Uses seminar/discussion approach and practicum experience to analyze the role and functions of the nurse educator in the clinical setting. Application of research-based teaching and evaluation strategies in the clinical setting are emphasized. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 714, NURS 761, NURS 769.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

NURS 730: *Leadership Strategies for the Clinical Nurse Leader.* 2 credits.
Explores aspects of horizontal and vertical leadership central to clinical nurse leader (CNL) role. Emphasizes quality management and improvement, communication processes, evidenced-based practice initiatives in microsystem, and strategies for efficient use of resources while maintaining safe and effective patient care. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 597 and 685. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 733: *Introduction to Forensic Science.* 3 credits.
Examines the introductory concepts of forensic science including the various professional roles of forensic scientists and practitioners. This course provides a broad overview of the forensic science profession. Different types of violence, as well as prevention and reduction strategies, are discussed. The forensic professional's role in policy and legal processes are explored. Forensic research is introduced. Professional certification options are explored. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 734: *Role of the Sexual Assault Nurse Examiner and Interpersonal Violence.* 3 credits.
Focuses on the incidence and consequences of interpersonal violence across the lifespan. Identifies the role of sexual assault nurse examiner (SANE) as a member of the Sexual Assault Response Team (SART).

Examines forensic techniques used to collect evidence. The role of the SANE in the judicial process is explored. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 735: *Crime Lab and Crime Scene Investigation.* 3 credits.
Examines the components of the crime lab and the crime scene analysis process. Explores the role of the forensic scientist in crime scene investigation. This course covers the initial crime scene response and initial assessment measures needed to properly collect and handle evidence. Documentation and preservation efforts are reviewed for various types of evidence collected. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 736: *Psychological and Legal Aspects of Forensic Science.* 3 credits.
Evaluates the psychological and legal aspects of forensic science. Reviews victimology and the role of the forensic professional when dealing with victimized individuals. This course reviews various types of violence and identifies the assessment criteria needed to pursue prosecution. Examines the legal process and the role of the forensic professional in providing testimony in a court of law. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 737: *Investigation of Injury and Death.* 3 credits.
Explores the role of the forensic scientist in death investigation. Examines death, manners of death, and causes of death, along with the death certification process. The role of the medical office professional and autopsy procedures will be reviewed. DNA evidence and the CODIS system will be analyzed. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 738: *Family Primary Care I.* 2 credits.
Theoretical application of health assessment, health management/promotion, anticipatory guidance, diagnosis and management of common primary care health care concerns through clinical decision making skills for families with a focus on adults. Lecture, student presentations and seminar. Notes: Required course in Family Nurse Practitioner concentration. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 713, NURS 724, NURS 714, NURS 643.

Recommended Corequisite: NURS 742.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 739: *Family Primary Care II.* 4 credits.
Theoretical application of health assessment, health maintenance/promotion, anticipatory guidance, diagnosis and management of common primary health care concerns through clinical decision making skills focused on childbearing and childbearing families. Seminar, student presentations and lectures. Notes: Required course in Family Nurse Practitioner concentration. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 738, NURS 742.

Recommended Corequisite: NURS 744

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 740: *Clinical Nurse Specialist Internship.* 3 credits.
A continuation of clinical application of theory from NURS 775 to a selected clinical specialty with attention to the health illness continuum of individuals, families, and community. Offered by Nursing. May be repeated within the term for a maximum 6 credits.

Recommended Corequisite: Contact the department for meeting dates and times.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:

This course is graded on the Graduate Regular scale.

NURS 741: *Family Primary Care III.* 3 credits.
Theoretical application of assessment, diagnosis and management of primary health care problems which will enable the nurse practitioner student to assume increased responsibility in the delivery of primary care to families and individuals across the life span. Special emphasis is given to the primary care needs of families with elderly and medically underserved members. Seminar, student presentations and lectures. Notes: Required course in Family Nurse Practitioner concentration. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 739, NURS 744.

Recommended Corequisite: NURS 749.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 742: *Family Primary Care Practicum I.* 2 credits.
Demonstrates the ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for families with a focus on the adult. Clinical practicum, lab and seminar. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 713, NURS 724, NURS 714, NURS 643.

Recommended Corequisite: NURS 738.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

NURS 743: *Clinical Psychopharmacology.* 3 credits.
Introduce psychotropic medications, including neurochemical basis, mode of action and clinical application. Discuss principles of pharmacological medication selection and use based on clinical indicators. Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations. Admission to the Doctor of Nursing Practice program or with permission of instructor. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 744: *Family Primary Care Practicum II.* 4 credits.
Clinical application of health assessment, health maintenance/promotion, anticipatory guidance, diagnosis and management of common primary health care concerns through clinical decision making skills focused on childrearing and childbearing families. Clinical practicum, seminar, lab. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 738, NURS 742.

Recommended Corequisite: NURS 739.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

NURS 746: *Practicum in Adult Primary Care Nursing I.* 6 credits.
Demonstration of the ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for adults. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 719, 723, 745, 747, and 756.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Special scale.

NURS 748: *Practicum in Adult Primary Care Nursing II.* 8 credits.
Enables nurse practitioner student to assume increased responsibility in the delivery of primary care to adults. Special emphasis on primary care needs of elderly and medically underserved groups. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 746.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Special scale.

NURS 749: *Family Primary Care Practicum III.* 4 credits.
This practicum enables the nurse practitioner student to assume increased responsibility in the delivery of primary care to families. Family primary care problems across the life span are assessed and managed, particularly families with elderly and medically underserved members. Practicum, clinical lab and seminar. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 739, NURS 744.

Recommended Corequisite: NURS 741.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

NURS 757: *Nursing Research and Biostatistics I.* 3 credits.
Provides a broad framework for understanding and applying commonly used research designs and data analysis techniques in nursing and health care research. Exposed to an overview of qualitative and quantitative research methods integrated with appropriate data analyses techniques. Univariate and bivariate statistical techniques will be used to address research questions or hypothese as appropriate. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to the graduate nursing program, and an undergraduate statistics course.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 758: *Nursing Research and Biostatistics II.* 3 credits.
Empirically address practice related problems using complex bivariate and multivariate statistical analysis. Using an established data set as a basis for simulation of the research process, student will identify clinical problems in research traditions to provide evidence for nursing practice. Emphasis is on evaluating the quality of research for its strength as evidence for nursing practice. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 757.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 761: *Pharmacotherapeutics.* 3 credits.
Describes the pharmacologic principles and pharmacodynamic actions for all broad categories of agents. Distinguishes between the major drug classes by the pharmacologic properties of drugs on the cellular, organ and whole organism level. Study of indications and contraindications of appropriate therapeutic entities for health deviations based on a thorough knowledge of drugs and their fate in the human body. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to MSN or DNP Program or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 763: *Administrative Theory in Nursing.* 3 credits.
Uses administrative theory and management principles and processes as related to roles and functions of the nurse in management in health-related agencies. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to Graduate Nursing Program or master's degree. NURS 680 and Management/Organizational Theory (concurrent enrollment is also permitted).

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 765: *Practicum in Nursing Administration I.* 3 credits.
Applies administrative theory and management principles and processes in a selected health-related agency. Roles and functions of the nurse in management are explored. Notes: Lab arranged. One hour of seminar and eight hours of practicum weekly. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to Graduate Nursing Program, NURS 680. NURS 763 (concurrent enrollment is also permitted).

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

NURS 766: *Administrative Strategies in Nursing.* 3 credits.
Explores roles and functions of the nurse in management as the nurse manager develops patterns of nursing care, articulating nursing education, and nursing service. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 763 and 765.

Recommended Corequisite: NURS 768.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 768: *Practicum in Nursing Administration II.* 3 credits.
Implements and integrates roles and functions of the nurse in management. Emphasizes using appropriate management principles and processes in a selected health-related agency. Notes: Lab arranged. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 763, NURS 765, NURS 766 (concurrent enrollment also permitted for 766).

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

NURS 769: *Physiology and Pathophysiology in Advanced Practice.* 3 credits.
Analyze health deviations in the physiologic and pathophysiologic aspects of systems functioning across the life span. Students assimilate the process of systematic assessment and management of health deviations foundational for making clinical decisions. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to MSN or DNP or permission of instructor.

Recommended Corequisite: NURS 713.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 773: *Clinical Applications of Theory in Advanced Clinical Nursing.* 3 credits.
Foundational theory relevant to the emerging roles in advanced clinical nursing, focusing on therapeutic nursing interventions in a variety of clinical specialties, with attention to health-illness continuum of individuals, families, and communities. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to Graduate Nursing Program. NURS 550, 680 (Concurrent enrollment is also permitted for either course).

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 775: *Advanced Specialty Practice I.* 3 credits.
Focuses on clinical application of theory from NURS 773 to a selected clinical specialty with attention to the health illness continuum of individuals, families, and communities. Notes: One hour of seminar and eight hours of practicum. Lab meets every other week. Offered by Nursing. May be repeated within the term for a maximum 17 credits.

Recommended Prerequisite: NURS 665.

Recommended Corequisite: NURS 768.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

NURS 776: *Development of Advanced Practice Nursing Role.* 3 credits.
Expansion of selected content included in NURS 773 for the delivery of advanced nursing care in a variety of settings. Emphasizes development and evaluation of the advanced practice nursing role in complex health care systems. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 773.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 778: *Advanced Specialty Practice II.* 3 credits.
Applies concepts of the advanced practice nursing role from NURS 776 to a selected clinical specialty. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 665.

Recommended Corequisite: NURS 773. Electronic strategies will be used and course will meet every other week.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale.

NURS 782: *Psychiatric Nurse Practitioner Practicum I.* 4 credits.
Develops clinical competence in comprehensive assessment, diagnosis, and management of mental health problems and psychiatric and co-morbid medical disorders, referring when appropriate. Demonstrates effective clinical interviewing skills. Applies principles of pharmacology including complementary and alternative therapies. Develops culturally

sensitive plans for health maintenance, promotion and treatment. Evaluates outcomes of treatment. Manages psychiatric emergencies. Advocates for patients and families. Notes: Five clinical hours per week are required for each credit. Required course in the Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to the Doctor of Nursing Practice program or Psychiatric Mental Health Nurse Practitioner Certificate. NURS 632, NURS 633, NURS 634 and NURS 743.

Recommended Corequisite: NURS 783.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

NURS 783: *Psychiatric Nurse Practitioner Seminar I.* 2 credits.
Analyzes the professional role of family psychiatric mental health nurse practitioners. Students share assessment, diagnostic, intervention, evaluation, teaching-coaching, cultural competence, and therapeutic relationship development techniques through case studies from their practica. Management of client cases are evaluated and discussed. Students analyze the impact of advocacy actions, including duty to report, on the therapeutic relationship. Notes: Required course in the Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to the Doctor of Nursing Practice program or Psychiatric Mental Health Nurse Practitioner Certificate. NURS 632, NURS 633, NURS 634 and NURS 743.

Recommended Corequisite: NURS 782.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

NURS 784: *Psychiatric Nurse Practitioner Practicum II.* 5 credits.
Builds on Family Psychiatric Nurse Practitioner Practicum I, improving diagnostic and clinical reasoning ability and competence in assessment, diagnosis, and management of psychiatric disorders. Enables the student to assume increased responsibility in the delivery of comprehensive mental health care. Participates in professional and community organizations to promote the health of patients while enhancing the role of practitioner. Notes: Five clinical hours per week are required for each credit. Required course in Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to the Doctor of Nursing Practice program or Psychiatric Mental Health Nurse Practitioner Certificate. NURS 782.

Recommended Corequisite: NURS 785.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

NURS 785: *Psychiatric Nurse Practitioner Seminar II.* 2 credits.
Discusses role transition and development of advanced practice psychiatric mental health nurses. Regulatory and economic policies affecting advanced psychiatric mental health nursing practice in the evolving health care system are discussed. Students demonstrate competence in comprehensive management of acute and chronic psychiatric disorders through case presentations from their practica. Performs a comprehensive assessment of the mental health needs of a community. Notes: Required course in the Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to Doctor of Nursing Practice program or Psychiatric Mental Health Nurse Practitioner Certificate. NURS 783.

Recommended Corequisite: NURS 784.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

NURS 786: *Adult Gerontology Primary Care Practicum I.* 2 credits.
Application of health assessment, health maintenance/promotion, anticipatory guidance, genetics/genomics, diagnosis and management of common primary health care concerns, including women's health issues. Focus is on care of adolescents and adults across the life. Clinical Practicum, lab and seminar. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 713, NURS 714, NURS 724, NURS 643.

Recommended Corequisite: NURS 787.

Registration Restrictions:
Enrollment is limited to students with a concentration in Adult Ger. Nurse Pract. PC.

Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

NURS 787: *Adult Gerontology Primary Care I.* 2 credits.
Theoretical application of health assessment, health maintenance/promotion, anticipatory guidance, diagnosis and management of common primary health care concerns, including women's health,

through clinical decision making skills in adolescents, adults and older adults. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 713, NURS 724, NURS 714, NURS 643.

Recommended Corequisite: NURS 786.

Registration Restrictions:
Enrollment is limited to students with a concentration in Adult Ger. Nurse Pract. PC.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 788: *Adult Gerontology Primary Care Practicum II.* 4 credits.
Demonstration of the ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for adolescents, adults and older adults. Clinical practicum, lab and seminar. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 786, NURS 787.

Recommended Corequisite: NURS 789.

Registration Restrictions:
Enrollment is limited to students with a concentration in Adult Ger. Nurse Pract. PC.

Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

NURS 789: *Adult Gerontology Primary Care II.* 3 credits.
This course consists of the application of health assessment, health management/promotion, genetics and genomics, anticipatory guidance, diagnosis and management of common primary care health care concerns of the adolescent, adult and older adult through clinical decision making skills. Lecture, student presentations and seminar. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 786, NURS 787.

Recommended Corequisite: NURS 788.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 790: *Adult Gerontology Primary Care Practicum III.* 4 credits.
This practicum enables the nurse practitioner student to assume increased responsibility in the delivery of primary care to adults of all ages, adolescents through older adults. Special emphasis is given to the primary care needs of elderly and medically underserved groups. Practicum, clinical lab and seminar. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 788, NURS 789.

Recommended Corequisite: NURS 791.

Registration Restrictions:
Enrollment is limited to students with a concentration in Adult Ger. Nurse Pract. PC.

Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

NURS 791: *Adult Gerontology Primary Care III.* 4 credits.
Theoretical application of assessment, diagnosis and management of primary health care problems which will enable the adult gerontology nurse practitioner student to assume increased responsibility in the delivery of primary care. Focus will be on the primary care needs of older adult and medically underserved. Lectures, student presentations and seminars. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 788, NURS 789.

Recommended Corequisite: NURS 790.

Registration Restrictions:
Enrollment is limited to students with a concentration in Adult Ger. Nurse Pract. PC.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

800 Level Courses

NURS 804: *Advanced Quantitative Data Analysis for Healthcare Research I.* 3 credits.
Covers principles and methods of statistical data analysis and inference. Emphasizes the use and application of various data analysis techniques and their assumptions. Examines factorial ANOVA, factorial ANCOVA, repeated measures ANOVA, ANOVA and ANCOVA via regression approachs, and linear and logistic regression analysis. Students apply statistical techniques in analyzing health-releated data sets. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: A graduate-level statistics course (by instructor approval).

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 805: *Advanced Quantitative Data Analysis for Healthcare Research II.* 3 credits.
Builds upon principles and methods of statistical analysis and inference. Emphsizes the use and application of various data analysis techniques

and their assumptions. Examines multivariate analysis of variance (MANOVA), multivariate analysis of covariance (MANCOVA), multiple regression, and logistic regression, and factor analysis. Students apply statistical techniques in analyzing health-related data sets. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: GCH/NURS 804 or an equivalent statistics course (by instructor approval).

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 806: *Advanced Multivariate Statistics and Data Analysis for Health Care Research.* 3 credits.
Examines canonical correlation, discriminant analysis, factor analysis, and causal analysis (path models and structural equation modeling). Students analyze and interpret data using these statistical techniques. Offered by Nursing. May not be repeated for credit. Equivalent to GCH 806.

Recommended Prerequisite: GCH 805 or NURS 805, or equivalent multivariate statistics course.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 808: *Translating Nursing and Health Care Research into Evidence-Based Policy.* 3 credits.
This course prepares students to assess the policy dimensions of nursing issues in clinical practice, education, and research environments and translate nursing research into policy. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 810: *Evaluation Research in Nursing Education.* 3 credits.
Uses seminar/discussion to analyze and apply theoretical models for implementing evaluation research in nursing education. Examines quantitative approaches for evaluating process and outcomes of domestic or international nursing education programs, including role of accreditation guidelines. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 920, NURS 930. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

NURS 811: *Nurse as Educator and Scholar.* 2 credits.
Uses seminar/discussion to explore role of nurse educator in meeting research and scholarship expectations of college, university, or service setting. Addresses approaches to scholarship in relation to types of evidence appropriate for various scholarly expectations in academic setting. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 920; NURS 930.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

NURS 814: *Theory and Design in Health Science.* 3 credits.
Analyze existing theoretical and conceptual frameworks in nursing and other biological, social, and behavioral sciences. Enables the doctoral student to critique, use, test, integrate, translate, and develop conceptual frameworks to guide scientific inquiry in a focused area of research interest. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Master's degree in nursing, social work, or health-related discipline.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

NURS 820: *Human Genetics Concepts for Health Care.* 4 credits.
The study of human genetics, principles of heredity, and disease risks. Offered by Nursing. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 860: *Measurement Theories in Healthcare Research.* 3 credits.
Synthesize measurement theories and principles as a foundation for the development and evaluation of instruments for use in healthcare research. The course includes review of statistical techniques required for understanding measurement theory, reliability, validity, responsiveness, item analysis, and instrument construction. Students design, construct, administer, analyze, and evaluate an original instrument and evaluate an existing instrument in healthcare research. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 805 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

NURS 870: *Nursing and Health Care Administration I.* 3 credits.
Examines the theoretical basis of scholarship and practice in leadership and management of health systems and nursing organizations. Includes discovery of concepts and forces influencing the organization and performance of health care systems. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to the PhD or DNP program.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 871: *Nursing and Health Care Administration II.* 2 credits.
Analyzes and applies selected concepts related to nursing and health system leaders and managers as well as factors influencing the performance of health systems and organizations. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 870.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 874: *Internship in Health Care Administration/Policy/Education.* 4 credits.
Internship experience of at least 126 hours with leader in field of nursing, health care administration, policy, or education. Participatory activities require integration and application of principles, frameworks, and science related to executive preceptor role. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Completion of all coursework, except NURS 998.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

NURS 883: *Evidence-Based Practice in Nursing and Healthcare.* 4 credits.
Building on knowledge of research methodologies and personal expertise, student will identify practice and system problems, analyze the variations of processes and outcomes, evaluate research studies and systematic reviews, and develop a proposal to address issues related to the design of new model of care, translation of evidence into practice, or evaluation of current programs in the context of evidence-based practice. Emphasis is placed on the development of strategies to ensure quality improvement. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 757 and NURS 758.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

NURS 920: *Qualitative Research in Nursing and Health Care.* 3 credits.
Provides the philosophical assumptions underlying qualitative research in nursing and health care. Students will examine the principles of study design, data collection, data analysis, and interpretation associated with phenomenology, grounded theory, and ethnography. Description and mixed-methods designs will be introduced. Qualitative research will be analyzed within the scholarship of discovery, integration, and application. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 804.

Registration Restrictions:
Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 921: *Clinical Practicum I.* 1-10 credits.
Students, in consultation with their academic advisor, complete supervised practicum hours to meet both the post-baccalaureate and post-masters DNP practicum requirement. A practicum course that prepares students to perform clinical decision making in their role as advance practice nurses in individualized specialty areas. They will work with advanced practice nurse preceptors to develop clinical expertise, and to develop an understanding of leadership roles in the clinical setting that can enhance the system of health care delivery. One credit hour of seminar with the remaining hours in clinical practice. Offered by Nursing. May be repeated within the degree for a maximum 20 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

NURS 922: *Clinical Practicum II.* 1-10 credits.
Students, in consultation with their academic advisor, complete supervised practicum hours to meet both the post-baccalaureate and post-masters DNP practicum requirement. A practicum course that continues to prepare students to practice in an expanded, advanced clinical practice role. Students will learn to become change agents in the clinical setting with a focus on health care delivery systems. The student will apply advanced health assessment skills and clinical decision making in an area of specialty practice, correlating pathophysiology with symptom manifestations. One credit hour of seminar with the remaining hours in clinical practice. Offered by Nursing. May be repeated within the degree for a maximum 20 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

NURS 930: *Quantitative Methods in Nursing and Health Care.* 3 credits.
Guides the student in applying principles in the design of an innovative quantitative research study to address a significant problem in nursing and/or health care. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: NURS 805.

Registration Restrictions:
Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 940: *Independent Study for the Doctoral Student.* 1-6 credits.
Studies in depth a selected area of nursing theory, research, or practice under direction of faculty. Offered by Nursing. May not be repeated for credit.

Recommended Prerequisite: Admission to a doctoral nursing program. Individualized section form required.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

NURS 950: *Special Topics in Nursing.* 3 credits.
Presents selected topics analyzing specialized areas in nursing. Content varies. Lecture, seminar, laboratory, workshop. Offered by Nursing. May not be repeated for credit.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NURS 980: *Practice Inquiry I.* 4 credits.
Synthesize the literature related to the problem. Analyze the environmental factors impacting the problem. Identify the standard of care related to the clinical problem. Assess the quality of evidence that supports the standard of care. Develop a proposal that will impact the delivery of care in the identified area of practice inquiry. Develop the appropriate outcome measures to address the specific practice inquiry area. Offered by Nursing. May be repeated within the degree for a maximum 8 credits.

Recommended Prerequisite: Completion of DNP core courses.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

NURS 981: *Practice Inquiry II.* 4 credits.
Implement the proposal developed in Practice Inquiry I. Maintain an ongoing process analysis of the project. Collect data. Analyze the findings from the practice inquiry. Disseminate the findings from the practice inquiry in a scholarly manner. Offered by Nursing. May be repeated within the degree for a maximum 8 credits.

Recommended Prerequisite: NURS 980.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

NURS 998: *Doctoral Dissertation Proposal.* 1-9 credits.
A seminar for doctoral students to accompany the development of a doctoral dissertation proposal. Development of the research problem with analysis and critique of methodology discussed. Notes: Students must enroll in the course for 3-credits the first time they take the course. Offered by Nursing. May be repeated within the degree.

Recommended Prerequisite: Completion of all other coursework except NURS 999 and completion of doctoral comprehensive examination.

Registration Restrictions:
Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

NURS 999: *Doctoral Dissertation.* 1-9 credits.
Provides continued faculty assistance on an individual basis toward completion of approved dissertation. Note: Students must contact the department at (703) 993-1961 to receive approval and a CRN to register via Patriot Web. Offered by Nursing. May be repeated within the degree.

Recommended Prerequisite: NURS 998.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Nutrition and Food Studies (NUTR)

200 Level Courses

NUTR 295: *Introduction to Nutrition.* 3 credits.
Introduces students to nutrition as a scientific discipline, providing a working knowledge of basic nutrition including the sources and functions of the nutrients, the components of a healthy diet, and the relationship between diet and overall health. Students will learn about the processes

of digestion, absorption, and metabolism of nutrients, and several 'hot topics' in the field of nutrition. Offered by Nutrition and Food Studies. Limited to three attempts.

Mason Core: Natural Science Overview

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

NUTR 312: *Experimental Foods.* 3 credits.
Introduces the composition and structure of food through exploration of chemical, physical, nutritional, sensory and safety aspects, with emphasis on how these aspects relate to food preparation methods. Offered by Nutrition and Food Studies. Limited to three attempts.

Recommended Corequisite: NUTR 313.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 313: *Experimental Foods Lab.* 1 credit.
Explores the chemical, physical, nutritional, sensory, and safety aspects of food through hands-on food preparation labs. Offered by Nutrition and Food Studies. Limited to three attempts.

Recommended Corequisite: NUTR 312.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 315: *Fundamentals of Cooking.* 3 credits.
Exposes students to the fundamental concepts of food and its preparation. Students will learn and experience culinary basics, including knife skills, mother sauces, basic cooking techniques, function of ingredients, food safety, and chemical and physical transformation of food during cooking and storage. Offered by Nutrition and Food Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 318: *Global Nutrition and Food Security.* 3 credits.
An overview of the major concepts and perspectives of food security at the local, regional, and global levels. Explore and apply the definitions, means of measurement, and policy implications of food security from a multidisciplinary approach. Offered by Nutrition and Food Studies. Limited to three attempts.

Recommended Prerequisite: NUTR 295.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 326: *Food Systems.* 3 credits.
Taking a systems approach, this course provides an overview of the food system from production through consumption and waste. Students will consider the complexity of issues confronting the creation of just and sustainable food systems and access to healthy food for all. Offered by Nutrition and Food Studies. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 330: *Food Composition.* 3 credits.
Explores the nutritional, functional, structural, and undesirable components in food, with a primary focus on the selection and use of food composition tables to obtain this data. Factors impacting food composition will be discussed, including agricultural, manufacturing, and biotechnologies. Offered by Nutrition and Food Studies. Limited to three attempts.

Recommended Prerequisite: NUTR 295, NUTR 312, NUTR 313, CHEM 313

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 383: *Taste and Place.* 3 credits.
Examines how dietary patterns have developed and evolved in specific geographic locations. Students will analyze the role of geography, history, politics, culture and taste as essential elements in distinctive local, regional, and national foodways. Offered by Nutrition and Food Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

NUTR 408: *Food Security.* 3 credits.
Examines the human health aspects of food security at the local, regional, and global levels. Offered by Nutrition and Food Studies. Limited to three attempts.

Recommended Prerequisite: NUTR 295.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 410: *Introduction to Food Safety and Defense.* 3 credits.
Examines the critical roles that food safety and food defense have on the food supply in the US and globally. Students will explore common foodborne illnesses, their causes and their means of control from both a scientific and policy perspective. Students also will gain an understanding of basic food safety practices in both commercial food production and in home food preparation. Offered by Nutrition and Food Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 414: *Food, Culture, Nutrition and the Mediterranean Diet.* 6 credits.
Combines an understanding of foodways, culture, and sustainability with the Mediterranean diet pattern and its role in public health through classroom and experimental learning. History, traditions and contemporary issues will be explored to understand the place of Mediterranean foodways. Excursions to several cities in a Mediterranean region will explore distinctive regional specialties including tours of a wineries, farms, food factories and producers as well as cooking classes with local gourmet chefs and visits to food markets. Offered by Nutrition and Food Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 420: *Strategies for Nutrition Education.* 3 credits.
Examines methods and techniques for educating individuals about nutrition. Addresses nutrition education issues from variety of populations with respect to culture, age, religion, and specific disease states. Offered by Nutrition and Food Studies. Limited to three attempts.

Recommended Prerequisite: NUTR 295 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 421: *Community Nutrition.* 3 credits.
Focuses on nutrition and health problems of specific community settings, and examines practices of nutrition services in various communities. Offered by Nutrition and Food Studies. Limited to three attempts.

Recommended Prerequisite: NUTR 295 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 422: *Nutrition throughout the Life Cycle.* 3 credits.
Focuses on nutrient needs and food habits throughout life cycle. Emphasizes nutrient needs prior, during, and after pregnancy, and nutritional requirements of infants, children, adolescents, adults, and elderly. Offered by Nutrition and Food Studies. Limited to three attempts.

Recommended Prerequisite: NUTR 295 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 423: *Nutrition and Chronic Illnesses.* 3 credits.
Examines nutrient needs related to specific chronic illnesses, including cardiovascular disease, cancer, obesity, and diabetes. Focuses on principles of nutritional therapy and prevention. Offered by Nutrition and Food Studies. Limited to three attempts.

Recommended Prerequisite: NUTR 295 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 430: *Introduction to Wine and Beer.* 3 credits.
Takes a multidisciplinary approach to understanding alcohol across time and space. Students will learn about alcohol production as well as the social and cultural dimensions of alcohol in a variety of cultures. Topics that might be covered in class include prohibition and neoprohibition, the health effects of alcohol, craft versus industrial production, among others. Students must be 21 to enroll. Notes: Fees apply. Offered by Nutrition and Food Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 435: *Urban Agriculture.* 3 credits.
Introduces students to the opportunities, limits, and barriers of growing food in cities. Utilizing case studies from the area and around the globe, students will study the social, historical, political, environmental, and practical aspects urban agriculture. Offered by Nutrition and Food Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 440: *Nutrition Policy.* 3 credits.
Explores US and international food and nutrition policies and programs. It is intended for undergraduate students who are interested in an in-depth analysis of policy related approaches to improving nutritional status within populations in the US and around the world. Offered by Nutrition and Food Studies. Limited to three attempts.

Recommended Prerequisite: NUTR 295

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 442: *Advanced Nutrition I.* 3 credits.
Explores the biological roles of the macronutrients through application of advanced nutritional concepts relating to digestion, absorption and metabolism of carbohydrates, proteins and lipids. Practical implications in the diet are emphasized. Offered by Nutrition and Food Studies. Limited to three attempts.

Recommended Prerequisite: NUTR 295 and a biochemistry class

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 444: *Advanced Nutrition II.* 3 credits.
Examines the biological roles of the micronutrients through application of advanced nutritional concepts relating to digestion, absorption, transport and metabolism of vitamins and minerals. Practical implications in the diet are emphasized. Offered by Nutrition and Food Studies. Limited to three attempts.

Recommended Prerequisite: NUTR 442

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

NUTR 451: *Nutrition Assessment.* 3 credits.
Introduces students to methods and tools used in assessing individuals' nutritional status. Methods of interpretation of nutrition-related information will be examined. Offered by Nutrition and Food Studies. Limited to three attempts.

Recommended Prerequisite: NUTR 295 or equivalent course.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 466: *Nutrition and Weight Management: Obesity, Anorexia, and Bulimia.* 3 credits.
Focuses on the physiological, emotional, genetic, and societal and cultural factors that influence the relationship between eating and weight regulation. Offered by Nutrition and Food Studies. Limited to three attempts.

Recommended Prerequisite: NUTR 295, GCH 332 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 494: *Special Topics in Nutrition and Food Studies.* 3 credits.
In-depth study of contemporary areas of nutrition and food studies. Topics vary each semester. Students may take to apply up to 6 credits of NUTR 494 to their degree program. Offered by Nutrition and Food Studies. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 495: *Nutrition and Food Studies Capstone.* 3 credits.
Students will integrate and apply skills and knowledge learned across the curriculum to conduct research on current food and nutrition-related issues, in order to develop new food and nutrition knowledge. Offered by Nutrition and Food Studies. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (NUTR 420[C] or 420[XS]) and (NUTR 421[C] or 421[XS]) and (NUTR 444[C]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

NUTR 499: *Independent Study in Nutrition and Food Studies.* 1-6 credits.
Readings or research on a pertinent topic in nutrition and food studies. Must be arranged with instructor before registering. Offered by Nutrition and Food Studies. May be repeated within the degree for a maximum 6 credits.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

NUTR 514: *Food, Culture, Nutrition and the Mediterranean Diet.* 6 credits.
Combines an understanding of foodways, culture, and sustainability with the Mediterranean diet pattern and its role in public health through classroom and experimental learning. History, traditions and contemporary issues will be explored to understand the place of Mediterranean foodways. Excursions to several cities in a Mediterranean region will explore distinctive regional specialties including tours of a wineries, farms, food factories and producers as well as cooking classes with local gourmet chefs and visits to food markets. Offered by Nutrition and Food Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NUTR 515: *Fundamentals of Cooking.* 3 credits.
Introduces students to the fundamental concepts of food and its preparation. The biological components, the chemical transformation, and sensorial properties of food are explored throughout the course. Offered by Nutrition and Food Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NUTR 522: *Nutrition Across the Lifespan.* 3 credits.
Explores the nutrient needs and food habits across the lifespan. Focuses on nutrition policies, programs, and interventions across the lifespan. Offered by Nutrition and Food Studies. May not be repeated for credit.

Recommended Prerequisite: NUTR 295.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

NUTR 530: *Introduction to Wine and Beer.* 3 credits.
Takes a multidisciplinary approach to understanding alcohol across time and space. Students will learn about alcohol production as well as the social and cultural dimensions of alcohol in a variety of cultures. Topics that might be covered in class include prohibition and neoprohibition, the health effects of alcohol, craft versus industrial production, among others. Students must be 21 to enroll. Notes: Fees apply. Offered by Nutrition and Food Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NUTR 535: *Urban Agriculture.* 3 credits.
Introduces students to the opportunities, limits, and barriers of growing food in cities. Utilizing case studies from the area and around the globe, students will study the social, historical, political, environmental, and practical aspects urban agriculture. Offered by Nutrition and Food Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Graduate, Non-Degree, Senior Plus or Senior.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NUTR 566: *Nutrition and Weight Management.* 3 credits.
Focuses on the physiological, emotional, genetic, and societal/cultural factors that influence the relationship between eating and weight regulation. Offered by Nutrition and Food Studies. May not be repeated for credit.

Recommended Prerequisite: GCH 295 or other introductory nutrition course.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

NUTR 570: *Food Science for Nutritionists.* 3 credits.
Explores selected topics in food science and technology as relevant to the field of nutrition. Coverage includes various food processing and preservation methods, ingredient functionality, nutrient analysis, sensory analysis, food safety considerations, toxicology, and biotechnology. Offered by Nutrition and Food Studies. May not be repeated for credit.

Recommended Prerequisite: NUTR 295 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NUTR 583: *Food and Culture.* 3 credits.
Examines food and eating behaviors, diet, and nutrition from cross-cultural perspective. Focuses on how and why people choose what to eat, range and significance of cross-cultural variability in diet, how diets have changed, and health and social implications of those changes. Offered by Nutrition and Food Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

NUTR 594: *Special Topics in Nutrition and Food Studies.* 3 credits.
In-depth study of contemporary areas of nutrition and food studies. Topics vary each semester. Students may take up to 6 credits of NUTR 594 within their degree program. Offered by Nutrition and Food Studies. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Graduate level course.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

NUTR 608: *Perspectives on Food Security.* 3 credits.
Overview of the major concepts and perspectives of food security. Explores and applies the definitions, means of measurement, and policy implications of food security from a multidisciplinary approach. Offered by Nutrition and Food Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NUTR 610: *Food Safety and Defense.* 3 credits.
Focuses on the possible sources of unintentional and intentional contamination of the food supply and on the roles and guiding policies of the various levels of government and the food industry, as well as individual responsibility in managing risk to ensure a safe food supply. Notes: Fees may apply. Offered by Nutrition and Food Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NUTR 611: *Food and Nutrition Security Policy.* 3 credits.
In-depth analysis of food security and nutrition policies and programs aimed at reducing hunger and malnutrition among individuals and populations. Offered by Nutrition and Food Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NUTR 620: *Nutrition Education.* 3 credits.
An overview of current nutrition education research, theories, programs, and policies. Explores how nutrition education can influence dietary behavior and food choice. Offered by Nutrition and Food Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NUTR 626: *Food Systems.* 3 credits.
Survey of issues surrounding food production from a processing perspective. Students will gain an understanding various forms of food processing and the issues that surround industrial food systems. Offered by Nutrition and Food Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NUTR 630: *Global Nutrition.* 3 credits.
Directed at students from a variety of disciplines, this course examines what malnutrition is and how it occurs by looking at several situations from around the world. It looks at the impact of nutrition on a society and community and examines the benefits of a well-nourished population. Offered by Nutrition and Food Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

NUTR 642: *Macronutrients.* 3 credits.
Expands understanding of the biological roles of the macronutrients through application of advanced nutritional concepts relating to digestion, absorption and metabolism of carbohydrates, proteins, and lipids. Practical implications in the diet are emphasized, and particular attention is placed on the etiology and prevention of macronutrient-

related diseases, including atherosclerosis, diabetes, and metabolic syndrome. Offered by Nutrition and Food Studies. May not be repeated for credit.

Recommended Prerequisite: NUTR 295 and undergraduate biochemistry course.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NUTR 644: *Micronutrients.* 3 credits.
Expands understanding of the biological roles of the micronutrients through application of advanced nutritional concepts relating to digestion, absorption, transport, and metabolism of vitamins and minerals. Practical implications in the diet are emphasized, with particular attention on the etiology and prevention of micronutrient-related diseases, including nutritional anemia and osteoporosis. Offered by Nutrition and Food Studies. May not be repeated for credit.

Recommended Prerequisite: NUTR 295 and Undergraduate biochemistry equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NUTR 651: *Nutrition Assessment, Monitoring and Surveillance.* 3 credits.
Introduces students to methods and tools used in assessing nutritional status and, the practice and application of these to monitoring among individuals and population groups. Methods of interpretation of nutrition-related information will be examined. Will include off campus practice. Notes: Will include off campus practice Offered by Nutrition and Food Studies. May not be repeated for credit.

Recommended Prerequisite: NUTR 630 or an introductory nutrition course.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

NUTR 670: *Nutrition Research Methods.* 3 credits.
Introduction to the fundamentals of research design and data collection methods. Students will learn about quantitative, qualitative, mixed method, participatory approaches, and ethical issues in nutrition-related research and evaluation. Offered by Nutrition and Food Studies. May not be repeated for credit.

Recommended Prerequisite: GCH 601 or GCH 712, NUTR 651 OR equivalent courses.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NUTR 675: *Nutrition Program Development, Interventions and Assessments.* 3 credits.
Provides students with the knowledge and skills for planning, developing and evaluation of community nutrition programs and interventions. Offered by Nutrition and Food Studies. May not be repeated for credit.

Recommended Prerequisite: NUTR 670, GCH 601 and NUTR 651 OR equivalent courses.

Registration Restrictions:
Required Prerequisites: (NUTR 620[B-] or 620[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

NUTR 690: *Independent Study in Nutrition and Food Studies.* 1-6 credits.
Readings or research on a pertinent topic in nutrition and food studies. Must be arranged with instructor before registering. Offered by Nutrition and Food Studies. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

NUTR 788: *Pre-Practicum Seminar.* 0 credits.
Provides guidance and preparation for engaging in the capstone practicum. Offered by Nutrition and Food Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

NUTR 790: *Nutrition Practicum.* 3 credits.
An in-depth supervised experience in an approved nutrition-related organization. Includes a project related to a nutrition issue within the organization. Offered by Nutrition and Food Studies. May not be repeated for credit.

Recommended Prerequisite: NUTR 788.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale.

NUTR 799: *Thesis Research.* 1-6 credits.
Thesis research and writing. Offered by Nutrition and Food Studies. May be repeated within the degree.

Recommended Prerequisite: Core courses in MS program.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

Operations & Supply Chain Management (OSCM)

300 Level Courses

OSCM 303: *Operations Management.* 3 credits.
Examines an organization's operations, including design, management and improvement processes, projects and supply chains, in both product and service environments. Uses analytical models to support key planning and control activities. Notes: Students cannot receive credit for both OM 303 and OSCM 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. The third attempt will require academic advisor approval. For more information about this, see the "Termination from the Major" section under Academic Policies. Offered by School of Business. Limited to two attempts. Equivalent to OM 303.

Recommended Prerequisite: BUS 103 and BUS 200.

Registration Restrictions:
Required Prerequisites: (BUS 210[C], U210 or 210[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take OSCM crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OSCM 320: *Supply Chain Management in a Global Economy.* 3 credits.
Design, development, and management of supply chain systems, including production and inventory management, distribution channels, and information systems that support them. Emphasizes impact of e-business on companies and industries, including Internet's impact on the way goods and services flow through value chain from providers to customers. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts. Equivalent to OM 320.

Registration Restrictions:
Required Prerequisites: OM 301[C], L301, 303[C], OSCM 303[C], 303[XS], OM L303, 303[XS], MBUS 306[C], 306[XS] or L306.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take OSCM crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OSCM 330: *Service Operations.* 3 credits.
The services sector contributes about 80% of the gross domestic product of the US economy. This sector also provides employment to nearly 80% of the working population across diverse industries such as financial services, hospitality, retail, health care, airlines, and public sector. In short, the service sector affects almost every aspect of our day-to-day lives. However, understanding service operations is not easy due to service characteristics such as intangibility, variability, inability to be stored, highly geographically distributed, and a significant amount of customer contact. In light of these factors, this course in Service Operations focuses on how firms in the services sector design and manage their businesses. Specifically, we will explore key concepts in service operations such as services delivery, service encounter, service quality, and management of capacity and demand. Further, this course will explore how these concepts apply across a diverse range of industries. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: OM 301[C], L301, 303[C], L303, OSCM 303[C], 303[XS], OM 303[XS], MBUS 306[C], 306[XS] or L306.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take OSCM crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OSCM 352: *Management Science.* 3 credits.
Introduces operation research and management sciences (OR/MS) techniques for supporting business management decisions. Specific mathematical programming and probabilistic topics include linear programming, integer programming, goal programming, network flow models, decision analysis, game theory, queuing models, and Monte Carlo simulation. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts. Equivalent to OM 352.

Registration Restrictions:
Required Prerequisites: OM 301[C], L301, 303[C], L303, OSCM 303[C], 303[XS], OM 303[XS], MBUS 306[C] or 306[XS] and MBUS L306.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take OSCM crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

OSCM 430: *Design Thinking for Innovative Operations.* 3 credits.
This course introduces students to an approach to decision making called design thinking. Design thinking is a way of working with user-centered innovation to address problems. Design thinking emphasizes deep user understanding, iteration, and a focus on possibilities as a way to enhance value creation for stakeholders. Design thinking has gained in popularity both in industry and in governments in the last decade and is an important contrast to the more traditional linear view of problem solving. The course will study the concepts and applications of design thinking and will allow students to engage in the design thinking process in an operational innovation context. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: OM 301[C], L301, 303[C], L303, OSCM 303[C], 303[XS], OM 303[XS], MBUS 306[C], 306[XS] or L306.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take OSCM crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OSCM 435: *Business Process Analysis and Simulation.* 3 credits.
Introduces concepts and tools used in designing, modeling, analyzing, and improving business processes. Various business process analysis and simulation methods, such as process mapping/flowcharting, process flow and capacity analysis, service process design, theory of constraints, process modeling and simulation, and business process reengineering are discussed. Introduces methods and analytical tools such as queue theory and computer simulation used to design, model, analyze, and improve business processes. Discusses methods such as process mapping/diagramming, service process design, process modeling, and business process reengineering. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts. Equivalent to OM 435.

Registration Restrictions:
Required Prerequisites: OM 301[C], L301, 303[C], L303, OSCM 303[C], 303[XS], OM 303[XS], MBUS 306[C], 306[XS] or L306.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take OSCM crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OSCM 440: *Public Sector Operations.* 3 credits.
Public sector organizations such as governments and non-profits fulfill important roles in society, delivering widely varying services and products. Operations management, the analysis, design, operation, and improvement of the systems and processes that deliver goods or services, is critical for these organizations to achieve their mission, provide value to their many stakeholders, and effectively translate policy into action. This course equips students with capabilities and strategies to design, evaluate, and improve successful operations activities within government and non-profit organizations. The course is particularly relevant in the context of the DC metropolitan area where public sector represents a key industry sector in terms of contribution to the area's GDP and employment. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: OM 301[C], L301, 303[C], L303, OSCM 303[C], 303[XS], OM 303[XS], MBUS 306[C], 306[XS] or L306.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take OSCM crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OSCM 452: *Business Forecasting.* 3 credits.
Introduces techniques for producing predictions of future business operations as aids to making planning decisions. Specific topics include judgmental forecasting, forecast accuracy, correlation analysis, smoothing methods, regression models, decomposition, and autoregressive and ARIMA models. Methods demonstrated and used through computer software. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts. Equivalent to OM 452.

Registration Restrictions:
Required Prerequisites: OM 301[C], L301, 303[C], L303, OSCM 303[C], 303[XS], OM 303[XS], MBUS 306[C], 306[XS] or L306.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take BUSA crses, Ineligible to take OSCM crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OSCM 456: *Quality Management.* 3 credits.
Provides an understanding of the multifaceted nature of quality management by emphasizing topics such as quality philosophies, total quality management, design quality, process quality, and managing quality in information systems development. Discusses ISO 9000 and Capability Maturity Model. Uses software, case studies. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts. Equivalent to OM 456.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: OM 301[C], L301, 303[C], L303, OSCM 303[C], 303[XS], OM 303[XS], MBUS 306[C], 306[XS] or L306.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take OSCM crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OSCM 460: *Management of Product and Process Technologies.* 3 credits.
This course focuses on analysis of the challenges and opportunities associated with managing a firm's product and process technology resources for long-term competitive advantage in the face of technological evolution. Students will learn concepts of technology evolution, understand how enterprises can manage technology resources efficiently to create and deliver products and/or services that respond effectively to customer requirements and expectations, and examine models that help in the analysis, development and implementation of product and process technologies. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: OM 301[C], L301, 303[C], L303, OSCM 303[C], 303[XS], OM 303[XS], MBUS 306[C], 306[XS] or L306.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OSCM 462: *Honors Seminar in Operations Management (Topic Varies).* 3 credits.
Topic and format vary. In-depth study of a topic in the area of operations management. Enrollment limited and competitive. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts. Equivalent to OM 462.

Specialized Designation: Topic Varies

Recommended Prerequisite: Enrollment in the Operations and Supply Chain Management concentration, senior standing, and permission of the course department.

Registration Restrictions:
Students with the Ineligible to take OSCM crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

OSCM 465: *Government Contracting and Procurement.* 3 credits.
This course provides an in-depth knowledge and analysis of the Government Contracting industry, and Business to Government (B2G) relationships. It will discuss Procurement and Supply Chain processes in the government regulatory environment, and how they are executed in practice by government organizations, with a focus on US Federal Government contracting policies, processes and procedures. It is designed for students potentially pursuing careers in government organizations or businesses that serve government clients. Topics will include Federal Acquisition Regulation (FAR), Federal Budgeting, Market Analysis, Category Management, Small Business Utilization, National Security implications, Innovation and Research Funding. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: OM 301[C], L301, 303[C], L303, OSCM 303[C], 303[XS], OM 303[XS], MBUS 306[C], 306[XS] or L306.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Students with the Ineligible to take OSCM crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OSCM 491: *Seminar in Operations Management.* 3 credits.
Analyzes selected topics that highlight latest developments in the operations management field, including contemporary research findings and case studies of operations management in business and other organizations. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts. Equivalent to OM 491.

Registration Restrictions:
Required Prerequisites: OM 301[C], L301, 303[C], L303, OSCM 303[C], 303[XS], OM 303[XS], MBUS 306[C], 306[XS] or L306.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Senior.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take OSCM crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

OSCM 492: *Internship in Operations and Supply Chain Management.* 3 credits.
Opportunity to gain practical, professional experience in conjunction with academic development. An internship is an important part of academic and career preparation. May be used as elective credit, but may not be repeated. Notes: No more than 6 credits of School of Business internship coursework (BUS 492 or OM 492) can be applied towards a student's 120 (BU) degree applicable credits. Students must receive departmental approval in order to register for this course; please contact the School of Business Office of Career Services for internal eligibility requirements. Offered by School of Business. May be repeated within the degree for a maximum 6 credits. Equivalent to ACCT 492, BUS 492, FNAN 492, MGMT 492, MIS 492, MKTG 492, OM 492.

Recommended Prerequisite: 75 credit hours

Registration Restrictions:
Required Prerequisites: (MIS 301[B-] or 303[B-]) and (OM 301[B-], 303[B-], OSCM 303[B-] or MBUS 306[B-]).
[B-] Requires minimum grade of B-.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take BUSA crses, Ineligible to take OSCM crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

OSCM 493: *Management of Technology Projects.* 3 credits.
Focuses on managerial problems associated with meeting technical, cost, and time constraints of technology projects. Discusses project management areas including organization, teams, scheduling, cost control, earned value analysis, risk management, and quality. Includes software cost estimation models and the management of IT projects. Software and case studies. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts. Equivalent to OM 493.

Registration Restrictions:
Required Prerequisites: OM 301[C], L301, 303[C], L303, OSCM 303[C], 303[XS], OM 303[XS], MBUS 306[C], 306[DS] or L306.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[DS] Requires minimum grade of DS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the Ineligible to take OSCM crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

OSCM 499: *Independent Study in Operations Management.* 1-3 credits.
By special arrangement with instructor, and approval from associate dean for undergraduate programs. Investigates business problem according to student interest, using state-of-the-art decision science methodology. Offered by School of Business. May be repeated within the term for a maximum 6 credits. Equivalent to OM 499.

Registration Restrictions:
Required Prerequisites: OM 301[C], L301, 303[C], L303, OSCM 303[C], 303[XS], OM 303[XS], MBUS 306[C], 306[XS] or L306.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree or Washington Consortium level students may **not** enroll.

Students with the Ineligible to take OSCM crses, terminated from BU major or terminated from ISOM major attributes may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

700 Level Courses

OSCM 721: *Seminar in Operations and Supply Chain Management.* 1.5 credit.
This course is designed to expose doctoral students to academic research in operations and supply chain management. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Business.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OSCM 731: *Seminar in Supply Chain Management.* 3 credits.
This course is designed to expose doctoral students to a broad foundation in supply chain management research including theory, quantitative and empirical tools. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Business.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OSCM 732: *Seminar in Innovation and New Product Development.* 3 credits.
This course is designed to expose doctoral students to a broad foundation in innovation and new product development research including theory, quantitative and empirical tools. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Business.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

800 Level Courses

OSCM 893: *Special Topics in Operations Management.* 3 credits.
This course is designed to expose doctoral students to a specialized topic within the operations and supply chain management field through theoretical, quantitative and empirical work in the topic area. Offered by School of Business. May be repeated within the degree for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Business.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Operations Management (OM)

300 Level Courses

OM 303: *Operations Management.* 3 credits.
Examines an organization's operations, including design, management and improvement processes, projects and supply chains, in both product and service environments. Uses analytical models to support key planning and control activities. Notes: Students cannot receive credit for both OM 301 and OM 303.School of Business students will not be permitted to make more than three attempts to achieve a C or higher in OM 303. The third attempt requires School of Business academic advisor approval. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section

under Academic Policies. Offered by School of Business. Limited to two attempts. Equivalent to OSCM 303.

Recommended Prerequisite: BUS 103 and BUS 200.

Registration Restrictions:
Required Prerequisites: BUS 210[C], U210 or 210[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OM 320: *Supply Chain Management in a Global Economy.* 3 credits.
Design, development, and management of supply chain systems, including production and inventory management, distribution channels, and information systems that support them. Emphasizes impact of e-business on companies and industries, including Internet's impact on the way goods and services flow through value chain from providers to customers. Offered by School of Business. Limited to three attempts. Equivalent to OSCM 320.

Registration Restrictions:
Required Prerequisites: (DESC 301[C], L301, OM 301[C], L301, 303[C] or 303[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OM 352: *Management Science.* 3 credits.
Introduces operation research and management sciences (OR/MS) techniques for supporting business management decisions. Specific mathematical programming and probabilistic topics include linear programming, integer programming, goal programming, network flow models, decision analysis, game theory, queuing models, and Monte Carlo simulation. Offered by School of Business. Limited to two attempts. Equivalent to OSCM 352.

Registration Restrictions:
Required Prerequisites: (DESC 301[C], L301, OM 301[C] or L301) or OM 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

OM 435: *Business Process Analysis and Simulation.* 3 credits.
Introduces concepts and tools used in designing, modeling, analyzing, and improving business processes. Various business process analysis and simulation methods, such as process mapping/flowcharting, process flow and capacity analysis, service process design, theory of constraints, process modeling and simulation, and business process reengineering are discussed. Introduces methods and analytical tools such as queue theory and computer simulation used to design, model, analyze, and improve business processes. Discusses methods such as process mapping/diagramming, service process design, process modeling, and business process reengineering. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts. Equivalent to OSCM 435.

Registration Restrictions:
Required Prerequisites: (DESC 301[C], L301, OM 301[C] or L301) or OM 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OM 452: *Business Forecasting.* 3 credits.
Introduces techniques for producing predictions of future business operations as aids to making planning decisions. Specific topics include judgmental forecasting, forecast accuracy, correlation analysis, smoothing methods, regression models, decomposition, and autoregressive and ARIMA models. Methods demonstrated and used through computer software. Offered by School of Business. Limited to two attempts. Equivalent to OSCM 452.

Registration Restrictions:
Required Prerequisites: (DESC 301[C], L301, OM 301[C] or L301) or OM 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OM 456: *Quality Management.* 3 credits.
Provides an understanding of the multifaceted nature of quality management by emphasizing topics such as quality philosophies, total quality management, design quality, process quality, and managing quality in information systems development. Discusses ISO 9000 and Capability Maturity Model. Uses software, case studies. A third attempt will require academic advisor approval. Offered by School of Business. Limited to two attempts. Equivalent to OSCM 456.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: (DESC 301[C], L301, OM 301[C] or L301) or OM 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OM 462: *Honors Seminar in Operations Management (Topic Varies).* 3 credits.
Topic and format vary. In-depth study of a topic in the area of operations management. Enrollment limited and competitive. Offered by School of Business. Limited to two attempts. Equivalent to OSCM 462.

Specialized Designation: Topic Varies

Recommended Prerequisite: Degree status in ISOM major; senior standing; permission of department.

Registration Restrictions:
Students with the terminated from BU major attribute may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

OM 491: *Seminar in Operations Management.* 3 credits.
Analyzes selected topics that highlight latest developments in the operations management field, including contemporary research findings and case studies of operations management in business and other organizations. Offered by School of Business. Limited to two attempts. Equivalent to OSCM 491.

Registration Restrictions:
Required Prerequisites: (OM 301[C]) or OM 303[C], L301, L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Senior.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

OM 492: *Internship in Operations Management.* 3 credits.
Opportunity to gain practical, professional experience in conjunction with academic development. An internship is an important part of academic and career preparation. May be used as elective credit, but may not be repeated. Notes: No more than 6 credits of School of Business internship coursework (BUS 492 or OM 492) can be applied towards a student's 120 (BU) degree applicable credits. Students must receive departmental approval in order to register for this course; please contact the School of Business Office of Career Services for internal eligibility requirements. Offered by School of Business. May be repeated within the degree for a maximum 6 credits. Equivalent to ACCT 492, BUS 492, FNAN 492, MGMT 492, MIS 492, MKTG 492, OSCM 492.

Recommended Prerequisite: 75 credit hours

Registration Restrictions:
Required Prerequisites: (OM 301[B-] or 303[B-]) and (MIS 301[B-] or 303[B-]).
[B-] Requires minimum grade of B-.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

OM 493: *Management of Technology Projects.* 3 credits.
Focuses on managerial problems associated with meeting technical, cost, and time constraints of technology projects. Discusses project management areas including organization, teams, scheduling, cost control, earned value analysis, risk management, and quality. Includes software cost estimation models and the management of IT projects. Software and case studies. Offered by School of Business. Limited to two attempts. Equivalent to OSCM 493.

Registration Restrictions:
Required Prerequisites: (OM 301[C], L301, DESC 301[C] or L301) or OM 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OM 499: *Independent Study in Operations Management.* 1-3 credits.
By special arrangement with instructor, and approval from associate dean for undergraduate programs. Investigates business problem according to student interest, using state-of-the-art decision science methodology. Offered by School of Business. May be repeated within the term for a maximum 6 credits. Equivalent to OSCM 499.

Registration Restrictions:
Required Prerequisites: (DESC 301[C], L301, OM 301[C] or L301) or OM 303[C], L303 or 303[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree or Washington Consortium level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

Operations Research (OR)

300 Level Courses

OR 335: *Discrete Systems Modeling and Simulation.* 3 credits.
Introduces basic concepts of modeling complex discrete systems by computer simulation. Topics include Monte-Carlo methods, discrete-event modeling, specialized simulation software, and statistics of input and output analysis. Offered by Systems Engr & Operations Rsch. Limited to two attempts. Equivalent to SYST 335.

Registration Restrictions:
Required Prerequisites: (SYST 130[C], 130[XS], CDS 130[C], 130[XS], CS 112[C], 112[XS] or ENGR 125T) and (STAT 334[C], 334[XS], 344[C], 344[XS], 346[C], 346[XS], MATH 351[C] or 351[XS]) and (SYST 230[*C], 230[XS], CS 211[*C] or 211[XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

OR 438: *Analytics for Financial Engineering and Econometrics.* 3 credits.
Introduces the basic analytics for financial engineering and econometrics. Topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, financial time series analysis, portfolio theory, pricing models, and risk analysis. Provides a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data. Hands-on experiments with R will be emphasized throughout the course. Offered by Systems Engr & Operations Rsch. Limited to two attempts. Equivalent to SYST 438.

Recommended Corequisite: STAT 354

Registration Restrictions:
Required Prerequisites: (STAT 250[C] or 250[XS]) or (STAT 260[C] or 260[XS]) or (STAT 334[C] or 334[XS]) or (STAT 344[C] or 344[XS]) or (STAT 346[C] or 346[XS]) or (MATH 351[C] or 351[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OR 441: *Deterministic Operations Research.* 3 credits.
Survey of deterministic methods for solving real-world decision problems. Covers linear programming model and simplex method of solution, duality, and sensitivity analysis; transportation and assignment problems; shortest path and maximal flow problems; and introduction to integer and nonlinear programming. Emphasizes modeling and problem solving. Notes: Accelerated MS students may not receive credit for both OR/MATH 441 and OR 531 Offered by Systems Engr & Operations Rsch. Limited to two attempts. Equivalent to MATH 441.

Registration Restrictions:
Required Prerequisites: MATH 203[C] or 203[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OR 442: *Stochastic Operations Research.* 3 credits.
Survey of probabilistic methods for solving decision problems under uncertainty, probability review, decision theory, queuing theory, inventory models, forecasting, Markov chain models, and simulation are covered. Emphasis on modeling and problem solving. Offered by Systems Engr & Operations Rsch. Equivalent to MATH 442. Offered by Systems Engr & Operations Rsch. Limited to two attempts. Equivalent to MATH 442.

Registration Restrictions:
Required Prerequisites: STAT 334[C], 334[XS], 344[XS], 344[C], 346[C], 346[XS], MATH 351[C] or 351[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OR 481: *Numerical Methods in Engineering.* 3 credits.
Modern numerical methods and software. Emphasis on problem solving through software and assessing the quality of solutions obtained. Topics include computer arithmetic, linear equations and least squares data fitting, interpolation, nonlinear optimization, and differential equations. Involves extensive computer use. Offered by Systems Engr & Operations Rsch. Limited to two attempts. Equivalent to MATH 446.

Registration Restrictions:
Required Prerequisites: (MATH 203[C] or 203[XS]) and (CS 112[C], 112[XS], SYST 130[C], 130[XS], CDS 130[C], 130[XS] or ENGR 125T).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

OR 498: *Independent Study in Operations Research.* 1-3 credits.
Directed self-study of special topics of current interest in operations research. Notes: May be repeated if topics substantially different. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Recommended Prerequisite: 60 hours; must be arranged with an instructor and approved by the dept. chair before registering.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

OR 531: *Analytics and Decision Analysis.* 3 credits.
Course focus is predominantly on prescriptive analytics with some parts focused on predictive analytics. Topics include operations research techniques and their application to decision making such as mathematical optimization, networks modeling, stochastic modeling, and multi-objective modeling. Other topics such as Monte Carlo simulation, decision analysis using decision trees and quantitative value functions, and heuristic methods for non-smooth models are covered, as well as use of contemporary computer software for problem solving. In particular, the course will use MS Excel extensively for building decision making support models. Case-study approach to problem solving is used. Notes: Cannot be used for credit for the PhD IT program. Offered by Systems Engr & Operations Research. May not be repeated for credit. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 538: *Analytics for Financial Engineering and Econometrics.* 3 credits.
Introduces the basic analytics for financial engineering and econometrics. Topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, financial time series analysis, portfolio theory, pricing models, and risk analysis. Provides a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data. Hands-on experiments with R will be emphasized throughout the course. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to SYST 538.

Recommended Prerequisite: STAT 515 or STAT 544.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 541: *Operations Research: Deterministic Models.* 3 credits.
Survey of deterministic methods of solving real world decision problems. Covers linear programming model and simplex method of solution, duality, and sensitivity analysis, transportation and assignment problems; shortest path, minimal spanning tree, and maximal flow problems; and an introduction to integer and nonlinear programming. Emphasis on modeling and problem solving. Notes: Students who have taken OR 441/MATH 441 will not receive credit. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: MATH 203 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 542: *Operations Research: Stochastic Models.* 3 credits.
A survey of probabilistic methods for solving decision problems under uncertainty, probability theory review, forecasting, queuing theory, inventory systems, Markov chain models, and simulation. Emphasis on modeling and problem solving. Notes: Students who have taken OR 442/MATH 442 do not receive credit. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: STAT 344 or MATH 351 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 568: *Applied Predictive Analytics.* 3 credits.
Introduces predictive analytics with applications in engineering, business, and econometrics. Topics include data preprocessing, predictive modeling with various regression and classification models (e.g., linear, logistic regression, tree-based methods, SVM, neural networks, etc.), time series analysis, and case studies. Provides a foundation of basic theory and methodology with applied examples to analyze large engineering, business, and econometric data for predictive decision making. Hands-on experiments with R will be emphasized. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to SYST 568.

Recommended Prerequisite: STAT 515 or Graduate Standing at the MSOR or MSSE programs.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 574: *Quality Control and Process Management.* 3 credits.
An overview of quality control techniques widely used in a number of manufacturing industries. The course teaches students about combining engineering process quality management and traditional statistical quality control procedures that are applicable in industry and are based on contemporary technologies such as lean Six Sigma, total quality management and predictive maintenance for achieving superior quality, reliability and maintainability. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to SYST 574.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 576: *Manufacturing Systems Analysis.* 3 credits.
An overview of modeling and analysis of general manufacturing systems techniques widely used in a number of manufacturing industries, such as semiconductor manufacturing. The course teaches students about best scheduling and inventory control practices, enterprise resource management principles, and details of engineering economy that are applicable in the industry. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to SYST 576.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 584: *Heterogeneous Data Fusion.* 3 credits.
Introduces the theory, design and implementation of multi-source information fusion systems in various domains. The course covers distinct technologies for combining data from multiple, heterogeneous sources and performing inferences in support to applications such as cyber security, Semantic Web, decision support systems, situational awareness, intrusion detection, crisis management, and others. The technical content is largely multi-disciplinary, encompassing disciplines such as knowledge engineering, ontologies, statistical learning, artificial intelligence, and data mining. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to SYST 584.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 588: *Financial Systems Engineering I: Introduction to Options, Futures, and Derivatives.* 3 credits.
This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic

types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Ito's formula, and Black-Scholes valuation model. Numerical methods for option pricing, such as Binomial tree and Monte Carlo simulation will also be covered. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to SYST 588.

Recommended Prerequisite: Eng. or Math Graduate standing, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

OR 603: *Sports Analytics.* 3 credits.
Cover topics in the applied analysis of sports, with a focus on supporting team decision-makers. Students will learn to apply modern, practical analytic techniques to sports data in search of actionable insight and a competitive edge. The four major team sports of North America (football, baseball, basketball, and hockey) will be the primary subjects of study, but the course's learning objectives will universally apply to a variety of sports. Students will become familiar with the full analytic life-cycle: asking productive and relevant research questions, finding the right data, applying the appropriate tools, discovering insight, and clearly communicating results. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: (OR 531 or OR 541), and (STAT 518 or OR 568).

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 604: *Practical Optimization.* 3 credits.
Survey of optimization methods for students whose main focus is on application of optimization. Covers modeling, search methods, convexity, linear programming, sensitivity, networks, multiobjective optimization, heuristic methods, integer programming, nonlinear programming and dynamic programming; use of modeling languages and optimization tools, including NEOS. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: OR 531 and CS 504 or higher programming course.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 610: *Deep Learning for Predictive Analytics.* 3 credits.
Overview of the theoretical and algorithmic foundations of deep learning as well as practical aspects of developing deep learning predictive models. Topics include theoretical results from convex optimization and approximation theories, first and second order optimization algorithms (stochastic gradient descent, Nesterov acceleration, Newton's), overview of popular architectures (recurrent and convolutional networks), accelerated linear algebra, GPU computing, automated differentiation and Bayesian inference. Applications in engineering, finance and artificial intelligence. Practical aspects of building predictive models, such as architecture selection, and data normalization. Extensive use of computational tools, such as the Python language, both for illustration in class and in homework problems. In addition to traditional instruction, a number of case studies and students' model building projects provide further breadth and exposure. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: (OR 541 or OR 604) and (OR 568 or OR 664), or permission of instructor

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 635: *Discrete System Simulation.* 3 credits.
Computer simulation as a scientific methodology in operations analytics, with emphasis on model development, implementation, and analysis of results. Discrete-event models, specialized software and programming, input modeling, random variate generation, output statistical analysis, design of simulation experiments, and simulation-based optimization are covered. Extensive computational work is required. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: OR 542, or STAT 354 or 344, or equivalent; and knowledge of scientific programming language.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 640: *Global Optimization and Computational Intelligence.* 3 credits.
Introduction to global optimization of nonconvex mathematical programs and numerical methods for the solution of such problems. Topics covered include high-level survey of traditional mathematical programming algorithms; critical comparison of metaheuristics and artificial intelligence (AI) algorithms to traditional mathematical programming algorithms; probabilistic search, multistart methods, statistical tests of performance and confidence, simulated annealing, genetic algorithms, neural networks, Tabu search, homotopies and tunneling; the traveling salesman problem, the Steiner problem, Stackelberg-Cournot-Nash mathematical games and other classical nonconvex optimization problems. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: MATH 203 or equivalent, and knowledge of a scientific programming language.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 641: *Linear Programming.* 3 credits.
In-depth look at the theory and methodology of linear programming: Computational enhancements of the revised simplex method; sparse-matrix techniques, bounded variables and the dual simplex method. Alternative interior point methods described and computational complexity of various algorithms analyzed. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: OR 541 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 642: *Integer Programming.* 3 credits.
Cutting plane and enumeration algorithms for solution of integer linear programs; bounding strategies and reformulation techniques; heuristic approaches to the solution of complex problems; knapsack problems, matching problems, set covering and partitioning problems; applications to problems in OR/MS, such as capital budgeting, facility location, political redistricting, engineering design, and scheduling. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: OR 541 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 643: *Network Modeling.* 3 credits.
Introduction to network problems in operations research, computer science, electrical engineering, and systems engineering. Solution techniques for various classes of such problems are developed. Topics include minimal-cost network flow, maximal flow, shortest path, and generalized networks; plus stochastic networks, network reliability, and combinatorially based network problems. Complexity of each problem class analyzed. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: OR 541 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 644: *Nonlinear Programming.* 3 credits.
Nonlinear optimization theory and techniques applicable to problems in engineering, economics, operations research, and management science. Covers convex sets and functions, optimality criteria and duality; algorithms for unconstrained minimization, including descent methods, conjugate directions, Newton-type and quasi-Newton methods; and algorithms for constrained optimization, including active set methods and penalty and barrier methods. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: MATH 213 or equivalent and OR 541 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 645: *Stochastic Processes.* 3 credits.
Selected applied probability models including Poisson processes, discrete- and continuous-time Markov chains, renewal and regenerative processes, semi-Markov processes, queuing and inventory systems, and reliability theory. Emphasis on applications in practice as well as analytical models. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: OR 542 or STAT 544 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 646: *Stochastic Optimization.* 3 credits.
Provides an introduction to stochastic optimization, more specifically, stochastic programming. The objectives are (i) to provide students with the ability to model and solve optimization problems under uncertainty, and (ii) to make students familar with the state-of-the-art of stochastic programming. Homework will be used to reinforce and supplement information in each section. Through the semester we will be reading research papers to supplement the material in the text book. Papers and other course material will be provided on Blackboard. Students should be proficient with one programming language (e.g. MATLAB, Python, Java, C++) and should be able to become familiar with a math programming solver (e.g. Cplex, Gurobi.) Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: OR 541 and OR 542.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 647: *Queuing Theory.* 3 credits.
Unified approach to queuing, organized by type of model. Single- and multiple-channel exponential queues; Erlangian models, bulk and priority queues, networks of queues; general arrival and/or service times; and statistical inference and simulation of queues are covered. Extensive use of computational software. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: OR 542, STAT 544, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 649: *Topics in Operations Research.* 3-6 credits.
Advanced topic chosen according to interests of students and instructor from dynamic programming, inventory theory, queuing theory, Markov and semi-Markov decision processes, reliability theory, decision theory, network flows, large-scale linear programming, nonlinear programming,

and combinatorics. Notes: May be repeated if topics substantially different. Offered by Systems Engr & Operations Rsch. May be repeated within the term.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 651: *Military Operations Research I: Cost Analysis.* 3 credits.
While drawing on other disciplines (managerial accounting, econometrics, systems analysis), cost analysis uses operations research to assist decision makers in choosing preferred future courses of action by evaluating selected alternatives on the basis of their costs, benefits, and risks. Cost analysis is distinctly different from cost estimating in that projecting future courses of action almost always requires mathematical modeling. Topics include analysis overview, economic analysis, estimating relationships (factors, simple and complex models), acquiring and verifying cost data, cost progress curves, life-cycle costing, scheduling estimating, effectiveness and risk estimation, relationship of effectiveness models and measures to cost analysis. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Corequisite: OR 541 or OR 542.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 652: *Military Operations Research Modeling II: Effectiveness Analysis.* 3 credits.
Examines issues and modeling underlying military decisions at the Military Service, Joint Staff, and Department of Defense level. Analytical methods with applications to theater campaign analysis, equipment and weapon system modernization, force structure development, strategic mobility and deployment, small-scale contingency operations, logistics, and requirements determination are considered. Optimization, simulation, and statistical techniques are stressed. Realistic problems presented and solved as case studies. Display of results and presentation techniques for military decision makers emphasized. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Corequisite: OR 541 or OR 542.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 660: *Air Transportation Systems Modeling.* 3 credits.
Introduces range of current issues in air transportation, including public policy toward the industry, industry economics, system capacity, current system modeling capability, human factors considerations, safety analysis and surveillance systems, and new technological developments. Students expected to develop broad understanding of contemporary and future issues. Knowledge evaluated through class discussions, a take-home midterm exam and a term project to be completed by the end of the semester. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to SYST 660.

Recommended Prerequisite: SYST 460/560, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 664: *Bayesian Inference and Decision Theory.* 3 credits.
Introduces decision theory and relationship to Bayesian statistical inference. Teaches commonalities, differences between Bayesian and frequentist approaches to statistical inference, how to approach statistics problem, and how to combine data with informed expert judgment to derive useful and policy relevant conclusions. Teaches theory to develop understanding of when and how to apply Bayesian and frequentist methods; and practical procedures for inference, hypothesis testing, and developing statistical models for phenomena. Teaches fundamentals of Bayesian theory of inference, including probability as a representation for degrees of belief, likelihood principle, use of Bayes Rule to revise beliefs based on evidence, conjugate prior distributions for common statistical models, and methods for approximating the posterior distribution. Introduces graphical models for constructing

complex probability and decision models from modular components. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to CSI 674, SYST 664.

Recommended Prerequisite: STAT 544, STAT 554, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 670: *Metaheuristics for Optimization.* 3 credits.
Course on the theory and practice of metaheuristics, i.e. solution search techniques for solving combinatorial optimization problems. It will introduce the theory, applications (scheduling in manufacturing, transportation, and in other engineering and service industries), and computational aspects of directly searching for solutions to solve computationally complex optimization problems without a well-defined analytical model. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to SYST 670.

Recommended Prerequisite: OR 441/541 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 671: *Judgment and Choice Processing and Decision Making.* 3 credits.
How do people make judgments and decisions? Course presents an initial review of scientific literature directed toward answering this question, and emphasizes its importance when performing decision analysis and designing systems to support judgment and decision processes. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to SYST 671.

Recommended Prerequisite: STAT 344/354, OR 542 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 674: *Dynamic Programming.* 3 credits.
Course on the theory and practice of dynamic programming, i.e., optimal sequential decision making over time in the presence of uncertainties. Stresses intuition, the mathematical foundations being for the most part elementary. Introduces the theory, applications in finance and engineering, and computational aspects of dynamic programming for deterministic and stochastic problems. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to SYST 674.

Recommended Prerequisite: OR 442 or OR 542 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 675: *Reliability Analysis.* 3 credits.
Introduction to component and system reliability, their relationship, and problems of inference. Topics include component lifetime distributions and hazard functions, parameter estimation and hypothesis testing, life testing, accelerated life testing, system structural functions, and system maintainability. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to SYST 675.

Recommended Prerequisite: STAT 544/554, OR 542 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 681: *Decision and Risk Analysis.* 3 credits.
Application of analytic reasoning and skills to practical problems in decision-making. Topics include problem structure, analysis and solution implementation, emphasizing contemporary approaches to decision analytic techniques. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to SYST 573.

Recommended Prerequisite: OR 542 or MBA 638.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 682: *Computational Methods in Engineering and Statistics.* 3 credits.
Numerical methods have been developed to solve mathematical problems that lack explicit closed-form solutions or have solutions that are not amenable to computer calculations. Examples include solving differential equations or computation probabilities. Discusses numerical methods for such problems as regression, analysis of variance, nonlinear equations, differential and difference equations and nonlinear optimization. Applications in statistics and engineering are emphasized. Involves extensive computer use. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to CSI 690, MATH 685.

Recommended Prerequisite: MATH 203 and 213 or equivalent, and modern numerical methods and software.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 683: *Principles of Command, Control, Communications, Computing, and Intelligence (C4I).* 3 credits.
Fundamental principles of C4I are developed from descriptive, theoretical, and quantitative perspectives. Principles and techniques applicable to wide range of civilian and military situations. Topics include C2 process; modeling and simulation for combat operations; detection, sensing, and tracking; data fusion and situation assessment; optimal decision making; methodologies and tools of C4I architectures; tools for modeling and evaluations of C4 systems such as queuing theory. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: ECE 528 or OR 542 or SYST 611 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 688: *Financial Systems Engineering II: Derivative Products and Risk Management.* 3 credits.
Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions, as well as facilitating the risk management of those decisions. This course will introduce basic concepts of options, futures, and financial derivatives markets. It will focus on risk management for market risk, credit risk, and operational risk. It will also cover a broad range of derivatives products and discuss how risks are managed in financial institutions. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to SYST 688.

Recommended Prerequisite: OR 588 or SYST 588 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 690: *Optimization of Supply Chains.* 3 credits.
Focuses on both supply chain optimization from an enterprise-wide perspective, and supply chain optimization from a business-to-business e-commerce concern. Concerned with optimizing the value of goods and services and assuring a reasonable return on such sales. Describes both heuristic and exact algorithms for scheduling, production, inventory management, logistics, and distribution. New software that enables such optimization is presented, as are manufacturing and service examples

from the public and private sectors. New techniques to handle risk, quality of data, and robustness of solutions are presented. Students perform case studies using state-of-the-art software. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: Mathematics through linear algebra, and STAT 344.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 699: *Masters Project.* 3 credits.
Capstone project course for MS/OR program. Key activity is completion of a major applied team project resulting in an acceptable technical report and oral briefing. Student should plan to take this course in the last semester of studies. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: 21 graduate credits in OR or SYST.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

OR 719: *Graphical Models for Inference and Decision Making.* 3 credits.
Theory and methods for inference and decision making in environments characterized by uncertain information. Covers graphical probability and decision models. Studies approaches to representing knowledge about uncertain phenomena, and planning and acting under uncertainty. Topics include knowledge engineering, exact and approximate inference in graphical models, learning in graphical models, temporal reasoning, planning, and decision-making. Practical model-building experience provided. Students apply what they learn to a project of their own choosing. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to CSI 775.

Recommended Prerequisite: STAT 652 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 735: *Advanced Stochastic Simulation.* 3 credits.
Advanced topics and recent developments in stochastic simulation methodology for discrete-event and agent-based stochastic systems, with applications in artificial intelligence, power systems, manufacturing, health care, transportation, etc. Topics include simulation data analysis, stochastic simulation methodologies in artificial intelligence/machine learning, risk analytics, simulation-based optimization of complex systems, distributed and parallel simulation. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to SYST 735.

Recommended Prerequisite: OR 635 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 741: *Advanced Linear Programming.* 3 credits.
Recent developments in linear programming. Highlights advances in interior point methods and also addresses developments in the simplex method. Projective methods, affine methods, and path-following methods are examined, including Karmarkar's original work. Discusses relationships between these methods, and relationships to methods in nonlinear programming. Also discussed are advances in data structures and other implementation issues. Students test software and solve large-scale linear programs. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: OR 541 or 641.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 750: *Advanced Topics in Operations Research.* 3 credits.
Special topics, applications, or recent developments in operations research. Contents vary and may include topics in optimization, stochastic methods, or decision support that are not covered in the

standard OR curriculum. Notes: May be repeated when topics are distinctly different. Offered by Systems Engr & Operations Rsch. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: OR 541 or 542, and 600-level course that varies with content of course.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 751: *Advanced Topics in Operations Research for Planning and Scheduling.* 3 credits.
Introduces combinatorial optimization problems in scheduling and logistics. Solution techniques for various classes of such problems are developed. Topics include deterministic and stochastic scheduling algorithms with applications in manufacturing and service sectors. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Specialized Designation: Topic Varies

Recommended Prerequisite: OR 541.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 763: *Research Methods in Systems Engineering and Information Technology.* 3 credits.
Examines alternative paradigms of scientific research and their applicability to research in information technology. Topics include fundamental elements of scientific investigation, basic principles of experimental design and statistical induction, philosophy of science and its relation to the information technology sciences, and case studies of information technology research. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to SYST 763.

Recommended Prerequisite: STAT 554, OR 542, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 774: *Advanced Dynamic Programming.* 3 credits.
Covers advanced topics on the theory and practice of dynamic programming, i.e., optimal sequential decision making over time in the presence of uncertainties. Stresses the mathematical foundations and introduces the theory, computational aspect, and applications of approximate dynamic programming for large-scale stochastic problems. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: OR 674/SYST 674 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 782: *Advanced Topics in Combinatorial Optimizations.* 3 credits.
Studies problems using most recent developments. Topics include cutting plane procedures based on polyhedral combinatorics; column-generation procedures for large, complex problems; heuristic approaches such as genetic algorithms, simulated annealing, and tabu search; study of special structures; reformulation techniques; and bounding approaches. Topics stress most recent developments in field. Notes: May be repeated when topics are distinctly different. Offered by Systems Engr & Operations Rsch. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: OR 641 or OR 642.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 783: *Advanced Topics in Network Optimization.* 3 credits.
Recent developments in solving optimization problems on networks. Prepares doctoral students to perform advanced research on network-related problems. Topics include linear, discrete, nonlinear, and stochastic problems. Several aspects of problems also studied, including computational complexity, exact algorithms, heuristics, solvable special

cases, and computer implementation issues. Offered by Systems Engr & Operations Rsch. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: OR 643.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 784: *Advanced Topics in Nonlinear Programming.* 3 credits.
Studies theory and algorithms for solving nonlinear optimization problems. Contents vary; possible topics include large-scale and parallel-unconstrained optimization, theoretical issues in constrained optimization, duality theory, Lagrangian and sequential quadratic programming methods. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Specialized Designation: Topic Varies

Recommended Prerequisite: OR 644.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

OR 799: *Master's Thesis.* 1-6 credits.
Research project chosen and completed under the guidance of a graduate faculty member, which results in a technical report acceptable to a three-member faculty committee, and an oral defense. Offered by Systems Engr & Operations Rsch. May be repeated within the degree.

Recommended Prerequisite: 21 graduate credits and permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

OR 842: *Models of Probabilistic Reasoning.* 3 credits.
Survey of alternative views about how incomplete, inconclusive, and possibly unreliable evidence might be evaluated and combined. Discusses Bayesian, Baconian, Shafer-Dempster, and Fuzzy systems for probabilistic reasoning. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: STAT 544, OR 542, OR 681 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

OR 944: *The Process of Discovery and Its Enhancement in Engineering Applications.* 3 credits.
Studies ingredients of imaginative reasoning as it concerns efficient discovery of new ideas and valid evidential test of them. Topics include different interpretations of Peirce's theory of abductive reasoning and other forms of reasoning, Hintikka's analysis of process of inquiry, and current attempts to design systems that provide assistance in discovery-related or investigative activities. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to SYST 944.

Recommended Prerequisite: OR 842 or SYST 842 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Organization Development and Knowledge Management (ODKM)

700 Level Courses

ODKM 700: *Foundations of Organization Development and Knowledge Management.* 3 credits.
This introduction to organization development and to knowledge management will provide a historical review and a contemporary understanding of interventions in these fields of study with an intent to stimulate students to be creative and original in developing their own flagship approaches. Conventional approaches that have their roots in the industrial age will be explored alongside contemporary ones. The course will expose participants to scholarly and practitioner models inspired by a multicultural orientation that combines knowledge and

wisdom. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ODKM 705: *Group Dynamics and Team Learning.* 3 credits.
Engaging in unstructured and semi-structured learning environment, students will learn how to facilitate team learning for organizational effectiveness. By exploring various aspects of group dynamics such as power, perception, motivation, leadership, and decision making, students will develop various competencies to manage teams and enhance their emotional and appreciative intelligence. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ODKM 710: *Social and Organizational Inquiry.* 4 credits.
Introduces participants to the ethics, conduct and evaluation of research into human, social and organizational realities. Explores relationships between what and how we measure and what we find. Students develop the capacity to reflect on themselves as research instruments, on their own impact on the systems under study, and on the impact of the research assumptions, framing and approach both on the results obtained and on the future development of those systems. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ODKM 715: *Creating Learning Organizations.* 3 credits.
Focuses on the epistemological and ontological implications of organizational life in the twenty-first century. Reevaluates traditional management approaches in light of global economies, instantaneous communication, changing technologies, and diverse workgroups in knowledge economies. Special attention to developing skills for "double- and triple-loop learning," and reflection in professional lives through learning conversations, journals, narrative, autobiography, and imaginative literature. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ODKM 721: *Foundations of Coaching.* 3 credits.
Introduces participants to theories that underpin the relatively new field of coaching in organizations. Explores the history and development of the field and its usefulness in the practice of organizational development. Within the classroom, students engage in experiential skills building exercises to develop foundational coaching skills as described by the International Coach Federation. Outside of the classroom, students apply their coaching skills in specific contexts, engage in reflection, and learn to discern what situations are most conducive to a coaching approach and why. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment limited to students in a Master of Science degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ODKM 722: *Coaching and Organization Development.* 3 credits.
Engages students at the cutting edge of transformational organizational change, in both theory and practice, that is beginning to emerge through synergies between the disciplines of coaching and organization development. Building on earlier foundational courses in OD and coaching, students will learn to harness the insights and capabilities of both these domains to support positive transformation in complex systems at multiple levels of scale, from interpersonal to groups and teams, to larger systems including the whole organization. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment limited to students in a Master of Science degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ODKM 725: *Knowledge Management and Collaborative Work.* 3 credits.
Provides an in-depth look at knowledge management, introducing key models and frameworks for understanding and analyzing all aspects of the Knowledge Management cycle, from knowledge creation and knowledge capture to knowledge sharing, knowledge dissemination and knowledge utilization, emphasizing the collaborative aspect of knowledge work. A range of specific KM processes, methods and tools are discussed (lessons learned, best practices, After-Action-Reviews, storytelling) and some are also practiced in class (knowledge cafes, peer assist). Finally, the class covers the steps necessary to develop a KM strategy and real-world barriers and pitfalls to be aware of in order to lead a successful KM effort within any organization. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ODKM 730: *Special Topics.* 1-3 credits.
Selected special topics in organization development and knowledge management not covered by existing ODKM courses. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ODKM 731: *Consulting Skills for Organizational Change.* 3 credits.
Explores various theories and practices of change management, collaborative consulting, action research, and organization development. Using class projects and case studies, students bring together their understanding of organization development, their values, and their personal style to perform more effectively in various consulting roles. Students also learn various aspects of process consulting and client relationship management. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ODKM 732: *Leadership and Social Justice.* 4 credits.
This course challenges participants not just to theorize leadership and social justice but to inhabit them. Reflective understanding and practice span: inner journeys, interpersonal relationships, organizations, and large scale systems. With globalization, ethical leadership requires understanding diverse perspectives and complex systems. Outward leadership relies on inner leadership. Participants cultivate personal leadership philosophy and practice through engaging real-life challenges. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ODKM 735: *Organizational Development Practices.* 3 credits.
Students develop applied knowledge of various organizational development practices such as action research and appreciative inquiry. Includes simulations to understand the complexities of real-world change management. Group projects with selected organizations will help students develop their diagnostic and analytical skills to become better facilitators of organizational learning. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

ODKM 740: *Learning Community.* 1-3 credits.
Using workshops, seminars, simulations, and structured experiences, students will learn how to build a learning Community of Practice (CoP) as practitioners of organization development. They will also reflect upon the community building experience using research findings and design practice sessions to apply the lessons learned to the work environment. Offered by Schar School of Policy & Govt. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Candidates for the M.S. in ODKM degree only.

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

Parks, Recreation, and Leisure Studies (PRLS)

200 Level Courses

PRLS 200: *Wilderness First Responder.* 2 credits.
Examines the role of outdoor professionals in wilderness medicine and the response, care and rescue of outdoor participants in non-urban outdoor environments. Uses the Patient Assessment System (PAS) to assess backcountry patients in an intensive experiential course which addresses the issues of medico legal concerns, blood borne pathogens and infectious diseases. Offered by School of Sport/Rec/Tour Mgmt. May be repeated within the degree for a maximum 8 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 210: *Introduction to Recreation and Leisure.* 3 credits.
Traces the development of current concepts of recreation and leisure and their implications and consequences. Covers influences of philosophy, religion, science, economics, sociology, and politics on discretionary time and its uses. Notes: Open to nonmajors. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 220: *Experiential Education Theory and Application.* 3 credits.
Provides a broad theoretical, as well as practical, background in teaching and learning experientially. Concepts presented, experienced, and discussed include the basic premises of experiential learning according to a wide variety of educators and philosophers. The content and experience applies to recreation, education, development, and therapeutic settings. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 221: *Challenge Course Facilitation.* 3 credits.
Provides the fundamental principles and techniques of challenge course facilitation. Classroom learning is combined with an experiential setting through leading youth groups in the field. Students are provided with an introduction to safety, skills, and facilitation techniques for low and high elements of outdoor challenge courses. Offered by School of Sport/Rec/Tour Mgmt. May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: CPR Certification and PRLS 220.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 241: *Practicum.* 3 credits.
Paid or voluntary work experience in a park and recreation agency. Minimum period of 10 to 12 weeks of part-time employment or experience. Capstone course for minors, allowing for integration and application of course work, theories, and research to a work setting. Work sites chosen among four approved sites. Includes meetings and assignments prior to and during the practicum. Notes: Open to departmental majors and minors only. Serves as a capstone for minors who have completed PRLS 310, 316, and 327. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PRLS 210[D], 210[XS], 210[XP], 220[D], 316[D], 316[XS] or 316[XP].
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

PRLS 250: *Wilderness Travel and Sustainability.* 2 credits.
This experiential course is designed for students with prior backpacking experience. Involves discussions, demonstrations, and activities that teach students wilderness skills, safety and judgment, leadership and teamwork, and environmental ethics. Topics covered include basic wilderness first-aid, hazard evaluation, emergency procedures, expedition behavior, self awareness, judgment and decision making, campsite selection, shelter and stove use, fire building, sanitation and hygiene, cooking, nutrition and rationing, equipment care and selection, staying warm and dry, route finding and navigation, Leave No Trace backpacking, weather, natural history, and wilderness ethics. Application of these skills will occur during the 14-day offtrail backpacking trip in a remote wilderness area. Not only will students practice these wilderness skills, but they will also develop leadership abilities by working in a collaborative team environment. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Specialized Designation: Green Leaf Focused Course

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 290: *Aquatic Operation and Management.* 3 credits.
Covers industry standards for water quality and aquatic facility management. Includes recognizing, measuring, and preventing biological and physical hazards. Meets requirements for certification as a Certified Pool/Spa Operator through the National Swimming Pool Foundation as well as certification in CPR through the American Red Cross. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

PRLS 300: *People with Nature.* 3 credits.
Traces philosophical evolution of perceptions of and attitudes toward nature. Examines role of philosophers, scientists, nature-writers, and artists in the shaping of environmental thought. Includes extensive reading of Emerson, Thoreau, Muir, Leopold, Carson, Wilson, and others. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Specialized Designation: Green Leaf Focused Course

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 302: *Park Management and Operations.* 3 credits.
Focuses on management and operations of park resources, including the management of visitors and recreation development. Emphasizes understanding of contemporary threats to park integrity and preservation of resources. Also covers maintenance management systems. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: PRLS 300

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 310: *Program Planning and Evaluation.* 3 credits.
Introduces fundamental principles and techniques of the planning process for sport, recreation and tourism programs, including assessment of needs and goals, objectives, and mission statement; generating solutions; planning programs for implementation and evaluation. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PRLS 210[D], 210[XS], 210[XP], SPMT 201[D], 201[XS], 201[XP], SRST 200[D], 200[XS], 200[XP], TOUR 200[D], 200[XS] or 200[XP].
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 316: *Leadership and Outdoor Education.* 3 credits.
Focuses on promotion of lifelong health and fitness via noncompetitive and informal outdoor activities. Introduces safety, skills, and leadership techniques. Covers sustainable use, conservation, and stewardship of natural resources. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 317: *Social Psychology of Play and Recreation.* 3 credits.
Applies social psychological theories and research to the study of leisure, play, and recreation behavior, including correlates, antecedents, and consequences of and constraints to these concepts. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PRLS 210[D], 210[XS], 210[XP], SRST 200[D], 200[XS] or 200[XP].
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 323: *Program Leadership and Evaluation.* 3 credits.
Covers leadership and evaluation of health, fitness, and recreation programs. Uses computer technology to study evaluative aspects of program planning and administration. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PRLS 310[D], 310[XS] or 310[XP].
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 327: *Foundations of Therapeutic Recreation.* 3 credits.
An introduction to the processes and techniques of therapeutic recreation to meet the unique needs of people with disabilities. This course examines the history, concepts, theories, and foundations of therapeutic recreation. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 362: *Cultural and Environmental Interpretation.* 3 credits.
Focuses on communication processes and practices used to explain and interpret special characteristics of cultural and environmental resource sites for visitors. Conceptual principles for planning interpretive programs and multi-media delivery techniques are discussed. Methods for programming interpretive services, addressing multi-audience accessibility, and administration and evaluation of interpretive services used at recreation and tourism sites are also examined.. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts. Equivalent to TOUR 362.

Recommended Prerequisite: PRLS 300.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

PRLS 402: *Human Behavior in Natural Environments.* 3 credits.
Applies social and behavioral theories to management for recreational users of land and water resources. Examines deterioration and pollution of land and water, noise, crowding, and conflicts among users. Discusses strategies for mitigation of deleterious impacts and depreciative behaviors, and attitudes toward resource conservation, preservation, and use. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Specialized Designation: Green Leaf Focused Course

Registration Restrictions:
Required Prerequisites: PRLS 300[C] or 300[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 405: *Planning and Operation of Recreation Facilities.* 3 credits.
Covers quantity, location, and design standards for facilities. Includes safety, functionality, durability, and maintenance demand criteria in planning and design; programmatic and operational objectives to be met, including user comfort and convenience, crowd management, and traffic flow, and space relationships. Includes field study of local facilities. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: 60 credits

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 410: *Administration of SRT Organizations I.* 3 credits.
Focuses on operation and management of sport, recreation and tourism organizations. Covers management and leadership theories and techniques, problem-solving and decision making, organizational communications, design of organizational structures and budgeting. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: 60 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 411: *Administration of SRT Organizations II.* 3 credits.
Focuses on program and organizational marketing principles and strategies; service quality assessment and organizational evaluation techniques; and organizational financing for the experience industry. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PRLS 410[C] or 410[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 416: *Trends and Programming Assessment in Therapeutic Recreation.* 3 credits.
Explores the role of leisure in human development with a specific focus on needs, demands, and services for people with disabilities and illness. Presents concepts associated with leisure, aging, physical challenge, targeting leisure services, research, and public policy. Notes: Field experience required. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PRLS 327[D], 327[XS] or 327[XP].
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 417: *Processes, Techniques and Supervision in Therapeutic Recreation.* 3 credits.
Exploration of processes and techniques used in Therapeutic Recreation, with a focus on the nature and diversity of recreation and leisure activities, modalities and interventions, facilitation techniques and approaches, leadership roles and tasks, communication skills, clinical supervision, health and safety considerations, and the impact of the impairment and/or treatment on the individual. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PRLS 327[C] or 327[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 418: *Assessment in Therapeutic Recreation.* 3 credits.
Presents methods of assessment, development of treatment program plans, and evaluation of all components. Extends program design by developing competencies in the planning approaches, individual and group assessment techniques, program evaluation, and documentation strategies for people with disabilities and illness. Notes: Field experience required. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PRLS 327[D], 327[XS] or 327[XP].
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 460: *Sport and Recreation Law.* 3 credits.
Emphasizes safety, liability, and risk. Covers current law and liability issues for administrators of RHT facilities and programs. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: 60 credits

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 480: *Special Topics in Recreation Management.* 1-3 credits.
Selected topics reflecting interest in specialized areas of parks and outdoor recreation or therapeutic recreation. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Specialized Designation: Topic Varies

Recommended Prerequisite: 60 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PRLS 490: *Recreation Management Internship.* 12 credits.
Consecutive weeks in an agency for a minimum 10-15 weeks of 30-40 hours weekly (400 total hours-parks and outdoor recreation) and (560 total hours-therapeutic recreation supervised by a Certified Therapeutic Recreation Specialist). Applies course work, theories, and research to an agency site chosen by the student after approval by Internship Coordinator. Includes meetings and assignments before and during internship. Note: Mandatory internship meeting attendance required before registration and CPR and AED certification required by start of class. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Mason Core: Capstone

Registration Restrictions:
Required Prerequisites: (PRLS 210[D], 210[XS] or 210[XP]) and (PRLS 310[C] or 310[XS]) and (PRLS 323[C] or 323[XS]) and (PRLS 316[C] or 316[XS]) and (PRLS 410[C] or 410[XS]) and (SRST 200[D], 200[XS] or 200[XP]) and (PRLS 323[C] or 323[XS]) and (PRLS 241[D], 241[XS] or 241[XP]) and (PRLS 317[C] or 317[XS]).
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.
[C] Requires minimum grade of C.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a concentration in Parks and Outdoor Recreation or Therapeutic Recreation.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

PRLS 499: *Independent Study.* 1-3 credits.
Individual study of topic area in leisure research, theory, or practice under direction of faculty. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: 90 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Health Education, Health, Fitness Rec Resrcs, Individualized Study, Nursing, Physical Education (Special), Physical Education or Parks, Rec, Leisure Studies.

Washington Consortium level students may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

PRLS 501: *Introduction to Natural Resources Law.* 3 credits.
Selected legal issues involving conflicting use and preservation demands on our nation's limited natural resource base, particularly those involving public lands, open space, and recreation resources. Uses case studies of recent court decisions. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: PRLS 460.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PRLS 503: *Administration and Disability Rights in Therapeutic Recreation.* 3 credits.
Overview of major law and policy issues related to therapeutic recreation services for people with disabilities. Primary focus is on the Americans with Disabilities Act and related federal legislation. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Recommended Prerequisite: PRLS 460.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PRLS 526: *Environmental Education and Resource Interpretation.* 3 credits.
Provides methods for communicating and disseminating information pertaining to the use of natural recreation resources. Covers design and implementation of educational materials and programs to enhance understanding and appreciation of cultural, historical, and natural

resources. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PRLS 531: *Natural Resources Recreation Planning.* 3 credits.
Origins and evolution of recreation use philosophy, policies, and service of public estate management. Examines planning for a spectrum of opportunities, from wilderness to developed sites, with attention to financial consideration and sustainable use of cultural and visual resources. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Specialized Designation: Green Leaf Focused Course

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PRLS 533: *Visitor Services.* 3 credits.
Examines motivation of resource-based recreation participants. Covers visitors' expectations and perceptions, with emphasis on implication for service quality, staff training, and other management responsibilities. Discusses use and user conflicts and placement, information and interpretive service, and human and other interpretive service resources. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PRLS 535: *Evaluating Recreation Outcomes.* 3 credits.
Covers application of quantitative and qualitative research methods to the evaluation of programs provided to visitors and users of public lands for outdoor recreation. Focuses on needs assessment and application of meaningful measures for formative and summative evaluations. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PRLS 598: *Special Topics.* 1-6 credits.
Projects related to parks, recreation, and leisure studies. Offered by School of Sport/Rec/Tour Mgmt. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

PRLS 601: *History of Leisure and Sport in American Society.* 3 credits.
Examines leisure and sport in American society from the early colonial period to the present day. Investigates the pattern of leisure and sport as America moved from a largely agrarian to a highly industrialized nation. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PRLS 610: *Recreation Administration and Planning.* 3 credits.
Examines recreational administration concepts regarding organizational structure and operations, personnel management, financing, policy development, and public relations procedures. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PRLS 611: *Social Psychology of Leisure.* 3 credits.
Addresses historical, theoretical, and empirical foundations of social psychological constructs relative to social behavior in park, recreation, sport, and tourism settings. Focuses on attitudinal, social, and motivational theories as applied to leisure-related contexts. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PRLS 612: *Philosophy of Leisure and Sport.* 3 credits.
Investigates the phenomenon of leisure and sport from a philosophical perspective. Utilizes the philosophical approach to better explain the role that leisure and sport play in American society. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PRLS 613: *Strategic Leadership in Recreation Administration.* 3 credits.
Focuses on strategic leadership in recreation administration necessitated by demographic, social, political, and legal challenges; addresses organizational culture, positive leadership, innovation, partnerships, data-driven decision making, and accountability. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PRLS 614: *Legal Issues in Recreation Administration.* 3 credits.
Surveys current legal issues relevant to Recreation Administration, including, but not limited to, tort law, civil rights law, employment law, constitutional law, and copyright law. This course uses case studies of recent court decisions. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PRLS 670: *Environmental Law.* 3 credits.
Focuses on interpretation of environmental laws and regulatory issues. Emphasizes critical evaluation of alternatives to unresolved issues in environmental policies involving endangered species, hazardous waste, and toxic substances. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Persian (PERS)

100 Level Courses

PERS 110: *Elementary Persian.* 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Offered by Modern & Classical Languages. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Persian

200 Level Courses

PERS 201: *Intermediate Persian I.* 3 credits.
Further development of skills in listening, speaking, and writing. Notes: PERS 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: PERS 110, or permission of department.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Persian

PERS 202: *Intermediate Persian II.* 3 credits.
Further development of skills in listening, speaking, and writing. Notes: PERS 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: PERS 201, or permission of department

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Fulfills Frgn Lng requirment, Taught in Persian

300 Level Courses

PERS 330: *Advanced Persian I.* 3 credits.
Development of cultural and linguistic competency in written and spoken Persian at the low advanced level, with attention to reading, writing, listening and speaking, grammar and vocabulary pertaining to Persian social, political and cultural issues. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: PERS 202 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Persian

PERS 331: *Advanced Persian II.* 3 credits.
Development of cultural and linguistic competency in written and spoken Persian at the advanced level, with attention to reading, writing, listening and speaking, grammar and vocabulary pertaining to Persian social, political, and cultural issues. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: PERS 330, equivalent, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Persian

Philosophy (PHIL)

100 Level Courses

PHIL 100: *Introduction to Philosophy.* 3 credits.
Introduction to the nature of philosophical reasoning and some of the main problems of philosophy. Offered by Philosophy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 112: *Ethics and the Cybersociety.* 1 credit.
Examines ethical issues associated with new developments in information technology, including privacy rights, intellectual property rights, and the effect of information technology on society. Offered by Philosophy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 151: *Introduction to Ethics.* 3 credits.
Considers some perennial issues in ethical theory. Offered by Philosophy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 156: *What Is Art?.* 3 credits.
Introduction to philosophical reflection on the arts by looking at the critical issues in the history of aesthetics. Applies considerations to specific works and explores these works in terms of their historical contexts and influences. Concentrates on one form of art or one period and always emphasizes questions of critical evaluation and art historical analysis. Offered by Philosophy. Limited to three attempts.

Mason Core: Arts

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 173: *Logic and Critical Thinking.* 3 credits.
Basic concepts and techniques of deduction, emphasizing the modern treatment of such topics as quantification and rules of inference, with study of the classical treatment. Basic principles of induction, informal fallacies, and uses of logic in everyday life. Offered by Philosophy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

PHIL 243: *Global Environmental Ethics.* 3 credits.
Examines the global dimensions of environmental problems. Although environmental problems are global in reach, because different societies make different philosophical and ethical assumptions, they are

understood in different ways. Examines several environmental problems, including climate change, population growth, and resource depletion, from a variety of scientific, policy, and cross-cultural perspectives. Offered by Philosophy. Limited to three attempts.

Mason Core: Global Understanding, Encore: Sustainability, Encore: Well-Being

Specialized Designation: Green Leaf Related Course, Mason Impact.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 251: *Happiness and the Good Life.* 3 credits.
Addresses the question "How do I live a happy life?" by drawing on 2,500 years of philosophy as well as the much more recent science of happiness. Encourages students to develop and live their own answer in light of some of the best available science and philosophy. Offered by Philosophy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 253: *Philosophy and Literature.* 3 credits.
Examines differences and relations between literary and philosophical texts. Examines texts from a given period in the history of literature and philosophy. Topics include the presence of common issues in literary and philosophical writings, the influence of philosophical ideas on the production of literary texts and literary theory, and the development in literary texts of issues that are possible objects of philosophical inquiry. Offered by Philosophy. Limited to three attempts.

Mason Core: Literature

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 271: *How Science Works.* 3 credits.
Introduction to the philosophy of science that examines a range of questions about what science is, how it works, and how it manages to be as successful as it is. Explores the goals, methods, principles and practices that characterize scientific enquiry. Surveys major milestones in the philosophy of science, and addresses such questions as: How are scientific claims justified? What constitutes a good explanation? How do we know if our scientific theories are true? How does scientific understanding change over time? What roles do social, political, and cultural factors play in the generation of scientific knowledge? Offered by Philosophy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

PHIL 301: *History of Western Philosophy: Ancient.* 3 credits.
Classical Greek philosophy, including pre-Socratics, Socrates, Plato, and Aristotle. Offered by Philosophy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 303: *History of Western Philosophy: Modern.* 3 credits.
Figures and problems of modern philosophy. Study of philosophers such as Descartes, Locke, Berkeley, Hume, Kant, and Hegel. Offered by Philosophy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 305: *Business Ethics.* 3 credits.
Examines some moral problems that arise with regard to the responsibilities of various segments of the business community, including employers, management, stockholders; to one another; to the consumer; and to society at large. Offered by Philosophy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 306: *Philosophy Internship.* 3-6 credits.
Gives students the opportunity to apply philosophical skills in real-world settings. Internships arranged and supervised by faculty in the Department of Philosophy. Offered by Philosophy. May be repeated within the degree for a maximum 6 credits.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 309: *Bioethics.* 3 credits.
Examines some major moral issues involved in practice and research in medicine and health care. Topics to be chosen from medical experimentation, definition of death, physician-assisted dying, genetics and human reproduction, distribution of scarce resources, fertility, and organ transplants. Offered by Philosophy. Limited to three attempts.

Mason Core: Synthesis

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 311: *Philosophy of Law.* 3 credits.
Investigation of theories of natural law, legal positivism, and legal realism as they pertain to some of the central philosophical questions about law. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: 3 hours of PHIL or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 323: *Classical Western Political Theory.* 3 credits.
Exploration through lecture and discussion of developments in the Western tradition of political thought from the time of the Greek city-state

to late medieval Christendom, focusing on such topics as the nature and purpose of politics, the relationship between the individual and the state, the political significance of religion and tradition, and the concept of natural law. Offered by Philosophy. Limited to three attempts. Equivalent to GOVT 323.

Recommended Prerequisite: GOVT 101 or three credits of Philosophy.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 324: *Modern Western Political Theory.* 3 credits.
Exploration through lecture and discussion of developments in the Western tradition of political thought from the Renaissance to the middle of the 19th century, focusing on such topics as the rise of individualism in political theory, early developments in social contact theory, theories of radical popular sovereignty, and early criticisms of liberal theory. Offered by Philosophy. Limited to three attempts. Equivalent to GOVT 324.

Recommended Prerequisite: GOVT 101 or three credits of philosophy.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 325: *Karl Marx's Social and Political Thought.* 3 credits.
Study and evaluation of Marx's social and political ideas based on writings selected from several phases of his career. Examination of relation of Marx's thought to post-Marxian socialist theory and practice. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: 3 credits of philosophy, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 327: *Contemporary Western Political Theory.* 3 credits.
Exploration through lecture and discussion of recent developments in the Western tradition of political thought from the middle of the 19th century to today. Different sections focus on one or another of the various political theories that have been influential during this period such as liberal, libertarian, conservative, communitarian, Marxist, feminist, and postmodern thought. Notes: May be repeated for credit when topic is different. Offered by Philosophy. May be repeated within the term for a maximum 12 credits. Equivalent to GOVT 327.

Recommended Prerequisite: GOVT 101 or three credits of philosophy.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 329: *Philosophy after Auschwitz.* 3 credits.
Examines the philosophical questions that arise in the wake of the Nazi concentration camps concerning genocide, political modernity, and conceptions of the human. Investigates how the logic of the camp made possible systematic genocidal violence against the Jews and other groups, and the ways in which that logic manifests in other forms and on other bodies before and after Auschwitz. Draws on writers and philosophers such as Primo Levi, Giorgio Agamben, Hannah Arendt, Maurice Blanchot, and/or Adriana Cavarero to analyze the ethical and political questions posed by the camps, and uses literature, film and art to engage with the complexities of bearing witness to horror and the unrepresentable. Offered by Philosophy. Limited to three attempts.

Specialized Designation: Mason Impact., Topic Varies

Recommended Prerequisite: 3 hours of PHIL or Permission of Instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 332: *Issues in Analytic Philosophy.* 3 credits.
Explores figures, movements, and topics in analytic philosophy from its early days to the present. Examines attempts of philosophers working in the tradition of formal logic and empiricism to solve philosophical problems by an analysis of language. Possible figures and movements covered will include Frege, Russell, Moore, Carnap, Wittgenstein, Anscombe, Quine, Lewis, Kripke, logical positivism, and ordinary language philosophy. Possible topics include recent metaphysics and philosophy of language. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: 3 credits of logic and PHIL 303, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 333: *American Philosophy: Pragmatism.* 3 credits.
Examines the philosophical movement of American Pragmatism, with emphasis on its origin in the late nineteenth century. Figures covered include Peirce, James, Dewey, and Mead. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: 3 credits of philosophy, or permission of the instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 335: *Nineteenth-Century Philosophy.* 3 credits.
Development of German Romanticism and Idealism during a brilliant period in the history of the West rivaled only by ancient Greece. Kant, Fichte, Hegel, Kierkegaard, Schopenhauer, and Nietzsche mount a revolt against the rationalism and scientism of the modern world. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: 3 hours of PHIL or Permission of Instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 336: *Twentieth-Century Continental Thought: Existentialism.* 3 credits.
Examination of existential philosophy from its 19th-century origins to its 20th-century expressions. Philosophers studied include Kierkegaard, Nietzsche, Sartre, De Beauvoir, and Buber. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: 3 hours of PHIL or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 337: *Twentieth-Century Continental Thought: Phenomenology.* 3 credits.
Examines the phenomenological way of doing philosophy, its findings in regard to the "life-world," questions of "first philosophy," and the subject matter of the social sciences, as well as critical difficulties in its development. Texts by Husserl, Heidegger, Merleau-Ponty, Sartre, Schutz, and Derrida. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: 3 credits of philosophy, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 338: *Philosophy, Race, and Gender.* 3 credits.
Examines how concepts of gender, sexual difference, and race structure key philosophical ideas and put such ideas into question. Analyzes the ways in which patriarchal, colonial and racialized structures intersect to produce concepts of the human, the subject, and the 'Other'. Explores alternative approaches to subjectivity, sexuality, the body, and knowledge drawn from feminist philosophy, queer theory, and philosophies of race and decoloniality. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: 3 hours of PHIL or Permission of Instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 339: *Recent Continental Philosophy.* 3 credits.
Examines themes in continental philosophy from the late twentieth century to the present day. Particular themes will be explored through a variety of thinkers, such as Agamben, Cavarero, Deleuze, Derrida, Foucault, Irigaray, Kristeva, Lyotard, Nancy, Ranciere, or Stiegler, and approaches, such as postmodernist, poststructuralist, decolonial, or feminist. Possible themes will include temporality, alterity, language, history or technology. Offered by Philosophy. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 3 hours of PHIL or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 340: *Hermeneutic Philosophy.* 3 credits.
Study of the development of hermeneutic philosophy in works by Heidegger, Gadamer, and Ricoeur, as an effort toward coming to terms with the historicity of human experience. Implications for interpretive understanding of artworks, institutions, events, texts, and the human condition. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: 3 hours of PHIL or Permission of Instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 343: *Topics in Environmental Philosophy.* 3 credits.
An in-depth examination of selected environmental issues from a philosophical perspective. Such issues might include the value of nature, the moral status of animals, duties to protect wilderness areas, economics and environmental protection, environmental justice, and environmental aesthetics. Offered by Philosophy. Limited to three attempts.

Mason Core: Encore: Sustainability, Synthesis

Specialized Designation: Green Leaf Related Course, Mason Impact., Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 344: *Ethical Issues in Global Health.* 3 credits.
This course will consider ethical questions that arise in global health policy, practice and research. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: Sophomore standing or higher.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 353: *Theories of Justice.* 3 credits.
A critical analysis of classical and contemporary theories of justice, with discussion of present-day applications, that develops an understanding of how philosophers approach questions related to justice, how they reach conclusions about justice within and outside of formal institutions, and how they argue for them. Examines questions about justice as a basic virtue of legal, political, and social institutions and invites students to critically examine their own views on controversies related to such issues as the distribution of economic resources, oppression, criminal justice reform, freedom, conflict, equality, democracy, and rights. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: Three credits of philosophy or permission of the instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 355: *Theories of Ethics.* 3 credits.
A critical examination of a variety of different types of classical, modern, and contemporary ethical theories, including consequentialist theories, deontological theories, and virtue theories. Offered by Philosophy. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 3 credits in PHIL or permission of instructor.

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

PHIL 356: *Philosophy of Art.* 3 credits.
Basic problems that arise from an inquiry into meaning and value of art and our response to art. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: 3 hours of PHIL or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 357: *Philosophy of the Social Sciences.* 3 credits.
Philosophical issues relating to competing methodologies for the social sciences. Analysis and critique of mainstream positivism and behaviorism; paradigm theory and scientific revolutions; interpretive understanding and hermeneutical science; phenomenology and the social construction of reality; ethnomethodology and situational meaning; analytic philosophy and action theory; the "idea" of a social science; sociology of knowledge and theory of ideology; and Western Marxism and critical theory. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: 3 credits of philosophy, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 358: *Ethics and Economics.* 3 credits.
Examines issues at the intersection of ethics and economics. Looks at the different ways in which ethics and economics impact each other. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: 3 credits in philosophy or permission of the instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 371: *Philosophy of Natural Sciences.* 3 credits.
One semester of logic recommended. Study of aims and methodology of science. Among the questions of concern are: What constitutes a good scientific explanation? What grounds are used for comparing rival theories? Is there a special method of scientific discovery? Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: 3 hours of philosophy or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 373: *Theory of Knowledge.* 3 credits.
Discussion of basic problems concerning the nature of knowledge, with study of the relation of knowledge to perception, belief, and language. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: 3 hours of philosophy or Permission of Instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 374: *Philosophy of Mind.* 3 credits.
Investigation of such theories as dualism, behaviorism, and materialism as they pertain to some of the central philosophical questions about mind. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: 3 credits of philosophy, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 376: *Symbolic Logic.* 3 credits.
Study of predicate calculi by means of a step-by-step construction of artificial languages. Topics include procedures for constructing a calculus, proof techniques, significant properties of predicate calculi, and procedures for recognizing phrases. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: PHIL 173 or MATH 110 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 377: *Darwin: Biology and Beyond.* 3 credits.
Introduction to and philosophical examination of the theory of evolution in its historical perspective. Examines Darwin's theory of evolution as a scientific theory, connects it to its context in the history of science, and surveys its wider cultural impact. In particular, examines implications of the theory of evolution for religion and morality. Offered by Philosophy. Limited to three attempts.

Mason Core: Synthesis

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 379: *Perspectives on Time.* 3 credits.
Examines the variety of ways time is conceptualized in different disciplines. Influential conceptions of time from the history of philosophy are studied in order to provide a comparative framework within which to consider specialist conceptions of time drawn from the sciences and humanities, including relativistic time, geological deep time, life cycles, and time in historical narrative. Offered by Philosophy. Limited to three attempts.

Mason Core: Synthesis

Recommended Prerequisite: 3 credits of philosophy, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 391: *Special Topics in Philosophy.* 1-3 credits.
Examines topics of current interest such as death and dying, rights of children, and philosophical controversies in modern physics. Notes: May be repeated for credit when topic is different. Offered by Philosophy. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 393: *Humanities College to Career.* 1 credit.
Focuses on career choices and effective self-presentation for soon-to-be graduating students with majors in the humanities. Explores how skills typically learned In humanities majors can be leveraged for a successful transition to post-graduation employment. Offered by Philosophy. Limited to three attempts. Equivalent to ENGH 303, FRLN 309, HIST 385, UNIV 420.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 398: *Study Abroad.* 3 credits.
Study abroad under supervision of Mason faculty. Course topics, content and locations vary. Notes: A maximum of 6 credits may be applied to the BA in philosophy. Offered by Philosophy. May be repeated within the degree for a maximum 12 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

PHIL 411: *Theories of Decision.* 3 credits.
Examines from a philosophical perspective descriptive and normative theories of individual decision, with particular focus on the strengths and weaknesses of theories of rational choice, and attempts to incorporate insights from psychology into theories of decision. Explores theoretical developments and a variety of applications. Offered by Philosophy. Limited to three attempts.

Recommended Prerequisite: Two previous courses in either Philosophy, Psychology, or Economics.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 421: *Seminar.* 3 credits.
Explores topics in current philosophical research in a seminar format. Topics vary. Notes: May be repeated for credit when topic is different. Offered by Philosophy. May be repeated within the degree for a maximum 18 credits.

Mason Core: Capstone

Specialized Designation: Mason Impact., Writing Intensive in Major

Recommended Prerequisite: Nine credits in philosophy.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 422: *Honors Seminar.* 3 credits.
Seminar for students enrolled in the honors program in philosophy. Notes: May be repeated for credit when topic is different. Offered by Philosophy. May be repeated within the term for a maximum 18 credits.

Mason Core: Capstone

Specialized Designation: Mason Impact., Writing Intensive in Major

Recommended Prerequisite: 9 credits in philosophy and acceptance to the honors program in philosophy.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 425: *Independent Study.* 1-3 credits.
Independent study under supervision of faculty member. Students and faculty agree on program of study to include at least a reading list and final written project. Students must arrange for independent study in the semester before they wish to enroll. Requires approval of department. Offered by Philosophy. May be repeated within the term for a maximum 12 credits.

Recommended Prerequisite: Sixty credits, including 15 credits in Philosophy and permission of the department.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 429: *Advanced Topics in Social and Political Philosophy.* 3 credits.
Examines key social and political issues drawing on a range of philosophical thinkers, texts and approaches. Possible topics include: migration and immigration, biopolitics, climate change, health inequity, decision theory, democracy and citizenship, slavery and reparations, mass incarceration, or human rights. Emphasizes the ability to put philosophical concepts and theories to work to address questions and problems of social, political or global significance. Offered by Philosophy. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: PHIL/GOVT 323, or PHIL/GOVT 324, or PHIL/GOVT 327, or permission of the instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHIL 460: *Senior Seminar in Philosophy, Politics, and Economics.* 3 credits.
Covers issues in the philosophy, economics, and political science of institutions, information, and collective action. Through case studies of existing legal and political institutions, applies the insights to problems in politics, policy making, social-choice theory, and social, moral, and

political philosophy. (Specific content varies). Notes: Serves as the capstone course for the PPE program. Offered by Philosophy. Limited to three attempts. Equivalent to ECON 460, GOVT 469.

Recommended Prerequisite: PHIL 358 and ECON 412 or permission of instructor.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

600 Level Courses

PHIL 600: *Proseminar in Philosophy.* 1 credit.
Introduces MA students to the areas and methods of philosophical scholarship. Notes: Graduate students outside of the philosophy program may take this course with permission of the department. Offered by Philosophy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment limited to students in the LA-MA-PHIL program.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

PHIL 603: *Aristotle: Selected Works.* 3 credits.
Close study of Aristotle's work and its place and future in history of philosophy. Topics vary by semester and include Aristotle's metaphysics, natural sciences, ethics, political thought, logic, epistemology, and psychology. Notes: May be repeated for credit when topic is different. Offered by Philosophy. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PHIL 608: *Hegel's Phenomenology of the Spirit.* 3 credits.
A study of the philosophy of Hegel through a reading of the text that presents an introduction to his system. Special attention is paid to Hegel's background in the work of Kant and the German Idealists. Offered by Philosophy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHIL 615: *Postmodernist Thought.* 3 credits.
In recent decades, the term "postmodern," first used by art critics in the late 19th century, has been taken up by prominent contributors to the arts, social thinkers, and philosophers, to describe developments as well as the current period. Examines three thematic concerns found in work that is identified with postmodern issues: what modernity defines itself in contrast to or against, the status of "man," and status of "subjectivity." Offered by Philosophy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHIL 616: *Phenomenology.* 3 credits.
This major approach in philosophy is studied in regard to its basic features, the tasks to which it has been set by major contributors, certain findings of phenomenology in practice, as well as crucial problems that develop as phenomenology proceeds and how they are addressed by phenomenologists. Offered by Philosophy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHIL 617: *Movements and Issues in the History of Political Philosophy.* 3 credits.
Explores themes, movements, and periods in the history of political theory. Notes: May be repeated for credit when topic is different. Offered by Philosophy. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHIL 640: *History of Ethical Theory.* 3 credits.
Examines history of Western ethical theory from ancient Greece to the present day, including virtue theory, consequentialism, deontological theory and contemporary feminism. Offered by Philosophy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHIL 642: *Biomedical Ethics.* 3 credits.
Explores the application of ethical theories and principles to issues in contemporary health care. Cases central to the development of the field will be examined. Offered by Philosophy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHIL 643: *Environmental Ethics.* 3 credits.
An examination of human interactions with the natural environment from an ethical perspective. Emphasis will be placed on the strengths and weaknesses of various ethical theories and the different conceptions of the proper relationship between humans and their environment. Offered by Philosophy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHIL 644: *Business and Organizational Ethics.* 3 credits.
Examines the application of ethics in business and organizational settings, and the necessity for ethical development wihin organizational culture. Offered by Philosophy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PHIL 645: *Research Ethics.* 3 credits.
Examines how ethical theories, concepts, and principles shape research guidelines. Students learn to identify ethical issues in research, to reflect on them critically, and to respond effectively. Designed for students in the humanities, social sciences, life sciences, and health sciences. Offered by Philosophy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PHIL 654: *Critical Philosophies of Race.* 3 credits.
Explores the nature of race by investigating the development of the concept of race and the implications of its use. Inquires into philosophical questions raised by race and racism; intersections of race with class, nationality, and gender; the role of philosophy in forming modern notions of race and the potential role of philosophy in addressing them with an eye to making our ways of thinking more just. Offered by Philosophy. May not be repeated for credit.

Recommended Prerequisite: Admission to graduate program in philosophy or related discipline, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHIL 658: *Feminist Theory.* 3 credits.
Analysis of the critique of patriarchy offered by contemporary continental feminist philosophers. Examines contemporary moral, political, and epistemological issues in feminist theory. Offered by Philosophy. May not be repeated for credit.

Recommended Prerequisite: Admission to graduate program or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHIL 681: *Figures and Topics in Ancient Philosophy.* 3 credits.
Examines major philosophical authors, texts, and topics of the ancient period and their influence on philosophical thought. May cover Plato, Aristotle, or the pre-Socratic philosophers. Notes: May be repeated for credit when topic is different. Offered by Philosophy. May be repeated within the degree for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PHIL 682: *Figures and Topics in Early Modern Philosophy.* 3 credits.
Examines major philosophical authors, texts, and topics of the early modern period and their influence on philosophical thought. Notes: May be repeated for credit when topic is different. Offered by Philosophy. May be repeated within the degree for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PHIL 683: *Contemporary Philosophical Figures.* 3 credits.
Examines major recent philosophical authors, texts, and topics, and their influence on philosophical thought. Notes: May be repeated for credit when topic is different. Offered by Philosophy. May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PHIL 693: *Directed Readings in Philosophy.* 3 credits.
Directed readings and research on a specific topic in philosophy chosen by student and instructor. Offered by Philosophy. May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

PHIL 694: *Special Topics in Contemporary Philosophy.* 3 credits.
Topics vary. Notes: May be repeated for credit when topic is different. Offered by Philosophy. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

PHIL 720: *Nietzsche and his Readers.* 3 credits.
Reading of major texts of Nietzsche and some of his most influential interpreters and critics. Offered by Philosophy. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PHIL 721: *Advanced Seminar in Philosophy.* 3 credits.
Close study of selected topics in current philosophical discourse. Notes: May be repeated for credit when topic is different. Offered by Philosophy. May be repeated within the term.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PHIL 799: *Thesis.* 1-6 credits.
Develop research and write an original thesis under the direction of their thesis director. Offered by Philosophy. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Completion of 24 credits, approval of thesis proposal, and permission of instructor (thesis director).

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

Physical Education (PHED)

200 Level Courses

PHED 202: *Teaching Skillful Movement.* 3 credits.
Provides students with the fundamentals of lesson planning, class management and analysis of teaching in physical education. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHED 218: *Technology in Health and Physical Education.* 3 credits.
Introduces technological tools to support K-12 health and physical education instruction in school and online settings. Explores tools such as wearable technology, mobile apps, learning management systems used in the schools, and social media. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHED 273: *Net and Target Games.* 3 credits.
Teaches skill, content knowledge and historical perspectives of net and target games. Includes skill progression, strategies, officiating, and authentic assessment in games such as volleyball, golf, tennis, and badminton. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHED 274: *Dance and Educational Gymnastics.* 3 credits.
Teaches skills, content knowledge, and historical perspectives of dance and educational gymnastics taught in a K-12 physical education setting. Includes stages of motor development, skill progression, and authentic assessment for a variety of dances and educational gymnastics. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHED 275: *Field and Invasion Games.* 3 credits.
Teaches skills, content knowledge, and historical perspectives of field and invasion games. Includes skill progression, strategies, officiating, and authentic assessment in activities such as softball, basketball, soccer, hockey, team handball, flag football, lacrosse and Ultimate Disc. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHED 276: *Health-Related Fitness Education.* 3 credits.
Prepares future physical educators to develop, implement, and assess fitness concepts, and strategies to K12 students. Incorporates basic nutritional knowledge needed to live a healthy lifestyle. Requires fitness tests participation. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

PHED 306: *Psychomotor Learning.* 3 credits.
Analyzes psychological aspects, learning theory, and practice conditions for learning motor skills. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHED 308: *Adapted Physical Education.* 3 credits.
Introduces strategies and best practices when teaching health and physical education to students with disabilities in public schools. Covers national standards, federal legislation, Individual Educational Plans (IEPs), and developmental inclusion models. Offered by School of Education. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students in a Bach of Science in Education degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHED 320: *Student Assessment in Health and Physical Education.* 3 credits.
Examines assessment purposes and introduces different assessment procedures that measure student achievement in the different domains of behaviors in health and physical education. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHED 340: *Social and Cultural Issues in Physical Education.* 3 credits.
Studies contemporary and historical perspectives on socio-cultural and philosophical issues influencing American public schooling and physical education teacher preparation, including race, culture, ethnicity, nationality, globalization, socioeconomic status, gender, sexuality, ability, obesity, and urbanization. Offered by School of Education. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHED 360: *Sport Based Youth Development.* 3 credits.
An interdisciplinary examination of current trends and issues in youth sport, with a focus on non-school based community programs. Emphasis is placed on the structural characteristics of sport and physical activity programs as they pertain to proper development of children and adolescents. Offered by School of Education. Limited to three attempts. Equivalent to SRST 360.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

PHED 403: *Elementary School Instruction in Physical Education.* 3 credits.
Covers content, knowledge, and teaching methods for elementary physical education. Requires field experience. Must be taking within one year of student teaching. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: PHED 273, 274, 275, and PHED 306 (Any of these courses may be taken concurrently).

Registration Restrictions:
Enrollment is limited to students with a major in Physical Education.

Enrollment limited to students in a Bach of Science in Education degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHED 404: *Middle and High School Instruction in Physical Education.* 3 credits.
Examines school curriculum content, and teaching practices appropriate for middle and high school physical education programs. Requires field experience. Offered by School of Education. Limited to three attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Physical Education.

Enrollment limited to students in a Bach of Science in Education degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHED 415: *Student Teaching in Physical Education.* 12 credits.
Provides supervised clinical experience for a full semester in approved schools. Requires experiences in elementary and secondary school settings. Includes participation in pre-service workshop and related activities, and weekly seminars. Note: Completion of all Mason Core and program coursework, and acceptance into Student Teaching are required. PHED 415 must be completed within 5 years of PHED 202. Offered by School of Education. Limited to three attempts.

Mason Core: Capstone

Registration Restrictions:
Required Prerequisites: (ATEP 300[D], 300[XS] or 300[XP]) and (BIOL 124[D], 124[XS] or 124[XP]) and (BIOL 125[D], 125[XS] or 125[XP]) and (EDRD 300[D], 300[XS] or 300[XP]) and (EDUC 302[D], 302[XS] or 302[XP]) and (HEAL 110[D], 110[XS] or 110[XP]) and (HEAL 200[D], 200[XS] or 200[XP]) and (HEAL 405[C] or 405[XS]) and (KINE 310[D], 310[XS] or 310[XP]) and (PHED 202[C] or 202[XS]) and (PHED 218[D], 218[XS] or 218[XP]) and (PHED 273[D], 273[XS] or 273[XP]) and (PHED 274[D], 274[XS] or 274[XP]) and (PHED 275[C], 275[XS] or 275[XP]) and (PHED 276[D] or 276[XP]) or PHED 276[XS] and 306[D] or PHED 306[XS] or 306[XP]) and (PHED 308[C], 308[XS] or 308[XP]) and (PHED 320[D], 320[XS] or 320[XP]) and (PHED 340[D], 340[XS] or 340[XP]) and (PHED 403[C] or 403[XS] and (PHED 404[C] or 404[XS]) and (PRLS 316[D], 316[XS] or 316[XP]).
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.
[C] Requires minimum grade of C.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

PHED 499: *Independent Study in Physical Education and Fitness.* 1-3 credits.
Study of a problem area in physical education research, theory, or practice under direction of faculty member. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: Completion of 90 hours and Permission of Chair.

Registration Restrictions:
Enrollment is limited to students with a major in Health Education, Health, Fitness Rec Resrcs, Individualized Study, Nursing, Physical Education (Special), Physical Education or Parks, Rec, Leisure Studies.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

600 Level Courses

PHED 660: *Research Reading Seminar in Physical Education.* 3 credits.
Provides an overview of the current and past research in the field of physical education through an in-depth analysis, synthesis, and discussion of research. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a concentration in ASTL-Physical Education.

Enrollment limited to students in a Master of Education degree.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PHED 670: *Analysis of Teaching in Physical Education.* 3 credits.
Presents variety of research techniques for studying teacher and learner behaviors in physical education, engaging the teacher as researcher and grant writer. Goal is to prepare teachers to be leaders in their field. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHED 672: *Curriculum and Assessment in Physical Education.* 3 credits.
Provides knowledge of curriculum models and assessment strategies in standards-based physical education program. Studies curriculum models such as sport education and adventure education. Examines traditional and alternative assessment. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHED 673: *Motor Development for Special Populations.* 3 credits.
Provides knowledge that focuses on individuals with orthopedic, sensory, and learning disabilities in physical education setting. Areas of focus include development of motor patterns and skills assessment, and planning and instruction for students with disabilities. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHED 680: *Mentoring and Supervising in Physical Education.* 3 credits.
Prepares mentors and supervisors of preservice and in-service teachers in physical education. Topics include professional dispositions, assessment and evaluation, adult learners, counseling and communication, providing feedback, and reflection and inquiry into the profession. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: PHED 670.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Physics (PHYS)

100 Level Courses

PHYS 103: *Physics and Everyday Phenomena I.* 4 credits.
The course uses basic physics concepts from the areas of mechanics and thermodynamics to explain a wide range of everyday phenomena, such as how we walk and drive, how a ship floats, how clothing keeps us warm, and why it rains when we have a low pressure system. Notes: For nonscience majors. Offered by Physics & Astronomy. Limited to three attempts.

Mason Core: Natural Science with Lab

Schedule Type: Laboratory, Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

PHYS 104: *Physics and Everyday Phenomena II.* 4 credits.
The course uses basic physics concepts from the areas of light, sound, electricity, magnetism, and modern physics to explain a wide range of everyday phenomena. Topics include how we speak, hear, and see, what to do if the circuit breaker keeps tripping, how your computer stores and displays data, how rainbows and northern lights form, and the basic nature of matter. Notes: For nonscience majors. Offered by Physics & Astronomy. Limited to three attempts.

Mason Core: Natural Science with Lab

Recommended Prerequisite: PHYS 103.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 106: *The Quantum World: A Continuous Revolution in What We Know and How We Live.* 3 credits.
This course presents quantum physics that revolutionized the 20th Century and continues to evolve. In addition to presenting basic concepts, the course will discuss various applications involving quantum phenomena including quantum computers and quantum teleportation. The course will be a historical journey through the quantum science that many of its founders, such as Einstein, could not accept, and a peek into a possible future. Notes: For non-science majors. Offered by Physics & Astronomy. Limited to three attempts.

Mason Core: Natural Science Overview

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 111: *Introduction to the Fundamentals of Atmospheric Science.* 3 credits.
An overview of the Earth's atmosphere, its history, and the physical and chemical processes that determine its characteristics. The focus is on key concepts from thermodynamics, radiation, chemistry, and dynamics that are essential for understanding the state, variability, and long term evolution of the atmosphere, especially in the context of comparisons with other planetary atmospheres. Offered by Physics & Astronomy. Limited to three attempts. Equivalent to CLIM 111.

Mason Core: Natural Science with Lab, Natural Science Overview, Encore: Sustainability

Specialized Designation: Green Leaf Related Course

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 112: *Introduction to the Fundamentals of Atmospheric Science Lab.* 1 credit.
Laboratory course associated with PHYS 111/CLIM 111. Study of the Earth's atmosphere based on concepts taken from thermodynamics, radiation transport, chemistry, and dynamics. Offered by Physics & Astronomy. Limited to three attempts. Equivalent to CLIM 112.

Mason Core: Natural Science with Lab, Encore: Sustainability

Specialized Designation: Green Leaf Related Course

Registration Restrictions:
Required Prerequisites: (PHYS 111[*C], CLIM 111[*C], PHYS 111[XS] or CLIM 111[XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 122: *Inside Relativity.* 1 credit.
Introductory course describing Einstein's theories of special and general relativity. Notes: Intended for majors and nonmajors. Offered by Physics & Astronomy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 123: *Inside the Quantum World.* 1 credit.
Introductory course describing quantum theory. Notes: Intended for majors and nonmajors. Offered by Physics & Astronomy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 124: *Experimental Explorations in Physics.* 2 credits.
Introductory nonmathematical course intended primarily for physics majors. Experimental studies of phenomena in mechanics, electricity and magnetism, and optics. Stresses development of familiarity with methods and techniques of measurement and with data evaluation. Offered by Physics & Astronomy. Limited to three attempts.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 131: *Introduction to Renewable Energy.* 3 credits.
An overview of the renewable-energy field suitable for all students regardless of major. Topics include renewable-energy technologies, trends in the adoption of renewable energy, successful policy drivers, and environmental impacts. Offered by Physics & Astronomy. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 160: *University Physics I.* 3 credits.
First semester of three-semester, calculus-based introductory physics sequence, designed primarily for science and engineering majors. Mechanics. Offered by Physics & Astronomy. Limited to three attempts.

Mason Core: Natural Science with Lab, Natural Science Overview

Registration Restrictions:
Required Prerequisites: MATH 114[*C], 114[XS], 116[*C] or 116[XS].
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 161: *University Physics I Laboratory.* 1 credit.
Experiments in mechanics, including techniques for recording, graphically and statistically analyzing, and reporting data. Offered by Physics & Astronomy. Limited to three attempts.

Mason Core: Natural Science with Lab

Registration Restrictions:
Required Prerequisites: PHYS 160[*C] or 160[XS].
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 170: *Introductory and Modern Physics I.* 3 credits.
The first of a two-course, calculus-based introductory physics sequence. Topics include conservation laws, special relativity, quantum physics, thermal physics, Newton's laws, and electromagnetism. PHYS 170 does not satisfy the prerequisite for PHYS 260. Offered by Physics & Astronomy. Limited to three attempts. Equivalent to PHYS 160.

Mason Core: Natural Science with Lab, Natural Science Overview

Registration Restrictions:
Required Prerequisites: MATH 113[*C] or 113[XS].
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

PHYS 225: *Problems in Physics I.* 1-3 credits.
Individual study of physics problems of current interest. Offered by Physics & Astronomy. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Required Prerequisites: PHYS 260[C], 260[XS] or 270[C].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 243: *College Physics I.* 3 credits.
The first of a two-semester algebra-based physics sequence with emphasis on topics of classical and modern physics of particular importance to science majors. Topics include principles of mechanics and heat. Facility in algebra and trigonometry is assumed. PHYS 243 is prerequisite to PHYS 245. Offered by Physics & Astronomy. Limited to three attempts.

Mason Core: Natural Science with Lab, Natural Science Overview

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 244: *College Physics I Lab.* 1 credit.
Laboratory portion of two-semester basic physics course. Offered by Physics & Astronomy. Limited to three attempts.

Mason Core: Natural Science with Lab

Registration Restrictions:
Required Prerequisites: PHYS 243[*C] or 243[XS].
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 245: *College Physics II.* 3 credits.
The second of a two-semester algebra-based physics sequence with emphasis on topics of classical and modern physics of particular importance to science majors. Topics include principles of electricity, magnetism, optics, and atomic and nuclear physics. Facility in algebra and trigonometry is assumed. Offered by Physics & Astronomy. Limited to three attempts.

Mason Core: Natural Science with Lab, Natural Science Overview

Registration Restrictions:
Required Prerequisites: PHYS 243[C] or 243[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 246: *College Physics II Lab.* 1 credit.
Laboratory portion of two-semester basic physics course. Offered by Physics & Astronomy. Limited to three attempts.

Mason Core: Natural Science with Lab

Registration Restrictions:
Required Prerequisites: PHYS 244[C] or 244[XS] and PHYS 245[*C] or 245[XS].
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory

Grading:

This course is graded on the Undergraduate Regular scale.

PHYS 251: *Introduction to Computer Techniques in Physics.* 3 credits.
Introduction to using computers in physics based on examples from mechanics and astronomy. Offered by Physics & Astronomy. Limited to three attempts.

Mason Core: Info Tech & Computing

Registration Restrictions:
Required Prerequisites: PHYS 160[C], 160[XS] or 170[C].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 260: *University Physics II.* 3 credits.
Waves, electricity, and magnetism. Offered by Physics & Astronomy. Limited to three attempts. Equivalent to PHYS 270.

Mason Core: Natural Science with Lab, Natural Science Overview

Registration Restrictions:
Required Prerequisites: (PHYS 160[C] or 160[XS]) and (MATH 213[*C], 213[*XS], 215[*C] or 215[*XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 261: *University Physics II Laboratory.* 1 credit.
Experiments in mechanics, electricity, and magnetism, including techniques for recording, graphically and statistically analyzing, and reporting data. Offered by Physics & Astronomy. Limited to three attempts.

Mason Core: Natural Science with Lab

Registration Restrictions:
Required Prerequisites: (PHYS 161[C] or 161[XS]) and (PHYS 260[*C] or 260[XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 262: *University Physics III.* 3 credits.
Thermodynamics, optics, and modern physics. Offered by Physics & Astronomy. Limited to three attempts.

Mason Core: Natural Science with Lab, Natural Science Overview

Recommended Prerequisite: C or higher in PHYS 261.

Registration Restrictions:
Required Prerequisites: PHYS 260[C] or 260[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 263: *University Physics III Laboratory.* 1 credit.
Experiments in optics and modern physics, including techniques for recording, graphically and statistically analyzing, and reporting data. Offered by Physics & Astronomy. Limited to three attempts.

Mason Core: Natural Science with Lab

Registration Restrictions:
Required Prerequisites: (PHYS 261[C] or 261[XS]) and (PHYS 262[*C] or 262[XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 266: *Introduction to Thermodynamics.* 1 credit.
Students may not receive credit for both PHYS 262 and 266. Laws of thermodynamics, kinetic theory of gases, heat engines, and entropy. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PHYS 260[C] or 260[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 270: *Introductory and Modern Physics II.* 3 credits.
The second of a two-course, calculus-based introductory physics sequence. Topics include conservation laws, special relativity, quantum physics, thermal physics, Newtons laws, and electromagnetism. Offered by Physics & Astronomy. Limited to three attempts. Equivalent to PHYS 260.

Mason Core: Natural Science with Lab, Natural Science Overview

Registration Restrictions:
Required Prerequisites: PHYS 170[C] and (MATH 114[*C] or 114[XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

PHYS 301: *Analytical Methods of Physics.* 3 credits.
Analytical methods in the Physical Sciences. Provides a comprehensive introduction to the areas of mathematical physics. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: MATH 214[C] or 214[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 303: *Classical Mechanics.* 3 credits.
Motion of a particle in one, two, and three dimensions; systems of particles; noninertial coordinate systems; and equations of Lagrange and Hamilton. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (PHYS 260[C], 260[XS] or 270[C]) and (PHYS 301[*C] or 301[*XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 305: *Electromagnetic Theory.* 3 credits.
Interaction of static charges, interaction of stationary currents, electromagnetic induction, and Maxwell's equations. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (PHYS 260[C], 260[XS] or 270[C]) and (PHYS 301[*C] or 301[*XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 306: *Wave Motion and Electromagnetic Radiation.* 3 credits.
Vibrating string, plane waves, interference, diffraction, polarization, electromagnetic waves, dispersion, and relativity. Offered by Physics & Astronomy. Limited to three attempts.

Recommended Corequisite: MATH 214.

Registration Restrictions:
Required Prerequisites: PHYS 305[C] or 305[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 307: *Thermal Physics.* 3 credits.
Classical concepts of energy and temperature, basic definitions, first and second laws of thermodynamics, properties of pure substances, and equations of state. Introduction to classical and quantum statistics and their application to physical systems. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PHYS 260[C], 260[XS] or 270[C].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 308: *Modern Physics.* 3 credits.
Introduces relativity, quantum mechanics, and selected topics in modern physics. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PHYS 260[C], 260[XS] or 270[C].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 310: *Physics of Semiconductor Materials and Processing.* 3 credits.
Survey of the electronic and structural properties of semiconductors and the physics of semiconductor processing. Topics to be discussed include crystal growth, crystal defects, thin films, thermal properties, lithography, and characterization. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PHYS 262[C], 262[XS], 307[C] or 307[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 311: *Instrumentation.* 3 credits.
Introduction to basic analog and digital circuits, circuit design and simulation, and data acquisition. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (PHYS 251[C] or 251[XS]) and (PHYS 261[C] or 261[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 312: *Waves and Optics.* 3 credits.
Laboratory survey of wave and optical phenomena and associated instrumentation. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (PHYS 251[C] or 251[XS]) and (PHYS 261[C] or 261[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 325: *Intermediate Methods of Experimental Physics.* 3 credits.
Experiments in mechanics, electromagnetism, and optics with emphasis on data acquisition and analysis using state-of-the-art-tools. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (PHYS 251[C] or 251[XS]) and (PHYS 261[C] or 261[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 326: *Problems in Physics II.* 1-3 credits.
Individual study of physics problems of current interest. Offered by Physics & Astronomy. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Required Prerequisites: PHYS 301[*C], 301[*XS], 307[*C] or 307[*XS].
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 331: *Physics of Renewable Energy.* 3 credits.
Introduces the physical principles for a range of renewable energies, including solar, wind, hydropower and geothermal. Demonstrates how the application of methods and principles of physics allow us to understand the basic operation, advantages, limitations and relative merits of various renewable energy sources. Designed for students majoring in the sciences or engineering but useful for students interested in science policy, business, global change and sustainable development. Offered by Physics & Astronomy. Limited to three attempts.

Specialized Designation: Green Leaf Related Course

Registration Restrictions:
Required Prerequisites: PHYS 260[C], 260[XS] or 270[C].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 332: *Solar Cells.* 3 credits.
Covers the physics of solar cells, basics of semiconductors, pn junctions, basic structure of solar cells, the latest advances in solar cell materials, and concepts for improving the efficiency of solar cells. Solar cell design based on silicon, copper indium gallium selenide, gallium arsenide, organic solar cells, dye-sensitized solar cells, quantum dots, and nanowires will also be reviewed. Offered by Physics & Astronomy. Limited to three attempts.

Specialized Designation: Mason Impact.

Registration Restrictions:
Required Prerequisites: ((PHYS 260[C], 260[XS] or 270[C]) and (PHYS 261[C] or 261[XS])) or ((PHYS 245[C] or 245[XS]) and (PHYS 246[C] or 246[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 334: *Introduction to Quantum Computation and Quantum Information.* 3 credits.
Introduction to the basic components of quantum computing (qubit, quantum gates, and quantum circuits, entanglement, the non-cloning theorem, dense coding, and quantum teleportation, including physical implementation), as well as quantum algorithms, such as Deutsch-Josza, Bernstein-Varirani, Simon's, Shor's, and Grover's algorithms, and quantum error correction code. Quantum coding of these algorithms will be run on an IBMq. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (PHYS 260[C], 260[XS] or 270[C]) and ((MATH 203[C] or 203[XS]) or (PHYS 301[C] or 301[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 346: *Quarks to Strings.* 3 credits.
An non-technical introduction to the Standard Model of Elementary Particles and String Theory, in the context of the philosophy of science. Conceptual mastery will be demonstrated through writing assignments rather than calculations. Notes: This course does not satisfy elective-category requirements for the physics and astronomy majors. Offered by Physics & Astronomy. Limited to three attempts.

Mason Core: Synthesis

Registration Restrictions:
Required Prerequisites: PHYS 262[C], 262[XS], 270[C], 308[C] or 308[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 370: *Molecular Biophysics.* 3 credits.
Offers a broad introduction into molecular biophysics. Demonstrates that the application of methods of physics provides a unique opportunity to tackle complex biological programs. Mainly designed for students majoring in physics or chemistry but also useful for biology majors interested in bioinformatics and computational biology. Offered by Physics & Astronomy. Limited to three attempts. Equivalent to BINF 470.

Registration Restrictions:
Required Prerequisites: (PHYS 307[C] or 307[XS]) or ((CHEM 331[C] or 331[XS]) and (CHEM 332[C] or 332[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 385: *Materials Science with Applications to Renewable Energy.* 3 credits.
Introduction to basic concepts and methods of materials science. Review of metallic alloys and compounds, ceramic materials, ionic solids, semiconductors, polymers, and nano-structured materials. Mechanical, thermal, electric, magnetic and optical properties of materials. Theoretical background and experimental methods of materials characterization. Various materials applications with emphasis on renewable energy. Offered by Physics & Astronomy. Limited to three attempts.

Specialized Designation: Green Leaf Related Course

Registration Restrictions:
Required Prerequisites: PHYS 262[C], 262[XS], 266[C], 266[XS], 307[C], 307[XS], ME 211[C] or 211[XS] or ((PHYS 245[C] or 245[XS]) and (MATH 113[C] or 113[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 390: *Topics in Physics.* 1-4 credits.
Selected topics in physics not covered in fixed-content courses. Offered by Physics & Astronomy. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 391: *Special Topics in Physics.* 1-4 credits.
Special topics in physics not covered in fixed-content courses. Notes: This course does not satisfy elective-category requirements for the physics or astronomy majors. Offered by Physics & Astronomy. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

PHYS 402: *Introduction to Quantum Mechanics and Atomic Physics.* 3 credits.
Experimental basis of quantum mechanics; the wave function; systems in one, two, and three dimensions. Offered by Physics & Astronomy. Limited to three attempts. Equivalent to PHYS 502.

Registration Restrictions:
Required Prerequisites: (PHYS 303[C] or 303[XS]) and (PHYS 305[C] or 305[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 403: *Quantum Mechanics II.* 3 credits.
Additional topics in Quantum Mechanics: angular momentum, perturbation theory, scattering, and the Dirac Equation. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PHYS 402[C] or 402[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 405: *Honors Thesis in Physics I.* 3 credits.
Project chosen and completed under the guidance of a faculty member, which results in a thesis. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Notes: PHYS 405 is a prerequisite for PHYS 406. An oral progress report is required for PHYS 405. Oral and written presentations are required for PHYS 406. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (PHYS 251[C] or 251[XS]) and (PHYS 301[C] or 301[XS]) and (PHYS 303[C] or 303[XS]) and (PHYS 305[C] or 305[XS]) and (PHYS 307[C] or 307[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Physics.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 406: *Honors Thesis in Physics II.* 3 credits.
Project chosen and completed under the guidance of a faculty member, which results in a thesis. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Notes: PHYS 405 is a prerequisite for PHYS 406. An oral progress report is required for PHYS 405. Oral and written presentations are required for PHYS 406. Students may receive no

more than 6 credits of PHYS 405, 406, 408, and 409. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisite: PHYS 405[C].
[C] Requires minimum grade of C.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 407: *Senior Laboratory in Modern Physics.* 4 credits.
Advanced experiments in modern physics: electronics, optics, condensed matter, and nuclear physics. Techniques for recording, graphically and statistically analyzing, and reporting data. Typical experiments include the Frank-Hertz experiment, Hall Effect, electron spin resonance, nuclear magnetic resonance and optical pumping. Offered by Physics & Astronomy. Limited to three attempts.

Mason Core: Capstone

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: (PHYS 251[C] or 251[XS]) and (PHYS 311[C] or 311[XS]) and (PHYS 312[C] or 312[XS]) and (PHYS 402[C] or 402[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 408: *Senior Research.* 2-3 credits.
Work under guidance of faculty member on research project in experimental or theoretical physics. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Notes: May be repeated with permission of the Physics Department. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Offered by Physics & Astronomy. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: (PHYS 251[C] or 251[XS]) and (PHYS 301[C] or 301[XS]) and (PHYS 303[C] or 303[XS]) and (PHYS 305[C] or 305[XS]) and (PHYS 307[C] or 307[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Research

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 409: *Physics Internship.* 3 credits.
On-the-job experience for physics majors in industry or government laboratories including summer programs. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Notes: May be repeated with permission of the Department of Physics & Astronomy. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Offered by Physics & Astronomy. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: (PHYS 251[C] or 251[XS]) and (PHYS 301[C] or 301[XS]) and (PHYS 303[C] or 303[XS]) and (PHYS 305[C] or 305[XS]) and (PHYS 307[C] or 307[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 410: *Computational Physics Capstone.* 4 credits.
Applications of computational techniques to simulate, visualize, and solve numerically problems from a variety of physical systems. Offered by Physics & Astronomy. Limited to three attempts.

Mason Core: Capstone

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: (PHYS 251[C] or 251[XS]) and (PHYS 325[C] or ASTR 401[C]) and (PHYS 303[C] or 303[XS]) and (PHYS 305[C] or 305[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 411: *Renewable Energy Internship.* 3 credits.
On-the-job experience for Renewable Energy minors in industry, government, or non-profit organizations, including Summer programs. Offered by Physics & Astronomy. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (PHYS 131[C] or 131[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 412: *Solid State Physics and Applications.* 3 credits.
Crystal structures, binding, lattice vibrations, the free electron model, metals, semiconductors and semiconductor devices, superconductivity, and magnetism. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PHYS 402[C], 402[XS], 502[B-] or 502[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B-] Requires minimum grade of B-.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 416: *Undergraduate Physics Review.* 1 credit.
Emphasizing the breadth of physical understanding needed to approach physics problems, the course reviews undergraduate physics through

assigned, GRE test-like, problems. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (PHYS 301[C] or 301[XS]) and (PHYS 303[C] or 303[XS]) and (PHYS 305[C] or 305[XS]) and (PHYS 307[C] or 307[XS]) and (PHYS 402[C] or 402[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 417: *Geophysics.* 3 credits.
Basic principles of geophysics including gravity, magnetism, and seismic reflection and refraction. Offered by Physics & Astronomy. Limited to three attempts. Equivalent to GEOL 417.

Recommended Prerequisite: GEOL 101, MATH 113, one year of PHYS or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 428: *Relativity.* 3 credits.
Special relativity; four-dimensional space-time; general relativity; non-Euclidean geometries, geodesics, and field equations; tests of general theory of relativity; black holes; cosmology; models of the universe; remnant blackbody radiation; big bang cosmology; thermodynamics; and the universe. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (PHYS 303[C] or 303[XS]) and (PHYS 305[C] or 305[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 440: *Nuclear and Particle Physics.* 3 credits.
Accelerators, detectors and related electronics; nuclear and elementary particle structure; symmetries and conservation laws; the electromagnetic, weak, and hadronic interactions; nuclear models; the quark model; and nuclear science and technology. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (PHYS 402[C], 402[XS], 502[B-] or 502[XS]) and (PHYS 428[*C] or 428[*XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B-] Requires minimum grade of B-.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 465: *Planetary Atmospheres and Ionospheres.* 3 credits.
An interdisciplinary introduction to the fundamental physics aod chemistry of the atmosphere-ionosphere system. The focus is on the governing equations of atmospheric and ionospheric dynamics with a systems (science) approach to the atmosphere-ionosphere coupling processes. Topics include observational and modeling techniques in the Earth's upper atmosphere as well as recent progress in planetary atmosphere-ionospheres and planetary missions. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (PHYS 260[C] or 260[XS]) and (PHYS 301[C] or 301[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PHYS 475: *Atmospheric Physics.* 3 credits.
Introduction to basic physical and chemical processes that operate in the Earth's atmosphere. Emphasis on those concepts that provide a global description of the current atmospheric state and those processes that relate to global change and atmospheric evolution. Topics include equilibrium structure, radiative transfer models, thermodynamics of various atmospheric layers, and the various processes defining these layers. Offered by Physics & Astronomy. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PHYS 170[C], 262[C], 262[XS], 307[C] or 307[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

PHYS 502: *Introduction to Quantum Mechanics and Atomic Physics.* 3 credits.
Experimental basis of quantum mechanics, the wave function, and systems in one, two, and three dimensions. Offered by Physics & Astronomy. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: PHYS 308[C] or 308[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 510: *Computational Physics I.* 3 credits.
Study and development leading to computer simulations of various physical systems. Requires the study and development of computational techniques and numerical algorithms to obtain both numerical results and visualization of these results. Application to individual physical processes taking place in a variety of physical systems. Offered by Physics & Astronomy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 512: *Solid State Physics and Applications.* 3 credits.
Crystal structures, binding, lattice vibrations, the free electron model, metals, semiconductors and semiconductor devices, superconductivity, and magnetism. Offered by Physics & Astronomy. May not be repeated for credit. Equivalent to CSI 687.

Registration Restrictions:
Required Prerequisites: PHYS 402[C], 402[XS], 502[B-] or 502[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B-] Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 513: *Applied Electromagnetic Theory.* 3 credits.
Classical electromagnetic theory with applications. Topics include electrostatics, magnetic fields and materials, electromagnetic wave propagation, waveguides, transmission lines, radiation, and antennas. Offered by Physics & Astronomy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 533: *Modern Instrumentation.* 3 credits.
Topics include sensors for radiation, particles, electric and magnetic fields, pressure, and motion; electronic instruments, computer data collection, instrumentation noise and noise reduction methods; and specialized instrumentation systems for various areas of applied physics. Offered by Physics & Astronomy. May not be repeated for credit. Equivalent to CHEM 620.

Registration Restrictions:
Required Prerequisites: (PHYS 513[B-] or 513[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 534: *Introduction to Quantum Computation and Quantum Information.* 3 credits.
This course introduces science and engineering students to quantum computing code and quantum information using a linear algebra based approach. Prior experience with quantum mechanics is not required. Over the semester counterintuitive concepts, such as quantum entanglement and quantum teleportation, will be demystified. Basic quantum algorithms will be analyzed to understand quantum speedup over classical computing. Hands-on training in quantum circuit design and writing quantum code will be provided, culminating in running this code on simulators and quantum computers. Course content will include distinctions between classical and quantum computing, the qubit, quantum gates and circuits, and quantum algorithms for query, data base search, factorization, and error correction. State of the art and future prospects of quantum technology will also be discussed. Offered by Physics & Astronomy. May not be repeated for credit.

Recommended Prerequisite: Experience with programming. MATH 203 or PHYS 301. PHYS 160, 260; or 170, 270; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 540: *Nuclear and Particle Physics.* 3 credits.
Accelerators, detectors and related electronics; nuclear and elementary particle structure; symmetries and conservation laws; the electromagnetic, weak, and hadronic interactions; nuclear models; the quark model; and nuclear science and technology. Offered by Physics & Astronomy. May not be repeated for credit.

Registration Restrictions:

Required Prerequisites: PHYS 402[C], 402[XS], 502[B-] or 502[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B-] Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 575: *Atmospheric Physics I.* 3 credits.
Introduction to basic physical and chemical processes that operate in the Earth's atmosphere. Emphasis on those concepts that provide a global description of the current atmospheric state and those processes that relate to global change and atmospheric evolution. Topics include equilibrium structure, radiative transfer models, thermodynamics of various atmospheric layers, and the various processes defining these layers. Offered by Physics & Astronomy. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (PHYS 305[C] or 305[XS]) and (PHYS 262[C] or 262[XS]) and (PHYS 260[C] or 260[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 580: *Selected Interdisciplinary Topics.* 3 credits.
Selected interdisciplinary topics with a strong physics content not covered in fixed-content courses. Notes: PHYS 580 cannot be used to satisfy degree requirements for PHYS (PhD), PHAE (MA) in the standard, applied physics, and engineering physics emphases. Offered by Physics & Astronomy. May not be repeated for credit.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 581: *Topics in Renewable Energy.* 3 credits.
The course covers the physical principles for a range of renewable energies, including solar, wind, hydropower and geothermal using mathematical and other types of analysis. The course demonstrates how the application of methods and principles of physics allow us to understand the basic operation, advantages, limitations and relative merits of various renewable energy sources. Offered by Physics & Astronomy. May not be repeated for credit.

Specialized Designation: Topic Varies

Registration Restrictions:
Required Prerequisites: (PHYS 262[C] or 262[XS]) and (PHYS 266[C] or 266[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 590: *Selected Topics in Physics.* 1-6 credits.
Selected topics from recent theoretical or experimental developments and applications. Satisfies needs of professional community to keep abreast of current developments. Offered by Physics & Astronomy. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 591: *Systems for Quantum Scientists.* 3 credits.
This course will introduce students to real world problem solving in quantum information science and engineering using the principles of system architecture. These principles are useful to students independent of career path, but particularly important for a successful transition into a career in industry. Students will work together on teams to identify a scientific or technical challenge in quantum science and engineering. Key activities will include weekly meetings to plan and discuss key aspects of their challenge, meetings with industry experts regarding the principles of systems architecture, and designing a solution to their challenge. The report on the project design will be submitted in stages and will include a motivation, approach, detailed technical schematics, cost estimation, risk assessment, and risk mitigation strategies. The report will be evaluated

by GMU faculty and industrial experts, and there will be a 'pitch' style presentation as part of the final project. Offered by Physics & Astronomy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

PHYS 600: *Special Topics in Physics.* 1-6 credits.
In-service course to strengthen and update teachers' knowledge of physics and astronomy. Offered by Physics & Astronomy. May be repeated within the term.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 611: *Electro-optics.* 3 credits.
Optical modulators, display devices, types and operation of lasers, mode locking, Q-switching, photodetectors, optical fibers. Offered by Physics & Astronomy. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((PHYS 502[B-], 502[XS], 684[B-] or 684[XS]) and (PHYS 513[B-], 513[XS], 685[B-] or 685[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 612: *Physics of Modern Imaging.* 3 credits.
Study of imaging methods using acoustic and electromagnetic waves to probe extended objects, and mathematical transformations to produce images from scattered waves. Topics include classical imaging, physical optics, Fourier transform, holography, tomography, seismic mapping, underwater acoustic imaging and mapping, side-looking radar, antenna arrays, applicable computer methods. Offered by Physics & Astronomy. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (PHYS 513[B-], 513[XS], 685[B-] or 685[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 613: *Computational Physics II.* 3 credits.
Study of diverse physical systems with emphasis on modeling and simulation. Study and development of numerical algorithms and techniques to obtain both numerical results and visualization of these results. Projects undertaken will draw from such areas as many-body orbital dynamics, molecular interactions, quantum systems, radiative transfer in high-temperature plasmas, stellar interiors, hydrodynamics, and cosmology. Offered by Physics & Astronomy. May not be repeated for credit.

Recommended Prerequisite: PHYS 510

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 614: *Thermodynamics and Kinetics of Materials.* 3 credits.
Advanced thermodynamics and physical kinetics with applications to materials science. The course covers an axiomatic formulation of thermodynamics, theory of phase transformations, kinetic theory of reactions and diffusion processes in solids, and interface phenomena. Possible applications considered in the course include processing and fabrication of semiconductor materials, metal oxidation and corrosion, diffusion-controlled phase growth in solid solutions, shape memory alloys, and small-size effects in physical properties of materials. Offered by Physics & Astronomy. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 113[C] or 113[XS]) and (MATH 114[C] or 114[XS]) and (MATH 213[C] or 213[XS]) and MATH 307[C] and (PHYS 262[C], 262[XS], 266[C] or 266[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 615: *Fundamentals of Materials Science.* 3 credits.
Covers fundamentals of materials science with emphasis on physical topics including crystal structure and symmetry, dislocation theory, theory of interfaces, multicomponent phase diagrams, theory of phase transformations, nano-materials, metallic glasses. Includes a term project, assignments from current literature and application of computation in materials science. Offered by Physics & Astronomy. May not be repeated for credit. Equivalent to CSI 685.

Recommended Prerequisite: CDS 385 or PHYS 385 or undergraduate degree in physics, chemistry, materials, electrical or mechanical engineering or related disciplines; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 620: *Continuum Mechanics.* 3 credits.
Study of continuum mechanics; topics include physical concepts, mathematical formulation and solution, elastic materials, ideal fluids, viscous fluids, waves in continuous media, turbulence, thermal convection, stability considerations, high-temperature gas flows, radiative processes for momentum and energy transport, shocks, and computational fluid dynamics. Offered by Physics & Astronomy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 628: *Relativity.* 3 credits.
Special relativity; four-dimensional space-time; general relativity; non-Euclidean geometries, geodesics, and field equations; tests of general theory of relativity; black holes; cosmology; models of the universe; remnant blackbody radiation; big bang cosmology; thermodynamics; and the universe. Offered by Physics & Astronomy. May not be repeated for credit.

Recommended Prerequisite: PHYS 303, 305, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 630: *Introduction to Biophysics.* 3 credits.
Introduces biophysics, focusing on physical and chemical concepts and their relation to rapidly expanding interdisciplinary interfaces among biology, chemistry, and physics. Reveals multiscale nature of biophysics, and includes exploration of macroscopic and microscopic applications. Offered by Physics & Astronomy. May not be repeated for credit. Equivalent to BINF 740.

Recommended Prerequisite: Undergraduate degree in physics, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 640: *Finite Element Analysis of Solids and Fluids.* 3 credits.
Introduction to fundamentals of finite element analysis of solid, structural, fluid, and heat transfer problems. Topics include governing equations for heat transfer, solid and fluid mechanics; finite element formulation and solution procedures; appropriate use of finite element methods including setting up an appropriate model, interpreting results, and assessing solution error. Students are expected to develop their own finite element code. Offered by Physics & Astronomy. May not be repeated for credit.

Recommended Prerequisite: PHYS 620 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 660: *Space Weather.* 3 credits.
Overview of space weather including sun, heliosphere, magnetosphere, and ionosphere. Offered by Physics & Astronomy. May not be repeated for credit. Equivalent to ASTR 660.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 665: *Planetary Atmospheres and Ionospheres.* 3 credits.
An interdisciplinary introduction to the fundamental physics and chemistry of the atmosphere-ionosphere system. The focus is on the governing equations of atmospheric and ionospheric dynamics with a systems (science) approach to the atmosphere-ionosphere coupling processes. Topics include observational and modeling techniques in the Earth's upper atmosphere as well as recent progress in planetary atmosphere-ionospheres and planetary missions. Offered by Physics & Astronomy. May not be repeated for credit.

Recommended Prerequisite: PHYS 262, MATH 214.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 683: *Mathematical Methods in Physics.* 3 credits.
Covers common mathematical methods used in physics. Topics include vector and variational calculus; functions of complex variables; integral and discrete transforms; ordinary and partial differential equations; special functions; and linear operators and matrices. Offered by Physics & Astronomy. May not be repeated for credit.

Recommended Prerequisite: Undergraduate degree in physics or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 684: *Quantum Mechanics I.* 3 credits.
Fundamental concepts of quantum mechanics, including Dirac notation, quantum dynamics, theory of angular momentum, and symmetries. Offered by Physics & Astronomy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Applied Engineering Physics or Physics.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 685: *Classical Electrodynamics I.* 3 credits.
Deals with static and dynamic properties of electromagnetic fields as described by Maxwell's equations. Covers electrostatics, magnetostatics, boundary value problems, multipoles, time dependent fields, propagating wave solutions, and resonant structures. Offered by Physics & Astronomy. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Applied Engineering Physics or Physics.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 690: *Engineering Thermodynamics.* 3 credits.
Introduction to the basic concepts used in engineering when dealing with thermodynamic problems. Topics include equations of state, phase changes, latent heat, internal energy, enthalpy, entropy, and analysis of basic thermodynamic cycles such as Carnot cycles, power generation, internal combustion engines and refrigeration processes. Offered by Physics & Astronomy. May not be repeated for credit.

Recommended Prerequisite: PHYS 620 or PHYS 705 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 694: *Applied Mechanics of Solids.* 3 credits.
Introduction to the physical laws, mathematical formulations, and computer algorithms that are used to predict material and structural response subjected to mechanical or thermal loading. Topics covered includes mathematical description of solids, equations of motion and equilibrium, constitutive equations, principle of virtual work, and fracture mechanics. Analytical technique and numerical method are also covered. Offered by Physics & Astronomy. May not be repeated for credit.

Recommended Prerequisite: PHYS 620

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 695: *Applied Fluid Mechanics.* 3 credits.
Introduction to concepts of fluid mechanics and solving its equations using numerical techniques. The concepts and methods of computational fluid dynamics (CFD) will be introduced. Topics include fluid mechanics equations, spatial and temporal discretization, finite difference and finite volume schemes, accuracy and convergence. This course requires writing of code to solve the governing equations of fluid mechanics. Offered by Physics & Astronomy. May not be repeated for credit.

Recommended Prerequisite: PHYS 620 or PHYS 705 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

PHYS 701: *Theoretical Physics.* 3 credits.
Study of the physical basis for selection of particular mathematical tools in physics; topics include curvilinear coordinates, tensors, matrices, differential equations, special functions, complex variables, and group theory. Offered by Physics & Astronomy. May not be repeated for credit.

Recommended Prerequisite: Undergraduate degree in physics or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 703: *Seminar in Physics.* 1 credit.
A general seminar course that combines invited seminars from faculty (both internal and external) with graduate student seminars. Offered by Physics & Astronomy. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

PHYS 705: *Classical Mechanics.* 3 credits.
Study of classical mechanics; topics include variational principles, constrained motion, Lagrangian and Hamiltonian mechanics, canonical transformations, and applications (central forces, rigid-body motion, oscillations). Offered by Physics & Astronomy. May not be repeated for credit.

Recommended Prerequisite: Undergraduate degree in physics or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 711: *Statistical Mechanics.* 3 credits.
Topics include thermodynamics, kinetic theory, ensemble theory, quantum statistics, and applications. Offered by Physics & Astronomy. May not be repeated for credit.

Recommended Prerequisite: Undergraduate degree in physics or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

PHYS 736: *Computational Quantum Mechanics.* 3 credits.
Study of the fundamental concepts of quantum mechanics from a computational point of view, review of systems with spherically symmetric potentials, many-electron-atom solutions to Schrodinger's equation, electron spin in many-electron systems, atomic structure calculations, algebra of many-electron calculations, Hartree-Fock self-consistent field method, molecular structure calculations, scattering theory computations, and solid-state computations. Offered by Physics & Astronomy. May not be repeated for credit. Equivalent to CHEM 736, CSI 783.

Registration Restrictions:
Required Prerequisites: ((PHYS 502[B-] or 502[XS]) and (PHYS 510[B-] or 510[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 760: *Space Plasma Physics.* 3 credits.
Covers plasma processes involved in today's space physics research, including different regimes of plasma; basic concepts in kinetic, fluid, and MHD plasmas; and existent waves in these media. Also covers basics of shocks, discontinuities, transport and acceleration of particles such as cosmic rays, reconnection, and MHD instabilities. Offered by Physics & Astronomy. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (PHYS 513[B-], 513[XS], 685[B-] or 685[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 780: *Advanced Selected Topics in Physics.* 3 credits.
Selected topics in physics not covered in fixed-content physics courses. Offered by Physics & Astronomy. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 784: *Quantum Mechanics II.* 3 credits.
Advanced topics in quantum mechanics. Covers density and tensor operators, approximation methods, scattering theory, and identical particles. Offered by Physics & Astronomy. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (PHYS 684[B-] or 684[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 785: *Classical Electrodynamics II.* 3 credits.
Advanced topics in electrodynamics. Covers radiation, scattering and diffraction, special relativity, relativistic particle dynamics, Lorentz transformation, 4-vectors, transformation of fields, charges and currents, Thomas precession, retarded potentials, and radiation from moving charges. Offered by Physics & Astronomy. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: PHYS 685[B-] or 685[XS].
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 786: *Quantum Field Theory of Particles and Condensed Matter.* 3 credits.
Introduction to quantum field theory and its applications in particle and condensed matter physics. Topics: second quantization, scalar bosonic and fermionic fields, symmetries and conserved currents, Dirac equation, gauge theory, quantum electrodynamics, Feynman diagrams, renormalization, Fermi llquid, symmetry breaking, superconductivity, magnetism, path integral, uantum hase transitions to topological order, etc. Offered by Physics & Astronomy. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: (PHYS 684[B-] or 684[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PHYS 796: *Directed Reading and Research.* 1-12 credits.
Reading and research on a specific topic in physics or related field under the direction of a faculty member. Offered by Physics & Astronomy. May be repeated within the term.

Recommended Prerequisite: Admission to MS program and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Research

Grading:
This course is graded on the Graduate Special scale.

PHYS 798: *Research Project.* 3 credits.
Research project chosen and completed under the guidance of a graduate faculty member resulting in an acceptable technical report. Offered by Physics & Astronomy. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Nine graduate credits or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

PHYS 799: *Master's Thesis.* 1-6 credits.
Project chosen and completed under the guidance of a graduate faculty member, which results in an acceptable technical report and oral defense. Offered by Physics & Astronomy. May be repeated within the degree.

Recommended Prerequisite: 9 graduate credits, and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

900 Level Courses

PHYS 998: *Doctoral Dissertation Proposal.* 1-12 credits.
Covers development of a research proposal under the guidance of a dissertation director and the doctoral committee. The proposal forms the basis for the doctoral dissertation. Notes: No more than 24 credits in ASTR/PHYS 998 and ASTR/PHYS 999 may be applied toward satisfying doctoral degree requirements in the physics PhD program. Out of the 24, no more than 12 credits of ASTR/PHYS 998 may be applied. Offered by Physics & Astronomy. May be repeated within the degree for a maximum 21 credits.

Recommended Prerequisite: Admission to physics doctoral program and permission of advisor.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

PHYS 999: *Doctoral Dissertation.* 1-12 credits.
Doctoral research performed under direction of dissertation director. Notes: No more than 24 credits in ASTR/PHYS 998 and ASTR/PHYS 999 may be applied toward satisfying doctoral degree requirements in the physics PhD program. Offered by Physics & Astronomy. May be repeated within the degree for a maximum 24 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Policy and Government (POGO)

500 Level Courses

POGO 511: *Introductory Data Analysis for Policy and Government.* 3 credits.
Introduces fundamental statistical analysis for analyzing policy, government and other social science data. Focuses on problem definition, problem solving, and how to communicate results to general audience under conditions of uncertainty in public sector. Provides the core foundation for advanced graduate work in data analytics using contemporary statistical software packages. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to PUBP 511.

Registration Restrictions:
Required Prerequisite: minimum score of 1 in 'Statistical Screening Exam'.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

POGO 550: *Topics in Policy and Government.* 1-3 credits.
Focuses on selected topics in policy and government not covered in fixed-content Schar school courses. Offered by Schar School of Policy & Govt. May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

POGO 580: *Topics: Advanced Skills for Policy Professionals.* 1-3 credits.
Practical seminar focusing on development of advanced qualitative and quantitative skills for the professional policy world. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 18 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

POGO 611: *Advanced Data Analysis for Policy and Government.* 3 credits.
Introduces advanced statistical techniques to analyze policy, government and other social science data. Covers classical regression methods and their application to public policy analysis. Covers linear and non-linear regressions using cross sectional, time-series and panel data, and problems associated with applications including specification error, multicollinearity, qualitative variables, heteroskedasticity, serial correlation, and structural identification. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to GOVT 712, PUAD 612, PUBP 705.

Registration Restrictions:
Required Prerequisites: (POGO 511[B-], 511[XS], PUAD 511[B-], 511[XS], PUBP 511[B-], 511[XS], GOVT 511[B-] or 511[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

POGO 646: *Policy and Program Evaluation.* 3 credits.
Practical exploration of assessment techniques used in studying results of public programs and policies, including evaluation of implementation strategies and impacts. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to PUAD 646, PUBP 713.

Registration Restrictions:
Required Prerequisites: (POGO 511[C], 511[XS], PUAD 511[C], 511[XS], PUBP 511[C], 511[XS], GOVT 511[C], 511[XS], HAP 602[C], 602[XS], 719[C] or 719[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

POGO 730: *Global Economic and Human Development.* 3 credits.
Interdisciplinary examination of economic and human development in world economy. Introduces alternative concepts and theories of economic and human development, and analytical frameworks for assessing important issues that arise in development process. Topics include colonialism, economic growth, population, health, education, industrialization, and rural development. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (ITRN 503[B-], 503[XS], 504[B-], 504[XS], PUBP 720[B-] or 720[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

POGO 731: *Business and Politics in Emerging Markets.* 3 credits.
Examines developing countries that are major destination points for international financial flows and foreign direct investment. Emerging markets have become a major influence in the world economy both because of the potential for growth and the downside risks from economic crises. The course uses the new institutional economics to analyze the interplay of political, economic, and business conditions. Institutional economics is a combination of economics, economic history, and political science. Topics covered include the politics of economic reform, drivers of globalization and investment, the informal sector, and relationships of risk and reward. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

POGO 732: *Strategic Trade Controls.* 3 credits.
Equips students with a holistic, contextual, and global understanding of strategic trade, focusing on the use of trade controls to manage modern security threats. Explores supply chain security, trade control systems, and compliance through readings, case studies, and practical exercises. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

POGO 733: *Global Business and Policy.* 3 credits.
Focuses on the multinational firm (MNE) and examines the international activities of large companies as well as small and medium sized enterprises. Assesses how firms strategize across national borders and address the challenges posed by different governance structures, political economies, institutions and cultures. Theoretical concepts are applied to 'real' business situations and case studies. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to ITRN 752.

Registration Restrictions:
Required Prerequisites: (ITRN 504[B-], 504[XS], PUBP 720[B-] or 720[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

POGO 734: *Country Risk Analysis.* 3 credits.
Presents a wide variety of country risk analysis methods used by corporations, financial institutions, governments, international organizations, specialized consulting groups, and publications. These methods are used to design policies, programs, and projects in the international arena. The course explores natural, commercial, economics, political and financial risk. It also provides a conceptual foundation for understanding the sources of risk, the impacts of risk on public and private sector activities, and the ways that risk can be successfully mitigated or managed. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to ITRN 759.

Registration Restrictions:
Required Prerequisites: (ITRN 504[B-], 504[XS], PUBP 720[B-] or 720[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

POGO 750: *Topics in Policy and Government.* 1-3 credits.
Focuses on selected topics in policy and government not covered in fixed-content Schar school courses. Offered by Schar School of Policy & Govt. May be repeated within the term.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

POGO 793: *Big Data Analytics for Policy and Government.* 3 credits.
Big data provides an exciting resource for policy and government. However, while their use in this context brings opportunities, it also creates unique analytical and computational needs and challenges. This course provides a fundamental understanding of these issues, and the tools and techniques used for big data analysis. Methods covered in the course include network analysis, geo-spatial computation, unstructured content mining, and supervised and unsupervised machine learning. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to PUBP 793.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

POGO 794: *Internship.* 1-3 credits.
Provides practical work experience in state, federal, or international agencies, or the private or non-profit sector. Requires written project integrating work experience and academic program. Requires permission of program director. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to ITRN 780, PUBP 794.

Recommended Prerequisite: 12 graduate credits in the program or permission of program director.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

POGO 796: *Directed Readings and Research.* 1-3 credits.
Independent reading and research at master's or doctoral level on specific topic related to policy or government as agreed to by student and faculty member. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 12 credits. Equivalent to BIOD 996, ITRN 790, PUAD 796, PUBP 796.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

800 Level Courses

POGO 801: *Research Design for the Social Sciences and Public Policy.* 3 credits.
Grounds students in the principles of the scientific method as the framework for investigating questions in the social sciences and public policy. Provides broad overviews of quantitative or/and qualitative methodologies, with a major emphasis on research design, including conceptualization, the role of theory, hypothesis generation, inference and bias. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to PUBP 801.

Registration Restrictions:
Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

POGO 840: *Policy, Politics, and American Government Institutions.* 3 credits.
This course examines major institutions that create and implement policy in the United States of America. The course explores executive, legislative, and judicial institutions at the federal, state, and local levels. In addition, the course considers agenda-building institutions such as media, interest groups, political parties, and elections. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to PUAD 840, PUBP 840.

Registration Restrictions:
Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

POGO 841: *U.S. Political Behavior and the Process of Policymaking.* 3 credits.
This course examines the interaction of mass political behavior and the policymaking process in the American political system. Topics include the antecedents to political behavior, including political attitudes and opinions, and the policy consequences of political behavior. Emphasizes how opinions and behaviors aggregate through the interest group system and the policy process. Content is meant to complement that from POGO 840. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to PUBP 841.

Registration Restrictions:
Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

POGO 850: *PhD Professional Development Seminar.* 1 credit.
Weekly colloquium series for Schar school doctoral students. Features a cross-section of speakers from academia, government, industry and non-profit sectors. Topics include all areas of current Schar faculty research and practice.Offered by Policy, Govt, and Intl Affairs. May be repeated within the term for a maximum 4 credits. Equivalent to PUBP 850.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

Portuguese (PORT)

100 Level Courses

PORT 110: *Elementary Portuguese.* 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Offered by Modern & Classical Languages. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Portuguese

200 Level Courses

PORT 201: *Intermediate Portuguese I.* 3 credits.
Further development of skills in listening, speaking, and writing. Notes: PORT 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: PORT 110, or permission of department.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Portuguese

PORT 202: *Intermediate Portuguese II.* 3 credits.
Further development of skills in listening, speaking, and writing. Notes: PORT 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: PORT 201, or permission of department

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

Additional Course Details: Fulfills Frgn Lng requirment, Taught in Portuguese

Professional Development in Education (EDPD)

400 Level Courses

EDPD 402: *Professional Development in Elementary Literacy, and Secondary Education.* 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in elementary, literacy and secondary education. Course may not be applied to a degree program. Offered by School of Education. May be repeated within the term for a maximum 15 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Special scale.

EDPD 406: *Professional Development in Special Education and Disability Research.* 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in special education and disability research. Course may not be applied to a degree program. Offered by School of Education. May be repeated within the term for a maximum 15 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Special scale.

500 Level Courses

EDPD 501: *Professional Development in Advanced Teacher Research and Practice.* 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in advanced teacher research and practices. Notes: Course may not be applied to a degree program. Offered by School of Education. May be repeated within the term for a maximum 15 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EDPD 502: *Professional Development in Elementary, Literacy, and Secondary Education.* 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in elementary, literacy and secondary education. Notes: Course may not be applied to a degree program. Offered by School of Education. May be repeated within the term for a maximum 15 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EDPD 503: *Professional Development in Individual and Organizational Transformation.* 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in individual and organizational transformation. Notes: Course may not be applied to a degree program. Offered by School of Education. May be repeated within the term for a maximum 15 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EDPD 504: *Professional Development in Learning Technologies.* 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in learning technologies. Notes: Course may not be applied to a degree program. Offered by School of Education. May be repeated within the term for a maximum 15 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EDPD 505: *Professional Development in Educational Psychology, Research Methods and Education Policy.* 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in educational psychology, research methods and education policy. Notes: Course may not be applied to a degree program. Offered by School of Education. May be repeated within the term for a maximum 15 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EDPD 506: *Professional Development in Special Education and Disability Research.* 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in special education and disability research. Notes: Course may not be applied to a degree program. Offered by School of Education. May be repeated within the term for a maximum 15 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EDPD 507: *Professional Development in Health and Human Performance.* 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in health and human performance. Notes: Course may not be applied to a degree program. Offered by School of Education. May be repeated within the term for a maximum 15 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EDPD 508: *Professional Development in Sport, Recreation and Tourism.* 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in sport, recreation and tourism. Notes: Course may not be applied to a degree program. Offered by School of Education. May be repeated within the term for a maximum 15 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

Provost (PROV)

100 Level Courses

PROV 110: *Special Topics.* 1-3 credits.
Exploration of leadership in a specific career field(s); changing nature of that industry; understanding of organizational structures in the field(s); and introduction to career and internship opportunities for students who aspire to a career in that field. Offered by Provost's Office. May be repeated within the term.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Non-Degree or Undergraduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Special scale.

PROV 150: *International Experience: Global Understanding.* 0 credits.
This course is designed for students studying abroad for a full semester (e.g. 12-15 credits and not a three week course) to fulfill their Mason Core Global Understanding requirement. Offered by Provost's Office. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

200 Level Courses

PROV 210: *Comprehensive Topics in Leadership.* 1-3 credits.
Comprehensive exploration of leadership in a specific career field(s); changing nature of that industry; understanding of organizational structures in the field(s); and introduction to career and internship opportunities for students who aspire to a career in that field. Offered by Provost's Office. May be repeated within the degree for a maximum 3 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale.

300 Level Courses

PROV 342: *The George Mason Debates in Current Affairs.* 3 credits.
In-depth investigation of one or more contemporary public policy issues. Examines the selected topics as discussed by scholars, public interest groups and think tanks, government officials, and the news media. Texts and guest lecturers presenting a wide range of perspectives are an important feature. Offered by Provost's Office. May be repeated within the degree for a maximum 6 credits.

Mason Core: Synthesis

Recommended Prerequisite: Completion or concurrent enrollment in all other required general education courses.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

600 Level Courses

PROV 601: *Thriving in Your Graduate Program.* 1 credit.
Gaining greater insight into student learning theories, the nature of research and scholarship, higher education trends, and the various career paths available to individuals with graduate degrees is important for students in the early stages of their academic programs. This seminar is designed for early career MFA and doctoral students to facilitate their success as graduate students at Mason. Offered by Provost's Office. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

PROV 699: *Special Topics in Graduate Education.* 0-3 credits.
This course explores selected topics in Graduate Education across all disciplines. When offered, each course will have a course description based on special topics selected for a particular semester. Offered by the Office of the Provost, every offered section will provide graduate students an educational experience with the ultimate goal of maximizing their academic success and well-being. Notes: May be repeated if topics substantially differ. Offered by Provost's Office. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

700 Level Courses

PROV 701: *Preparing for Academic Careers.* 1 credit.
This seminar will be devoted to helping doctoral students explore and prepare for future academic careers and to strengthening their instructional effectiveness. The seminar will provide a clearer understanding of the roles and responsibilities of being a faculty member. Participants will learn how to construct a meaningful statement of teaching philosophy and plan for a course through syllabus design. Notes: This course does not apply to required credits for doctoral degrees. Offered by Provost's Office. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

PROV 801: *Community-engaged Interdisciplinary Methods I.* 3 credits.
This course sequence is designed to provide graduate students with a firm foundation in applying interdisciplinary design thinking to develop creative solutions to real world challenges with the objective of creating actionable knowledge in a community. In close collaboration with community partners, students will receive hands-on training to define problems, understand the challenges associated with data in the real world, collaborate on multidisciplinary teams, communicate with diverse audiences, integrate multiple perspectives including disciplinary knowledge, lived experiences, and community insights, and apply multidisciplinary methods to create actionable knowledge. In the first course, multidisciplinary teams will immerse themselves in community settings to identify and articulate a problem with participation of community stakeholders, and design a proposed solution. Offered by Provost's Office. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Fieldwork

Grading:
This course is graded on the Graduate Regular scale.

PROV 802: *Community-engaged Interdisciplinary Methods II.* 3 credits.
This course sequence is designed to provide graduate students with a firm foundation in applying interdisciplinary design thinking to develop creative solutions to real world challenges with the objective of creating actionable knowledge in a community. In close collaboration with community partners, students will receive hands-on training to define problems, understand the challenges associated with data in the real world, collaborate on multidisciplinary teams, communicate with diverse audiences, integrate multiple perspectives including disciplinary knowledge, lived experiences, and community insights, and apply multidisciplinary methods to create actionable knowledge. In the second course of the series, multidisciplinary graduate student teams will further develop and refine their project deliverable and generate preliminary results, data and/or prototype solutions. Offered by Provost's Office. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Fieldwork

Grading:
This course is graded on the Graduate Regular scale.

Psychology (PSYC)

100 Level Courses

PSYC 100: *Basic Concepts in Psychology.* 3 credits.
Introduces psychology as scientific discipline. Examines concepts and methods in learning, motivation, development, personality, and measurement. Offered by Psychology. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

PSYC 211: *Developmental Psychology.* 3 credits.
Review of major developmental theories including perspectives of childhood, adolescence, adulthood, and old age. Offered by Psychology. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 231: *Social Psychology.* 3 credits.
Study of human behavior development in a social matrix, including such topics as socialization, cultural behavior, group norms, and attitude formation. Offered by Psychology. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 260: *Basic Research Methods in Psychology.* 1-3 credits.
Introduction to research methods in psychology in the context of assisting faculty with research; individualized sections by arrangement with faculty. Methods taught vary but generally include basic data collection and recordkeeping methods in research. Notes: Course culminates in a paper describing techniques learned. No more than 6 credits in PSYC 260, 350, and 460 can be used toward a psychology major. Offered by Psychology. May be repeated within the term.

Recommended Prerequisite: A 3.0 overall G.P.A., and a written proposal approved before registration by the instructor and the department chair.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

PSYC 300: *Statistics in Psychology.* 4 credits.
Descriptive and inferential statistics in design, analysis, and interpretation of psychological research with practical application using computers in laboratory. Notes: Students are strongly encouraged to take PSYC 301 concurrently. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: 6 credits of PSYC and 3 credits of MATH course work or permission of instructor.

Recommended Corequisite: Students are strongly encouraged to take PSYC 301.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 301: *Research Methods in Psychology.* 4 credits.
General research design in psychology, with an emphasis on experimental design and control. Topics include use of human participants in research, reliability and validity, observational methods, and survey and longitudinal designs. Notes: Students are strongly encouraged to take PSYC 300 concurrently. Laboratory work will include designing and running research studies and writing manuscripts using appropriate style and format. Offered by Psychology. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: PSYC 100 and either PSYC 300, STAT 250, or STAT 350 or equivalent.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 304: *Principles of Learning.* 4 credits.
Principles of animal learning, including such topics as classical and operant conditioning, discrimination learning, and animal cognition. Notes: Laboratory projects require working with computer simulations. Offered by Psychology. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: PSYC 300 or permission of instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 309: *Sensation, Perception, and Information Processing.* 4 credits.
Principles of perception, including topics such as psychophysics, perceptual organization, perceptual learning, and perceptual constancies. Notes: Laboratory projects demonstrate and investigate perceptual phenomena. Offered by Psychology. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: PSYC 300 and PSYC 301.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 312: *Educational Psychology.* 3 credits.
Enables students to apply psychological principles to the learning process in the classroom context. Examines the theoretical and applied aspects of learning, motivation, human development, personality, assessment, and evaluation in educational settings. Corresponding implications for effective teaching will be discussed. Offered by Psychology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 313: *Child Development.* 3 credits.
Study of human psychological development from conception to adolescence including such topics as genetic factors, emotional and intellectual growth, and environmental influences. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 100 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 314: *Adolescent Development.* 3 credits.
Study of the biological and cultural changes accompanying adolescence, including the effect of these changes on emotional, intellectual, and social development. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 100 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 317: *Cognitive Psychology.* 3 credits.
An in-depth overview of important topics in cognitive psychology, including memory, attention, pattern recognition, problem solving, reasoning, and psycholinguistics. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: Six credits of psychology or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 320: *Psychological Tests and Measurements.* 4 credits.
Examination and application of principles underlying the theory, interpretation, and administration of psychological tests, including a study of tests of intelligence, achievement, and ability. This course may count for both the Applied Psychology and Experimental Psychology lab requirements or for both the Applied Psychology and Technical Writing requirements. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 300 or permission of instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 321: *Clinical Psychology.* 3 credits.
Examines evidence-based psychological assessment and psychotherapy techniques to understand, prevent, and treat psychological distress and dysfunction and promote well-being. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 325 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 322: *Behavior Modification.* 3-5 credits.
Examination of experimental principles of human and animal learning within theoretical framework of applied behavior analysis, including design, implementation, and evaluation of operant intervention programs across a wide variety of human situations. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 324 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 324: *Personality Theory.* 3 credits.
Introduction to classical and contemporary theories of personality, and comparative evaluation of major theories in terms of relevant studies. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 325: *Abnormal Psychology.* 3 credits.
Study of development of abnormal behavior patterns, including such topics as methods of diagnosis and prevention of serious mental disorders such as psychosomatic disorders, psychoses, character disorders, and intellectual disability. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 100 and either PSYC 211, 231, or 324 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 326: *Therapeutic Communication Skills.* 3 credits.
Introduction to understanding and use of basic therapeutic communication skills used in clinical and counseling psychology. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PSYC 325[C-], 325[XS] or L325.
[C-] Requires minimum grade of C-.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

PSYC 327: *Psychology in the Community.* 3 credits.
Individual placements in applied psychology settings. Notes: A maximum of 6 credits of PSYC 327, 328, 421, and 422 can be applied to the psychology major. Offered by Psychology. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: PSYC major with 6 hours of PSYC and permission of associate chair for undergraduate studies.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 328: *Psychology in the Community Laboratory.* 1 credit.
Consists of a one-hour service learning component linked to selected psychology courses. Notes: A maximum of 6 credits of PSYC 327, 328, 421, and 422 can be applied to the psychology major. Offered by Psychology. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: PSYC major with 6 hours of PSYC and permission of instructor and associate chair for undergraduate studies.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 333: *Industrial and Organizational Psychology.* 3 credits.
Examination of application of psychological principles and methods to problems commonly encountered in business and industry. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 100 and PSYC 300; or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 335: *Psychology of Creativity and Innovation.* 3 credits.
Creativity and innovation take place in many domains such business, science and the arts. Learn the distinction between creativity and innovation. Apply findings from the scientific literature about the antecedents of creativity and innovation including emotions, cognition, individual differences, and social contexts. Experiment with ways to enhance your creativity and skills for innovation. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 340: *Human Factors Psychology.* 3 credits.
Reviews history and current practice of optimal product and system design as a function of psychology. Includes a brief history of human factors psychology, a review of human memory and attentional systems as they relate to product and system design, and an introduction to current methods used to analyze and redesign products and systems for optimal human interaction. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 350: *Directed Reading and Research in Psychology.* 1-3 credits.
Library research in psychology, culminating in a substantial formal paper; individualized sections by arrangement with faculty. Notes: No more than 6 credits in PSYC 260, 350, and 460 can be used toward psychology major. Offered by Psychology. May be repeated within the term.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 362: *Psychology of Gender.* 3 credits.
Behavior and attitudes of women; influence of chromosomes and hormones on behavior, influence of culture on sex role differentiation, and theories of sex role development. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 100, BIOL 103, and BIOL 104 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 372: *Biopsychology.* 3 credits.
Survey of neuroscience, including basic neuroanatomy, neural and synaptic transmission, neural mechanisms underlying normal and abnormal behavior, and biological mechanisms of drug action. Students may earn credit for PSYC 372 and either PSYC 375 or PSYC 376, but they may not earn credit for all three. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 100, BIOL 103 with BIOL 106 & BIOL 107; or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 373: *Biopsychology Laboratory.* 2 credits.
Functional anatomy and physiology of the brain, including dissection of brain and eye, and a demonstration and practice in research methods for studying physiological mechanisms underlying behavior. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 372 or 375, or permission of instructor. Concurrent enrollment is also permitted.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 375: *Brain and Sensory Processes.* 3 credits.
First half of comprehensive survey of neuroscience, including basic neuroanatomy, neural and synaptic transmission, neural mechanisms underlying normal and abnormal behavior, and biological mechanisms of drug action. Notes: Students may earn credit for 372 and either 375 or 376, but they may not earn credit for all three. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 100 with a grade of C- or better, and BIOL 103, BIOL 106 & 107, or BIOL 213; or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 376: *Brain and Behavior.* 3 credits.
Second half of a comprehensive survey of neuroscience, including neural mechanisms underlying normal and abnormal behavior. Notes: Students may earn credit for 372 and either 375 or 376, but they may not earn credit for all three. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PSYC 372[C], 372[XS], 375[C], 375[XS], L372 or L375.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 379: *Applied Cross-Cultural Psychology.* 3 credits.
A review of important landmarks in cross-cultural research, showing how this research impacts psychology as a discipline. Emphasizes an empirical approach to cross-cultural study and includes topics such as theoretical and empirical developments in cross-cultural psychology, development of coherent schemas to guide cross-cultural research and interventions, comparison of psychology's goals and assumptions in Western and other cultures, and integration of course materials into educational and career goals of students. Offered by Psychology. Limited to three attempts.

Mason Core: Global Understanding

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 380: *Introduction to Forensic Psychology.* 3 credits.
Explores the differing, yet varied facets of the field of forensic psychology including landmark legal cases relevant to psychology, potential careers in forensic psychology, police psychology, expert testimony, forensic psychological assessment, psychopathy, homeland security, ethics, correctional psychology, and issues in working in the juvenile justice system. Offered by Psychology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 381: *Mental Illness and Criminal Justice.* 3 credits.
Examines the frequent intersection of individuals diagnosed with severe mental illness and the criminal justice system. Includes case studies that demonstrate possible judicial, therapeutic, correctional, and post-adjudication outcomes. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 325.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 382: *Psychology of Crime Victims.* 3 credits.
Explores short-term and long-term psychological effects of crime on victims through interviews with survivors of childhood abduction, elder abuse, intimate partner violence, and child abuse, among others. Evaluates roles and responsibilities of mental professionals and law enforcement when interacting with crime victims. Offered by Psychology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 399: *Psychology: College to Career.* 3 credits.
Emphasizes development and readiness for a profession in the social sciences through self-assessment and professional skill acquisition. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: At least 30 hours of completed college coursework and a declared major in the social sciences or permission of the instructor.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

PSYC 405: *Mystery, Madness, and Murder.* 3 credits.
Multidisciplinary approach to taboo topics that fascinate and frighten us. Instructors from disciplines across the arts and sciences bring expertise and diverse perspectives to provocative issues such as cannibalism and serial murder. Students learn to think critically and objectively while examining use in myth, literature, and popular culture. Offered by Psychology. Limited to three attempts.

Mason Core: Synthesis

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 406: *Psychology of Communication.* 3 credits.
An examination of the behavior of communicating across species and sensory modalities, with an emphasis on the evolutionary basis for the various communication strategies used by animals and humans. Offered by Psychology. Limited to three attempts.

Mason Core: Synthesis

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 408: *Psychological Fitness.* 3 credits.
Evaluates and applies scientific research on psychological exercises to increase one's cognitive, behavioral, emotional, and physical health. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 100.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 410: *The Psychology of Environmental Stewardship.* 3 credits.
Reviews theory and research from social psychology on encouraging behavioral and lifestyle changes that contribute to the conservation of natural resources and lead to reductions in harm to the environment. Theories reviewed include the theory of reasoned/action planned, social norms theories, and theories of self-regulation as applied to the conservation of energy, water, green spaces, and other issues. Offered by Psychology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 414: *Behavior Disorders of Childhood.* 3 credits.
Review of the theories, methods, and research dealing with emotional and behavioral disorders of children. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 313 and 325 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 415: *Psychological Factors in Aging.* 3 credits.
Examination of the sensory, perceptual, intellectual, personality, health, and familial changes that occur as people age and adjust into their later years. Common and more serious adjustment difficulties and developments are discussed with attention to impacts on the individual and the family. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 417: *Science of Well Being.* 3 credits.
This course will examine and interpret the latest research in social, personality, and clinical psychology on well-being, character strengths, and personal growth. Emphasis will be placed on the ways in which scientists generate hypotheses regarding the nature of positive psychological traits and processes and the methods by which these ideas are tested. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 100 or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 418: *Death, Dying, and Grieving.* 3 credits.
Advanced survey of processes of grieving and their relationship to death and dying. Topics include ways of dying, effects of death on loved ones, and care for the terminally ill. Offered by Psychology. Limited to three attempts. Equivalent to PSYC 518.

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 423: *Group Psychotherapy Techniques.* 3 credits.
Review of theory and methods of group therapy with emphasis on humanistic and interpersonal approaches, including applications to family therapy, alcoholism, and drug abuse. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 324 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 427: *Community Engagement for Social Change.* 3 credits.
Explores social problems and interpersonal, intrapersonal, and social aspects of addressing them. Addresses both theoretical aspects of social problems through readings and class discussion and application through community service. This course may count for both Applied Psychology and Professional Development requirements. Offered by Psychology. Limited to three attempts.

Mason Core: Synthesis

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 430: *Clinical Practicum in Psychology.* 3 credits.
Gain professional experience in a clinical setting. This course takes place at the GMU Center for Psychological Services, a mental health training center that serves the community. Enrolled students provide reception room service to clients at the center, learning aspects of the center administration and acquiring relevant skills in the field. This course may count for both Applied Psychology and Professional Development requirements. Offered by Psychology. May be repeated within the degree for a maximum 6 credits.

Schedule Type: Fieldwork

Grading:

This course is graded on the Undergraduate Regular scale.

PSYC 435: *Personnel Training and Development: A Psychological Perspective.* 3 credits.
Overview and critique of training methods used in industry from viewpoint of psychological theory, including simulations, on-the-job training, supervisory/leadership skills training, computer-assisted instruction, and programmed texts. Principles of needs analysis, program development, and program evaluation are discussed within framework of industrial psychology. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 333, PSYC 320 (may be taken concurrently) or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 440: *Forensic Psychology: Science and Pseudoscience.* 3 credits.
Provides a critical, evidenced-based, examination of common psychological practices and constructs in the field of forensic psychology including psychological assessments, expert testimony, risk assessment, hypnosis, criminal profiling, polygraph examination, and methods of interrogation. Offered by Psychology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 441: *Criminal Behavior: Psychological and Neurological Aspects.* 3 credits.
Considers the psychological factors and structural and functional neurological differences that influence criminal behaviors including murder, sexual assault, fraud, intimate partner violence, and arson. The predictive and explanatory abilities of neuroimaging with respect to the criminal acts in question, as well as the role of neuroimaging in the judicial system, will also be explored. Offered by Psychology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 460: *Independent Study in Psychology.* 1-4 credits.
Advanced research methods in psychology in context of individual student projects or assisting with research on faculty projects; individual sections by arrangement with faculty. Notes: No more than 6 credits in PSYC 260, 350, and 460 can be used toward psychology major. Offered by Psychology. May be repeated within the term.

Recommended Prerequisite: 18 credits of PSYC, including PSYC 301 (grade of C or better), a 2.500 GPA in PSYC, and a written proposal approved before registration by the instructor and the department.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 461: *Special Topics.* 1-3 credits.
Selected topics reflecting interest in specialized areas. Notes: Topic announced in advance. May be repeated when topic is different. Offered by Psychology. May be repeated within the term.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 462: *Selected Topics in Forensic Psychology.* 3 credits.
Selected topics reflecting interest in forensic psychology. Notes: May be repeated for credit when topic is different. Offered by Psychology. May be repeated within the term.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 465: *Pioneering Ideas in Psychology.* 3 credits.
Historical background and major theoretical systems in modern psychology. Approaches include behaviorism, cognitive/information processing approaches, and psychodynamic theories. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 466: *Psychology of Intimate Relationships.* 3 credits.
Advanced survey of theories and research related to intimate relationships, including romantic relations and those among family members and friends in diverse cultural and relationship contexts. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 100 and PSYC 231; PSYC 324 recommended.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 467: *The Psychology of Working in Groups and Teams.* 3 credits.
Teaches knowledge and the skills to meet communication, interpersonal, and task-related challenges that arise when functioning in work teams. Through readings, classroom activities, and applied problem-solving exercises, students acquire or refine team-related competencies. Students study theory of group and team processes while gaining insight from feedback on their behavior in exercises to become more effective team members. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: 60 credit hours, including PSYC 100, or permission of instructor.

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

PSYC 472: *Current Topics in Brain and Behavior.* 3 credits.
Rotating topics. Physiological mechanisms underlying behavior. Selected topics include neuronal bases of learning and memory, Alzheimer's disease, and biological bases of addiction. Notes: May be repeated with approval of instructor. Offered by Psychology. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: PSYC 372 or PSYC 375, and PSYC 376; or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 480: *Biological Bases of Alzheimer's Disease.* 3 credits.
A survey of the causes, symptoms, drug treatments, risk factors and preventative measures associated with Alzheimer's disease. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 375, PSYC 376, equivalent course, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 490: *Psychology Honors I.* 3 credits.
Review of topics and issues in psychology, including historical overview, theory and supporting data, and influences on behavior. Notes: Topics vary. Offered by Psychology. Limited to three attempts.

Specialized Designation: Mason Impact.

Recommended Prerequisite: Admission to psychology department Honors program.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 491: *Psychology Honors II.* 3 credits.
Introduces advanced statistics, research methodologies, statistics packages, computing and information technology, and library technology appropriate for psychological research and pedagogy. Notes: Students required to complete proposal in preparation for admission to Psychology Honors III. Offered by Psychology. Limited to three attempts.

Specialized Designation: Mason Impact.

Recommended Prerequisite: PSYC 300, 305 and 490.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 492: *RS: Psychology Honors III.* 3 credits.
Completion of final honors project or thesis. Students must complete project or thesis, and present oral defense to committee and poster to class. Students also expected to prepare proposal to present project or thesis at regional or national conference, or prepare manuscript for publication in appropriate journal. Offered by Psychology. Limited to three attempts.

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: PSYC 491 and approval of final honors project for thesis.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

PSYC 499: *Senior Thesis.* 3 credits.
Directed research on topic agreed on by student and advisor. Notes: Students should take PSYC 460 with same advisor to develop thesis proposal before registering for PSYC 499. Students must complete thesis and defend it orally before advisor and two faculty members. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: Psychology major with 84 hours, an experimental psychology laboratory course, PSYC 460, Permission of Instructor, and prior approval of thesis proposal.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

PSYC 518: *Death, Dying, and Grieving.* 3 credits.
Advanced survey of processes of grieving and their relationship to death and dying. Topics include ways of dying, effects of death on loved ones, and care for the terminally ill. Offered by Psychology. May not be repeated for credit. Equivalent to PSYC 418.

Recommended Prerequisite: PSYC 100

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 530: *Cognitive Engineering: Cognitive Science Applied to Human Factors.* 3 credits.
Application of cognitive theory to understand and predict interactions among human cognition, artifact, and task. Discusses recent research and case studies that emphasize empirical research, analytical modeling techniques, systems design, and development of tools and methods. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: An experimental lab course or permission of instructor.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 531: *Mammalian Neurobiology.* 3 credits.
Functional anatomy of brains of mammals, with emphasis on regional and systems neuroanatomy of humans. Anatomy correlated with material from clinical neurology where possible. Laboratory component includes brain dissections and clinical correlations. Offered by Psychology. May not be repeated for credit. Equivalent to BIOL 516.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 552: *Histology/Histochemistry of the Brain.* 4 credits.
Explores conceptual basics and provides hands-on experience in techniques for studying brain tissue, including stereotaxic surgery, perfusion, sectioning, Nissl and myelin stains, enzyme histochemistry, immunohistochemistry, in situ hybridization, and quantitative receptor autoradiography. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 372 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 555: *Neuroimaging.* 3 credits.
Covers functional magnetic resonance imaging (fMRI) methods, experimental design and analysis issues in fMRI, structural MRI techniques and how they can contribute to cognitive neuroscience, and event-related potential methods. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: Graduate enrollment in either Cognitive & Behavioral Neuroscience or Human Factors & Applied Cognition programs, or instructor approval.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 557: *Psychometric Methods.* 3 credits.
Examines concepts of psychological measurement with emphasis on predictor test and criterion development. Discusses reliability, validity, and specialized techniques to develop tests of ability, interest, and personality. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 611 or permission of instructor

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 558: *Neuronal Bases of Learning and Memory.* 3 credits.
Examines neuronal mechanisms involved in learning and memory, in animals ranging from invertebrates to humans. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 372, or 375 and 376; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 559: *Behavioral Chemistry.* 3 credits.
Neurochemistry and neuroendocrinology, including neurotransmitter synthesis, genetic aspects of neural functioning, mechanisms of action of neurotransmitters and second messenger systems, regulation of neuroendocrine systems, neuroendocrine effects on behavior, and neuroimmunology. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 372, or 375 and 376; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 562: *Research Methods in Human Experimental Psychology.* 3 credits.
Hands-on approach to selected current and/or classical human experimental psychology research methods. Course topics include experimental design, including psychophysical and physiological experimentation. In addition, mathematical, cognitive modeling and simulation, as well as advanced statistical techniques will be covered. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: Graduate enrollment in either Cognitive and Behavioral Neuroscience or Human Factors and Applied Cognition programs.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 563: *Laboratory Methods in Cognitive and Behavioral Neuroscience.* 3 credits.
Specialized instruction on a variety of laboratory methods that could include EEG (event related potentials and oscillations), brain stimulation (eg., tDCS, TMS), histological, genetic, electrophysiological, and/or behavioral techniques, depending on the instructor/semester. Specific topic will vary from section to section. May be repeated for credit as long as it is a different section/topic. Upper level undergraduate students may register with permission of instructor. Offered by Psychology. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 566: *Cognitive and Perceptual Development.* 3 credits.
Survey of theory and the research on development of perception, memory, concepts, problem solving, intelligence, and academic skills in children. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: 6 credits of child psychology and course in experimental psychology or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 592: *Special Topics.* 1-6 credits.
Special topics reflecting interests in specialized areas. Notes: Topic announced in advance. May be repeated when topic is different. Offered by Psychology. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 597: *Directed Reading and Research.* 1-6 credits.
Independent reading or research on topic agreed on by student and faculty member. Notes: Directed reading or research for MA students in psychology. Offered by Psychology. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

PSYC 598: *Introduction to the Science and Practice of Industrial and Organizational Psychology.* 3 credits.
Introduces students to the building blocks of I-O Psychology and developing key competencies for their success in the Master of Professional Studies in Applied and Industrial and Organizational Psychology program. Course topics include an overview of I-O theory, applied research methods, data analytics, ethics, and demographic diversity. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

PSYC 601: *Applied Data Analysis in Psychology I.* 3 credits.
Introduces fundamental statistical concepts for applied psychological research. Concepts include descriptive statistics, inferential statistics and hypothesis testing, Analysis of Variance, and Linear Regression. The course presents these topics from an applied perspective and also covers data visualization and presentation of results to clients. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 602: *Applied Data Analysis in Psychology II.* 3 credits.
Covers advanced statistical concepts and approaches for applied psychological research, such as multivariate techniques, longitudinal analyses, and other more complex approaches. A key emphasis will be on using these techniques to assess applied issues, such as return on investment of interventions and utility analyses. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 603: *Psychological Research Methods.* 3 credits.
Covers basic principles of research methods for applied psychology contexts. The focus on this course is on learning how to interpret and design research studies and survey measures. Topics include basic concepts important to survey design and research methods, and overview of types of research design, and basic issues related to communication of research to lay audiences. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 611: *Advanced Statistics.* 4 credits.
Integrates basic psychological statistics and measurement issues from advanced perspective. Lab work includes using computer packages for data handling and analyses. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students with a major in Psychology.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Special scale.

PSYC 612: *Advanced Statistics.* 4 credits.
Open only to degree students. Integrates basic psychological statistics with overview of research methodology including experimental, quasi-experimental, field approaches, and measurement issues from advanced perspective. Lab work includes use of computer packages for data handling and analyses. Notes: Students must enroll in 611 and 612 in sequential semesters. Offered by Psychology. May not be repeated for credit.

Recommended Corequisite: Open only to degree students.

Registration Restrictions:
Required Prerequisite: PSYC 611[B].
[B] Requires minimum grade of B.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 614: *The Psychology of Aging.* 3 credits.
Review of the experimental literature in psychology of aging, including intellectual functioning, personality and adjustment, minor and major adjustment problems, and role changes in later life. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 100 and undergraduate or graduate course in aging.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 615: *Language Development.* 3 credits.
Seminar covering theory and research on acquisition of language, including biological and environmental influences and constraints; research methods; role of parents; individual and cultural differences; links between language and other domains of development including cognitive, behavioral, social, and emotional; language and the brain; animal language; bilingualism; and atypical language development. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: 3 credits graduate Developmental Psychology or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PSYC 616: *Employee Selection.* 3 credits.
Study of administration, scoring, and interpretation of standard tests used by industry for selection and assessment of personnel. The focus is on understanding and applying evidence-based best practices. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 618: *Applied Leadership in the Workplace.* 3 credits.
Covers major theories of leadership in organizations. Includes a focus on strategies for leadership assessment, selection, and development, and also examines strategies for staffing and building high performance teams. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 619: *Applied Behavior Analysis: Principles, Procedures, and Philosophy.* 3 credits.
Focuses on basic principles and procedures of applied behavior analysis; identification of factors that contribute to behavioral problems and improved performance; and procedures that can be used to minimize behavioral problems, improve performance, teach new behaviors, and increase probability of behaviors occurring under appropriate circumstances. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 620: *Motivation and Well-Being.* 3 credits.
Covers major theories of work motivation and well-being, with an emphasis on understanding valid tools for measuring motivation and well-being and evidence-based approaches for enhancing motivation and well-being in organizational contexts. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 622: *Applied Teamwork in the Workplace.* 3 credits.
The purpose of this class is to cover major theories concepts of teamwork in organizations. The course also includes a focus on strategies for assessing, training, staffing and building teams. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Non-Degree level students may **not** enroll.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 626: *Organizational Change and Development.* 3 credits.
Covers principles and strategies for facilitating effective organizational change and growth. Topics include principles of organizational growth, organizational diagnosis, the design of effective organizational interventions, leading and managing organizational change, and strategies for evaluating and calibrating organizational change. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

PSYC 627: *Performance Management.* 3 credits.
Focuses on developing competencies in designing, implementing, and evaluating systems that measure and evaluate employees' individual performance within the organizational context, as well as the performance of organizational units. Includes developing skills and knowledge to develop tools for providing feedback at the individual and the group/organizational level. Emphasis will be on evidence-based management practices and the dynamic nature of workplaces. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 628: *Benefits and Compensation.* 3 credits.
Provides an understanding of a variety of approaches for rewards, recognition, and compensation systems. Covers the underlying theoretical frameworks for the design and implementation of such systems on attraction, retention, motivation, and performance of employees, as well as the existing empirical evidence to support these propositions. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 629: *Workplace Training.* 3 credits.
Covers principles and strategies of effective training. Topics include assessment of training needs, development of effective instructional designs, strategies for facilitating training transfer, and techniques of program evaluation. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 631: *Industrial and Personnel Testing and Evaluation.* 3 credits.
Study of administration, scoring, and interpretation of standard tests used by industry for selection and assessment of personnel. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 300 and 320.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 633: *Evaluative Research in Psychology.* 3 credits.
Examines research techniques specifically designed to evaluate human effectiveness of organizations and mental health programs. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 300 or Permission of Instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 636: *Survey of Industrial-Organizational Psychology.* 3 credits.
Intensive survey of historical and current issues in major areas of industrial and organizational psychology. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 300 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 637: *Foundations of Industrial Psychology.* 3 credits.
Intensive survey of historical and current issues in major areas of applied (nonclinical) psychology. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 300 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 638: *Training: Psychological Contributions to Theory, Design, and Evaluation.* 3 credits.
Focuses on applying learning principles derived from psychological research in development of training models and techniques of skill acquisition. Discusses research designs and empirical results appropriate to training evaluation. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 636 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 639: *Survey of Organizational Processes.* 3 credits.
Trains at conceptual/theoretical and empirical levels in organizational processes. Includes individual, interpersonal, intra-group, and intergroup phenomena as they exist in context of organizational settings. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 333 or 632.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 640: *Techniques in Industrial/Organizational Psychology.* 3 credits.
Skills-oriented course enabling students to construct instruments and perform functions critical to both researchers and practitioners in industrial/organizational psychology. Focuses on conducting job analysis interviews, developing and scoring task inventories, using critical incident and KSAO methods, and constructing performance appraisal and selection instruments. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 300 or Permission of Instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 641: *Foundations of Organizational Psychology.* 3 credits.
Trains at conceptual/theoretical and empirical levels in organizational processes. Includes individual, interpersonal, intra-group, and intergroup phenomena as they exist in context of organizational settings. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 333 or 632.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 644: *Methods for Social Research.* 3 credits.
Examines issues in basic and applied social science methodology including internal validity, causal generalization, and construct validity. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PSYC 645: *Research Methods in Human Factors and Applied Cognition.* 3 credits.
Hands-on approach to selected current or classical human factors/applied cognition research methods; exact methods announced in advance. Potential methods include cognitive task analysis, usability evaluation methods, critical incident analysis, reliability analysis, workload measures, verbal protocol analysis, and engineering models

of human performance. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 530 and 611.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 646: *Longitudinal Data Analysis.* 3 credits.
Examines techniques for measuring developmental change across lifespan. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 611

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 648: *Developmental Psychopathology.* 3 credits.
In-depth look at emerging discipline of developmental psychopathology. Discusses specific disorders and contexts to illustrate how knowledge of normal development, deviant development, and maladaptive behavior illuminates principles underlying adaptive functioning. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: 6 credits graduate developmental psychology.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PSYC 651: *Doing Social Network Research in Psychological Science.* 3 credits.
This course is an overview and application of social network analysis (SNA) concepts and tools to understand how social networks promote and constrain individual and group outcomes from a psychological perspective. SNA software (R-packages) are used to characterize people's social network structure and dynamics. Students have the opportunity to apply SNA in their own areas of interest within psychology. Offered by Psychology. Limited to three attempts.

Recommended Prerequisite: PSYC 611 and either PSYC 754: Multiple Regression or ANOVA

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PSYC 652: *Quantitative Methods II: Analysis of Variance.* 3 credits.
Basic concepts in experimental design, fundamental assumptions in analysis of variance, and analysis of variance and covariance designs. Reviews multiple comparison tests. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (PSYC 611[B-] or 611[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 654: *Naturalistic Methods in Psychology.* 3 credits.
Theory and techniques involved in studying people in their natural environment. Primary emphasis on quasiexperimental designs and methods of systematic observation. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 300 and either 304, 305, or 309.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 667: *Behavior in Small Groups and Teams.* 3 credits.
Theories, methods, and topics relevant to individual behavior in small group setting. Includes effects of individual on group, effects of group

on individual, and interaction effects among individuals. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 231.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Psychology.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 668: *Personality: Theoretical and Empirical Approaches.* 3 credits.
Presents comprehensive overview of current theoretical and empirical approaches to personality. Emphasizes areas of special relevance to clinical, developmental, and industrial/ organizational psychology. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 324 (or equivalent) or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 669: *Social and Emotional Development.* 3 credits.
Surveys theory and research relevant to development of social relationships, emotional expressiveness and regulation, aggressive and altruistic behaviors, sex roles, and morality. Emphasizes influences on such development, including parents, other adults, peers, siblings, and broader culture. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: Six hours of developmental psychology or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 685: *Cognitive Neuroscience.* 3 credits.
Provides an overview of the neural basis of human mental functions. Uses neuroimaging (PET, fMRI, ERPs, TMS, etc.), computational, and information-processing methods to examine functions such as attention, memory, language, emotion, and decision making. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

PSYC 701: *Cognitive Bases of Behavior.* 3 credits.
Surveys concepts in learning, cognitive, and affective processes, including theories and supporting data and their influences on behavior. Notes: Open only to degree students. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Adv Grad Studies in Sch Psych or Psychology.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 702: *Biological Bases of Human Behavior.* 3 credits.
Surveys biological bases of behavior, including such topics as neural conduction, role of specific neurotransmitters, cortical functioning, and brain disorders. Notes: Open only to degree students. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

PSYC 703: *Social Bases of Behavior.* 3 credits.
Surveys social influences on behavior, including group processes, person perception, and attitude formation. Notes: Open only to degree students. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 704: *Life-Span Development.* 3 credits.
Surveys theories and research regarding lifespan development and personality formation. Notes: Open only to degree students. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: Admission to graduate program in psychology.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 707: *Emotional Bases of Behavior.* 3 credits.
Surveys major theories and research in emotion, including its development, cognitive and neurological bases, clinical implications, and social functions. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PSYC 730: *Practicum in Applied Psychology.* 1-6 credits.
Practical experience in organizational setting as assigned. Notes: PhD students may repeat course for a maximum of 15 credits; MA students for a maximum 6 credits. Offered by Psychology. May be repeated within the degree for a maximum 15 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Adv Grad Studies in Sch Psych or Psychology.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale.

PSYC 733: *Issues in Personnel Psychology.* 3 credits.
Examines psychological literature on job analysis, job evaluation and compensation, performance appraisal, training, and EEOL selection issues. Methodological and psychometric issues in interpretation and evaluation of personnel psychology research receive particular attention. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 636 or permission of instructor.

Registration Restrictions:
Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 734: *Seminar in Human Factors and Applied Cognition.* 3 credits.
Emphasizes current research and application of human factors, ergonomics, applied cognition, and applied perception. Notes: May be repeated when topic is different. Offered by Psychology. May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: Six graduate credits in Human Factors and Applied Cognition or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PSYC 737: *Psychology of Human-Technology Interaction.* 3 credits.
Emphasizes current research and development in human-computer interaction, cognitive systems engineering, cognitive ergonomics, and cognitive engineering. Notes: May be repeated when topic is different. Offered by Psychology. May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: 6 graduate credits in human factors and applied cognition or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 739: *Seminar in Industrial/Organizational Psychology.* 3 credits.
Rotating topics such as leadership theories and management development, and performance appraisal. Notes: Topics announced in advance. May be repeated when topic is different. Offered by Psychology. May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: PSYC 333 and 636, or permission of instructor.

Registration Restrictions:
Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PSYC 741: *Psychology of Work Motivation.* 3 credits.
Examines psychological literature of need, cognitive, and reinforcement theories of motivation; organizational attachment (commitment, absenteeism, and turnover); job design and quality of work issues. Emphasizes methodological and psychometric issues in interpreting and evaluating work-motivation research. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 333 or permission of instructor.

Registration Restrictions:
Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 742: *Careers.* 3 credits.
This graduate seminar surveys career studies from an interdisciplinary perspective, with an emphasis on psychological theories and research. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PSYC 743: *Behavior and Performance at Work.* 3 credits.
Advanced, research-based analysis of employee behavior and performance in organizational settings. Topics covered include performance appraisal and management, organizational citizenship behavior, counterproductive (deviant) work behavior, and employee withdrawal (primarily lateness, absenteeism, and turnover), along with coverage of timely issues such as within-person performance variability, adaptive performance, and star performers. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 611 and PSYC 754 or equivalent and PSYC 636 and PSYC 639 or equivalent

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PSYC 754: *Multiple Regression.* 3 credits.
Reviews psychological applications of regression techniques in variety of contexts including experimental, field, and survey settings. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (PSYC 611[B-] or 611[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Graduate.

Non-Degree level students may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 756: *Quantitative Methods IV: Multivariate Techniques in Psychology.* 3 credits.
Surveys multivariate statistical techniques as applied to psychological research. Emphasizes analysis of complex designs and interpretation of multivariate data analyses resulting from computer processing. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 611

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Non-Degree level students may **not** enroll.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

PSYC 757: *Advanced Topics in Statistical Analysis.* 3 credits.
Focuses on noncognitive individual differences that predict performance. Published work discussed in seminar format with emphasis on conceptual development, methodological adequacy, and new directions. Notes: May be repeated for credit when topic is different. Offered by Psychology. May be repeated within the degree.

Specialized Designation: Topic Varies

Recommended Prerequisite: PSYC 754.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 768: *Advanced Topics in Cognitive Science.* 3 credits.
Emphasizes current research in cognitive science. Topics may include computational cognitive models, nature of expertise, diagrammatic reasoning, display-based problem solving, visual attention, decision making, goal-based versus event-based cognition, and situated action. Notes: May be repeated when topic is different. Offered by Psychology. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: PSYC 530 or 701.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 780: *Applied Developmental Psychology.* 3 credits.
Examines how developmental theory, knowledge base, and methodology can be used to promote health and welfare of individuals across lifespan. Topics include contemporary social issues and child development, research in applied settings, developmental assessment and intervention, and program evaluation. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 704 or 3 credits of other graduate developmental psychology courses and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 792: *Psychology Practicum.* 1-6 credits.
Supervised experience working in applied, school, or agency settings. Offered by Psychology. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Admission to psychology graduate program.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

PSYC 794: *Developmental Assessment.* 1-6 credits.
Introduces considerations and methods needed for evaluating young children (ages two - six). Focus on the skills necessary for formulating, conducting, and reporting comprehensive developmental evaluations. Emphasizes evaluation of preschool children and includes information relating to infants, as well as older children functioning at lower developmental levels. Offered by Psychology. May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: Admission to applied developmental psychology program.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 798: *Thesis Proposal.* 1-6 credits.
Work on a proposal for master's thesis. Offered by Psychology. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Permission of program coordinator.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

PSYC 799: *Master's Thesis.* 1-6 credits.
Research on approved master's thesis topic under direction of thesis committee with approval of chair. Offered by Psychology. May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

PSYC 810: *Psychological Assessment I.* 4 credits.
First of required two-course sequence that provides comprehensive coverage of principles, strategies, and techniques of psychological assessment. Emphasizes empirically supported methods. Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 811: *Psychological Assessment II.* 4 credits.
Second of required two-course sequence that provides comprehensive coverage of principles, strategies, and techniques of psychological assessment. Emphasizes empirically supported methods. Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: PSYC 810.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 813: *Supervision, Consultation, and Interprofessional Skills.* 3 credits.
Offers advanced graduate students in health service psychology a foundation in supervision, consultation, and interprofessional/ interdisciplinary knowledge and skills. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 822: *Scientific Foundations of Clinical Psychology I.* 3 credits.
First of required two-course sequence that provides comprehensive coverage of major psychological problems, including review of empirically supported interventions. Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 830: *History, Systems, and Theories of Personality and Psychotherapy.* 3 credits.
Review of history, systems, and theories of clinical psychology emphasizing traditional theories of personality and psychotherapy. Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: Admission to doctoral concentration in clinical psychology.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 833: *Social And Cognitive Foundations Of Clinical Psychology.* 3 credits.
Review of theory and research in social psychology (particularly social cognition) relevant to understanding psychological adjustment, adjustment problems, and clinical interventions. Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 850: *Teaching Practicum in Psychology.* 1-3 credits.
Workshop in effective teaching of selected undergraduate psychology courses. Required of and designed to guide graduate teaching assistants assigned to teach undergraduate course (not a lab) for first time. Topics include course planning, syllabus development, lecture resources, effective lecturing skills, use of audio visuals, leading of classroom discussion, construction and grading of exams, student writing, instructional technology, and handling of student questions and problems. Individual critiques of teaching. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Special scale.

PSYC 855: *Social, Cognitive, and Affective Foundations of Behavior.* 3 credits.
This course is designed to provide foundational knowledge, as required by the APA Commission on Accreditation, for graduate training in professional psychology, with a specific focus on the areas of social, cognitive, and affective bases of behavior. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 856: *Diversity, History and Clinical Psychology.* 3 credits.
In all of their roles, clinical psychologists have the potential to engage with diverse populations thoughtfully, ethically, intentionally, and in a way that promotes justice. This class equips students with the foundational knowledge, awareness and skills to reach this goal. The class builds awareness of the ways in which social identity influences our perceptions, interactions, and professional endeavors, and introduces students to the ways in which psychology has both perpetuated oppression and interrupted injustice in its distant and recent history. Students end the semester with training goals for growing their capacity to engage with our diverse society thoughtfully and intentionally. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 860: *Introductory Helping Skills and Motivational Interviewing.* 3 credits.
Teaches fundamental interviewing skills and the theory, research, and practice of motivational interviewing. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PSYC 861: *Cognitive Behavioral Therapy for Youth.* 3 credits.
Teaches the selection, evaluation, and application of empirically supported interventions for children and adolescents with a focus on cognitive-behavioral interventions. Instruction in evidence based assessments, cognitive-behavioral case conceptualization, outcome evaluation, and consultation. Supervision of cognitive-behavioral therapy with youth. Offered by Psychology. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

PSYC 862: *Cognitive Behavioral Therapy for Adults.* 3 credits.
Teaches the principles of cognitive-behavioral theory, conceptualization and psychotherapy techniques for psychological problems with adults. Supervision of cognitive-behavioral therapy with adults. Offered by Psychology. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

PSYC 881: *Practicum in Clinical Psychology.* 1-3 credits.
Supervised clinical work in a professional psychological services setting. Usually includes practice in psychological assessment and clinical interventions, but can also include supervision, consultation, and program evaluation. Offered by Psychology. May be repeated within the term for a maximum 21 credits.

Recommended Prerequisite: Admission to doctoral concentration in clinical psychology and permission of director.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

PSYC 883: *Ethical and Professional Issues in Clinical Practice.* 3 credits.
Examines ethical principles and professional guidelines to help develop ethical decision-making and behavior to meet the appropriate standards of care in providing clinical services. Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PSYC 885: *Clinical Externship.* 0 credits.
Individual placements in psychological assessment or psychotherapy service settings. Notes: Open only to clinical psychology PhD students in the third year or more of training. Offered by Psychology. May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale.

PSYC 889: *Structural Equation Modeling and Meta-Analysis.* 3 credits.
Offers advanced instruction on meta-analysis and structural equation modeling (SEM). The meta-analysis portion teaches students scoping and formulating a research question, searching for effect sizes, coding for study information, conducting and interpreting the analyses, and reporting results. The SEM portion of the course covers topics such as confirmatory analysis, mediation and moderation with latent variables, multiple-group SEM, invariance testing, and longitudinal analysis within SEM. Offered by Psychology. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((PSYC 611[B-] or 611[XS]) and (PSYC 754[B-] or 754[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 890: *Seminar in Professional Psychology.* 1-3 credits.
Each section limited to students in one concentration of MA or PhD program. See area coordinator for requirements for section in each track. Offered by Psychology. May be repeated within the term for a maximum 3 credits.

Recommended Prerequisite: Student in psychology.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

PSYC 892: *Special Topics in Psychology.* 1-6 credits.
Selected topics reflecting specialized areas in psychology. Notes: Open only to PhD students. Content varies. May be repeated when topic is different. Offered by Psychology. May be repeated within the term for a maximum 17 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PSYC 897: *Directed Reading and Research.* 1-3 credits.
Independent reading on topic agreed on by student and faculty member. Notes: PhD students in the clinical psychology concentration may not take this course for elective credit. May not be repeated for credit towards a degree by students who also register for PSYC 799. Offered by Psychology. May be repeated within the term.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

PSYC 998: *Doctoral Dissertation Proposal.* 1-6 credits.
Work on research proposal that forms basis for doctoral dissertation. Notes: No more than 24 credits of PSYC 998 and 999 may be applied to doctoral degree requirements. Offered by Psychology. May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

PSYC 999: *Doctoral Dissertation.* 1-9 credits.
Research on approved dissertation topic under direction of dissertation committee. Notes: Students must complete a minimum of 3 credits of 999. No more than 12 credits of PSYC 998 and 999 may be applied to doctoral degree requirements. Offered by Psychology. May be repeated within the degree.

Recommended Prerequisite: PSYC 998.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Public Administration (PUAD)

500 Level Courses

PUAD 502: *Administration in Public and Nonprofit Organizations.* 3 credits.
Graduate introduction to field of public administration. Focuses on structure, functions, and processes of executive branch agencies of national, state, and local governments. Emphasizes nonprofit organizations as co-actors with government in policy-making/policy

implementation nexus. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 504: *Managing in the International Arena: Theory and Practice.* 3 credits.
Theoretical and empirical examination of international system that both affects and is affected by decisions, behaviors, and subsystems of state and nonstate (organizational) actors. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 505: *Introduction to Management of Nonprofits.* 3 credits.
Examines nonprofit organizations and their role in contemporary society. Explores unique aspects of nonprofits including voluntary governance, tax-exempt status, nonprofit corporation law, accounting practices, fund raising, finance, and management of volunteers. Emphasizes board/executive relationship, and value of establishing and maintaining nonprofit organization's reputation. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 509: *Justice Organizations and Processes.* 3 credits.
Examines structures, practices, and performance of organizations involved in administration of justice (law enforcement, courts and legal agencies, corrections, regulatory and related agencies, private organizations) Explores applicability of various theoretical perspectives on organizational processes, and considers extent to which processes operate as a system. Focuses on comparing formal goals and system expectations to actual practice. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to CRIM 509.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 520: *Organization Theory and Management Behavior.* 3 credits.
Considers behavior in context of public organization, and consequent changes required in management. Focuses on such issues as perception, attitude formation, motivation, leadership, systems theory, communication and information flow, conflict theory, and decision theory. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 540: *Public Policy Process.* 3 credits.
Processes of making public policy, including detection of public issues, consideration of alternatives, and adoption and implementation of solutions. Highlights major actors in policy process, and environment within which they work. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: PUAD 502.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

PUAD 613: *Economic Analysis in Public Administration.* 3 credits.
Covers major economic issues about role of markets and government in global world. Applies fundamental economic concepts such as cost

benefit analysis to public sector. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: PUAD 511[B-], GOVT 511[B-] or PUBP 511[B-].
[B-] Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 615: *Administrative Law.* 3 credits.
Covers law as guiding and controlling force in public-sector operations. Includes application of legal processes to administrative practices and situations, and administrative determination of private rights and obligations. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 621: *Principles and Practices in Government Organization and Management.* 3 credits.
Major management theories applicable to American federal system. Emphasizes organization, structure, and operations. Explores relationship of theories to management practices in contemporary American administration. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: PUAD 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 622: *Program Planning and Implementation.* 3 credits.
Practical exploration of implementing public law in American federal system. Studies construction of organizational apparatus, development of operational plans, and systems of control and evaluation necessary to implement government programs. Emphasizes coordinating tasks and resources required for effective program implementation. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: PUAD 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 623: *Managing Government Contracting.* 3 credits.
Explores unique management and administrative challenges of providing public goods and services through contracts. Examines debates over privatization, and explores tools managers need to address unique accountability challenges associated with this governance tool. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 624: *Public and Private Partnerships.* 3 credits.
Emphasizes entrepreneurial efforts where governments, nonprofit organizations and private companies establish goals and combine resources and talents. Issues of efficiency, accountability, and democratic responsiveness will be examined. Various tools for promoting and implementing such partnerships will be explored. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 625: *Higher Education Law.* 3 credits.
Analyzes legal issues confronting higher education: governance, faculty matters, and student issues. Examples include due process, freedom of speech, and privacy. Reviews key constituents in higher education-students, faculty, administrators, board of trustees, and parents -and how their roles are changing. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 626: *Consulting Management.* 3 credits.
Explores the consulting industry, changes in the industry and future expectations of consulting as a career. Examines different sectors of consulting such as HR, IT, Operations, Marketing, Succession Planning, Organizational Consulting, Knowledge management, Non-profit and health care and government consulting. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 630: *Emergency Planning and Preparedness.* 3 credits.
Provides an understanding of the issues associated in developing plans and policies to prepare for disasters, both natural and man made. Overview of nature of challenges posed by different kinds of disasters; discussion of regulatory requirements, sample plans, equipment requirements, collateral and mutual aid support agreements, and methods for testing and updating plans. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 631: *Disaster Response Operations and Recovery.* 3 credits.
Explores the principles and practices that promote effective disaster response operations and management. Examines nature of disasters, models for response operations in the United States and roles and responsibilities of various emergency management-related organizations. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 632: *Terrorism: Theory and Practice.* 3 credits.
Introduces students to the subject of terrorism including the history and evolution of terrorism, case studies of key terrorist groups, the current nature of the terrorist threat, and counterterrorism strategies. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 633: *Hazard Mitigation Policy.* 3 credits.
Examines the complex interplay and policy approaches to hazard prevention and protection of known hazards in terms of land use, zoning, infrastructure, and building code management. Focuses on understanding the relative roles of proactive policy design and implementation at the federal, state, and local levels of government. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 634: *Management of International Security.* 3 credits.
Examines theory and practice of managing international security. Emphasizes interplay of organizational structure and bureaucratic dynamics in international context. Presents theory and practice of crisis

management, and coordination and comparison of security methods and techniques. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 635: *Emergency Preparedness: Interagency Communication and Coordination.* 3 credits.
Considers complex relationships within governments and across sectors and levels of government for effective emergency management in planning, response, recovery, and mitigation phases. Explores intergovernmental management and network management theories and research to understand the nature of interorganizational problems and potential models for collaboration. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 636: *The NGO: Policy and Management.* 3 credits.
Explores unique aspects of nonprofit organizations operating in international environments, particularly in relief and development work. Examines relationship between NGO and U.S. and foreign governments. Covers international philanthropy; cross-cultural understanding; and key managerial concerns such as communications, planning, human resource management, control, group process, and project evaluation. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 637: *Managing Homeland Security.* 3 credits.
Focuses on the Department of Homeland Security and will cover the statutory law that provides the foundation for the department, the resources appropriated to the department, the determination of strategy and priorities, the development of operational capacity, and other challenges associated with top-level (secretarial) management of the department and its principal bureaus. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 642: *Environmental Policy.* 3 credits.
In-depth examination of environmental policy making. Examines U.S. efforts from 1970 to present to mitigate pollution of nation's air, land, and water; and addresses issues of global concern including biodiversity loss, ozone depletion, and climate change. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to EVPP 642.

Specialized Designation: Green Leaf Focused Course

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 644: *Public Policy Models.* 3 credits.
Approaches to modeling policy problems. Includes analysis and comparison of dominant paradigms in policy sciences. Reviews assumptions and implications of different models and their utility for analysis, implementation, and evaluation. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: PUAD 540.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

PUAD 645: *Policy Analysis.* 3 credits.
Introduces concepts and techniques for formal policy analysis, development of skills in applying policy analysis techniques through case studies, and exploring legitimacy and utility of policy analysis. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: or GOVT 511[B-] or PUBP 511[B-].
[B-] Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 649: *Advocacy and Lobbying.* 3 credits.
Explores how nonprofit organizations advocate and lobby for social change. Considers the different steps in the advocacy process and the broad range of strategies used by non profits seeking to influence public policy. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 651: *Virginia Politics, Policy, and Administration.* 3 credits.
Cultural, demographic, constitutional, and socioeconomic environment of public administration in Virginia. Covers governmental agencies, legislative functions, executive leadership, staff agencies, state-local relationships, intrastate regionalism, administrative customs peculiar to Virginia. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: PUAD 502.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 652: *Leading in the Nonprofit Sector.* 3 credits.
Introduces students to a broad range of nonprofit leadership issues. Examines the challenges leaders face within nonprofit organizations and considers how nonprofit staff lead in communities. Also explores critical nonprofit issues which those aspiring to leadership in the nonprofit sector should be informed and have opinions about, such as the argument that there are too many nonprofit organizations or that more philanthropy should be directed to helping the poor. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 654: *The Community, Marketing, and Public Relations.* 3 credits.
Focuses on marketing concepts and communications issues of nonprofit organization as they apply to identifying market, ability to formulate public image and reputation, and capability to raise money and retain membership or volunteers. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: PUAD 502 or 505.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 655: *Nonprofit Fund Raising and Resource Development.* 3 credits.
Explores how nonprofit organizations raise funds from a variety of sources, including: fees for service and other enterprise activity; federal, state, and local governments; and private donations from individuals, foundations, and corporations. Also considers how nonprofits manage the fundraising process within their organizations. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: PUAD 502 or 505.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 657: *Association Management.* 3 credits.
Practical application of management theory in context of professional and trade associations. Covers legal structures, tax-exempt status, and general organizational structure. Topics include volunteer management, budgeting and accounting practices in associations, fund raising, media relations, media and event planning, and human resource management. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: PUAD 502 or 505.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 658: *Social Entrepreneurship and Social Enterprise.* 3 credits.
Explores innovative approaches for addressing social problems. Organized around the steps in the entrepreneurial process: identifying social needs, formulating program strategies, mobilizing resources, managing growth tracking results, and maximizing impact. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 659: *Nonprofit Law, Governance, and Ethics.* 3 credits.
Overview of nonprofit governance as well as basic contract, labor, and tax law issues within nonprofit corporation law. Covers relationship between board and executive, and ethics topics typical to nonprofit organizations such as self-dealing, fiduciary responsibility, and human resource issues. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 660: *Public and Nonprofit Accounting and Finance.* 3 credits.
Studies fundamental normative debates in public and nonprofit financial management arena with focus on resulting implementation principles and techniques in governmental accounting, financial reporting, budget and revenue decisions, debt management, cash and investment management, pensions and employee benefits, and risk management. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: Course open only to admitted MPA or Association/ Nonprofit Management Certificate students.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students with a major in Association Management, Nonprofit Management or Public Administration.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 661: *Public Budgeting Systems.* 3 credits.
Survey focusing on policy and theoretical framework of revenue and expenditure choices at all levels of government. Topics include development, theories, structure of budgeting; political, economic, and managerial aspects of public budgeting; public policy implications; and budgetary reform movements and successes and failures. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 662: *National Budgeting.* 3 credits.
Examines formulation of overall national fiscal policy and budgetary priorities through presidential and congressional budget processes, including decisions over spending and revenues. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 663: *State and Local Budgeting.* 3 credits.
Introduces state and local government budgeting including principal actors and institutions inside and outside state and local governments that play role in budget development, appropriation, implementation, and auditing. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 664: *Nonprofit Financial Management.* 3 credits.
Covers nonprofit financial management with attention to conflicts between social mission and financial entrepreneurship. Topics include mission, budgeting, fund raising, commercial programs, investments, accounting and information systems, financial reporting, auditing, and internal control. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 672: *Human Resources Reforms for Public Administration.* 3 credits.
Explores recent reforms in human resources management in federal, state, and local governments. Covers pay for performance systems, flexible assignment patterns, incentives for productivity, work-life balance, job design, and changes resulting from higher levels of contracting for government programs. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 679: *Leadership Skills for the 21st Century.* 3 credits.
The class is premised on the belief that an individual's leadership capabilities can be enhanced by better understanding and practicing day-today leadership skills which can be used in the workplace. The academic literature on leadership will also be discussed. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 680: *Public Technology Management.* 3 credits.
Explores the implications and principles of information management technologies for public and nonprofit managers, including the role of eGovernment, citizen engagement, Web 2.0 and social media, digital service delivery, open and big data, cyber security awareness, augmented decision making through AI, the exploration of how policy and technology intersect, and how technology can be best managed through various governance models. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 691: *Justice Program Planning and Implementation.* 3 credits.
Covers development and construction of organizational systems to implement government policies and programs. Emphasizes dealing with real-world challenges, constraints, and opportunities to create feasible plans, performance-monitoring systems, and secure multiple agency coordination. Applications of planning and implementation principles to actual projects in justice agencies. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: PUAD 502 and 509.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

PUAD 700: *Ethics and Public Administration.* 3 credits.
Topics of ethical dimensions including constitutionalism, democratic values and traditions, standards of conduct and ethics, and conflicting values of public officials and social equity of public programs. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (PUAD 502[B]) and (PUAD 511[B] or 611[B]) and (PUAD 520[B] or 620[B]) and (PUAD 540[B] or 640[B]).
[B] Requires minimum grade of B.

Enrollment is limited to students with a major in Nonprofit Management or Public Administration.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 701: *Cross-Cultural and Ethical Dimensions of International Management.* 3 credits.
To be taken in final two semesters of MPA program. Examines normative issues in management of programs in international context. Emphasizes interplay of cultural, sociopolitical, legal, and ethical factors, and management and policy problems arising from conflicting goals, values, and inequities among nations and regions. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: To be taken during final semester of student's MPA program.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 703: *Collaborative Public Management.* 3 credits.
Examines design and management of public service programs relying on various levels of government, the nonprofit and private sectors for delivery, with focus on organizational networks, their management, and tools (e.g., contracts, grants, loans, regulation, and tax credits). Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (PUAD 502[B]) and (PUAD 511[B] or 611[B]) and (PUAD 520[B] or 620[B]) and (PUAD 540[B] or 640[B]).
[B] Requires minimum grade of B.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 720: *Performance Measurement.* 3 credits.
Methods used by managers to systematically assess performance. Includes practical tools such as focus groups, survey research, cost/benefit analysis, benchmarking, and comparison methods for revealing

outcomes and impacts. Prepares managers to use information more effectively in developing programs and services and formulating policy, and covers reporting techniques to communicate performance results. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 727: *Seminar in Risk Assessment and Decision Making.* 3 credits.
Examines decision making under risk and uncertainty. Readings introduce major intellectual perspectives on topic and are drawn from variety of disciplines, including biology, economics, law, and psychology. Emphasizes making actual decisions under uncertainty. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: 12 graduate credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 729: *Issues in Public Management.* 3 credits.
Current issues in management of public organizations in contemporary American government. Includes practical applications of theories and analysis to managerial problems. Emphasizes competence in improving management in selected government settings. Notes: May be repeated for credit when topic is different. Offered by Schar School of Policy & Govt. May be repeated within the term.

Recommended Prerequisite: PUAD 502 and 9 graduate credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 730: *Professional Development Workshop.* 1-3 credits.
Explores external and internal factors reshaping public and nonprofit organizations. Investigates processes and techniques that managers and staff can use to respond to rapid environmental change. Emphasizes case studies and application of techniques and processes. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 731: *Homeland/Transportation Security Administration.* 3 credits.
Examines the terrorist attacks of 9/11, the vulnerabilities of the aviation security system at that time, reasons why elected leaders and officials did not act more decisively to improve security before 9/11, and the policy and administration responses to the 9/11 attacks, including the creation of the Transportation Security Administration and the Department of Homeland Security. Includes the development of radical Islam and the rise of Osama bin Laden and Al Qaeda. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 738: *Issues in International Security.* 3 credits.
Examines issues of topical interest in general area of international security. Possible topics include nuclear strategy, disarmament, American defense policy, and international terrorism. Notes: May be repeated for credit when topic is different. Offered by Schar School of Policy & Govt. May be repeated within the term.

Recommended Prerequisite: PUAD 504 and 9 graduate credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 739: *Issues in International Management.* 3 credits.
Examines significant current issues in public international management. Emphasizes practical applications of theories and analysis of problems in public international management arena, and competence in improving management practices in international management settings. Notes: May be repeated for credit when topic is different. Offered by Schar School of Policy & Govt. May be repeated within the term.

Recommended Prerequisite: PUAD 502 and 9 graduate credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 749: *Issues in Public Policy.* 3 credits.
Examines significant issues in public policy in contemporary American government. Emphasizes practical applications of theories and analysis

to policy problems, and competence in improving policy analysis in selected government settings. Offered by Schar School of Policy & Govt. May be repeated within the term.

Recommended Prerequisite: PUAD 502 and 9 graduate credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 750: *Federalism and Intergovernmental Relations.* 3 credits.
Examines broad trends in governance, including theory and practice of federalism, with particular focus on intergovernmental relations and changing roles of federal, state, and local governments. May include privatization, devolution, mandating, regulatory reform, and comprehensive federalism reform. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: PUAD 502 and 9 graduate credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 758: *Environmental Politics.* 3 credits.
Evolution and current state of environmental policy making. Includes history, strengths, and weaknesses of key U.S. environmental laws and central international environmental agreements. Introduces analytical approaches, including cost-benefit and risk analysis. Discusses economic incentives and normative considerations. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 759: *Issues in Local Government Administration.* 3 credits.
Management and policy formulation in American local governments. Addresses environments, institutions, and actors involved. Examines contemporary problems such as education, criminal justice, transportation, land use, economic development, and environmental impact. Notes: May be repeated with different topic. Offered by Schar School of Policy & Govt. May be repeated within the term.

Recommended Prerequisite: PUAD 502 and 9 graduate credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 769: *Issues in Public Financial Management.* 3 credits.
Current issues in budgeting and financial management in contemporary American government. Emphasizes practical applications of administration and management issues and policy choices at all levels of government. Notes: May be repeated for credit when topic is different. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 15 credits.

Recommended Prerequisite: PUAD 502 and 9 graduate credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 781: *Information Management: Technology and Policy.* 3 credits.
Examines challenges that organizations encounter as they move to a more technologically sophisticated information and communication environment. Studies organizational policy issues evolving from new technologies, including privacy, security, authentication, content control, intellectual property, and taxation, focusing on effectiveness of previous policy solutions and analyzing proposed solutions. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: PUAD 680 or Permission of Instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUAD 790: *Justice Organization and Administration.* 3 credits.
Examines organization and administration of justice and security organizations. Covers organization theory and behavior as applied to justice and security organizations. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to CRIM 740.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 791: *Justice Program Evaluation.* 3 credits.
Practical exploration of assessment techniques used to study need for and consequences of justice programs and policies. Covers needs assessments, process, and impact evaluations. Includes design and measurement issues for assessing performance of justice programs, and interpreting and presenting results. Emphasizes designing program evaluation for justice agency. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to CRIM 781.

Recommended Prerequisite: PUAD 511 and 612.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 792: *Advanced Seminar in Applied Public Administration Research.* 3 credits.
An applied research experience. Students will apply skills in problem definition, issue framing, collection of data and information, interviewing, selection and analysis of alternatives, presentation of findings and recommendations, design of implementation tools and administrative procedures and organizations, report writing and oral presentation to policymakers. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: 30 PUAD credits and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 793: *Conduct of Justice Organizations at the Street Level.* 3 credits.
Explores how justice organizations behave at lowest levels, where service is delivered and discretion is greatest. Includes suspects, victims, witnesses, police officers, prison guards, parole officers, attorneys, and others who interact with the justice system. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to CRIM 741.

Recommended Prerequisite: CRIM 740/PUAD 790 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 794: *Internship.* 3 credits.
Open only to MPA students. Contact internship coordinator one semester before enrollment. Credit determined by the department. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: 12 PUAD credits or permission of instructor. Open only to MPA students. Enrollment is controlled. See http://pia.gmu.edu/internships for registration application.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

PUAD 795: *Leadership in Justice and Security Organizations.* 3 credits.
Examines leadership theories, and explores fundamental questions about leadership in justice and security organizations today. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: CRIM 740, PUAD 790, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 797: *Changing Justice and Security Organizations.* 3 credits.
Examines challenges of changing justice organizations, how changes have been successfully and unsuccessfully implemented in the past, and what change strategies appear to be most effective. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: CRIM 740, PUAD 790, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

800 Level Courses

PUAD 821: *Doctoral Seminar in Theories of Organization and Bureaucracy.* 3 credits.
Examines key issues in organization theory and behavior. Issues include organization design; interorganizational coordination, intelligence and decision-making systems; leadership and motivation theories; and theories or organizations as agents of political and social change. Uses case studies. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: PUAD 520 or equivalent, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 840: *Research Seminar in Policy Governance I.* 2-4 credits.
Surveys major institutions that formulate and implement public policy in United States. Examines translation of public preferences into public policy, and decisions about which societal and economic functions are most appropriately carried out by governments, and which are best accomplished by private institutions and individuals. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to POGO 840, PUBP 840.

Recommended Prerequisite: Admission to the doctoral program or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUAD 841: *Research Seminar in Policy Governance II.* 2-4 credits.
Second of two-semester sequence (PUAD 840, 841) in governance and public management policy concentration. Focuses on division of responsibilities among several levels of government, and between public and private sectors. Explores impact of these divisions on development of public policy in several policy areas, such as urban governance, environmental policy, and health care. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to PUBP 841.

Recommended Prerequisite: Admission to doctoral program.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

Public Policy (PUBP)

500 Level Courses

PUBP 500: *Theory and Practice in Public Policy.* 3 credits.
Introduces tools and concepts to navigate the world of public policy. Explores theories and assesses their strengths, weaknesses and applicability to public policy in order to understand different varieties of theory, their uses and application. Introduces several perspectives on and tools for the practice of policy analysis, and provides an opportunity to engage in an analytical policy project. Strong ethical and international components are built into the course. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 501: *Policy and Organizational Analysis.* 4 credits.
Prepares students to engage in systematic analysis, both qualitative and quantitative, and constitutes the basis for advanced analytical techniques. Emphasis on research design, information acquisition, application of data analysis techniques, and presentation, including writing for professional and lay audiences. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 502: *Governance and Policy Processes.* 1-4 credits.
Assesses governance processes in public and private organizational settings on the basis of economic and political standards such as efficiency, accountability, and responsiveness to societal needs in a rapidly changing global environment. Using cases, simulations, and fieldwork, students learn to evaluate the quality of institutional governance in specific venues and appraise implications for public policy. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 503: *Culture, Organization, and Technology.* 1-4 credits.
Focuses on the dynamic interplay of technology, organization and culture in societal, political, and economic processes, nationally and internationally. Using theory and case studies, students learn pertinent approaches to the study of culture, including digital culture, from the analysis of organization and social networks to that of belief systems and identities. Key issues of technological politics, the role of values and identity, cultural bases of intergroup conflict, and the political implications of globalization and technological change are addressed. Students develop practical skills in observation and become familiar with appropriate tools, methods, and frameworks for analyzing public policy

and its context. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 504: *Grand Strategy.* 3 credits.
Uses the traditional tools of history and theory to analyze grand strategy. The goal is to gain an in-depth understanding of effective and ineffective grand strategies so as to inform U.S. policy, or that of other countries. Analyzing the strategic implications of policy-making, it takes a long view of effective statecraft, using current means to achieve large ends. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 505: *Politics and Practice of International Security Policy.* 3 credits.
Drawing on current and historical cases, this course develops knowledge, strategies, and skills required to transform policy ideas and proposals into implemented policy on issues of international security. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 506: *Ethics and the Use of Force.* 3 credits.
Explores the relationship between weapons and warfare and the ethical issues raised by the use of force, both in past conflicts and in a current and future context. Examines the relationship between emerging technology enabled weapons and the just war tradition. Studies relevant theories of war and selected international laws and conventions governing war and weapons. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 533: *Topics in Public Policy Processes.* 1-3 credits.
Focuses on selected topics in public policy processes and procedures on an introductory level. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 550: *Topics in Public Policy.* 1-3 credits.
Focuses on selected topics in public policy not covered in fixed-content public policy courses. Offered by Schar School of Policy & Govt. May be repeated within the term.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 555: *Economics Math Workshop.* 0 credits.
Short course covering math and calculus skills required for master's level managerial economics course PUBP720. Offered by Schar School of Policy & Govt. May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Not Gradeable (NG) scale.

PUBP 556: *Writing Workshop.* 0 credits.
A limited enrollment, noncredit, one-day workshop designed for master-level public policy students who want to improve their writing skills. Aimed at good writers who want to move to the next level of effectiveness. Taught by professional writers. Offered by Schar School of Policy & Govt. May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Not Gradeable (NG) scale.

PUBP 570: *Policy Writing Fundamentals.* 3 credits.
Designed for entering students whose writing skills and style must satisfy the demands of a rigorous graduate program; aims to give students the ability and confidence to write clearly and concisely for a variety of policy audiences; reviews basic rules and develops essential techniques for effective writing in graduate school and beyond. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

PUBP 601: *Theory and Practice of Regional Economic Development.* 3 credits.
Helps students develop real-world skills to be a successful economic developer, consultant, policymaker, or change agent in this rapidly changing environment. Designed to provide a framework for understanding regional and national economic growth and prosperity, and provide tools to conduct concrete analyses to help decision makers, clients, and constituents make better-informed decisions. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 602: *Regional Economic Development: Strategies and Applications.* 3 credits.
Introduces range of methods for tracking the performance of metropolitan economies, identifying opportunities for economic development, and assessing effectiveness of public and private investments designed to achieve region's economic growth. Also examines strategies and case results of economic development plans and projects. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 605: *State and Local Government Policy and Economic Development.* 3 credits.
Examines state and local government policies and processes to promote local economic development, including institutional arrangements, financing and tax incentives, nonfinancial strategies and approaches, land use, environmental and other relevant regulations, and relationships across government and nongovernmental organizations. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 610: *Organizations, Management, and Work: Theory and Practice.* 2 credits.
This introduction to organizations, management, and work examines ideas and practices from two perspectives: conventional ones that go back to the industrial age and scientific management; and contemporary ones that have to do with organizing knowledge-work. Covers contributions of a range of writers and deals with foundations

of OD from the standpoint of both theory and practice. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 611: *Critical Infrastructure Protection in Theory, Policy and Practice.* 2 credits.
Introduces critical infrastructure protection as a policy field, examines its institutional framework, and considers its foundations in political and economic theory. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 650: *International Conflict and Crisis Response.* 3 credits.
First course of two-semester sequence on international peace operations. Focuses on emerging theory of peace operations, including peacemaking activities of United Nations and other diplomatic initiatives; peace-building activities of international organizations and nongovernmental organizations; and peace support provided by international militaries. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 651: *Peace and Stabilization Operations.* 3 credits.
Second course of two-semester sequence on international peace operations. Focuses on application of emerging theory of peace operations, including peace-making activities of United Nations and other diplomatic initiatives; peace-building activities of international organizations and nongovernmental organizations; and peace support provided by international militaries. Several guest lectures from past and present peace operations provide practical information for future staff of peace operations. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 652: *Strategies for Peace and Stabilization Operations.* 4 credits.
This course concentrates on the institutional mindsets, characteristics, and behaviors of the actors involved in peace operations. Readings, role-plays, and research underpin the class. Special attention is also paid to developing students' graduate-level research and writing skills. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 653: *Interagency Operations in Conflict and Post-Conflict Settings.* 3 credits.
Examines the U.S. Interagency process as it relates to peace operations. Various departments and agencies maintaining equities in overseas missions will be identified and explored. Case studies highlight instances of success or failure in application of a "whole-of-government" approach to intervention. Examines significant problems hampering Interagency cooperation today and recent policy directives, frameworks, and initiatives developed to address this situation. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 654: *Analysis for Peace Operations.* 3 credits.
Examines theories of human behavior and social systems as they relate to conflict at the interpersonal, community, and international

level. The class provides a foundation of academic thinking about the role of conflict in violent and peaceful social change. At the end of the course, students should be able to think systematically and critically about conflict, and engage in practical application of conflict analysis techniques to peace operations. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 655: *State- and Institution-Building.* 4 credits.
Ending prolonged civil conflicts often necessitates building stronger state institutions as well as addressing broader social, economic, and political issues affecting particular places and peoples. This course examines the literatures on state formation and state building from a historic, regional, and functional perspective paying special attention to polities exiting civil conflicts. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

PUBP 700: *Theory and Practice in Public Policy.* 1-4 credits.
Theories of public policy emphasizing historical intellectual development, and role theory and ethics may play in public policy making. Assumptions made by policy professionals examined against broad range of philosophical, social, political, and economic imperatives affecting public policy environment. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 702: *Comparing Political Institutions.* 3 credits.
Examines political institutions and processes from comparative and international perspectives, and role of political environment in economic trade and investment policy decisions. Examines how generalizability, objective knowledge and understanding, and nature of evidence impact public policy. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 704: *Statistical Methods in Policy Analysis.* 3 credits.
Graduate-level introduction to statistical methods and techniques used in policy sciences. Topics include descriptive statistics, sampling and probability theory, graphical data display, estimation and significance testing, contingency tables, bivariate regression and correlation, and multiple regression, with introduction to computer based statistical analysis. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 707: *Budget Decision Making: Concepts and Practices in Economic and Financial Analyses.* 3 credits.
Studies analytical concepts and techniques used in public-sector overall budgetary and specific project decision making. Includes conceptual concerns and quantitative techniques used in benefit-cost analysis, capital budgeting, financial analysis, and various specialty applications, such as economic and fiscal impact analysis. These are all interrelated by the desire to measure the benefits versus the costs of various alternative public decisions. Attention is given to measuring results over time and the use of present value techniques. Assesses strengths and weaknesses of analytical techniques. Emphasizes the process of defining the appropriate stakeholders affected by decisions, the sources and quality of data, and the rigor of conducting studies. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 709: *Professional Writing for Policy.* 3 credits.
Professional Writing teaches effective writing for the professions. The course includes the fundamentals of writing -- grammar, word usage and paragraphing and instruction in selected genres, including news stories, editorials, and research writing. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 710: *Topics in Public Policy.* 1-3 credits.
Focuses on selected topics in public policy not covered by fixed-content public policy courses. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 15 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 712: *Policy Systems Analysis and Management Science.* 3 credits.
Introduces analytical models and analysis to support decisions. Primary emphasis on understanding techniques of operation research and management science, cost benefits, and cost effectiveness for public decision making. Using mathematical details of algorithms to solve models not emphasized except as it contributes to understanding reliability and validity of methodologies. Through case studies and computer solutions, offers appreciation of when, where, and how to use models. Students demonstrate their understanding of techniques by applying them to term research project on government program. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 714: *Topics in Transportation Policy, Operations, and Logistics.* 1-3 credits.
Issues in transportation policy, operations and logistics in United States and abroad. Includes practical applications of theories and analysis to policy problems, and emphasizes competence in improving policy in selected domains. May be taken up to three times and simultaneously for sections addressing different subject matter. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 715: *Introduction to Transportation Systems.* 3 credits.
Transportation is a service that contributes substantially to well-being of advanced economies. Resource requirements and byproducts of transportation also pose sobering environmental challenges for society. Course examines history and development of transportation systems; contribution to and impact on society; institutions and practices that govern planning, design, construction, operation, maintenance, and retirement from service; and policy and managerial challenges, and tools and techniques for addressing them. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 716: *Transportation Operations and Logistics.* 3 credits.
Provides survey of issues, methods, problems, and strategies. Topics include origins of logistics, industry structure, pricing, underwriting, rate making, compliance, inventory effects, just-in-time inventory management (JIT), materials requirements planning (MRP), customer service and order processing operations, sales functions and operations, dispatch and fleet manager functions and operations, rate-setting among three parties, typical electronic and paper document flow, routing and scheduling, route selection, satellite load tracking through dispatch-customer web inquiry, role of ITS in route selection, toll system use, congestion, training activities, and logistics markets. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 717: *Analysis for Transportation Managers.* 4 credits.
Introduces basic methods of transportation analysis and evaluation relating them to policy framework. Covers descriptive statistics, hypothesis testing, contingency tables (Chi-Square analysis), regression, optimization, demand elasticities, and gravity model. Also covers sources of transportation data and research design. Teaches mathematical base and logic of each technique, but primary emphasis is applying methods to relevant policy and management problems. Students required to complete series of assignments along with research proposal focused on applying one or more methods to problem of their own interest. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 718: *Transportation Planning and Policy.* 3 credits.
Introduces highway, rail, air, and water transport planning in United States. Teaches legislative, organizational, fiscal, legal and political environment within which planning for transportation facilities and services takes place. Introduce technical and analytical methods for transportation planning. Focus is largely on public sector, but also considers commercial transport planning and role of private sector in helping to design, manage, and finance transport systems. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 719: *Transportation Law.* 3 credits.
Examines legal environment of transportation. Topics include basic legal concepts and institutions, history and evolution of price and service regulation, environmental law and regulation, labor relations, and property. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 720: *Managerial Economics and Policy Analysis.* 3 credits.
Introduces microeconomics theory and its application in analyzing public policy issues. Provides capability to understand economic literature and theories. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 721: *Transportation Economics.* 3 credits.
Provides basis for understanding economics of transport system, and how transportation relates to urban and regional development. Treats transport generically, but includes case studies of specific modes. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 722: *Practicum in Transportation Policy, Operations, and Logistics.* 3 credits.
In-depth field study of ongoing transportation policy, operations, or logistics situations; and design and delivery of actions to manage or resolve problems and opportunities. Range of application areas depends on interests of student body and opportunities faculty identify for "clients" or real-world projects. Illustrative domain areas include surface transportation (highways and transit), airports, and aviation. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 723: *Metropolitan Transportation Policy.* 3 credits.
Recent changes in federal legislation have led to renewed importance for transportation policy and planning. Considerations of clean air, economic development, congestion management, and changing urban form have greatly increased importance of well-planned transportation facilities and policies. Course introduces basic methods of transportation policy analysis and evaluation. Topics include data collection, simplified demand estimation techniques, transportation choice modeling, transportation supply analysis, and ex-ante and ex-post evaluation methods. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 726: *Telecommunications Policy.* 3 credits.
Examines salient issues associated with telecommunications and electronic commerce in context of public policy questions facing decision makers in government, education, and business. Examples include privacy, electronic signatures, digital divide, bandwidth auctions, IP telephony, CRM, Bluetooth, and Internet taxation. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

PUBP 730: *US Institutions and the Policy Process.* 3 credits.
Explores the United States constitutional system of government, including the principal governmental and non-governmental institutions shaping American public policy. Investigates the national policy making process and the interplay between politics and policy. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 731: *Macroeconomic Policy Assessment.* 3 credits.
Covers monetary theory, theories of consumption and saving, budget deficits, economic growth, international finance, and monetary and fiscal policy. Investigates national income and product accounts, savings, employment, and investment, and alternatives to Keynesian principles. Evaluates theories of inflation, investment, capital accumulation, and nonproportional growth. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 732: *Labor Markets and Policies.* 3 credits.
Analysis of labor market issues and policies, including those affecting employment, wages, working conditions, and unemployment -- issues central to current policy debates on job creation, inequality, discrimination, immigration, education, and social programs. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 733: *Urban Politics and Policy.* 3 credits.
This course explores the factors that guide and affect urban politics and policy including, but not limited to, housing, public education, criminal justice, employment, and economic development. It is designed to provide students with an introduction to the major theories and some of the significant research in urban politics and policy. The primary focus will be on large American cities. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 734: *Administrative Law and Public Policy.* 3 credits.
Covers administrative discretion, rule-making and agency proceedings, public participation, political accountability, regulatory processes, oversight, formal adjudication and informal action, lobbying agency administrators, and political and legal nature of the administrative process. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 735: *Lobbying and Interest Representation.* 3 credits.
To work effectively within a democratic political environment, policy analyst must understand contemporary methods used to influence policy. Course focuses on roles and techniques of organized influence, and its impact on policy. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 736: *International Migration and Public Policy.* 3 credits.
Examines demographic, economic, political, and social forces driving international migration on a global basis in the twenty-first century. Considers policy responses within sending and receiving countries and at the global level, including the role of international cooperation and institution-building. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 737: *Cases and Concepts in E-Government.* 3 credits.
Electronic government has become a significant public policy issue worldwide. It offers the prospect of dramatic improvements in delivering government services, but also portends major debate about government intrusion. Course covers emerging public policy issues associated with electronic government: job displacement in public sector, privacy, procurement and supply chain management, voter profiling, scope of

government services, challenges to "digital democracy," Internet-based voting, land management, the "digital divide," and others. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 739: *Media and Public Policy.* 3 credits.
Explores complex relationship between media and public policy. Examines how these forces collide in our modern media, how coverage decisions regarding public policy are made in newsrooms, how advocates use and rely on the media to advance message, and how different media reflect different strengths and vulnerabilities. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 740: *U.S. Foreign Policy: Formulation and Practice.* 3 credits.
Focuses on policy formulation and policy implementation. The principal arenas of foreign policy are explored, including the White House, the State Department, the defense and intelligence communities, and the Congressional committees. These arenas are both affected by and influential upon the exogenous systems, such as the media, public opinion, interest groups, foreign governments, and international organizations. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 741: *U.S. Financial Policy Processes and Procedures.* 3 credits.
Examines the design and operation of expenditure and revenue systems and programs at federal, state, and local levels of U.S. government. Covers a variety of public finance topics including mobilization of resources through planning, adoption, and execution of budget; theory, policy objectives, and microeconomic impact of tax policy and spending programs; and financial controls, cash and debt management, and accounting and financial reporting systems. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: PUBP 720.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 742: *Transportation Safety and Security.* 3 credits.
Examines transportation safety and security from multimodal perspective for both passenger and freight. Topics include historical context and policy framework, regulation, institutional issues, new security arrangements for preventing organized terrorist attacks, infrastructure design, vehicle design, operating protocols, and information systems. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 743: *National Security Management and Policy.* 3 credits.
Examines hierarchies in national security from the president to military establishment, including National Security Council, secretary of defense, joint chiefs of staff, commanders-in-chief of unified and specified commands, and intelligence agencies. Covers policies involving national defense, peace-keeping operations, embargoes and other sanctions, defense conversion, and military acquisition policy. Also covers significant legislation affecting national security, such as National Security Act of 1947 and Goldwater-Nichols Act of 1986. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 744: *Federal Institutions and Management.* 3 credits.
Covers management and policy in federal government, examining policy problems within context of national system of governance, including political environment, evolution and constitutional framework of American government, U.S. Congress, executive branch from White House to agencies, and role of interest groups and political parties. Special attention to implementing legislation, regulatory process, and intergovernmental relations. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 745: *Transportation and the Environment.* 3 credits.
Multidisciplinary examination of implications of transportation and ways public policy has attempted to handle them, and how policy may move in the future. Explores all modes of transportation and most environmental ramifications. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 747: *Air Transportation Policy, Operations and Logistics.* 3 credits.
Reviews evolution of various forms of air transport such as airlines, general aviation, and military aviation; and includes basics of airline economics, especially as they intersect with airline operations and the management of hub and spoke networks; air traffic control technologies and operations and their intersection with airline economics; safety and security technologies and regulations; future of various elements of air transportation; and effects of deregulation on air travel. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 748: *Public Transportation Policy, Operations and Logistics.* 3 credits.
Provides general system description for components comprising typical publicly funded transit property. Topics include organizational structure, historical context, budget development including operating and capital budgets, personnel and labor relations, regulatory framework, operations management (bus and commuter rail), reporting structure, customer service, and contracted operations. Also discusses current topics of interest, such as security of transit systems and transit's role in air quality. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 750: *History of Military Operations Other than War.* 3 credits.
Focuses on history of military activity in support of noncombat missions. Uses historical examples of early days of United States and colonial histories of Western and Eastern powers. Also touches on use of military force in support of multinational peace operations. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 751: *International Police Operations.* 3 credits.
Analyzes role of international police monitors and domestic police forces in international peace operations. Focuses on how using international police monitors and developing indigenous law-enforcement capabilities can improve prospects for success of international peace operations. Examines origins, mandates, planning, and deployment of international civilian police forces; problems of coordinating international police operations with international military forces and local security forces; international role in developing democratically oriented police forces; relationship of police to the entire judicial system; and the need to continue assistance to all parts of the judicial system beyond initial intervention. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 752: *Infrastructure Finance.* 3 credits.
Covers planning, budgeting, and financing of infrastructure, including air, water and surface transportation, public utilities, and other major public works. Focuses on private capital markets for projects funding as well as domestic and international loan and grant programs. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 753: *Ethics in Public Policy.* 3 credits.
Inquiry into ethical and moral issues in public policy. Explores issues that are controversial and often confusing to public policy makers such as health care, secrecy in government, surrogate motherhood, and disability. Perspectives are national as well as global, and deal with impact of culture and politics on ethical dilemmas confronting society. Also looks at processes by which specific ethical systems are incorporated into governing bodies. Larger issues, such as war and peace, just and unjust wars, capital punishment, medical and legal ethics, and communitarian vs. individual liberties are also included, with emphasis on how they affect public policy. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 754: *Geographic Information Systems and Spatial Analysis for Public Policy.* 3 credits.
Introduces Geographic Information Systems (GIS), including spatial data tools, to answer applied policy questions. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (POGO 511[B-] or 511[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 755: *National Security Decision-Making Policy.* 3 credits.
Applies behavioral, economic, strategic, and other decision theories to U.S. government and other actors in historical national security crisis cases and current policy issues. Explores tension in decisions between rational goal seeking by actors vs. organizational process, and aims to develop usable decision tools. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 756: *Global Medical Systems Policy Analysis.* 3 credits.
Equips students with knowledge and skills to critically analyze structures, functions, governing policies, and performance of healthcare systems; to identify problems and solutions; and to devise alternative courses of action and reform policies that would contribute to achieving goals. Prepares students in policy analysis rooted in systems analysis, while linking issues, objectives, and solutions with the larger context in which a system is embedded. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 757: *Public Policy in Global Health and Medical Practice.* 3 credits.
Introduces international medical policy. Covers globalization of health and medical policies directed at removing disparities, financing, ethical considerations of biomedical research, and use of emerging technologies. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 758: *Global Threats and Medical Policies.* 3 credits.
Explores medical and health governance, biosecurity and biosafety, health and natural and human-made disasters, humanitarian and emergency assistance, vaccine development, behavior and health, critical infrastructures, bioethics and resource allocations in global context. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 759: *National Security Law and Public Policy.* 3 credits.
Introduces legal and policy issues concerning current U.S. national security. Its emphasis is on developments since 9/11. It focuses on the legal rules governing the formulation and execution of U.S. national security policy. It examines U.S. and international law as well as general domestic and foreign policy considerations. In particular, the course considers the principal cases, legislation and treaties impacting U.S. national security. Special emphasis is on the interplay of national security concerns and civil liberties in this age of global and transnational terrorism. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 760: *Science and Technology Policy in the 21st Century.* 3 credits.
Investigates roles dynamic scientific research and technological innovation play in contemporary society. Focuses on design and analysis of alternative public policies intended to influence rate and direction of technological change in societies, and use of scientific and technical knowledge in public policy making. Uses historical and international comparative approaches to assess politics and pragmatics of science and technology policy. Includes material from policy evaluation and analysis, organization theory, economics of innovation, and sociology of science and technology. Applications focus on areas of concern to "new

economy" such as biotechnology, networked telecommunications and computing, and globalization of technology-based production. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 761: *Social Entrepreneurship and Public Policy.* 3 credits.
This course is about people who start new ventures with the explicit objective of creating social as well as private value. As societies and the challenges they face become ever more complex, existing institutions and incentive structures may or may not be adequate to address new generations of problems. Social entrepreneurs innovate new organizational forms with the objective of finding solutions in the public interest. Students in this course will be challenged to integrate elements of business strategy and policy analysis towing the objective of crafting a practical plan for the launch of a novel and needed social venture. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 762: *Social Institutions and Public Policy.* 3 credits.
Limited government involvement in social policies changed drastically during the 1960s, with an explosion of social programs designed to ameliorate poverty, reduce crime, and eliminate racial segregation. These new social policies affect many institutions, including family, schools and colleges, criminal justice system, and government agencies. Many of these policies have been controversial, with debates over efficacy and whether they have cured or exacerbated social problems. Course examines evolution and status of selected American social policies, including civil rights policies, education reform, family policy, crime prevention, and other topics chosen by students. Readings and discussions on policy issues linked to readings and discussions on social theories and value systems that underpin social policies. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 763: *Illicit Trade.* 3 credits.
Examines the role that illicit trade assumes in international trade and commerce. The class examines diverse international illicit markets and their convergence. It analyzes the role of illicit trade in perpetuating insecurity and instability globally, conflicts,environmental degradation and how the most pervasive forms of illicit trade undermine economic development, peace and justice, and prosperity. Examines the actors involved in illicit commerce including corrupt officials, organized criminal organizations, terrorist groups, and complicit superfixers (market facilitators). Examines needed policies to stem growth, develop cross-border responses, capacities, and technologies to curb the proliferation of illicit trade. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 764: *Transnational Crime and Corruption.* 3 credits.
Provides an overview of transnational crime, kleptocracy, and diverse forms of corruption and examines their political, economic, social, and environmental effects. Focuses on the growing problem of transnational crime in conflict regions, and efforts to develop effective economic development strategies including the UN's Sustainable Development Goals (SDGs). Addresses the inter-connections among transnational criminal organizations and gangs, corruption and terrorism. It analyzes diverse range of activities of transnational crime groups in both the legitimate and illegitimate economy and how their illicit trade fuels greater insecurity and instability across the world. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 765: *Human Smuggling and Trafficking.* 3 credits.
Examines the rapidly growing phenomenon of human smuggling and trafficking. Addresses the underlying causes and reasons for the growth of these phenomena and their far-reaching and diverse social, political and economic consequences globally. Transnational crime dimensions of the problem are a central component of the class including the human rights costs of this crime. The role of technology including online platforms and social media in its proliferation are discussed. The phenomenon is examined in conflict regions, developing, diverse developed as well as transitional societies. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 766: *Modern Counterinsurgency: Theory and Practice.* 3 credits.
This course is intended to give students a broad understanding of the nature of counterinsurgency, the policy implications of the U.S. becoming involved in an insurgency, and the multifaceted, interagency approach that is required to successfully combat an insurgency. The course includes case studies, a review of contemporary U.S. counterinsurgency practices, and insights on what the future might hold in this important type of conflict. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 767: *Ethics in Health Policy.* 3 credits.
Examines major ethical issues raised in health policy and medical practice around the world. Studies issues comparatively and applies various ethical frameworks to study them. Considers various legal and policy solutions derived to deal with them. Principles of biomedical ethics as well as consideration of several major schools of thought in political philosophy, including utilitarianism, libertarianism and communitarianism will be considered. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 768: *Education and Public Policy (Topic Varies).* 3 credits.
Explores current issues and policy initiatives in education policy at federal, state, and local levels, with emphasis on education reform. Issues and topics vary. Typical policy issues include raising academic standards, high-stakes testing, alternative governance including school choice and voucher policies, teacher quality and certification, role of school resources in academic outputs, and equity topics. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 769: *Political Violence and Terrorism.* 3 credits.
Examines the persistent threat of terrorism and political violence to international stability generally, and U.S. national security interests in particular. Provides students with a long-term analytical and substantive foundation to deepen their knowledge and effectiveness as policy-makers in national security, diplomacy, homeland security, law enforcement, humanitarian law, peace operations, postconflict reconstruction, development assistance, public diplomacy and other related areas. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 770: *Health Policy Analysis.* 3 credits.
Prepares students in global health policy analysis with a focus on processes, roles, expenditures, alternatives and tradeoffs in different country settings. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 775: *Economics of Electronic Commerce.* 3 credits.
Focuses on gaining competitive advantage through electronic commerce implementation; identification and growing of new market opportunities and electronic enabling of existing business relationships; and business-to-consumer relationships and economics of strategic procurement, ERP hosting, customer relationship management, catalog hosting, portal operations, and supplier management. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 777: *Critical Infrastructure Protection: Policy and Practice.* 3 credits.
Introduces critical infrastructure protection and resilience as a policy field, examines its governance framework, and considers its foundations in institutional theory and risk analysis. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 780: *Evolution of the Washington Metropolitan Economy.* 3 credits.
Includes historical context, role of federal spending, tourism, technology sector, international business, regional organizations, local government policies, and forecasts. Evaluates development patterns in Washington, D.C., Northern Virginia, and suburban Maryland. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 781: *Entrepreneurship and Economic Development.* 3 credits.
A knowledge spillover theory of entrepreneurship is employed to link between theories of entrepreneurship and theories of innovation and regional development. Other interconnections are explored at the regional level as firms forge networks, clusters, and specialized markets. The public policy issues of these constructs, including competition policy, industrial policy, and cluster policy, are examined within a regional and global context. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 782: *International Financial Policy.* 3 credits.
Addresses theory of international finance, application to financial policy such as exchange rate regimes, and institutions of international finance. Covers operations of International Monetary Fund and World Bank, development of European Monetary Union, and debate over "international financial architecture." Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 783: *Global Governance.* 3 credits.
Surveys important issues in global governance given changes in contemporary world. Explores dynamics and complexity of formal and informal actors, institutional arrangements, organizations, and roles in process of governance in international sphere. Considers states, governmental and nongovernmental organizations, international regimes, social movements, regional associations, and multinational corporations as actors bearing on transnational authority. Examines various vehicles for international coordination and conflict in terms of relevance and opportunities for global governance. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 784: *Entrepreneurship, Economics, and Public Policy.* 3 credits.
To demonstrate that global capitalism is a process driven by entrepreneurship, students study the Austrian school of economics, which views capitalism as a process of creative destruction, as well as other economists who emphasize entrepreneurship and change. The course reviews the history of capitalism, focusing on the so-called industrial revolutions in Britain, Germany, Japan, and the United States, and on particular historical and current entrepreneurs. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 791: *Advanced Field Research for Policy: Theory and Method.* 4 credits.
Teaches how to analyze the framing of policy questions and examine culture and organization at group, organizational, interorganizational, and societal levels. Covers case study research, open-ended interviewing, participant-observation, social network analysis, and historical and archival research. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 792: *Advanced Economic Analysis for Policy Research.* 4 credits.
Builds analytical skills in economic analysis for policy research for students with competence in elementary calculus. Reviews mathematical techniques and covers consumer theory, demand estimation and forecasting, production theory, cost-benefit analysis, technological change and productivity analysis, growth theory, market structure and competition, game theory, capital budgeting, and public sector's role in the economy. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: PUBP 720 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 795: *Final Project.* 1-3 credits.
Project developed drawing on key themes of the program, in consultation with the program director. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale.

PUBP 799: *Master's Thesis.* 1-6 credits.
Individualized section form required. Original research endeavor related to student's program concentration. Research must result in document meeting public policy and university standards. Offered by Schar School of Policy & Govt. May be repeated within the degree.

Recommended Prerequisite: Degree candidacy in a Public Policy Master's program, completion of required credits of graduate course work, and approval of a thesis proposal by the faculty advisor, two committee members, and the program director.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

PUBP 800: *Culture and Public Policy.* 1-4 credits.
Comparative analysis of the role of culture in shaping policy environments and outcomes. Introduces analytical methods for studying culture, including measurement of social and cultural change, surveys, and field studies. Presents major findings and research issues regarding the role of culture in democracy, ethnic and gender relations, economic growth and other policy issues. Focuses on differences among national and regional cultures, and their policy implications. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 801: *Research Design for Public Policy.* 1-4 credits.
Provides an introduction to the theory and practice of research in public policy. Gives students an understanding of issues in the philosophy of science and different approaches to social science research. Provides broad overviews of quantitative and qualitative methodologies, with a major emphasis on research design, including conceptualization, the role of theory, hypothesis generation, inference and bias. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to POGO 801.

Recommended Prerequisite: PUPB 720 and PUBP 730, or their equivalents strongly recommended.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 802: *The Logic of Policy Inquiry.* 1-4 credits.
Defines policy research problems, questions, and hypotheses. Explores modes of policy research, analysis, and rhetoric, including interdisciplinary research strategies. Uses information sources to emphasize written communication of policy research results. Also discusses professional practice issues. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 804: *Multivariate Statistical Analysis in Public Policy.* 4 credits.
Explores multivariate techniques of contingency table analysis, reliability and validity assessment, factor analysis and scaling, multivariate regression and path analysis, analysis of variance and covariance, and other selected multivariate techniques. Emphasizes applying these techniques to real policy data using sophisticated statistical packages. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (POGO 511[B-] or 511[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 805: *Foundations of Social Science for Public Policy.* 4 credits.
Grounds doctoral students in core concepts of political science and economics through critical analysis of classic sources, old and new. Topics may include theory of the state, state-market relations, democratic governance, markets and economic institutions, and other relevant frameworks for public policy research. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: PUBP 730 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 806: *Advanced Management Science for Public Organizations.* 3 credits.
Primary emphasis is to understand techniques of operations research and management science, cost benefits, and cost effectiveness for public policy decision making. Some familiarity with elementary calculus and linear algebra helps with understanding mathematical basis of algorithms used to solve models, and reliability and validity of these techniques. Case studies and computer solutions help students understand when and how to use OR models. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: PUBP 712 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 810: *Regional Development and Transportation Policy.* 4 credits.
Introduces and critiques theory and methods used in regional and transportation policy analysis. Explores central place, growth pole, and economic base theories as well as other theoretical constructs used in regional policy analysis. Introduces and examines methodological tools such as regional econometric modeling, multiobjective programming, shift-share analysis, economic base analysis, location quotient analysis, and input-output analysis. Examines selected regional and transportation public issues using theoretical and methodological constructs. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 811: *Applied Methods in Regional Development and Transportation Policy.* 4 credits.
Students develop research papers that investigate aspect of regional and transportation policy, with goal of producing publishable papers. Students are expected to prepare two-page proposal followed by detailed proposal and finally, completed paper. Each is critiqued in the seminar, which is organized to conform to process of review and critique. Instructor works with students individually as well as in seminar sessions. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 817: *Policy Research Topics: Transportation Policy.* 3 credits.
Research workshop examining development of policy research and relevant methodologies linked directly to faculty and student interests. Students identify cutting-edge policy concerns and execute research program. The 4-credit version of course requires discussion section and research laboratory. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 820: *Technology, Science, and Innovation: Institutions and Governance.* 4 credits.
Explores how political and economic institutions and cultural values shape pace, direction, costs, and benefits of technological innovation and scientific research. Special emphasis on interaction between national institutions, and values and processes of globalization. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 821: *Analytic Methods for Technology, Science, and Innovation Policy.* 4 credits.
Covers major methodological approaches to study of technology, science, innovation, and public policy. Focuses on analytical inputs to policy making, and assesses practical consequences in such areas as security, energy, environment, and health. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 830: *Comparative Socioeconomic Policy.* 1-4 credits.
Throughout the past century, numerous socioeconomic theories have competed for primacy. This course compares, contrasts, and analyzes some of the leading socioeconomic theories and policies and places them in a global context. The role of these theories in shaping current public policy is explored. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to ECON 676.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 833: *Topics in Public Policy.* 1-4 credits.
Focuses on selected topics in public policy not covered in fixed-content public policy courses. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 834: *Entrepreneurship, Growth, and Public Policy.* 1-4 credits.
Focuses on a closer consonance among entrepreneurship, geography, and economic growth. Studies the creation and incubation of new knowledge and features three theoretical fields: the new growth theory; the new economic geography; and the new economics of innovation. Develops a knowledge spillover theory of entrepreneurship. Examines public policy issues arising from these constructs, including competition, within a regional and global context. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 835: *Entrepreneurship, Creativity, and Innovation.* 1-4 credits.
Provides multidisciplinary foundation for the study of entrepreneurship, creativity, and innovation, and their effects on regional and national economic growth. Draws from seminal thinkers and emphasizes creativity and innovation. Examines how organizational change, institutional structure, and geographic clustering drive the development of regional and national economies. Explores these issues through the lens of the three Ts of economic growth: technology, talent, and tolerance. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 840: *U.S. Policy-Making Institutions.* 4 credits.
Examines major institutions that formulate and implement policy at national level. Emphasizes presidency, Congress, and executive branch bureaucracies. Also considers agenda-building institutions such as media, interest groups, political parties, and elections. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to POGO 840, PUAD 840.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 841: *U.S. Policy-Making Processes.* 4 credits.
Analyzes major U.S. public policy processes. Attention to major instruments for implementing policy, including regulation, grants, tax policy, and market-based mechanisms; and how different methodologies are appropriate for understanding aspects of policy inquiry. Covers ethical and accountability aspects of policy, including federalism, intergovernmental relations, and state and local governance. Offered by Schar School of Policy & Govt. May not be repeated for credit. Equivalent to POGO 841, PUAD 841.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 860: *Social Theory, Culture, and Public Policy.* 4 credits.
Covers major social and cultural theories that underlie public policies. Selections from classical and contemporary social theorists relevant to studying social change, social capital, and social organization. Focuses on interplay among culture, social institutions, social processes, and policy. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 861: *Culture and Social Policy Analysis.* 4 credits.
Applies social and cultural theories to policy topics, including methodological approaches and empirical studies. Emphasizes linkage between theory and empirical research, and methods appropriate for social policy study. Policy topics may include poverty and inequality, family, education, crime and corruption, immigration, and health. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 862: *Institutional Analysis and Policy.* 4 credits.
Policy analysts are increasingly cognizant of the influence of societal institutions in shaping public policy, not only in terms of policy design, but also as a determinant of implementation. This course reviews the growing literature regarding institutional analysis; furthermore, it considers the ways in which institutions help shape the policies that emerge within a given society and the context by which they are evaluated. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 870: *Organizational and Policy Aspects of Informatics.* 1-4 credits.
Examines effects of informatics on national and international policy; setting international policy on informatics; ethical and social change in governments and organizations; shaping national policy in informatics; industry growth; and research methods from various scientific disciplines. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 871: *Organizational and Information Technology Challenges of the Knowledge Society.* 4 credits.
Explores links of policy, managing organizations, and information technologies in postmodern era. Includes issues related to contradictions among conventional models of organizational and process design, policy and regulatory structures, ideologies, and information technologies. Provides framework for becoming a sophisticated analyst of policy, organizations, and information technology. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: PUBP 870.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 872: *Managing Knowledge-Based, Information-Intensive Organizations.* 4 credits.
Deals with challenges of planning, creating, integrating, and managing contemporary information-technology enabled public and private sector organizations, and managing relationships between public and private enterprises enabled by information technology initiatives. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

PUBP 880: *Global and International Public Policy I.* 4 credits.
Explores multiple dimensions of globalization and internationalization relative to public policy processes and consequences. Offers substantive insight into contemporary public policy dynamics from global and comparative perspectives. Accordingly, it examines a broad range of international cultural, political, technological, and economic policy issues, and their interactions and implications at all levels of analysis. Engages relevant theoretical and methodological approaches and debates to provide tools for analyzing various world problems and policies. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

PUBP 881: *International Trade Policy.* 4 credits.
Addresses international trade theory, trade policy analysis, regional economic integration, and institutional arrangements governing world trade. Covers World Trade Organization (including constituent agreements in goods, services, intellectual property and trade-related investment measures), regional trade agreements such as NAFTA, dispute settlement regimes, and relations between trade and the environment. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

PUBP 997: *Field Statement.* 1 credit.
Requires work on field statement in preparation for field exam. Notes: Must register in semester during which field exam will be taken. Does not apply to credit degree requirements. Note: Restricted to public policy PhD students. Students must contact program coordinator for permission and CRN number to register via Patriot Web. Offered by Schar School of Policy & Govt. May not be repeated for credit.

Recommended Prerequisite: Permission of field committee chair.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

PUBP 998: *Research/Proposal for Dissertation.* 1-9 credits.
Requires work on research proposal that forms basis for doctoral dissertation. Notes: No more than 24 credits of PUBP 998 and 999 may be applied to doctoral degree requirements. Offered by Schar School of Policy & Govt. May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

PUBP 999: *Dissertation.* 1-9 credits.
Requires research on approved dissertation topic under director on dissertation committee. Notes: No more than 24 credits of PUBP 998 and 999 may be applied to doctoral degree requirements. Offered by Schar School of Policy & Govt. May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Reading (EDRD)

300 Level Courses

EDRD 300: *Literacy and Curriculum Integration.* 3 credits.
Provides an overview of literacy development in PK-12 students. Builds understanding of disciplinary instructional strategies to support students' development of reading, writing, listening, speaking, viewing, and visually representing in the fine arts or health and physical education. Emphasizes integration of reading and other language arts across the curriculum. Note: School-based field experience required. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDRD 301: *Facilitating Literacy in School or Community Settings.* 3 credits.
Provides knowledge, teaching strategies, and support for students working with developing readers and writers. Emphasizes implementation strategies that foster literacy development; incorporation of trade books and technology resources into individual and small group work; and reflection. Note: Requires 45 hours of school-based field experience during course. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

EDRD 419: *Literacy in the Content Areas.* 3 credits.
Examines language and literacy processes of adolescent learners. Builds understanding of reading, writing, listening, speaking, viewing, and visually representing in content areas. Evaluates disciplinary instructional strategies to support students' development of academic language and comprehension, including adaptations for diverse learners' needs. Fosters an awareness of the role of multiple texts and independent reading in adolescent learners' literacy practices. Offered by School of Education. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: ((SEED 372[C], 466[C], 469[C] or 473[C]) and (SEED 472[*C], 476[*C], 479[*C] or 483[*C])).
[*] May be taken concurrently.
[C] Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed - Biology 6-12, Secondary Ed - Chemistry 6-12, Secondary Ed - Mathematic 6-12, Secondary Ed - English 6-12, Secondary Ed - Comp Sci 6-12, Secondary Ed - Physics 6-12 or Secnd Ed - Earth Science 6-12.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

EDRD 501: *Literacy and Curriculum Integration.* 3 credits.
Provides an overview of literacy development in PK-12 students. Builds understanding of disciplinary instructional strategies to support students' development of reading, writing, listening, speaking, viewing, and visually representing in the fine arts. Emphasizes integration of reading and other language arts across the curriculum. Note: School-based field experience required. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 515: *Language and Literacy in Global Contexts.* 3 credits.
Focuses on the relationship of language to reading and the connection between language structure and how we learn to read. Examines theories of language acquisition and the complexity of language development and the reading process. Explores key factors that influence and enhance language learning and development. Introduces literacy instruction and assessment for all learners, and explores sociocultural perspectives on literacy. Offered by School of Education. May not be repeated for credit. Equivalent to EDRD 525.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Special scale.

600 Level Courses

EDRD 610: *Content Literacy for English Language Learners, PK-12.* 3 credits.
Focuses on research-based instructional strategies for integrating development of English learners' academic language and literacy skills with learning of content concepts across grade levels and disciplinary areas. Emphasizes sociocultural practices that leverage ELs' social, cultural, linguistic, and knowledge capitals to strengthen academic achievement in content classrooms. Fieldwork hours are required. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (EDCI 519[B-] or 519[XS]) and (EDCI 520[*B-] or 520[*XS]).
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 619: *Literacy in the Content Areas.* 3 credits.
Examines language and literacy processes of adolescent learners. Builds understanding of reading, writing, listening, speaking, viewing, and visually representing in content areas. Evaluates disciplinary instructional strategies to support students' development of academic language and comprehension, including adaptations for diverse learners' needs. Fosters an awareness of the role of multiple texts and independent reading in adolescent learners' literacy practices. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: For students in the Secondary Education program, SEED 566, SEED 567, SEED 569, SEED 572, or SEED 573 is a required prerequisite.

Recommended Corequisite: For students in the Secondary Education program, SEED 667, SEED 669, SEED 672, or SEED 673 should be taken concurrently.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 620: *Reading/Writing in Foreign/World Languages.* 3 credits.
Introduces reading and writing processes in foreign and second languages, research on reading comprehension, and effective teaching and assessment approaches for students in PK-12 schools. Topics include reading goals and standards for foreign language learning, sociocultural perspectives, multimedia computer-assistance, research on related strategies and skills, and performance-based assessments. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (EDCI 520[*B-] or 520[*XS]) and (EDCI 560[B-] or 560[XS]) and (EDCI 684[*B-] or 684[*XS]).
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 625: *Integrating Literacy and Technology for K-12 Learners.* 3 credits.
Provides insight into the use of digital technology to support the literacy development of children and adolescents, including, but not limited to, designing instruction in which students use digital technology for reading and writing, providing student choice with digital technology, encouraging self-expression, and teaching students to be safe and positive digital citizens. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 626: *Writing Development and Instruction for K-12 Learners.* 3 credits.
Provides an overview of the research and theory related to writing development and writing processes of K-12 learners. Builds teachers' knowledge of evidence-based instructional approaches for teaching writing. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 627: *Comprehension and Vocabulary Development for K-12 Learners.* 3 credits.
Examines the complex nature of language and its connection to literacy development. Explores theories of comprehension and vocabulary development. Evaluates materials and evidence-based strategies to engage K-12 learners in complex comprehension, including across the disciplines. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 628: *Word Analysis: Phonics, Vocabulary, and Spelling for K-12 Learners.* 3 credits.
Emphasizes the application of word analysis skills and strategies to support K-12 learners' reading and writing. Builds teachers' knowledge of evidence-based instructional strategies for teaching phonics, spelling, and vocabulary. Examines the complex nature of language acquisition and its connection to literacy development. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 629: *Literacy Foundations and Instruction for School Psychologists.* 3 credits.
Examines literacy theory, research, and practice as it relates to children in order for school psychologists to effectively work with teachers and families to improve students' literacy learning. Includes reading, writing, and oral communication. Addresses sociocultural, cognitive, linguistic, psychological, and developmental influences on literacy. Explores evidence-based strategies for reading instruction. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: Admission to school psychology program or permission of the literacy program coordinator

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 630: *Literacy Foundations and Instruction for Diverse Populations: Birth through Middle Childhood.* 3 credits.
Explores literacy theory, research, and practice as it relates to younger learners. Includes teaching of reading to English Learners and language acquisition for diverse populations (including Special Education students who access the general curriculum). Addresses sociocultural, cognitive, linguistic, psychological, and developmental influences on children's literacy. Includes reading, writing, and oral communication. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: Admission to a graduate program in literacy, or permission of the academic program coordinator.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 631: *Literacy Foundations and Instruction for Diverse Populations: Adolescence Through Adulthood.* 3 credits.
Examines literacy theory, research, and practice as it relates to adolescents and adults. Addresses sociocultural, cognitive, linguistic, psychological, and developmental influences on literacy development. Includes reading, writing, and oral communication. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: Admission to a graduate program in literacy, or permission of the academic program coordinator.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 632: *Literacy Assessments and Interventions for Groups.* 3 credits.
Provides literacy assessments and interventions for groups of learners. Includes exploration of assessment tools for classrooms and large populations. Note: This course requires students to conduct related practice in their own schools or specified field settings. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (EDRD 630[B-] or 630[XS]) and (EDRD 631[B-] or 631[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 633: *Literacy Assessments and Interventions for Individuals.* 3 credits.
Builds candidates' abilities to select and administer appropriate literacy assessments, analyze assessment data, and design individualized instructional interventions for students who experience difficulty with reading and writing. Note: This course requires students to conduct related practice in their own schools or specified field settings. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (EDRD 630[B-] or 630[XS]) and (EDRD 631[B-] or 631[XS]) and (EDRD 637[*B-] or 637[*XS]).
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

EDRD 634: *School-Based Leadership in Literacy.* 3 credits.
Prepares reading specialists as school leaders. Expands on literacy knowledge gained in prerequisite courses, and applies it to professional development work with teachers in school settings. Note: This course requires students to conduct related practice in their own schools or specified field settings. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (EDRD 630[B-] or 630[XS]) and (EDRD 631[B-] or 631[XS]) and (EDRD 632[B-] or 632[XS]) and (EDRD 633[B-] or 633[XS]) and (EDRD 637[B-] or 637[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 635: *School-Based Inquiry in Literacy.* 3 credits.
Examines professional literature in order to develop a literature review and advocate on behalf of teachers, students, families, and communities for effective literacy practices and policies. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (EDRD 630[B-] or 630[XS]) and (EDRD 631[B-] or 631[XS]) and (EDRD 632[B-] or 632[XS]) and (EDRD 633[B-] or 633[XS]) and (EDRD 637[B-] or 637[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 637: *Supervised Literacy Practicum.* 3 credits.
Provides supervised experiences assessing students identified as needing additional support in literacy, followed by designing and implementing appropriate data-based instruction. Note: This course requires students to conduct related practice in their own schools or specified field settings. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (EDRD 630[B-] or 630[XS]) and (EDRD 631[B-] or 631[XS]) and (EDRD 633[*B-] or 633[*XS]).
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

EDRD 680: *Foundations of Coaching and Fostering Professional Learning.* 3 credits.
Reviews theoretical, conceptual, and evidence-based foundations of comprehensive literacy programs designed to meet the needs of all learners. Develops specific understandings of the evidence-based foundations of effective professional learning and adult learning theory, including learning strategies appropriate for individual, small-group, and schoolwide professional development settings. Provides experiences with leading effective professional development. Note: This course requires students to conduct related practice in their own schools or specified field settings. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: Admission to the Literacy Coaching Graduate Certificate program

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 681: *Collaboration and Communication in Literacy Coaching.* 3 credits.
Examines research-based coaching models used in school settings. Explores approaches to coaching interactions with a variety of stakeholders in school-based contexts. Provides experiences with facilitating an observation-feedback cycle with individual teachers. Note: This course requires students to conduct related practice in their own schools or specified field settings. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: Admission to the Literacy Coaching Graduate Certificate program

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 682: *Creating Change through Data-Oriented Coaching.* 3 credits.
Explores supports and barriers to school change and improvement. Examines the importance and appropriate use of assessment within a comprehensive literacy program, including strategies for communicating assessment information to relevant stakeholders. Provides experiences with designing and leading professional learning experiences focused on analysis and appropriate uses of assessment data. Note: This course requires students to conduct related practice in their own schools or specified field settings. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: Admission to the Literacy Coaching Graduate Certificate program

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 683: *Trends and Issues in Literacy Instruction and Literacy Coaching.* 3 credits.
Provides insight into current trends and issues in literacy instruction and literacy coaching, including, but not limited to, leading and learning with digital technology, diversity and equity in literacy instruction, and challenges in today's changing schools. Note: This course requires students to conduct related practice in their own schools or specified field settings. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: Admission to the Literacy Coaching Graduate Certificate program

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

800 Level Courses

EDRD 829: *Advanced Foundations of Literacy Education.* 3 credits.
Explores advanced foundational theory, research, and methodology across the broad field of literacy both nationally and internationally. Includes analysis of historical and current trends, research, practice, and policy in literacy. Individual projects will connect literacy to students' areas of interest. Appropriate for PhD in Education students in any specialization. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: EDUC 800, EDRS 810, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 830: *Theory, Research, and Practice in Literacy: Birth through Middle Childhood.* 3 credits.
Explores emergent through intermediate literacy. Topics include literacy acquisition and development in academically and linguistically diverse young children; historical and current trends in theories of literacy development; cognitive, linguistic, sociocultural, and instructional influences on literacy development; and assessment. Implications for teacher education and policy are explored. Individual research projects will connect literacy to students' areas of interest. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: EDUC 800 and EDRS 810.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 831: *Theory, Research, and Practice in Literacy: Early Adolescence through Young Adulthood.* 3 credits.
Explores youth culture and socio-historical constructions of adolescence; literacy in the lives of culturally and linguistically diverse learners; multimodal literacy; international literacy contexts; adolescent literacy policy and leadership; content area and disciplinary literacy; literacy needs of special learners; and adult literacy. Individual projects will connect adolescent literacy to students' areas of interests. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: EDUC 800 and EDRS 810.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDRD 832: *Research Methodologies and Trends in Literacy.* 3 credits.
Develops knowledge and skills in the application of research methodologies in literacy to current national and international trends. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: EDUC 800, EDRS 810, permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

EDRD 833: *Literacy and Learning in the Digital Age.* 3 credits.
Engages students in an in-depth study of theories and arguments related to digital literacies for academic success. Encourages critical thinking about digital media and how analyzing media involves understanding the text, context, and culture in which messages are produced and consumed. Explores the role of creative production as an active process for academic learning. Engages students in reconsidering the role of digital technology in instruction and the sociocultural practices associated with digital environments. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

EDRD 834: *Research in Reading Motivation.* 3 credits.
Develops knowledge and skills related to research on reading motivation informed by the fields of literacy and educational psychology. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (EDUC 800[*B-] or 800[*XS]) and (EDRS 810[*B-] or 810[*XS]).
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Real Estate Development (REAL)

600 Level Courses

REAL 605: *Policy and Planning of the Built Environment.* 3 credits.
This class takes a holistic approach to examining the complex environment in which all development occurs. Students will be introduced to the public policy, social considerations, and infrastructure involved in creating and supporting the built environment. Emphasis will be placed on evaluating what constitutes "good development" and how enacted public policies impact decision making at the individual project level and on the overall development of communities. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

REAL 615: *Brokerage and Market Analysis.* 3 credits.
Students will learn how to analyze market data, evaluate sites in the context of the market, and work with brokerage professionals to maximize sales and/or leasing opportunities. The data component of the class will focus on using industry market analytics resources to identify and interpret trends in the real estate market life cycle. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

REAL 625: *Financial Analysis and Valuation.* 3 credits.
Teaches key financial concepts necessary to evaluate real estate investment and development opportunities, such as: cash flow analysis, project financing options, and basic asset valuation. Various quantitative techniques for evaluating project returns, including proforma modelling, will be presented with emphasis placed on understanding the time value of money and the relationships between money, time, and risk. Explores the risks and rewards of using financial leverage and the consequences of default. Considers the economic consequences of public-sector policy and regulation of the real estate and finance industries. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

REAL 635: *The Development Process.* 3 credits.
Outlines the development process and the interrelated activities of the key disciplines involved. Introduces students to vocabulary and concepts from multiple industry sectors and teaches them how each respective sector can influence project outcomes. The role of the developer as a leader and coordinator of both the project and development team is stressed. Various product types are considered, including: office, multifamily, retail, and industrial properties. In their final project, students will make portfolio recommendations by analyzing different development scenarios and examining critical decisions at each project stage and the resulting impact on project costs and outcomes. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: REAL 625[*B-] or 625[*XS].
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.

XS Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

REAL 645: *Law and Entitlements.* 3 credits.
Provides students with a basic understanding of the relevant law and legal concepts involved in real estate development. Addresses legal issues through the life cycle of a real estate development, including: acquisition, entitlement, construction, leasing, and disposition. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (REAL 605C, 605XS or 605XS) and (REAL 635C, 635XS or 635XP).
C Requires minimum grade of C.
XS Requires minimum grade of XS.
XP Requires minimum grade of XP.

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

REAL 655: *Design and Construction.* 3 credits.
Introduces the principles of site and building design and the basic technical aspects of construction. The design portion of the class includes both site and building layouts and challenges students to consider the relationship between design, function, and cost. The construction component features both horizontal and vertical construction challenges. Throughout the course, students will analyze how related decisions impact project costs/viability. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (REAL 605C, 605XS or 605XP) and (REAL 635C or 635XS and REAL 635XP).
C Requires minimum grade of C.
XS Requires minimum grade of XS.
XP Requires minimum grade of XP.

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

REAL 710: *Real Estate Entrepreneurship.* 3 credits.
Explores real estate development from an applied, entrepreneurial perspective. Emphasis is placed on understanding the unique challenges, risks, and opportunities faced by entrepreneurial developers as opposed to those operating in a larger, institutional context. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (REAL 615C, 615XS or 615XP) and (REAL 625C, 625XS or 625XP).
C Requires minimum grade of C.
XS Requires minimum grade of XS.
XP Requires minimum grade of XP.

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

REAL 720: *Real Estate Leadership and Project Management.* 3 credits.
Focuses on the differences, similarities, and applications of both Leadership and Management in the context of the real estate industry. Students will study characteristics of industry leaders, both historical and contemporary, to asses different leadership styles and how to effectively manage organizations. Emphasis, will be placed on different organization structures and organizational management theories including their applications, risks, effectiveness, and best practices. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

REAL 730: *Financing Real Estate Projects.* 3 credits.
Students will study the key drivers of successful real estate capital deals from the perspectives of both suppliers and users of funds. Emphasis will be placed on exploring the intricacies of financing alternatives, primary and secondary markets, and evaluating the impact of different financing scenarios on project returns. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: REAL 625C, 625XS or 625XP.
C Requires minimum grade of C.
XS Requires minimum grade of XS.

XP Requires minimum grade of XP.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

REAL 740: *Real Estate Investments.* 3 credits.
Focuses on the analysis of complex real estate investment opportunities with an emphasis on evaluating investment feasibility. Students will be provided with case study materials for actual commercial real estate offerings in the greater Washington, DC metropolitan area over the past decade. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (REAL 615C, 615XS or 615XP) and (REAL 625C, 625XS or 625XP) and (REAL 635C, 635XS or 635XP) and (REAL 645C, 645XS or 645XP).
C Requires minimum grade of C.
XS Requires minimum grade of XS.
XP Requires minimum grade of XP.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

REAL 750: *MSRED Capstone.* 3 credits.
The Capstone Project will be the culmination of the master's program, offered at the end of the program. The course will combine the theoretical teachings from the program with real world, practical situations. Students will apply concepts learned to current development and construction projects in the Washington, D.C. metropolitan area. One of the sample cases involves the potential future uses of a plot of land in the metro area, a mixed-use high-density area that is slated to undergo significant transformation. The case will request project teams to explore the various options, employing a decision-tree approach to fully analyze the options, and examining the SWOT, local urban management policies, future valuation streams, and environmental impacts of each. A site visit will be required, as well as visits to various developers engaged in similar projects. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (REAL 605C, 605XS or 605XP) and (REAL 615C, 615XS or 615XP) and (REAL 625C, 625XS or 625XP) and (REAL 635C, 635XS or 635XP) and (REAL 645C, 645XS or 645XP) and (REAL 655C, 655XS or 655XP).
C Requires minimum grade of C.
XS Requires minimum grade of XS.
XP Requires minimum grade of XP.

Enrollment limited to students with a class of Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

REAL 790: *Special Topics in Real Estate.* 3 credits.
Explores contemporary issues and challenges in the management and development of real estate. Topics not covered in the regular real estate development offerings. Course may be repeated with change in topic. Offered by School of Business. May be repeated within the term for a maximum 15 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

REAL 796: *Directed Reading.* 1-6 credits.
Admission to the MSRED program or permission of the program director. Offered by School of Business. May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: Admission to the MSRED program or permission of the program director.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Recreation (RECR)

100 Level Courses

RECR 100: *Brazilian Jiu-Jitsu: Intro.* 1 credit.
Instructs students in self defense Brazilian Jiu-Jitsu techniques. Appropriate for students who have no prior experience in martial arts or Brazilian Jiu-Jitsu. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 101: *Brazilian Jiu-Jitsu: Intermediate.* 1 credit.
Teaches students beginner-to-intermediate-level techniques in Brazilian Jiu-Jitsu. Focuses on specific defensive techniques to be used against an attacker along with escapes and submissions from a variety of different attacks. Requires participation in basic sparring with particular attention

to safety and intensive training and conditioning routine. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: RECR 100.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 102: *Judo: Introduction.* 1 credit.
Introduces basic body mechanics of throwing, sweeping, grappling, and submission skills used in Judo and for self-defense. Presents the history of Judo, rules of the sport and proper safety and falling techniques. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 103: *Judo: Intermediate.* 1 credit.
Emphasizes the execution of proper skills and movements rather than the contact itself. Incorporates both offensive and defensive movements. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: RECR 102 or permission of instructor.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 106: *Krav Maga: Introduction.* 1 credit.
Introduces students to the principles and practice of Krav Maga, an Israeli system of self-protection. Involves knowledge of threat response, skill training in self-protection, and mental preparation for defensive tactics. Prepares students in appropriate protective action in situations of threat or attack. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 107: *Krav Maga: Intermediate.* 1 credit.
Continues training in Krav Maga skills for experienced students. Explores multiple opponents, defending third parties, decision making skills, using & defending against weapons, and fight strategy. Notes: Students with injuries or pre-existing conditions that affect performance must inform the instructor. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: RECR 106.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 108: *Self Defense: Introduction.* 1 credit.
Teaches beginner level of self-defense such as defensive techniques to be used against an attacker along with escapes and submissions from a variety of different attacks. Requires participation in basic sparring with particular attention to safety. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 109: *Self Defense: Intermediate.* 1 credit.
Teaches more advanced defensive and offensive techniques, building on the student's previous training. Emphasizes continuous improvement in physical and mental fitness. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: RECR 108.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 110: *Tae Kwon Do: Introduction.* 1 credit.
Develop basic skills of Tae Kwon Do, a Korean martial art that predominantly emphasizes kicking. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 111: *Tae Kwon Do: Intermediate.* 1 credit.
Develops intermediate -level skills of Tae Kwon Do, building on basic skills learned in the introduction course. Continues to focus on the student's mental development, as well as physical training. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: RECR 110.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 113: *Fencing.* 1 credit.
Gives the beginning student basic knowledge of the sport of fencing and teaches the fundamental movements so students can fence at a novice level. Teaches basic officiating and etiquette of the sport. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 118: *Cardio Conditioning.* 1 credit.
Introduces cardiovascular fitness. Provides students with lectures and multiple cardiovascular workouts. Covers cardiovascular endurance, cardiovascular diseases, body composition, nutrition, and weight management. Teaches the use of cardiovascular equipment and designing a cardiovascular fitness program. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 119: *Fitness Walking.* 1 credit.
Introduces students to cardiovascular exercise as it relates to a healthy lifestyle and improved quality of life. Covers design, implementation, and evaluation of a personal walking plan based on current fitness levels. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 120: *Weight Training/ Body Conditioning.* 1 credit.
Introduce students to fitness and healthy lifestyles. Provides students with an overview of the various types of weight training, with an emphasis on circuit weight training method. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 121: *Backpacking: Introduction.* 2 credits.
Introduces practical and experiential activities for students with starting knowledge of backpacking. Involves discussions, demonstrations, and activities that teach the basics of backpacking. Covers equipment selection, map and compass skills, backcountry cooking, staying healthy in the outdoors, safety and emergency procedures, backcountry ethics (Leave No Trace), and natural history. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 122: *Exploring Outdoor Adventure.* 2 credits.
Provides students an introduction to leadership theory and practice in planning outdoor adventure activities. Focuses on building skills necessary to engage in a wide range of individual outdoor adventure activities such as orienteering, geocaching, canoeing, rock climbing, and challenge course team building. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 124: *Horsemanship: Introduction.* 1 credit.
Introduces the basics of horseback riding and horsemanship. Emphasizes how to care for a horse, tack a horse, and basic riding skills such as walking, trotting, and jumping small obstacles. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 125: *Horsemanship: Intermediate.* 1 credit.
Builds the intermediate skills of horseback riding and horsemanship. Emphasizes technical riding and advancing basic horseback riding skills (e.g. figure S's, serpentines, and change of direction). Focuses on how equitation affects the horse and horse behavior affects riding and safety. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: RECR 124.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 129: *Mountain Biking.* 2 credits.
Provides students with the fundamentals of mountain biking through skills aimed to master techniques in descending and ascending hills, negotiating obstacles, and stopping. Skills in maintaining a bike and appreciation of terrain, navigation, and safety will also be covered. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 130: *Introduction to Marksmanship.* 1 credit.
Orients users of air powered rifles and pistols in firearm safety during international level target shooting and other competitive marksmanship. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 133: *Indoor Rock Climbing: Intro.* 1 credit.
Introduces equipment, techniques, safety, and planning related to basic rock climbing. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 134: *Rock Climbing: Introduction.* 2 credits.
Teaches basic climbing terms, techniques, equipment, and safety practices for top rope belay climbing and rappelling. Builds on communication skills and trust. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 136: *Pistol Marksmanship.* 1 credit.
Introduces students to marksmanship skills in Olympic sport and target shooting. Increases students' knowledge of shooting safety, position shooting, equipment care and maintenance, and shooting sports competition methods and techniques. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 137: *Trap and Skeet Shooting: Intro.* 2 credits.
Designed to educate the student on gun and range safety. Includes hands-on learning of the games trap and skeet, where competitors fire

at clay targets (approximately 4 1/4 inches in diameter and 1 1/2 inches in height) launched from a trap at varying angles. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 139: *Archery: Introduction.* 1 credit.
Introduces students to competitive archery. Provides instruction for shooting safety, proper form and technique, equipment maintenance, and rules for competing in Olympic style FITA tournaments. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 140: *Rifle Marksmanship.* 1 credit.
Introduces students to marksmanship skills in Olympic style small bore competition target shooting. Increases students' knowledge of firearm safety, international target shooting styles, equipment care and maintenance, and shooting sports competition methods and techniques for rifle target shooting. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 141: *Basketball: Introduction.* 1 credit.
Introduces the basic elements of basketball, including dribbling, passing, shooting, tactics, and strategy. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 143: *Soccer: Introduction.* 1 credit.
Introduces the basic elements of soccer including dribbling, kicking, passing, trapping, tactics, and strategy. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 144: *Soccer: Intermediate.* 1 credit.
Prepares the experienced soccer player in the aspects of the competitive game. Applies skills-training to competitive and recreational play. Covers strategies of offense and defense and variation of different systems of play. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: RECR 143.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 145: *Volleyball: Introduction.* 1 credit.
Introduces students to fundamental knowledge and basic skills of volleyball. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 151: *Badminton: Introduction.* 1 credit.
Introduces the fundamental skills, rules, and strategies of badminton. Covers basic techniques and etiquette of both singles and double play. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 152: *Pickleball.* 1 credit.
Introduces basic knowledge and skills to play Pickleball such as forehand, backhand, ground strokes, volleys and serves, as well as the rules and strategies for singles and doubles play. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 155: *Tennis: Introduction.* 1 credit.
Teaches tennis terms, rules, scoring, techniques for the forehand and backhand ground strokes, volley, overhead, and serve, as well as basic strategy for singles and doubles. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 156: *Tennis: Intermediate.* 1 credit.
Prepares experienced tennis player in advanced skills: point play, control of pace, direction, and depth of forehand and back hand, ground strokes, and topspin and underspin. Instructs tactical use of volley, styles of play, and strategies for singles and doubles. Introduces principles to refereeing. Applies skills-training to competitive and recreational play. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: RECR 155.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 157: *Squash: Introduction.* 1 credit.
Introduces basic squash terms, rules, scoring, safety, and techniques for drives, volleys, wall boasts, and serves, as well as singles and doubles strategies. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 161: *Scuba Diving: Basic.* 2 credits.
Provides training toward certification as an open water SCUBA diver. Emphasizes snorkeling (free diving introduction) and SCUBA skills. Covers safe diving skills, the physics of diving, equipment care and maintenance, diving fitness, underwater navigation, record keeping, and other basic SCUBA knowledge. Qualifies students for open water certification by Scuba Schools International (SSI). Requires strong swimming skills, high comfort level under water and physical and mental conditioning compatible with SCUBA industry diving safety standards. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 162: *Swimming: Beginning.* 1 credit.
Develops a knowledge base and basic swimming skills for the weak swimmer and non-swimmer, and makes them water safe. Includes, but are not limited to, locomotion and propulsive movements in a prone and supine position, breath control, rhythmic breathing, beginning diving techniques, personal safety, and rescue skills to maintain a water-safe environment. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 163: *Swimming: Intermediate.* 1 credit.
Builds on basic-level swimming skills by providing practice for confidence, refinement of coordination, and improvement of other aquatic skills. Presents more advanced swimming strokes and focuses on physical conditioning and aquatic safety. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: RECR 162.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 169: *Golf: Introduction.* 1 credit.
Teaches basic golf terms, rules, and techniques for the full swing, putting, chipping, and pitching, as well as playing on a golf course. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 171: *Latin Dance.* 1 credit.
Provides knowledge base of dance fundamentals and skill development in various Latin dances and will include basic rhythms, dance positions, floor alignments, techniques of leading and following, and maintenance of dance frame in partner dancing. Introduces dances which may include but not restricted to Merengue, Mambo, Samba, Salsa, and Bachata. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 172: *Social Dance.* 1 credit.
Provides a knowledge base of dance fundamentals and skill development in various ballroom dances and includes basic rhythms, dance positions, floor alignments, techniques of leading and following, and maintenance of dance frame in partner dancing. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 181: *Meditation: Introduction.* 1 credit.
Introduces students to philosophical foundations of meditation. Guides in the practice of meditation and its application to daily mental focus and concentration. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 182: *Pilates: Introduction.* 1 credit.
Provides the history and basic foundations of Pilates including an introduction to beginning Pilates exercises and their proper execution; exploration of modifications for certain exercises and the various props which may be used in the group class setting. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 183: *Pilates: Intermediate.* 1 credit.
Provides students with advanced knowledge and skills in Pilates techniques and exercises. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: RECR 182.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 184: *Tai Chi: Introduction.* 1 credit.
Increase awareness of the mind and body. Introduces basic principles of Chi (energy) and Yin Yang (polarity) and how they apply to the body through practicing the Tai Chi movements. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

RECR 186: *Yoga: Introduction.* 1 credit.
Introduces students to the practice of Hatha yoga. Emphasizes yoga asanas (postures) and pranayama (breathing exercises) to enhance physical fitness and mental concentration. Offered by School of Education. Limited to three attempts.

Schedule Type: Activity-Based

Grading:

This course is graded on the Undergraduate Regular scale.

RECR 187: *Yoga: Intermediate.* 1 credit.
Emphasizes mastery of yoga asanas (postures) and pranayama (breathing techniques) to enhance physical fitness and mental concentration. Focuses on 10 new yoga poses and practice of the complete Sun Salutation. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: RECR 186.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale.

Rehabilitation Science (RHBS)

200 Level Courses

RHBS 201: *Introduction to Rehabilitation Science.* 3 credits.
Introduces the field of rehabilitation science. Surveys various topics within rehabilitation science including development of the field, models of disablement-enablement, facilitators and barriers to enablement across the lifespan. Offered by Rehabilitation Science. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RHBS 270: *Applied Human Anatomy and Physiology I.* 4 credits.
Develops a comprehensive understanding of the interrelationships of anatomy and physiology as observed in the human organism, and introduces application of knowledge to health, disease and dysfunction. Emphasis on musculoskeletal, nervous, cardiovascular, respiratory and integumentary systems. Offered by Rehabilitation Science. Limited to three attempts.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RHBS 271: *Applied Human Anatomy and Physiology II.* 4 credits.
Develops a comprehensive understanding of the interrelationships of anatomy and physiology as observed in the human organism, and introduces application of knowledge to health, disease and dysfunction. Emphasis on digestive, endocrine, lymphatic, genitourinary, and reproductive systems. Offered by Rehabilitation Science. Limited to three attempts.

Recommended Prerequisite: RHBS 270.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

RHBS 340: *Health, Disease and Dysfunction.* 3 credits.
Focuses on basic epidemiology, health promotion and disease prevention, as well as impairments in normal function of the individual resulting in disease and dysfunction. Exploration of the individual and societal impact of health and disease. Introduces current rehabilitation and intervention strategies as well as classification of disease and disability. Offered by Rehabilitation Science. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RHBS 345: *Applied Biomechanics in Rehabilitation.* 3 credits.
Introduces basic concepts and principles of biomechanics in the study and analysis of functional human movement. Discusses the biomechanical principles as applied in both healthy and clinical populations. Develops an understanding of the scientific and clinical applications of biomechanics to rehabilitation interventions. Offered by Rehabilitation Science. Limited to three attempts.

Recommended Prerequisite: College level physics or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RHBS 350: *Clinical Physiology and Human Performance.* 3 credits.
Investigates the study of human physiology and how it relates to physical activity, health, and functional ability. Specifically, examines the metabolic, locomotive, endocrine, cardiovascular, and pulmonary responses to physical activity and their contributions and limitations to human performance. Offered by Rehabilitation Science. Limited to three attempts.

Recommended Prerequisite: College-level chemistry or permission of instructor or department chair.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RHBS 375: *Gait and Functional Movement Analysis.* 3 credits.
Analyzes human gait and common structural impairments associated with functional performance. Provides the fundamental terminology, techniques, and data interpretation methods used in gait analysis and assessing human physical function. Offered by Rehabilitation Science. Limited to three attempts.

Recommended Prerequisite: RHBS 270 and RHBS 271 or similar courses in human anatomy and physiology.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RHBS 380: *Neural Basis of Movement.* 3 credits.
Introduces major topics in sensory and motor neurophysiology as they relate to motor control and motor learning. Includes organization of sensory and motor systems, neural mechanisms of learning and memory, and current neurophysiological testing techniques. Special emphasis is placed on the implications for motor impairment and recovery following nervous system disease or injury. Offered by Rehabilitation Science. Limited to three attempts.

Recommended Prerequisite: RHBS 270 and RHBS 271 or equivalent anatomy and physiology course.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RHBS 390: *Clinical Assessment of Functional Capacity.* 3 credits.
Examines the scientific basis and theory for exercise assessments in healthy persons and those with chronic disease and disability. Covers cardiorespiratory fitness measurements, cardiac function, body composition, muscular strength and endurance. Offered by Rehabilitation Science. Limited to three attempts.

Recommended Prerequisite: Undergraduate course in anatomy and physiology or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

RHBS 410: *Physical Activity and Public Health.* 3 credits.
Investigates the basic principles and concepts of epidemiology and the influence of exercise and physical activity on the most common risk factors for prevalent chronic diseases in the United States of America. Offered by Rehabilitation Science. Limited to three attempts. Equivalent to GCH 410.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RHBS 415: *Clinical Movement Science I.* 3 credits.
Describes how the human nervous and musculoskeletal systems work together to move the human body, with special emphasis on movement disorders and disabilities. Topics include movement and motion principles, muscle force production, physiology, and adaptation, along with the measurement of muscle activity, body movements, and body forces. Offered by Rehabilitation Science. Limited to three attempts.

Recommended Prerequisite: College-level physics or permission of instructor or department chair.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RHBS 416: *Clinical Movement Science II.* 3 credits.
Describes how the human nervous and musculoskeletal systems work together to move the human body, with a special emphasis on movement disorders and disabilities. Topics include movement control, adaptation, and learning; experimental and clinical assessment of body movements and forces, treatment of abnormal movement, and rehabilitation technologies. Offered by Rehabilitation Science. Limited to three attempts.

Recommended Prerequisite: RHBS 415 or permission of instructor or department chair.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RHBS 418: *Exercise Endocrinology.* 3 credits.
Explores the role of the endocrine system in the coordination and regulation of the body's internal environment under acute and chronic exercise conditions. Offered by Rehabilitation Science. Limited to three attempts.

Recommended Prerequisite: RHBS 270 and RHBS 271 or similar course in human anatomy and physiology.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RHBS 420: *Adult Health and Function.* 3 credits.
Approaches the study of function and normal development, how it is attained and how it is optimized with a multi-systems viewpoint. Focuses on the components of functional movement. Addresses strategies for assessing, promoting and maintaining functional independence. Highlights current treatment approaches of disease and dysfunction. Offered by Rehabilitation Science. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RHBS 430: *Advanced Functional Clinical Assessments.* 3 credits.
Examines the theory behind functional assessments used in those with chronic diseases and/or disability. Current measures used to assess function in clinical populations will be performed and discussed. Established clinical and research measures will also be examined and conducted. Offered by Rehabilitation Science. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: RHBS 390[C] or 390[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RHBS 450: *Psychosocial Adaptation in Rehabilitation.* 3 credits.
Examines the psychosocial impacts of rehabilitation and disability. Provides a disability perspective from the individual and society and explores the interaction between them. Offered by Rehabilitation Science. Limited to three attempts.

Recommended Prerequisite: Completed RHBS 201 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RHBS 455: *Research in Rehabilitation Science.* 3 credits.
Describes central principles of scientific method and ethical and regulatory responsibilities of rehabilitation science researchers. Explores application of scientific method in basic, interventional, clinical and translational research. Develops ability to read literature critically and

make appropriate scientific inferences. Introduces basics of grant writing. Offered by Rehabilitation Science. Limited to three attempts.

Mason Core: Capstone

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: STAT 250 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Senior.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RHBS 489: *Introduction to Clinical Research.* 1 credit.
Provides students with a basic understanding of what clinical research is and the scientific principles on which it is based. Starts with a historical perspective on clinical research and then goes on to explore the following topics: purpose of clinical research, ethical and regulatory implications of clinical research, and the roles and responsibilities of all parties involved in clinical research. Offered by Rehabilitation Science. Limited to three attempts.

Recommended Prerequisite: Course is open to honors college students only or by permission of instructor.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

RHBS 490: *RS: Clinical Research Internship.* 3 credits.
Practical experience in a clinical research setting under the direction of a mentor. Each student is required to work with an experienced clinical investigator who agrees to provide the trainee mentorship. Clinical research embraces a spectrum of scientific disciplines that use a variety of study methods. Therefore, the multidisciplinary approach to clinical research is emphasized during didactic interactions. Note: In addition, an application must be submitted in the semester prior to enrollment in the course. During the semester prior to entry, students may be asked to acquire certain competencies/certifications in order to fully participate at their research site (for example, human subjects research protections training, lab safety certification, HIPAA training). Offered by Rehabilitation Science. Limited to three attempts.

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: Course is open to honors college students only.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

RHBS 491: *Directed Research.* 1-3 credits.
Engages students in a directed research project under the guidance of a faculty member. Offered by Rehabilitation Science. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Permission of the instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

600 Level Courses

RHBS 606: *Clinical Exercise Physiology.* 3 credits.
Examines acute and chronic alterations and adaptations associated with exercise and training. Covers role of exercise therapy in preventing and rehabilitating from disease across lifespan. Particular emphasis on role of exercise therapy in cardiorespiratory, musculoskeletal, and metabolic diseases. Offered by Rehabilitation Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

RHBS 620: *Psychosocial Aspects of Rehabilitation.* 3 credits.
Explores social and psychological impacts of disability. Processes by which people with disabilities adapt to limitations will be examined, as will the influence society has in promoting independence/dependence among people with disabilities. Offered by Rehabilitation Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

RHBS 650: *Foundations of Rehabilitation Science.* 3 credits.
Examines the field of rehabilitation science with emphasis on the core theories and models of this emerging discipline. Surveys various topics within rehabilitation science including the history and development of the field, assistive technologies, pathology and impairment research, functional limitations research, disability research, translational research, and ethical considerations in clinical and research settings. Offered by Rehabilitation Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

RHBS 651: *Research Design and Methods I.* 3 credits.
Explores quantitative and qualitative research methods, principles and techniques necessary for implementation of health science research. Offered by Rehabilitation Science. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

RHBS 652: *Research Design and Methods II.* 3 credits.
Explores advanced experimental and quasi-experimental research methods frequently utilized in rehabilitation research. Develop theoretical and practical knowledge necessary to conduct independent research. Offered by Rehabilitation Science. May not be repeated for credit.

Recommended Prerequisite: RHBS 651 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

RHBS 706: *Clinical Assessment of Fatigability.* 3 credits.
Reviews the scientific literature describing the theories of fatigue and fatigability. Assessments and methodologies used to evaluate fatigue and fatigability will be performed. Students will apply the theories of fatigue to further their understanding of specific clinical problems. Offered by Rehabilitation Science. May not be repeated for credit.

Recommended Prerequisite: Enrolled in RHBS program, or with permission of the course instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

RHBS 710: *Applied Physiology I.* 3 credits.
Examines the primary bio-regulatory and communication systems. A detailed study of physiology for graduate students interested in health and human movement, chronic illness, and disability. Covers energy metabolism, endocrine, immune, neurological, and muscular systems. Offered by Rehabilitation Science. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

RHBS 711: *Applied Physiology II.* 3 credits.
Explores general systemic function. A detailed study of physiology for graduate students interested in health and human movement, chronic illness, and disability. Covers cardiovascular, pulmonary, gastrointestinal, renal, and reproductive systems. Offered by Rehabilitation Science. May not be repeated for credit.

Recommended Prerequisite: RHBS 710.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

RHBS 720: *Principles of Clinical Trials.* 3 credits.
Provides a practical overview of the fundamental principles of clinical trial design and management, ethical and regulatory factors in the conduct of clinical trials, and their role in clinical practice, public health and decision making. Topics include clinical trial design, biostatistics, ethics and regulatory affairs, study management and oversight, and

current concepts. Offered by Rehabilitation Science. May not be repeated for credit.

Recommended Prerequisite: Graduate level statistics/methods

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

RHBS 740: *Applied Physiology: Cardiorespiratory.* 3 credits.
Rigorous, evidence-based study of biological factors and medial conditions that limit oxidative metabolic function. Emphasis on examining current hypotheses of physical activity limitations in chronic illness and disability. Offered by Rehabilitation Science. May not be repeated for credit.

Recommended Prerequisite: RHBS 606, EFHP 610, RHBS 710 or other graduate physiology course, plus one of the following: two-semester course sequence in anatomy and physiology (100 level or above) or one course in animal or comparative physiology (300 level or above) or one course in human physiology (300 level or above).

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

RHBS 745: *Metabolic Basis of Disability.* 3 credits.
Examines anatomy and physiology of organs and systems involved in regulating metabolism; assesses relationships among hormonal and central nervous system regulation in the production and regulation of energy. Offered by Rehabilitation Science. May not be repeated for credit.

Recommended Prerequisite: RHBS 710

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

RHBS 746: *Movement Control and Learning.* 3 credits.
Describes how the human nervous and musculoskeletal systems work together to move the human body, with a special emphasis on movement disorders and disabilities. Topics include movement and motion principles, muscle force production, physiology, and adaptation, along with the measurement of muscle activity, body movements, and body forces. Offered by Rehabilitation Science. May not be repeated for credit.

Recommended Prerequisite: RHBS 710

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

RHBS 750: *Physiology of Clinical Exercise Interventions.* 3 credits.
Critiques current knowledge of exercise prescription in both healthy and clinical populations. Examines physiological effects of exercise interventions, with emphasis on chronic disease and disability. Offered by Rehabilitation Science. May not be repeated for credit.

Recommended Prerequisite: RHBS 606.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

RHBS 754: *Movement Disorders: Etiology, Assessment, and Analyses.* 3 credits.
Applies concepts of neuromechanics to the assessment and analysis of normal and pathological movement using both existing clinical assessments and laboratory-based measures of body kinematics, kinetics, muscle activity, and perception/cognition interactions with movement. Discusses benefits and limitations of assessment and analysis techniques as well as current research with regard to advancing these techniques. Offered by Rehabilitation Science. May not be repeated for credit.

Recommended Prerequisite: RHBS 746.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

RHBS 772: *Applied Biomechanics in Rehabilitation.* 3 credits.
Describes concepts and principles of biomechanics for the study and analysis of functional human movement within the scope of rehabilitation science. Describes the biomechanical principles as applied in both healthy and clinical populations. Develops an understanding of the scientific and clinical applications of biomechanics to rehabilitation interventions. Offered by Rehabilitation Science. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

RHBS 776: *Movement Analysis of Function.* 3 credits.
Applies biomechanical principles to record and analyze functional activities, including walking, sit-stand, and reaching. Focuses on data acquisition, processing, and compiling of kinematic and kinetic data including motion capture, center of pressure, and electromyography. Evaluates movement from a joint, total body, and muscular perspective related to performance. Addresses how age and injuries affect functional performance. Offered by Rehabilitation Science. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

800 Level Courses

RHBS 816: *Rehabilitation Efficacy and Effectiveness Research.* 3 credits.
Examines the theory and methods of comparative effectiveness studies and their relationship to developing Rehabilitation Science and other disciplines to effect better clinical practice by identifying benefits/harms of prevention and treatment and explores the implications of evidence for comparative effectiveness in developing health care policy. Offered by Rehabilitation Science. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

RHBS 850: *Teaching Practicum.* 3 credits.
Prepares students for teaching role as an academic through direct teaching experiences in undergraduate courses in Rehabilitation Science under the supervision of a graduate faculty member, including syllabus development, lecture preparation, presentation skills, grading, and course evaluation. Offered by Rehabilitation Science. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment limited to students in the HH-PHD-RHBS program.

Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

RHBS 894: *Special Topics in Rehabilitation Science.* 3 credits.
In-depth study of contemporary topics in Rehabilitation Science. Course topics vary each semester. Notes: Students may take up to 9 credits of RHBS 894 with permission of program director. Offered by Rehabilitation Science. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

RHBS 940: *Independent Study.* 1-6 credits.
In-depth study of selected area of rehabilitation science under the direction of faculty. Offered by Rehabilitation Science. May be repeated within the degree for a maximum 24 credits.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

RHBS 960: *Directed Research.* 1-6 credits.
Research on a pertinent topic in rehabilitation science. Must be arranged with instructor before registering. Offered by Rehabilitation Science. May be repeated within the term for a maximum 24 credits.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

RHBS 998: *Doctoral Dissertation Proposal.* 1-9 credits.
Work on research proposal that forms basis for doctoral dissertation. Offered by Rehabilitation Science. May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Advancement to PhD candidacy.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

RHBS 999: *Dissertation Research.* 1-9 credits.
Dissertation research on a specific topic under the direction of a faculty member. Offered by Rehabilitation Science. May be repeated within the degree for a maximum 24 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Religious Studies (RELI)

100 Level Courses

RELI 100: *The Human Religious Experience.* 3 credits.
Examines main forms of religious expression as embodied in several important religious traditions in contemporary world. Investigates religious experience; myth and ritual; teachings and scripture; ethical, social, and artistic aspects of religion; and nature and function of religion in human society. Offered by Religious Studies. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

RELI 211: *Religions of the West.* 3 credits.
Focuses on Judaism, Christianity, and Islam from historical, comparative, and cross-cultural perspectives. May also include modern developments of those faiths such as Mormonism and Baha'ism, as well as Zoroastrianism and religions of ancient Near Eastern cultures. Offered by Religious Studies. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 212: *Religions of Asia.* 3 credits.
Focuses on the traditional religions from Asia, particularly Hinduism, Buddhism, Daoism, and Confusianism from historical, comparative, and cross-cultural perspectives. May also include Jainism, Sihk, Shinto, native shamanism, and others as well as modern developments after European colonialism and growth as global religions. Offered by Religious Studies. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 235: *Religion and Literature.* 3 credits.
Explores the relationship between religion and literature in different times and cultures, the influence of religion on literary works, and how literature expresses major religious themes such as death and immortality, divine will and justice, suffering and human destiny, and religion and state. Offered by Religious Studies. Limited to three attempts.

Mason Core: Literature

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 240: *Death and the Afterlife in World Religions.* 3 credits.
Explores how selected world religions address the universal experience of death and express their beliefs in an afterlife. Focuses on the scriptures, beliefs, rituals and customs of selected world religions as they reflect each tradition's response to the most basic question about human destiny - how human beings face death and attempt to transcend it. Offered by Religious Studies. Limited to three attempts.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 271: *The Bible as Literature.* 3 credits.
Analyzes the Bible as a collection of literary texts. Course readings will include selections from the Jewish Tanakh and from the Christian New Testament. Students will become familiar with contemporary scholarship on the Bible and sample the Bible's impact on the art and literature of the last millennia. Students will become conversant with concepts such as scripture, canon, source criticism, historical criticism, genre, and reception history. Offered by Religious Studies. Limited to three attempts.

Mason Core: Literature

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 272: *Islam.* 3 credits.
Introduces basic religious beliefs and practices of Islam, with view to diverse manifestations of Islamic culture in different ethnic and social contexts. Provides overview of essential rituals of Islamic life, mystical practices of Sufis, certain popular forms of religious practice, sources and application of Islamic law, and distinctive Islamic artistic and literary forms. Offered by Religious Studies. Limited to three attempts.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

RELI 300: *Theories and Methods in Religious Studies.* 3 credits.
Basic introduction to interdisciplinary methods, theories, definitions, and thinkers in the academic study of religion. Provides foundation for further comparative studies of religions, concentrated studies of a particular religion, and the understanding of engagement between religion and wider culture. Prerequisite for upper-level courses on religious studies theory and method, such as the writing intensive and synthesis courses in Religious Studies. Offered by Religious Studies. Limited to three attempts.

Recommended Corequisite: RELI 100, 211, and/or 212

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 313: *Hinduism.* 3 credits.
Introduces Hindu religion and thought, beliefs, rituals, ethics and religious practices. Emphasis on classical Hinduism, but also covers Hinduism and modernity, modern Hindu movements, and Hinduism as a global religion. Offered by Religious Studies. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 314: *Chinese Philosophies and Religious Traditions.* 3 credits.
Surveys major religious traditions and philosophical themes of China including Confucianism, Taoism, and Chinese Buddhism and Neo-Confucianism. Examines foundation of Chinese world view and spirituality by investigating diverse religious traditions that have created tensions and harmony among them. Offered by Religious Studies. Limited to three attempts.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: RELI 212 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 315: *Buddhism.* 3 credits.
Surveys Buddhist religious traditions. Includes historical development of Buddhism in India, China, and Japan, examining both Theravada and Mahayana traditions; philosophical and religious significance of Buddhism; and social and political implications of Buddhist traditions in South Asian and East Asian countries. Offered by Religious Studies. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 316: *Modern Christian Thought.* 3 credits.
Examines influential Christian thinkers and Christian intellectual trends of the modern period, from the Enlightenment through the present. Offered by Religious Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 317: *Daoism.* 3 credits.
Daoism is one of the most influential philosophical and spiritual traditions in East Asia and especially in China. This course explores philosophical ideas, spiritual orientation, religious practice, and social and political values in Daoist tradition reading classic Daoist texts including Dao De Jing, Chuang-tzu, and other sources. Students will analyze Daoism in light of comparative and cross-cultural studies for global understanding of issues on concepts of nature, human nature, and good and evil. Offered by Religious Studies. Limited to three attempts.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 318: *Korean Philosophy and Religions.* 3 credits.
Survey of the religious traditions and philosophical systems of Korea including Shamanism, Buddhism, Confucianism, and Christianity. The course will explore the Korean development of the religious traditions and philosophical ideas introduced to Korea in relationship to native Korean spirituality and thought pattern. Offered by Religious Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 320: *Religion and Revolution in Latin America.* 3 credits.
Explores the intersection between Christian and revolutionary thought, such as Marxism and existentialism, in Latin America after the 1960s that formed liberation theology. Emphasis on historical, philosophical and

interdisciplinary issues. Offered by Religious Studies. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 322: *Religions of Africa.* 3 credits.
Explores traditional religious practices and world views in Africa south of the Sahara, the spread of African religions to the Caribbean and the Americas, the forms that religions imported or imposed from the north have taken in Africa south of the Sahara, and the interaction among the religious cultures of Africa, European Christianity and Islam. Offered by Religious Studies. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 330: *Religion, Fantasy and Imagination.* 3 credits.
Explores the worlds of religion, fantasy and imagination, presented in selected writings of 20th century fantasy authors, including Lewis, Tolkien, Pullman, Rowling. Covers ideas of quest for enlightenment, redemption or salvation, conflict between good and evil, worlds of the supernatural, parallel dimensions and their inhabitants. Offered by Religious Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 331: *Religion in America.* 3 credits.
Religious heritage in American culture, growth of denominations and sects, and interrelationship of religion and sociopolitical life. Offered by Religious Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 332: *Mormonism.* 3 credits.
Examines the origins and development of Mormonism, as embodied in the Church of Jesus Christ of Latter-day Saints and other related churches. Introduces students to a critical analysis of Latter-day Saint scriptures, rituals, and history. Offered by Religious Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 333: *Spiritual Autobiography.* 3 credits.
Investigates the genre of autobiography as employed by religious authors, both classical and modern. Introduces students to personal, historical, and religious doctrinal contexts that shape the autobiographical literature. Offered by Religious Studies. Limited to three attempts.

Mason Core: Literature

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 334: *American Scriptures.* 3 credits.
In this course, students will analyze texts that Americans have treated as "scripture." Students will read texts that present themselves as scripture, such as selections from the Book of Mormon and a Holy Sacred and Divine Roll and Book (a Shaker text). They will also read texts that have attained a sort of canonicity within American culture, such as the Declaration of Independence and Martin Luther King Jr.'s "Letter from Birmingham Jail." Students will thus gain more than a valuable familiarity with a variety of American religious traditions. They will also reflect on the way that, even in a digital age, texts continue to shape American identity. Offered by Religious Studies. Limited to three attempts. Equivalent to HIST 334.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 335: *Paul and His Letters.* 3 credits.
This course will focus on the oldest known Christian literature, the letters by Saint Paul. The course will explore these letters in their first-century historical and literary contexts, while also surveying some of the most relevant contemporary theoretical approaches to the letters (e.g., feminist, queer, affective, African American, and economic approaches). Offered by Religious Studies. Limited to three attempts.

Recommended Prerequisite: RELI 271, RELI 356, RELI 381

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 337: *Mysticism: East and West.* 3 credits.
Comparative treatment of major expressions of mysticism in East and West through exploration of various ways of understanding mystical experience. Readings and discussion emphasize one or more of the Eastern (Hinduism, Buddhism, Taoism, Zen) and Western (Judaism, Christianity, Islam) traditions. Offered by Religious Studies. Limited to three attempts.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 341: *Global Perspectives on Spirituality and Healing.* 3 credits.
Cross-cultural investigation of human understandings of relationship between spirituality and health. Beliefs about spiritual causes of sickness and health and spiritual techniques of healing in variety of world cultures placed in context of religious beliefs of those cultures. Offered by Religious Studies. Limited to three attempts.

Mason Core: Global Understanding, Encore: Well-Being

Recommended Prerequisite: 30 credits or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 350: *Religion and History of Ancient Israel.* 3 credits.
Examines religion and history of ancient Israel from origins around 1250 BCE to Babylonian Exile in 587 BCE. Topics include debate on historical value of biblical narratives, extra-biblical texts mentioning Israel, move from polytheism to monotheism, archaeology and artifacts, and development of Israel's unique religious and historical self-understanding. Offered by Religious Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 352: *Judaism from Exile to Talmud.* 3 credits.
Examines Jewish religion, history, and literature from the Babylonian Exile to third century C.E. Special attention to development of Hebrew Bible, Apocalyptic and Apocryphal literature, belief in resurrection and final judgment, Dead Sea Scrolls, Jewish sects, and emergence of Christianity and Rabbinic Judaism. Offered by Religious Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 353: *Jewish Political Tradition.* 3 credits.
Explores Jewish thinkers' attitudes towards politics and state. Topics include traditional sources, theological and political crisis of modern times, liberal Jewish thought, Zionist ideology, Israel as a separate state, relationship between religion and politics in modern Israel. Offered by Religious Studies. Limited to three attempts.

Recommended Prerequisite: RELI 211, 251 or 252, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 355: *Sufism.* 3 credits.
Examines the tradition of Islamic mysticism, Sufism, through an exploration of the literature produced by Sufis themselves. Provide general introduction to Sufism and its spiritual perspective and investigates various genres of Sufi literature, including hagiography, symbolic scriptural exegesis, spiritual autobiography, didactic allegory and love poetry. Offered by Religious Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RELI 356: *Jesus and the Gospels.* 3 credits.
Examines Gospel accounts of Jesus in context of first-century Christianity. Applies variety of historical and literary methods to gain understanding of Jesus and history and theology of early church. Offered by Religious Studies. Limited to three attempts.

Schedule Type: Lecture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

RELI 591: *Special Topics in Religious Studies.* 3 credits.
Topics in religious studies selected by importance in the field and pertinent to the role of religion in society and culture. Emphasis on historical, interdisciplinary, and cross-cultural issues. Notes: May be repeated when topic is different with permission of department. Offered by Religious Studies. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

RELI 600: *Interdisciplinary Pathways in the Study of Religion.* 3 credits.
A co-taught course by Religious Studies faculty that introduces students to the graduate study of religion through a survey of different lines of inquiry in the field and different methodological approaches in the discipline. Offered by Religious Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

RELI 630: *Theories and Methods in the Study of Religion.* 3 credits.
Examines study of religion as academic discipline. Evaluates various intellectual approaches and methods used in study of religious phenomena. Offered by Religious Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

RELI 632: *Interreligious Dialogue.* 3 credits.
Examines the philosophical and theoretical foundation for religious pluralism and dialogue and different approaches to interreligious dialogue and understanding among leading interreligious thinkers. Offered by Religious Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

RELI 633: *Issues in Religious Ethics.* 3 credits.
Examines how perceptions of ultimate reality shape ethical values and behaviors of various religious traditions. Addresses problems in interpretation of authoritative foundational teachings in contemporary contexts. Special attention to non-Western religions. Offered by Religious Studies. May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

RELI 634: *Topics in American Religion.* 3 credits.
Examines key issues related to religion in North America and the United States. Topics may include evangelicalism/revivalism; religion and the American founding; religious conversion; the intersection of religion and race; new religious movements; religion and immigration. Offered by Religious Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

RELI 635: *World Religions in Transition and Transformation.* 3 credits.
Explores transitions and transformations in selected world religions as they respond to and influence forces of cultural change, social values, and the crises of history. Fresh or modified constructions of the sacred and their relationship to world and humans will be examined. Offered by Religious Studies. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

RELI 636: *Religion and the Natural Environment.* 3 credits.
Explores contemporary religious thought on the morality and ethics of environmental responsibility. Begins with an exploration of this issue in Western Christian thought and examines religious approaches to the environment in the traditional and contemporary thought of other major world religions, including Judaism, Islam, Hinduism, Buddhism, and the Chinese traditions. Offered by Religious Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

RELI 637: *Religion and Secularity in State and Society.* 3 credits.
Examines the relationship between religion, state, society, and law in modern contexts, and across the global and religious spectrum, through the lens of different theoretical approaches to this issue. Offered by Religious Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

RELI 640: *Religion and Law.* 3 credits.
Focuses on United States Supreme Court decisions on religion clauses over the last 50 years. Provides a close reading of court's opinions and considers material from religious legal traditions. Covers contemporary political debates on issues like prayer in public schools, displays of religious symbols, ceremonial references to God, and public aid to religious schools. Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

Russian (RUSS)

100 Level Courses

RUSS 101: *Elementary Russian I.* 3 credits.
For students with no knowledge of Russian. Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Lab work required. Notes: Students may not receive credit for RUSS 101 and RUSS 110. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to RUSS 110.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Russian

RUSS 102: *Elementary Russian II.* 3 credits.
Continuation of RUSS 101. Notes: Students may not receive credit for RUSS 102 and RUSS 110. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to RUSS 110.

Recommended Prerequisite: RUSS 101 or permission of department.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Russian

RUSS 110: *Elementary Russian.* 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Notes: Students may not receive credit for RUSS 110 and RUSS 101, 102. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to RUSS 101, RUSS 102.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Russian

200 Level Courses

RUSS 201: *Intermediate Russian I.* 3 credits.
Further development of skills in listening, speaking, reading, and writing. Notes: RUSS 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: RUSS 102, RUSS 110, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Russian

RUSS 202: *Intermediate Russian II.* 3 credits.
Application of language skills to reading, composition, and discussion. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: RUSS 201, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Fulfills Frgn Lng requirment, Taught in Russian

300 Level Courses

RUSS 302: *Russian Conversation and Composition.* 3 credits.
Develops in students ability to express themselves orally on topics of current interest and everyday situations. Provides practice in more difficult forms of written expression. Offered by Modern & Classical Languages. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: RUSS 202, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Russian

RUSS 303: *Russian Advanced Conversation.* 3 credits.
Development of oral proficiency. Includes current colloquial expressions. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: RUSS 202, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Russian

RUSS 310: *Readings in Russian Literature.* 3 credits.
Readings of Russian literary works in original language with lectures, discussions, and exam in Russian. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: RUSS 202, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Russian

RUSS 311: *Contemporary Russian Short Fiction.* 3 credits.
Reading and discussion of recent short stories by best-known Russian writers of today. Notes: Readings in original language. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: RUSS 202, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Russian

RUSS 325: *Major Russian Writers.* 3 credits.
Study of works of major Russian writers in translation. Writers to be studied vary. Notes: May be repeated once for credit when course content is different. Offered by Modern & Classical Languages. May be repeated within the term for a maximum 9 credits.

Mason Core: Literature

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: ENGL 101/ENGH 101 or equivalent or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RUSS 326: *A Survey of Russian Literature.* 3 credits.
Surveys Russian literature from its beginning to 1880. Offered by Modern & Classical Languages. Limited to three attempts.

Mason Core: Literature

Recommended Prerequisite: Completion of 60 hours or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RUSS 327: *A Survey of Russian Literature.* 3 credits.
Surveys Russian literature of late 19th and 20th centuries. Offered by Modern & Classical Languages. Limited to three attempts.

Mason Core: Literature

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RUSS 353: *Russian Civilization.* 3 credits.
Civilization and culture of Russia and former Soviet Union. Includes films, slides, and music in addition to readings and lectures. Offered by Modern & Classical Languages. Limited to three attempts.

Mason Core: Synthesis

Specialized Designation: Non-Western Culture

Recommended Prerequisite: 60 credits and completion or concurrent enrollment in all other required Mason Core courses.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RUSS 354: *Contemporary Post-Soviet Life.* 3 credits.
Social life, art, economics, education, view of life, and personal aspirations of Russian citizen today. Offered by Modern & Classical Languages. Limited to three attempts.

Mason Core: Global Understanding

Specialized Designation: Non-Western Culture

Recommended Prerequisite: 54 hours or Permission of Instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RUSS 380: *Advanced Russian I.* 3 credits.
Comprehensive study of the more difficult characteristics of contemporary standard Russian in areas of grammar, style, and vocabulary usage. Emphasizes developing fluency in oral and written expression. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: RUSS 202 or equivalent, appropriate placement score, or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Russian

RUSS 381: *Advanced Russian II.* 3 credits.
Comprehensive study of the more difficult characteristics of contemporary standard Russian in areas of grammar, style, and vocabulary usage. Emphasizes developing fluency in oral and written expression. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: RUSS 202 or equivalent, appropriate placement score, or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Russian

400 Level Courses

RUSS 401: *Readings in the Social Sciences.* 3 credits.
Reading, translation, and discussion of Russian materials in fields of history, politics, geography, and sociology. Offered by Modern & Classical Languages. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Russian

RUSS 407: *Russian Drama and Theater.* 3 credits.
Development of Russian theater including directing techniques in Moscow Art Theater. Reading and discussion of major Russian plays of 19th and 20th centuries. Notes: Course work in English; knowledge of Russian not required. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: 60 hours or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RUSS 410: *Russian Poetry.* 3 credits.
Historical development of Russian poetry and representative works of major poets. Notes: Reading in Russian; course work in English and Russian. Offered by Modern & Classical Languages. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Russian

RUSS 470: *Topics in (Post) Soviet Film.* 3 credits.
Russian, Soviet, and post-Soviet films selected by type, period, or director with emphasis varying from year to year. Required viewings, student discussion, and written critiques. Notes: May be repeated once with permission of department or film studies adviser. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

RUSS 480: *Fourth-Year Russian.* 3 credits.
Advanced work in major grammatical and lexical topics of Russian. Application of theoretical principles in guided written and oral exercises. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: RUSS 380 and 381 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Russian

RUSS 481: *Fourth-Year Russian.* 3 credits.
Advanced work in major grammatical and lexical topics of Russian. Application of theoretical principles in guided written and oral exercises. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: RUSS 380, 381, or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Russian

RUSS 490: *Independent Study.* 1-3 credits.
Research and analysis of selected problem in language, literature, or culture in consultation with member of Russian studies faculty. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: Russian studies major with 84 hours and Permission of Instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Russian

RUSS 491: *Independent Study.* 1-3 credits.
Research and analysis of selected problem in language, literature, or culture in consultation with member of Russian studies faculty. Offered by Modern & Classical Languages. Limited to three attempts.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Russian

School Psychology (SPSY)

500 Level Courses

SPSY 597: *Special Topics in School Psychology.* 3 credits.
Focuses on emerging or foundational concepts in school psychology research, theory, or practice under direction of faculty member. Offered by School of Education. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Admission to school psychology program or permission of instructor

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

SPSY 617: *Child Psychopathology.* 3 credits.
Surveys major types of psychopathological disturbances of infancy and childhood. Provides an overview of atypical development in children and adolescents focusing on cognitive, emotional, social, and adaptive domains. Examines etiologies, symptoms, effects, and treatments of major psychological disorders. Introduces students to major classification systems that are commonly applied to diagnose psychological disorders in children. Offered by School of Education. May not be repeated for credit. Equivalent to PSYC 617.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPSY 619: *Consultation and Applied Behavioral Analysis.* 3 credits.
Examines the theoretical framework and elements of applied behavioral analysis, foundational principles of behavioral approaches to learning, as well as the framework of behavioral consultation. Provides acquisition and practical application of behavioral consultation skills through the process of the consultant-consultee relationship. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPSY 671: *Role and Function of the School Psychologist.* 3 credits.
Considers roles and functions of school psychologist in the educational environment, including all National Association of School Psychologists (NASP) practice standards. Includes certification process, relevant school law, ethical standards and practice, current and historical issues, and trends. Notes: Open only to school psychology MA students, or by permission of instructor. Offered by School of Education. May not be repeated for credit.

Recommended Corequisite: SPSY 672

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPSY 672: *Schools as Systems Practicum in School Psychology.* 3 credits.
Provides contextual understanding of how districts, schools and classrooms operate; job responsibilities of the school psychologist; role of colleagues in the schools; special education process; various team structures and functioning; MTSS implementation; systems-level initiatives; organizational change; program evaluation; and use of data for school/student improvement. Requires semester-long practicum in the schools shadowing a school psychologist, and weekly class meetings. Offered by School of Education. May not be repeated for credit.

Recommended Corequisite: SPSY 671

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major in Psychology.

Enrollment limited to students in the Education Human Development college.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

SPSY 692: *Counseling in the Schools.* 3 credits.
Examines theories, techniques, and counseling issues relevant to children and adolescents. Develops basic and advanced counseling skills, and provides experience receiving verbal and written feedback on simulated counseling sessions. Explores range of community agencies providing mental health services. Counseling practice provides an emphasis on process and culturally competent counseling strategies. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (EDCD 603[B-] or 603[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Education Human Development college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

SPSY 709: *Cognitive Assessment.* 4 credits.
Introduces school psychology graduate students to issues and methods of cognitive/intellectual assessment. Provides experience in administration, scoring, and interpretation of major infant, child, and adult tests of cognitive ability, with emphasis on individual tests. Examines the development of IQ tests, theories of intelligence, and current trends and developments in intellectual assessment. Notes: Open only to school psychology MA students. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Education Human Development college.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPSY 710: *Social, Emotional, and Behavioral Assessment.* 4 credits.
Examines major instruments used in clinical assessment of social, emotional and behavioral functioning of children and adolescents. Provides practice in administration and scoring of major techniques for evaluation of social emotional behavioral adjustment. Explores nature, problems, and predictive value, and principles of interpretation of these procedures. Notes: Open only to school psychology MA students. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (SPSY 709[B-], 709[XS], PSYC 810[B-] or 810[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Education Human Development college.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPSY 722: *Advanced Child Assessment.* 4 credits.
Provides comprehensive coverage of principles, strategies, and techniques in diagnostic assessment of children and adolescents with various conditions such as learning disabilities, intellectual disability, autism, attention difficulties, and emotional disturbances. Familiarizes students with diagnostic classification systems and special education eligibility process in schools. Notes: Open only to school psychology MA or PhD students. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (((SPSY 709[B-] or 709[XS]) and (SPSY 710[B-] or 710[XS]) and (SPSY 750[B-] or 750[XS])) or ((PSYC 810[B-] or 810[XS]) and (PSYC 811[B-] or 811[XS]))).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPSY 750: *Cognitive Assessment Practicum.* 3 credits.
Semester-long practicum experience in cognitive assessment, to develop and refine psychological assessment skills. Requires weekly seminar. Provides experience in individual cognitive assessments of children referred to the GMU Cognitive Assessment Program under direct supervision of a licensed psychologist. Includes interviewing, testing, scoring, report writing, and communicating results. Requires group and individual supervision Notes: Open only to school psychology MA students. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (SPSY 709[B-] or 709[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Education Human Development college.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale.

SPSY 751: *Advanced Assessment Practicum in School Psychology I.* 3 credits.
Provides practical, applied, supervised experience conducting comprehensive psychoeducational evaluations with children and adolescents to develop assessment and diagnostic skills. Requires interviewing, test selection and administration, scoring, report writing, and feedback sessions with clients. Focuses on integration of data and recommendation development. Requires practicum in training clinic, and individual and group supervision. Notes: Open only to School Psychology MA students. Offered by School of Education. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: ((SPSY 709[B-] or 709[XS]) and (SPSY 710[B-] or 710[XS]) and (SPSY 722[B-] or 722[XS]) and (SPSY 750[B-] or 750[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Education Human Development college.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale.

SPSY 752: *Advanced Assessment Practicum in School Psychology II.* 3 credits.
Provides practical, applied, supervised experience conducting comprehensive psychoeducational evaluations with children and adolescents to refine assessment and diagnostic skills. Requires interviewing, test selection and administration, scoring, report writing, and feedback sessions with clients. Focuses on integration of data and recommendation development. Requires practicum in training clinic, and individual and group supervision. Notes: Open only to School Psychology MA students. Offered by School of Education. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: ((SPSY 709[B-] or 709[XS]) and (SPSY 710[B-] or 710[XS]) and (SPSY 722[B-] or 722[XS]) and (SPSY 750[B-] or 750[XS]) and (SPSY 751[B-] or 751[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Education Human Development college.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale.

SPSY 753: *Multiculturalism in Schools.* 3 credits.
Introduces school/educational/developmental psychology graduate students to issues and recent research on multicultural competence and multiculturalism in schools. Develops self-awareness around issues of cultural diversity and expands knowledge base in the area of diversity. Provides an opportunity to read research in the field on RTI, Consultation, Intervention, and Assessment that has a multicultural perspective or component. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPSY 773: *Prevention, Intervention, and Consultation in Schools.* 3 credits.
Examines psychological theory and practice of prevention, intervention, and consultation in the school environment. Provides an overview of consultation approaches, prevention models that promote academic and social success, strategies and methods for targeted intervention, and crisis response. Focuses on current models of direct/indirect service-delivery in a MTSS/RtI model to support academic achievement and social emotional adjustment of all children. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPSY 775: *Prevention Intervention Consultation Practicum.* 3 credits.
Requires school-based practicum under the supervision of school psychologist, and weekly seminar. Focuses on teacher consultation and implementation of prevention/intervention services. Application of a variety of concrete methods/strategies designed to support successful academic achievement and positive social-emotional adjustment for children in schools. Focuses on delivery of evidence-based direct and consultative psychological services to individuals and groups within the school community. Offered by School of Education. May not be repeated for credit. Equivalent to SPSY 792.

Registration Restrictions:
Required Prerequisites: SPSY 773[B-] or 773[XS].
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Education Human Development college.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

SPSY 790: *School Psychology Internship.* 3-5 credits.
Provides supervised field experience and semi-monthly seminar over course of one school year as students work as full-time staff members in schools. Focuses on demonstration of the integration of skills/knowledge across all professional practice domains. Emphasizes evidence-based interventions, direct and indirect services, and measurement of student outcomes. NOTE: Students must register for at least 3 credits in each of 2 consecutive semesters. Offered by School of Education. May be repeated within the degree for a maximum 10 credits.

Recommended Prerequisite: Completion of required courses in school psychology and permission of program coordinator.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale.

SPSY 792: *Prevention Intervention Consultation Practicum.* 3 credits.
Requires school-based practicum under the supervision of school psychologist, and weekly seminar. Focuses on teacher consultation and implementation of prevention/intervention services. Application of a variety of concrete methods/strategies designed to support successful academic achievement and positive social-emotional adjustment for children in schools. Focuses on delivery of evidence-based direct and consultative psychological services to individuals and groups within the school community. Offered by School of Education. May be repeated within the degree for a maximum 6 credits. Equivalent to SPSY 775.

Registration Restrictions:
Required Prerequisites: SPSY 773[B-] or 773[XS].
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Education Human Development college.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

Secondary Education (SEED)

300 Level Courses

SEED 370: *Young Adult Literature in Multicultural Settings.* 3 credits.
Examines literary works written for and about young adults, introduces critical issues surrounding teaching of young adult literature in multiculturally diverse schools, and requires reading and review of young adult literature. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SEED 372: *Teaching Mathematics in the Secondary School.* 3 credits.
Covers curricula, current issues, and research literature in secondary school mathematics. Emphasis is on developing different styles of teaching. Field experience is required for those seeking initial teacher licensure. Offered by School of Education. Limited to three attempts. Equivalent to EDCI 372.

Recommended Corequisite: SEED 440

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

SEED 406: *LGBTQ Issues in Education.* 3 credits.
Provides an overview of contemporary issues and concepts related to lesbian, gay, bisexual, trans, and queer persons and communities as they relate to systems, structures, and experiences within educational contexts, such as schools, museums, and community organizations. Focuses on theories, methods, and practices to support learners and educators in settings inclusive of all sexual identities and orientations. Offered by School of Education. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

SEED 422: *Foundations of Secondary Education.* 3 credits.
Analyzes philosophical assumptions, curriculum issues, learning theories, and history associated with current teaching styles. Emphasizes applications to all disciplines taught in secondary schools. Examines educational trends and issues. Note: 15 hours of school-based field experience required. Offered by School of Education. Limited to three attempts. Equivalent to EDUC 422.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SEED 440: *Human Development, Learning, and Teaching.* 3 credits.
Explores processes that influence intellectual, social, emotional, moral, ethical, and physical development of middle and high school students. Examines research and theories for understanding the learning process. Notes: School-based field experience required. Offered by School of Education. Limited to three attempts. Equivalent to EDUC 372.

Recommended Corequisite: SEED 372 or SEED 466 or SEED 469 or SEED 473

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SEED 466: *Teaching Computer Science in Secondary School.* 3 credits.
Emphasizes developing different styles of teaching and covers curricula, current issues, and research literature in secondary school computer science. Note: School-based field experience required. Offered by School of Education. Limited to three attempts.

Recommended Corequisite: SEED 440

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SEED 469: *Teaching English in Secondary School.* 3 credits.
Provides study of methods, materials, content, and organization of English programs in secondary school. Offered by School of Education. Limited to three attempts. Equivalent to EDCI 469.

Recommended Corequisite: SEED 440

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SEED 472: *Advanced Methods for Teaching Mathematics in the Secondary School.* 3 credits.
Focuses on learning processes for mathematics. Introduces national and state standards regarding content and methodologies for teaching mathematics. Examines instructional methods and materials in relation to secondary mathematical content, curriculum, and assessment. School-based field experience required. Offered by School of Education. Limited to three attempts. Equivalent to EDCI 472.

Recommended Prerequisite: SEED 440, SEED 422

Recommended Corequisite: EDRD 419

Registration Restrictions:
Required Prerequisite: SEED 372[C].
[C] Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed - Mathematic 6-12.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SEED 473: *Teaching Science in the Secondary School.* 3 credits.
Builds fundamental knowledge of science teaching and learning including standards-based curriculum design and research-based teaching strategies. Notes: School-based field experience required for those seeking initial teacher licensure. Offered by School of Education. Limited to three attempts. Equivalent to EDCI 473.

Recommended Corequisite: SEED 440

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SEED 476: *Advanced Methods of Teaching Computer Science in the Secondary School.* 3 credits.
Emphasizes learning processes for computer science (CS). Introduces national and state standards regarding content and methodologies for teaching CS. Examines instructional methods and materials in relation to secondary CS content, curriculum, and assessment. Note: School-based field experience required. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: SEED 422, SEED 440

Recommended Corequisite: EDRD 419

Registration Restrictions:
Required Prerequisite: SEED 466[C].
[C] Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed - Comp Sci 6-12.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SEED 479: *Advanced Methods of Teaching English in the Secondary School.* 3 credits.
Guides students in working effectively with national and local standards for teaching secondary English. Offered by School of Education. Limited to three attempts. Equivalent to EDCI 479.

Recommended Prerequisite: SEED 422, SEED 440

Recommended Corequisite: EDRD 419

Registration Restrictions:
Required Prerequisite: SEED 469[C].
[C] Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed - English 6-12.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SEED 483: *Advanced Methods of Teaching Science in Secondary School.* 3 credits.
Provides advanced study of teaching and curriculum development based on research and current issues. Emphasizes integrating science and technology, adapting instruction to needs of diverse learners, and promoting safety. Offered by School of Education. Limited to three attempts. Equivalent to EDCI 483.

Recommended Prerequisite: SEED 422, SEED 440

Recommended Corequisite: EDRD 419

Registration Restrictions:
Required Prerequisite: SEED 473[C].
[C] Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed - Biology 6-12, Secondary Ed - Chemistry 6-12, Secondary Ed - Physics 6-12 or Secnd Ed - Earth Science 6-12.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SEED 491: *Internship Seminar in Secondary Teaching.* 2 credits.
Focuses on critical reflection regarding effects of teacher actions on others; develops skills as a reflective practitioner; presents research-based rationales for instructional decision-making. Offered by School of Education. Limited to three attempts. Equivalent to EDCI 491.

Recommended Prerequisite: All students must have completed all licensure and all endorsement course work.

Registration Restrictions:
Required Prerequisites: (((SEED 422[C] or 422[XS]) and SEED 440[C] and EDRD 419[C]) and ((SEED 469[C] and 479[C]) or (SEED 372[C] and 472[C]) or (SEED 473[C] and 483[C]) or (SEED 466[C] and 476[C])) and (SEED 492[*C], 493[*C], 494[*C] or 496[*C])).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Secondary Ed - Biology 6-12, Secondary Ed - Chemistry 6-12, Secondary Ed - Mathematic 6-12, Secondary Ed - English 6-12, Secondary Ed - Comp Sci 6-12, Secondary Ed - Physics 6-12 or Secnd Ed - Earth Science 6-12.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

SEED 492: *Internship: Secondary Education English.* 6 credits.
Provides intensive, supervised clinical experience in English grade 6-12 classroom in approved school for fall or spring semester. Offered by School of Education. Limited to three attempts. Equivalent to EDCI 490, SEED 493, SEED 494, SEED 496.

Mason Core: Capstone

Recommended Prerequisite: Completion of licensure and all endorsement work.

Registration Restrictions:
Required Prerequisites: ((SEED 422[C] or 422[XS]) and SEED 440[C], EDRD 419[C], SEED 469[C], 479[C] and 491[*C]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Secondary Ed - English 6-12.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Special scale.

SEED 493: *Internship: Secondary Education Math.* 6 credits.
Provides intensive, supervised clinical experience in mathematics grade 6-12 classroom in approved school for fall or spring semester. Offered by School of Education. Limited to three attempts. Equivalent to EDCI 490, SEED 492, SEED 494, SEED 496.

Mason Core: Capstone

Recommended Prerequisite: Completion of licensure and all endorsement work.

Registration Restrictions:
Required Prerequisites: ((SEED 422[C] or 422[XS]) and SEED 440[C], EDRD 419[C], SEED 372[C], 472[C] and 491[*C]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Secondary Ed - Mathematic 6-12.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Special scale.

SEED 494: *Internship: Secondary Education Science.* 6 credits.
Provides intensive, supervised clinical experience in a science grade 6-12 classroom in an approved school for fall or spring semester. Offered by School of Education. Limited to three attempts. Equivalent to EDCI 490, SEED 492, SEED 493, SEED 496.

Mason Core: Capstone

Recommended Prerequisite: Completion of licensure and all endorsement work.

Registration Restrictions:
Required Prerequisites: ((SEED 422[C] or 422[XS]) and SEED 440[C], EDRD 419[C], SEED 473[C], 483[C] and 491[*C]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Secondary Ed - Biology 6-12, Secondary Ed - Chemistry 6-12, Secondary Ed - Physics 6-12 or Secnd Ed - Earth Science 6-12.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Special scale.

SEED 496: *Internship: Secondary Education Computer Science.* 6 credits.
Provides intensive, supervised clinical experience in computer science grade 6-12 classrooms in approved school for fall or spring semester. Offered by School of Education. Limited to three attempts. Equivalent to EDCI 490, SEED 492, SEED 493, SEED 494.

Mason Core: Capstone

Recommended Prerequisite: Completion of licensure and all endorsement work.

Registration Restrictions:
Required Prerequisites: ((SEED 422[C] or 422[XS]) and SEED 440[C], EDRD 419[C], SEED 466[C], 476[C] and 491[*C]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Secondary Ed - Comp Sci 6-12.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

SEED 502: *Young Adult Literature in Multicultural Settings.* 3 credits.
Examines the historical development of literary works written for and about young adults. Considers critical issues surrounding the use and teaching of young adult literature in today's culturally diverse public schools. Requires the reading and review of young adult literature in a variety of genres. Offered by School of Education. May be repeated within the degree for a maximum 6 credits. Equivalent to EDCI 570.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SEED 522: *Foundations of Secondary Education.* 3 credits.
Analyzes philosophical assumptions, curriculum issues, learning theories, and history associated with current teaching styles. Emphasizes applications to all disciplines taught in secondary schools. Examines current educational trends and issues in relation to sociology of secondary school settings. Notes: 15 hours school-based field experience required. Offered by School of Education. May not be repeated for credit. Equivalent to EDUC 522.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SEED 540: *Human Development and Learning: Secondary Education.* 3 credits.
Explores developmental issues associated with middle and high school students, and theories that provide basis for understanding learning process. Addresses implications for designing instruction and curriculum. Offered by School of Education. May not be repeated for credit. Equivalent to EDUC 672.

Recommended Corequisite: SEED 566, 567, 569, 572, or 573.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SEED 566: *Teaching Computer Science in the Secondary School.* 3 credits.
Emphasizes developing different styles of teaching and covers curricula, current issues, and research literature in secondary school computer science. Note: School-based field experience required. Offered by School of Education. May not be repeated for credit.

Recommended Corequisite: SEED 540

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SEED 567: *Teaching Social Studies in the Secondary School.* 3 credits.
Provides teacher candidates an introduction to methods, frameworks, and practices of teaching social studies in secondary schools. Notes: Requires 15 hours of school-based field experience. Offered by School of Education. May not be repeated for credit. Equivalent to EDCI 567.

Recommended Corequisite: SEED 540

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SEED 569: *Teaching English in the Secondary School.* 3 credits.
Provides study of methods, materials, content, and organization of English programs in secondary school. Notes: 15 hours school-based field experience required. Offered by School of Education. May not be repeated for credit. Equivalent to EDCI 569.

Recommended Corequisite: SEED 540

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SEED 572: *Teaching Mathematics in the Secondary School.* 3 credits.
Emphasizes developing different styles of teaching and covers curricula, current issues, and research literature in secondary school mathematics. Notes: 15 hours of school-based field experience required. Offered by School of Education. May not be repeated for credit. Equivalent to EDCI 572.

Recommended Corequisite: SEED 540

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SEED 573: *Teaching Science in the Secondary School.* 3 credits.
Provides study of methods, materials, content, and organization of science programs. Emphasizes curriculum planning, current methodologies, safety, and trends in secondary schools. Note: Students must also complete 15 hours of field experience. Offered by School of Education. May not be repeated for credit. Equivalent to EDCI 573.

Recommended Corequisite: SEED 540

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

SEED 667: *Advanced Methods of Teaching Social Sciences in the Secondary School.* 3 credits.
Emphasizes interdisciplinary curriculum and instruction and implementing national state standards, authentic assessment, and adaptations for diverse populations. Notes: School-based clinical experience required. Offered by School of Education. May not be repeated for credit. Equivalent to EDCI 667.

Recommended Prerequisite: SEED 522 and SEED 540

Recommended Corequisite: EDRD 619

Registration Restrictions:
Required Prerequisites: (SEED 567[B] or 567[XS]).
[B] Requires minimum grade of B.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed - Hist/Soc Sci or Secondary Education Licensure.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SEED 669: *Advanced Methods of Teaching English in the Secondary School.* 3 credits.
Guides students in working effectively with national and local standards for teaching secondary English. Note: School-based clinical experience required. Offered by School of Education. May not be repeated for credit. Equivalent to EDCI 669.

Recommended Prerequisite: SEED 522 and SEED 540

Recommended Corequisite: EDRD 619

Registration Restrictions:
Required Prerequisites: (SEED 569[B] or 569[XS]).
[B] Requires minimum grade of B.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed - English or Secondary Education Licensure.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SEED 672: *Advanced Methods of Teaching Mathematics in the Secondary School.* 3 credits.
Focuses on learning processes for mathematics. Introduces national and state standards regarding content and methodologies for teaching mathematics. Examines instructional methods and materials in relation to secondary mathematical content, curriculum, and assessment. Note: School-based clinical experience required. Offered by School of Education. May not be repeated for credit. Equivalent to EDCI 672.

Recommended Prerequisite: SEED 522 and SEED 540

Recommended Corequisite: EDRD 619

Registration Restrictions:
Required Prerequisites: (SEED 572[B] or 572[XS]).
[B] Requires minimum grade of B.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed - Math or Secondary Education Licensure.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SEED 673: *Advanced Methods of Teaching Science in the Secondary School.* 3 credits.
Provides advanced study of teaching and curriculum development based on research and current issues. Emphasizes integrating science and technology, and adapting instruction to the needs of diverse learners. School-based field experience required. Offered by Graduate School of Education. May not be repeated for credit. Offered by School of Education. May not be repeated for credit. Equivalent to EDCI 673.

Recommended Prerequisite: SEED 522 and SEED 540

Recommended Corequisite: EDRD 619

Registration Restrictions:
Required Prerequisites: (SEED 573[B] or 573[XS]).
[B] Requires minimum grade of B.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed - Biology, Secondary Ed - Chemistry, Secondary Ed - Physics, Secondary Ed - Earth Science or Secondary Education Licensure.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SEED 675: *Research in Secondary Education.* 3 credits.
Links evidence of student learning to make informed instructional decisions. Engages students in critiquing various research paradigms, reviewing literature, and systematically collecting and interpreting evidence to improve practice. Notes: All students enrolled in this course must be working daily in or have access to a classroom setting classroom setting (during the semester in which they enroll in this course or a semester following), since the major course assignment involves a classroom-based teacher research project. Offered by School of Education. May not be repeated for credit. Equivalent to EDUC 675.

Recommended Prerequisite: SEED 540, SEED 522

Recommended Corequisite: For students seeking English licensure: SEED 669 and EDRD 619 For students seeking math licensure: SEED 672 and EDRD 619 For students seeking science licensure: SEED 673 and EDRD 619 For students seeking history/social studies licensure: SEED 667 and EDRD 619 For students seeking computer science licensure: SEED 676 and EDRD 619

Registration Restrictions:
Required Prerequisites: (SEED 569[B], 569[XS], 572[B], 572[XS], 573[B], 573[XS], 567[B], 567[XS], 566[B] or 566[XS]).
[B] Requires minimum grade of B.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed - Biology, Secondary Ed - Chemistry, Secondary Ed - English, Secondary Ed - Hist/Soc Sci, Secondary Ed - Math, Secondary Ed-Computer Science, Secondary Ed - Physics, Secondary Ed - Earth Science or Secondary Education Licensure.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

SEED 676: *Advanced Methods of Teaching Computer Science in the Secondary School.* 3 credits.
Emphasizes learning processes for computer science (CS). Introduces national and state standards regarding content and methodologies for teaching CS. Examines instructional methods and materials in relation to secondary CS content, curriculum, and assessment. Note: School-based field experience required. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: SEED 540 and SEED 522

Recommended Corequisite: EDRD 619

Registration Restrictions:
Required Prerequisites: (SEED 566[B] or 566[XS]).
[B] Requires minimum grade of B.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed-Computer Science or Secondary Education Licensure.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

SEED 791: *Internship Seminar in Secondary Teaching.* 2 credits.
Focuses on critical reflection regarding effects of teacher actions on others; develops skills as a reflective practitioner; presents research-based rationales for instructional decision-making. Offered by School of Education. May not be repeated for credit. Equivalent to EDCI 791.

Recommended Prerequisite: Students must also have completed all licensure and all endorsement course work prior to enrolling.

Registration Restrictions:
Required Prerequisites: (((SEED 522[B] or 522[XS]) and (SEED 540[B] or 540[XS]) and (EDRD 619[B] or 619[XS])) and (((SEED 569[B] or 569[XS]) and (SEED 669[B] or 669[XS])) or ((SEED 572[B] or 572[XS]) and (SEED 672[B] or 672[XS])) or ((SEED 573[B] or 573[XS]) and (SEED 673[B] or 673[XS])) or ((SEED 567[B] or 567[XS]) and (SEED 667[B] or 667[XS])) or ((SEED 566[B] or 566[XS]) and (SEED 676[B] or 676[XS]))) and (SEED 792[*B], 792[XS], 793[*B], 793[XS], 794[*B], 794[XS], 795[*B], 795[XS], 796[[]] or 796[*B])).
[*] May be taken concurrently.
[B] Requires minimum grade of B.
[XS] Requires minimum grade of XS.
Requires minimum grade of .

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed - Biology, Secondary Ed - Chemistry, Secondary Ed - English, Secondary Ed - Hist/Soc Sci, Secondary Ed - Math, Secondary Ed-Computer Science, Secondary Ed - Physics, Secondary Ed - Earth Science or Secondary Education Licensure.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SEED 792: *Internship: Secondary Education English.* 1-6 credits.
Provides intensive, supervised clinical experience in English grade 6-12 classroom in approved school for fall or spring semester. Offered by School of Education. May be repeated within the term for a maximum 6 credits. Equivalent to EDCI 790.

Recommended Prerequisite: Completion of all licensure and endorsement course work.

Registration Restrictions:
Required Prerequisites: ((SEED 522[B] or 522[XS]) and (SEED 540[B] or 540[XS]) and (EDRD 619[B] or 619[XS]) and (SEED 569[B] or 569[XS]) and (SEED 669[B] or 669[XS]) and (SEED 791[*B] or 791[XS])).
[*] May be taken concurrently.
[B] Requires minimum grade of B.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed - English or Secondary Education Licensure.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

SEED 793: *Internship: Secondary Education Math.* 1-6 credits.
Provides intensive, supervised clinical experience in a mathematics grade 6-12 classroom in an approved school for fall or spring semester. Offered by School of Education. May be repeated within the term for a maximum 6 credits. Equivalent to EDCI 790, ELED 790, SEED 794, SEED 795.

Recommended Prerequisite: Completion of licensure and all endorsement course work.

Registration Restrictions:
Required Prerequisites: ((SEED 522[B] or 522[XS]) and (SEED 540[B] or 540[XS]) and (EDRD 619[B] or 619[XS]) and (SEED 572[B] or 572[XS]) and (SEED 672[B] or 672[XS]) and (SEED 791[*B] or 791[XS])).
[*] May be taken concurrently.
[B] Requires minimum grade of B.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed - Mathematic 6-12.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

SEED 794: *Internship: Secondary Education Science.* 1-6 credits.
Provides intensive, supervised clinical experience in a science grade 6-12 classroom in an approved school for fall or spring semester. Offered by School of Education. May be repeated within the term for a maximum 6 credits. Equivalent to EDCI 790, ELED 790, SEED 793, SEED 795.

Recommended Prerequisite: Completion of licensure and all endorsement course work.

Registration Restrictions:
Required Prerequisites: ((SEED 522[B] or 522[XS]) and (SEED 540[B] or 540[XS]) and (EDRD 619[B] or 619[XS]) and (SEED 573[B] or 573[XS]) and (SEED 673[B] or 673[XS]) and (SEED 791[*B] or 791[XS])).
[*] May be taken concurrently.
[B] Requires minimum grade of B.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed - Biology, Secondary Ed - Chemistry, Secondary Ed - Physics, Secondary Ed - Earth Science or Secondary Education Licensure.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale.

SEED 795: *Internship: Secondary Education Social Studies.* 1-6 credits.
Provides intensive, supervised clinical experience in a history/social studies grade 6-12 classroom in an approved school for fall or spring semester. Offered by School of Education. May be repeated within the term for a maximum 6 credits. Equivalent to EDCI 790, ELED 790, SEED 793, SEED 794.

Recommended Prerequisite: Completion of licensure and all endorsement course work.

Registration Restrictions:
Required Prerequisites: ((SEED 522[B] or 522[XS]) and (SEED 540[B] or 540[XS]) and (EDRD 619[B] or 619[XS]) and (SEED 567[B] or 567[XS]) and (SEED 667[B] or 667[XS]) and (SEED 791[*B] or 791[XS])).
[*] May be taken concurrently.
[B] Requires minimum grade of B.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed - Hist/Soc Sci or Secondary Education Licensure.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

SEED 796: *Internship: Secondary Education Computer Science.* 6 credits.
Provides intensive, supervised clinical experience in computer science grade 6-12 classrooms in approved school for fall or spring semester. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: Completion of all licensure and endorsement coursework

Registration Restrictions:
Required Prerequisites: ((SEED 522[B] or 522[XS]) and (SEED 540[B] or 540[XS]) and (EDRD 619[B] or 619[XS]) and (SEED 566[B] or 566[XS]) and (SEED 676[B] or 676[XS]) and (SEED 791[*B] or 791[XS])).
[*] May be taken concurrently.
[B] Requires minimum grade of B.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed-Computer Science or Secondary Education Licensure.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

Social Work (SOCW)

200 Level Courses

SOCW 200: *Introduction to Social Work.* 3 credits.
Introduces historical roots of social work profession and social welfare. Person-in-environment perspective discussed as framework for social work knowledge, values, and skills. Initial course in social work curriculum introduces social work profession, professional values, ethics, fields of practice, and settings in which social workers are employed. Highlights profession's commitment to diverse and at-risk populations and social and economic justice. Presentations by social work professionals in different fields of practice supplement classroom lecture, discussion, and small-group exercises. Notes: Open to all majors. Offered by Social Work. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Specialized Designation: Mason Impact.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

SOCW 311: *Building Professional Social Work Skills.* 3 credits.
Apply basic social work concepts and the planned change process to beginning-level professional generalist practice. Develop a professional sense of self, and how to work in a social work setting. Practice course material In an agency setting through a 40 hour service learning experience. Offered by Social Work. Limited to three attempts.

Recommended Prerequisite: SOCW 200.

Registration Restrictions:
Enrollment is limited to students with a major in Social Work.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 312: *Knowledge Building for Helping Professionals.* 3 credits.
Integrates critical thinking skills with an understanding of how knowledge is created and associated with the scientific paradigms that are used to study and understand individuals in the context of the environment. Examines ways of knowing used in the social sciences and social work by being actively engaged in exercises and activities. Offered by Social Work. Limited to three attempts.

Specialized Designation: Mason Impact.

Recommended Prerequisite: SOCW 200.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 357: *Methods of Social Work Intervention I.* 3 credits.
Social work practice from systems perspective. Particular emphasis on problem-solving activities with microsystems. Analyzes common core of knowledge, values, and skills essential to social work practice to gain insight into social work functions and role of social worker as change agent. Note: SOCW 361 must be taken in the same semester as SOCW 357. Offered by Social Work. Limited to three attempts.

Recommended Prerequisite: SOCW 200, SOCI 101, PSYC 100, or permission of the instructor.

Registration Restrictions:
Required Prerequisites: SOCW 361[*C] or 361[*XS].
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Social Work.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 358: *Methods of Social Work Intervention II.* 3 credits.
Continues generic problem-solving model, focusing on group and macro intervention systems, settings, and skills. Emphasizes working with both treatment and task groups. Group processes, such as goal formulation, contract setting, composition, and termination necessary for effective worker intervention, are part of knowledge base. Note: SOCW 362 must be taken in the same semester as SOCW 358. Offered by Social Work. Limited to three attempts.

Recommended Prerequisite: SOCW 200, 357, and 361

Registration Restrictions:
Required Prerequisites: SOCW 362[*C] or 362[*XS].
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Social Work.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 361: *Methods of Social Work Intervention I: Laboratory.* 3 credits.
Develop proficiency in social work and communication skills. Increase competency in practice knowledge and behaviors through experiential learning in the classroom laboratory. Apply knowledge of biological, psychological, social, spiritual, and cultural influences to those who need and those who give help. Examine personal behavioral and learning patterns, values, ethics, and attitudes to increase ability to understand and help clients. Note: SOCW 357 must be taken in the same semester as SOCW 361. Offered by Social Work. Limited to three attempts.

Recommended Prerequisite: SOCW 200.

Registration Restrictions:
Required Prerequisites: SOCW 357[*C] or 357[XS].
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Social Work.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 362: *Methods of Social Work Intervention II: Laboratory.* 3 credits.
Provides students the opportunity to integrate theory, research, and practice in the area of group work and family interventions. Classroom simulation of group skills and how to work with families will occur. Note: SOCW 358 must be taken in the same semester as SOCW 362. Offered by Social Work. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (SOCW 200[C] or 200[XS]) and (SOCW 357[C] or 357[XS]) and (SOCW 361[C] or 361[XS]) and (SOCW 358[*C] or 358[*XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Social Work.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 375: *Human Behavior and the Family Life Course.* 3 credits.
This course utilizes an integrative ecological approach to understanding individual human behavior In the context of the family and the transitions over the life course. The family life course perspective recognizes the interdependent nature of life course experiences and highlights the impact of life events, transitions and change, timing, and historical and social context. Offered by Social Work. Limited to three attempts.

Mason Core: Synthesis

Recommended Prerequisite: SOCW 200; BIOL 103; PSYC 100; SOCI 101.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 380: *Changing Social Policies and Systems.* 3 credits.
Equips students with basic macro social work practice skills necessary to create change that will result in a more socially and economically just society. Examines the historical development, central concepts, and institutional nature of current social policies and systems and how to create change at various levels. Applies practice skills to developing strategies for change. Offered by Social Work. Limited to three attempts.

Recommended Prerequisite: SOCW 200.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 390: *Analytic Methods for Social Work Research.* 3 credits.
Provides a basic introduction to quantitative and qualitative analytic methods for the social worker. The course will emphasize a conceptual understanding of analyses so that students will be able to engage in social debates with the ability to both support their assertions with rigorously generated analyses, as well as question the generalizability and utility of others' analyses. Offered by Social Work. Limited to three attempts.

Recommended Prerequisite: SOCW 200.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

SOCW 400: *Legal and Ethical Issues in Human Services.* 3 credits.
Overview of ethical and legal issues related to human services professions. Topics include responsibility, competence, duty to warn, confidentiality, professional relationships, and research. Emphasizes models of ethical decision making and critical thinking. Offered by Social Work. Limited to three attempts.

Recommended Prerequisite: 45 credits or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 410: *Alcohol and Substance Abuse: Policies and Programs.* 3 credits.
Primary issues related to alcoholism and drug abuse including key concepts, theories, policies, and research regarding use and abuse of alcohol and other drugs. Emphasizes impact of policies and programs on well-being of ethnic minority and disadvantaged service populations. Offered by Social Work. Limited to three attempts.

Recommended Prerequisite: 45 credits or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 415: *Child and Family Welfare.* 3 credits.
Emphasizes viewing human development and child and family welfare services critically, holistically, and contextually. Integrates ecological systems, human rights, and empowerment perspectives for understanding delivery systems and persons in relation to their environment across levels from individual to global. Provides overview of existing child welfare system with focus on current issues, challenges, and at-risk populations. Offered by Social Work. Limited to three attempts.

Recommended Prerequisite: 45 credits or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 435: *Introduction to Gerontology.* 3 credits.
Surveys issues related to working with older adults, their families, and care providers. Studies biological, psychological, and sociocultural aspects of aging, and unique problems with service delivery to older persons. Examines forces that impinge on an older person, and explores critical issues related to extended life span, family changes, institutionalization, and role of older persons in society. Offered by Social Work. Limited to three attempts.

Recommended Prerequisite: 45 credits or permission of the instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 445: *Social Determinants of Health.* 3 credits.
Examine the social determinants of health and the application of this framework to social work and public health policy and practice interventions. Explore the many social justice factors that affect health and consider which community systems and social change approaches may decrease or eliminate health inequities. Offered by Social Work. Limited to three attempts. Equivalent to GCH 445.

Recommended Prerequisite: 45 credits or permission of the instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 471: *Research in Social Work.* 3 credits.
Principles and theory underlying scientific inquiry. Emphasizes use of research in social work practice, steps in conducting research, and research efforts in developing and evaluating social work knowledge and skills. Notes: Must be completed with minimum grade of C. Offered by Social Work. Limited to three attempts.

Specialized Designation: Mason Impact., Writing Intensive in Major

Recommended Prerequisite: SOCW 200; SOCW 312; ENGH 302.

Recommended Corequisite: SOCW 495; Choose one of the following: SOCW 390, STAT 250, SOCI 313, or PSYC 300.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 472: *RS: Integrative Methods in Social Action and Social Change.* 3 credits.
Uses generalist social work practice concepts with large systems and provides students with a hands-on opportunity to apply concepts and principles of intervention with large systems. Students will work with organizations and communities on a local, national, or global level to promote social action and social change. The course will also focus on evaluating interventions addressing the social justice needs of diverse, at-risk, and oppressed populations. Offered by Social Work. Limited to three attempts.

Mason Core: Capstone

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: SOCW 495 and SOCW 471.

Registration Restrictions:
Enrollment is limited to students with a major in Social Work.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 475: *Selected Topics in Social Work Policy.* 1-3 credits.
In-depth study of special areas of social work of interest to students, faculty, and social work community. Notes: May be repeated for credit when topic is different. Offered by Social Work. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 45 credits or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 483: *Selected Topics in Social Work Intervention.* 1-3 credits.
Opportunity to examine personal use of different approaches to social work intervention currently employed in practice settings. Students use technical skills with clients that these approaches require. Notes: May be repeated for credit when topic is different. Offered by Social Work. May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: 45 credits or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 495: *Field Practicum and Seminar I.* 5 credits.
Under supervisory instruction provided by field agencies and faculty liaisons, students are involved two days per week in a social work field practicum, which provides entry level generalist social work training. Both the field practicum and the associated seminar provide learning activities designed to facilitate the demonstration of competencies identified by the Council on Social Work Education. Requires faculty-agency visits. Offered by Social Work. Limited to three attempts.

Recommended Prerequisite: SOCW 200, 311, 312, 357, 358, 361, 362, 375, and 380 with a minimum grade of C and recommendation of faculty.

Registration Restrictions:
Enrollment is limited to students with a major in Social Work.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 496: *Field Practicum and Seminar II.* 5 credits.
Continuation of supervised instruction begun in SOCW 495. Students continue to spend two days per week in a social work field practicum, which provides entry level generalist social work training. Both the field practicum and the associated seminar provide learning activities designed to facilitate the demonstration of competencies identified by the Council on Social Work Education. Requires faculty-agency visits. Offered by Social Work. Limited to three attempts.

Recommended Prerequisite: SOCW 495 with a minimum grade of C.

Registration Restrictions:
Enrollment is limited to students with a major in Social Work.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

SOCW 499: *Independent Study in Social Work.* 1-3 credits.
Investigates research problem in field of social work. Offered by Social Work. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: 60 credits and a research proposal approved by instructor before enrollment.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

600 Level Courses

SOCW 600: *Foundations of Social Work and Social Welfare.* 3 credits.
Introduces issues in social welfare by highlighting the social work profession's commitment to serve diverse and at-risk populations, as well as promote social, economic, and environmental justice. Provides students with opportunities to examine how historical, political, economic, and cultural contexts influence the structure and functions of oppression and the social welfare delivery system. Students gain

knowledge and develop critical analysis skills for examining systems of privileges and oppression based on race and ethnicity, gender, sexual orientation, social and economic status, age, ability status, religion, and nativity status. Emphasis is also placed on professional values and ethics. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 623: *Human Behavior and Social Systems.* 3 credits.
Introduces ecological approach to behavior of individuals, families, groups, organizations, and communities. Integrates and applies theories from psychology, sociology, biology, and anthropology to study of infants, children, and adolescents. Emphasizes human diversity. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 624: *Human Behavior and Social Systems II.* 3 credits.
Continues study of human behavior and diversity by exploring application of development theory and ecological principles to those in young adulthood, middle adulthood, and older adulthood. Offered by Social Work. May not be repeated for credit. Equivalent to SOCW 644.

Recommended Prerequisite: SOCW 623.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 630: *Clinical Social Work in Forensic Settings.* 3 credits.
Exploration of clinical social work roles in legal processes including child and family courts, juvenile and adult justice, competency and capacity processes. Students learn the clinical considerations for working with clients involved in these legal processes and will develop forensic skills including preparation for and participation in court hearings and understanding and mitigating liabilities. Skills include interviewing, risk assessment, mitigation, advocacy and multidisciplinary collaboration. Offered by Social Work. May not be repeated for credit.

Recommended Prerequisite: Completion of MSW generalist coursework (SOCW 600, SOCW 623, SOCW 644, SOCW 656, SOCW 659, SOCW 660, SOCW 671, SOCW 672, SOCW 673, SOCW 674, SOCW 683), advanced standing, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 640: *Clinical Practice with Adults.* 3 credits.
Prepares Specialist students to apply diagnostic, assessment, prevention, treatment and intervention skills with adults in clinical mental health and health settings. Currently accepted evidence-based treatment interventions within the context of contemporary social work theory will also be presented and applied. Offered by Social Work. May not be repeated for credit.

Recommended Prerequisite: Completion of Generalist Year coursework or Advanced Standing status

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 644: *Community Practice Across the Life Course.* 3 credits.
Examines the role of environmental factors including poverty, income inequality, political oppression and traumatic events as factors influencing what is commonly called "psychopathology." Stages of life course development are examined in this course from conception to late adulthood. The course's primary focus is understanding the interactions between cultural and structural processes, and their influence on how clients and client systems live and adapt. In keeping with the social justice imperative of the profession, students will critically analyze the environmental and structural forces that impinge or enhance human

development. Offered by Social Work. May not be repeated for credit. Equivalent to SOCW 624.

Registration Restrictions:
Required Prerequisites: ((SOCW 600[B-] or 600[XS]) and (SOCW 623[B-] or 623[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 645: *Community-Centered Clinical Practice.* 3 credits.
Students use an ecosystems framework for assessment, risk-reduction, prevention, and intervention with communities in a local, national, or international context. Possible areas of exploration include violence prevention and intervention, suicide prevention and intervention, emergency response efforts, and behavioral health or wellness interventions at the community level. Offered by Social Work. May not be repeated for credit.

Recommended Prerequisite: SOCW 624, 652, 658, and 673.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 650: *Advanced Social Work Policy Practice Skills.* 3 credits.
Addresses the role and influence of politics, economics, and cultural and social values on social welfare policy. Develops knowledge, values, and skills to analyze, influence, evaluate, and address public policy. Examines theory and best practices to advance social work policy. Applies advanced policy practice skills to advocate for change to promote and ensure social and economic justice, with special attention to racial and ethnic minorities, women, LGBT persons, children and youth, and other populations at risk. Offered by Social Work. May not be repeated for credit.

Recommended Prerequisite: Completion of MSW generalist coursework (SOCW 600, SOCW 623, SOCW 644, SOCW 656, SOCW 659, SOCW 660, SOCW 671, SOCW 672, SOCW 673, SOCW 674), advanced standing, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 651: *Social Policies, Programs, and Services.* 3 credits.
History of American social welfare policy and social work profession. Explores political, economic, social, cultural, and ideological influences on policy making with emphasis on consequences for populations at risk. Introduces historical policy analysis. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 652: *Influencing Social Policy.* 3 credits.
Introduces students to the knowledge, skills, and values needed to influence policy outcomes. Explores the role of social workers in electoral politics and policy advocacy. Students gain skills in legislative research, coalition building, testifying, constituent organizing, and lobbying, while developing strategies for promoting social justice through policy change. Offered by Social Work. May not be repeated for credit.

Recommended Prerequisite: SOCW 651.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 653: *Immigration Policy.* 3 credits.
Prepares students for advocacy on behalf of immigrants from a human rights and social justice perspective. Explores policies, economic forces and historical precedence abetting global migration. Abets development of an in-depth knowledge of national and local policies as they pertain to immigrants, and how issues relate to social work advocacy. Offered by Social Work. May not be repeated for credit.

Recommended Prerequisite: Completion of all first-year graduate coursework or advanced standing.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 654: *Social Policy for Children and Youth.* 3 credits.
Examines social policies, programs, and services on behalf of children and youth with implications for social work; including child welfare, child and adolescent health and mental health, juvenile justice, and school social work. Explores how societal norms regarding family and definitions of children's well-being influenced these policies over time. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((SOCW 600[B-] or 600[XS]) and (SOCW 623[B-] or 623[XS]) and (SOCW 644[B-] or 644[XS]) and (SOCW 656[B-] or 656[XS]) and (SOCW 659[B-] or 659[XS]) and (SOCW 660[B-] or 660[XS]) and (SOCW 671[B-] or 671[XS]) and (SOCW 672[B-] or 672[XS]) and (SOCW 673[B-] or 673[XS]) and (SOCW 674[B-] or 674[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 655: *Aging Programs and Policies.* 3 credits.
Analyzes the evidence-based benefits and challenges of social welfare and health care policy at the local, state, and federal levels on programs and services for older persons and their families. Fosters an understanding of the context of administrative structures, and legislative context of social policy and aging with attention to diversity and ethics. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((SOCW 600[B-] or 600[XS]) and (SOCW 623[B-] or 623[XS]) and (SOCW 644[B-] or 644[XS]) and (SOCW 656[B-] or 656[XS]) and (SOCW 659[B-] or 659[XS]) and (SOCW 660[B-] or 660[XS]) and (SOCW 671[B-] or 671[XS]) and (SOCW 672[B-] or 672[XS]) and (SOCW 673[B-] or 673[XS]) and (SOCW 674[B-] or 674[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 656: *Poverty, Oppression, and Inequity.* 3 credits.
Critically examines the root causes of poverty, oppression, and inequity in the United States. Examines the historical antecedents and the intersections of the political, economic, social, cultural, and ideological influences on policies, programs, and services. Examines how to use personal and collective political power to guide the analysis of social problems as well as the development of organizational, community, and policy solutions. Introduces skills to create systemic change through the analysis of social problems and the policies, programs, and services that exist to address these issues. Students will develop strategies for planned change in collaboration with marginalized populations, organizations, communities, and policy makers. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 659: *Organizing and Advocating for Change.* 3 credits.
Explores the roles of grassroots organizing and policy advocacy in achieving community change. Introduces skills including capacity mapping, building organizations, assessing power dynamics, mobilizing community members, engaging in participatory planning, nurturing leaders, and selecting appropriate strategies for action. Examines the impact of policy change on community well-being; introduces advocacy skills including legislative research, coalition building, testifying, using the media, field outreach, and direct lobbying. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 660: *Foundations of Direct Practice.* 3 credits.
Introduces the role of social workers as change agents and the core knowledge, values, and skills that guide social work practice with individuals, groups, and families. Emphasizes use of self, engagement,

intervention and planning, follow up, and termination skills with diverse populations. Offered by Social Work. May not be repeated for credit.

Recommended Corequisite: SOCW 672

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 663: *Global Human Rights Policy.* 3 credits.
Examines meaning and benefits of transforming social work policy practice to a global perspective and focus on a human rights-based rather than a needs-based approach. Demonstrates how human rights can serve as conceptual framework for policy practice to effect social change promoting human development and social and economic justice across levels, from the micro through macro and local through global. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((SOCW 600[B-] or 600[XS]) and (SOCW 623[B-] or 623[XS]) and (SOCW 644[B-] or 644[XS]) and (SOCW 656[B-] or 656[XS]) and (SOCW 659[B-] or 659[XS]) and (SOCW 660[B-] or 660[XS]) and (SOCW 671[B-] or 671[XS]) and (SOCW 672[B-] or 672[XS]) and (SOCW 673[B-] or 673[XS]) and (SOCW 674[B-] or 674[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 664: *Creative Arts in Social Work Practice.* 3 credits.
Explores the principles and techniques of creative arts for social work practice, examining assessment, intervention and evaluation strategies that supplement traditional social work treatment. Course covers theory, research, and interventions applied to individuals, families, groups, and communities. Notes: Previous training in the visual arts and/or artistic ability is not required. Offered by Social Work. May not be repeated for credit.

Recommended Prerequisite: Completion of MSW Generalist curriculum or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 667: *Advanced Group Theory and Practice.* 3 credits.
Prepares students for advanced theory and practice in group work, the use of self in the therapeutic process, and the use of varied practice modalities in the group setting. Prepares students to apply multiple theoretical approaches in group work practice with diverse and at-risk populations with an emphasis on social and economic justice. Offered by Social Work. May not be repeated for credit.

Recommended Prerequisite: Completion of Generalist Year Curriculum

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 670: *Social Work Program Planning, Communications, and Technology.* 3 credits.
Studies various forms of written communication pertinent to social work practice. Examines impact of audience, status, culture, and purpose on effective professional writing. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 671: *Research Methods for Social Workers.* 3 credits.
Examines role of scientific inquiry in social work. Emphasizes construction and use of measurement instruments, data collection, analysis, and interpretation, and application of computer technologies relevant to social work practice. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 672: *Generalist Field Practicum and Seminar I.* 3 credits.
Provides supervised social work learning experience in human service agencies. Students complete 16 hours per week in field practicum, and attend bimonthly seminar in which they share learning and integrate theory with practice. Offered by Social Work. May not be repeated for credit.

Recommended Corequisite: SOCW 657.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale.

SOCW 673: *Generalist Field Practicum and Seminar II.* 3 credits.
Continues the supervised social work learning experience begun in SOCW 672. Students spend 16 hours per week in field practicum, and attend bimonthly seminar in which they share learning, process experiences, and integrate theory with practice. Offered by Social Work. May not be repeated for credit.

Recommended Prerequisite: SOCW 672.

Recommended Corequisite: SOCW 658.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale.

SOCW 674: *Psychopathology.* 3 credits.
Presents overview of adult and child psychopathology within the contexts of the lives of people experiencing mental disorders and the social contexts that can have a bearing on symptom maintenance. Learn to formulate competency-based assessments and DSM IV-TR-based differential diagnoses. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 675: *Selected Topics in Clinical Practice.* 3 credits.
In-depth study of special topics related to clinical social work practice at the individual, family, small group, or community level. Notes: May be repeated for credit when topic is different. Offered by Social Work. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 30 graduate credits or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 676: *Selected Topics in Social Work and Social Change.* 3 credits.
Critical examination of special topics related to understanding and improving community and societal conditions through policy practice, program development, and social action. Notes: May be repeated for credit when topic is different. Offered by Social Work. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 30 graduate hours or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 677: *Family Therapy.* 3 credits.
Examines research and theory relevant for assessment and intervention with families. Students will learn to conduct a family assessment, taking cultural diversity, non-traditional family structures including single-parent and GLBTQ families, and socioeconomic factors into account. Students will develop skills in implementing an intervention based on the family's strengths and challenges. Offered by Social Work. May not be repeated for credit.

Recommended Prerequisite: Completion of MSW generalist coursework (SOCW 600, SOCW 623, SOCW 644, SOCW 656, SOCW 659, SOCW 660, SOCW 671, SOCW 672, SOCW 673, SOCW 674), advanced standing, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 678: *Trauma and Recovery.* 3 credits.
Explores complex traumatic stress disorders, the process of recovery, and the etiology of healing in contemporary North American Culture. Diagnostic criteria, assessment strategies and evidence-based treatment options for complex traumatic stress disorders across diverse populations including sexual trauma, war, early childhood trauma and natural disasters will be addressed. Offered by Social Work. May not be repeated for credit.

Recommended Prerequisite: Completion of MSW generalist coursework (SOCW 600, SOCW 623, SOCW 644, SOCW 656, SOCW 659, SOCW 660, SOCW 671, SOCW 672, SOCW 673, SOCW 674), advanced standing, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 679: *Military Social Work.* 3 credits.
Examines research and theory relevant for social work practice with service members, veterans, and their families. The course addresses the military as a workplace culture, evidence-based approaches for post-traumatic stress and co-morbid conditions, clinical practice with military families, preventive care and the service delivery system in military and civilian settings. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((SOCW 600^{B-} or 600^{XS}) and (SOCW 623^{B-} or 623^{XS}) and (SOCW 644^{B-} or 644^{XS}) and (SOCW 656^{B-} or 656^{XS}) and (SOCW 659^{B-} or 659^{XS}) and (SOCW 660^{B-} or 660^{XS}) and (SOCW 671^{B-} or 671^{XS}) and (SOCW 672^{B-} or 672^{XS}) and (SOCW 673^{B-} or 673^{XS}) and (SOCW 674^{B-} or 674^{XS})).
$^{B-}$ Requires minimum grade of B-.
^{XS} Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 682: *Substance Abuse Interventions.* 3 credits.
Develops knowledge and skills for direct practice in the field of addictions. The course covers the knowledge base regarding evidence-based interventions at all stages in the process of intervention with individuals, families, and groups that promote recovery from addiction to drug and alcohol abuse. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((SOCW 600^{B-} or 600^{XS}) and (SOCW 623^{B-} or 623^{XS}) and (SOCW 644^{B-} or 644^{XS}) and (SOCW 656^{B-} or 656^{XS}) and (SOCW 659^{B-} or 659^{XS}) and (SOCW 660^{B-} or 660^{XS}) and (SOCW 671^{B-} or 671^{XS}) and (SOCW 672^{B-} or 672^{XS}) and (SOCW 673^{B-} or 673^{XS}) and (SOCW 674^{B-} or 674^{XS})).
$^{B-}$ Requires minimum grade of B-.
^{XS} Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 683: *Clinical Practice with Children, Youth, and Families.* 3 credits.
Applies evidence-based prevention, assessment, interventions, and treatment practice to address the needs of children, youth, young adults, parents, and caregivers. Examines development from a biopsychosocial perspective with consideration of both internal and external influences, trauma and loss, and responses to the expressed client experience inclusive of culture and community. Assesses issues such as substance use, diverse family types, immigrant and refugee status, children in kinship and foster home placements, and domestic and community violence. Presents interventions that have shown efficacy in historically marginalized populations including experiential therapy, sensorimotor psychotherapy, cognitive behavioral therapy, behavioral therapy, and parent management training. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((SOCW 600[B-] or 600[XS]) and (SOCW 623[B-] or 623[XS]) and (SOCW 644[B-] or 644[XS]) and (SOCW 656[B-] or 656[XS]) and (SOCW 659[B-] or 659[XS]) and (SOCW 660[B-] or 660[XS]) and (SOCW 671[B-] or 671[XS]) and (SOCW 672[B-] or 672[XS]) and (SOCW 673[B-] or 673[XS]) and (SOCW 674[B-] or 674[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 684: *Social Work and the Law.* 3 credits.
Students engage in close analysis of judicial opinions to explore the role of the courts in creating public policy. Areas of inquiry include the role of social workers in the legal system, the nature of legal proceedings, and how the law shapes policy in relation to issues affecting children, youth, families, older adults, women, minorities, people in poverty, and other vulnerable populations. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((SOCW 600[B-] or 600[XS]) and (SOCW 623[B-] or 623[XS]) and (SOCW 644[B-] or 644[XS]) and (SOCW 656[B-] or 656[XS]) and (SOCW 659[B-] or 659[XS]) and (SOCW 660[B-] or 660[XS]) and (SOCW 671[B-] or 671[XS]) and (SOCW 672[B-] or 672[XS]) and (SOCW 673[B-] or 673[XS]) and (SOCW 674[B-] or 674[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 685: *Organizational Leadership for Social Workers.* 3 credits.
Examines functions and structure of human service organizations in context of service delivery. Development of theoretical knowledge, professional ethics, and skills in administration, leadership, management, organization, and supervision. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((SOCW 600[B-] or 600[XS]) and (SOCW 623[B-] or 623[XS]) and (SOCW 644[B-] or 644[XS]) and (SOCW 656[B-] or 656[XS]) and (SOCW 659[B-] or 659[XS]) and (SOCW 660[B-] or 660[XS]) and (SOCW 671[B-] or 671[XS]) and (SOCW 672[B-] or 672[XS]) and (SOCW 673[B-] or 673[XS]) and (SOCW 674[B-] or 674[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 686: *Advanced Trauma Theory and Practice.* 3 credits.
Explores theories of how psychological trauma affects the individual, family and community followed by strategies for healing. An in depth exploration of the practice of psychotherapy with trauma survivors across diverse populations using evidence-based interventions coupled with special attention to relationship and attachment theory. Individual and group work will be practiced using role plays and direct experience with Animal Assisted Psychotherapies. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: SOCW 678[B-].
[B-] Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 687: *Empowering Communities for Change.* 3 credits.
Explores social work interventions at community level, including organization, planning, and development. Strategies for mobilizing community members, using community organizations, formulating coalitions, engaging in participatory planning, and social and economic development. Offered by Social Work. May not be repeated for credit.

Recommended Prerequisite: SOCW 624, 652, 658, and 673.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 688: *Program Evaluation for Social Workers.* 3 credits.
Explores social work intervention research, needs assessment, formative and summative program evaluation, and cost analyses. Discusses applications of systematic inquiry at the practice, organizational, and policy levels. Addresses ethical, pragmatic, and political considerations; qualitative approaches; quality performance; evidence from empirical research; and evaluation design. Offered by Social Work. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((SOCW 600[B-] or 600[XS]) and (SOCW 623[B-] or 623[XS]) and (SOCW 644[B-] or 644[XS]) and (SOCW 656[B-] or 656[XS]) and (SOCW 659[B-] or 659[XS]) and (SOCW 660[B-] or 660[XS]) and (SOCW 671[B-] or 671[XS]) and (SOCW 672[B-] or 672[XS]) and (SOCW 673[B-] or 673[XS]) and (SOCW 674[B-] or 674[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 689: *Clinical Practice with Older Adults.* 3 credits.
Examines age-associated changes and challenges faced by older adults. Focus is strengthening assessment and intervention skills with older adults, their family members and caregivers within the community and long-term care facilities, determining the best standardized instruments to use, and developing effective questions for assessment. Attention is given to the resilience of elders, ethical issues and diversity. Offered by Social Work. May not be repeated for credit.

Recommended Prerequisite: Completion of MSW generalist coursework (SOCW 600, SOCW 623, SOCW 644, SOCW 656, SOCW 659, SOCW 660, SOCW 671, SOCW 672, SOCW 673, SOCW 674), advanced standing, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCW 696: *Specialized Practice Field Practicum and Seminar I.* 3 credits.
Students participate in a supervised social work learning experience for at least 300 hours over a minimum of 15 weeks over the course of the semester. Students are placed in public, nonprofit or for-profit mental health and health venues reflecting their specific interests in advanced practice with individuals, families and groups, community centered practice of social work. Offered by Social Work. May not be repeated for credit.

Recommended Prerequisite: Generalist Year Curriculum

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SOCW 698: *Specialized Practice Field Practicum and Seminar II.* 3 credits.
Students participate in a supervised social work learning experience for at least 300 hours over a minimum of 15 weeks over the course of the semester. Students are placed in public, nonprofit or for-profit mental health and health venues reflecting their specific interests in advanced practice with individuals, families and groups, community centered practice of social work. Offered by Social Work. May not be repeated for credit.

Recommended Prerequisite: All Generalist Year Courses and SOCW 696

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SOCW 699: *Independent Study in Social Work.* 1-3 credits.
Investigates research problem in field of social work. Offered by Social Work. May be repeated within the term for a maximum 4 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

Sociology (SOCI)

100 Level Courses

SOCI 101: *Introductory Sociology.* 3 credits.
Introduction to basic sociological concepts. Examines aspects of human behavior in cultural framework, including individual and group interaction, social mobility and stratification, status and class, race and gender relations, urbanism, crime and criminology, and social change and reform. Offered by Sociology & Anthropology. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 120: *Globalization and Society.* 3 credits.
Examines and analyzes important global issues and processes. Considers historical development of globalization and implications for different societies and cultures. Investigates perceptions of global processes by different cultures and nations, and efforts of international institutions to address social, political, economic, and cultural changes in global society. Offered by Sociology & Anthropology. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

SOCI 208: *Introduction to Race and Ethnicity.* 3 credits.
Introduces students to individuals and ideas which have shaped and influenced racial and ethnic interactions and relations in the past and present. Attention will focus on historical meanings and sentiments attached to race and ethnicity as concepts, ideas, and images, and the ways these concepts and images have co-joined to allocate differential social, political, economic, and educational rewards to individuals and groups designated as racial groups, ethnic groups, or both. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 215: *Gender and Society.* 3 credits.
Considers the ways in which gender structures social life on both the micro level of individual experience and the macro level of social structure. Explores how normative ideals of femininity and masculinity affect our bodies, identities and intimate relationships; and how these ideals are circulated through the media, reproduced in social institutions, and articulated in different national, cultural and religious contexts. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

SOCI 301: *Criminology.* 3 credits.
Focuses on causes and meaning of crime, with emphasis on adults. Patterns of criminal behavior, including property crimes, violent crimes, organized crime, white-collar crime, and victimless crime. Critical assessment of criminal justice system as a response to crime. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 302: *Sociology of Delinquency.* 3 credits.
Examines social factors involved in development of delinquency, including family, political economy, schooling, community environment and culture. Examines various theories of delinquency; rates of delinquency in relation to age, race, gender and social class; and legal system that addresses causes, consequences, and policies of punishment and rehabilitation. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 303: *Methods and Logic of Inquiry.* 3 credits.
Actively engages students in original inquiry meaningful to themselves and their communities. Demonstrates the reciprocal relationship between theory and empirical research. Explores the complementarity of interpretive and explanatory logics, employing basic sociological methods. Guides students to formulate problems and design research, culminating in a public presentation of their proposals to the sociology faculty. Offered by Sociology & Anthropology. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: SOCI 101[C] or 101[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 304: *The Future of Work.* 3 credits.
Introduces the basic concepts of economic sociology. Explores how the world of work has changed due to globalization, deindustrialization, new technologies, and economic crisis. Focuses on providing students with a better understanding of how markets and corporations work, and about new economic approaches to create new, potentially less alienating work environments. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 307: *Social Movements and Political Protest.* 3 credits.
Explores processes for organizing resistance to current social and power arrangements, from terrorism to nonviolent civil resistance to create alternative institutions, policies, or leadership that promote human rights and social justice. Uses historical and contemporary case studies of local and global change to explore, how, why, and to what effect individuals have organized to protest the status quo and create social change. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 308: *Race and Ethnicity in a Changing World.* 3 credits.
Explores how race and ethnicity have been shaped by policies and practices in Western and non-Western societies. Explores the evolution of racial and ethnic attitudes from a global and historical perspective. Examines how changing demographic racial patterns may affect definitions of race and ethnicity and the ways in which people individually and collectively act to create new futures. Offered by Sociology & Anthropology. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 309: *Marriage, Families, and Intimate Life.* 3 credits.
Uses a sociological framework to analyze and understand the diverse forms of contemporary families--traditional marriages, cohabitation, domestic partnerships, single-parents families, stepfamilies, and gay and lesbian families. Explored are topics such as changes in sexual mores, reflected in new dating practices; shifting parenting roles; effects of social class, race and ethnicity; and the outcomes of divorce for couples and children. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 310: *Sociology of Deviance.* 3 credits.
Analyzes macro- and microlevel deviance-producing processes, meaning and control of deviance, and major theoretical approaches to deviance. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 311: *Sociological Theory.* 3 credits.
Explores sociological tradition through readings and discussions of ideas drawn from writings of selected sociological thinkers from classical to contemporary. Offered by Sociology & Anthropology. Limited to three attempts.

Recommended Prerequisite: 6 credits of upper level (300 or 400 level) sociology courses, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 312: *Qualitative Research Methods.* 3 credits.
Introduces ethnography, field work methods, interviewing, life histories, and other qualitative methods to generate data about cultures in which various groups and classes are immersed. Students learn by applying qualitative methods to term projects, developed under guidance of instructor. Offered by Sociology & Anthropology. Limited to three attempts.

Recommended Prerequisite: 9 credits of Sociology including SOCI 101 or SOCI 102 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 313: *Statistics for the Behavioral Sciences.* 4 credits.
Fundamentals of applied statistics as used in behavioral science to include descriptive statistics, inferential statistics, correlation regression, analysis of variance, factor analysis, nonparametric statistics, and practical experience with calculators in applying statistical analysis to actual problems of the behavioral sciences. Offered by Sociology & Anthropology. Limited to three attempts.

Mason Core: Quantitative Reasoning

Recommended Prerequisite: SOCI 101 or permission of instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 314: *Sociology of Culture.* 3 credits.
Examines how culture, encompassing high art or participatory culture, expressive agency or traditional constraint, is produced and reproduced in everyday social practices and across a wide range of social institutions. Explores the role of culture in public life and political discourse. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 315: *Contemporary Gender Relations.* 3 credits.
Considers the ways in which gender structures social life on both the micro level of individual experience and the macro level of social structure. Addresses contradiction between legal equality between the sexes and persistent workplace discrimination and sexual violence; how normative ideals of femininity and masculinity affect our bodies, identities and intimate relationships; how these ideals are circulated through the media, reproduced in social institutions, and articulated in different national, cultural and religious contexts. Offered by Sociology & Anthropology. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 320: *Globalization and Social Change.* 3 credits.
While focusing on nature and process of change in human society, considers social impact of political, economic, and environmental change and how lives are shaped by complexities of global social forces. Examines specific global issues such as conflict and security; economic disparity; ecological deterioration; populations and migration; legitimization of commerce; diffusion of innovations; and impact of class, status, and power in modern societies. Offered by Sociology & Anthropology. Limited to three attempts.

Mason Core: Global Understanding, Encore: Sustainability

Specialized Designation: Green Leaf Focused Course

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 321: *Sociology of Post-Socialism.* 3 credits.
Explores the end of socialism, and how the former Soviet Union and Eastern Europe, as well as the rest of the world, transformed since 1989. Examines art, music, criminality, oligarchs, workers, gender, commodification, nationalism, violence, the self, religion, public health, and the environment during socialism and afterwards. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 326: *Conflict, Violence, and Peace.* 3 credits.
Explores the sociology of conflict, violence, and peace to examine these crucial issues from a scholarly viewpoint. Focuses on the causes and consequences of violence. Examines a wide variety of remedies from conventional deterrence and arms control strategies to alternative perspectives from nonviolent civil resistance to peacebuilding, international law, and restorative justice, as well as conflict transformation and resolution strategies. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 330: *US Immigrants and Immigration.* 3 credits.
Explores theoretical, empirical, and policy-related issues pertaining to immigration. Examines case studies of immigrant communities and their adaptation patterns, paying particular attention to immigrants from Latin America, Asia, the Caribbean, and the Middle East. Offered by Sociology & Anthropology. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 332: *The Urban World.* 3 credits.
Examines cities and the people who live in them in the United States and around the world. Includes topics such as: social and economic development, inequality, political protests, urban democracy, and the environment. Offered by Sociology & Anthropology. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 340: *Power, Politics, and Society.* 3 credits.
Analyzes how power is defined, attained and sustained in society. Students analyze political power as related to social realities such as democratic elections, class conflict, elite networks, powersharing, protest, and revolution. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 352: *Social Problems and Solutions.* 3 credits.
Examines contemporary social problems and their solutions using sociological perspectives. Topics may include housing and homelessness, student debt, mass incarceration, hunger and food insecurity, environment and sustainability, human rights, wealth and global poverty, war and peace. Offered by Sociology & Anthropology. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 355: *Social Inequality.* 3 credits.
Studies class structures and implications for individuals and groups in modern society. Explores issues of race and ethnicity, language and immigration status, sex and gender, social class, age, and sexual orientation. Examines critically the theory and research that explore the construction, experience, and meaning of such differences. Offered by Sociology & Anthropology. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 360: *Youth Culture and Society.* 3 credits.
Introduces sociology of youth and youth culture. Investigates social, economic, and political realities of youth as a group and different groups of youth, including youth cultural production, formation of youth culture, and youth identities in variety of social settings. Offered by Sociology & Anthropology. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 371: *The Individual and Society.* 3 credits.
Introduces students to a sociological exploration of the individual and society. The course is organized around several major themes, including the study of the individual within social context, the process the individual uses to narrate his/her self- and social identities, and how the individual manages, protects, and solidifies his/her self-identity and negotiates the boundaries of self within the context of everyday social interactions. The course also examines how daily social interactions shape the understanding of self and experiences of the individual. In conclusion, the course presents a consideration of how identity projects are mediated by and formed within larger structures of constraint. Offered by Sociology & Anthropology. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 373: *The Community.* 3 credits.
Examines small to moderate-size communities ranging through village, rural community, small town, and city subcommunity. Latter category includes city localities, ethnic villages, and suburban communities. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 377: *Art and Society.* 3 credits.
Introduces the many ways in which art reflects social tendencies, comments on social problems, and contributes to discussions about a wide range of social issues. Students attend theatrical performances and visit exhibition spaces on campus, and learn to analyze what they experience through both aesthetic and sociological approaches. Explores contemporary issues such as debates about artistic freedom and public morality, commercialization of art, and relationship between cultural and social hierarchies. Offered by Sociology & Anthropology. Limited to three attempts.

Mason Core: Synthesis

Recommended Prerequisite: 3 credits of ARTH.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 382: *Education in Contemporary Society.* 3 credits.
Examines classrooms and schools as social institutions that function as socializing agents for both stability and societal change. Emphasizes the influence of inequality on educational processes and outcomes and critically examines the social organization of the U.S. public school system. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 385: *Religion and Society.* 3 credits.
Studies places of religious consciousness in human action and institutional and organizational networks created to sustain religious beliefs. Emphasizes comparative and historical analysis of role religion has played in human society. Examines theories of nature of religious experience, religious symbolism, and basis of religious community. Explores changing demographics in relation to older traditional religious faiths and newer nontraditional faiths. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 388: *Violence and Religion.* 3 credits.
Explores the relationship between religion and violence, especially warfare, cross-culturally and historically from a sociological, transdisciplinary, and global politics perspective. Examines the interface between politics and morality and the interface between national and transnational governance institutions (nations states, the UN, etc.) and cultural and religious institutions, NGOs, and social movements. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 390: *Sociology of Health, Illness, and Disability.* 3 credits.
Examines social context of health, illness, and disability; relationships of health care professionals and patients; and structure and delivery of health care in different medical systems. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 391: *Big Data, Technology, and Society.* 3 credits.
Examines the transformations in the relationships between self and society taking place at the interface between social networks, digital information and communication technologies, new media, and Big Data. Explores what these changes mean for the future of the social sciences and humanities, and what these disciplines in turn can teach us about these changes that the "analytics" of computational and data sciences cannot. Introduces students to cutting-edge methods in digital sociology and digital ethnography, exploring a variety of emerging technology developments, such as augmented reality, digital fabrication, cryptocurrency, blockchain, automation, machine learning, and artificial intelligence. Examines new forms of inequality and intimacy, technologically mediated and distributed practices of human empathy and discernment, and emerging ethical questions for research and university education. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 394: *Sociology of Human Rights.* 3 credits.
Provides an overview of sociological, theoretical, and methodological approaches to understanding human rights. Examining connections between inequality, conflict, social justice, governance, and human rights, the course focuses on the contexts of meaning within which human rights are invoked and practiced as well as the role that non-state actors play in shaping the development and institutionalization of human rights. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 395: *Special Topics in Sociology.* 3 credits.
Introduces the research interests of the faculty, offering new courses that reflect current issues not yet incorporated into the curriculum. Offers, in addition, advanced study into topics covered in the standing curriculum. Topics change by semester. Offered by Sociology & Anthropology. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: SOCI 101

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 399: *Independent Study.* 1-3 credits.
Individual study of sociological topic of interest to student. Offered by Sociology & Anthropology. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: 6 hours of Sociology and approval of a written proposal.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

SOCI 405: *Analysis of Social Data.* 4 credits.
Overview of management and analysis of empirical social science data, including file construction, scaling and measurement, data transformation, and treatment of missing data. Emphasizes manipulation, management, and analysis of data sets using computers. Offered by Sociology & Anthropology. Limited to three attempts.

Recommended Prerequisite: 60 hours, SOCI 313, or Permission of Instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 410: *Social Surveys and Attitude and Opinion Measurements.* 3 credits.
Surveys research methods and techniques to collect, measure, and analyze social data, attitudes, and opinions with special emphasis on using computer software, the Internet, and other information technologies for social research. Highlights ethical issues for social research, computing, and information technology. Offered by Sociology & Anthropology. Limited to three attempts. Equivalent to SOCI 431.

Mason Core: Info Tech & Computing

Recommended Prerequisite: SOCI 303 and 313, or equivalents, or Permission of Instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 412: *Contemporary Sociological Theory.* 3 credits.
Presents for analysis and discussion the significant theorists and themes in contemporary sociological theory. Designed to enhance student's skills in reading and analyzing primary texts and to encourage reflection on contemporary social reality. Fulfills writing intensive requirement. Offered by Sociology & Anthropology. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: SOCI 311[C] or 311[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 416: *Internship in Sociology I.* 3-6 credits.
Intended to provide students with hands-on experience in sociology and to deepen sociological knowledge. The internship experience links theory and practice. Students work in approved setting as applied sociologists. Notes: Minimum 45 hours of work for each credit required. A research paper or project is required for this course. Offered by Sociology & Anthropology. May be repeated within the term for a maximum 6 credits.

Mason Core: Capstone

Recommended Prerequisite: Must have completed at least 85 credits (21 credits must be in sociology) of coursework. Enrollment in or completion of SOCI 313.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 417: *Internship in Sociology II.* 1-2 credits.
Intended to provide students with hands-on experience in sociology and to deepen sociological knowledge. The internship experience links theory and practice. Students work in approved setting as applied sociologists. Notes: Minimum 45 hours of work for each credit required Offered by Sociology & Anthropology. May be repeated within the term for a maximum 2 credits.

Recommended Prerequisite: SOCI 313 (can be enrolled concurrently) or permission of instructor.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 431: *Survey Research.* 3 credits.
Surveys research methods and techniques to collect, measure, and analyze social data, attitudes, and opinions with special emphasis on using computer software, the Internet, and other information technologies for social research. Highlights ethical issues for social research, computing, and information technology. Offered by Sociology & Anthropology. Limited to three attempts. Equivalent to SOCI 410.

Recommended Prerequisite: SOCI 303 and 313, or equivalents, or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 480: *Honors Seminar in Sociology I.* 3 credits.
Develop research proposals and an appropriate bibliography for honors thesis under the guidance of a sociology faculty member. Offered by Sociology & Anthropology. Limited to three attempts.

Specialized Designation: Mason Impact.

Recommended Prerequisite: Admission to honors in the sociology major.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Special scale.

SOCI 481: *RS: Honors Seminar in Sociology II.* 3 credits.
Pursue independent research and write honors thesis under the guidance of a faculty mentor. Present work in a colloquium at the end of the semester. Offered by Sociology & Anthropology. Limited to three attempts.

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: Successful completion of SOCI 480.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 483: *The Sociology of Higher Education.* 3 credits.
Exposes students to sociological theory and research on evolution of higher learning in United States. Explores social forces that have shaped the distinctively American approach toward higher education and have led to transformation of higher education in contemporary society. Particular attention to relation between universities and elites within surrounding society, linkage between education and industry, norms and values that are presupposed by educational institutions, and bearing of sports on values and traditions of higher education. Offered by Sociology & Anthropology. Limited to three attempts.

Mason Core: Synthesis

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 485: *RS: Sociological Analysis and Practice.* 3 credits.
Provides an in-depth examination of historical and contemporary issues facing sociological scholars. Focuses on the philosophies, practices, and procedures used by individuals and organizations to answer sociological questions. Engages a variety of materials, experiences and resources to answer a specific research question. Offered by Sociology & Anthropology. Limited to three attempts.

Mason Core: Capstone

Specialized Designation: Research/Scholarship Intensive, Writing Intensive in Major

Recommended Prerequisite: SOCI 303.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 492: *Sociology of Organizations.* 3 credits.
Theories, analysis of types of organizations from informal voluntary associations to large complex ones. Explores nonprofit organizations and alternatives to bureaucracies, such as feminist collectives, cooperatives, self-help groups, and social movement organizations. Students do field work in organizations applying theories and concepts to observations. Offered by Sociology & Anthropology. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SOCI 499: *Independent Research in Sociology.* 1-4 credits.
Investigation of sociological problem according to individual interest, with emphasis on research. Offered by Sociology & Anthropology. May be repeated within the degree for a maximum 8 credits.

Recommended Prerequisite: 18 hours of SOCI including SOCI 303, 311, 313 and 412; a 3.0 GPA in SOCI; and a research proposal approved by instructor and department chair prior to enrollment.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

600 Level Courses

SOCI 601: *Proseminar in Public and Applied Sociology.* 3 credits.
Core course devoted to the philosophical, historical, theoretical, and methodological dimensions of public and applied sociology within the United States. Traces the evolution of the field during the 20th century, from its inception in the Chicago school and the studies of W.E.B. DuBois to more recent formulations, as these bear on the interplay between social scientific knowledge and public decisions and debates. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SOCI 602: *Writing for the Social Sciences.* 3 credits.
Develops strategies for successful social scientific writing, self-evaluation, and managing anxiety around the production of written work. Provides practice in different types of writing undertaken by social scientists including research reports, scholarly journal articles, and research proposals. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 605: *Gender and Social Structure.* 3 credits.
Reviews theories explaining the development and maintenance of gender. Using historical and comparative data, examines perceived, prescribed, and actual sex differentiation in social, political, and economic roles. Begins with gender as a social structure and then examines contemporary research as support or refutation for variety of theoretical paradigms. Includes discussion of gender in intimate relationship and the public sector. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SOCI 614: *Sociology of Culture.* 3 credits.
Analyzes 20th-century debates in American culture and cultural politics, with emphasis on art and popular culture, news media, and competing notions of "the public." In-depth readings in cultural sociology cover variety of theoretical and methodological approaches. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 616: *Practicum in Sociology.* 1-6 credits.
Supervised graduate research project in engaged sociology in relevant settings including social movement organizations, unions, government agencies, charitable organizations, think tanks, schools, community groups, social services, museums and the arts, cooperatives and social enterprises, public archeology, or media and communications. Notes: Students must complete 45 hours of work at the site for each credit. Offered by Sociology & Anthropology. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 21 hours of SOCI, including research methods, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

SOCI 620: *Methods and Logic of Social Inquiry.* 3 credits.
Emphasizes gathering, interpreting, and evaluating scientific evidence. Covers logic of scientific inquiry, including the application of various research designs and data collection methods. Develops critical-thinking skills by using set of rules and logical criteria for evaluation of social science research. Focuses both on how results are obtained and disseminated via research reports. Offered by Sociology & Anthropology. May not be repeated for credit.

Recommended Prerequisite: Undergraduate statistics and research methodology, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Sociology.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 623: *Racial and Ethnic Relations: American and Selected Global Perspectives.* 3 credits.
Covers demographic purview of U.S. and other global racial and ethnic groups and racial and ethnic groups as human-social-minority and dominant groups. Explores factors contributing to dominant and minority status and means of altering dominant groups assessment of minority group status. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 624: *International Migration in the Age of Globalization.* 3 credits.
Focuses on theoretical, methodological, and policy-related issues on international migration from a sociological perspective. Explores case studies of immigrant communities and their adaptation patterns, paying particular attention to immigrants from Latin America, Asia, and the Caribbean. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SOCI 631: *Survey Research.* 3 credits.
Introduces theory, method, and practice of survey research design and analysis. Students complete survey research project. Offered by Sociology & Anthropology. May not be repeated for credit.

Recommended Prerequisite: SOCI 530 and 531, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 632: *Evaluation Research for Social Programs.* 3 credits.
Studies methodological issues related to evaluation of social programs. Explores conceptual and research design issues in relation to social programs, particularly delivery of social services. Includes examination of methods used to assess need for programs, impact of delivery systems, and efficiency and effectiveness of social programs. Offered by Sociology & Anthropology. May not be repeated for credit.

Recommended Prerequisite: SOCI 530 and 531, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 633: *Special Topics in Sociology.* 3 credits.
Specialized inquiry of topics of contemporary sociological research and scholarship. Content varies. Notes: May be repeated for credit when topic is different. Offered by Sociology & Anthropology. May be repeated within the term for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SOCI 634: *Qualitative Research Methods.* 3 credits.
Examines basic research methods involving observational techniques and procedures used in description and analysis of patterns, configurations, ethos, eidos, structures, functions, and styles typical of whole societies and cultures. Emphasizes case studies, unobtrusive methods, participant observation, longterm residence, choices of observer status role, recording data, uses of technical equipment, key informants, interviewing techniques, and ethical considerations in employing such methods and procedures. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 635: *Environment and Society.* 3 credits.
Overview of human ecology and environmental sociology, emphasizing selected topics. Focuses on theory, since theory makes it possible to generalize from understandings derived in an analysis of a particular problem and apply them to other problems. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 636: *Statistical Reasoning.* 3 credits.
Intermediate treatment of quantitative analytic techniques used in sociology. Topics include sampling, inference, hypothesis testing, analysis of variance, and bivariate and multiple correlation and regression. Introduces logic of multivariate analysis. Focus on how results are obtained and disseminated via research reports. Offered by Sociology & Anthropology. May not be repeated for credit.

Recommended Prerequisite: Undergraduate statistics and research methodology, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 637: *Political Sociology.* 3 credits.
This course introduces students to the sociological study of politics through a close examination of relations of power and authority, social institutions, networks, and culture. Using a variety of theoretical texts and case studies from different time periods and schools of thought, the course demonstrates how political sociologists use these fundamental "gateway" concepts, among others, to make sense of more innovative concepts in order to explore and make sense of the dynamism of contemporary politics. Using this framework, the course looks closely at the issue of the struggle for democracy in diverse, complex, and changing modern societies. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 638: *Feminist Theory.* 3 credits.
This course is designed to introduce students to the ideas and projects that have been formative in the development of feminist theory and to engage students in the important intellectual and political debates in which it has played a significant role. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SOCI 639: *Urban Inequality: From Watts to #Blacklivesmatter.* 3 credits.
This course considers the ways that social inequality and responses to inequality, through community organizing, social movements, and urban policy, have shaped the urban landscape in the 20th and 21st centuries. Beginning in the Civil Rights Era and ending during a period of resistance to police brutality and gentrification, this course will explore varied issues such as urban renewal, urban rebellion, suburbanization, public housing development (and demolition), the drug wars, mass incarceration, as well as urban movements related to urban space, LGBTQ+ recognition and AIDS direction action, Right to the City, and more. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 641: *Micro Sociology: Inequality and Everyday Life.* 3 credits.
Analyze the relationship between everyday life and social inequalities, with a particular focus on examining theoretically and empirically the relationship between governing structures of society and the structure of situational and interactional terrains as it plays out in the lives of everyday people. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SOCI 655: *Ethnography.* 3 credits.
Introduces ethnography in sociology to graduate students. Teaches techniques for collecting, analyzing and writing-up ethnographic

materials. Considers some of the central methodological issues relevant to doing ethnography. Explores some of the critical ethical and political questions that arise within ethnographic research practice. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 660: *Historical and Comparative Sociology.* 3 credits.
Seminar in theory and methods of historical and comparative sociology, primarily for students with background in sociological theory and methods. Examines basic approaches and research data of history and sociology, surveys development of field, and analyzes exemplary studies. Offered by Sociology & Anthropology. May not be repeated for credit. Equivalent to SOCI 860.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 670: *Social Networks, New Media, and Inequality.* 3 credits.
Examines the internet and other new technologies from a sociological perspective. Focuses on how technologies mitigate or exacerbate-transform or reproduce-existing and new forms of inequality. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SOCI 696: *Independent Study.* 1-3 credits.
Theoretical and research literature chosen by student and instructor. Offered by Sociology & Anthropology. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale.

SOCI 697: *Independent Study.* 1-3 credits.
Theoretical and research literature chosen by student and instructor. Offered by Sociology & Anthropology. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale.

700 Level Courses

SOCI 711: *Classical Sociological Theory.* 3 credits.
In-depth examination of major issues in classical (pre-1930) sociological theory. Analyzes Durkheim, Marx, Weber, Mead, and others, and emphasizes social and intellectual context of their theories. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Sociology.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 712: *Contemporary Sociological Theory.* 3 credits.
Examines schools in contemporary sociological theory such as structural-functionalism, conflict, exchange, symbolic interactionism, ethnomethodology, humanist sociology, and critical theory. Analyzes contemporary theorists in relation to schools. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Sociology.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 730: *Analytic Techniques of Social Research.* 3 credits.
Introduces multiple regression and causal analysis to sociological researchers, with a focus on obtaining and disseminating results. Moves from linear regression to the general linear model with several variables, its extensions, assumptions, and regression diagnostics. Examines the use of dummy variable and the analysis of interaction effects. Considers systems of equations and nonlinear outcomes. Offered by Sociology & Anthropology. May not be repeated for credit.

Recommended Prerequisite: Undergraduate statistics and research methodology, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 797: *Master's Capstone Paper.* 3 credits.
MA paper completion under the direction of one faculty member. Offered by Sociology & Anthropology. May not be repeated for credit.

Recommended Prerequisite: Admission to graduate program in sociology or permission of graduate director.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

SOCI 799: *Thesis.* 1-6 credits.
Master's thesis research under direction of thesis committee. Offered by Sociology & Anthropology. May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

SOCI 803: *Institutions and Inequalities.* 3 credits.
Addresses the processes through which institutions reproduce relations of power, domination, and exclusion as well as the similarities and differences across forms of inequality and their connection to institutions. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SOCI 804: *Sociology of Globalization.* 3 credits.
Addresses the social, political, cultural, and economic process of globalization. Explores the limits on globalization during the precapitalist era, the relation between empire and the internal structure of imperialist societies, theoretical debates over the contemporary world system, the relation between cities and globalization, and the link between globalization and social inequality within both developed and developing societies. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SOCI 833: *Special Topics in Sociology.* 3 credits.
Specialized inquiry of topics of contemporary sociological research and scholarship. Content varies. Notes: May be repeated for credit when topic is different. Offered by Sociology & Anthropology. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Have completed either 6 credits of coursework at the 600 level or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 840: *Work Organizations and Social Inequality.* 3 credits.
Examines the social, organizational, and cultural processes that account for the differential distribution of job rewards along class, gender, and racial and ethnic lines. Topics include the historical evolution of the management worker relationship, job segregation by race and gender, the effect of new technologies on social inequality, the relation between gender and professional careers, the efficacy of governmental efforts to ensure equal opportunity, and the effect of organizational change on racial and gender inequalities at work. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SOCI 845: *Society and Education.* 3 credits.
Exposes students to the major theories, debates, and findings within the sociology of education, emphasizing the reciprocal influences of schooling and social inequalities within contemporary societies. Emphasis on the historical evolution of public schooling in the

United States, the complex relation between schooling and economic institutions, class differences in educational opportunity, and the politics of educational reform. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SOCI 850: *Sociology of Development.* 3 credits.
Analyzes socioeconomic and political change, focusing on the poor countries of Asia, Africa, and Latin America. Offers a basic descriptive understanding of processes of change in these countries and an introduction to major theoretical perspectives on development and globalization, from classical theories of comparative advantage to theories of imperialism, modernization, dependency, and globalization. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SOCI 851: *Globalization and Social Movements.* 3 credits.
Analyzes current issues in the study of social movements, with an emphasis on the ways in which globalization shapes and in turn is shaped by social movements. Emphasis is placed on the relations among the strategies, identities, and organizations bound up with transnational social movements and the relation between the dynamics of global political and economic developments and protest movements in core and peripheral societies. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SOCI 853: *Cities in a Global Society.* 3 credits.
Examines the scholarly literature on cities and globalization with a focus on the impact of globalization on urban environments and the effects of urbanization on the processes of globalization. Emphasis on the ways in which globalization restructures urban life in the core and periphery of the world economy with attention paid to the effects of spatial dispersion on the character of economic institutions within the advanced societies, the shifting nature of crime and security, immigration, and the cities of the Global South. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SOCI 857: *Sociology of Human Rights.* 3 credits.
Examines the connections among inequality, conflict, social justice, and human rights in an age of globalization. Drawing from case studies from around the world, course examines institutional and structural violence and inequality as they relate to state, corporate, and military power; international law and order; welfare and social policy; global justice; regionalism, multilateralism, and transnationalism; environmental protection; gender inequality; ethnic conflict; resource wars; and national security policy before and after September 11, 2001. Offered by Sociology & Anthropology. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SOCI 860: *Historical and Comparative Sociology.* 3 credits.
Seminar in theory and methods of historical and comparative sociology, primarily for students with background in sociological theory and methods. Examines basic approaches and research data of history and sociology, surveys development of field, and analyzes exemplary studies. Offered by Sociology & Anthropology. May not be repeated for credit. Equivalent to SOCI 660.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SOCI 870: *Directed Readings Sociology.* 3 credits.
Intensive reading course to develop comprehensive understanding of specific field in sociology as agreed on with advisor. Notes: Content varies. Offered by Sociology & Anthropology. May be repeated within the degree.

Recommended Prerequisite: 6 credits of 600 level SOCI courses

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

SOCI 880: *Independent Study in Sociology.* 3 credits.
Reading and research on selected topic, resulting in a written project as agreed on with supervising faculty. Notes: Content varies. Offered by Sociology & Anthropology. May be repeated within the degree.

Recommended Prerequisite: 6 credits of 600 level SOCI courses

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

Grading:

This course is graded on the Graduate Regular scale.

900 Level Courses

SOCI 998: *Doctoral Dissertation Proposal.* 1-9 credits.
Work on research proposal for doctoral dissertation. Notes: A maximum of 9 credits of 998 may be applied to the degree. Students may enroll in 998 in their final year of coursework while preparing for comprehensive exams. Contact department for approval and CRN to register. Offered by Sociology & Anthropology. May be repeated within the degree.

Recommended Prerequisite: Completion of all but final year of coursework and permission of graduate director.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

SOCI 999: *Doctoral Dissertation.* 1-12 credits.
Doctoral dissertation research and writing on approved dissertation topic under direction of committee. Notes: Maximum of 12 credits may be applied toward degree. Offered by Sociology & Anthropology. May be repeated within the degree.

Recommended Prerequisite: Successful completion of SOCI 998.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Sociology and Anthropology (SOAN)

500 Level Courses

SOAN 510: *Culture and Globalization.* 3 credits.
Provides continuing exposure to the range of disciplinary perspectives necessary for understanding crucial issues in the global arena. Through case examples, focuses on the intersections of culture and globalization. Analyzes existing data and assesses alternative policy and program approaches, and illuminates interactions between globalization and culture. Offered by Sociology & Anthropology. May not be repeated for credit.

Recommended Prerequisite: SOAN 500.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

SOAN 670: *Special Topics in Sociology and Anthropology.* 4-8 credits.
Provides cross-disciplinary, pedagogical format in Department of Sociology and Anthropology. Covers variety of pedagogical formats, such as combining ethnographic field techniques taught in anthropology with sociological-based urban issues, or providing archaeological laboratory analyses with grounding in statistical techniques proposed by department faculty. Offered by Sociology & Anthropology. May not be repeated for credit.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

Software Engineering (SWE)

200 Level Courses

SWE 205: *Software Usability Analysis and Design.* 3 credits.
Principles of user interface design. Concepts for objectively and quantitatively assessing the usability of software user interfaces. Outcomes include knowledge of quantitative engineering principles for designing usable software interfaces and an understanding that usability is more important than efficiency for almost all modern software projects, and often the primary factor that leads to product success. Major topics include cognitive models for human perceptions and needs, which are used as a basis for analytical and critical thinking about user interfaces; specific engineering principles for designing usable menus, forms, command languages, web sites, graphical user interfaces and web-based user interfaces. Assessments will include written analytical evaluations of existing user interfaces, exams, and HTML-based design projects. Offered by Computer Science. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (ENGH 101[C] or 101[XS]) or (ENGH 100[C] or 100[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

SWE 301: *Internship Preparation.* 0 credits.
Preparation for Internship Educational Experience. Intended for, but not limited to, students planning internships in the Applied Computer Science Software Engineering Program. Internship employment opportunities. Basic interview skills. Techniques for applying academic knowledge to

practical software development. Techniques for extracting knowledge from practical experience. Peer presentation from students who have completed internships. Offered by Computer Science. Limited to two attempts.

Recommended Prerequisite: Limited to ACS or CS majors with junior standing or permission of instructor.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale.

SWE 321: *Software Engineering.* 3 credits.
An introduction to concepts, methods, and tools for the creation of large-scale software systems. Methods, tools, notations, and validation techniques to analyze, specify, prototype, and maintain software requirements. Introduction to object-oriented requirements modeling, including use of case modeling, static modeling, and dynamic modeling using the Unified Modeling Language (UML) notation. Concepts and methods for the design of large-scale software systems. Fundamental design concepts and design notations are introduced. A study of object-oriented analysis and design modeling using the UML notation. Students participate in a group project on software requirements, specification, and object-oriented software design. Offered by Computer Science. Limited to two attempts. Equivalent to CS 321.

Registration Restrictions:
Required Prerequisites: ((ENGH 302[C] or 302[XS]) or ((HNRS 110[C] or 110[XS]) and (HNRS 122[C], 122[XS], 130[C], 130[XS], 131[C], 131[XS], 230[C], 240[C] or 240[XS])) and (CS 310[C] or 310[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Applied Computer Science, Computer Science or Systems Engineering.
Enrollment is limited to students with a minor in Computer Science or Software Engineering.

Enrollment limited to students in a Bachelor of Science or Post-Baccalaureate Certificate degrees.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SWE 332: *Object-Oriented Software Design and Implementation.* 3 credits.
In-depth study of software design and implementation using a modern, object-oriented language with support for graphical user interfaces and complex data structures. Topics covered are specifications, design patterns, and abstraction techniques, including typing, access control, inheritance, and polymorphism. Students will learn the proper engineering use of techniques such as information hiding, classes, objects, inheritance, exception handling, event-based systems, and concurrency. Offered by Computer Science. Limited to two attempts. Equivalent to CS 332.

Registration Restrictions:
Required Prerequisites: (CS 310[C] or 310[XS]) and (MATH 125[C] or 125[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

SWE 401: *Internship Reflection.* 1 credit.
Reflection on Internship Educational Experience. Intended for, but not limited to, students completing internships in the Applied Computer Science Software Engineering Program. Analysis of techniques for applying academic knowledge to practical software development. Analysis of techniques for extracting knowledge from practical experience. Student presentations summarizing internships relating them to academic program goals. Offered by Computer Science. Limited to two attempts.

Recommended Prerequisite: Completion of internship.

Registration Restrictions:
Required Prerequisites: SWE 301[C] or 301[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale.

SWE 419: *Object-Oriented Software Design and Implementation.* 3 credits.
In-depth study of software design and implementation using a modern, object-oriented language with support for graphical user interfaces and complex data structures. Topics covered are specifications, design patterns, and abstraction techniques, including typing, access control, inheritance, and polymorphism. Students will learn the proper engineering use of techniques such as information hiding, classes, objects, inheritance, exception handling, event-based systems, and concurrency. Offered by Computer Science. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: and (MATH 125[C] or 125[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Applied Computer Science or Computer Science.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SWE 432: *Web Application Development.* 3 credits.
A comprehensive introduction to the design and implementation of applications for the web, including client and server-side development. Exploration of principles for the design of web applications that are robust, scalable, and secure, that enable change and reuse, and that are usable for their intended purpose. Topics include client-server communication, asynchronous programming, persistence, security, web

development tools, the document object model, templates and data-binding, interaction techniques, and site design for the web. Offered by Computer Science. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 125[C] or 125[XS]) and (CS 321[C] or 321[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SWE 437: *Software Testing and Maintenance.* 3 credits.
Concepts and techniques for testing and modifying software in evolving environments. Topics include software testing at the unit, module, subsystem, and system levels; developer testing; automatic and manual techniques for generating test data; testing concurrent and distributed software; designing and implementing software to increase maintainability and reuse; evaluating software for change; and validating software changes. Offered by Computer Science. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 125[C] or 125[XS]) and (CS 310[C] or 310[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SWE 443: *Software Architectures.* 3 credits.
Teaches how to design, understand, and evaluate software systems at an architectural level of abstraction. By end of course, students will be able to recognize major architectural styles in existing software systems, describe a system's architecture accurately, generate architectural alternatives to address a problem and choose from among them, design a medium-size software system that satisfies a specification of requirements, use existing tools to expedite software design, and evaluate the suitability of a given architecture in meeting a set of system requirements. Offered by Computer Science. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (CS 321[C] or 321[XS]) or CS 421[C], SWE 321[C] or 421[C].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

SWE 510: *Object-Oriented Programming in Java.* 3 credits.
Introduces students to programming in the Java language. Topics include problem-solving methods and algorithm development, program structures, abstract data types, simple data and file structures and program development in a modular, object-oriented manner. Introductory use of OO language features, including data hiding, inheritance, polymorphism, and exception handling. Goals include design and development of Java classes and class type hierarchies. An introduction to Java servlets and applets is included. Emphasis on program development is reinforced through several programming projects. Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: Undergraduate courses or equivalent knowledge in programming in a high-level language.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

SWE 619: *Object-Oriented Software Specification and Construction.* 3 credits.
In-depth study of software construction using modern, object-oriented language with support for graphical user interfaces and complex data structures. Specifications, design patterns, and abstraction techniques, including procedural, data, iteration, type, and polymorphic. Information hiding, classes, objects, and inheritance. Exception handling, event-based systems, and concurrency. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: SWE foundation courses or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 620: *Software Requirements Analysis and Specification.* 3 credits.
In-depth study of object-oriented requirements modeling, including use case modeling, static modeling and dynamic modeling with Unified

Modeling Language (UML) notation. Students participate in group project on software requirements and specification using modern method. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: SWE foundation courses or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 621: *Software Design and Architecture.* 3 credits.
An examination of the methods, processes, and notations for working with architecture and design in software. Exploration of design as the enumeration, evaluation, and selection of design alternatives to achieve quality attributes. Surveys perspectives on design from risk minimization, domain modeling, abstraction, architectural styles, design patterns, and reuse. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: SWE foundation courses or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 622: *Distributed Software Engineering.* 3 credits.
Hands-on introduction to techniques and programming interfaces for distributed software engineering. Networking protocols at several layers. Construction of distributed and concurrent software using network protocol services. Applications of Internet and web-based software. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: SWE foundation courses or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 625: *Software Project Management.* 3 credits.
Lifecycle and process models; process metrics; planning for a software project; mechanisms for monitoring and controlling schedule, budget, quality, and productivity; and leadership, motivation, and team building. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: SWE foundation courses or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 626: *Software Project Laboratory.* 3 credits.
Covers requirements analysis, design, implementation, and management of software development project. Students work in teams to develop or modify software product, applying sound principles of software engineering. Uses both industrial and academic standards to assess quality of work products. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: SWE 619,620, and 621; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 631: *Software Design Patterns.* 3 credits.
Principles of software design patterns. Design patterns as solutions to recurring design problems. Categories of software design patterns; structure patterns, communication patterns. Design patterns in software

architectures. Designing software applications using design patterns. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: SWE 621.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 632: *User Interface Design and Development.* 3 credits.
Principles of user interface design, development, and programming. Includes user psychology and cognitive science, menu system design, command language design, icon and window design, graphical user interfaces, web-based user interfaces. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: SWE 619, or CS 540 and 571, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 637: *Software Testing.* 3 credits.
Students learn to test software effectively. Programmers learn practical ways to design high quality tests during all phases of software development. Students learn the theory behind criteria-based test design and to apply that theory in practice. Topics include test design, test automation, test coverage criteria, and how to test software in cutting-edge software development environments. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: SWE 619, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 642: *Software Engineering for the World Wide Web.* 3 credits.
Detailed study of engineering methods and technologies for building highly interactive web sites for e-commerce and other web-based applications. Presents engineering principles for building web sites that exhibit high reliability, usability, security, availability, scalability, and maintainability. Teaches methods such as clientserver programming, component-based software development, middleware, and reusable components. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: SWE 619 or CS 540 and CS 571, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 645: *Component-Based Software Development.* 3 credits.
Introduces concepts and foundations of software component and component-based software. Detailed study of engineering principles of modeling, designing, implementing, testing, and deploying component-based software. Also explores state-of-the-art component technologies. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: SWE 619 or CS 540 and CS 571, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 681: *Secure Software Design and Programming.* 3 credits.
Theory and practice of software security, focusing in particular on some common software security risks, including buffer overflows, race conditions and random number generation, and on identification of potential threats and vulnerabilities early in design cycle. Emphasizes methodologies and tools for identifying and eliminating security vulnerabilities, techniques to prove absence of vulnerabilities, ways to avoid security holes in new software, and essential guidelines for building secure software: how to design software with security in mind from the ground up and integrate analysis and risk management throughout the software life cycle. Offered by Computer Science. May not be repeated for credit. Equivalent to ISA 681.

Recommended Prerequisite: SWE 619.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 699: *Special Topics in Software Engineering.* 3 credits.
Special topics not occurring in regular SWE sequence. Notes: May be repeated for credit when semester topic is different. Offered by Computer Science. May be repeated within the term.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

SWE 721: *Reusable Software Architectures.* 3 credits.
Investigates software concepts that promote reuse of software architectures. Studies influence of object technology on software design and reuse. Investigates domain modeling methods, which model the application domain as a software product family from which target systems can be configured. Covers reusable software patterns including architecture patterns and design patterns, software components, and object-oriented frameworks. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: SWE 621.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 724: *Program Analysis for Software Testing.* 3 credits.
Different methods for analyzing software, primarily for purpose of testing. Analysis techniques, algorithms, tools, and applications. Goals are to explore current research issues, learn how to build analysis tools, and understand how these techniques can be applied to software-related activities such as maintenance, reuse and optimization. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: A compiler class (e.g. CS 540) OR a testing class (e.g. SWE 637) or permission of the instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 737: *Advanced Software Testing.* 3 credits.
Cutting edge concepts and techniques in software testing. An in-depth study of existing approaches to testing software as well as development of new approaches. Applications of existing concepts and techniques to new technologies. Advanced MS students learn in-depth knowledge for how to apply testing in difficult and challenging real-world scenarios. PhD students learn current research trends, both theoretical and practical. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: SWE 637.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 760: *Software Analysis and Design of Real-Time Systems.* 3 credits.
Background for students who want to conduct research in software engineering of real-time systems. Provides understanding of key real-time software system analysis, design concepts and methods, and how they are used in developing large-scale, real-time software systems. Also explores potential impact of emerging technologies. Includes term project in design and analysis of complex, real-time software system. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: SWE 621.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 763: *Software Engineering Experimentation.* 3 credits.
Detailed study of scientific process, particularly using experimental method. Examines how empirical studies are carried out in software engineering. Reviews distinction between analytical techniques and empirical techniques. Other topics include experimentation required in software engineering, problems that can be solved using experimentation, methods used to control variables and eliminate bias in experimentation, and analysis and presentation of empirical data for decision making. Offered by Computer Science. May not be repeated for credit.

Recommended Prerequisite: SWE 621, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 795: *Advanced Topics in Software Engineering.* 3 credits.
Advanced topics not occurring in existing courses. Topics normally assume knowledge in one or more existing MS SWE courses. Notes: Repeatable within degree for credit when subject differs. Offered by Computer Science. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 12 credits applicable toward MS.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SWE 796: *Directed Readings in Software Engineering.* 3 credits.
Analysis and investigation of contemporary problem in software engineering. Requires prior approval by faculty member who supervises student's work. Written report also required. Offered by Computer Science. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

SWE 798: *Research Project.* 3 credits.
Master's degree candidates undertake a project using knowledge gained in MS program. Topics chosen in consultation with a faculty sponsor. Research project is chosen under guidance of full-time graduate faculty member, resulting in written technical report. Notes: Prior approval required by faculty sponsor who supervises student's work. To register, students must complete an independent study form available in department office. It must be initialed by the faculty sponsor and approved by the department chair. Offered by Computer Science. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 18 credits applicable towards MS degree.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Thesis

Grading:
This course is graded on the Graduate Regular scale.

SWE 799: *Thesis.* 1-6 credits.
Research project completed under supervision of faculty member, which results in technical report accepted by three-member faculty committee. Report must be defended in oral presentation. Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Offered by Computer Science. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

SWE 821: *Software Engineering Seminar.* 3 credits.
Study of application of software engineering principles, design methods, and support tools through real-life problems extracted from faculty and industry projects. Notes: May be repeated with change in topic. Offered by Computer Science. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: SWE 621

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

Spanish (SPAN)

100 Level Courses

SPAN 101: *Elementary Spanish I.* 3 credits.
For students with no knowledge of Spanish. Introduction to Spanish, including elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Notes: Students may not receive credit for SPAN 101 and SPAN 110. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to SPAN 110.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 102: *Elementary Spanish II.* 3 credits.
Continuation of SPAN 101. Notes: Students may not receive credit for SPAN 102 and SPAN 115 or 110. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to SPAN 110, SPAN 115.

Recommended Prerequisite: SPAN 101, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 110: *Elementary Spanish.* 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Notes: Students may not receive credit for SPAN 110 and SPAN 101, 102, or 115. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to SPAN 101, SPAN 102, SPAN 115.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 115: *Review of Elementary Spanish.* 3 credits.
Reviews elements for students who have studied Spanish previously. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to SPAN 102, SPAN 110.

Recommended Prerequisite: Appropriate placement score, or permission of department.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

200 Level Courses

SPAN 201: *Intermediate Spanish I.* 3 credits.
Further development of skills in listening, speaking, reading, and writing. SPAN 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: SPAN 102, 110, 115, appropriate placement score or permission of department.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 202: *Intermediate Spanish II.* 3 credits.
Application of skills to reading, composition, and discussion. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to SPAN 212.

Recommended Prerequisite: SPAN 201, appropriate placement score or permission of department.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Fulfills Frgn Lng requirment, Taught in Spanish

SPAN 212: *Intermediate Spanish II: Local and Global Contexts.* 3 credits.
Intermediate, content-based course focused on students' use of Spanish in community and professional contexts. Cultural topics relevant to living and working in local and global Spanish-speaking communities provide a structure for students' oral, reading and written language development in the language. Critical approaches to the study of Spanish and Spanish-language culture give students the methodological foundation for advanced courses in Spanish at the University. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to SPAN 202.

Mason Core: Global Understanding

Recommended Prerequisite: SPAN 201, permission of instructor or appropriate score on the placement test.

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 215: *Intermediate Spanish for Heritage Speakers.* 3 credits.
Builds on the linguistic resources and sociocultural knowledge of intermediate heritage speakers of Spanish as they prepare for courses at the advanced level. Students will develop their oral and written expression through regular exposure to Spanish-language texts, films, digital media, music, and visual art. Students will also cultivate their critical understanding of the significance of language and other forms of culture for Spanish-language communities. The course is designed to give students multiple opportunities for personal reflection on issues concerning language and identity. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to SPAN 202.

Recommended Prerequisite: SPAN 201 or equivalent

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

300 Level Courses

SPAN 301: *Grammar and Syntax.* 3 credits.
In-depth review of Spanish grammar and syntax. Extensive practice in controlled and free writing with emphasis on fundamental difficulties and points of interference that exist between English and Spanish. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: SPAN 202 or SPAN 215, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 305: *Spanish in Context I.* 3 credits.
Integrated content-based approach to the study of Spanish, designed to promote oral and written abilities, as well as critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Includes vocabulary-building activities, grammar review and practice, assigned readings in a variety of genres, critical cultural analysis, in-class discussions, written essays, and the viewing of films. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to SPAN 309, SPAN 315.

Recommended Prerequisite: SPAN 202 or SPAN 215, or equivalent, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 306: *Spanish in Context II.* 3 credits.
Continuation of SPAN 305. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to SPAN 309, SPAN 315.

Recommended Prerequisite: SPAN 305, or equivalent, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 309: *Intensive Spanish in Context.* 6 credits.
Intensive content-based approach to the study of Spanish, designed to promote oral and written abilities, as well as critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Includes vocabulary-building activities, grammar review and practice, assigned readings in a variety of genres, critical cultural analysis, in-class discussions, written essays, and the viewing of films. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to SPAN 305, SPAN 306, SPAN 315.

Recommended Prerequisite: SPAN 202 or SPAN 215, or equivalent, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 315: *Spanish in Context for Heritage Speakers.* 3 credits.
Designed for students who have some communicative ability in Spanish, normally acquired in the home, who want to improve their reading and writing abilities while developing a critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Course components include orthography and vocabulary activities, grammar review and practice, assigned readings in a variety of genres, critical cultural analysis, in-class discussions, written essays, and the viewing of films. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to SPAN 305, SPAN 306, SPAN 309.

Recommended Prerequisite: SPAN 215, appropriate placement score or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 321: *Introduction to Spanish Culture.* 3 credits.
History, culture, economic and social development, and scientific and artistic achievements that have contributed to the formation of modern Spain. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to SPAN 461.

Recommended Prerequisite: ENGL101 or Permission of Instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPAN 322: *Introduction to Latin American Culture.* 3 credits.
History, culture, economic and social development, and scientific and artistic achievements that have contributed to the formation of modern

Latin America. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to SPAN 466.

Mason Core: Global Understanding

Recommended Prerequisite: ENGL 101/ENGH 101 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPAN 323: *Field Study in Hispanic Culture.* 1-3 credits.
History, culture, economic and social development, and scientific and artistic achievements that have contributed to the formation of modern Spain. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: 60 hours or Permission of Instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPAN 324: *Study Abroad in Spanish.* 3 credits.
Study at an academic institution in a Spanish-speaking country including classroom studies with professors from the host country and field experiences. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: SPAN 202 (or equivalent) or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 325: *Major Hispanic Writers.* 3 credits.
Study of the works of major Hispanic writers in translation. Writers studied vary. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the term for a maximum 6 credits.

Mason Core: Literature

Recommended Prerequisite: ENGH 101 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPAN 326: *Treasures of Spanish-Language Literature and Culture.* 3 credits.
Introduces key themes and trends in Spanish-language literature and culture in the global context. Content varies across texts, media or other cultural practices. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Advanced oral and written proficiency in Spanish, to be determined by the instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 329: *Special Topics in Spanish and Latin American Literature.* 3 credits.
Study of selected topics in Spanish or Latin American literature. Writers and topics vary. Notes: Designed for students who are not pursuing a concentration in Spanish. May be repeated when topic is different. Offered by Modern & Classical Languages. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: ENGH 101 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPAN 335: *Topics for Proficiency: The Americas.* 3 credits.
Integrated content-based approach to conversational Spanish. Designed to promote increased confidence and fluency in both formal and informal Spanish registers, as well as critical understanding of Latin American and/or Latino histories and cultures. Current events, films, literary texts, and popular culture reflecting issues of Latin Americans and/or Latinos serve as catalysts for class discussions, oral presentations, and debates. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: SPAN 202 or SPAN 215, or equivalent, or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 336: *Topics for Proficiency: Spain.* 3 credits.
Integrated content-based approach to conversational Spanish. Designed to promote increased confidence and fluency in both formal and informal Spanish registers, as well as critical understanding of Spanish history and culture. Current events, films, literary texts and popular culture reflecting Spanish issues serve as catalysts for class discussions, oral presentations and debates. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: SPAN 202 or SPAN 215, or equivalent, or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 351: *Oral Spanish.* 3 credits.
Development of oral expression on topics of current interest and everyday situations, including written assignments. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: SPAN 202 or SPAN 215, or equivalent, appropriate placement score, or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 370: *Spanish Writing and Stylistics.* 3 credits.
Improves writing skills by covering formal and stylistic concepts of the Spanish language. Includes practice and exposure to different textual genres in an interdisciplinary fashion. Includes common doubts concerning spelling, expression, and style; business Spanish; journalistic Spanish; academic Spanish; and creative writing. Offered by Modern & Classical Languages. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: SPAN 306 or 309, or SPAN 315, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 375: *Introduction to Spanish-Language Cinema.* 3 credits.
Introduces the study of film as an art form and the academic discipline of film studies as they relate to the Spanish-speaking world. Recommended Prerequisite: SPAN 305 and SPAN 306 or SPAN 309 or SPAN 315.

Recommended Corequisite: SPAN 370, SPAN 385, SPAN 388, SPAN 390.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 385: *Introduction to Spanish Linguistics.* 3 credits.
Introduces the study of Spanish linguistics, including phonetics, phonology, morphology, syntax, pragmatics, historical linguistics, and sociolinguistics. Combines discussion of theoretical issues with linguistic analysis of Spanish. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: SPAN 370 (may be enrolled concurrently) or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 388: *Introduction to Latina/o Studies.* 3 credits.
Interdisciplinary approach to the study of U.S. Latina/o cultural production, designed to promote critical thinking in understanding Latina/o histories, literatures, and cultures. Offered by Modern & Classical Languages. Limited to three attempts.

Mason Core: Synthesis

Recommended Prerequisite: SPAN 335 or 336, or SPAN 370, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 390: *Introduction to Hispanic Literary Analysis.* 3 credits.
Required course that prepares students for the study of Hispanic literatures. Introduces basic terminology of literary analysis and provides practice in the examination of texts in the major genres: poetry, narrative, and drama. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: SPAN 370 (may be enrolled concurrently) or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

400 Level Courses

SPAN 400: *Spanish for the Professions.* 3 credits.
Advanced study of the language needed for use in a specific profession, such as translation, business, social service, or health professions. Notes: May be repeated when profession differs. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: SPAN 385 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 425: *Independent Study.* 1-3 credits.
Research and analysis of a selected problem in literature or linguistics in consultation with a department member. Notes: Maximum of 6 credits of independent study may be applied to fulfillment of requirements for the major. Offered by Modern & Classical Languages. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Spanish major with 90 credits, and permission of instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 426: *Independent Study.* 1-3 credits.
Research and analysis of a selected problem in literature or linguistics in consultation with a department member. Notes: Maximum of 6 credits of independent study may be applied to fulfillment of requirements for the major. Offered by Modern & Classical Languages. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Spanish major with 90 credits, and permission of instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 430: *Spanish in the United States.* 3 credits.
Covers both formal and sociolinguistic aspects of Spanish in the U.S. by discussing demographic aspects and a historical overview of the varieties of Spanish spoken in the United States. Gives a foundation in issues such as linguistic variation, language choice, the relationship among race, ethnicity, and language; official language policies; individual and societal bilingualism; and language diversity in education. Limited to three attempts.

Recommended Prerequisite: SPAN 370 and ENGL 302/ENGH 302; or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 461: *Spanish Civilization and Culture.* 3 credits.
Survey of Spanish culture and civilization from the pre-Roman era to the 20th century. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to SPAN 321.

Recommended Prerequisite: SPAN 370 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 466: *Latin American Civilization and Culture.* 3 credits.
Introduction to the study of Latin American civilization and culture from the pre-Columbian era to the 20th century. Offered by Modern & Classical Languages. Limited to three attempts. Equivalent to SPAN 322.

Mason Core: Global Understanding

Recommended Prerequisite: SPAN 370 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 472: *Spanish Phonetics and Phonology.* 3 credits.
Introduction to the analysis of the Spanish sound system, both phonetics and phonology. Topics include the articulatory system, sound production, the classification of vowels and consonants, phonetic transcription, the mental representation of sounds, variation and accent, and processes of sound change, among others. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: SPAN 385, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 474: *Spanish Syntax and Semantics.* 3 credits.
Investigates the knowledge Spanish speakers possess that enables them to understand and create expressions they have not heard before. Studies the system unconsciously used by Spanish speakers and writers to connect situations in the real world to the words and sentences that express each situation. Provides opportunities to analyze samples

of language in actual use. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: SPAN 385, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 476: *Teaching Spanish in the United States.* 3 credits.
Introduction to second language acquisition theory and research, and the application to teaching Spanish as a second language and a heritage language. Includes a discussion of sociocultural and political issues surrounding the teaching of Spanish in the United States. Covers learning objectives, critical pedagogy, course design, grammar instruction, task-based language teaching, computer-assisted language learning, materials evaluation, and assessment. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: SPAN 385, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 480: *Special Topics in Spanish.* 3 credits.
Study of a selected theme in Hispanic literature, culture, or linguistics. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: SPAN 385, 388 or 390, depending on topic, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 481: *Special Topics in Spanish.* 3 credits.
Study of a selected theme in Hispanic literature, culture, or linguistics. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: SPAN 385, 388 or 390, depending on topic, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 482: *Mass Media and Popular Culture in the Spanish-Speaking World.* 3 credits.
Critical examination of the significance of mass media and/or popular culture for the development of Spanish-speaking nation-states in the 19th, 20th, and 21st centuries. Forms studied may include but are not limited to: Newspapers, popular novels, lithography, photography, radio, film, television, public art, sport, performance, digital media. Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Additional Course Details: Taught in Spanish

600 Level Courses

SPAN 635: *Seminar in Don Quixote.* 3 credits.
Study of Don Quixote and major critical approaches to the work. Offered by Modern & Classical Languages. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SPAN 650: *Seminar in Twentieth-Century Drama.* 3 credits.
Study of major dramatists in the generation of 1898 and contemporary theater. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SPAN 655: *Seminar in Twentieth-Century Prose.* 3 credits.
Study of major writer, theme, or movement in novel or essay. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SPAN 670: *Seminar in Spanish American Prose.* 3 credits.
Study of a selected theme, movement, or author in the novel, short story, or essay. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SPAN 675: *Seminar in Literature and Art.* 3 credits.
Comparative analysis of a literary theme or style in relation to other media (painting, architecture, film) for an integral understanding of the arts. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SPAN 680: *Seminar in Literature and Society.* 3 credits.
Study of a literary topic, a genre, or selected authors in relation to a given economic, social, or political system in Spain or Latin America. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

SPAN 685: *Seminar in Literature and Ideas.* 3 credits.
Study of major ideological-philosophical themes and their artistic expression in literature. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

SPAN 790: *Seminar in Bilingual Education.* 3 credits.
Introduction to the policies, practices, and outcomes of bilingual education in Spanish-speaking contexts including the United States, Latin America, and Spain. Students build critical understanding of the sociohistorical, sociocultural, and sociopolitical parameters of bilingual education and apply pedagogical concepts that support bilingual, biliterate, and bicultural development for language minority and language majority learner populations. Offered by Modern & Classical Languages. May not be repeated for credit.

Recommended Prerequisite: SPAN 502

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

Additional Course Details: Taught in Spanish

SPAN 798: *Directed Reading and Research.* 3 credits.
Open only to degree students who have completed at least 18 credits. Reading and research on a specific project under the direction of a department member. Oral or written report required. Offered by Modern & Classical Languages. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Graduate Special scale.

SPAN 799: *Thesis.* 1-6 credits.
Master's thesis research and writing under direction of faculty committee. Students must register for 3 credits in the first semester of SPAN 799 and maintain continuous enrollment until completion of thesis. Credits are awarded upon completion. Offered by Modern & Classical Languages. May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

SPAN 800: *Studies for the Doctor of Philosophy in Education.* 3-6 credits.
Studies designed by student's discipline director and approved by student's doctoral committee that prepare student for research and writing in area of interest in discipline. Offered by Modern & Classical Languages. May be repeated within the degree.

Recommended Prerequisite: Admission to PhD in education program to study in Spanish.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Research

Grading:
This course is graded on the Graduate Special scale.

Special Education (EDSE)

100 Level Courses

EDSE 115: *American Sign Language (ASL) I.* 4 credits.
Focuses on introduction of American Sign Language (ASL) and Deaf culture. Teaches basic person-to-person conversational signing. Emphasizes development of expressive and receptive skills. Increases knowledge of ASL vocabulary and the syntax, semantics, and pragmatics of the language. Offered by School of Education. Limited to three attempts.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 116: *American Sign Language (ASL) II.* 4 credits.
Focuses on expanding basic skills in American Sign Language (ASL) and Deaf culture. Emphasizes development of expressive and receptive skills. Increases knowledge of ASL vocabulary and the syntax, semantics, and pragmatics of the language. Offered by School of Education. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: EDSE 115^{C} or 115^{XS}.
^{C} Requires minimum grade of C.
^{XS} Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

EDSE 201: *Introduction to Special Education.* 3 credits.
Provides a survey of current knowledge on individuals with disabilities within the context of human growth and development across the life span. Includes historical factors, legal aspects, etiology, characteristics, assessment, evidence-based practices, and support services for individuals with disabilities having needs for intervention ranging from mild to severe. Includes the impact of disabilities on academic, social, and emotional performances. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 203: *Disability in American Culture.* 3 credits.
Examines disability, past and present, in American culture through changes in historical, political, legal, and societal responses to people with disabilities. Analyzes the disability experience through social and behavioral science perspectives, including diversity, bioethical and human rights conceptualizations/constructs of disability. Offered by School of Education. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 204: *Disability in a Global Society.* 3 credits.
Examines disability in a global context, including how individuals, groups, institutions, and nations acknowledge and address disability in contemporary global societies. Assesses how the growing political, economic, and social gaps that exist between the Global North and South impact people with disabilities. Applies a disabilities empowerment framework as well as current findings from global human and economic indices to compare the current status of people with disabilities across contemporary global societies. Offered by School of Education. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 219: *American Sign Language (ASL) III.* 4 credits.
Focuses on intermediate level skills in American Sign Language (ASL) and Deaf culture. Increases competencies in person-to-person conversational signing, including expressive and receptive skills, vocabulary, syntax, semantics, and pragmatics. Offered by School of Education. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: EDSE 116^{C} or 116^{XS}.
^{C} Requires minimum grade of C.
^{XS} Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 241: *Characteristics of Students with Disabilities who Access the General Curriculum.* 3 credits.
Examines the academic, social, and behavioral characteristics of individuals with disabilities who access the general curriculum, including students with learning disabilities, emotional/behavioral disorders, intellectual disability, autism, and attention deficit disorder. Focuses on etiology, contributing factors, impact on life and family, the challenges of identifying students with disabilities, and the need for intensive instruction, accommodations, and support. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 251: *Classroom Management and Positive Behavior Supports.* 3 credits.
Focuses on describing how school and classroom methods are used to establish effective learning environments for individuals with varying degrees of disabilities. Explores classroom and behavior management including technology, social skills, and effective teaching behaviors. Emphasizes developing school and classroom behavior management plans. Field experience required. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

EDSE 311: *Characteristics of Students with Blindness and Visual Impairments.* 3 credits.
Provides an overview of the characteristics of and services to persons with blindness and visual impairments, including the impact of blindness and visual impairment on infants' and children's growth and development, child and adolescent emotional and social development, and family interaction patterns. Considers the educational, conceptual, psychosocial, and physical implications of a visual impairment. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 315: *American Sign Language (ASL) IV.* 3 credits.
Focuses on strengthening expressive and receptive communication in American Sign Language (ASL) through the development of narrative and storytelling skills. Explores the importance of these skills within the Deaf Community. Explores issues of multiculturalism, linguistic code-switching, and language dominance, particularly in relationship to Deaf education. Offered by School of Education. Limited to three attempts.

Registration Restrictions:
Required Prerequisite: EDSE 219[B].
[B] Requires minimum grade of B.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 341: *Language Acquisition and Reading and Writing Development.* 3 credits.
Examines language, reading, and writing skills for typical and atypical students, and describes language, reading and writing instruction for students with disabilities who access the general curriculum. Explores emergent literacy skills, sound and symbol relationships, spelling development, phonemic awareness, phonics, vocabulary development, and comprehension. Analyzes informal assessment methods to monitor students' reading and writing progress. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: Permission of instructor to override prerequisite may be granted with sufficient experience or knowledge in the field.

Registration Restrictions:
Required Prerequisites: (EDSE 201[C] or 201[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 351: *Technology Integration for Specialized Instruction.* 3 credits.
Reviews applications of recent educational and assistive technology for instruction. Evaluates strategies for effective integration of mainstreamed instructional technology to promote student learning, successful implementation of individualized assistive technology to access general education curriculum, and delivery of accessible online and blended instruction to all learners through technology-based innovations and Universal Design for Learning. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 352: *Assessment.* 3 credits.
Offers knowledge and learning activities related to assessment of students with varying degrees of disabilities. Includes statistical and psychometric concepts in assessment. Addresses norm-referenced, criterion-referenced, curriculum-based, and informal assessment for instructional and placement decisions. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 353: *Individualized Behavior Supports.* 3 credits.
Focuses on identifying, recording, evaluating, and developing comprehensive plans for changing social and academic behaviors of individuals with disabilities. Emphasizes analyzing the function of individuals' behaviors and developing responsive behavior intervention plans. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: EDSE 251

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 354: *Consultation and Collaboration.* 3 credits.
Provides professionals in special education, general education, and related fields with knowledge and skills necessary for collaboration with a wide variety of stakeholders. Emphasizes developing and implementing individualized education programs for individuals with disabilities using a team approach. Demonstrates active listening, group process, and problem-solving strategies. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 361: *Characteristics of Students with Severe Disabilities.* 3 credits.
Examines the academic, social, medical, and behavioral characteristics of individuals with severe disabilities such as intellectual disability, autism, traumatic brain injury, and severe/multiple cognitive, physical and/or sensory disabilities. Focuses on etiology, contributing factors, impact on life and family, the challenges of identifying students with disabilities, and the need for intensive instruction, accommodations, and support. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 362: *Communication with Severe Disabilities.* 3 credits.
Provides an overview of augmentative and alternative communication (AAC) for individuals with severe speech and language impairments. Addresses the knowledge and skills needed to assess the potential AAC user, make team decisions, develop and implement instruction, and evaluate the effects of instruction aimed at motivating, building, and expanding communication, choice-making, and social interaction. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 381: *Exploratory Field Experience in Special Education.* 3 credits.
Introduces students to the role of the special educator in academic and non-academic environments with students across disability areas. Facilitates observation and understanding of the professional work of special educators in K-12 schools, specifically in instruction, behavior management, and data collection. Provides exposure to special education at the transition and community-based levels as well as at the policy and leadership levels. Initiates critical reflection focused on examining special education theory and research in application through practice in school and community-based settings. Includes a 2-hour weekly seminar and a total of 20 field experience hours. Offered by School of Education. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: EDSE 201[C] or 201[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

EDSE 410: *Deaf History.* 3 credits.
Studies the history of the Deaf people in Europe and its influence on the Deaf people in the United States. Explores the Deaf people's experience as an oppressed minority similar to the experience of many oppressed populations. Applies knowledge to understanding the attitudes toward Deaf people today. Offered by School of Education. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: EDSE 315[*C] or 315[XS].
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 412: *Braille Code.* 3 credits.
Provides understanding of the literary code of Braille and its implications for educational/literacy programs for students with a visual disability. Enables students to better understand the Braille code and how to teach it to students with a visual disability. Notes: Delivered online. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: EDSE 311. Concurrent enrollment is also permitted.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 413: *Medical and Educational Implications of Blindness and Visual Impairments.* 3 credits.
Provides an introduction to anatomy and physiology of the visual system and the educational implications of visual pathology. Covers anatomy of the human eye, normal visual development, pathology of the eye, examination procedures for the identification of visual pathology, and the effects of pathology on visual learning and development. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: EDSE 311, which may be taken concurrently.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 414: *Orientation and Mobility for Students with Blindness and Visual Impairments.* 2 credits.
Provides the foundation for understanding the components and essence of orientation and mobility (O&M). Establishes how the need for independent travel in the blind population created the field of O&M. Explores the philosophy and history of orientation and mobility, including cane instruction, dog guides, and methods of travel. Addresses

techniques in developing orientation skills and basic mobility instruction. Emphasizes motor and concept skill development. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: EDSE 311, which may be taken concurrently

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 417: *Teaching Methods for Students with Blindness and Visual Impairments.* 3 credits.
Emphasizes methods of teaching compensatory skills, the core curriculum, and technology for use by students who are blind and visually impaired. Addresses curriculum development, adaptations, and teaching methodology for individuals with visual impairments. Provides information on adaptations within various educational programs and adaptation of general education classroom materials and procedures for use with blind and low vision children and youth. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: EDSE 311, which may be taken concurrently

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 418: *Curriculum and Assessment of Students with Blindness and Visual Impairments.* 3 credits.
Provides students with knowledge and understanding of the educational assessment of students with visual impairments and additional disabilities including deaf-blindness. Provides practice assessing and planning educational programs for students with visual impairments. Addresses assessment of technology for students with visual impairments. Examines determination of learning needs and appropriate learning media, relationship of assessment, IEP development, and placement. Notes: Field experience required. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: EDSE 311, which may be taken concurrently

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 419: *Braille Reading and Writing.* 3 credits.
Provides instruction on transcription of advanced braille codes, including mathematics (Unified English Braille (UEB) and Nemeth), music, foreign language, and other specialized codes. Introduces techniques for teaching skills in each code. Explores technology tools used to create braille and tactile materials in addition to other assistive technologies used for instruction in science technology, engineering, and mathematics (STEM) content. Offered by School of Education. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: ((EDSE 311[C] or 311[XS]) and (EDSE 412[C] or 412[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 420: *Deaf Culture.* 3 credits.
Studies the cultural practices, ideology, power, identity, and heritage of Deaf people in the United States. Analyzes Deaf community as a part of societal diversity. Emphasizes issues of multiculturalism, linguistic code-switching, and language dominance. Offered by School of Education. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (EDSE 410[C] or 410[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 441: *Instructional Strategies for Reading and Writing.* 3 credits.
Integrates knowledge of language assessments and the components of quality reading instruction to plan well-sequenced and explicit instruction for students with disabilities in the general education curriculum. Examines objectives that align with curriculum standards while still providing individualization. Implements and applies reading and writing instruction to support learning in all content areas. Field experience required. Offered by School of Education. Limited to three attempts.

Recommended Prerequisite: Permission of instructor to override prerequisite may be granted with sufficient experience or knowledge in the field.

Registration Restrictions:
Required Prerequisites: (EDSE 341[C] or 341[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 443: *Instructional Strategies for Math.* 3 credits.
Integrates foundational knowledge of numeracy acquisition, mathematical concepts, mathematical thinking, mathematics vocabulary, calculation, and problem-solving with instructional methods to plan and deliver well-sequenced and explicit math instruction for students with disabilities in the general education curriculum. Examines objectives that align with the general education curriculum Virginia Standards of Learning in mathematics at the elementary, middle, and secondary levels while still providing individualization. Field experience required. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 445: *Clinical Practice and Seminar 1: General.* 2 credits.
Exposes individuals to classroom settings inclusive of students with disabilities who access the general curriculum. Examines the professional realities, roles, and responsibilities of special education teachers based upon a foundation of theory and research designed to stimulate critical reflectivity. Engages with individual and/or small groups

of students with disabilities who access the general curriculum in K-12 classroom environments. Assists in the planning and implementation of effective assessment, instruction, and behavior management across subject areas. Includes a 2-hour seminar held nine times throughout the semester and a total of 30 field experience hours. Offered by School of Education. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (EDSE 381[C] or 381[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 446: *Clinical Practice and Seminar 2: General.* 2 credits.
Applies coursework in Special Education-General Curriculum to planning and supervised instruction of students with disabilities who access the general curriculum in K-12 school settings. Engages in reflection to analyze instruction within the clinical experience setting. Includes a 2-hour seminar held seven times throughout the semester and a minimum of 75 hours of fieldwork in a K-12 clinical experience setting. Offered by School of Education. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: EDSE 445[C] or 445[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 451: *Transition and Self-Determination.* 3 credits.
Examines relevant legislation and evidence-based practices related to person-centered transition planning for students with varying disabilities throughout the K-12 system and into adult life. Focuses on effective alternative assessment, coordination of community services, functional academic and social/life skills, stakeholder involvement, employment, and independent living. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 452: *Intersectionality and Disability.* 3 credits.
Examines disability within a diversity and intersectionality context in K-12 schools. Analyzes how diversity and intersectionality informs the educational experience of individuals with and without disabilities to include race, gender, sexual orientation, socioeconomic status, and home/ language and culture. Assesses how cultural competency and intersectionality awareness on the part of educators enhance the school success of all students. Develops educator capacity to implement trauma-sensitive interventions in diverse settings for all students. Offered by School of Education. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: EDSE 201[C] or 201[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 463: *Curriculum and Methods in Severe Disabilities.* 3 credits.
Focuses on current best practices in curriculum and methods for individuals with severe disabilities including specific strategies for teaching individuals with severe disabilities, general strategies for working with heterogeneous groups of individuals in inclusive settings, and methods for adapting the general education curriculum to include individuals with severe disabilities. Field experience required. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 465: *Clinical Practice and Seminar 1: Adapted (Severe Disabilities).* 2 credits.
Exposes teacher candidates to K-12 classroom settings inclusive of students with disabilities who access the adapted curriculum and who have severe disabilities. Examines the professional realities, roles, and responsibilities of special education teachers based upon a foundation of theory and research designed to stimulate critical reflectivity. Engages with individuals and/or small groups of individuals with severe disabilities in the classroom environment. Assists in the planning and implementation of effective assessment, instruction, and behavior management across subject areas. Includes a 2-hour seminar held nine times throughout the semester and a total of 30 field experience hours. Offered by School of Education. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (EDSE 381[C] or 381[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 466: *Clinical Practice and Seminar 2: Adapted (Severe Disabilities).* 2 credits.
Applies coursework in Special Education-Adapted Curriculum (Severe Disabilities) to planning and supervised instruction of students with severe disabilities who access the adapted curriculum in K-12 school settings. Engages in reflection to analyze instruction within the clinical experience setting. Includes a 2-hour seminar held seven times throughout the semester and a minimum of 75 hours of fieldwork in a K-12 clinical experience setting. Offered by School of Education. Limited to three attempts.

Registration Restrictions:
Required Prerequisite: EDSE 465[C].
[C] Requires minimum grade of C.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 467: *Foundations of Language and Literacy for Individuals with Severe Disabilities.* 3 credits.
Examines the complexity of language acquisition and literacy development. Focuses on typical and atypical language development, connections between language and literacy, and diversity of communication styles in families and cultures. Emphasizes first and second language acquisition. Field experience required. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 469: *Individualized Supports and Specialized Care of Students with Severe Disabilities.* 3 credits.
Focuses on the unique physical, sensory, communication, and health and medical needs of students with severe disabilities. Examines how these needs impact the educational program, how special education and related services are delivered, and how to design academic, functional and behavioral instruction and adaptations to meet those needs. Offered by School of Education. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

EDSE 481: *Internship: Professional Services.* 12 credits.
Applies university coursework in Special Education to individuals with disabilities in a variety of community or school-based settings in supervised internship. Applies coursework, theories, and research to professional service settings. Sites chosen by client/stakeholders after approval of faculty supervisors. Includes a 2- hour seminar held six times throughout the year. Offered by School of Education. Limited to three attempts.

Mason Core: Capstone

Registration Restrictions:
Required Prerequisites: (EDSE 381[C] or 381[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

EDSE 482: *Internship: General Curriculum.* 12 credits.
Applies university coursework in Special Education-General Curriculum to instruction of students with disabilities who access the general curriculum in two supervised internship settings, including an elementary and secondary school placement. Includes a 2-hour seminar held six times throughout the semester and a minimum of 300 hours in the school placements (with at least 150 direct teaching hours). Note: Prior to registration, students must demonstrate that VDOE-required teacher assessments and First Aid/CPR/AED certification for licensure have been met, and application for internship must be on file by program deadline. Offered by School of Education. Limited to three attempts.

Mason Core: Capstone

Registration Restrictions:
Required Prerequisites: EDSE 446[C] or 446[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

EDSE 483: *Internship: Adapted (Severe Disabilities).* 12 credits.
Applies university coursework in Special Education-Adapted Curriculum to instruction of students with severe disabilities who access the adapted curriculum in two supervised internship settings, including an elementary and secondary school placement. Includes a 2-hour seminar held six times throughout the semester. Note: Prior to registration, students must demonstrate that VDOE-required teacher assessments and First Aid/CPR/AED certification for licensure have been met. Application for internship must be on file by program deadline. Offered by School of Education. Limited to three attempts.

Mason Core: Capstone

Registration Restrictions:
Required Prerequisite: EDSE 466[C].
[C] Requires minimum grade of C.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

EDSE 484: *Internship: Blindness and Visual Impairments.* 12 credits.
Applies, in supervised internship, university coursework in Blindness and Visual Impairments to instruction of children and their families in school settings. Note: Prior to registration students must demonstrate that VDOE-required teacher assessments and First Aid/CPR/AED certification for licensure have been met, and application for internship must be on file by program deadline. Offered by School of Education. Limited to three attempts.

Mason Core: Capstone

Registration Restrictions:
Required Prerequisites: (EDSE 413[C] and 417[C] and (EDSE 418[C] or 418[XS]) and EDSE 419[C]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Senior Plus or Senior.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

500 Level Courses

EDSE 501: *Introduction to Special Education.* 3 credits.
Provides a survey of current knowledge on individuals with disabilities within the context of human growth and development across the lifespan. Includes historical factors, legal aspects, etiology, characteristics, assessment, evidence-based practices, and support services for individuals having needs for intervention ranging from mild to severe. Includes the impact of disabilities on academic, social, and emotional performances framed within the teaching profession as a whole. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 502: *Classroom Management and Applied Behavior Analysis.* 3 credits.
Focuses on identifying, recording, evaluating, and changing social and academic behaviors of special and diverse populations. Explores theories of classroom management and various approaches to management including use of technological advances. Emphasizes developing classroom and individual behavior management plans. Note: Field experience required. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 503: *Language Development and Reading.* 3 credits.
Identifies literacy skills for typical and atypical students, and describes reading, language, and writing instruction for students with mild disabilities who access the general curriculum. Explores emergent literacy skills, phonemic awareness, vocabulary development, and comprehension. Note: Field experience required. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 511: *Characteristics of Students with Visual Impairments.* 3 credits.
Provides an overview of the characteristics of and services to persons with blindness and visual impairments, including the impact of blindness and visual impairment on infants' and children's growth and development, child and adolescent emotional and social development, and family interaction patterns. Considers the educational, conceptual, psychosocial, and physical implications of a visual impairment. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 512: *Braille Code.* 3 credits.
Provides understanding of the literary code of Braille and its implications for educational/literacy programs for students with a visual disability. Enables students to better understand the Braille code and how to teach it to students with a visual disability. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: EDSE 511. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 513: *Medical and Educational Implications of Visual Impairments.* 3 credits.
Provides an introduction to anatomy and physiology of the visual system and the educational implications of visual pathology. Covers anatomy of the human eye, normal visual development, pathology of the eye, examination procedures for the identification of visual pathology, and the effects of pathology on visual learning and development. Field experience is required. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: EDSE 511. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:

This course is graded on the Graduate Regular scale.

EDSE 514: *Orientation and Mobility for Students with Visual Impairments.* 2 credits.
Provides the foundation for understanding the components and essence of orientation and mobility (O&M). Establishes how the need for independent travel in the blind population created the field of O&M. Explores the philosophy and history of orientation and mobility, including cane instruction, dog guides, and methods of travel. Addresses techniques in developing orientation skills and basic mobility instruction. Emphasizes motor and concept skill development. Field experience is required. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: EDSE 511. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 517: *Computer Applications for Special Populations.* 3 credits.
Explores the applications of computer technology for instructional programs and computer skills used by teachers of special populations. Provides experience with computer technology designed for special populations. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 518: *Curriculum and Assessment of Students with Visual Impairments.* 3 credits.
Provides students with knowledge and understanding of the educational assessment of students with visual impairments and additional disabilities including deaf-blindness. Provides opportunities to practice assessing and planning educational programs for students with visual impairments. Addresses assessment of technology for students with visual impairments. Examines determination of learning needs and appropriate learning media, relationship of assessment, IEP development, and placement. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: EDSE 511. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 531: *Transition and Community-Based Instruction.* 3 credits.
Addresses issues in transition for youth with severe disabilities. Covers self-determination, development, and implementation of a transition plan, post-secondary opportunities including education and community-based instruction, and vocational environments. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 532: *Positive Behavior Supports.* 3 credits.
Focuses on employing concepts and skills to design, implement, and evaluate behavior support programs derived from functional assessment; addressing relevant replacement skills; facilitating generalization and maintenance of skills; and incorporating individually designed crisis intervention procedures. Field experience is required. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 533: *Assessment and Program Planning for Adapted Curriculum.* 3 credits.
Develops knowledge and skills about best special education practice in assessment and evaluation, and IEP and program planning for those preparing to teach K-12 students with disabilities in the adapted curriculum. Note: Field experience required. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 534: *Communication and Severe Disabilities.* 3 credits.
Introduces professionals to augmentative and alternative communication (AAC) for individuals with severe speech and language impairments. Addresses the knowledge and skills needed to assess the potential AAC user, make team decisions, develop and implement instruction, and evaluate the effects of instruction, aimed at motivating, building, and expanding communication, choice-making, and social interaction. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 540: *Characteristics of Students with Disabilities who Access the General Curriculum.* 3 credits.
Examines the characteristics of students with mild disabilities. Focuses on etiology, contributing factors, conditions that affect learning, the challenges of identifying students with disabilities, and the need for academic, social, and emotional accommodations and support. Notes: Field experience required. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 544: *Adapted Instructional Methods and Transition for Secondary Learners.* 3 credits.
Provides strategies for teaching functional academics and social/life skills, facilitating the transition to postsecondary environments. Focuses on all aspects of transition and alternative assessments for secondary learners with disabilities. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 547: *Characteristics of Students with Severe Disabilities.* 3 credits.
Examines the academic, social, medical, and behavioral characteristics of individuals with severe disabilities such as intellectual disability, autism, traumatic brain injury, and severe/multiple cognitive, physical and/or sensory disabilities. Focuses on etiology, contributing factors, impact on life and family, the challenges of identifying students with disabilities, and the need for intensive instruction, accommodations, and support. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 557: *Foundations of Language and Literacy for Diverse Learners.* 3 credits.
Examines the complexity of language acquisition and literacy development. Focuses on typical and atypical language development, connections between language and literacy, and diversity of communication styles in families and cultures. Emphasizes first and second language acquisition. Notes: Field Experience required Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 562: *Foundations of Reading Instruction for Students with Specific Learning Disabilities.* 3 credits.
Examines the characteristics of students with specific learning disabilities who demonstrate severe deficits in reading and written language. Addresses language development from an anatomical, physiological, and social perspective. Provides essential knowledge in language development. Examines the legislation that addresses the

rights of students with disabilities. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 563: *Language Structure and Literacy Development for Students with Specific Learning Disabilities.* 3 credits.
Examines the components of the English language, including language processing requirements, integrated with the development of literacy skills. Analyzes language and literacy performance and the variability of language learning in students with specific learning disabilities. Explores environmental, social, and cultural factors, including the impact of second language learning and dual-identification. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: EDSE 562[B-].
[B-] Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 564: *Phonology, Phonics, and Fluency for Students with Specific Learning Disabilities.* 3 credits.
Evaluates phonology, phonics, and fluency skills of students with specific learning disabilities using formal and informal measures. Designs instruction to meet the needs of students with learning disabilities who have deficits in these areas. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: EDSE 563[B-].
[B-] Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 565: *Vocabulary, Comprehension, and Written Expression for Students with Specific Learning Disabilities.* 3 credits.
Evaluates vocabulary, text comprehension, and written expression skills of students with specific learning disabilities using formal and informal measures. Designs instruction to meet the needs of students with learning disabilities who have deficits in these areas. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: EDSE 564[*B-].
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 567: *Practicum for Specialized Reading Instruction for Students with Specific Learning Disabilities.* 3 credits.
Demonstrate competencies for implementing intensive, data-based interventions to students with specific learning disabilities who have severe deficits in reading and writing. Administer and analyze assessments and design interventions for phonics, fluency, word recognition, text comprehension and written expression. Monitor student progress and modify instruction as needed. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: EDSE 565[B-].
[B-] Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

EDSE 590: *Special Education Research.* 3 credits.
Describes fundamental concepts and practices in educational research in special education. Covers specific applications of educational research methods to problems in special education. Emphasizes review and critique of special education research, and applied classroom research for teachers. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 597: *Special Topics in Education.* 1-6 credits.
Provides advanced study on selected topic or emerging issue in Special Education. Offered by School of Education. May be repeated within the degree for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Admission to program in Graduate School of Education

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

EDSE 613: *Teaching Methods for Students with Visual Impairments.* 3 credits.
Emphasizes methods of teaching compensatory skills, the core curriculum, and technology for use by students who are blind and visually impaired. Addresses curriculum development, adaptations, and teaching methodology for individuals with visual impairments. Provides information on adaptations within various educational programs and adaptation of general education classroom materials and procedures for use with blind and low vision children and youth. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: EDSE 511. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 616: *Braille Reading and Writing.* 3 credits.
Provides instruction on transcription of advanced braille codes, including mathematics (Unified English Braille (UEB) and Nemeth), music, foreign language, and other specialized codes. Introduces techniques for teaching skills in each code. Explores technology tools used to create braille and tactile materials in addition to other assistive technologies used for instruction in science, technology, engineering, and mathematics (STEM) content. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (EDSE 311[C], 311[XS], 511[B-] or 511[XS]) and (EDSE 412[C], 412[XS], 512[B-] or 512[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.
[B-] Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 619: *Principles and Procedures of Behavior Analysis.* 3 credits.
Focuses on basic procedures of applied behavior analysis; identification of factors that contribute to behavioral problems and improved performance; and procedures that can be used to minimize behavioral problems, improve performance, teach new behaviors, and increase probability of behaviors occurring under appropriate circumstances. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: Admission to Applied Behavior Analysis Graduate Certificate Program (ABAC).

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 620: *Supporting the Behavior and Sensory Needs of Individuals with Autism.* 3 credits.
Describes the behavior and sensory development of individuals with autism spectrum disorder across their lifespans. Analyzes the principles of behavior management and the evidence and research-based interventions that have been proven to be effective with individuals with autism and sensory needs. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 621: *Applied Behavior Analysis: Empirical Bases.* 3 credits.
Focuses on measurement, data display, data interpretation, and experimental design in applied behavior analysis. Prepares candidates to design and use data collection systems, apply data-based decision making, and appropriately deploy single-subject experimental designs in applied situations. Enables candidates to become informed consumers of behavior analytic research. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: EDSE 619[*B-] or 619[*XS].
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 622: *Philosophical and Conceptual Issues in Behavior Analysis.* 3 credits.
Focuses on basic principles and philosophies of behavior analysis. Identifies historical contributions to modern behavior analysis and identifies seminal individuals who have made an outstanding contribution to behavior analysis. Describes tenets of radical behaviorism. Emphasizes vocabulary and basic research that contributes to a modern understanding of behavioral principles. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: EDSE 619[*B-] or 619[*XS].
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 623: *Applied Behavior Analysis: Assessments and Interventions.* 3 credits.
Expands on basic content of applied behavior analysis and teaches how to implement behavioral procedures and develop behavioral programs for clients with fundamental behavioral needs. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: EDSE 619[B-] or 619[XS].
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 624: *Applied Behavior Analysis: Applications.* 3 credits.
Develops capability to deal with more complex behavioral situations, enabling ability to relate to more sophisticated professional issues and environments. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: EDSE 619[B-] or 619[XS].
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 625: *Applied Behavior Analysis: Verbal Behavior.* 3 credits.
Expands students' abilities to deal with more complex behavioral situations and enables students to relate to more sophisticated professional issues and environments. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: EDSE 619[B-] or 619[XS].
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 627: *Assessment.* 3 credits.
Offers knowledge and experiential learning activities related to assessment of students with mild disabilities. Includes statistical and

psychometric concepts in assessment. Addresses norm-referenced, criterion-referenced, curriculum-based, and informal assessment for instructional and placement decisions. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 628: *Elementary Reading, Curriculum, Strategies for Students Who Access the General Education Curriculum.* 3 credits.
Applies research on instructional approaches in elementary curriculum for individuals with disabilities accessing general education curriculum. Includes curriculum and instructional strategies in reading, language arts, mathematics, science, social studies; cognitive strategies in study skills; attention and memory; and peer-mediated instruction. Note: Field experience required. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 629: *Secondary Curriculum and Strategies for Students with Disabilities who Access the General Curriculum.* 3 credits.
Applies research on teacher effectiveness, accountability, and instructional approaches at the secondary level for individuals with mild disabilities. Includes instructional methods necessary for teaching reading, writing, math, and other content areas across the curriculum. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 634: *Characteristics of Individuals with Autism.* 3 credits.
Describes the varying characteristics of individuals with autism spectrum disorders across their lifespans including, (a) diagnosis, (b) early childhood, (c) school-age, (d) transition, (e) employment, and (f) aging. Examines definitions, eligibility criteria, incidence rates, and etiology of autism spectrum disorders. Analyzes perspectives from students, families, educational, community, and career personnel. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 635: *Interventions for Individuals with Autism.* 3 credits.
Analyzes evidence and research-based interventions for individuals with autism in a variety of domains across their lifespans including academic, communication, social, and behavioral. Evaluates methods for prioritizing intervention needs for individuals with autism across their lifespans, developing appropriate interventions to address those needs, and measuring the impact of interventions in a variety of service delivery models. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: EDSE 634. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 636: *Supporting Communication and Literacy for Individuals with Autism.* 3 credits.
Surveys the characteristics of communication and literacy, as well as the design and implementation of communication systems for individuals with autism spectrum disorder across their lifespans. Explains methods for assessment, identification of priorities, and monitoring progress of communication and literacy instruction in order to improve behavior, academic skills, and social interactions in various environments. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 637: *Autism Across the Lifespan: Collaboration with Critical Partners.* 3 credits.
Examines characteristics, milestones, critical issues, and areas of need for individuals with autism spectrum disorder across their lifespans. Prioritizes key features of effective collaboration and partnership. Utilizes a strengths-based problem solving perspective to frame collaboration

and partnership for individuals with autism spectrum disorder across their lifespans and simulates partnership practices with a variety of stakeholders across the lifespan of an individual with autism spectrum disorder. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 641: *Instructional Strategies for Reading and Writing.* 3 credits.
Integrates knowledge of language assessments and the components of quality reading instruction to plan well-sequenced and explicit instruction for students with disabilities in the general education curriculum. Examines objectives that align with curriculum standards while still providing individualization. Implements and applies reading and writing instruction to support learning in all content areas. Field experience required. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: EDSE 503 or EDSE 341

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 643: *Instructional Strategies for Math.* 3 credits.
Integrates foundational knowledge of numeracy acquisition, mathematical concepts, mathematical thinking, mathematics vocabulary, calculation, and problem-solving to plan well-sequenced and explicit math instruction for students with disabilities in the general education curriculum. Examines objectives that align with the general education curriculum Virginia Standards of Learning in mathematics at the elementary, middle, and secondary levels while still providing individualization. Field experience required. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 661: *Curriculum and Methods: Severe Disabilities.* 3 credits.
Focuses on current best practices in curriculum, and methods for students with severe disabilities, including specific strategies for teaching students with severe disabilities, general strategies for working with heterogeneous groups of students in inclusive settings, and methods for adapting the general education curriculum to include students with severe disabilities. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 662: *Consultation and Collaboration.* 3 credits.
Provides professionals in special education, regular education, and related fields with knowledge and communication skills necessary for collaborative consultation and technical assistance to other educators and service providers. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: Teaching licensure or enrollment in a graduate degree program in education.

Registration Restrictions:
Enrollment limited to students with a class of Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 663: *Collaborative Teamwork to Support Students with Significant Disabilities.* 3 credits.
Focuses on models of teamwork, group decision making, team process, leadership and communication and how they influence services for individuals with significant disabilities and their families. Provides an understanding of collaborative structures and demonstrates knowledge of skills and strategies to maintain effective relationships with a variety of stakeholders in collaborative settings. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 664: *Ethical and Professional Conduct for Behavior Analysis.* 3 credits.
Provides a basis in Virginia Behavior Analyst Licensure law, the Behavior Analyst Certification Board Guidelines for Responsible Conduct and Disciplinary Standards, and professional conduct consistent with the practice of applied behavior analysis. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: EDSE 619[B-] or 619[XS].
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 669: *Individualized Supports and Specialized Care of Students with Severe Disabilities.* 3 credits.
Focuses on the unique physical, sensory, communication, and health and medical needs of students with severe disabilities. Examines how these needs impact the educational program, how special education and related services are delivered, and how to design academic, functional and behavioral instruction and adaptations to meet those needs. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

EDSE 701: *Legal Issues and Special Populations.* 3 credits.
Studies the impact of legislation and litigation on the education of special populations emphasizing IDEA and Section 504. Covers emerging trends in special education based on interpretation of landmark court cases related to disability, legal updates on policies and procedures for exceptional learners, and discussion of the guiding principles of special education law when addressing the needs of special populations. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 743: *Leadership in Special Education Administration.* 3 credits.
Examines leadership issues and applies them to the administration of special education programs. Explores current challenges in the delivery of services for exceptional children through case studies and projects. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 744: *Current Issues in Special Education.* 3 credits.
Helps students develop an understanding of the role of convergent research evidence in addressing current issues in special education practice and policy. Familiarizes students with current issues in special education and the group experimental, single subject, and qualitative research designs used to address these current issues. Students evaluate research studies in terms of their methodological strengths and weaknesses and their part in providing convergent bodies of evidence that can be used for defining practice and policy. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 783: *Internship: Special Education in General Curriculum.* 3-6 credits.
Applies, in supervised internships, university course work in General Curriculum to instruction of children and their families in school settings. Notes: Demonstration that RVE, VCLA, Praxis Entry, and other program-specific requirements have been met;application for internship on file by program deadline. Offered by School of Education. May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in General Curriculum (K-12) or Students W/Dis Access Gen Curr.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Education Human Development college.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

EDSE 784: *Internship: Adapted Curriculum.* 3-6 credits.
Applies, in supervised internships, university course work in Adapted Curriculum to instruction of children and their families in school settings. Offered by School of Education. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: VCLA, Praxis Core, and other program specific requirements have been met; application for internship on file by program deadline.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Adapted Curriculum (K-12) or Students W/Dis Access Adp Curr.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Graduate Certificate degree.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

EDSE 785: *Internship: Visual Impairment.* 2-6 credits.
Applies, in supervised internships, university coursework in Visual Impairment to instruction of children and their families in school settings. Offered by School of Education. May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: EDSE 311, 411 or 511; EDSE 412 or 512; EDSE 413 or 513. Demonstration that VCLA, Praxis Core, and other program specific requirements have been met; application for internship on file by program deadline.

Registration Restrictions:
Enrollment is limited to students with a major in Visual Impairments Lic PK-12.

Enrollment is limited to Graduate or Non-Degree level students.

Enrollment limited to students in a Graduate Certificate degree.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

EDSE 794: *Special Topics.* 1-6 credits.
Advanced study of selected topics in education for students preparing for doctoral studies or who have been admitted to the PhD program in education. Offered by School of Education. May be repeated within the degree.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 795: *Standard Applied Behavior Analysis Practicum.* 3 credits.
Meets standard practicum supervision requirements by the BACB to provide hands-on experience designing, implementing, and evaluating behavior analytic procedures under the supervision of a Board Certified Behavior Analyst. Notes: This Applied Behavior Analysis Practicum follows the experience guidelines of the Behavior Analysis Certification Board (www.BACB.com) Offered by School of Education. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: EDSE 619 or PSYC 619 or permission by the instructor

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

EDSE 799: *Intensive Applied Behavior Analysis Practicum.* 6 credits.
Meets intensive practicum supervision requirements by the BACB to provide hands-on experience designing, implementing, and evaluating behavior analytic procedures under the supervision of a Board Certified Behavior Analyst. Notes: This Applied Behavior Analysis Practicum follows the experience guidelines of the Behavior Analysis Certification Board (www.BACB.com). Offered by School of Education. May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: EDSE 619 or PSYC 619 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

EDSE 841: *Evaluating Intervention Research.* 3 credits.
Provides opportunities for in-depth study, analysis, and discussion of original intervention research in special education with students with disabilities or other at-risk populations. Emphasizes analyzing research methodology, coding original intervention research, analyzing results, synthesizing findings, formulating future research questions relevant to special populations, and gaining an understanding of the submission process for conferences and publications. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

EDSE 842: *Application of Research Standards for Individuals with Disabilities.* 3 credits.
Provides knowledge and skills in the application of research standards across different methods for conducting survey research, single-subject, experimental and correlational research, mixed methods, and qualitative research. Emphasizes application to disability-related research across different contexts. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

EDSE 843: *Leading Change in Special Education and Disability Policy.* 3 credits.
Examines leadership issues among varied stakeholders within the special education field including leaders in PK-12, higher education, government agencies, and special interest groups. Explores current challenges and opportunities in the effort to support and promote appropriate services for individuals with disabilities through case studies and projects. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

EDSE 844: *Current Issues in Special Education.* 3 credits.
Develops understanding of the role of convergent research evidence in addressing current issues in special education practice and policy. Describes current issues in special education and the group experimental, single subject, and qualitative research designs used to address these current issues. Students evaluate research studies in terms of methodological strengths and weaknesses, and their part in providing convergent bodies of evidence that can be used for defining practice and policy. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

EDSE 845: *Personnel Preparation Programs in Special Education.* 3 credits.
Provides an in-depth study, analysis, and discussion of personnel preparation programs in special education including: scope and sequence of teacher preparation programs as they align with state and national teacher licensure standards, bodies of accreditation, syllabi development, delivery models, and frameworks for curriculum design; teacher evaluation; and how policies, research, and issues of accountability can transform teacher preparation programs. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 846: *Assessment, Evaluation, and Instrumentation in Special Education Research.* 3 credits.
Provides in-depth study, analysis and discussion of the past, present and future directions of assessment, evaluation, and instrumentation research in special education. Emphasizes reliability and validity of the research instruments, evaluating research methodology, analyzing results, synthesizing findings with respect to present assessment and evaluation policies; formulating future research questions relevant to assessment and evaluation of individuals with disabilities. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 847: *Policy-driven Initiatives in Special Education and Disability Research.* 3 credits.
Addresses contemporary initiatives in special education and disability research: those introductory and leading actions intended to implement positive change, that can be promoted by federal agencies, professional or advocacy organizations. Focuses on understanding of policy-driven special education initiatives in special education and disability research through evaluation and analysis. Discusses and studies background, relevant legislative history, existing empirical evidence, and designing future research addressing contemporary initiatives. Offered by School of Education. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

EDSE 885: *Writing Grants.* 3 credits.
Focuses on identification of funding sources, description of grant components, and development of grant budgets. Includes independent writing of an entire small grant, a significant portion of a large grant, and participation in grant peer-review process. Offered by School of Education. May not be repeated for credit.

Recommended Prerequisite: EDRS 811 or EDRS 812.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Sport Management (SPMT)

100 Level Courses

SPMT 100: *Current Events in Sport Business.* 1 credit.
Engages students in a discussion about recent developments in the sport industry, using the Sport Business Journal to stimulate the discussion as well as provide the student with current information about this rapidly changing industry. There will be two field trips conducted as part of this class. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 110: *Basketball Officiating.* 1 credit.
Teaches the fundamentals of officiating basketball including a thorough discussion of each of the rules as well as instruction of two person mechanics. Provides opportunity to become a certified Virginia High School League (VHSL) official. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 111: *Football Officiating.* 1 credit.
Teaches the fundamentals of officiating football including a thorough discussion of each of the rules as well as instruction of crew mechanics. Provides opportunity of becoming a certified Virginia High School League (VHSL) official. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 112: *Soccer Officiating.* 1 credit.
Teaches the fundamentals of officiating soccer including a thorough discussion of each of the rules as well as instruction of crew mechanics. Provides opportunity of becoming a certified Virginia High School League (VHSL) official. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

SPMT 201: *Introduction to Sport Management.* 3 credits.
Introduces sport management profession. Primary focus is on sport industry, including professional sport entertainment, amateur sport entertainment, for-profit sport participation, nonprofit sport participation, sporting goods, and sport services. Notes: Open to non majors. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 202: *Mental Skills for Sport Performance.* 2 credits.
Introduces mental skills training for sport performance used within the field of sport and exercise psychology. Demonstrates mental practice techniques to be practiced and assessed. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 210: *Foundations of Sport Coaching.* 3 credits.
Introduction to the scientific bases for coaching sports and the process of coaching athletes. It includes the development of an individual coaching philosophy and the application of scientific training in the psychological, physiological, pedagogical and managerial bases of sport coaching. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 241: *Practicum.* 3 credits.
Provides a minimum of 120 hours of introductory supervised professional fieldwork experience in an approved sport management setting for 10 to 14 weeks (10 weeks maximum for the Summer term) under the supervision of a practicum Faculty Supervisor and Site Supervisor. Includes meetings and assignments before, during, and after the practicum. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: SPMT 201 and SPMT concentration students only

Registration Restrictions:
Required Prerequisites: SPMT 201[D], 201[XS] or 201[XP].
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Enrollment is limited to students with a concentration in Sport Management.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Special scale.

300 Level Courses

SPMT 302: *Philosophical and Ethical Dimensions of Sport.* 3 credits.
Investigates moral issues in sport and judgments about right and wrong behavior among athletes, coaches, spectators, and others. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 304: *Sport, Culture, and Society.* 3 credits.
Analyzes sport from educational, political, economic, and cultural perspectives. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 307: *Sport Diplomacy.* 3 credits.
Introduces the use of sport as a public diplomacy tool, including the interrelationships among conflict, collaboration, sport, organizations, and diplomacy. Offered by School of Sport/Rec/Tour Mgmt. Limited to two attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 318: *Diversity and Inclusion Issues in Sport.* 3 credits.
Focuses on sport participant and employee diversity and inclusive practices; and how differences based on religion disability, socioeconomic class, sex, gender, sexual orientation and racial hierarchies impacts historical and current sport experiences and outcomes. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 320: *Psychology of Sport.* 3 credits.
Psychological theories of personality, motivation, and anxiety explored in sport environment. Examines social-psychological research on audience effects, team cohesion, leadership, and fan behavior. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 321: *America Through Baseball.* 3 credits.
This course is designed for the student to gain an understanding of the past and present role of baseball in American culture. The course focuses on the development of professional baseball over the past 160 years and the ways in which the history of America as a nation and culture can be "read" through baseball. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 322: *Football and American Culture.* 3 credits.
Designed for the student to gain an understanding of the past and present role of football in American culture. Focuses on the development of college, professional and high school football over the past 120 years and contemporary issues in football culture are analyzed such as debates over racial symbols and mascots, the question of professionalizing division one college football, and tailgating and televisual football cultures. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 323: *America and the Modern Olympics.* 3 credits.
This course is designed to provide students an understanding of the role played by the United States in the modern Olympic movement. The primary focus is on the United States relationship with the modern Olympics from the earliest days of the games up through the Cold War period and beyond. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 341: *Field Experience in Sport Coaching.* 3 credits.
Provides application of the scientific bases for coaching sports and the process of coaching athletes. Includes paid or voluntary experience in a sport-specific setting. A minimum 120 clock hours is required within the time frame of the course. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: SPMT 210, or permission of instructor. Open to minors only.

Registration Restrictions:
Required Prerequisites: SPMT 210[C] or 210[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Coaching.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Special scale.

400 Level Courses

SPMT 405: *Sport Venues and Events.* 3 credits.
Principles and techniques of event planning and operations in sport facilities and venues. Emphasizes principles and concepts of organization and administration including communication, personnel management, management of physical resources, and risk management. Examines a variety of sport events and venues such as indoor stadiums, athletic field complexes, and managing recreation and intramural activities. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: Completion of 60 hours.

Registration Restrictions:
Required Prerequisites: SPMT 201[D], 201[XP] or 201[XS].
[D] Requires minimum grade of D.
[XP] Requires minimum grade of XP.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 412: *Sport Marketing and Sales.* 3 credits.
Investigates principles and processes in sport marketing and finance. Focuses on research and development, sport promotion, sport sponsorship, advertising, merchandising, and distribution of sporting goods. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: 60 hours.

Registration Restrictions:
Required Prerequisites: SPMT 201[D], 201[XP] or 201[XS].
[D] Requires minimum grade of D.
[XP] Requires minimum grade of XP.

XS Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 420: *Economics and Finance in the Sport Industry.* 3 credits.
Examines the principles of economics, budgeting, and finance as it applies to the sport industry. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: Completion of 60 hours.

Registration Restrictions:
Required Prerequisites: SPMT 201D, 201XS or 201XP.
D Requires minimum grade of D.
XS Requires minimum grade of XS.
XP Requires minimum grade of XP.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 425: *Sport Analytics.* 3 credits.
Discusses theories and concepts in sport analytics. Topics cover player performance, player management, sports data strategies, team management, and game day operations and strategies. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (SPMT 201C or 201XS) and (STAT 250C, 250XS, BUS 210C or 210XS).
C Requires minimum grade of C.
XS Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 430: *Sport Communication.* 3 credits.
Provides a senior-level exploration of the role of sport communication in contemporary cultures. Readings and discussions address questions about how communication about/in sports highlights the importance of sports, the cultural identities of those who engage in sport communication, and the pervasiveness of sport communication practices in industry. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: General COMM course.

Registration Restrictions:
Required Prerequisites: SPMT 201D, 201XP or 201XS.
D Requires minimum grade of D.
XP Requires minimum grade of XP.
XS Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 440: *Global Perspectives in Sport.* 3 credits.
An interdisciplinary examination of sport as a global phenomenon. Historical, cultural, economic, and governance perspectives are considered. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: 60 hours.

Registration Restrictions:
Required Prerequisites: SPMT 201D, 201XS or 201XP.
D Requires minimum grade of D.
XS Requires minimum grade of XS.
XP Requires minimum grade of XP.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 455: *Governance and Policy in Sport Organizations.* 3 credits.
Examines sport organizations focused on both professional and amateur governance structures and processes. The study of policy in educational, nonprofit, and professional sport venues is also addressed. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: Completion of 60 hours.

Registration Restrictions:
Required Prerequisites: SPMT 201D, 201XS or 201XP.
D Requires minimum grade of D.
XS Requires minimum grade of XS.
XP Requires minimum grade of XP.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 462: *Sport Business Law.* 3 credits.
Students in this course will receive instruction in the major areas of the law that impacts the sport industry. Students will also see how knowledge of sport law can make them better sport managers. There will be an introduction to the legal system in the United States and then we will see how the law has shaped the management of sport organizations and the playing and staging of the games. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: 60 credits.

Registration Restrictions:
Required Prerequisites: SPMT 201D, 201XS or 201XP.
D Requires minimum grade of D.
XS Requires minimum grade of XS.
XP Requires minimum grade of XP.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 470: *Strategic Management and Leadership in Sport Organizations.* 3 credits.
Provides a foundation in organizational studies. It addresses the theoretical underpinnings and applications of leadership, It examines strategic planning processes and management within sport

organizations. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: 60 hours.

Registration Restrictions:
Required Prerequisites: SPMT 201[D], 201[XP] or 201[XS].
[D] Requires minimum grade of D.
[XP] Requires minimum grade of XP.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 475: *Sport Management Professional Development Seminar.* 3 credits.
This is a seminar format in which students synthesize and apply theories, concepts, and practices in the leadership and management of sport organizations. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: 75 hours.

Registration Restrictions:
Required Prerequisites: SPMT 241[D], 241[XS] or 241[XP].
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Enrollment is limited to students with a concentration in Sport Management.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 480: *Special Topics in Sport Management.* 3 credits.
Selected topics reflecting interest in specialized areas of sport management announced in advance. Offered by School of Sport/Rec/Tour Mgmt. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SPMT 490: *Internship.* 12 credits.
Paid or voluntary work experience in sport industry settings. Requires minimum period of 10 to 12 weeks of full-time employment. Applies course work, theories, and research to work settings. Work sites chosen by students after approval of faculty supervisors. Includes meetings and assignments before and during the internship. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Mason Core: Capstone

Recommended Prerequisite: SPMT 475 and completion of 90 credits.

Registration Restrictions:
Required Prerequisites: SPMT 241[C] or 241[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a concentration in Sport Management.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

SPMT 499: *Independent Study.* 1-3 credits.
Faculty-directed independent study of approved topics in sport management. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

SPMT 551: *Sport in the Global Marketplace.* 3 credits.
Explores sport business internationally including the production and consumption of professional and Olympic-linked sports and the impact of globalization on sport. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPMT 555: *The Australian Model of Sport.* 3 credits.
Examines the Australian model of sport which has been adopted in many countries. Analyzes government sport policy and the organization and administration of Australian professional sports. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Recommended Prerequisite: SPMT 551.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPMT 556: *The Global Soccer Industry.* 3 credits.
Explores the international soccer industry focusing on major professional leagues, international federations, international movement of players,

the production of soccer equipment, legal and social issues. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Recommended Prerequisite: SPMT 551.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

SPMT 611: *Sport Marketing and Sales.* 3 credits.
Investigates principles and processes in sport marketing. Focuses on research and development, sport promotion, sport sponsorship, advertising, merchandising, and distribution of sporting goods. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPMT 612: *Economics and Financial Management in the Sport Industry.* 3 credits.
Examines principles of economics, budgeting, and finance as they apply to the sport industry. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPMT 613: *Strategic Leadership in Sport Organizations.* 3 credits.
Examines the theoretical underpinnings and effective strategic processes of leadership in sport organizations. Leader behaviors, characteristics, situational influences, and the cognitive dimensions of leadership will be explored within the organizational context. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPMT 614: *Legal Issues in Sport.* 3 credits.
Examines legal issues as they apply to the sports industry. Course content includes, but is not limited to: tort law, risk management procedures, product liability, constitutional/contract/administrative/statutory law, crowd control/security, personal/professional values, and situational analysis. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPMT 616: *Sport Operations, Venues, and Event Management.* 3 credits.
Examines administrative functions and operations, strategic planning, governance structures, policy development, and effective practices in the strategic management of sport programs, including managerial principles for venues and events. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPMT 618: *Psychology of Coaching.* 3 credits.
Presents a psychological foundation for sport coaching. Basic tenets of the psychology of individual and group behavior will include motivation, stress, communication, group cohesion/dynamics, leadership, reinforcement, and feedback as they relate to the context of sport coaching. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPMT 620: *Ethical Issues in Global Sport.* 3 credits.
Investigates moral issues in sport, and judgments about right and wrong behavior among organizations, athletes, coaches, spectators, and others at the global level. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPMT 631: *Theoretical Models of Sport Coaching.* 3 credits.
Examines the scientific bases for coaching athletes. Emphasizes philosophical underpinnings and theoretical foundations in the psychological, physiological, pedagogical, and managerial bases of sport coaching. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPMT 651: *Sport and International Development.* 3 credits.
Explores the roles of sport in international development with focus on Africa, Asia, and Latin America. Non-governmental organizations (NGOs), international federations, professional leagues and grassroots initiatives will be examined. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Recommended Prerequisite: SPMT 551.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SPMT 652: *Governance and Policy in International Sport.* 3 credits.
Explores sport governance and policy in the international context with focus on international federations, professional leagues and comparative analyses of governmental sporting policies. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Recommended Prerequisite: SPMT 551.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Sports and Recreation Studies (SRST)

200 Level Courses

SRST 200: *History of Sport and Leisure in America.* 3 credits.
Traces the history of sport and leisure in America. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

SRST 360: *Sport Based Youth Development.* 3 credits.
An interdisciplinary examination of current trends and issues in youth sport, with a focus on non-school based community programs. Emphasis is placed on the structural characteristics of sport and physical activity programs as they pertain to proper development of children and adolescents. Offered by School of Sport/Rec/Tour Mgmt. Limited to two attempts. Equivalent to PHED 360.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

SRST 450: *Research Methods.* 3 credits.
Covers the development of empirical research designs for both practical and theoretical problems in health, fitness, and recreation resources management. Includes literature review of hypothesized relationships,

and formulation of research proposals. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: 60 credits.

Registration Restrictions:
Required Prerequisites: STAT 250[C], 250[XS], DESC 210[C], OM 210[C] or IT 250[C].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

SRST 595: *Thesis Preparation.* 2 credits.
Provides a basic overview and working knowledge of the procedures to be used towards completion of the thesis. With competencies gained in previous sport and recreation studies courses, the student will begin to form the criteria, considered evidence, and judgment towards a research topic for SRST 799. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

SRST 598: *Special Topics.* 1-6 credits.
Focuses on projects related to sport and/or recreation studies. Offered by School of Sport/Rec/Tour Mgmt. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SRST 599: *Independent Study in Sport and Recreation Studies.* 1-3 credits.
Studies problem area in sport and recreation studies research, theory, or practice under direction of faculty member. Notes: Students engage in one-on-one or seminar independent study with an SRST faculty member. The faculty member may be the student's thesis or project supervisor. While SRST 599 is repeatable, 3 credit hours must be designated for Preparation of Thesis or Project Proposal. Offered by School of Sport/Rec/Tour Mgmt. May be repeated within the degree for a maximum 3 credits.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale.

600 Level Courses

SRST 606: *Foundations of Sport and Recreation Studies.* 3 credits.
Examines the historical development of the Sport and Recreation Studies fields. Explores the interconnection between these phenomena in the context of the social, cultural and economic forces shaping American and global societies. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to English Language, Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SRST 623: *Research Design and Statistical Reasoning.* 3 credits.
Introduces basic principles of scientific and scholarly inquiry in Sport and Recreation Studies. Explores the logic and practice of methods and techniques employed in research related to sport and recreation. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

SRST 796: *Seminar in Sport and Recreation Studies.* 1 credit.
Scholarly forum for the presentation and discussion of contemporary topics in sport and recreation studies. Graduate students, faculty, and visiting scholars/practitioners share ongoing research and practical applications. Offered by School of Sport/Rec/Tour Mgmt. May not be repeated for credit.

Recommended Prerequisite: All other coursework with the exception of concurrent capstone.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

SRST 798: *Master's Project/Internship.* 1-6 credits.
Offers capstone experience to enable students to demonstrate their integrative knowledge and skills accrued through study in their concentration area within Sport and Recreation Studies. Offered by

School of Sport/Rec/Tour Mgmt. May be repeated within the degree for a maximum 6 credits.

Recommended Corequisite: SRST 796.

Registration Restrictions:
Required Prerequisites: (SRST 623[B-] or 623[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

SRST 799: *Master's Thesis.* 1-6 credits.
Explores sport and recreation problem using appropriate research methodology and under supervision of graduate faculty member. Offered by School of Sport/Rec/Tour Mgmt. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: (SRST 623[B-] or 623[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

Statistics (STAT)

200 Level Courses

STAT 250: *Introductory Statistics I.* 3 credits.
Elementary introduction to statistics with applications to all fields of study. Topics include data analysis for one and two variables, probability, estimation and hypothesis testing for proportions and means, correlation, and regression. Statistical software used for assignments. Required course for the Digital Technology Credential (https://statistics.preprod.gmu.edu/digital-technology-credential). Offered by Statistics. Limited to three attempts.

Mason Core: Quantitative Reasoning

Recommended Prerequisite: High school algebra.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 260: *Introduction to Statistical Practice I.* 3 credits.
Data-oriented introduction to fundamental concepts and methods of applied statistics. Topics include: exploratory data analysis; sampling and principles of experimental design; sampling distributions; confidence intervals and tests for one and two sample means and proportions; analysis of contingency tables; simple linear regression; and correlation. Extensive use of statistical software. Intended primarily for students in the Statistics Bachelor's program. Offered by Statistics. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MATH 113[*C], 113[*XS], 115[*C], 115[*XS], 124[*C] or 124[*XS].
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

STAT 334: *Introduction to Probability Models and Simulation.* 3 credits.
Introduction to basic probability and principles of simulation. Emphasis is placed on formulation of models and simulation applications to statistical methodology. Topics include: basic probability rules. counting methods, discrete and continuous probability spaces, independence, conditional probability, expectation, variance, and limit theorems. Distributions covered include the binomial, hypergeometric, Poisson, normal, Gamma, Beta, multinomial, and bivariate normal. Intended primarily for students in the Statistics Bachelor's program. Offered by Statistics. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (STAT 260[C] or 260[XS]) and (MATH 114[C], 114[XS], 116[C] or 116[XS]) and (STAT 362[*C] or 362[*XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 344: *Probability and Statistics for Engineers and Scientists I.* 3 credits.
Introduction to probability and statistics with applications to computer science, engineering, operations research, and information technology. Basic concepts of probability, random variables and expectation, Bayes rule, bivariate distributions, sums of independent random variables, correlation and least squares estimation, central limit theorem, sampling distributions, confidence interval construction, and hypothesis testing for a single sample and two samples. Offered by Statistics. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 114[C], 114[XS] or 116[C]) or MATH 116[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

STAT 346: *Probability for Engineers.* 3 credits.
Introduction to probability with applications to electrical and computer engineering, operations research, information technology, and economics. Basic concepts of probability, conditional probability, random variables and moments, specific probability distributions, multivariate distributions, moment-generating functions, limit theorems, and sampling distributions. Offered by Statistics. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 213[C], 213[XS], 215[C] or 215[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 350: *Introductory Statistics II.* 3 credits.
Further examination of statistics and data analysis with an emphasis on applications. Inference for comparing multiple samples, experimental design, analysis of variance and post-hoc tests. Simple linear, multiple and logistic regression. Analysis of contingency tables and categorical data. A statistical computer package is used for data analysis. Offered by Statistics. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 250[C], 250[XS], 260[C] or 260[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 354: *Probability and Statistics for Engineers and Scientists II.* 3 credits.
Multivariate probability distributions, variable transformations, properties of estimators, inference on means, variances, and proportions for two samples, contingency tables, goodness-of-fit test, nonparametric tests, simple linear regression, multiple linear regression, logistic regression, ANOVA, basic experimental design, basic resampling methods such as the bootstrap. Offered by Statistics. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (STAT 334[C] or 334[XS]) or STAT 344[C], L344 or 344[XS] or ((STAT 346[C] or 346[XS]) and (STAT 362[C] or 362[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 356: *Statistical Theory.* 3 credits.
Introduction to the mathematical theory of statistical inference, emphasizing inference for standard parametric families of distributions. Topics include: properties of estimators; Bayes and maximum likelihood estimation; sufficient statistics; properties of test of hypotheses; most powerful and likelihood-ratio tests; and distribution theory for common statistics based on normal distributions. Offered by Statistics. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 346[C], 346[XS], MATH 351[C] or 351[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 360: *Introduction to Statistical Practice II.* 3 credits.
Continued study of the process, concepts, and methods of statistical investigations with the communication of statistical results being emphasized. Topics in the course will include: chi-square procedures, an introduction to the design and analysis of experiments, ANOVA, simple linear and multiple regression, nonparametric methods and basic resampling methods such as bootstrap. Statistical software will be used extensively throughout the course. Offered by Statistics. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (STAT 250[C], 250[XS], 260[C], 260[XS], BENG 241[C] or 241[XS]) and (MATH 114[*C], 114[XS], 116[*C] or 116[XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 362: *Introduction to Computer Statistical Packages.* 3 credits.
Use of computer packages in statistical analysis of data. Topics include data entry, checking, and manipulation, and use of computer statistical packages for graphical procedures, basic descriptive and inferential procedures, and regression. Offered by Statistics. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 250[C], 250[XS], 260[C], 260[XS], BUS 310[C], 310[XS], STAT 344[C], 344[XS] or L344.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

STAT 455: *Experimental Design.* 3 credits.
Introduces problems and techniques inherent in design of experiments, which refers to planning an experiment so that collected data can be analyzed by statistical methods. Covers the two aspects to any experimental problem: the design itself and the analysis of the resulting data. Examples from numerous disciplines in the sciences and the humanities are discussed. Data analysis is emphasized. Offered by Statistics. Limited to two attempts.

Recommended Corequisite: STAT 362

Registration Restrictions:
Required Prerequisites: (STAT 350[C] or 350[XS]) or (STAT 354[C] or 354[XS]) or (STAT 360[C] or 360[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 456: *Applied Regression Analysis.* 3 credits.
Introduces statistical modeling with a focus on regression. Topics include: Correlation, simple and multiple regression models, model fitting, variable selection, diagnostic tools, model validation, inference for regression parameters, and matrix forms for multiple regression. Additional topics covered include logistic regression and time series analysis with a focus on smoothing techniques and decomposition. A statistical software package is used extensively throughout the course. Offered by Statistics. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (STAT 350[C] or 350[XS]) or (STAT 354[C] or 354[XS]) or (STAT 360[C] or 360[XS]) or (BUS 310[C] or 310[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 460: *Introduction to Biostatistics.* 3 credits.
Focuses on biostatistical aspects of design and analysis of biomedical studies, including epidemiologic observational studies and randomized clinical trials. Topics include randomization principle, confounding, ethics in human experimentation, methods of randomization, stratification, primary outcome analyses, covariate-adjusted analyses, epidemiologic measures, and sample size and power computation. Offered by Statistics. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (STAT 350[C], 350[XS], 354[C], 354[XS], 360[C] or 360[XS]) and (STAT 362[*C] or 362[XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 462: *Applied Multivariate Statistics.* 3 credits.
Introduces a variety of multivariate statistical methods as aids to analyzing and interpreting large data sets. These methods will have general applications across a wide range of disciplines. Topics include: principal components analysis, cluster analysis, discriminant analysis, multi-dimensional scaling, correspondence analysis, and canonical correlation analysis. Extensive use of statistical software. Offered by Statistics. Limited to two attempts.

Recommended Corequisite: STAT 362

Registration Restrictions:
Required Prerequisites: (STAT 350[C] or 350[XS]) or (STAT 354[C] or 354[XS]) or (STAT 360[C] or 360[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 463: *Introduction to Exploratory Data Analysis.* 3 credits.
Features statistical graphics, maps and simple models used to bring out patterns in data. Introduces statistical software and addresses data access and import. Presents exploratory strategies motivating data transformations. Stresses the cognitive foundations of good graphics. Graphics include dot plots, box plots, Q-Q plots, parallel coordinate plots, scatterplot matrices and linked views. Exploration includes use of dynamic graphics. Offered by Statistics. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (STAT 350[C] or 350[XS]) or (STAT 354[C] or 354[XS]) or (STAT 360[C] or 360[XS]) or (BUS 310[C] or 310[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 465: *Nonparametric Statistics and Categorical Data Analysis.* 3 credits.
Introduction to nonparametric methods and categorical data analysis. Topics include: tests for one-sample, two-related samples, and two independent samples; concepts of nonparametric ANOVA; tests for proportions; chi-squared tests, log-linear models, and contingency tables; goodness-of-fit tests; correlation and association analysis; nonparametric regression including logistic and Poisson regression; and bootstrapping, jackknifing, and cross-validation. Notes: Students may not receive credit for both STAT 465 and STAT 525. Offered by Statistics. Limited to two attempts.

Recommended Corequisite: STAT 362

Registration Restrictions:
Required Prerequisites: (STAT 350[C] or 350[XS]) or (STAT 354[C] or 354[XS]) or (STAT 360[C] or 360[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 472: *Introduction to Statistical Learning.* 3 credits.
Tools for the analysis of massive data sets. Topics include: regression, classification trees, clustering, and support vector machines. Extensive use of statistical software. Applications to business, finance, biology, and other sciences and engineering. Offered by Statistics. Limited to two attempts.

Recommended Corequisite: STAT 362

Registration Restrictions:
Required Prerequisites: STAT 456[C] or 456[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 474: *Introduction to Survey Sampling.* 3 credits.
Introduction to design and analysis of sample surveys. Sample designs include simple random sampling; systematic sampling; and stratified, cluster, and multistage sampling. Analytical methods include sample size determination, ratio and regression estimation, imputation for missing data, and nonsampling error adjustment. Practical problems encountered in conducting a survey are discussed, such as questionnaire design. Methods applied to case studies of actual surveys. Class project may be required. Notes: Recommended for students of decision, information, social sciences, and mathematics. Offered by Statistics. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (STAT 350[C], 350[XS], 354[C], 354[XS], 360[C] or 360[XS]) and (STAT 362[*C] or 362[XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 489: *Pre-Capstone Professional Development.* 3 credits.
Develops skills in the areas of technical writing and oral communication. Students will develop a historical and ethical appreciation of the field of statistics as well as connect methods from their undergraduate coursework to solve problems. Students will work in small groups to develop a project proposal for STAT 490. Offered by Statistics. Limited to two attempts.

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: Recommended minimum of 75 undergraduate credits.

Registration Restrictions:
Required Prerequisites: (STAT 354[C], 354[XS], 360[C] or 360[XS]) and (STAT 362[C] or 362[XS]) and (ENGH 302[C] or 302[XS]) and (COMM 100[C], 100[XS], 101[C] or 101[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Enrollment is limited to students with a major in Statistics.

Enrollment limited to students in a Bachelor of Science degree.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 490: *Capstone in Statistics.* 3 credits.
Students will synthesize methods and ideas acquired in their undergraduate courses by working in small groups on a project and presenting their findings in a written report and an oral presentation. Offered by Statistics. Limited to two attempts.

Mason Core: Capstone

Registration Restrictions:
Required Prerequisites: STAT 489[C] or 489[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Statistics.

Enrollment limited to students in a Bachelor of Science degree.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 494: *Internship In Statistics.* 0-3 credits.
A supervised statistics-related experience working for a government agency, in the private sector or on approved summer research program. Based on input from the client, the student and faculty coordinator agree on the overall scope of the project including learning objectives, work plan, and expected outputs. Students will periodically inform the faculty coordinator of their status and, on completion of the internship, will document the experience with a comprehensive report or a departmental oral presentation. Offered by Statistics. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Completion of at least 60 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Statistics.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

STAT 498: *Independent Study in Statistics.* 1-3 credits.
Directed self-study of special topics of current interest in statistics. Notes: May be repeated if topics are substantially different. Offered by Statistics. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 60 hours. Must be arranged with a faculty member of the Statistics Department and approved by the department chair before registering.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

STAT 499: *Special Topics in Statistics.* 0-3 credits.
Topics of special interest to undergraduates. Notes: May be repeated if topics are substantially different. Offered by Statistics. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 60 undergraduate credits.

Registration Restrictions:
Washington Consortium level students may **not** enroll.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

STAT 500: *Special Topics.* 0-4 credits.
Select contemporary topics in Engineering and Computing. Offered by Statistics. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

STAT 515: *Applied Statistics and Visualization for Analytics.* 3 credits.
Introduces multivariate regression and random forests for modeling data. Addresses data access, variable selection and model diagnostics. Introduces foundations for visual thinking. Reviews common statistical graphics such as dot plots, box plots, q-q plots. Addresses more advanced methods such as scatterplot matrices enhanced by smoothed or density contours, and search tools for finding graphics with suggestive patterns. Notes: Course will introduce R software for analysis. A final project will involve visualization of a real data set. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: STAT 250 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 517: *Experimental Design.* 3 credits.
Introduces problems and techniques inherent in design of experiments, which refers to planning an experiment so that collected data can be analyzed by statistical methods. Covers the two aspects to any experimental problem: the design itself and the analysis of the resulting data. Examples from numerous disciplines in the sciences and the humanities are discussed. Data analysis is emphasized. Notes: Students may not receive credit for both STAT 455 and STAT 517. Offered by Statistics. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (STAT 535[B-], 535[XS], 554[B-] or 554[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 522: *Applied Multivariate Statistics.* 3 credits.
Introduces a variety of multivariate statistical methods as aids to analyzing and interpreting large data sets. These methods will have general applications across a wide range of disciplines. Topics include: principal components analysis, cluster analysis, discriminant analysis, multi-dimensional scaling, correspondence analysis, and canonical correlation analysis. Extensive use of statistical software. Notes: Students may not receive credit for both STAT 462 and STAT 522. Cannot be used to satisfy requirements for MS in Statistical Science. Offered by Statistics. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (STAT 535[B-], 535[XS], 554[B-] or 554[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 525: *Nonparametric Statistics and Categorical Data Analysis.* 3 credits.
Introduction to nonparametric methods and categorical data analysis. Topics include tests for one-sample, two-related samples, and two independent samples; concepts of nonparametric ANOVA; tests for proportions; chi-squared tests, log-linear models, and contingency tables; goodness-of-fit tests; correlation and association analysis; nonparametric regression including logistic and Poisson regression; and bootstrapping, jackknifing , and cross-validation. Notes: Students may not receive credit for both STAT 465 and STAT 525. Cannot be used to satisfy requirements for MS in Statistical Science. Offered by Statistics. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (STAT 535[B-], 535[XS], 554[B-] or 554[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 526: *Applied Regression Analysis.* 3 credits.
Introduces statistical modeling with a focus on regression. Topics include: Correlation, simple and multiple regression models, model fitting, variable selection, diagnostic tools, model validation, inference for regression parameters, and matrix forms for multiple regression. Additional topics covered include logistic regression and time series analysis with a focus on smoothing techniques and decomposition. A statistical software package is used extensively throughout the course. Notes: Students may not receive credit for both STAT 456 and STAT 526. Cannot be used to satisfy requirements for MS in Statistical Science. Offered by Statistics. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (STAT 535[B-], 535[XS], 554[B-] or 554[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 532: *Introduction to Statistical Software Packages.* 3 credits.
Use of computer packages in statistical analysis of data. Topics include data entry, checking, and manipulation; and use of statistical packages for graphical procedures, basic descriptive and inferential procedures, and regression. Notes: Cannot be used to satisfy requirements for MS in Statistical Science without prior written approval of the graduate program director. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: STAT 250 or equivalent

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 535: *Analysis of Experimental Data.* 3 credits.
Statistical methods for analysis of experimental data from educational research and the social, natural, and life sciences. Topics include sample surveys, contingency tables, linear and multiple regression, analysis of variance, nonparametric tests, and multivariate methods. Various statistical packages will be used. Notes: Cannot be used to satisfy requirements for MS in Statistical Science. Certificate program students granted credit for only one of STAT 535 or STAT 554. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: STAT 250, STAT 344 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 539: *Topics in Applied Statistics.* 0-3 credits.
Special topics in applied statistics of interest to graduate students in statistics certificate programs. Notes: May be repeated for credit when topic is different. Cannot be used to satisfy requirements for MS in Statistical Science. Offered by Statistics. May be repeated within the degree for a maximum 3 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Permission of instructor; specific prerequisites vary with the nature of the topic.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 544: *Applied Probability.* 3 credits.
The axioms of probability, conditional probability, random variables and expectation, multivariate and conditional distributions, conditional expectation, order statistics, transformations, moment generating functions, special distributions, limit theorems. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: MATH 213 and STAT 346, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 554: *Applied Statistics I.* 3 credits.
Application of basic statistical techniques. Focus is on the problem (data analysis) rather than on the theory. Topics include descriptive statistics; exploratory data analysis; sampling distributions; one- and two-sample tests and confidence intervals for means, medians, proportions, and variances; and goodness-of-fit tests. Normal theory is introduced first with discussion of what happens when assumptions break down. Alternative robust and nonparametric techniques are presented. Notes: Certificate program students granted credit for only one of STAT 535 or 554. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: MATH 114 and (STAT 334 or STAT 344 or STAT 346) and (Course in Statistics)

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 560: *Biostatistical Methods.* 3 credits.
Focuses on biostatistical aspects of design and analysis of biomedical studies, including epidemiologic observational studies and randomized clinical trials. Topics include randomization principle, confounding, ethics in human experimentation, methods of randomization, stratification, primary outcome analyses, covariate-adjusted analyses, epidemiologic measures, and sample size and power computation. Note: Students may not receive credit for both STAT 460 and STAT 560. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: STAT 350 or STAT 354 or STAT 360; and working knowledge of SAS.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 574: *Survey Sampling I.* 3 credits.
Design and implementation of sample surveys. Covers components of a survey; probability sampling designs to include simple random, systematic, Bernoulli, proportional to size, stratified, cluster and two-stage sampling; and ratio and regression estimators. Discusses practical problems in conducting a survey. Methods applied to case studies of actual surveys. Class project may be required. Notes: Students may not receive credit for both STAT 474 and STAT 574. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: STAT 346 and a course in Statistics, or STAT 344; and working knowledge of SAS.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

STAT 634: *Case Studies in Data Analysis.* 3 credits.
Examination of a wide variety of case studies illustrating data-driven model building and statistical analysis. With each case study, various methods of data management, data presentation, statistical analysis, and report writing are compared. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: Working knowledge of SAS and R.

Registration Restrictions:
Required Prerequisites: ((STAT 654[B-] or 654[XS]) and (STAT 544[B-] or 544[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 652: *Statistical Inference.* 3 credits.
Fundamental principles of estimation and hypothesis testing. Topics include limiting distributions and stochastic convergence, sufficient statistics, exponential families, statistical decision theory and optimality for point estimation, Bayesian methods, maximum likelihood, asymptotic results, interval estimation, optimal tests of statistical hypotheses, and likelihood ratio tests. Offered by Statistics. May not be repeated for credit. Equivalent to CSI 672.

Registration Restrictions:
Required Prerequisites: ((STAT 544[B-] or 544[XS]) and (STAT 554[*B-] or 554[XS])).
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 654: *Applied Statistics II.* 3 credits.
Overview of statistical principles of modeling. Topics include methods for analyzing data based on generalized linear models and diagnostic methods for assessing the assumptions of such models. Methods covered include multiple regression, analysis of variance, simultaneous inference, logistic and Poisson regression, and hierarchical log linear models for contingency tables. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: MATH 203 and MATH 213 and STAT 346

Registration Restrictions:
Required Prerequisites: (STAT 554[B-] or 554[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Biostatistics or Statistical Science.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 656: *Regression Analysis.* 3 credits.
Simple and multiple linear regression, polynomial regression, general linear models, subset selection, step-wise regression, and model selection. Also covered are multicollinearity, diagnostics, and model building as well as the theory and practice of regression analysis. Offered by Statistics. May not be repeated for credit. Equivalent to CSI 676.

Registration Restrictions:
Required Prerequisites: ((STAT 544[*B-] or 544[XS]) and (STAT 554[B-] or 554[XS])).
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 657: *Nonparametric Statistics.* 3 credits.
Distribution-free procedures for making inferences about one or more samples. Tests for lack of independence, association or trend, and monotone alternatives are included. Measures of association in bivariate samples and multiple classifications are discussed. Both theory and applications are covered. Students are introduced to appropriate statistical software. Offered by Statistics. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((STAT 544[B-] or 544[XS]) and (STAT 554[B-] or 554[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 658: *Time Series Analysis and Forecasting.* 3 credits.
Modeling stationary and nonstationary processes, autoregressive, moving average and mixed model processes, autocovariance functions, autocorrelation functions, partial autocorrelation functions, spectral density functions, identification of models, estimation of model parameters, and forecasting techniques. Offered by Statistics. May not be repeated for credit.

Registration Restrictions:

Required Prerequisites: ((STAT 544[B-] or 544[XS]) and (STAT 554[B-] or 554[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 662: *Multivariate Statistical Methods.* 3 credits.
Standard techniques of applied multivariate analysis. Topics include review of matrices, multivariate normal theory, principal components, canonical correlation, classification, factor analysis, clustering, and multidimensional scaling. Applications to data analytics. Computer implementation via a statistical package is an integral part of the course. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: Matrix algebra, and working knowledge of SAS.

Registration Restrictions:
Required Prerequisites: ((STAT 554[B-] or 554[XS]) and (STAT 544[*B-] or 544[XS])).
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 663: *Statistical Graphics and Data Exploration I.* 3 credits.
Introduces statistical graphics that show distribution features and functional relationships in the presence of noise. Introduces cognitive research guidance for graphics design and reasoning. Stresses quantitative comparisons from multiple perspectives. Features new micromaps designs for spatial and temporal comparisons. Introduces R, the grammar of graphics, and dynamic graphics software. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: A 300-level statistics course and a programming course, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 665: *Categorical Data Analysis.* 3 credits.
Analyzes cross-classified categorical data in two and higher dimensions. Topics include association tests and measures of association in two- and three-dimensional contingency tables, logistic regression, and log linear models. SAS is used extensively for data analysis. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: Working knowledge of SAS.

Registration Restrictions:
Required Prerequisites: ((STAT 654[B-] or 654[XS]) and (STAT 544[*B-] or 544[XS])).
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 668: *Survival Analysis.* 3 credits.
Survival Analysis is a class of statistical methods for studying the occurrence and timing of events. In medical research, the events may be deaths, and the objective is to determine factors affecting survival times of patients following treatment, usually in the setting of clinical trials. Methods can also be applied to the social and natural sciences and engineering where they are known by other names (reliability, event history analysis). Concepts of censored data, time-dependent variables, and survivor and hazard functions are central. Nonparametric methods for comparing two or more groups of survival data are studied. The Cox regression model (proportional hazards model), Weibull model, and the accelerated failure time model are studied in detail. Concepts are applied to analysis of real data from major medical studies using SAS software. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: Working knowledge of R and SAS.

Registration Restrictions:
Required Prerequisites: ((STAT 544[B-] or 544[XS]) and (STAT 554[B-] or 554[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 672: *Statistical Learning and Data Analytics.* 3 credits.
The course focuses on statistical learning theory by introducing the statistical and optimization background essential for understanding statistical learning algorithms. Also discusses applications of statistical learning algorithms to the solution of important problems in many areas of science. Offered by Statistics. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((STAT 544[B-] or 544[XS]) and (STAT 554[B-] or 554[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 674: *Survey Sampling II.* 3 credits.
Continuation of STAT 574. Applications to case studies of actual surveys. Categorical data analysis, regression models, and domain estimation from complex sampling designs, introduction to variance estimation, weighting adjustments for nonresponse, and imputation. Offered by Statistics. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (STAT 574[B-] or 574[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 676: *Alternative Regression Methods.* 3 credits.
Presents several modern regression methodologies that are useful in data analysis when some of the assumptions of linear regression theory fail to hold. Topics include non-linear regression, quantile regression, robust regression, and computational methods for fitting these models. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: Working knowledge of SAS.

Registration Restrictions:
Required Prerequisites: (STAT 654[B-] or 654[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 689: *Topics in Statistics.* 1-3 credits.
Special topics of interest to graduate students in statistics. Notes: May be repeated for credit when topic is different. Offered by Statistics. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Permission of instructor; specific prerequisites vary with the nature of the topic.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

STAT 742: *Optimization for Statistical Modeling.* 3 credits.
Discusses standard classes of mathematical optimization problems and how these classes arise in statistical model fitting. Both constrained and unconstrained optimization problems are studied in detail, with an emphasis on convex problems. Specific examples are: sparsity and shape-constrained estimation, EM algorithms for mixture models, linear programming for quantile regression, semidefinite programming for sparse PCA and Gaussian graphical models. The treatment is complemented by the implementation of suitable algorithms for the solution of the above problems, including gradient descent and proximal methods, Newton and Quasi-Newton methods, interior point methods, alternating direction methods of multipliers, and MM algorithms. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: Multivariate calculus and linear algebra.

Registration Restrictions:
Required Prerequisites: (STAT 654[B-], 654[XS], 672[B-] or 672[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 758: *Advanced Time Series Analysis.* 3 credits.
Mathematical modeling and methods for model identification and forecasting of nonstationary and seasonal time series data (ARIMA models), multivariate time series, and state-space models. Offered by Statistics. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (STAT 658[B-] or 658[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 760: *Advanced Biostatistical Methods.* 3 credits.
Advanced statistical methods in the drug development process. Provides the theoretical statistical basis for the design and analysis of pharmaceutical clinical trials. Topics include the theory of randomization, randomization-based inference, restricted, response-adaptive, and covariate-adaptive randomization, the modern theory of group sequential monitoring, statistical aspects of determination of dose-response relationships. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: Working knowledge of statistical programming language.

Registration Restrictions:
Required Prerequisites: ((STAT 652[B-] or 652[XS]) and (STAT 654[B-] or 654[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 763: *Statistical Graphics and Data Exploration II.* 3 credits.
Addresses data set size and human comprehension challenges. Introduces case and variable reduction methods, and overview production. Incorporates cognitive science guidance. Utilizes data mining models and visual analytic algorithms to find patterns and prioritize graphics. Addresses applications from both information and scientific visualization. Tracks advances in web graphics including citizen science projects harnessing the visual power of thousands of people. Offered by Statistics. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (STAT 663[B-], 663[XS], 515[B-] or 515[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 771: *Spatial Data Analysis.* 3 credits.
Presents analysis techniques for spatially-indexed or spatially-correlated data that arise in many areas of science, including medicine, transportation, and atmospheric sciences. Focus is on data analysis rather than theory, though theory will necessarily be covered. Topics include analysis of point patterns, trend and surface estimation, and spatial regression. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: Working knowledge of R and SAS.

Registration Restrictions:
Required Prerequisites: ((STAT 652[B-] or 652[XS]) and (STAT 654[B-] or 654[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 773: *Statistical Methods for Longitudinal Data Analysis.* 3 credits.
Presents modern statistical approaches to the analysis of longitudinal data, i.e., data collected repeatedly on experimental units over time (or other conditions). Topics include linear mixed effects models, generalized linear models for correlated data (including generalized estimating equations), and computational issues and methods for fitting models. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: Working knowledge of SAS.

Registration Restrictions:
Required Prerequisites: ((STAT 652[B-] or 652[XS]) and (STAT 654[B-] or 654[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 778: *Statistical Computing.* 3 credits.
Introduces modern and basic elements of statistical computing. Topics include: data wrangling, numerical computation for statisticians, semi-

numerical computation (simulation methodology and algorithms), graphical computation, and special topics in resampling, Bayesian calculations, mixtures, EM algorithms, parallel processing, and some modern data analytics (time permitting). Some complex programming problems related to statistical modeling and inference are studied. R and its interfaces with other programming languages will be used. (Other types of programming languages are allowed with the permission of instructor). Offered by Statistics. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (STAT 652[B-], 652[XS], CSI 672[B-] or 672[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 796: *Independent Studies/Directed Readings.* 1-3 credits.
Reading and research on a specific topic in statistics under guidance of graduate faculty member. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: Permission of instructor and department's graduate coordinator.

Registration Restrictions:
Enrollment is limited to Graduate, Non-Degree or Washington Consortium level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

STAT 798: *Master's Research Project.* 3 credits.
Project chosen and completed under guidance of graduate faculty member that results in acceptable technical report. Offered by Statistics. May not be repeated for credit.

Recommended Prerequisite: 9 graduate credits, and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Graduate Special scale.

STAT 799: *Master's Thesis.* 1-6 credits.
Project chosen and completed under guidance of graduate faculty member that results in acceptable technical report and oral defense. Offered by Statistics. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 9 graduate credits, and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

STAT 889: *Advanced Topics in Statistics.* 3 credits.
Advanced topics not occurring in regular sequence. Offered by Statistics. May be repeated within the degree for a maximum 12 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Doctoral standing and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 896: *Advanced Directed Reading.* 3 credits.
Individualized study with a graduate faculty member in the Department of Statistics. Syllabus and grading criteria must be preapproved by the PhD in Statistical Science Program Director. Offered by Statistics. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Statistical Science.

Enrollment limited to students in the VS-PHD-STAT program.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

STAT 971: *Probability Theory.* 3 credits.
A rigorous measure-theoretic treatment of probability. Includes expectation, distributions, laws of large numbers and central limit theorems for independent random variables, characteristic function methods, conditional expectations, martingales, strong and weak convergence, and Markov chains. Offered by Statistics. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: STAT 544[B] and (MATH 315[B] or 315[XS]).
[B] Requires minimum grade of B.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 972: *Mathematical Statistics I.* 3 credits.
Focuses on theory of estimation. Includes method of moments, least squares, maximum likelihood, and maximum entropy methods. Details methods of minimum variance unbiased estimation. Topics include sufficiency and completeness of statistics, Fisher information, Cramer-Rao bounds, Bhattacharyya bounds, asymptotic consistency and distributions, statistical decision theory, minimax and Bayesian decision rules, and applications to engineering and scientific problems. Offered by Statistics. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((STAT 652[B-], 652[XS], CSI 672[B-] or 672[XS]) and (CSI 876[*B-], 876[XS], STAT 971[*B-], 971[XS], CSI 971[*B-] or 971[XS])).
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 973: *Mathematical Statistics II.* 3 credits.
Continuation of STAT 972/CSI 972. Concentrates on theory of hypothesis testing. Topics include characterizing decision process, simple versus simple hypothesis tests, Neyman-Pearson Lemma, uniformly most powerful tests, unbiasedness and invariance of tests, and randomized and sequential tests. Applications of testing principles made to situations in normal distribution family and other families of distributions. Offered by Statistics. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (STAT 972[B-], 972[XS], CSI 972[B-] or 972[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

STAT 990: *Dissertation Topic Presentation.* 1 credit.
Students put together a professional presentation of a research proposal and present it for critique to fellow students and interested faculty. Notes: May be repeated with change of research topic, but credit towards doctoral degree is given once. Offered by Statistics. May not be repeated for credit. Equivalent to CEIE 990, CS 990, IT 990.

Recommended Prerequisite: Completion of all course requirements for PhD, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Research

Grading:
This course is graded on the Satisfactory/No Credit scale.

STAT 998: *Doctoral Dissertation Proposal.* 1-12 credits.
Work on research proposal that forms basis for doctoral dissertation. Notes: No more than 24 credits of STAT 998 and 999 may be applied to doctoral degree requirements. Offered by Statistics. May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

STAT 999: *Doctoral Dissertation.* 1-12 credits.
Formal record of commitment to doctoral dissertation research under direction of faculty member in statistics. Notes: No more than 24 credits of STAT 998 and 999 may be applied to doctoral degree requirements. Offered by Statistics. May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

System Engineering (SYST)

100 Level Courses

SYST 101: *Understanding Systems Engineering.* 3 credits.
Introduces systems engineering and curriculum for BS in field. Introduces large and small systems, and explains them through some hands-on experiences. Key concepts include understanding requirements for system and translation of system-level requirements to component-level requirements. Several different kinds of example systems presented and discussed: objectives, major components, how system works, and major design issues. Each student gives a similar presentation on system of choice. Students work in groups design, develop, and test system, and give oral presentation. Students are responsible for writing several short papers on curriculum and presentations they have heard. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 130: *Introduction to Computing for Digital Systems Engineering.* 3 credits.
The course introduces students to programming in the context of Systems Design process. Students learn to take a systems perspective when approaching problems and designing solutions, how the structure and behavior of a system is modeled using SysML, and to implement

the system model using programming techniques in Python. The course explores various Python modules (standard library and 3rd Party) that extend the basic language functionality in useful ways, in particular, for model based systems engineering. The students apply their programming skills to solve commonly encountered Task Automation, Data Mining, Cleansing, and Transformation. Course emphasizes the use of appropriate Web Services APIs and technologies commonly encountered in Data Analytics and AI to find, access, and analyze available data and datasets. Offered by Systems Engr & Operations Rsch. Limited to two attempts. Equivalent to CYSE 130.

Mason Core: Info Tech & Computing

Recommended Prerequisite: Passing score on the math placement test for MATH 113.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 198: *Independent Study in Systems Engineering.* 1-3 credits.
Must be arranged with instructor and approved by department chair before registering. Directed self-study of special topics of current interest in systems engineering. Notes: May be repeatable if topics are substantially different. Offered by Systems Engr & Operations Rsch. May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

SYST 202: *Engineering Systems in a Complex World.* 3 credits.
This course introduces students to the study of engineering systems as a means of understanding larger historical trends in a global society. Students will use case studies and historical analyses to think strategically and globally about the management and execution of complex systems in the context of culture, environment, politics and economics, and learn how to employ such analyses as decision-making tools for leadership. Students will be required to critically analyze articles and books, and work in groups to investigate and present topics of current national and international relevance. Offered by Systems Engr & Operations Rsch. Limited to two attempts. Equivalent to HIST 202.

Mason Core: Global Understanding

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 205: *Systems Engineering Principles.* 3 credits.
Introduction to systems engineering with a focus on cyber security engineering. During this course, the different components of the systems life cycle will be explored. Basic principles including requirements, design frameworks, functional systems, models, qualification strategies, maintenance and disposal will be covered. Students will be tested to ensure understanding of material contained within the lectures. Additionally, students will gain practical knowledge concerning this subject by modeling functional, state and object primitives. Offered by Systems Engr & Operations Rsch. Limited to two attempts. Equivalent to CYSE 205.

Registration Restrictions:
Students cannot enroll who have a major in Systems Engineering.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 210: *Systems Design.* 3 credits.
Systems engineering design and integration process, development of functional, physical, and operational architectures. Emphasizes requirements engineering, functional modeling for design, and formulation and analysis of physical design alternatives. Introduces methods, software tools for systems engineering design. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Recommended Prerequisite: SYST 101.

Registration Restrictions:
Students with a class of Freshman may **not** enroll.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 220: *Dynamical Systems I.* 3 credits.
Introduces modeling of dynamical systems. Both Discrete-time and continuous-time systems. Linear and nonlinear systems that includes exponential and polynomial models. Introduction to first order and second order models of systems using both difference equations and ordinary differential equations. Formulation of mathematical models from system descriptions, including biological, financial, and mechanical systems – both translational and rotational models of rigid and deformable objects. Block diagrams and state variable models. Analytical and numerical methods for solving models and studying their behavior. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 114[C], 114[XS], 116[C] or 116[XS]) and (PHYS 160[C] or 160[XS]) and ((SYST 221[*C] or 221[XS]) and (MATH 203[*C] or 203[XS])).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Systems Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 221: *Systems Modeling Laboratory.* 1 credit.
Companion laboratory to SYST 220. Emphasizes use of scientific computing application MATLAB for modeling and analysis of dynamical systems. Analytical and numerical solutions of both discrete-time and continuous-time dynamic systems using MATLAB's built-in toolboxes including Symbolic Math Toolbox. Visualization of data and analysis results using plotting functions. Programming constructs for implementing algorithms. Construction and execution of simulation models using Simulink built-in libraries. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (SYST 101[C] or 101[XS]) and (SYST 130[C], 130[XS], CDS 130[C], 130[XS], CS 112[C], 112[XS] or ENGR 125T) and (SYST 220[*C] or 220[XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 230: *Object-oriented Modeling and Design.* 4 credits.
The course introduces students to the systems analysis, design, and implementation process using Python. Students will explore how to model the structure and behavior of programs using SysML and implement the system model using Python programming techniques. The course introduces students to SysML modeling and various structural and behavioral diagram types. Students will use Object-Oriented techniques in Python to implement multiple system components. The course explores various Python modules (standard library and 3rd Party) that extend the basic language functionality in useful ways. Students learn Python techniques and tools for Dataset Analysis and Visualization like Numpy, Pandas, and Matplotlib and learn how to apply them to solve Dataset Analysis and Visualization problems for datasets available in the public domain. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (CDS 130[C], 130[XS], SYST 130[C], 130[XS], CS 112[C], 112[XS] or ENGR 125T) and (SYST 210[*C], 210[*XS], 205[*C] or 205[*XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

SYST 320: *Dynamical Systems II.* 3 credits.
This course continues the study of dynamic systems from SYST 220, expanding the set of application areas to include electrical systems and fluid systems. Other applications - for example, infectious diseases, population dynamics, and/or flight control - are also discussed. The course covers fundamental characteristics of system behavior in the time domain including system stability and the effects of root location. Other topics include oscillatory inputs, frequency response, and an introduction to control systems. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (SYST 220[C] or 220[XS]) and (MATH 203[C] or 203[XS]) and (MATH 214[C] or 214[XS]) and (PHYS 260[C] or 260[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 330: *Systems Methods.* 3 credits.
Provides students with a general introduction to a variety of quantitative techniques that are relevant to systems engineering. Focuses on the use of quantitative techniques to model and evaluate design options. Scope includes: Analysis methods of system engineering design and management, decision analysis, models for engineering economics and evaluations, probability and statistical methods for data analysis, management control techniques, safety, reliability, and maintainability analysis, risk and uncertainty management, and life-cycle cost analysis. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 114[C], 114[XS], 116[C] or 116[XS]) and (STAT 334[C], 334[XS], 344[C], 344[XS], 346[C], 346[XS], MATH 351[C] or 351[XS]) and (SYST 221[*C] or 221[XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Systems Engineering.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 335: *Discrete Systems Modeling and Simulation.* 3 credits.
Introduces basic concepts of modeling complex discrete systems by computer simulation. Topics include Monte-Carlo methods, discrete-event modeling, specialized simulation software, and statistics of input and output analysis. Offered by Systems Engr & Operations Rsch. Limited to two attempts. Equivalent to OR 335.

Registration Restrictions:
Required Prerequisites: (SYST 130[C], 130[XS], CDS 130[C], 130[XS], CS 112[C], 112[XS] or ENGR 125T) and (STAT 334[C], 334[XS], 344[C], 344[XS], 346[C], 346[XS], MATH 351[C] or 351[XS]) and (SYST 230[*C], 230[XS], CS 211[*C] or 211[XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 370: *Systems Project Management.* 3 credits.
Study of basics of project management of systems in large, complex settings. Includes engineering economics, planning, organizing, staffing, monitoring, and controlling process of designing, developing, and producing system to meet stated need in effective and efficient manner. Discusses management tools, processes, and procedures, including various documentation templates, managerial processes, and dealing with personnel issues. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Registration Restrictions:
Students with a class of Freshman or Sophomore may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 371: *Systems Engineering Management.* 3 credits.
Introduces basic concepts in systems engineering management. Includes engineering economics, planning, staffing, monitoring, and control processes related to the design, development, and production of a system to meet a stated need in an effective and efficient manner. Discusses management tools, processes, and leading teams. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: SYST 210[*C] or 210[*XS].
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 395: *Applied Systems Engineering.* 3 credits.
The course will enhance the student's system engineering experience by designing and building projects involving real world complex systems. The course will build physical models that follow the steps of system life cycle process: statement of need, design, requirements, architecture, implementation, testing, verification and validation. Projects are multidisciplinary in nature, requiring the student teams to learn about various real world systems such as internet communications, navigation, robotics, creating a GUI, and transmitting and receiving data from sensors. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: ((SYST 210[C] or 210[XS]) and (SYST 101[C] or 101[XS])) and ((SYST 220[*C] or 220[XS]) and (SYST 221[*C] or 221[XS]) and (SYST 335[*C] or 335[XS]) and (SYST 371[*C] or 371[XS])).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students cannot enroll who have a major in Undeclared.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

SYST 420: *Network Analysis.* 3 credits.
Network nomenclature. Elementary graph theory. Linear and nonlinear network models: multicommodity flow, mathematical games and equilibria on networks, network design and control; dynamic network models; applications to transportation, telecommunications, data communications, and water resource systems. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (OR 441[C] or 441[XS]) and (MATH 213[C], 213[XS], 215[C] or 215[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 421: *Classical Systems and Control Theory.* 3 credits.
Introduction to analysis and synthesis of feedback systems. Functional description of linear and nonlinear systems. Block diagrams and signal flow graphs. State-space representation of dynamical systems. Frequency response methods: Root Locus, Nyquist, and other stability criteria. Application to mechanical and electromechanical control systems. Offered by Systems Engr & Operations Rsch. Limited to two attempts. Equivalent to ECE 421.

Registration Restrictions:
Required Prerequisites: (ECE 220[C] or 220[XS]) or (ECE 321[C] or 321[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 438: *Analytics for Financial Engineering and Econometrics.* 3 credits.
Introduces the basic analytics for financial engineering and econometrics. Topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, financial time series analysis, portfolio theory, pricing models, and risk analysis. Provides a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data. Hands-on experiments with R will be emphasized throughout the course. Offered by Systems Engr & Operations Rsch. Limited to two attempts. Equivalent to OR 438.

Recommended Corequisite: STAT 354

Registration Restrictions:
Required Prerequisites: (STAT 250[C] or 250[XS]) or (STAT 260[C] or 260[XS]) or (STAT 334[C] or 334[XS]) or (STAT 344[C] or 344[XS]) or (STAT 346[C] or 346[XS]) or (MATH 351[C] or 351[XS]).
[C] Requires minimum grade of C.

[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 460: *Introduction to Air Traffic Control.* 3 credits.
Introduction to Air Traffic Control (ATC) for those who plan professions in the air transportation industry. Surveys the entire field, presenting the history of ATC and how it came to be as it is, the technology on which the system is based, the procedures used by controllers to meet the safety and efficiency goals of the system, the organizational structure of the FAA, challenges facing the system, and means under investigation to meet these challenges. Some fieldwork will be required to acquire and analyze airport operational data. A brief introduction to airport design will be discussed. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Recommended Prerequisite: Junior standing or graduate standing.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 461: *Air Transportation System Engineering.* 3 credits.
Focuses on the theory and practice of system engineering in a national air transportation system. Stresses the application of mathematical techniques to analyze and design complex network transportation systems, airports, airspace, airline schedules, and traffic flow. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Recommended Prerequisite: SYST 460 or permission of instructor.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 462: *Flight Training Lab I.* 3 credits.
This course fulfills the requirements of 14 CFR, Section 141, Appendix B for obtaining a private pilot certificate with airplane category, single engine land class rating. Flight Training 1 will include the flight training up to and including maneuvering and navigating the aircraft. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Recommended Corequisite: SYST 460.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Aviation Flight Trng and Mgmt.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 463: *Flight Training Lab II.* 3 credits.
This course fulfills the requirements of 14 CFR, Section 141, Appendix B for obtaining a private pilot certificate with airplane category, Airplane - Single Engine Land class rating. Flight Training II will include the flight training up to and including the dual and solo flight instruction in cross-country navigation by pilotage, dead reckoning, and use of VOR, NDB, and HSI. Flight test preparation for private pilot certification. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Recommended Prerequisite: SYST 462.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Aviation Flight Trng and Mgmt.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 465: *Pricing in Optimization and Game Theory.* 3 credits.
Allocation of limited resources among competing activities to maximize the outcome or minimization of expenses required to produce a given assortment of goods and services are two typical problems faced by any economic institution. Mathematical modeling of such problems and finding efficient mathematical tools for solving them are two main goals of modern optimization theory. Pricing limited resources, goods, and services is the key instrument for theoretical analysis of complex economical systems. Pricing theory can also give rise to numerical methods for finding optimal solutions and economic equilibrium. Fundamental tools in pricing theory are the classical Lagrangian and Lagrange multipliers for constrained optimization. Covers the basic ideas and methods of linear programming and matrix games. Particular emphasis to pricing for both theoretical analysis and numerical methods. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Recommended Prerequisite: MATH 203 or 216 and OR 441, or permission of instructor.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 468: *Applied Predictive Analytics.* 3 credits.
Introduces students to the fundamentals of data analysis and some of the most widely used models in applied predictive analytics. The students learn how to summarize data and explore relationship between variables, including principle component analysis and multidimensional scaling. Class instruction follows with a presentation of commonly used tables, visualizations, and statistical tests for comparing groups. Linear predictive models for both continuous and binary outcomes (logistic regression) are discussed in detail. The course introduces students to clustering and classification using random forest and naive Bayes. The course concludes with topics on choice modeling. Hands-on programming with R is emphasized. While no prior knowledge on R

is required, students must be well prepared in programming. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (STAT 334[C], 334[XS], 344[C], 344[XS], 346[C], 346[XS], 250[C], 250[XS], 260[C], 260[XS], MATH 351[C] or 351[XS]) and (SYST 130[C], 130[XS], CDS 130[C], 130[XS], IT 206[C], 206[XS], 209[C], 209[XS], CS 112[C], 112[XS] or ENGR 125T).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 469: *Human Computer Interaction.* 3 credits.
Covers principles of human-computer interaction, including information processing design, cognitive models, ergonomics, and design metaphors. Students learn to evaluate interface design in terms of effectiveness, efficiency, and cost. Notes: Students who receive credit for SYST 470 may not receive credit for this course. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (STAT 250[C], 250[XS], 260[C], 260[XS], 334[C], 334[XS], 344[C], 344[XS], 346[C], 346[XS], MATH 351[C] or 351[XS]) and (IT 106[C], 106[XS], 109[C], 109[XS], 196[C], 196[XS], CS 112[C], 112[XS], CDS 130[C] or 130[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 470: *Human Factors Engineering.* 3 credits.
The purpose of this course is to help students design better systems by considering the "human" component of the system. Our goal is improved system usability by taking a "user-centered" design approach. The course focuses on human performance characteristics and limitations. It includes such topics as perception, cognition, memory, and decision making. It also includes system design and safety issues for addressing these characteristics and limitations, and research & evaluation methods for improving system development. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (SYST 210[C] or 210[XS]) and (STAT 334[C], 334[XS], 344[C], 346[C], 344[XS], 346[XS], MATH 351[C] or 351[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 473: *Decision and Risk Analysis.* 3 credits.
Studies analytic techniques for rational decision making that address uncertainty, conflicting objectives, and risk attitudes. Covers modeling uncertainty; rational decision making principles; representing decision problems with value trees, decision trees, and influence diagrams; solving value hierarchies, decision trees and influence diagrams; defining and calculating the value of information; incorporating risk attitudes into the analysis; and conducting sensitivity analyses. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (STAT 250[C] or 250[XS]) or (STAT 260[C] or 260[XS]) or (STAT 334[C] or 334[XS]) or (STAT 344[C] or 344[XS]) or (STAT 346[C] or 346[XS]) or (MATH 351[C] or 351[XS]) or (BIOL 214[C] or 214[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 480: *Economic Systems Design I: Principles and Experiments.* 3 credits.
Introduces design principles used in developing systems used to allocate resources. Students required to participate in experiment demonstrations of different allocation mechanisms. Students are also exposed to experimental methods in economics and market design. Offered by Systems Engr & Operations Rsch. Limited to two attempts. Equivalent to ECON 440.

Recommended Prerequisite: OR 441.

Recommended Corequisite: SYST 465.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 488: *Financial Systems Engineering.* 3 credits.
This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Ito's formula, and Black-Scholes valuation model. Numerical methods for option pricing, such as Binomial tree and Monte Carlo simulation will also be covered. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Recommended Prerequisite: OR 441.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 489: *Senior Seminar.* 3 credits.
Introduces several important topics in systems engineering, providing additional experience in writing and giving presentations, and obtaining feedback on curriculum for BS in systems engineering. Several lectures devoted to ethics; writing and making presentations also covered. Students attend technical lectures and write paper. Students are required to a write long paper on new technology. Instructor and guest lecturers present material not part of required course load to expand horizons. Examples are "knowledge-based" design, enterprise-wide reengineering, electronic commerce, and optimization by "natural analogy" (simulated annealing, neural networks, genetic algorithms). In addition, students work in teams to critique and redesign curriculum. Each group delivers written product, and provides at least one briefing to class. Best critique and redesign presented to faculty. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Specialized Designation: Writing Intensive in Major

Registration Restrictions:
Required Prerequisites: SYST 490^{*C} or 490^{*XS}.
* May be taken concurrently.
^{C} Requires minimum grade of C.
^{XS} Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 490: *Senior Design Project I.* 3 credits.
First part of capstone course in systems engineering program. Students apply knowledge they have gained to group project. Students perform concept definition and requirements analysis. Plan for carrying out project is developed, culminating in proposal presented to faculty at end of semester. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Recommended Prerequisite: 90 satisfactory credits.

Registration Restrictions:
Required Prerequisites: ((SYST 335^{C} or 335^{XS}) and (SYST 371^{C} or 371^{XS}) and (SYST 395^{C} or 395^{XS})) and (SYST 320^{*C} or 320^{*XS}) and (SYST 470^{*C} or 470^{*XS}) and (SYST 473^{*C} or 473^{*XS}) and (SYST 489^{*C}(SYST 489^{*XS}) and (OR 441^{*C} or 441^{XS})).
* May be taken concurrently.
^{C} Requires minimum grade of C.
^{XS} Requires minimum grade of XS.

Enrollment is limited to students with a major in Systems Engineering.

Enrollment limited to students in a Bachelor of Science degree.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 491: *Industrial Project.* 1-3 credits.
Semester-long work experience in systems engineering in industrial or governmental organization. Work supervised jointly by systems engineer from sponsoring organization and department faculty member. Project and arrangements for supervision must be approved by student's faculty advisor. Periodic reports, presentations, and a written final report are required. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Recommended Prerequisite: 75 credits toward BS in Systems Engineering; SYST 330; GPA of at least 3.00.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 495: *Senior Design Project II.* 3 credits.
Second part of capstone course. Design project plans formulated in SYST 490 are reviewed and modified. Additional instruction on documentation and project management is given. Design project completed; formal report prepared, presented, and evaluated. Students are strongly recommended to take STAT 354 before enrolling in SYST 490/495. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Mason Core: Capstone, Synthesis

Registration Restrictions:
Required Prerequisites: (SYST 320^{C} or 320^{XS}) and (SYST 470^{C} or 470^{XS}) and (SYST 473^{C} or 473^{XS}) and (SYST 489^{C} or 489^{XS}) and (SYST 490^{C} or 490^{XS}) and ((SYST 330^{*C} or 330^{XS}) and (STAT 354^{*C} or 354^{XS})).
* May be taken concurrently.
^{C} Requires minimum grade of C.
^{XS} Requires minimum grade of XS.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 497: *Applied Engineering Abroad.* 3 credits.
Introduces students to applications of engineering processes outside USA. The students will gain hands-on project management, critical thinking, intercultural and career skills by exploring engineering aspects such as auto assembly, airliner manufacturing, metropolitan infrastructure, and bridge designs. By visiting technology museums, students will learn to appreciate the rich history of the country's technology and manufacturing. Offered by Systems Engr & Operations Rsch. Limited to two attempts. Equivalent to CEIE 497.

Mason Core: Global Understanding

Registration Restrictions:
Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 498: *Independent Study in Systems Engineering.* 1-3 credits.
Directed self-study of special topics of current interest in systems engineering. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Recommended Prerequisite: 60 credits towards BS in systems engineering, and GPA of at least 3.00.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

SYST 499: *Special Topics in Systems Engineering.* 3 credits.
Topics of special interest to undergraduates. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Specialized Designation: Topic Varies

Recommended Prerequisite: 60 credits toward BS in systems engineering; specific prerequisites vary with nature of topic.

Registration Restrictions:
Students with the terminated from VSE major attribute may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

SYST 500: *Quantitative Foundations for Systems Engineering.* 3 credits.
Provides quantitative foundations necessary for core courses in systems engineering and operations research master's program, and certificate program in C4I. Topics include vectors and matrices, infinite series, partial differentiation, multiple integrals, differential and difference equations; linear systems; Laplace and Z-transforms, and probability theory. Students receive graduate credit for this course, which, when used on plan of study, extends minimum credit requirements for degree. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to CSI 600.

Recommended Prerequisite: MATH 203 and 213.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 505: *Systems Engineering Principles.* 3 credits.
This course is an introduction and overview of the methods and tools systems engineers use to define, develop, and deploy systems. It serves as a foundation for the other courses in the MS/SE curriculum. During this course, the different components of the system lifecycle will be explored as well as the economic value of systems engineering. The course will convey to students the essential elements of systems engineering including: systems thinking, concept and system definition, integration and test, product and service life management, system development lifecycles, logistics and supportability, and disposal/system retirement. This course is suitable for those who are new to systems engineering or have limited knowledge and/or experience in the field. Students enrolling in this course should have an engineering, science, or mathematics degree and one year of experience in science or engineering, or permission from the student's academic advisor and the course instructor. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 508: *Complex Systems Engineering Management.* 3 credits.
Introduces the organizational, economic, technological and societal factors (POETS) that apply to the development of large-scale, complex mega-systems, and shows that "one size does not fit all" when it comes to the project management of mega-systems. Notes: Course cannot be applied for credit towards the MS in Systems Engineering degree. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 510: *Systems Definition and Cost Modeling.* 3 credits.
Comprehensive examination of methods and processes for the identification and representation of system requirements. Investigation of the systems acquisition life cycle with emphasis on requirements definition, including functional problem analysis. Examination of the systems engineering definition phase including requirements, problem analysis, definition, and functional economics. Specification of functional and nonfunctional requirements, and associated requirements proto-typing. Functional economic analysis, including the use of

prevailing cost estimation models and planning and control of common operating environments. Lecture and group project including creation of requirements and use of cost estimation model. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 513: *Total Systems Engineering, Reengineering and Enterprise Integration.* 3 credits.
Principles of strategic quality, including TQM. Quality standards including ISO9000 and 14000. Organizational leadership, cultures, and process maturity, reengineering. Quality, organization learning, and reengineering approaches to enable information integration and management and environment and framework integration in the systems engineering of knowledge intensive systems. Emphasis is placed on the role of integrated product and process design teams, standard and commercial off-the-shelf products in enterprise integration. Architecture-driven system characteristics are studied, as is transition management of legacy systems. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: SYST 510 or 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 514: *Systems Thinking.* 3 credits.
Enables students to understand and use systems thinking concepts, tools and techniques that can apply across all system types, especially those which exhibit a fusion of technology and human activities. Additionally, the course extends the understanding of systems beyond technology, to systems with significant human activity components, such as organizations and enterprises. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Corequisite: SYST 505.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 520: *System Engineering Design.* 3 credits.
System engineering design methods are studied and practiced, including object-oriented and structured analysis based techniques. Design Description languages such as UML, SysML, IDEF0 and IDEF1x are introduced and used in carrying out complete system designs. Teams make presentations of their designs. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to ECE 550.

Recommended Corequisite: SYST 505

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 521: *Network Analysis.* 3 credits.
Network nomenclature. Elementary graph theory. Linear and nonlinear network models: multi-commodity flow, mathematical games and equilibria on networks, network design and control. Dynamic network models. Applications to transportation, telecommunications, data communications, and water resource systems. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: MATH 203 and 213, OR 441 or OR 541.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 523: *Engineering Resilient and Agile Enterprise Systems.* 3 credits.
Large-scale enterprise systems have ill-defined boundaries, complex behaviors, and evolve in unplanned ways. Enterprise systems need to be resilient and agile. This course introduces several tools and frameworks that can be used to understand resilience and agility, design resilience and agility into enterprises, and measure the degree of enterprise resilience and agility. Case studies are used to explore these concepts. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 530: *Systems Engineering Management I.* 3 credits.
Provides techniques for evaluating cost and operational effectiveness of system designs and systems management strategies. Discusses performance measurement, work breakdown structures, cost estimating, quality management, configuration management, standards, and case studies of systems from different application areas. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: SYST 510.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 538: *Analytics for Financial Engineering and Econometrics.* 3 credits.
Introduces the basic analytics for financial engineering and econometrics. Topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, financial time series analysis, portfolio theory, pricing models, and risk analysis. Provides a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data. Hands-on experiments with R will be emphasized throughout the course. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to OR 538.

Recommended Prerequisite: STAT 515 or STAT 544.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 542: *Decision Support Systems Engineering.* 3 credits.
Studies design of computerized systems to support individual or organizational decisions. Teaches systems engineering approach to decision support system (DSS) development. DSS is end product of development process, and process is key to successfully integrating DSS into organization. Any DSS is built on a theory (usually implicit) of what makes for successful decision support in given context. Empirical evaluation of specific DSS and the underlying theory should be carried on throughout development process. Course examines prevailing theories of decision support, considers issues in obtaining empirical validation for theory, and discusses empirical support that exists for theories considered. Students design decision support system for semester project. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: SYST 301

Registration Restrictions:
Required Prerequisites: (SYST 573[*B-], 573[XS], 473[*B-], OR 681[*B-] or 681[XS]).
[*] May be taken concurrently.
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 548: *Technologies and Security for Cryptocurrencies and Financial Transactions.* 3 credits.
This course provides an introduction to financial technology (FinTech) from three different perspectives: a disruptive technology, financial and societal effects, and security mitigation and regulatory policy. It will focus on how the technological advance in data and analytics are enabling the financial sector innovations. Special attention will be devoted to blockchain and cryptocurrencies, the 'internet of finance' and its potential of further transforming the sector. Lastly, it would deal with the increasing security and privacy concerns, operational risks as well as social challenges that emerged as part of the FinTech transformation. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 560: *Introduction to Air Traffic Control.* 3 credits.
Introduction for those who plan professions in aviation industry. Surveys entire field, presenting history of ATC and how it came to be, technology on which system is based, procedures used by controllers to meet safety and efficiency goals, organizational structure of the FAA, challenges facing system, and means under investigation to meet these challenges. Involves some field work for data collection and analysis. Class project requiring system simulation required. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 563: *Evidence-Based Systems Engineering.* 3 credits.
A common cause of failure and risk in system development is making decisions when lacking clear evidence to support them. This course presents frameworks and methods used to make sound, evidence-based decisions throughout the system lifecycle. Students learn what information to gather, how to analyze it, and how to present those analyses when deciding on the adequacy of programmatic decisions. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: STAT 344 and STAT 354 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 568: *Applied Predictive Analytics.* 3 credits.
Introduces predictive analytics with applications in engineering, business, and econometrics. Topics include data preprocessing, predictive modeling with various regression and classification models (e.g., linear, logistic regression, tree-based methods, SVM, neural networks, etc.), time series analysis, and case studies. Provides a foundation of basic theory and methodology with applied examples to analyze large engineering, business, and econometric data for predictive decision making. Hands-on experiments with R will be emphasized. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to OR 568.

Recommended Prerequisite: STAT 515 or Graduate Standing at the MSOR or MSSE programs.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 573: *Decision and Risk Analysis.* 3 credits.
Study of analytic techniques for rational decision making that address uncertainty, conflicting objectives, and risk attitudes. Covers modeling uncertainty; rational decision-making principles; representing decision problems with value trees, decision trees, and influence diagrams; solving value hierarchies, decision trees, and influence diagrams; defining and calculating the value of information; incorporating risk attitudes into the analysis; and conducting sensitivity analysis. Note: Students may not receive credit for both SYST 473 and 573. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to OR 681.

Recommended Prerequisite: STAT 344 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 574: *Quality Control and Process Management.* 3 credits.
Provides fundamentals of quality control and process management methodologies that are applicable in manufacturing industries. Introduces the basic concepts of engineering process and product quality management techniques. Provides exposition of fundamentals of lean Six Sigma and total quality management and maintainability. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to OR 574.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 576: *Manufacturing Systems Analysis.* 3 credits.
Provides fundamentals of modeling and analysis of general manufacturing systems that are also applicable to semiconductor manufacturing. Introduces the basic concepts of scheduling, inventory control, and enterprise resource management. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to OR 576.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 584: *Heterogeneous Data Fusion.* 3 credits.
Introduces the theory, design and implementation of multi-source information fusion systems in various domains. The course covers distinct technologies for combining data from multiple, heterogeneous sources and performing inferences in support to applications such as cyber security, Semantic Web, decision support systems, situational awareness, intrusion detection, crisis management, and others. The technical content is largely multi-disciplinary, encompassing disciplines such as knowledge engineering, ontologies, statistical learning, artificial intelligence, and data mining. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to OR 584.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 588: *Financial Systems Engineering I: Introduction to Options, Futures, and Derivatives.* 3 credits.
This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Ito's formula, and Black-Scholes valuation model. Numerical methods for option pricing, such as Binomial tree and Monte Carlo simulation will also be covered. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to OR 588.

Recommended Prerequisite: Eng. or Math Graduate standing, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

SYST 611: *System Methodology and Modeling.* 3 credits.
Provides broad yet rigorous foundations and applications of dynamic modeling. Emphasizes methodologies used across various disciplines. Topics include modeling and analysis of time-driven and event-driven, linear and nonlinear systems. The applications are presented with real-world example systems. Methodologies address dynamic systems using the concepts of composition, abstraction, execution, and performance. The issues of stochastic modeling and decision analysis are also

covered. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: SYST 500 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 618: *Model-based Systems Engineering.* 3 credits.
Model-based Systems Engineering (MBSE) provides a formalized application of modeling to support the engineering of systems. The purpose of the course to study and practice the leading methodologies for MBSE and illustrate the MBSE approaches in systems engineering and management. The advanced objected-oriented systems engineering methodology and model transformation techniques are addressed. Software tools are introduced and used for supporting systems engineering design. Students are expected to develop a system design of their choice using MBSE approaches presented in class and they will make presentations on these designs. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: SYST 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 620: *Discrete Event Systems.* 3 credits.
Introduces modeling and analysis of discrete event dynamical systems. Course covers elements of discrete mathematics and then focuses on Petri Net models and their basic properties. Relation to other discrete event models of dynamical systems. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to ECE 673.

Recommended Prerequisite: SYST 611 or ECE 521, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 621: *Systems Architecture Design.* 3 credits.
Architecture design and representation and the methodologies used to obtain them. Approaches based on system engineering constructs such as object orientation and service oriented architectures are used to design architectures and then represent them in conformance with an architecture framework such as DoDAF. Executable models of the architecture are derived to be used for architecture evaluation. Examples from current practice are used. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to ECE 674.

Recommended Prerequisite: SYST 520/ECE 550.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 630: *Systems Engineering Management II.* 3 credits.
Study of more advanced topics in systems engineering management to include the PMI Project Management Body of Knowledge. Students are expected to read selections from current literature as well as make presentations and produce papers on engineering management topics. Students work in groups to create a Systems Engineering Management Plan and a Risk Management Plan. Focuses strongly on the impacts of various systems engineering management practices on projects, organizations, and personnel. Offered by Systems Engr & Operations Rsch. Limited to two attempts.

Recommended Prerequisite: SYST 371 or SYST 530.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Students with the terminated from VSE major attribute may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 659: *Topics in Systems Engineering.* 3 credits.
Topics not covered in department's regular systems engineering offerings. Course content may vary each semester depending on instructor and the perception of students' needs. Offered by Systems Engr & Operations Rsch. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 660: *Air Transportation Systems Modeling.* 3 credits.
Introduces range of current issues in air transportation, including public policy toward the industry, industry economics, system capacity, current system modeling capability, human factors considerations, safety analysis and surveillance systems, and new technological developments. Students expected to develop broad understanding of contemporary and future issues. Knowledge evaluated through class discussions, a take-home midterm exam and a term project to be completed by the end of the semester. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to OR 660.

Recommended Prerequisite: SYST 460/560, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 664: *Bayesian Inference and Decision Theory.* 3 credits.
Introduces decision theory and relationship to Bayesian statistical inference. Teaches commonalities, differences between Bayesian and frequentist approaches to statistical inference, how to approach statistics problem, and how to combine data with informed expert judgment to derive useful and policy relevant conclusions. Teaches theory to develop understanding of when and how to apply Bayesian and frequentist methods; and practical procedures for inference, hypothesis testing, and developing statistical models for phenomena. Teaches fundamentals of Bayesian theory of inference, including probability as a representation for degrees of belief, likelihood principle, use of Bayes Rule to revise beliefs based on evidence, conjugate prior distributions for common statistical models, and methods for approximating the posterior distribution. Introduces graphical models for constructing complex probability and decision models from modular components. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to CSI 674, OR 664.

Recommended Prerequisite: STAT 544, STAT 554, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 670: *Metaheuristics for Optimization.* 3 credits.
Course on the theory and practice of metaheuristics, i.e. solution search techniques for solving combinatorial optimization problems. It will introduce the theory, applications (scheduling in manufacturing, transportation, and in other engineering and service industries), and computational aspects of directly searching for solutions to solve computationally complex optimization problems without a well-defined analytical model. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to OR 670.

Recommended Prerequisite: OR 441/541 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 671: *Judgment and Choice Processing and Decision Making.* 3 credits.
How do people make judgments and decisions? Course presents initial review of scientific literature directed toward answering this question, and emphasizes importance when performing decision analysis and designing systems to support judgment and decision processes. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to OR 671.

Recommended Prerequisite: STAT 344/354, OR 542 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 674: *Dynamic Programming.* 3 credits.
Course on the theory and practice of dynamic programming, i.e., optimal sequential decision making over time in the presence of uncertainties. Stresses intuition, the mathematical foundations being for the most part elementary. Introduces the theory, applications in finance and engineering, and computational aspects of dynamic programming for deterministic and stochastic problems. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to OR 674.

Recommended Prerequisite: OR 442 or OR 542 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 675: *Reliability Analysis.* 3 credits.
Introduction to component and system reliability, their relationship, and problems of inference. Topics include component lifetime distributions and hazard functions, parameter estimation and hypothesis testing, life testing, accelerated life testing, system structural functions, and system maintainability. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to OR 675.

Recommended Prerequisite: STAT 544/554, OR 542 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 680: *Principles of Command, Control, Communications, Computing, and Intelligence (C4I).* 3 credits.
Broad introduction to fundamental principles of command, control, communications, computers, and intelligence (C4I). Principles and techniques applicable to wide range of civilian and military situations. Discusses modeling and simulation of combat operations. Studies in detail sensing, fusion, and situation assessment processes. Derives optimal decision-making rules; discusses concepts of C4 architectures; and develops tools to evaluate and design C4 systems such as queuing theory. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to ECE 670.

Recommended Prerequisite: ECE 528 or OR 542 or SYST 611 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 682: *Space Systems Engineering.* 3 credits.
Overview of the scientific and engineering foundations of spacecraft systems and interaction among satellite subsystems. Topics include fundamentals on astrodynamics, power, communications, command and data handling, thermal management, attitude control, mechanical configuration, structures and launch systems. In addition to traditional instruction, a number of case studies and a team design project provide further breadth and exposure. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to ECE 660.

Recommended Prerequisite: ECE 580 or SYST 520

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 683: *Modeling, Simulation, and Gaming.* 3 credits.
Develops methods for designing combat models and games. Existing combat models critical to the C4I process. Exercises and games demonstrate value of properly developed C4I modules in a combat simulation. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: MATH 213, SYST 500 or equivalent, and graduate standing.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 687: *Cyber Security Systems Engineering.* 3 credits.
This course addresses cyber security from the standpoint of systems engineers. It introduces core principles for the design and management of resilient and robust systems throughout their complete lifecycle. Topics include but are not limited to lifecycle assurance of systems, risk analysis, models for secure systems development and management, gap analysis, quantitative methods for cyber security, and special topics in cyber security. The course also covers distinct technologies for assessing system vulnerabilities, measuring and modeling risk, reducing uncertainty in risk management, and others. Target audience consists of engineers who want to expand their skill sets to better align with the demands of current cyber security jobs, as well as those who intent to work on cyber security research. Cyber security professionals would also benefit from the course by being exposed to a systems engineering, holistic perspective on cyber security design, development, and management. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to CYSE 587, CYSE 787, SYST 787.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 688: *Financial Systems Engineering II: Derivative Products and Risk Management.* 3 credits.
Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions, as well as facilitating the risk management of those decisions. This course will introduce basic concepts of options, futures, and financial derivatives markets. It will focus on risk management for market risk, credit risk, and operational risk. It will also cover a broad range of derivatives products and discuss how risks are managed in financial institutions. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to OR 688.

Recommended Prerequisite: OR 588 or SYST 588 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 698: *Independent Study and Research.* 3 credits.
Study of a selected area in systems engineering or C3I under the supervision of a faculty member. Written report required. Offered by Systems Engr & Operations Rsch. May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: Completion of at least two core courses, permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

SYST 699: *Masters Project.* 3 credits.
Capstone project course for MS/SE program. Key activity is completion of a major applied team project resulting in an acceptable technical report and oral briefing. Student should plan to take this course in the last semester of studies. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: 21 graduate credits in OR or SYST.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

SYST 735: *Advanced Stochastic Simulation.* 3 credits.
Advanced topics and recent developments in stochastic simulation methodology for discrete-event and agent-based stochastic systems, with applications in artificial intelligence, power systems, manufacturing, health care, transportation, etc. Topics include simulation data analysis, stochastic simulation methodologies in artificial intelligence/machine learning, risk analytics, simulation-based optimization of complex systems, distributed and parallel simulation. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to OR 735.

Recommended Prerequisite: OR 635 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 740: *Advances in Multi-Modeling.* 3 credits.
Focuses on the inter-operation of multiple models expressed in different modeling languages but which draw from the same data set: i.e., multi-modeling. Socio-technical systems often require a variety of modeling tools to define their operation accurately. An ontology based approach is used to analyze the validity of a proposed modeling architecture and workflow to address a specific issue Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: SYST 620 or ECE 673 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 750: *Advanced Topics in Systems Engineering.* 3 credits.
Advanced topics not covered in department's regular systems engineering offerings. Course content may vary each semester depending on instructor and the perception of students' needs. May be repeated for credit when topics are distinctly different. Offered by Systems Engr & Operations Rsch. May be repeated within the degree for a maximum 12 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 600-level course that varies with content of course.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 763: *Research Methods in Systems Engineering and Information Technology.* 3 credits.
Examines alternative paradigms of scientific research and their applicability to research in information technology. Topics include fundamental elements of scientific investigation, basic principles of experimental design and statistical induction, philosophy of science and its relation to the information technology sciences, and case studies of information technology research. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to OR 763.

Recommended Prerequisite: STAT 554, OR 542, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 781: *Data Mining and Knowledge Discovery.* 3 credits.
Statistical and computational methods and systems for deriving user-oriented knowledge from large databases and other information sources, and applying knowledge to support decision making. Information sources can be in numerical, textual, visual, or multimedia forms. Covers theoretical and practical aspects of current methods and selected systems for data mining, knowledge discovery, and knowledge management, including those for text mining, multimedia mining, and web mining. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: One of the following courses: CS 687, CS 650, INFS 614, STAT 663, SYST 664, or Permission of Instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 787: *Cyber Security Systems Engineering.* 3 credits.
This course addresses cyber security from the standpoint of systems engineers. It introduces core principles for the design and management of resilient and robust systems throughout their complete lifecycle. Topics include but are not limited to lifecycle assurance of systems, risk analysis, models for secure systems development and management, gap analysis, quantitative methods for cyber security, and special topics in cyber security. The course also covers distinct technologies for assessing system vulnerabilities, measuring and modeling risk, reducing uncertainty in risk management, and others. Target audience consists of engineers who want to expand their skill sets to better align with the demands of current cyber security jobs, as well as those who intent to work on cyber security research. Cyber security professionals would also benefit from the course by being exposed to a systems engineering, holistic perspective on cyber security design, development, and management. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to CYSE 587, CYSE 787, SYST 687.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 799: *Master's Thesis.* 1-6 credits.
Research project chosen and completed under the guidance of a graduate faculty member, which results in a technical report acceptable to a three-member faculty committee, and an oral defense. Offered by Systems Engr & Operations Rsch. May be repeated within the degree.

Recommended Prerequisite: 21 graduate credits and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

SYST 842: *Models of Probabilistic Reasoning.* 3 credits.
Survey of alternative views about how incomplete, inconclusive, and possibly unreliable evidence might be evaluated and combined. Discusses Bayesian, Baconian, Shafer-Dempster, and Fuzzy systems for probabilistic reasoning. Offered by Systems Engr & Operations Rsch. May not be repeated for credit.

Recommended Prerequisite: STAT 544, OR 542, OR 681 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SYST 850: *Topics in Systems Integration Engineering.* 3 credits.
Covers lifecycles; large systems comprising heterogeneous components; human, organizational, and technological basis for integration; societal and cultural basis; conceptual frameworks; structure, function, and purpose of industry; risk management; user requirements and functional specifications; bid and proposal process; systems integration and federal government; standards; integration of systems and federations of systems; integrated process and product development; architectures; systems management and cost estimation; reengineering; quality management; increasing returns to scale, network effects, and path dependency issues; and systems integration ecology and evolutionary systems integration Notes: May be repeatable if topics are substantially different. Offered by Systems Engr & Operations Rsch. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: SYST 510 or SYST 520.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

900 Level Courses

SYST 944: *The Process of Discovery and Its Enhancement in Engineering Applications.* 3 credits.
Studies ingredients of imaginative reasoning as they concern efficient discovery of new ideas and valid evidential test of them. Topics include different interpretations of Peirce's theory of abductive reasoning and other forms of reasoning, Hintikka's analysis of process of inquiry, and current attempts to design systems that provide assistance in discovery-related or investigative activities. Offered by Systems Engr & Operations Rsch. May not be repeated for credit. Equivalent to OR 944.

Recommended Prerequisite: IT 842, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Systems Engineering and Operations Research (SEOR)

700 Level Courses

SEOR 750: *Advanced Topics in Systems Engineering and Operations Research.* 3 credits.
Advanced topics, applications, or recent developments in the interface of systems engineering and operations research. Course content may vary each semester depending on instructor and the perception of students' needs. May be repeated for credit when topics are distinctly different. Offered by Systems Engr & Operations Rsch. May be repeated within the degree for a maximum 12 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: 600-level course.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

SEOR 796: *Directed Reading and Research.* 1-3 credits.
Reading and research on specific topic in systems engineering or operations research under direction of faculty member. Offered by Systems Engr & Operations Rsch. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

800 Level Courses

SEOR 800: *Systems Engineering and Operations Research Colloquium I.* 0 credits.
Students in this course are required to attend at least five departmental colloquium events in a semester. These are talks given by distinguished speakers, faculty candidates, and Mason faculty. Students may attend related seminars with prior approval of the course coordinator. Doctoral students must take this course for at least three semesters prior to registering for SEOR 997. Offered by Systems Engr & Operations Rsch. May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Systems Engineering Ops Rsch.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

900 Level Courses

SEOR 997: *Systems Engineering and Operations Research Colloquium II.* 3 credits.
Students in this course are required to attend at least five departmental colloquium events in a semester. Students must also give one presentation of their research in a public forum open to SEOR students and faculty. Students must successfully complete three semesters of SEOR 800 prior to registering for SEOR 997. Offered by Systems Engr & Operations Rsch. May be repeated within the degree.

Recommended Prerequisite: Completion of 3 semesters of SEOR 800

Registration Restrictions:
Required Prerequisite: SEOR 800.

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to students with a major in Systems Engineering Ops Rsch.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale.

SEOR 998: *Doctoral Dissertation Proposal.* 1-12 credits.
Work on research proposal that forms basis for doctoral dissertation. Notes: No more than 24 credits of SEOR 998 and 999 may be applied to doctoral degree requirements. Offered by Systems Engr & Operations Rsch. May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

SEOR 999: *Doctoral Dissertation.* 1-12 credits.
Formal record of commitment to doctoral dissertation research under direction of faculty member approved by SEOR Department. Offered by Systems Engr & Operations Rsch. May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale.

Technology Management (TECM)

600 Level Courses

TECM 601: *Business Models.* 1 credit.
Provides an introduction to high tech industries, emerging technologies and business models that are transforming technology-intensive industries such as music, financial services and healthcare. The course covers techniques for analyzing how organizations create, deliver and capture value. The students use case-based approach to analyze traditional and high-tech organizations to understand their business models, and identify causes for success and failures. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 603: *IT Leadership and the Global CIO.* 1 credit.
This course provides an introduction and overview of Information Technology (IT) leadership and the role of the evolving CIO. The focus is on the global nature of the CIO position in organizations today. The relationship between the CIO and other c-level executives is examined including new positions such as the Chief Digital Officer that overlap with the CIO position. The responsibilities of the CIO in organizations in the US and abroad are explored. This course integrates with the global residency and global business perspectives course. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 611: *Leadership and Change Management.* 2 credits.
Examines the critical roles and functions of leadership with special attention to how leaders influence organizational performance and manage change. Topics include providing direction, creating a culture for effectiveness, the use of power and influence, leadership development, leading under changing conditions, and leading and managing change. Offered by School of Business. May not be repeated for credit. Equivalent to MSIS 611.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 614: *Financial and Cost Accounting.* 2 credits.
Focuses on the economics and analysis of business transactions and financial reporting. Topics include an introduction to the financial reporting framework, review of how accountants measure and manage financial reporting, an introduction to cost concepts and product costing, and an analysis of capital investments and management control. Emphasis is placed on providing an analytic framework for evaluating transactions and companies. Offered by School of Business. May not be repeated for credit. Equivalent to MSIS 614.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 620: *Economics of Global Technology Management.* 1-3 credits.
This course will take an economics-based approach to developing a framework for managers to use in analyzing problems and making decisions in a global business context. Emphasis will be placed on the importance of incentives and information in shaping decisions and results. Major elements to be treated include factors influencing the global demand for products and services, the nature of input-output relationships, the determinants of costs and profitability, and the global competitive environment within which firms operate. Particular attention will be directed toward the role of information-technology resources in determining organizational performance, the significant features of global markets related to information technology, and the potential for innovation to create competitive advantages. Offered by School of Business. May not be repeated for credit. Equivalent to MSIS 620.

Recommended Prerequisite: Admission to Technology Management Program or permission of the program director.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 635: *Decision Models for Technology Management.* 1-3 credits.
Explores current metrics and metric development for quality, intangible assets, and project management as required within information technology companies. Applies statistical tools of best use with these metrics. Offered by School of Business. May not be repeated for credit. Equivalent to MSIS 635.

Recommended Prerequisite: Admission to Technology Management Program or permission of the program director.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 641: *Negotiation and Conflict Management.* 1-3 credits.
Students acquire insights and skills for negotiation and conflict resolution as they relate to a variety of organizational situations - including teamwork, communication and coordination, power and influence, legal disputes, career development, cross-cultural and international issues, as well as tackling ethical problems. The course is highly experiential, and is built on a foundation of hands-on exercises and extensive class discussion. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 643: *Managerial Finance.* 2 credits.
Surveys the theory and practice of corporate financial management with specific application to the technology sector. Students develop an understanding of key elements required in the valuation of project alternatives; including their strategic importance. Students evaluate and use financial management models and gain an understanding of how finance can be employed as a source of potential competitive advantage. Offered by School of Business. May not be repeated for credit. Equivalent to MSIS 643.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 696: *Directed Studies in Technical Management.* 1-3 credits.
Approval by faculty member and program director required prior to registration. Studies specialized topics in business not otherwise available in the curriculum. Offered by School of Business. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Admission to the TECM program or permission of the program director.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

TECM 697: *Special Topics in Technology Management.* 1-3 credits.
Sections established as necessary to focus on various topical issues that emerge in practice of business. Offered by School of Business. May be repeated within the term for a maximum 6 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Admission to the TECM program or permission of the program director.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

700 Level Courses

TECM 702: *Building High Performance Global Teams.* 2 credits.
This course seeks to deepen your understanding of human behavior in organizations and to improve your ability to manage human capital from a global business perspective. Topics include effective managerial learning, problem solving, decision making, building and maintaining effective work relationships, building and leading teams, and motivating and evaluating performance from a cultural and international business context. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Professional Studies(Tech Mgt) or Technology Management.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 704: *Management of Technology Projects and Portfolios.* 2 credits.
Examines advanced topics in project and program management, with specific attention to the issues that managers face to effectively manage programs. This involves managing resources (both internal and external to the organization) and managing within an existing organizational structure. Specific program management topics include advanced topics for project management, program alignment with strategic objective, management of stakeholders, and development and organization of the program office. Strategic and operational tools and metrics also are discussed. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Professional Studies(Tech Mgt) or Technology Management.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 711: *Deriving Strategic Value from IT Investments.* 2 credits.
Reviews approaches for aligning IT strategy and investment with organizational strategy. The course covers methodologies for IT investment, planning and control including cost benefit, economic and risk analysis; benefits of alternative IT investments; methods of technology road mapping; and capital investment analysis. IT performance assessment methodologies and acquisition planning and design, are also reviewed. Offered by School of Business. May not be repeated for credit. Equivalent to MSIS 711.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 720: *Competitive Strategy in Technology Industries.* 2 credits.
Provides students with an understanding of the impact of information technology on firms and industries and equips them to develop and execute appropriate strategies. Although the emphasis is on information technology firms and industries, a key goal of the course is to better prepare students to respond to a diverse array of information technology challenges. Course work covers the demand and the supply side of information technology, as well as the development of frameworks and analytical tools to help put events, behaviors, and processes into understandable contexts. Offered by School of Business. May not be repeated for credit.

Recommended Prerequisite: Admission to Technology Management Program or permission of the program director. TECM 615 and 620.

Registration Restrictions:
Enrollment is limited to students with a major in Professional Studies(Tech Mgt) or Technology Management.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 721: *Digital Transformation.* 1-3 credits.
This course will focus on understanding IT strategy and the alignment to business strategy and current digital transformation initiatives. Digital transformation represents a major initiative for most companies and requires considerable organizational change over time. Many companies have hired Chief Digital Officers to lead this effort in companies. This course will provide industry perspectives on digital transformation trends and competitive implications. Industry examples and company strategies will be examined. Students will learn the skills to set a vision, develop a strategy, and execute a plan for digital transformation for an organization. This course is designed around industry perspectives with experts on digital transformation across industries participating in the classes. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 735: *Technology Management Capstone Project.* 0-1 credits.
Teams undertake a strategic evaluation and plan for IT-driven business initiatives. Presentation includes analysis of competitive forces and the value chain; recommendations, including changes in goals and organizational design; plan of action integrating marketing, human resource development, organizational design, finance, and information

technology; and implementation plan using theories of communication and change management, to include business case and business plan. Offered by School of Business. May not be repeated for credit. Equivalent to MSIS 735.

Recommended Prerequisite: Admission to Technology Management Program or permission of the program director.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale.

TECM 741: *Marketing of Innovations and Technology.* 2 credits.
Provides students the opportunity to conduct a detailed exploration of effective marketing strategies, including product and service development, branding, and customer relationships, in preparation for developing a marketing plan for a technology related innovation. Specific course topics include: assessing the marketplace, understanding the customer, market segmentation, developing and positioning the offering, pricing, branding, distribution, and promotion. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 743: *Security Risk Analysis and Assessment.* 1 credit.
Focuses on the analysis of security risk to the business within IT systems and across IT architecture and enterprise practices. Offered by School of Business. May not be repeated for credit.

Recommended Prerequisite: C or better in TECM 747.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 744: *IT Audit Control.* 2 credits.
Introduces methodologies to assess security and control issues concerning accounting and other information systems. A key feature of the course will be applying Computer Assisted Audit Tools and Techniques (CAA Ts) to test effectiveness of application controls. Students will gain hands-on experience by using Generalized Audit Software (GAS) such as ACL to extract data from a database and perform a variety of analyses. Examples of other topics covered include business continuity planning, continuous auditing, control objectives for information technology, COSO's framework for risk management, assessment of transaction processing integrity, and role of information assurance in e-commerce. Offered by School of Business. May not be repeated for credit.

Recommended Prerequisite: C or better in TECM 747.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Enrollment limited to students in a Non-Degree Undergraduate degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 745: *Leading and Managing IT Operations.* 2 credits.
Explores best practices in the IT industry. Students analyze practices in terms of gaining competitive advantage in an industry where the scarcity economic model for products no longer applies. Course work focuses on leading an organization with the IT function. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Professional Studies(Tech Mgt) or Technology Management.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 746: *Enterprise Architecture and IT Governance.* 2 credits.
Examines the operational, financial and strategic considerations of leading enterprise architecture and reviews the historical development of enterprise architecture. Major enterprise architecture frameworks including Zachman and TOGAF are examined. The relationship of enterprise architecture to IT governance, approaches to IT governance and the role of the CIO, and the relationship of IT governance to organizational performance, are also discussed. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 747: *Information Assurance and Security Management.* 2 credits.
Addresses the increasingly critical areas of information security and information assurance. Specific focus is on best practices for assessment, planning and management of information security strategy, policy, organizations and controls to minimize the risks pertaining to unauthorized use, processing, storage, and communication of digital

information. Pertinent legislation and policy requirements are also covered. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 749: *Developing and Emerging Technologies.* 1-3 credits.
This course will focus on an understanding of the current technology landscape of emerging technologies and technologies that are moving into the maturing phase. It is essential that IT leaders keep abreast of the latest technologies and understand the implications for industries, the workplace, and society. Emerging technologies can be disruptive to business as usual and understanding the business implications early is crucial for success. The course is designed around industry perspectives with experts on various technologies participating in the classes. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 752: *Global Technology Management.* 1-3 credits.
Provides the opportunity for students to spend a week in a country or countries that are leading edge in technology and technology management. Students visit corporations and governments and interact with corporate and IT executives, and government leaders. Topics include CIO and eGovernment, commercialization of emerging technologies, national competitiveness, international development, global supply chains and virtual teams. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 753: *Global Leadership Perspectives.* 1-3 credits.
This course will focus on understanding global dimensions of doing business across borders that IT leaders need to understand to conduct their business successfully. It has become essential that IT leaders understand the political, legal, economic, social, and technological issues that impact business operations in other countries. Global supply chains and integration of technology through global networks require an understanding of global operations, differences in negotiating contracts, and importance of establishing relationships. Understanding differences and similarities in developing and emerging markets is key to reverse innovation success in these markets. This course is designed around industry perspectives with various experts on global topics participating in the classes. Offered by School of Business. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TECM 760: *CIO Applied Project.* 1-3 credits.
This course represents the applied project for the CIO Certificate. Students will develop a strategic IT project that addresses an IT leadership issue for a company that the CIO would be responsible for implementing (e.g., Develop a Cloud Strategy for a company or IT systems integration plan). Students work in teams and present their work to company representatives from the company they are working with. Offered by School of Business. May be repeated within the term for a maximum 3 credits.

Registration Restrictions:
Required Prerequisites: (TECM 602[B-] or 602[XS]) and (TECM 620[B-] or 620[XS]) and (TECM 702[B-] or 702[XS]) and (TECM 752[B-] or 752[XS]) and (TECM 763[B-] or 763[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Technology Management.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Fieldwork

Grading:
This course is graded on the Graduate Regular scale.

TECM 761: *Global IT Leadership Applied Project.* 1-3 credits.
This course is a Global IT applied project that intersects with a specific company need and student team interest. Students will work in teams to complete a project that relates to global IT management and provides value to the company undertaking the project. Projects may focus on global reverse innovation strategies, global expansion strategies, merger and acquisition strategies across borders, or other project that has a substantial IT component that IT leaders might encounter. Students will present their recommendations to representatives of the company and/or faculty and others from the business community. Offered by School of Business. May be repeated within the term for a maximum 3 credits.

Registration Restrictions:
Required Prerequisites: ((TECM 602[B-] or 602[XS]) and (TECM 620[B-] or 620[XS]) and (TECM 702[B-] or 702[XS]) and (TECM 752[B-] or 752[XS])).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Global IT Leadership or Technology Management.

Enrollment is limited to Graduate level students.

Schedule Type: Fieldwork

Grading:
This course is graded on the Graduate Regular scale.

TECM 762: *IT Strategy and Digital Transformation Applied Project.* 1-3 credits.
This course represents the applied project for the IT Strategy and Digital Transformation Certificate. Students will work in teams to develop a digital transformation strategy for a company. Company representatives will work with students to develop the strategy based on requirements of the company that may be comprehensive or focus on a particular domain such as customer experience. Prior course work provides the foundation and skills for students to complete this applied project. Students will present their recommendations to representatives of the company and / or faculty and others from the business community. Offered by School of Business. May be repeated within the term for a maximum 3 credits.

Registration Restrictions:
Required Prerequisites: (TECM 602[B-] or 602[XS]) and (TECM 620[B-] or 620[XS]) and (TECM 702[B-] or 702[XS]) and (TECM 752[B-] or 752[XS]).
[B-] Requires minimum grade of B-.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major in Global IT Leadership or Technology Management.

Enrollment is limited to Graduate level students.

Schedule Type: Fieldwork

Grading:
This course is graded on the Graduate Regular scale.

Telecommunications (TCOM)

500 Level Courses

TCOM 500: *Modern Telecommunications.* 3 credits.
Comprehensive overview of telecommunications, including current status and future directions. Topics include review of evolution of telecommunications; voice and data services; basics of signals and noise, digital transmission, network architecture and protocols; local area, metropolitan and wide area networks and narrow band ISDN; asynchronous transfer mode and broadband ISDN; and satellite systems, optical communications, cellular radio, personal communication systems, and multimedia services. Examples of real-life networks illustrate basic concepts and offer further insight. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 575, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 514: *Basic Switching: Lecture and Laboratory Course.* 3 credits.
Basic switching techniques and protocols for low and high-speed digital packet networks (Ethernet, Frame Relay, ATM, X.25) are taught within a half semester lecture series, followed by hands-on laboratory for remainder of semester. Real-life scenarios taught in the laboratory element through exercises that involve configuring switches and routers. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 535 or IT 341

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 515: *Internet Protocol Routing: Lecture and Laboratory Course.* 3 credits.
Internet Protocol (IP) routing overview; static routing; dynamic routing; default routing; access lists; route redistribution; RIP, OSPF, IGRP, EIGRP, IS-IS, and BGP protocols submitted for comment. Real-life scenarios taught in laboratory element through exercises that involve configuring routers as network elements. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 535, IT 341.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 521: *Systems Engineering for Telecommunications Management.* 3 credits.
Advanced software principles, techniques, and processes for designing and implementing complex telecommunication systems. Planning

and implementation of telecommunications systems from strategic planning through requirements, initial analysis, general feasibility study, structured analysis, detailed analysis, logical design, and implementation. Current system documentation through use of classical and structured tools and techniques for describing flows, data flows, data structures, file designs, input and output designs, and program specifications. Practical experience gained through project. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 500.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 530: *Data Communications Fundamentals.* 3 credits.
Covers the foundations of modern data communications. The lower layers of the OSI reference model are discussed with an emphasis on the data link and the network layers. Concepts are illustrated by drawing examples from important data networks ranging from local are networks to the Internet. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 535: *The TCP/IP Suite of Internet Protocols.* 3 credits.
Provides an in-depth treatment of the protocols that define the Internet. Topics include: IPv4 addressing and subnetting; CIDR; Data Link Protocols: ARP, RARP; Network Protocols: IP, ICMP; IP Routing Protocols: RIP, OSPF, IS-IS, BGP; Transport Protocols: TCP, UDP; TCP Features: Windowing, Congestion Control, Advanced Protocols: MPLS; Internet Security: IPSec, SSL. Offered by Electrical & Comp. Engineering. May be repeated within the degree.

Recommended Prerequisite: TCOM 530.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 547: *Project Management in Telecommunications.* 3 credits.
Develops integrated approach to managing major telecommunications project; evaluates and uses tools and software for project management, with specific goals of containing costs and time overruns; introduces elements for resolving conflict resolution and applying motivation within project team, and gaining the ability to monitor and control projects in changing environment; develops understanding of unique attributes of major telecommunications systems such as interoperability requirements and international technical standards. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 551: *Digital Communication Systems.* 3 credits.
Digital transmission of data, voice, and video. Covers signal digitization; modulation and demodulation; error correction coding; multiple access methods; multiplexing; synchronization; channel equalization; frequency spreading; encryption; transmission codes; digital transmission using bandwidth compression techniques; elements of information theory; and development of link budget evaluation such as system noise temperature, Nyquist filter concepts, antenna gain, and filter bandwidth. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 500.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 552: *Introduction to Mobile Communications Systems.* 3 credits.
Introduces mobile communication system design and analysis. Topics include mobile communication channel, access and mobility control, mobile network architectures, connection to fixed network, and signaling protocols for mobile communication systems. Offers examples of mobile communication systems including panEuropean GSM system, North American DAMPS system, and Personal Communication Systems. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 500, TCOM 551.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 561: *Security, Privacy, and Applied Cryptography for Telecommunications.* 3 credits.
Presents on introductions to Computer and Network Security and Privacy; Digital Threats; Authentication Techniques; Vulnerabilities; Integrity; Access Control; Threat Modeling and Risk Assessment; Security Policies and Countermeasures; Cryptography; Block Ciphers and DES; AES; Cipher Block Operation; Certificate and Credentials; Public Key Cryptography and RSA; Key Management; Digital Signature; Electronic Mail Security; IP Security. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 500 and TCOM 530.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 562: *Network Security Fundamentals.* 3 credits.
Introduces full spectrum of network security. Topics include taxonomy such as language commonality in incident handling, national strategy to secure cyberspace, and cybersecurity organizations; organizational structure for network defense; best practices, security policy, and threats; actors and tools, countermeasures, vulnerability identification/correction, intrusion detection, and impact assessment; firewalls and intrusion detection systems; antivirus software; active defense; disaster recovery; and law enforcement and privacy issues. Reviews threats and vulnerabilities in network systems based on reports, case studies available in the literature, and actual experience. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 500.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 570: *Network Automation.* 3 credits.
This is a project-based course that focuses on the process of automating the configuration, management, testing, and operation of physical and virtual devices within a network. Topics covered include: Setting up Virtual Lab, PyCharm, Intro to Linux, Loops and conditions, Function, Class, string and data manipulation, Python sockets, Logging, error handling, Regex, Pandas, Database (SQlite3/mongodb), Paramiko, Flask and Graphing, Requests, API and web scrapping and Ansible for network automation. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 590: *Selected Topics in Telecommunications.* 1.5-3 credits.
Selected topics from recent developments and applications in various engineering disciplines within specialty modules 1, 2, and 3 of the TCOM program. The course is designed to help the professional engineering community keep abreast of current developments. Notes: The 1.5-credit course lasts for one-half semester (approximately seven weeks) while the 3-credit course lasts for the full semester. Offered by Electrical & Comp. Engineering. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 598: *Independent Study in Telecommunications.* 1.5-3 credits.
Directed self-study of special topics in telecommunications that relate to specialty modules 1, 2, and 3. Topics must be arranged with instructor and approved by program director before registering. Notes: May be taken for either 1.5 credits or 3.0 credits in fall and spring semesters. No more than total 6 credits may be taken from combination of TCOM 598, 599, 696, and 697 courses for credit in TCOM program. Offered by Electrical & Comp. Engineering. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale.

600 Level Courses

TCOM 606: *Advanced Mobile Communications Systems.* 3 credits.
Introduction to post-second generation cellular systems; benefits and features of third-generation (3G) systems and personal communications services (PCS); review of air interface standards and transmission technologies for mobile and quasi-stationary wireless systems, including cellular networks, satellite networks, indoor systems (Wi-Fi, Personal Local Area Networks, Orthogonal Frequency Multiplexing, Ultra Wide Band technologies); review of network control strategies; investigation of user authentication, privacy, and data and voice encryption aspects. Evolving technology, analysis of competing multiple access methods, transition plans, and backward compatibility between 2G, 21/2 G, 3G, and future systems, with possible fallback plans. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 552.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 607: *Satellite Communications.* 3 credits.
Topics include introduction to satellite communications systems; historical aspects; orbital mechanics and launchers; satellite components such as payload, orbital maneuvering systems, cooling systems, and antennas; look angle predictions; link budget; overall link design; multiple access such as TDMA, CDMA, ALOHA, TDMA, and MFTDMA; error control for digital satellite links; propagation effects on satellite links; elements of VSAT systems and nongeostationary satellite systems; and direct broadcast satellite services. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 551.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 608: *Optical Communications Systems.* 3 credits.
Introduction and Overview of Optical Fiber Communications Systems and Optical Communication Networks. Specific topics include Optical Resonators; Photons and Matter, Lasers, Photons in Semiconductors; Semiconductor Photon Sources and Detectors; Light Emitting Diodes; Modulation of Optical Signals; Optoelectronic Networks; FDDI, Fiber channel, SONET, SDH, Ethernet on Optical Networks; Wavelength Division Multiplexing (WDM) networks; Basics of Fiber Optic System Design. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 500.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 609: *Interior Gateway Protocol (IGP) Routing.* 3 credits.
Discusses development of Interior Gateway Protocols, including standards documents; interaction between various interior and exterior gateway protocols; design procedures and implementation aspects; field trial issues; and analysis of latest RFC information posted on IETF web site. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 515 and TCOM 535, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 610: *Border Gateway Protocol (BGP) Routing.* 3 credits.
Discusses development of Border Gateway Protocol and its application in today's Internet routing architecture. Covers evolution of Internet, BGP routing standard specifications (RFCs), interaction between various routing protocols, network BGP routing design principals and procedures for enterprise and ISP networks, BGP's real-world implementation and configuration syntax, network scalability and convergence issues, and the latest extension and proposals for new standards. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 509 and TCOM 515, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 611: *Multi-Protocol Label Switching (MPLS).* 3 credits.
Develops full understanding of Multi-Protocol Label Switching (MPLS) theory, technology, and implementation aspects through detailed analysis of MPLS routing concepts and protocol stacks, and completion of major project to reinforce understanding of MPLS. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 609 or 610

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 614: *Advanced Routing Lab.* 3 credits.
Covers the principles and theory of Multiprotocol Label Switching (MPLS). Topics include MPLS Architecture, Label Distribution Protocols, MPLS Virtual Private Network, MPLS traffic engineering, Any Transport over MPLS (AToM), and Quality of Service (QoS). The class is interleaved with hands-on labs, detailing how to implement and troubleshoot MPLS and its applications. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 535 and (TCOM 514 or TCOM 515)

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 616: *Scalable Network Architecture.* 3 credits.
Covers concepts and protocols associated with designing highly available and scalable networks on the cloud. Topics include server class operating systems and their application in Internet and enterprise deployments, techniques used to support an enterprise cloud network, networking in virtualized environments and fundamentals of cloud computing. Course also includes exercises and lab work that applies concepts learned throughout the course. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 514, TCOM 515 and TCOM 535

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 617: *Enterprise Network Architecture.* 3 credits.
Cover various advanced technologies used in ensuring quality for critical business applications and cost-effective solutions for providing both secure and non-secure communication across a public infrastructure. Topics covered include Quality of Service Performance Routing (PfR), IPSec Virtual Private Networks (VPNs), and Data Center Interconnect (DCI). Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 535

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 631: *Voice Over IP.* 3 credits.
Presents the protocols used for transporting voice over Packet Switched Network. Topics include: Signaling basics; Topics; VoIP Network Scenarios and Connection Strategies; Communication Protocols: RTP, RTCP; VoIP Decomposition; Performance and quality metrics for VoIP; VoIP Signaling Protocols: H.323, SIP, SS7; Softswitches: architecture, functionality, application; VOIP-PSTN integration and migration; VOIP Quality and QoS; VoIP Security: Vulnerabilities, remedies; NextGen VoIP. VoIP Mobility, Equipment, Voice XML, IMS; Future of VoIP. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 535.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 652: *5G Service, Technology and Network.* 3 credits.
This course provides an overview of Fifth Generation (5G) wireless communications systems including ITU IMT2020 use cases, services, spectrum, capabilities, performance objectives and world-wide deployment status. The 3GPP and 3GPP2 cellular standards for Third Generation (3G) and Fourth Generation (4G) / LTE wireless communications systems will be reviewed as foundation. WiFi and Bluetooth will be discussed for their role in 5G. The 5G new radio (NR) air interface, 5G architecture, 5G core network and 5G security are presented. The 5G call flow procedures, real-life performance testing results and over the air messaging are investigated. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 551

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 653: *Global Positioning System (GPS).* 3 credits.
Presents in-depth treatment of theoretical and practical aspects of the Global Positioning system. Topics include: Basic Transmission Engineering for GPS; Spaced-Based Systems, Navigation, GPS Architecture, Signals, Ranging; Sources of Ranging Errors, Atomic Clocks, Timescales, Frequency Stability, Time Distribution, Carrier-to-Noise Ratio (C/No), Noise Figure and Noise Factor, Code and Signal Generation. Signal Acquisition and Tracking, Modulation/Demodulation, Correlation, Time-To-First-Fix, Almanac and Dual-Frequency Capability; Differential GPS, Global Navigation Satellite Systems and Augmentation Systems. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 500.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 660: *Network Forensics.* 3 credits.
Deals with the collection, preservation, and analysis of network-generated digital evidence such that the evidence can be successfully presented in a court of law (both civil and criminal). The relevant federal laws will be examined as well as private sector applications. The capture/intercept of digital evidence, the analysis of audit trails, the recording of running processes, and the reporting of such information will be examined. Offered by Electrical & Comp. Engineering. May not be repeated for credit. Equivalent to CFRS 660, DFOR 660.

Recommended Prerequisite: TCOM 535 and a working knowledge of computer programming.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the following colleges:

- College of Science
- Schar School of Policy and Gov
- School of Business
- Volgenau School of Engineering

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 661: *Digital Media Forensics.* 3 credits.
Covers the collection, preservation, and analysis of digital media such that the evidence can be successfully presented in a court of law (both civil and criminal). The relevant federal laws and private sector applications will be examined, as well as the seizure, preservation, and analysis of digital media. Offered by Electrical & Comp. Engineering. May not be repeated for credit. Equivalent to CFRS 661, DFOR 661.

Recommended Prerequisite: DFOR 510 and a working knowledge of computer operating systems (e.g. CYSE 211, IT 342, or equivalent).

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the following colleges:

- College of Science
- Schar School of Policy and Gov
- School of Business
- Volgenau School of Engineering

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 662: *Advanced Secure Networking.* 3 credits.
Advanced technologies in network security that can be applied to enhance enterprise and ISP's network security. Covers network perimeter defense concept and various components for complete layered defense system. Examines each component and its technologies, including TCP/IP protocol vulnerabilities, router access control list (ACL), dynamic ACL, firewall, network address translation (NAT), virtual private network (VPN), IPSec tunnels, intrusion detection system (IDS), routing protocol security, denial-of-service (DOS) attack, DOS detection and mitigation techniques. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: TCOM 535 and TCOM 562, and a working knowledge of network routing protocols.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 663: *Operations of Intrusion Detection for Forensics.* 3 credits.
Introduces students to network and computer intrusion detection and its relation to forensics. Addresses intrusion detection architecture, system types, packet analysis, and products. Presents advanced intrusion detection topics such as intrusion prevention and active response, decoy systems, alert correlation, data mining, and proactive forensics. Offered by Electrical & Comp. Engineering. May not be repeated for credit. Equivalent to CFRS 663, DFOR 663.

Recommended Prerequisite: TCOM 535 and a working knowledge of computer programming.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 664: *Incident Response Forensics.* 3 credits.
Addresses incident detection, response, and those aspects of computer forensics pertinent to the investigation of trade secret theft, economic espionage, copyright infringement, piracy, and fraud. Procedures for gathering, preserving, and analyzing forensic evidence are discussed in detail and are applied to both computer and network incident response forensics. Offered by Electrical & Comp. Engineering. May not be repeated for credit. Equivalent to CFRS 664, DFOR 664.

Recommended Prerequisite: TCOM 535.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 690: *Advanced Topics in Telecommunications.* 3 credits.
Advanced topics from recent developments and applications in various engineering disciplines in specialty modules 1, 2, and 3 of TCOM program. Advanced topics chosen so that they do not duplicate existing TCOM courses. Active participation of students encouraged in form of writing and presenting papers in various research areas of advanced topic. Enhances professional engineering community's understanding of breakthrough developments in specific areas. Offered by Electrical & Comp. Engineering. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Permission of instructor; specific prerequisites vary.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

TCOM 696: *Independent Reading and Research.* 1.5-3 credits.
Study of selected area in specialty modules 1, 2, or 3 under supervision of faculty member. Written report required. Notes: No more than total of 6 credits may be taken from combination of TCOM 598, 599, 696, and 697 for credit in TCOM program. Offered by Electrical & Comp. Engineering. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale.

TCOM 698: *Telecommunications Projects Course.* 3 credits.
To be taken toward end of degree program within any of modules 1, 2, or 3. Primary activity is completing major applied project, preferably with group of two to three people. Secondary goal is consolidating training before graduation so that, in some cases, it may act as capstone course. Students and outside telecommunication industry managers present ideas for projects and, through grouping of students, new skills and approaches may be learned. Some class time used for discussion of projects, either to monitor progress or explore alternative approaches. Readings, class-time discussion of current trends, difficulties, and new opportunities for industry most relevant to module. Concludes with presentations of projects to department faculty. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: Graduate standing with at least 18 credits or permission of department.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

TCOM 750: *Coordinating Seminar.* 3 credits.
Open only to students in MA or MS in telecommunications programs with at least 18 credits of course work prior to registration. Topics include specific telecommunications problems in management, law, engineering, education, and communications. Focuses on ways a problem in one area can create or solve a problem in other areas. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

Recommended Prerequisite: Open only to students in the MA or MS in telecommunications programs with at least 18 credit hours of course work prior to registration.

Registration Restrictions:
Enrollment is limited to students with a major in Telecommunications or Telecommunications.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

Theater (THR)

100 Level Courses

THR 101: *Theatrical Medium.* 3 credits.
An introduction to theater throughout history and the world. Enhances an understanding of the nature of theater in society. Offered by Theatre. Limited to three attempts.

Mason Core: Arts

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 150: *Greeks to Restoration.* 3 credits.
Examines the development of Western drama and the collective art of theater from its beginnings through Restoration. Considers readings in dramatic literature and history of theater in social and cultural contexts. Offered by Theatre. Limited to three attempts.

Mason Core: Arts

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 151: *Romanticism to Present.* 3 credits.
Considers readings in dramatic literature and history of western theater in social and cultural contexts from the romantic period to present day. Offered by Theatre. Limited to three attempts.

Mason Core: Arts

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 191: *Theater Support/Engagement.* 0 credits.
Each semester, registered students complete four activites in support of the School of Theater. To graduate as a Theater major, students must complete 4 semesters of the course. Offered by Theatre. May be repeated within the term for a maximum 12 credits.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale.

THR 196: *Performance or Design Practicum.* 1 credit.
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Player production. Assignments include performance, design, and stage management. Open to all Theater majors, theater minors, and non-majors. Notes: Successful completion of this course is required to earn a Theater degree. Offered by Theatre. Limited to three attempts.

Schedule Type: Studio

Grading:
This course is graded on the Satisfactory/No Credit scale.

THR 197: *Stage or Literary Practicum.* 1 credit.
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Positions include directing, dramaturgy, and leadership in technical productions. Open to all theater majors, theater minors, and non-majors. Notes: Successful completion of this course is required to earn a Theater degree. Offered by Theatre. Limited to three attempts.

Schedule Type: Studio

Grading:
This course is graded on the Satisfactory/No Credit scale.

THR 198: *Theatrical Construction Practicum.* 1 credit.
Academic credit awarded for satisfactory completion of a minimum of 30 hours of participation on a Mason Players production. Areas include scenery construction, scene painting, costume construction, props and other technical assignments. Theater majors, theater minors, and non-majors welcomed. Notes: Successful completion of this course is required to earn a Theater degree. Recommended for freshman Theater majors, first year transfers, and new Theater majors. Contact School of Theater for CRN. Offered by Theatre. Limited to three attempts.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale.

THR 199: *Production Run Crew Practicum.* 1 credit.
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Assignments include run crew, light board operator, sound board operator, wardrobe, and fly crew. Theater majors, theater minors, and non-majors welcomed. Notes: Successful completion of this course is required to earn a Theater degree. Recommended for freshman Theater majors, first year transfers, and new Theater majors. Contact School of Theater for CRN. Offered by Theatre. Limited to three attempts.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale.

200 Level Courses

THR 200: *Play Production Practicum.* 1 credit.
Academic credit is awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Students who have completed THR 196, THR 197, THR 198, and THR 199 may register for THR 200 to receive credit for their participation on additional productions. Offered by Theatre. May be repeated within the term for a maximum 8 credits.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale.

THR 201: *Stage Management.* 3 credits.
Introduction to the fundamentals of stage management and the stage manager's role for production. Learn and develop the organizational skills of running and maintaining a production with emphasis on skillful methods in communication and problem solving. Analyzes text from a Stage Manager's perspective. Requirements include creating a stage manager prompt book containing important show documents. Offered by Theatre. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 210: *Acting I.* 3 credits.
Students practice contemporary acting techniques individually and in a group. Promotes and develops performance and practical communication skills. Attend theatrical productions, and respond to those experiences. Offered by Theatre. Limited to three attempts.

Mason Core: Arts

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 211: *Mason Cabaret.* 1 credit.
Students develop an understanding of major artistic work through vocal performance. Performance of works from musical theater repertoire. Notes: Public concerts required. Offered by the School of Theater. Open to all theater majors, theater minors, and non-majors. Audition or interview required. Offered by Theatre. May be repeated within the degree for a maximum 4 credits.

Schedule Type: Studio

Grading:
This course is graded on the Satisfactory/No Credit scale.

THR 230: *Fundamentals of Production.* 3 credits.
Students explore current production practices in scenery, costumes, lighting, and sound through classroom and hands on experience. Concepts and skills acquired in this class may be applied in theater, film, dance, game design, art, corporate events, and architecture. Lab hours include work on live performances. Offered by Theatre. Limited to three attempts.

Mason Core: Arts

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 240: *Introduction to Theatrical Design.* 3 credits.
Foundational theatrical design course that will introduce students to methods used for script analysis, research, design ideas, and collaboration by theatrical designers to create adaptable worlds for theatrical production. Offered by Theatre. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

THR 300: *Voice and Speech.* 3 credits.
A mixed theory introduction for performers, presenters, and anyone wishing to improve their speaking voice. Basic techniques in breathing, vocal production, and articulation. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 210 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 301: *Advanced Study in Voice.* 3 credits.
Addresses various topics in technique of vocal production for the actor with an emphasis on playing characters for stage, radio, voice-over, and screen. Offered by Theatre. May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: THR 300 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 303: *Movement for Actors.* 3 credits.
Develops the physical aspect of the actor's instrument emphasizing free and responsive expression of impulse and intention, as well as character development and visual storytelling. Offered by Theatre. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 304: *Advanced Movement for Actors.* 3 credits.
Advanced work in physical expression, for character development. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 305: *Unarmed Stage Combat.* 3 credits.
Studies safe, effective techniques for performing violence for stage and screen. Emphasizes acting the fight, safety, and storytelling. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 210 and 310 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 306: *Movement in Musical Theater.* 3 credits.
Students will explore and perform Movement for Musical Theater to include both character development and choreography. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Arts Management, Art and Visual Technology, Dance, Film and Video Studies, Computer Game Design, Music or Theatre.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 310: *Acting II.* 3 credits.
Deepens an understanding of performance analysis, and character relationships through scene work. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 210 or permission of instructor.

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

THR 313: *Event Technical Production.* 3 credits.
A theoretical and practical study of event technology and production. The course will include specifications, layout installation techniques and operation of sound systems, lighting systems, video systems, and staging processes for the event industry sector. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 314: *Lighting Stagecraft.* 3 credits.
Practical and theoretical instruction on becoming theatrical electrician. Includes ideas on workplace safety, basic electrical procedures, theatrical electrical production, integrating with other theater professionals, and professionalism. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 230 or permission of instructor.

Recommended Corequisite: THR 200.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 315: *Sound Engineering.* 3 credits.
Practical and theoretical study of audio engineering for theater and the entertainment industry. The course will cover the foundational principles of audio, as well as sound system components and operation. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

THR 316: *Scene Painting.* 3 credits.
Students experience the art and craft of scene painting with the goal of translating design elevations into paint on muslin. Students learn fundamental scene painting techniques and how to use them in combinations to create portraits, murals, landscapes, and textures. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

THR 320: *Performance Studio.* 3 credits.
Builds on existing skills in observation, sense memory, relaxation, and improvisation. Students learn a variety of methods for scene preparation to apply to their own acting process. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 210 and 310 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 321: *Acting Shakespeare.* 3 credits.
Develops the verbal, vocal, and physical skills for performing Shakespearean text. Focuses on structure of language to reveal and express character's emotional life by using detailed script analysis, expansion of vocal range, and physicality to transform Shakespeare's language into powerful theatrical expressions. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 210 and 310 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 329: *Directing.* 3 credits.
Introduces the director's work through text analysis, rehearsal and staging techniques, and collaborative development of production ideas. Students present concepts and direct scenes to explore process. Offered by Theatre. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (THR 150[C] or 150[XS]) and (THR 151[C] or 151[XS]) and (THR 201[C] or 201[XS]) and (THR 210[C] or 210[XS]) and (THR 350[*C] or 350[*XS]).
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 330: *Seminar in Technical Theater.* 3 credits.
Offered periodically; addresses selected topic in design or technical theater on advanced level. Offered by Theatre. May be repeated within the term for a maximum 24 credits.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 331: *Drafting and Model Making.* 3 credits.
Studies conventions and techniques of drafting and model making as methods of communication in the theatrical production process. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 332: *History of Fashion and Dress.* 3 credits.
This course examines the evolution of Western dress from its origins to the present. It examines the changing aspects of dress from one era to another, discussing how psychology, conflict, economy, government, religion, cross-cultural ties, media and other factors contribute to as well as affect the ever-shifting styles. Offered by Theatre. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 333: *Scenic Design.* 3 credits.
Fundamentals of creating, developing, and communicating design idea through sketches, plans, rendering, or models. Analysis of text from designer's perspective. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 334: *Lighting Design.* 3 credits.
Introduces the fundamentals of lighting design, including research, paperwork communication, and technology for lighting. Topics include the controllable qualities of light, basic terminology, equipment, personnel and procedures. Learn to see light and develop a shared vocabulary for describing light and the process. Analyzes texts from designer's perspective. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 230.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 335: *Costume Design.* 3 credits.
Project-oriented class emphasizing the art and process of designing costumes for the stage and screen, including historical period, script analysis, design concepts, color theory, and costume rendering. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 336: *Technical Direction.* 3 credits.
Analyze scenic units for construction including building techniques, material choices, hardware, stage rigging, and budget estimates. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 337: *Sound Design.* 3 credits.
Study theory and practice of sound design for theater and the entertainment industry. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

THR 339: *Principles of Design.* 3 credits.
Introduction to the principles of theatrical design. Course explores various design responsibilities and methods to create visual images for the stage through script analysis, research, and production team collaboration. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

THR 340: *Advanced Studies in Directing.* 3 credits.
Expands directing techniques through staging extended scenes in various styles. Emphasizes collaborative process and production organization. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: THR 329 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 342: *Makeup Design.* 3 credits.
Project-oriented class emphasizing makeup for different performance spaces, character age analysis, facial anatomy, and specialized application for theater, opera, dance, film, and television. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 343: *Costume Technology.* 3 credits.
This lab course focuses on methods of costume construction. Lectures and demonstrations will address patterning, cutting, and sewing. The class will include hands-on lab activities. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 345: *Puppetry.* 2-4 credits.
Exploring of puppetry, and experiments with building and performance styles, through Original work. Offered by Theatre. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 350: *Script Analysis.* 3 credits.
Critical analysis of dramatic literature as preparation for production and performance. Examination of plot, character, theme, audience impact, and cultural context, and the transformation of intellectual ideas into physical theatrical production elements. Offered by Theatre. Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 351: *Dramatic Theory and Criticism.* 3 credits.
Chronological study of development of dramatic theory and criticism from Plato and Aristotle through modern movements. Students read plays, theoretical works, and critical responses, and write original criticism of performances or texts. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 150 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 352: *Dramatic Literature Seminar.* 3 credits.
Rotating topic. Intensive study of particular topic, period, or genre in dramatic literature. Notes: May be repeated if specific course content differs. Offered by Theatre. May be repeated within the term for a maximum 9 credits.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

THR 353: *Advanced Studies in Theater History.* 3 credits.
This course is designed to provide students with the opportunity to explore selected issues in theater history in greater depth than is possible in the typical survey course. The focus is on the process of doing original theater history research: selecting areas of inquiry, identifying and evaluating sources, gathering contextual materials, formulating research questions, and presenting the results in compelling ways, whether in writing, orally, or in electronic media. Offered by Theatre. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 354: *American Voices.* 3 credits.
This seminar explores the works of playwrights and theater makers, both past and present, whose work, based chiefly in America, represents a marginalized culture, heritage, identity, or status. The works covered in this course will support either a deep study of a single playwright or a broader survey of marginalized theater writers organized under a given theme. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 355: *Moral Vision in American Theater.* 3 credits.
Examines vision of American society created and presented in contemporary American theater. Subject defined as "moral" vision because focus is on how we perceive ourselves in relation to others and society's value standards. Perspectives include sociology, theory of culture, practical theater craft, and literary criticism. Features plays by range of American playwrights. Offered by Theatre. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 359: *World Stages.* 3 credits.
Introduces variety of theatrical traditions and performance theories from around the world, with special emphasis on those not covered in introductory Western drama survey courses, 150 and 151. Students read and discuss dramatic texts, performance theory, and video clips to understand variety of theatrical traditions in cultural and historical contexts. Requirements include two team presentations (taking turns as writer and presenter), one midterm paper, and one solo presentation with accompanying paper. Offered by Theatre. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 365: *Characterization.* 3 credits.
Presents a methodical approach to modeling theatrical characters on observation and personal experience, imagination and dreams, as well as art, history, and fiction. Students learn to synthesize these sources for the creation of detailed, specific, and vivid physical manifestations for the stage. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 210.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 380: *Playwriting I.* 3 credits.
Explores, through practice and example, principles of dramatic writing, including character, plot, dramatic structure, dialogue, exposition, setting, and creating theatrical images. Students will be expected to write and share their writing in class. Writing for a variety of venues will be covered.

Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

THR 381: *Playwriting II.* 3 credits.
Intensive continuation of work begun in THR 380. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: THR 380 or permission of instructor.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

THR 382: *Screenplay Workshop.* 3 credits.
Studies screenwriting as dramatic form of 20th, 21st centuries. Explores story, plot structure, three act-structures, mythic structures, fundamental story patterns, character, thinking, and writing visually. Offered by Theatre. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 395: *Theater as the Life of the Mind.* 3 credits.
Traces four subjects (battle of the sexes, good gifts, cyclical tragedy, and eschatology) from ancient theater to contemporary plays, television, and movies, using literary criticism, history, political theory, comparative religion, sociology, and anthropology. Offered by Theatre. Limited to three attempts.

Mason Core: Arts

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

THR 401: *Professional Presentation.* 3 credits.
Examines persuasive communication, with an emphasis on making presentations and addressing groups, both large and small. Hones the ability to project a personal passion while communicating information about any discipline to general audiences. Offered by Theatre. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 405: *Advanced Stage Combat.* 3 credits.
Armed Stage Combat techniques are explored, unarmed techniques solidified, and advanced choreography mastered in this study of safe and effective theatrical storytelling through violence for Stage and Screen appropriate towards national certification as Actor-Combatant. Offered by Theatre. May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: THR 305 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 410: *Acting for the Camera.* 3 credits.
Designed for students with a strong interest in pursuing a professional career in acting and is focused primarily on the particular techniques for screen acting in film and television. Offered by Theatre. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: THR 310[C] or 310[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment is limited to students with a major, minor, or concentration in Theatre.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 411: *Great Film Directors.* 3 credits.
Students view and analyze films in order to explore important film genres and examine influential directors. Offered by Theatre. Limited to three attempts.

Mason Core: Arts

Recommended Prerequisite: Sophomore standing (30 credit hours completed).

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 412: *Great Film Performances.* 3 credits.
Students view and analyze films in order to examine the development and evolution of film acting. Offered by Theatre. Limited to three attempts.

Mason Core: Arts

Recommended Prerequisite: Sophomore standing (30 credit hours completed).

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 415: *Advanced Sound Engineering.* 3 credits.
In depth study of sound engineering with a focus on sound reinforcement applications in large scale concert and theater settings. We will conduct and in-depth survey of industry standards and common practices that pertain to professional live sound reinforcement. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 315 and THR 230 or permission of instructor.

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

THR 420: *Advanced Performance Studio.* 3 credits.
Advanced scene study for stage and film. Rotating topics address professional perspectives and acting styles. Offered by Theatre. May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Required Prerequisite: THR 320[C].
[C] Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 421: *One-Person Show.* 3 credits.
Develops students' short, original works into one-person shows that they direct and perform. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 210 and 310 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 422: *Performance: Process and Portfolio.* 3 credits.
Performance practicum documenting the developed skills acquired and applied in rehearsal and performance setting throughout the student's journey. Offered by Theatre. May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Permission of Instructor

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

THR 423: *Audition Techniques: Stage and Camera.* 3 credits.
Develops effective audition techniques for performers through preparation of material for stage and camera, and explores industry standards and casting protocols through practical application. Offered by Theatre. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: THR 310[C] or 310[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 424: *Contemporary Women Playwrights.* 3 credits.
Explores identity and culture, sexuality and gender, work, relationships, and power through the eyes of female dramatists and performance artists. Analyzes texts and issues through readings, video, and live performances. Offered by Theatre. May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Junior standing or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 425: *Verse Speaking.* 3 credits.
Explores verse literature and mechanics of verse structure through reading, discussing, and reciting major verse plays of Western drama from the Middle Ages through the 20th century. Focuses on various verse forms, paying particular attention to vocal clues within verse structure, the meaning of rhythm, and practicing vocal techniques used in speaking texts in class. Students also prepare weekly presentations of playwrights, and historical backgrounds of plays and their periods. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 210 and 310 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 427: *Musical Theater Workshop.* 3 credits.
Develops necessary performance techniques for proficiency in musical theater. Students will prepare and perform musical theater pieces in a variety of styles over the course of the semester. Offered by Theatre. May be repeated within the degree for a maximum 12 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 428: *Musical Theater Ensemble.* 1-3 credits.
Rehearses a musical or musical theater review in a workshop environment. The result of the work will be public performance(s). Students completing course for the first time will register for 3 credits. Students repeating the course will be permitted to register for 1-3 credits. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 434: *Advanced Lighting Design.* 3 credits.
In-depth study of lighting design focused on the aesthetics of stage lighting and advanced conceptualization and communication of design ideas. Extensive work with script analysis, research, and graphic representation of theatrical lighting designs. Intensive practical experience in laboratory and production assignments. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: THR 230, THR 334, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 437: *Advanced Sound Design.* 3 credits.
Advanced project course utilizing the principles of design as they can be formed into auditory response. Emphasis on the interrelationship among all aspects of production. Areas of study include history, technology, and script analysis. Focuses on advanced theory and practice of Sound Design for Theater and the Entertainment Industry. Additionally, students will work in Teams to develop communication and collaboration skills. Offered by Theatre. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: THR 337[C] or 337[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 440: *Advanced Studies in Directing/Dramaturgy.* 3 credits.
Examines theory and practice of collaborative development of mission, vision, and production ideas by director and dramaturg teams. Students create companies, choose repertoire, develop and present production ideas in written and oral forms. Offered by Theatre. Limited to three attempts.

Mason Core: Synthesis

Recommended Prerequisite: Completion or concurrent enrollment in all Mason Core courses or permission of instructor.

Registration Restrictions:
Required Prerequisites: THR 329[*C] or 329[*XS].
[*] May be taken concurrently.
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 448: *Foundations of Theater Education.* 3 credits.
Introduces and explores various theater teaching specialties. Examines philosophical, pedagogical, and practical issues in context of diverse teaching situations and venues that range from public school to undergraduate and graduate training to commercial establishments. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Junior standing (60 credit hours completed), Theater Education Concentration admission requirements, or permission of the instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 449: *Elementary Theater Education.* 3 credits.
Explores teaching methods and classroom management for PK-6 theater education. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Junior standing (60 credit hours completed), Theater Education Concentration admission requirements, or permission of the instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 450: *Secondary Theater Education.* 3 credits.
Explores methods and curriculum for teaching theater to students grades 6-12. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: Junior standing (60 credit hours completed), Theater Education Concentration admission requirements, or permission of the instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 455: *Theater Education Internship.* 6-12 credits.
Provides supervision and mentorship for a full semester of teaching in approved school programs PK-12. Offered by Theatre. May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: Successful completion of Theater Education Concentration coursework. Students must pass the VCLA before student teaching and submit an ACT, SAT or Praxis Core Math score.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

THR 480: *Advanced Playwriting.* 3 credits.
Advanced playwriting workshop in which students explore their own voice in theatrical writing. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: THR 381 or Permission of Instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 482: *Advanced Screenplay Workshop.* 3 credits.
Screenwriting workshop emphasizing student development in screenplay form, structure, and storytelling with emphasis on craft, character, and story culminating in a screenplay. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: THR 382 or ENGH 332/ENGH 372 or other writing preparation course as approved by the instructor.

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

THR 484: *Translation & Adaptation for Stage & Screen.* 3 credits.
This interdisciplinary course will introduce students to the arts of translation and adaptation for the stage and screen. Students will read examples of translations and adaptations, identify challenges in each, and discuss them with professionals who translate or adapt works for theater, film and/or opera. Students are also expected to apply their skills to one short and one long translation/adaptation project, and present their work to the class. Offered by Theatre. Limited to three attempts.

Recommended Prerequisite: Junior standing

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

THR 490: *Special Topics in Theater.* 1-6 credits.
Rotating topic. Advanced seminar in topics of special interest, including dramatic writing or other media, and feminism in contemporary theater. Notes: May be repeated provided specific course content differs. Offered by Theatre. May be repeated within the term for a maximum 24 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 491: *Seminar on the Profession.* 1-3 credits.
Rotating topic. Advanced seminar in topics of special interest, including dramatic writing or other media, and feminism in contemporary theater. Notes: Repeatable with permission of the Chair. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 60 credit hours.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

THR 492: *Advanced Practicum.* 1-3 credits.
Required for students assigned as director, designer, dramaturg, or stage manager for a Mason Players production. Instruction and mentorship from appropriate Theater faculty to better develop the student's aesthetic. Required generation of portfolio material. This class is restricted to students participating in Mason Players productions within the academic year of the course offering. Offered by Theatre. May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Permission of Instructor

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Theatre.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

THR 493: *Collaborative Lab Experience.* 3 credits.
Students will collaborate in a laboratory experience to create original material for the stage or screen. Course content will be project specific. Offered by Theatre. Limited to three attempts.

Registration Restrictions:
Students with a class of Freshman or Sophomore may **not** enroll.

Enrollment is limited to students with a major in Theatre.

Enrollment limited to students in a Bachelor of Fine Arts degree.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale.

THR 494: *Field Experience.* 1-6 credits.
Experience in a theatrical organization to provide opportunity to apply classroom training, knowledge, skills, and theory in a professional situation. Activity must be approved by department chair. Offered by Theatre. May be repeated within the term for a maximum 12 credits.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

THR 495: *Senior Capstone Project.* 3 credits.
Student must submit a written project proposal to area of concentration for consultation. If accepted, proposal will be presented to the full faculty for approval. Notes: Production proposals will be subject to calendar availability. Course is repeatable with permission of Chair. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Must have declared a concentration, have completed at least 60 credit hours, and must have completed 4 credits of Practicum.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale.

THR 496: *Text in Production.* 3 credits.
In-depth investigation of collaborative nature of theatrical arts. Examines discrete creative disciplines; acting, directing, dramaturgy, and design as discussed by distinguished professionals and scholars. In-depth exploration of one selected playscript for the entire semester. Students will work collaboratively in small groups to research, design, direct, and perform scenes from selected text. Offered by Theatre. Limited to three attempts.

Mason Core: Synthesis

Recommended Corequisite: Completion or concurrent enrollment in all Mason Core courses or permission of instructor.

Registration Restrictions:
Required Prerequisites: THR 350^{*XS} or 350^{*C}.
* May be taken concurrently.
^{XS} Requires minimum grade of XS.
^{C} Requires minimum grade of C.

Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

THR 497: *Independent Study.* 1-6 credits.
Individual research and creative project in close consultation with instructor. Selection from projects in performance, directing, technical theater and design, playwriting, or theater history and criticism. Notes: May be repeated, provided suffix citing specific course content is different Offered by Theatre. May be repeated within the term for a maximum 24 credits.

Recommended Prerequisite: Open only to THR majors with 90 hours and by permission of department chair.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

THR 525: *Advanced Musical Theater Workshop.* 3 credits.
Students hone performance techniques necessary for performance in musical theater and contemporary operetta. Students will practice and perform musical theater pieces. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

THR 530: *Topics in Theater Design.* 3 credits.
In-depth study of scenic, costume, lighting, or sound design. Extensive work with script analysis, historical and conceptual research, visual communication of design ideas, and technical paperwork. Focus on aesthetics, production requirements, and collaboration. Offered by Theatre. May be repeated within the degree for a maximum 12 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

THR 539: *Aesthetics for the Theater.* 3 credits.
Students will develop skills in design while exploring significant developments within the area of concentration. Creative projects, including research and design, will be supervised on an individual basis. Offered by Theatre. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

THR 540: *Directing Techniques.* 3 credits.
As an examination of the directorial process for stage and screen, this course will explore directing theory, preparation, and practice. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

THR 548: *Advanced Foundations of Theater Education.* 3 credits.
Explores various theater teaching specialties in venues that range from public school to undergraduate and graduate training to commercial establishments. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Graduate standing, eligibility for post-baccalaureate certificate in Theater Education or permission of the instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

THR 549: *Advanced Elementary Theater Ed.* 3 credits.
Explores teaching methods and classroom management for PK-6 theater education. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Graduate standing, eligibility for post-baccalaureate in Theatre Education Licensure, or permission of the instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

THR 550: *Advanced Secondary Education.* 3 credits.
Explores methods and curriculum for teaching theater to students grades 6-12. Offered by Theatre. May not be repeated for credit.

Recommended Prerequisite: Graduate standing, eligibility for post-baccalaureate certificate in Theater Education or permission of the instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

THR 555: *Theater Education Internship.* 1-12 credits.
Provides supervision and mentorship for a full semester of teaching in approved school programs PK-12. Offered by Theatre. May be repeated within the degree for a maximum 12 credits.

Recommended Corequisite: Successful completion of Theater Education coursework. Students must pass the VCLA and submit an ACT, SAT or Praxis Core Math score.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

THR 560: *Advanced Script Analysis.* 3 credits.
Critical analysis of dramatic literature as preparation for production and performance. Examination of plot, character, theme, audience impact, and cultural context, and the transformation of intellectual ideas into physical theatrical production elements. Offered by Theatre. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

THR 571: *Advanced Playwriting Workshop.* 3 credits.
Advanced playwriting workshop in which students explore their own voice in theatrical writing. Offered by Theatre. May not be repeated for credit.

Recommended Prerequisite: Undergraduate degree or equivalent, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

THR 590: *Special Topics for Graduate Study.* 1-6 credits.
Rotating topic. Advanced seminar in topics for stage and screen studies, including education, performance, design, research, writing, and styles in theater or other media. Offered by Theatre. May be repeated within the term for a maximum 18 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

THR 591: *Graduate Seminar.* 1-3 credits.
Addresses the realities living and working in the theater and the film industry. Notes: Rotating Topics. Dependent on credits hours offered, class time will vary from 1 hour to 2 hours, 40 minutes. Offered by Theatre. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Theatre.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

THR 599: *Independent Study.* 1-6 credits.
Independent reading, performance, or research on a specific project under direction of selected faculty member. May include attendance in a parallel undergraduate course. Offered by Theatre. May be repeated within the term for a maximum 18 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

THR 610: *Acting Mentorship.* 3 credits.
This class gives students the chance to work with a faculty mentor while they apply their acting skills to a full-length public performance. Students create a record of the creative process through mentored practical production assignments. Actors enrolled in this course must receive prior approval for their projects for the stage or screen and will be expected to submit a written reflection on the complete acting process. Offered by Theatre. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

THR 620: *Acting Techniques.* 3 credits.
Students explore selected acting techniques for stage and screen. Topics vary from scene work to specialty areas -such as movement, voice and style-with an emphasis on developing bold physical, psychological and emotional expression. Offered by Theatre. May be repeated within the degree for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

THR 630: *Design Mentorship.* 3 credits.
Students work with a mentor while they apply design and technical skills to a full-length public performance. Students create a record of the creative process through mentored practical production assignments. Students must receive prior approval on projects for the stage or screen and will be expected to submit a written reflection on the process. Notes: Students must attain a B or higher to receive credit. Offered by Theatre. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale.

THR 640: *Directing Mentorship.* 3 credits.
This class gives students the chance to work with a faculty mentor while they apply their directing skills to a full-length public performance. Students create a record of the creative process through mentored practical production assignments. Directors enrolled in this course must receive prior approval for their projects for the stage or screen and will be expected to submit a written reflection on the full directorial process. Offered by Theatre. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

THR 651: *Advanced Dramatic Theory and Criticism.* 3 credits.
A chronological study of development of dramatic theory and criticism from Plato and Aristotle through modern movements. Students read plays, theoretical works, and critical responses, and write original criticism of performances or texts. They also take turns leading critical texts, meet one-on-one with their instructor for individualized mentoring, and prepare at least one essay for publication. Offered by Theatre. May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

THR 652: *Writing Seminar.* 3 credits.
Students develop writing skills and explore significant developments and periods within the field. Offered by Theatre. May not be repeated for credit.

Recommended Prerequisite: Admission to Graduate Program in CVPA.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

THR 655: *Teaching Practicum.* 3 credits.
Students develop and teach undergraduate curriculum related to their area of emphasis. Notes: Students must attain a B or higher to receive credit. Offered by Theatre. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Admission to Graduate Program in CVPA.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale.

THR 691: *Professional Development.* 3 credits.
Students develop materials and strategies toward the next stage of career in the field. Offered by Theatre. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

THR 694: *Graduate Field Experience.* 1-6 credits.
Experience in a professional theater or screen production. Activity is subject to prior faculty approval. Students will present a final portfolio of work. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

THR 696: *Advanced Acting Practicum.* 3 credits.
Academic credit awarded for satisfactory completion of a minimum of 60 hours approved production experience. Offered by Theatre. May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale.

THR 697: *Advanced Playwriting and Dramaturgy Practicum.* 1-3 credits.
Academic credit awarded for satisfactory completion of a minimum of 60 hours of approved production experience. Offered by Theatre. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale.

THR 698: *Advanced Directing Practicum.* 1-3 credits.
Academic credit awarded for satisfactory completion of a minimum of 60 hours approved production experience. Offered by Theatre. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale.

THR 699: *Advanced Design Practicum.* 1-3 credits.
Academic credit awarded for satisfactory completion of a minimum of 60 hours of approved production experience. Offered by Theatre. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale.

700 Level Courses

THR 740: *Directors and Dramaturgs in Collaboration.* 3 credits.
Examines theory and practice of collaborative development of mission, vision, and production ideas by director and dramaturg teams. Students create companies, choose repertoire, develop and present production ideas in written and oral forms, and undertake an original research project involving the history and/or contemporary practice of directing or dramaturgy. Offered by Theatre. May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale.

THR 755: *Academic Track Practicum.* 3 credits.
Students prepare a semester worth of course material for undergraduate class. Notes: Students must attain a B or higher to receive credit. Offered by Theatre. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Admission to Graduate Program in CVPA.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Special scale.

THR 790: *Directed Research.* 3 credits.
Students delve into a specialty topic of research in the area of emphasis within the Theater concentration. Notes: Students must attain a grade of B or higher to receive credit. Offered by Theatre. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale.

THR 796: *Directed Reading.* 1 credit.
In preparation for a thesis, students develop and complete a body of reading relating to their thesis. Offered by Theatre. May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

THR 797: *Project Preparation.* 3 credits.
Students document their pre-production process in preparation for their culminating artistic project. Notes: Students must attain a B or higher to receive credit. Offered by Theatre. May be repeated within the degree for a maximum 6 credits.

Recommended Corequisite: THR 796.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

THR 798: *Project Practicum.* 3 credits.
Students document their production process during the culminating artistic project. Notes: Students must attain a B or higher to receive credit. Offered by Theatre. May be repeated within the degree for a maximum 3 credits.

Recommended Corequisite: THR 797.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

THR 799: *Thesis.* 1-3 credits.
Students reflect upon their culminating artistic project and articulate original conclusions regarding practice in their area of emphasis. Notes: Subject to Faculty majority. Students must attain a B or higher to receive credit. Offered by Theatre. May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Research Methods Core Requirement.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale.

Tourism and Events Management (TOUR)

100 Level Courses

TOUR 110: *Professionalism and Civility.* 1 credit.
Focuses on developing competencies in the areas of professionalism and civility in a variety of settings including professional image, conduct at work, telephone, written, oral, and electronic etiquette, table manners, and social networking with an emphasis on the cultural needs for honoring commitments and obligation. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 190: *Wedding Planning.* 3 credits.
Introduction to the planning and management of weddings. Explores social, political, economic, cultural, religious, and historical influences on wedding planning decision-making and business strategies. Reviews practices relevant to successful wedding planning, and consultancy for diverse clients and settings. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

TOUR 200: *Introduction to Tourism Management.* 3 credits.
Introduces travel and tourism from local to international levels. Covers the scale, scope and organization of the industry. Emphasizes the development and management of natural, cultural, heritage and recreational resources of tourism. Identifies issues related to the economic, technological and political aspects of tourism. Notes: Open to nonmajors. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 210: *Global Understanding through Travel and Tourism.* 3 credits.
Examines tourism as a global industry and human activity that promotes and facilitates understanding of historical and cultural values, and of international institutions that characterize the broader global system. Notes: Open to nonmajors. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 214: *Hospitality Tourism and Events Management Accounting.* 3 credits.
Provides an overview of financial accounting for hospitality, tourism and event managers. Presents financial accounting from the perspective of recording financial transactions, developing financial statements and evaluating investment and operational decisions. Emphasizes efficient use of spreadsheets in managerial decision making. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 220: *Introduction to Event Management.* 3 credits.
Explores principles and practices of managing medium- and large scale events including festivals, conventions, concerts, shows, sporting events, and ceremonies. Emphasizes organization, site preparation, communications, personnel, and security as well as evaluation and innovation. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 221: *Event Implementation and Evaluation.* 3 credits.
Introduction to event implementation and evaluation through involvement in on-site event delivery and analysis. Studies participant motivation and economic, social, environmental, and cultural impacts in relation to an event's products and services. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: TOUR 220[D], 220[XS] or 220[XP].
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 230: *Introduction to Hospitality Management.* 3 credits.
This course is an introduction to hospitality management, including an overview of management in the hospitality industry and professional opportunities. The concepts and practices of hospitality management are examined and discussed. The scope and forms of hospitality organizations are reviewed, as well as trends within these organizations. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 241: *Hospitality, Tourism, and Events Management Practicum.* 3 credits.
Provides 120 hours of introductory supervised professional fieldwork experience in an approved tourism, events, or hospitality management setting for 10 to 14 weeks (10 weeks only for the Summer term) under the supervision of a practicum Faculty Supervisor and Agency Supervisor. Includes meetings and assignments before, during, and after the practicum. Notes: Students must complete the mandatory pre-experience orientation session online before registering for this course. Hourly requirement per week is 15-20 for Summer term. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (TOUR 200[D], 200[XS] or 200[XP]) and (TOUR 220[D], 220[XS] or 220[XP]) and (TOUR 230[D], 230[XS] or 230[XP]).
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Students with a class of Freshman may **not** enroll.

Enrollment is limited to students with a major in Tourism and Events Management.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

300 Level Courses

TOUR 301: *Hotel Management.* 3 credits.
Explores interrelated systems in hotel management, including front desk, reservations, housekeeping, food/beverage, telecommunications, guest services and security. Reviews and segments hotel products and associated management challenges. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: TOUR 230[D], 230[XS] or 230[XP].
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 310: *Food and Beverage Management.* 3 credits.
Explores the principles of foodservice management regarding production and selling of food and beverage products. Categorizes various types of food, wine, beer and spirits. Reviews foodservice buying, pricing, menu planning, production, storage, service, controls and quality assurance. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: TOUR 230[D], 230[XS] or 230[XP].
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 311: *Women and Tourism.* 3 credits.
Focuses on women as hosts and guests. Using social theory, explores issues regarding the history and evolution of tourism as a gendered system. Addresses family, solo and business travel, and employment, taking into consideration issues related to more and lesser developed countries as they relate to the roles of women in international tourism. Notes: Open to nonmajors. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 313: *Event Technical Production.* 3 credits.
Explores theoretical and practical considerations of event technology. Examines specifications, layout installation techniques and operation of sound systems, lighting systems and video systems for event industry sectors. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: TOUR 220[D] or 220[XS].
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 320: *Hospitality, Tourism and Event Management Information Systems.* 3 credits.
Introduces management information systems (MIS) technology and its application to hospitality, tourism and event management (HTEM) sectors from managerial and strategic perspectives. Surveys computer applications, products and trends in gathering, analyzing, storing and

communicating information within the HTEM sectors. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (TOUR 200[D], 200[XS] or 200[XP]) or (TOUR 220[D], 220[XS] or 220[XP]) or (TOUR 230[D], 230[XS] or 230[XP]).
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 330: *Resort Management.* 3 credits.
Surveys effective practices in the management of resort recreation enterprises. Examines basic resort operations, including front desk, food and beverage, amenities, and housekeeping. Covers management of a variety of resort types, such as ski resorts, beach resorts, dude ranches, business retreats, adventure camps, health spas, and golf resorts. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (TOUR 200[D], 200[XS] or 200[XP]) or (TOUR 230[D], 230[XS] or 230[XP]).
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 331: *Cruise Ship Management.* 3 credits.
Surveys effective practices in the management and operation of cruise ships. Includes on-site examination of basic cruise operations including sales and booking, food and beverages, hotel operations, security, recreation activities, shore excursions and personnel management. Examines historical foundations of the cruise industry, related leisure and management theory, and leisure trends specific to mass international maritime travel. Notes: Includes on-campus classroom lectures and week-long on-board cruise ship instructional experience. Must be 21 years of age by beginning of semester. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (TOUR 200[C] or 200[XS]) and (TOUR 230[C] or 230[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Enrollment is limited to students with a major in Tourism and Events Management.

Enrollment limited to students in a Bachelor of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 340: *Sustainable Tourism.* 3 credits.
Studies the characteristics of environmentally, economically and socio-culturally sustainable tourism and assesses the possibilities and limitations for its implementation within a variety of destinations and product settings. Emphasizes conventional "mass" tourism and small-scale "alternative" tourism as they apply to hospitality, event , and tourism management. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Specialized Designation: Green Leaf Focused Course

Registration Restrictions:
Required Prerequisites: TOUR 200[D], 200[XS] or 200[XP].
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 341: *Film and Medical Tourism.* 3 credits.
This two-part course introduces film-induced tourism and medical tourism. The evolution of each type of tourism, and the opportunities and challenges of each type of tourism, will be explored in-depth. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: TOUR 200[C] or 200[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 342: *Sacred Spaces and Dark Tourism.* 3 credits.
In-depth examination of the tourist experience at popular sacred sites and at attractions that offer socially unapproved or harmful personal touristic experiences. Management issues at touristic sacred sites and dark tourism enterprises will be identified and compared. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: TOUR 200[C] or 200[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 343: *Wine and Food Tourism.* 3 credits.
Considers the characteristics of food and wine tourism related to environmental, economic and socio-cultural sustainable tourism and assess the possibilities and limitations for implementation within a variety of destinations and settings. Includes the development of the global food chain, artisan food and drink production, and the role of food

and wine in the tourist experience. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: TOUR 200[C] or 200[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 352: *Heritage and Cultural Tourism.* 3 credits.
Analyzes historical and cultural attractions, including museums, canals, monuments, pilgrimage sites, military sites, and cultural and heritage landscapes. Covers presentation and interpretation, African-American and Native American heritage, management and operational considerations, and marketing. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: TOUR 200[D], 200[XS] or 200[XP].
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 355: *Event Logistics.* 3 credits.
Explores practical considerations of event logistics and operations for conferences, conventions and exhibitions throughout the event industry sector. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: TOUR 220[C] or 220[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 362: *Cultural and Environmental Interpretation.* 3 credits.
Focuses on communication processes and practices used by professionals to explain and interpret special characteristics of cultural and environmental resource sites for visitors. Discusses conceptual principles for planning interpretive programs, as well as techniques for analyzing and disseminating information and entertainment through various media. Examines delivery of interpretive messages across a variety of audiences, strategies for programming interpretive services, and the administration and evaluation of interpretive services at tourism, event, and recreation sites. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts. Equivalent to PRLS 362.

Registration Restrictions:
Required Prerequisites: ((PRLS 300[C] or 300[XS]) or (TOUR 352[C] or 352[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

TOUR 410: *Tourism Economics.* 3 credits.
Introduces both macro and micro economic theory as it relates to hospitality, tourism and events management fields. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: TOUR 241[C] or 241[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 412: *Hospitality, Tourism, and Events Management Marketing and Sales.* 3 credits.
Provides understanding and tools for marketing and management of financial resources in entrepreneurial tourism enterprises. Also includes market planning, business planning, feasibility assessment, investment analysis, basic accounting, and operational control. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: ((TOUR 241[C] or 241[XS]) or (PRLS 241[C] or 241[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 414: *Hospitality, Tourism, and Events Management Finance.* 3 credits.
Develops skills and competencies for the management of financial resources in hospitality, tourism and events management enterprises. Covers economic principles, the time value of money, revenue streams, pricing and expenditure management. Applies fundamental principles to personal financial management. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: ((TOUR 241[C] or 241[XS]) and (TOUR 214[C] or 214[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 420: *Tourism Planning/Policy.* 3 credits.
Principles of planning and policy that apply to integrated and sustainable tourism development at the international, national, state, regional, local, and site scale. Considers government, industry, and community perspectives. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Specialized Designation: Green Leaf Focused Course

Registration Restrictions:
Required Prerequisites: TOUR 241[C] or 241[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 430: *Destination Marketing and Management.* 3 credits.
Discusses the theories and concepts of destination management with a comprehensive approach that emphasizes planning, development, and marketing a destination. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: TOUR 241[C-] or 241[XS].
[C-] Requires minimum grade of C-.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 440: *Meetings and Conventions.* 3 credits.
Analyzes meetings, incentives, conventions, and exhibitions with respect to business environment and structure, industry suppliers, site and facility selection, human resource management, legal and financial issues, marketing and promotion, and event organization. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: TOUR 241[C] or 241[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 445: *Restaurant Management.* 3 credits.
Advances knowledge gained in Food and Beverage Management, basic cooking skills, and human resource management to include hands-on operations of a full-service restaurant. Knowledge needed to successfully manage both back-of-the-house and front-of-the-house operations will be taught. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: Safe Serve Certification

Registration Restrictions:
Required Prerequisites: ((TOUR 310[C] or 310[XS]) and (TOUR 450[C] or 450[XS]) and (NUTR 410[C] or 410[XS])).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 450: *Hospitality Human Resources Management.* 3 credits.
Reviews concepts and methods related to the achievement of strategic business goals through employee recruitment, training and development. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: TOUR 241[C] or 241[XS].
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 460: *Hospitality Facilities Operations.* 3 credits.
Explores the principles applied to facilities systems operations in hospitality sectors. Considers design, planning, layout and maintenance of hospitality properties and systems. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: (TOUR 230[C] or 230[XS]).
[C] Requires minimum grade of C.
[XS] Requires minimum grade of XS.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 470: *Career Preparation.* 1 credit.
Focuses on current issues in tourism, events and hospitality management with an emphasis on career development strategies. Notes: Meets for half the semester Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Registration Restrictions:
Required Prerequisites: TOUR 241[D], 241[XP] or 241[XS].
[D] Requires minimum grade of D.
[XP] Requires minimum grade of XP.
[XS] Requires minimum grade of XS.

Students with a class of Freshman or Sophomore may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 480: *Special Topics.* 1-3 credits.
Selected topics reflect interest in specialized area of tourism and events management. Announced in advance. Offered by School of Sport/Rec/Tour Mgmt. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

TOUR 490: *Hospitality, Tourism, and Events Management Internship.* 12 credits.
Provides 400 hours of advanced supervised professional experience in an approved tourism, events, or hospitality management setting

for a minimum of 30 hours/week, and a maximum of 40 hours/week (summer term only). Provides a continuous and structured opportunity to apply principles and skills developed in the classroom to the solution of practical problems. Notes: Students must attend mandatory pre-experience orientation session before registering and must participate in the mandatory final presentations upon completion of internship. Can register for only one additional course for up to 3 credits. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Mason Core: Capstone

Registration Restrictions:
Required Prerequisites: ((TOUR 241[D], 241[XS] or 241[XP]) and (TOUR 470[D], 470[XS] or 470[XP])).
[D] Requires minimum grade of D.
[XS] Requires minimum grade of XS.
[XP] Requires minimum grade of XP.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major in Tourism and Events Management.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

TOUR 499: *Independent Study.* 1-3 credits.
Faculty directed independent study of approved topics in tourism and events management. Offered by School of Sport/Rec/Tour Mgmt. Limited to three attempts.

Recommended Prerequisite: TOUR 200 and 220, and 90 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Tourism and Events Management.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

TOUR 598: *Special Topics in Hospitality, Tourism and Events Management.* 3 credits.
Focuses on Hospitality, Tourism and Events Management projects related to sport and recreation studies. Offered by School of Sport/Rec/Tour Mgmt. May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

Turkish (TURK)

100 Level Courses

TURK 110: *Elementary Turkish.* 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Offered by Modern & Classical Languages. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Turkish

200 Level Courses

TURK 201: *Intermediate Turkish I.* 3 credits.
Further development of skills in listening, speaking, and writing. Notes: TURK 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: TURK 110, or permission of department.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Taught in Turkish

TURK 202: *Intermediate Turkish II.* 3 credits.
Further development of skills in listening, speaking, and writing. Notes: TURK 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages. Limited to three attempts.

Recommended Prerequisite: TURK 201, or permission of department

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

Additional Course Details: Fulfills Frgn Lng requirment, Taught in Turkish

University Studies (UNIV)

100 Level Courses

UNIV 100: *Introduction to Mason.* 1 credit.
This course assists first-year students with their transition from high school to college life at Mason. It helps students to be successful through academic skill-building, educational planning, and career preparation. It provides information regarding campus resources and ways to engage in the Mason community. Although all sections have a core curriculum, certain sections also focus on a particular theme, student population, or course of study. Offered by Provost's Office. Limited to three attempts. Equivalent to UNIV 106, UNIV 108, UNIV 140, UNIV 150, UNIV 160.

Registration Restrictions:
Enrollment limited to students with a class of Freshman.

Schedule Type: Seminar

Grading:

This course is graded on the Undergraduate Regular scale.

UNIV 101: *Extended Transition.* 0-1 credits.
This course serves as a continuation of University 100 into the second freshman semester. It extends the transition support of international students, and other students in special sections of University 100. Offered by Provost's Office. Limited to three attempts. Equivalent to UNIV 141, UNIV 151.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 106: *Mason Transitions for Diverse Learners I.* 0-2 credits.
Assists first-year students with their transition from high school to college life and offers the opportunity to learn resources, skills, and strategies that will guide them to academic success. This course is open only to diverse learners identified by Disability Services. Offered by Provost's Office. May be repeated within the degree for a maximum 2 credits. Equivalent to UNIV 100, UNIV 108, UNIV 150, UNIV 160.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Special scale.

UNIV 108: *Mason Transition.* 0-1 credits.
Specialized transition to Mason courses with identified student populations. Notes: Only repeatable with department approval. Offered by Provost's Office. May be repeated within the degree for a maximum 2 credits. Equivalent to UNIV 100, UNIV 106, UNIV 140, UNIV 150, UNIV 160.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Freshman.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 110: *Academic Success.* 0-1 credits.
Focuses on academic transition and planning issues for students in their first or second year. Emphasis Is placed on resources and techniques to assist students with improving their academic performance. Students work closely with the instructor to track their academic progress over the course of the semester. Offered by Provost's Office. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 140: *INTO Mason Pathway Transition.* 0-1 credits.
Assists first-year international and multilingual standard and accelerated pathway students with their transition from high school to college life. It helps prepare students for successful progression to their chosen degree plan the promoting acculturation to academic norms and expectations at Mason, the development of self-efficacy, and engagement with the Mason community. It encourages to seek out and take full advantage of a wide range of campus resources. Offered by Provost's Office. Limited to three attempts. Equivalent to UNIV 106.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 141: *INTO Mason Pathway Extended Transition.* 0-1 credits.
Serves as a continuation of UNIV 140. It provides extended first-year transition support for standard pathway students in the second semester. Offered by Provost's Office. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 150: *First Year Living Learning Communities.* 0-1 credits.
This course is available for students who are members of a first year LLC. It is the learning component of the program for students who live together on a residence hall floor. The course follows the core University 100 curriculum, but is tailored to the particular theme or academic discipline of the LLC. Offered by Provost's Office. Limited to three attempts. Equivalent to UNIV 100, UNIV 106, UNIV 108, UNIV 140, UNIV 160.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Freshman.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 151: *First Year Living Learning Communities Extended Transition.* 0-1 credits.
This course serves as a continuation of University 150 into the second freshman semester. It extends the transition support of students in the First Learning Communities Program. Offered by Provost's Office. Limited to three attempts. Equivalent to UNIV 101, UNIV 141.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 160: *University Scholars Transition Seminar.* 0-2 credits.
A first year transition seminar for students in the University Scholars Program. Offered by Provost's Office. Limited to three attempts. Equivalent to UNIV 100, UNIV 106, UNIV 108, UNIV 140, UNIV 150.

Recommended Prerequisite: Admittance to the University Scholars Program.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 170: *Special Topics.* 0-1 credits.
Varied UNIV course topics are offered to first and second year undergraduate students. Notes: May be repeated when topic is different. Offered by Provost's Office. May be repeated within the term for a maximum 3 credits.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 190: *Introduction to Research Opportunities.* 0-1 credits.
Provides an opportunity to learn more about participating in research and creative projects at Mason and acquire skills needed to be successful in research. Offered by Provost's Office. Limited to three attempts.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

UNIV 206: *Mason Transitions for Diverse Learners II.* 0-2 credits.
Explores identity and social development within the university environment. This course is open only to diverse learners identified by Disability Services. Offered by Provost's Office. May be repeated within the degree for a maximum 2 credits.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Special scale.

UNIV 220: *Decide and Confirm Majors.* 0-1 credits.
This course focuses on helping students clarify or choose a major or career. Students explore and assess their interests, values and skills, as well as research various majors, careers, and the world of work as information for the decision-making process. Notes: Only one of UNIV 220, UNIV 320, UNIV 420, or UNIV 421 may be taken per semester. Offered by Provost's Office. Limited to three attempts.

Specialized Designation: Topic Varies

Recommended Prerequisite: Second-semester freshman standing.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 250: *Second Year Living Learning Communities.* 0-1 credits.
Students in a Second Year Living Learning Community live together on a residence hall floor and attend this course together to fulfill the learning component of the LLC program. Notes: For students who are members of a Second Year Living Learning Community. Offered by Provost's Office. Limited to three attempts.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

UNIV 300: *Transfer Transition.* 0-1 credits.
This course assists new transfer students with a successful transition to Mason. This course addresses academic success, time management, and course schedule planning, as well as graduate school/career readiness, degree requirements, and other university policies and procedures. Students explore campus resources and opportunities for engaging in the Mason community. Notes: Only transfer students in their first or second semester at Mason are eligible to take this course. Only repeatable with department approval. Offered by Provost's Office. Limited to three attempts. Equivalent to UNIV 302, UNIV 303, UNIV 305, UNIV 308.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 302: *College of Science Transfer Transition.* 0-1 credits.
This course is intended for new transfer students in the College of Science to assist them with a successful transition to Mason. This course addresses academic success, time management, and course schedule planning, as well as graduate school/career readiness, degree requirements, and other university policies and procedures. Students explore campus resources and opportunities for engaging in the Mason community. Notes: Only transfer students in their first or second semester at Mason are eligible to take this course. Only repeatable with department approval. Offered by Provost's Office. Limited to three attempts. Equivalent to UNIV 300, UNIV 303, UNIV 305, UNIV 308.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 303: *Veteran Transition.* 1 credit.
This course is for students with veteran status. Based on theory and research specific to the needs of veterans, this course builds a foundation for success in college and beyond, including career planning, translating military experience on a resume, practical interviewing techniques, and networking and engaging with other veterans in a military-friendly environment. Notes: Only transfer students in their first or second semester at Mason are eligible to take this course. Only repeatable with department approval. Offered by Provost's Office. Limited to three attempts. Equivalent to UNIV 300, UNIV 302, UNIV 305, UNIV 308.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 304: *Bachelor Individualized Studies Transfer Transition.* 1 credit.
This course serves new transfer students in the Bachelors of Individualized Studies (BIS) program, and assists them with a successful transition to Mason. Students develop relationships with peers, staff, and faculty. They are introduced to campus resources, with special emphasis on research and writing resources and tools, and work closely with BIS academic advisors and faculty. Notes: Only transfer students in their first or second semester at Mason are eligible to take this course. Only repeatable with department approval. Only one of UNIV 300, UNIV 302,

UNIV 303, UNIV 304, UNIV 305, or UNIV 308 may be taken for credit. Offered by Provost's Office. Limited to three attempts. Equivalent to BIS 304.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 305: *College of Humanities and Social Sciences Transfer Transition.* 0-1 credits.
Assists new transfer students in the College of Humanities and Social Sciences with a successful transition to Mason. Addresses academic success, educational planning, and career preparation, in addition to degree requirements and other university policies and procedures. Students explore campus resources and opportunities for engaging in the Mason community. Notes: Only transfer students in their first or second semester at Mason are eligible to take this course. Only repeatable with department approval. Offered by Provost's Office. Limited to three attempts. Equivalent to UNIV 300, UNIV 302, UNIV 303, UNIV 308.

Registration Restrictions:
Enrollment limited to students in the Humanities Social Sciences college.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 306: *Mason Transitions for Diverse Learners III.* 0-2 credits.
Helps students solidify major and career decisions, develop job-hunting strategies, and practice workplace skills. This course is open only to diverse learners identified by Disability Services. Offered by Provost's Office. May be repeated within the degree for a maximum 2 credits. Equivalent to UNIV 320.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Special scale.

UNIV 308: *Mason Transition.* 0-1 credits.
Specialized transition to Mason courses with identified student populations. Notes: Only repeatable with department approval. Offered by Provost's Office. May be repeated within the degree for a maximum 2 credits. Equivalent to UNIV 300, UNIV 302, UNIV 303, UNIV 304, UNIV 305.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 310: *Academic Success.* 0-1 credits.
Focuses on academic strengthening and planning issues for students in their third year or later. Emphasis is placed on resources and techniques to assist students with improving their academic performance. Students work closely with the instructor to track their academic progress over the course of the semester. Offered by Provost's Office. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 320: *Internship and Career Readiness.* 0-1 credits.
This course helps students confirm major/career choices and actively pursue internships, research assistantships, and other career-related experiences. With a focus on career readiness, students prepare a resume and cover letter, practice interviewing techniques, and conduct career research. Notes: Only one of UNIV 220, UNIV 320, UNIV 420, or UNIV 421 may be taken per semester. Offered by Provost's Office. Limited to three attempts. Equivalent to UNIV 306.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 330: *Peer Leadership: Peer Advisors.* 0-1 credits.
This course prepares upperclass students to serve as University 100 Peer Advisors, a role that helps first-year students transition successfully from high school to college. This course provides Peer Advisors with the necessary information, tools, and resources to co-teach University 100 effectively. Notes: For students who have been selected as a Peer Advisor by the University Transitions Program. Only repeatable with department approval. Offered by Provost's Office. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 331: *Peer Leadership: Patriot Leaders.* 0-1 credits.
This course introduces students who will serve as Patriot Leaders to the principles of effective leadership. Students will apply knowledge gained through the course directly to their roles and responsibilities as Patriot Leaders through readings and discussions, experiential activities, and class assignments. Notes: For students who have been selected as a Patriot Leader by the New Student and Family Programs Office. Offered by Provost's Office. May be repeated within the degree for a maximum 1 credits.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 332: *Peer Leadership: Resident Advisors.* 0-1 credits.
For students who have been selected for Resident Advisor education by the Office of Housing and Residence Life. Notes: For students who have been selected as a Resident Advisor by the Office of Housing and Residence Life. Enrollment is contingent upon approval by Student Academic Affairs - Advising, Retention, and Transitions - in consultation with the Office of Housing and Residence Life. Only repeatable with department approval. Offered by Provost's Office. May be repeated within the degree for a maximum 2 credits.

Schedule Type: Seminar

Grading:

This course is graded on the Undergraduate Regular scale.

UNIV 333: *Peer Leadership: Peer Mentors.* 0-1 credits.
Prepares students to serve as Peer Mentors in a variety of Mason departments and programs. Students learn and put into practice leadership approaches and strategies. They become familiar with communication tools and campus resources that will enable them to mentor fellow students successfully. Notes: For students who have been selected as a Peer Mentor in a Mason department or program. Only repeatable with department approval. Offered by Provost's Office. Limited to three attempts.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 350: *Third Year Living Learning Communities.* 0-1 credits.
Students in a Third Year Living Learning Community live together on a residence hall floor and attend this course together to fulfill the learning component of the LLC program. Notes: For students who are a member of a Third Year Living Learning Community. Offered by Provost's Office. Limited to three attempts.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 370: *Special Topics.* 0-1 credits.
Notes: May be repeated when topic is different. Offered by Provost's Office. May be repeated within the term for a maximum 3 credits.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 371: *Dimensions of Well-Being.* 0-1 credits.
Introduces students to the terminology and basic science of well-being. Students will learn about evidence-based practices to cultivate resilience, optimism, mindfulness, and happiness. Practical application assignments will give students a chance to experiment with building a lifestyle to promote greater well-being. The course also addresses community and national well-being and the shared responsibilities of enhancing well-being in our society. Offered by Provost's Office. Limited to three attempts.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 372: *Mental Health First Aid.* 0-1 credits.
This course trains and certifies students in Mental Health First Aid through the National Council for Behavioral Health. Students will learn to recognize the signs and symptoms of common mental illnesses and will gain strategies to engage with someone demonstrating those signs and symptoms. Students explore the stigma associated with mental illness as well as cultural components and help-seeking behaviors. Students explore positive coping strategies and self-care as being relevant to the individual with the mental health concern and the individual providing assistance. This course is not repeatable for credit. Offered by Provost's Office. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 381: *Foundations for Building a Just Society.* 3 credits.
Aims to produce graduates who navigate the diverse world around them in a way that promotes justice, equity, and inclusion. This class provides foundational building blocks for that learning trajectory. In addition to engaging with course material (reading, podcasts, TED talks), students will grow through experiential learning and critical dialogue. Students will develop awareness, knowledge, analytical tools, and interpersonal skills related to diversity that will provide a foundation for exploration and constructive contributions to the George Mason community and beyond. Offered by Provost's Office. Limited to three attempts.

Mason Core: Global Understanding, Social/Behavioral Sciences

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 391: *Students as Scholars Scholarly Inquiry.* 0-9 credits.
Students contribute to scholarly, research, or creative projects by engaging in the recursive process of scholarly inquiry as preparation for participation in an individualized original project. Students will hold regular meetings with their project mentor, and make satisfactory contributions to the project. Notes: Enrollment only with permission from OSCAR. Offered by Provost's Office. May be repeated within the degree for a maximum 27 credits.

Specialized Designation: Mason Impact.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

UNIV 406: *Mason Transitions for Diverse Learners IV.* 0-2 credits.
Prepares students for the workplace or graduate school. Students will practice interviewing and interpersonal skills, as well as develop and practice strategies for success in post-graduation endeavors. This course is open only to diverse learners identified by Disability Services. Offered by Provost's Office. May be repeated within the degree for a maximum 2 credits.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Special scale.

UNIV 420: *College to Career.* 0-1 credits.
This course supports second semester juniors, senior, and senior plus students with transitioning into the professional workplace. Students

develop a tailored resume and cover letter, refine their interviewing skills, and discuss important workforce issues, such as compensation packages and workplace dynamics. Notes: Only one of UNIV 220, UNIV 320, UNIV 420, or UNIV 421 may be taken per semester. Offered by Provost's Office. Limited to three attempts. Equivalent to ENGH 303, FRLN 309, GLOA 305, HIST 385, PHIL 393.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 421: *College to Graduate School.* 0-1 credits.
This course supports second semester juniors and seniors. The academic emphasis is on transition readiness for graduate or professional school. Students learn about application and testing options and strategies, interviewing skills, budgeting, and career development. Notes: Only one of UNIV 220, UNIV 320, UNIV 420, or UNIV 421 may be taken per semester. Offered by Provost's Office. Limited to three attempts.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 422: *Professional Skills Development.* 0-1 credits.
Is for seniors preparing for success in the workplace. Course topics include: building skills employers demand, advocating for yourself in challenging situations, preparing for performance reviews, understanding employment benefits such as compensation, health, and financial plans, and more. This course helps prepare students for meeting 21st century workplace challenges in a practical, experiential, and collaborative workplace-simulated environment. Offered by Provost's Office. Limited to three attempts.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 490: *Critical Decisions in Postgraduate Transitions.* 0-1 credits.
This course guides and supports students through the postgraduate fellowship application process and postgraduate decisions. Students create a resume, complete a fellowship application, prepare for a scholarship interview, and refine their educational and career goals. Notes: Enrollment through the Office of Fellowships. Only repeatable with approval from the Office of Fellowships. Offered by Provost's Office. May be repeated within the degree for a maximum 1 credits.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 491: *RS: Students as Scholars Individualized Scholarly Experience.* 0-9 credits.
Students actively participate in the process of scholarship and make a significant contribution to the creation of scholarly, research, or creative project. Students meet regularly with their project mentor, make satisfactory progress towards the completion of the project, and create a disciplinary product for evaluation. Notes: Enrollment only with permission from OSCAR. Offered by Provost's Office. May be repeated within the degree for a maximum 27 credits.

Specialized Designation: Research/Scholarship Intensive

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 495: *RS: Undergraduate Research Scholars Program Seminar.* 0-1 credits.
Students accepted into Undergraduate Research Scholars Program participate in a weekly seminar, hold regular meetings with their project mentor, and make satisfactory progress on their research or creative project. At the end of the semester, students either complete their project and present the results in a professional context, or apply for continuation through UNIV 496. See oscar.gmu.edu for more information and application. Notes: Enrollment only with acceptance into the URSP through OSCAR. Offered by Provost's Office. Limited to three attempts.

Specialized Designation: Research/Scholarship Intensive

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

UNIV 496: *RS: Undergraduate Research Scholars Program Continuation.* 0 credits.
Students continuing their participation in the Undergraduate Research Scholars Program hold regular meetings with their project mentor and make satisfactory progress on their research or creative project. At the end of the semester, students either complete their project and present the results in a professional context, or apply for continuation. See oscar.gmu.edu for more information and application. Notes: Enrollment only with acceptance into the URSP through OSCAR. Offered by Provost's Office. May be repeated within the degree.

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: UNIV 495.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

Urban and Suburban Studies (USST)

300 Level Courses

USST 301: *Urban Growth in a Shrinking World.* 3 credits.
Examines process of urbanization historically and comparatively. For major world regions, attention is given to the political economy of urbanization and its impact on social and economic relations. Examines

growing globalization of the world economy, implications for urban life, and urban political economy of the future. Offered by Schar School of Policy & Govt. Limited to three attempts.

Specialized Designation: Green Leaf Related Course

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

USST 390: *Special Topics in Urban and Suburban Studies.* 3 credits.
Subject varies according to specialization of instructor. Offered by Schar School of Policy & Govt. Limited to three attempts.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

USST 401: *Seminar: The Future of Metropolitan America.* 3 credits.
Examines trends in the development of American metropolis, including impact of information economy and technological developments on metropolitan form and life, continuing outward growth and increasing decentralization of metropolitan areas, changing functional organization of urban space, and continued social segregation in metropolitan areas. Analyzes contemporary predictions about future of metropolitan life in America, and explores how alternative public policies can shape that future. Students work on research projects in metro area. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: 12 hours of USST approved courses, including USST 301, or Permission of Instructor.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

USST 490: *Internship.* 3 credits.
Approved work-study programs that focus on urban and suburban issues with an approved agency or firm. Placement depends on student qualifications and availability of positions. Students work with onsite supervisor and coordinator of urban and suburban studies. Offered by Schar School of Policy & Govt. Limited to three attempts.

Recommended Prerequisite: Open only to authorized students with 12 hours of USST; see USST coordinator. Individualized Section Form required.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

Volgenau School of Engineering (VSE)

500 Level Courses

VSE 500: *Special Topics.* 0-4 credits.
Select contemporary topics in Engineering and Computing. Offered by Volgenau School of Engineering. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale.

VSE 501: *Fundamentals of Computing, Engineering & Technology Education.* 3 credits.
Aimed at educating future and current engineering faculty on basic concepts, ideas, and issues of computing, engineering, and technology (CET) education to prepare them for future professoriate career and/or help improve current teaching practices. The course material provides a broad introduction to CET education covering historical foundations, theories of learning, and current topics of interest. It focuses on key conceptual questions related to CET learning including what are the characteristics of CET cognition, how is it different than other content areas, what approaches work best for CET learning, how to use theory-driven approaches in education, and the role of technology, including learning analytics and educational data mining, in CET education. Offered by Volgenau School of Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

VSE 502: *Teaching and Learning in Computing, Engineering & Technology.* 3 credits.
Aimed at educating future and current engineering faculty on principles of how to design and implement computing, engineering, and technology (CET) courses. The course provides a theory-based introduction to course planning, curriculum design, and evaluation and assessment. It focuses on proven methodologies to improve CET teaching including active learning, problem-based learning, and cooperative learning. The course will focus on design of CET learning for development of technical skills, critical thinking skills, creative thinking skills, and communication skills, among students. The course will also introduce students to ABET accreditation. Offered by Volgenau School of Engineering. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

700 Level Courses

VSE 794: *Graduate Internship.* 1-3 credits.
Students with an Internship/Externship/Co-Op opportunity will gain practical experience while engaging in an experiential learning opportunity. Under the direction of a faculty member, the student will prepare and submit a deliverable defined by the faculty member for a grade. Offered by Volgenau School of Engineering. May be repeated within the degree for a maximum 6 credits.

Recommended Corequisite: Completion of at least 18 credit hours.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale.

Women and Gender Studies (WMST)

100 Level Courses

WMST 100: *Global Representations of Women.* 3 credits.
Explores ways women are portrayed around the world in advertising, film, TV, cartoons, and news media; literature and religious texts; as well as photography, and the visual and performing arts. Through interdisciplinary study, students evaluate the powerful effects these representations have on the political, economic, and social lives of women throughout the world. Offered by Women & Gender Studies. Limited to three attempts.

Mason Core: Global Understanding

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

200 Level Courses

WMST 200: *Introduction to Women and Gender Studies.* 3 credits.
Interdisciplinary introduction to women's, gender and sexuality studies, encompassing key concepts in the field, history of women's movements and women's studies in America, cross-cultural constructions of gender, and a thematic emphasis on the diversity of women's experience across class, race, and cultural lines. Offered by Women & Gender Studies. Limited to three attempts.

Mason Core: Social/Behavioral Sciences

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 208: *Introduction to Lesbian, Gay, Bisexual, Transgender, and Queer Studies.* 3 credits.
Explores major events in lesbian, gay, bisexual, transgender, transsexual, and queer culture and history in the United States to understand how identities, experiences, and movements have been socially constructed and have changed in different times and places, often as a result of race, class, and gender inequities. Offered by Women & Gender Studies. Limited to three attempts.

Recommended Prerequisite: WMST 200: Introduction to Women and Gender Studies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

300 Level Courses

WMST 300: *Current Issues in Women and Gender Studies.* 1-6 credits.
Study of selected topics central to contemporary women and gender studies. Topics vary but include subjects such as women and violence, women and international development, women's myth and ritual, LGBTQ topics, the history and politics of sexuality, psychoanalysis, and religion. Notes: May be repeated for credit when topic is different. Offered by Women & Gender Studies. May be repeated within the term.

Recommended Prerequisite: WMST 200 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 307: *Women and Work.* 3 credits.
Historical and contemporary accounts of women's participation in paid and unpaid labor. Analyzes the nature of women's work through the divisions in the labor market due to gender, race, nationality, ethnicity, and class. Provides a detailed look at occupational sex segregation, sexual harassment, the glass ceiling, and the role of religion, culture, and education in determining women's opportunities and their value as workers and as family providers. Offered by Women & Gender Studies. Limited to three attempts.

Recommended Prerequisite: 30 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 309: *Black Social Movements: Gendering of Violence and Activism.* 3 credits.
Examines racialized gendered conceptions of popular culture, violence, and the legal system and their role in structuring systems of segregation, discrimination and exclusion. Looks at the gendered strategies and conflicts of organizations that arose to combat racial violence and overturn legal and social barriers to equal opportunity and citizenship rights. Offered by Women & Gender Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 315: *Women During the Enslavement Era.* 3 credits.
Examines the general experiences of enslaved women and nominally free women. Includes the lives of female reformers involved in the public arena as orators, writers, preachers, abolitionists and women's rights activists. Explores the effect of gender, class, and race on the development of ideologies concerning abolition, colonization, women's rights, and enslavement. Offered by Women & Gender Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 317: *Women's Activism: From Jim Crow to Black Power.* 3 credits.
Provides an intersectional study of women's historical struggles to fight race, gender and class oppression. Demonstrates legal influence on reproduction of race and gender inequalities. Documents the major movements of the period from Jim Crow segregation to Black Power. Offered by Women & Gender Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 318: *Gender, Social Justice, and Activism.* 3 credits.
Course addresses historical and contemporary intersections of social movements and gender constructions, ideologies, and expressions. Offered by Women & Gender Studies. May be repeated within the degree for a maximum 12 credits.

Specialized Designation: Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 319: *Gender, Health, and Culture in the United States.* 3 credits.
Examines issues related to gender, culture, and health in the United States from a variety of interdisciplinary perspectives. Encompasses racial and ethnic identification, geographic region, sexual orientation, gender identity, generational status. Will be framed to emphasize the interplay between cultural, social, economic, environmental, and political factors associated with health, and methodological issues in research on health status and health behaviors. Offered by Women & Gender Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 330: *Feminist Theories of Gender, Sexuality, and Race.* 3 credits.
Introduces students to theoretical work in feminism, women's and gender studies, and queer theory. Examines the history of feminist and queer theories, key concepts and thinkers, and the intersection of feminist and queer theories with other areas of social analysis such as race and class. Explores social inequalities and forms of resistance. Offered by Women & Gender Studies. Limited to three attempts.

Recommended Prerequisite: WMST 200 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 375: *Gender, Race, Sexuality, and TV.* 3 credits.
Focuses on constructions of race, gender, and sexuality in contemporary and classic television . Examines television through genres, consumption, and social justice issues. Offered by Women & Gender Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 390: *Study Abroad.* 1-3 credits.
Study abroad under supervision of George Mason University faculty. Course topics, content and locations vary. Offered by Women & Gender Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 399: *Current Topics in LGBTQ Studies.* 3 credits.
Examines contemporary issues and policies within LGBTQ issues. Explores the intersections of race, gender, age, class, disability, and national identity in relation to LGBTQ identities. May be repeated for credit when the topic is different. Offered by Women & Gender Studies. May be repeated within the term for a maximum 18 credits.

Specialized Designation: Topic Varies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

400 Level Courses

WMST 400: *Internship in Women and Gender Studies.* 1-3 credits.
Community- or campus-based service or experiential learning related to women's or gender issues. Independent course in which students develop, in consultation with a faculty member, individual contracts defining the learning and competencies they plan to gain from the experience. Includes a paper and/or portfolio component. Offered by Women & Gender Studies. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Completion of 60 hours, WMST 200 or permission of instructor.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 401: *Experiential Learning in Women and Gender Studies.* 1-3 credits.
Community- or campus-based service or experiential learning as it relates to a specific WMST course, taken at the same time. Students develop, in consultation with faculty member, individual contracts defining learning and competencies they plan to gain from the experience. Notes: Only 3 credits of WMST 400 or 401 may be applied toward the women and gender studies interdisciplinary minor. Offered by Women & Gender Studies. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Concurrent enrollment in women and gender studies course and approval of advisor and instructor.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 402: *Queer Theory.* 3 credits.
Challenges rigid categories and definitions in order to create a space for marginalized voices. Examines the inconsistencies and erasures that often characterize notions of sex, gender, sexuality, and sexual desire. Explores categories that intersect with sexualized identities such as race, ethnicity, class, nationality, location, and age. Offered by Women & Gender Studies. Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 404: *Gender, Sexuality, and Disability.* 3 credits.
Examines the social construction of disability as it pertains to questions of gender, sexuality, race, and class; representations of disability in literature and film; disability, embodiment, and reproductive rights; queerness and disability; the concept of "passing" and invisible disabilities: asexuality and disability; and rhetorics of disability in the U.S. academy. Offered by Women & Gender Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 406: *Gender and Violence in Social Institutions.* 3 credits.
Examines gender-based violence in institutions such as the military, prisons, the Catholic Church, sports, and fraternities that share structural qualities including sex segregation, high rates of violence, and internal systems of justice. Concludes by examining strategies to reduce violence in each institution. Offered by Women & Gender Studies. Limited to three attempts.

Specialized Designation: Mason Impact.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 407: *Transnational Sexualities.* 3 credits.
Explore the globalization of sexual identities, cultures, and social movements from a transnational perspective. Engaging with literature from across the social sciences and humanities, we will consider how sexual rights discourse get defined and utilized in relation to theories of desire and the body; sexual health and reproductive rights; sex work; travel and tourism; border-crossing and migration; and neoliberalism and development. Offered by Women & Gender Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 408: *Gender, Sexuality, and Human Rights.* 3 credits.
Explores the globalization of women's and LGBTQ human rights discourses from transnational and global perspectives. Issues include: women's human rights and the war on terrorism; rape and sexual violence; HIV/AIDS; sex work and sex trafficking; girls' human rights; lesbian, gay, bisexual, transgender and intersex rights; and disability rights for women and sexual minorities. Offered by Women & Gender Studies. Limited to three attempts.

Specialized Designation: Mason Impact.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 409: *Gender, Sexuality, and International Migration.* 3 credits.
Explores how gender and sexuality structure contemporary processes of immigration and border-crossing in Europe and the U.S.. Addresses the history of U.S. immigration controls in relation to questions of race, class, gender and sexuality; women's and LGBTQ claims for political asylum in Europe and the United States; child migration; sex work, trafficking and migration; and feminist and queer anti-deportation activism. Offered by Women & Gender Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 410: *Feminist Approaches to Social Research.* 3 credits.
Introduces feminist approaches to social research for advanced undergraduate students. Focuses on the techniques for collecting, analyzing, and writing-up research data and examines central methodological issues raised by feminist scholars. Emphasizes a learning-by-doing approach to conducting social research. Recommended that students take WMST 330 before this course. Offered by Women & Gender Studies. Limited to three attempts.

Specialized Designation: Mason Impact.

Recommended Prerequisite: 60 credits, including 9 credits of WMST courses, or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 411: *RS: Feminist Research Practice.* 3 credits.
Undertake a semester-long research project investigating an issue of importance to feminist scholarship utilizing a variety of methods typically used by feminist scholars, including quantitative, qualitative, historical, or textual. Enhance understanding of techniques for collecting, analyzing, and writing up empirical material as well as critical engagement with ethical, interpretive, and representational considerations relating to feminist research. Offered by Women & Gender Studies. Limited to three attempts.

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: WMST 410 or permission of instructor.

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale.

WMST 412: *Race, Class, and LGBTQ Communities.* 3 credits.
Explores the other systemic oppressions that exist within the LGBTQ community such as racism, classism, and others through historical and contemporary debates and texts. Offered by Women & Gender Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 413: *LGBTQ Issues in Education.* 3 credits.
Provides an overview of contemporary issues and concepts related to lesbian, gay, bisexual, trans, and queer persons and communities as they relate to systems, structures, and experiences within educational contexts, such as schools, museums, and community organizations. Focuses on theories, methods, and practices to support learners and educators in settings inclusive of all sexual identities and orientations. Offered by Women & Gender Studies. Limited to three attempts.

Recommended Prerequisite: WMST 208

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 415: *LGBTQ Health.* 3 credits.
Examines health status and health disparities among lesbian, gay, bisexual, transgender, and queer (LGBTQ) communities across the lifespan. Measurement and methodological considerations in LGBTQ health research, as well as health-related interventions targeting LGBTQ populations will be emphasized. Offered by Women & Gender Studies. Limited to three attempts.

Recommended Prerequisite: WMST 208: Introduction to LGBTQ Studies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 416: *Policing Black Bodies.* 3 credits.
Interrogates the myriad ways in which Black Bodies are formally and informally policed. Special focus is given to the ways in which Black women's bodies are policed not only by the criminal justice system, but also informally through sexual and intimate partner violence, forced sterilization and contraception. Course utilizes the theoretical lenses of intersectionality and of color blind racism. Offered by Women & Gender Studies. Limited to three attempts.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 450: *Current Topics in Women and Gender Studies.* 1-3 credits.
Studies selected topics central to contemporary women and gender studies. Includes topics such as women and violence, women and international development, women's myth and ritual, LGBTQ topics, the history and politics of sexuality, disability, transnational issues and religion. Offered by Women & Gender Studies. May be repeated within the term for a maximum 18 credits.

Specialized Designation: Mason Impact., Topic Varies

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale.

WMST 490: *Independent Study in Women and Gender Studies.* 1-3 credits.
Reading or research on a specific topic related to women and/or gender issues, under the direction of a faculty member. May involve a combination of reading assignments, tutorials, papers, presentations, or off-campus activities. Offered by Women & Gender Studies. May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: WMST 200 or Permission of Instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale.

500 Level Courses

WMST 504: *Gender, Sexuality, and Disability.* 3 credits.
Examines the social construction of disability as it pertains to questions of gender, sexuality, race, and class; representations of disability in literature and film; disability, embodiment, and reproductive rights; queerness and disability; the concept of "passing" and invisible disabilities: asexuality and disability; and rhetorics of disability in the U.S. academy. Offered by Women & Gender Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

WMST 506: *Gender and Violence in Social Institutions.* 3 credits.
Examines gender-based violence in institutions such as the military, prisons, the Catholic Church, sports, and fraternities that share structural qualities including sex segregation, high rates of violence, and internal systems of justice. Concludes by examining strategies to reduce violence in each institution. Offered by Women & Gender Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

WMST 507: *Transnational Sexualities.* 3 credits.
Explore the globalization of sexual identities, cultures, and social movements from a transnational perspective. Engaging with literature from across the social sciences and humanities, we will consider how sexual rights discourse get defined and utilized in relation to theories of desire and the body; sexual health and reproductive rights; sex work; travel and tourism; border-crossing and migration; and neoliberalism and development. Offered by Women & Gender Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

WMST 508: *Gender, Sexuality, and Human Rights.* 3 credits.
Explores the globalization of women's and LGBTQ human rights discourses from transnational and global perspectives. Issues include: women's human rights and the war on terrorism; rape and sexual violence; HIV/AIDS; sex work and sex trafficking; girls' human rights; lesbian, gay, bisexual, transgender and intersex rights; and disability rights for women and sexual minorities. Offered by Women & Gender Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

WMST 509: *Gender, Sexuality, and International Migration.* 3 credits.
Explores how gender and sexuality structure contemporary processes of immigration and border-crossing in Europe and the U.S.. Addresses the history of U.S. immigration controls in relation to questions of race, class, gender and sexuality; women's and LGBTQ claims for political asylum in Europe and the United States; child migration; sex work, trafficking and migration; and feminist and queer anti-deportation activism. Offered by Women & Gender Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

WMST 516: *Policing Black Bodies.* 3 credits.
Interrogates the myriad ways in which Black Bodies are formally and informally policed. Special focus is given to the ways in which Black women's bodies are policed not only by the criminal justice system, but also informally through sexual and intimate partner violence, forced sterilization and contraception. Course utilizes the theoretical lenses of intersectionality and of color blind racism. Offered by Women & Gender Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

WMST 550: *Current Topics in Women and Gender Studies.* 1-3 credits.
Studies selected topics central to contemporary women and gender studies. Includes topics such as women and violence, women and international development, women's myth and ritual, LGBTQ topics, the history and politics of sexuality, disability, disability, transnational issues and religion. Offered by Women & Gender Studies. May be repeated within the term for a maximum 18 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

600 Level Courses

WMST 600: *Special Topics.* 3 credits.
Study of selected topics central to contemporary women and gender studies. Topics vary but include representation and images, violence, public policy, international development, transmigration of labor, myth and ritual, history and politics of sexuality, psychoanalysis, and religion. Notes: May be repeated for credit when topic is different. Offered by Women & Gender Studies. May be repeated within the term.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

WMST 602: *Queer Theory.* 3 credits.
Challenges rigid categories and definitions in order to create a space for marginalized voices. Examines the inconsistencies and erasures that

often characterize notions of sex, gender, sexuality, and sexual desire. Explores categories that intersect with sexualized identities such as race, ethnicity, class, nationality, location, and age. Offered by Women & Gender Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

WMST 610: *Feminist Approaches to Social Research.* 3 credits.
Introduces feminist approaches to social research. Focuses on the techniques for collecting, analyzing, and writing-up research data and examines central methodological issues raised by feminist scholars. Emphasizes a learning-by-doing approach to conducting social research. Offered by Women & Gender Studies. May not be repeated for credit.

Recommended Prerequisite: 3 credits of 600-level WMST courses, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

WMST 611: *Feminist Research Practice.* 3 credits.
Undertake a semester-long research project investigating an issue of importance to feminist scholarship utilizing a variety of methods typically used by feminist scholars, including quantitative, qualitative, historical, or textual. Enhance understanding of techniques for collecting, analyzing, and writing up empirical material as well as critical engagement with ethical, interpretive, and representational considerations relating to feminist research. Offered by Women & Gender Studies. May not be repeated for credit.

Recommended Prerequisite: WMST 610 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale.

WMST 630: *Feminist Theories.* 3 credits.
Multidisciplinary course examines the central issues of feminist theory and explores the various strategies of feminist theorists. Analyzes the ways in which feminist theories have challenged established disciplinary boundaries and contested the traditional assumptions of the humanities, the social sciences, and the sciences. Offered by Women & Gender Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

WMST 640: *Transnational Issues of Gender and Race.* 3 credits.
Multidisciplinary course explores the complex and intersectional issues women face in different regions of the world. Addresses women's diverse and shared transnational and global concerns and provides students with the tools to analyze and understand women in a global context. Offered by Women & Gender Studies. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale.

WMST 690: *Directed Readings and Research in Women and Gender Studies.* 1-3 credits.
Advanced individualized study of gender through readings, discussion, research, and/or projects under the direction and supervision of a member of the women's studies faculty. Offered by Women & Gender Studies. May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: Admission to graduate program in woman's studies and permission of director.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale.

WMST 695: *Internship.* 3 credits.
Community or campus-based service or experiential learning related to women's or gender issues. Students develop, in consultation with a faculty member, individual contracts defining the learning and competencies they plan to gain from the experience. Offered by Women & Gender Studies. May not be repeated for credit.

Recommended Prerequisite: Completion of 15 graduate credits in Interdisciplinary Studies, including 9 credits in Women and Gender Studies or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale.

WMST 699: *Capstone Portfolio.* 0 credits.
Prior to graduation and in consultation with their advisor, students will reflect on and synthesize their work in the women and gender studies certificate program by selecting three items taken from their work in the program and discussing these items in a 7-10 page essay. Work selected may include course papers, videos of their performances, exhibit photos, music recordings, and other items as agreed upon by student and advisor. Offered by Women & Gender Studies. May not be repeated for credit.

Recommended Prerequisite: Students must have completed their course work for women and gender studies certificate or be in the last semester of their course work.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale.

800 Level Courses

WMST 890: *Advanced Topics in Feminist Research and Scholarship.* 1-6 credits.
Specialized inquiry of topics of contemporary feminist research and scholarship. Content varies. Notes: May be repeated for credit when topic is different. Offered by Women & Gender Studies. May be repeated within the term for a maximum 9 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale.

AP.3 Grading ... 86
AP.4 Degree Application, Conferral and Graduation ... 89
AP.5 Undergraduate Policies ... 90
AP.6 Graduate Policies ... 93
AP.7 Research Policies ... 106
Applied and Engineering Physics, MS ... 804
Applied Behavior Analysis Graduate Certificate ... 181
Applied Computer Science, BS ... 1116
Applied Cyber Security Graduate Certificate ... 1212
Applied Industrial and Organizational Psychology, MPS ... 504
Applied Information Technology (AIT) ... 1355
Applied Information Technology, MS ... 1212
Applied Psychology Graduate Certificate ... 505
Applied Science, BAS ... 954
Applied Statistics Graduate Certificate ... 1239
Arabic (ARAB) ... 1368
Arabic Minor ... 474
Art and Visual Technology (AVT) ... 1371
Art and Visual Technology, BA ... 881
Art and Visual Technology, BFA ... 886
Art Education Licensure Graduate Certificate ... 891
Art Education, MAT ... 892
Art History (ARTH) ... 1396
Art History, BA ... 442
Art History, MA ... 446
Art History Minor ... 441
Artist Graduate Certificate ... 905
Arts and Social Change Minor ... 894
Arts Management (AMGT) ... 1405
Arts Management, MA ... 865
Arts Management Minor ... 865
Arts Management Program ... 864
Asia-Pacific and Northeast Asian Studies Minor ... 561
Assistive Technology (EDAT) ... 1410
Assistive Technology Graduate Certificate ... 182
Assistive Technology Minor ... 182
Astronomy (ASTR) ... 1412
Astronomy, BS ... 808
Astronomy Minor ... 808
Astrophysics Minor ... 810
Athletic Training Education Program (ATEP) ... 1418
Athletic Training, MS ... 262
Atmospheric Science Minor ... 656

Atmospheric Sciences, BS ... 656
Audio Production Minor ... 941
Autism Spectrum Disorders Graduate Certificate ... 182
Aviation Flight Training and Management Minor ... 1258

B

Bachelor of Individualized Study (BIS) ... 1427
Bachelor's of Applied Science (BAS) ... 1428
Biodefense (BIOD) ... 1429
Biodefense Graduate Certificate ... 967
Biodefense, MS ... 968
Biodefense, PhD ... 970
Bioengineering (BENG) ... 1433
Bioengineering, BS ... 1094
Bioengineering Minor ... 1093
Bioengineering, MS ... 1106
Bioengineering, PhD ... 1111
Bioinformatics and Computational Biology Graduate Certificate ... 839
Bioinformatics and Computational Biology, MS ... 840
Bioinformatics and Computational Biology, PhD ... 841
Bioinformatics (BINF) ... 1447
Bioinformatics Management, MS ... 842
Bioinformatics Management, Professional Science Master's ... 843
Bioinformatics Minor ... 846
Biology, BA ... 674
Biology (BIOL) ... 1454
Biology, BS ... 679
Biology Minor ... 673
Biology, MS ... 847
Biomedical Sciences (BMED) ... 1482
Biosciences (BIOS) ... 1484
Biosciences, PhD ... 852
Biostatistics, MS ... 1240
Brain, Body and Behavior Minor ... 506
Business Administration, MBA ... 1047
Business Analytics Graduate Certificate ... 1048
Business Analytics Minor ... 1048
Business and Legal Studies (BULE) ... 1491
Business, BS ... 1050
Business (BUS) ... 1487
Business Fundamentals Graduate Certificate ... 1049
Business Management (BMGT) ... 1491
Business Management of Secure Information Systems (MSIS) ... 1493
Business Minor ... 1050
Business, PhD ... 1058

C

Campuses and Instructional Sites ... 13
Career Changer's Biological Sciences Undergraduate Certificate ... 687
Chemistry and Biochemistry, PhD ... 694
Chemistry, BA ... 696
Chemistry, BS ... 701
Chemistry (CHEM) ... 1493
Chemistry Minor ... 695
Chemistry, MS ... 708
Chief Information Officer Graduate Certificate ... 1060
Childhood Studies Minor ... 609
Chinese (CHIN) ... 1508
Chinese Minor ... 475
Civil and Infrastructure Engineering, BS ... 1306
Civil and Infrastructure Engineering (CEIE) ... 1511
Civil and Infrastructure Engineering, MS ... 1313
Civil and Infrastructure Engineering, PhD ... 1318
Classical Studies Minor ... 476
Classics (CLAS) ... 1535
Climate Dynamics (CLIM) ... 1536
Climate Dynamics, PhD ... 658
Climate Science, MS ... 660
Clinical Psychology Minor ... 506
Coaching Minor ... 269
Cognitive Neuroscience Graduate Certificate ... 507
College of Education and Human Development ... 177
College of Health and Human Services ... 285
College of Humanities and Social Sciences ... 346
College of Science ... 647
College of Science (COS) ... 1544
College of Visual and Performing Arts ... 856
College of Visual and Performing Arts (CVPA) ... 1546
College Teaching Graduate Certificate (ENGL) ... 406
College Teaching Graduate Certificate (HE) ... 578
Colleges and Schools ... 177
Communication, BA ... 360
Communication (COMM) ... 1548
Communication, MA ... 366
Communication Minor ... 359
Communication, PhD ... 369

Community Health, BS ... 288
Computational and Data Sciences, BS ... 712
Computational and Data Sciences (CDS) ... 1566
Computational and Data Sciences Minor ... 711
Computational Science and Informatics (CSI) ... 1570
Computational Science, MS ... 715
Computational Sciences and Informatics, PhD ... 718
Computational Social Science (CSS) ... 1582
Computational Social Science Graduate Certificate ... 720
Computational Social Science, PhD ... 721
Computer Engineering, BS ... 1167
Computer Engineering, MS ... 1175
Computer Forensics (CFRS) ... 1586
Computer Game Design, BFA ... 870
Computer Game Design (GAME) ... 1586
Computer Game Design Minor (CVPA) ... 870
Computer Game Design Program ... 869
Computer Science, BS ... 1125
Computer Science (CS) ... 1592
Computer Science Minor ... 1125
Computer Science, MS ... 1136
Computer Science, PhD ... 1140
Computer Science Undergraduate Certificate ... 1124
Conflict Analysis and Resolution, BA ... 1018
Conflict Analysis and Resolution, BS ... 1024
Conflict Analysis and Resolution (CONF) ... 1613
Conflict Analysis and Resolution Graduate Certificate ... 1016
Conflict Analysis and Resolution Minor ... 1018
Conflict Analysis and Resolution, MS ... 1029
Conflict Analysis and Resolution, PhD ... 1035
Conservation Biology Minor ... 725
Conservation Studies (CONS) ... 1630
Conservation Studies Minor (CHSS) ... 610
Conservation Studies Minor (COS) ... 726
Contemporary Dispute Resolution Graduate Certificate ... 1037
Counseling and Development (EDCD) ... 1636
Counseling Graduate Certificate ... 183
Counseling, MEd ... 184
Creative Writing, BFA ... 407
Creative Writing, MFA ... 413
Criminal Justice, MS ... 377
Criminology (CRIM) ... 1643
Criminology, Law and Society, BA ... 379
Criminology, Law and Society, BS ... 383
Criminology, Law and Society, MA ... 386
Criminology, Law and Society Minor ... 378
Criminology, Law and Society, PhD ... 387
Cultural Studies (CULT) ... 1655
Cultural Studies, PhD ... 356
Cultural Studies Program ... 355
Curriculum and Instruction (EDCI) ... 1657
Curriculum and Instruction Graduate Certificate ... 185
Curriculum and Instruction, MEd ... 185
Cyber Security Engineering, BS ... 1158
Cyber Security Engineering (CYSE) ... 1672
Cyber Security Engineering, MS ... 1164

D

Dance Appreciation Minor ... 899
Dance, BFA ... 900
Dance (DANC) ... 1681
Data Analysis Minor ... 1242
Data Analytics Engineering (DAEN) ... 1690
Data Analytics Engineering, MS ... 1078
Data Analytics Graduate Certificate ... 1078
Data Journalism Graduate Certificate ... 754
Data Science Graduate Certificate ... 723
Department of Atmospheric, Oceanic and Earth Sciences ... 655
Department of Bioengineering ... 1093
Department of Biology ... 672
Department of Chemistry and Biochemistry ... 693
Department of Communication ... 358
Department of Computational and Data Sciences ... 710
Department of Computer Science ... 1116
Department of Criminology, Law and Society ... 376
Department of Cyber Security Engineering ... 1158
Department of Economics ... 390
Department of Electrical and Computer Engineering ... 1165
Department of English ... 404
Department of Environmental Science and Policy ... 724
Department of Geography and Geoinformation Science ... 752
Department of Global and Community Health ... 288
Department of Health Administration and Policy ... 302
Department of History and Art History ... 439
Department of Information Sciences and Technology ... 1211

Department of Mathematical Sciences ... 784
Department of Mechanical Engineering ... 1227
Department of Modern and Classical Languages ... 473
Department of Nutrition and Food Studies ... 316
Department of Philosophy ... 491
Department of Physics and Astronomy ... 802
Department of Psychology ... 503
Department of Rehabilitation Science ... 320
Department of Religious Studies ... 537
Department of Social Work ... 320
Department of Sociology and Anthropology ... 542
Department of Statistics ... 1238
Department of Systems Engineering and Operations Research ... 1257
Design and Technical Theater Minor ... 942
Design (DSGN) ... 1691
Design Thinking Minor ... 961
Developmental Psychology Minor ... 507
Digital Forensics (DFOR) ... 1691
Digital Forensics, MS ... 1182
Digital Humanities Minor ... 448
Digital Media and Web Design Minor (CHSS) ... 414
Digital Media and Web Design Minor (CVPA) ... 895
Digital Media and Web Design Minor (VSE) ... 1217
Digital Public Humanities Graduate Certificate ... 448

E

Early Childhood Education (ECED) ... 1697
Early Childhood Education for Diverse Learners, BSEd ... 215
Early Childhood Education for Diverse Learners Minor ... 214
Early Childhood Education (PK-3) Licensure Graduate Certificate ... 220
Early Childhood Special Education Licensure Graduate Certificate ... 221
Earth Science, BS ... 663
Earth Science Minor ... 662
Earth Systems and Geoinformation Sciences, PhD ... 754
Earth Systems Science, MS (AOES) ... 663
Earth Systems Science, MS (GGS) ... 756
Economics, BA ... 391
Economics, BS ... 396
Economics (ECON) ... 1706
Economics, MA ... 401
Economics Minor ... 390
Economics, PhD ... 403
Education Assessment, Evaluation, and Data Literacy Graduate Certificate ... 222
Education (EDUC) ... 1718
Education Instructional Technology (EDIT) ... 1734
Education Leadership (EDLE) ... 1742
Education Leadership Graduate Certificate ... 222
Education Leadership, MEd ... 223
Education, PhD ... 224
Education Policy (EDPO) ... 1746
Education Policy Graduate Certificate ... 224
Education Research (EDRS) ... 1747
Educational Psychology (EDEP) ... 1752
Educational Psychology Minor ... 227
Educational Psychology, MS ... 227
Electrical and Computer Engineering (ECE) ... 1755
Electrical and Computer Engineering Minor ... 1184
Electrical and Computer Engineering, PhD ... 1185
Electrical Engineering, BS ... 1188
Electrical Engineering, MS ... 1197
Elementary Education, BSEd ... 231
Elementary Education (ELED) ... 1781
Emergency Management and Homeland Security Graduate Certificate ... 972
Engineering (ENGR) ... 1786
English, BA ... 416
English (ENGH) ... 1787
English for Academic Purposes (EAP) ... 1814
English, MA ... 425
English Minor ... 415
Entrepreneurship Minor ... 1060
Environmental and Sustainability Management Graduate Certificate ... 727
Environmental and Sustainability Studies, BA (CHSS) ... 611
Environmental and Sustainability Studies, BA (COS) ... 727
Environmental Consulting Minor ... 735
Environmental Engineering Minor ... 1320
Environmental GIS and Biodiversity Conservation Graduate Certificate ... 758
Environmental Policy Minor ... 735
Environmental Science and Policy (EVPP) ... 1818
Environmental Science and Policy, MS ... 736
Environmental Science and Public Policy, PhD ... 741
Environmental Science, BS ... 744
Environmental Science Minor ... 744
Ethnomusicology Minor ... 906
Event Technical Production Minor (CEHD) ... 270

Event Technical Production Minor (CVPA) 943
Executive and Professional Education 114
Executive MBA 1061
Executive MBA (EMBA) 1842
Exercise, Fitness, and Health Promotion (EFHP) 1847
Expenses 133

F

Faculty 14
Faculty Emeriti 62
Film and Media Studies Minor 429
Film and Video Studies, BA 874
Film and Video Studies (FAVS) 1853
Film and Video Studies Program 873
Finance, BS 1062
Finance (FNAN) 1859
Finance Minor 1062
Finance, MS 1062
Financial Aid 133
Folklore and Mythology Minor 430
Folklore Studies (FOLK) 1865
Folklore Studies Graduate Certificate 431
Food and Beverage Management Undergraduate Certificate 270
Food Systems Minor 316
Foreign Language (FRLN) 1866
Foreign Languages, BA 477
Foreign Languages, MA 483
Forensic Accounting Graduate Certificate 1063
Forensic Psychology Minor 508
Forensic Science, BS 821
Forensic Science (FRSC) 1870
Forensic Science Minor 820
Forensic Science, MS 825
Forensic Science Program 820
Forensics Graduate Certificate 830
French (FREN) 1880
French Minor 486

G

General Policies 107
Geographic and Cartographic Sciences, MS 759
Geographic Information Science Graduate Certificate 761
Geographic Information Systems Minor 762
Geography and Geoinformation Science (GGS) 1890
Geography, BA 764
Geography, BS 771
Geography Minor 763
Geoinformatics and Geospatial Intelligence, MS 779
Geology, BA 665
Geology, BS 772
Geology (GEOL) 1910
Geology Minor 665
GeoManagement Undergraduate Certificate 781
Geospatial Intelligence Graduate Certificate 781
German (GERM) 1918
German Studies Minor 486
Gerontology Graduate Certificate 322
Gifted Education Graduate Certificate 233
Global Affairs, BA 563
Global Affairs (GLOA) 1921
Global Affairs, MA 574
Global Affairs Minor 562
Global Affairs Program 561
Global and Community Health (GCH) 1923
Global Health and Security Graduate Certificate 972
Global Health Minor 291
Global Health, MS 292
Global IT Leadership Graduate Certificate 1063
Global Systems Minor 973
Government Accounting Graduate Certificate 1064
Government Analytics Minor (COS) 723
Government Analytics Minor (Schar) 974
Government and International Politics, BA 975
Government Contracting Minor 1064
Government (GOVT) 1936
Graduate Admission Policies 72
Graduate School of Business (GBUS) 1951
Graphic Design Minor 896
Graphic Design Undergraduate Certificate 896
Greek (GREE) 1954
Green Leaf Programs and Courses 114

H

Health Administration and Policy (HAP) 1956
Health Administration, BS 303
Health and Human Services (HHS) 1972
Health and Medical Policy, MS 306

Health and Social Policy Minor ... 307
Health and Social Policy Minor ... 322
Health Communication Minor ... 371
Health, Disease, and Culture Minor ... 449
Health, Fitness, and Recreation Resources, BS ... 271
Health (HEAL) ... 1954
Health Informatics and Data Analytics Graduate Certificate ... 307
Health Informatics, MS ... 308
Health Information Technology Minor ... 311
Health Promotion Minor ... 233
Health Psychology Minor ... 508
Health Services Research, PhD ... 311
Health Systems Management, MHA ... 313
Hebrew (HEBR) ... 1974
Higher Education Administration Graduate Certificate ... 579
Higher Education and Student Development, MA ... 579
Higher Education (HE) ... 1975
Higher Education Program ... 577
History, BA ... 450
History (HIST) ... 1980
History, MA ... 462
History Minor ... 450
History, PhD ... 469
Honor Code and System ... 111
Honors College (HNRS) ... 1999
Honors College (Science/Math) (HNRT) ... 2001
Hospitality Management Minor ... 276
Human Development and Family Science, BA (CEHD) ... 235
Human Development and Family Science, BA (CHSS) ... 620
Human Development and Family Science (HDFS) ... 2002
Human Development and Family Science Minor (CEHD) ... 234
Human Development and Family Science Minor (CHSS) ... 619

I

Illicit Trade Analysis Graduate Certificate ... 981
Illustration Minor ... 897
Immigration Studies Minor ... 551
Individualized Study, BIS ... 623
Industrial/Organizational Psychology Minor ... 509
Information Sciences Graduate Certificate ... 1218
Information Security and Assurance Graduate Certificate ... 1142
Information Security and Assurance, MS ... 1143
Information Security Assurance (ISA) ... 2003
Information Security Management (ISM) ... 2007
Information Systems and Operations Management, BS ... 1065
Information Systems (INFS) ... 2009
Information Systems, MS ... 1147
Information Technology, BS ... 1221
Information Technology (IT) ... 2012
Information Technology Minor ... 1218
Information Technology, PhD ... 1087
Information Technology Undergraduate Certificate ... 1219
Integrative Studies, BA ... 627
Integrative Studies, BS ... 635
Integrative Studies (INTS) ... 2025
Intelligence Studies Minor ... 388
Interdisciplinary Program in Neuroscience ... 831
Interdisciplinary Programs and Courses ... 954
Interdisciplinary Studies, MAIS ... 581
Interdisciplinary Studies (MAIS) ... 2038
Interdisciplinary Studies Program ... 581
International Business Minor ... 1065
International Commerce and Policy (ITRN) ... 2039
International Commerce and Policy, MA ... 981
International ESOL/ESL Teacher Education Graduate Certificate ... 238
International Programs and Resources ... 137
International Security, MA ... 985
International Security Minor ... 984
International Year One (INYO) ... 2045
International/Comparative Studies Minor ... 987
INTO Mason ... 138
INTO Mason: Business Graduate Pathways ... 148
INTO Mason: Conflict Analysis and Resolution Graduate Pathways ... 149
INTO Mason: Education and Human Development Graduate Pathways 149
INTO Mason: Engineering Graduate Pathways ... 150
INTO Mason: Health and Human Services Graduate Pathways ... 153
INTO Mason: Humanities and Social Sciences Graduate Pathways ... 154
INTO Mason: Policy, Government and International Affairs Graduate Pathways ... 156
INTO Mason: Science Graduate Pathways ... 157
INTO Mason: Visual and Performing Arts Graduate Pathways ... 157
Islamic Studies Minor ... 598
IT Strategy and Digital Transformation Graduate Certificate ... 1066
Italian (ITAL) ... 2047
Italian Studies Minor ... 487

J

Japanese (JAPA) ... 2049
Japanese Studies Minor ... 488
Jazz Studies Minor ... 908
Jimmy and Rosalynn Carter School for Peace and Conflict Resolution 1014
Journalism Minor ... 372
Judaic Studies Minor ... 538

K

Kinesiology, BS ... 264
Kinesiology (KINE) ... 2051
Kinesiology Minor ... 264
Kinesiology, MS ... 266
Korean (KORE) ... 2057
Korean Studies Minor ... 489

L

Latin American Studies (LAS) ... 2061
Latin American Studies Minor ... 597
Latin American Studies Program ... 596
Latin (LATN) ... 2060
Latin Minor ... 490
Leadership Minor ... 639
Learning Design and Technology, MS ... 239
Learning Technologies Graduate Certificate ... 240
Legal Studies Minor ... 988
LGBTQ Studies Minor ... 644
Linguistics (LING) ... 2061
Linguistics Minor ... 431
Linguistics, PhD ... 432
Literacy/Reading Instruction Graduate Certificate ... 241
Literature and Composition Graduate Certificate ... 433
Living Learning Communities ... 117

M

Management, BS ... 1066
Management Information Systems Minor ... 1068
Management (MGMT) ... 2068
Management, MS ... 1066
Management of Information Systems (MIS) ... 2073
Management of Secure Information Systems (MSEC) ... 2077
Marketing, BS ... 1069
Marketing Minor ... 1068
Marketing (MKTG) ... 2080
Mason Core ... 160
Mason Impact ... 117
Mason Online ... 136
Mass Atrocity and Genocide Prevention Graduate Certificate ... 1038
Mathematics, BA ... 788
Mathematics, BS ... 793
Mathematics for School of Business Students Minor ... 787
Mathematics (MATH) ... 2087
Mathematics Minor ... 787
Mathematics, MS ... 798
Mathematics, PhD ... 801
MBA--Interdisciplinary (MBA) ... 2105
Mechanical Engineering, BS ... 1228
Mechanical Engineering (ME) ... 2114
Mechanical Engineering Minor ... 1227
Medical Laboratory Science, BS ... 688
Medical Laboratory Science (MLAB) ... 2126
Medieval Studies Minor ... 470
Middle East and Islamic Studies Graduate Certificate ... 599
Middle East and Islamic Studies, MA ... 600
Middle East and Islamic Studies (MEIS) ... 2128
Middle East and Islamic Studies Progam ... 597
Middle East Studies Minor ... 602
Mild Disabilities Minor ... 242
Military Science (MLSC) ... 2129
Military Services ... 118
Minor in Business (MBUS) ... 2130
Music, BA ... 914
Music, BM ... 918
Music Education Licensure for PK-12 Graduate Certificate ... 908
Music Education, PhD ... 909
Music for Well-Being Graduate Certificate ... 911
Music for Well-Being Minor ... 911
Music Minor ... 912
Music, MM ... 934
Music (MUSI) ... 2131
Music Pedagogy Minor ... 912
Music Technology Minor ... 913
Musical Arts, DMA ... 938

N

National Security and Public Policy Graduate Certificate ... 988
Native American and Indigenous Studies Minor ... 434

Native American and Indigenous Studies (NAIS) ... 2165
Naval Ship Design Graduate Certificate ... 1237
Neuroscience, BS ... 832
Neuroscience Minor ... 832
Neuroscience (NEUR) ... 2165
Neuroscience, PhD ... 837
Non-degree Enrollment ... 76
Nonprofit Management Graduate Certificate ... 989
Nonprofit Studies Minor ... 640
Nursing, BSN ... 331
Nursing, DNP ... 337
Nursing Education Graduate Certificate ... 330
Nursing, MSN ... 340
Nursing (NURS) ... 2171
Nursing, PhD ... 343
Nutrition and Food Studies (NUTR) ... 2191
