpiece of the course is development of the formal business plan and associated presentation materials. Students are assigned to teams and must hypothesize a new business, research and test their hypothesis, and develop a comprehensive written business plan. The plan must be for an actual business that the students intend to start upon the successful completion of the course. Technology-based projects are encouraged, but not required. Because the course is cross-listed with IT&E and the School of Business, most teams will include both engineering and business students. Weekly presentations of the team's progress are required. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA or MSA core requirements or permission of the program director.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

MBA 795: *Global Business Perspectives.* 3 credits.
Applies MBA core courses to global business enterprise through site visits to facilities located outside the United States. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Required Prerequisites: (MBA 678^{*B-} or 678^{XS}).
* May be taken concurrently.
$^{B-}$ Requires minimum grade of B-.
^{XS} Requires minimum grade of XS.

Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Graduate Special scale.

MBA 796: *Directed Studies in Business Administration.* 1-3 credits.
Approval by faculty member and MBA program director required prior to registration. Studies specialized topics in business administration not otherwise available in curriculum. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA or MSA program or permission of the program director.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

MBA 797: *Special Topics in Business.* 1-3 credits.
Sections established as necessary to focus on various topical issues that emerge in practice of business administration. Offered by School of Business. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

Mechanical Engineering (ME)

100 Level Courses

ME 151: *Practicum in Engineering.* 2 credits.
This course provides students with experiences in algorithmic thinking, visualization and communications. An essential component of this course is preparation of students for the National Academy of Engineering Grand Challenge Scholars Program. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (CS 112[C], 112[XS] or ENGR 125T) and (ENGH 100[C], 100[XS], 101[C], 101[XS], HNRS 110[C] or 110[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

ME 211: *Statics.* 3 credits.
An initial course in applied vector mechanics with emphasis on static equilibrium. Topics include forces, moments, couples, equivalent force-couple systems, centroids, distributed forces, and Coulomb friction. The application of the free body diagram in the analysis of static equilibrium of frames, machines and trusses is stressed. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (PHYS 160[C] or 160[XS]) and (PHYS 161[C] or 161[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 212: *Solid Mechanics.* 3 credits.
A first course in mechanics of deformable bodies with emphasis on the engineering approach to the responses of these bodies to various types of loadings. Topics include stress-strain relationships, stress-strain analysis, stress and strain transformation (Mohr's circle), load-deflection, bending, torsion, buckling, and thermal effects. Offered by Mechanical Engineering. Limited to two attempts.

Recommended Corequisite: MATH 214.

Registration Restrictions:
Required Prerequisites: ME 211[C] or 211[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 221: *Thermodynamics.* 3 credits.
A basic thermodynamics course in which the first and second laws of thermodynamics are studied primarily from the classical macroscopic viewpoint and applied to both closed and open systems. Working substances include perfect gases, real gases and vapors in addition to solids and liquids. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MATH 113[C], 113[XS], 115[C], 115[XS], 124[C] or 124[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 231: *Dynamics.* 3 credits.
A course in classical vector dynamics. Topics include vector algebra and calculus, kinematics and kinetics of particles and rigid bodies, as well as energy and momentum methods. Extensive problem solving involving particle and rigid body motion is required. Offered by Mechanical Engineering. Limited to two attempts.

Recommended Corequisite: MATH 214.

Registration Restrictions:
Required Prerequisites: ME 211[C] or 211[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

ME 311: *Mechanical Experimentation I.* 1 credit.
Experimental measurements in solid mechanics and materials science. Involves technical report writing. Offered by Mechanical Engineering. Limited to two attempts.

Recommended Corequisite: ME 313.

Registration Restrictions:
Required Prerequisites: ME 212[C] or 212[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

ME 313: *Material Science.* 3 credits.
An introductory course in physical and mechanical properties of engineering design materials, ceramics and plastics, their structures, use in engineering applications and failure phenomena. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: ((((CHEM 211[C] or 211[XS]) and (CHEM 213[C] or 213[XS])) or CHEM 251[C] or 251[XS] or ((CHEM 271[C] or 271[XS]) and (CHEM 272[C] or 272[XS]))) and (ME 212[C], 212[XS], BENG 230[C] or 230[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Bioengineering or Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 321: *Mechanical Experimentation II.* 1 credit.
Experimental measurements in fluid mechanics and heat transfer. Involves technical report writing. Offered by Mechanical Engineering. Limited to two attempts.

Recommended Corequisite: ME 323.

Registration Restrictions:
Required Prerequisites: (ME 322[C] or 322[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

ME 322: *Fluid Mechanics.* 3 credits.
An introductory course in fluid dynamics stressing both the integral and differential forms of the conservation laws of fluid flow. Engineering applications are made to hydrostatics and to ideal and real fluid flows. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (ME 221[C] or 221[XS]) and (ME 231[C] or 231[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 323: *Heat Transfer.* 3 credits.
Study of thermal radiation, steady and transient conduction, laminar and turbulent convection, internal and external flow, boundary layers and empirical correlations. Applications address fins, nuclear reactor cooling, heat exchangers and interactive computing. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (ME 322[C] or 322[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 331: *Mechatronics.* 3 credits.
Study of electromechanical systems, utilizing the fundamentals of circuit theory to design, build, and control mechanical devices. Topics include electrical devices, sensors, microcontrollers, data acquisition, instrumentation and interfaces. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: ECE 330[C] or 330[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Mechanical Engineering.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 341: *Design of Mechanical Elements.* 3 credits.
Fundamentals of mechanical design. Introduction to the fundamentals of static and fatigue failure theories, design of basic machine elements such as fasteners, bearings, gearing and shafts. Builds on the fundamentals of design introduced in earlier courses by introducing the concepts of customer requirements, specification development, reverse engineering, functional decomposition, and design for manufacturing. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (ME 212[C] or 212[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 342: *Design of Thermal Systems.* 3 credits.
A study of equipment which operates on principles of thermodynamics and fluid mechanics is used to reinforce analyses and design of gas and vapor power cycles, refrigeration and air conditioning, propulsion systems, combustion, energy conversion and compressible flow. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (ME 221[C] or 221[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 351: *Analytical Methods in Engineering.* 3 credits.
Survey of advanced mathematics topics needed in the study of engineering. Topics include vector differential and integral calculus, matrix analysis, partial differential equations, complex variables, numerical methods, data analysis using statistics and probability theory. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (ME 151[C] or 151[XS]) and (MATH 214[C], 214[XS], 216[C] or 216[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 352: *Entrepreneurship in Engineering.* 3 credits.
Introduces students to the concept of entrepreneurship and how to translate technical skill sets to commercial success. Topics include creating a business plan, pitching ideas, risk mitigation, and selecting investment alternatives. Emerging technology related to Mechanical Engineering will be analyzed in this context. Offered by Mechanical Engineering. Limited to two attempts.

Recommended Prerequisite: Completion of at least 15 credits hours in major courses.

Registration Restrictions:
Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

ME 414: *Fatigue Analysis.* 3 credits.
This course is an introduction to some of the main concepts of deformation processes leading to fracture; linear elastic fracture mechanics and fatigue crack propagation. Fatigue and fracture of a wide variety of materials including metals, composites, and biomaterials will be covered. Particular attention will be given to fatigue analysis of metals and composites used in aerospace structures, natural biomaterials such as bone and additively manufactured metals (metal 3D printing)ina and laminated materials. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (ME 313[C] or 313[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 415: *Composite Materials.* 3 credits.
This course will develop an understanding of the structural mechanics of composite materials and applications in aerospace, civil, and mechanical engineering. Students will identify fundamental relationships for predicting the mechanical response of multi layered materials and structures and micromechanical and macromechanical relationships for lamina and laminated materials. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (ME 313[C] or 313[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 421: *HVAC Design.* 3 credits.
Included in this course is an introduction to thermodynamics, fluid mechanics and heat transfer as they apply to Heating, Ventilation, and Air Conditioning (HVAC). Emphasis is on understanding the refrigeration cycle, psychrometrics, building heating, cooling, and ventilation load estimation, duct design including insulation material selection, vibration and noise control, building energy efficiency concepts, building system controls, and system component selection. Offered by Mechanical Engineering. Limited to two attempts.

Recommended Prerequisite: ME 342

Registration Restrictions:
Required Prerequisites: (ME 323[C] or 323[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 425: *Renewable Energy Engineering.* 3 credits.
Study of renewable resources and the technology used to convert these to usable forms of energy. Solar PV, Solar Thermal, Wind, Hydro, Tidal, Geothermal, Biomass and the economics driving the system design process will be discussed. Offered by Mechanical Engineering. Limited to two attempts.

Recommended Prerequisite: ME 352 or CEIE 301

Registration Restrictions:
Required Prerequisites: (PHYS 260[C] or 260[XS]) and (ME 322[C], 322[XS], CEIE 240[C] or 240[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Civil and Infrastructure Engr, Environmental Engineering or Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 431: *Systems Dynamics.* 3 credits.
A first course which deals with the mathematical modeling of dynamic systems and response analysis of these systems. Topics include state variable and transfer functions, mathematical analysis of systems response, and the use of computational tools for modeling, design, and simulation. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (ME 231[C] or 231[XS]) and (PHYS 260[C], 260[XS], 261[C] or 261[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 432: *Control Engineering.* 4 credits.
Introduces fundamentals of feedback and modern control theory. Topics include analysis of mechanical and thermal systems by root locus and frequency response techniques. Use of sensors and transducers in control systems, data acquisition and analysis. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (ME 351[C] or 351[XS]) and (ECE 285[C], 285[XS], 330[C] or 330[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 443: *Mechanical Design I.* 3 credits.
The first course in a two-semester capstone design sequence. Topics include the engineering design process, project management, codes and standards, engineering ethics, and computer-aided design. Students form design teams, select a capstone design project and progress through the proposal and preliminary design stages of the project. The capstone design project continues in ME 444. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (ME 212[C] or 212[XS]) and (ME 313[C] or 313[XS]) and (ME 323[C] or 323[XS]) and (ME 341[C], 341[XS], 342[C] or 342[XS]) and (ME 351[C] or 351[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 444: *Mechanical Design II.* 3 credits.
The second of the two-semester capstone design course sequence. Students continue with concept selection, detail design, prototyping and evaluation of their major design projects. Formal presentations and reports are prepared to review and document the designs. Offered by Mechanical Engineering. Limited to two attempts.

Mason Core: Capstone

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: ME 443[C] or 443[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 445: *Finite Element Analysis.* 3 credits.
This course will develop an understanding of how finite element analysis (FEA) can be applied to mechanics and thermal fluids problems. Students will apply the mathematics of FEA to solve engineering problems and utilize software packages to aid in analysis. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (ME 351[C] or 351[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 446: *Energetics.* 3 credits.
This course will develop an understanding of the basic science of energetic systems. Basic properties of explosives, propellants, and pyrotechnics will be discussed; as well as basics systems and safety engineering using energetic materials. Application of energetic materials in different industries (i.e. automotive air bags as well as oil/gas industries) will be discussed. Offered by Mechanical Engineering. Limited to two attempts.

Recommended Prerequisite: ME 313

Registration Restrictions:
Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 447: *Computer Design.* 3 credits.
This is an introductory course to tools used in computer-aided design. Students will explore the role of Computer Design in mechanical component and system design by creating geometric models and engineering drawings. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisite: ME 151[C].
[C] Requires minimum grade of C.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 453: *Developing the Societal Engineer.* 2 credits.
A course which highlights, through speakers, discussions and workshops, the professional responsibility of a being a mechanical engineer. Additional topics that will be covered include ethical issues, current events and trends in the profession. Engineering case studies will be explored. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: ME 443[*C] or 443[*XS].
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 454: *Project Mgmt for Engineers.* 3 credits.
Introduction to the fundamentals of project management. Students will understand the proposal process, apply decision-making and analysis tools to select a winning proposal, perform network scheduling techniques to identify the critical path for a project, and understand and apply the interpersonal skills to lead and manage highly effective project teams. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Bioengineering, Civil and Infrastructure Engr or Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 471: *Introduction to Astronautics.* 3 credits.
Astronautics is the study of space and its uses. This course will introduce the student to multiple aspects of space and space sciences, such as orbital mechanics, satellite subsystems, space systems engineering, launch, and re-entry. Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (ME 231[C] or 231[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 472: *Spacecraft Subsystems.* 3 credits.
Spacecraft are complex systems of systems made up of many separate subsystems. In this course we shall study the various types of subsystems, learn their functions and major components, and understand the interaction between them to make a functional spacecraft. Offered by Mechanical Engineering. Limited to two attempts.

Recommended Corequisite: ME 471

Registration Restrictions:
Required Prerequisites: (ME 231[C] or 231[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 473: *Spacecraft Propulsion.* 3 credits.
Analysis of aircraft and missile propulsion systems; fundamentals of jet propulsion including air breathing and rocket engines. Introduction to advanced propulsion systems for space flights such as nuclear, thermonuclear. Offered by Mechanical Engineering. Limited to two attempts.

Recommended Prerequisite: ME 471

Registration Restrictions:
Required Prerequisites: (ME 221[C] or 221[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 475: *Aeronautics I.* 3 credits.
Aeronautics I will expose students to the applied science of atmospheric flight. The course focuses on aircraft and introduces elements that are incorporated into design, manufacture and performance of flight-capable, air-breathing machines operating within the troposphere Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: ((ME 212[C] or 212[XS]) and (ME 322[C] or 322[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 476: *Aeronautics II.* 3 credits.
Aeronautics II is the second course of the two course sequence and extends the principles and topics covered in Aeronautics I regarding the applied science of atmospheric flight. The course focuses on the air transportation environment, aircraft flight vehicle performance, rotary wing aircraft, stability and control within the troposphere and . Offered by Mechanical Engineering. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (ME 475[C] or 475[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

ME 498: *Independent Study in Mechanical Engineering.* 0-4 credits.
Directed self-study of topics of special interest. Offered by Mechanical Engineering. May be repeated within the term for a maximum 6 credits.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

ME 499: *Special Topics in Mechanical Engineering.* 0-4 credits.
Topics of special interest to undergraduates. Notes: May be repeated for credit when topic is different. Offered by Mechanical Engineering. May be repeated within the term for a maximum 24 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

ME 500: *Special Topics.* 0-4 credits.
Select contemporary topics in Engineering and Computing. Offered by Mechanical Engineering. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

ME 521: *Energy Transfer.* 3 credits.
Study of thermal fluid sciences related to energy systems. Provides foundations in thermodynamics, mass transfer, fluid mechanics, and heat transfer in steady systems. Covers modelling and analysis of engineering devices such as pumps, heat exchangers, turbines, and airfoils which

constitute energy systems. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 531: *Energy Transmission.* 3 credits.
Introduces analysis of local and national electrical grids used for power transmission and develops understanding of economic constraints on energy systems. Students will model energy transmission systems with dynamic loads ensuring energy security and optimal performance. Advanced topics such as forecasting for renewable energy integration, smart grid implementation, and utilization of emerging energy storage technology are covered. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 541: *Power Generation.* 3 credits.
Study of traditional and advanced power generation technology. Builds upon conservation principles of mass, energy, and momentum to analyze, model and optimize energy systems based on physical principles. Specific attention will be paid to site specific conditions for generation. Advanced cycles will be covered which utilize fossil fuel, renewable, and nuclear energy. Offered by Mechanical Engineering. May not be repeated for credit.

Recommended Prerequisite: ME 521.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 542: *Energy Utilization.* 3 credits.
Covers energy utilization by end users. Technology and system integration are covered for applications such as combined heat power units and transportation. Students will use energy audit techniques to identify and minimize energy losses from the demand side. Investment, payback, and subsidies for purchasing energy system updates will be evaluated. Offered by Mechanical Engineering. May not be repeated for credit.

Recommended Prerequisite: ME 521.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 551: *Naval Engineering.* 3 credits.
This course will provide learners exposure to specific needs of naval vessels. Through understanding a design's concept of operations and mission, students will learn how to identify needed vessel capabilities and integration, such as radar and sonar, combat systems, damage control, and special mission systems to support unmanned and manned air, surface, sub-surface vessels and other payloads. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 552: *Fundamentals of Naval Architecture.* 3 credits.
Students learn the fundamentals of naval architecture including ship geometry and definitions, intact, damaged, and submarine stability and trim, structural fundamentals, resistance and propulsion, seakeeping, maneuverability, and control. Case studies are utilized to provide a real-world grounding to the academic work in this class. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 553: *Ship Design Process and Tools.* 3 credits.
Students are taught the theory and practice of ship design. Topics will include the development of requirements, the design spiral, set-based design, application of computational tools to efficient evaluation of the design space, ship classification, and cost. The class culminates in a ship design project. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (ME 551[B-] and 552[B-]).
[B-] Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 554: *Naval Project Management.* 3 credits.
Students will be taught key concepts in program and project management for defense acquisition, maintenance, and modernization efforts. Through lectures, case studies, and practical exercises, learners will better understand how to bring a design from the drafting table to the fleet. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

ME 620: *Mechanical Engineering Decision Making.* 3 credits.
Fundamentals of decision making with applications to mechanical engineering product and systems design, system reliability, and system operation and maintenance; product/system evaluation and optimization; design and systems theory; and social choice theory. This course takes the view that engineers are decision makers and presents the fundamentals of good decision making in the context of mechanical engineering. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 621: *Foundations of Fluid Mechanics.* 3 credits.
Derivation of the fundamental equations of fluid mechanics, including the Navier-Stokes equations, conservation of mass, and the vorticity transport equations. Vector and Cartesian tensor notation are used throughout. Equations of motion are applied to incompressible viscous and inviscid flows. Some aspects of turbulence are discussed. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 698: *Research Study in Selected Mechanical Engineering Topics.* 3 credits.
This is a research based course that allows graduate students to work on a special research topic. Offered by Mechanical Engineering. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Graduate Student Standing and Permission of the Instructor

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

ME 699: *Advanced Special Topics in Mechanical Engineering.* 3 credits.
Advanced topics in mechanical engineering will be taught in this course. Offered by Mechanical Engineering. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Permission of the Instructor

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

ME 714: *Fracture Mechanics.* 3 credits.
Investigation of linear elastic and elastic-plastic fracture mechanics. Topics include: theory of elasticity and plasticity, energy and stress approach to fracture mechanics, methods to determine the stress intensity factor, fracture mechanics testing, fatigue crack growth. Develop a basic understanding of how crack-like defects impact performance in structures and learn how to select materials to ensure damage tolerance. Offered by Mechanical Engineering. May not be repeated for credit.

Recommended Prerequisite: Introductory graduate level course in advanced strength of materials or theory of elasticity, or consent of the instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 715: *Impact Dynamics.* 3 credits.
Includes advanced dynamics of impact, impact biomechanics, as well as vehicle crashworthiness standards and accident data analysis. Students will learn about FMVSS and NCAP crash tests. FARS and NASS real world accident databases, and methods to analyze crash and accident data. Offered by Mechanical Engineering. May not be repeated for credit.

Recommended Prerequisite: ME 231, ME 212 or equivalent courses.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 721: *Advanced Fluid Mechanics.* 3 credits.
The course is intended to provide engineering students with the opportunity to apply theoretical ideas developed in ME 621 to specific problems in inviscid and viscous flows, including turbulence. We will be exclusively concerned with incompressible flows. Although this is not a CFD course, a full understanding of theoretical aspects of fluid mechanics is a prerequisite for understanding and using CFD-simulations. Models used in CFD such as k-epsilon, Reynolds-averaged Navier-Stokes (RANS), Large-eddy (LES), and Direct (DNS) will be discussed. Specially designed projects are intended to enable students to apply what they have learned to different flow situations. Offered by Mechanical Engineering. May not be repeated for credit.

Recommended Prerequisite: ME 621

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 722: *Introduction to Turbulence.* 3 credits.
Introduces beginning graduate students to the theory of turbulence. The theory of homogeneous-isotropic turbulence is introduced, followed by a discussion of sheared and wall-bounded turbulence. Some aspects of coherent structures in turbulence will be introduced as well as models used in computing turbulence. Specially designed projects are intended to enable students to apply what they have learned to different flow situations. Offered by Mechanical Engineering. May not be repeated for credit.

Recommended Prerequisite: ME 621.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 723: *Compressible Flow.* 3 credits.
This course is intended to provide engineering students with the opportunity to study the fluid mechanics of a compressible gas. Topics of interest include one-dimensional gas flows, flow of gas in convergent-divergent ducts, choked flows, high speed flows, physical acoustics, and shock waves. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 724: *Viscoelastic Flow.* 3 credits.
Many flows in nature behave very differently than air or water. Such flows may possess elasticity, or may have complex viscosities. Examples include blood, corn starch solutions, and solutions of high molecular weight polymers. This course will introduce the students to the theoretical methods that are needed to model the behavior of such viscoelastic fluids. Offered by Mechanical Engineering. May not be repeated for credit.

Recommended Prerequisite: ME 621

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 728: *Foundations of Heat Transfer.* 3 credits.
This course provides an introduction to the mechanisms of heat transfer. The course first covers the fundamentals of conduction, natural and forced convection, radiation, and phase-change heat transfer. Modeling of thermal systems, such as thermosyphons or heat exchangers, will be emphasized. The semester concludes with important and emerging application areas, including heat transfer in biological systems, sustainable power generation, and nanoscale heat transfer. Grades are determined by performance on homework, journal article review, final project, and take-home midterm and final examinations. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 732: *Advanced Thermodynamics.* 3 credits.
An advanced thermodynamics course for graduate students in engineering, incorporating both classical and statistical thermodynamics. Explores the origins of thermodynamic parameters and equations such as equations of state, heat capacities, and Maxwell Relations. Students develop the ability to apply these principles to challenges in modern engineering research in fields such as molecular simulation, materials, biotechnology, and mechanics. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 740: *Introduction to Continuum Mechanics.* 3 credits.
This course covers tensor analysis, state of stress, material and spatial descriptions of motion of a continuous medium, kinematics of deformation, general principles of solid mechanics, fluid mechanics and thermomechanics and balance principles: mass, momentum, and energy. Constitutive equations of large-deformation elasticity, and an introduction to inelasticity are also covered. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 741: *Theory of Elasticity.* 3 credits.
This course is intended to introduce graduate students to the field of linear elasticity. The governing equations of linear elasticity are developed before solving the problems of plane elasticity. The course also covers boundary value problems and the Airy stress function method associated with plane elasticity. Specialized topics may include: three-dimensional problems, energy and numerical methods. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 742: *Finite Element Analysis for Solids.* 3 credits.
This course focuses on numerical solutions of elasticity/inelasticity and heat transfer. Strong and weak forms as general solution processes for differential equations are presented. Formulation of finite elements and interpolation functions and overall solution processes with the finite element method are covered. MATLAB programing is used for coding and in addition a modern (commercial) finite element code is discussed. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 745: *Mechanics and Properties of Materials.* 3 credits.
This course is intended to introduce graduate students to the field of solid mechanics. The theories of elastic stress and strain are covered before moving on to inelastic behavior. Torsion and bending of solid and thin-walled bars are covered. Specialized topics include: buckling, fatigue and fracture mechanics. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 750: *Nanomaterials Enabled Renewable Energy.* 3 credits.
This course is intended to introduce beginning graduate students to the advanced nanomaterials, as well as their applications in renewable energy, i.e. photovoltaics and energy storage devices. Students will investigate how nano-materials can be used to harness renewable energy. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 751: *Advanced Materials for Water Treatment.* 3 credits.
This course is intended to introduce graduate students to the specific advanced materials which play an important role in the water treatment. In particular, the course will focus on water desalination and water purification. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 753: *Tribology.* 3 credits.
Tribology is the study and application of the friction, lubrication and wear principles in engineering and design. This course covers the contact of surfaces, mechanics of friction, surface failures/wear, boundary lubrication, fluid properties, thin/thick film (elastohydrodynamic/hydrodynamic) lubrication, and an introduction to emerging tribology (micro/nanotribology and biotribolgy). Tribology is an interdisciplinary area, and most importantly still has many unknowns. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 754: *Introduction to Nano-Materials.* 3 credits.
Introduction to the properties of nanomaterials, nanotechnology and their applications in energy, environmental, biology, and medicine. General discussion of nanotechnology, from multidisciplinary fundamental research to consumer products, suitable for all levels and specializations. This course provides an opportunity for students to learn the superior properties of nanomaterials, the evolving nanotechnology which lies at the interfaces of chemistry, physics and biology, and their broader impact nowadays. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 755: *Optofluidics.* 3 credits.
Optofluidics is an emerging field which seeks to understand fluids and optics at micro and nanoscale. This course provides an overview of the fundamental physics of optics and fluid mechanics (e.g. the Maxwell equations and the Navier-Stokes equations) and discusses how they interact at small scales to create many new applications. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ME 762: *Biosensors.* 3 credits.
The objective of this course is to introduce the fundamentals and applications of biosensors including concepts of biosensors, physics and mechanisms of sensing signal transduction, device fabrications/engineering principles, system integrations, chemistry and materials science of nanomaterials, biomolecules associated with detection strategies, and various applications. Offered by Mechanical Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

ME 990: *Dissertation Topic Presentation.* 1 credit.
Students put together a professional presentation of a research proposal and present it for critique to fellow students and interested faculty. Notes: May be repeated with change of research topic, but credit toward doctoral degree is given once. Offered by Mechanical Engineering. May not be repeated for credit.

Recommended Prerequisite: Completion of all coursework for the PhD in Mechanical Engineering, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Research

Grading:
This course is graded on the Satisfactory/No Credit scale.

ME 998: *Doctoral Dissertation Proposal.* 1-12 credits.
Work on research proposal that forms basis for doctoral dissertation. Notes: No more than 24 credits of ME 998 and 999 may be applied to doctoral degree requirements. Offered by Mechanical Engineering. May be repeated within the degree for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

ME 999: *Doctoral Dissertation.* 1-12 credits.
Admission to Doctoral candidacy. Students must submit the Doctoral proposal and have it approved prior to registering for this course. Students may not take ME 998 and 999 at the same time. NOTE: Students must contact the department to receive approval and CRN to register. Offered by Mechanical Engineering. May be repeated within the degree for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Medical Laboratory Science (MLAB)

200 Level Courses

MLAB 200: *Introduction to Medical Laboratory Science.* 1 credit.
Introduction to the profession of Medical Laboratory Science. Offered by Biology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

MLAB 300: *Science Writing.* 2 credits.
Intensive practice in biological science writing. Science Writing will fulfill the university's writing intensive requirement as well as prepare Medical Laboratory Science students for the types of writing that they will encounter in the industry including, but not limited to: writing, resumes, grants, cover letters, etc. A transfer student who has previously taken an equivalent course to BIOL 308 that did not meet the writing intensive requirements in the major may pair this with the transferred BIOL 308 to L308 and meet the writing intensive experience in the Biology major. Offered by Biology. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

MLAB 401: *Orientation to the Problems and Practices of the Clinical Laboratory.* 1-2 credits.
Orientation to clinical lab; specimen collection and record keeping; management principles and problems; educational theories as they apply to the teaching of clinical laboratory procedures; and quality control principles. Notes: Not offered on campus. Offered by Biology. May be repeated within the term.

Recommended Prerequisite: Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

MLAB 402: *Clinical Hematology and Coagulation.* 2-3 credits.
Morphology of blood cells in health and disease; theories of hematopoiesis and coagulation; techniques for measurement of hematologic parameters; and hematologic pathologies and their lab evaluation. Notes: Not offered on campus. Offered by Biology. May be repeated within the term.

Recommended Prerequisite: Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

MLAB 403: *Clinical Microscopy.* 1-3 credits.
Methods for the routine examination of urine, feces, and certain other body fluids, especially the microscopic identification of normal and pathologic components. Includes a study of the kidney and theories of microscopy. Notes: Not offered on campus. Offered by Biology. May be repeated within the term.

Recommended Prerequisite: Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Schedule Type: Independent Study

Grading:

This course is graded on the Undergraduate Regular scale.

MLAB 404: *Serology and Immunohematology.* 1-7 credits.
Clinical lab procedures involving antigen-antibody reactions, and theoretical bases of such procedures. Includes both diagnostic and blood bank techniques. Notes: Not offered on campus. Offered by Biology. May be repeated within the term.

Recommended Prerequisite: Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

MLAB 405: *Clinical Microbiology.* 1-8 credits.
Biology and pathology of bacteria, rickettsia, fungi, parasites, and viruses of clinical importance and their culture and identification. Notes: Not offered on campus. Offered by Biology. May be repeated within the term.

Recommended Prerequisite: Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

MLAB 406: *Clinical Chemistry.* 1-10 credits.
Chemical reactions and procedures used in clinical determinations on blood, urine, and cerebral spinal fluid. Includes manual, automated methods of chemical analyses. Notes: Not offered on campus. Offered by Biology. May be repeated within the term.

Recommended Prerequisite: Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

MLAB 407: *Clinical Molecular Biology.* 1-15 credits.
Course presents advanced methods in nucleic acid testing to human medico-legal, forensic, and pathology applications. Topics include but are not limited to: Polymorphisms, Paternity Testing, Single Nucleotide Polymorphisms, Bone Marrow Engraftment, Mitochondrial DNA Polymorphisms and Disorders, Chromosomal Abnormalities, Single Gene Disorders, Lysosomal Storage Disorders, Cystic Fibrosis, and Quality Assurance in the Molecular Biology laboratory. Offered by Biology. May be repeated within the degree.

Recommended Prerequisite: Complete of requirements for BS with a major in Medical Laboratory Science except for the 30 credits professional study.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

MLAB 408: *Clinical Histology.* 1-15 credits.
Introduction to the field of Histotechnology including lectures on tissue fixation, processing and embedding, microtomy, and staining. Offered by Biology. May be repeated within the term.

Recommended Prerequisite: completion of requirements for BS with major in Medical Laboratory Science except for the 30 credits of professional study.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

MLAB 409: *Clinical Histology Practicum.* 1-15 credits.
Hands-on rotations in histologic fixations, tissue processing, slide preparation and staining. Offered by Biology. May be repeated within the term.

Recommended Prerequisite: Completion of requirements for BS with major in Medical Laboratory Science except for the 30 credits of professional study.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

MLAB 410: *Medical Virology.* 1-2 credits.
This course is a survey of the characteristics, pathogenicity, and laboratory diagnosis of important human viruses. Topics include viral taxonomy and classical virology. Special emphasis is placed on the epidemiology and the laboratory's role in influenza pandemics. Offered by Biology. May be repeated within the degree for a maximum 10 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MLAB 411: *Board Exam Preparation.* 1-4 credits.
This course is a structured review and practice in preparation for the American Society for Clinical Pathology Technologist in Microbiology Board of Certification Exam. Practice tests and questions from a variety of published and authoritative sources are used to reinforce the content of the Technologist in Microbiology program. Offered by Biology. May be repeated within the degree for a maximum 10 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MLAB 412: *Medical Mycology.* 1-2 credits.
This course is a comprehensive presentation of medically important fungi. Emphasis is placed on clinical presentation and laboratory identification of pathogenic species and opportunistic pathogens. Topics include general mycology methods, yeasts, susceptibility testing, molds (Hyaline, Mucor, Dematiaceous), Dermatophytes, Systemic infections, and Pneumocystis. Offered by Biology. May be repeated within the degree for a maximum 10 credits.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

MLAB 413: *Medical Parasitology.* 1-4 credits.
This course is a comprehensive presentation of human parasites. Emphasis is placed on clinical presentation and laboratory identification. Topics include Flagellates, Ciliates, Coccidians, Malaria and Babesia, Other Blood Born and Tissue Born parasites, Nematodes, Cestodes, Trematodes, and Arthropods. Offered by Biology. May be repeated within the degree for a maximum 10 credits.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

MLAB 414: *Molecular Detection of Infectious Disease.* 1-4 credits.
This course examines the advances in using molecular methods to detect human infectious disease. Careful attention is given to the comparison of molecular technologies with traditional microbiology methods. Topics include molecular methods and applications, including PCR, sequencing, TMA, and PEGE; specimens of choice, sample preparation, Quality Control, primer selection; Molecular methods in selecting antimicrobial agents; molecular epidemiology, and target organisms: fungi, bacteria, parasites, and viruses. Offered by Biology. May be repeated within the degree for a maximum 10 credits.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MLAB 415: *Medical Bacteriology.* 1-10 credits.
This course is a comprehensive presentation of bacteria isolated in the clinical laboratory. Emphasis is placed on the laboratory identification of isolates from a variety of specimen sources, and pathogenic species. Topics include Instrumentation and MALDI, Gram Positive Cocci, Gram Positive Baccili, Enterics, non-fermenters, Moraxella, Neisseria, Pasteurella, Haemophilus and HACEK, Camphylobacter, Helicobacter, Legionella, CDC Select Agents, Chlamdydia, Mycoplasm, Ureaplasm, Spirochetes, Anaerobes, Antibiotics and Susceptibility testing, and Acid Fast Bacilli. Offered by Biology. May be repeated within the degree for a maximum 10 credits.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

MLAB 417: *Advanced Methods in Clinical Molecular Biology.* 1-11 credits.
This course applies the fundamentals of nucleic acid testing to advanced methods commonly used in the contemporary clinical and research laboratory. Topics include PCR, Transcription-Based Amplification, Probe Amplification, Branched DNA, Hybrid Capture; Amplification: Signal , Cleavage-Based, Cycling Probe; Sequencing: Direct, Next Gen, Pyrosequencing, Bisulfite, RNA Sequencing; and Bioinformatics; Human Genome Project. Offered by Biology. May be repeated within the degree for a maximum 11 credits.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MLAB 418: *Human Molecular and Chromosomal Applications and Pathology.* 1-3 credits.
This course presents advanced methods in nucleic acid testing to human medico-legal, forensic, and pathology applications. Topics include: Polymorphisms, RFLP, Paternity Testing, Linkage, Single Nucleotide Polymorphisms, Bone Marrow Engraftment, Mitochondrial DNA Polymorphisms and Disorders, Chromosomal Abnormalities, Patterns of Inheritance, Single Gene Disorders, Lysosomal Storage Disorders, Cystic Fibrosis, Trinucleotide Repeats, Genomic Imprinting , Array CGH, Molecular Oncology, HLA and Transplantation. Offered by Biology. May be repeated within the degree for a maximum 10 credits.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Middle East and Islamic Studies (MEIS)

500 Level Courses

MEIS 500: *Critical Issues and Debates in Middle East and Islamic Studies.* 3 credits.
Introduces the interdisciplinary study of the Middle East and the Islamic world through an examination of recent seminal works and debates in the field representing the disciplinary perspectives of history, religious studies, political science, and sociology.Offered by Middle East/Islamic Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Middle East Islamic Studies.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

MEIS 599: *Issues in Middle East and Islamic Studies.* 3 credits.
In-depth study of current issues and debates in Middle East and Islamic studies in theoretical and historical context.Offered by Middle East/ Islamic Studies. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

MEIS 794: *Graduate Internship in Middle East and Islamic Studies.* 3 credits.
Internship credit for completion of Middle East and/or Islamic studies related work at an approved government, nonprofit, or private institution.Offered by Middle East/Islamic Studies. May not be repeated for credit.

Recommended Prerequisite: MEIS 500, HIST 575, RELI 644.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

MEIS 796: *Directed Readings in Middle East and Islamic Studies.* 3 credits.
Directed readings in the field of Middle East and Islamic Studies.Offered by Middle East/Islamic Studies. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: MEIS 500, RELI 644, HIST 575.

Registration Restrictions:
Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

MEIS 798: *Research Project in Middle East and Islamic Studies.* 3 credits.
Research project related to Middle East and Islamic studies taken under supervision of faculty adviser.Offered by Middle East/Islamic Studies. May not be repeated for credit.

Recommended Prerequisite: Completion of 21 credit hours toward MA in Middle East and Islamic Studies degree; satisfactory completion of a research methods course approved as a core course for the MA MEIS.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

MEIS 799: *Thesis Research and Writing in Middle East and Islamic Studies.* 1-6 credits.
Original research and thesis writing for students in the Middle East and Islamic Studies MA program.Offered by Middle East/Islamic Studies. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Completion of MEIS 500, HIST 535, GOVT 731, GOVT 733, RELI 644; and 27 credit hours toward MA in MEIS degree; permission of MEIS director.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

Military Science (MLSC)

100 Level Courses

MLSC 100: *Introduction to Army/ROTC.* 1 credit.
Introduces leadership values and ethics; responsibilities of officership; the organization, customs, and traditions of the U.S. Army; time management; and physical well-being. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Offered by Military Science. Limited to three attempts.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MLSC 102: *Leadership Skills II.* 1 credit.
Introduces leadership principles, dimensions, styles, and assessment, among other varied topics. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Offered by Military Science. Limited to three attempts.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

MLSC 200: *Self/Team Development.* 1 credit.
Covers leadership skills, such as values and ethics. Also teaches how to influence, how to communicate, how and when to make decisions, how to engage in creative problem solving, and how to plan and organize. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Offered by Military Science. Limited to three attempts.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MLSC 202: *Leadership Skills IV.* 1 credit.
Builds on the leadership skills developed in Leadership Skills III with additional emphasis on communication, team building, and team leadership. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Offered by Military Science. Limited to three attempts.

Recommended Prerequisite: MLSC 100 level completion/dual enrollment.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

MLSC 300: *Applied Leadership I.* 1 credit.
Applied leadership with an introduction to the principles of physical fitness and healthy lifestyle; counseling as means of subordinate development; problem solving; operational analysis, development,

and execution; and methods for preparing and presenting instruction. Students are given an introduction to the Leader Development Program that is used to evaluate their leadership performance and provide students with developmental feedback. Some weekend training required. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Offered by Military Science. Limited to three attempts.

Recommended Prerequisite: MLSC 100, 101, 200, or veterans status, or permission of instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MLSC 302: *Applied Leadership II.* 1 credit.
Applied leadership covering the models of communications (verbal and nonverbal), technology to communicate, how to prepare and conduct formal briefings, an introduction to the Army branches, diversity and equal opportunity training, ethical decision making, & group cohesion and dysfunction. Some weekend training required. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Notes: Enrollment in MLSC 300 level course is restricted to students who are contracted or are pre-approved by department/Army ROTC as pending contracting. Offered by Military Science. Limited to three attempts.

Recommended Prerequisite: MLSC 100 & 200 level completion or military credit exemption.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

MLSC 400: *Leadership and Management.* 3 credits.
Considered the "transition to lieutenant" phase in which managerial theories are applied to personnel, training, and logistics management situations. Students have command and staff responsibilities for the Mason cadet corps and receive hands-on experience operating as a management team. There are several briefing and writing requirements as well. Includes a laboratory in applied science, common military tasks, and physical fitness. Offered by Military Science. Limited to three attempts.

Recommended Prerequisite: MLSC 300 and 301 or permission of instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MLSC 402: *Leadership and Ethics.* 3 credits.
Continuing the "transition to lieutenant" phase of ROTC, examines ethics of military environment to include customs, ethical codes & decision making, constraints, and appeals to moral principles. American judicial system is also examined, with emphasis on the Uniform Code of Military Justice. Command and staff responsibilities are assigned to students for hands-on experience operating as a management team for Mason cadet corps. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Offered by Military Science. Limited to three attempts.

Recommended Prerequisite: MLSC 300 & 302.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MLSC 499: *Senior Advanced Military Studies.* 0 credits.
Offered by Military Science. May be repeated within the degree.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

Minor in Business (MBUS)

300 Level Courses

MBUS 300: *Accounting in a Global Economy.* 3 credits.
Focuses on using basic concepts of accounting and financial management to make investment, credit, and operating decisions for an organization. Emphasizes financial reports to aid planning and control of organizational activities. Notes: May not be taken for credit by School of Business majors. Students who have received credit for both ACCT 203 and FNAN 303 cannot also receive credit for MBUS 300. Offered by School of Business. Limited to three attempts.

Recommended Prerequisite: Completion of 30 credits (sophomore standing).

Registration Restrictions:
Non-Degree level students may **not** enroll.

Students in the School of Business college may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MBUS 301: *Managing People and Organizations in a Global Economy.* 3 credits.
Introduces key issues in management, organizational behavior, and human resource management. Special attention to best practices used by effective managers. Notes: May not be taken for credit by School of Business majors. Students cannot receive credit for both MGMT 303 and MBUS 301. Offered by School of Business. Limited to three attempts.

Recommended Prerequisite: Completion of 30 credits (sophomore standing).

Registration Restrictions:
Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students in the School of Business college may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MBUS 303: *Marketing in a Global Economy.* 3 credits.
Presents marketing principles, concepts, strategies, and analytical tools used by profit and nonprofit organizations to market ideas, products, and services to selected target groups. Emphasizes how to develop, promote, distribute, and price firm's offerings in dynamic economic,

social, political, and global environment. May not be taken for credit by School of Business majors. Students cannot receive credit for both MKTG 303 and MBUS 303. Offered by School of Business. Limited to three attempts.

Registration Restrictions:
Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students in the School of Business college may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MBUS 304: *Entrepreneurship: Starting and Managing a New Enterprise.* 3 credits.
Explores behaviors required to successfully launch a new business, tools to identify and evaluate opportunities, and the issues critical to a new firm. Issues include organizational structure, effective marketing strategy, operational logistics, legal issues, financial projections, financing options, and available support structures. May not be taken for credit by School of Business majors. Students cannot receive credit for both MKTG 303 and MBUS 304. Offered by School of Business. Limited to three attempts.

Registration Restrictions:
Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students in the School of Business college may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MBUS 305: *Introduction to International Business.* 3 credits.
Multidisciplinary approach to global economy from the viewpoint of managing international business. Introduces various aspects of managing business in a global economy including theories and practices of international trade, investment, and business strategies. Notes: May not be taken for credit by School of Business majors. Offered by School of Business. Limited to three attempts.

Mason Core: Global Understanding

Registration Restrictions:
Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students in the School of Business college may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MBUS 306: *Managing Projects and Operations.* 3 credits.
Introduces project management and operations management concepts and tools including project planning, scheduling, monitoring, and control; process design, selection and improvement; supply chain management; inventory management; and quality assurance. May not be taken for credit by School of Business students. Students cannot receive credit for both OSCM 303 and MBUS 306. Offered by School of Business. Limited to three attempts.

Registration Restrictions:
Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students in the School of Business college may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MBUS 308: *Corporate Finance and Investments in a Global Economy.* 3 credits.
Presents an introduction to corporate finance and investment topics within an international context and emphasis on time-value of money, interest rates, stock and bond valuation, and the risk/return relationship in financial markets. May not be taken for credit by School of Business majors. Students may not receive credit for both FNAN 303 and MBUS 308. Offered by School of Business. Limited to three attempts.

Registration Restrictions:
Students with a class of Freshman may **not** enroll.

Students in the BU-BPRE-UNDE program may **not** enroll.

Non-Degree level students may **not** enroll.

Students in the School of Business college may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

MBUS 491: *Special Topics: Business Minor.* 3 credits.
Topics related to a minor in business will vary on the focus of the course and by discipline. May not be taken for credit by School of Business majors. Offered by School of Business. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students in the School of Business college may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Music (MUSI)

100 Level Courses

MUSI 100: *Fundamentals of Music.* 3 credits.
Study of musical notation, interval and triad construction, reading of treble and bass clefs, scale construction, rhythm, elementary sight singing and ear training, and application at keyboard. Notes: Cannot be

applied toward degree in music. Offered by Dewberry School of Music. Limited to three attempts.

Mason Core: Arts

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Study and comparison of musical structure and expression in several world cultures, with special attention to social context and function. Studies selected Asian, Middle Eastern, African, and American (Latin, Native, African) cultures. Notes: For non-music majors only. Offered by Dewberry School of Music. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 106: *Fundamentals of Rock, Blues, and Jazz.* 3 credits.
Fundamentals of Blues, Rock, and Jazz is designed for students without formal training in music theory. The course focuses on Afro-centric concepts in twentieth-century American musical culture including improvisation, emphasis on rhythm and groove, and use of multiple and integrated tonalities, such as major and minor in the blues. Offered by Dewberry School of Music. Limited to three attempts.

Mason Core: Arts

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 107: *Jazz and Blues in America.* 3 credits.
Historical, analytical, and aural survey of jazz from inception to present day. Looks at trends resulting from synthesis of jazz with other musical idioms. Notes: Music majors may take as free elective or part of jazz studies concentration. Offered by Dewberry School of Music. Limited to three attempts.

Mason Core: Arts

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 113: *Aural Skills I.* 1 credit.
Students taught to sing a line of music without accompaniment of instrument. Matching tones, major and minor scales, key signatures, intervals, rhythm, treble and bass clefs, and rhythmic and melodic dictation. Offered by Dewberry School of Music. Limited to three attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 114: *Aural Skills II.* 1-2 credits.
Continuation of MUSI 113. Alto and tenor clefs, modulation, various modes, and melodic and harmonic dictation. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 113.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 115: *Introduction to Music Theory.* 3 credits.
Music notation, rhythm and meter, scales, key signatures, intervals, chords, cadences, and figured bass. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: Student must be able to read music, be able to pass a fundamentals of music test (administered during first week of classes), and have some proficiency on a musical instrument or in voice.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 116: *Theory II.* 3 credits.
First- and second-inversion chords, modulation, nonharmonic tones, figured bass, seventh chords. Analysis of Bach chorales; composition of four-part chorales in 18th-century style. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 115 or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 171: *Keyboard Skills I.* 1 credit.
Study of piano keyboard as it relates to various clefs in music. Emphasis on solution of basic stylistic and technical problems. Offered by Dewberry School of Music. Limited to three attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 172: *Keyboard Skills II.* 1 credit.
Study of piano keyboard as it relates to intermediate song and combined in various music forms. Notes: Nonmusic majors must have permission of instructor. Offered by Dewberry School of Music. Limited to three attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

MUSI 213: *Aural Skills III.* 2 credits.
Continuation of Music 114. Emphasizes modulation, chromatic and nontonal melodies, various modes, melodic and harmonic dictation, c clefs, and improvisation. Offered by Dewberry School of Music. Limited to three attempts.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 214: *Aural Skills IV.* 2 credits.
Continuation on MUSI 213 with emphasis on chromatic and non-tonal harmonies. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 213, or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 215: *Theory for Pop and Jazz Music.* 3 credits.
A study of diatonic and chromatic harmony, rhythm, and form in the context of jazz, blues, and popular music in the US and UK in the 20th and 21st centuries. Analysis and composition in each of these three styles. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 115 or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 216: *Theory for 20th- and 21st-Century Music.* 3 credits.
Study of melodic, harmonic, rhythmic, and formal processes in 20th-/21st-c. Western concert music. Covers atonal music and set theory, triadic post-tonal music, and other miscellaneous approaches. Analysis and composition in various 20th-/21st-c. styles. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 115 or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 217: *Theory for 18th-Century Music.* 3 credits.
Covers diatonic harmony, modulation, non-harmonic tones, and small forms in the style of 18th-century Western concert music. Analysis and composition of 18th-century music. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 115, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 221: *Applied Music I.* 1 credit.
Applied music studies 1. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 8 credits.

Recommended Prerequisite: Audition or portfolio.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 222: *Applied Music in Keyboard.* 1 credit.
Applied music studies in Keyboard.. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 8 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 223: *Applied Music in Voice.* 1 credit.
Applied music studies in Voice. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 8 credits.

Recommended Prerequisite: Audition.

Recommended Corequisite: MUSI 381, 384, or 385.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 224: *Applied Music in Woodwind.* 1 credit.
Applied music studies in Woodwind. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 8 credits. Equivalent to MUSI 221.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 225: *Applied Music in Brass.* 1 credit.
Applied music studies in Brass. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 8 credits. Equivalent to MUSI 221.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 226: *Applied Music in String.* 1 credit.
Applied music studies in String. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 8 credits. Equivalent to MUSI 221.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 227: *Applied Music in Percussion.* 1 credit.
Applied music studies in Percussion. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 8 credits. Equivalent to MUSI 221.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 228: *Applied Music in Composition.* 1 credit.
Applied music studies in Composition. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 8 credits. Equivalent to MUSI 221.

Recommended Prerequisite: Portfolio of recent compositions.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 229: *Non-Major Applied Music I.* 1 credit.
Applied music studies I. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 8 credits.

Recommended Prerequisite: Audition or portfolio.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 241: *Applied Music II.* 2 credits.
Applied music studies 2. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Audition or portfolio.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 242: *Applied Music in Keyboard.* 2 credits.
Applied music studies in Keyboard. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 243: *Applied Music in Voice.* 2 credits.
Applied music studies in Voice. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Audition.

Recommended Corequisite: MUSI 381, 384, or 385.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 244: *Applied Music in Woodwind.* 2 credits.
Applied music studies in Woodwind. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 245: *Applied Music in Brass.* 2 credits.
Applied music studies in Brass. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 246: *Applied Music in String.* 2 credits.
Applied music studies in String. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 247: *Applied Music in Percussion.* 2 credits.
Applied music studies in Percussion. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 248: *Applied Music in Composition.* 2 credits.
Applied music studies in Composition. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Portfolio or recent compositions.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 249: *Non-Major Applied Music II.* 2 credits.
Applied music studies II. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Audition or portfolio.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 251: *Musical/Oral Communication.* 3 credits.
Introduces theories, processes, and practices to achieve effective oral communication; connects those principles with expressive musical performance. Explores parallels between grammer, logic, and rhetoric and musical structure, design, and performance. Critically analyzes time, tonality, and texture, applies these concepts in pedagogical contexts related to effective performance, practice habits, communication styles, and identifying/preventing performance-related repetitive overuse injuries. Notes: Requires observing professionals in the field. Offered by Dewberry School of Music. Limited to three attempts.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 252: *Popular Music Arranging.* 3 credits.
This course explores popular music styles and genres. Using this information to analyze popular music and arrange the music for various ensembles. Offered by Dewberry School of Music. Limited to three attempts.

Specialized Designation: Mason Impact.

Recommended Prerequisite: MUSI 215.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 254: *Music and Technology.* 3 credits.
Study of technology related to music, including audio synthesis and computer-based hardware and software. Offered by Dewberry School of Music. Limited to three attempts. Equivalent to MUSI 315.

Specialized Designation: Mason Impact.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 259: *Music in Computer Technology.* 3 credits.
Overview of ways computer is used in music. Topics include principles of musical instrument digital interface (MIDI); various kinds of synthesis; acoustics and sound processing; and musical composition using the computer. Explores music resources of internet and surveys current multimedia applications in music history, theory, ear training, improvisation, and notation. Offered by Dewberry School of Music. Limited to three attempts. Equivalent to MUSI 415.

Mason Core: Info Tech & Computing

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 273: *Keyboard Skills III.* 1 credit.
Continuation of MUSI 172. Study of techniques of harmonization at the piano keyboard. Notes: Nonmusic majors must have permission of instructor. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 172.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 274: *Jazz/Commercial Piano.* 1 credit.
Introduces students to the rudiments of Jazz and commercial piano playing. After a brief review of chord construction, students will learn voicings for both pop and Jazz piano styles, ways to navigate standard chord progressions, and, ultimately, to apply the material learned to lead sheets. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 273 or permission of instructor

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 280: *Athletic and Ceremonial Ensemble.* 0-1 credits.
Students gain an understanding of American popular and other musics developing personal expression via performance and creative design. Students also learn and develop leadership and management skills. An understanding of the vital role of community outreach and service is gained through first-hand experience. Offered by Dewberry School of Music. May be repeated within the term.

Mason Core: Arts

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

MUSI 300: *Recital Attendance.* 0 credits.
Students attend 10 student recitals to be selected from departmental and music education recitals, and junior, senior, and graduate recitals. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 8 credits.

Schedule Type: Studio

Grading:
This course is graded on the Satisfactory/No Credit scale.

MUSI 301: *Music in Motion Pictures.* 3 credits.
Intensive study and analysis of using music tracks in motion pictures to introduce the picture, set a scene, create moods, or for musical numbers. From the silent film scores of the 1920s to the present (including electronic music). Offered by Dewberry School of Music. Limited to three attempts.

Mason Core: Arts

Recommended Prerequisite: Completion of 30 credits. Music and non-music majors welcome.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 302: *American Musical Theater.* 3 credits.
Intensive study of the musical elements in the American musical theater from its European and later African roots to its evolution between the wars into a native form, and its continual assimilation of external influences such as new forms of jazz and rock to the eclectic form of the present day. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Mason Core: Arts

Recommended Prerequisite: 30 credit hours or permission of the instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 303: *Topics in Ethnomusicology.* 3 credits.
Advanced study of theory and method in ethnomusicology with specific thematic or geographic focus. Course emphasizes critical thinking, listening, and research in the study of music from around the world. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: MUSI 103, or MUSI 431, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 304: *Topics in Musicology.* 3 credits.
Designed for students with no music theory background, the course explores the intersection of music and culture in relation to specific topics. Issues addressed may include race, class, gender, economic context, aesthetics, etc. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 30 hours completed.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 311: *Jazz Studies.* 3 credits.
Musicianship course integrating jazz improvisation, theory, composition, and arranging. Focuses on concepts unique to our time in style, form, and harmony. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 379 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 315: *Music Technology.* 3 credits.
Study of technology related to music, including audio synthesis and computer-based hardware and software. Notes: There is a course fee beyond tuition charges. Offered by Dewberry School of Music. Limited to three attempts. Equivalent to MUSI 254.

Recommended Prerequisite: MUSI 100 or MUSI 115

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 316: *Topics in Music Technology.* 3 credits.
Selected topics in music technology with an emphasis on musical creativity. Includes consideration of recent developments in areas such as electronic composition, the science of music, recording industry and practices, and music industry. Notes: There is a course fee beyond tuition charges. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 9 credits. Equivalent to MUSI 359.

Specialized Designation: Topic Varies

Recommended Prerequisite: MUSI 315

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 317: *Baroque and Classical Forms.* 3 credits.
Involves the student in the study of the architecture of music. Investigates the structural properties of small forms and eventually the organizational principles of larger forms mainly from the Baroque and Classical periods through lecture and discussion, presentation, aural comprehension, writing, analysis, and performance. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 115 and MUSI 217

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 319: *Class Composition and Arranging.* 3 credits.
Students write original compositions for specified instruments, voices, or combinations. They then apply compositional principles to the creative arrangement of existing music of various styles. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 214, 216 or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 323: *Music Education Recital.* 0 credits.
Recital on major instrument given by student during junior or senior year. Notes: Recital must be at least 25 minutes long. All recitals by arrangement. Students must consult with director of applied music studies to register and schedule dates. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: A minimum of 8 credits in Applied music instruction in major instrument.

Recommended Corequisite: Concurrent enrollment in the appropriate 2-credit Applied music course.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Satisfactory/No Credit scale.

MUSI 324: *Junior Recital.* 1 credit.
Public recital by student during junior year. Notes: Junior recital must be at least 25 minutes long. All recitals by arrangement. Students must consult with director of applied music studies to register and schedule dates. Offered by Dewberry School of Music. Limited to three attempts.

Mason Core: Capstone

Recommended Corequisite: Concurrent enrollment in 2-credit Applied music course.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 325: *Performance Seminar and Vocal Literature for Singers and Accompanists I.* 2 credits.
Students assigned vocal literature in Italian, English, German, and French from Baroque to 21st century, and perform in a weekly master class format. Designed for vocal performance and piano and accompanying majors; develops and improves artistic and performance skills, repertoire preparation and execution, diction, interpretation, style, and overall stage

presence. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 4 credits.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 326: *Performance Seminar and Vocal Literature for Singers and Accompanists II - German and French.* 2 credits.
Students assigned vocal literature in Italian, English, German, and French from Baroque to 21st century, and perform in a weekly master class format. Designed for vocal performance and piano and accompanying majors; develops and improves artistic and performance skills, repertoire preparation and execution, diction, interpretation, style, and overall stage presence. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 4 credits.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 331: *Music History in Society I.* 3 credits.
Historical survey of Western music from Greek times through the late Baroque era, with emphasis on specific musical genres and composers who developed them. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 215 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 332: *Music History in Society II.* 3 credits.
Historical survey of Western music from the early Classical era through mid-19th century, with emphasis on specific musical genres and composers who developed them. Musical developments related to other aspects of society. Lectures, recordings, video. Learning process enhanced by reading, listening, writing, and analytical assignments. Offered by Dewberry School of Music. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: MUSI 216 and 331 or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 338: *Music History in Society A.* 3 credits.
Historical survey of Western music from the late Renaissance through the Romantic era, with emphasis on specific musical genres and composers who developed them. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 215, or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 341: *Diction for Singers I: Italian Diction and English Diction.* 2 credits.
Increases proficiency in singing in Italian and English by teaching International Phonetic Alphabet (IPA), and strengthens performance of Italian and English art songs and operatic repertoire. Focuses on intensified, systematic study of phonetics as it applies to singing in Italian and English. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 342: *Diction for Singers II: German Diction and French Diction.* 2 credits.
Increases proficiency in singing in German and French by teaching International Phonetic Alphabet (IPA), and strengthens performance of German and French art songs and operatic repertoire. Focuses on intensified, systematic study of phonetics as it applies to singing in German and French. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: Restricted to MUSI majors and minors. Non majors need permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 351: *Keyboard Pedagogy.* 3 credits.
Investigates methods, theories, techniques, and materials to teach keyboard to children and adults in individual and group situations. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 214, 216, 273 and 8 credits in piano, harpsichord, organ or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 352: *Vocal Pedagogy and Lab.* 3 credits.
Instruction in teaching of voice through systematic study of vocal physiology and its implications for pedagogical methods. Includes theoretical and systematic study of processes, procedures, and practices to develop art of singing. Offers technical, physiological, theoretical, and practical principals of the singing art, with emphasis on the importance of vocal health. Offered by Dewberry School of Music. Limited to three attempts. Equivalent to MUSI 552.

Recommended Prerequisite: 8 credits Applied Music in Voice, or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 353: *Instrumental Pedagogy and Literature.* 3 credits.
Instruction in teaching instrumental music techniques for all levels through study of pedagogical methods, standard literature, and musical instruments produced by present-day manufacturers. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: Junior standing in instrumental private music instruction or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 354: *Electronic Composition.* 3 credits.
This course explores the techniques used in recording music with current software and hardware to edit, modify, and market music. Offered by Dewberry School of Music. Limited to three attempts.

Specialized Designation: Mason Impact.

Recommended Prerequisite: MUSI 254.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 355: *Recording Techniques.* 3 credits.
Explores the techniques used in recording music with current software and hardware to edit, modify, and market music. Offered by Dewberry School of Music. Limited to three attempts.

Specialized Designation: Mason Impact.

Recommended Prerequisite: MUSI 254.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 358: *Music Programming.* 3 credits.
The purpose of the class is to learn basic programming skills and concepts and to apply them directly to musical concepts and ideas. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 254, MUSI 354, and MUSI 355.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 359: *Topics in Music Technology.* 3 credits.
Selected topics in music technology with an emphasis on musical creativity. Includes consideration of recent developments in areas such as electronic composition, the science of music, recording industry and practices, and music industry. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 9 credits. Equivalent to MUSI 316.

Specialized Designation: Topic Varies

Recommended Prerequisite: MUSI 354, MUSI 355.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 361: *Class Strings.* 1 credit.
Study of playing and teaching string instruments with emphasis on violin and cello through beginning method book. Study of fingerings and bowing techniques to teach and play viola and bass at beginning levels. Survey of string playing techniques to conduct rehearsals at intermediate-,advanced-, and artist-level ensembles. Notes: Three hours per week studying violin, viola, cello, and bass; one hour per week in laboratory ensemble. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 2 credits.

Registration Restrictions:

Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 363: *Class Woodwinds.* 1 credit.
Study of Techniques of playing and teaching Woodwind instruments, including flute, clarinet, saxophone, oboe, and bassoon. Survey of instructional materials, and mouthpiece and instrument selection. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 2 credits.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 364: *Class Woodwinds: Oboe and Bassoon.* 1 credit.
Study of techniques of playing and teaching oboe and bassoon. Survey of instructional materials, instrument selection, and reed adjustment. Notes: Three hours per week studying oboe and bassoon; one hour per week in laboratory ensemble. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 2 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 365: *Class Brass.* 1 credit.
Study of techniques of playing and teaching trumpet and French horn. Survey of instructional materials, and mouthpiece and instrument selection. Notes: Three hours per week studying trumpet and French horn; one hour per week in laboratory ensemble. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 2 credits.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 366: *Class Percussion.* 1 credit.
Study of techniques of playing and teaching percussion instruments. Survey of instructional materials and instrument selection. Notes: Three hours per week studying percussion instruments; one hour per week in laboratory ensemble. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: Admission to the Music major program or permission of instructor. Students must register for studio and lab.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 367: *Class Guitar.* 1 credit.
Study of techniques of playing and teaching guitar. Survey of instructional materials and instrument selection. Notes: Three hours per week studying guitar; one hour per week in laboratory ensemble. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 368: *Class Voice.* 1 credit.
Study of the human voice in artistic singing. Emphasizes practical application of basic principles. Notes: Three hours per week studying voice; one hour per week in laboratory ensemble. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 370: *Laboratory Ensemble.* 0 credits.
This class an extension of the music education techniques and methods classes. Students will meet together once a week to perform on a secondary instrument or voice. In addition, this course provides student conductors with the opportunity to teach and/or rehearse a novice ensemble. A lab fee is assessed for this course. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 0 credits.

Recommended Prerequisite: Admission to music major program or permission of instructor.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale.

MUSI 371: *Techniques of Accompanying I.* 1 credit.
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations, and performances by professionals; and participate in master classes. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: Restricted to piano majors and minors, or to those with permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 372: *Techniques of Accompanying II.* 1 credit.
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations, and performances by professionals; and participate in master classes. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: Audition on a keyboard instrument for admission to a music degree program, 4 credits in undergraduate Applied Music Instruction on a keyboard instrument, or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 373: *Advanced Accompanying and Musicianship Skills.* 3 credits.
Advanced study and techniques for accompanying choirs, vocal soloists, and instrumentalists. Additional instruction in keyboard reduction of orchestral scores for concertos, continuo/figured bass reading, lead-sheet reading, transposition, improvisation, transcription, and "playing by ear." Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 372 (concurrent enrollment is permitted) or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 379: *Jazz Improvisation.* 1 credit.
Study of improvisation techniques and styles, with emphasis on common practice period of jazz. Application on the student's major instrument or voice to develop creativity and personal expression. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 116 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 380: *Wind Symphony.* 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Highly selective group of instrumentalists perform works from wind symphony repertoire. Notes: Public concerts required. Offered by Dewberry School of Music. May be repeated within the term for a maximum 12 credits.

Mason Core: Arts

Recommended Prerequisite: Audition.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 381: *University Chorale.* 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from choral repertoire. Notes: Public concerts required. Offered by Dewberry School of Music. May be repeated within the term for a maximum 12 credits.

Mason Core: Arts

Recommended Prerequisite: Audition.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 382: *Piano Ensemble.* 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Study and performance of original four-hand works for one and two pianos. Notes: Public performances required. Offered by Dewberry School of Music. May be repeated within the term for a maximum 12 credits.

Mason Core: Arts

Recommended Prerequisite: 4 hours of PMI (Piano) and audition.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 383: *Symphonic Band.* 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from band repertoire. Notes: Public concerts required. Offered by Dewberry School of Music. May be repeated within the term for a maximum 12 credits.

Mason Core: Arts

Recommended Prerequisite: Audition.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 385: *Chamber Singers.* 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Students explore their levels of artistic development through discovery, interpretation, and performance of choral music for vocal chamber music ensembles from multiple historical periods. Students bring to Mason and surrounding community musical compositions not readily accessible in regular concert repertoire. Offered by Dewberry School of Music. May be repeated within the term for a maximum 12 credits.

Mason Core: Arts

Recommended Prerequisite: Audition.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 387: *Symphony Orchestra.* 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from symphony orchestra repertoire. Notes: Public concerts required. Offered by Dewberry School of Music. May be repeated within the term for a maximum 12 credits.

Mason Core: Arts

Recommended Prerequisite: Audition.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 388: *Fundamental Techniques of Stagecraft for Opera and Music Theater.* 2 credits.
Study of basic to intermediate stage movement techniques necessary to the performance of opera and music theater roles. Emphasis on acting, improvisation, theater production, musical theater, and operatic role study. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 389: *Jazz Ensemble.* 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Provides practical experience in various aspects of jazz performance: section work within a large aggregation, combo work, and improvisation. Notes: Public concerts required. Offered by Dewberry School of Music. May be repeated within the term for a maximum 12 credits.

Mason Core: Arts

Recommended Prerequisite: Audition.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 391: *Conducting I.* 2 credits.
Study of basic techniques of conducting a musical ensemble. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 214, 216, 273 or permission of instructor

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 393: *Music Administration and Management.* 2 credits.
Prepares students to address aspects of administration and management of music programs in public and private schools. Investigates principles and concepts of management styles and planning. Covers curriculum, budget, student recruitment and retention, external relations of the music unit, and legal issues for music educators. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 116 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 394: *Ethnomusicology Internship.* 1-4 credits.
Option A) Professional internship with an organization dedicated to activities related to the field of ethnomusicology; Option B) Teaching internship in an undergraduate ethnomusicology course at Mason, supervised by the minor coordinator. Notes: All internships must be approved and all arrangements made prior to he beginning of the semester in which the internship is to take place. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 8 credits.

Recommended Prerequisite: MUSI 103, or MUSI 431; Permission of the Ethnomusicology Minor Coordinator.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 395: *Teaching Internship.* 1-4 credits.
Internship with a professional individual or organization in teaching. Introduction to teaching or augmentation of teaching skills. Students develop individual contracts defining the learning and competencies

to be gained from the experience. Notes: Maximum of 9 internship credits (MUSI 395, 495, 496) can be applied toward a degree. Offered by Dewberry School of Music. May be repeated within the term for a maximum 4 credits.

Recommended Prerequisite: MUSI 251.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 396: *Conducting II.* 2 credits.
Advanced conducting course emphasizing techniques for instrumental and choral conducting. Refining gestures, full score analysis and interpretation, rehearsal techniques, and changing meters. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 391 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 397: *Music Technology Internship.* 1-4 credits.
Internship with a professional individual or organization in music technology. Develops facility with applications of music technology in various professional contexts. Students develop individual contracts defining the learning and competencies to be gained from the experience. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 4 credits.

Recommended Prerequisite: MUSI 254 or permission of instructor

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

MUSI 415: *Music in Computer Technology.* 3 credits.
Overview of ways computer is used in music. Topics include principles of musical instrument digital interface (MIDI); various kinds of synthesis; acoustics and sound processing; and musical composition using the computer. Explores music resources of Internet and surveys current multimedia applications in music history, theory, ear training, improvisation, and notation. Offered by Dewberry School of Music. Limited to three attempts. Equivalent to MUSI 259.

Recommended Prerequisite: MUSI 319 or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 419: *Orchestration.* 3 credits.
Principles of combining and balancing instruments in orchestral and chamber contexts. Attention to orchestral terminology and general notation as well as timbre, range, clefs, transposition, special effects, and scoring procedures. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 214, 216 and 319, or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 421: *Applied Music III.* 1 credit.
Applied music studies 3. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 8 credits.

Recommended Prerequisite: Audition or portfolio of recent compositions.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 424: *Senior Recital.* 1 credit.
Public recital by student during senior year. Notes: Senior recital must be at least 50 minutes long. All recitals by arrangement. Students must consult with director of applied music studies to register and schedule dates. Offered by Dewberry School of Music. Limited to three attempts.

Mason Core: Capstone

Recommended Corequisite: Concurrent enrollment in 2-credit Applied music course.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 431: *Music History in Society III.* 3 credits.
Studies contributions to the world of music in selected cultures such as India, Indonesia, China, Japan, Africa, Middle East, and Americas. Emphasizes comparative musical characteristics as well as sociological function. Lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments. Offered by Dewberry School of Music. Limited to three attempts.

Mason Core: Global Understanding

Recommended Prerequisite: MUSI 216, 331, 332, or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 432: *Music History in Society IV.* 3 credits.
Historical survey of Western music from late 19th century to present, with emphasis on specific musical genres and composers who developed them. Relates musical developments to other aspects of society, and considers interaction between world music. Lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 216, 331, 332, 431, or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 438: *Music History in Society B.* 3 credits.
Historical survey of Western vernacular and classical music from 1877 to 1945, with emphasis on musical genres, composers, and performers. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video.Fulfills writing intensive requirement in the BA in music with a concentration in Music Technology. Offered by Dewberry School of Music. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: MUSI 338 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 439: *Music History in Society C.* 3 credits.
Historical survey of Western vernacular and classical music from 1945 to present, with emphasis on specific musical genres, composers, and performers. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 438, or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 441: *Private Music Instruction III.* 2-3 credits.
Applied music studies 3. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition or portfolio of recent compositions.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 442: *Applied Music in Keyboard.* 2-3 credits.
Applied music studies in Keyboard. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 443: *Applied Music in Voice.* 2-3 credits.
Applied music studies in Voice. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Recommended Corequisite: MUSI 381, 384, or 385.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 444: *Applied Music in Woodwind.* 2-3 credits.
Applied music studies in Woodwind. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 445: *Applied Music in Brass.* 2-3 credits.
Applied music studies in Brass. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 446: *Applied Music in String.* 2-3 credits.
Applied music studies in String. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 447: *Applied Music in Percussion.* 2-3 credits.
Applied music studies in Percussion. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 448: *Applied Music in Composition.* 2-3 credits.
Applied music studies in Composition. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Portfolio of recent compositions.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 450: *Jazz Improvisation I.* 2 credits.
Emphasizes improvisational materials and language developed in common practice period of jazz. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 379 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 451: *Keyboard Pedagogy II.* 3 credits.
Intensive study of methods, theories, techniques, and materials to teach keyboard to children and adults in individual and group situations. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 351 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 452: *Jazz Improvisation II.* 2 credits.
Emphasis on advanced improvisational techniques and contemporary tunes. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 379 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 454: *Jazz Arranging.* 3 credits.
Transcription, analysis, and scoring for small and large jazz ensembles. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 311 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 455: *Music as a Healing Art.* 3 credits.
Study of the relationship between musical vibrations and the natural rhythms of the body. Topics include history of music and healing, theory of sound, cymatics, toning, and performance practice as well as a survey of vibrational healing modalities and related therapies. Considers listening examples as they apply to healing with music. Students sing and play instruments in directed improvisatory performance. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Basic proficiency with instrument or voice or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 456: *Pedagogy II.* 2 credits.
Fundamental practical study of methods, literature, sequencing of instruction, and developmental psychology for instrumental or vocal pedagogy. Offered by Dewberry School of Music. Limited to three attempts.

Specialized Designation: Topic Varies

Recommended Prerequisite: MUSI 351 or MUSI 352 or MUSI 353 or Permission of Instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 457: *Pedagogy III.* 2 credits.
Intermediate practical study of methods, literature, sequencing of instruction, and developmental psychology for instrumental or vocal pedagogy. Offered by Dewberry School of Music. Limited to three attempts.

Specialized Designation: Topic Varies

Recommended Prerequisite: MUSI 456 or Permission of Instructor

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 458: *Pedagogy IV.* 2 credits.
Advanced practical study of methods, literature, sequencing of instruction, and developmental psychology for instrumental or vocal

pedagogy. Offered by Dewberry School of Music. Limited to three attempts.

Specialized Designation: Topic Varies

Recommended Prerequisite: MUSI 451 or MUSI 457 or Permission of Instructor

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 461: *The Teaching of General Music in the Elementary and Middle School.* 3 credits.
Studies theory, methods, practice, and materials to teach general music in elementary and middle school. Students spend three hours per week in class and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in the public schools. Notes: For music majors only. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 114, 216, 273 and acceptance into the Music Education concentration.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 463: *The Teaching of Vocal Music in the Secondary School.* 3 credits.
Survey of repertoire and methods for teaching high school choral groups, small ensembles, and voice classes. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Notes: For music majors only. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 214, 216, 273, 391 and acceptance into the Music Education concentration.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 464: *Instrumental Music Methods I.* 3 credits.
Prepares students to successfully plan, organize, and administer marching band and jazz ensemble programs in secondary public school music curriculum. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Notes: For music majors only. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 214, 216, 273, and acceptance into the Music Education concentration.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 466: *Instrumental Music Methods II.* 3 credits.
Prepares students to teach instrumental music in elementary, middle, and secondary schools. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Notes: For music majors only. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 214, 216, 273, 391 and acceptance into the Music Education concentration.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 467: *Instrumental Music Methods I: Orchestra.* 3 credits.
Prepares students to successfully plan, organize, and administer string classes from the beginning levels through performing ensembles (grades 4-12), and explore teaching materials appropriate for individual and class instruction. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Notes: For music majors only. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 214, 216, 273, 361 and acceptance into the Music Education concentration.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 477: *Music and Consciousness.* 3 credits.
A study of the ways music has affected the mind and brain from throughout history to the present. By using principles of entrainment and resonance, the course demonstrates experientially the various methods by which music is used to alter consciousness. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Basic proficiency with an instrument or voice or permission of instructor.

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

MUSI 485: *Chamber Ensembles.* 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from chamber music repertoire. Notes: Public performances required. Offered by Dewberry School of Music. May be repeated within the term for a maximum 17 credits.

Mason Core: Arts

Specialized Designation: Mason Impact.

Recommended Prerequisite: Audition.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 489: *Music Technology Capstone.* 3 credits.
This course synthesizes information gained throughout the students' tenure at George Mason, specifically garnering the ideas and techniques found in the music technology sequence. The student will create a large scale project interfacing technology and music, present this project in a variety of different ways to different audiences, and create a portfolio for future opportunities. Offered by Dewberry School of Music. Limited to three attempts.

Specialized Designation: Research/Scholarship Intensive

Registration Restrictions:
Enrollment is limited to students with a concentration in Music Technology.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 490: *RS: Musical Communication in Context.* 3 credits.
Explains nature of musical communication in a variety of contexts, and combines knowledge gained in Mason Core courses with knowledge and skills specific to the major to serve as a capstone course synthesizing both areas. How does music itself communicate, and how do musicians communicate about it with each other and with the world around them? Students address these through essays in the style of a journal or portfolio, substantial paper, and oral presentation of paper before faculty and student panel. Offered by Dewberry School of Music. Limited to three attempts.

Mason Core: Capstone

Recommended Prerequisite: Must be in senior year of the B.A. program in Music and have completed all other Mason Core requirements.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 491: *Musical Communication in Performance.* 1 credit.
Helps student conceive of musical performance as communication in a variety of contexts, and combines knowledge in Mason Core courses with knowledge and skills specific to the major to serve as a capstone course synthesizing both areas. Students consider various aspects of musical communication to prepare senior recital. Students explore social, historical, analytical, and aesthetic aspects of the music they are to perform by composing essays in the style of a journal or portfolio. Students prepare a substantial paper on recital repertoire and present that paper before a faculty and student panel. Offered by Dewberry School of Music. Limited to three attempts.

Mason Core: Capstone

Recommended Prerequisite: Completion of all other Mason Core courses for the BM performance concentration.

Recommended Corequisite: Concurrent enrollment in the appropriate 3-credit PMI course and in MUSI 424.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 492: *Selected Topics in Music.* 1-3 credits.
Topics of practical interest to students in composition, music history and literature, world music, jazz studies, and performance practices. Offered by Dewberry School of Music. May be repeated within the term.

Specialized Designation: Topic Varies

Recommended Prerequisite: 45 credits or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 493: *Topics in Music Theory.* 3 credits.
Intensive exploration of selected topics in music theory and analysis. Offered by Dewberry School of Music. Limited to three attempts.

Specialized Designation: Topic Varies

Recommended Prerequisite: MUSI 216 or permission of the instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 494: *Pedagogy Internship.* 2 credits.
Internship with a professional pedagogue or educational organization with focus on private music instruction. Students develop individual

contracts defining the competencies to be gained from the experience. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: MUSI 451 or MUSI 457 or Permission of Instructor

Registration Restrictions:
Students with the terminated from MUSI major attribute may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 495: *Internship in Music Education.* 6-12 credits.
Full semester of intensive student teaching experience in approved Virginia schools. Offered by Dewberry School of Music. Limited to three attempts.

Mason Core: Capstone

Recommended Prerequisite: Completion of all other courses required for the B.M. with a concentration in music education.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 496: *Internship.* 2-6 credits.
Contact the department one semester before enrollment. Internships are approved work-study programs with specific employers or agencies. Notes: Credit is determined by the department. Maximum 9 internship credits (MUSI 395, 495, 496) can be applied toward degree. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: Completion of 90 hours.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 497: *Independent Study.* 1-3 credits.
Individual research and study of selected subject in close consultation with instructor. Student may choose from the musicological, ethnomusicological, theoretical, compositional, or educational areas, and produce at least one major written work based on research. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: Completion of 90 hours.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

MUSI 498: *Independent Study.* 1-3 credits.
Individual research and study of selected subject in close consultation with instructor. Student may choose from the musicological, ethnomusicological, theoretical, compositional, or educational areas, and produce at least one major written work based on research. Offered by Dewberry School of Music. Limited to three attempts.

Recommended Prerequisite: Completion of 90 hours.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

MUSI 501: *Graduate Theory Review.* 3 credits.
Vocabulary and conceptual review of diatonic and chromatic harmony, part writing, form, harmonization, 20th-century techniques. Notes: Does not count toward required credits of a graduate music degree. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 502: *Graduate Aural Skills Review.* 3 credits.
Music reading and aural skills including intervals, dictation (melodic and harmonic), scales, chords, rhythms, and meter. Notes: Does not count toward required credits of a graduate music degree. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 515: *Music in Computer Technology.* 3 credits.
Overview computer use in music. Topics include principles of musical instrument digital interface (MIDI); synthesis; acoustics and sound

processing; and musical composition using the computer. Explores music resources of Internet, and surveys multimedia applications in music history, theory, ear training, improvisation, and notation. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 516: *Keyboard Skills.* 3 credits.
Enhance keyboard skills for the non-keyboard major, including technique, harmonization, transposition, reading, and accompanying. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Graduate Regular scale.

MUSI 525: *Performance Seminar and Vocal Literature for Singers and Accompanists I.* 2 credits.
Students assigned art songs or operatic arias in Italian, German, French, and English, from Baroque to 21st century, and perform in weekly master class format. Develops and improves musical and artistic preparation and performance, increases repertoire, and establishes dependable methods for creating consistently high standards of artistic performance. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

MUSI 526: *Performance Seminar and Vocal Literature for Singers and Accompanists II.* 2 credits.
Students assigned art songs or operatic arias in Italian, German, French, and English, from Baroque to 21st century, and perform in weekly master class format. Develops and improves musical and artistic preparation and performance, increases repertoire, and establishes dependable methods for creating consistently high standards of artistic performance. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

MUSI 532: *Music History Review I.* 3 credits.
Enhance understanding of music history and the context of musical style, chronologically through the mid-18th century. Notes: Does not fulfill courses requirements for graduate degrees in music. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 533: *Music History Review II.* 3 credits.
Enhance understanding of music history and the context of musical style, from the mid-18th century to today. Notes: Does not fulfill course requirements for graduate music degrees. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 541: *Diction for Singers I: Italian Diction and English Diction.* 2 credits.
Increases proficiency in singing in Italian and English by teaching International Phonetic Alphabet (IPA), and strengthens performance of Italian and English art song and operatic repertoire. Intensified, systematic study of phonetics as it applies to Italian and English. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Graduate status in applied voice or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 542: *Diction for Singers II: German Diction and French Diction.* 2 credits.
Increases proficiency in singing in German and French by teaching International Phonetic Alphabet (IPA), and strengthens performance of German and French art songs and operatic repertoire. Intensified, systematic study of phonetics as it applies to singing in German and French. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Graduate status in applied voice or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 551: *Keyboard Pedagogy.* 3 credits.
Intensive study of methods, theories, techniques, and materials to teach keyboard to children and adults in individual and group situations. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Graduate status in applied piano or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 552: *Vocal Pedagogy and Lab.* 3 credits.
Instruction in teaching voice through systematic study of vocal physiology and its implications for pedagogical methods. Includes theoretical and systematic study of processes, procedures, and practices to develop art of singing. Offers technical, physiological, theoretical, and practical principals of the singing art, with emphasis on vocal health. Offered by Dewberry School of Music. May not be repeated for credit. Equivalent to MUSI 352.

Recommended Prerequisite: Graduate status in applied voice or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 553: *Instrumental Pedagogy and Literature.* 3 credits.
Instruction in teaching of instrumental music techniques for all levels through the study of pedagogical methods, standard literature, and musical instruments produced by present-day manufacturers. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Baccalaureate in music, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 555: *Music as a Healing Art.* 3 credits.
Study of the relationship between musical vibrations and the natural rhythms of the body. Topics include history of music and healing, theory of sound, cymatics, toning, and performance practice as well as a survey of vibrational healing modalities and related therapies. Considers

listening examples as they apply to healing with music. Students sing and play instruments in directed improvisatory performance. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Basic proficiency with instrument or voice, and bachelor's degree in music.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 557: *Kodaly I.* 3 credits.
In depth study of Kodaly, concentrating in four areas: Methodology, Materials, Solfege, and Conducting Offered by Dewberry School of Music. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 558: *Kodaly II.* 3 credits.
Continues to build on and expand Kodaly knowledge and skills in the four areas: Methodology, Materials, Solfege, and Conducting Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: MUSI 557 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 559: *Kodaly III.* 3 credits.
Completion of Kodaly training, finishing Kodaly Methodology, Materials, Solfege, and Conducting Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: MUSI 558 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 561: *Music Curriculum and Instructional Procedures.* 3 credits.
This graduate course is designed to prepare students for a job in the elementary or middle school general music classroom. Classes will equip students with the competencies necessary to plan, create, implement, and evaluate a general music curriculum. Current trends, materials, methods, and approaches in music education will be reviewed. Offered by Dewberry School of Music. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 563: *Orff Schulwerk I.* 3 credits.
Intensive introduction to Orff teaching philosophy with practical and theoretical instruction and immersion in the method itself. Students learn concepts of rhythm, harmony, solfege, modes, improvisation, and pedagogy. Students learn basic performance technique on soprano recorder, and learn to apply movement and dance in their teaching. Offered by Dewberry School of Music. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 564: *Orff Schulwerk II.* 3 credits.
Continues intensive study of Orff teaching philosophy with practical and theoretical instruction and immersion. Teaches further concepts of rhythm and meter including asymmetrical patterns. Reviews pentatonic modes and their transpositions, studies pentachordal and hexachordal scales, and begins intensive work with diatonic modes. Students work with a variety of percussion instruments including body percussion, unpitched instruments, and barred instruments. They sing and play

soprano, alto, tenor, and bass recorders. Movement studies continue with intensive study of vocabulary of dance and mime. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: MUSI 563 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 565: *Orff Schulwerk III.* 3 credits.
Continues intensive study of Orff teaching philosophy to complete certification process in Orff Schulwerk. Students continue intensive work in rhythm, melody, harmony, timbre, form, and pedagogy. Tenor, bass, and soprano recorders introduced. Movement and rhythmic studies concentrate on mixed meters and non-Western source materials and styles. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: MUSI 563 and 564 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 566: *Instrumental Methods for Band.* 3 credits.
This course prepares students to teach instrumental music in elementary and secondary schools. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Offered by Dewberry School of Music. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 567: *Instrumental Methods, Strings.* 3 credits.
Prepares students to successfully plan, organize, and administer string classes from the beginning levels through performing ensembles (grades 4-12), and to explore teaching materials appropriate for individual and class instruction. Three hours per week spent in class, one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Offered by Dewberry School of Music. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 568: *Vocal and Choral Methods.* 3 credits.
A Survey course that introduces repertoire and methods for teaching middle and high school choral groups, small ensemble and voice classes. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in the public schools. Offered by Dewberry School of Music. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 571: *Techniques of Accompanying I.* 1 credit.
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations and performances by professionals; and participate in master classes. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Admission to graduate-level Private Music Instruction in a keyboard instrument or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 572: *Techniques of Accompanying II.* 1 credit.
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations and performances by professionals; and participate in master classes. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Admission to graduate-level Private Music Instruction in a keyboard instrument or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 573: *Accompanying and Musicianship III.* 3 credits.
For piano majors or students with significant keyboard skills. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: MUSI 572.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 577: *Music and Consciousness.* 3 credits.
A Study of the ways music has affected the mind and brain from throughout history to the present day. By using the principles of entrainment and resonance, it will be demonstrated experientially the various methods by which music is used to alter consciousness. Offered by Dewberry School of Music. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 592: *Topics in Music.* 1-6 credits.
Intensive study of selected topics in performance, composition, or conducting. Individual research, group discussions, and participation in related activities. Notes: May be repeated as topics change. Offered by Dewberry School of Music. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Baccalaureate degree in music.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Graduate Regular scale.

MUSI 593: *Foundations of Music Education.* 3 credits.
This course prepares students to address aspects of administration management of music programs in public and private schools. Various principles and concepts of management styles and planning are investigated. Topics addressed include: curriculum, budget, student recruitment and retention, music facilities, external relations of the music unit and legal issues for music educators. Offered by Dewberry School of Music. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 595: *Internship in Music Education.* 6-9 credits.
This course prepares students to successfully plan and implement pedagogical strategies for the effective teaching of instrumental music. Students will also gain experience administering a music program in the elementary and secondary school music curriculum. Students will participate in class teaching modules and field experiences in the public schools. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: 1. Completion of all courses required for the Graduate Certificate in Music Education Licensure for PK-12. 2. Successful completion of the Music Education "Instrumental Proficiency Exam" requirements listed in the Music Education Handbook. 3.

Successful completion of the Praxis I Examination (or equivalency), and VCLA (or Praxis I equivalency).

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

MUSI 610: *Topics in Music Theory.* 3 credits.
Uses music analytical theories to examine repertoire from a given time period or style. Notes: May be repeated as topics change. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: MUSI 501, 502, and 516 or appropriate score on graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 611: *Analytical Techniques.* 3 credits.
Detailed formal and stylistic examination of music selected from the major style periods. Development of graduate-level analytical skills. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: MUSI 501, 502, and 516 or appropriate score on graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 613: *Graduate Orchestration.* 3 credits.
Intensive study of instrumentation through analysis and arrangement. Includes contemporary techniques and scoring for large forces. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: MUSI 501, 502, and 516 or appropriate score on the graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 614: *Music Theory Pedagogy.* 3 credits.
Study of materials and procedures in the teaching of undergraduate-level music theory subjects. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 615: *Advanced Jazz Improvisation.* 3 credits.
Advanced techniques and applications of jazz improvisation. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Graduate placement exam or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 621: *Graduate Applied Music.* 1 credit.
Graduate Applied music studies Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition or portfolio.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 622: *Applied Music in Keyboard.* 1 credit.
Applied music studies in Keyboard. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 623: *Applied Music in Voice.* 1 credit.
Applied music studies in Voice. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 624: *Applied Music in Woodwind.* 1 credit.
Applied music studies in Woodwind. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 625: *Applied Music in Brass.* 1 credit.
Applied Music studies in Brass. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 626: *Applied Music in String.* 1 credit.
Applied Music studies in String. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 627: *Applied Music in Percussion.* 1 credit.
Applied Music studies in Percussion. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 628: *Applied Music in Composition.* 1 credit.
Applied Music studies in Composition. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Portfolio of recent compositions.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 629: *Applied Music in Conducting.* 1 credit.
Applied Music studies in Conducting. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 630: *Topics in Music History and Literature.* 3 credits.
Examination of a musical style, genre, composer, compositional school, or historical development. Primary and secondary source materials studied in historical and analytical contexts. Notes: May be repeated as topics change. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: MUSI 532 and 533 or appropriate score on the graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 640: *Topics in World Musics.* 3 credits.
Study of musics from selected cultures. Students will study structural, social, and cognitive foundations of the music. Notes: May be repeated as topics change. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 650: *Topics in Jazz Studies.* 3 credits.
Study of selected topics in performance, composition, arranging and analysis. May be repeated for up to 9 credits as topics change. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Graduate placement exam or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 651: *Keyboard Pedagogy II.* 3 credits.
Develop effective teaching strategies, business practices, and investigative/diagnostic approaches in repertoire exploration to prepare/improve teaching abilities in independent studio. Examine professional role of independent piano teacher, investigate scope and sequence of repertoire development, explore creative activities and computer use in the studio, develop understanding of technical skill development, examine intermediate/advanced keyboard repertoire, explore various teaching strategies/philosophies. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Keyboard Pedagogy I.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 652: *Vocal Pedagogy II.* 3 credits.
A continuation of vocal pedagogy I, which focused on teaching voice through the rudimentary and systematic study of vocal physiology and pedagogical methods, and included the process, procedures, development and practice of the art of singing. Pedagogy II provides students the opportunity to apply this information to real life situations through use of four specific scenarios and practical teaching experience. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Vocal Pedagogy I.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 653: *Instrumental Pedagogy II.* 3 credits.
Prepares students for teaching string techniques of their major instrument for all levels through study of pedagogical methods and standard literature. Develop sound business practices/policies to ensure success in setting up a private studio; become familiar with local/national professional organizations serving the string teaching community; explore teaching abilities through a case study project involving one or more students. Recommended Prerequisite: Instrumental Pedagogy I.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 654: *Graduate Conducting.* 3 credits.
Classroom study of conducting, including refining gestures, rehearsal leadership, and the communication of musical style. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 660: *Topics in Music Education.* 1-6 credits.
Examination of specific areas of concern to music educators. Individual research, group discussions, and participation in related activities. Notes: May be repeated as topics change. Offered by Dewberry School of Music. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Baccalaureate degree in music; graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 661: *Psychology of Music Teaching and Learning.* 3 credits.
Study of the learner's musical behaviors (affective, cognitive, and psychomotor) in an effort to devise an empirically based teaching method founded on learning principles. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music; graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 662: *Introduction to Research in Music.* 3 credits.
Development of skills, attitudes, and understanding to conduct and report research in music, including philosophical bases, scope and organization, stylistic practices in writing research reports, study of materials and resources in music and music education, and proper use of library and other research services. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 663: *Aesthetics of Music Education.* 3 credits.
Study of philosophical foundations of contemporary music education, and critical examination of music programs and activities in aesthetic education and efforts by music education establishment to enhance them. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 664: *Advanced Pedagogy.* 3 credits.
Advanced instruction in pedagogy including study of methods, theories, techniques, and materials for teaching children and adult students. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: MUSI 551, or MUSI 552, or MUSI 553, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 681: *Graduate Choral Ensembles.* 1 credit.
Performance of works from the choral repertoire. Notes: Public concerts are given. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Graduate Regular scale.

MUSI 682: *Wind Symphony.* 1 credit.
Highly selective group of instrumentalists performing works from the wind repertoire. Notes: Public concerts are given. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Graduate Regular scale.

MUSI 683: *Symphonic Band.* 1 credit.
Performance of works from band repertoire. Notes: Public concerts are given. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Studio

Grading:

This course is graded on the Graduate Regular scale.

MUSI 685: *Graduate Chamber Ensemble.* 1 credit.
Performance of works from chamber music repertoire. Notes: Public concerts are given. Offered by Dewberry School of Music. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Graduate Regular scale.

MUSI 687: *Symphony Orchestra.* 1 credit.
Performance of works from orchestral repertoire. Notes: Public concerts are given. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Graduate Regular scale.

MUSI 688: *Opera and Musical Theater Ensemble.* 3 credits.
Solo-vocal, performance-oriented ensemble class that presents operatic works or excerpts from them, from Baroque to 21st century, as well as works or excerpts from American musical theater. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 689: *Jazz Ensemble.* 1 credit.
Provides practical experience in aspects of jazz performance. Participation in section rehearsals and small and large jazz groups. Jazz improvisation expected. Notes: Public concerts are given. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Studio

Grading:
This course is graded on the Graduate Regular scale.

MUSI 690: *Graduate Lecture Recital.* 1-3 credits.
Combination of musical performance and scholarly presentation on a well-defined topic. Notes: Public presentation required. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Baccalaureate degree in music, audition.

Recommended Corequisite: MUSI 621 (3-credit level).

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

MUSI 695: *Teaching Internship.* 2 credits.
Teaching beginner, intermediate, and early advanced students in private or group lessons under faculty supervision. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 4 credits.

Recommended Prerequisite: MUSI 660.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

MUSI 698: *Comprehensive Exit Exam/Portfolio.* 0 credits.
Comprehensive exit exam/portfolio submitted during the graduation semester or, in the case of students selecting the thesis option in the music education concentration, on completion of 24 credits of course work and immediately before beginning work on the thesis. For all students other than those enrolled in the online MM in music education, this exam is usually a three-hour written test, with questions based primarily on course work the student has taken toward the degree at Mason. Students enrolled in the online MM in music education submit a comprehensive electronic portfolio in place of a comprehensive exit exam. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Permission of Director of Graduate Studies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

MUSI 699: *Independent Study.* 1-3 credits.
Individual research and study a concentration available in the master of music. Offered by Dewberry School of Music. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Baccalaureate degree in music and permission of graduate coordinator. Individualized section form required.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

MUSI 710: *Advanced Topics in Music Theory.* 3 credits.
Advanced study of specific styles and repertoire from the perspective of various analytical approaches. Notes: May be repeated as topics change. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: MUSI 501, 502, and 516 or appropriate score on graduate placement exam.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 712: *Composition for Conductors and Performers.* 3 credits.
Advanced study of new music for various media. Notes: This course is not for students in the composition concentration. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 720: *Advanced Topics in Applied Music.* 3 credits.
Advanced study of concepts in applied music. Notes: May be repeated as topics change. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 721: *Applied Music.* 2-3 credits.
Applied Music studies. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition or portfolio.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 722: *Applied Music in Keyboard.* 2-3 credits.
Applied music studies in Keyboard. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 723: *Applied Music in Voice.* 2-3 credits.
Applied music in Voice. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 724: *Applied Music in Woodwind.* 2-3 credits.
Applied music studies in Woodwind. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 725: *Applied Music in Brass.* 2-3 credits.
Applied music studies in Brass. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 726: *Applied Music in String.* 2-3 credits.
Applied music studies in String. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 727: *Applied Music in Percussion.* 2-3 credits.
Applied music studies in Percussion. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 728: *Applied Music in Composition.* 2-3 credits.
Applied music studies in Composition. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Portfolio of recent compositions.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 729: *Applied Music in Conducting.* 2-3 credits.
Applied music studies in Conducting. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 730: *Advanced Topics in Music History.* 3 credits.
Advanced study of specific genres, composers, or repertoire from a historically analytical perspective. Notes: May be repeated as topics change. Offered by Dewberry School of Music. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: MUSI 532 and 533 or appropriate score on the graduate placement exam.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

MUSI 760: *Advanced Topics in Music Education.* 3 credits.
Advanced study of selected issues in music education. Notes: May be repeated as topics change. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 770: *Advanced Topics in Pedagogy.* 3 credits.
Advanced study of a specific topic in the pedagogy of music. Notes: May be repeated as topics change. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 777: *Music and Consciousness 2.* 3 credits.
The scientific mechanisms behind vibrational healing are uncovered showing how energy medicine affects Well -Being in a positive way. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: MUSI 577 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 780: *Doctoral Research Methods in Music.* 3 credits.
Development of analytical skills to design and create an original contribution to music scholarship at the doctoral level, by making students aware of the varied tools available to them to write a mock dissertation proposal. Offered by Dewberry School of Music. May not be repeated for credit.

Recommended Prerequisite: Graduate Placement exam.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

MUSI 790: *Graduate Recital.* 1 credit.
Public performance. Repertoire and performance standards as approved by faculty. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 4 credits.

Recommended Prerequisite: At least three credits of graduate PMI in the appropriate instrument or voice.

Recommended Corequisite: MUSI 700-level PMI (3-credits).

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 796: *Directed Reading/Research.* 1-3 credits.
Individualized study on a topic approved by faculty. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale.

MUSI 799: *Thesis.* 1-6 credits.
Supervised research on approved thesis topic. Offered by Dewberry School of Music. May be repeated within the degree.

Recommended Prerequisite: Completion of at least 12 hours of graduate study including MUSI 511 and approval of the topic. Students in the music education concentration must also have taken MUSI 562 and successfully passed the comprehensive exit examination.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

MUSI 800: *Studies for the Doctor of Philosophy in Education.* 1-6 credits.
Program of studies designed by the student's discipline director and approved by student's doctoral committee that brings student to participate in research, performance, or creative activity of discipline director and results in a paper reporting original contributions. Offered by Dewberry School of Music. May be repeated within the degree.

Recommended Prerequisite: Open only to PhD Education students admitted to study in music.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

MUSI 810: *Doctoral Seminar in Analysis.* 3 credits.
Seminar study of a specific genre or repertoire from various analytical perspectives. Notes: May be repeated as topics change. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Graduate placement examination.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

MUSI 821: *Doctoral Private Music Instruction.* 2-3 credits.
Private instruction in performance, conducting, or composition. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition or portfolio.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 822: *Doctoral Applied Music in Keyboard.* 2-3 credits.
Doctoral applied music studies in Keyboard. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 823: *Doctoral Applied Music in Voice.* 2-3 credits.
Doctoral applied music studies in Voice. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 824: *Doctoral Applied Music in Woodwind.* 2-3 credits.
Doctoral applied music studies in Woodwind. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 825: *Doctoral Applied Music in Brass.* 2-3 credits.
Doctoral applied music studies in Brass. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 826: *Doctoral Applied Music in String.* 2-3 credits.
Doctoral applied music studies in String. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 827: *Doctoral Applied Music in Percussion.* 2-3 credits.
Doctoral applied music studies in Percussion. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 828: *Doctoral Applied Music in Composition.* 2-3 credits.
Doctoral applied music studies in Composition. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Portfolio of recent compositions.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 829: *Doctoral Applied Music in Conducting.* 2-3 credits.
Doctoral applied music studies in Conducting. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

MUSI 830: *Doctoral Seminar in Music History.* 3 credits.
Seminar study of a specific genre, composer, or repertoire from a historically analytical perspective. Notes: May be repeated as topics change. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Graduate placement exam.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

MUSI 860: *Doctoral Seminar in Music Education.* 3 credits.
Seminar study of a specific issue in music education. Notes: May be repeated as topics change. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: Graduate placement exam.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

MUSI 880: *Doctoral Major Ensemble.* 1 credit.
Selective ensemble experience for doctoral students in music. Notes: Public concerts are given. Offered by Dewberry School of Music. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Studio

Grading:
This course is graded on the Graduate Regular scale.

MUSI 890: *Doctoral Recital.* 1 credit.
Public performance. Repertoire and performance standards as approved by faculty. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 4 credits.

Recommended Prerequisite: At least three credits of MUSI 821 in the appropriate instrument or voice.

Recommended Corequisite: MUSI 821 for 3 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

MUSI 998: *Dissertation Proposal.* 1-3 credits.
Preparation of a proposal for a dissertation study in music under the supervision of music faculty members. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Admission to a doctoral program in music, permission of faculty.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

MUSI 999: *Dissertation.* 1-12 credits.
Preparation of a dissertation in music under the supervision of music faculty members. Offered by Dewberry School of Music. May be repeated within the degree for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Native American and Indigenous Studies (NAIS)

200 Level Courses

NAIS 201: *Introduction to Native American and Indigenous Studies.* 3 credits.
Introduction to the history, social organization, political experience, and artistic expression of indigenous peoples of the western hemisphere, focusing primarily on American Indians, using methods and materials from a number of disciplines. Offered by English. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

NAIS 499: *Independent Study.* 3 credits.
Intensive study of a particular area, topic, or critical or theoretical problem related to Native American and Indigenous Studies to be conducted in close consultation with an instructor. At least one substantial, researched piece of written work required. Offered by English. Limited to three attempts.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

Neuroscience (NEUR)

100 Level Courses

NEUR 101: *Introduction to Neuroscience.* 3 credits.
This course is for students interested in the science of the brain from its evolutionary origins to its role in health and behavior. We examine systems that make up the brain from neurons to circuits. We explore trends in neuroscience experimentation including neuroimaging, computational neuroscience and neuropharmacology. May not be taken for major or minor credit after 300-level PSYC or NEUR courses. Offered by Neuroscience. Limited to three attempts.

Mason Core: Natural Science Overview

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

NEUR 327: *Cellular, Neurophysiological, and Pharmacological Neuroscience.* 3 credits.
Basic concepts of cellular and molecular level neuroscience, including neuronal functions, cellular anatomy and membrane functions, electrical properties of neurons, and cellular basis of plasticity. Offered by Neuroscience. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (CHEM 211[C] or 211[XS]) and (CHEM 213[C] or 213[XS]) and (BIOL 213[C] or 213[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NEUR 335: *Molecular, Developmental, and Systems Neuroscience.* 3 credits.
In-depth survey of genetic and embryological development of the brain and introduction to systems neuroscience, including sections on patterning gene expression, generation and migration of neurons, axonal and dendritic outgrowth, and basic neuroanatomy. Offered by Neuroscience. Limited to three attempts.

Recommended Prerequisite: PSYC 373 (may also be enrolled concurrently), PSYC 376.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

NEUR 405: *RS: Laboratory Methods in Behavioral Neuroscience.* 3 credits.
Introduction to experimental methods used in behavioral neuroscience research. Laboratory work includes surgical, histological and behavioral techniques. Proper use and handling of animals, ethical issues, evaluation of neuroscience literature, experimental design and data analysis are addressed. This requires working with laboratory rodents. Offered by Neuroscience. Limited to three attempts.

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: PSYC 300, BIOL 312 or equivalent. PSYC 372 or PSYC 376 or permission of instructor.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

NEUR 406: *Zebrafish Neurodevelopment Laboratory.* 3 credits.
Introduction to experimental methods used in neurodevelopment research, using zebrafish as a model system. Includes zebrafish embryo manipulation, microscopy, and histology, with a focus on vertebrate nervous system development and disease. Experimental design, research methods, data analysis and ethical issues are addressed. Scholarly research projects are incorporated. Notes: This requires working with live zebrafish embryos. Offered by Neuroscience. Limited to three attempts.

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: PSYC 300, BIOL 312 or equivalent. BIOL 213, NEUR 327 and NEUR 335.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

NEUR 407: *Lab Investigations Using Voltage Clamp Electrophysiology.* 3 credits.
Introduction to neurophysiology using two electrode voltage clamp. Basic and advanced concepts of neurophysiology such as membrane potentials and neuronal channel and receptor function are covered. Includes theory of bioelectrical amplifiers, properties of biological

membranes, and principles of physiological software and hardware. Students will learn skills such as making physiological solutions, using micromanipulators, basic molecular biology techniques, and obtaining and handling oocytes from the African clawed toad Xenopus Laevis depending on the students' chosen projects. Students will read primary literature, design, and execute scholarly research projects. Notes: This course requires working with live amphibians. Offered by Neuroscience. Limited to two attempts.

Specialized Designation: Mason Impact.

Recommended Prerequisite: PHYS 245

Registration Restrictions:
Required Prerequisites: NEUR 327[C] or 327[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

NEUR 410: *Current Topics in Neuroscience.* 3 credits.
Overview of current topics in neuroscience, focusing on research at Mason. Offered by Neuroscience. Limited to three attempts.

Specialized Designation: Topic Varies, Writing Intensive in Major

Recommended Prerequisite: PSYC 375, 376, ENGH 302. NSCI 327 recommended.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NEUR 411: *Seminar in Neuroscience.* 3 credits.
Advanced seminar on a selected topic in neuroscience. Includes in depth reading and discussion of current research in human and nonhuman animals, with an emphasis on critical evaluation. Notes: Course may be repeated if selected topic is different. Offered by Neuroscience. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: (ENGH 302[C] or 302[XS]) and (NEUR 327[C], 327[XS], 335[C] or 335[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

NEUR 422: *Glutamatergic Systems.* 3 credits.
A survey of molecular and clinical neuroscience from the perspective of glutamatergic systems. This course will use the reading of primary scientific literature to guide students to learn a variety of neural systems, methods in neuroscience, and levels of analysis. Students will develop critical thinking skills through communicating and critiquing papers. Offered by Neuroscience. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (NEUR 327[C] or 327[XS]) and (NEUR 335[C] or 335[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NEUR 440: *Independent Study in Neuroscience.* 1-3 credits.
Independent research based a laboratory or field investigation under the guidance of a faculty member, assisting with research on faculty projects, or reviewing the literature on a specific research topic. Notes: A maximum of 6 hours of independent study may be applied towards the major. Offered by Neuroscience. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: NEUR 327, 30 hours of course work with a grade point average of 3.0, or permission of instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

NEUR 450: *Honors Thesis Proposal.* 2-3 credits.
Work on proposal for thesis based a laboratory or field investigation under the guidance of a faculty member. Notes: A total of 6 hours must be taken in NEUR 450 and 451. A minimum of 2 hours and a maximum of 3 hours may be taken in NEUR 450. Offered by Neuroscience. Limited to three attempts.

Recommended Prerequisite: NEUR 327; 335; 410 or 411, may be taken as co-requisites. PSYC 300 or equivalent statistics course. Permission of NAC undergraduate committee and thesis director.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

NEUR 451: *Honors Thesis.* 3-4 credits.
Thesis based a laboratory or field investigation under the guidance of a faculty member. Notes: A total of 6 hours must be taken in NEUR 450 and 451. A minimum of 3 hours and a maximum of 4 hours may be taken in NEUR 451. Offered by Neuroscience. Limited to three attempts.

Recommended Prerequisite: NEUR 450.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

NEUR 461: *Special Topics in Neuroscience.* 1-3 credits.
Selected topics reflecting in specialized areas of neuroscience. Notes: May be repeated for credit when topic is different. Offered by Neuroscience. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: PSYC 372, 375, or equivalent or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NEUR 480: *Biological Bases of Alzheimer's Disease.* 3 credits.
A survey of the causes, symptoms, drug treatments, risk factors and preventative measures associated with Alzheimer's disease. Offered by Neuroscience. Limited to three attempts.

Recommended Prerequisite: PSYC 375; PSYC 376; PSYC 375 or equivalent or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

NEUR 592: *Special Topics in Neuroscience.* 3 credits.
Special topics in neuroscience reflecting specialized areas or new subfields that not covered in fixed-content neuroscience courses. Course may be repeated for credit as needed. Offered by Neuroscience. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: NEUR 327, NEUR 335 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

NEUR 600: *Chemistry and the Brain.* 3 credits.
Fundamentals of general chemistry, atoms, molecules, and reactions, with emphasis on water solutions. Organic compounds and functional groups, biosynthesis and properties, and examples from nervous system. Also includes biopolymers and their roles in cellular and neuronal organization, ionic channels, neurotransmitter receptors, and psychoactive substances. Offered by Neuroscience. May not be repeated for credit.

Recommended Prerequisite: Admission to neuroscience PhD program or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 601: *Developmental Neuroscience.* 3 credits.
Introduction to developmental neurobiology with overview of embryological development of the nervous system. Topics include neural induction, patterning/cell fate specification, and neural circuit assembly together with modern molecular methods for exploring neural development. Offered by Neuroscience. May not be repeated for credit.

Recommended Prerequisite: Completion of 60 credits, including PSYC 372 or BIOL 213 or BIOL 303.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 602: *Cellular Neuroscience.* 3 credits.
Detailed overview of the functioning and interactions of the cellular elements of the central nervous system. Topics include structure and function relationships, the chemical, physical, and electrical basis of neural signaling, local versus long-distance signaling, generation of action potentials, and essentials of synaptic communication. Offered by Neuroscience. May not be repeated for credit.

Recommended Prerequisite: Admission to the PhD program in Neuroscience or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 603: *Mammalian Neuroanatomy.* 3 credits.
Focus on mammalian brain organization and function, emphasizing human neurobiology. Modern experimental and clinical tools explain: gross and microscopic brain organization; functional brain circuits for sensory and motor processing; higher brain organization and function; and development of selected brain areas. The knowledge gained is then used to explain the clinical symptoms occurring after specific brain insults. Offered by Neuroscience. May not be repeated for credit.

Recommended Prerequisite: One course in neuroscience (or equivalent biology course), or permission of instructor.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 604: *Ethics in Scientific Research.* 1-3 credits.
Reflects on purpose of scientific research and reviews foundational principles for evaluating ethical issues. Offers skills for survival in scientific research through training in moral reasoning and teaching of responsible conduct. Discusses ethical issues in research, and teaches how to apply critical thinking skills to design, execution, and analysis of experiments. Issues include using animals and humans in research, ethical standards in computer community, and research fraud. Currently accepted guidelines for behavior in data ownership, manuscript preparation, and conduct of persons in authority may be presented and discussed in terms of relevant ethical issues. Offered by Neuroscience. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree, Undergraduate or Washington Consortium level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 611: *Philosophical Foundation of Neuroscience.* 3 credits.
This course presents the joint histories of the nature of thought, the philosophy of science, the construct of self, and the nature of mind. Offered by Neuroscience. May not be repeated for credit.

Recommended Prerequisite: Any course in neuroscience or permission of the instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 612: *Neuroethics.* 3 credits.
Neuroethics explores the implications of developments in basic and clinical neuroscience on social and ethical issues. This course will survey emerging questions raised by recent neuroscientific discoveries on genetic and environmental factors that influence human behavior, decision-making, personality traits, and mental states. Grades will be based on article presentation, class participation, and final written report. Offered by Neuroscience. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 621: *Synaptic Plasticity.* 3 credits.
Course on activity-dependent modification of functional connectivity in the central nervous system as it relates to development, cognition, and disease. Offered by Neuroscience. May not be repeated for credit.

Recommended Prerequisite: NEUR 602.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 634: *Neural Modeling.* 3 credits.
Introduces the objectives, philosophy, and methodology of neuronal modeling. Instructs students in the use of some of the more popular neural modeling software packages. Students learn the syntax of several software packages, how to create neurons from subcellular components, and how to create networks by connecting neuron models. Offered by Neuroscience. May not be repeated for credit.

Recommended Prerequisite: NEUR 602 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 651: *Molecular Neuropharmacology.* 3 credits.
Presents key concepts in cellular and molecular neuropharmacology Provides an in-depth survey of receptor driven cell function, which includes recent topics in cell structure, membrane function, electrical

properties of neurons and intracellular signaling. Enables an introduction to research tools and rends in study of neuronal systems via a reading and an analysis of the primary literature. Offered by Neuroscience. May not be repeated for credit.

Recommended Prerequisite: NEUR 602 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 689: *Topics in Neuroscience.* 3 credits.
Selected topics in neuroscience reflecting specialized areas or new subfields not covered in fixed-content neuroscience courses. Offered by Neuroscience. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

NEUR 701: *Neuroscience Laboratory.* 3 credits.
Advanced training in experimental techniques used in current neuroscience research. Acquaints students with the theoretical basis of multiple techniques and trains the student in the laboratory skills necessary to perform each technique. Includes work in model systems or cell culture, microscopy, histology and data analysis. Notes: This lab requires working with live zebrafish embryos. Offered by Neuroscience. May not be repeated for credit.

Recommended Prerequisite: NEUR 601 and admission to neuroscience PhD program, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

NEUR 702: *Research Methods.* 3 credits.
Trains students in research methodologies for life sciences. Covers the four aspects of biological research projects: experimental design, data collection, data analysis and research ethics. Offered by Neuroscience. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 703: *Laboratory Rotation and Readings.* 3 credits.
Intensive introduction to a research laboratory in neuroscience. The student will read background material pertinent to the problem under study, learn and practice research methods of the laboratory, and formulate a short final project, which may be a proposal or an actual project, demonstrating some mastery of the techniques and approaches employed. Offered by Neuroscience. May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: Admission to the PhD program in Neuroscience.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

NEUR 709: *Neuroscience Seminars.* 1 credit.
Special seminar series for first year neuroscience PhD students. Detailed overview of neuroscience research at Mason. Each week, a different neuroscience laboratory and principal investigator lectures to students. The lecture includes the neuroscience basics necessary to appreciate the laboratory research theme and mission, and a more practical description of the active research program, possibly including a visit to the laboratory. Offered by Neuroscience. May not be repeated for credit.

Recommended Prerequisite: Admission to the Neuroscience PhD program.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 710: *Special Topics in Neuroscience.* 1 credit.
Examines topics in neurosciences, including neurogenetics, neural imaging, and the competing computational and biological approaches to understanding the mind. Offered by Neuroscience. May not be repeated for credit.

Specialized Designation: Topic Varies

Recommended Prerequisite: Admission to the Neuroscience PhD program.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 734: *Computational Neurobiology.* 3 credits.
Intense review of neurobiology for graduate students interested in studying how nerve cells integrate and transmit signals, and how behavior emerges from integrated actions of populations or circuits of nerve cells. Covers electrical and biochemical properties of single neurons, and electrical and chemical communication between neurons. Emphasizes mathematical descriptions and computational techniques to study and understand neurons and networks of neurons. Offered by Neuroscience. May not be repeated for credit.

Recommended Prerequisite: NEUR 602 and MATH 214, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 735: *Computational Neuroscience Systems.* 3 credits.
Intensive introduction to systems neuroscience from quantitative perspective. Covers computational techniques used to study function of networks of neurons. Uses spike train statistics, neural encoding, and information theory to investigate behaviors that emerge from integrated actions of networks of neurons. Offered by Neuroscience. May not be repeated for credit.

Recommended Prerequisite: NEUR 734 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 741: *Introduction to Neuroimaging.* 3 credits.
Introduction to physics and techniques of magnetic resonance imaging (MRI) and their applications to clinical and basic neuroscience. Students learn about the protocols used in the acquisition of images in both structural and functional contexts, and experimental paradigms applied to the exploration of cognition, learning, and development. Students gain experience with creating an experimental design for a study and understanding practical logistics involved in imaging, such as MRI safety and subject screening. Offered by Neuroscience. May not be repeated for credit.

Recommended Prerequisite: NEUR 602 or 603, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 742: *Cognitive Neuroscience.* 3 credits.
Introduces cognitive neuroscience topics, including aspects of cognitive science covering an array of perceptual, sensory, cognitive, and affective processes. Incorporates studies of brain lesions, brain imaging, and animal and computational models. Offered by Neuroscience. May not be repeated for credit.

Recommended Prerequisite: NEUR 602 or NEUR 603 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 751: *Applied Dynamics in Neuroscience.* 3 credits.
Covers recent developments in the application of applied dynamics to neuroscience. Emphasizes dynamical system approach to the understanding of neural processes. Topics include neural synchrony and control; formation of waves; oscillations; patterns within neural ensembles; network topology and dynamics of neurons; and decoding and encoding of neural signals. Offered by Neuroscience. May not be repeated for credit.

Recommended Prerequisite: CSI 734, PSYC 531, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NEUR 752: *Modern Instrumentation in Neuroscience.* 3 credits.
Builds on knowledge of how and what things are measured and controlled in modern bioinstrumentation. Topics include fundamental instrumentation; principles of sensing; basic electronics; computer interfaces and data acquisition; signals in biological systems; biopotential and ionic concentration measurements; and optical techniques. Offered by Neuroscience. May not be repeated for credit.

Recommended Prerequisite: NEUR 602 or 734, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

800 Level Courses

NEUR 851: *Advanced Computation and Brain Dynamics.* 3 credits.
In-depth study of open issues and the state-of-the-art in advanced brain dynamics. Using mathematical and physical models, the course covers the neurodynamical aspects of neural nets, receptive fields, ion-channels, intercortical interactions, phase-locking, synchronicity, and the possible nontrivial role of quantum effects. Offered by Neuroscience. May not be repeated for credit.

Recommended Prerequisite: CSI 734, PSYC 531.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

NEUR 996: *Doctoral Reading and Research.* 3,6 credits.
Reading and research on specific topic in neuroscience under direction of faculty member. Offered by Neuroscience. May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: Admission into the NEUR doctoral program and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

NEUR 998: *Dissertation Proposal.* 1-6 credits.
Covers development of a research proposal under guidance of dissertation director and doctoral committee. Proposal forms the basis for the doctoral dissertation. Notes: No more than a total of 24 credits in NEUR 998 and 999 may be applied toward satisfying doctoral degree requirements. Out of the 24, no more than 12 credits of NEUR 998 may be applied. Offered by Neuroscience. May be repeated within the degree.

Recommended Prerequisite: Admission to the Neuroscience Ph.D. program.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

NEUR 999: *Doctoral Dissertation.* 1-12 credits.
Doctoral research performed under the direction of the dissertation director. Notes: No more than a total of 24 credits in NEUR 998 and 999 may be applied toward satisfying doctoral degree requirements. Students must email mhayes5@gmu.edu for permission and CRN to register. Offered by Neuroscience. May be repeated within the degree.

Recommended Prerequisite: Advancement to candidacy in the Neuroscience Ph.D. program. Students must email mhayes5@gmu.edu for permission and CRN to register.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Nursing (NURS)

300 Level Courses

NURS 305: *Application of Basic Nursing Techniques.* 1 credit.
To be taken fall semester of accelerated second degree program. Introduces basic nursing technologies, and provides opportunities to apply these skills in simulated technology lab. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: Acceptance into accelerated nursing pathway.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale.

NURS 309: *Introduction to Basic Nursing Care.* 3 credits.
Enrollment restricted to second-degree students only. Introduces basic fundamentals of nursing care across the life span. Emphasis on nursing process, critical thinking, and foundational technologies and skills required to practice in the health care setting. Notes: Enrollment restricted to second-degree students only. Requires acceptance into the accelerated nursing pathway. Offered by Nursing. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 310: *Application of Basic Nursing Care.* 4 credits.
Application of basic nursing care in acute care settings utilizing the nursing process. Note: Open only to second degree students. Enrollment is controlled. Offered by Nursing. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale.

NURS 312: *Basic Nursing Care of Adults.* 4 credits.
Provides the student the opportunity to practice health assessment and fundamental nursing skills with adult medical/surgical clients, including those who are culturally diverse, vulnerable, and experiencing physiological, psychological, and social health problems. Offered by Nursing. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale.

NURS 319: *Pathophysiological Basis for Nursing Care of Individuals and Small Groups.* 4 credits.
Focuses on pathophysiological, psychological, sociocultural, and risk-reduction factors related to nursing care for clients with psychiatric conditions, as well as for child-bearing women, infants, children, and adolescents with acute health care needs. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: Acceptance into accelerated nursing pathway. Enrollment is controlled.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 330: *Nursing Fundamentals.* 3 credits.
Introduces nursing process and communication skills as the foundation for beginning health assessment and fundamental nursing care for culturally diverse individuals throughout the life span. Offered by Nursing. Limited to two attempts.

Recommended Corequisite: NURS 312.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 334: *Nursing as a Health Profession and Discipline.* 2 credits.
Introduces nursing as a dynamic and caring health profession. Explores nursing's impact through health promotion and disease prevention activities on the health status of culturally diverse and vulnerable individuals, families, small groups, and communities across the life span. Incorporates nursing theory and critical thinking processes as they apply to the art and science of nursing. Provides historical perspectives on ethical, legal, political, and social issues. Offered by Nursing. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 336: *Concepts in Professional Nursing as a Discipline.* 3 credits.
Provides an analysis of the profession and explores nursing philosophies and theories. Explores legal, ethical, political, and technological issues in health care at various nursing levels. Addresses critical thinking and its application to the collaborative nursing process. Utilizes the American Psychological Association formatting style for professional writing within the nursing profession. Notes: Must be admitted to the RN-to-BSN program. Offered by Nursing. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 337: *Application of Nursing Fundamental Technologies.* 1 credit.
Opportunity to practice health assessment and fundamental nursing technologies while using communication skills with culturally diverse and vulnerable populations in a variety of settings. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: Junior standing.

Recommended Corequisite: NURS 312.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale.

NURS 343: *Pharmacology.* 3 credits.
Covers principles of pharmacokinetics, pharmadynamics of selected drug classifications, and nursing responsibilities related to drug administration

to individuals throughout life span. Offered by Nursing. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 344: *Intermediate Nursing Technologies.* 1 credit.
Laboratory course to assist students in acquiring therapeutic nursing interventions. Technologies presented are asepsis and wound care, administration of medications including dosage calculations, and management of intravenous therapy. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: NURS 312, 330, 337, 347, 425.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale.

NURS 347: *Adult Pathophysiology and Nursing Care.* 3 credits.
Explores pathophysiology of a variety of commonly encountered diseases/disorders/illnesses in the adult population. Analyzes appropriate nursing, medical and surgical interventions. Introduces preventive strategies, including patient and family education, that maintain and maximize wellness. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: Acceptance into junior standing.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 348: *Maternal-Newborn Physiology, Pathophysiology, and Nursing Care.* 2 credits.
Introduces normal and abnormal processes with maternal-infant clients including cultural diversity and vulnerable populations. Focuses on normal physiological, pathophysiological, psychological, sociocultural, risk reduction, and nursing care of these clients. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: Acceptance into junior standing.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 349: *Pediatric Pathophysiology and Nursing Care.* 2 credits.
Focuses on changing health needs of culturally diverse and vulnerable populations. Includes nursing care, pathophysiological, psychological, sociocultural, and risk-reduction implications of frequently experienced health problems in pediatric population. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: Acceptance into junior standing.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 350: *Application of Nursing Care for Individuals and Small Groups.* 4 credits.
Includes five weeks of clinical experience in each specialty area, with focus on obstetric and family nursing, pediatric, and psychiatric mental health nursing. Students may also follow selected clients in clinics or home situations. Clinical consists of two full days per week in acute-care agencies. Notes: Open to accelerated second degree students Offered by Nursing. Limited to two attempts.

Recommended Corequisite: NURS 319, 353 and 419.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 351: *Application of Intermediate Nursing Technologies.* 1 credit.
Introduces intermediate nursing technologies and provides opportunities to apply these skills in simulated technology lab. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: NURS 305, 309, 310, 334, 419 and 425.

Recommended Corequisite: NURS 350.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale.

NURS 358: *Health Promotion and Disease Prevention in Maternal/Infant Nursing.* 2 credits.
Provides the student an opportunity to perform nursing care to the maternal/infant client, including those who are culturally diverse and vulnerable, and experiencing physiological, psychological, and social health problems in a variety of settings. Contact the department for meeting dates and times. Notes: Enrollment is controlled. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: NURS 348. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 359: *Health Promotion and Disease Prevention in Pediatric Nursing.* 2 credits.
Provides the student an opportunity to perform nursing care to the pediatric client, including those who are culturally diverse and vulnerable, and experiencing physiological, psychological, and social health problems in a variety of settings. Contact department for meeting dates/times. Notes: Enrollment is controlled. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: NURS 349. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 388: *Problem-Based Clinical Inquiry.* 3 credits.
Focuses on analyzing clinical problems and attempts to resolve issues using critical thinking. Students examine the data in the cases, draw inferences, make deductions, identify assumptions, generate interpretations, evaluate weakness and strengths of arguments, and document their findings. Offered by Nursing. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

NURS 410: *Nursing Care of Clients with Pathological Conditions.* 3 credits.
Encompasses complex health problems of culturally diverse and vulnerable populations throughout the life span. Focuses on nursing care needs and pathophysiological, psychological, and sociocultural implications of complicated health problems. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: Completion of all junior year nursing courses.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 419: *Pathophysiological Basis for Nursing Care of Individuals and Small Groups II.* 4 credits.
Enrollment restricted to second degree students only. Explores the nursing care of adults and the implications of acute and chronic conditions on the physiological, psychological, and socio-cultural aspects of individuals and families. Analyzes medical and surgical interventions for a variety of commonly encountered diseases/disorders/illnesses. Evaluates primary, secondary and tertiary prevention strategies in order to assist adults in maximizing wellness and introduces patient teaching strategies. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: NURS 305, 309, 310, 319, 334, 425. Note: Open only to Second Degree students.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 425: *Comprehensive Health Assessment.* 3 credits.
Open only to RNs and LPNs. Introduces systematic health assessment across the life span, and expands that knowledge base to include knowledge and skills necessary to perform comprehensive health assessments with culturally diverse and vulnerable populations. Offered by Nursing. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 427: *Advanced Technologies for the Accelerated Pathway.* 1 credit.
Advanced technology course developing knowledge base related to acquisition of advanced skills in nursing practice. Refinement of assessment skills associated with selected advanced technologies integrated into this laboratory course. Offered by Nursing. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 428: *Community Health Clinical for the Accelerated Pathway.* 2 credits.
Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community. Emphasis on health promotion and disease prevention for well populations, and community-based care for individuals and families with acute and chronic illness. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: NURS 436, 440.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 429: *Preceptorship for the Accelerated Pathway.* 3 credits.
Opportunity to deliver collaborative nursing care to culturally diverse and vulnerable populations. Notes: Concentrated clinical experiences available in selected institutional settings. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: NURS 309, 310, 320, 343, 419, 436.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 434: *Vulnerable Populations.* 3 credits.
Focuses on the care of vulnerable and aging populations. Students will examine health disparities, health literacy, and multicultural issues that impact the delivery of health care. Students will analyze health care policies and health care delivery models that offer potential interventions for the identified needs of these populations. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: RN to BSN students.

Recommended Corequisite: NURS 336.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 435: *Public Health Preceptorship for Nurses.* 3 credits.
Expands nursing students' understanding of population-focused health care. Emphasis will be on prevention principles in primary, secondary, and tertiary care of health problems. Students will be exposed to concepts of community, public health, and health policy affecting culturally diverse and vulnerable populations in a selection of community and public health settings. Offered by Nursing. Limited to two attempts.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

NURS 436: *Leadership and Management of Health Care.* 3 credits.
Introductory course in the leadership and management of health-related organizations. Reviews administrative issues in health-related services with particular emphasis on developing organizational strategies for effective interfacing of medical, nursing, allied health, and administrative staff. Offered by Nursing. May be repeated within the degree for a maximum 6 credits. Equivalent to HAP 416.

Recommended Prerequisite: Completion of all junior year nursing courses or admission to RN to BSN program.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 440: *Community Health and Epidemiology.* 3 credits.
Addresses population-focused health care. Emphasis is on primary, secondary, and tertiary prevention of health problems. Concepts of community, public health, and health policy affecting culturally diverse and vulnerable populations are examined. Offered by Nursing. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Admission to the Second degree or RN to BSN program.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 451: *Advanced Clinical Preceptorship.* 5 credits.
Opportunity to provide complex, collaborative nursing care to culturally diverse and vulnerable populations. Notes: Concentrated clinicals available in selected institutional settings. See http:chhs.gmu.edu for information about specific clinical locations. Offered by Nursing. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 453: *Research in Nursing.* 3 credits.
Introductory research course designed to present basic concepts and methods of research. The research process is examined as a foundation for scholarship. Emphasis on critique and use of current nursing and research in clinical practice. Offered by Nursing. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Mason Impact.

Recommended Prerequisite: STAT 250 or equivalent; acceptance into one of BSN nursing pathway.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 455: *Advanced Technologies in Nursing.* 1 credit.
Opportunity to acquire advanced skills in nursing practice. Refinement of assessment skills associated with selected advanced technologies integrated into this laboratory course. Offered by Nursing. Limited to two attempts.

Recommended Corequisite: NURS 451.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale.

NURS 457: *Introduction to Nursing Informatics.* 3 credits.
This introductory course focuses on the use of computer technology in nursing and healthcare. The student evaluates software applications and assesses the merit of health-related information on the Internet. Students will engage in projects aimed at solving patient care problems in a variety of technologically-enhanced health care settings. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: Admission to the RN to BSN program.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 465: *Examination and Integration of Professional and Health Care Issues.* 3 credits.
Provides students with opportunities to examine issues in health care through reflection on the natural and behavioral sciences, humanities and other prerequisite coursework. -Selected topics are examined through reading, writing and discussion. Formal and informal writing on issues is expected. Students receive written self-evaluation as well as formal review by peers and faculty members involved in teaching the course. Offered by Nursing. Limited to two attempts. Equivalent to HAP 465.

Mason Core: Synthesis

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: Required Mason Core courses (including ENGL 302/ENGH 302).

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 466: *Community Health Nursing.* 2 credits.
This course addresses population-focused health care. Concepts of public health, epidemiology, environmental health, extended roles in nursing and health policy affecting culturally diverse and vulnerable populations are examined. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: Completion of all junior year nursing courses.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 467: *Clinical in Community Health Nursing.* 2 credits.
Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community. Emphasis is on health promotion and disease prevention for well populations and community-based care for individuals and families with acute chronic diseases. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: Completion of all junior year nursing courses.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 468: *Psychiatric and Mental Health Nursing.* 2 credits.
Focuses on the nursing care, pathophysiological and psychological, social-cultural, and risk reduction implications of health problems in the area of mental health and psychiatric nursing. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: Completion of all junior year nursing courses.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 469: *Clinical in Psychiatric and Mental Health Nursing.* 2 credits.
Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community. Emphasis is on health promotion and disease prevention for well populations and community-based care for individuals and families with acute chronic diseases. Notes: Open to traditional and LPN students only. Offered by Nursing. Limited to two attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 488: *Inquiry-Based Clinical Seminar.* 2 credits.
Students focus on a selected client they have provided care for during their NURS 451 clinical preceptorship. Students examine the data in the case, draw inferences, make deductions, identify assumptions, and generate interpretations regarding the client's problems. The class will participate as a group in the inquiry process to identify strengths and weaknesses of the arguments presented. Offered by Nursing. Limited to two attempts.

Recommended Prerequisite: Completion of Junior Level Nursing Courses, NURS 410 and NURS 436.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 491: *Critical Thinking and Analysis of Test Taking Strategies.* 3 credits.
Increases test-taking abilities and improves critical-thinking skills related to nursing situations. Also guides the student to analyze and organize content to assist in decision making about nursing interventions. With faculty supervision, students work independently based on their learning needs. Offered by Nursing. Limited to two attempts. Equivalent to NURS 493.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 493: *Clinical Reasoning and Test Taking Analysis.* 3 credits.
Provides the student with competencies and strategies to enhance the transition from student to to a baccalaureate prepared nurse. The course focuses on developing clinical reasoning and decision-making applied to patient care scenarios. Students will prepare for success on the Nursing licensure examination by reviewing content, identifying and addressing stressors associated with test taking, and demonstrating mastery on exam preparation materials. Offered by Nursing. Limited to two attempts. Equivalent to NURS 491.

Registration Restrictions:
Required Prerequisites: (NURS 330[C] or 330[XS]) and (NURS 347[C] or 347[XS]) and (NURS 425[C] or 425[XS]) and (NURS 343[C] or 343[XS]) and (NURS 348[C] or 348[XS]) and (NURS 349[C] or 349[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NURS 499: *Independent Study in Nursing.* 1-3 credits.
Provides individual study of a particular problem area in nursing research, theory development, or education under the direction of faculty. Clinical practice may be arranged. Offered by Nursing. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Permission of instructor and Assistant Dean for the Undergraduate Program.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Washington Consortium level students may **not** enroll.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

NURS 571: *HIV/AIDS: Concepts, Principles, and Interventions.* 3 credits.
Provides overview of all aspects of HIV disease to include retrospective and current concepts and analyses of the epidemic, global, and societal impact, and cutting-edge research. Examines development of therapeutic tools and skills to educate, reduce risks, control infection, and affect care

and healing of client, family, and community; and issues of increasing dilemma for health care professionals. Offered by Nursing. May not be repeated for credit. Equivalent to GCH 571.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

NURS 605: *Clinical Nurse Educator Academy.* 3 credits.
Integrates knowledge and skills from clinical practice with new knowledge and skills needed as a clinical nurse educator. Narratives are used to teach essential skills for clinical nurse educators, such as assessment of learning needs, writing of objectives, teaching strategies, clinical simulation, and performance evaluation. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 632: *Pathogenesis of Mental Disorders.* 3 credits.
Explores biological correlates of mental illness, including neuronal function, structure and connectivity, and peripheral alterations in biological functioning that contribute to mental disorders across the lifespan. Reviews genetic heritability and specific theories of etiology and diagnostic classifications. Develops interview and differential diagnostic skills. Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to the Doctor of Nursing Practice program or with permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 633: *Individual Psychotherapy.* 3 credits.
Explores major approaches to individual psychotherapy such as psychodynamic, humanistic, interpersonal, behavioral, cognitive, dialectical behavioral, brief, crisis, and multicultural therapies as they relate to advanced nursing practice in mental health. Applications of individual psychotherapies across the lifespan and among diverse populations are critically examined. Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to the Doctor of Nursing Practice program or with permission of instructor; NURS 632.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 634: *Group, Family and Couple Psychotherapy.* 1 credit.
Explore the major psychotherapeutic approaches for groups, families, and couples. Emphasis is placed on the application of theories and models of group, family, and couple psychotherapy across the lifespan and among diverse populations. Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to the Doctor of Nursing Practice Program or with permission of instructor; NURS 632.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 643: *Community-Oriented Primary Care.* 3 credits.
Theoretical and clinical application of community-oriented primary care concepts with a focus on health promotion and disease prevention. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to MSN or DNP Program or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 648: *Aging and Health.* 3 credits.
Provides an overview of normal aging and explores factors that affect health and well being in older adults; demonstrates strategies for maintaining health and managing chronic illness in older adults; examines common misconceptions about aging and healthcare issues; and explores the process of normal aging and the presentation of common health conditions in older adults. Offered by Nursing. May not be repeated for credit. Equivalent to HHS 648.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 654: *Nursing Administration Financial Management.* 3 credits.
Investigates managerial technologies related to financial planning and control functions of mid-level nurse administrators. Content develops knowledge and skills necessary for effective participation in financial management as related to business plan development, program budget planning, and control. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 660: *Seminar in the Ethics of Health Care.* 3 credits.
Examines moral dilemmas in the health care profession, with special emphasis on patients' rights, professionals' obligations to other professionals, and issues of social justice in health care. Methods of moral deliberation based on ethical knowledge and justification are applied to ethical dilemmas in health care. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

NURS 665: *Theoretical and Ethical Foundations Related to Nursing.* 3 credits.
Selected nursing and related discipline theories which impact nursing practice are analyzed and evaluated with special attention given to ethical aspects of practice and ethical decision-making frameworks. Moral dilemmas in the health care profession, with emphasis on patients' rights, professionals' obligations to other professionals, issues of social justice in health care, and methods of moral deliberation are examined. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 680: *Theoretical Foundations Related to Nursing.* 2 credits.
Examination and evaluation of assumptions, concepts, and propositions inherent in selected nursing and related discipline theories. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 685: *Advanced Nursing Research Methods.* 3 credits.
Examines principles and methods of research in problem identification, theoretical framework, design, data collection, and analysis. Students develop a nursing research proposal. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to the graduate nursing program and a graduate level bivariate statistics course and NURS 680.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 686: *Projects in Nursing Research.* 2 credits.
Applies knowledge gained in NURS 790 to implement research proposal designed in NURS 790. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 685.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 688: *Organization of Nursing and Health Care Delivery Systems.* 3 credits.
Provides foundational overview of U.S. nursing and health care delivery systems. Surveys key concepts, frameworks, processes, and structures related to health care delivery organizations. Notes: Lecture, discussion. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 690: *Independent Study in Nursing.* 1-3 credits.
Studies in-depth a selected area of nursing theory, research, or practice under direction of faculty. Offered by Nursing. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Admission to the Graduate Nursing Program and permission of Associate Dean for Academic Programs.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale.

700 Level Courses

NURS 704: *Nursing Administrative Leadership Academy.* 3 credits.
Uses a leadership competency framework to integrate knowledge, skills, values, and best practices of innovative nursing leadership. Lectures, interactive collaborative discussion, written projects, and leadership self-assessment identify and teach the proficiencies specific to the administrative executive role. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 713: *Decision Making and Pharmacologic Management in Practice.* 3 credits.
Analyzes clinical cases using student participation in decision-making formulation. Correlates pathophysiology with symptom manifestations across the lifespan, from prenatal to old age, including death. Evaluates family, medical and social history, physical findings, laboratory data and radiographic studies as they contribute to the decision making process. Examine the theoretical basis for selecting pharmacological and non-pharmacological therapies is explored. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to MSN or DNP Program Nurse Practitioner Concentration

Recommended Corequisite: NURS 769; NURS 761.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 714: *Health Assessment in Clinical Practice.* 2 credits.
Application of advanced health assessment skills for all body systems and clinical decision making with clients across the lifespan. Students will formulate differential diagnoses and use advanced communication techniques to motivate and change health behaviors. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to MSN or DNP Program or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 715: *Nursing Informatics Inquiry.* 3 credits.
This course introduces theoretical and practice components of nursing and healthcare informatics for the graduate level nurse. Computer systems will be analyzed. The systems life cycle will be explored. Health care data standards, classification schemes, and the electronic health record (EHR) will be introduced. Students will evaluate informatics as it applies to patient safety, outcomes measurement, complex decision-making, consumer use, and legal and ethical issues. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 716: *Principles of Assessment and Evaluation in Nursing Education.* 3 credits.
Presents techniques of assessment, measurement, and evaluation of nursing knowledge and skills in classroom and clinical settings. Provides opportunities for the informal assessment of learning; formal construction, analysis, and evaluation of tests; and the evaluation of standardized tests. Examines the current research and the legal and ethical principles related to assessment and evaluation in nursing education. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 720: *Practicum in Family Primary Care Nursing I.* 4 credits.
Performance of beginning-level nurse practitioner clinical decision-making skills in assessment and management of families and individuals across the life span, with emphasis on health maintenance and health promotion. Seminar, lab, and clinical practicum. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 719, 723, 745, 747, and 756.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Special scale.

NURS 721: *Practicum in Assessment and Management of the Developing Family.* 8 credits.
Theoretical and clinical application of health assessment, health maintenance and promotion, anticipatory guidance, diagnosis, and management of common primary health care concerns through clinical decision-making skills focused on childrearing and childbearing families. Seminar, lab, clinical practicum. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 720.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

NURS 722: *Practicum in Family Primary Care Nursing II.* 8 credits.
Students perform advanced clinical decision making in the role of family nurse practitioner. Family primary care problems throughout the life span are assessed and managed, particularly families with elderly and medically underserved members. Seminar, lab, and clinical practicum. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 720 and 721.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

NURS 724: *Health Assessment Practicum.* 1 credit.
Acquisition of advanced health assessment skills for all systems across the lifespan. The student will perform advanced techniques and clinical decision making that is necessary for a comprehensive health assessment in a structured practicum environment. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to MSN or DNP Program or permission of instructor.

Recommended Corequisite: NURS 714.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

NURS 725: *Hermeneutic Research Methodologies in Health Care.* 3 credits.
Uses seminar/discussion for in-depth exploration of interpretive phenomenology, philosophical background for hermeneutics, and hermeneutics as method in context of conducting research in health care. Uses readings from philosophers such as Heidegger, Merleau-Ponty,

and Gadamer to situate hermeneutical methodologies in philosophy of science. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Graduate level qualitative research course. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

NURS 726: *Perspectives in Nursing Education.* 3 credits.
Uses seminar approach to provide an overview of nursing education. Provides the foundation for teaching and learning in nursing with emphasis on relevant research. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 727: *Application of Nursing Education Principles to Curriculum and Program Development.* 3 credits.
Uses seminar and discussion forums to analyze and apply theoretical principles and teaching and learning strategies in planning, developing, and evaluating nursing programs. Examines the overall creative, planned, and collaborative process of program development and evaluation. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 728: *Practicum and Seminar in Nursing Education I.* 3 credits.
Uses seminar/discussion approach and practicum experience to analyze the role and functions of the nurse educator in the academic classroom. Emphasis is on the application of teaching/learning strategies, legal and ethical issues in nursing education, and role development as a nurse educator. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 714, NURS 761, NURS 769.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

NURS 729: *Practicum and Seminar in Nursing Education II.* 3 credits.
