

GEORGE MASON UNIVERSITY

2021 - 2022

University Catalog

www.gmu.edu

The 2021 - 2022 University Catalog

This catalog was prepared on the basis of the best information available at the time of publication in April 2021. All information, including statements of tuition and fees, course offerings, and admissions and graduation requirements are subject to change without notice or obligation.

The catalog is produced by the Office of the University Registrar in cooperation with the Office of the Provost and University administration.

4400 University Drive, Fairfax, VA 22030-4444
703.993.1000 | 703.993.1002 (TTY)

Mason Core 160
University Honors 174
Colleges and Schools 177
Antonin Scalia Law School 177
College of Education and Human Development 177
School of Education 179
Add-On Endorsement in Special Education, General Curriculum Graduate Certificate 180
American Sign Language Minor 181
Applied Behavior Analysis Graduate Certificate 181
Assistive Technology Graduate Certificate 182
Assistive Technology Minor 182
Autism Spectrum Disorders Graduate Certificate 182
Counseling Graduate Certificate 183
Counseling, MEd 184
Curriculum and Instruction Graduate Certificate 185
Curriculum and Instruction, MEd 185
Early Childhood Education for Diverse Learners Minor 214
Early Childhood Education for Diverse Learners, BSEd 215
Early Childhood Education (PK-3) Licensure Graduate Certificate 220
Early Childhood Special Education Licensure Graduate Certificate 221
Education Assessment, Evaluation, and Data Literacy Graduate Certificate 222
Education Leadership Graduate Certificate 222
Education Leadership, MEd 223
Education Policy Graduate Certificate 224
Education, PhD 224
Educational Psychology Minor 227
Educational Psychology, MS 227
Elementary Education, BSEd 231
Gifted Education Graduate Certificate 233
Health Promotion Minor 233

Human Development and Family Science Minor (CEHD) 234
Human Development and Family Science, BA (CEHD) 235
International ESOL/ESL Teacher Education Graduate Certificate 238
Learning Design and Technology, MS 239
Learning Technologies Graduate Certificate 240
Literacy/Reading Instruction Graduate Certificate 241
Mild Disabilities Minor 242
Physical Education, BSEd 242
Psychology, MA (CEHD) 244
Research Methods Graduate Certificate 244
School Psychology Graduate Certificate 245
Secondary Education - Biology (6-12) Undergraduate Certificate 245
Secondary Education - Chemistry (6-12) Undergraduate Certificate 246
Secondary Education - Computer Science (6-12) Undergraduate Certificate 247
Secondary Education - Earth Science (6-12) Undergraduate Certificate 247
Secondary Education - English (6-12) Undergraduate Certificate 248
Secondary Education - Mathematics (6-12) Undergraduate Certificate 248
Secondary Education - Physics (6-12) Undergraduate Certificate 249
Secondary Education Licensure Graduate Certificate 250
Severe Disabilities Minor 251
Special Education Graduate Certificate 251
Special Education Leadership Graduate Certificate 252
Special Education, BSEd 253
Special Education, MEd 257
Specialized Reading Instruction for Students with Specific Learning Disabilities Graduate Certificate (pending SCHEV approval) 261
Visual Impairment and Blindness Minor 261
School of Kinesiology 262
Athletic Training, MS 262
Kinesiology Minor 264
Kinesiology, BS 264
Kinesiology, MS 266
Tactical Athlete Strength, Conditioning and Injury Prevention Graduate Certificate 268
School of Sport, Recreation and Tourism Management 268
Coaching Minor 269
Event Technical Production Minor (CEHD) 270
Food and Beverage Management Undergraduate Certificate 270
Health, Fitness, and Recreation Resources, BS 271
Hospitality Management Minor 276
Recreation Management Minor 277
Sport and American Culture Minor (CEHD) 277
Sport and Computer Game Design Minor (CEHD) 278
Sport and Conflict Resolution Minor (CEHD) 278
Sport and Recreation Studies, MS 279
Sport Communication Minor (CEHD) 281
Sport Management Graduate Certificate 281
Sport Management Minor 282
Sports Analytics Minor (CEHD) 283
Tourism and Events Management Minor 283
Tourism and Events Management, BS 284
College of Health and Human Services 285
Department of Global and Community Health 288
Community Health, BS 288
Global Health Minor 291
Global Health, MS 292
Public Health Graduate Certificate 293
Public Health Minor 294
Public Health, MPH 295
Public Health, PhD 300
Department of Health Administration and Policy 302
Health Administration, BS 303
Health and Medical Policy, MS 306
Health and Social Policy Minor 307
Health Informatics and Data Analytics Graduate Certificate 307
Health Informatics, MS 308
Health Information Technology Minor 311
Health Services Research, PhD 311
Health Systems Management, MHA 313
Senior Housing Administration Minor 315
Department of Nutrition and Food Studies 316
Food Systems Minor 316
Nutrition Graduate Certificate 317
Nutrition Minor 318
Nutrition, MS 319
Department of Rehabilitation Science 320
Department of Social Work 320
Aging Studies Minor 321
Gerontology Graduate Certificate 322
Health and Social Policy Minor 322
Social Work Minor 323
Social Work, BSW 323
Social Work, MSW 325
School of Nursing 329
Nursing Education Graduate Certificate 330
Nursing, BSN 331
Nursing, DNP 337
Nursing, MSN 340
Nursing, PhD 343
Psychiatric Mental Health Nurse Practitioner Graduate Certificate 345

College of Humanities and Social Sciences 346
African and African American Studies Program 353
African and African American Studies Minor 354
Cultural Studies Program 355
Cultural Studies, PhD 356
Department of Communication 358
Communication Minor 359
Communication, BA 360
Communication, MA 366
Communication, PhD 369
Health Communication Minor 371
Journalism Minor 372
Photojournalism Minor (CHSS) 373
Political Communication Minor (CHSS) 373
Professional Experience in Communication Minor 374
Science Communication Graduate Certificate 375
Sport Communication Minor (CHSS) 375
Department of Criminology, Law and Society 376
Criminal Justice, MS 377
Criminology, Law and Society Minor 378
Criminology, Law and Society, BA 379
Criminology, Law and Society, BS 383
Criminology, Law and Society, MA 386
Criminology, Law and Society, PhD 387
Intelligence Studies Minor 388
Department of Economics 390
Economics Minor 390
Economics, BA 391
Economics, BS 396
Economics, MA 401
Economics, PhD 403
Department of English 404
College Teaching Graduate Certificate (ENGL) 406
Creative Writing, BFA 407
Creative Writing, MFA 413
Digital Media and Web Design Minor (CHSS) 414
English Minor 415
English, BA 416
English, MA 425
Film and Media Studies Minor 429
Folklore and Mythology Minor 430
Folklore Studies Graduate Certificate 431
Linguistics Minor 431
Linguistics, PhD 432
Literature and Composition Graduate Certificate 433
Native American and Indigenous Studies Minor 434
Professional and Technical Writing Minor 435
Professional Writing and Editing Graduate Certificate (ENGL) 435
Teaching English as a Second Language Graduate Certificate 436
Teaching English as a Second Language Minor 437
Writing and Rhetoric, PhD 437
Department of History and Art History 439
Ancient History and Mediterranean Archaeology Minor 440
Art History Minor 441
Art History, BA 442
Art History, MA 446
Digital Humanities Minor 448
Digital Public Humanities Graduate Certificate 448
Health, Disease, and Culture Minor 449
History Minor 450
History, BA 450
History, MA 462
History, PhD 469
Medieval Studies Minor 470
Sport and American Culture Minor (CHSS) 471
STEM in Society Minor (CHSS) 472
Department of Modern and Classical Languages 473
Arabic Minor 474
Chinese Minor 475
Classical Studies Minor 476
Foreign Languages, BA 477
Foreign Languages, MA 483
French Minor 486
German Studies Minor 486
Italian Studies Minor 487
Japanese Studies Minor 488
Korean Studies Minor 489
Latin Minor 490
Russian Minor 490
Spanish Minor 491
Department of Philosophy 491
Philosophy and Law Minor 492
Philosophy Minor 493
Philosophy, BA 493
Philosophy, MA 499
Political Philosophy Minor 502
Department of Psychology 503
Applied Industrial and Organizational Psychology, MPS 504
Applied Psychology Graduate Certificate 505
Brain, Body and Behavior Minor 506
Clinical Psychology Minor 506
Cognitive Neuroscience Graduate Certificate 507
Developmental Psychology Minor 507
Forensic Psychology Minor 508
Health Psychology Minor 508
Industrial/Organizational Psychology Minor 509

Smithsonian-Mason School of Conservation ... 962
Schar School of Policy and Government ... 962
American Government Minor ... 967
Biodefense Graduate Certificate ... 967
Biodefense, MS ... 968
Biodefense, PhD ... 970
Emergency Management and Homeland Security Graduate Certificate ... 972
Global Health and Security Graduate Certificate ... 972
Global Systems Minor ... 973
Government Analytics Minor (Schar) ... 974
Government and International Politics, BA ... 975
Illicit Trade Analysis Graduate Certificate ... 981
International Commerce and Policy, MA ... 981
International Security Minor ... 984
International Security, MA ... 985
International/Comparative Studies Minor ... 987
Legal Studies Minor ... 988
National Security and Public Policy Graduate Certificate ... 988
Nonprofit Management Graduate Certificate ... 989
Organization Development and Knowledge Management, MS ... 989
Political Communication Minor (Schar) ... 990
Political Science, MA ... 991
Political Science, PhD ... 993
Public Administration, BS ... 995
Public Administration, MPA ... 1001
Public Management Graduate Certificate ... 1006
Public Policy, MPP ... 1006
Public Policy, PhD ... 1009
Public Policy and Management Minor ... 1011
Science, Technology, and Security Graduate Certificate ... 1011
Strategic Trade Graduate Certificate ... 1012
Terrorism and Homeland Security Graduate Certificate ... 1012
Transportation Policy, Operations, and Logistics, MA ... 1013
Urban and Suburban Studies Minor ... 1014
Jimmy and Rosalynn Carter School for Peace and Conflict Resolution ... 1014
Conflict Analysis and Resolution Graduate Certificate ... 1016
Conflict Analysis and Resolution Minor ... 1018
Conflict Analysis and Resolution, BA ... 1018
Conflict Analysis and Resolution, BS ... 1024
Conflict Analysis and Resolution, MS ... 1029
Conflict Analysis and Resolution, PhD ... 1035
Contemporary Dispute Resolution Graduate Certificate ... 1037
Mass Atrocity and Genocide Prevention Graduate Certificate ... 1038
Organizational Conflict Resolution Minor ... 1038
Sport and Conflict Resolution Minor (TCS) ... 1039
School of Business ... 1040
Accounting Undergraduate Certificate ... 1043
Accounting, BS ... 1044
Accounting, MS ... 1044
Accounting Analytics Graduate Certificate ... 1046
Accounting for Government Contracts Graduate Certificate ... 1046
Business Administration, MBA ... 1047
Business Analytics Graduate Certificate ... 1048
Business Analytics Minor ... 1048
Business Fundamentals Graduate Certificate ... 1049
Business Minor ... 1050
Business, BS ... 1050
Business, PhD ... 1058
Chief Information Officer Graduate Certificate ... 1060
Entrepreneurship Minor ... 1060
Executive MBA ... 1061
Finance Minor ... 1062
Finance, BS ... 1062
Finance, MS ... 1062
Forensic Accounting Graduate Certificate ... 1063
Global IT Leadership Graduate Certificate ... 1063
Government Accounting Graduate Certificate ... 1064
Government Contracting Minor ... 1064
Information Systems and Operations Management, BS ... 1065
International Business Minor ... 1065
IT Strategy and Digital Transformation Graduate Certificate ... 1066

Management, BS ... 1066

Management Information Systems Minor ... 1068
Marketing Minor ... 1068
Marketing, BS ... 1069
Operations and Supply Chain Management Minor ... 1069
Real Estate Development Minor ... 1070
Real Estate Development, MS ... 1070
Technology Management, MS ... 1072
Volgenau School of Engineering ... 1072
Interdisciplinary Programs, Volgenau School of Engineering ... 1078
Data Analytics Graduate Certificate ... 1078
Data Analytics Engineering, MS ... 1078
Information Technology, PhD ... 1087
STEM in Society Minor (VSE) ... 1092
Department of Bioengineering ... 1093
Bioengineering Minor ... 1093
Bioengineering, BS ... 1094
Bioengineering, MS ... 1106
Bioengineering, PhD ... 1111
Department of Computer Science ... 1116
Applied Computer Science, BS ... 1116
Computer Science Undergraduate Certificate ... 1124
Computer Science Minor ... 1125
Computer Science, BS ... 1125
Computer Science, MS ... 1136
Computer Science, PhD ... 1140
Information Security and Assurance Graduate Certificate ... 1142
Information Security and Assurance, MS ... 1143
Information Systems, MS ... 1147
Software Engineering Graduate Certificate ... 1152
Software Engineering Minor ... 1154
Software Engineering, MS ... 1154
Department of Cyber Security Engineering ... 1158
Cyber Security Engineering, BS ... 1158
Cyber Security Engineering, MS ... 1164
Department of Electrical and Computer Engineering ... 1165
Advanced Networking Protocols for Telecommunications Graduate Certificate ... 1166
Computer Engineering, BS ... 1167
Computer Engineering, MS ... 1175
Digital Forensics, MS ... 1182
Electrical and Computer Engineering Minor ... 1184
Electrical and Computer Engineering, PhD ... 1185
Electrical Engineering, BS ... 1188
Electrical Engineering, MS ... 1197
Small Satellite Engineering Graduate Certificate ... 1203
Systems Engineering Graduate Certificate (ECE) ... 1204
Telecommunications Forensics and Security Graduate Certificate ... 1207
Telecommunications, MS ... 1207
Department of Information Sciences and Technology ... 1211
Applied Cyber Security Graduate Certificate ... 1212
Applied Information Technology, MS ... 1212
Digital Media and Web Design Minor (VSE) ... 1217

About the University

The Mason Vision

Our Motto

Freedom and Learning

Mission

A public, comprehensive, research university established by the Commonwealth of Virginia in the National Capital Region, we are an innovative and inclusive academic community committed to creating a more just, free, and prosperous world.

Our Values

Our students come first
Our top priority is to provide students with a transformational learning experience that helps them grow as individuals, scholars and professionals

Diversity is our strength
We include and embrace a multitude of people and ideas in everything we do and respect differences

Innovation is our tradition
We strive to find new and better ways to deliver on our mission while honoring time-tested academic values

We honor freedom of thought and expression
We protect the freedom of all members of our community to seek truth and express their views

We are careful stewards
We manage the economic and natural resources entrusted to us responsibly and sustainably

We act with integrity
We hold ourselves to the highest ethical standards as educators, scholars, students and professionals

We thrive together
We nurture a positive and collaborative community that contributes to the well-being and success of every member

The Mason Graduate is...

An engaged citizen:

- ethically oriented and committed to democratic ideals
- respectful of individual differences, rights and liberties
- knowledgeable of important issues affecting the world
- focused on the well-being of others, today and tomorrow
- committed to building a just society

A well-rounded scholar:

- thinks critically and creatively and demonstrates professional competence
- possesses an inquisitive nature
- appreciates science, humanities and the arts
- skilled as a communicator
- committed to lifelong learning

Prepared to act:

- innovative, resourceful and entrepreneurial; ready to do or create a job
- interested and practiced in working with individuals from other cultures, backgrounds and perspectives
- equipped to make positive and meaningful changes in society

George Mason, the Man

George Mason was the central genius of the American Revolution. He was the primary author of both the Virginia Declaration of Rights and Virginia's first Constitution, written in May and June of 1776, which served as examples for other states. He was highly regarded by contemporaries for his intellect and abilities. Thomas Jefferson described him as "a man of first order wisdom," and James Madison described him as "the soundest and clearest reasoner I have ever listened to."

Always a reluctant public servant, he has been referred to as the "forgotten" or "unknown" founder. Most content at Gunston Hall, his home in Fairfax County, he participated in politics only out of a sense of duty. Unconcerned with fame or his reputation in history, he preferred the happiness of "a private station" to "the vexations of public business."

In 1787, Mason attended the Constitutional Convention at Philadelphia. James Madison, although known as the "Father of the Constitution," attributed much of the final document to Mason. Mason refused, however, to sign the Constitution, as it did not guarantee the rights of the people. By his principled opposition, Mason ultimately assured the adoption of the federal Bill of Rights based on his Virginia Declaration of Rights.

As demonstrated in the language set forth in Mason's own documents, no other founder was more acutely aware of the moral depravity of slavery and the contradiction it created. He proposed an elimination of the slave trade as a first step toward eventual emancipation. The institution of slavery was so ingrained in a pre-industrial agricultural society that it was only ended by the American Civil War.

If patriotism is defined as selfless devotion to a country conceived in liberty, then George Mason is our purest Patriot. On April 12, 1996, a seven-foot statue of him presenting his handwritten draft of the Virginia Declaration of Rights was dedicated at the university. A replica of this statue has also been erected at the Mason Korea campus. This statue serves as a constant reminder of the ideals of freedom and learning most important to Mason the man and the university that bear his name.

University History

The idea for George Mason University was born in 1949 when the Northern Virginia University Center, essentially an adult-education extension of the University of Virginia at Charlottesville, opened under

the direction of John Norville Gibson Finley. In 1955 and again in 1956, the Board of Visitors of the University of Virginia and Virginia legislature authorized the establishment of a two-year branch college to serve Northern Virginia.

The university's formal history began in 1957 as University College, the Northern Virginia branch of the University of Virginia, offering courses in engineering and the liberal arts. It opened in a renovated elementary school in the Bailey's Crossroads area with an enrollment of 17 students.

Eager to support the fledgling institution, the Town (now City) of Fairfax purchased 150 acres in 1958 and donated the land to the University of Virginia for a permanent branch campus. The following year, the University of Virginia Board of Visitors selected the name George Mason College. Construction of the campus' first four buildings was completed in 1964. In September of that year, 356 students began their studies in the new classrooms.

In March 1966, the General Assembly authorized the expansion of George Mason College into a four-year, degree-granting institution and gave it the long-range mandate to expand into a major regional university. The first senior class received degrees in June 1968. Graduate programs began in September 1970, with the first master's degrees conferred in June 1971. The George Mason College Board of Control, supported by citizens of the cities of Alexandria and Falls Church, and Arlington and Fairfax counties, acquired an additional 422 acres. By the end of 1970, the college's Fairfax Campus reached 572 acres; it is now 677 acres.

In 1972, the Board of Visitors of the University of Virginia recommended that the college separate from its parent institution. On April 7 of that year, the governor signed the General Assembly legislation that established George Mason University as an independent member of Virginia's system of colleges and universities.

Since 1972, the university's development has been marked by rapid growth and innovative planning. In 40 years, enrollment has risen from 4,166 to more than 38,000 students. In 1979, Mason was given the authority to grant doctoral degrees and began offering programs at this level. In the same year, the university acquired what became George Mason University School of Law, located on the Arlington Campus, and now known as the Antonin Scalia Law School.

In 1985, Mason partnered with area businesses to develop an engineering program geared toward the emerging information technology field and started what is now the Volgenau School of Engineering. With the Volgenau School, Mason was the first institution in the country to offer a doctoral degree in information technology.

The establishment in 1990 of the Institute of the Arts, which became the College of Visual and Performing Arts in 2001, solidified the university's commitment to make the arts an integral part of students' lives. The Center for the Arts and the arts complex, which includes art galleries, studio and rehearsal space, and performing venues such as Harris Theatre and TheaterSpace, are all components of the college.

On the Fairfax Campus, the innovative George W. Johnson Center was dedicated in April 1996. By combining student life resources with educational support facilities such as an interactive library, Mason created the learning workspace of the future. Educational administrators from around the world have toured the center.

The university's facilities continue to grow. In 2006, the university opened its first facility dedicated to research, Research Hall, which contains an observatory and laboratories for a number of campus research centers.

In 2009, the university opened the Long and Kimmy Nguyen Engineering Building, the university's first LEED-certified building on the Fairfax Campus. Also opening in 2009 was the Art and Design Building, which is now home to the School of Art.

Masonvale, a townhome community on campus that provides short-term housing for faculty and staff, opened in late 2009. The Hylton Performing Arts Center on the Science and Technology Campus, celebrated its grand opening in May 2010 and the Institute for Advanced Biomedical Research opened in 2015. On the Arlington Campus, Founders Hall opened in 2011. In 2016, the Point of View International Retreat and Conference Center in Lorton, Virginia, was opened, in 2017, the Potomac Science Center opened in Woodbridge, Virginia and in 2018, the Peterson Family Health Sciences Hall opened on the Fairfax campus. Mason's newest building, Horizon Hall, opened in 2021. This six-floor, 218,000-square-foot building is the largest academic building and centerpiece of the Core Campus Project (https://construction.gmu.edu/core-campus-project/) that is transforming the center of the Fairfax Campus with a new and expanded Wilkins Plaza (including the memorial to the enslaved people of George Mason), a renovated Harris Theatre, new green space, and an upgrade to the university's utility infrastructure.

In February 2016, Mason entered the "Highest Research Activity" tier of the Carnegie Classification of Institutions of Higher Education. joining an elite group of 115 research universities.

The university's growing reputation as an innovative educational leader is rooted in Virginia's strong educational tradition. By emphasizing research and study in fields relevant to government and area economic centers, Mason has created a curriculum and mission to meet the needs of Northern Virginia's extraordinary cosmopolitan constituency. The university has also achieved national distinction in many areas. Its reputation continues to grow as Mason provides educational, cultural, and economic resources for the people of Virginia, the nation, and the world.

Faculty and Students

The university's more than 1,400 full-time instructional and research faculty members are experts in a broad range of fields. They have published widely, contributed to major research findings, and consulted with government and business officials. Drawing prominent scholars from all fields, Mason's outstanding faculty have received grants and awards from the Guggenheim Foundation, the Templeton Foundation, the National Science Foundation, the National Endowment for the Arts, and the National Endowment for the Humanities; they have won numerous awards such as Fulbright Scholar grants, Pulitzer Prizes, Mellon Fellowships, Institute of Electrical and Electronics Engineers Centennial Medals, and Nobel Prizes. More than 47 endowed chairs at the university have also brought many internationally renowned artists and scholars to campus.

Of particular interest to undergraduates are the Robinson Professors, outstanding scholars in the liberal arts and sciences who have come to Mason from prestigious positions elsewhere. They are concerned with broad and fundamental intellectual issues and are dedicated to undergraduate teaching and working with Honors College students. In 1984, the first Robinson Professors joined the faculty as the result of a generous bequest from the estate of Clarence J. Robinson.

The majority of the university's more than 38,000 students are from Virginia; however, all 50 states and Washington, D.C., as well as 130 countries, are represented in the student body. While full-time undergraduates make up the largest student group, part-time graduate

and undergraduate students account for nearly half of the student population. Mason welcomes qualified students with a wide range of interests and backgrounds.

Accreditation

George Mason University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award bachelor's, master's, and doctoral degrees. Questions about the accreditation of George Mason University may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on the SACSCOC website (http://www.sacscoc.org).

Individual programs or units may also be accredited by discipline-specific agencies. Additional information may be found on the accreditation page of the Provost's website (https://provost.gmu.edu/administration/academic-affairs/accreditation/).

George Mason University Foundation, Inc.

Mission

The George Mason University Foundation was established in 1966 to receive, manage, invest, and administer private gifts for the benefit of the University, including endowment and real property.

Administration

Board of Visitors

James W. Hazel, Rector, JD, George Mason University School of Law; Charlottesville, Va.

Horace Blackman, Vice Rector, BA, George Mason University; MBA, University of Virginia; Falls Church, Va.

Simmi Bhuller, Secretary, BA, George Mason University; Falls Church, Va.

Anjan Chimaladinne, MS, George Mason University; South Riding, Va.

Thomas M. Davis, BA, Amherst College; JD, University of Virginia Law School; Vienna, Va.

Juan Carlos Iturregui, JD, Catholic University; Bethesda, Md.

Mehmood S. Kazmi, MBA, Harvard University; Great Falls, Va.

Wendy Marquez, BA, University of Maryland; McLean, Va.

Ignacia S. Moreno, JD, New York University School of Law; McLean, Va.

Carolyn J. Moss, BA, Howard University; McLean, Va.

Jon M. Peterson, BA, Middlebury College; Fairfax Station, Va.

Nancy Gibson Prowitt, BA, DePauw University; Arlington, Va.

Paul J. Reagan, JD, George Mason University School of Law, Springfield, Va.

Edward H. Rice, MS, The American University, Vienna, Va.

Denise Turner Roth, BS, George Mason University; Greensboro, NC.

Bob Witeck, BA, University of Virginia; Arlington, Va.

Lauren Reuscher (staff liaison), MA, George Mason Uniersity; Fairfax, Va.

Shelby Adams (undergraduate student representative), working on BS in Criminology, Law, and Society with a minor in Legal Studies; Lorton, Va.

Lilianna Deveneau (graduate student representative), working on MA in Sociology; Alexandria, Va.

Faculty Senate Chair (to be determined)

Administration

University President: **Gregory Washington, PhD**
Provost and Executive Vice President for Academic Affairs: **Mark Ginsberg, PhD**
Senior Vice President for Administration and Finance: Carol Dillon Kissal, MBA

Chief of Staff and Vice President for Strategic Initiatives: Kenneth Walsh, PhD

Vice Presidents

Vice President and Chief Audit, Risk, and Compliance Officer: Edward Dittmeier, BS

Vice President for Strategic Communications and Marketing: **Paul Allvin, BS**
Vice President for Compliance, Diversity, and Ethics: Dietra Trent, PhD (interim)

Vice President for Enrollment Management: David Burge, MA

Vice President for Facilities: Frank Strike, MS

Vice President for Finance: Deb Dickenson, MBA

Vice President for Government and Community Relations: Paul J. Liberty, BA

Vice President for Human Resources and Payroll: Lester L. Arnold Sr., MBA

Vice President for Information Technology: Kevin Borek, MBA

Vice President for Research, Innovation & Economic Development: Andre Marshall, PhD

Vice President for University Advancement and Alumni Relations: Trishana Bowden, BS

Vice President for University Life: Rose Pascarell, MA

Assistant Vice President and Director of Intercollegiate Athletics: Brad Edwards, MBA

Deans and Directors

Dean, College of Education and Human Development: Robert Baker, Ed.D (interim)

Dean, College of Health and Human Services: Germaine Louis, PhD

Dean, College of Humanities and Social Sciences: Ann Ardis, PhD

Dean, College of Science: Fernando R. Miralles-Wilhelm, PhD

Dean, College of Visual and Performing Arts: Richard A. Davis, DFA

Dean, George Mason University Korea: Robert Matz, PhD

Dean, Honors College: Zofia Burr, PhD

Dean, School of Business: Maury Peiperl, PhD

Dean, Jimmy and Rosalynn Carter School for Peace and Resolution: Alpaslan Özerdem, PhD

Dean, Antonin Scalia Law School: Ken Randall, JD

Dean, Schar School of Policy and Government: Mark Rozell, PhD

Dean, Volgenau School of Engineering: Kenneth S. Ball, PhD

Office of the Provost - Academic Affairs

Associate Provost for Academic Administration: Renate Guilford, MA

Associate Provost for Academic Initiatives and Services: Janette Kenner Muir, PhD

Associate Provost for Faculty Affairs and Development: Kimberly Eby, PhD

Associate Provost for Graduate Education: Laurence C. Bray, PhD

Associate Provost for Institutional Research and Assessment: Gesele Durham, PhD

Associate Provost for Sustainable Earth: Cody Edwards, PhD

Associate Provost for Undergraduate Education: Bethany M. Usher, PhD

University Registrar: Doug McKenna, MA

University Libraries

University Librarian: John Zenelis, MLS, MA

Campuses and Instructional Sites

Mason is a distributed university, with regional campuses in Fairfax, Arlington, and Prince William counties, an international branch campus in Songdo, South Korea, and instructional sites in Loudoun County, Herndon, Lorton, Woodbridge, and Front Royal. Each Mason campus has a distinctive academic focus that plays a critical role in the economy of its surrounding region. At each campus, students and faculty have access to all the university's resources, while the duplication of programs and support services is minimized through the use of technology.

Fairfax Campus

Situated on 677 acres of wooded land, the Fairfax Campus offers a wealth of opportunities beyond the numerous academic programs and is the principal center for undergraduate residence and life. The resident student population of 6,023 is expected to grow to more than 7,000 during the next few years as new residential units are constructed.

The George W. Johnson Center, the first building of its kind in the country, fosters university-wide learning by integrating students' curricular and extracurricular activities and strengthening relationships among university communities.

The Center for the Arts and the EagleBank Arena (formerly the Patriot Center) offer numerous opportunities to experience the arts, as well as sports and other entertainment. Professional artistic events presented on campus include music and dance from around the world and regional, national, and international visual art exhibitions. Free tickets are available to these events for full-time Mason students.

The Aquatic and Fitness Center provides state-of-the-art exercise equipment and competitive and recreational swimming to the university community and outside teams. The 120,000 square foot Recreation and Athletic Complex (formerly the PE Building) boasts three gymnasiums, two racquetball courts, two squash courts, and a two-story fitness gallery. Additional equipment and exercise space is also available in Skyline Fitness, adjacent to the residence halls.

Arlington Campus

The Arlington Campus, established in 1979, is located near Washington, D.C., on 5.2 acres of land. Mason's most urban location, the Arlington Campus is situated conveniently in the Virginia Square neighborhood and offers easy access via Metro and key transportation routes.

The campus has a strong focus on professional and graduate education and is home to the Antonin Scalia Law School, the Schar School of Policy and Government (formerly SPGIA) and the School for Conflict Analysis and Resolution. The Arlington Campus is also home to graduate programs in nonprofit management and arts management. In addition, the School of Business now offers its Executive MBA, Accounting, MS and Real Estate Development, MS programs in Arlington. Continuing and Professional Education is redefining the way we offer executive and professional education. In addition to these executive, graduate and professional programs, some undergraduate courses are also available in Arlington.

The Arlington Campus is home to the Mercatus Center and the Institute for Humane Studies, independent initiatives affiliated with the university. The Law and Economics Center (LAW), Center for World Religions, Diplomacy, and Conflict Resolution (S-CAR), Center for Regional Analysis (SCHAR) and the Interdisciplinary Center for Economic Science (CHSS) are some of the many research centers located at the Arlington Campus.

The campus includes four buildings: Hazel Hall, Van Metre Hall (formerly Founders Hall), and Vernon Smith Hall. Van Metre Hall, which opened on the campus in 2011, provides 256,000 square feet of space for academic and student support services. In addition, the building features a 300-seat auditorium, a public plaza, and a large multipurpose room. These additional spaces enable the university to highlight and showcase much of the exciting work taking place at the Arlington Campus - as well as throughout the university - through the hosting of conferences, meetings and other events. During the next five years the campus will undergo a $250 million transformation. With it will be the creation of the Rosslyn-Ballston Innovation Corridor, an innovation district that will be the first of its kind in Virginia.

Science & Technology Campus

The Science & Technology Campus (SciTech), established in 1997, is the nucleus of the largest research business park in Northern Virginia, Innovation Park. The 134 acres campus in Manassas is surrounded by advanced technology companies and agencies. The campus serves all of Northern Virginia and offers convenient access to the university for citizens of Prince William, Fauquier, and western Fairfax counties; the cities of Manassas and Manassas Park; and adjoining areas to the west and south. A major focus of the campus is research and academic programs in the life sciences, including biodefense and infectious diseases, cancer proteomics, genomics, medical education and bioinformatics. Graduate studies in Advanced Biomedical Sciences are offered for students preparing for medical school or careers in health professions. Programs in nursing, teacher education, information technology, health and fitness, recreation, exercise science, health promotion, parks and outdoor recreation, sport management, therapeutic

recreation, tourism and events management, and athletic training also are offered on the campus.

Campus resources available to all university students, faculty, and staff include a full-service library, large drop-in computer lab, information center, University Police, university bookstore, dining services, student lounge, shuttle bus service between the Fairfax and SciTech Campuses, and full complement of student and academic services. In addition, there are numerous opportunities to get involved in campus life through a variety of co-curricular and extracurricular activities.

Many campus facilities and services are available to serve university and community needs. The 300-seat Verizon Auditorium located in Colgan Hall boasts innovative audiovisual technologies suitable for presentations, meetings, and ceremonies, along with lobby space for receptions and displays. The campus is also home to the Virginia Serious Game Institute, located in the Katherine G. Johnson Building, where students and faculty can pursue true multidisciplinary translational applied-research in Simulation, Modeling, and Game Design and Development. A new partnership on the SciTech Campus between Mason and the Uniformed Services University allows, Army, Air Force, Marine, and Navy service members to remain on active duty during two years of preparatory coursework for application to medical school.

The campus comprises eight buildings: three research facilities, two academic buildings, a student housing facility, a recreation and fitness center and a performing arts center. Graduate student housing with ground level retail space opened in fall 2012. Through mutually beneficial partnerships with local government and area businesses, the campus has positioned itself to tap into the unique assets of the surrounding community while providing access to university resources and programs for students and citizens. The university's Biomedical Research Laboratory (BRL) opened in 2010. This regional biocontainment facility, the largest of only 12 facilities of its kind in the nation, is funded in part by the National Institute of Allergy and Infectious Diseases and houses research on emerging infectious diseases and those caused by biological threat agents.

The 110,000-square-foot Freedom Aquatic & Fitness Center™ offers state-of-the-art exercise equipment, group fitness programs, a full gymnasium with elevated track, and recreational and instructional swimming in a 50-meter competition pool, classrooms, and other meeting spaces. It is also home to EDGE, Mason Center for Team and Organizational Learning's Challenge Course. The SMART Laboratory-Freedom Center is a 2,000 square foot facility that serves as the primary research facility for faculty and students in the Athletic Training and Sports Medicine degree programs.

Prince William County, the City of Manassas, and Mason have joined to create the region's first state-of-the-art performing arts center. The Hylton Performing Arts Center, opened in 2010, provides outstanding professional performances by artists from around the world in world-class venues. With resources for community arts groups; regional business, civic, and service organizations; county and city school students and teachers; Mason students and faculty, The Hylton Performing Arts Center educates, entertains, and enriches the community.

The Governor's School @ Innovation Park began conducting dual-enrollment classes for high school guest matriculates at the SciTech Campus in 2010.

George Mason University Korea

GMU Korea was established in 2014 as part of the Incheon Global Campus, aiming to become the best global education hub in Northeast Asia. George Mason University was invited by the Incheon Free Economic Zone Authority to come to Songdo and participate in an innovative initiative to educate the next generation of global leaders. GMU Korea now offers U.S. degrees in five undergraduate disciplines. Approved by the Korean Ministry of Education, the degree programs offered afford students the unique opportunity to spend three years at GMU Korea in Songdo and one year in the U.S. at Mason in Fairfax, Virginia. When these students graduate, they receive the same degree as all students from George Mason University.

Instructional Sites

Mason in Loudoun, conveniently located directly on Route 7 in Sterling, Virginia, connects students and businesses in one of the nation's fastest-growing areas to one of the Commonwealth's premier universities. Mason in Loudoun offers undergraduate and graduate level coursework in nursing, health science, education, information technology, leadership studies and management. Professional and executive education programs are also held at this site, as well as classes through the Osher Lifelong Learning Institute. Co-located with Northern Virginia Community College in leased space adjacent to their Loudoun Campus, Mason in Loudoun offers students the same privileges and access as those on Mason's Fairfax, Arlington, and SciTech Campuses.

Smithsonian Mason School of Conservation (https://smconservation.gmu.edu/) was established as a partnership between the Smithsonian Institution and George Mason University to provide experiential education for current and future generations of global conservation professionals, leaders, and practitioners. Located in in Front Royal, Virginia, the campus offers undergraduate, graduate and certificate programs for students and professionals.

Faculty

Instructional and Administrative Faculty 2021 - 22

The faculty list reflects appointments as of March 2021.

A

Abdelfattah, Belal, Assistant Professor of Information Systems and Operations Management. BBA 2004, MBA 2006, PhD 2013, University of Texas at El Paso.

Abramson, Alan J., Professor, Schar School of Policy and Government. BA 1976, Wesleyan University; MA 1977, MPhil 1979, PhD 1990, Yale University.

Abratt, Russell, Professor of Marketing. B. Comm 1974, University of the Witwatersrand; MBA 1977, DBA 1981, University of Pretoria.

Acs, Zoltan J., University Professor of Public Policy. Director, Center for Entrepreneurship and Public Policy. BA 1972, Cleveland State University; MA 1974, PhD 1980, The New School.

Adams, Leah, Assistant Professor, Psychology and Women & Gender Studies. BS 2008, University of Richmond; PhD 2014, George Mason University.

Adelman, Leonard, Professor, Systems Engineering and Operations Research, Volgenau School of Engineering.. BA 1971, Florida State University; MA 1973, PhD 1976, University of Colorado.

Agnarsson, Geir, Associate Professor, Mathematical Sciences. BS 1990, University of Iceland; PhD 1996, University of California, Berkeley.

Aguirre, A. Alonso, Professor and Chair, Environmental Science and Policy. PhD 1990, Colorado State University.

Ahmad, Afra, Term Assistant Professor of Psychology and Director of the MPS Program. BA 2008, MA 2012, PhD 2016, George Mason University.

Ahmadi, Pouyan, Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 2006, Azad University; MS 2009, Iran University of Science and Technology; PhD 2015, George Mason University.

Ahn, Changwoo, Professor, Environmental Science and Policy. BS 1992, MS 1996, Seoul National University; PhD 2001, The Ohio State University.

Aidoo, Abena, Associate Professor, Tourism and Events Management, School of Sport, Recreation, and Tourism Management. BA 1997, University of Ghana; MHRD 2002, Clemson University; PhD 2010, University of Delaware.

Aier, Jagadison, K., Associate Professor of Accounting. B.Com 1990, Calcutta University; MBA 1995, International Management Institute; MAIS 2002, PhD 2008, Arizona State University.

Ainsworth, Melissa, Assistant Professor, School of Education in the College of Education and Human Development. BA 1986, West Virginia University; MA 1988, University of Wyoming; MEd 1999, PhD 2014, George Mason University.

Akerlof, Karen L., Assistant Professor, Environmental Science and Policy. BA 1991, University of Michigan, Ann Arbor; MS 2009, PhD 2012, George Mason University.

Albanese, Denise, Director, Cultural Studies PhD Program; Professor, English and Cultural Studies. BA 1978, New York University; PhD 1987, Stanford University.

Albanese, Massimiliano, Associate Professor, Information Sciences and Technology, Volgenau School of Engineering. BS, MS 2002, Laurea; PhD 2005, University of Naples "Federico II".

Aldatmaz, Serdar, Assistant Professor of Finance. BA 2008, Koc University; PhD 2013, University of North Carolina at Chapel Hill.

Alemi, Farrokh, Professor, Health Administration and Policy. BS 1976, MS 1978, PhD 1983, University of Wisconsin-Madison.

Aler, John, Associate Professor of Music, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. BM 1971, MM 1972, Catholic University of America.

Al-Seoudi, Nizar Jebril Ibrahim, Term Assistant Professor of Arabic. BA 2002, MA 2006, PhD 2011 University of Jordan, Amman, Jordan.

Allbeck, Jan M., Associate Dean, Honors College. Associate Professor, Computer Science. BS 1995, Bloomsburg University; MS 1997, PhD 2009, University of Pennsylvania.

Allen, Susan H., Associate Professor of Conflict Analysis and Resolution, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1992, University of Virginia; MS 1995, PhD 2000, George Mason University.

Altug, Mehmet, Associate Professor of Information Systems and Operations Management. BS 1996, Bogazici University; MS 1998, University of Florida; M.Phil 2006, PhD 2009, Columbia University.

Ambegaonkar, Jatin, Professor, Athletic Training, School of Kinesiology. BS 1998, T. N. Medical College, India; MS 2003, Springfield College; PhD 2006, University of North Carolina, Greensboro.

Amireh, Amal, Associate Professor, English. BA 1983, Birzeit University, Palestine; MA 1987, PhD 1997, Boston University.

Amiri, Mehdi, Assistant Professor. BS 2006, University of Tehran; 2011 PhD, Louisiana State University.

Ammann, Paul E., Associate Professor, Computer Science, Volgenau School of Engineering. AB 1983, Dartmouth College; MS 1985, PhD 1988, University of Virginia.

Anacker, Katrin B., Associate Professor, Schar School of Policy and Government. MA 1999, MCRP 1999, PhD 2006, Ohio State University.

Anand, Priyanka, Associate Professor of Health Administration and Policy. BA 2002, University of California, Berkeley; MA 2009, MPhil 2009, PhD 2012, Yale University.

Anastasopoulos, Antonios, Assistant Professor, Computer Science, Volgenau School of Engineering. MS 2014, National Technical University of Athens; PhD 2019, University of Notre Dame.

Anclien, Christopher, Director of Human Resources and Planning, Schar School of Policy and Government. BS 2004, American University; JD, 2008, George Mason University.

Andalibi, Ali, Professor and Senior Associate Dean for Faculty Affairs and Strategic Initiatives, College of Science. BS 1983, University of South Carolina; PhD 1990, University of California, Los Angeles.

Anderson, Daniel M., Professor, Mathematical Sciences. BA 1989, St. Olaf College; PhD 1993, Northwestern University.

Anderson, Eric G., Associate Professor, English. AB 1981, Rutgers College; MA 1983, PhD 1994, Rutgers University.

Anderson, Jacqueline, Director, Human Resources, College of Education and Human Development. BA 1988, Saint Leo University.

Andre, Matthew J., Assistant Professor, School of Kinesiology, College of Education and Human Development. BS 2008, MS 2010, George Mason University; PhD 2014, University of Kansas.

Andrea, Kevin, Instructor of Computer Science. BS 2012, MS 2014, George Mason University.

Antil, Harbir, Associate Professor, Mathematical Sciences. BS 2004, St. Stephen's College; MS 2006, PhD 2009, University of Houston.

Appel, Robert, Director, Marketing and Communications, School of Business. BS 1979, University of Maryland.

Archer, Graham, Senior Research Engineer, Rapid Prototyping Research Center, Volgenau School of Engineering

Ardis, Ann L., Professor and Dean, College of Humanities and Social Sciences. BA 1979, University of Kansas; MA 1982, PhD 1988, University of Virginia.

Ascoli, Giorgio A., University Professor, Bioengineering, Volgenau School of Engineering. Director, Center for Neural Informatics. BS 1991, Scuola Normale Superiore, Italy; MS 1993, Pisa University, Italy; PhD 1996, Scuola Normale Superiore.

Ashley, Jennifer, Term Assistant Professor of Global Affairs, BA 1999, Kenyon College; MA 2004, PhD 2011, Brown University.

Ashraf-Hassan, Saima, Term Instructor of French. DREA 1998, Institute des Langues et Civilisations Orientales, Paris, France; LLM 2008, Washington College of Law, American University.

Atkinson, Jennifer H., Professor, English. BA 1978, Wesleyan University; MFA 1984, MA 1985, University of Iowa.

Auerswald, Philip E., Associate Professor, Schar School of Policy and Government. BA 1988, Yale University; MA 1995, PhD 1999, University of Washington.

Auffret, Jean-Pierre, Director, Research Partnerships and Grant Initiatives and Assistant Professor, School of Business. BS 1979, Duke University; MBA 1982, University of Virginia; PhD 1999, American University.

Auld, Eric, Term Instructor of English. BA 2007, State University of New York at Plattsburgh; MA 2009, College of Saint Rose.

Austin, Leila, Assistant Professor of Business Foundations. BA 1989, Bryn Mawr College; MA 1993, Johns Hopkins University; PhD 2006, Columbia University.

Avila, Kimberly A. Assistant Professor, School of Education in the College of Education and Human Development. BS 1998, Colorado State University; MA 2000, University of Northern Colorado.

Avramovic, Ivan, Instructor of Computer Science. BS 1997, University of Illinois, Urbana-Champaign; MS 2012, George Mason University.

Avramovic, Sanja, Assistant Professor of Health Administration and Policy. MS, University of Belgrade; PhD 2015, George Mason University.

Axtell, Robert, Professor, Computational and Data Sciences. BS 1983, University of Detroit; PhD 1992, Carnegie Mellon University.

Aydin, Hakan, Professor, Computer Science, Volgenau School of Engineering. BS 1991, MS 1994, Istanbul Technical University; PhD 2001, University of Pittsburgh.

Aylsworth, Julie Higgins. Assistant Professor, School of Sport, Recreation, and Tourism Management, College of Education and Human Development. BS 1998, MA 2003, PhD 2006, The Ohio State University.

Azam Salahuddin, Syed, Director of Fiscal Services, Schar School of Policy and Government. BS 1996, Indiana University; MBA 2003, Vanderbilt University.

Azar, Tawnya, Term Assistant Professor of English. BA 2007, Randolph College; MA 2009, PhD 2018, George Washington University.

B

Bagchi, Pramita, Assistant Professor, Statistics, Volgenau School of Engineering. BS 2008, MS 2010, Indian Statistical Institute; PhD 2105, University of Michigan.

Bagheri, Shaghayegh, Assistant Professor, Mechanical Engineering, Volgenau School of Engineering. BS 2009, MS 2011, Ferdowsi University of Mashhad; PhD 2014, Ryereson University.

Bailey, Charles, Distinguished Professor, School of Systems Biology. Executive Director, National Center for Biodefense and Infectious Diseases. BS 1965, MS 1966, PhD 1968, Oklahoma State University.

Baily, Supriya, Associate Professor, School of Education. BA 1995, University of Nevada, Reno; MA 1997, George Washington University; PhD 2008, George Mason University.

Baker, Courtney K., Assistant Professor, Mathematics Leadership, Graduate School of Education in the College of Education and Human Development. BS 1997, Virginia Polytechnic Institute and State University; MEd 2008, PhD 2014, George Mason University.

Baker, Pamela, Associate Professor, School of Education. BS 1984, MEd 1987, College of William and Mary; EdD 2002, Bowling Green State University.

Baker, Robert, Professor, Sport Management, School of Sport, Recreation, and Tourism Management. BS 1979, MS 1985, Pennsylvania State University; EdS 1986, EdD 1995, College of William and Mary.

Balakerskaia, Anna, Term Professor of Music, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. MM 1969, DMA 1974, St. Petersburg State Conservatory, Russia.

Balakian, Sophia, Assistant Professor, School of Integrative Studies, College of Humanities and Social Science. BA 2006, Cornell; PhD 2017, University of Illinois at Urbana-Champaign.

Baldimtsi, Foteini, Assistant Professor, Computer Science, Volgenau School of Engineering. BS 2008, MS 2011, PhD 2014, Brown University.

Baldo, James, Term Associate Professor, Systems Engineering and Operations Research Department, Volgenau School of Engineering. BS, Adrian College; MS, University of Toledo; PhD, George Mason University.

Ball, Kenneth, Dean, Volgenau School of Engineering. BS 1982, Lehigh University; MSME 1984, PhD 1987, Drexel University; PE 1992 Texas.

Bannan-Ritland, Brenda, Associate Professor, School of Education. BS 1986, Millersville University; MS 1991, Bloomsburg University; PhD 1995, Pennsylvania State University.

Banville, Dominique, Associate Professor, Physical Education, School of Recreation, Health and Tourism. BPE 1990, MS 1994, PhD 1998, Laval University, Canada.

Bar, Brian D., Assistant Director of Career Development, Schar School of Policy and Government. BS 2009, University of Wisconsin, Green Bay; MS 2012, University of Wisconsin, Madison.

Baranova, Anna, Professor, Systems Biology. Director, Chronic Metabolic and Rare Diseases Systems Biology Initiative. MS 1995, PhD 1998, Moscow State University; DSci 2004, Vavilov Institute of General Genetics, Russian Academy of Sciences.

Barbará, Daniel, Professor, Computer Science, Volgenau School of Engineering. BS 1975, Universidad Metropolitana, Caracas, Venezuela; MSE 1981, PhD 1985, Princeton University.

Barnes, Steven, Associate Professor, History. Director of the Eurasian Studies Program. BA 1993, Harvard University; MA 1997, PhD 2003, Stanford University.

Barreto, Ernest, Professor, Physics and Astronomy and The Krasnow Institute for Advanced Study. BS 1990, University of Chicago; MS 1995, PhD 1996, University of Maryland.

Barthold, Christine H., Associate Professor, School of Education, College of Education and Human Development. BA 1995, Moravian College; MEd 1999, Temple University; PhD 2007, University of Maryland.

Barton, Rhonda, Director, Business Development, Executive Development, School of Business. BA 1992, MBA 2008, University of Tennessee.

Bates, Jessica R., Director of Marketing, Schar School of Policy and Government. BA 2006, Hendrix College; MA 2012, Virginia Polytechnic Institute and State University.

Batheja, Sapna, Assistant Professor of Nutrition and Food Studies. BS 2004, MS 2007, Case Western Reserve University; PhD 2018, Howard University.

Bauman, Lisa Passaglia, Term Associate Professor of Art History. BA 1980, Saint Louis University; PhD 1990, Northwestern University.

Baylor, David M., Operations Director, Hylton Performing Arts Center. BA 1989, George Mason University.

Beadles, Nicole M., Assistant Professor, School of Education, College of Education and Human Development. BA 1995, Georgetown University; MA 1996, EdS 1998, James Madison University; PhD 2006, University of Virginia.

Bean, Mandy, Associate Professor, School of Education, College of Education and Human Development. BA, MAT 1996, University of Virginia; PhD 2015, University of North Carolina at Chapel Hill.

Beauchamp, Jonathan, Assistant Professor, Department of Economics. BSc 2005, MA 2006, Queen's University; PhD 2011, Harvard University.

Becker, Peter A., Professor, Physics and Astronomy. BA 1982, Rutgers University; MS 1985, PhD 1987, University of Colorado, Boulder.

Beckman, Elizabeth E., Archives and Manuscripts Librarian, University Libraries. BA 2010, Kenyon College; MLIS 2012, University of Pittsburgh.

Beckwith, Kelly, MPH Program Coordinator, Global and Community Health. BA 1999, SUNY Fredonia; MPH 2005, University of Minnesota.

Beheshti, Ali, Assistant Professor, Mechanical Engineering, Volgenau School of Engineering. BSc 2004, MSc 2007, Isfahan University of Technology, Esfahan, Iran; PhD 2013 Louisiana State University.

Bell, Kathleen K., Grants, Planning and Assessment Analytics Officer, University Libraries. BA 2008, Virginia Intermont College; MA 2010, MLS 2011, Texas Woman's University.

Belle, Gabriele B., Assistant Professor, Physics and Astronomy. MS 1982, Karl Franzens University, Graz, Austria; Ph.D. 1985, Radboud University, Nijmegen, Netherlands; MSS 1997, International Space University, Strasbourg, France.

Bellos, Ioannis, Associate Professor of Information Systems and Operations Management. MS 2006, Aristotle University of Tessaloniki; PhD 2012, Georgia Institute of Technology.

Bennett, James T., William P. Snavely Professor of Political Economy and Public Policy. BS 1964, MS 1966, PhD 1970, Case Western Reserve University.

Berea, Anamaria, Associate Professor, Computational and Data Sciences. PhD 2010, Academy of Economic Studies Romania; PhD 2012, George Mason University.

Berg, Colleen, Adjunct Instructor, Mechanical Engineering, Volgenau School of Engineering. BS 1986, Lehigh University; MS 2006, Texas Tech University.

Berg, Scott, Term Associate Professor, English. BA 1992, University of Minnesota; MA 1995, Miami University; MFA 1997, George Mason University.

Berger, LaNitra, Director, Office of Fellowships, Honors College. BA 1999, Stanford University. MA 2002, PhD 2009, Duke University.

Berk, Christopher, Assistant Professor, Schar School of Policy and Government. MA 2010, MLS 2016, PhD 2016, The University of Chicago.

Berlin, F. Brett, Instructor, Data Analytics Engineering, Volgenau School of Engineering. BS 1972, USAF Academy; MA 1979, University of Texas.

Berlin, Karen, Technical Assistance Specialist, Kellar Institute for Human disAbilities, College of Education and Human Development. BS 1982, The Pennsylvania State University; MEd 1986, Georgia State University.

Berroa, Rei, Chair, Modern and Classical Languages. Professor, Spanish. BA 1970, Catholic University of Puerto Rico; MA 1977, Middlebury College; MA 1980, PhD 1983, University of Pittsburgh.

Berry, Alok K., Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. . BS 1967, MS 1969, University of Delhi; MS 1981, PhD 1985, University of Missouri.

Berry, Ivory M, Director of Student Success, College of Education and Human Development. BS 2007, Southern University and A & M College; MA 2008, PhD 2014, University of Illinois.

Berry, Tyrus, Assistant Professor, Mathematical Sciences. BS 2006, BA 2006, University of Virginia; MS 2008, The Ohio State University; PhD 2013, George Mason University.

Best, Amy L., Chair and Professor, Sociology. BA 1992, Ithaca College; MA 1995, PhD 1998, Syracuse University.

Betka, Paul M., Assistant Professor, Atmospheric, Oceanic and Earth Sciences. BS 2006, Virginia Tech; MS 2008, University of Vermont; PhD 2013, University of Texas at Austin.

Biggs, Regina, Associate Professor, School of Education. BS, Eastern Michigan University; MA, Roosevelt University; PhD, Loyola University.

Billingham, Lisa A., Professor of Music and Director of Graduate Music, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. BMEd 1986, Indiana University; MM 1994, University of Missouri, Kansas City Conservatory; DMA 2001, University of Arizona.

Binning, **Dave**, Instructor and Director of Assessment and Accreditation, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 1962, MS 1973, University of Delaware.

Bishop, Barney, Associate Professor, Chemistry and Biochemistry. BS 1991, College of William and Mary; PhD 1997, University of North Carolina, Chapel Hill.

Blackwell, Kim T., Professor, Bioengineering, Volgenau School of Engineering. BS 1981, Boston University; VMD 1986, MSE 1987, PhD 1988, University of Pennsylvania.

Blair, Virginia, Term Associate Professor of Health Administration and Policy. Diploma in Nursing 1967, St Agnes School of Nursing; BS 1982, Pacific Western University; MS 1997, National College of Education; DHA 2008, University of Phoenix.

Blaisten-Barojas, Estela, Professor, Computational and Data Sciences. BS 1964, National University of Tucuman, Argentina; MS 1970, PhD 1974, Sorbonne University (former Universite de Paris VI), France.

Blank-Godlove, Juliet M., Dean of Students, University Life. BS 1993, MA 1998, West Virginia University.

Blevins, James, Professor of English (Linguistics). BA 1983, Bishop's University; PhD 1990, University of Massachusetts at Amherst.

Bloom, Michael S., Associate Professor of Global and Community Health. BS 1996, Rutgers University; MS, 2000, PhD, 2004, University at Buffalo-SUNY.

Blue, Kimberly, Graduate Career Manager, School of Business. BA 1988, MA 1991, West Virginia University.

Bockman, Johanna K., Associate Professor, Sociology and Anthropology, Global Affairs Program. BA 1991, University of California, Los Angeles; MA 1995, PhD 2000, University of California, San Diego.

Bodenham, Alexander. Chief Marketing and Recruitment Officer, College of Education and Human Development. BM 2001, MBA 2002, Ohio University.

Boettke, Peter, J., University Professor of Economics. BA 1983, Grove City College; PhD 1989, George Mason University.

Boicu, Mihai, Associate Professor, Information Science and Technology, Volgenau School of Engineering. . Associate Director of Learning Agents Center. PhD 2002, George Mason University.

Bolling, William, Term Visiting Professor, Schar School of Policy and Government. BS 1978, University of Charleston.

Bond, Stone, Senior Research Project Manager, Rapid Prototyping Research Center, Volgenau School of Engineering. BS 2011, MS 2013, Bellevue University.

Bondok, **Doaa,** Assistant Professor, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 2008, MS 2012, PhD 2017, University of Missouri-Columbia.

Bonilla, Carrie, Term Assistant Professor of Spanish. BS 2004, Indiana University, Bloomington; MA 2006, New York University, Madrid; PhD 2012, University of Pittsburgh.

Booth, Jeanne, Term Assistant Professor, Social Work. BA, Agnes Scott College; MSW, University of Michigan.

Borup, Jered, Associate Professor, Learning Technologies in Schools, School of Education, College of Education and Human Development. BS 2003, Brigham Young University, MEd 2006, Idaho State University.

Botan, Carl, Professor, Communication. BA 1972, Western Michigan University; MA 1982, PhD 1985, Wayne State University.

Boudreaux, Donald J., Professor, Economics. BA 1980, Nicholls State University; MA 1982, New York University; PhD 1986, Auburn University; JD 1992, University of Virginia.

Bowdoin, Jessica, Head, Access Services, University Libraries. BA 1996, College of William and Mary; MLIS 1999, University of Illinois, Urbana-Champaign.

Boybeyi, Zafer, Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 1984, Istanbul Technical University; MS 1990, San Jose State University; PhD 1993, North Carolina State University.

Bradshaw, Duane D., Director for Career Development, Schar School of Policy and Government. BA 1996, MEd 1998, Clemson University.

Brandhorst, Kurt, Philosophy Instruction. BA 1989, The University of South Carolina; MA 1992, Washington University in St Louis; PhD 2006, University of Dundee.

Bray, Laurence C., Associate Provost, Graduate Education, Office of the Provost. Assistant Professor, Bioengineering, Volgenau School of Engineering. . BS 2004, MS 2005, Clemson University; PhD 2010, University of Nevada.

Brayley, Russell, Professor, Tourism and Events Management, School of Sport, Recreation, and Tourism Management. BS 1977, MA 1986, Brigham Young University; PhD 1990, Texas A&M University.

Breglia, Lisa, Senior Associate Dean, Undergraduate Academic Affairs and Associate Professor of Global Affairs. BA 1994, MA 1996, University of Florida; PhD 2003, Rice University.

Brennan-Moran, Emily, Assistant Professor, Communication. BA 2012, Emory University; MA 2015, University of Central Florida; PhD 2020, University of North Carolina at Chapel Hill.

Brielmaier Sontag, Jennifer, Term Associate Professor of Psychology. BS 2004, Virginia Polytechnic Institute and State University; MA 2007, PhD 2010, George Mason University.

Brigham, Frederick, Professor, Education, School of Education. BS 1977, MEd 1983, Bowling Green State University; PhD 1992, Purdue University.

Bristol, Joan C., Associate Professor, History. BA 1990, Bryn Mawr College; MA 1994, San Francisco State University; PhD 2001, University of Pennsylvania.

Britt, Thomas, Associate Professor, Film and Video Studies. BA 2002, Emory & Henry College; MFA 2005, Ohio University.

Brkic, Courtney A., Professor, English. BA 1994, College of William and Mary; MFA 2001, New York University.

Brodsky, Alexander, Professor, Computer Science, Volgenau School of Engineering. . BS 1982, MS 1983, PhD 1991, Hebrew University.

Broeckelman-Post, Melissa, Associate Professor and Basic Course Director, Communication. BA 2004, MA 2005, Kansas State University; PhD 2009, Ohio University.

Brouse, Peggy S., Professor, Cyber Security Engineering, Volgenau School of Engineering. . BS 1978, American University; MBA 1986, Marymount University; PhD 1992, George Mason University.

Brown, Jacquelyn, D., Instructor of Business Foundations. BA 2005, Virginia Commonwealth University; MA 2012, George Mason University.

Brown, Stephen, Term Assistant Professor, Health Administration and Policy. BS 1974, University of Virginia; MS 1983, University of South Carolina.

Brown-Rolle, Tomeka, Clinical Placement Coordinator and Term Instructor, School of Nursing. BS 2009, University of Central Florida; MSN 2016, George Mason University.

Bruce, Scott, Assistant Professor, Statistics Department, Volgenau School of Engineering. BS 2009, MS 2010, Georgia Institute of Technology; PhD 2018, Temple University.

Bruno, Irene, Associate Professor, Information Sciences and Technology, Volgenau School of Engineering. . BS 1994, University of Pittsburgh; MEd 1991, Pennsylvania State University; PhD 2003, Capella University.

Bryan, Alecia, Associate Director of Development, College of Humanities and Social Sciences. BS, BA 2004, University of Florida; MA 2009, University of North Florida.

Buchy, Jaclyn, Senior Assistant Dean, Graduate Enrollment, School of Business. BBA 2004, James Madison University; MPS 2010, Georgetown University.

Buckley, Cynthia, Coordinator, Literacy and Dyslexia, TTAC, School of Education in the College of Education and Human Development. BA 1992, George Mason University; MEd 1994, James Madison University; PhD 2005, George Mason University.

Buehl, Michelle, Professor, Education, School of Education. BA 1997, Hollins College; MA 2002, PhD 2003, University of Maryland.

Burek, Jacqueline, Assistant Professor, English. BA 2010, Cornell University; MA 2014, PhD 2017, University of Pennsylvania.

Burge, David, Vice President for Enrollment Management. BGS, MS, University of Kansas.

Burls, Natalie J., Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 2003, BS Honours 2004, MS 2006, PhD 2010, University of Cape Town.

Burmeister, Steven G., Assistant Professor, Forensic Science. BS 1982, Susquehanna University; MS 1984, University of Pittsburgh.

Burns, Carla, Term Assistant Professor of Spanish. BA 2003, MA 2005, George Mason University.

Burr, Zofia A., Dean, Honors College. Associate Professor, English. BA 1982, Sonoma State University; MFA 1987, MA 1990, PhD 1992, Cornell University.

Burroughs, James N., Term Associate Professor and Director of the Masters of Public Administration Program, Schar School of Policy and Government. BS 1977, James Madison University; JD 1981, College of William and Mary; MPA 1994, George Mason University.

Burt, Jo-Marie, Associate Professor, Schar School of Policy and Government. BA 1986, College of Holy Cross; MA 1991, MPhil 1997, PhD 1999, Columbia University.

Burtch, Nathan R., Assistant Professor, Geography and Geoinformation Science. BS 2004, Western Michigan University; MUP 2006, University at Buffalo; PhD 2017, University of Maryland.

Buschman, Michael, Professor and Chair, Bioengineering, Volgenau School of Engineering. B.Eng. 1984, University of Saskatchewan; PhD 1992, Massachusetts Institute of Technology.

Bushallow, Lara, Director, Digital Technologies, University Libraries. BA 1991, MLS 1992, State University of New York, Buffalo.

Bushong, Martha M., Director of Communications and External Relations, Volgenau School of Engineering. BA 1980, University of Delaware; MS 2001, Virginia Commonwealth University.

Butler, Kathleen K., Health Sciences Librarian, University Libraries. BEd, BA 1975, Eastern State University; MLS 1983, University of Washington.

Butt, Ahsan I., Associate Professor, Schar School of Policy and Government. BA 2006, MA 2008, PhD 2012, University of Chicago.

Button, Kenneth J., University Professor of Public Policy, Schar School of Policy and Government. BA 1970, University of East Anglia, United Kingdom; MA 1971, University of Leeds, United Kingdom; PhD 1981, Loughborough University, United Kingdom.

C

Cai, Xiaomei, Associate Professor and Associate Chair, Communication. BA 1993, Jilin University; MA, Peking University; MA 1998, PhD 2001, Indiana University.

Calcagno, Theresa, IT and Engineering Librarian, University Libraries. BA 1979, Case Western Reserve University; MS 1982, Rutgers University; MLIS 1999, University of Maryland.

Call-Cummings, Meagan. Assistant Professor, School of Education, College of Education and Human Development. BA, Utah State University; MPA, MA, PhD, Indiana University-Bloomington.

Camelli, Fernando, Associate Professor, Computational and Data Sciences. PhD 2002, George Mason University.

Camphouse, Mark D., Professor of Music, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. BM 1975, MM 1976 Northwestern University.

Camus, Adele C., Instructor, Academic English, INTO Mason. BA 1969, University of South Wales, Cardiff, United Kingdom; MA 1982, University of Texas, Austin.

Cantiello, John, Term Associate Professor, Health Administration and Policy. BS 2002, MS 2004, PhD 2008, University of Central Florida.

Cantor, Joshua, Director of Parking and Transportation. BA 1994, Cornell University; MA 1997, University of Kentucky.

Caplan, Bryan, Professor of Economics. BA 1993, University of California, Berkeley; MA 1995, PhD 1997, Princeton University.

Caraballo, Sharon, Associate Dean for Undergraduate Programs, Volgenau School of Engineering. Associate Professor, Information

Sciences and Technology. BA 1994, Rutgers University; ScM 1996, PhD 2001, Brown University; MS 2010, Drexel University.

Carbonneau, Suzanne, Professor, School of Art. BA 1976, Bates College; MA 1978, American University; CMA 1979, Laban Institute of Movement Studies; PhD 1990, New York University.

Carney, Jennifer M., Associate Professor, School of Education, College of Education and Human Development. BA 2000, James Madison University; MEd 2004, PhD 2007, University of Virginia.

Carr, Christopher, Chief Diversity Officer, Volgenau School of Engineering. BA 2008, William Jewell College; MPP 2012, Pepperdine University.

Carr, Daniel B., Professor, Statistics, Volgenau School of Engineering. BA 1968, Whitman College; MEd 1972, Idaho State University; MS 1972, Oregon State University; PhD 1976, University of Wisconsin.

Carreño-Rodriguez, Antonio, Associate Professor, Spanish, Modern and Classical Languages. BA 1997, Trinity College; MA 1998, Middlebury College; MPhil 2001, MA 2001, PhD 2005, Yale University.

Carroll, James Robert, Professor of Music, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. BM 1977, MM 1980, Indiana University.

Carter, Samara, University Records Manager, University Libraries. BA 2008, Earlham College; MLS 2015, University of Maryland, College Park.

Carton, Benedict, Associate Professor, History. BA 1987, Wesleyan University; MA 1994, PhD 1996, Yale University.

Casey, James, Interim Director, Virginia Serious Game Institute. BS 1992, MBA 1994, Virginia Polytechnic Institute and State University.

Casperson, Katelyn, Mason LIFE Employment Adult Services Coordinator, College of Education and Human Development. BS 2016, Saint Joseph's University; MS 2019, George Washington University.

Casserly, Charles, Executive in Resident and Instructor in Sport Management, School of Sport, Recreation, and Tourism Management. BS 1971, MEd 1972, Springfield College.

Caswell, Amanda, Professor, Athletic Training, School of Kinesiology. BS 1994, Ashland University; MS 1995, California University of Pennsylvania; PhD 2004, Ohio University.

Caswell, Shane, Professor, Athletic Training, School of Kinesiology. BS 1999, State University of New York, Brockport; MS 2000, PhD 2003, Ohio University.

Cattaneo, Lauren, Associate Professor, Psychology. BA 1992, University of Michigan, Ann Arbor; MA 1997, PhD 2001, University of Maryland, College Park.

Catona, Danielle, Term Assistant Professor, Global and Community Health. BA 2008, The College of New Jersey; MA 2010, The Pennsylvania State University; MS 2019, University of Delaware; PhD 2015; Rutgers University.

Cebral, Juan R., Professor, Bioengineering, Volgenau School of Engineering. BS 1991, University of Buenos Aires; PhD 1996, George Mason University.

Ceesay, Ebrima, Term Associate Professor, Information Sciences and Technology Department, Volgenau School of Engineering. BA 2001, MSc 2003, California State University at Chico; PhD 2008, University of California, Davis.

Cengiz, Mahmut, Research Assistant Professor, Schar School of Policy and Government. BA 1996, Turkish National Police Academy (University); MA 2004, Kirikkal University, Turkey; MIS 2007, American University; PhD 2009, Ankara University, Turkey; PhD 2010, George Mason University.

Chalip, Laurence, Professor, School of Sport, Recreation, and Tourism Management, College of Education and Human Development. AB 1972, University of California, Berkeley; MSocSc 1979, University of Waikato, New Zealand; AM 1983, PhD 1988, University of Chicago.

Chalk, Vita, Associate Dean, Undergraduate Academic Affairs, College of Humanities and Social Sciences. BS 1998, University of Nebraska; PhD 2007, University of Texas at Austin.

Champagne, Marie, Coordinator of Student Services, Division of Advanced Professional Teacher Development & International Education in the College of Education and Human Development. BA 1994, Smith College; MA 2000, American University.

Chandhoke, Vikas, Professor, School of Systems Biology. BPharm 1986, MDSc 1986, Birla Institute of Technology and Science; PhD 1991, University of Maine.

Chang, K.C., Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1979, National Chiao-Tung University; MS 1983, PhD 1986, University of Connecticut.

Chang, Kathleen, Clinical Instructor, School of Nursing. BSN 1979, Long Island University; MSN Teacher's College.

Chang, Michael G., Associate Professor, History. AB 1992, Princeton University; PhD 2001, University of California, San Diego.

Chang, Shanti, Term Assistant Professor, School of Nursing. BSN 2010, James Madison University; DNP 2016, George Mason University.

Chao, Luo, Assistant Professor, Chemistry and Biochemistry. BS 2008, Wuhan University; MS 2011, Chinese Academy of Sciences; PhD 2015, University of Maryland College Park.

Chaplin, Tara, Associate Professor, Psychology. BA 1997, MS 1999, University of Delaware; PhD 2003, Pennsylvania State University.

Chapman, Jeannette, Director of the Stephens S. Fuller Institute, Schar School of Policy and Government. BA 2006, University of Virginia; MPP 2015, George Mason University.

Charles, Hans, Assistant Professor, Film and Video Studies. BA 2000, Spring Arbor University; MFA 2011, Howard University.

Carmack, Suzanne, Term Assistant Professor, Global and Community Health. BA 1989, Allegheny College; MFA 1991, University of Alabama; MEd 2009, University of Texas at Tyler; PhD 2014, George Mason University.

Chavis, Jr. Charles L., Assistant Professor of Conflict Resolution and History, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 2012, UNC-Greensboro; MTS 2014, Vanderbilt University; PhD 2018, Morgan State University.

Cheema, Jehanzeb, Assistant Professor of Information Systems and Operations Management. BA 1999, University of the Punjab; BS,BA 2002,

Slippery Rock University of Pennsylvania; MA 2003, PhD 2006, University of Wisconsin-Milwaukee; PhD 2012, George Mason University.

Chen, Cher Weixia, Associate Professor, School of Integrative Studies. LLB 2000, Beijing University, China; LLM 2001, National University of Singapore; MA 2003, PhD 2008, University of Southern California.

Chen, Chun Hung, Professor, Systems Engineering and Operations Research. BS 1987, National Chiao-Tung University; MS 1989, National Taiwan University; PhD 1994, Harvard University.

Chen, Jim X., Professor, Computer Science, Volgenau School of Engineering. BS 1983, MS 1986, Southwest Jiaotong University; PhD 1995, University of Central Florida.

Chen, Long, Associate Professor of Accounting. BS 2000, Beijing Technology and Business University; MS 2005, PhD 2008, Washington University, St. Louis.

Chen, Min, Associate Professor of Information Systems and Operations Management. BS 2003, MS 2005 International University in Germany; PhD 2011, University of Texas at Dallas.

Chen, P. Daniel, Director and Associate Professor, Higher Education Program. BS 1991, Chung Yuan Christian University, Taiwan; MS 2001, University of North Texas; PhD 2005, Florida State University.

Chen, Songqing, Professor, Computer Science, Volgenau School of Engineering. BS 1997, MS 1999, Huazhong University; PhD 2004, College of William and Mary.

Chen, Xi, Term Instructor, Chinese. BA 1999, East China Normal University, Shanghai; MEd 2002, George Mason University.

Chen, Xiang, Assistant Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BA 2010, Northeastern University; MS 2012, University of Pittsburgh.

Chen, Xue, Assistant Professor, Computer Science, Volgenau School of Engineering. BS 2011, Tsinghua University; PhD 2018, The University of Texas at Austin.

Chen, Ya-Han (Chris), Director of Finance, College of Education and Human Development. BBA 2000, MA 2002, National Taiwan University; MA 2004, Ohio State University; MBA 2012, George Mason University.

Cheney, Joseph, Senior Research Engineer, Rapid Prototyping Research Center, Volgenau School of Engineering. MS 1984, University of Southern California.

Cheng, Constant, Associate Professor of Marketing. BS 1982, Brigham Young University, Hawaii; MBA 1983, Arizona State University; DES 1994, The Graduate Institute; DBA 2014, Swiss Management.

Cheng, Yue, Assistant Professor, Computer Science, Volgenau School of Engineering. B.Eng. 2009, Beijing University of Posts and Telecommunications; PhD 2017, Virginia Polytechnic Institute and State University.

Cherubin, Rose M., Associate Professor, Philosophy. BFA 1984, School of Visual Arts, New York City; PhD 1996, Graduate School, City University of New York.

Cheskin, Lawrence J., Professor and Chair, Department of Nutrition and Food Studies; Interim Chair of Global and Community Health. BA 1977, City University of New York; MD 1980, Dartmouth Medical School.

Chesler, Giovanna, Professor, Film and Video Studies. BA 1996, University of Virginia; MFA 2002, San Francisco State University.

Chiari, Ylenia, Assistant Professor, Biology. BS 2000, MS 2000, University of Pisa- Italy; PhD 2005, University of Konstanz- Germany.

Chin, Helen, Assistant Professor of Global and Community Health. BS 2004, MPH 2007, University of South Florida; PhD 2015, Emory University.

Chism, Carlos, Term Assistant Professor of English. BA 2015, MA 2015, The Pennsylvania State University; MFA 2018, University of Maryland, College Park.

Chitnis, Parag V., Faculty Fellow, Graduation Education, Office of the Provost and Associate Professor, Bioengineering, Volgenau School of Engineering. BS 2000, West Virginia Wesleyan College; MS 2002, PhD 2007, Boston University.

Chiu, Long, Associate Professor, Atmospheric, Oceanic and Earth Science. BS 1974, University of Miami; ScD 1980, Massachusetts Institute of Technology.

Christophe, Stephen, Professor of Finance. BA 1980, Colby College; MBA 1982, College of William and Mary; PhD 1992, University of North Carolina.

Chung, Yoosun, Associate Professor, Assistive and Special Education Technology, Helen A. Kellar Institute for Human disAbilities, College of Education and Human Development. BS 1994, George Mason University; MEng 1996, Cornell University; PhD 2004, George Mason University.

Clarke, Chris, Associate Professor and PhD Director, Communication. BS 2005, Rutgers University; MS 2007, PhD 2012, Cornell University.

Clark, Jessica, Development and Communications Officer, University Libraries. BA 2003, University of California-Davis; MA 2016, George Mason University.

Clark, Keith S., Professor, English. BA 1985, College of William and Mary; MA 1987, University of Kentucky; PhD 1993, University of North Carolina, Chapel Hill.

Clark, Nicholas, Research Associate, C4I and Cyber Center, Volgenau School of Engineering. BS 2008, MS 2010, George Mason University.

Clayborne, Andre, Assistant Professor, Chemistry and Biochemistry. BS 2002, Radford University; MS 2006, PhD 2009, Virginia Commonwealth University.

Cleaveland, Carol, Associate Professor, Social Work. BA 1980, American University; MSS 1994, PhD 2002, Bryn Mawr.

Clower, Terry L., Northern Virginia Chair in Local Government; Professor of Public Policy; Director, Center for Regional Analysis. Schar School of Policy and Government. BS 1982, Texas A&M University; MS 1992, PhD 1997, University of North Texas.

Cobb, Andrea, Director of Student Research and Internships, College of Science. BS 1977, Abilene Christian University; PhD 1984, Texas Tech University.

Cobb, Sara, Drucie French Cumbie Professor, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1973, Albertus Magnus College; MEd 1980, University of Puget Sound; PhD 1988, University of Massachusetts, Amherst.

Cohen, Janice, Associate Director, Post Award Services, College of Humanities and Social Sciences. BS 1998, Embry-Riddle Aeronautical University; MEd 2007, Georgia Southern University.

Collier, Daniel L., Director of Information Technology, College of Humanities and Social Sciences. BA 1990, University of Tennessee; MFA 1994, George Mason University.

Collins, Samuel W., Associate Professor, History. BA 1991, Whitman College; MA 1996, University of Durham, United Kingdom; PhD 2005, University of California, Berkeley.

Colonna, Flavia, Professor, Mathematical Sciences. BS 1976, University of Bari, Italy; MA 1980, PhD 1985, University of Maryland, College Park.

Conant, James K., Professor, Schar School of Policy and Government. BA 1971, MA 1974, PhD 1983, University of Wisconsin, Madison.

Conaway, Jenelle, Assistant Professor of Accounting. BS 2008, University of South Carolina; MBA 2011, Loyola University Maryland; PhD 2017, Boston University.

Coniglio, Jamie, Engagement and Organizational Development Officer, University Libraries. BA 1974, Saint Mary College; MLS 1976, Indiana University.

Coogle, Christan, Associate Professor, School of Education, College of Education and Human Development. BS 2005, MS 2006, PhD 2012, Florida State University.

Cooley, Mark, Associate Professor, School of Art. BFA 1995, University of Southern Maine; MFA 1998, East Carolina University.

Cornejo, Katherine, Title IV-E Child Welfare Stipend Program Coordinator, Department of Social Work. BS 2006, St. John's University; MSW 2010, Fordham University.

Correa-Cabrera, Guadalupe, Associate Professor, Schar School of Policy and Government. BA 1997, Universidad Iberoamericana; MA 2002, M.Phil 2005, PhD 2010, The New School.

Cortes, Nelson, Associate Professor, Exercise Science, School of Kinesiology. BS 2001, Universidade Lusofona de Humanidades e Technologias, Portugal; MS 2005, PhD 2010, Old Dominion University.

Corwin, David, Term Instructor, Women and Gender Studies. BA 2013, Milligan College; MA 2016, George Mason University.

Costa, Paulo C. G., Director, C4I and Cyber Center, Associate Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1986, Brazilian Air Force Academy; MS 1999, PhD 2005 George Mason University.

Couch, Robin D., Associate Professor, Chemistry and Biochemistry. BS 1994, PhD 2000, University of Calgary.

Cowen, Tyler, Holbert L. Harris Chair in Economics and Professor of Economics. BS 1983, George Mason University; PhD 1987, Harvard University.

Cox, H. Douglas, Project Director, Aspiring Special Education Leaders Academy, College of Education and Human Development. BA 1969, Guilford College; MEd 1973, University of Virginia.

Coyne, Christopher, Professor, Economics. BS, Manhattan College; MA 2003, PhD 2005, George Mason University.

Craig, Richard T., Associate Professor and MA Director, Communication. BA 1999, Olivet College; MA 2002, Michigan State University; PhD 2011, Howard University.

Crate, Susan, Professor, Environmental Science and Policy. BA 1983, Warren Wilson College; MA 1994, PhD 2002, University of North Carolina, Chapel Hill.

Crawford, Paula, Associate Professor, School of Art. BFA 1983, MFA 1988, San Francisco Art Institute.

Crerar, Lorelei Diane, Assistant Professor, Biology. BA 1989, MEd. 1991, MS 2001, PhD 2012, George Mason University.

Cressman, John R., Associate Professor, Physics and Astronomy. BS 1995, Union College; PhD 2003, University of Pittsburgh.

Crew, Spencer, Clarence J. Robinson Professor of History. BA 1971, Brown University; MA 1973, PhD 1979, Rutgers University.

Crissman, Sherry, Sr. Research Engineer, Rapid Prototyping Research Center, Volgenau School of Engineering. BA 1991, University of Florida, MS 1993, George Washington University, EDS 2014, Liberty University.

Croitoru, Arie, Associate Professor, Geography and Geoinformation Systems. BS 1997, MS 2002, PhD, Technion-Israel Institute of Technology.

Cronin, Matthew, Associate Professor of Management. BA 1993, Rutgers University; MA 1997, Columbia University; MS 2000, PhD 2004, Carnegie Mellon University.

Crooks, Andrew, Associate Professor, Computational and Data Sciences. BS 2000, MS 2002, University of Edinburgh; PhD 2007, University of London.

Crossin, Karen, Instructor, Mathematics. BA 1991, MEd 1997, MS 2003, George Mason University.

Cui, Shanshan, Associate Professor, School of Art. BFA 1985, MFA 1988, Sichuan Institute of Fine Arts, China; MFA 1998, Iowa State University.

Curby, Timothy, Director, Applied Developmental Psychology Program and Associate Professor, Psychology. BS 1997, MA 2003, University of Michigan; PhD 2008, University of Virginia.

Curtis, Elizabeth, Manager, Potomac Academy. BA 1981, Blackburn College.

D

Dabbagh, Nada, Professor of Education, School of Education. BA 1977, Iona College; MS 1978, Columbia University; PhD 1996, Pennsylvania State University.

Daigle, Delton T., Term Associate Professor, Schar School of Policy and Government. BA 1996, Brock University; MA 2002, McGill University; MA 2005, PhD 2010, The Ohio State University.

Dailey, Stephanie, Assistant Professor, School of Education in the College of Education and Human Development. BS 1997, Virginia Polytechnic Institute and State University; MA 2006, EdD 2011, Argosy University.

Dakake, Maria, Chair and Associate Professor, Religious Studies. BA 1990, Cornell University; MA 1998, PhD 2000, Princeton University.

Dalal, Reeshad S., Professor of Psychology. BA 1998, Hanover College; MA 2001, PhD 2003, University of Illinois, Urbana-Champaign.

Dalfrey, Karen, Director, the Governor's School @ Innovation Park. BS 1992, MEd 2003, PhD 2009, George Mason University.

Dale, John G., Associate Professor, Sociology and Anthropology. BA 1987, Wheaton College; MA 1991, New School for Social Research; PhD 2003, University of California, Davis.

D'Amboise, Christopher, Associate Heritage Professor of Dance. MFA 2013, George Mason University.

D'Angelo, Jessica, Production Manager, College of Visual and Performing Arts. BFA 2001, University of North Carolina; MA 2007, George Mason University.

D'Arcy, Shaun B., Assistant Professor, Dance. BFA 2004, New York University; MA 2010, Trinity Laban Conservatoire of Music and Dance; MFA 2021, George Mason University.

Daniels, Margaret, Professor, Tourism and Event Management, School of Sport, Recreation, and Tourism Management. BA 1991, Miami University of Ohio; MA 1993, University of Georgia; PhD 2002, Clemson University.

Darnell, Heather, Librarian for Multimedia Literacy, Film & A/V Studies, and Dance, University Libraries. BA 2011, Texas Tech University; MSLS 2014, University of Maryland, College Park.

Das, Sanmay, Professor, Computer Science, Volgenau School of Engineering. AB 2001, Harvard College; PhD 2006, Massachusetts Institute of Technology.

Das, Sidhartha R., Professor of Information Systems and Operations Management. BS 1979, India; MS 1980, University of Mississippi; MBA 1985, PhD 1987, University of Houston.

Davis, Caroline R., Director of Marketing, Schar School of Policy and Government. BA 2010, University of Virginia; MPS 2017, Georgetown University.

Davis, Doris Bitler, Associate Professor, Psychology. BA 1982, Dickinson College; MA 1984, Hollins University; PhD 1991, American University.

Davis, Linda, Professor and Associate Chair, Statistics, Volgenau School of Engineering. BS 1979, George Mason University; MS 1981, PhD 1983, Rutgers University.

Davis, Matthew, Term Assistant Professor of English and Director of the Cheuse International Writers Center. BA 1999, University of Missouri; MA 2007, University of Iowa; MA 2010, Johns Hopkins University.

Davis, Molly E., Term Associate Professor and Field Education Coordinator, Social Work Program. BA 1971, Louisiana State University; MSW 1973, Tulane University; EdD 1984, Florida State University.

Davis, Richard, Dean of College of Visual and Performing Arts. Professor of Theater. BA 1980, Lawrence University; MFA 1983, DFA 2003, Yale School of Drama.

Davis, Shannon N., Professor, Sociology and Anthropology. BA 1997, University of North Carolina, Asheville; MS 2000, PhD 2004, North Carolina State University.

Deans, Penny, Associate Professor of Information Systems and Operations Management. BS 1975, University of North Carolina – Chapel Hill; MEd 1979, North Carolina State University; MBA 1984, East Carolina University; MLS 1998, University of Arizona; PhD 1989, University of South Carolina.

Debuque, Rachel, Associate Professor, School of Art. BFA 2007, University of Pennsylvania; MFA 2013, University of Georgia.

DeCaroli, Robert D., Professor, Art History. BA 1992, Loyola Marymount University; MA 1995, PhD 1999, University of California, Los Angeles.

Decker, Warren Dale, Professor and Director of Debate, Communication. BA 1968, Kansas State Teachers College of Emporia; MA 1969, Southwest Missouri State College; PhD 1977, Temple University.

dela Pena, Gary Lee Antonio C., Assistant Professor, Mathematical Sciences. BS 1985, Ateneo de Manila University, Philippines; MS 1990, University of South Carolina-Columbia; PhD 1998, University of Texas at Arlington.

Deitz, Robert L., Professor, Schar School of Policy and Government. BA 1968, Middlebury College; MPA 1972, Princeton University; JD 1975, Harvard University.

de Janasz, Suzanne, Professor of Management and Conflict Analysis and Resolution. BM 1988, University of Miami; MBA 1989, PhD 1998, University of Southern California.

de Jong, Elisabeth (Lilian), Term Assistant Professor, Department of Nutrition and Food Studies. MS 1990 Wageningen Agricultural University, The Netherlands; PhD 1996 University of Montreal.

Del Popolo, Mary, Term Assistant Professor, School of Art. BA 1980, Marymount University; MFA 1988, Virginia Commonwealth University.

DelSole, Timothy, Professor, Atmospheric, Oceanic and Earth Sciences. BS 1988, MS 1989, PhD 1993, Harvard University.

DeLuycker, Anneke, Assistant Professor, Smithsonian-Mason School of Conservation. BS 1994, University of Wisconsin, Madison; MA 2000, State University of New York, Stony Brook; MA 2002, PhD 2007, Washington University, St. Louis.

DelVecchio, Mark, Research Associate, Rapid Prototyping Research Center, Volgenau School of Engineering. BS, Pennsylvania State University; MS 1996, George Washington University.

Demory, M. Yvonne, Associate Professor of Business Legal Studies. BA 1987, University of Virginia; JD 1990, Columbus School of Law, Catholic University of America; LLM 1994, Georgetown University Law Center.

DeMulder, Elizabeth, Professor of Education, School of Education. BS 1984, Wright State University; PhD 1989, St. John's College, Cambridge University.

Denevi, Timothy, Assistant Professor, English. BA 2002, Northwestern University; MA 2007, University of Hawaii; PhD 2010, University of Iowa.

Deng, Ping, Term Assistant Professor of Computer Science. BS 2001, Sichuan University; MS 2003, PhD 2007, University of Texas at Dallas.

Dennis, Rutledge M., Professor of Sociology. BA 1966, South Carolina State College; MA 1969, PhD 1975, Washington State University.

Di, Liping, Professor, Geography and Geoinformation Science. BS 1982, Zhejiang University; MS 1985, Chinese Academy of Sciences; PhD 1991, University of Nebraska, Lincoln.

Dieterich, Robbie, Assistant Professor of Computer Game Design. BS 2002, College of William and Mary; MA 2015, George Mason University.

Dight, Kimberly, Director, Finance and Human Resources, College of Humanities and Social Sciences. BA 1990, The Ohio State University; MBA 1993, University of Connecticut.

Dimitriadis, Socrates, Term Assistant Professor of Computer Science. BS 1999, University of Ioannina; MS 2002, PhD 2010, Brown University.

Dinan, Desmond, Jean Monnet Professor, Schar School of Policy and Government. BA 1978, National Institute for Higher Education; MA 1981, Georgetown University; PhD 1985, National University of Ireland.

Diouf, Fatou, Assistant Professor of Information Systems and Operations Management. BS 2002, M. Eng 2004, Université Blaise; MBA 2016, Old Dominion University; PhD 2008, Université Blaise.

Dirmeyer, Paul A., Professor, Atmospheric, Oceanic and Earth Sciences. BS 1986, Texas A&M University; MS 1988, PhD 1992, University of Maryland.

DiTeresi, Christopher, Assistant Professor, Philosophy. BA 1999, MA 2007, M.Sc. 2007, PhD 2010, University of Chicago.

DiZinno, Joseph, Assistant Professor of Forensics Science. BS 1975, University of Notre Dame; DDS 1980, The Ohio State University.

Djordjevic, Branislav R., Associate Professor, Physics and Astronomy. BS 1983, MS 1989, University of Belgrade, Serbia; PhD 1996, Michigan State University.

Dobson, Catherine, Assistant Professor, Criminology, Law and Society. BA 1987, Rice University; MA 1989, PhD 2004, University of Georgia.

Dodman, Stephanie, Assistant Professor of Education, School of Education. BAE 2001, University of Florida; MEd 2002, University of Florida; PhD 2011, University of Florida.

Doebel, Sabine, Assistant Professor, Psychology. BA 2001, York University; PhD 2012, University of Minnesota.

Doetsch-Kidder, Sharon, Term Assistant Professor, English. BA 1997, MA 1999, Georgetown University; PhD 2009, University of California at Santa Barbara.

Dolgas, Charles, Associate Director, Government Contracting, School of Business. BA 1977, Saint Vincent College.

Domeniconi, Carlotta, Associate Professor, Computer Science, Volgenau School of Engineering. BASc 1992, University of Milano; MSSc 1997, International Institute for Advanced Scientific Studies, Salerno, Italy; PhD 2002, University of California, Riverside.

Don, Michael, Term Assistant Professor, English. BA 2005, Tufts University; MFA 2013, University of Illinois at Urbana-Champaign.

Dong, Beidi, Assistant Professor, Criminology, Law and Society. PhD 2015, MA 2012, University of Florida, BA 2008 University of Hong Kong.

Dong, Pei, Assistant Professor, Mechanical Engineering, Volgenau School of Engineering. BS 2008, Nankai University; PhD 2013, Rice University.

Dorpenyo, Isidore, Assistant Professor, English. BA 2008, Kwame Nkrumah University of Science and Technology; MS 2013, PhD 2017, Michigan Technological University.

Douglas, Charlene, Associate Professor of Nursing. BA 1975, BSN 1978, Case Western Reserve University; MPH 1981, PhD 1992, Johns Hopkins Bloomberg School of Public Health.

Douthett, Edward B., Associate Professor of Accounting. BA 1979, Pennsylvania State University; MBA 1991, PhD 1995, University of Georgia.

Dowd, Nicci T., Training and Technical Specialist, AIM-VA, College of Education and Human Development. BS 2013, Park University; MEd 2015, Marymount University; EdD 2020, Regent University.

Drake Patrick, Jennifer, Assistant Professor, School of Education, College of Education and Human Development. BS 1992, MEd 1993, Miami University; PhD 2009, University of Florida.

Drews-Botsch, Carolyn, Professor and Chair of Global and Community Health. BA 1981, University of California - San Diego; MPH 1983, PHD 1988, University of California - Los Angeles.

Dreyfus, Benjamin W., Associate Professor, Physics and Astronomy and STEM Accelerator. AB 2001, Harvard University; MA 2004, City College of New York; PhD 2014, University of Maryland, College Park.

Drissi Messouak, Boubker, Assistant Professor of Finance. BS 2001, Bentley University; MS 2007, Boston University; PhD 2013, University of Rhode Island.

Druehl, Cheryl T., Associate Dean, Faculty, School of Business and Associate Professor of Information Systems and Operations Management. BS 1990, University of California, Los Angeles; MBA 1995, University of Pittsburgh; MAB 2000, PhD 2003, Stanford University.

Drummey, David G., Associate University Counsel. BS 1996, JD 1999, George Mason University.

Dubey, Shri, Assistant Professor, Mechanical Engineering, Volgenau School of Engineering. BS 1991, South Dakota School of Mines & Technology; MS 1994, West Virginia University; PhD 2015, The Ohio State University.

Dunayer, Kevin, Term Assistant Professor, School of Theater, College of Visual and Performing Arts and School of Sport, Recreation and Tourism Management, College of Education & Human Development. BA 1988, University of North Carolina at Asheville; MFA 1990, California Institute of the Arts Theater.

Dudnik, Natalia, Term Associate Professor of German. BA 2003, Moscow State Linguistic University; MA 2005, University of Northern Iowa; PhD 2010, University of Illinois at Chicago.

Dueck, Colin, Professor, Schar School of Policy and Government. BA 1990, MA 1993, University of Saskatchewan; MPhil 1995, Oxford University; PhD 2001, Princeton University.

Duke, Jodi, Term Associate Professor of Education, School of Education. BA 1997, University of Michigan; MS 1999, EdD 2008, John Hopkins University.

Dumas, Theodore, Associate Professor, Psychology. BS 1991, University of Connecticut; MS 1996, PhD 1997, University of Virginia.

Dummett, Roxanne, Instructor, School of Education in the College of Education and Human Development. BSW 1998, MS 2008, Gallaudet University.

Dunayer, Kevin, Assistant Professor, School of Theater, College of Visual and Performing Arts and School of Sport, Recreation and Tourism Management, College of Education & Human Development. BA 1988, University of North Carolina at Asheville; MFA 1990, California Institute of the Arts Theater.

Dunick, Jason, Term Associate Professor of Economics, BA 2001 Kent State University; MS 2005, PhD 2010 University of Illinois at Urbana-Champaign.

Dunne, Kelly B., Executive Director and Term Assistant Professor, School of Integrative Studies. BA 1991, College of William and Mary; MA 1997, George Mason University.

Durant, Liza W., Associate Dean for Strategic Initiatives and Community Engagement and Professor, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 1987, Cornell University; MS 1991, Stanford University; PhD 1996, The Johns Hopkins University.

Duríc, Zoran, Associate Professor, Computer Science. BS 1982, MS 1986, University of Sarajevo, Bosnia and Herzegovina; PhD 1995, University of Maryland.

Dutta, Amitava, Professor of Information Sciences and Operation Management. BS 1976, Indian Institute of Technology; MS 1978, University of California, Santa Barbara; PhD 1981, Purdue University.

Duxbury, Thomas, Research Professor, Physics and Astronomy. BS 1965, MS 1966, Purdue University.

Dwyer, Leslie K., Associate Professor, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1992, University of Pennsylvania; MA 1994, PhD 2001, Princeton University.

E

Eagle, Michael, Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 2007, MS 2012, University of North Carolina at Charlotte; PhD 2015, North Carolina State University.

Earle, John S., Professor of Public Policy, Schar School of Policy and Government. BA 1980, BMus 1980, Oberlin College and Conservatory; MA 1986, PhD 1988, Stanford University.

Eaton, Lynn, Director, Special Collections Research Center, University Libraries. BA 1986, James Madison University; MS 1988, Miami University, Ohio; MLS 1997, University of North Carolina.

Eby, Kimberly K., Associate Provost for Faculty Affairs and Development. Associate Professor, School of Integrative Studies. Affiliate, Department of Psychology. BA 1989, Indiana University; MA 1992, PhD 1996, Michigan State University.

Edalatishams, Idee, ESL Specialist University Writing Center. BA 2008, MA 2012, Azad University, South Tehran Branch, Tehran, Iran; PhD 2020, Iowa State University.

Edner, Sheldon M., Term Full Professor and Director of the Center for Federal Management Leadership, Schar School of Policy and Government. BA 1969, Humboldt State University; MA 1971, PhD 1973, University of California.

Edwards, Cody, Associate Professor, Biology. BS 1995, MS 1997, Angelo State University; PhD 2000, Texas Tech University.

Edwards, Kimberley, Information Analyst, Technical Services, University Libraries. BA 1999, Georgetown College; MLIS 2003, University of Kentucky, Lexington.

Einhorn, Peggy, Instructor, Biology. BS 1989, University of Colorado Boulder; MS 1992 University of California Los Angeles.

Eisner, Eric, Associate Professor, English. BA 1993, Brown University; MA 1999, PhD 2003, Harvard University.

Eklou, K. Pierre, Term Assistant Professor, School of Nursing. ADN 2013, Northern Virginia Community College; BSN 2015, DNP 2018, George Mason University.

Elahi, Hasan, Professor and Director, School of Art, College of Visual and Performing Arts. BA 1993, Bloomsburg University of Pennsylvania; MFA 1996, Cranbrook Academy of Art.

El-Amine, Hadi, Assistant Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BE 2009, ME 2012, American University of Beirut; PhD 2016, Virginia Tech.

El-Hibri, Hatim, Assistant Professor, English. BA 2002, Rutgers University; MA 2006, PhD 2012, New York University.

El-Shazli, Heba F., Term Assistant Professor, Schar School of Policy and Government. BS 1982, MA 1984, Georgetown University; PhD 2014, Virginia Polytechnic Institute and State University.

Elder, Robert, Research Professor, Electrical and Computer Engineering Department, Volgenau School of Engineering. BS 1975, MS 1975, PhD 1985, University of Detroit.

Elzey, Christopher Clark, Term Assistant Professor of History. BA 1987, University of Pennsylvania; MA 1996, University of Alabama; PhD 2004, Perdue University.

Emelianenko, Maria, Professor of Mathematical Sciences. BS 1999, MS 2001, Moscow State University; MA 2002, PhD 2005, Pennsylvania State University.

Emerson, Jill V., Assistant Dean for Admissions, Student Affairs and Communications, Schar School of Policy and Government. BA 1995, George Mason University; MSW 2000, Virginia Commonwealth University.

Endress, Edgar, Associate Professor, School of Art. BS 1992, Universidad Tecnologica Metropolitana, Chile; BA 1997, Artes de las Comunicaciones, Chile; MFA 2001, Syracuse University.

Enfield, Jacob, Associate Professor of Research and Computer Game Design, PhD 2012, Indiana University.

Ephraim, Yariv, Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BSc 1977, MSc 1979, DSc 1984, Technion, Haifa, Israel.

Epstein, Neil, Associate Professor, Mathematical Sciences. BA 1998, Swarthmore; MS 2000, University of Chicago; PhD 2005, University of Kansas.

Erb, Megan, Associate Professor, Chemistry and Biochemistry. BA 2008, St. Mary's College of Maryland; PhD 2013, Cornell University.

Ericson, Rebecca J., Assistant Professor, Physics and Astronomy. BA 1970, Macalester College; MS 1975, Creighton University; DA 2012, George Mason University.

Esherick, Craig, Associate Professor of Sport Management, School of Sport, Recreation, and Tourism Management. BSBA 1978, JD 1982, Georgetown University.

Esmaeili, Behzad, Assistant Professor, Civil, Environmental, and Infrastructure Engineering, Volgenau School of Engineering. BS 2006, MS 2008 Amirkabir University of Technology, PhD 2012, University of Colorado, Boulder.

Esposito-Smythers, Christianne, Professor, Psychology. BA 1993, Lafayette College; MS 1997, PhD 2000, Virginia Polytechnic Institute and State University.

Euliano, Bridget, Head, Technical Services Group, University Libraries. BA 1998, Virginia Polytechnic Institute and State University**;** MSLS 2003, Catholic University of America.

Evans Cuellar, Alison E., Professor of Health Administration and Policy. BA 1987, MBA 1989, University of Texas, Austin; PhD 2001, University of California, Berkeley.

Evans, Sally, University Dissertations and Theses Coordinator, University Libraries. BA 1997, Virginia Polytechnic Institute and State University; MA 1999, University of South Carolina, Columbia; MLIS 2010, University of South Carolina.

Evmenova, Anna, Associate Professor, School of Education. BA 2001, MA 2001, Saratov State University, Russia; MAEd 2003, East Carolina University; PhD 2008, George Mason University.

Eyman, Douglas A., Associate Professor, English. BA 1991, Wittenberg University; MA 1995, University of North Carolina, Wilmington; PhD 2007, Michigan State University.

F

Fadahunsi, Adetokunbo, Assistant Professor, Statistics Department, Volgenau School of Engineering. BS 2004, University of Ibadan, Ibadan, Nigeria; MS 2015, PhD 2016, West Virginia University.

Falsetti, Anthony B., Associate Professor, Forensic Science. BA 1984, MA 1986, PhD 1989, University of Tennessee.

Farina, John, Associate Professor of Religious Studies. BA 1972, Vassar College; MD 1976, Yale University; PhD 1979 Columbia University; JD 1996, New York University School of Law.

Faughnan, Janet, Instructor of Accounting. BSBA 1982, Miami University; MBA 1988, The George Washington University.

Fayissa, Mosissa Adi, Assistant Professor, Chemistry and Biochemistry. BSc 1997, MSc 2003, Addis Ababa University; PhD 2015, Howard University.

Ferguson, Daniel, Assistant Professor, School of Education, College of Education and Human Development. BA 2005, Birmingham-Southern College; MAEd 2007, University of Alabama at Birmingham; EdD 2018, Columbia University.

Ferguson, Elizabeth, Term Assistant Professor of English. BA 2008, University of North Carolina at Chapel Hill; MA 2014, St. Cloud State University; PhD 2019, George Mason University.

Fernandez, Lourdes, Term Instructor, English. BS 1991, University of South Carolina, Columbia; MA 2004, Austin Peay State University.

Fine, Pamela, Assistant Professor. Diploma in Nursing 1998, Helene Fuld School of Nursing, AS 1998, Camden County College; MSN 2007, Widener University; DNP 2020, George Mason University.

Finn, Andrew, Term Associate Professor, Communication. BS 1972, St. John Fisher College; MA 1977, State University of New York, Geneseo; MA 1981, PhD 1983, Washington University, St. Louis.

Fischer-Nowaczyk, Sarah, Associate Professor, Psychology. BA 1999, MA 2002, PhD 2006, University of Kentucky.

Fisher-Maltese, Carley. Assistant Professor, School of Education, College of Education and Human Development. BA 1996, Barnard College; MA 2005 Columbia University; PhD 2013, Rutgers, The State University of New Jersey.

Fitzpatrick, Brian, Term Assistant Professor, English. BA 2007, George Washington University; MA 2010, MFA 2012, George Mason University.

Fleming, Lila, Term Assistant Professor of Global and Community Health. AA 2002, Montgomery College; BS 2004, Georgetown University; MS 2008, PhD 2015, George Mason University.

Flannagan, Kevin, Term Assistant Professor, English. BA 2006, College of William and Mary; MA 2009, North Carolina State University; PhD 2015, University of Pittsburgh.

Flinn, Jane M., Professor of Psychology. BA 1960, Oxford University; MS 1962, University of California; PhD 1969, Catholic University of America; PhD 1974, George Washington University.

Flores, Thomas E., Associate Professor and Director of Graduate Programs, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1998, Harvard University; PhD 2008, University of Michigan, Ann Arbor.

Folan, Kerry, Term Assistant Professor, English. BA 2001, Dickinson College; MA 2017, George Mason University.

Foltz, Karen, Term Assistant Professor, English. BA 2000, University of Maryland; MA 2007, New York University; MA 2012, University of Delaware; PhD 2018, Arizona State University.

Fondufe, Gwendolyn, Assistant Professor, Biology. BEd 1985, MS 1986, University of Ibadan; PhD 1995, University of Illinois.

Fontana, Judith, Technical Assistance Specialist, Kellar Institute for Human disAbilities, College of Education and Human Development. BA, Niagara University; MEd, University of Rochester; PhD, George Mason University.

Ford, Martin, Senior Associate Dean and Professor of Education, College of Education and Human Development. BS 1975, Pennsylvania State University; PhD 1980, University of Minnesota.

Ford, Meggan, Assistant Dean, Undergraduate Academic Services, School of Business. BA 2005, Christopher Newport University; MSEd 2008, Old Dominion University.

Forkner, Rebecca, Associate Professor, Biology. BS 1993, University of Cincinnati; PhD 1998, University of Georgia.

Foster, Gregory D., Professor of Chemistry. BS 1978, University of California, Davis; MS 1981, California State University, Hayward; PhD 1985, University of California, Davis.

Foster, John Burt, Jr., University Professor of English. BA 1967, Harvard University; MPhil 1971, PhD 1974, Yale University.

Fowler, Amy E., Assistant Professor, Environmental Science and Policy. BS 2005, University of New Hampshire; PhD 2011, University of Auckland, New Zealand.

Fox, Donna M., Associate Dean for Academic and Student Affairs, College of Science. BS 1985, Kansas State University; PhD 1992, George Mason University.

Fox, Rebecca, Professor of Education, School of Education. BA 1972, Randolph-Macon Women's College; MA 1993, PhD 1999, George Mason University.

Foxwell, Harry J., Associate Professor, Information Sciences and Technology, Volgenau School of Engineering. BA 1973, Franklin & Marshall College; MS 1978, Villanova University; PhD 2003, George Mason University.

Francis, Grace L. Assistant Professor, School of Education, College of Education and Human Development. BA 2006, MA 2008, Webster University; PhD 2013, University of Kansas.

Frank, Toya J., Associate Professor, Secondary Education 6-12, School of Education, College of Education and Human Development. BS, Florida A & M University; M.Ed., PhD, University of Maryland.

Freedman, Daniel, Term Associate Professor and BSW Program Director, Social Work. BA 1996, University of Minnesota; MSW 2000, PhD 2010, The Ohio State University.

Freeman, Elizabeth, Associate Professor, School of Integrative Studies. BS 1992, Vanderbilt; MS 2000, Virginia Commonwealth University; PhD 2005, George Mason University.

Freer, Jeremy, Admin Faculty, Music, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. BM 2000, Louisiana State University; MM, 2010, George Mason University.

Frenn, Chawky, Associate Professor, School of Art. BFA 1985, Massachusetts College of Art; MFA 1988, Temple University.

Froelich, Brett, Assistant Professor, Biology. BS 2005, PhD 2012, The University of North Carolina at Charlotte.

Froman, Wayne J., Associate Professor, Philosophy. BA 1966, Yale University; MA, PhD 1975, Fordham University.

Frye, Samuel, Term Assistant Professor, School of Integrative Studies. BA 2006, The Pennsylvania State University; MA 2010, PhD 2017, Indiana University of Pennsylvania.

Fryxell, Karl J., Associate Professor, Biology. BA 1975, BS 1975, University of Texas, Austin; PhD 1983, California Institute of Technology.

Fuchs, Cynthia, Interim Director and Associate Professor, Film and Video Studies. BA 1984, University of Connecticut; MA 1985, PhD 1989, University of Pennsylvania.

Fuertes, Al, Term Associate Professor, School of Integrative Studies. BTh 1990, Silliman University, Philippines; MA 1997, Associated Mennonite Biblical Seminary; PhD 2007, George Mason University.

Fujiwara, Manako, Term Assistant Professor of Japanese. MA 1993, Arkansas State University; PhD 2004, University of Minnesota.

Furst, Kirin, Assistant Professor, Sid and Reva Dewberry Department of Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BA 2010, Sarah Lawrence College; MS 2016, PhD 2020, Stanford University.

Fyfe, Shannon, Assistant Professor, Philosophy. BA 2007, University of North Carolina at Chapel Hill; JD 2010, Vanderbilt University Law School; PhD 2018, Vanderbilt University.

Fyock, Marcie, Associate Professor, Athletic Training, School of Kinesiology, College of Education and Human Development. BS 1999, Slippery Rock University of Pennsylvania; MS 2001, Syracuse University.

G

Gaj, Krzysztof, Professor, Electrical and Computer Engineering, Volgenau School of Engineering. MS 1988, PhD 1992, Warsaw University of Technology.

Gallagher, Catherine A., Associate Professor, Criminology, Law and Society. BA 1991, College of Wooster; MA 1996, PhD 2000, University of Maryland.

Gallay, David, Associate Professor of Finance. BS 1972, United States Military Academy; MS 1978, Purdue University; MS 1981, University of Southern California; DSc 2002, The George Washington University.

Gallehr, Donald Raymond, Associate Professor of English. BA 1964, St. Bonaventure University; MA 1966, Fordham University; PhD 1974, Catholic University of America.

Ganesan, Rajesh, Associate Professor, Systems Engineering and Operations Research. BS 1996, National Institute of Technology, India; MS 2002, MA, PhD 2005, University of South Florida.

Gang, Isaac, Term Associate Professor, Data Analytics Engineering, Volgenau School of Engineering. BS 2004, MS 2008, PhD 2010, The University of Southern Mississippi.

Ganjalizadeh, Saiid, Assistant Professor of Information Systems and Operations Management. BS 1979, University of Tehran; MS 1987, University of Tennessee; PhD 1993, George Mason University.

Gant, Amber, Assistant Director, ECSE TTAC, College of Education and Human Development. BA 2004, East Stroudsburg University; MS 2007, East Carolina University.

Garcia, Toni, Instructor of Information Systems and Operations Management. BA 1998, MS 2002, Arizona State University.

Gardiner, Erin, Term Assistant Professor of Musical Theater, School of Theater, College of Visual and Performing Arts, BM 2003, James Madison University.

Garner, Pamela W., Professor, School of Integrative Studies. BSW 1982, University of Tennessee; MA 1988, University of Houston; PhD 1992, Texas A&M University.

Garrison, Daniel J., Director of Distance Education and Instructor, Information Sciences and Technology, Volgenau School of Engineering. BS 1996, Liberty University; MFA 1999, Rochester Institute of Technology.

Garrison, Victoria, Physician and Term Assistant Professor, School of Nursing. BA 2001, University of South Florida; MD 2006, Ross University.

Gatling, Benjamin, Associate Professor of English. BA 2003, University of North Carolina, Chapel Hill; MA 2008, The Ohio State University; PhD 2012, University of North Carolina Chapel Hill.

Gearhart, Heidi, Assistant Professor, Art History. BA 1998, Pomona College; MA 2002, Tufts University; PhD 2010, University of Michigan.

Gebril, Mohamed, Term Associate Professor, Cyber Security Engineering, Volgenau School of Engineering. BS 2000, Alexandria University, Egypt; MS 2011, PhD 2011 North Carolina Agricultural and Technical State University.

Genetin-Pilawa, C. Joseph, Associate Professor of History. BA 2000, MA 2002, Bowling Green State University; PhD 2008, Michigan State University.

Gentry, Anne G., Associate University Counsel. BA 1991, College of William and Mary; 1994 JD, George Mason University.

George, Cindy, Instructor of Education, School of Education. BA 1979, Peabody College.

Gerber, Naomi Lynn H., University Professor of Health Administration and Policy. BA 1965, Smith College; MD 1971, Tufts University School of Medicine.

Gero, Edward, Associate Professor of Theater and Head of Performance Area, School of Theater, College of Visual and Performing Arts. BA 1972, Montclair State University.

Gero, John, Research Professor, Krasnow Institute for Advanced Study. BS 1965, University of New South Wales; MS 1966, PhD 1974, University of Sidney.

Gest, Justin, Associate Professor of Public Policy, Schar School of Policy and Government. BA 2004, Harvard University; MS 2006, PhD 2010, London School of Economics and Political Science.

Gettys, Jennifer E. Bazaz, Director of Enrollment and Curriculum Management, College of Science. BS 2004, MA 2012, George Mason University.

Gewa, Constance, Associate Professor of Nutrition and Food Studies. BS 1994, Egerton University, Kenya; MS 1998, University of Nairobi, Kenya; MPH 2003, PhD 2007, University of California, Los Angeles.

Ghimire, Nirmal J., Assistant Professor, Physics and Astronomy. PhD 2013, University of Tennessee.

Gibson, Timothy A., Associate Professor, Communication. BA 1992, Evergreen State College; MA 1995, University of Massachusetts; PhD 2001, Simon Fraser University.

Gifford, Jonathan L., Professor of Government and Politics, Schar School of Policy and Government. BS 1976, Carnegie Mellon University; MS 1979, PhD 1983, University of California, Berkeley.

Gilbert, Andrew B.T. Associate Professor, School of Education, College of Education and Human Development. BS 1992, Virginia Polytechnic Institute and State University; MA 1998, East Carolina University; PhD 2002, New Mexico State University.

Gilbert, Paul, Executive in Residence in Recreation Management and Instructor, School of Sport, Recreation, and Tourism Management. BA 1987, St. Andrew's Presbyterian College; MAIS 2003, George Mason University.

Gill, Charlotte, Associate Professor, Criminology, Law and Society. BA/MA 2003, MPhil 2004, University of Cambridge; PhD 2010, University of Pennsylvania.

Gillevet, Patrick M., Professor, Biology; Associate Dean for Research; Director of Microbiome Analysis Center. BS 1976, University of Toronto; PhD 1982, University of Manitoba.

Gilman, Lisa, Assistant Professor, English. BA 1991, University of Oregon; MA 1996, PhD 2001, Indiana University.

Gilmore, Michael, Associate Professor, School of Integrative Studies. BS 1995, Colorado State University; PhD 2005, Miami University.

Gimm, Gilbert, Associate Professor of Health Administration and Policy. BA 1992, Harvard University; MBA 1999, PhD 2005, University of Pennsylvania.

Gingold, Yotam I., Associate Professor, Computer Science, Volgenau School of Engineering. BS 2002 Brown University; MS 2005, PhD 2009 New York University.

Ginsberg, Mark R., Dean, College of Education and Human Development. BS 1975, State University of New York; MS 1978, PhD 1981, Pennsylvania State University.

Giwa-Lawal, Kudirat (Kudy), University Coordinator, Mason LIFE Program, Kellar Institute for Human disAbilities, College of Education and Human Development. BIS 2004, MEd 2008, George Mason University.

Glaser, Holly, Assistant Professor, School of Education in the College of Education and Human Development. B.A. 2005, Oglethorpe University; MAT 2010, Pacific University; PhD 2020, George Mason University.

Gliozzi, Mario, Associate Professor, Physics and Astronomy. Laurea 1994, PhD 1999, Torino University, Italy.

Glover, Marcy R. Lewis, Operations Manager, Academic Initiatives and Services and Deputy Campus Coordinator, 4-VA, Office of the Provost. BS 1994, MS 2003, George Mason University.

Gocala-Nguyen, Maxwell, Director, Undergraduate Recruiting and Engagement, School of Business. BA 2015, Youngstown State University; MA 2016, George Washington University.

Goetsch, Leslie, Term Assistant Professor of English. BA Duke University; MLA Johns Hopkins University; MFA 2016, George Mason University.

Goldberg, Debora, Associate Professor of Health Administration and Policy. BA 1988, Northern Kentucky University; MBA 1992, MHA 1993, Xavier University; PhD 2008, Virginia Commonwealth University.

Goldenthal, Ariel, Term Assistant Professor, English. BA 2012, Brandeis University; MFA 2017, George Mason University.

Goldin, Rebecca F., Professor, Mathematical Sciences. BA 1993, Harvard University; PhD 1999, Massachusetts Institute of Technology.

Goldman, Jonathan, Director of Computing Resources, Volgenau School of Engineering. BA 2001, Marymount University; MBA 2005, Virginia Polytechnic Institute and State University.

Goldstein, Douglas, Senior Associate Dean for Administration, Schar School of Policy and Government. BA 1992, Yale University; PhD 2003, Columbia University.

Goldstein, Thalia, Associate Professor, Psychology. BA 2002, Cornell University; MA 2007, PhD 2010, Boston College.

Goldstone, Jack A., Hazel Professor of Public Policy and Director, Center for Global Policy, Schar School of Policy and Government. BA 1976, MA 1979, PhD 1981, Harvard University.

Gonzalez Hernandez, Ana, Assistant Professor, Information Sciences and Technology Department, Volgenau School of Engineering. PhD, University of Pittsburgh.

Goodings, Deborah J., Associate Dean of Graduate Studies and Dewberry Professor, Sid and Reva Civil, Environmental, and Infrastructure Engineering; Volgenau School of Engineering. BS 1975, University of Toronto; PhD 1979, Cambridge University.

Goodknight, Adrienne, Term Instructor of Nursing. BSN 1994, George Mason University; MSN 2005, Shenandoah University.

Goodman, Rachel, Associate Professor of Education, School of Education. BS 2002, University of North Carolina; MEd 2006, PhD 2009, University of Florida.

Goodwin, Stephen Hardy, Professor of English. AB 1965, Harvard University; MA 1969, University of Virginia.

Goodwin-Slater, Kimberly, Director of Finance, Volgenau School of Engineering. MS 2001, George Mason University.

Gopin, Marc, James H. Laue Professor of World Religions, Diplomacy, and Conflict Resolution, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1979, Columbia College; MA 1988, PhD 1992, Brandeis University.

Gordon, Samuel D., Assistant Professor, Computer Science, Volgenau School of Engineering. BA 2003 Columbia University; MS 2008, PhD 2010, University of Maryland.

Gowl, Brooke, Associate Director, Research Development, College of Humanities and Social Sciences. BS 2000, Muskingum University; PhD 2006, University of Cincinnati.

Grady, Victoria, Associate Professor of Management. BS 1991, Birmingham-Southern College; MS 1996, University of Alabama; 2005 DSc, The George Washington University.

Grandas, Ludy. Term Assistant Professor, Modern and Classical Languages. BA 1992, Universidad Pedagogica y Tecnologica de Colombia; MA 1996, Universidad Distrital de Bogota; PhD 2010, George Mason University.

Grant, Geraldine M., Associate Professor and Chair, Biology. BA 1987, Trinity College, Ireland; PhD 1993, Dublin City University, Ireland.

Green, Emily, Associate Professor of Music, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. BM 2001, Cornell University; MM 2003, University of Missouri, Kansas City; MA 2006, PhD 2009 Cornell University.

Green, Heather, Assistant Professor, School of Art. BA 1996, Northern Arizona University, Flagstaff; MA 2006, University of Nebraska, Lincoln; MFA 2009, Boston University.

Green-Lawson, Zakevia, Term Assistant Professor of Health Administration and Policy. BS 2004, Florida A & M University; MS 2007, Capella University; MSEd 2017, Purdue Global University; PhD 2013, Capella University.

Greenberg, Nathaniel, Associate Professor of Arabic. BA 2003, City College of New York-Hunter College; MA 2007, PhD 2012, The University of Washington.

Greenwood, Brad, Associate Professor of Information Systems and Operations Management. BS 2004, Rensselaer Polytechnic Institute; M IT 2006, Virginia Polytechnic Institute; MBA 2008, University of Notre Dame; PhD 2013, University of Maryland.

Greet, Michele, Director, Art History Program and Professor, Art History. BA 1993, Bowdoin College, MA 1998, City University of New York, Hunter College ; PhD 2004, New York University.

Gregg, Christopher A., Term Associate Professor, Art History. BA 1989, University of Georgia; MA 1991, PhD 2000, University of North Carolina, Chapel Hill.

Griffin, Kenneth W., Professor, Global and Community Health. BA 1986, University of Chicago; MA 1992, PhD 1995, Stony Brook University; MPH 1997, Columbia University.

Grimm, Stephanie, Art and Art History Librarian, University Libraries. BFA 2008, School of Visual Arts; MSI 2011, University of Michigan.

Grimsby, Gregory, Assistant Professor of Computer Game Design. BFA 1994, James Madison University; MFA 2017, George Mason University.

Grimsley, Carolyn, Director, MS in Real Estate Development and Instructor, School of Business. BS 2001, University of Illinois at Urbana-Champaign; MS 2010, Johns Hopkins University; PhD 2015, University of Cambridge.

Gring-Pemble, Lisa, Associate Professor of Business Foundations. BA 1992, St. Olaf College; MA 1996, PhD 2000, University of Maryland, College Park.

Griva, Igor, Associate Professor, Mathematical Sciences. BS 1993, MS 1994, Moscow State University; PhD 2002, George Mason University.

Groseclose, Timothy, Professor of Economics. BS 1987, PhD 1992, Stanford University.

Groth, Lois, Associate Professor, School of Education. BS 1985, Cornell University; MEd 1992, Plymouth State University; PhD 1999, University of Maryland.

Grotophorst, Clyde W., Associate University Librarian for Digital Programs and Systems, University Libraries. BA 1976, Western Carolina University;

MSLS 1977, University of Tennessee, Knoxville; MA 1982, Central Michigan University.

Guccione, Andrew, Professor, Rehabilitation Science. AB 1972, Boston College; MA 1975, Temple University; MSPT 1978, PhD 1988, Boston University; DPT 2003, MGH Institute of Health Professions.

Gudaitis, Teresa, Assistant Professor, Criminology, Law and Society. BA 1987, State University of New York at Binghamton; MA 1990, PhD 1992, University of Florida.

Guenther, Stacey, Educational Program Director, Consciousness & Transformation Center, School of Integrative Studies. BA 1991 Southern Methodist University; MS 2004 George Mason University.

Guessford, Jesse, Associate Director, Undergraduate Education, Office of the Provost. Associate Professor of Music, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. BS 1995, West Chester University; MM 1997, Crane School of Music, State University of New York, Potsdam; DMA 2006, University of Illinois.

Guilford, Renate H., Associate Provost for Enrollment Planning and Administration. MA 1995, George Mason University.

Guglielmi Elena, Term Instructor of Russian. MA 1991, Rostov State Pedagogical University (Rostov-na-Danu, Russia); MA 1995, George Mason University.

Gullo, Pallavi Rai, Director of Graduate Academic and Student Affairs and Assistant Professor, Office of the Provost. BA 1995, Brandeis University; JD 2001, MA.Ed 2017, George Washington University.

Gupta, Jhumka, Associate Professor, Department of Global and Community Health. BS 1997, University of Maryland; MPH 2000, Drexel University; ScD 2007, Harvard University.

H

Ha Poirot, Janet, Term Assistant Professor, School of Integrative Studies, College of Humanities and Social Science. BA 1998, Carnegie Mellon University; MFA 2014, George Mason University.

Haas, Tanya, Term Assistant Professor, School of Nursing. BSN 1996, University of North Carolina, Wilmington; MSN 2009, Walden University; DNP 2018, George Mason University.

Habib, Anna, Term Assistant Professor of English. BA 2003, MFA 2006, George Mason University.

Habila Ngalabak, Helon, Professor, English. BA 1995, University of Jos.

Haddad, Bassam, Associate Professor, Schar School of Policy and Government and Director, Middle East Studies Program. BA 1992, George Mason University; MA 1994, PhD 2002, Georgetown University.

Hahn, William J., Director, Biomedical Sciences. BA 1985, Washington University, St. Louis; MS 1990, Cornell University; PhD 1993, University of Wisconsin, Madison.

Haley, Marjorie, Professor of Education, School of Education. BS 1974, Hampton Institute; MEd 1976, Towson State University; PhD 1986, University of Maryland.

Hall, Mark W., Associate Director of Development in the College of Education and Human Development. BA 2016, Gettysburg College.

Hamdani, Sumaiya A., Associate Professor of History. BA 1984, Georgetown University; MA 1989, PhD 1995, Princeton University.

Hamner, Christopher H., Associate Professor, History. AB 1995, Dartmouth College; MA 1998, PhD 2004, University of North Carolina, Chapel Hill.

Han, Bo, Associate Professor, Computer Science, Volgenau School of Engineering. BE 2000, Tsinghua University; M.Phil 2006, City University of Hong Kong; PhD 2012, University of Maryland.

Handler, Robert A., Professor, Mechanical Engineering, Volgenau School of Engineering. BE 1973, Stevens Institute of Technology; MSE 1974, University of Michigan; SM 1976, Massachusetts Institute of Technology; PhD 1980, University of Minnesota.

Hanrahan, Nancy Weiss, Associate Professor of Sociology. BA 1976, Wesleyan University; MA 1989, PhD 1994, New School for Social Research.

Hansen-Honeycutt, Jena, Dance Athletic Trainer in School of Dance. BS 2011, University of Idaho; MS 2013, California University of Pennsylvania; DAT 2016, University of Idaho.

Hanson, Robin D., Associate Professor of Economics. BS 1981, University of California, Irvine; MS, MA 1984, University of Chicago; PhD 1997, California Institute of Technology.

Hanweck, Gerald Alfred, Professor of Finance. BA 1964, Stanford University; MA 1967, PhD 1971, Washington University, St. Louis.

Harman, Angelina, Term Assistant Professor of Nursing. BSN 1994, Shepherd University; MSN 1998, DNP 2012, George Mason University.

Harris, Cameron, Instructor of Business Foundations. BA 2006, George Mason University; MS 2009, PhD 2015, Indiana University.

Harris-Scott, Steven A., Term Instructor of History. BS 2000, Millsaps College; MA 2005, University of New Orleans.

Hart, David, Professor, Schar School of Policy and Government. BA 1983, Wesleyan University; PhD 1995, Massachusetts Institute of Technology.

Hart, Einav, Assistant Professor of Management. BA 2006, MA 2010, PhD 2015, Hebrew University of Jerusalem.

Hartman, Shirley H., Director of Advancement, College of Education and Human Development. BA, Hartwick College.

Harvey, James William, Associate Professor of Marketing. BS 1966, University of Illinois, Urbana-Champaign; MBA 1968, University of Miami; PhD 1977, Pennsylvania State University.

Harvey, Tamara, Associate Professor, English. BA 1988, Harvard University; MA 1991, University of Wisconsin, Madison; PhD 1998, University of California, Irvine.

Hasan, Mohammad, Executive in Residence, Business for a Better World Center and Instructor, School of Business. BS 1980, MS 1981, Massachusetts Institute of Technology; MBA 1987, University of Pennsylvania.

Hasan, Syed, Instructor of Accounting. B. Tech 1982, IIT Kharagpur, India; MBA 1988, George Mason University.

Hashemi, Mahdi, Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 2009, University of

Tabriz; MS 2011, Toosi University of Technology; PhD 2017 University of Pittsburgh.

Hashmi, Irina, Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 2007, MS 2009, University of Dhaka; MS 2013, PhD 2015, George Mason University.

Hasik, James, Senior Research Scientist, School of Business. BA 1989, Duke University; MBA 1997, University of Chicago; PhD 2016, University of Texas.

Haspel, Paul, Term Assistant Professor, English. BA 1983; MFA 1991, PhD 1996, University of Maryland, College Park.

Hathaway, Dawn, Associate Professo, School of Education. BS 1984, BS 1986, Purdue University; MEd 2003, PhD 2009, George Mason University.

Hathaway, Jennifer. Associate Professor, School of Education, College of Education and Human Development. BS 1998, MAEd 2002, East Carolina University; PhD 2009, Vanderbilt University.

Hayden, Michael V., Distinguished Visiting Professor, Schar School of Policy and Government. BA 1967, MA 1969, Duquesne University.

Hayes, Monson H., Professor and Chair, Electrical and Computer Engineering, Volgenau School of Engineering. BA 1971, University of California, Berkeley; S. M., E.E., 1978, Sc.D. 1981, Massachusetts Institute of Technology.

Hazelrigg, George, Research Faculty, Mechanical Engineering, Volgenau School of Engineering. BS 1961, MS 1963, Newark College of Engineering; MA 1966, MSE 1968, PhD 1968, Princeton University.

Heiner, Ronald A., Professor of Economics. PhD 1975, University of California, Los Angeles.

Helmsing, Mark, Assistant Professor, School of Education, College of Education and Human Development. BS 2004, Indiana University, PhD 2016, Michigan State University.

Helton, William (Deak), Professor. BA 1995, Evergreen State College; MA 1998, PhD 2002, University of Cincinnati.

Hendricks, Gretchen, Instructor of Business Foundations. BA 1992, University of South Carolina; MA 1997, Marymount University.

Henneman, Lucas, Assistant Professor, Sid and Reva Dewberry Department of Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 2012, Johns Hopkins University; MS 2014, PhD 2017, Georgia Institute of Technology.

Henson, Jo Ann, Business and Economics Librarian, University Libraries. BA 1997, MLIS 2000, Louisiana State University, Baton Rouge.

Hess, Richard, Director, Analytics, Accreditation, and Assessment, School of Business. BA 2009, Rutgers University; MA 2011, Ohio State University.

Hieb, Michael, Research Associate Professor, Center of Excellence in Command, Control, Communications, Computing, Intelligence and Cyber, Volgenau School of Engineering. PhD 1996, George Mason University.

Higgins, Rosemary, Professor of Global and Community Health and Associate Dean for Research, College of Health and Human Services. BS 1980, Siena College; MD 1984, Georgetown University School of Medicine.

Hilker-Balkissoon, Kerin A., Director of Educational and Career Pathways, College of Science. BS 1995, University of Massachusetts at Amherst; MS 1999, Johns Hopkins University.

Hines, Denise, Associate Professor, Social Work. BA 1995, College of the Holy Cross; MA 1999, PhD 2004, Boston University.

Hinnov, Linda A., Professor, Atmospheric, Oceanic and Earth Sciences. BA 1979, Princeton University; MA 1985, University of Texas at Austin; PhD 1994, Johns Hopkins University.

Hirsch, Susan F., Vernon M. and Minnie I. Lynch Chair, Professor of Conflict Resolution and Anthropology, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1982, Yale College; PhD 1990, Duke University.

Hjalmarson, Margret, Professor of Education, School of Education. BA 1998, Mount Holyoke College; MS 2000, PhD 2004, Purdue University.

Ho, Angela, Associate Professor, Art History. BEc 1995, University of Sydney, Australia; MA 1998, Williams College; PhD 2007, University of Michigan, Ann Arbor.

Hobson, Daniel, Production Manager, College of Visual and Performing Arts. BA 1984, George Mason University.

Hoch, Theodore, Associate Professor, School of Education. BS 1983, University of Illinois at Urbana-Champaign; MS 1985, University of Wisconsin-Milwaukee; EdD 1989, West Virginia University.

Hoefer, Anthony Dyer, Assistant Dean, Honors College, Director, University Scholars Program, Associate Professor of English. BA 2000, Wofford College; MA 2003, University of Alabama; PhD 2008, Louisiana State University.

Hoemann, Caroline, Professor, Bioengineering, Volgenau School of Engineering. BA 1983, University of California at San Diego, MSc 1998, PhD 1992, Massachusetts Institute of Technology.

Hoffman, Karla L., Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1969, Rutgers University; MBA 1991, DSc 1975, George Washington University.

Hoffman, Kimberly M., Lead, Science and Technology Team and Mercer Library, University Libraries. BS 1979, University of Detroit; MLS 2002, Kent State University.

Hong, Y. Alicia, Professor, Health Administration and Policy. BA 1998, Xiamen University; MAA 2002, University of Maryland, College Park; 2007 PhD, John Hopkins University.

Holincheck, Nancy M., Assistant Professor, Advanced Studies in Teaching and Learning, School of Education, College of Education and Human Development. BS 1997, The College of William and Mary; MS 2003, PhD 2012, George Mason University.

Holland, Michael, Instructor, Statistics, Volgenau School of Engineering. MS 2018, George Mason University.

Holmes, David I., Term Associate Professor, Statistics, Volgenau School of Engineering. BSc, 1966, Queen Mary College, University of London, UK; MPhil 1972, Sheffield Polytechnic, UK; PhD 1991, King's College, University of London, UK.

Holmes, Kimberly, Associate Dean for Student Affairs, College of Health and Human Services. BA 2007, University of Richmond; MEd 2009, The

College of William and Mary; PhD 2013, University of Maryland, College Park.

Holton, Anne, Professor, School of Education in the College of Education and Human Development and Schar School of Policy and Government. A.B. 1980, Princeton University; J.D. 1983, Harvard Law School.

Holzer, Matt, Associate Professor, Mathematical Sciences. BS 2003, Montana State University; PhD 2010, Boston University.

Hong, Ray, Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering. B.Eng. 2005, Ajou University, Korea; MS 2007, Yonsei University, Korea; PhD 2018, University of Washington, Seattle.

Hook, Kristina, Research Assistant Professor, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 2010, University of Florida; MA 2012, University of Denver; MA 2019, PhD 2020, University of Notre Dame

Hooper, Jane Madden, Associate Professor of History. BA 2003, Grinnell College; PhD 2010, Emory University.

Hoppner, Jessica, Associate Professor of Marketing. BS 2006, Villanova University; PhD 2010, Michigan State University.

Horak, Anne, Coordinator for Project ExCEL, College of Education and Human Development. BA 1997, State University of New York at Oswego; MEd 2005, PhD 2013, George Mason University.

Horan, Caitlin, Director, Graduate Academic Services, School of Business. BA 2011, College of William and Mary; MEd 2015, University of Georgia.

Horstmeyer, Derek, Associate Professor of Finance. BS 2004, University of Chicago; MS 2005, Stanford University; PhD 2012, University of Southern California.

Houser, Daniel E., Professor and Chair, Economics and Director, Interdisciplinary Center for Economic Science. BA 1989, University of Wisconsin, Madison; PhD 1998 University of Minnesota.

Houser, Paul, Professor, Geography and Geoinformation Science. BS 1992, PhD 1996, University of Arizona.

Houston, David M., Assistant Professor, School of Education in the College of Education and Human Development. BA 2010, Washington University in St. Louis; MSEd 2012, City University of New York; M.Phil 2017, PhD 2018, Columbia University.

Houston, Stacey, Assistant Professor, Criminology, Law and Society. BA 2013, Davidson College; MA 2015, PhD 2018, Vanderbilt University.

Howard, Susan, Term Instructor, School of Integrative Studies. BA 1984, Wesleyan University; MPH 1999, University of Hawaii; PhD 2020, George Mason University.

Howell, Billy, Term Assistant Professor, English. BA 2002, Oklahoma State University; MFA 2007, University of New Mexico; PhD 2015, Oklahoma State University.

Howick, Rebecca, Associate Director, Center for Innovation and Entrepreneurship, School of Business. BA 2010, Christopher Newport University; ME 2015, George Mason University.

Hoy, Virginia A., Term Instructor, English. AB 1990, MA 1995, Georgetown University; MA 2000, Rutgers University.

Hrolenok, Brian, Term Assistant Professor, Computer Science, Volgenau School of Engineering. BS 2006, MS 2008, George Mason University; PhD Georgia Institute of Technology.

Hsieh, Jim, Associate Professor of Finance. BS 1991, National Chiao Tung University, Taiwan; MBA 1996, University of Rochester; MS 1997, Carnegie Mellon University; PhD 2002, Ohio State University.

Hu, Bo, Assistant Professor of Finance. BS 2005, University of Science and Technology of China; PhD 2011, University of California; PhD 2019, University of Maryland.

Huang, Bohua, Professor, Atmospheric, Oceanic and Earth Sciences. BS 1982, MS 1985, Peking University; PhD 1992, University of Maryland.

Huang, Chien Chung, Associate Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 2001, MS 2003, National Tsing Hua University; MS 2008, PhD 2011, Georgia Institute of Technology.

Huang, Liling, Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1995, National Taiwan University of Science and Technology; MS 1997, National Chung Cheng University; PhD 2003, Virginia Polytechnic Institute and State University.

Huddleston, Katherine, Term Associate Research Professor, School of Nursing, College of Health and Human Services.

Hudson, Seth Andrew, Associate Professor, Computer Game Design. BA 2005, MA 2009, University of Cincinnati; PhD 2018, George Mason University.

Huff, Thomas B., Director for the Shared Research Instrumentation Facility. BS 1977, Richard Stockton College; MS 1997, PhD 2011, George Mason University.

Hughes-Rinker, Cortney, Director of Global Affairs Program and Associate Professor, Sociology and Anthropology. BS 2004, Iowa State University; MA 2007, PhD 2010, University of California.

Hultin, Niklas, Assistant Professor, Global Affairs Program. BA 1997, University of the South; LLM 2002, Queen's University Belfast, United Kingdom; PhD 2007, University of Pennsylvania.

Huneke, Samuel, Assistant Professor, History. BA 2011, Amherst College; MS 2012, The London School of Economics and Political Science; PhD 2019, Stanford University.

Hunter, Brett, Assistant Professor, Statistics, Volgenau School of Engineering. BA 2008, Messiah College; MS 2010, PhD 2016, Colorado State University.

Hunter, Seth B. Assistant Professor, School of Education, College of Education and Human Development. BS, Centre College; MAT, University of Louisville; PhD, Vanderbilt University.

Hunzeker, Michael A., Assistant Professor, Schar School of Policy and Government. BA 2000, University of California at Berkeley; MPA 2008, MA 2011, PhD 2013, Princeton University.

Hurley, Jessica, Assistant Professor of English. BA 2004, University of Oxford; MA 2007, University of Sussex; PhD 2015, University of Pennsylvania.

Hurley, Michael E., Term Associate Professor of Psychology, Undergraduate Advisor. BA 1984, Hofstra University; MA 1988, College of William and Mary; PhD 1993, University of Miami.

Hussam, Abul, Professor of Chemistry. BSc 1975, MSc 1976, University of Dacca; PhD 1982, University of Pittsburgh.

Hutchison, Amy, Associate Professor, School of Education, College of Education and Human Development. BA 2002, Clemson University; MA 2004, Columbia College; PhD 2009, Clemson University.

I

Ihara, Emily, Associate Professor and Chair, Department of Social Work. AB 1990, University of California, Berkeley; MSW 1993, University of California, Los Angeles; MA 2002, PhD 2005, Brandeis University.

Ikonomidou, Vasiliki, Associate Professor, Bioengineering, Volgenau School of Engineering. Dipl Eng 1997, PhD 2002, Aristotle University of Thessaloniki.

Incerti, Federica, Assistant Professor, Director of Technology School of Art & Cybersecurity, College of Visual and Performing Arts. BFA 1992, Instituto Statale D'Arte, G. Chierici; MA 2013, PhD 2019, Ohio University.

Ingram, Mark, Instructor of Accounting. BS 1972, Drake University; MAS 1974, University of Illinois.

Inoue, Megumi, Associate Professor of Social Work. ADN 1988, Kyushu National University, Japan; BSW 2005, Kawasaki University of Medical Welfare, Japan; MSW 2007, Washington University, St. Louis; PhD 2014, Boston College.

Ioannou, D.E., Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1974, University of Thessaloniki; MS 1975, PhD 1978, University of Manchester.

Ipek, Yasemin, Assistant Professor, Global Affairs Program. BA 2003, MA 2006, Bogazici University; PhD 2017, Bilkent University; PhD 2018, Stanford University.

Irvin-Erickson, Douglas, Assistant Professor of Conflict Analysis and Resolution, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 2006, MA 2011, PhD 2014, Rutgers University.

Irvin-Erickson, Yasemin, Assistant Professor, Criminology, Law and Society. BA 2004, Middle East Technical University; MA 2009, Istanbul University; MA 2010, PhD 2014, Rutgers University.

Islam, Khondkar, Associate Chair for Undergraduate Studies and Term Associate Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 1988, George Mason University; MS 1992, American University; PhD 2013, George Mason University.

Ismail, Suddaf, Director, Graduate Admissions and Recruitment, Volgenau School of Engineering. BS 2003, MEd 2011, George Mason University.

Izmirli, Ilhan, Term Associate Professor, Statistics, Volgenau School of Engineering. BS 1974, Bosphorus University; MS 1979, University of Istanbul; PhD 2008, American University.

J

Jabbari, Bijan, Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BSEE 1974, Arya-Mehr University; MSEE 1977, MS 1979, PhD 1981, Stanford University.

Jack, Allison, Assistant Professor, Psychology. BA 2005, College of William and Mary; PhD 2012 University of Virginia.

Jacobs, Mark D., Associate Professor of Sociology. BA 1968, Columbia College, Columbia University; MA 1977, PhD 1987, University of Chicago.

Jacobsen, Kathryn H., Professor of Global and Community Health. BS 1998, Wheaton College; MPH 2001, PhD 2005, University of Michigan.

Jacobson, Nancy K, Instructor, School of Education, College of Education and Human Development. BA 1989, Adams State College; MS 2002, United States Sports Academy.

Jafari, Sheherazade, Director, Point of View International Retreat and Research Center. BA 2000, University of Wisconsin-Madison; MA 2008, George Washington University; PhD 2015, American University.

Jafri, M. Saleet, Professor and Director, School of Systems Biology Interdisciplinary Program in Neuroscience. BS 1986, Duke University; MS 1988, New York University; PhD 1993, City University of New York, Mount Sinai School of Medicine.

Jajodia, Sushil, University Professor, Office of the Dean, Volgenau School of Engineering. BA 1969, MS 1971, Southern Illinois University; PhD 1977, University of Oregon.

James, Tania, Associate Professor, English. BA 2003, Harvard University; MA 2006, Columbia University.

Janis, Mimsi, Assistant Professor of Theater, Head of Theater Education, School of Theater, College of Visual and Performing Arts. BA 2005, Principia College; M.Ed. 2008, George Mason University; MFA 2012, The Catholic University of America.

Jauchen, Joanna, Instructor, Mathematical Sciences. BS 1999, MS 2001, Texas A&M University.

Jeck, Michael, Term Assistant Professor of World Cinema. BA 1968, Yale University; MFA 1970, New York University.

Jeffrey, Roger, Assistant Professor of Dance. BFA 1996, The Juilliard School.

Jerome, Marci Kinas, Associate Professor, School of Education. BS 1999, College of New Jersey; MEd 2001, PhD 2008, George Mason University.

Ji, Ran, Assistant Professor, Department of System Engineering and Operations Research, Volgenau School of Engineering. BE 2006, China Agricultural University; MS 2012, PhD 2016, George Washington University.

Ji, Wenying, Assistant Professor, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 2010, MS 2011, Texas A & M University; PhD 2018, University of Alberta.

Jin, Naehyun (Paul), Associate Professor, Tourism and Events Management, School of Sport, Recreation, and Tourism Management. BS 1996, Sangji University; MBA 2000, Chung-Ang University; MTHM 2007 Temple University.

Jing, Hao, Assistant Professor, Chemistry and Biochemistry. BS 2004, Qingdao University of Science and Technology; MS 2009, Fudan University; MS 2011, PhD 2015, University of South Carolina.

Johnsen-Neshati, Kristin, Assistant Dean for International Programs and Critical Studies and Associate Professor of Theater. BA 1987, Swarthmore College; MFA 1992, DFA 2002, Yale School of Drama.

Johnson, Brittany, Assistant Professor, Computer Science, Volgenau School of Engineering. BA 2011, College of Charleston; PhD 2017, North Carolina State University.

Johnson, Bret, Assistant Professor of Accounting. BS 2000, MS 2000, Brigham Young University; PhD 2015, The Ohio State University.

Johnson, Devon, Associate Professor, Criminology, Law and Society. BA 1994, University of California, Santa Cruz; MA 1996, PhD 2002, University of California, Los Angeles.

Johnson, Elizabeth D., Term Associate Professor, Statistics. BS 1986, MAT 1992, MS 2002, PhD 2009, University of South Carolina.

Johnson, Noel, Associate Professor of Economics, BA 1995, Kenyon College; PhD 2004 Washington University, St. Louis.

Johnston, Joyce, Lecturer of English. BA 1969, Dickinson College; MA 1971, Emory University.

Johri, Aditya, Professor, Information Sciences and Technology, Volgenau School of Engineering. B.S. 1998, Delhi College of Engineering, India; M.S. 2002, Georgia Institute of Technology; PhD 2007, Stanford University

Joiner, Christopher, Associate Professor of Marketing. BA 1988, Duke University; MBA 1992, Wake Forest University; PhD 1997, University of Minnesota.

Jones, Garett, Associate Professor of Economics. BA 1992, Brigham Young University; MPA 1993, Cornell; MA 1994, University of California, Berkeley; PhD 2000, University of California, San Diego.

Jones, Kevin, Instructor of Accounting. BBA 1981, James Madison University; MS 1988 Georgetown University; JD 1993, Temple University.

Jones, Margaret, Professor of Kinesiology, School of Kinesiology. BA 1982, University of Tennessee; MEd 1985, University of Houston; PhD 1989, University of Georgia.

Jones, R. Christian, Professor, Environmental Science and Policy and Director, Potomac Environmental Research and Education Center. BA 1973, Rice University; MA 1977, Vanderbilt University; PhD 1980, University of Wisconsin.

Jones, Rachel, Chair and Associate Professor, Philosophy, College of Humanities and Social Sciences. BA (Hons) 1991, Oxford University MA 1992, PhD 1998, University of Warwick.

Jones, Rebecca M., Associate Professor, Chemistry and Biochemistry; STEM Accelerator. BA 1998, The Ohio State University; MS 2002, PhD 2004, University of Cincinnati.

Jones, Rochelle R., Associate Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1999, MS 2002, George Mason University; PhD 2009, University of Central Florida.

Jones, Sharaya, Assistant Professor of Marketing. BCom 2014, University of Toronto; PhD 2020, University of Colorado Boulder.

Jordan, Yevette Richards, Associate Professor, History. BA 1982, College of William and Mary; MA 1988, MA 1990; MPhil 1991, PhD 1994, Yale University.

Jorgenson, Linn L., Associate Professor, School of Education, College of Education and Human Development. BS 1989, University of Wisconsin; MS 2001, Indiana State University; EdD 2010, Fielding Graduate University.

Josephson, Brett, Associate Professor of Marketing. BS 2007, MS 2010, University of Idaho; PhD 2014, Washington State University.

Joshi, Mahesh P., Associate Professor of Management. BS 1981, Diploma in Business Management; 1984, St. Xavier's College, India; PhD 1996, Temple University.

Joyce, James D., Associate Professor of Dance. BFA 1983, North Carolina School of the Arts; MFA 2003, George Mason University.

Jung, Eun Ju, Assistant Professor of Information Systems and Operations Management. BA 2001, MBA 2005, Kyungpook National University; PhD 2015, Michigan State University.

Jung, Young A., Assistant Professor of Korean. BA 1995, MA 1998, PhD 2003, Korea University (Seoul, Korea); PhD 2014, George Mason University.

Jusu, Nikyatu, Assistant Professor, Film and Video Studies. BA 2005, Duke University; MFA 2011, New York University.

K

Kabbani, Nadine, Associate Professor, Interdisciplinary Program in Neuroscience. BS 1997, George Mason University; PhD 2003, Pennsylvania State University.

Kamberi, Shahnaz, Term Associate Professor, Computer Science, Volgenau School of Engineering. BS 2005, George Mason University; MS 2006, Bournemouth University; PhD 2015, Colorado Technical University.

Kan, Cing-Dao (Steve), Professor, Physics and Astronomy. BS 1981, Jimei University; MS 1985, Oregon State University; PhD 1990, University of Maryland, College Park.

Kang, Pilgyu, Assistant Professor, Mechanical Engineering, Volgenau School of Engineering. BS 2007, Seoul National University; MS 2009, Carnegie Mellon University; PhD 2014, Cornell University.

Kaplan, Seth, Professor, Psychology. BS 1998, University of Florida; MS 2003, PhD 2006, Tulane University.

Kaps, Jens-Peter, Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. Dipl. Ing 1996, Munich University of Applied Sciences; MS 1998, PhD 2006, Worcester Polytechnic Institute.

Karametou, Maria, Associate Professor, School of Art. BA 1974, University of Maryland; MFA 1979, Maryland Institute College of Art.

Kardambikis,Christopher, Assistant Professor and Director of Printmaking, School of Art, College of Visual and Performing Arts. BFA 2005,Carnegie Mellon University; MFA 2012, University of California, San Diego.

Karmegam, Sabari Rajan, Assistant Professor of Information Systems and Operations Management. BE 2002, University of Madras; MBA 2007, Vinod Gupta School of Management; 2009 MBL, National Law School of India University; PhD 2020, University of Maryland.

Karton, Alissa, Assistant to the Vice President and Director of Special Projects, University Life. BA 1992, MA 1993, University of Rochester.

Karush, Matthew B., Chair, Department of History and Art History and Professor, History. BA 1990, Columbia University; MA 1992, PhD 1997, University of Chicago.

Kashanchi, Fatah, Professor, School of Systems Biology. BS 1983, NW Missouri State University; MS 1985, Emporia State University; PhD 1991 University of Kansas.

Kashdan, Todd, Professor, Psychology. BS 1996, Cornell University; MA 2000, PhD 2004, State University of New York, Buffalo.

Kathir, Nathan, Assistant Professor, Mechanical Engineering, Volgenau School of Engineering. BS 1974, University of Ceylong; MEngrg 1976, Asian Institute of Technology; MS 1979, North Dakota State; PhD 1991, Texas A&M.

Katz, Mark N., Professor, Schar School of Policy and Government. BA 1976, University of California, Riverside; MA 1978, Johns Hopkins University; PhD 1982, Massachusetts Institute of Technology.

Kaufmann, David, Professor of English. AB 1980, Princeton University; PhD 1989, Yale University.

Kauzlarich, Richard D., Distinguished Visiting Professor and Co-Director of the Center for Energy Science and Policy and Director of the Peace Operations Policy Program, Schar School of Policy and Government. BA 1966, Valparaiso University; MA 1967, Indiana University; MA 1975, University of Michigan.

Kavak, Hamdi, Assistant Professor, Computational and Data Sciences. BS 2008 Karadeniz Technical University; MS 2015, PhD 2019, Old Dominion University.

Kaya, Erdogan, Assistant Professor, School of Education in the College of Education and Human Development. B.S. 2007, Eskisehir Technical University; M.S. 2013, International Black Sea University, Tbilisi, Georgia; Ph.D. 2020, University of Nevada, Las Vegas.

Keene, Deborah M., Director, Law Library. BA 1974, MLS 1975, Vanderbilt University; JD 1980, University of Tennessee.

Kehoe, Kathleen M., Director of Development, University Libraries. BS 1969, University of Dayton; MEd 1997, DEd 2000, George Mason University.

Kehoe, Susan S., Director of Educational Media and Executive Producer, GMU-TV. BA, Illinois College; MS Northwestern University; DA 2000, George Mason University.

Keith, Sally, Associate Professor, English. BA 1996, Bucknell University; MFA 2000, University of Iowa.

Kelaher-Briggs, Audrey, Assistant Dean of Development, College of Science. BA 2002, MA 2004, George Mason University.

Kelly, Anthony Eammon, Professor of Education, School of Education. BA 1979, St. Patrick's College, Dublin; MA 1984, California State University; PhD 1988, Stanford University.

Kelly, Nancy, Term Associate Professor of Nursing. ADN 1980, Fairmont State College; BSN 1995, University of Wisconsin, Milwaukee; MSN 2007, DNP 2011, University of Virginia.

Kelly, T. Mills, Director, Roy Rosenzweig Center for History and New Media and Professor, History. BA 1981, University of Virginia; MA 1988, PhD 1996, George Washington University.

Kennedy, Christopher, Associate Professor, Environmental Science and Policy. BS 2005, Clarkson University; PhD 2011, University of Wyoming.

Kennedy, William G., Associate Professor, Computational and Data Sciences. BS 1972, U.S. Naval Academy; MS 1973, Naval Postgraduate School; PhD 2003, George Mason University.

Kepplinger, David, Assistant Professor, Statistics, Volgenau School of Engineering. BS 2012, MS 2015, Vienna University of Technology; PhD 2020, University of British Columbia.

Kermer, Debby, Data Services Research Consultant, University Libraries. BS 2000, Willamette University; MA 2009, University of Virginia.

Khan, Assad A., Associate Director for Undergraduate Student Affairs, College of Science. BSJ 1999, West Virginia University; MA 2011, George Mason University.

Khankan, Sarah T., Assistant Professor, Mathematical Sciences. BS 2008, MS 2010, American University of Beirut; PhD 2016, University of Pittsburgh.

Khasawneh, Khaled, Assistant Professor, Electrical and Computer Engineering Department, Volgenau School of Engineering. BS 2012, Jordan University of Science and Technology; MS 2014, Binghamton University; PhD 2019, University of California, Riverside.

Kidd, Julie, Professor of Education, School of Education. BA 1980, University of Richmond; MEd 1984, James Madison University; PhD 1992, Virginia Polytechnic Institute and State University.

Kierner, Cynthia Anne, Professor, History. BA 1980, McGill University; MA 1982, PhD 1986, University of Virginia.

Kilkeary, Jacqueline, Early Childhood Special Education Specialist. MAT 2007, University of Virginia.

Kilkenny, John, Administrative Faculty, Music, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. BM 1999, Juilliard School; MM 2001, Temple University.

Killiany, Joseph, Term Instructor of English and Individualized Studies. BA 2000, Indiana University of Pennsylvania; MA 2009, New Mexico State.

Kim, Dae Young, Associate Professor of Sociology, BA 1991, State University of New York, Binghamton; MPhil 1998, PhD 2001, City University of New York Graduate Center.

Kim, Eugene, Term Assistant Professor, Bioengineering, Volgenau School of Engineering. BS 2015, University of Michigan; PhD 2020, Washington University in St. Louis.

Kim, Hyo Jung, Assistant Professor of Accounting. BBA 2005, MBA 2007, Yonsei University; MSA 2008, University of Illinois; PhD 2016, The University of Arizona.

Kim, Mirae, Associate Professor, Schar School of Policy and Government. BA 2007, Seoul National University; MA 2009, Carnegie Mellon University; PhD 2014, Rutgers, the State University of New Jersey.

Kim, Sojung, Assistant Professor, Communication. BA 2005, Korea University; MA 2007, Indiana University; PhD 2011 University of Wisconsin-Madison.

Kim, Sujin, Assistant Professor, School of Education, College of Education and Human Development. BA 1996, MA 2002, Seoul National University; PhD 2014, University of Missouri-St. Louis.

Kim, Yena, Assistant Director, Student Success & Academic Advising, School of Business. BA 2016, College of William and Mary; ME 2016, University of Virginia.

Kim, Young Hoon, Assistant Professor of Accounting. BBA 2012, Korea University; MPAcc 2015, The University of Texas; PhD 2020, Texas A&M University.

King, Daphne L., Term Assistant Professor and MSW Online Coordinator, Social Work. BA 1995, Michigan State University; MSW 2002, Grand Valley State University; EdD 2013, Argosy University.

King, Karen, Assistant Professor of Business Foundations. BA, University of North Carolina; MS, Catholic University of America; MBA, James Madison University; PhD 2017, University of Virginia.

King, Michael, Assistant Professor of Information Systems and Operations Management. BS, MBA, University of North Carolina; MS, University of Virginia; PhD 2015, Virginia Polytechnic Institute and State University.

King, Sara M., Term Assistant Professor, English. AB 1983, Cornell University; MFA 1989, University of Arkansas.

King-Sears, Margaret (Peggy), Professor of Education, School of Education. BS 1977, Valdosta State College; MA 1980, University of North Florida; PhD 1989, University of Florida.

Kinnaman, Theodore, Chair, Department of Philosophy, and Associate Professor of Philosophy. BA 1985, Carleton College; MA 1988, PhD 1995, University of Wisconsin, Madison.

Kinser, Jason M., Associate Professor and Chair, Computational and Data Sciences. BA 1985, William Jewell College; MS 1987, University of Alabama, Huntsville; DSc 1993, South Eastern Institute of Technology.

Kinter, James L. III, Professor and Chair, Atmospheric, Oceanic and Earth Sciences. AB 1979, MA 1981, PhD 1984, Princeton University.

Kirker, Maoria J., Instruction and Assessment Coordinator, University Libraries. BA 2009, University of Wisconsin, Madison; MSLS 2011, University of Illinois, Urbana-Champaign.

Kirsch, Jane, Instructor, Academic English, INTO Mason. BA 1982, College of William and Mary; MA 1999, George Mason University.

Kirsch, Vicki, Term Associate Professor of Social Work. BA 1978, Georgetown University; MA 1980, The University of Chicago; PhD 1990, Emory University; MSW 1997, Boston University.

Kitching, Karen Taranto, Associate Professor of Accounting. BS 1993, MSA 1996, American University; PhD 2007, George Washington University.

Kitsantas, Anastasia, Professor of Education, School of Education. BA 1992, BS 1992, MS 1993, Queens College, City University of New York; MA 1995, PhD 1996, Graduate School and University Center, City University of New York.

Kitsantas, Panagiota, Professor of Health Administration and Policy. BA 1996, Queens College (CUNY); MS 1999, James Madison University; MS 2000, PhD 2003, Florida State University.

Klee, Holly L., Survey and Data Coordinator, College of Education and Human Development. BA 2010, University of Denver; MS 2012, George Mason University.

Klein, Daniel B., Professor of Economics, BS 1983, George Mason University; PhD 1990, New York University.

Klein, Margaret, Assistant Director, TTAC, Kellar Institute for Human disAbilities, College of Education and Human Development. BA 1978, Furman University; MEd 1983 Marymount University.

Klimoski, Richard J., Professor of Management and Psychology. BA 1965, University of Massachusetts; MS 1968, PhD 1970, Purdue University.

Klimov, Dmitri, Professor, School of Systems Biology. MS 1989, PhD 1992, Moscow State University.

Klinger, Barry A., Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 1985, PhD 1992, Massachusetts Institute of Technology.

Klaus, Haagen, Assistant Professor, Sociology and Anthropology. BA 2000, State University of New York; MA 2003 Southern Illinois University; PhD 2008, The Ohio State University.

Knight, Kelly L., Associate Professor, Forensic Science. BS 2006, George Washington University; MFS 2008, Virginia Commonwealth University.

Knudsen, Erik C., Term Associate Professor, Mechanical Engineering, Volgenau School of Engineering. BS 2001, Villanova; MS 2003, PhD 2006, University of Florida.

Koblentz, Gregory D., Associate Professor of Government and Politics and Director of Biodefense Program, Schar School of Policy and Government. BA 1996, Brown University; MPP 1999, Harvard University; PhD 2004, Massachusetts Institute of Technology.

Kocache, Malda, Associate Professor, Biology. BS 1984, American University of Beirut; 1989 PhD, Georgetown University.

Koch, Lisa, Term Full Professor of English. BA 1987, Washington University; MA 1992, PhD 2000, University of Maryland.

Koizumi, Naoru, Professor of Public Policy and Director of Research, Schar School of Policy and Government. BA 1992, Aoyama-Gakuin University; MA 1994, PhD 2002, University of Pennsylvania; PhD 2005, Hyogo Medical College.

Komwa, Maction K., Geography and Geoinformation Sciences. Diploma 1998, National College of Information Technology- Malawi; MS 2003, Clark University; PhD 2011, George Mason University.

Koper, Christopher S., Associate Professor, Criminology, Law, and Society. BA 1988, MA 1992, PhD 1995, University of Maryland.

Kornienko, Olga, Assistant Professor, Psychology. BS 2002 Bellevue University; MA 2007, PhD 2010, Arizona State University.

Korostelina, Karina, Professor, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1990, MA 1991, National Kiev

University; PhD 1994, Odessa State University; Dr. of Sc. 2003, Ukrainian Academy of Science.

Kosecka, Jana, Professor, Computer Science, Volgenau School of Engineering. MSE, EECS 1988, Slovak Technical University, Bratislava, Slovakia; PhD 1996, University of Pennsylvania.

Kosoglu, Laura, Associate Department Chair and Associate Professor, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 2005, MS 2007, Lehigh University; PhD 2011, Virginia Polytechnic and State University.

Koutney, Colin, Assistant Professor of Accounting. BS 2009, University of California; MS 2013, California State University; PhD 2018, University of Texas.

Koyama, Mark, Associate Professor of Economics. BA 2003, Trinity College, University of Oxford; MA 2006, PhD 2006, Wadham College, University of Oxford.

Kozlowski, James, Associate Professor of Parks, Recreation, and Leisure Studies, School of Sport, Recreation, and Tourism Management. BA 1972, Johns Hopkins University; MA 1973, University of Chicago; MS 1976, University of Illinois; JD 1980, University of Maryland School of Law; PhD 1986 University of Maryland.

Krall, Jenna, Assistant Professor of Global and Community Health. BA 2008, George Mason University; PhD 2014, Johns Hopkins Bloomberg School of Public Health.

Kraus, Amanda, Assistant Professor, Film and Video Studies. BA 2000, Columbia College, Hollywood.

Krell, Misty, Term Assistant Professor and Director of Academic Affairs, School of Integrative Studies, College of Humanities and Social Sciences. BA 2002, Albion College, MI; MAIS 2011, George Mason University.

Kreps, Gary, University Professor of Communication and Director of the Center for Health and Risk Communication. BA 1975, MA 1976, University of Colorado; PhD 1979, University of Southern California.

Krout, Linda, Instructor of Physical Education, School of Education. BA 1980, MA 1995, Rowan University.

Krueger, Frank, Associate Professor, School of Systems Biology. MS 1997, PhD 2000, Humboldt University Berlin, Germany; MA 2002, Free University Berlin, Germany.

Kubik, Martha, Professor and Director, School of Nursing. BSN 1976, Hampton University; MSN 1982, University of Pennsylvania; PhD 2002, University of Minnesota.

Kugler, Maurice D., Professor of Public Policy, Schar School of Policy and Government. BS 1989, MS 1991, London School of Economics and Political Science; PhD 2000, University of California, Berkeley.

Kurtay, Pelin, A, Associate Chair and Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1994, MS 1997, Ankara University; PhD 2005 George Mason University.

Kurtz, Lester R., Professor of Sociology, BA 1972, Westmar College; MAR 1974, Yale University; PhD 1980, University of Chicago.

Kushwaha, Tarun, Professor of Marketing. BS 1996, St. Xavier's College; 1998 MBA, Institute of Management, Nirma University; MS 2002, PhD 2007, Texas A&M University.

Kuykendall, Lauren, Associate Professor. BS 2007, Wofford College; MS 2013, PhD 2015, Purdue University.

Kwon, Harim, Assistant Professor, English. BA 2005, MA 2007, Seoul National University; PhD 2015, University of Michigan.

Kysar Mattietti, Giusepinna, Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 1989, Universita' degli Studi di Roma; MPhil 1997, PhD 2001, George Washington University.

L

La Porte, Todd M., Term Associate Professor, Schar School of Policy and Government. BA 1980, Swarthmore College; MA, PhD 1989, Yale University.

LaCharite, Kerri, Assistant Professor of Nutrition and Food Studies. BA 1999, University of New Hampshire; MPW 2008, Chatham University; PhD 2014, Prescott College.

LaCroix, Leslie. Assistant Professor, School of Education, College of Education and Human Development. BS, 1994 James Madison University; MS 1999 McDaniel College, PhD 2015, George Mason University.

Laemmerzahl, Arndt F., Associate Professor, Biology. BS 1983, MS 1990, George Mason University; MS 1993, Texas Tech University; PhD 2005, George Mason University.

LaFrance, Michelle, Associate Professor of English and Director, Writing Across the Curriculum program. BA 1995, Antioch University, Yellow Springs, OH; MA 2002, PhD 2009, University of Washington, Seattle.

Lahm, Sally, Associate Research Professor, College of Health and Human Services. BA, Arizona State University; MA, San Diego State University; PhD, New York University.

Laipson, Ellen, Term Professor and Director, Center for Security Policy Studies/International Security Program, Schar School of Policy and Government. BA 1973, Cornell University; MA 1978, The Johns Hopkins University.

Lair, Meredith H., Associate Professor, History. BA 1994, Ohio University; PhD 2004, Pennsylvania State University.

Lam, Margaret N., Physical Sciences and STEM Data Librarian, University Libraries. BA 2005, MA 2007, MLS 2009, Queens College, City University of New York.

Lamba, Harbir, Associate Professor, Mathematical Sciences. BA 1988, Cambridge University; PhD 1994, Bristol University.

Lambert, Gillian, Director of Finance and Human Resources, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BTech 2001, Cape Peninsula University of Technology.

Lancaster, Roger N., Professor of Anthropology and Cultural Studies. BA 1982, University of North Carolina; MA 1983, PhD 1987, University of California, Berkeley.

Landoll, Christine, Instructor of Business Foundations. BS 1989, MS 1992, George Mason University.

Landry, Elena, Global Programs and Foreign Languages Librarian, University Libraries. BA, MS, Tbilisi State University, MLIS, Louisiana State University.

Landsberg, Alison, Professor, History and Cultural Studies. BA 1989, Williams College; MA 1991, PhD 1996, University of Chicago.

Langfred, Claus W., Associate Professor of Management. BS 1993, Washington University, St. Louis; MS 1995, PhD 1998, Northwestern University.

Lapel, Christina M., International Tax Coordinator, OIPS. BM 1983, Missouri State University.

Largen, Kim D.B., Associate Professor, Environmental Science and Policy. BA 1980, University of Virginia; MS 1988, PhD 2000, George Mason University.

Laskey, Kathryn Blackmond, Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1976, University of Pittsburgh; MS 1978, University of Michigan; PhD 1985, Carnegie Mellon University.

Laskofski, Michael, Associate Vice President for Research Operations. BBA 1996, MBA 2003, Boston University.

Latiff, Robert, Research Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 1971, MS 1973, PhD 1974, University of Notre Dame.

Lattanzi, David A., Associate Professor, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 2003, MS 2005, Tufts University; MS 2013, PhD 2013, University of Washington.

Lattanzi Shutika, Debra L., Chair and Associate Professor, English. BSN 1987, West Virginia University School of Nursing; MA 1993, George Mason University; MA 1998, PhD 2001, University of Pennsylvania.

Lattanzi, Elisabeth, Term Instructor, Mechanical Engineering, Volgenau School of Engineering. BS 2003, MS 2005, Tufts University.

LaToza, Thomas D., Assistant Professor, Computer Science, Volgenau School of Engineering. BS 2004, BS 2004, University of Illinois. PhD 2012, Carnegie Mellon University.

Lauer, Anne, Instructor of Business Foundations. BA 1975, Grove City College; MA 1978, Georgetown University; MS 199, John Hopkins University.

Lavengood, Megan, Assistant Professor of Music. BM 2010, Ohio University; MA 2012, Florida State University; PhD 2017, City University of New York.

Lawrence, Heidi, Associate Professor, English. BA 2002, Mary Washington College; MA 2007, George Mason University; PhD 2013, Virginia Polytechnic Institute and State University.

Lawrence, James Franklin, Professor, Mathematical Sciences. BS 1972, Oklahoma State University; PhD 1975, University of Washington.

Lawrence, Susan, Director, Writing Center. BA 1982, College of William and Mary; MA 1993, University of Wisconsin, Madison; PhD 2005, Carnegie Mellon University.

Lawrey, James D., Professor, Biology. BS 1971, Wake Forest University; AM 1973, University of South Dakota; PhD 1977, The Ohio State University.

Lawton, Sean D., Professor, Mathematical Sciences. BS 2000, MA 2003, PhD 2006, University of Maryland, College Park.

Lazaroff, Kurt, Term Assistant Professor, School of Integrative Studies. BA 1980, Allegheny College; Med 2001, Edinboro University of Pennsylvania; PhD 2012, University of North Carolina-Greensboro.

Lebovic, Sam, Associate Professor of History. BA 2003, University of Sydney; MA 2005, PhD 2011, University of Chicago.

Lebowitz, Josiah, Assistant Professor of Game Writing, Computer Game Design, College of Visual and Performing Arts, BA 2007, MA 2009, University of Advancing Technology; MFA 2021, George Mason University.

Lechter, Mary, Performance Faculty, School of Theater; Associate Director, Mason Community Arts Association. BA 1985, University of Maryland.

Lee, Andrew Y., Social Sciences Librarian, University Libraries. BA 1982, Capital Normal University of Beijing; MA 1990, MLS 1997, PhD 1996, State University of New York-Buffalo.

Lee, Ben, Assistant Professor, Statistics, Volgenau School of Engineering. BA 2008, Johns Hopkins University; MA 2015, Columbia University; PhD 2020, The Pennsylvania State University.

Lee, Chi-Hyon, Associate Professor of Management. BA 1987, University of California; MBA 1991, University of Southern California; PhD 2001, Boston University.

Lee, Hun, Associate Professor of Management. BS 1986, Georgia Institute of Technology; MBA 1988, Thunderbird School of Global Management; PhD 1995, University of Maryland.

Lee, Jin, Assistant Professor, Criminology, Law and Society. BS 2014, University of Toronto; MA 2017, University of Ontario Institute of Technology.

Lee, JoAnn, Associate Professor of Social Work. BA 1999, Stanford University; MSSW 2005, MPA 2005, Columbia University; PhD 2012, University of Washington.

Lee, Myeong, Assistant Professor, Information Sciences and Technology Department, Volgenau School of Engineering. BS 2009, MS 2011, Seoul National University; PhD 2019, University of Maryland, College Park.

Lee, Philseok, Assistant Professor. BA 2008 Myongji University, South Korea; MA 2013, PhD 2016, University of South Florida.

Lee, Seungwon (Shawn), Associate Professor of Tourism and Events Management, School of Sport, Recreation, and Tourism Management. BEng 1995, In-Ha University; MTA 2001, George Washington University; PhD 2009, Virginia Polytechnic Institute and State University.

Lee, Yi-Ching, Assistant Professor of Psychology. BS 1998, Soochow University; MS 2001, Central Michigan University; PhD 2006, University of Iowa.

Leeman, Jennifer, Professor, Modern and Classical Languages. BA 1986, University of Pennsylvania; MA 1988, New York University; MAT 1993, PhD 2000, Georgetown University.

Leeson, Peter, Duncan Black Professor of Economics and Professor of Economics. BA 2001; PhD 2005, George Mason University.

Lenzy, Cherjanét, Term Assistant Professor, Higher Education Program. BA 2000, Wright State University; MEd 2004, Grand Valley State University; PhD 2019, University of Northern Colorado.

Leslie, Timothy, Associate Professor, Geography and Geoinformation Science. BA 2002, University of Miami; MA 2004, PhD 2007, Arizona State University.

Lessard-Pilon, Stephanie, Assistant Professor, Smithsonian-Mason School of Conservation. BS 2005, Cornell University; PhD 2010, Pennsylvania State University.

Lester, Jaime Renee, Associate Dean of Faculty Development and Strategic Initiatives and Professor, Higher Education Program. BA, University of Michigan; MEd 2003, PhD 2006, University of Southern California.

Letiecq, Bethany L., Associate Professor and Academic Program Coordinator, Human Development and Family Science, School of Education, College of Education and Human Development. BA 1991, University of Rhode Island; MS 1995, PhD 1999, University of Maryland, College Park.

Levine-Brown, Elizabeth, Associate Professor, School of Education. BA 2001, Colgate University; MAT 2004, American University; MA 2007, Washington College; PhD 2011, University of Pittsburgh.

Levine, James Steven, Associate Professor of Russian. BA 1971, BA 1972, State University of New York, Buffalo; MA 1974, PhD 1977, University of Illinois, Urbana-Champaign.

Levy, David M., Professor of Economics. BA 1966, University of California, Berkeley; MA 1970, PhD 1979, University of Chicago.

Lewis, Gwendolyn M., Assistant Professor, Interdisciplinary Program in Neuroscience. BS, James Madison University; PhD 2015, University of Virginia.

Lewis, Kaleb, Associate Director, Career Services, School of Business. BHS 2011, MPA 2013, University of Florida.

Lewis, Rachel A., Term Associate Professor of Women and Gender Studies. BA 2004, University of York; MA 2007, PhD 2011, Cornell University.

Lewis, Virginia Ann, Director, Retention Initiatives. BS 1975, Towson State University; MA 1979, University of Maryland.

Li, Fei, Associate Professor, Computer Science, Volgenau School of Engineering. BSc 1997, Jilin University; MS 2002, PhD 2007, Columbia University.

Li, Jiasun, Assistant Professor of Finance. BS 2011, Fudan University; PhD 2016, University of California, Los Angeles

Li, Qiliang, Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1996, Wuhan University; MS 1999, Nanjing University; PhD 2004, North Carolina State University.

Li, Xin, Assistant Professor of Information Systems and Operations Management. BBA 2000, Wuhan University; MBA 2002, PhD 2004 Washington State University.

Liberatore, Stephanie, Term Assistant Professor, English. BA 2006, Pennsylvania State University; MFA 2014, George Mason University.

Liberty, Paul J., Vice President for Government and Community Relations. BA 1988, George Mason University.

Lichter, Samuel, Professor, Communication. BA 1969, University of Minnesota; PhD 1977, Harvard University.

Lien, Jyh-Ming, Associate Professor, Computer Science, Volgenau School of Engineering. BS 1999, National Cheng-Chi University; PhD 2006, Texas A&M University.

Light, Andrew, University Professor, Philosophy. BA 1989, Mercer University; MA 1992, PhD 1996, University of California, Riverside.

Lim, Haw Chuan, Assistant Professor, Biology. BEnvSc 1996, University of Wollongong, Australia; MS 2002, National University of Singapore; PhD 2010, Louisiana State University.

Lin, Jessica H., Associate Professor, Computer Science, Volgenau School of Engineering. BS 1999, MS 2002, PhD 2005, University of California, Riverside.

Lindley, Lisa, Associate Professor of Global and Community Health. BS 1991, George Mason University; MPH 1993, DrPH, 1997, University of South Carolina.

Linton, Harold, Professor, School of Art, College of Visual and Performing Arts. BFA 1969, Syracuse University; MFA 1972, Yale University.

Liotta, Lance, Codirector, Center for Applied Proteomics and Molecular Medicine, University Professor, School of Systems Biology. BA 1969, PhD 1974, MD 1976, Case Western Reserve University.

Lister, Lisa M., Term Professor, English. BA 1997, Lewis and Clark College; MFA 2005, American University.

Liu, Zhong, Research Professor, Environmental Science and Policy. BS 1983, Shandong College of Oceanography; MS 1990, SD School of Mines and Technology; PhD 1995, The Ohio State University.

Ljungquist, Bengt, Research Assistant Professor, Bioengineering Department, Volgenau School of Engineering. PhD 2018, Lund University.

Locayo, Candace, Assistant Professor of Athletic Training, School of Recreation, Health, and Tourism. BS 2003, University of Virginia; MS 2005, George Mason University.

Lockwood, J. Samaine, Associate Professor, English. BA 1996, Vassar College; MA 1997, University of Michigan, Ann Arbor; PhD 2006, University of California, Davis.

Loerch, Andrew G., Associate Professor and Associate Chair, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1974, Polytechnic Institute of Brooklyn; MS 1980, Naval Postgraduate School; MS 1989, PhD 1990, Cornell University.

Logfren, Eric, Research Scientist, School of Business. BA 2011, Virginia Polytechnic and State University; MA 2015, George Mason University.

Lohner, Rainald, Distinguished Professor of Fluid Dynamics, Computational and Data Sciences. MS 1982, Technische Universitat, Braunschweig, West Germany; PhD 1984, University College of Swansea, Wales.

Loomis, Diane, Transition Coordinator. BA 1974, Florida State University; MS 1977, University of Tennessee; PhD 2007, George Mason University.

Lopez Bunyasi, Tehama, Assistant Professor, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 2001, University of Virginia; PhD 2009, University of Chicago.

López, Eduardo E., Assistant Professor, Computational and Data Sciences. MA 2000, PhD 2005, Boston University.

Lopez-Santana, Mariely, Associate Professor and Director of Political Science Doctoral Program, Schar School of Policy and Government. BA 1997, University of Puerto Rico Piedras; PhD 2006 University of Michigan.

Lorie, Craig A, Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1990, Hofstra University; MS 1993, PhD 2005, University of Virginia.

Louh, Nyla, Assistant Director, Development, College of Visual and Performing Arts. BM 2003, James Madison University; MM 2006, George Mason University.

Louis, Germaine, Professor and Dean, College of Health and Human Services. RN 1975, Millard Fillmore School of Nursing; BA 1978, MS 1980, PhD 1987, State University of New York at Buffalo.

Lovejoy, Thomas E., University Professor of Public and International Affairs and Environmental Science and Policy. BS 1964, PhD 1971, Yale University.

Lowder, Evan, Assistant Professor, Criminology, Law and Society. BA 2012, College of Saint Benedict; MS 2015, PhD 2017, North Carolina State University.

Lowery, Troy, Director of Student Outreach, College of Humanities and Social Sciences. BA 2015, MA 2018, George Mason University.

Lowry, Dawn, Term Instructor and Director of Forensics, Communication. BA 1993, Northern Illinois University; MS 1999, Illinois State University.

Lucas, Nance, Associate Professor and Executive Director, Center for the Advancement of Well-Being, College of Humanities and Social Sciences. BA 1982, MA 1984, Pennsylvania State University; PhD 1999, University of Maryland.

Ludwick, Ann M., Assistant Professor and Assistant Dean for Undergraduate Academic Affairs, Schar School of Policy and Government. BA 1988, Longwood University; MPA 1995, DA 2011, George Mason University.

Luke, Sean, Professor, Computer Science, Volgenau School of Engineering. BS 1993, Brigham Young University; PhD 2000, University of Maryland.

Lukes, Laura A., Assistant Director for Teaching Excellence, Stearns Center for Teaching and Learning; Affiliate Assistant Professor, Department of Atmospheric, Oceanic, & Earth Sciences. BS 2002, The Ohio State University; MS 2004, Virginia Polytechnic Institute and State University; MEd 2005, The Ohio State University; PhD 2014, North Carolina State University.

Lukyanenko, Anton, Assistant Professor, Mathematical Sciences. BS 2007, University of Maryland, College Park; PhD 2014, University of Illinois, Urbana-Champaign.

Lukyanenko, Cynthia, Term Assistant Professor, English Linguistics. BA 2008, University of Maryland; MA 2011, PhD 2014, University of Illinois.

Lum, Cynthia, Professor, Criminology, Law and Society. BA 1995, University of California; MS 1996, London School of Economics and Political Science; PhD 2003, University of Maryland.

Luo, Songjun, Term Associate Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1984, Guangxi University, China; MBA 1990, University of Northern Iowa; PhD 1994, The University of Texas at Austin.

Luther, David, Associate Professor, Biology. BS 1995, University of Oregon; PhD 2008, University of North Carolina, Chapel Hill.

Lyons, Michael, Instructor, Information Sciences and Technology, Volgenau School of Engineering. BAppSc, Chisholm Institute of Technology; MS, University of Maryland University College.

Lyons, Terrence P., Associate Professor of Conflict Analysis and Resolution, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1981, University of Virginia; MA 1985, Michigan State University; PhD 1994, Johns Hopkins University.

M

Mack, M. Reese, Term Assistant Professor, English. BA 2009, MFA 2012, George Mason University.

Mackenzie, Tricia, Head, Resource Description and Metadata Services, University Libraries. BS 2000, MA 2004, Southern Illinois University; MLS 2010, Indiana University, Bloomington.

Macrina, Amy Potrzeba, Assistant Professor, Mathematical Sciences. BA 2005, Utica College; MA 2008, PhD 2013, University at Albany.

Madden, Charles, Associate Professor, Biology. BS 1989, Kansas State University; PhD 1996, Louisiana State University.

Maddox, Peggy Jo, Professor and Chair, Health Administration and Policy. BSN 1974, University of Nevada; MSN 1981, Catholic University of America; EdD 1995, Columbia University.

Maddox, Tamara A., Associate Professor, Computer Science, Volgenau School of Engineering. BS 1987, George Mason University; JD 1991, College of William and Mary.

Madison, Sorina, Assistant Professor, Health Administration and Policy. MD 1996, Carol Davila University of Medicine and Pharmacy, Romania; MPH 2001, George Washington University; PhD 2003, George Mason University.

Magee, Christopher D., Social Sciences Librarian, University Libraries. BA 2003, MS 2011, George Mason University; MSIS 2015, University of Tennessee.

Maggioni, Viviana, Associate Professor, Civil, Environmental & Infrastructure Engineering, Volgenau School of Engineering. BS 2003, MS 2006, Politecnico di Milano, Italy; PhD 2013, University of Connecticut.

Magro, Anne M., Senior Associate Dean, Strategy and Impact and Associate Professor of Accounting, School of Business. BA 1987, University of Michigan, Ann Arbor; MS 1991, PhD 1998, University of Illinois, Urbana-Champaign.

Maibach, Edward, University Professor and Director of Center for Climate Change Communication. BA 1980, University of California; MPH 1983, San Diego State University; PhD 1990, Stanford University.

Maiello, Anthony Joseph, University Professor of Music, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. BS 1965, MS 1967, Ithaca College.

Mainkar, Avinash, Assistant Professor of Management. BT 1983, Indian Institute of Technology; MBA 1985, Tulane University; PhD 2000, University of Connecticut.

Major, Travis, Director of Graduate Admissions, Schar School of Policy and Government. BA 1994, Virginia Polytechnic Institute and State University; EML 2005, Georgetown University.

Malawer, Stuart S., Distinguished Service Professor of Law and International Trade, Schar School of Policy and Government. BA, University of Buffalo; MA, PhD 1976, University of Pennsylvania.

Malur, Michal J. McElwain, Director, External Programs, Schar School of Policy and Government. BA 1996; MA 1998, George Mason University.

Mallett, Karyn Elizabeth, Associate Director, English Language Programs, INTO Mason. BA 1997, University of Iowa; MA 2002, California State University - Sacramento; PhD 2009, Purdue University.

Malouf, Michael G., Associate Professor, English. BA 1991, New York University; MA 1996, North Carolina State University; MA 1997, MPhil 1999, PhD 2004, Columbia University.

Mancini, Terri A., Director, Sponsored Research Administration, Volgenau School of Engineering. BS 1993, Strayer University; MPA 2008, George Mason University.

Mandaville, Peter P., Professor, Schar School of Policy and Government. MA 1994, University of St. Andrews, Scotland; MA 1995, PhD 1999, University of Kent, Canterbury, United Kingdom.

Mangus, Kathryn K., Term Instructor of Communication; Director for Student Media. BIS 1987, MAIS 1990, George Mason University.

Manitius, A.Z., Professor, Electrical and Computer Engineering, Volgenau School of Engineering. MSEE 1960, Academy of Mining and Metallurgy, Krakow, Poland; PhD 1968, Polytechnical School of Warsaw.

Mann, Wendy, Director, Digital Scholarship Center, University Libraries. BA, MLS, University of Pittsburgh; MPP, George Mason University.

Manojlovic, Borislava, Assistant Professor, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution, George Mason University Korea. BA 2002, Belgrade University; MA 2008, Brandeis University; PhD 2013, George Mason University.

Mantz, Jeffrey W., Assistant Professor of Anthropology. BA 1993, University of Massachusetts; MA 1996, State University of New York, Binghamton; PhD 2003, University of Chicago.

Manuel Scott, Wendi N., Term Professor, School of Integrative Studies. BA 1994, College of Charleston; MA 1997, PhD 2003, Howard University.

Manzo, Gino J., Term Instructor, Office of the Dean, Volgenau School of Engineering. BS 1975, MEngr 1976, Cornell University.

Marasco, Emanuela, Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering. BA, MS 2006, PhD 2007, University of Naples Federico II (Italy).

Marcu, Dorin, Research Associate Professor, Learning Agents Center, Volgenau School of Engineering. BS 1994, Polytechnic Institute of Bucharest, Romania; PhD 2008, George Mason University.

Maribojoc, Roderick, Executive Director, Center for Real Estate Entrepreneurship, School of Business. BA 1988, Ateneo de Manila University; MBA 1993, American University.

Mark, Brian L., Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BASc 1991, University of Waterloo; MA 1993, PhD 1995, Princeton University.

Marks, Ronald, Term Visiting Professor, Schar School of Policy and Government. BS 1978, Lewis and Clark College; MS 1982, University of Oregon.

Markx, Francien, Associate Professor of German. MA (Doctoraal Examen) 1994, Universiteit van Amsterdam (The Netherlands); PhD 2003, University of Illinois, Urbana-Champaign.

Marshall, Maureen E., Assistant Professor, School of Education in the College of Education and Human Development. BA 1991, Boston College; MEd 1996, EdD 2006, Virginia Polytechnic Institute and State University.

Marshall, Sophia, Instructor of Business Foundations, School of Business. BA 1995, Ursinus College; MHR 2004, University of Oklahoma.

Martin, Joel, Associate Professor of Exercise, Fitness and Health Promotion, School of Kinesiology. BS 2007, State University of New York at Binghamton; MS 2009, MS 2012, PhD 2012, Pennsylvania State University.

Martin, Philip, Assistant Professor, Schar School of Policy and Government. BA 2010, University of Guelph; MA 2012, Carleton University; PhD 2019, Massachusetts Institute of Technology.

Martin, Scott, Associate Professor of Computer Game Design; Founder, Virginia Serious Game Institute. BM 1988, MM 1989, Johns Hopkins University; DMA 2000, University of Maryland.

Martinelli, Cesar, Professor of Economics and Faculty, Interdisciplinary Center for Economic Science. BA 1987, Ponticia Universidad Catolica Del Peru; MS 1991, PhD 1993, University of California, Los Angeles.

Marttinen, Risto, Assistant Professor, School of Education, College of Education and Human Development. BS 2006, MS 2008, California State University, Fullerton; EdD 2015, Columbia University.

Marvel, John D., Associate Professor of Government and Politics, Schar School of Policy and Government. BA 2003 Amherst College; MPP 2011, PhD 2012 American University.

Marzougui, Dhafer, Associate Professor, Physics and Astronomy. BS 1988, MS 1993, Pennsylvania State University; DS 1999, George Washington University.

Maskell, Shayna, Term Assistant Professor, School of Integrative Studies. BA 2001, University of Pennsylvania; MA 2006, University of Southern California; PhD 2014, University of Maryland.

Mason, Linda, Professor, School of Education, College of Education and Human Development. BS 1976, University of Texas; MEd 1994, PhD 2002, University of Maryland.

Mason, Tracy C., Assistant Dean for Marketing and Communications, College of Science. BS 1990, MBA 2002, The Pennsylvania State University.

Massie, Courtney, Assistant Director, University Writing Center. BA 2008, Yale University; MA 2012, PhD 2017, The University of Texas at Austin.

Masters, Patricia, Term Associate Professor, Sociology. BA 1990, George Mason University; MA 1993, PhD 1998, American University.

Masterson, Alexandra, Associate Professor, Biology. BA 1978 Biology, California State University Fresno; Doctor of Pharmacy 1982, University of the Pacific; MSEd 2001, Old Dominion University.

Mathis, Sara, Term Assistant Professor and Basic Course Coordinator, Communication. BS 1998, Illinois State University; MA 2004, University of New Mexico; PhD 2015, University of Utah.

Mathison, Patricia, Director, Social Action & Integrative Learning (SAIL). BA 2004, Shippensburg University, PA; MA 2008, Appalachian State University, NC; MEd 2020, George Mason University.

Matthews, Jessica, Term Professor, English. BS 1972, Drexel University; MA 1992, Austin Peay State University; PhD 2005, George Washington University.

Matthews, Kevin, Instructor of Accounting. BA 1998, MBA 2002, MAcc, 2003, Gonzaga University; MS 2017, American University.

Mattix-Foster, April, Associate Professor, School of Education. BA, Saint Francis University; MA 1999 University of Pittsburgh; MAT 2003 Chatham College; PhD 2012 University of Pittsburgh.

Matto, Holly, Associate Professor of Social Work. BFA 1994, Ohio University; MSW 1996, University of Michigan; PhD 2000, University of Maryland.

Mattson, Janna, Instructional and Social Sciences Librarian, University Libraries. BA 1997, Virginia Commonwealth University; MSL 2004, Queens College, City University of New York.

Matz, Robert, Dean, George Mason University Korea. AB 1986, Cornell University; MA 1988, PhD 1994, Johns Hopkins University.

Maulden, Patricia, Associate Professor of Conflict Analysis and Resolution, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1999, University of California, Santa Cruz; MS 2002, PhD 2007, George Mason University.

May, John, Term Professor, Schar School of Policy and Government. BA 1973, MA 1985, Catholic University of Louvain; PhD 1996, University of Paris-V (Sorbonne).

Mayer, Jeremy D., Associate Professor, Schar School of Policy and Government. BA 1990, Brown University; PhD 1996, Georgetown University.

McBride, Randolph A., Associate Professor, Atmospheric, Oceanic and Earth Sciences. BA 1982, Wittenberg University; MS 1986, PhD 1997, Louisiana State University.

McCabe, Andrew, Distinguished Visiting Professor, Schar School of Policy and Government. AB 1990, Duke University; JD 1993, Washington University, St. Louis.

McCabe, Kevin A., Professor of Economics, Law, and Neuroscience, Center for the Study of Neuroeconomics. BS 1976, Villanova University; PhD 1985, University of Pennsylvania.

McCarron, Graziella, Assistant Professor, School of Integrative Studies. BS 2000, American University; MA 2004, PhD 2012, University of Maryland.

McCord, Theodore B., Term Associate Professor of History. BA 1968; MA 1976; George Mason University; PhD 1991, American University.

Mccue-Weil, Leigh, Associate Professor, BSE 2000, Princeton; MSE 2001, MSE 2002, PhD 2004, University of Michigan.

McDermott, Michael, Assistant Professor of Graphic Design, School of Art, College of Visual and Performing Arts. B. Arch 2011, Virginia Polytechnic Institute and State University; MFA 2015, Rhode Island School of Design.

McDonald, Craig G., Associate Professor, Psychology. BSc 1989, MSc 1994, PhD 2001, University of Victoria.

McDonald, Heather, Professor of Theater. BA 1981, Florida State University; MFA 1984, New York University.

McDowell, Jacqueline, Associate Professor, School of Sport, Recreation, and Tourism Management, College of Education and Human Development. BS 1999, MS 2005, PhD 2008, Texas A & M University.

McGinn, John, Executive Director, Government Contracting, School of Business. BS 1990 United States Military Academy; MS 1998, PhD 2002, Georgetown University.

McGlinchey, Eric M., Associate Professor, Schar School of Policy and Government. BA 1995, Vassar College; MA 1999, PhD 2003, Princeton University.

McGrath, Robert J., Associate Professor of Government and Politics and Director of Undergraduate Programs, Schar School of Policy and Government. BA 2004, Saint Peter's College; PhD 2011, The University of Iowa.

McGuire, Heather, Term Assistant Professor, Art History, BA 1989, University of Virginia, BFA 1996, PhD 2010, Virginia Commonwealth University

McKnight, Patrick E., Associate Professor, Human Factors and Applied Cognition. BS 1988, University of Notre Dame; MS 1992, PhD 1997, University of Arizona.

McManus, Helen, Public Policy, Government, and International Affairs Librarian, University Libraries. BA 2001, University of Oxford, England; MA 2003, University of Missouri, Columbia; MLIS 2010, PhD 2010, University of California-Los Angeles.

McNay, Curtis L., Director of Information Technology Security, ITU.

McNeely, Connie L., Professor, Schar School of Policy and Government. BA 1973, MA 1976, University of Pennsylvania; MA 1985, PhD 1990, Stanford University.

McSherry, Erin, Director of Advising and Retention, College of Humanities and Social Sciences. BA 2002, Old Dominion University; MA Ed 2010, The George Washington University.

McVicker, Carrie, Associate Director, Facilities and Operations, College of Science. BA 1992, Bloomburg University of Pennsylvania.

Meamber, Laurie A., Associate Professor of Marketing. BA 1988, University of California, Davis; MBA 1991, University of California, Riverside; PhD 1997, University of California, Irvine.

Mehlenbeck, Robyn, Clinical Professor, Director of the Center for Psychological Services. BS 1991, The College of William and Mary; MS 1995, PhD 1998 the University of Memphis.

Mehta, Kumar, Associate Professor of Information Systems and Operations Management. BS 1993, Indian Institute of Technology; MS 1996, Southern Illinois University; PhD 2002, University of Illinois.

Melchior, Shekila, Assistant Professor, School of Education in the College of Education and Human Development. BA 2007, University of North Carolina at Pembroke; MS 2011, North Carolina Agricultural and Technical State University; PhD 2017, Virginia Polytechnic Institute and State University.

Melley, Alison, Term Assistant Professor of Psychology. BA 1994, Loyola University; MA 1997, West Chester University; PhD 2003, University of Virginia.

Melville, Anne, Education Librarian, University Libraries. BA 1985 Portland State University; MS 1999 MS 2001, University of Tennessee, Knoxville.

Menascé, Daniel A., University Professor, Computer Science, Volgenau School of Engineering. BS 1974, MS 1975, Pontificia Universidade Catolica do Rio de Janeiro; PhD 1978, University of California, Los Angeles.

Mengistu, Tessema, Term Assistant Professor, Computer Science, Volgenau School of Engineering. BS 2001, MS 2007, Addis Ababa University; MS 2012, University of nice-Sophia Antipolis; PhD 2018, University of Southern Illinois at Carbondale.

Menon, Nirup, M., Associate Dean, Arlington Ventures and Professor of Information Systems and Operations Management. B.Tech 1989, Indian Institute of Technology-Madras; MS 1992, Washington State University; PhD 1997, University of Arizona.

Merola, Linda M., Associate Professor, Criminology, Law and Society. BA 1995, Wesleyan University; JD 1998, George Washington University National Law Center; PhD 2007, Georgetown University.

Messier, Jennifer, Term Assistant Professor, English. BA 2006, Oswego State University; MFA 2010, George Mason University.

Metcalf, James A., Professor of Global and Community Health. BS 1963, MA 1966, PhD 1970, University of Maryland.

Meyer, Carrie A., Associate Professor of Economics. BA 1980, MS 1985, PhD 1988, University of Illinois.

Michals, Teresa, Associate Professor, English. AB, Cornell University; MA 1988, PhD 1996, Johns Hopkins University.

Middle, Beverly, Term Associate Professor of Nursing. BS 1979, Radford University; MS 1988, Catholic University of America.

Miller, Angela, Associate Professor of Education, Graduate School of Education. BA 1991, University of Kansas; MA 1995 University of Kansas; MA 2001, PhD 2006 University of Missouri-Kansas City.

Miller, Char R., Associate Professor of Government and Politics, Schar School of Policy and Government. BA 1990, BS 1990, Idaho State University; PhD 1999, Johns Hopkins University.

Miller, David, Assistant Professor of Management. BA 1995, University of Michigan; MS 1996, University of London; MBA 2001, University of Chicago.

Miller, David, Term Instructor, Communication. BS 1992 Columbia Union College; MA 2004 George Mason University.

Miller, Laurie, Director, Registrar's Information Technology. BA 1986, Kalamazoo College; MBA 1990, MS 2002, The George Washington University.

Miller, Laurie, Term Instructor and English Composition Course Coordinator, INTO Mason. BS 1986, MA 1990, California Polytechnic University, San Luis Obispo; MA 1992, Indiana University.

Miller, Linda Garner, Professor of Dance. BFA 1972, University of Cincinnati; MFA 1980, University of Hawaii.

Miller, Patricia A., University Professor of Music and Artist-in-Residence, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. BM 1972, Boston University; MM 1974, New England Conservatory of Music; Artists' Diploma 1975, Accademia di Santa Cecilia, Rome.

Miller-Hooks, Elise D., Professor and Bill and Eleanor Hazel Endowed Chair in Infrastructure Engineering, Civil, Environmental, and Infrastructure Engineering, Volgenau School of Engineering. BS 1987, Lafayette College; MS 1994, PhD 1997 University of Texas at Austin.

Mills, Irene, Associate Director of Budget, College of Humanities and Social Sciences. BS 1992, The Pennsylvania State University.

Min, Hua, Associate Professor of Health Administration and Policy. MB 1993, Nanjing Tiedao Medical College; MS 1999, PhD 2006, New Jersey Institute of Technology.

Mink, Phillip, Assistant Professor. BA 1977, Millsaps College; JD 1981, University of Mississippi.

Miralles-Wilhelm, Fernando R., Dean, College of Science. ME 1987, Universidad Simon Bolivar; MS 1989, University of California - Irvine; PhD 1993, Massachusetts Institute of Technology.

Miscavige, Katherine, Term Assistant Professor of English. BA 2001, University of Richmond; MA 2005, PhD 2016, Stony Brook University.

Mishin, Yuri, Professor, Physics and Astronomy. MS 1979, PhD 1985, National University of Science and Technology MIsiS, Moscow, Russia.

Mishra, Saurabh, Associate Professor of Marketing. BA 1997, MA 1999, University of Delhi; PhD 2006, Indiana University.

Mitchell, Permon, Mason LIFE Residential Housing Coordinator, Kellar Institute for Human disAbilities, College of Education and Human Development. BS, MS, South Carolina State University.

Mitcho, Sara, Assistant Director of Global Affairs Program and Assistant Professor. BA 2000, James Madison University; MA 2002, The Pennsylvania State University; PhD 2014, George Mason University.

Mohebbi, Shima, Assistant Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BSc 2007, University of Science and Technology, Mazandaran, Iran; MSc 2009, K.N. Toosi University of Technology, Tehran, Iran, MS 2015, PhD 2015, University of Tennessee.

Mojgani, Sherrice, Assistant Professor of Theater, Head of Design, School of Theater, College of Visual and Performing Arts. BA 2007, UC Santa Cruz; MFA 2012, UC San Diego.

Moller Ferreira, Celso, Associate Professor, Civil, Environmental, and Infrastructure Engineering Department, Volgenau School of Engineering. MS 2006, Universidade Federal de Santa Catarina; PhD 2012, Texas A&M University.

Mollerstrom, Johanna, Associate Professor of Economics, BA 2001, Stockholm University; MSc 2006, Stockholm School of Economics; MA 2011, PhD 2013, Harvard University.

Monea, **Alexander,** Assistant Professor of Digital Humanities, Department of English and Department of Cultural Studies, College of Humanities and Social Sciences. BA 2010, Walsh University; MA 2012, Bowling Green State University; PhD 2016, North Carolina State University.

Monson, Linda Apple, Professor and Director, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. BMEd 1979, MM 1981, DMA 1986, Peabody Conservatory of Music of the Johns Hopkins University; Diploma (piano performance), Santiago de Compostela, Spain.

Montiel, Sara, Associate Director of Student Services, School of Integrative Studies. BS 2004, Virginia Commonwealth University; MS 2011, George Mason University.

Moran, Jeffrey, Assistant Professor, Mechanical Engineering, Volgenau School of Engineering. BS 2007, MS 2011, Arizona State University; PhD 2013, University of Washington.

Moran, Kevin, Assistant Professor, Computer Science, Volgenau School of Engineering. BA 2013, College of the Holy Cross; MS 2015, PhD 2018, William & Mary.

Morelli, Julia G., Director of Operations, Capitol Connection. MA 1995, George Mason University.

Mori, Kyoko, Professor, English. BA 1979, Rockford College; MA 1981, PhD 1984, University of Wisconsin, Milwaukee.

Morikawa, Riki, Term Associate Professor, Information Sciences and Technology, Volgenau School of Engineering. MBA 1995, George Washington University; PhD 2004, George Mason University.

Morris, Bradley, Associate Director, Student Success and Academic Advising, School of Business. BS 2013, University of Miami; MBA 2017, Mercy College.

Morris, Walter D., Jr., Professor, Mathematical Sciences. BS 1980, Iowa State University; MS 1984, PhD 1986, Cornell University.

Moteabbed, Shora, Assistant Professor of Business Foundations. BS 2005, MBA 2008, Sharif University of Technology; PhD 2014, ESSEC Business School.

Motti, Vivian G., Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 2006, MS 2009, University of Sào Paulo; PhD 2013 Catholic University of Louvain.

Muir, Janette Kenner, Associate Provost for Academic Initiatives and Services. Associate Professor, School of Integrative Studies and Communication. BS 1979, Palm Beach Atlantic College; MA 1983, Wake Forest University; PhD 1986, University of Massachusetts.

Muir, Star A., Associate Professor, Communication. BA 1980, Wake Forest University; MA 1982, University of Central Florida; PhD 1990, University of Pittsburgh.

Mullen, Abigail, Term Assistant Professor, History. BA 2007, MA 2009, Bob Jones University; MA 2015, PhD 2017, Northeastern University.

Mullen, Lincoln, Associate Professor of History. BA 2006, MA 2008, Bob Jones University; MA 2010, PhD 2014, Brandeis University.

Mulpuri, V.R., Professor, Electrical and Computer Engineering, Volgenau School of Engineering. MS 1983, PhD 1985, Oregon State University.

Mungai, Wambui, Assistant Professor of Business Foundations. BA 2001, York University; LLB 2004, University of Ottawa; LLM 2009, George Washington University.

Murdoch, Erin Quinlivan. Term Associate Professor, Psychology. BA 2000, Muhlenberg College; MA 2002, Wake Forest University; PhD 2006, The Pennsylvania State University.

Murphy, Una M., Director, Outreach, Mason in Loudoun, Regional Campuses. BA 1989, Brooklyn College.

Murray, Kevin P., Associate Director, School of Theater. BA 1975, University of Maryland.

Mut, Fernando, Research Assistant Prof, Bioengineering, Volgenau School of Engineering. BS 2002, MS 2003 Universidad Nacional de Cuyo; MS 2008, PhD 2008, George Mason University.

N

Nagro, Sarah A. Assistant Professor, School of Education, College of Education and Human Development. BA 2005, MS 2006, D'Youville College; EdD 2015, Johns Hopkins University.

Nam, Sang, Director and Associate Professor, Computer Game Design. MFA 2004, New York State College of Ceramics at Alfred University.

Nanian, Richard A., Term Associate Professor of English. BA 1984, Simon's Rock College; MA 1995, Salem State College; PhD 2000, University of Wisconsin, Milwaukee.

Narayanan, Vivek, Assistant Professor of English. BA 1992, Colgate University; MA 1995, Stanford University; MFA 2003, Boston University.

Naumenko, Natalya, Assistant Professor, Department of Economics. BS 2006, Novosibirsk State University; MA 2012, New Economic School, Moscow; PhD 2018, Northwestern University.

Neaves, Tonya T., Research Assistant Professor and Director of Extramural Projects, Schar School of Policy and Government. BA 2004, MPPA 2007, PhD 2014, Mississippi State University.

Neitzke, Eric, Instructional Designer and Technologist, School of Business. BS 1982, James Madison University; MA 2013, Rocky Mountain College of Art & Design.

Nelson, Jill Karen, Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1998, Rice University; MS 2001, PhD 2005, University of Illinois, Urbana-Champaign.

Nelson, Mary, Assistant Professor, Mathematics and STEM Accelerator Faculty. BS 1970, Marquette; MS, George Mason University; PhD 2005, University of Colorado-Boulder.

Neuber, Kristine, Assistive Technology/Parent Information Technology Coordinator, Kellar Institute for Human disAbilities, College of Education and Human Development. BS 1992, Southern Connecticut State University; MEd 1997, PhD 2013, George Mason University.

Newmark, Lisa C., Professor, Criminology, Law and Society. BA 1982, MA 1985, PhD 1989, University of Connecticut.

Ngac, Brian, Instructor of Information Systems and Operations Management. BS 2016, MS 2017, George Mason University.

Nickens, Michael, Associate Professor of Music, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. BM 1998, Manhattan School of Music; MM 2001, Yale University; DMA 2006, University of Michigan.

Nicotera, Anne M., Professor and Chair, Communication. BA 1985, Utica College of Syracuse University; MA 1987, State University of New York, Albany; PhD 1990, Ohio University.

Nikoi, Andrea, Director of Finance and Human Resources, School of Systems Biology. BS 1987, MBA 1991, University of New Orleans.

Nikolic, Predrag, Associate Professor, Physics and Astronomy. BS 1998, University of Belgrade, Serbia; PhD 2004, Massachusetts Institute of Technology.

Nolan, Matthew S., Assistant Professor, Computer Game Design. BM 2007, Berklee College of Music; MM 2012, George Mason University.

Nolder, S. Lisa, Associate Director for Undergraduate Programs, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BA 1995, Hawaii Pacific University; MA 2008, George Mason University.

Nooney Jr., Paul E., Associate Director of Student Services, Schar School of Policy and Government. BS 2001, State University of New York, Albany; MS 2003, 2014, The College of Saint Rose, Albany.

Nord, Julia, Professor, Atmospheric Oceanic and Earth Science. BS 1981, University of Birmingham; MS 1984, University of Minnesota, Duluth; PhD 1989, City University of New York, Brooklyn College.

Norden, Luanne, Instructor of Physical Education, School of Education. BS 1981, MA 1984, University of Nebraska.

Norris, Robert, Assistant Professor, Criminology, Law and Society. BA 2009, University of North Carolina; MA 2011, PhD 2015, University of Albany.

Novak, Andrew, Assistant Professor, Criminology, Law and Society. BA 2005, MS 2006, George Washington University; JD 2009, Boston University School of Law; PhD 2016, Middlesex University School of Law.

Nowinski, Matthew, Adjunct Instructor, Mechanical Engineering, Volgenau School of Engineering. BS 1991, MS 1993, Virginia Tech; MS 2017 University of North Dakota; PhD 1999, Swiss Federal Institute of Technology.

Nowzari, Cameron, Assistant Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 2009, University of California, Santa Barbara; MS 2010, PhD 2013, University of California, San Diego.

Nunez, Lucas, Assistant Professor, Schar School of Policy and Government. BA 2009, Universidad Torcuato Di Tella; MS 2015, PhD 2018, California Institute of Technology.

Nye, John, Professor of Economics. BS 1981, California Institute of Technology; MA 1983, PhD 1985, Northwestern University.

Nykyforovych, Mariia, Assistant Professor of Accounting. BIR 2002, MEcon 2003, Kiev State University; MBA 2007, University of North Florida; PhD 2017, University of North Carolina.

O

Oakleaf, Kara, Director, Fall for the Book Festival, English. BA 2005, Denison University; MFA 2010, George Mason University.

Oberle, George D., Term Assistant Professor, History and History Librarian, University Libraries. BA 1996, MA 1999, George Mason University; MLS 2003, University of Maryland, College Park; PhD 2016, George Mason University.

O'Brien, Charlene, Instructor, School of Education in the College of Education and Human Development. BA 1980, San Jose State University; MEd 2015, University of Virginia.

O'Brien, Ellen E., Director of the Math Learning Center and Administrative Faculty. BA 1976, MAT 1978, MA 1979, State University of New York, Binghamton.

O'Brien, Kristen Merrill. Assistant Professor, School of Education, College of Education and Human Development. BA 2006, MEd 2007, PhD 2016, University of Florida.

O'Connor, Parker, Term Assistant Professor, English. BA 2012, Oklahoma City University; MFA 2015, Oklahoma State University.

Odstrcil, Dusan, Research Professor, Computational and Data Sciences. BS 1978, MS 1979, PhD 1984, Comenius University

Oerter, Robert N., Associate Professor, Physics and Astronomy. BA 1983, Swarthmore College; MS 1987, PhD 1989, University of Maryland.

Oetjen, Cheryl, Term Associate Professor, School of Nursing. ADN 1993, Northern Virginia Community College; MSN 2007, George Mason University; DNP 2014, Old Dominion University.

Offutt, A. Jefferson, Professor, Computer Science, Volgenau School of Engineering. BS 1982, Morehead State University; MS 1985, PhD 1988, Georgia Institute of Technology.

O'Gara, Genya, Deputy Director, Virtual Library of Virginia, University Libraries. BA 2002, Evergreen State College; MSLS 2008, University of North Carolina, Chapel Hill.

Oh, Kyeung Mi, Associate Professor of Nursing. BA 1998, University of Newcastle; MS 1999, University of Sydney; PhD 2005, University of Sheffield.

Ok, Seunghun, Technical Assistance Specialist/TTAC Online Administrator, Kellar Institute for Human disAbilities, College of Education and Human Development. BS 1991, Seoul National University; MEd 1996, Illinois State University; MEd 2006, George Mason University.

Okuda, Kanako, Director of Field Education, Social Work. BA 2000, Lehman College, City University of New York; MSSW 2001, Columbia University; DSW 2019, Rutgers University.

Olchowski, Elizabeth C., Assistant Dean, Graduate Program Management, Schar School of Policy and Government. BS 1993, Georgetown University; MA 1998, University of London.

Olds, James, University Professor of Neuroscience, Schar School of Policy and Government. BA 1978, Amherst College; PhD 1987, University of Michigan.

Olmo, Valerie, Assistant Professor, Biology. BS 2004, Boston College; PhD 2010, Johns Hopkins University.

Olson, Kristina M., Associate Professor of Italian. BA 1998, Bard College; MA 2001, PhD 2006, Columbia University.

O'Malley, Michael, Professor of History. BA 1981, Temple University; MA 1984, PhD 1988, University of California, Berkeley.

O'Neill, Olivia, Associate Professor of Management. BS 2000, University of Maryland; PhD 2005, Stanford University.

Orlando, Benjamin, Term Assistant Professor of English. BA 1999, University of Pittsburgh; MFA, Eastern Washington University 2009.

Orens, John, Term Professor of History. BS 1965, University of Wisconsin; MA 1968, PhD 1976, Columbia University.

Osborn-Harrison, Denise, Term Assistant Professor, Department of Health Administration and Policy. BA, University of California Irvine; JD, University of San Diego; MPH 2012, The George Washington University.

Osgood, Robert, Term Associate Professor, Electrical and Computer Engineering, Interim Director, Telecommunications Program, and Program Director, Data Analytics Engineering, Volgenau School of Engineering. MS 1980 Wagner College; MS 2002, George Mason University.

Osterman, Anne, Director, Virtual Library of Virginia, University Libraries. BA 2001 Florida State University; MSLS 2002, University of North Carolina, Chapel Hill; MS 2010, American University.

Osterweil, Eric, Assistant Professor of Computer Science. BA 1997, Johns Hopkins University; PhD 2010, University of California, Los Angeles.

O'Toole, Mary Ellen, Professor and Director, Forensic Science. BA 1974, Western Illinois University; MA 1977, Southern Illinois University; PhD 1987, Golden Gate University.

Otis, Jessica, Assistant Professor of History and Director of Public Projects, RRCHNM. BS 2003, College of William and Mary; MS 2005, MA 2007, PhD 2003, University of Virginia.

Otten, John, Instructor, Computer Science, Volgenau School of Engineering. BA 1983, The Ohio State University, MM 1985. Baylor University, MS 1992, College of William and Mary.

Ouagrham-Gormley, Sonia B., Associate Professor of Government and Politics, Schar School of Policy and Government. UAFL 1988, MAFL 1989, University of Paris X Nanterre; PhD 1988, School of Advanced Social Sciences, Paris.

Owen, Julie E., Associate Professor of School of Integrative Studies. BA 1993, College of William and Mary; MEd 1996, James Madison University; PhD 2008, University of Maryland.

Owens, Thomas C., Associate Professor of Music, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. BA 1991, University of North Carolina, Greensboro; MA 1994, PhD 1999, Yale University.

Özerdem, Alpaslan, Dean, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BS 1990, Istanbul Technical University; MSc 1994, South Bank University, London; PhD 1999, University of York.

P

Pachowicz, Peter W., Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. MS 1981, PhD 1984, Stanislaw Staszic University of Mining and Metallurgy.

Paczynska, Agnieszka, Associate Professor of Conflict Analysis and Resolution, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1989, MA 1991, New York University; PhD 2002, University of Virginia.

Paez, Deborah, Assistant Director, Development, College of Visual and Performing Arts. BA 2003, University of South Carolina; MA 2007, George Mason University.

Paige, Mikell, Associate Professor, Chemistry and Biochemistry. BS 1997, University of Alabama; PhD 2003, University of Virginia.

Pamas, Roberto, Associate Professor, School of Education, College of Education and Human Development. BA, George Washington University, MEd, George Mason University; EdD, Virginia Polytechnic Institute and State University.

Pankey, Eric, Professor of English, Heritage Chair in Writing. BS 1981, University of Missouri; MFA 1983, University of Iowa.

Paris, Bernd-Peter, Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. Dipl-Ing 1986, Ruhr University, Germany; PhD 1990, Rice University.

Park, Jung Y., Assistant Professor, School of Education in the College of Education and Human Development. BA 2007, Ewha Womans University; MS 2009, The George Washington University; 2015 PhD, Columbia University.

Park, Kristy Lee, Term Associate Professor, School of Education. BS 2000, James Madison University; MA 2003, University of Virginia; EdS 2005, George Washington University; PhD 2008, University of Louisville.

Park, Minkyung, Associate Professor, School of Sport, Recreation, and Tourism Management, College of Education and Human Development. BA 1990, MA 1993, Han Yang University, Korea; MS 1996, Pennsylvania State University; PhD 2000, Texas A&M University.

Park, Sun-Young, Associate Professor of History. BA 2003, Princeton University; MA 2008 Harvard University Graduate School of Design; PhD 2014, Harvard University.

Parker, Audra K., Professor and Academic Program Coordinator, Elementary Education PK-6, Graduate School of Education in the College of Education and Human Development. BA 1995, MAT 1995, University of Virginia; PhD 2005, University of Georgia.

Parker, Cindy W., Associate Professor of Management. BS 1992, MA 1994, PhD 1998, George Mason University.

Parsons, Seth, Professor, School of Education. BA 2002, Centre College; MEd 2005, PhD 2008, University of North Carolina, Greensboro.

Pascarell, Rose B., Vice President, University Life. AAS, 1986, BA, 1988, State University of New York at Albany; MA, 1992, George Mason University.

Pasnak, Robert, Professor of Psychology. BS 1964, University of Maryland; MS 1965, MA 1996, PhD 1969, Pennsylvania State University.

Pastika, Michael, Research Technical Staff, Rapid Prototyping Research Center, Volgenau School of Engineering. BS Arizona State University; MA 1999 Webster University.

Pathak, Parth, Assistant Professor, Computer Science, Volgenau School of Engineering. PhD 2012, North Carolina State University.

Patterson, Pamela, Associate Vice President, University Life. BS 1989, MS 1991, Eastern Illinois University.

Patzak, Alexandra, Assistant Professor, School of Education in the College of Education and Human Development. Magister 2015, University of Vienna; PhD 2021, Simon Fraser University.

Paul, Elizabeth, Term Assistant Professor, English. BA 1997, Evergreen State College; MA 1999, University of Virginia; 2015, MFA Vermont College of Fine Arts.

Pearlstein, Steven, Robinson Professor of Public and International Affairs, Schar School of Policy and Government. BA 1973, Trinity College.

Pecini, Silva, Director of Student Services, Schar School of Policy and Government. BA 2004, University of South Florida; MPP 2007, George Mason University.

Pegion, Kathleen V., Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 1998, BS 1998, MS 1999, Florida State University; PhD 2007, George Mason University.

Peiperl, Maury, Dean, School of Business and Professor of Management. BSE 1982, Princeton University; 1986 MBA, AM 1992, PhD 1994, Harvard University.

Peixoto, Nathalia, Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1996, MS 1997, Universidade Estadual de Campinas (UNICAMP), SP, Brazil; DSc 2001, Universidade de Sao Paulo (USP), SP Brazil.

Pentikäinen, Antii, Research Professor, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. MTh 2002, University of Helsinki.

Pepin, Rachel E., Director, National Center for Biodefense and Infectious Diseases. BA 1999, University of Hawaii; MS 2017, George Mason University.

Perdiou, Thomas, Counselor, Student Financial Aid. BA 1987, University of Iowa.

Perilla, German, Instructor. BS 1987, University of Maryland; MA 2012, George Mason University.

Perry, George, Instructor of Business Foundations. BBA 1988, University of Notre Dame; MA 1996, MBA 1996, University of Pennsylvania.

Peters-Burton, Erin, Professor of Education, School of Education. BS 1990, University of Illinois, Urbana-Champaign; MEd 2004, University of Virginia; PhD 2007, George Mason University.

Peters, Esther C., Associate Professor, Environmental Science and Policy. BS 1974, Furman University; MS 1978, University of South Florida; PhD 1984, University of Rhode Island.

Peterson Andrew, Assistant Professor of Philosophy and Faculty Fellow, Institute for Philosophy and Public Policy. BA 2004, Sonoma State University; MA 2011, San Francisco State University; PhD 2016, University of Western Ontario.

Peterson, Matthew S., Associate Professor of Psychology. BA 1992, University of Tennessee, Knoxville; MA 1994, PhD 1997, University of Kansas.

Petricoin, Emanuel F., Codirector, Center for Applied Proteomics and Molecular Medicine; University Professor, School of Systems Biology. BS 1985, PhD 1990, University of Maryland.

Pettibon, Audrey, Term Instructor, English. BA 1991, MA 1996, University of Nevada.

Pfoser, Dieter, Chair and Professor, Geography and Geoinformation Science. MS 1996, Johannes Kepler University, Linz, Austria; PhD 2000, Aalborg University.

Pham, Anh, Assistant Professor, Schar School of Policy and Government. BA 2009, Bard College; MA 2011, PhD 2015, University of California, San Diego.

Philipov, Alexander, Associate Professor of Finance. MS 1996, University of Massachusetts, Amherst; PhD 2003, Boston College.

Phillips, Elizabeth, Assistant Professor, Psychology. BA 2008, MA 2013, PhD 2016, Central Florida University.

Photos, Lisa E., Term Assistant Professor of English. BA 1987, Florida State University; MA 1989, PhD 2008, University of Wisconsin-Madison.

Piccione, Paul Eric, Assistant Professor, Computer Game Design. BA 1987, Western Michigan University.

Pichichero, Christy, Associate Professor of French. AB 1998, Princeton; BM 2000, Eastman School of Music; PhD 2008, Stanford University.

Pierce, Lorraine, Associate Professor, School of Education. BS 1974, University of Texas, Austin; MA 1976, University of Texas, San Antonio; PhD 1984, Georgetown University.

Pierce, Robert, Assistant Professor of Business Foundations. BA 1982, MA 1988, PhD 1996, University of Virginia.

Pilloff, Steven, Associate Professor of Finance. BA 1989, University of Virginia; MA 1993, PhD 1995, Wharton School, University of Pennsylvania.

Plaku, Erion, Associate Professor, Computer Science, Volgenau School of Engineering. BS 2000, State University of New York; MS 2002, Clarkson University; PhD 2008, Rice University.

Platt, Brian W., Associate Professor of History. BA 1992, Guilford College; PhD 1998, University of Illinois.

Plavchan, Peter Paul, Associate Professor, Physics and Astronomy. BS 2001, California Institute of Technology; MS 2002, PhD 2006, University of California, Los Angeles.

Plotnick, Jeremy, Assistant Professor of Business Foundations. BA 1986, Rutgers University; MA 1988, PhD 1994, Northern Illinois University.

Pokorski, Dale Mary, Director of Information Technology and Security, College of Science. BA 1985, Smith College; MBA 1989, Auburn University of Montgomery.

Poapst, Jacquelyn, Term Instructor and Assistant Director of Debate, Communication. MA 2015, George Mason University.

Polat, Mesut Fikret, Assistant Professor of Accounting. BS 2007, Bogazici University; MA 2015, University of Missouri.

Polayes, Deborah, Professor and Director of Undergraduate Studies, Biology. BS 1978, University of Connecticut; PhD 1983, Michigan State University.

Polk, Thomas, Assistant Director Writing Across the Curriculum. BA 2005, University of Maryland College Park; MA 2009, University of North Carolina Wilmington; MSED 2014, Johns Hopkins University.

Pollack, Anna, Associate Professor of Global and Community Health. BA 2001, Smith College; MPH 2007, George Washington University; PhD 2011, Johns Hopkins University.

Pollard, Jeffrey, Director, Counseling Center. BS 1970, MS 1974, Old Dominion University; PhD 1978, University of Virginia.

Poms, Laura Wheeler, Term Associate Professor of Global and Community Health. BA 1986, The College of William and Mary; MA 1991, American University; MA 2003, MPH 2010, PhD 2012, George Mason University.

Popescu, Saskia, Term Assistant Professor, Schar School of Policy and Government. BA 2008, MPH 2011, MA 2013, University of Arizona; PhD 2019, George Mason University.

Porter,Timothy, Assistant Professor of Information Systems and Operations Management. BS 1969, University of New Orleans; MSA 1976, George Washington University.

Powell, Marvin, Assistant Professor, School of Education, College of Education and Human Development. BS 2005, MSc 2009, University of the West Indies; PhD 2016, University of North Texas.

Powell, Walter, Term Assistant Professor, Department of Cyber Security Engineering, Volgenau School of Engineering. BSEE 1983, United States Naval Academy; MS 1991, Cornell University; PhD 2014, George Mason University.

Prawat, **Theodore** Assistant Professor of Computer Game Design, BFA 2002, BS 2002, Miami (Oxford) University; MFA 2004, Indiana University.

Price, James, Research Professor, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1972, Lawrence University; MA 1976, PhD 1980, University of Chicago.

Priess, David, Term Visiting Professor, Schar School of Policy and Government. BA 1993, Illinois Wesleyan University; MA 1996, PhD 2000, Duke University.

Pudukotai Dinakarrao, Sai Manoj, Assistant Professor, Electrical and Computer Engineering Department, Volgenau School of Engineering. BS 2010, Jawaharlal Nehru Technological University, Anantapur; MS 2012, International Institute of Information Technology Bangalore; PhD 2015, Nanyang Technological University.

Purcell, Darden, Associate Professor of Music, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. BFA 1998, Virginia Polytechnic and State University; MM 2009, DMA 2012, University of Illinois at Urbana-Champaign.

Purohit, Hemant, Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering. BTech 2009, The LNMIIT India; PhD 2015, Wright State University.

Pyle, Murray James, Assistant Professor of Information Systems and Operations Management. BA 1983, University of Regina; MA 1986, University of Toronto; Master's 1987, University of Waterloo; MS 2003, PhD 2010, University of Michigan.

Pyster, Arthur B., Associate Dean for Research and Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1971, University of Illinois; MS 1973, PhD 1975, Ohio State University.

Q

Qiao, Wanli, Assistant Professor, Statistics, Volgenau School of Engineering. BS 2007, Fudan University; PhD 2013, University of California, Davis.

Qu, John, Professor, Geography and Geoinformation Science. BS 1983, Nanjing Institute of Meteorology; MS 1993, PhD 1997, Colorado State University.

R

R.G., Rebecca, Assistant Professor, Mathematical Sciences. BA/MA, 2011, Bryn Mawr College; PhD 2016, University of Michigan.

Rabin, Lisa Marie, Associate Professor of Spanish. BA 1986, Pomona College; MA 1990, PhD 1993, Yale University.

Ramezani, Niloofar, Assistant Professor, Statistics, Volgenau School of Engineering. BSc 2009, Shahid Beheshti University, MSc 2012, PhD 2017, University of Northern Colorado.

Ramirez, Carlos D., Professor of Economics. BA 1987, Wittenberg University; AM 1991, PhD 1993, Harvard University.

Ramos, Kathleen Ann, Associate Professor, School of Education, College of Education and Human Development. BA 1985, Clarion University of Pennsylvania; MAT 1990, PhD 2012, University of Pittsburgh.

Ramsdell, Justin, Term Assistant Professor. BA 2005, MA 2008, PhD 2011, Argosy University.

Rancourt, Emily, Associate Professor, Forensic Science. BA 2000 Purdue University, MFS 2002 George Washington University.

Rangwala, Huzefa, Professor, Computer Science, Volgenau School of Engineering. BE 2003, Mumbai University; MS 2005, PhD 2008, University of Minnesota, Twin Cities.

Rankin, Kathleen, Instructor of Accounting. BS 1991, Robert Morris University; MBA 1999, Indiana University of Pennsylvania.

Ratzlaff, Janet, TTAC Coordinator, Kellar Institute for Human disAbilities, College of Education and Human Development. BA 1980, Shepherd College; MEd 2012, American College of Education.

Ray, Abhishek, Assistant Professor of Information Systems and Operations Management. B. Tech 2007, National Institute of Technology; MBA 2011, Institute of Management Technology; MS 2016, MS 2017, PhD 2019, Purdue University.

Ray, Sharon, Assistant Professor, School of Education. BS 1998, MEd 1999, James Madison University; PhD 2008, University of South Florida.

Raz, Ali, Assistant Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 2005, MS 2009, Iowa State University; PhD 2016, Purdue University.

Reagle, Colin J., Associate Professor, Mechanical Engineering, Volgenau School of Engineering. BS 2007, MS 2009, PhD 2012, Virginia Polytechnic Institute and State University.

Rebellon, Cesar, Professor, Criminology, Law and Society. BA 1996, Rice University; MA 1999, PhD 2002, Emory University.

Redlich, Allison, Professor, Criminology, Law and Society. BA 1992, The Pennsylvania State University, MA 1996, PhD 1999, University California, Davis.

Reeder, William F., Professor of Arts Management and Heritage Chair, Founding Dean (Ret.) College of Visual and Performing Arts. BA 1968, MMus 1970, Washington University.

Reedy, Karen, Associate Professor of Dance. BFA 1995, MFA 2009, George Mason University.

Regan, Kelley, Professor, School of Education. BS 1996; MS 1997, Longwood College; PhD 2005, George Mason University.

Regan, Priscilla M., Professor of Government and Politics, Schar School of Policy and Government. BA 1972, Mount Holyoke College; MA 1975, New York University; MA 1977, PhD 1981, Cornell University.

Reid, Shelley, Director for Teaching Excellence, Stearns Center for Teaching and Learning. Associate Professor, English. BA 1988, Grinnell College; MA 1991, PhD 1994, State University of New York, Buffalo.

Reinert, Kenneth J., Professor of Public Policy and Director, International Commerce and Policy Program, Schar School of Policy and Government. BA 1980, MA 1982 Boston University; MA 1985, PhD 1988 University of Maryland.

Ren, Hang, Assistant Professor of Information Systems and Operations Management. BEng 2013, MEng 2013, Xi'an Jiaotong University; MRes 2014, PhD 2018, University College London.

Rendler, Elaine, Term Professor of Music, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. BMEd 1968, Immaculata College; MM 1972, DMA 1978, Catholic University.

Renshaw, Keith, Chair and Professor, Psychology. BS 1995, Duke University; MA 1998, PhD 2003 University of North Carolina at Chapel Hill.

Repinecz, Jonathon, Associate Professor of French. BA 2005 Washington University in St. Louis; PhD 2013 University of California, Berkeley.

Requeijo, Tiago, Assistant Professor Finance. BS 2002, Instituto Superior T´ecnico; MS 2005, PhD 2007, Stanford University.

Reybold, L. Earle, Professor of Education, School of Education. BA 1990, MA 1992, PhD 1996, University of Georgia.

Rezazad, Hadi, Associate Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 1982, MS 1985, The American University; PhD 2009, George Mason University.

Rhodes, Edward, Professor, Schar School of Policy and Government. AB 1980, Harvard University; MPA 1982, PhD 1985, Princeton University.

Rice, Matthew T., Associate Professor, Geography and Geoinformation Science. BS 1995, MS 1998, Brigham Young University; PhD 2005, University of California, Santa Barbara.

Richards, Dana S., Associate Professor, Computer Science, Volgenau School of Engineering. MS 1976, University of Virginia; PhD 1984, University of Illinois.

Rickless, Sarah, Term Instructor of English. BA 1988, Wesleyan University; MA 2007, George Mason University.

Rigdon, Suzanne, Manager, Fall for the Book Festival. BA 2011, Hartwick College; MFA 2017, George Mason University.

Rioux-Bailey, Carmen, Assistant Professor, School of Education. BA 1986, Marymount University; MEd 1997, George Mason University; EdS 2003, George Washington University.

Rippy, Marguerite, Associate Dean of Graduate Academic Affairs, College of Humanities and Social Sciences and Professor of English. BA 1989, Brown University; MA 1990, Vanderbilt University; PhD 1999, Indiana University-Bloomington.

Riskind, John Haskell, Professor of Psychology. BA 1970, University of Texas, Austin; PhD 1977, Yale University.

Ritterhouse, Jennifer, Professor, History.BA 1992, Harvard University; MA 1994, PhD 1999, University of North Carolina, Chapel Hill.

Ro, Young-chan, Professor of Religious Studies. BTh 1965, MTh 1969, Yonsei University; MTh 1973, Union Theological Seminary; PhD 1982, University of California, Santa Barbara.

Robb, Charles S., Distinguished Professor of Law and Public Policy. BBA 1961, University of Wisconsin; JD 1973, University of Virginia.

Roberts, Kathleen, Instructor of Accounting. BS 1981, California State University; MBA 2018, Virginia Polytechnic Institute and State University.

Robertson, Stephen, Professor of History. BA 1989, BA 1990, University of Otago, Dunedin; PhD 1997, Rutgers University.

Robinson, Gregory, Assistant Professor of Music, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. BA 2002, Colby College; PhD 2008 University of Pennsylvania.

Robison, Charles, Associate Professor of Kinesiology, School of Kinesiology. BSEd 2004, Missouri Southern State University; MS 2006,

University of Central Missouri; PhD 2011, University of North Carolina-Greensboro.

Rockmann, Kevin, Professor of Management. BS 1999, PhD 2004, University of Illinois, Urbana-Champaign.

Rodan, Margaret, Associate Professor of Nursing. BSN 1980, BA 1980, University of Delaware; MSN 1981, University of Arizona; MPH 1989, MS 1990, ScD 1997, Harvard University.

Rodgers, Ellen B. Drogin, Associate Dean and Associate Professor of Parks, Recreation, and Leisure Studies, College of Education and Human Development. BA 1982, Hood College; MA 1985, University of Maryland; PhD 1991, Pennsylvania State University.

Rodgers, R. Pierre, Associate Professor of Sports Management, School of Sport, Recreation, and Tourism Management. BA 1984, University of Alabama; MA 1986, Memphis State University; PhD 1991, Pennsylvania State University.

Roess, Amira, Professor, Global and Community Health. MPH, Rutgers University; PhD, John Hopkins University.

Roeting, William, Research Professor, C41 and Cyber Center, Volgenau School of Engineering. BA 1971, Lock Haven University, MS 1986, Naval Postgraduate School, Monterey, CA.

Rogers, Paul M., Associate Professor, English. BA 2000, MA 2003, Humboldt State University; MA 2006, PhD 2008, University of California, Santa Barbara.

Roman-Mendoza, Esperanza, Professor of Spanish. BA 1989, Universidad Complutense de Madrid, Spain; PhD 1997, Universidad Nacional de Educación a Distancia, Spain.

Romano, Arthur, Assistant Professor of Conflict Analysis and Resolution, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1997 University of North Carolina, Chapel Hill; MA 2005, PhD 2011, University of Bradford, UK

Rome, Sunny Harris, Professor, Social Work. BA 1976, Occidental College; MSW 1978, University of Michigan; JD 1984, Georgetown University.

Romm, Kaitlin, Athletic Training and Lab Coordinator, School of Kinesiology in the College of Education and Human Development. BS 2013, MS 2016, George Mason University.

Root, Hilton L., Professor of Public Policy, Schar School of Policy and Government. BA 1974, State University of New York, Buffalo; MA 1977, PhD 1983, University of Michigan.

Rose, Joyce A., Operations Manager, Volgenau School of Engineering. BA 1975, Fairfield University; MSLS 1976, Catholic University of America.

Rose, Steven R., Professor of Social Work. BA 1973, Brooklyn College, City University of New York; MSW 1975, Washington University; PhD 1981, University of Wisconsin, Madison.

Rosenberg, Jessica, Associate Professor, Physics and Astronomy. BA 1993, Wesleyan University; PhD 2000, University of Massachusetts.

Rosenberger, William F., University Professor and Chair, Statistics, Volgenau School of Engineering. BA 1986, Towson State University; MPhil 1990, PhD 1992, George Washington University.

Rosenblum, David, Department Chair and Professor, Computer Science, Volgenau School of Engineering. BS 1982, MS 1983 North Texas State University; MS 1987, PhD 1988, Stanford University.

Rosenbusch, Katherine, Assistant Professor of Management. BS 2000, MS 2001, Texas A&M University; EdD 2010, The George Washington University.

Rosenfeld, Christine, Assistant Professor, Geography and Geoinformation Science. BA 2010, MS 2012, Pennsylvania State University; PhD 2018, George Mason University.

Rosenstein, Carole, Associate Professor of Arts Management. BA 1988, Smith College; MA 1990, University of Chicago; PhD 2000, Brandeis University.

Ross, Shani, Assistant Professor, Bioengineering, Volgenau School of Engineering. BS 2004, Howard University; MS 2006, PhD 2013, University of Michigan.

Rossheim, Matthew, Assistant Professor of Global and Community Health. BA 2009, MPH 2011, University of Florida; PhD 2014 University of North Texas Health Science Center.

Roszkowski, Beth, Lead, Social Sciences Team and Arlington Campus Library, University Libraries. BA 2002, Pennsylvania State University; MLIS 2006, Rutgers University; MPP 2011, George Mason University.

Rothbart, Daniel, Professor of Conflict Analysis and Resolution. Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1972, Fairleigh Dickinson University; MA 1975, State University of New York, Binghamton; PhD 1978, Washington University.

Rothstein, Jandos, Associate Professor, School of Art. BA 1986, Antioch College; MFA 1990, Northwestern University.

Rowe, Ellen W., Associate Professor, School of Education, College of Education and Human Development. BA, Davidson College; MA, College of William and Mary; PhD 2005, University of Georgia.

Roy, Pritha G., Assistant Professor, Chemistry and Biochemistry. BS, 1982, MS 1984, Indian Institute of Technology, Kharagpur; PhD, 1991, University of Illinois, Urbana-Champaign.

Rozell, Mark, Dean and Professor of Public Policy; Ruth D. Hazel and John T. Hazel, M.D. Faculty Chair, Schar School of Policy and Government. BA 1982, Eisenhower College; MA 1983, PhD 1987, University of Virginia.

Rubenstein, Richard E., University Professor of Conflict Resolution and Public Affairs, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1959, Harvard University; MA 1961, Oxford University; JD 1963, Harvard University; LittD (hon.) 2016, University of Malta.

Rubin, Philip D., Professor, Physics and Astronomy. AB 1976, University of Pennsylvania; MA 1980, MS 1986, PhD 1989, University of California, Los Angeles.

Rudes, Danielle S., Associate Professor, Criminology, Law and Society. BA 1993, State University of New York; MA 1998, University of New Orleans; MA 2002, PhD 2008, University of California, Irvine.

Rudnicki, Mark S., Term Assistant Professor, English. BA 1991, St. Bonaventure University; MA 1993, University of Memphis; PhD 2003, State University of New York, Buffalo.

Ruiz Alonso Bartol, Ana, Visiting Lecturer of Spanish through Spain's Agency for International Development Cooperation. BA 2013, University of Salamanca (Spain); MA 2016, West Virginia University.

Rule, Kimberly, Associate Professor, Forensic Science. BS 2001, James Madison University; MFS 2003, The George Washington University.

Rupp, Deborah, Professor of Psychology. BA 1996, MA 1999, University of West Florida; PhD 2002, Colorado State University.

Russell, Donald, University Curator and Director of Provisions Research Center for Arts and Social Change, University Development Office and School of Art.

Russell, Katherine E., Instructor, Computer Science, Volgenau School of Engineering. BS 2007, University of Maryland University College; MS 2011, George Mason University.

Rustici, Thomas, Term Associate Professor of Economics. BS 1985, MA 1987, PhD 2005, George Mason University.

Ruth, Stephen Ruddy, Professor and Director, International Center for Applied Studies in Information Technology, Schar School of Policy and Government. BS 1955, U.S. Naval Academy; MS U.S. Naval Postgraduate School; PhD 1971, University of Pennsylvania.

Rytikova, Ioulia, Term Professor and Assistant Chair for Graduate Studies, Information Sciences and Technology, Volgenau School of Engineering. BS 1993, MS 1993, PhD 1997, Technological University, Moscow, Russia.

S

Sachedina, Abdulaziz, Chair and Professor, Religious Studies, Endowed IIIIT Chair in Islamic Studies. BA 1972, PhD, 1976 University of Toronto.

Sachs, Robert L., Professor, Mathematical Sciences. BA 1976, Harvard University; PhD 1980, Courant Institute, New York University.

Sadana, Rashmi, Associate Professor, Sociology and Anthropology. BA 1991, MA 1999, PhD 2003, University of California.

Salem, **Sam,** Department Chair and Professor, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 1988, MS 1992, Clemson University; PhD 1988, University of Alberta.

Salerno, Jennifer L., Assistant Professor, Environmental Science and Policy. BS 2001, Rutgers University; MA 2003, College of William and Mary; PhD 2013, University of Hawaii at Manoa.

Saleson, Mallory, Term Instructor, Communication. BA 1975, University of Wisconsin; MS 1977, Boston University.

Salinas, Armando, Research Assistant Prof, Bioengineering Department, Volgenau School of Engineering. BS 2005, MS 2006, PhD 2013, University of Texas at Austin.

Salvador Morales, Carolina, Associate Professor, Chemistry and Biochemistry. BS 2001, National Autonomous University of Mexico; MS 2003, Trinity College Dublin; DPhil 2007, University of Oxford.

Samaras, Anastasia, Professor of Education, School of Education. BA 1972, MEd 1976, PhD 1990, University of Maryland.

Samoilenko, Sergei, Assistant Professor, Communication. BA 1999, Kuban State University; MA 2006, George Mason University.

Samuelian, Kristin F., Assistant Professor, English. BA 1983, Catholic University of America; MA 1984, PhD 1992, Boston University.

Sander, Evelyn, Professor, Mathematical Sciences. BA 1990, Northwestern University; PhD, 1996, University of Minnesota.

Sanders, Anthony, Distinguished Professor of Real Estate Finance. BA 1974, Chico State College; MA 1976, PhD 1979, University of Georgia.

Sanghera, Kamaljeet, Term Professor, Information Sciences and Technology, Volgenau School of Engineering. BA 1996, Delhi University; MS 2001, George Mason University; PhD 2009, Capella University.

Sanyal, Pallab, Associate Professor of Information Systems and Operations Management. BE 1995, University of Calcutta; PhD 2009, University of Minnesota.

Sasan, Avesta, Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 2005, MS 2006, PhD 2010, University of California, Irvine.

Satija, Indubala, Professor, Physics and Astronomy. PhD 1983, Columbia University.

Satsangi, Rajiv, Assistant Professor, School of Education, College of Education and Human Development. BS 2006, Pennsylvania State University; MAT 2010, Marian University; PhD 2015, Purdue University.

Satyapal, Shobita, Professor, Physics and Astronomy. BA 1988, Bryn Mawr College; MA 1990, PhD 1995, University of Rochester.

Sauer, Karen L., Professor, Physics and Astronomy. BS 1992 Cornell University; MA 1995, PhD 1998, Princeton University

Sauer, Timothy D., COS Distinguished Scholar; Professor, Mathematical Sciences. BS 1977, Michigan State University; PhD 1982, University of California, Berkeley.

Saunders, Catherine E., Term Associate Professor of English. BA 1986, Harvard University; MA 1998, PhD Candidate, Princeton University.

Sausville, Catherine, Instructor, Mathematical Sciences. BS 2005, MS 2008, George Mason University.

Savage, James, Term Assistant Professor, English. BA 1996, University of Michigan; MFA 2004, George Mason University; MLA 2009, St. John's College, Annapolis, MD.

Scafide, Katherine, Assistant Professor, School of Nursing. BSN 2000, Georgetown University; MSN 2005, PhD 2012, Johns Hopkins University.

Scarlata, Jessica, Associate Professor, English. BA 1993, Tufts University; MA 1998, PhD 2004, New York University.

Scherer, Matthew, Associate Professor of Government and Politics, Schar School of Policy and Government. BA 2000 Williams College; PhD 2007 Johns Hopkins University.

Schiller, Anne, Professor, Anthropology. BA 1979, University of Virginia; MA 1982, PhD 1987, Cornell University.

Schintler, Laurie Ann, Associate Professor and Director of the Transportation Policy, Operations and Logistics Program, Schar School of Policy and Government. BA 1989, University of Iowa; MA 1992, PhD 1995, University of Illinois, Urbana-Champaign.

Schmeidler, Lance E., Term Instructor, Communication. BA 2003, MA 2005, George Mason University.

Schmidt, Bernard, Term Instructor and Assistant Program Director, Data Analytics Engineering, Volgenau School of Engineering. BS 1985, MS 2011, MS 2017 George Mason University.

Schneider, William, Professor, Schar School of Policy and Government. BA 1966, Brandeis University; PhD 1972 Harvard University.

Schnur, Joel Martin, Professor, College of Science. AB 1966, Rutgers University; MS 1969, PhD 1971, Georgetown University.

Schoeny, Mara L., Associate Professor of Conflict Resolution and Director of Undergraduate Programs. Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1986, University of Virginia; MS 1996, PhD 2006, George Mason University.

Schrag, Zachary, Professor, History. BA 1992, Harvard University; MA 1997, MPhil 1999, PhD 2002, Columbia University.

Schreifels, John A., Associate Professor, Chemistry and Biochemistry. BS 1975, PhD 1979, University of South Florida.

Schreiner, Sylvia, Assistant Professor, English. BA 2005, Carleton College; MA 2008, PhD 2012, University of Arizona.

Schrum, Kelly, Associate Professor, Higher Education Program, Director of Educational Projects, Roy Rosenzweig Center for History and New Media. BA 1991, University of California, Berkeley; MA 1996, PhD 2000, Johns Hopkins University.

Schulman, Vanessa, Associate Professor, History. BA 2003, Brown University; MA 2007, PhD 2010, University of California, Irvine.

Schulz, Jonathan, Assistant Professor, College of Humanities and Social Sciences. Diplom in Economics 2004, University of Konstanz; PhD 2012, University of St.Gallen.

Schulze, Susan, Term Assistant Professor, History. BA 1986, The School of the Art Institute of Chicago; MA 1995, Southern Illinois University at Edwardsville; 2005 PhD, Saint Louis University.

Schwietz, Michele, Associate Dean for Research, College of Humanities and Social Sciences. BA 1980, MA 1992, Indiana University of Pennsylvania; PhD 2006, University of Pittsburgh.

Scimecca, Joseph Andrew, Professor of Sociology. BA 1962, Hunter College; MA 1965, PhD 1972, New York University.

Scolaro, Margaret J., Term Instructor, English. BA 1994, Mary Washington College; MA 1996, George Mason University.

Scott, Laura, Term Associate Professor of English. BA 1986, Kent State University; MFA 1993, George Mason University.

Scott, O. Kate, Associate Director, Center for Economic Education. BS, BA 2007, The University of Southern Mississippi; MBA 2011, MEd 2015, William Carey University.

Scully, Randolph, Associate Professor, History. BA 1992, Williams College; PhD 2002, University of Pennsylvania.

Sekinger, Meaghan, Technical Assistance Specialist, Kellar Institute for Human disAbilities. BA 2003, Wheelock College; MS 2005, Southern Connecticut State University.

Seniw, Maria, Director of Development, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 2007, George Mason University.

Serafini, Ellen Johnson, Associate Professor of Spanish. BA 2004, University of Arkansas, Fayetteville; MA 2006, University of Arizona; MS 2010, PhD 2013, Georgetown University.

Seshaiyer, Padmanabhan, Associate Dean for Curriculuar Initiatives and Community Engagement and Professor, Mathematical Sciences. BA, MS 1994, Birla Institute of Technology and Science; PhD 1998, University of Maryland.

Setia, Sanjeev, Divisional Dean and Professor, Computer Science, School of Computing, Volgenau School of Engineering. MSc 1987 Birla Institute of Technology and Science (Pilani); MS 1990, PhD 1993, University of Maryland.

Seto, Donald, Professor, School of Systems Biology. BA 1980, University of California, San Diego; PhD 1987, Johns Hopkins University.

Shadur, Julia, Assistant Professor, School of Integrative Studies. BA 2005, Tufts University; MA 2010, PhD 2013, The University of North Carolina-Chapel Hill.

Shahrokhi, Farnoosh, Associate Professor, School of Education, College of Education and Human Development. BA 1991, MA 1993, EdD 1997, George Washington University.

Shaklee, Beverly, Professor of Education, School of Education. BS 1975, MS 1981, University of Kansas; EdD 1985, Mississippi State University.

Shark, Alan R., Term Associate Professor, Schar School of Policy and Government. BBA 1973, MPA 1976, Bernard M. Baruch College; DPA 2001, University of Southern California.

Shaw, Tyler, Associate Professor of Psychology. BA 2002, MA 2006, PhD 2008, University of Cincinnati.

Shaw, Ute C., Chief Business Officer, College of Science. BA 2006, MPA 2016, George Mason University.

Shchepina, Olga, Associate Director, Post Award Services, College of Humanities and Social Sciences. BA 2008, Eastern Washington University; MA 2010, University of Denver.

Shedd, Juliette R. Rouge, Associate Dean and Associate Professor, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1998, George Washington University; MS 2005, PhD 2013 George Mason University.

Shehu, Amarda, Professor, Computer Science, Volgenau School of Engineering. BS 2002, Clarkson University; MS 2005, PhD 2008, Rice University.

Sheingold, Brenda Helen, Term Associate Professor, Health Administration and Policy. BSN 1983, George Mason University; MBA 2001, Johns Hopkins University; PhD 2009 George Mason University.

Shelley, Louise I., Omer L. and Nancy Hirst Professor of Public Policy, University Professor of Public Policy and Director, Terrorism, Transnational Crime, and Corruption Center. BA 1972, Cornell University; MA 1973, PhD 1977, University of Pennsylvania.

Sheng, Hongwei, Associate Professor, Computational and Data Sciences. PhD 1997, Shenyang National Laboratory for Materials Science, Chinese Academy of Sciences.

Sheridan, Kimberly, Associate Professor, School of Education. BA 1992, Kalamazoo College; EdD 2006, Harvard University.

Sherry, Lance, Associate Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1983, Brown University; MS 1995, PhD 1999, Arizona State University.

Sherwin, Martin J., University Professor of History and Public Policy. AB 1959, Dartmouth College; PhD 1971, University of California, Los Angeles.

Shields, Susan, Director and Professor of Dance. BA 1996, State University of New York, Empire State College; MFA 2003, George Mason University.

Shin, Joan Kang, Associate Professor, School of Education, College of Education and Human Development. BA 1993, Cornell University; MA 1999, PhD 2008, University of Maryland, Baltimore County.

Shirley, Syrena, Assistant Professor of Accounting. BS 2005, Ithaca College; PhD 2020, The Pennsylvania State University.

Shishika, Daigo, Assistant Professor, Mechanical Engineering, Volgenau School of Engineering. BS 2021, University of Tokyo, Japan; MS 2015, PhD 2017, University of Maryland.

Shiver, John M., Assistant Professor, Health Administration and Policy. BS 1968, The Citadel; MS 1975, Virginia Commonwealth University, Medical College of Virginia.

Short, Jerome L., Associate Professor, Psychology. BA 1984, St. Norbert College; MA 1987, PhD 1990, Arizona State University.

Shortle, John F., Chair and Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1992, Harvey Mudd College; MS 1993, PhD 1996, University of California, Berkeley.

Shukla, Jagadish, University Professor, Atmospheric Oceanic and Earth Science. BSc 1962, MSc 1964, PhD 1971, Banaras Hindu University; ScD 1976, Massachusetts Institute of Technology.

Shuman, Gene, Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 1975, Penn State University, MS 1981, University of Maryland, PhD 2016, George Mason University.

Sikdar, Siddhartha, Professor, Bioengineering, Volgenau School of Engineering. BTEE 1997, Indian Institute of Technology; MS 2001, PhD 2005, University of Washington.

Silver, Blake, Director of Data Analytics and Assessment. BA 2011, George Mason University; MAEd 2013, George Washington University; MA 2016, PhD 2017, University of Virginia

Simmons, Solon J., Associate Professor of Conflict Resolution, SJimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1991, University of Chicago; MS 1999, PhD 2006, University of Wisconsin, Madison.

Simon, Robert, Professor, Computer Science. BA 1981, University of Rochester; PhD 1996, University of Pittsburgh.

Singer, Harvey, Associate Professor of Information Systems and Operations Management. BA 1978, Queens College of the City University of New York; MA 1984, PhD 1987, Johns Hopkins University.

Singh, Jatinder P, Professor of Global Affairs, Schar School of Policy and Government. BA 1982, MA 1984, University of Bombay; MA 1989, PhD 1995, University of Southern California.

Siragusa, George, Adjunct Instructor, Mechanical Engineering, Volgenau School of Engineering. BS 1975, US Naval Academy; MS 1980, Central Michigan University

Sistek, Mark A., Advising Director, BIS. BFA 1979, Cleveland Institute of Art.

Sivigny, Debra, Assistant Professor of Design and Technical Theater, School of Theater, College of Visual and Performing Arts. BA 1999, Middlebury College; MFA 2004, University of Maryland, College Park.

Sklarew, Daniel M., Professor, Environmental Science and Policy. BA 1991, University of Pennsylvania; MA 1993, Boston University; PhD 2000, George Mason University.

Sklarew, Jennifer F., Assistant Professor, Environmental Science and Policy. BA 1992, University of Pennsylvania; MA 1997, Johns Hopkins University; PhD 2015, George Mason University.

Skorzawski-Ross, Jennifer L., Senior Director, Graduate Academic Affairs, Volgenau School of Engineering. BA 2006, MSEd 2011, Hofstra University.

Slavin, Margaret, Associate Professor of Nutrition and Food Studies. BS 2006, University of Pittsburgh; PhD 2011, University of Maryland, College Park.

Slavov, Sita N., Professor of Public Policy and Director, Public Policy Doctoral Program, Schar School of Policy and Government. BA 1997, College of William and Mary; PhD 2003, Stanford University.

Slawski, Martin, Assistant Professor, Statistics, Volgenau School of Engineering. MS 2008, LMU Munchen; PhD 2015, Saarland University.

Slayden, Suzanne Weems, Associate Professor of Chemistry. BS 1970, PhD 1976, University of Tennessee.

Slocum Susan L., Associate Professor, Tourism and Events Management, School of Sport, Recreation, and Tourism Management, College of Education and Human Development. BA 1988, Humboldt State University; MBA 2000, Cameron University; MS 2006, University of Nevada, Reno; PhD 2010, Clemson University.

Smith, Cynthia B., Associate Professor, Environmental Science and Policy. BS 1984, Kansas State University; MS 1989, University of Maryland; PhD 2005, George Mason University.

Smith, Glenn Edward, Professor of Music, Reva and Sid Dewberry Family School of Music, College of Visual and Performing Arts. BA 1968, MA 1969, California State University; DMusic 1973, Indiana University.

Smith, Paul, Professor of Cultural Studies. BA 1976, MA 1980, Cambridge University; PhD 1981, University of Kent at Canterbury.

Smith, Robin Siona Listokin, Associate Professor of Public Policy, Schar School of Policy and Government. BS 2000, University of Pennsylvania; PhD 2007, University of California, Berkeley.

Smith, Rodger, Term Instructor, Communication; Faculty Advisor, WGMU. BS 1986, James Madison University; MBA 1992, Shenandoah University.

Smith, Suzanne E., Professor of History. BA 1986, University of California, Los Angeles; MA 1988, Carnegie Mellon University; PhD 1996, Yale University.

Smith-Gray, Sybil, Term Assistant Professor, Psychology. BA 1978, MA 1982, University of Texas at Austin; MA 1985, Ohio State University; PhD 1995, Gallaudet University.

Smith, Zavin R., Director of Development and Alumni Relations, Schar School of Policy and Government. BA 2000, MA 2003, George Mason University.

Snodgrass, Paul, Technology and Knowledge Management Director, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 2003, University of Arizona; MS 2007, George Mason University.

Snyder, Amy M., Director of Special Projects, University Life. BS 1995, Clarion University; MA 1997, Clemson University.

Snyder, Barbara, Associate Director, Academic Services, School of Business. BS 2009, George Mason University; MEd 2001, University of Florida.

Snyder, Mark H., Term Associate Professor, Computer Science. BS2004, The University of North Carolina at Chapel Hill; MS2007, PhD 2011, The University of Kansas.

Snyder, R. William, Assistant Professor of Accounting. BS, MS 2006, Brigham Young University; PhD 2018, University of Illinois.

So, Paul T., Chair and Professor, Physics and Astronomy. BS 1988, Harvey Mudd College; PhD 1995, University of Maryland.

Sofer, Ariela, Divisional Dean and Professor, Volgenau School of Engineering. BS 1972, MS 1979, Technion, Israel Institute of Technology; DSc 1984, George Washington University.

Sokolov, Vadim O., Assistant Professor in Systems Engineering and Operations Research, Volgenau School of Engineering. Diploma 2004, Rostov State University; MS 2005, PhD 2008, Northern Illinois University.

Soleymani, Patrick, Associate Dean, Undergraduate Programs, School of Business. BS 2007, MBA 2009, George Mason University; JD 2012, University of Baltimore.

Soltan, Valeriu, Professor, Mathematical Sciences. Foreign degree 1973, State University, Moldovia; Doctorate 1975, Mathematical Institute of the Academy of Sciences of Moldovia.

Sommer, Rainer, Associate Professor of Public Policy and Enterprise Engineering, Schar School of Policy and Government. BIS 1987, Virginia State University; MS 1989, PhD 1998, George Mason University; PhD 1991, Columbia Pacific University.

Son, Byunghwan, Associate Professor, Global Affairs. BA 2001, MA 2003, Yonsei University; PhD 2013, University of Missouri-Columbia.

Song, Jinyuan, Assistant Professor of Management. BA 2006, Peking University; MA 2012, Yale University; PhD 2019, Pennsylvania State University.

Sopko, Kimberly M., Assistant Professor, School of Education, College of Education and Human Development. BA 1988, MA 1991, EdD 2001, The George Washington University.

Sorvillo, Sheri, Term Assistant Professor, English. BA 2005, University of Florida; MA 2009, George Mason University.

Soundararajan, Shvetha, Assistant Professor, Computer Science, Volgenau School of Engineering. BE 2006, Anna University, India, MS 2008, PhD 2013, Virginia Polytechnic Institute and State University.

Spence, Diane, Executive Director, Finance and Administration, School of Business. BAA 1994, Ryerson University; MBA 2006, Averett University; PhD 2013, Virginia Commonwealth University.

Spradling, Sharon, Academic Program Advisor, School of Integrative Studies and Smithsonian Mason School of Conservation. BS 1987, MS 1990, Texas A&M University; MS 2001, Air University.

Sprague, Debra, Associate Professor, School of Education. BS 1984, Buffalo State College; MA 1991, PhD 1995, University of New Mexico.

Sparks, Garry, Associate Professor of Religious Studies. BA 1993, Austin College; MA 1996, University of Texas at Austin; MDiv 2004, University of Chicago; PhD 2011, University of Chicago.

Spring, Christina,Director of Advancement, School of Business. BA 2007, Miami University.

Srikantia, Jessica, Term Associate Professor, Schar School of Policy and Government. BA 1994, Oxford University; MA 1997, PhD 2005, University of Chicago.

Stabile, Bonnie B., Term Associate Professor and Director of the Master of Public Policy Program, Schar School of Policy and Government. BA 1985, Mount Holyoke College; MPA 2000, PhD 2006, George Mason University.

Staklo, Vadim, Term Associate Professor, History. BA 1988, Moscow University; MA 1995, PhD 2001, University of Pittsburgh.

Stan, Cristiana, Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 1995, MS 1996, University of Bucharest, Romania; PhD 2005, Colorado State University.

Starr, Don, Associate Professor and Associate Director, School of Art. BS 1993, University of Maryland; MFA 2014, University of Baltimore.

Stearns, Peter N., University Professor of History and Provost Emeritus. AB 1957, AM 1959, PhD 1963, Harvard University.

Stedman, Diann, Manager of Laboratory Safety, Environmental Health, and Safety Office. BA 1993, University of Pittsburgh; MS 1997, Virginia Commonwealth University.

Steele, James, Term Instructor, Communication. BA 2006, MA 2009, George Mason University.

Steen, Bweikia F., Associate Professor, School of Education, College of Education and Human Development. BA 1999, Mills College; MA 2003, California State University, East Bay; EdD 2007, University of San Francisco.

Steen, Sam, Associate Professor, School of Education in the College of Education and Human Development. BA 1998, MEd 2007, College of William and Mary; PhD 2007, George Mason University.

Steger, Benjamin, Associate Professor, Film and Video Studies. BA 1995, Kansas University; MFA 2005, Columbia College, Chicago.

Stein, Gregory, Assistant Professor, Computer Science, Volgenau School of Engineering. BS 2013, Cornell University; SM 2015, PhD 2020, Massachusetts Institute of Technology.

Steinberg, Matthew P., Associate Professor, School of Education in the College of Education and Human Development. BA 2000, University of Virginia; MSEd 2004, The City College of New York; MPA 2007, University of Wisconsin-Madison; PhD 2012, University of Chicago.

Strangio, Matthew, Assistant Professor, BA 1997, UCLA; Certificate 2006, Advanced Character Animation, Animation Mentor.

Streckfus, Peter, Associate Professor, English. BA 1992, University of Texas at Austin; MFA 2000, George Mason University.

Stroiney, Debra A., Associate Professor in the School of Recreation, Health and Tourism in the College of Education and Human Development. BA 2001, Boston University; MS 2009, Southern Connecticut State University; PhD 2014, Springfield College.

Stevens, Andrew, Web Services Librarian, University Libraries. BA, Ohio University; MIS, MSIS, Indiana University.

Stevens, Jen, Humanities and Social Sciences Librarian, University Libraries. BA 1993, MA 1996, University of Colorado; MLIS 2000, University of Texas, Austin.

Stockton, Judith, Educational Specialist, TTAC, Kellar Institute for Human disAbilities, College of Education and Human Development. BS 1976, MA 1981, University of Connecticut.

Stockwell, Susan V., Director, Administrative Services, University Libraries. BA 1978, University of Maryland.

Stoehr, Ana Marie, Term Assistant Professor of Nursing. BSN 1998, MSN 2000, PhD 2014, George Mason University.

Stone, Kiel, Associate Director, Business for a Better World, School of Business. BS 2007, George Mason University; MNR 2014, Virginia Polytechnic Institute and State University.

Stone, Victoria, Assistant Professor, School of Education, College of Education and Human Development. BA 1997, MA 1999, California University of Pennsylvania; PhD 2006, Virginia Polytechnic Institute and State University.

Storr, Virgil H., Associate Professor of Economics. BA 1996, Beloit College; MA 2000, PhD 2003, George Mason University.

Stoy, Kevin, Associate Director of Development, College of Humanities and Social Sciences. BA 2001 University of Michigan; MFA 2007 George Mason University.

Stratmann, Thomas, University Professor of Economics and Faculty, Interdisciplinary Center for Economic Science. BA 1985, Free University of Berlin, Germany; MA 1988, PhD 1990, University of Maryland.

Straus, David M., Professor, Atmospheric, Oceanic and Earth Sciences. PhD 1977, Cornell University.

Strazzeri, Kenneth, C., Term Associate Professor, Statistics, Volgenau School of Engineering. BS 2001,The College of New Jersey; MS 2004, PhD 2012, University of Virginia

Stubing, David, Assistant Professor of Accounting. BS 1986, Illinois State University; MBA 1991, University of Minnesota; DBA 2019, DePaul University.

Sturrock, Alan, Assistant Professor, School of Education. DipCE 1970, Dundee College of Education, Scotland; BEd 1971, Dundee University, Scotland; MAT 1974, Duke University; EdD 1985, Harvard University.

Suh, Hyon-Sook (Joy), Geospatial Services Librarian, University Libraries. BA 1973, MA 1975, Ewha Women's University; MA 1980, University of Wisconsin, Milwaukee; MLS 1995, University of Iowa.

Suh, Jennifer, Professor of Education, School of Education. BA 1994, MEd 1994, University of Virginia; PhD 2005, George Mason University.

Sullivan, Adrienne, Accreditation Coordinator, Office of Accreditation and Program Improvement, College of Education and Human Development. BA 1993, College of the Holy Cross; MA 1997, University of Bath.

Sullivan, Amy, Preservation Librarian, University Libraries. BA, BA, 2000, MA 2001, Virginia Polytechnic Institute and State University; MLIS 2005, University of Pittsburgh.

Summerall, Marjorie, Program Coordinator, Dance. BA 1967, College of Notre Dame of Maryland.

Summers, Michael E., Professor, Physics and Astronomy. BA 1976, Murray State University; MS 1979, University of Texas at Dallas; PhD 1985, California Institute of Technology.

Sun, Donglian, Professor, Geography and Geoinformation Science. BS 1986, Nanjing University of Information Science and Technology; MS 1989, Chinese Academy of Meteorological Sciences; PhD 2003, University of Maryland, College Park.

Sun, Hongmei, Associate Professor of Chinese. BA 1992, Beijing Second Foreign Language Institute (Beijing, China); MA 2001, Peking University (Beijing, China); PhD 2013, University of Massachusetts Amherst.

Sun, Jiayang, Bernard Dunn Eminent Scholar, Chair, Statistics Department, Volgenau School of Engineering. BS 1982, Anhui University; MS 1985 Peking University; PhD 1989, Stanford University.

Sun, Kun, Associate Professor, Information Sciences and Technology,Volgenau School of Engineering. BS 1997, ME 2000, Nankai University; PhD 2006, North Carolina State University.

Sun, Lin, Assistant Professor of Finance. BBA 2006, Shanghai University; MSc 2009, State University of New York; PhD 2015, University of California.

Sutter, Caroline, Term Associate Professor of Nursing. AAS 1993, Marymount University; MSN 2001, DNP 2012, George Mason University.

Sutter, Rebecca, Term Associate Professor of Nursing. AAS 1993, Marymount University; MSN 2001, DNP 2012, George Mason University.

Sutters, Justin, Associate Professor of Art Education and Director of Master of Arts in Teaching, School of Art, College of Visual and Performing Arts, BS 1998, MA 2006, Kutztown University; PhD 2012, Ohio State University.

Sutton, Clifton D., Associate Professor, Statistics, Volgenau School of Engineering. BS 1983, University of Virginia; MS 1985, PhD 1987, Stanford University.

Sweeney, Kate, Term Instructor, Communication. BA 1996, Colorado College; MS 2002 Boston University.

Sweet, Colleen, Associate Professor of Spanish. BA 2000, Roanoke College; MA 2004, PhD 2012, Catholic University of America.

T

Tabarrok, Alexander, Professor of Economics. BA 1989, University of Victoria, Canada; PhD 1994, George Mason University.

Taciuch, Dean F., Term Full Professor of English. BA 1985, Kent State University; MA 1988, Ohio University; PhD 1991, University of Southwestern Louisiana.

Taggart, Daniel G., Director for Human Resources and Employee Relations, College of Science. BS 1999, James Madison University; MBA 2010, George Mason University.

Talbert, Clare, TTAC Online Coordinator, Kellar Institute for Human disAbilities, College of Education and Human Development. BA, MEd, George Mason University.

Talbot, Lee M., Professor, Environmental Science and Public Policy. AB 1953, MA 1963, PhD 1963, University of California, Berkeley.

Talleyrand Abrams, Regine, Associate Professor, School of Education. BA 1991, University of Pennsylvania; MA 1993, PhD 2001, University of Maryland.

Tan, Xiaoyan, Assistant Professor, Chemistry and Biochemistry. BS 2004, Hefei University of Technology, China; MS 2008, University of Science and Technology of China; PhD 2016, Florida State University.

Tangney, June Price, University Professor of Psychology. BA 1979, State University of New York, Buffalo; MA 1981, PhD 1985, University of California, Los Angeles.

Tanyu, Burak, F., Associate Professor, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 1996, Dokuz Eylul University, Izmir, Turkey; MS 1999, University of Texas at Arlington; PhD 2003, University of Wisconsin-Madison.

Tatum, Nicholas T., Term Assistant Professor and Communication Center Director, Communication. BS 2013, MA 2015, Abilene Christian University; PhD 2019, University of Kentucky.

Taxman, Faye S., University Professor, Schar School of Policy and Government. BA 1977, University of Tulsa; MA 1981, PhD 1982, Rutgers University.

Tayac, Gabrielle, Associate Professor, History. BS, 1989, Cornell University, AM, 1993, Ph.D. 1999, Harvard University.

Taylor, E. Art, Term Associate Professor, English. BA 1990, Yale University; MA 2003, North Carolina State University at Raleigh; MFA 2006, George Mason University.

Tecuci, Gheorghe, Professor, Computer Science. MS 1979, PhD 1988, Polytechnic Institute of Bucharest, Romania; PhD 1988, University of Paris South, Orsay, France.

Terman, Jessica N.S., Associate Professor, Government and Politics, Schar School of Policy and Government. BA 2002, University of California Santa Cruz; MPA 2011, PhD 2013, Florida State University.

Terrillion, Suzanne, Campaign Director, Advancement and Alumni Relations, School of Business. BS 1989, Louisiana State University.

Thatchenkery, Tojo Joseph, Professor and Director, Organization Development and Knowledge Management Program, Schar School of Policy and Government. BA 1980, MA 1982, University of Delhi; PhD 1993, Case Western Reserve University.

Theeke, Matthew, Associate Professor of Management. BBA 1995, University of Michigan; MBA 1999, Michigan State University; MS 2009, PhD 2012, University of Texas.

Thompson Martin, Catherine, TTAC Coordinator, Kellar Institute for Human disAbilities in the College of Education and Human Development. BS 1989, Virginia Polytechnic Institute and State University; MEd 2010, PhD 2014, George Mason University.

Thompson, James, Associate Professor, Psychology. BA 1996, PhD 2002, Swinburne University of Technology in Melbourne, Australia.

Thompson, Julie E., Executive Director of Center for the Arts. BA 1981, Lawrence University.

Thompson, Kenneth, Term Professor of English. BA 1972, Williams College; PhD 1993, University of Virginia.

Thrall, A. Trevor, Associate Professor, Schar School of Policy and Government. BA 1989, University of Michigan; PhD 1996, Massachusetts Institute of Technology.

Thrasher, Lisa, Assistant Professor, Film and Video Studies. BFA 1990, Virginia Commonwealth University; JD 2000, Southwestern University.

Thurston, Mark, Term Associate Professor, School of Integrative Studies. BA 1972 University of Texas Austin; MA 1975 University of West Georgia; PhD 1978 Saybrook University.

Tian, Kuo, Assistant Professor, Civil, Environmental, and Infrastructure Engineering, Volgenau School of Engineering. BE 2010, Huazhong University of Sci. & Tech, China, MS 2012, PhD 2015, University of Wisconsin-Madison.

Tian, Mingzhen, Associate Professor, Physics and Astronomy. BS 1984, Nankai University; MS, Changchun Institute of Physics; PhD 1997, Paris-Sud University.

Tian, Zhi, Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BE 1994, University of Science and Technology of China; MS 1995, Tsinghua University; MS 1997, PhD 2000, George Mason University.

Toepler, Stefan, Professor of Government and Politics, Schar School of Policy and Government. PhD 1995, Free University of Berlin.

Tomasovic, Susan K., Term Instructor, Communication. BS 1969, University of Missouri; MAIS 1990, George Mason University.

Tomaszewski, Evelyn, Term Assistant Professor and MSW Program Director, Social Work. BSW 1980, MSW 1985, West Virginia University.

Tompkins, Catherine, Professor of Social Work and Associate Dean for Faculty Affairs, College of Health and Human Services. BA 1987, University of Maryland, College Park, MSW 1991; PhD 1995, University of Maryland, Baltimore.

Tondi, Brenda A., Associate Professor, Biology. BA 1983, University of Delaware; PhD 1993, Uniformed Services University of the Health Sciences.

Trefil, James, Robinson Professor, Physics and Astronomy. BS 1960, University of Illinois; BA, MA 1962, Oxford University, England; MS 1964, PhD 1966, Stanford University.

Trencher, Susan, Associate Professor of Anthropology. BA 1969, MA 1972, George Washington University; PhD 1993, Catholic University of America.

Tretola, Betsy, Associate Professor of Marketing. MEd 1975, University of Virginia; MS 1981, Columbia University; PhD 1979, University of Virginia.

Troxler, Darren, Associate Dean of Admissions and Strategic Initiatives. BS 1993, East Carolina University; MEd 1995, University of Southern Mississippi.

Tryfona, Nektaria, Director of Educational Initiatives and DataLab Director, College of Science. Affiliate Faculty, Department of Computational and Data Sciences. Dipl. Eng. 1992, PhD 1995, University of Patras.

Tsirigotis, Eugenia, Instructor of Accounting. BS 1992, American University; MS 1999, Johns Hopkins University.

Tucker, Megan, Term Assistant Professor and Undergraduate Advising Coordinator, Communication. MA 2009, PhD 2015, George Mason University.

Turner, John, Professor of Religious Studies, College of Humanities and Social Sciences. BA 1996, Middlebury College; MDiV 2002, Louisville Presbyterian Theological Seminary; MA 200, PhD 2006, University of Notre Dame.

U

Ugarte, Maura, Assistant Professor, Film and Video Studies. BA 2001, Columbia College, Chicago; MFA 2009, American University.

Uhen, Mark D., Associate Professor, Atmospheric, Oceanic, and Earth Sciences. BS 1990, University of Wisconsin-Oshkosh; MS 1993, PhD 1996, University of Michigan.

Umamaheswar, Janani, Assistant Professor, Criminology, Law and Society. BA 2008, MA 2009, University of Toronto; PhD 2014, Pennsylvania State University.

Unruh, Gregory C., Associate Professor, School of Integrative Studies. BS 1987, University of California, Davis; MA 1994, Schiller International University, Spain & France; PhD 1998, Tufts University.

Urban, Carol Q., Associate Dean for Practice and Strategic Initiatives; Term Associate Professor of Nursing. AA 1978, AS 1978, Glendale Community College; AA in Nursing 1980, Los Angeles Pierce College; BSN 1985, University of Phoenix; MSN 1991, PhD 2006, George Mason University.

Urgessa, Girum, Associate Professor, Civil, Environmental, and Infrastructure Engineering, Volgenau School of Engineering. BSc 2000, Addis Ababa University, Ethiopia; MSc 2002, PhD 2006, University of New Mexico.

Usher, Bethany M., Associate Provost for Undergraduate Education, Office of the Provost. BA 1991, University of Virginia; MA 1995, Arizona State University; PhD 2000, Pennsylvania State University.

Uzuner, Ozlem, Associate Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 1998, MS 1998, PhD 2005.

V

Vadakkepatt, Gautham, Assistant Professor of Marketing. BTech 1999, Calicut University; ME 2002, MS 2004, PhD 2010, Texas A&M University.

Vaisman, Iosif, Director and Professor, School of Systems Biology. MS 1984, Moscow Institute of Chemical Engineering; PhD 1990, USSR Academy of Sciences.

Valderrama, Diego, Assistant Professor, Environmental Science and Policy. BS 1994, Universidad Jorge Tadeo Lozano (Colombia); MSc 2000, University of Arkansas at Pine Bluff; PhD 2008, University of Rhode Island.

Van Aken, Benoit, Associate Professor, Chemistry and Biochemistry. BS 1995, MS 1995, Engineer 1995, PhD 2000, Catholic University of Louvain, Belgium.

van Bever Green, Judith A., Executive Director, Office of International Programs and Services. B.A. 1978, University of Massachusetts, Amherst; M.Ed. 1979, Framingham State College.

van Hoek, Monique L., Professor, School of Systems Biology. BSc 1990, University of Victoria; PhD 1997, University of Virginia.

Van Meter, Amy J., Research Assistant, Life Sciences. BS 2003, George Mason University.

Van Sant, Claude, Assistant Professor, School of Integrative Studies. BA 2004, MA 2009, PhD 2016, University of Georgia.

van Schaik, Matthys K., Associate Dean for Academic Affairs, Schar School of Policy and Government. BA 1982, University of Pretoria; MS 1984, Georgetown University; PhD 1995, MLIS 1996, University of South Carolina.

Varier, Divya. Assistant Professor, School of Education, College of Education and Human Development. BA 2004, Bangalore University; BS 2010, Old Dominion University; PhD 2015, Virginia Commonwealth University.

Vartak, Samit, Programmer, Kellar Institute for Human disAbilities, College of Education and Human Development. B.Eng 2003, University of Mumbai; MS 2008, George Mason University.

Vay, Robert, Digital Collections and Exhibitions Archivist, University Libraries. BA 1992, MA 1998, George Mason University.

Veneziano, Remi, Assistant Professor, Bioengineering Department, Volgenau School of Engineering. PhD 2013, Montpelier University.

Venigalla, Mohan M., Professor, Civil, Environmental, and Infrastructure Engineering, Volgenau School of Engineering. BTech 1985, Sri Venkateswara University; MS 1988, Indian Institute of Technology, Chennai; MS 1990, PhD 1994, University of Tennessee, Knoxville.

Verardo, Stacey, Professor, Atmospheric, Oceanic, and Earth Sciences. BS 1986, C.W. Post, Long Island University; PhD 1995, City University of New York.

Verhoeven, Anne B., Associate Professor, Biology. BS 2002, Virginia Polytechnic Institute and State University; MS 2005, Clemson University; PhD 2010, George Mason University.

Vesely, Colleen, Associate Professor, School of Education. BS 1999, Colorado State University; MA 2006, University of Connecticut; PhD 2011, University of Maryland.

Viano, Samantha. Assistant Professor, School of Education, College of Education and Human Development. BS 2008, Haverford College; MSEd 2011, Northwestern University; PhD 2018, Vanderbilt University.

Viccora, Elaine, Instructor of Business Foundations. BSBA 1985, Georgetown University; MSW 1990, The Catholic University of America.

Victor, Jennifer N., Associate Professor of Government and Politics, Schar School of Policy and Government. BA 1997, MA 1999, PhD 2003, Washington University in St. Louis.

Vidyashankar, Anand, Professor, Statistics, Volgenau School of Engineering. B.Sc 1983, M.Sc 1985, University of Madras; PhD 1994, Iowa State University.

Vikis, Alexia, Term Assistant Professor of Spanish. BA 1993, MA 1996, DA 2002, George Mason University.

Villanueva, Hollie, Term Instructor of English. BA 1999, San Diego State University; MA 2012, Northern Arizona University.

Visvanathan, Gnanakumar, Associate Professor of Accounting. BComm 1981, University of Madras, India; PhD 1996, New York University.

Vivancos Perez, Ricardo, Associate Professor, Spanish. BA 1996, University of Málaga; MA 2002, Texas A&M University; PhD 2006, University of California, Santa Barbara.

Vlastara, Niki Maria, Assistant Professor of Marketing. BBA 1981, MBA 1984, University of Miami; PhD 2018, Royal Holloway University of London.

von Fricken, Michael, Assistant Professor of Global and Community Health. BS 2008, James Madison University; MPH 2011, PhD 2014, University of Florida.

Vora, Patrick M., Associate Professor, Physics and Astronomy. BS 2007, College of William and Mary; MS 2010, PhD 2010, University of Pennsylvania.

Vough, Heather, Associate Professor of Management. BA 2001, Washington University; PhD 2008, University of Illinois at Urbana-Champaign.

W

Wage, Kathleen E., Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1990, University of Tennessee, Knoxville; SM 1994, EE 1996, PhD 2000, Massachusetts Institute of Technology/Wood Hole Oceanographic Institution.

Wagner, Lauren, Associate Director of Undergraduate Academic Affairs, College of Visual and Performing Arts, BA 1989, Indiana University; MA 1994, Duke University.

Wagner, Richard E., Harris Professor of Economics. BS 1963, University of Southern California; PhD 1966, University of Virginia.

Wagner, Tammy, Term Assistant Professor of Nutrition and Food Studies. BS 1987, MS 1989, Indiana University of Pennsylvania; RD 1992, Academy of Nutrition and Dietetics; PhD 1994, Ohio State University.

Waithaka, Eric. Term Assistant Professor of Social Work. BA 2000, Daystar University, Kenya; MSW 2005, Washington University in St. Louis; PhD 2014, MPA 2015, University of Washington.

Walker, Laura M. B., Term Associate Professor, Schar School of Policy and Government. BA 1974, University of Cincinnati; JD 1977, University of Toledo.

Walnut, David F., Chair and Professor, Mathematical Sciences. AB 1983, Haverford College; MA 1986, PhD 1989, University of Maryland.

Walsh, John C., Associate University Librarian for Resources and Collection Management Services, University Libraries. BA 1979, Yale University; MA 1982, MLS 1987, University of Iowa.

Walsh, Joseph, Assistant Professor in Accompanying and Vocal Coaching, School of Music and School of Theater, College of Visual and Performing Arts. BM, The Catholic University of America; MM, Temple University.

Walther, Brian E., University Counsel. AB 1991, Harvard University; JD 1994, George Washington University National Law Center.

Walther, Geraldine, Assistant Professor of English (Linguistics). BA 2004, *Université Lumière; MA 2007, INALCO; PhD 2013, Université Paris Diderot*.

Wan, Ming, Professor and Associate Dean, Schar School Program Faculities, Schar School of Policy and Government. BA 1985, Beijing Foreign Languages Institute; MA 1988, Acadia University; PhD 1993, Harvard University.

Wang, Xinyuan (Frank), Associate Professor, Computer Science, Volgenau School of Engineering. BS 1987, Peking University; MS 1990, Chinese Academy of Space Technology; PhD 2004, North Carolina State University.

Wang, Y. Diana, Term Professor, Information Sciences and Technology, Volgenau School of Engineering. MS 2002, PhD 2006, University of Maryland, Baltimore County.

Wanner, Thomas, Professor, Mathematical Sciences. BSc 1989, MSc 1991, PhD 1993, Universtät Augsburg.

Ward, Allison, Assistant Professor, School of Education, College of Education and Human Development. AB 1994, MEd 2006, PhD 2009, University of Virginia.

Ware, DaFran M., Coordinator, Undergraduate Academic Advising, Volgenau School of Engineering. BS 2002, MS 2007, George Mason University.

Watkins, Tyler, Term Instructor and Assistant Director of Forensics, Communication. BA 2015, MA 2017, George Mason University.

Weatherspoon,Gerald L., Chair and Associate Professor, Chemistry and Biochemistry. BS 1984, Jackson State University; PhD 1995, University of California, Davis.

Weber, Geoffrey, TTAC Assistive Technology Curriculum Coordinator, Kellar Institute for Human disAbilities, College of Education and Human

Development. BA 2001, Virginia Commonwealth University; MEd 2012, George Mason University.

Wedel, Janine R., University Professor, Schar School of Policy and Government BA 1978, Bethel College; MA 1980, Indiana University; PhD 1985, University of California, Berkeley.

Weeks, Andrea, Associate Professor, Biology. BS 1997, Cornell University; PhD 2003, University of Texas, Austin.

Wei, Qi, Associate Professor, Bioengineering, Volgenau School of Engineering. BE 2001, Beijing Institute of Technology; MS 2004 University of British Columbia; PhD 2010 Rutgers University.

Weigel, Robert S., Associate Professor, Physics and Astronomy. BS 1995, University of Wisconsin, Platteville; MS 1997, University of Illinois, Urbana-Champaign; PhD 2000, University of Texas, Austin.

Weiler, Robert, Professor of Global and Community Health and Senior Associate Dean for Academic Affairs. BA 1983, Marshall University; MPH 1984, The University of Tennessee; PHD 1991, Southern Illinois University.

Weinberger, Steven H., Associate Professor of English. BA 1978, University of Pittsburgh; PhD 1988, University of Washington.

Weingartner, Joseph C., Associate Professor, Physics and Astronomy. BS 1994, State University of New York, Stony Brook; MA 1996, PhD 1999, Princeton University.

Weinstein, Ali A., Associate Professor of Global and Community Health, Director, Center for the Study of Chronic Illness and Disability. BS 1999, Lafayette College; MA 2001, University of Maryland; MS 2004, PhD 2007, Uniformed Services University of the Health Sciences.

Weisburd, David L., Distinguished Professor, Criminology, Law and Society. BA 1976, Brandeis University; MA 1978, PhD 1985, Yale University.

Weisman, David Schor, Affiliate Associate Professor of Psychology. BA 1971, American University; MA 1973, Fairleigh Dickinson University; EdD 1979, Catholic University of America.

Weiss, Margaret, Associate Professor, School of Education. BA 1988, MEd 1992, PhD 1999, University of Virginia.

West, Matthew, Term Assistant Professor, Global Affairs Program. BA 2001, Davidson College; MA 2003, MPhil 2006, The Chinese University of Hong Kong; PhD 2015, Columbia University.

Wentland, Kelly, Assistant Professor of Accounting. BS 2006, Miami University; PhD 2015, University of North Carolina at Chapel Hill.

Werhane, Stephanie T., Director of IT and Cybersecurity, College of Education and Human Development. BA, Brown University; MA, University of Michigan.

Wessels, Konrad, Assistant Professor, Geography and Geoinformation Science. BSc 1992, MSc 1997, University of Pretoria, South Africa; PhD 2005, University of Maryland.

Wheeler, Diek, Research Associate Professor, Bioengineering, Volgenau School of Engineering. BS 1989, Massachusetts Institute of Technology; PhD 1998, The University of Texas.

Wheelock, Stefan M., Associate Professor of English. BA 1993, Tougaloo College; PhD 2001, Brown University.

White, Elizabeth L., Associate Professor, Computer Science, Volgenau School of Engineering. BS 1985, MS 1986, College of William and Mary; PhD 1994, University of Maryland.

White, Gail Scott, Professor, School of Art. BA 1978, Virginia Polytechnic Institute and State University; MFA 1983, Tufts University.

White, Lawrence H., Professor of Economics. BA 1977, Harvard, MA 1980, PhD 1982 University of California, Los Angeles.

Wiener, Martin, Assistant Professor. BA 2003, Rutgers University; MS 2006 Villanova University; PhD 2011, University of Pennsylvania.

Wiesen, Taylor, Assistant Professor of Accounting. BBA 2010, PhD 2016, University of Miami.

Wiggins, Brenda, Associate Professor of Parks, Recreation, and Leisure Studies, School of Sport, Recreation, and Tourism Management. AB 1975, San Diego State University; MA 1981, University of Maryland; PhD 1994, University of Oregon.

Wijesekera, Duminda, Professor, Computer Science, Volgenau School of Engineering. BSc 1981, University of Colombo; MS 1989, PhD 1990, Cornell University; MS 1995, PhD 1997, University of Minnesota.

Wilde, Judith A., Research Professor, Schar School of Policy and Government. BA 1971, Scripps College; MAT 1974, Claremont Graduate University; PhD 1983, University of New Mexico.

Wilhelm, Gregg, Term Assistant Professor and Creative Writing Program Director, English. BA 1989, Loyola College; MA 1994, St. Mary's Seminary and University; MFA 2014, University of Tampa.

Williams, David C., Distinguished Visiting Professor of Public Policy, Schar School of Policy and Government. BA 1971, Southern Illinois University; ME 1973, University of Illinois, Champaign.

Williams, Georgia A., Assistant Professor, Forensic Science Program. BS 2016, Howard University; MS 2020, George Mason University.

Williams, Michelle S., Assistant Professor of Global and Community Health. BS 2001, MPH 2002, Florida A&M University; PhD 2014, MSPH 2016 University of Alabama at Birmingham.

Williams, Sara, Initiatives Manager, School of Business. BS 2007, Saint Joseph's University; MA 2017, The George Washington University.

Williams, Shannon E., Director, PhD Student Services, Schar School of Policy and Government. BS 1997, University of Vermont; MS 2004, George Mason University.

Williams van Rooij, Shahron, Associate Professor, School of Education. BA 1968, City College New York; MA 1970, American University of Beirut; PhDd 1980, City University of New York Graduate Center; PhD 2007, George Mason University.

Williamson, Jacquelyn, Associate Professor, Art History. BA 1995, Sarah Lawrence College; MA 2000, PhD 2009 Johns Hopkins University.

Willigan, Kerry, Assistant Dean, Career Services, School of Business. BA 1998, Georgetown University.

Willis, Boris, Associate Professor of Computer Game Design. BFA 2003, George Mason University; MFA 2007, Ohio State University.

Willis, James J., Professor, Criminology, Law and Society. BA 1991, Pennsylvania State University; PhD 2000, Yale University.

Wills, Theresa, Assistant Professor, School of Education, College of Education and Human Development. BS 2004, Virginia Polytechnic Institute and State University; MEd 2007, PhD 2015, George Mason University.

Wilson, David B., Chair and Professor, Criminology, Law, and Society. BA 1983, Whitworth College; MA 1987, University of Nevada, Las Vegas; PhD 1995, Claremont Graduate School.

Wilson, Mark, Assistant Professor, Forensic Science Program. BS 1979, Azusa-Pacific University; MA 1983, California State University, Fullerton; PhD 2004, George Mason University.

Wilson, Roland, Assistant Professor, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution, George Mason University Korea. BA 2002, MA 2005, Indiana State University; PhD 2015, George Mason University.

Winant, Peter, Associate Professor, School of Art. BS 1974, Skidmore College; MFA 1980, Indiana University.

Wingfield, Andrew, Associate Professor, School of Integrative Studies. BA 1988, Rutgers University; MA 1990, University of Chicago; MFA 1999, George Mason University.

Winkert, Catherine A., Budget Manager, Finance and Administration, College of Visual and Performing Arts. BA 1987, Marymount University.

Winkler, Martin M., University Professor of Classics. MA 1977, West Virginia University; PhD 1982, University of Southern California.

Winsler, Adam, Professor of Psychology and Associate Chair for Graduate Studies. BA 1988, University of New Mexico; PhD 1994, Stanford University.

Winston, Thomas G., Term Assistant Professor, Faculty, Learning Agents Center, Volgenau School of Engineering. BA 1991, MS 1995, MS 2001, MS 2006, PhD 2016, Nova Southeastern University.

Winter, Patrice M., Term Associate Professor and MPH Practicum Coordinator, Global and Community Health. BS 1976, Virginia Commonwealth University; MS 1982, Institute of Graduate Health Science; MS 2010, George Mason University; DPT 2012, Shenandoah University.

Witte, James C., Professor of Sociology and Anthropology and Director, Center for Social Science Research. BA 1979, Beloit College; MPA 1991, University of Wisconsin-Madison; PhD 1991, Harvard University.

Wittman, Sarah Assistant Professor of Management. BBA 2004, Simon Fraser University; MCPC 2007, Universidad de Navarra/George Washington University; MSc 2013, PhD 2018, INSEAD Business School.

Woitek, Kirsten, Associate Director of Advancement, Volgenau School of Engineering. BS 1992, Babson College; MA 1999, Georgetown University; MA 2014, George Mason University.

Wojtusiak, Janusz, Associate Professor of Health Administration and Policy. MS 2001, Jagiellonian University, Krakow, Poland; PhD 2008, George Mason University.

Wolf, Paige P., Associate Dean, Graduate Programs, School of Business. BA 1992, University of Delaware; MS 1994, PhD 1996, Virginia Polytechnic Institute and State University.

Wolf-Branigin, Michael, Professor, Social Work. BA 1976, Western Michigan University; 1978, Stockholms Universitet; MSW 1979, University of Michigan; PhD 1999, Wayne State University.

Wolfe-Pinskey, Cathy M., Program Director, Facilities. BS, MA 1985, State University of New York Buffalo; MS 2000, Drexel University.

Wolfe, James W., Associate Professor of Management. BS 1977, MBA 1979, JD 1981, Indiana University.

Wong, David, Professor, Geography and Geoinformation Science. Honour Diploma 1984, Hong Kong Baptist College; MA 1985, PhD 1990, State University of New York, Buffalo.

Wong, Shelley, Associate Professor, School of Education. BA 1971, University of California, Santa Cruz; MA 1986, University of California, Los Angeles; EdD 1990, Columbia University.

Wood, Thomas C., Associate Professor, School of Integrative Studies; Affiliate Professor of Environmental Science and Policy. BS 1986, University of California, Davis; MS 1988, Louisiana State University; PhD 1996, George Mason University.

Wooten, Courtney, Assistant Professor and English Composition Director, English. BA 2006, Wingate University; MA 2008, Winthrop University; PhD 2014, University of North Carolina at Greensboro.

Wrbican, Sue, Associate Professor and Associate Director, School of Art. BA 1993, University of Pittsburgh; MFA 1996, Rhode Island School of Design.

Wright, Catherine. Term Associate Professor, Communication. BS 1992, Phillips University; MA 1994, Texas Tech University; PhD 2005, Regent University.

Wright, Kevin, Professor, Communication. BA 1992, San Francisco State University; MA 1995, California State University Chico; PhD 1999, University of Oklahoma.

Wu, Yuntao, Professor, Molecular and Microbiology and Life Science. BS 1985, Wuhan University; MS 1988, Chinese Academy of Sciences; PhD 1998, Queen's University.

Wulf, Douglas John, Associate Professor of English. BA 1988, Northwestern University; MA 1993, Wright State University; PhD 2000, University of Washington.

Wulfkuhle, Julia D., Research Professor, Center for Applied Proteomics and Molecular Medicine. BA 1989, Grinnell College; PhD 1996, Purdue University.

Wyczalkowski, Anna J., Associate Professor, Physics and Astronomy. BS 1988, MS 1990, PhD 1998, University of Maryland.

X

Xu, Jie, Associate Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1999, Nanjing University; ME 2002, Shanghai Jiaotong University; MS 2004, State University of New York at Buffalo; PhD 2009, Northwestern University.

Xue, Hong, Associate Professor, Health Administration and Policy. PhD, Virginia Polytechnic Institute and State University; PhD, Johns Hopkins University.

Y

Yadav, Alok, Associate Professor of English. BA 1986, University of Toronto; PhD 1993, Cornell University.

Yamanaka, Aoi, Term Assistant Professor, School of Integrative Studies. BLA 2007, Kagawa University, Japan; MA 2010, MA 2013, Western Michigan University; PhD 2018, George Mason University.

Yang, Chaowei, Professor, Geography and Geoinformation Science. BS 1995, MS 1997, Northeastern University, China; PhD 2000, Peking University.

Yang, Chi, Professor, Physics and Astronomy. BS 1982, PhD 1988, Shanghai Jiao Tong University.

Yang, Jingyuan, Assistant Professor of Information Systems and Operations Management. BA 2010, Nankai University; MS 2012, Rutgers, the State University of New Jersey.

Yang, Ruixin, Associate Professor, Geography and Geoinformation Science. BSc 1982, Tsinghua (QingHua) University of Beijing, China; MS 1986, PhD 1990, University of Southern California, Los Angeles.

Yang, Sue-Ming, Associate Professor, Criminology, Law and Society. BS 1996, National Taiwan University; MA 1999, National Chung Cheng University; PhD 2007, University of Maryland.

Yang, Wei, Assistant Professor of Management. BA 2009, MS 2012, Peking University; Master's 2012, The University of Hong Kong; MS 2016, PhD 2019, University of Texas.

Yao, Andy, Assistant Professor of Information Systems and Operations Management. BS 1983, MS 1984, Old Dominion University; PhD 1995, Kennedy Western University.

Yao, Shuochao, Assistant Professor, Computer Science, Volgenau School of Engineering. BS 2014, Shanghai Jiao Tong University; PhD 2018, University of Illinois at Urbana-Champaign.

Yaroslavtsev, Grigory, Assistant Professor, Computer Science, Volgenau School of Engineering. BS 2008, MSc 2010, Petersburg State Polytechnic University, Russia; PhD 2013, Pennsylvania State University.

Yasai, Masoud, Professor of Management. BS 1972, Imperial College of Science and Technology, London; MS 1973, PhD 1979, City University Business School, London.

Ye, Shun, Associate Professor of Information Systems and Operations Management. BE, BS 2004, MS 2007, University of Science and Technology of China; PhD 2012, University of Maryland.

Yi, Robert, Assistant Professor, School of Art, College of Visual and Performing Arts. BA 1990, University of Virginia; BFA 2013, Corcoran College of Art + Design; MFA 2015, American University.

Yiğit, Erdal, Associate Professor, Physics and Astronomy. BS 2004, Jacobs University, Bremen, Germany; PhD 2009, University College London, United Kingdom.

Yilmaz, Huseyin, Associate Professor, History. BA 1992, Bogazici University; MA 1994, PhD 2005, Harvard University.

Yu, Bo, Research Assistant Professor, Center of Excellence in Command, Control, Communications, Computing, Intelligence and Cyber, Volgenau School of Engineering. BS 1999 Beijing University of Aeronautics and Astronautics, Beijing, China; MS 2007, PhD 2014, George Mason University.

Yu, Lap-Fai, Assistant Professor of Computer Science. BEng 2007, MPhil 2009, Hong Kong University of Science and Technology; PhD 2013, University of California, Los Angeles.

Yuckenberg, Ashley, Instructor of Business Foundations. BA 2006, James Madison University; MA 2011, George Mason University.

Z

Zaccaro, Stephen J., Professor of Psychology. BA 1979, Fairfield University; MA 1980, PhD 1981, University of Connecticut.

Zaidi, Syed Abbas, K., Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BE 1989 NED University of Engineering and Technology; MS 1991, PhD 1995 George Mason University.

Zagarri, Rosemarie, University Professor of History. BA 1977, Northwestern University; MA 1978, M.Phil 1980, PhD 1984, Yale University.

Zenelis, John G., Dean of Libraries and University Librarian, University Libraries. BA 1972, Temple University; MLS 1973, University of Pittsburgh; MA 1978, City University of New York.

Zeng, Kai, Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 2001, MS 2004, Huazhong University of Science and Technology; PhD 2008, Worcester Polytechnic Institute.

Zenkov, Kristien, Professor, School of Education. BA 1989, University of Notre Dame; MEd 1993, University of Illinois, Chicago; PhD 2000, University of Wisconsin, Madison.

Zhang, Feitian, Assistant Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 2007, MS 2009, Harbin Institute of Technology, China; PhD 2014, Michigan State University.

Zhang, Fengxiu, Assistant Professor, Schar School of Policy and Government. BA 2008, Beijing International Studies University; MA 2015, Indiana University - Purdue University; PhD 2020, Arizona State University.

Zhang, Jie, Professor, Physics and Astronomy. BS 1990, Nanjing University; MS 1993, Purple Mountain Observatory; PhD 1999, University of Maryland.

Zhang, Karl Kuan, Program Director and Associate Professor of Chinese. BA 1982, MA 1985, Fudan University; PhD 1999, Stanford University.

Zhang, Ketian, Assistant Professor, Schar School of Policy and Government. BA 2012, University of Wisconsin-Madison; PhD 2018, Massachusetts Institute of Technology.

Zhang, Lijun, Assistant Professor of English. BA 2006, MA 2009, Beijing Normal University; PhD 2014, Indiana University.

Zhao, Erhai, Associate Professor, Physics and Astronomy. MS 1999, Fudan University; PhD 2005, Northwestern University.

Zhao, Xiaoquan, Professor, Communication. BA 1993, Shaanxi Teacher's University; MA 1996, Beijing University; MA 2001, Indiana University; PhD 2005, University of Pennsylvania.

Zhong, Yutao, Term Associate Professor, Computer Science, Volgenau School of Engineering. BS 1997, ME 2000, Nanjing University (China); MS 2002, PhD 2005, University of Rochester.

Zhu, Shanjiang, Associate Professor, Civil, Environmental, and Infrastructure Engineering, Volgenau School of Engineering. BS 2003, Tsinghua University; MS 2005, Tsinghua University and Ecole Centrale de Nantes (Dual Degree, MS in Automatics); PhD 2010, MS 2012 University of Minnesota.

Zitomer, Jeffrey, Director of Marketing and Communications, Jimmy and Rosalynn Carter School for Peace and Conflict Resolution. BA 1990, Brandeis University.

Zobel, Julie A., Assistant Vice President, Safety, Emergency and Enterprise Risk Management. BS 1994, University of Findlay; BS 1996, MS 1998, University of Akron; PhD 2010, George Mason University.

Zolnik, Edmund J., Associate Professor, Schar School of Policy and Government. BS 1985, Fairfield University; MA 2000, PhD 2004, University of Connecticut.

Zuefle, Andreas E., Assistant Professor, Geography and Geoinformation Science. MS 2008, PhD 2013, Ludwig Maximilian University of Munich, Germany.

Zylstra, Alexandria, Associate Professor of Business Legal Studies. BJ 1994, JD 1997, LLM 2001, University of Missouri.

Faculty Emeriti

Mark Addleson, BA, MA, PhD, *Associate Professor Emeritus of Organization Development*

Victorio G. Aguera, BST, MA, PhD, *Professor Emeritus of Spanish*

Rita Ailinger, BS, MS, MA, PhD, *Professor Emerita of Nursing*

John Allen, AB, MS, PhD, *Associate Professor Emeritus of Psychology*

Kathleen Alligood, BS, MA, PhD, *Professor Emerita of Mathematics*

Jeremy E. Allnut, BS, PhD, *Professor Emeritus of Electrical and Computer Engineering*

David S. Anderson, BS, MA, PhD, *Professor Emeritus of Education and Human Development*

Tomasz Arciszewski, BS, MS, PhD, *Professor Emeritus of Civil, Environmental and Infrastructure Engineering*

David J. Armor, BA, PhD, *Professor Emeritus of Public Policy*

Kevin Avruch, AB, MA, PhD, *Henry Hart Rice Professor of Conflict Resolution and Professor of Anthropology Emeritus*

Heibatollah Baghi, BS, MS, PhD, *Associate Professor Emeritus of Global and Community Health*

Ann C. Baker, BS, MPA, PhD, *Professor Emerita of Public Policy*

Shaul Bakhash, BA, MA, PhD, *Clarence J. Robinson Professor Emeritus of History*

Peter Balint, BA, MA, MS, PhD, *Professor Emeritus of Public Policy*

Anna Baraniecki, BS, MS, PhD, *Associate Professor Emerita of Electrical and Computer Engineering*

Ralph Barocas, BA, MS, PhD, *Professor Emeritus of Psychology*

Richard Baum, PhD, *Associate Professor Emeritus of Computer Science*

Guy O. Beale, BS, MS, PhD, *Professor Emeritus of Electrical and Computer Engineering*

Michael Behrmann, BS, MEd, EdD, *Professor Emeritus of Special Education*

Frederic Bemak, BA, MEd, EdD, *Professor Emeritus of Education*

Debra Beth Bergoffen, AB, MA, PhD, *Professor Emerita of Philosophy*

David L. Bever, BS, MA, EdS, PhD, *Associate Professor Emeritus of Health Education*

Barry K. Beyer, BA, MA, PhD, *Professor Emeritus of Education*

Geoffrey F. Birchard, BA, MA, PhD, *Associate Professor Emeritus*

Peter Black, BA, MS, PhD, *Professor Emeritus of Anthropology*

W. Murray Black, BEE, MSEE, PhD, *Professor Emeritus of Electrical and Computer Engineering*

Deborah Boehm-Davis, AB, MA, PhD, *University Professor Emerita*

Don M. Boileau, AB, MA, PhD, *Professor Emeritus of Communication*

Lucille Boland, BSN, MSN, *Assistant Professor Emerita of Nursing*

A. Richard Bolstein, BA, MS, PhD, *Associate Professor Emeritus of Statistics*

Allen Boneau, BA, MA, PhD, *Professor Emeritus of Psychology*

John Bonfadini, BS, MEd, EdD, *Associate Professor Emeritus of Education*

Thomasina Borkman, BA, MA, PhD, *Professor Emerita of Sociology*

Beverly Boyd, MS, MNEd, *Assistant Professor Emerita of Nursing*

Ted Bradley, BS, MA, PhD, *Professor Emeritus of Environmental Science and Policy*

Rosemarie Brenkus, BS, MAEd, *Assistant Dean Emerita of Nursing*

Michael S. Bronzini, BS, MS, PhD, *Dewberry Chair Professor Emeritus of Civil, Environmental, and Infrastructure Engineering*

Brack Brown, AB, MA, PhD, *Professor Emeritus of Public and International Affairs*

William Brozo, BA, MEd, PhD, *Professor Emeritus of Education*

Phillip G. Buchanan, BS, MD, PhD, CPA, *Professor Emeritus of Accounting*

Louis C. Buffardi, AB, MA, PhD, *Associate Professor Emeritus of Psychology*

John Barclay Burns, MA, BD, PhD, *Associate Professor Emeritus of Religious Studies*

Susan Burns, BS, MA, PhD, *Professor Emerita of Education*

Ann B. Butler, BA, PhD, *Professor Emerita of Molecular Neuroscience*

Frieda R. Butler, BSN, MPH, PhD, *Professor Emerita of Global and Community Health*

Mary Kay Cabell, BA, MA, PhD, *Associate Professor Emerita of Mathematical Sciences*

Le Cao, BS, MBA, DBA, *Associate Professor Emerita of Accounting*

Rita Carty, BSN, MSN, DNSc, *Dean Emerita, College of Nursing and Health Science*

Jack Censer, AB, MA, PhD, *Professor Emeritus of History and Art History*

Jane Censer, AB, MA, PhD, *Professor Emerita of History and Art History*

Peter Ceperly, BA, MS, PhD, *Professor Emeritus of Physics*

Shih-Chun Chang, BS, PhD, *Associate Professor Emeritus of Electrical and Computer Engineering*

Sandra Cheldelin, BS, MEd, EdD, *Professor Emerita of Conflict Analysis and Resolution*

Elizabeth Chong, BSN, MSN, PhD, *Professor Emerita of Nursing*

Julie Christensen, BA, MA, PhD, *Associate Professor Emerita of Modern and Classical Languages*

Jae W. Chung, BC, MC, MA, PhD, *Professor Emeritus of Economics*

Rita C. Chung, BA, BA, MA, PhD, *Professor Emerita of Education*

Claudio Cioffi-Revilla, BS, PhD, DPS, *University Professor Emeritus of Computational and Data Sciences*

Robert Purdue Clark, BA, MA, PhD, *Professor Emeritus of Public and International Affairs*

Richard L. Coffinberger, BA, MS, JD, *Associate Professor Emeritus of Business Legal Studies*

Virginia Collier, BA, MA, PhD, *Professor Emerita of Education*

Timothy J. Conlan, AB, PhD, *Professor Emeritus of Policy and Government*

Gerald Cook, BS, MS, ScD, *Earle C. Williams Professor Emeritus of Electrical and Computer Engineering*

John Henry Cooper, BA, MA, DPE, *Chair Emeritus of Health, Sport, and Leisure Studies*

Dina M. Copelman, AB, MA, PhD, *Associate Professor Emerita*

Anne Cordero, MA, PhD, *Associate Professor Emerita of French*

John L. Costello, AB, JD, MA, LLM, *Professor Emeritus of Law*

Robert F. Cozzens, BS, PhD, *Professor Emeritus*

Catherine Cramton, AB, PhD, *Professor Emerita of Management*

John Crockett, BA, PhD, *Professor Emeritus of Finance*

Paul D'Andrea, BA, MA, PhD, *Clarence J. Robinson Professor Emeritus of Theater and English*

Keith Davies, BS, PhD, *Professor Emeritus of Chemistry*

Kenneth A. De Jong, BA, MA, MA, PhD, *Professor Emeritus of Computer Science*

Martin J. De Nys, AB, MA, PhD, *Professor Emeritus*

Sharon deMonsabert, BS, PhD, *Associate Professor Emerita of Civil, Environmental and Infrastructure Engineering*

Susanne Denham, BA, MA, PhD, *University Professor Emerita*

Richard J. Diecchio, BS, MS, PhD, *Professor Emeritus of Atmospheric, Oceanic and Earth Sciences*

Dimiter M. Dimitrov, BS, PhD, *Professor Emeritus of Education*

Edward Clark Dobson, BME, MS, PhD, *Associate Professor Emeritus of Education*

George Donohue, BSME, MS, PhD, *Professor Emeritus of Systems Engineering and Operations Research*

Daniel Druckman, BA, MS, PhD, *Professor Emeritus of Public and International Affairs*

Lloyd Duck, PhD, *Associate Professor Emeritus of Education*

Robert L. Dudley, BA, MA, PhD, *Professor Emeritus of Policy and Government*

Jean-Paul Dumont, Licence es Lettres, PhD, *Clarence J. Robinson Professor Emeritus*

Dennis R. Dunklee, BME, MEd, PhD, *Associate Professor Emeritus of Educational Leadership*

Marie Dworzecka, MS, PhD, *Professor Emerita of Physics*

Mary Ann Dzama, BA, MEd, DEd, *Associate Professor Emerita of Education*

Steven Eagle, BBA, JD, *Professor Emeritus of Law*

Penelope Earley, BA, Med, PhD, *Professor Emerita of Education*

Albert W. Edgemon, BAE, MA, EdD, *Professor Emeritus of Education*

Robert Ehrlich, BS, PhD, *Professor Emeritus of Physics*

Robert Ellsworth, BS, PhD, *Professor Emeritus*

Esther Elstun, BA, MA, PhD, *Professor Emerita of German*

Michael G. Emsley, BS, ARCS, PhD, *Professor Emeritus of Biology*

Carol J. Erdwins, BA, PhD, *Associate Professor Emerita of Psychology*

Carl Ernst, BS, MEd, PhD, *Professor Emeritus of Environmental Science and Policy*

John Evans, BS, MS, PhD, *Professor Emeritus of Physics*

Michael G. Ferri, AB, MA, PhD, *Professor Emeritus of Finance*

Sheila ffolliott, AB, PhD, *Professor Emerita of History*

James H. Finkelstein, BS, MA, PhD, *Professor Emeritus of Public Policy*

Edwin A. Fleishman, BS, MA, PhD, DSc (Honorary), *Professor Emeritus of Psychology*

James Fletcher, BA, MA, PhD, *Professor Emeritus of Philosophy*

Joel Foreman, BA, MA, PhD, *Associate Professor Emeritus* of *English*

Martha P. Francescato, BA, MA, PhD, *Professor Emerita of Spanish*

Sheryl Ann Friedley, BS, MA, PhD, *Professor Emerita of Communication*

Lee Fritscher, BA, MPA, PhD, *Professor Emeritus of Public Policy*

Stephen Fuller, BA, MCP, PhD, *Professor Emeritus of Policy and Government*

Michael Gabel, BS, MA, PhD, *Associate Professor Emeritus*

Arnald D. Gabriel, BS, MS, DMus (Honorary), *Professor Emeritus of Music*

Kathleen Gaffney, BS, MS, PhD, *Professor Emerita of Nursing*

Gary Galluzzo, BA, MS, PhD, *Professor Emeritus of Education*

Donald Gantz, AB, MA, PhD, *Professor Emeritus of Statistics*

Helen S. Garson, BA, MA, PhD, *Professor Emerita of English*

Harold A. Geller, AS, BS, MA, DA, *Associate Professor Emeritus*

James Gentle, BS, MA, MCS, PhD, *Professor Emeritus*

Janos J. Gertler, PhD, DSc, *Professor Emeritus of Electrical and Computer Engineering*

Paula Gilbert, BA, MA, PhD, *Professor Emerita of Modern and Classical Languages*

Martha M. Giles, BMEd, MMEd, DMEd, *Associate Professor Emerita of Music*

Barbara Knight Given, BS, MEd, PhD, *Associate Professor Emerita of Education*

Mark G. Goldin, BS, PhD, *Associate Professor Emeritus of Spanish*

Louis Golomb, BS, MA, PhD, *Associate Professor Emeritus of Anthropology*

Hassan Gomaa, BS, Dip, PhD, *Professor Emeritus of Computer Science*

Thomas Goodale, AAS, BS, MS, PhD, *Professor Emeritus of Health, Fitness, and Recreation Resources*

John Jeffrey Gorrell, BA, MA, PhD, *Professor Emeritus of Education and Human Development*

Harold Gortner, AB, MPA, MA, PhD, *Professor Emeritus of Public and International Affairs*

Vernon Gras, PhD, *Professor Emeritus of English*

Pamela Greenwood, BS, PhD, *Term Associate Professor Emerita*

Lloyd Griffiths, BS, MS, PhD, *Dean Emeritus of the Volgenau School of Engineering*

Gregory A. Guagnano, BS, PhD, *Associate Professor Emeritus of Sociology and Anthropology*

Thomas Gulledge, BS, MA, PhD, *Professor Emeritus in Public Policy*

Barry Haack, BS, MA, PhD, *Professor Emeritus of Geographic and Cartographic Sciences*

David Haines, BA, MA, PhD, *Professor Emeritus*

Henry Hamburger, PhD, *Professor Emeritus of Computer Science*

Jayne Hart, BA, MS, PhD, *Professor Emerita of Biology*

Nand Hart-Nibbrig, AB, MA, PhD, *Associate Professor Emeritus of Government and Politics*

Kingsley E. Haynes, BA, MA, PhD, *Founding Dean and Professor Emeritus of the School of Public Policy and Ruth D. and John T. Hazel, MD Endowed Chair*

Robert M. Hazen, BS, SM, PhD, *Clarence J. Robinson Professor Emeritus of Earth Science*

Kenneth H. Heller, BSBA, MA, PhD, *Professor Emeritus of Accounting*

James T. Hennessey, Jr., BA, MPA, PhD, *Chief of Staff Emeritus*

Peter Henriques, BA, BD, PhD, *Associate Professor Emeritus of History*

Jack C. High, BA, MA, PhD, *Professor Emeritus of Public Policy*

Christopher T. Hill, BS, MS, PhD. *Professor Emeritus of Public Policy*

Thomas H. Hill, BM, MM, DMA, *Professor Emeritus of Music*

Kenneth Hintz, BS, MS, PhD, *Associate Professor Emeritus of Electrical and Computer Engineering*

Devon Hodges, BA, MA, PhD, *Professor Emerita of English*

Emmett Holman, BS, MA, PhD, *Associate Professor Emeritus of Philosophy*

Mack Holt, BA, MA, PhD, *Professor Emeritus*

Robert Holt, BA, MA, PhD, *Associate Professor Emeritus of Psychology*

Lois Horton, BA, MA, PhD, *Professor Emerita of History*

Mark Houck, BES, PhD, *Professor Emeritus of Civil Engineering*

Lorna Irvine, BA, MA, PhD, *Professor Emerita of English*

Jenefir Isbister, *Professor Emerita of Molecular and Microbiology*

Joan P. Isenberg, BS, MS, EdD, *Professor Emerita of Education*

Evelyn Jacob, BA, PhD, *Professor Emerita of Education*

Rosemary Jann, BA, MA, PhD, *Professor Emerita of English*

Helen Jenkins, MSN, PhD, *Professor Emerita of Nursing*

Ronald Jensen, BA, MA, PhD, *Associate Professor Emeritus of History*

Robert Dail Johnston, BS, MS, PhD, *Associate Professor Emeritus of Finance*

Robert Jonas, BS, MSPH, PhD, *Associate Professor Emeritus of Environmental Science and Policy*

Carol Kaffenberger, BS, MEd, PhD, *Associate Professor Emerita of Education*

Richard Kamenitzer, BS, MBA, LLB, *Director Emeritus of the Arts Management Program*

Joseph Kanyan, BS, MM, DMA, *Associate Professor Emeritus of Music*

Deborah E. Kaplan, BA, MA, PhD, *Associate Professor Emerita of English*

Don E. Kash, BA, MA, PhD, *Emeritus Professor of Public Policy*

Donald Preston Kelso, BS, MS, PhD, *Associate Professor Emeritus of Environmental Science and Policy*

Jerome Kernan, BA, MS, PhD, *Professor Emeritus of Behavioral Analysis*

Peter Klappert, AB, MA, MFA, *Professor Emeritus of English*

Steven M. Klein, BA, MA, *Instructor Emeritus of Communication*

Barbara Knight, BA, MA, PhD, *Associate Professor Emerita of Public and International Affairs*

Michael I. Krauss, BA, LLL, LLM, JSD, *Professor Emeritus*

David Kravitz, BA, AM, PhD, *Professor Emeritus of Management*

Howard Vincent Kurtz, BFA, MFA, *Professor Emeritus of Theater*

Christena Langley, BSN, MPH, PhD, *Associate Professor Emerita of Nursing*

Elyse Lehman, BA, MA, PhD, *Professor Emerita of Psychology*

Raymond G. LePage, BA, MA, PhD, *Associate Professor Emeritus of French*

Alexander H. Levis, AB, BS, SM, ME, ScD, *University Professor Emeritus of Electrical and Computer Engineering*

Jack Levy, BA, MA, PhD, *Professor Emeritus of Education*

Ronald Levy, AB, AM, PhD, *Emeritus Professor Mathematical Sciences*

Bernard Joseph Lieb, BS, MS, PhD, *Professor Emeritus of Physics and Astronomy*

Jeng-Eng Lin, PhD, *Associate Professor Emerita of Mathematical Sciences*

Cynthia M. Lont, AA, BA, MA, PhD, *Professor Emerita of Communication*

Sara Looney, BA, MA, PhD, *Associate Professor Emerita of Communication*

Yehuda Lukacs, BA, MS, PhD, *Associate Professor Emeritus of Global Affairs*

Randolph Lytton, BA, MA, PhD, *Associate Professor Emeritus of History*

James Eugene Maddux, BA, MA, PhD, *Professor Emeritus of Psychology*

Julianne Mahler, BA, MA, PhD, *Professor Emerita of Public and International Affairs*

Joyce L. Malcolm, BA, MA, PhD, *Professor Emerita*

Catherine Malloy, BSN, MPH, DrPH, *Professor Emerita of Health, Fitness, and Recreation Resources*

Bruce Manchester, BS, MA, PhD, *Professor Emeritus of Communication*

William R. Martin, BA, MA, PhD, *Professor Emeritus of Education*

Stephen Mastrofski, BA, PhD, *University Professor Emeritus*

Margo Mastropieri, BA, MEd, PhD, *University Professor Emeritus of Education*

Carol C. Mattusch, BA, PhD, *Professor Emerita of History and Art History*

Joseph Maxwell, BA, PhD, *Professor Emeritus of Education*

William J. McAuley, BA, PhD, *Professor Emeritus of Communication*

Kevin McCrohan, BS, MBA, PhD, *Professor Emeritus of Marketing*

Michael J. McDermott, AB, PhL, *Associate Professor Emeritus of Philosophy and Religious Studies* and *Registrar Emeritus*

Hazel M. McFerson, BA, MA, PhD, *Professor Emerita of International Affairs*

Gustavo Mellander, AB, MA, PhD, DHL, *Dean Emeritus of the Graduate School of Education*

Barbara Melosh, BA, MA, PhD, *Professor Emerita of English*

Henry P. Meyer, BA, MA, PhD, *Associate Professor Emeritus of French*

Margaret Miklanice, LPN, ADN, BSN, MSN, PhD, *Associate Professor Emerita of Nursing*

John Miller, BA, MS, PhD, *Associate Professor Emeritus of Statistics*

Christopher Mitchell, BSc, PhD, *Professor Emeritus of Conflict Analysis and Resolution*

Mary S. Montebello, BS, MS, PhD, *Professor Emeritus of Conflict Analysis and Resolution*

Jean Burley Moore, BSN, MSN, PhD, *Professor Emerita of Nursing*

Winston Moore, JD, *Associate Dean Emeritus of the School of Law*

Margaret Moss, Dip, BSN, MSN, PhD, *Professor Emerita of Nursing*

Robert L. Nadeau, BA, MA, PhD, *Associate Professor Emeritus of English*

Stephen Nash, BS, PhD, *Professor Emeritus of Systems Engineering and Operations Research*

Hung M. Nguyen, LLB, MA, PhD, *Associate Professor Emeritus of Government and Politics*

Len Nichols, BA, MA, MS, PhD, *Professor Emeritus*

Loretta A. Normile, BSN, MN, PhD, *Associate Professor Emerita of Nursing*

Priscilla Norton, BS, MS, EdD, *Professor Emerita of Education*

Sarah Nutter, BS, MBA, PhD, *Professor Emerita of Accounting*

John S. O'Connor, BA, MA, PhD, *Professor Emeritus*

John Paden, BA, MA, PhD, *Clarence J. Robinson Professor Emeritus of International Studies*

Roger Paden, AB, AM, PhD, *Associate Professor Emeritus of Philosophy*

Ann Palkovich, AB, MA, PhD, *Professor Emerita of Anthropology*

James D. Palmer, BS, MSEE, PhD, *Professor Emeritus of Information Technology and Engineering*

Anthony F. Palmieri, BA, MA, PhD, *Associate Professor Emeritus of English*

Dimitrios Papaconstantopoulos, BS, DIC, MS, PhD, *Professor Emeritus of Computational and Data Sciences*

Wayne D. Perry, BS, MS, PhD, *Professor Emeritus of Public Policy*

Paula Petrik, AB, MFA, MA, PhD, *Professor Emerita of History and Art History*

James P. Pfiffner, BA, MA, PhD, *University Professor Emeritus*

Samuel H. Phillips Jr., BA, MA, PhD, *Professor Emeritus of Economics*

Daniel D. Polsby, BA, JD, *Dean and Professor Emeritus*

Roman Polyak, PhD, *Professor Emeritus*

Serguei Popov, MS, PhD, ScD, *Professor Emeritus*

J. Mark Pullen, BS, MS, DSc, *Professor Emeritus of Computer Science*

Miriam Raskin, BA, MSW, EdD, *Professor Emerita of Social Work*

Georgine Redmond, BSN, MN, EdD, *Associate Professor Emerita of Nursing*

Janine Ricouart, PhD, *Professor Emerita of Modern and Classical Languages*

Linda G. Rikard, BS, MEd, EdD, *Associate Professor Emerita of Education*

David Rine, BS, MS, PhD, *Professor Emeritus of Computer Science*

Dennis Ritchie, BA, MSW, PhD, *Professor Emeritus*

Larry L. Rockwood, BS, PhD, *Professor Emeritus*

Johannes Rojahn, PhD, Professor Emeritus of Psychology

Karen Rosenblum, BA, PhD, *Professor Emerita of Sociology*

Katherine Rowan, BA, MA, PhD, *Professor Emerita of Communication*

Paulette Royt, BS, MD, PhD, *Professor Emerita of Biology*

Catherine E. Rudder, BA, MA, PhD, *Professor Emerita of Public Policy*

Robert Rugel, BA, PhD, *Associate Professor Emeritus of Psychology*

Robert O. Ruhling, BS, MA, PhD, FACSM, *Professor Emeritus of Physical Education*

Amelia A. Rutledge, BA, MPHIL, PhD, *Associate Professor Emerita of English*

John F. Sacco, BA, MPA, PhD, *Associate Professor Emeritus of Government and Politics*

Mian M. Saeed, BA, MA, PhD, *Professor Emeritus of History*

Victoria Salmon, BA, MA, DA, *Associate Dean Emeritus of Graduate Studies*

Linda Bartman Samuels, BA, MPA, JD, *Professor Emerita of Business Legal Studies*

Sylvia Y. Sanchez, BS, MS, EdD, *Associate Professor Emerita of Education*

Ben F. Sands Jr., MBA, DBA, *Associate Professor Emeritus of Management*

James Francis Sanford III, BA, MS, PhD, *Professor Emeritus of Psychology*

Stephen H. Saperstone, BEP, MA, PhD, *Professor Emeritus of Mathematics*

David H. Schaefer, BS, *Associate Professor Emeritus of Electrical and Computer Engineering*

Edwin Schneider, AB, MS, PhD, *Professor Emeritus of Atmospheric, Oceanic, and Earth Sciences*

Paul S. Schopf, ScB, ScM, PhD, *Professor Emeritus of Atmospheric, Oceanic and Earth Sciences*

Betty J. Schuchman, BS, MS, EdD, *Associate Professor Emerita of Education*

Linda Schwartzstein, AB, JD, LLM, PhD, *Vice Provost and Professor Emerita of Higher Education*

Thomas Scruggs, BA, MEd, PhD, *University Professor Emeritus of Education*

Carol J. Sears, BS, MS, PhD, *Associate Professor Emerita of Education*

Linda Seligmann, BA, MA, PhD, *Professor Emerita*

Jay Shaffer, BS, PhD, *Professor Emeritus of Biology*

Jay Shapiro, BS, PhD, *Professor Emeritus of Mathematical Sciences*

Mary Silva, BS, MS, PhD, *Professor Emerita of Nursing*

David Singman, BS, MS, PhD, *Professor Emeritus*

Judith Skog, BS, MS, PhD, *Professor Emerita of Environmental Science and Policy*

Shannon Skousgaard, BA, MA, PhD, *Associate Professor Emerita of Philosophy*

Carlos Sluzki, MD, *Professor Emeritus of Global and Community Health*

James G. Smith, BM, MM, DMA, *Professor Emeritus of Music*

Robert F. Smith, BA, MA, PhD, *Professor Emeritus of Psychology*

Robert G. Smith, BA, MA, PhD, *Associate Professor Emeritus of Education*

Vernon L. Smith, BSEE, MA, PhD, *University Professor Emeritus*

Hugh Sockett, BA, MA, MA, MA, PhD, *Professor Emeritus of Policy and Government*

John P. Soder, BA, MA, PhD, *Associate Professor Emeritus of History*

Arun K. Sood, BTech, MS, PHD, *Professor Emeritus of Computer Science*

Jeanne Sorrell, PhD, RN, FAAN, *Professor Emerita of Nursing*

Valery Soyfer, BA, MA, PhD, *Distinguished University Professor Emeritus*

Melissa Stanley, BS, MA, PhD, *Professor Emerita of Biology*

Peter N. Stearns, AB, AM, PhD, *Provost Emeritus of George Mason University*

Patrick Story, *Associate Professor Emeritus of English*

William Sutton, BS, MS, PhD, *Associate Professor Emeritus of Electrical and Computer Engineering*

Eileen Sypher, AB, PhD, *Professor Emeritus of English*

Daniel Tabak, BSEE, MS, PhD, *Professor Emeritus of Information Technology and Electrical Engineering*

Stephen R. Taub, AB, PhD, *Professor Emeritus of Biology*

Anita Taylor, BS, MS, PhD, *Professor Emerita of Communication*

Wayne Thomas, BA, MEd, PhD, *Professor Emeritus of Education*

Eva K. Thorp, BA, MA, EdD, *Associate Professor Emerita of Education*

Undergraduate Admission Policies

Office of Admissions

4400 University Drive, MS 3A4
Fairfax, VA 22030

Phone: 703-993-2000
Email: admissions@gmu.edu
Website: www2.gmu.edu/admissions-aid

Admission to George Mason University is competitive, and based on a variety of factors. Each applicant who applies for admission must present sufficient qualifications in order to be reviewed within the context of other qualified applicants. An offer of admission is valid only for the semester for which the student applied. Programs with limited space or special requirements may use a second review process for admission.

Applying for Admission

Application for undergraduate admission should be made to the Office of Admissions. Applications are available at www2.gmu.edu/admissions-aid/apply-now (http://www2.gmu.edu/admissions-aid/apply-now/). A non-refundable and non-transferable application fee must accompany the application.

Application Deadlines for Freshmen and Transfer Students

There are several different application deadlines for freshmen and transfer students.

Freshmen Applicants

Freshman Non-Binding Early Action Deadline*	November 1
Freshman Honors College Consideration*	November 1
Freshman University Scholars Consideration*	November 1
Freshman Merit-Based Scholarship Consideration*	November 1
Freshman Regular Decision Deadline	February 1
Freshman Priority Application Deadline (for Spring Semester)	October 1

*All freshman applicants who apply to Mason by 11:59 pm eastern time on November 1 will automatically be considered for merit-based scholarships and our non-binding, Early Action decision.

Freshmen applications received after published deadlines will be considered on a space-available basis only. The university reserves the right to close applications before published deadlines if conditions warrant. Admission is contingent on satisfactory completion of in-progress course work and graduation from high school or community college, if relevant.

Transfer Applicants

Fall Priority Deadline/ GAA Application*	March 1
Spring Priority Deadline/ GAA Application*	October 1

* Please note that the transfer deadlines listed above are the Priority/ GAA Application deadlines. Mason continues to accept applications for general transfer admission after the priority deadlines on a rolling and space-available basis. Late applications are not considered for GAA consideration.

Transfer applications received after published deadlines will be considered on a space-available basis only. The university reserves the right to close applications before published deadlines if conditions warrant. Admission is contingent on satisfactory completion of in-progress course work and graduation from high school or community college, if relevant.

Early Admission

High school juniors who have completed high school graduation requirements except for senior English and government courses may, with the approval of their high school counselor or principal (demonstrated through a letter of recommendation), apply for admission and thereby enter the university as degree-seeking students one year early. Applicants should present exceptional grades, SAT or ACT scores, and a high school course of study demonstrating rigorous academic preparation for university-level work. Competitive candidates will have pursued the most rigorous curriculum available at their school (i.e. AP/ IB/Honors level coursework). Candidates must also submit first semester junior year grades.

Application for a Second Bachelor's Degree

Those holding one or more bachelor's degrees may earn an additional bachelor's degree at Mason in another discipline. Second bachelor's degree applicants must have a conferred degree accredited by a Mason-recognized U.S. accrediting agency, or from a country where the institution is recognized by the Ministry of Education. After admission, students work with the appropriate academic program to develop an approved contract or course of study of at least 30 credits beyond the first degree, taken after admission to the second degree, to meet university residency requirements. Some academic programs will have more stringent requirements. This contract will detail college-level and major requirements that must be met to satisfy graduation requirements.

Re-enrollment after Previous Attendance

Students in good academic standing who have missed one or more consecutive semesters of enrollment (excluding summer term) at Mason, and who do not meet any of the excluded categories listed below under Readmission after Previous Attendance (below), may re-enter by completing a re-enrollment form available through the Office of the

University Registrar (http://registrar.gmu.edu/forms/). Undergraduate students do not need to submit a re-enrollment form if an approved Leave of Absence is on file. Upon re-enrollment, undergraduate students who do not have an approved Leave of Absence on file will be required to meet new catalog year requirements. Some academic programs require departmental approval prior to re-enrollment.

Readmission after Previous Attendance

Undergraduate students who have missed one or more consecutive semesters of enrollment (excluding summer term) at Mason must apply for readmission through the Office of Admissions if any of the following conditions are true:

- The student has not been enrolled at Mason for more than 2 years, and an approved Leave of Absence form is not on file.
- The student is an undergraduate returning after any absence during which he or she studied at another institution without prior written permission of his or her school or college. Such students must reapply as transfer students.
- The student was suspended or dismissed from any college or university for nonacademic reasons.
- The student was academically dismissed from Mason.
- The student was ever convicted of a felony.

Right to Rescind Admission

Mason reserves the right to rescind offers of admission if applicants fail to (1) successfully complete their current academic program, (2) maintain grades that meet the requirements for admission to George Mason, and (3) exhibit exemplary personal conduct prior to enrollment. Additionally, Mason may rescind an offer of admission based on cancellation or change of any test score required for admission or if it is determined that admission was obtained through the use of incomplete, falsified, altered, or embellished information. Mason also reserves the right to impose restrictions or requirements on the admission of a student (e.g., housing or educational restrictions or additional conditions or requirements prior to enrollment) as a result of any of the foregoing. Admitted students are required to timely update the Office of Admissions of any new information that may affect their admission, including, but not limited to, any changes in their participation in their current academic program or their grades, or any conduct related issues (e.g., criminal matters and school discipline matters).

Upon learning of any relevant changes to a student's record, either directly from the student or from a third-party, the Dean of Admissions shall refer the case to the appropriate committee for review. The student shall have an opportunity to provide a written statement to the Dean of Admissions for consideration by the committee. The committee shall make a recommendation to the Dean of Admissions regarding whether the offer of admission should be rescinded or whether any restrictions or additional requirements should be placed on the student. In the case of withdrawal of admission from a matriculated student credit earned at Mason may be withheld.

Records Maintenance and Disposal

All admissions documents, including academic records sent from other institutions, become part of the official university file. Admission credentials are retained for only 12 months. They are subsequently destroyed if any of the following conditions are true:

- The applicant does not register for courses within the period for which the offer of admission is valid.
- The applicant was denied admission.
- The applicant does not respond to requests for additional information.
- The applicant fails to submit a complete application, including all official transcripts and test results.

Freshman

Freshman Requirements

Freshmen applicants to George Mason University are encouraged to apply online by using the Common Application (for those applying to more than one school) or Mason's Online Application (for those applying only to Mason) by visiting www2.gmu.edu/admissions-aid/apply-now (http://www2.gmu.edu/admissions-aid/apply-now/). The following factors are considered when reviewing freshmen applications for admission:

- Cumulative high school grade point average (GPA) for course work completed in grades 9 through 12
- Level of difficulty of course work elected throughout the high school years, particularly in English, mathematics, laboratory science, social science, and foreign language
- Self-reported SAT I or ACT scores*
- For all non-native English speakers, applicants must submit test scores from an English proficiency exam. Test options and score minimums can be found here (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/international/english-proficiency-requirements/).
- Essay(s)
- List of extracurricular activities
- Teacher and/or counselor recommendations

**George Mason University provides the option to either apply Score Optional (see below for more information), or use self-reported SAT I and/or ACT test scores throughout the initial admissions process. If you decide to apply with ACT or SAT scores, George Mason University will use the self-reported SAT and/or ACT test scores as part of our holistic admissions process. However, an admission decision will then be contingent upon receipt of official test scores, sent directly from the testing agency, prior to the first day of classes for the semester in which the student intends to enroll. The Office of Admissions reserves the right to reevaluate an applicant's admissions or scholarship decision upon receipt of official test scores. This reevaluation may result in a change of admissions or scholarship status.*

Please note that some majors have additional requirements beyond those listed in this catalog. For more information please review the 'Majors with Selective Admission' section of the website (https://www2.gmu.edu/admissions-aid/how-apply/freshman/).

Early-action applicants who meet the November 1 deadline will be notified of their non-binding admissions decision in mid-December. Regular decision applicants who meet the February 1 deadline are notified of decisions on a rolling-basis, starting in February. All other applicants are notified on a space-available basis.

The following table specifies the minimum units of college preparatory work required for admission, as well as the minimum units

recommended. The recommended units reflect the typical high school program of students who have been admitted to Mason in recent years.

Note that one unit equals one academic year of study.

Required Minimum

Subject	Bachelor of Arts[1]	Bachelor of Science[2]	Applicants with Specific Majors[3]
English	4	4	4
Social Sciences	3	3	3
Mathematics[4]	3	3	4
Laboratory Science[5]	2	2	3
Foreign Language	2	2	0
Other Academic Electives	3	3	3
Total	**17**	**17**	**17**

1. Refers to students applying for a bachelor of arts, excluding those in the "Applicants with Specific Majors" column
2. Refers to students applying to a bachelor of science degree program, excluding those in the "Applicants with Specific Majors" column
3. Refers to applicants who intend to major in pre-business, chemistry, computer science, engineering, geology, mathematics, or physics
4. Selected from algebra I, algebra II, geometry, trigonometry, analytic geometry, functions, math analysis, pre-calculus or calculus
5. Selected from biology, chemistry, physics, or other advanced lab science

Recommended Minimum

Subject	Bachelor of Arts[1]	Bachelor of Science[2]	Applicants with Specific Majors[3]
English	4	4	4
Social Studies	4	4	4
Mathematics[4]	4	4	5
Laboratory Science[5]	3	3	4
Foreign Language	3	3	3
Other Academic Electives	5	4	3
Total	**23**	**22**	**23**

1. Refers to students applying for a bachelor of arts, excluding those in the "Applicants with Specific Majors" column
2. Refers to students applying for a bachelor of science degree program, excluding those in the "Applicants with Specific Majors" column
3. Refers to applicants who intend to major in pre-business, chemistry, computer science, engineering, geology, mathematics, or physics
4. Selected from algebra I, algebra II, geometry, trigonometry, analytic geometry, functions, math analysis, pre-calculus or calculus
5. Selected from biology, chemistry, physics, or other advanced lab science

Freshman Score Optional Consideration

Score optional review provides an opportunity for applicants to be considered for admission without submitting, or in disregard of, standardized test scores. Admission to Mason remains a competitive process, and score optional candidates are considered on their own merits. Qualifying for score optional review does not guarantee admission to Mason. Qualifications for score optional consideration can be found at www2.gmu.edu/admissions-aid/how-apply/freshman (https://www2.gmu.edu/admissions-aid/how-apply/freshman/).

Dual-Enrollment Policy

The term **dual-enrollment** refers to students being enrolled concurrently in two distinct academic programs or educational institutions. The term is most commonly used in reference to high school students taking college courses while they are still enrolled in a secondary school (i.e., a dual-*enrollment student*), or to the programs that allow high school students to take college-level courses (i.e., a *dual-enrollment program*). If you have enrolled in, or will have completed dual-enrollment college coursework prior to high school graduation, be certain to indicate this on the admission application. Dual-enrollment students are responsible for notifying the Office of Admissions of all dual-enrollment coursework at the time of application, and providing official transcripts of all course work attempted at other colleges/universities at the completion of those courses.

All dual-enrollment students are considered freshman applicants regardless of the number of college-credits earned while in dual-enrollment status. Students taking dual enrollment courses will be evaluated using our transfer credit policy (https://www2.gmu.edu/admissions-aid/how-apply/transfer/transfer-credit-policy/), and will receive a formal evaluation of credit from the Office of Admissions upon receipt of the final official transcript following admission and receipt of enrollment deposit. Please click here (https://admissions.gmu.edu/transfer/transferCreditSearch.asp?_ga=1.161425407.398027023.1483996478) to search for courses using our Transfer Credit Matrix.

Coursework from institutions not included in the admission application will not be eligible for credit. George Mason University reserves the right to revoke admission, withhold the award of credit, or disenroll students who fail to indicate all previous institutions attended on the admission application.

Acceptance of Freshman Admission Offer

Mason complies with the national freshman candidate reply date of May 1. Students must confirm their intent to enroll by completing the enrollment confirmation online. The deposit is non-refundable after May 1.

Deferral of Freshman Admissions Offer

Under certain circumstances, students unable to enroll may defer their freshman admission to the next semester (e.g.: Fall to Spring) or next year (e.g.: Fall to Fall) after submission of the enrollment deposit. Requests to defer must be made through the online admissions portal no later than the first day of the semester for which you were initially admitted if you wish to request a deferral. Submitting a request to defer admissions does not guarantee that your deferral request will be approved. If a deferral is granted, students may not take courses at any other college or university during the period of the deferral.

Transfer

Transfer Requirements

Students who have graduated from high school and subsequently attempted course work at a college or university are considered transfer applicants. The Admissions Committee considers each transfer application individually and reviews all grades received in courses attempted, as well as the rigor of the applicant's academic program. Transfer applicants are generally expected to present 24 transferable credit hours, including courses to fulfill the Mason Core requirements in English Composition and mathematics, with a 2.75 minimum cumulative grade point average (a 2.85 is required for GAA applicants). Transfer admission is competitive and the number of applications received annually exceeds the available spaces in the transfer class. **Meeting minimum standards does not assure transfer admission.**

Transfer applicants who have earned less than 24 transferable credit hours are evaluated for admission on the basis of their secondary school record, as well as any post-secondary coursework attempted. Such applicants must provide an official high school transcript or secondary school leaving certificate (final transcript) and official transcripts from all colleges and universities attended. In concordance with Mason's Score Optional Consideration Guidelines, students may decide if they would like to submit SAT and/or ACT scores as a part of their application. If the ACT and/or SAT test scores are required, George Mason University will use the self-reported SAT and/or ACT test scores as part of our holistic admissions process. However, an admission decision will then be contingent upon receipt of official test scores, sent directly from the testing agency, prior to the first day of classes for the semester in which the student intends to enroll. Transfer applicants who have earned more than 24 transferable credit hours upon application, or who have graduated from high school more than 5 years prior to the term for which they are applying, may be exempted from providing the secondary school record and official SAT I or ACT results at the discretion of the Admissions Committee. All transfer applicants are required to declare a specific major on the application to benefit from academic advising within their intended program.

All non-native English speakers are required to meet the University's English language proficiency requirement. Applicants can find additional information about this requirement, test options and test minimums here (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/international/english-proficiency-requirements/). Undergraduate applicants may present six credits of English Composition from a U.S. college or university holding Mason recognized accreditation (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/transfer/transfer-credit-accredited-universities/). Each course must be completed with grades of C or better and be approved by the Department of English and the Admission Committee. ESL and remedial courses will not be considered..

Virginia Community College System and Richard Bland College graduates transferring with Associate of Arts, Associate of Arts and Sciences, or Associate of Science transfer degrees may be considered for GAA admission via the Guaranteed Admission Agreement (https://www2.gmu.edu/admissions-aid/how-apply/transfer/virginia-guaranteed-admission-agreements/). Virginia Community College students without transfer degrees and those transferring from other institutions will be considered for regular transfer admission. GAA or regular admission status is specifically noted in the transfer admission letter. Decisions concerning GAA eligibility are made based on the Guaranteed Admissions Agreement (https://www2.gmu.edu/admissions-aid/how-apply/transfer/virginia-guaranteed-admission-agreements/), and are not subject to appeal.

Students on active academic or non-academic suspension or dismissal are not eligible for admission. The Office of Admissions reserves the right to admit students who are on active academic or non-academic suspense or dismissal on a case-by-case basis, especially if the infraction occurred more than 5 year prior to the term for which the applicant is applying.

Transfer Credit

Transfer students receive a formal evaluation of transfer credit from the Office of Admissions shortly after admission. Students are responsible for providing the Office of Admissions official final transcripts of all course work attempted at other colleges/universities by the first day of the semester in which they enroll. The University will award a maximum of 90 transfer credits. No more than 75 credits may transfer from a community college.

Transfer credit is accepted from Mason-recognized U.S. institutional accrediting agencies (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/transfer/transfer-credit-accredited-universities/) provided that a grade of C or better has been earned in the course, and the course content is equal to that offered at Mason. Note that only credits, not grades, are transferred; grades for transferred courses will not become part of a student's GPA at Mason. Transfer credit is not granted for courses completed at institutions that do not hold Mason recognized accreditation (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/transfer/transfer-credit-accredited-universities/). An exception may apply for students enrolled in the Bachelor of Individualized Study major (B.I.S.). B.I.S. students may request a review of non-traditional credit from institutions not recognized by Mason, credit-by-exam, employer, or military training, or other credit for prior learning. Specific credit limits apply. This exception is subject to approval by the BIS/BAS program directors, and is only available to students in those specific programs. **Applicants to the University who have attempted college courses at other institutions are required to disclose their complete academic enrollment history in the admission application. George Mason University reserves the right to revoke admission, withhold the award of credit, or disenroll students who fail to indicate all previous institutions attended on the admission application. Course work from institutions not included in the admission application will not be eligible for transfer credit.**

A minimum of 30 credits must be completed in residence at Mason, and 45 credits of upper-level course work must be completed to qualify for graduation. While lower-level courses taken at previously attended institutions may meet the content requirement of some upper-level courses, they do not reduce the 45-credit upper-level requirement, and courses from other institutions do not reduce the 30-credit residency requirement.

George Mason University honors the service of military personnel by awarding up to six (6) credits of undistributed undergraduate elective credit to honorably discharged military students upon receipt of a DD-214 or Joint Services Transcript (JST) showing completion of training equivalent to six semester hours, as per the American Council on Education (ACE) Guide to the Evaluation of Educational Experiences in the Armed Services. Undistributed or elective credit cannot fulfill specific degree program requirements, but counts toward the overall number of credits that a student must fulfill for the baccalaureate degree. These credits effectively recognize learning through basic training and the service member's Military Occupational Specialty.

Acceptance of Transfer Admission Offer

Admitted transfer students are required to confirm their enrollment by submitting an enrollment deposit by June 15 for fall entrance, or December 1 for spring entrance. Transfer students admitted after June 15 or December 1 are required to submit their enrollment deposit as soon as possible after receiving their offer of admission. Enrollment deposits are non-refundable after these deadlines. Admitted students who do not accept the offer of admission by the published deadline may forfeit their space in the transfer class.

Deferral of Transfer Admission Offer

Under certain circumstances, students unable to enroll may defer their transfer admission to the next semester (e.g.: Fall to Spring) after submission of the enrollment deposit. Requests to defer must be made through the online admissions portal no later than the first day of the semester for which you were initially admitted if you wish to request a deferral. Submitting a request to defer admissions does not guarantee that your deferral request will be approved. If a deferral is granted, students may not take courses at any other college or university during the period of the deferral.

Graduate Admission Policies

Graduate Admission Policies

In addition to the general admission requirements below, international students and students having earned international degrees should also refer to Admission of International Students (https://catalog.gmu.edu/admissions/international-students/) for additional requirements.

General Admission Requirements

The general university graduate admission eligibility requirements are as follows:

- **An earned baccalaureate and/or graduate degree from an institution of higher education accredited by a** Mason-recognized U.S. institutional accrediting agency **(**https://www2.gmu.edu/admissions-aid/apply-now/how-apply/graduate/application-deadlines-and-requirements/accreditation/**), or international equivalent, verified from official transcripts**.
  - Enrollment beyond the first semester in any graduate program requires official transcripts showing degree conferral from all previously earned degrees, including undergraduate bachelor's degrees and higher, as well as any graduate coursework that you wish to be applied to your Mason degree program.
- **A minimum 3.00 GPA on a 4.00 scale in baccalaureate study**.
  - The GPA requirement may be higher for some graduate programs.
  - The university, at its discretion, may, in evaluating the meeting of this requirement, additionally consider the difficulty of the baccalaureate degree, relevant work experience, any/ or other evidence of ability to succeed in graduate study.
  - For students with post-baccalaureate credits, a separate GPA is calculated for each institution.
  - For applicants whose initial post-secondary degree is a master's degree or higher (no baccalaureate degree earned), the university, at its discretion, will evaluate those applicants based on that initial degree.
  - All Mason graduate applicants must meet the University's English proficiency standard (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/international/english-proficiency-requirements/).

Note: Specific program admission requirements for degree-seeking students are listed HERE (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/graduate/application-deadlines-and-requirements/).

Provisional Admission

Provisional Admission is intended for those applicants who have provided evidence that suggests they are able to pursue graduate coursework, but have not taken foundational or pre-requisite coursework requirements, or do not meet GPA minimum requirements. Students provisionally admitted into George Mason University are in degree-seeking status and may enroll in courses while meeting the following university provisional graduate admission requirements:

- As a first priority when starting the graduate program, a provisionally admitted student must satisfy the provisions of admission.
- A degree-seeking graduate applicant with a baccalaureate degree from an institution of higher education accredited by a Mason-recognized U.S. institutional accrediting agency (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/graduate/application-deadlines-and-requirements/accreditation/), or international equivalent, with a GPA below the minimum for the graduate program, or applicants who are missing specific foundational or pre-requisite coursework requirements, may, at the discretion of the academic unit or program, be offered provisional admission if sufficient evidence is presented to suggest the applicant has the ability to pursue graduate work. Once the student has satisfied the provisions specified in the offer of admission and submitted all admission credentials, the provisional qualifier will be removed from the student's record. Written confirmation indicating the removal will be sent to the student from the academic unit, institute dean, or director.
- Provisionally required courses must be completed successfully, earning a grade of B or better, on the student's first attempt within the first 12 credits of enrollment (or a more restricted time frame specified by the department in the offer of provisional admission). Provisionally required courses may not be repeated. Students who do not complete these courses successfully will be terminated from the program. Students in provisional status may not take courses in the consortium or elsewhere, or transfer graduate course work into their program until the provisions of admission have been met.
- Due to federal requirements, students on F1/J1 visas are not eligible for Provisional Admission to George Mason University.
- While the provision is in effect, graduate students whose registration includes undergraduate courses are considered full time if they meet the undergraduate standard by being registered in at least 12 credit hours per semester. For more information on full-time status, see the Student Classification sections in AP.5 Undergraduate Policies and AP.6 Graduate Policies of this catalog.

Conditional Admission

A graduate applicant who does not meet the minimum admission standards may, at the discretion of the academic unit or program, be offered conditional admission if sufficient evidence is presented to suggest that the applicant has the ability to pursue graduate coursework. Conditional admission may be offered to an applicant who must first satisfy set of conditions prior to being admitted into the graduate

program and allowed to enroll in graduate courses at George Mason University.

- Once the student has satisfied the conditions specified in the conditional offer of admission and submitted all admission credentials, including test scores, the conditional offer of admission will be updated to full or provisional admission. Notification of full or provisional admission will be provided to the student in the form of an updated letter of admission from the Office of Graduate Admissions, which will be published to the student's Online Application Portal.
- Conditional admission cannot be offered to applicants who have not met minimum English language proficiency requirements as outlined in the English Proficiency Standards (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/international/english-proficiency-requirements/) under the Admission of International Students (https://catalog.gmu.edu/admissions/international-students/#text) section. It also may not be offered to applicants who do not have, or will not earn, a baccalaureate degree from an institution of higher education accredited by a Mason-recognized U.S. institutional accrediting agency (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/graduate/application-deadlines-and-requirements/accreditation/), or international equivalent.
- Due to federal requirements, students on F1/J1 visas are not eligible for Conditional Admission to George Mason University.
- The conditional offer of admission will be withdrawn if the student does not meet the conditions within one academic year from the first day of classes for the semester to which they applied (or a more restricted time frame specified by the program in the offer of admission).

Deferral or Reconsideration of Admitted Students

The Office of Graduate Admissions, in coordination with the academic programs, will consider requests from admitted students to either defer their enrollment, or reconsider their application for a future term. These requests are initiated by the applicant through the Intent to Enroll form, which is found on the Online Application Portal. Depending on the program of admission, the applicant will either be granted a deferral, a reconsideration, or the request will be denied.

A deferral is an automatic admission that does not require an applicant to go back through admissions review. A reconsideration is not an automatic admission and an applicant must go through admissions review again, regardless of previous admit decision.

Offers of funding are not guaranteed for deferrals or reconsiderations, and are at the discretion of the academic program.

All requests for deferral or reconsideration must be submitted using the directions on the Online Application Portal by the enrollment deadline listed in the student's offer of admission. Deferral or Reconsideration is granted only for a period of one full academic year (Ex. Fall to Fall) or less, with some programs having specific term restrictions for delaying enrollment. These restrictions vary by program and, as such, applicants should check with their respective academic unit or program.

Please note: Requests to defer enrollment, or reconsider an application for a future term, may be made only once per application.

Right to Rescind Admission

Mason reserves the right to rescind offers of admission if applicants fail to (1) successfully complete their current academic program, (2) maintain grades that meet the requirements for admission to George Mason University, and/ or (3) exhibit exemplary personal conduct prior to enrollment. Additionally, Mason may rescind an offer of admission based on cancellation or change of any test score required for admission or if it is determined that admission was obtained through the use of incomplete, falsified, altered, or embellished information. Mason also reserves the right to impose restrictions or requirements on the admission of a student (e.g., housing or educational restrictions or additional conditions or requirements prior to enrollment) as a result of any of the foregoing. Admitted students are required to update the Office of Admissions in a timely fashion of any new information that may affect their admission, including, but not limited to, any changes in their participation in their current academic program or their grades, or any conduct related issues (e.g., criminal matters and school discipline matters).

Upon learning of any relevant changes to a student's record, either directly from the student or from a third-party, the Dean of Admissions shall refer the case to the appropriate committee for review. The student shall have an opportunity to provide a written statement to the Dean of Admissions for consideration by the committee. The committee shall make a recommendation to the Dean of Admissions regarding whether the offer of admission should be rescinded or whether any restrictions or additional requirements should be placed on the student. In the case of withdrawal of admission from a matriculated student, credit earned at Mason may be withheld.

Records Maintenance and Disposal

All admissions documents, including academic records sent from other institutions and graduate admission exams, become the property of the Office of Admissions and part of the applicant's official university file. These documents **will not be returned** to the applicant. Admission credentials are retained for only 12 months. They are subsequently destroyed if applicants do not register for courses within the period for which the offer of admission is valid, have been denied admission, do not respond to requests for additional information, or fail to submit complete applications.

General Requirements

Application for admission by international students should be made directly to the Office of Admissions via the online application (https://www2.gmu.edu/admissions-aid/apply-now/).

Priority application deadlines are as follows:

Freshman Fall	June 1
Transfer Fall	March 1
Freshman Spring	October 1
Transfer Spring	October 1
Graduate	Varies by academic program. Please check http://admissions.gmu.edu/grad (http://admissions.gmu.edu/grad/) for specific program details.

These deadlines ensure adequate time to process applications and prepare immigration documents. All international applications must be accompanied by the nonrefundable application fee. Items that must be submitted with the application form and fee are official transcripts and degree certificates (in original language and, if applicable, certified English translation); evidence of English proficiency (please see the English proficiency website (https://www2.gmu.edu/admissions-aid/how-apply/international/english-proficiency-requirements/) for more details); the Certificate of Financial Responsibility (https://admissions.gmu.edu/documents/internationalFinancialResponsibilityCertificate.pdf) (CFR); financial support documents; copy of passport identification page; and for those present in the United States, copies of immigration documents verifying current nonimmigrant status. Other documentation such as recommendation letters, essays, portfolios, etc., may be required by the academic program. Please visit the Admission website (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/graduate/) for full details on items required and deadlines.

Applications from international students are reviewed with all other applications. Admission to the university is competitive; therefore, while minimum standards ensure that an application will be considered, they do not guarantee admission. The number of applicants, qualifications of the applicant pool, and the amount of available space determine the number of admission offers that Mason can make. In addition to overall admission requirements, some schools and colleges have individual requirements for acceptance into the major. For more information on selective majors, please visit "Majors with Selective Admission (https://www2.gmu.edu/admissions-aid/how-apply/freshman/)" section for freshmen, and "Selective Admission Majors (https://www2.gmu.edu/admissions-aid/how-apply/transfer/)" section for transfers.

Applicants who are accepted to a program will receive an online admission decision via their online application portal. Most students come to the United States on an F-1 visa, but students who are sponsored by the U.S. Government, their home government, or another organization may be required to enter the United States on a J-1 Exchange Visitor's Visa. To be issued an immigration document (Form I-20 for F-1 status or Form DS2019 for J-1 status), students must prove they have sufficient financial support to cover their expenses while at Mason. If the documentation submitted is satisfactory, the university will issue Form I-20 for F-1 status or Form DS2019 for J-1 status and mail it to the address indicated on the Certificate of Financial Responsibility. For students who are already in the United States, Form I-20 or Form DS2019 may be picked-up in person, if requested.

International students outside the United States may use their immigration documentation to schedule a visa interview with the U.S. embassy or consulate nearest their place of residence and apply for an F-1 or J-1 student visa. For more information about the visa application process, check with the nearest U.S. embassy or consulate, or go to the Department of State's website (https://www.state.gov).

Students in a nonimmigrant visa category other than F-1 or J-1 may submit the CFR and copies of immigration documents indicating their immigration status. They do not need to submit financial support documents unless they plan to change to a student visa. For more information pertaining to immigration status, contact the Office of International Programs and Services (OIPS) at 703-993-2970. Additional information is available on the OIPS website (https://oips.gmu.edu).

Freshman and Transfer Requirements

A freshman student is a first time university student who has never before enrolled in a college or university after graduating from secondary school. A transfer student is one who has completed course work at another college or university after graduating from secondary school. In addition to the requirements defined for all applicants, international students must meet the following standards:

- Freshman applicants must submit certified official copies of all secondary or high school transcripts in the original language along with an English translation, if applicable. Official results of any leaving certificates or university entrance exams also must be submitted.
- Transfer applicants must submit official transcripts from each post-secondary institution attended, sent directly to Mason from the institution.
- International students may be considered for admission without an SAT or ACT score through our score optional admission program. Qualifications for score optional consideration can be found at https://www2.gmu.edu/admissions-aid/apply-now/how-apply/freshman (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/freshman/).
- Non-native English-speaking applicants are required to meet the University's English Proficiency requirement. Please visit the English Proficiency requirements page (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/international/english-proficiency-requirements/) for more detailed information.
- Applicants with English proficiency exam results below the minimum qualifying score for direct entry may be referred to an INTO Mason Pathway or Academic English program (https://www2.gmu.edu/academics/mason/).
- All transcripts from colleges or universities outside the United States must be translated into English and evaluated with a course-by-course evaluation by a NACES (https://www.naces.org/members/) (National Association of Credential Evaluation Services) recognized U.S. evaluation agency before an admission decision can be made. Applicants are responsible for the timely translation and evaluation of documents and all costs and fees associated with these services. A list of accepted evaluation agencies is available here (https://www.naces.org/members/). Please note all transcripts and documents submitted to the university will become part of the applicant's permanent record and will not be returned.
- International students already in the United States with F-1 status must complete immigration transfer procedures within 15 days of the program start date. For processing of immigration transfers, contact OIPS at 703-993-2970 or visit their website (https://oips.gmu.edu).

Admissions Policies for Graduate International Students

In addition to the general admission requirements (https://catalog.gmu.edu/admissions/graduate-policies/), all international students must be familiar with international application procedures (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/international/) and must follow the following additional requirements when applicable.

Graduate Students with International Degrees

Mason requires the equivalent of a four-year U.S. bachelor's degree from an appropriately accredited international institution of higher education for direct admission to a graduate degree program. All applicants who were educated outside the United States are required to submit an official credential evaluation, written either by an approved evaluation company (https://www.naces.org/members/), or by Mason evaluators. Please review the International Transcript Submission Guidelines (https://admissions.gmu.edu/documents/internationalTranscriptGuidelines.pdf) for further details. Complete information on this and all international admissions requirements can be found at Admissions (https://www2.gmu.edu/admissions-aid/how-apply/international/). Mason Admissions, in collaboration with the Office of the Provost, has final authority on equivalency of degrees.

- All transcripts from colleges or universities outside the United States must be translated into English, if applicable, and submitted to the Office of Admissions for evaluation.
- Graduate students' documents should show the award for either a bachelor's degree or equivalent, and/or a graduate degree, as applicable. See (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/graduate/application-deadlines-and-requirements).

Special Conditions for All International Applicants

A complete list of application requirements at all levels can be found online (https://www2.gmu.edu/admissions-aid/how-apply/international/).

Note the following:

- Federal regulations prohibit students on visitor visas (B-1 and B-2) from enrolling in school. Students who entered the United States on a visitor visa should not plan to study. For more information, contact OIPS.
- Federal regulations prohibit F-2 spouses of F-1 students from engaging in full-time study, and F-2 children may engage in full-time study only from kindergarten through 12th grade. F-2 dependents may engage in study that is vocational or recreational in nature. F-2 dependents seeking to pursue full-time or degree study in the United States must change their status to F-1. For more information, contact OIPS.
- Students enrolled at the university in F-1 or J-1 nonimmigrant status must maintain full-time enrollment each fall and spring semester. For undergraduate students, this means 12 credit hours each semester. Full-time status for graduate students is defined by the Office of the University Registrar, and information can be found in the AP.6 Graduate Policies (https://catalog.gmu.edu/policies/academic/graduate-policies/) section of this catalog. Because of this requirement, F-1 or J-1 international students do not qualify for part-time programs.
- Students in F-1 and J-1 status may enroll in online courses, but F-1 students may count only one online course toward full-time status. J-1 students may not count online courses toward full-time status. For the purpose of this regulation, an online course is one that the University Registrar defines as online, for which no significant requirements (such as attendance, examinations, etc.) must be fulfilled in person.
- Admission for international students is offered for fall (August) and spring (January) terms.
- Prospective students who seek to enter the United States in F-1 or J-1 immigration status, or who seek to attend Mason following attendance at another US school, must complete the Certificate of Financial Responsibility (CFR), which can be downloaded online (https://admissions.gmu.edu/documents/internationalFinancialResponsibilityCertificate.pdf). The form and financial support documents must be submitted to the Admissions Office with the application.
- Students already in the United States should submit copies of immigration documents verifying current nonimmigrant status. This documentation should be submitted with the application for admission.
- Prior to issuing an I-20 or DS-2019 form, the University is required to verify that a student has sufficient financial support to pay for both educational and living expenses. If source is a sponsor, confirmed funding must be documented for the first year of study, typically with a sponsor letter and current bank statement or a scholarship award letter or an assistantship offer. The source of funds for subsequent years must be shown, although for sponsored students a bank statement is required only for the first year. Students who are self-funded must show funds on deposit for the full term of their program. The CFR gives an estimate of annual expenses, including tuition, living expenses, and health insurance; and it also explains what type of documentation is accepted.
- All new students admitted to the university must submit an Immunization Record Form signed by a health care provider. Requirements, information and forms are available online (https://shs.gmu.edu/immunizations/).
- Financial sponsors who wish to be billed directly must provide a U.S. billing address. Mason does not bill third parties overseas. It is the student's responsibility to make sure tuition and fees are paid on time.

International Student Health Insurance

University policy requires all F-1 and J-1 visa students to have health insurance. Federal law requires all students on a J-1 visa to have health insurance that includes coverage for medical evacuation and repatriation. Medical evacuation coverage pays for returning a seriously ill student to his or her home country. Repatriation coverage pays for returning a student's remains to his or her home country.

Mason offers health insurance for students on J-1 and F-1 visas. When international students register for classes, the cost of this coverage is automatically billed to their account by the Office of Student Accounts. This fee is due by the tuition payment due date. Failure to pay this insurance fee, or successfully obtain an exemption, may result in the cancellation of class registration. Late fees may be assessed if charges are not paid by the deadline established by the Student Accounts Office.

International students are required to purchase insurance for fall and spring/summer semesters. For exemption from international student health insurance, refer to the University Policy 6002 (https://universitypolicy.gmu.edu/policies/health-insurance-requirement-for-international-f-1-and-j-1-visa-students/).

Non-degree Enrollment

Office of Admissions

4400 University Drive, MS 3A4
Fairfax, VA 22030

Phone: 703-993-2000
Website: admissions.gmu.edu

Non-Degree Status

Non-degree status enables visiting students from other institutions or community members seeking personal enrichment to enroll in courses for which they are qualified without seeking formal admission to a degree program. Enrollment in specific courses is based on eligibility criteria and availability of space in courses. Registration priority is given to **degree-seeking students**. Academic departments may restrict or prohibit non-degree enrollment in some courses. Admitted and enrolled non-degree students are responsible for the same policies and procedures that apply to degree-seeking students, including the University Honor Code and the Code of Student Conduct.

George Mason University enrolls non-degree students in three categories: **High-School Guest Matriculants, Undergraduate Non-degree students, and Graduate Non-degree students**. All Non-degree applicants must complete the online application for admission and supply all official supporting documentation as requested by the Office of Admissions.

Non-degree application information and deadlines are available online (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/non-degree/).

Students are responsible for registering properly and paying applicable tuition and fees by the deadlines. Students should confirm the correctness of their enrollments (including drop and add) via Patriot Web. Incorrect enrollments may result in academic and financial penalties.

High School Guest Matriculants

Exceptionally talented high school juniors and seniors may be considered for dual enrollment in lower-level (100-299) undergraduate courses. These applicants will be evaluated based on their academic performance in high school. Only students who have excelled in high school and demonstrate the preparation and maturity indicative of the potential to succeed in Mason's competitive course work will be admitted. Mason cannot guarantee that courses will fulfill high school graduation requirements or that courses taken while the student is a high school guest will transfer to other institutions. High school dual enrollment students may enroll for one course (a maximum of 4 credit hours) each semester or in the last Summer term. An official high school transcript and written permission of the high school counselor is required for admission consideration. Non-native speakers of English are required to meet the University English language proficiency requirement. The Admissions Committee may ask for other supporting documentation such as test scores or transcripts from other dual enrollment credit.

Additional non-degree study for high school guest matriculants beyond the first semester requires a new application each semester and admissions review. High school guest matriculants are expected to maintain a 2.00 or better Mason GPA, and are subject to all academic policies outlined in this catalog.

High School Partnership Programs

Select high school students may be invited to participate in one of several partnership programs offered through George Mason University. Students enrolled in Guest Matriculant Partnership Programs have unique admissions and enrollment requirements set forth by the University. Only students that meet these requirements and agree to the University Honor Code will be admitted. Mason cannot guarantee that Non-Degree credit awarded will fulfill requirements at other institutions.

Undergraduate Non-Degree

Visiting undergraduate students from other colleges or universities, or community members who have completed some college-level course work at an institution accredited by a Mason-recognized U.S. institutional accrediting agency, may be considered for Undergraduate Non-Degree admission. The Office of Admissions renders all undergraduate non-degree admissions decisions.

To be considered for admission, Non-Degree Undergraduate applicants must present a minimum 2.00 cumulative grade point average and be eligible to return to all previous institutions attended. Non-native speakers of English are required to meet the University English language proficiency requirement. Students who are actively suspended or dismissed from another institution will not be offered admission. Admission is offered for one semester and students may enroll in a maximum of 10 undergraduate (100-499) credits. Students wishing to enroll in courses that require prerequisites must provide unofficial transcripts for review to the academic department offering the course. Admitted Non-Degree Undergraduate students are assessed undergraduate tuition rates, and non-degree students are ineligible for financial aid. Meeting the minimum standard for Undergraduate Non-Degree study neither guarantees admission nor implies future admission to a degree-seeking program. **Additional Non-Degree study beyond the first semester requires a new application and admission review, with exceptions existing for Senior Citizens and ROTC students.**

Non-Degree Undergraduate students are expected to maintain a 2.00 or better Mason GPA and are subject to the AP.5 Undergraduate Policies section of this catalog. Select undergraduate students may be invited to participate in one of several partnership programs offered through George Mason University. Students enrolled in Undergraduate Non-degree special programs have unique admission and enrollment requirements set forth by the University. Only students that meet these requirements and agree to the University Honor Code will be admitted.

More information about Undergraduate Non-Degree application requirements and policies can be found online (http://www2.gmu.edu/admissions-aid/how-apply/non-degree/).

Admission Policies for Graduate Non-Degree Students (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/non-degree/)

Current graduate students visiting from other colleges or universities, or community members who hold a conferred baccalaureate and/or

graduate degree from an institution of higher education accredited by a Mason-recognized U.S. institutional accrediting agency (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/graduate/application-deadlines-and-requirements/accreditation/), or international equivalent, may be considered for Graduate Non-degree admission. The minimum standard for Graduate Non-degree admission. The graduate admission eligibility requirements for non-degree students are as follows:

- **The minimum standard for Graduate Non-degree admission is a 3.00 cumulative grade point average on the baccalaureate record.** Non-native speakers of English are required to meet the University English language proficiency (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/international/english-proficiency-requirements/) requirement. An unofficial transcript for all earned or currently in-progress undergraduate degrees, and, if applicable, an unofficial graduate transcript for any graduate coursework taken is required during the application process. See here (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/non-degree/) for application requirements and procedures.
- Students may enroll in a maximum of 10 undergraduate or graduate (100-799) credits per semester. **Admitted Non-degree Graduate students are assessed graduate tuition rates for all (100-799) courses.** Non-degree Graduate students are ineligible for financial aid. Meeting the minimum standard for Graduate Non-degree study neither guarantees admission nor implies future admission to a degree-seeking program. Among the factors that may be considered in the admissions process are previous academic performance, professional experience, and academic fit.
- Non-degree Graduate students are expected to maintain a 3.00 or better Mason GPA and are subject to the AP.6 Graduate Policies section of this catalog. Unless otherwise specified, admitted and enrolled non-degree students are responsible for the same policies and procedures that apply to degree-seeking students, including the University Honor Code and the Code of Student Conduct.

More information about Graduate Non-Degree application requirements and policies, as well as a listing of restricted programs, can be found online (http://www2.gmu.edu/admissions-aid/how-apply/non-degree/).

Senior Citizen Enrollment

Mason welcomes applications from Virginia's senior citizens. Under the terms found in the Senior Citizens Higher Education Act of 1974 (https://vacode.org/2016/23.1/II/6/7/), eligible Virginia residents 60 years of age or older may apply to take university courses for credit in either degree or non-degree seeking status without paying tuition. Admitted senior citizens may register to audit courses regardless of income level. Mason provides all of Virginia's senior citizens with an application fee wavier, regardless of income level.

All application and admission requirements and deadlines apply to Senior Citizen Enrollment.

Upon admission and enrollment, the Senior Citizen Tuition Waiver form must be completed with the Office of the University Registrar if the applicant is seeking benefits under the *Senior Citizens Higher Education Act of 1974*.

Academic Advising

Non-Degree Undergraduate students may seek academic advising from the Mason Care Network (https://advising.gmu.edu/) (MCN). Graduate Non-Degree students may seek academic advising from the academic department offering their course(s) of interest. See Graduate Admissions Guidelines webpage (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/non-degree/) for more information.

Grades earned through Non-Degree studies remain a part of the student's permanent Non-Degree record and are recorded on the student's transcript. They will not appear on the degree transcript unless the student is accepted to a degree program and permission is given by the dean to apply the Non-Degree credit to the degree program. A maximum of 30 undergraduate credits taken in Non-Degree status may apply to an undergraduate degree program if approved by the relevant program dean. A maximum of 12 credits taken in Non-Degree status can be applied to a Mason graduate degree program.

International Students

International students holding F or J visas are not admitted in Non-Degree status. Exceptions exist for specific situations, as determined by, and at the sole discretion of, the Office of Admissions in collaboration with the Office of the Provost. These exceptions include those students enrolled in either the Undergraduate International Year One Program, Graduate International Year One Program or Academic English Program, or those who wish attend George Mason University pursuant to the terms of an exchange agreement or memorandum of understanding (MOU) between Mason and their home university. Additionally, J-1 Au Pair applicants may be considered for Non-Degree status.

International applicants who have questions regarding their eligibility to apply as Non-Degree applicants should contact the Office of Admissions at nondegree@gmu.edu.

Academic Testing

Office of Admissions

4400 University Drive, MS 3A4
Fairfax, VA 22030

Phone: 703-993-2000
Fax: 703-993-4622

Website: admissions.gmu.edu

Credit by Exam

The Office of Admissions awards transfer credit for several advanced standing examinations based upon minimum score requirements established by Mason academic departments. Additional credit by exam information is available on the Office of Admissions homepage (https://www2.gmu.edu/admissions-aid/apply-now/how-apply/transfer/transfer-credit-policy/).

Mason Departmental Exams

Proficiency exams are offered in a number of courses usually taken during the first two years. Students may not earn credit by exam for courses in which they are currently enrolled beyond the time allotted to add courses in that semester, or for courses already audited or failed at

the university. Transfer students may not earn by exam any part of the 30 credits that must be completed at Mason to earn a degree.

English 101 and English 302 Proficiency Testing

The Department of English offers proficiency testing for ENGH 101 Composition (Mason Core) and ENGH 302 Advanced Composition (Mason Core). Requirements and testing dates are available on the department homepage (https://composition.gmu.edu/waivers/).

Foreign Language Placement

The Department of Modern and Classical Languages offers foreign language placement testing to determine the appropriate course level for students pursuing one of the many languages offered by the department. Additionally, the department offers foreign language waiver testing. Detailed testing information is available on the MCL homepage (https://mcl.gmu.edu/placement-testing/).

Math Placement Exam

The Department of Mathematical Sciences offers online placement testing for several math courses that satisfy the Mason Core Quantitative Reasoning requirement. Most new students complete placement testing during orientation. Testing requirements and resources are available on the department homepage. (https://science.gmu.edu/academics/departments-units/mathematical-sciences/mathematical-sciences-testing-center/)

- AP.1.7 Re-enrollment After Previous Attendance
- AP.1.8 Undergraduate Leave of Absence

Registration for the next semester or summer term begins after mid-semester of fall or spring semesters and is opened to various groups according to priority (graduate students, seniors, juniors, and so on). The Office of the University Registrar (http://registrar.gmu.edu) assigns each student a time ticket, which is a specific date and time after which a student may register. The time ticket is based on the number of credits earned. Thus, the time ticket will not be the same for all students within a particular priority group. Students should consult the Office of the University Registrar (http://registrar.gmu.edu) and Patriot Web (http://patriotweb.gmu.edu) for information about their registration date and time.

AP.1.1 Academic Calendar

The academic calendar may be accessed on the Office of the University Registrar (http://registrar.gmu.edu) website. Mason runs on a semester schedule, including an active summer term.

AP.1.2 Academic Load

The minimum full-time load for undergraduate students is 12 credits per semester. For graduate full-time classification, see AP.6 Graduate Policies. For planning purposes, applicants for admission are asked to indicate their preference for full- or part-time status, and day or evening classes; however, they may freely choose between evening and day sections of courses and may change their full- or part-time status.

Although many students must work to meet living expenses, **employment must not take priority over academic responsibilities**. Students employed more than 20 hours a week are strongly urged not to attempt a full-time academic load. Students employed more than 40 hours a week should attempt no more than 6 credits per semester. Students who fail to observe these guidelines may expect no special consideration for academic problems arising from the pressures of employment.

Although 12 credits per semester represent a minimum full-time undergraduate load, students planning to graduate in four years need to carry an average of at least 15 credits per semester. Written approval must be submitted to the Office of the University Registrar (http://registrar.gmu.edu) before students can register for more than the maximum allowable credits. Undergraduate and Non-Degree Undergraduate students should contact their Dean for permission. Graduate and Non-Degree Graduate students should contact their department for permission.

Student Status	Maximum Credit Limit
Undergraduate	18
Undergraduate on warning, probation or returning from suspension	13
Graduate	12
Nondegree	10

AP.1.2.1 Financial Good Standing; No Holds on Record

Financial good standing and a university record clear of holds are required for students to receive academic services. Services, including, but not limited to, transcript issuance, diploma release, and class registration (add, drop, withdrawal, etc.) will not be provided to students with a financial balance due or a hold of any kind on their record. Holds are based on outstanding obligations and may be financial. Examples include fines owed for traffic or parking violations, incomplete

immunization records, fines owed to the Mason or consortium libraries, and other administrative holds.

AP.1.3 Registration Procedures

Patriot Web (https://patriotweb.gmu.edu) will list specific course information before priority registration each semester. Courses listed may be canceled for insufficient enrollment. Mason reserves the right to change the class schedule and adjust the individual section enrollment as necessary.

Registration is usually accomplished using Patriot Web (https://patriotweb.gmu.edu); however, if a section is closed or registration into a selected section is controlled, permission to enroll must be obtained from the academic program offering the course. Various schools and departments have their own processes for granting this permission. For some courses, the student must submit a completed and signed course permit form in person to the Office of the University Registrar (http://registrar.gmu.edu). Students may not attend classes for which they are not registered.

Students must be present at the first meeting of every course (lecture and laboratory) to validate their registration. If students cannot attend the first meeting, they must notify the instructor beforehand if they intend to continue in that section. Otherwise, their name may be removed from the class roll in both lecture and lab.

Students are responsible for registering properly and paying by the deadline. Students should confirm the correctness of their enrollments (including drop and add) via Patriot Web **(**https://patriotweb.gmu.edu**). Incorrect enrollments may result in academic and financial penalties.**

Students are responsible for tuition payments and grades received for all courses in which they are registered unless registration is canceled administratively because of suspension, dismissal, or termination; the section is canceled; or the student drops the course before the tuition liability begins. See Office of the University Registrar (http://registrar.gmu.edu) for deadlines.

AP.1.3.1 Course Prerequisites, Corequisites

Course prerequisites or corequisites state requirements for student entry into courses and reflect necessary preparation for attempting the course. It is the student's responsibility to be aware of these as stated in the catalog and to have taken prerequisites recently enough to be of value. The administrator of the academic unit in which the course is taught or the instructor of the course may summarily drop students who have enrolled in a course for which they have not met the prerequisites (required or recommended). Graduate course prerequisites are normally met with a grade of B- or better; undergraduate course prerequisites are normally met with a grade of C or better. Individual programs may have higher standards. Questions should be addressed to the local academic unit or course instructor.

AP.1.3.2 Changing Registration

Registration changes must be completed within the schedule adjustment period defined below. Changes to registration are usually made via Patriot Web (https://patriotweb.gmu.edu).

The last day for adding a 15-week course is eight calendar days after and including the first day of classes. The last day for dropping a 15-week course is 22 days after and including the first day of classes. After the drop deadline, students may self-withdraw from courses until the start of the selective withdrawal period; a W will appear on the transcript and count toward attempted hours. The last day for selective withdrawal from a 15-week course is nine calendar weeks after the first day of classes (including the first day). Withdrawal after this time period is granted only for nonacademic reasons by the student's academic dean. This approval is typically given for all courses at once, constituting withdrawal from a semester. For courses that are shorter than 15 weeks, the add, drop, and withdrawal deadlines are set in proportion to the length of the session. These dates are published on the Office of the University Registrar (http://registrar.gmu.edu) web site each semester. Students who drop all courses during the drop period will have no entry on their transcript for that semester and will not be considered an enrolled student for that semester. If it is the student's first semester, the student will not have a Mason transcript and must contact Admissions (https://www2.gmu.edu/admissions-aid/)regarding enrollment in a future semester.

All students are expected to complete their initial enrollment before the first day of classes for the semester. Any additions to that enrollment must be processed by the end of the add period through official registration procedures. Students will not receive credit for courses unless their names are on the official class rosters and final grade sheets. **Retroactive credits will not be awarded to students who report that they attended classes but were not on the official rosters.** After the last day to add, students will not be added to courses except in unusual circumstances beyond the student's control; such actions require approval by the administrator of the local academic department offering the course.

All students are expected to drop (by the end of the drop period) those courses they do not intend to continue. Registration is not canceled for failure to drop courses properly. Furthermore, registration is not canceled for failure to attend classes unless stated otherwise on Patriot Web (https://patriotweb.gmu.edu). **All classes in which a student is enrolled past the drop deadline will remain part of the official academic record.** For more information, see AP.3.3 Additional Grade Notations. After the drop deadline, students may self-withdraw through the selective withdrawal period. Students who have exhausted their selective withdrawal options may self-withdraw up until the beginning of the selective withdrawal period. Withdrawal after this point requires approval, which typically is granted only for nonacademic reasons by the student's academic dean. This approval is typically given for all courses at once, constituting withdrawal from a semester. For more information see AP.1.5 Withdrawal.

No change of registration transaction is complete until it is submitted through Patriot Web (https://patriotweb.gmu.edu) or processed by the Office of Student Accounts (http://studentaccounts.gmu.edu/) and the Office of the University Registrar (http://registrar.gmu.edu) through in-person procedures.

Students will not receive written confirmation of schedule changes and are responsible for checking their schedules via Patriot Web **(**https://patriotweb.gmu.edu**) before the end of the add or drop period to verify that their schedules are correct and they are properly enrolled. Students will not be allowed to remain in classes unless they are properly enrolled. Students are responsible, both financially and academically, for all courses in which they remain officially enrolled.**

AP.1.3.3 Canceling Registration

Students who cannot attend classes during the semester for which they have registered should cancel registration using Patriot Web (https://patriotweb.gmu.edu) prior to the first day of classes for the semester.

Refunds of tuition on and after the first day of classes are made according to the tuition-liability dates published on the Student Accounts

website (https://studentaccounts.gmu.edu/calendars/) and the Office of the University Registrar (http://registrar.gmu.edu) website.

AP.1.3.4 Repeating a Course

Some courses are annotated in the catalog as "repeatable for credit." These are courses which students may repeat and receive additional credit for each time the course is taken. The maximum number of credits is specified in each course's description. Special topics and independent study courses are examples. All grades and credits earned are included in the calculation of the student's GPA up to the maximum allowable credits. In cases where the student has exceeded allowable credits in a repeatable class, the grade and credits of the earliest registration of the class for which credit was earned will not be included in the calculation of the GPA.

Undergraduate students (degree-seeking or non-degree) may repeat undergraduate courses that are not repeatable for credit. There is a limit of three graded attempts for all courses. Academic programs may have more restrictive limits. A W does not count as a graded attempt. This policy applies only to repeating the same course, or courses that are designated in the catalog as equivalent. Academic programs may restrict all students from repeating certain courses or restrict students from repeating high-demand courses for the purpose of improving a satisfactory grade. Academic programs may restrict repeats of certain courses by students in their major. Excessive repeats may result in termination from the major. (See AP 5.2.4 Termination from the Major.) Appeals to this policy begin with the student's academic advisor.

The grade received in a repeated course will replace the earlier grade in the calculation of the GPA, even if the more recent grade is lower. Duplicate credit is not earned. All courses taken and their grades remain part of the student's transcript. The exclusion of earlier grades and credits from the calculation of the GPA will not change the academic standing or dean's list notations for the earlier semester. A grade in a Mason course will not be excluded from the GPA based on taking an equivalent course at another university.

Graduate students who have earned a satisfactory grade in a course that is not repeatable for credit are not permitted to repeat the course for replacement credit. Grades of B- and higher are considered satisfactory unless the academic program specifies a higher minimum satisfactory grade. Students must obtain permission from their academic program to repeat a course in which they have earned an unsatisfactory grade. Each unit establishes procedures for granting such permission. Duplicate credit is not earned. When a course is repeated, all credits attempted are used to determine warning, termination, or dismissal; the transcript shows grades for all courses attempted; and only one grade per course may be presented on the degree application.

Effective July 1, 2011 Federal Regulations no longer allow federal student aid funds to apply to courses that a student has already taken twice with a passing grade. This limitation does not include courses that are "repeatable for credit," as described above. Students should contact the Office of Student Financial Aid (https://www2.gmu.edu/admissions-aid/financial-aid/) to determine how repeated coursework would affect their financial aid eligibility.

AP.1.3.5 Auditing a Course

Auditing a course requires the instructor's permission. Audit forms are available at Office of the University Registrar (http://registrar.gmu.edu). A previously-audited course may be taken again for credit in a later term. Students may also audit a course previously taken and passed; however, students may not change from credit to audit status or from audit to credit status after the end of the drop period, as defined above. **The usual tuition and fees apply to audit status**.

AP.1.4 Special Registration Procedures

AP.1.4.1 Advisor's Permission to Register

All newly-admitted students, undeclared undergraduates on academic warning or academic probation, and undergraduates returning from suspension, are required to obtain an advisor's approval for registration. All students are strongly encouraged to consult with their advisor concerning course registration each semester.

AP.1.4.2 Permission to Study Elsewhere

Currently enrolled Mason students who wish to take courses at another regionally accredited U.S. institution must obtain advance written approval. This process permits a student to enroll elsewhere in a suitable course unavailable at Mason or through the Consortium of Universities of the Washington Metropolitan Area. Students who wish to study abroad must contact the Mason Study Abroad (http://studyabroad.gmu.edu/). Students wanting to pursue study through the Consortium of Universities of the Washington Metropolitan Area should contact the Office of the University Registrar (http://registrar.gmu.edu).

- The Permission to Study at Another Regionally Accredited U.S. Institution form can be found at the Office of the University Registrar (http://registrar.gmu.edu). Submission of this form does not guarantee approval.
- Catalog numbers and descriptions of courses to be taken elsewhere must be submitted with the request for approval.
- A minimum course grade must be achieved; however, grades themselves do not compute into any Mason GPA. For undergraduate courses, a minimum grade of C (2.0 on a 4.0 scale) is required. For graduate courses, a minimum grade of B (3.0 on a 4.0 scale) is required.
- Graduate students must obtain advance written approval from the director of their graduate program and the graduate dean of their school/college. Undergraduate students must obtain advance written approval from their academic advisor and the academic dean of the school/college offering the course to be taken elsewhere.
- Upon course completion, students must submit to the Mason Office of the University Registrar (http://registrar.gmu.edu) an official transcript from the visited institution for all coursework taken elsewhere.
- Advance approval to study elsewhere is required. Undergraduate students who enroll elsewhere without advance written permission will not receive transfer credit for coursework taken at other institutions unless they re-apply for admission to Mason as a transfer applicant and meet all priority deadlines. Re-admission is not guaranteed and transfer credit is awarded based upon course equivalencies in effect at the time of re-admission.

Special instructions for undergraduates:

- Once enrolled in degree status at Mason, students may request permission to take a limited number of credits at another regionally accredited institution.
- Students must be in good standing with a minimum cumulative GPA of 2.00 in their Mason courses to request permission to study elsewhere.
- Individual colleges/schools/institutes determine restrictions on the number, type, mode of delivery, location and offering patterns of courses that can be taken at another institution.

- Freshmen and transfer students in their first semester at Mason are not permitted to study elsewhere.
- Courses previously attempted at Mason (including withdrawals) cannot be taken elsewhere.
- Students must meet the minimum 30-hour residency requirement at Mason.

AP.1.4.3 Permission to Register as Graduate Student

Registration for courses in a graduate program is permitted only after the student has been notified of admission. Students admitted to degree programs are given preference over non-degree students through the registration process. Dual registration (for example, as a graduate student and non-degree enrollee) is not permitted. The graduate student is responsible for being properly registered and aware of all regulations and procedures required by a program of study. Regulations and degree requirements are not waived nor are exceptions granted because of ignorance of any regulations. Registration in graduate-level courses is restricted to admitted graduate degree students and non-degree graduate students (unless excluded by program). Undergraduate degree students may register for graduate courses only with special approval (see section below). Non-degree undergraduate students may not enroll in courses numbered 500 or above. Courses numbered 800 and above are available only to admitted graduate degree students.

AP.1.4.4 Graduate Course Enrollment by Undergraduates

Courses numbered 700 and above are closed to undergraduates. Undergraduates in degree programs may enroll in graduate-level courses 500 to 699 only with written permission, which must be obtained before registration. Forms are available at Office of the University Registrar (http://registrar.gmu.edu). Written permission is waived for undergraduate students admitted to combined bachelor's/accelerated master's programs.

To enroll in graduate courses for credit applicable to an undergraduate degree, undergraduates must have completed all course prerequisites, have exhausted all upper-level undergraduate courses relevant to their educational objectives, and be able to demonstrate the level of maturity required for graduate courses.

Approval to register for reserve graduate credit (earned credit held in reserve to apply later toward a graduate degree) is given only to Mason seniors within 15 credits of completing undergraduate study who have successfully completed all course prerequisites. In addition, this privilege is normally extended only to seniors who have completed at least 12 credits at the university, have a cumulative GPA of 3.00 or better, and have a major in the department offering the course. Approval for reserve graduate credit is limited to 6 credits and does not imply approval for admission into a Mason graduate program or that credit earned will be accepted at another graduate school.

Undergraduates enrolled in graduate courses are eligible to receive only those letter grades applicable to graduate grading. For more information, AP.3 Grading. Credit for the same course may not be applied to both graduate and undergraduate degrees.

AP.1.4.5 Special Registration for Nonenrolled Students

Degree-seeking students not enrolled in a credit-bearing course but whose academic unit certifies that they are pursuing an activity related to their Mason enrolled program can retain active status by registering for Special Registration (ZREG 200) for a $45 fee. Written approval from the student's advisor and the local academic unit is required. Special registration allows students to retain library and computer privileges, receive a student ID, and buy a parking decal. Students must have active status to apply for or receive a degree, take an exam, or participate in cooperative education.

AP.1.4.6 Enrolling for Credit Without Grade Points (Satisfactory/No Credit)

Courses normally graded as satisfactory/no credit (S/NC) are annotated in the catalog, but students may elect to take credit without grade points. Undergraduates may take up to 6 credits to be graded S/NC; this option applies only to electives outside the field of the major, concentration, minor, general education requirement, or certificate program. Graduate students may elect the S/NC grade option only for courses that do not apply to the degree or certificate requirements. S/NC grading will also be used for courses numbered 998 and 999. For more information, see AP.3.3 Additional Grade Notations.

AP.1.4.7 Senior Citizen Waiver Program

Under terms of the Senior Citizen Higher Education Act of 1974, eligible Virginia residents 60 years of age or older, with a taxable income not exceeding $23,850 for Virginia income tax purposes for the year preceding the award year, are entitled to enroll in courses offered for academic credit *on a space available basis* without paying tuition and enrollment fees via the Senior Citizen Waiver Program. In order for this to occur, the applicant must meet all admission requirements. Senior citizens who meet all admission requirements, the income eligibility requirement, and have completed a minimum of 75 percent of degree requirements may enroll in a degree program as a full-time or part-time student, during normal registration periods without paying tuition and enrollment fees. They may register for and audit up to three courses offered for academic credit in any one academic term, quarter, or semester for an unlimited number of academic terms, quarters, or semesters. The admissions application fee cannot be waived, but students who qualify to have all tuition and fees waived will have the application fee reimbursed. For specific information about the program, please visit the Office of the University Registrar Senior Citizen Waiver Program (http://registrar.gmu.edu/topics/senior-citizen-waiver/).

Citizens who wish to take advantage of this act must complete the appropriate online non-degree or degree application found at Admissions (https://www2.gmu.edu/admissions-aid/) and submit all required transcripts and documents. If the application for admission is approved, qualified senior citizens can request a waiver of tuition and enrollment fees by completing the Senior Citizen Tuition Waiver Form, available from the Office of the University Registrar (https://registrar.gmu.edu/forms/). To facilitate processing, senior citizens should provide their Mason student identification number on the waiver form.

In addition, the act allows admissible senior citizens to enroll in up to three noncredit courses in any one academic term, quarter, or semester for an unlimited number of academic terms, quarters or semesters without paying tuition and enrollment fees. Students seeking to audit a class must notify the Office of the University Registrar (http://registrar.gmu.edu) when registering for classes. Fees for course materials may apply to senior citizen enrollees, and tuition may be charged for courses designed exclusively for senior citizen groups. Senior citizens must adhere to all admissions and registration policies and processes and follow normal procedures to add and drop courses within the deadline dates outlined in each semester's academic calendar.

AP.1.4.8 Summer Term

Phone: 703-993-2441
Web: registrar.gmu.edu/summer (https://registrar.gmu.edu/calendars/)

Summer enrollment provides an opportunity for eligible undergraduate, graduate, and non-degree students to begin or continue the pursuit of their academic goals. Courses are offered in intensive five to twelve-week sessions, as daytime and evening classes and as distance education courses.

Summer registration for current Mason students begins in mid-March while registration for non-degree students begins in late March to early April. Students who are new to Mason are required to apply and be evaluated for admission. Prospective students may contact the Office of the University Registrar (http://registrar.gmu.edu) at 703-993-2441.

AP.1.4.9 University Consortium

Mason is a member of the Consortium of Universities of the Washington Metropolitan Area, which includes American University, The Catholic University of America, Gallaudet University, The George Washington University, Georgetown University, Howard University, Marymount University, Montgomery College, National Defense Intelligence University, National Defense University, Northern Virginia Community College, Prince George's Community College, Trinity Washington University, Uniformed Services University of Health Sciences, University of the District of Columbia, and University of Maryland-College Park. Eligible Mason students may enroll in courses at any of the consortium institutions. The consortium's cross-registration arrangement permits students enrolled in eligible degree programs at one member institution to take a course at another member institution.

Participation in consortium cross registration is available to degree-seeking juniors, seniors, and graduate students in good standing and currently enrolled at Mason. Participation is limited to courses that are approved by the student's local academic unit and dean, apply to the student's program of study, are not offered during that semester at Mason, and have space available at the visited institution. Additional restrictions apply. Students may take one consortium course per semester, with a career maximum of 6 credits for undergraduates (9–12 if foreign language study is approved) and 6 credits for graduate students. Credit earned through the consortium is considered resident credit, so grades count in the Mason GPA.

Information and regulations, including restricted and excluded courses, for both outgoing and incoming Mason consortium students are available on the web (http://registrar.gmu.edu/topics/washington-consortium/). Information pertaining to all member institutions is available here (http://www.consortium.org). Questions may be directed to the consortium coordinator in the Office of the University Registrar (http://registrar.gmu.edu) at 703-993-2436.

AP.1.4.10 4-VA

4-VA began in 2010 as a collaborative of four universities: George Mason University, James Madison University, the University of Virginia, and Virginia Polytechnic Institute and State University. In 2015 and 2017, Old Dominion University and Virginia Commonwealth University, respectively, joined the collaborative. In 2019, the College of William and Mary and the Virginia Military Institute joined. The presidents of these universities organized 4-VA in order to meet the needs identified by the Governor's Higher Education Commission and his Commission on Economic Development & Job Creation.

4-VA's mission is to promote inter-university collaborations that leverage the strengths of each partner university in order to accomplish much more than any individual university could achieve alone. 4-VA strives to: define instructional models, including the clear definition of instructional costs; significantly expand access for all Virginians to programs preparing them for rewarding careers; increase research competitiveness, and enhance the success rate of students in Science, Technology, Engineering, and Mathematics (STEM) courses and programs. For more information, visit their website (https://4va.gmu.edu).

AP.1.5 Withdrawal

AP.1.5.1 Selective Withdrawal for Undergraduates

Degree-seeking and non-degree undergraduate students are eligible to withdraw from courses without the dean's approval and at the student's discretion during two withdrawal periods: unrestricted withdrawal during which students may withdraw from one or more courses (after the last day to drop a course until the end of the 5th week of the semester) and selective withdrawal during which students may withdraw from a maximum of three courses during their entire undergraduate career at Mason (from the 6th week to the end of the 9th week of the semester). For the purpose of selective withdrawal, the three courses may have any number of credits and lecture and laboratory sections in which a student is co-enrolled are not counted as separate courses. For courses that meet for fewer than 15 weeks, the drop and withdrawal periods will be set in proportion to the length of the course.

AP.1.5.2 Course Withdrawal with Dean Approval

For graduate and non-degree students, withdrawal after the last day to drop a course requires approval by the student's academic dean, and is permitted only for nonacademic reasons that prevent course completion. For undergraduate students, withdrawal after the open withdrawal period, for cause within the period, or after a student has used all three selective withdrawals, requires approval by the student's academic dean and is typically permitted only for nonacademic reasons that prevent course completion.

AP.1.5.3 Semester Withdrawal with Dean Approval

Undergraduates taking three or fewer classes may use the selective withdrawal for all courses for a semester; see the Selective Withdrawal for Undergraduates section. Otherwise, students who need to withdraw from a semester beginning the 6th week may do so only for nonacademic reasons with the approval of the academic dean. Withdrawal forms are available at the appropriate academic dean's office. Students who stop attending all classes without the dean's approval and without processing selective withdrawals, if eligible, will receive a grade of F in all courses.

AP.1.5.4 Effects of Course or Semester Withdrawal

All withdrawal results in a grade of W on the student's transcript for the withdrawn course(s). While a grade of W does not affect the GPA, undergraduate students should note that withdrawn courses are part of "attempted credit hours," which serve as the basis for the student's credit level. In the university's undergraduate retention system, GPA standards increase according to credit level. See AP.5.2.3 Student Retention Categories.

AP.1.6 Attendance Policies

Students are expected to attend the class periods of the courses for which they are registered. In-class participation is important not only to the individual student, but also to the class as a whole. Because class participation may be a factor in grading, instructors may use absence, tardiness, or early departure as de facto evidence of nonparticipation. Students who miss an exam with an acceptable excuse may be penalized according to the individual instructor's grading policy, as stated in the course syllabus.

AP.1.6.1 Absence for Religious Observances or Participation in University Activities

Mason encourages its faculty to make a reasonable effort to allow students to observe their religious holidays or to participate in university-sponsored activities (e.g., intercollegiate athletics, forensics team, dance company, etc.) without academic penalty. Absence from classes or exams for these reasons does not relieve students from responsibility for any part of the course work required during the absence. Students who miss classes, exams, or other assignments as a consequence of their religious observance or for participation in a university activity will be provided a reasonable alternative opportunity, consistent with class attendance policies stated in the syllabus, to make up the missed work. It is the obligation of students to provide faculty, within the first two weeks of the semester, with the dates of major religious holidays on which they will be absent, and the dates for which they are requesting an excused absence for participation in any university-sponsored activity scheduled prior to the start of the semester, and as soon as possible otherwise. Students requesting an excused absence for participation in a university- sponsored activity must provide their instructor with a letter from a university official stating the dates and times that participation in the activity would result in the student missing class. Faculty members are encouraged to take religious observances into consideration when constructing class schedules and syllabi.

AP.1.7 Re-enrollment After Previous Attendance

Undergraduate students who have missed one or more consecutive semesters must follow the requirements detailed in the Enrollment after Previous Attendance section in the Undergraduate Admission Policies section of the catalog. Graduate and Non-Degree students who have missed two or more consecutive semesters must re-enroll. All graduate students must receive departmental approval prior to re-enrollment. Students may find the re-enrollment form at the Office of the University Registrar (http://registrar.gmu.edu).

AP.1.8 Undergraduate Leave of Absence

All undergraduate students who are planning an absence from George Mason must submit a formal request for Leave of Absence (http://registrar.gmu.edu/forms/) to the Office of the University Registrar (http://registrar.gmu.edu).

Students do not need to complete the Leave of Absence form if they are participating in a George Mason University sponsored study abroad program or have received permission to study elsewhere.

Eligibility Requirements

A student must:

- Be eligible to register for classes
- Be a degree-seeking undergraduate student
- Be registered during the semester immediately prior to the beginning of the Leave of Absence
- Have no holds (e.g., disciplinary, financial, etc.) which would restrict registration
  - The maximum time allowed for a Leave of Absence is two years.
  - A new admission application will be required if a student is away for more than two academic years. Re-admission is not guaranteed.
  - Prior approval is required. Advisors approve one-semester requests. Advisor and Dean approval is required if the leave of absence requested is for more than one semester.
  - Students are not permitted to study elsewhere while on a Leave of Absence.
  - A student who was admitted as a new first semester freshman or transfer student but did not attend will not be eligible for a Leave of Absence. Instead, he or she must contact Undergraduate Admissions.
  - A student who was re-admitted but did not attend will not be eligible for a Leave of Absence. He or she must contact Undergraduate Admissions.
  - Requests for extensions on a previously submitted Leave of Absence require submission of a new Leave of Absence form.

AP.2 Course Information

AP.2 Course Information

- AP.2.1 General Information
- AP.2.2 Schedule Types
- AP.2.3 Credit Hours
- AP.2.4 Course Numbering
- AP.2.5 University Courses

AP.2.1 General Information

Each course indicates:

- the number of credits earned
- course equivalencies
- the repeat status (see AP.1.3.4 for policies regarding repeating a course)

Course Number	Classification
Not Repeatable for Credit	student may attempt the course unlimited times during academic career but will receive credit towards the degree only once
Repeatable within Term for Credit	student may register and receive credit for more than one section of the course within the same academic term
Repeatable within Degree for Credit	student may register and receive credit for more than one section of the course during academic career
Limited to 2 Attempts	similar to 'Not Repeatable' but student may only attempt the course twice during academic career
Limited to 3 Attempts	similar to 'Not Repeatable' but student may only attempt the course three times during academic career

- prerequisites
- corequisites
- registration restrictions
- schedule type

Individual instructors set hours for independent study, readings, topics, or similar courses. If a course is listed as having an equivalent course, students may not receive credit for both courses.

AP.2.2 Schedule Types

Course Number	Classification
Activity-Based (ACT)	Students receive instruction in a physical-discipline and then practice that discipline under instructor supervision. May include sports or drill formation exercises.
Dissertation (DIS)	Student is enrolled in a course working toward a doctoral dissertation supervised by a faculty member. Course must be numbered 998 or 999.
Fieldwork (FLW)	Coursework primarily consists of specialized fieldwork experiences, which may include professional licensure (in social work, nursing, legal, counseling, business) volunteering, service learning, science fieldwork, etc)
Independent Study (IND)	Refers to those situations where students work primarily on their own initiative on a project through reading and writing. Contact with an instructor may be one-on-one or in small groups and is generally only on a few arranged occasions throughout the semester to receive assignments, have progress checked, etc. Examples include: directed reading, problems and special projects.
Internship (INT)	Refers to those situations where the student applies previously-acquired knowledge and skills in a supervised situation which approximates the conditions under which those knowledge/skills will ultimately be used, usually off campus. Examples: practicums, on-the-job training, work experience programs, cooperative education programs, apprenticeships, externships, preceptorships, etc. Excludes Student Teaching PreK-12.
Laboratory (LAB)	Instructional activities in settings providing specialized facilities or equipment for students to master the subject matter either by performing experiments or practicing the skills being learned. The instructor generally supervises, assists, answers questions, etc., rather than making presentations.
Lecture (LEC)	Primary organization of class instruction. Instructors mainly present material by talking to the class about the subject matter.
Private Music Instruction (PMI)	Student receives one-on-one instruction from faculty member for a specific musical instrument.
Recitation (RCT)	Refers to a secondary organization of class instruction, typically smaller groups reviewing or discussing material previously presented in a lecture section.
Research (RSC)	Individualized research, creative, or scholarly projects that are not for graduate thesis or dissertation.
Seminar (SEM)	Course material is primarily delivered via small group discussion led by a faculty member.
Studio (STU)	Refers to situations where the student is engaged in the practice and use of techniques for productions in the areas of visual and performing arts. This instruction is used to further advance student's skills in the course-specific field. The instructor role varies from direct assistance to simple availability for questions and supervision.
Student Teaching (STC)	Practicum placement in schools PreK-12.
Thesis (THS)	Student is enrolled in a course working toward a master's thesis supervised by a faculty member. Course must be numbered 798 or 799.

AP.2.3 Credit Hours

A credit hour is the unit by which coursework is measured. One unit of credit normally represents one hour in the classroom and a minimum of two hours of out-of-class work; or one hour of recitation; or not fewer than two hours of laboratory work, per week throughout a 15-week semester. In the academic context, an hour is defined as 50 minutes. Depending on the course-delivery format, a credit hour may be measured by demonstrations of competency, proficiency, or fulfillment of learning outcomes that are equivalent to traditionally delivered courses.

AP.2.4 Course Numbering

Note: Course numbers which start with a U or L or end with a T are created for transfer credit purposes only.

Course Number	Classification
100-199	Lower-division undergraduate courses; primarily for freshman
200-299	Lower-division undergraduate courses; primarily for sophomores
300-399	Upper-division undergraduate courses; primarily for juniors
400-499	Upper-division undergraduate courses; primarily for seniors

500-699	Graduate-level courses; primarily for graduate, bachelor's/accelerated master's and non-degree graduate students. Advanced undergraduate students may request permission to register for these courses by using the Graduate Course for Undergraduate credit or the Reserve Graduate credit forms. Appropriate approval is required and is not guaranteed. Some restrictions may apply.
700-799	Graduate-level courses; primarily for graduate and non-degree graduate students. Some restrictions may apply.
800-999	Doctoral-level courses; primarily for doctoral students

Special Course Number Designations

Course Number	Classification
798	Master's research
799	Master's thesis
790, 890	Supervised practicum
794, 894	Internship
796, 896	Directed reading and research courses for master's and doctoral students
998	Doctoral dissertation proposal
999	Doctoral dissertation research

AP.2.5 University Courses

University (UNIV) courses are special undergraduate academic seminars that appeal to a wide range of majors. These courses fall into three general categories: transitional, interdisciplinary honors, and special topics. To encourage interaction among students and faculty, many of these courses have smaller class sizes. Some UNIV courses satisfy Mason Core requirements.

University Transitions Courses

This series of courses focuses on transition through the various stages of college. UNIV 100 – 199 courses help first-year college students adjust academically and socially, hone decision-making skills, learn about services and opportunities for involvement on campus, and solidify resources and techniques for assessing and improving their academic performance. UNIV 200 – 299 course topics focus on success in the second year of college and include choosing a major or career or participating in a Living Learning Community. UNIV 300 – 399 courses have three tracks: the first is for transfer students making the transition to a new university, the second focuses on career readiness for internships and research experiences, and the third is designed for specific groups of student leaders. UNIV 400 – 499 courses have a focus on research and scholarship, as well as life beyond college in the workplace or graduate school.

University Special Topics Courses

Upper-level University courses are open to all students unless specific prerequisites are indicated. They are usually repeated offerings.

AP.3 Grading

AP.3 Grading

- **AP.3.1 Undergraduate Grading**
  - AP.3.1.1 Undergraduate Grading Scales
- **AP.3.2 Graduate Grading**
  - AP.3.2.1 Graduate Grading Scales
- **AP.3.3 Additional Grade Notations**
- **AP.3.4 Midterm Reports**
- **AP.3.5 Final Grades**
- AP.3.6 Transcripts
  - AP.3.6.1 Transcript Key
- **AP.3.7 GPA**
- **AP.3.8 Change of Grade**
- **AP.3.9 Grade Appeals**
  - AP.3.9.1 Pending Grade Appeal for Students in Academic Difficulty
- AP.3.10 Final Exams
  - AP.3.10.1 Absences from Final Exams

AP.3.1 Undergraduate Grading

The university-wide system for undergraduate grading is as follows:

Grade	Quality Points	Undergraduate Courses
A+	4.00	Passing
A	4.00	Passing
A-	3.67	Passing
B+	3.33	Passing
B	3.00	Passing
B-	2.67	Passing
C+	2.33	Passing
C	2.00	Passing
C-	1.67	Passing
D	1.00	Passing
F	0.00	Failing

No credit toward graduation accrues from a failing grade or a grade that is replaced by a retaken course.

AP.3.1.1 Undergraduate Grading Scales

Grading scales are indicated on each specific course. Scales are listed below and indicate possible grades which may be earned within each:

- Undergraduate Regular: allows for all grades listed above in AP.3.1 as well as IN, AB
- Undergraduate Special (ABC/NC): only allows for A+, A, A-, B+, B, B-, C +, C, NC, IP
- Undergraduate Special: allows for all grades listed above in AP.3.1 as well as AB, IN, IP
- Satisfactory/No Credit: allows for S, NC, AB, IN, IP

AP.3.2 Graduate Grading

The university-wide system for grading graduate courses is as follows:

Grade	Quality Points	Graduate Courses
A+	4.00	Satisfactory/Passing
A	4.00	Satisfactory/Passing
A-	3.67	Satisfactory/Passing
B+	3.33	Satisfactory/Passing
B	3.00	Satisfactory/Passing
B-	2.67	Satisfactory[1]/Passing
C	2.00	Unsatisfactory/Passing
F	0.00	Unsatisfactory/Failing

[1] Although a B- is a satisfactory grade for a course, students must maintain a 3.00 average in their degree program and present a 3.00 GPA on the courses listed on the graduation application.

AP.3.2.1 Graduate Grading Scales

Grading scales are indicated on each specific course. Scales are listed below and indicate possible grades which may be earned within each:

- Graduate Regular: allows for all grades listed above in AP.3.2 as well as IN, AB
- Graduate Special: allows for all grades listed above in AP.3.2 as well as IN, AB, S, NC, IP
- Satisfactory/No Credit: allows for S, NC, AB, IN, IP

AP.3.3 Additional Grade Notations

Satisfactory/No Credit (S/NC)

An S grade reflects satisfactory work (C or better for undergraduate students, B- or better for graduate students); otherwise, the student receives no credit (NC). S and NC have no effect on the student's GPA. Entire courses normally graded S/NC are annotated in the catalog, and include doctoral dissertation courses 998 and 999. Students may also individually elect to take credit without grade, with restriction. For more information, see AP.1.4.6 Enrolling for Credit Without Grade Points (Satisfactory/No Credit) .

Incomplete (IN)

This grade may be given to students who are passing a course but who may be unable to complete scheduled coursework for a cause beyond reasonable control. Unless the faculty member has specified an earlier deadline, the student must then complete all the requirements by the end of the ninth week of the next semester, not including summer term, and the instructor must turn in the final grade by the end of the 10th week. Faculty members who choose to require an earlier incomplete deadline will be required to file an *Incomplete Grade Contract* with the local academic unit's office, detailing the work that remains to be done, the general reason for the incomplete, and the student's grade at the point of receiving the incomplete. Unless an explicit written extension is filed with the Office of the University Registrar by the faculty deadline, the grade of IN is changed by the University Registrar's office to an F. The maximum IN extension is to the end of the same semester in which it was originally due. Students who have filed their intent to graduate have only six weeks from the date of degree conferral to resolve any incomplete grades and have the final grades recorded by the University Registrar's office.

While a grade of IN remains on the transcript, it is treated as an unsatisfactory grade in determining probation, suspension, termination, or dismissal. Removal of INs from the transcript may result in retroactive elimination of probation, suspension, termination, or dismissal.

Incomplete, extended (IX)

IX is given by the Office of the University Registrar after receiving an Incomplete Extension form signed by the instructor and the appropriate dean. The extension gives students additional time to complete work; the amount of time is specified by the instructor. The final grade must be submitted to the University Registrar's office before final exams for the semester in which the IN grade was originally due. A grade of IX affects the academic record in the same way as does a grade of IN.

In Progress (IP)

This grade may be given in selected courses, including graduate theses, dissertations, practicums, and internships. IP may also be used when the work of BIS 490 RS: Senior Project (Mason Core)(Mason Core), CS 112 Introduction to Computer Programming, CS 211 Object-Oriented Programming, ECON 495 RS: Honors Thesis in Economics (Mason Core), or if a course that is graded S/NC or A/B/C/NC is not completed within one semester. IP has no effect on the GPA. With the exception of the formerly-mentioned courses, IP remains on the record until the work is completed and a final grade is assigned. An IP in BIS 490 RS: Senior Project (Mason Core)(Mason Core), CS 112 Introduction to Computer Programming, CS 211 Object-Oriented Programming, or ECON 495 RS: Honors Thesis in Economics (Mason Core) not changed to a final grade by the last day of classes of the next semester, not including summer term, is changed by the Office of the University Registrar to an F. IP grades will also be awarded in courses numbered 799, 998 and 999 until successful completion, and then they will be changed to S/NC. Upon successful completion of 799, 998 or 999 and submission of the final grade, grades for all prior sections will be changed to S/NC.

Absent with permission (AB)

A student who has received permission from the academic dean or director to be absent from a final exam for cause beyond reasonable control may receive a temporary grade of AB. A rescheduled exam must be administered within 10 business days of the original exam date, or the AB will automatically become an F. Final determination of academic status is not complete while the AB remains on the transcript.

Special Provision (SP)

The grade of SP may be given by a dean to students who are unable to complete the course requirements because of extraordinary long-term circumstances, such as major illness or military deployment. SP has no effect on the GPA and remains on the transcript until the work is completed and a final grade is assigned.

AP.3.4 Midterm Reports

Midterm progress is reported for all full-semester 100- and 200-level classes, and for 300- and 400-level classes at the discretion of the professor. The reporting period extends from the fifth through the eighth week of the semester, allowing flexibility to individual faculty in providing reports for their classes. Students should check with their instructors as to when reports will be complete and available for viewing through Patriot Web. These progress reports, which appear in Patriot Web as "Midterm Grades," do not become part of the student's official record. They are not calculated in any GPA, and they do not appear on any official or unofficial transcript.

AP.3.5 Final Grades

Semester grade reports are available through Patriot Web. Students may print a grade report for their own records or to issue to a third party.

AP.3.6 Transcripts

Official transcripts include all credit coursework attempted at the university, including all courses taken as a graduate, undergraduate or non-degree student. Official transcripts will not be issued when unsatisfied financial obligations to the university exist. Unofficial transcripts may be printed by the student from Patriot Web. See the Office of the University Registrar (http://registrar.gmu.edu) for information and instructions on ordering official transcripts.

The Antonin Scalia Law School issues transcripts for courses taken as a law student. See Law School (http://law.gmu.edu) for information and instructions on ordering transcripts.

AP.3.6.1 Transcript Key

The transcript key, which appears on the reverse side of official transcript paper, summarizes policy information pertinent to understanding individual students' transcripts and may be updated as necessary.

AP.3.7 GPA

Quality point values are assigned to letter grades as indicated in the grading system table. A quality point score is computed by multiplying the value of a letter grade by the number of credits for the course. For example, a student receiving an A (4.00) in a 3-credit course earns 12 quality points. The GPA is computed by dividing the quality points earned by the number of credits graded A+ through F (GPA hours).

For undergraduates, the GPA computed for the current term gives the **current GPA**, which is the measure of academic performance in one semester and affects eligibility for the dean's list. The GPA computed for all institutional credit gives the **cumulative GPA**, which is the basis for the university's retention policies, including good standing, warning, probation, suspension, and dismissal. Cumulative GPA also determines students' eligibility to graduate and have university honors posted to their record at graduation.

Current GPA and cumulative GPA do not apply to graduate students. A notation of academic warning is entered on the transcript of a graduate student who receives a grade of C, or a grade of F in a graduate course or while a grade of IN or IX is in effect. A degree GPA is computed for graduate students based on graded courses completed at the university and applied toward the degree. For more information, see AP.6 Graduate Policies.

AP.3.8 Change of Grade

The conditions and time limits for changes from the temporary grades IN, IP, AB, and SP to final grades appear in Additional Grade Notations.

Once a final grade has been recorded by the Office of the University Registrar, it can be changed only in cases of computational or recording error, or pursuant to a successful appeal of the grade as described below. Additional work of any type submitted to improve a grade after the final grade has been assigned and sent to the Office of the University Registrar is never accepted.

All changes of final grades must be initiated, approved, and recorded by the last day of classes of the next regular semester (spring for fall grades, and fall for spring and summer term grades).

AP.3.9 Grade Appeals

Although faculty members are generally the best judges of student performance, there may be times when a student believes a grade is unfair. In such cases, the student should ask the faculty member to reconsider the grade. If the student is not satisfied, an appeal may be made to the local academic administrator of the unit offering the course. The administrator should ask the student to return to the faculty member who assigned the grade for further consultation.

If the faculty member is no longer associated with the university, the administrator will appoint a faculty surrogate, who will assume the authority of the instructor of record.

If a mutually satisfactory agreement is not reached, the student may request that the administrator form a review committee of three faculty peers of the faculty member who assigned the grade. If the administrator believes the student's appeal does not have merit, this reservation is reported to the collegiate dean. If the dean concludes the student's appeal does not have merit, no review is conducted.

The faculty member or the student may challenge and have replaced one of the three members of the committee without giving a reason for the challenge. The committee meets separately with the faculty member and the student to explore the full particulars of the case. A nonparticipating observer of the student's choice may attend the meeting. Every effort is made to avoid an adversarial relationship.

After the committee has reviewed the case thoroughly, it issues to the administrator (with a copy to the faculty member) a written recommendation that includes the reasons for its findings. At this time, the faculty member has an opportunity to take the recommended action, if any. If the matter is not resolved at this point, the administrator considers the committee recommendation and makes a recommendation to the dean. If the dean decides that the recommendation to change the grade is appropriate and the faculty member refuses to make the change, then the dean may direct the Office of the University Registrar to do so. The decision of the dean is not subject to further appeal.

Grade appeals are not accepted after the last day of classes of the following semester (spring for fall grades, fall for spring and summer grades).

The Provost's Office does not consider grade appeals, nor does the University Academic Appeals Committee.

AP.3.9.1 Pending Grade Appeal for Students in Academic Difficulty

A student may request a delay from the dean in imposing academic suspension because of a pending grade appeal that could change the student's status. An approved delay allows the student to register.

If the grade appeal is successful, the official transcript is corrected and the student continues in classes as a student in good academic standing, on probation or on warning. If the grade appeal is not successful, the student is required to stop attending all classes immediately. No record of registration for the academic period appears on a transcript and the student receives the appropriate refund as of the decision date.

AP.3.10 Final Exams

Undergraduate courses usually culminate with a final exam. Except in predominantly laboratory courses, final exams may not be given during the last week of classes. Exams may not exceed the scheduled length of two hours, 45 minutes. Changes in location or time of in-class final exams must be approved by the appropriate department chair and dean. A professor who is considering assigning a take-home exam or significant end-of-semester paper or project should inform the students at the beginning of the semester. Such assignments should be distributed by the beginning of the last week of classes so that students can coordinate them with preparation for other exams. Students must not be required to submit exams before the date of the regularly scheduled exam for a

course. Retaking final exams is not permitted. Students who have more than two examinations scheduled on the same day should consult their instructors to make other arrangements. If campus-wide disruptions to class meeting schedules occur during the semester (e.g., due to severe weather), a revised final exam schedule may be issued. In this event, students and faculty are expected to adhere to the revised schedule. The examination period may be prolonged and individual exams may be shifted to the last day of the revised exam period.

Students with permission to take deferred examinations may receive a temporary grade of AB (absent with permission). Rescheduled exams must be completed within the time deadline set by the university. See below for more information.

AP.3.10.1 Absences from Final Exams

Absences from final exams will not be excused by the instructor except for sickness on the day of the exam. Other causes must be approved by the student's academic dean or director. The effect of an unexcused absence from an undergraduate final exam shall be determined by the weighted value of the exam as stated in the course syllabus provided by the instructor. If absence from a graduate final exam is unexcused, the grade for the course is entered as F. See AP.3.3 Additional Grade Notations for information on being absent with permission.

AP.4 Degree Application, Conferral and Graduation

AP.4 Degree Application, Conferral and Graduation

- **AP.4.1 Application for Degree**
- **AP.4.2 Degree Conferral**
  - AP.4.2.1 Definitions of Degree Components
  - AP.4.2.2 Catalog Requirements for Degrees
- **AP.4.3 Graduation**
- **AP.4.4 Conferral of Posthumous Degree**

AP.4.1 Application for Degree

In the semester prior to the expected completion of degree requirements, students must confirm their intent to graduate through Patriot Web (https://patriotweb.gmu.edu). The deadline to apply to graduate is generally three to four months prior to the conferral date. Specific deadlines and complete instructions regarding graduation are published on the Office of the University Registrar's website (http://registrar.gmu.edu). Separate applications for each graduate degree or certificate are required.

For a degree to be conferred, all coursework must be completed, even if the coursework is not being applied to the degree. All students must complete the following degree requirements prior to the conferral (graduation) date: credit-by-exam, oral exams, theses, scholarly papers, and comprehensive exams. Students in doctoral programs must also complete internship/practicum requirements prior to the conferral date. Master's theses and doctoral dissertations are due in the library well before the conferral date. For more information visit the University Dissertation & Thesis Services web (http://library.gmu.edu/udts/)page (http://thesis.gmu.edu).

Students must have active registration status in the semester or summer term of graduation. Students not registered for coursework in the term of graduation must obtain a special registration. (For more information, see AP.1 Registration and Attendance.) Degree applications will not be automatically extended if graduation is postponed; students must reapply for each conferral date.

AP.4.2 Degree Conferral

Mason awards degrees and certificates in programs and at levels authorized by the State Council of Higher Education for Virginia (SCHEV). The university confers degrees at the bachelor's, master's, and doctoral levels. An academic program may include a degree program and additional majors, minors, or certificates. The university offers no certificate program below the bachelor level; some post baccalaureate certificates, however, may be awarded concurrently with the bachelor's degree. For more information, see listings in Find Your Program (http://catalog.gmu.edu/programs/).

AP.4.2.1 Definitions of Degree Components

- **Degree program, major, or field**: A program of study that normally requires at least 30 credits of coursework in the specified field. The primary program name (degree and major or field) appears on the diploma for bachelor's and master's degrees. Only the degree name appears for doctoral degrees. An undergraduate who desires to graduate with a BA or BS degree in two or more subjects must meet departmental requirements for the major in each field. For each major, at least 18 credits used to fulfill its requirements must be applied only to that major, i.e., cannot be used to fulfill the requirements of a concentration, minor, undergraduate certificate, or another major.
- **Concentration**: A second-order component of a degree program. A concentration consists of at least 12 hours that are not applied to any other concentration. Undergraduate concentrations are approved by the Undergraduate Council at the undergraduate level or by the Graduate Council at the graduate level.
- **Certificate**: A non-degree program complementary to a degree that requires at least 15 unique undergraduate or 12 graduate credits. For each undergraduate certificate, at least 15 credits used to fulfill its requirements cannot be used to fulfill the requirements of a major, concentration, minor, or another undergraduate certificate. The name of a completed certificate program appears on the transcript after the conferral of an undergraduate degree. Certificates are approved by Undergraduate or Graduate Council as appropriate. Credits from a maximum of one graduate certificate may also apply to a master's or doctoral degree program.
- **Minor**: A complement to a bachelor's degree program or major normally requiring at least 15 credits in a field other than the student's major. Of the courses presented for a minor, at least 8 credits must be applied only to that minor and may not be used to fulfill requirements of the student's major, concentration, an undergraduate certificate, or another minor. When coursework for a minor is used to fulfill a component of a major, only those credits in excess of the 30 required for a major may be applied to the requirement for unique credits.
- **Option**: The choice of a thesis or nonthesis path in graduate programs.

AP.4.2.2 Catalog Requirements for Degrees

Catalog year refers to the setting of course and non-course requirements within academic programs as stated in the school and college section of a specific catalog. Catalog year does not set academic policies other than program requirements in place, however. For more information, see the Knowledge of University Policies section of the Student Rights and Responsibilities page. Not all programs and degree components are available in all catalogs. For any one degree, all requirements must be

met as stated in a single catalog. The only exception is that Bachelor's degree students may select a minor from another catalog year for which they are eligible, as noted below.

Bachelor's degree candidates may choose to graduate under the terms of any catalog in effect during their enrollment in degree status. Students who have been inactive for two or more years or who have attended another institution without prior approval from their academic dean or director must graduate under a catalog in effect at or after their re-admission and during their enrollment in degree status.

Master's and doctoral degree candidates who have been continuously enrolled may choose to graduate under the terms of any catalog in effect during their enrollment in degree status. Students who have been inactive more than one year, however, may be required by their program to graduate under a catalog in effect after they have been granted permission to re-enroll. In no case may a student choose the requirements of a future catalog year that take effect after the student's degree is anticipated.

AP.4.3 Graduation

Graduation ceremonies provide opportunities for students and their families to share in the conferral of academic degrees. Students who wish to participate should check GMU Events (http://events.gmu.edu) for current information about all graduation details including tickets, regalia, and schedules. Note: there is one formal commencement ceremony per year, in May, that includes all schools and colleges; students are recognized in groups, by their degrees. Each college holds a separate convocation where individual student names are called. Bachelor's and master's degree candidates who declare their intent to graduate in August but who have not yet completed all degree requirements may participate in the graduation ceremonies in anticipation of degree completion. Their names are marked with an asterisk identifying them as candidates pending completion of all requirements. Doctoral students may participate only if they have successfully completed all degree requirements, including defending and submitting a signed, final copy of their dissertation by the deadline. A Winter Graduation ceremony is held for August and December graduates where each student is individually recognized.

AP.4.4 Conferral of Posthumous Degree

A posthumous degree is an official Mason degree that is awarded to a deceased student in recognition of the student's academic achievement. The criteria for the award are established in order to uphold academic and institutional integrity. If a student does not qualify for a posthumous degree, an "In Memoriam" degree may be awarded to a student in good academic standing. Either degree award is subject to final review by the Provost.

Criteria

A posthumous degree may be awarded if, at the time of the student's death, he or she was enrolled in George Mason University, was in good academic standing, and was nearing completion of the requirements in the major degree program.

- **Undergraduate**: The student must have completed 90 credit hours, with at least 30 credit hours completed at Mason.
- **Graduate – Masters**: The student must have been admitted into degree status; completed at least 80% of the credit hours required for the degree, with at least 18 hours completed at Mason; and have a minimum GPA of 3.00 which does not include more than 6 credits of C.

  If the degree requirements include a thesis, the student must have completed sufficient research or scholarship such that a thesis or one or more articles can be prepared. The student's thesis committee must approve the thesis or article(s) and recommend granting the degree.
- **Graduate – Doctoral**: The student must have advanced to candidacy; completed all coursework required for the degree with a minimum GPA of 3.00 which does not include more than 6 credits of C; and must have completed a full draft of the dissertation. The student's dissertation committee must determine that the dissertation could have been defended and recommend granting the degree.

AP.5 Undergraduate Policies

AP.5 Undergraduate Policies

- **AP.5.1 Student Classification**
- **AP.5.2 Academic Standing**
  - AP.5.2.1 Academic Period
  - AP.5.2.2 Good Academic Standing
  - AP.5.2.3 Student Retention Categories
  - AP.5.2.4 Termination from the Major
  - AP.5.2.5 Academic Suspension
  - AP.5.2.6 Academic Dismissal
  - AP.5.2.7 Academic Performance and Credit Limit
  - AP.5.2.8 Academic Standing and Student Activities
  - AP.5.2.9 Academic Clemency
- **AP.5.3 Requirements for Undergraduate Programs**
  - AP.5.3.1 Declaration of Major
  - AP.5.3.2 Requirements for Bachelor's Degrees
    - AP.5.3.2.1 English Composition Requirement
    - AP.5.3.2.2 Writing-Intensive Course Requirement
  - AP.5.3.3 Second Bachelor's Degree
  - AP.5.3.4 Minors
  - AP.5.3.5 Undergraduate Certificates
  - AP.5.3.6 Change of Academic Program
  - AP.5.3.7 Credit for More than One Undergraduate Major
- **AP.5.4 University Honors**
- **AP.5.5 Dean's List**

AP.5.1 Student Classification

Admitted undergraduates are classified as follows:

- **Freshman**, 0–29 credits completed
- **Sophomore**, 30–59 credits completed
- **Junior**, 60–89 credits completed
- **Senior**, 90 or more credits completed

Full-time undergraduates are classified as those students enrolled in 12 or more credits per semester. Completed hours are defined as a combination of all credits earned at the university plus credits transferred from other institutions or obtained by testing. Please note that different criteria for full-time status may apply for tuition, verification, and financial aid purposes. For more information, contact the offices of Student Accounts (http://studentaccounts.gmu.edu/), University Registrar (http://registrar.gmu.edu), and Student Financial Aid (https://www2.gmu.edu/admissions-aid/financial-aid/), respectively.

AP.5.2 Academic Standing

The following system of academic progress became effective in fall 2004 and applies to all undergraduate degree and nondegree students at Mason.

Academic retention is based solely on the cumulative GPA. The cumulative GPA required for retention varies according to the credit level or attempted credit hours, which is a combination of all credits attempted at the university plus credits transferred from other institutions or obtained by testing.

AP.5.2.1 Academic Period

Academic period refers to fall semester, spring semester, or summer term. For determining the duration of academic warning, probation, and suspension, an academic period is defined as follows:

Each academic period begins on the 15th day following the last scheduled day of final exams for the previous period. Each academic period ends on the 14th day after the last scheduled day of final exams. For example, assume that the last scheduled day of final exams for a semester is Monday, December 23. That period then ends on Monday, January 6. The next period begins on Tuesday, January 7.

AP.5.2.2 Good Academic Standing

Students are in good academic standing unless they are academically dismissed, suspended, or on probation. Students on academic warning are still considered to be in good academic standing.

AP.5.2.3 Student Retention Categories

Students with at least 7 credits completed at Mason and a cumulative GPA of less than 2.00 fall into one of three categories: warning, probation, and suspension. All notations of academic standing are included in a student's permanent record. Students who plan to apply for financial aid should review the requirements for making Satisfactory Academic Progress (SAP), as found on the Financial Aid website (https://www2.gmu.edu/admissions-aid/financial-aid/), which differ from Academic Standing. The cumulative GPA range that defines each of the categories varies according to the credit level, as noted below:

Credit Level	Warning	Probation	Suspension
Attempted Credit Hours:	Cumulative GPA Range:	Cumulative GPA Range:	Cumulative GPA Range:
7-16	0.00-1.99	----	-----
17-29	1.75-1.99	1.00-1.74	0.00-0.99
30-59	1.85-1.99	1.25-1.84	0.00-1.24
60-89	1.95-1.99	1.55-1.94	0.00-1.54
90+	----	1.85-1.99	0.00-1.84

Exception for Freshmen and Transfer Students

Freshmen and transfer students in their first semester of study at Mason will receive probation as the strongest academic sanction. GPA retention levels, as stated above, will apply in all subsequent semesters. Students in this category should be on notice that they must improve their academic record to avoid suspension in future semesters; in particular they should consult their advisors and consider repeating courses to achieve academic good standing.

AP.5.2.4 Termination from the Major

Undergraduate students in any retention category may be reviewed for possible termination by their dean according to the published policy approved by the major program. Termination from a major—or from all majors in a college—may be imposed as a result of excessive repeating of required courses without achieving the minimum standard, and for other evidence of continued failure to make adequate progress toward completion of the major. Students must be informed a semester in advance and given a chance to meet the standard or appeal according to published college procedures. Once a termination decision has been made, a letter of termination is sent to the student by the dean and notification of termination from the major is affixed to the student's academic record. Students who are terminated are no longer eligible to pursue that major, but may declare a different major within the university to complete their undergraduate degree.

AP.5.2.5 Academic Suspension

Students in degree status who incur a first suspension following a spring semester or summer term serve a period of suspension through the next fall semester. Students who incur a first suspension following a fall semester serve a period of suspension through the next summer term. A second suspension is for one calendar year: two semesters and a summer term. Students returning from suspension are on probation for one academic period. Course credits earned at other colleges during the period of suspension from Mason (for academic or nonacademic reasons) are not accepted for the degree program.

Nondegree undergraduate students placed on suspension have no specified rights of return to the university. Nondegree students who have been suspended and wish to resume their studies after a period of absence must qualify for readmission through the Office of Admissions (https://www2.gmu.edu/admissions-aid/).

AP.5.2.6 Academic Dismissal

A third suspension results in academic dismissal, a status that is usually permanent. In exceptional cases, students who have been dismissed may apply for readmission after a minimum absence of three calendar years from the university, but only if they meet one or more of the following conditions after having been dismissed:

- Demonstrate academic success (2.50 GPA or better) in at least 18 credits of classes taken during the period of dismissal at an accredited two- or four-year college or university. Such credits may be considered for transfer back to Mason, but there is no guarantee of acceptance of the credit.
- Provide other evidence of a renewed ability to achieve academic success.
- Provide evidence that all degree requirements will be met once an additional 12 or fewer credits are complete.

Meeting the above requirements does not guarantee a return. The Office of Admissions and the appropriate school or college dean will make individual decisions in the best academic interests of the student and the university. For students seeking readmission to a new school or college, the new dean will make the decision in consultation with the former dean and the Office of Admissions (https://www2.gmu.edu/admissions-aid/). For more information, see AP.5.2.9 Academic Clemency.

AP.5.2.7 Academic Performance and Credit Limit

Undergraduate students on warning, probation, or returning from suspension are limited to a maximum of 13 credits for following semesters until they achieve good standing. Students registered for 14 or more credits are responsible for seeking academic advisement and adjusting their enrollment to a maximum of 13 credits.

AP.5.2.8 Academic Standing and Student Activities

Only students in good academic standing are eligible to hold or run for elective or appointive office in any organization or activity associated

with Mason, compete in any athletic or other activity representing Mason on either an intercollegiate or a club level, or serve as a working staff member of any student organization. Note that students on warning are considered to be in good standing. Some organizations and activities may impose stricter academic criteria for participation.

A student whose eligibility for an activity requires the completion of a semester will have fulfilled that requirement when the student's publicly scheduled exams are over, unless continued eligibility depends on the grades received. In the latter case, the student will not become eligible until the end of the semester as defined in AP.5.2.1 Academic Period.

AP.5.2.9 Academic Clemency

Undergraduate students returning to Mason after a separation of a minimum of three calendar years may petition their academic dean to have up to 16 previous credits earned at Mason removed from the calculation of their cumulative GPA. Courses and grades so removed will not count toward graduation requirements. Note that the courses, with their original grades and the notation "Academic Clemency," will remain listed on the student's transcript permanently. The petition for clemency must be filed within 12 months starting from the first day of the re-enrollment semester at Mason; approval may depend on successful completion of that semester. Approval of the request is neither automatic nor guaranteed.

AP.5.3 Requirements for Undergraduate Programs

AP.5.3.1 Declaration of Major

To plan a sound academic program, undergraduates should select a degree and major as soon as it is practical but no later than four weeks before the end of the sophomore year. To declare a major, students should confer with the appropriate advisor in the new major program. Students approaching the recommended point for declaring a major, but still uncertain of their choice, should consult:

Student Academic Affairs - Advising, Retention, and Transitions
Student Union Building I, Room 3600
advisor@gmu.edu

Note that all degree components including Mason Core, majors and concentrations must be contained in a single catalog year. See AP.4.2.2 Catalog Requirements for Degrees for exception regarding minors.

AP.5.3.2 Requirements for Bachelor's Degrees

- **Admission**. Candidates must have been officially admitted into degree-seeking status.
- **Residency**. At least one-fourth of the total credits applied to the degree must be completed at Mason and include at least 12 upper-level credits (courses numbered 300 or above) in the major program. A maximum of 30 credits earned in non-degree status at Mason can be applied toward a bachelor's degree.
- **Credit Hours**. Students must complete at least 120 credits that count toward graduation and fulfill all degree requirements. A few programs require more than the minimum 120 credits.
- **Quality**. Candidates must achieve a cumulative GPA of 2.00 or higher, and must meet all higher standards for grades allowable in majors, minors, or certificates. The Mason cumulative GPA does not include transfer courses.
- **Upper Level**. Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.
- Mason Core (formerly University General Education). Candidates must complete categories of general education courses and writing requirements as described for their catalog year. This includes satisfying the requirement of two semesters of English composition (ENGH 101 Composition (Mason Core)(Mason Core) and ENGH 302 Advanced Composition (Mason Core)(Mason Core)) with a grade of C or better. Additionally, as part of the university's commitment to student writers in all undergraduate programs, at least one upper-division course in each major has been designated as fulfilling the writing-intensive (WI) requirement.
- **College/Department General Education.** Students must satisfy additional general education requirements for specific degree programs, as described on each individual college page.
- **Major**. Students must satisfy all requirements for their major and degree program, as described on each individual college page, and as detailed in the degree evaluation for their catalog year.

AP.5.3.2.1 English Composition Requirement

Mason requires students to complete at least two semesters of English composition. Students who complete the Honors curriculum complete the English composition requirement through coursework in those programs. Equivalent credit may be granted through course transfer or external exam. Exemption (but not credit) may be granted through a proficiency exam administered by the English department. All other students must enroll in ENGH 101 Composition (Mason Core)(Mason Core) (or ENGH 100 Composition for Multilingual Writers (Mason Core)(Mason Core)) upon admission and, after meeting its prerequisites, ENGH 302 Advanced Composition (Mason Core)(Mason Core). Students must attain a minimum grade of C in composition courses to fulfill degree requirements.

AP.5.3.2.2 Writing-Intensive Course Requirement

As part of the university's commitment to student writers in all undergraduate programs, at least one upper-division course in each major has been designated as fulfilling the "writing-intensive" (WI) requirement. While other courses in the major may require written projects, teachers of the designated WI courses will devote class time to instruction on how to complete assignments successfully, assign and grade a minimum of 3500 words, provide constructive feedback on drafts, and allow revision of at least one graded assignment. See the description of each major for the specific course or courses that fulfill the WI requirement. For a complete list of approved courses, see Writing Intensive courses.

AP.5.3.3 Second Bachelor's Degree

A second bachelor's degree may be earned, either concurrently or sequentially. To graduate with two degrees, students must present at least 30 Mason credits beyond those required by either degree alone. For sequential awarding of degrees, students must be readmitted for the second degree through the Office of Admissions and complete a minimum of 30 credit hours after that point to have fulfilled the residency requirement for that degree.

Students who are concurrently pursuing two bachelor's degrees at Mason must present a detailed program of study for both degrees and obtain authorizing signatures from the chair or director of each degree program and the dean or director, if required by the college, school, or institute. Students may declare the second concurrent degree by completing the Declaration of Second Bachelor's Degree section of the Change/Declaration of Academic Program Form. Both degrees must be declared the semester before the student intends to graduate. Students pursuing concurrent degrees should apply to graduate when both degrees are complete, or be prepared to meet the requirements noted above for sequential awarding of degrees.

AP.5.3.4 Minors

Students may elect minor programs of study in addition to major fields. Minors usually require between 15 and 21 credits of study, at least 8 of which must be applied only to that minor and may not be used to fulfill requirements of the student's major, concentration, an undergraduate certificate, or another minor. Students must complete at least 6 credits in their minor at Mason and achieve a minimum 2.00 GPA in courses applied to the minor. Students interested in a minor should 1) consult the appropriate departmental sections in this catalog for the full details of the requirements, 2) meet with the appropriate minor advisor in order to obtain the required signature on the Minor Declaration form and, 3) submit a completed Minor Declaration form to the Office of the University Registrar. Note that these minor requirements are university minimum requirements; individual programs may have higher standards and/or more restrictive requirements which are listed in the appropriate departmental sections in this catalog.

AP.5.3.5 Undergraduate Certificates

There are two types of undergraduate certificates: certificates that are designed for students external to Mason, and those that require co-enrollment in a bachelor's program for current undergraduate students. All students pursuing undergraduate certificates must be admitted to Mason in degree-seeking status. Students external to Mason apply directly to the program through Undergraduate Admissions. Current students can elect to add an undergraduate certificate by submitting a completed Undergraduate Declaration of Certificate form to the Office of the University Registrar.

More than half of the credit hours for an undergraduate certificate must be taken at Mason, and more than half must be taken in degree-seeking status. Students must achieve at least a 2.00 GPA in courses applied to the certificate. Undergraduate certificate programs where the student is co-enrolled in a bachelor's program must have 15 unique credits that cannot also be used to fulfill the requirements of a major, a concentration, a minor, or another undergraduate certificate.

When the student is co-enrolled in a bachelor's degree program the completed undergraduate certificate may be posted to the transcript only after completion of a bachelor's degree. Note that these are university minimum requirements; individual programs may have higher standards and/or more restrictive requirements.

Students who are directly admitted to an undergraduate certificate program alone have eight semesters to complete certificate requirements. Such students who are given permission to re-enroll following an absence from Mason may not count the four-year time limit as beginning on the date of re-enrollment. International students attending in F-1 or J-1 status have a more restrictive time limit; contact the Office of International Programs and Services (https://oips.gmu.edu/) for information. Students who will not meet the published time limit because of circumstances beyond their control may petition their dean for an extension. Failure to meet the time limit or to secure approval of an extension request may result in termination from the program.

AP.5.3.6 Change of Academic Program

Students considering a change in their academic program (major or degree) are encouraged to see an advisor in the Academic Advising and Transfer Center or a faculty advisor in their prospective discipline. Departmental sections of this catalog describe requirements for acceptance. Students not meeting the requirements may appeal to the department chair for an exception.

Once a student has completed 60 credits, a change of major requires a meeting with an advisor in the new major before the change is complete. To file a change of major, signatures of advisor or designate in the new major program must be obtained on the Undergraduate Change/Declaration of Academic Program form (http://registrar.gmu.edu/forms/).

AP.5.3.7 Credit for More than One Undergraduate Major

Students seeking to graduate with a BA or BS degree in two or more subjects must meet departmental requirements for the major in each field. For each major, at least 18 credits used to fulfill its requirements cannot be used to fulfill the requirements of another major, a concentration, a minor, or an undergraduate certificate.

Students pursuing two or more concurrent majors must complete the Second Major section of the Undergraduate Change/Declaration of Academic Program form (http://registrar.gmu.edu/forms/). The applicant must present a detailed program of study for both majors and obtain the authorizing signature from the chair or director of the second program and from the dean or director, if required by the college, school, or institute. When required by a specific academic unit, department chairs and deans or directors must also approve all changes to the programs of study. Students may begin a program at any time that permits completion before the anticipated graduation date.

AP.5.4 University Honors

A student graduates with distinction from the University when at least 60 undergraduate institutional credits applied toward graduation are earned at Mason, and the student's cumulative GPA is at least equal to one of three values:

- 3.90, summa cum laude
- 3.70, magna cum laude
- 3.50, cum laude

A student graduates with recognition from the university when between 45 and 59 (inclusive) credits applied toward graduation are earned at Mason, and the student's cumulative GPA is at least 3.80.

In addition, high achieving students may qualify for membership in one of the many recognized university honor societies. In 2011, George Mason University was awarded a chapter in Phi Kappa Phi, the nation's oldest all-disciplinary honor society. In 2012, Mason was awarded a chapter of Phi Beta Kappa, the nation's oldest and most prestigious honor society dedicated to the liberal arts. Membership is by invitation only to both of these honor societies.

AP.5.5 Dean's List

Students in degree status who take at least 6 credits in a semester and earn a semester GPA of 3.50 or higher merit placement on the Dean's List. Courses subsequently repeated and excluded will not retroactively affect Dean's List status. This notation will be placed on the individual's permanent record.

AP.6 Graduate Policies

AP.6 Graduate Policies

- **AP.6.1 Student Classification**
  - AP.6.1.5 Institutional Credits
- **AP.6.2 Full-Time and Half-Time Status Classification**

- **AP.6.3 Academic Advising**
- **AP.6.4 Student Status**
  - AP.6.4.1 Non-degree Student Status
  - AP.6.4.2 Removing Provisional Qualifier
  - AP.6.4.3 Permission to Re-Enroll
  - AP.6.4.4 Voluntary Resignation from Graduate Academic Program
  - AP.6.4.5 Graduate Student Parental Leave of Absence
- **AP.6.5 Credit by Exam, Reduction or Transfer**
  - AP.6.5.1 Credit by External Exam
  - AP.6.5.2 Reduction of Credits
  - AP.6.5.3 Transfer of Credit
  - AP.6.5.4 Permission to Study Elsewhere
- **AP.6.6 Graduate Academic Standing**
  - AP.6.6.1 Academic Warning
  - AP.6.6.2 Academic Termination
  - AP.6.6.3 Readmission to Graduate Study at Mason
- **AP.6.7 Bachelor's/Accelerated Master's Degrees**
  - AP.6.7.1 Application and Admission
  - AP.6.7.2 Coursework Requirements
  - AP.6.7.3 Timeline Requirements
  - AP.6.7.4 Instructions for International Students
- **AP.6.8 Requirements for Graduate Certificates**
  - AP.6.8.1 Students in Master's or Doctoral Programs also Pursuing Graduate Certificates
  - AP.6.8.2 Students in Graduate Certificate Programs Only
  - AP.6.8.3 Financial Aid for Students in Certificate Programs Only
- **AP.6.9 Requirements for Master's Degrees**
  - AP.6.9.1 Thesis Options
  - AP.6.9.2 Time Limit
  - AP.6.9.3 Master's Thesis
  - AP.6.9.4 Thesis Submission
  - AP.6.9.5 Doctoral Students Also Pursuing a First Master's Degree
  - AP.6.9.6 Individualized Dual Master's Degree Programs
- **AP.6.10 Requirements for Doctoral Degrees**
  - AP.6.10.1 Time Limit
  - AP.6.10.2 Doctoral Research Skill Requirements
  - AP.6.10.3 Program of Study
  - AP.6.10.4 Advancement to Candidacy
  - AP.6.10.5 Dissertation Committee
  - AP.6.10.6 Dissertation Registration (998, 999)
  - AP.6.10.7 Doctoral Dissertation
  - AP.6.10.8 Doctoral Defense
  - AP.6.10.9 Dissertation Submission and Fees
  - AP.6.10.10 University Dissertation and Thesis Services
- **AP.6.11 Graduate Council**
- **AP.6.12 Graduate Faculty**

At the graduate level, Mason offers certificate programs of study and master's and doctoral degree programs. There are also a number of combined bachelor's and accelerated master's degree programs for academically-strong undergraduates with a commitment to learning advanced skills in a specialized field of study.

AP.6.1 Student Classification

Students may access graduate classes and programs according to their status as non-degree or enrolled degree students. For more information, see Graduate Admissions.

AP.6.1.5 Institutional Credits

Graduate students at Mason are required to successfully complete more than half of the minimum required credits towards their degree program at Mason. See AP.6.5 for Credit by Exam, Reduction of Credit or Transfer of Credit opportunities.

AP.6.2 Full-Time and Half-Time Status Classification

Graduate students are considered full-time if they are enrolled in at least 9 graduate credits per semester or hold a full-time assistantship (total 20 hours a week) and are enrolled in at least 6 graduate credits per semester. Graduate students are considered half-time if they are enrolled in at least 4.5 graduate credits per semester.

Master's students who are enrolled in thesis credits are considered full-time if they are enrolled in at least three credits of 799 per semester. Master's students may enroll in 1 credit of 799 and be considered in status (either full-time or half-time) only if they have completed 3 credits of 799 and the student along with their advisor and department chair certify each semester that the student is working full-time or half-time on the thesis. See AP.6.9.3 Master's Thesis for more information regarding 799.

Doctoral students who are enrolled in dissertation credits (either 998 or 999) are considered full-time if they are enrolled in at least 6 credits per semester, regardless of whether they hold an assistantship. Doctoral students who have advanced to candidacy and have completed the minimum number of credits required by the university and their degree program, including the minimum number of credits of 998 and 999, are considered in status (either full-time or half-time) if they are registered for at least 1 credit of 999 and the student along with their advisor and department chair certify and communicate to the Office of the University Registrar each semester that they are working full-time or half-time on the dissertation. See AP.6.10.6 Dissertation Registration for more information regarding 998 and 999.

To be considered as full-time under the aforementioned clauses, a student must complete and submit the appropriate forms (https://registrar.gmu.edu/forms/graduate/) to the Office of the University Registrar prior to the first day of classes for the semester. Different requirements for full-time and half-time status may apply for tuition, verification, loan deferral, and financial aid. Contact Student Accounts (http://studentaccounts.gmu.edu/), the Office of the University Registrar (http://registrar.gmu.edu), and Student Financial Aid (https://www2.gmu.edu/admissions-aid/financial-aid/), respectively, for more information. Note that the official designation of time status for all students is determined by the Office of the University Registrar.

AP.6.3 Academic Advising

When a student is admitted to graduate study, the student is assigned a faculty advisor by the academic program responsible for the student's program of study. Registration for newly admitted graduate students, as well as continuing students, begins with a visit to the student's academic advisor. There, the student can obtain information about specific courses and degree requirements and develop an individual program of study. Progress in an approved program of study is the shared responsibility of the student and the advisor. The graduate student is responsible for compliance with the policies and procedures of the college, school, or

institute, and all applicable departmental requirements that govern the individual program of study. Students should consult with their advisors before registration each semester.

AP.6.4 Student Status

AP.6.4.1 Non-degree Student Status

Students may pursue graduate study in non-degree status. Such students who wish to pursue a degree or certificate program are encouraged to apply for admission to a degree program as soon as possible. All program admission requirements must be met, including official transcripts, letters of recommendation and standardized test scores, if applicable. If the student intends to use credits earned in non-degree status toward a degree, the credits must be approved on the Graduate Transfer of Credit Request form (https://registrar.gmu.edu/forms/graduate/). The credits must have been earned within six years prior to first enrollment as an admitted student in the specific degree program, and a minimum grade of B (3.00) must have been earned in each course. A maximum of 12 credits can be transferred to a degree or certificate program.

AP.6.4.2 Removing Provisional Qualifier

For policies concerning students admitted provisionally, see Graduate Admission Policies.

AP.6.4.3 Permission to Re-Enroll

Permission to re-enroll in a program must be obtained by all graduate certificate, master's and doctoral degree students who have failed to enroll in at least 1 credit of coursework for two or more consecutive semesters at Mason. A program may allow a student to petition to graduate under any catalog in effect while the student was enrolled. All program components, including concentrations, must appear in the catalog for the year selected. The final decision as to catalog year rests with the unit dean or director. The Graduate Re-enrollment form is available here (http://registrar.gmu.edu/forms/).

AP.6.4.4 Voluntary Resignation from Graduate Academic Program

Degree-seeking students may officially resign from an academic program with the approval of their department chair or program director and the dean or director of the school, college, or institute. The Voluntary Resignation form (https://registrar.gmu.edu/forms/graduate/) must then be approved by the Office of Student Accounts and submitted to the Office of the University Registrar for transcript notation. Students who resign after the drop period may either complete the courses they are currently enrolled in or immediately withdraw, which will result in grades of W on the student's transcript for that semester. All students that have resigned will be removed from any future registered courses. Program resignation is final.

AP.6.4.5 Graduate Student Parental Leave of Absence

All degree-seeking graduate students actively enrolled for at least one academic year or four consecutive 8-week sessions, as appropriate to the student's academic program calendar, who intend to become parents via birth, adoption, foster or custodial care placement shall have the option, after notice to the Associate Provost for Graduate Education (APGE), of taking a Parental Leave of Absence (PLoA).

Purpose:
The PLoA period of time shall not count towards the student's time limit to degree completion as applicable under AP.6.9 (https://catalog.gmu.edu/policies/academic/graduate-policies/), and AP.6.10 (https://catalog.gmu.edu/policies/academic/graduate-policies/). The student's time limit will be extended to include one semester or two consecutive 8-week sessions, as appropriate to the student's academic program calendar, for an approved PLoA. The PLoA can be taken in either the fall or spring semester or for two consecutive 8-week sessions, as appropriate to the student's academic program calendar. Once the student's approved PLoA expires, the student's time limit to degree completion will resume.

Scope:
This policy applies to all graduate students regardless of gender identity, marital status, and whether or not the student is the birth parent or non-birth parent. The approved PLoA time period must be taken in its entirety as one event. The student may schedule the approved PLoA to begin up to six months after the anticipated birth/adoption/placement of the child. A PLoA can only be used once per child. Simultaneous births or placements are treated as one event. The use of this policy does not impact the availability of a non-academic withdrawal outside of the PLoA period, and it may be considered in any future PLoA or time limit to degree completion policy exception requests and appeals.

Notification:
Students must request a PLoA at least six weeks prior to the start of the semester or session in which the PLoA will begin. See here (https://provost.gmu.edu/academics-and-research/graduate-education/graduate-student-academic-appeals/)for information on the procedures for completing a PLoA notification. Upon notification, the APGE shall confirm the upcoming PLoA to the student, University Registrar, the student's respective College/School and local academic unit. A copy of a birth or placement record or equivalent documentation will need to be presented by the student to the APGE once available.

Requirements:
Students shall not be responsible for new tuition or fees during the approved PLoA period. A student may not enroll in courses at Mason, nor at any other institution, while on a PLoA. Students are not required nor expected to conduct academic work or research towards degree requirements during the PLoA. Students shall maintain access to their Mason e-mail account and may, under certain circumstances, be eligible to maintain access to Mason student health insurance for up to one academic year. See Student Health Services (https://shs.gmu.edu/) for more information. Students are advised that some university services and resources may be limited to registered students and would not be accessible during their PLoA. As applicable, students are exempt from continuous registration requirements under AP.6.10.6 (https://catalog.gmu.edu/policies/academic/graduate-policies/) or AP.6.9.3 (https://catalog.gmu.edu/policies/academic/graduate-policies/) during the approved PLoA period. Upon the expiration of a PLoA, all academic responsibilities resume.

Return:
Faculty, student applicants, and staff are encouraged to work together in order to facilitate the PLoA process and ensure students return to their same time to degree completion status as before the PLoA. Any student on a PLoA may be required by the local academic unit or College/School to advise them of their return prior to their first semester or 8-week session back as an enrolled student. Any PLoA student who fails to return and register in a timely manner by the add/drop deadline in the semester or 8-week session after a PLoA shall still have their time limit to degree resume and will be required to re-enroll in their graduate program upon their return.

Exception Request:
The APGE may review and approve student requests for an exception to the requirements of this policy, including requests to extend such leave for one additional semester or a consecutive third and fourth 8-week session, as appropriate to the student's academic program calendar. The

maximum period allowed for a PLoA shall not exceed one academic year (fall, spring) or four consecutive 8-week sessions, as appropriate to the student's academic program. If an exception to this policy is desired, see here (https://provost.gmu.edu/academics-and-research/graduate-education/graduate-student-academic-appeals/) for further information. Should a student's PLoA policy exception request be denied, the student shall have one level of appeal to the Graduate Academic Appeals Committee (GAAC). See here (https://provost.gmu.edu/academics-and-research/graduate-education/graduate-student-academic-appeals/) for more information.

Other Provisions:
Students receiving financial aid should consult with the Office of Financial Aid (https://www2.gmu.edu/admissions-aid/financial-aid/)to determine any financial impact before a PLoA form is submitted. Per university policy, non-enrolled students, including those on a PLoA, may not continue to hold any existing university funded assistantships, fellowships, and/or scholarships. However, they may be rehired upon return at the discretion of the funding authority and in compliance with all applicable university policies and procedures. This policy does not address any employment, scholarships or fellowships that are funded by entities external to the university. Students should consult with relevant faculty, supervisors, and/or departments to address such issues before deciding whether to submit a PLoA.

Students who are neither United States citizens nor permanent residents must first consult with Office of International Programs and Services (https://oips.gmu.edu/) to discuss the impact of such a leave on the student's non-immigrant status in the United States.

AP.6.5 Credit by Exam, Reduction or Transfer

AP.6.5.1 Credit by External Exam
Degree credit for satisfactory completion of an external exam is limited to those exams and achievement levels specifically approved by the Graduate Council.

AP.6.5.2 Reduction of Credits
All students must meet the institutional credit requirement; however, the number of credits required by a doctoral, or master's program may be reduced on the basis of a relevant post-baccalaureate degree earned prior to admission. Reduction of credits requires the approval of the program director and the dean or director of the school, college, or institute. They determine whether the credits are applicable to the degree program and the number of credits to be reduced.

Doctoral Programs
The maximum reduction for doctoral programs derives from the total credits required by the program and the university requirements for institutional and unique credits. For a 72-credit program, the maximum reduction is 30 credits. Programs that require more than 72 credits may be reduced by more than 30 credits provided that the student meets the aforementioned university requirements. Doctoral students earning a secondary master's degree at Mason do not receive a reduction of credits and should indicate on their program of study which courses apply to the doctoral degree. Because individual doctoral programs may have more restrictive policies, make sure to consult with the program and/or academic unit to learn of their reduction of credit policies.

Students requesting a reduction of credits must supply official transcripts. For transcripts from outside the United States, students must supply an official transcript evaluation and an official translation for transcripts not in English if these documents were not supplied in the admission process. Reduction of credits requests from students who are admitted provisionally are not considered until the students have fulfilled the conditions of their admission and had the provisional qualifier removed from their records.

Credits used in reduction of credits are not subject to time limits, and the credits must have been applied to a previous degree. The credits used in the reduction may include transfer credit used for a previously earned degree but may not include credits that are applied to both an undergraduate and graduate degree in a joint bachelor's/master's program or in Mason's Bachelor's/Accelerated Master's Programs. Reduction of credits may not be requested for more credits than were applied to the previous degree. Excess thesis credits beyond those allowed by the previous degree may not be applied to a reduction of credits.

Coursework applied to a reduction must have received a minimum grade of B. Courses graded 'pass/fail' or 'satisfactory/no credit' may be applied to a reduction of credits provided that is the standard grade mode for the course and that it can be reasonably interpreted as a B or better according to the home institution's grading system. Graduate degrees that follow a non-standard format will be evaluated on a case-by-case basis.

Masters Programs
The maximum reduction for master's programs derives from the total credits required by the program and the university requirements for institutional credits. Because individual master's programs may have more restrictive policies, make sure to consult with the program and/or academic unit to learn of their reduction of credit policies.

Students requesting a reduction of credits must supply official transcripts. For transcripts from outside the United States, students must supply an official transcript evaluation and an official translation for transcripts not in English if these documents were not supplied in the admission process. Reduction of credits requests from students who are admitted provisionally are not considered until the students have fulfilled the conditions of their admission and had the provisional qualifier removed from their records.

Credits used in reduction of credits are not subject to time limits, and the credits must have been applied to a previous degree. The credits used in the reduction may include transfer credit used for a previously earned degree but may not include credits that are applied to both an undergraduate and graduate degree in a joint bachelor's/master's program or in Mason's Bachelor's/Accelerated Master's Programs. Reduction of credits may not be requested for more credits than were applied to the previous degree. Excess thesis credits beyond those allowed by the previous degree may not be applied to a reduction of credits.

Coursework applied to a reduction must have received a minimum grade of B. Courses graded 'pass/fail' or 'satisfactory/no credit' may be applied to a reduction of credits provided that is the standard grade mode for the course and that it can be reasonably interpreted as a B or better according to the home institution's grading system. Graduate degrees that follow a non-standard format will be evaluated on a case-by-case basis.

AP.6.5.3 Transfer of Credit
Graduate credit earned prior to admission to a certificate, master's, or doctoral program may be eligible to be transferred into the program and applied to the certificate or degree. Transfer of credit requires the approval of the program director and dean or director of the school, college, or institute. They will determine whether the credit is eligible for

transfer and applicable to the specific certificate or degree program. Note that credits accepted for transfer do not compute into any Mason GPA. Limits on the number of credits that can be transferred derive from the degree requirements given below.

Credit is usually considered for transfer at the student's request at the time of initial registration as a degree-seeking student. Students must supply official transcripts. For transcripts from outside the United States, students must supply an official transcript evaluation and an official translation for transcripts not in English if these documents were not supplied in the admission process. Credit transfer requests from students who are admitted provisionally are not considered until they have fulfilled the conditions of their admission and the provisional qualifier has been removed from their records.

To be eligible for transfer credit, the credit must be graduate credit earned at another accredited university, earned at another institution and recommended for graduate credit in the American Council on Education guidebook, or earned at Mason while in a non-degree status. The credit must have been earned within six years prior to first enrollment as an admitted student in the specific certificate or degree program, and a minimum grade of B (3.00) must have been earned. The course must be applicable toward a degree at the institution offering the course. Extension and in-service courses that are not intended by the institution offering the courses to be applied to a degree program are not eligible for transfer credit to Mason. The credits cannot have been previously applied toward a degree at another institution or Mason; however, up to 3 credits previously applied to a degree program at another institution may be transferred into a certificate program at Mason.

AP.6.5.4 Permission to Study Elsewhere

Students enrolled in a degree program may take graduate courses at another accredited institution and apply these credits to a master's or doctoral degree with prior approval. Approval must be secured in writing from the director of the graduate program and the dean or director of the school, college, or institute, and submitted to Mason's Office of the University Registrar before registering at the other institution. Upon completion of the course, students must arrange for an official transcript to be submitted to Mason so that the credits may be transferred into their Mason degree program. These credits are subject to all the other conditions given above for transfer credit, including limits on numbers of credits that can be taken elsewhere. Note that credits accepted for transfer do not compute into any Mason GPA. Permission to take a course elsewhere does not exempt a graduate student from satisfying the degree requirements given below.

Enrolled, degree-seeking graduate students may be eligible to take a limited number of courses through the Consortium of Universities of the Washington Metropolitan Area. See AP.1.4.2 Permission to Study Elsewhere for more information. Credits earned through the consortium are considered resident, not transfer, credits, and are therefore not subject to transfer of credit conditions or limitations.

AP.6.6 Graduate Academic Standing

AP.6.6.1 Academic Warning

A notation of academic warning is entered on the transcript of a graduate student who receives a grade of C or F in a graduate course or while a grade of IN is in effect.

AP.6.6.2 Academic Termination

A degree-seeking graduate student will be terminated for the reasons listed below unless an academic policy exception is obtained. Non-degree graduate students will be terminated for unsatisfactory performance as described below. These are minimum standards of performance; some programs have higher standards. Note that the university reserves the right to terminate any student based on cancellation (by the testing administrator) of any test score required for admission. Once a student has met the criteria for termination, they may only avoid termination by obtaining an academic policy exception, as described below, through the process provided for by their academic unit in conjunction with the Associate Provost for Graduate Education.

Students May be Terminated for Any One of the Following Reasons
Fully-Admitted Graduate Students Enrolled in a Degree and/or Certificate Program

- Fail to make satisfactory progress toward degree as determined by the academic unit and/or Associate Provost for Graduate Education.
- Accumulate grades of F in two graduate courses or 9 credits of unsatisfactory grades in graduate courses.

Provisionally-Admitted Degree Seeking Graduate Students

- Fail to meet provisions of admission within time limits.
- Fail to make satisfactory progress toward the degree, as determined by the academic unit and/or Associate Provost for Graduate Education.
- Accumulate 12 credits of unsatisfactory grades in undergraduate courses.
- Accumulate grades of F in two graduate courses or 9 credits of unsatisfactory grades in graduate courses.

Note: Undergraduate and graduate course grades are not combined to reach the termination threshold; they are considered separately.

Non-Degree Graduate Students

- Accumulate 12 credits of unsatisfactory grades in undergraduate courses.
- Accumulate grades of F in two graduate courses, or 9 credits of unsatisfactory grades in graduate courses.

Note: Undergraduate and graduate course grades are not combined to reach the termination threshold; they are considered separately.

The student is responsible for knowing both the termination criteria (including, but not limited to, program time limits and grade requirements) and the process for initiating an academic policy exception request to the dean of their academic unit. In cases of program time limits and grade requirements, the University Registrar will notify the student within two weeks of termination eligibility that the student's performance has reached the threshold for termination, provide notice of the start of the request for exception period, and direct the student to their respective academic unit for information on submitting an academic policy exception request. For all other termination criteria, the academic unit will notify the student within two weeks of termination eligibility that the student's performance has reached the threshold for termination, provide notice of the start of the request for exception period, and direct the student to information on submitting an academic policy exception request.

Each academic unit, and the Associate Provost for Graduate Education as applicable, shall publish on their respective university web page the process for initiating an academic policy exception request and the criteria used in their respective reviews. Each academic unit and the Associate Provost for Graduate Education shall also publish on their respective university web pages the process for filing an appeal of an

academic policy exception denial. The Associate Provost for Graduate Education is responsible for publishing the criteria used by that office and by the Graduate Academic Appeals Committee during their respective appeal reviews. During the review of any request or appeal, the student may register and enroll in classes.

Once an academic policy exception request or appeal period has expired, or when the student's exception request has been denied by the academic unit, the Associate Provost for Graduate Education, or the Graduate Academic Appeals Committee with no further appeal option, a letter of termination signed on letterhead by the dean or director of the student's academic unit will be sent to the student by mail and email within one week, with an electronic copy provided to the University Registrar. A notification of academic termination will be affixed to the graduate student's official record and the student may then be administratively dropped or withdrawn from currently enrolled classes. See AP.1.3 for more information.

Should a student continue:

- in the enrolled degree and/or certificate program or non-degree program, **or**
- change programs within a single college without going through an admissions process

any grades of F or unsatisfactory grades shall count toward reaching the termination threshold as described above.

AP.6.6.3 Readmission to Graduate Study at Mason

Former graduate students who have been terminated, dismissed or have resigned from a Mason graduate program are not permitted to take any additional coursework at Mason unless a new graduate program application has been submitted and the applicant has been admitted to graduate study. Time limits for the degree begin with the date of admission to the new program. If the student applies and is readmitted to the same graduate program at Mason from which the student was terminated, dismissed, or resigned, any grades of F or unsatisfactory grades accumulated within six years prior to readmission shall count toward reaching the termination threshold.

Academic units and programs may have additional restrictions concerning readmission. If so, those restrictions apply. Any previously earned credit applied to the new graduate program must have been earned within six years prior to enrollment in the new graduate program. Upon full admission to an alternative graduate program at Mason, any grades of F or unsatisfactory grades accumulated in previous graduate programs at Mason will be excluded and shall not count towards reaching the termination threshold as described in AP.6.6.2 (https://catalog.gmu.edu/policies/academic/graduate-policies/).

AP.6.7 Bachelor's/Accelerated Master's Degrees

The university offers a number of combined bachelor's and accelerated master's degree programs for academically-strong undergraduates with a commitment to advance their education in a specialized field of study. Admitted students may obtain both a bachelor's and a master's degree after satisfactory completion of at least 138 credits (total number of required credits depends on the requirements of both the undergraduate and graduate programs). Once matriculated into the master's program, students are assessed graduate tuition and are subject to all graduate academic policies as detailed in the University Catalog.

AP.6.7.1 Application and Admission

Application to accelerated master's degree programs should be made once the student has earned at least 60 credits. The graduate application fee is waived. Admission is competitive and must be approved by the designed administrator(s) or equivalent within both the student's undergraduate and graduate degree programs.

AP.6.7.2 Coursework Requirements

After admission and successful completion of 75 undergraduate credits, accelerated master's students shall complete 3 to 12 credits of approved advanced standing graduate courses in their field of study. Students must earn a minimum grade of B in each of the approved graduate courses. These approved advanced standing credits apply to both the undergraduate and graduate degrees. All required graduate course prerequisites must be completed prior to enrollment. Moreover, accelerated master's students, may earn up to 6 additional reserve credits of graduate coursework, while still in undergraduate status. These reserve credits apply to the master's degree program, but do not apply to the undergraduate degree program.

Accelerated pathways totaling less than 150 credits must cover all competencies in both the undergraduate and graduate degrees. In cases where pathways allow for the substitution of undergraduate elective credits by graduate level elective credits, the graduate level elective credits must align with the requirements of the graduate level program while maintaining the breadth of knowledge imparted by the undergraduate degree program.

Each pathway must offer a curated list of courses that are consistent with these requirements and that maintain the integrity of both the undergraduate and graduate degree programs. Completion of the bachelor's accelerated master's degree requires that all university requirements for the master's degree are met, including the institutional credit requirement and graduate time limit to degree requirement. For more information on undergraduate students who want to enroll in graduate courses, see AP.1.4.4 Graduate Course Enrollment by Undergraduates.

AP.6.7.3 Timeline Requirements

Accelerated master's students must graduate from their undergraduate program in the semester specified on their transition form (https://registrar.gmu.edu/forms/) for the accelerated degree program. In addition to applying for graduation, students in the accelerated programs must submit a transition form to their undergraduate local academic unit by the last day to add classes of their final undergraduate semester. Transition forms must be approved by the student's intended graduate program. Students should enroll in the related master's program in the fall or spring semester that immediately follows the term of undergraduate degree conferral. If students elect to delay enrollment in the chosen master's program they can defer for up to one semester following the term of undergraduate degree conferral, subject to the constraints of their master's program. Deferrals and changes to the timeline must be approved by the graduate program director. Failure to enter the graduate program in accordance with specified timelines will result in forfeiture of graduate advanced standing courses earned under the undergraduate status.

AP.6.7.4 Instructions for International Students

F-1 and J-1 students must request a change of program level and an I-20/DS-2019 extension at the time they move from the undergraduate to graduate level of study. Funding for the additional time in F-1 or J-1 status also must be documented as required by federal immigration regulations.

AP.6.8 Requirements for Graduate Certificates

Candidates must satisfy all applicable university requirements and all requirements established by the graduate certificate program faculty. Individual departmental graduate certificate requirements are listed under their academic departments in this catalog. Note that the following are university minimum requirements; individual programs may have higher standards and/or more restrictive requirements.

- Graduate certificate programs require a minimum of 12 and a maximum of 24 graduate credits.
- Only graduate courses may apply toward the graduate certificate.
- A maximum of 3 graduate credits taken at another institution can be transferred into a graduate certificate program. See AP.6.5 Credit by Exam (https://catalog.gmu.edu/policies/academic/graduate-policies/).
- More than half of the minimum required credits applied to the certificate must be earned through direct instruction at Mason.
- In the case of a certificate offered through consortia arrangement, at least one-third of the credits applied to the certificate must be earned through direct instruction at Mason.
- Candidates must have a minimum GPA of 3.00 in coursework presented on the certificate application, which may include no more than 3 credits of C. The GPA calculation excludes transfer credits.
- Certificate students are subject to graduate termination policies.
- Certificate students who satisfy the degree requirements of more than one certificate at Mason may apply coursework from multiple certificates towards a Mason master's or doctoral degree program. No credits can be triple counted nor substituted for the degree program requirements. Program acceptance is subject to all applicable admissions requirements.

AP.6.8.1 Students in Master's or Doctoral Programs also Pursuing Graduate Certificates

Admission

Students must be admitted to the master's or doctoral program and enrolled in active degree-seeking status. All master's and doctoral admission requirements apply. In order for both the degree program and graduate certificate to be conferred at the same time, students must be admitted to the graduate certificate program prior to applying for graduation.

Time Limits

The time limits coincide with the six-year time limit for master's degrees or the six-year time limit for advancement to candidacy in a doctoral degree. Master's and doctoral time limit rules apply.

Multiple Programs

Students may be enrolled in one graduate certificate program at a time while they pursue a master's or doctoral degree. Students may share coursework between their primary degree program (master's or doctorate) and secondary graduate certificate. No credits can be triple counted.

AP.6.8.2 Students in Graduate Certificate Programs Only

Admission

Students pursuing graduate certificate programs must be admitted to Mason, in the same way as degree-seeking students. As such, failure to make satisfactory progress (as determined by the academic unit and/or Associate Provost for Graduate Education) toward certificate requirements may result in termination from the certificate program. Certificate students who earn one or more certificates at Mason may apply coursework from multiple certificates toward a Mason master's or doctoral degree program. No credits can be triple counted nor substituted for the degree program requirements. Program acceptance is subject to all applicable admissions requirements.

Coursework After Admission

More than half of the credits required for the graduate certificate program must be taken after admission to that program.

Time Limits

Certificate program students have six (6) years from the date of admission to the graduate certificate program. Individual certificate programs may have stricter time limits, which are published in this catalog. International students attending in F-1 or J-1 status have more restrictive time limits; contact the Office of International Programs and Services for information. Students who are given permission to re-enroll following an absence from Mason may not count the six-year time limit as beginning on the date of re-enrollment. Students who will not meet published time limits because of compelling circumstances beyond their control may request an exception to this policy by petitioning their dean for a single extension of time prior to the expiration of their time limit. If any extension is granted the total time limit for completion of the degree will not exceed seven (7) years. Failure to meet the time limit or to secure approval of an exception to this policy through the process described in AP.6.6.2 (https://catalog.gmu.edu/policies/academic/graduate-policies/) shall be considered a failure to make satisfactory academic progress and result in termination from the program. This policy does not supersede a student's university-approved disability services accommodations plan.

Multiple Programs

Students not admitted to any graduate degree program (master's or doctoral) may be admitted to two graduate certificate programs at the same time. The graduation application for each graduate certificate must include a minimum of 12 credits that apply only to that certificate and not to another.

AP.6.8.3 Financial Aid for Students in Certificate Programs Only

Not all certificate programs are eligible for Federal financial aid. A list of the eligible graduate certificates can be found in Financial Aid.

AP.6.9 Requirements for Master's Degrees

Candidates must satisfy all applicable university degree requirements and all requirements established by the master's program faculty. Individual departmental degree requirements are listed under the respective master's programs in this catalog. Programs may impose more stringent requirements.

- **Admission**. Candidates must have been officially admitted into degree status.
- **Credit Hours.** Candidates must earn a minimum of 30 graduate credits.
- **Credit Level.** Only graduate courses may apply toward the degree.
- **Institutional Credit.** More than half of the required minimum credits applied to the degree must be earned at Mason. Or, in the case of programs offered through joint, cooperative, or consortium arrangements, at the participating institutions, at least one-third of the credits applied to the master's degree must be earned through direct instruction at Mason.
- **Thesis/Project Limits.** A maximum of 6 credits of master's thesis research (799) or master's project may be applied to the degree.

- **Quality**. Candidates must have a minimum GPA of 3.00 in coursework presented on the degree application, which may include no more than 6 credits of C. (Grades of C+, C-, or D do not apply to graduate courses. The GPA calculation excludes all transfer courses and Mason non-degree studies credits not formally approved for the degree.)

AP.6.9.1 Thesis Options

Requirements regarding a thesis vary with the degree program. A number of master's programs offer both thesis and non-thesis options. The same quality of work is expected of students regardless of their chosen option. For more information, consult the section on degree requirements under each degree program.

AP.6.9.2 Time Limit

Master's degree students have six (6) years from the time of first enrollment as a degree-seeking student in the program to complete their degrees. Individual master's programs may have stricter time limits, which are published in this catalog. International students attending in F-1 or J-1 status also have more restrictive time limits; contact the Office of International Programs and Services for information. Students who are given permission to re-enroll following an absence from Mason may not count the six-year time limit as beginning on the date of re-enrollment. Students who will not meet published time limits because of compelling circumstances beyond their control may request an exception to this policy by petitioning their dean for a single extension of one calendar year prior to the expiration of their time limit. Students seeking an extension due to a parental leave of absence (PLoA) are referred to AP.6.4.5 (https://catalog.gmu.edu/policies/academic/graduate-policies/). If any extension is granted, the total time limit for completion of the degree will not exceed seven (7) years. Failure to meet the time limits or to secure approval of an exception to this policy through the process described in AP.6.6.2 (https://catalog.gmu.edu/policies/academic/graduate-policies/) shall be considered a failure to make satisfactory academic progress and result in termination from the program under AP.6.6.2 (https://catalog.gmu.edu/policies/academic/graduate-policies/). See detailed information (http://registrar.gmu.edu/forms/timelimit/) regarding how to determine the initial deadline. This policy does not supersede a student's university-approved disability services accommodations plan.

AP.6.9.3 Master's Thesis

When a thesis proposal has been approved by the appropriate department, the department chair sends the collegiate dean or director a copy of the thesis proposal, including the approval signatures of the master's thesis committee members. Students may enroll in thesis research (799) at the beginning of the next semester. Students must register for a minimum of three credit hours in their first semester of 799. After that semester, students must enroll for one credit of 799 per semester until the thesis is complete and has been successfully submitted to the library. Such students enrolled for one credit of 799 may be considered in status (either full-time or half-time), if the following requirement is met: the student, advisor and department chair must certify each semester that the student is working full-time or half-time on the thesis. See AP.6.2 (https://catalog.gmu.edu/policies/academic/graduate-policies/) Full-time and Half-time Status Classification for more information. **Please note: Master's students must maintain continuous enrollment in 799, excluding summers, each semester until the thesis is complete and has been successfully submitted to the library. Students who are completing their thesis in the summer must be registered for at least 1 credit of 799 in the summer. Graduation candidates who miss the library deadline for thesis submission but do submit successfully before the next semester begins do not have to register for 799 in the next semester. Such students must apply for graduation in order to have their degree conferred.** Students registered in 799 are graded IP until work is complete; at that time they are graded S/NC, and previous IP grades are updated by the Office of the University Registrar to reflect the final S or NC grade.

Students selecting the thesis option should obtain a copy of Mason's *Thesis, Dissertation, or Project Guide*. Students may register in 799 only after their thesis proposal has been submitted and approved as prescribed in the guide. **Any student not in attendance at Mason who is preparing a thesis under the active supervision of a member of the faculty or wishes to take an exam must maintain continuous registration in 799 for at least 1 credit per semester.**

The master's thesis committee is composed of at least three members of the graduate faculty, at least two of whom must be from the student's department or program. Faculty who are not members of the graduate faculty or other appropriate persons not affiliated with the university may serve as additional members. Committee members are appointed by the chair or director of the academic unit or program, or designee, after consultation with the student's adviser and the student. Only a member of the graduate faculty with a full-time appointment at George Mason University may serve as the thesis chair.

The thesis committee chair is primarily responsible for directing the candidate's research and writing activities. The student is responsible for keeping all committee members informed of the scope, plan, and progress of the research as well as the writing of the thesis.

AP.6.9.4 Thesis Submission

On or before the thesis submission deadline for any semester, each student will submit a CD with a complete electronic copy of his/her thesis (signed Signature Sheet through Curriculum Vitae) as a PDF to University Dissertation & Thesis Services (UDTS). The PDF will be uploaded into the Mason Archival Repository Service (MARS). At the time of final submission, the student will also turn in completed versions of the Transmittal Sheet, ETD Submission Form, and MARS Agreement.

For degree conferral in a particular semester, the above materials must be submitted to the library by 5:00 p.m. on the Friday before the last day of class in that semester. (For specific deadlines and more information, please see The Office of the University Registrar (http://registrar.gmu.edu).)

Under circumstances determined by the student's school, college, and/or program, a student may petition to embargo all or part of his/her thesis, preventing online access to it for a period of time (2 years, 5 years, or 10 years). A student may choose to embargo his/her work in order to avoid potential contract disputes with future publishers or to protect intellectual property. Not all schools, colleges, and/or programs will permit a student to embargo his/her work, and the both the student's thesis chair and the graduate associate dean of the school/college must approve the student's petition. Upon approval of an embargo, the thesis chair, the graduate associate dean and the student must all sign the embargo approval form. The student must turn in this completed, signed embargo form to UDTS at the time of submission of his/her thesis and all other materials. The UDTS Coordinator will confirm with both the chair/director and the associate dean that they have signed the submitted form. A hard copy of the confirmation will be retained by the UDTS Coordinator. At the time the work is uploaded to MARS and/or ProQuest, the author will receive an email notification, with an official PDF attached, stating that the embargo will begin and end on a certain date, and advising the author that it is his/her responsibility to keep track of the embargo lift date. The author will further be advised that it is his/her

responsibility to notify the UDTS Coordinator via email (udts@gmu.edu) that he/she wants to lift the embargo prior to the termination date, or that he/she wants to renew the embargo (or institute a new limit). In the form, the author will also be advised that he/she should retain this form and place it in the care of his/her attorney, next of kin, or other appropriate designee. In case of death, incapacity, or other similar circumstance, it is up to the author's estate, power of attorney, or other appropriate designee to ensure that the embargo continues.

If the student wishes to extend the embargo past the thesis's release date, the student is required to secure the approval of the graduate associate dean of the student's college/school at the time of the extension request. Students can request a renewal period of 2 years, 5 years, or 10 years. If approved, the student must notify UDTS via email (udts@gmu.edu) of his/her intention to extend the embargo. The UDTS Coordinator will confirm with the associate dean that the embargo extension has been approved, and will retain copies of both the student's request and the associate dean's confirmation that the embargo can be extended.

Theses embargoed for any period will be accessible electronically on-campus in Special Collections UNLESS the student/author can provide evidence that the document should NOT be reviewed for a certain period. Permission to restrict access on-campus for such period or fully may be granted by the Associate Provost for Graduate Education. Only under extreme circumstances will a student's work be considered by the Associate Provost for Graduate Education for such an embargo. A student must have proof that publication of his/her work poses a danger to themselves, national security, or similar scenario.

Once a student has submitted the final (i.e. defended, formatted, and signed) version of his/her project, thesis, or dissertation to University Dissertation & Thesis Services (UDTS), subsequent edits WILL NOT BE ALLOWED EXCEPT under the following circumstances:

1. A formatting error has been introduced into the PDF document when converting from another document type that affects the meaning of the dissertation. For example: in the process of formatting the document into a PDF, all of the ampersands (&) have disappeared and the error is not discovered until after final submission to UDTS. Re-submission would not be allowed to revise margins, fonts, or other non-substantive items.
2. Incidence of fraud or plagiarism. The relevant college/school must conduct a review of the thesis or dissertation and determine an appropriate course of action in accordance with the university catalog and approved by the Dean. If the approved course of action includes allowing the student to resubmit a corrected version of a thesis or dissertation, the UDTS Coordinator must be informed in writing by an appropriate college/school or LAU official.

UDTS will not allow corrections of theses and dissertations for the following:

- Rewording the Dedication, Acknowledgments, Abstract, or Biography.
- Correction of citations or quotations.
- Addition of new text, or deletion of existing text, in the body.
- Correction of misspellings or grammar issues.
- Replacing, adding, or deleting Tables, Figures, or Equations.
- Correction of any other minor errors or omissions.

AP.6.9.5 Doctoral Students Also Pursuing a First Master's Degree

Requirements for master's degrees apply with the following exceptions. Residency derives from the doctoral degree requirements. Time limit may derive from the doctoral requirements, although programs may reject coursework that is not sufficiently current. Students must be officially admitted to degree status in the master's program a full semester before the one in which they will complete master's degree requirements, i.e. admitted in fall for graduation the following spring.

AP.6.9.6 Individualized Dual Master's Degree Programs

George Mason students have the option to pursue two master's degrees simultaneously. For purposes of administration, if a different rate of tuition is assessed for each program, the student will be assessed at the higher rate. The program with the higher rate will be considered the primary program. The six year time limit for completion of each program component of the dual master's programs derives from the admission date for that program component. A degree for each program component shall be conferred upon completion based upon student application for graduation. Students shall have a degree GPA for each program component.

Students in dual master's degree programs are not eligible for reduction of credit based on a previously earned relevant post-baccalaureate degree earned prior to admission. Any Reduction of Credits that was granted upon admission to the initial program will be removed from the student's record upon matriculation into the second program.

Students are not eligible to pursue two master's degrees until they have completed one semester in their initial master's program. Interested students should know:

- A full admissions application must be submitted for both programs.
- Students must apply and be accepted to the second master's degree within one year of matriculation in the initial program. The application must include a written statement explaining the intellectual or pedagogical purpose behind the degree program, and the academic symmetries that exist between the underlying fields of study.
- A restricted number of credits may be shared across dual degree programs. See University Policy 3007 (http://universitypolicy.gmu.edu/policies/dual-degree-program-arrangements/) to determine the maximum number of credits that may be shared across component degree programs.
- Credit may be shared across two programs only. Credit may never be applied to three or more programs. See University Policy 3007 for more information on credit-sharing limitations.
- An Individualized Dual Master's Degree Program of Study form (http://registrar.gmu.edu/wp-content/uploads/DMPS.pdf), approved by directors of both programs, must be submitted to the Office of the University Registrar (http://registrar.gmu.edu) upon matriculation in the second program. This will determine the maximum number of credits and specific courses that may be shared across programs. Credits that are shared between programs may need an approved Substitution/Waiver form signed by the appropriate Academic Affairs Office.

AP.6.10 Requirements for Doctoral Degrees

Candidates must satisfy all applicable university degree requirements and all requirements established by the doctoral program faculty. Departmental degree requirements are listed under the respective doctoral programs in this catalog. Programs may impose more stringent requirements.

- **Admission.** Students must have been fully admitted into degree status.

- **Credit Level.** Only graduate courses may apply toward the degree.
- **Credit Hours.** Candidates must earn a minimum of 72 graduate credits, which may be reduced on the basis of a completed master's degree or other suitable, approved transfer work. (See AP.6.5 Credit by Exam, Reduction or Transfer)
- **Unique Credit.** A minimum of 42 credits must apply only to the doctoral degree.
- **Institutional Credit.** More than half of the required minimum credits for the doctoral degree must be earned at Mason. Or, in the case of programs offered through joint, cooperative, or consortium arrangements, at the participating institutions, at least one-third of the credits applied to the doctoral degree must be earned through direct instruction at Mason.
- **Advancement to Candidacy.** Candidates must meet the written and/or oral doctoral candidacy requirements set by the candidate's degree program.
- **Dissertation.** Candidates must complete a minimum of 12 credits of doctoral proposal (998) and doctoral dissertation research (999), including at least three credits of 999. A maximum of 24 credits of 998 and 999 may be applied to the degree.
- **Defense.** Candidates must pass a final public defense of the doctoral dissertation.
- **Quality.** Candidates must have a minimum GPA of 3.00 in coursework presented on the degree application, which may include no more than 6 credits of C. (Grades of C+, C-, or D do not apply to graduate courses.) The GPA calculation excludes all transfer courses and Mason extended studies or non-degree credits not formally approved for the degree.

AP.6.10.1 Time Limit

For both full-time and part-time students enrolled in doctoral programs, whether entry is post-baccalaureate or post-master's, the total time to degree will not exceed nine (9) calendar years from the time of first enrollment in the program as a doctoral student. Doctoral students are expected to progress steadily toward their degree and to advance to candidacy within no more than six (6) years, although colleges may set a shorter time limit.

Students who do not meet published time limits because of compelling circumstances beyond their control may request an exception to this policy by petitioning their dean for a single extension of one calendar year prior to the expiration of the time limit. Students seeking an extension due to parental leave of absence (PLoA) are referred to AP.6.4.5 (https://catalog.gmu.edu/policies/academic/graduate-policies/). If any extension is granted, the total time limit for completion of the degree will not exceed ten (10) years. Any extension of the time limit to advance to candidacy that is granted does not automatically alter the total time limit for degree completion. Re-enrollment following an absence from Mason does not change the student's time limit, which is based on the date of initial admission. Failure to meet the time limits or to secure approval of an exception to this policy through the process described in AP.6.6.2 (https://catalog.gmu.edu/policies/academic/graduate-policies/) shall be considered a failure to make satisfactory academic progress and result in termination from the program under AP.6.6.2 (https://catalog.gmu.edu/policies/academic/graduate-policies/). See detailed information (https://registrar.gmu.edu/forms/timelimit/) regarding how to determine the initial deadline. This policy does not supersede a student's university-approved disability services accommodations plan.

Non-immigrant students in F-1 or J-1 status are further limited by the regulations governing their stay in the United States. The University issues visa documents (forms I-20 and DS-2019) that indicate the estimated length of the student's academic program. Students who need extensions beyond the initial period of stay must request them through the Office of International Programs and Services (OIPS). Documentation of the compelling circumstances necessitating the extension request is required by federal regulations. For further information, please consult with an advisor in OIPS.

AP.6.10.2 Doctoral Research Skill Requirements

Some doctoral degree programs require demonstration of proficiency in a research skill, including knowledge of the research literature in a foreign language, computer language, statistical methods, or a research tool specific to the discipline. Research skill requirements are included with the degree requirements for the specific doctoral degree. Where demonstration of research skills is required, certification that this requirement has been met must be completed for advancement to candidacy.

AP.6.10.3 Program of Study

Usually before the end of the second year of graduate study but no later than consideration for advancement to candidacy, doctoral students must submit a program of study for approval by the dean or director of the college, school, or institute. The program of study must include major courses and supporting courses to be completed, research skills required, subject areas to be covered by the candidacy exam, and a proposed date for the candidacy exam. Program of Study Forms are available from each program's doctoral coordinator. Any changes in the programs of study must be documented with an amended Program of Study Form.

AP.6.10.4 Advancement to Candidacy

Advancement to candidacy implies that a doctoral student has demonstrated both a breadth and a depth of knowledge in the field of study and is capable of exploring problems on the boundaries of knowledge, and has identified a research area that is likely to lead to a successful dissertation. Advancement to candidacy requires successful completion of a written and/or oral requirement as set by the candidate's degree program. Doctoral students should consult the degree requirements for each doctoral program to determine whether an oral portion is required, whether it is judged separately or with the written portion, the number of times a failed candidacy exam may be repeated and any associated time limits, and any time limits for attempting the candidacy exam.

Before doctoral students may be advanced to candidacy by the unit dean or director, they must have completed all coursework as indicated on the approved program of study, been certified in all doctoral research skills required, passed the candidacy exam, and been recommended by the doctoral supervisory committee or program coordinator. Students advanced to candidacy after the add period for a given semester must wait until the following semester to register for 999 Dissertation Research.

AP.6.10.5 Dissertation Committee

The Dissertation Committee provides guidance and oversight of the student's dissertation research and writing. In some units this committee may also function as the program committee, facilitating the design and approval of the student's program of study, conducting required examinations, and regularly assessing the student's progress and accomplishments.

Committee Size and Composition

Committee Size: Doctoral candidates must have a Dissertation Committee made up of a Chair and at least two other members (Member #1, Member #2).

Committee Chairs: Full-time faculty members at George Mason University may serve as Dissertation Committee Chairs as long as they are members of the Graduate Faculty, they are members of the core faculty for the student's degree program, and they are relevant to the student's field of study.

If the Chair of a Dissertation Committee leaves the university or retires during the student's degree, the program director may request that Graduate Faculty status be granted to allow the continuation of the member's service as Co-chair.

Committee Co-chairs: In some cases it may be appropriate to designate additional faculty as Co-chair. Graduate faculty who are from any George Mason University LAU or who are external to the university may serve as Co-chair. Non-tenure/tenure-track faculty and individuals from outside the university must be approved as members of the graduate faculty for purposes of having Co-chair privileges (see section below, Committee Service by Personnel other than Tenure or Tenure-Track Faculty at George Mason University). If the Co-chair designee meets all requirements then the Co-chair may count as Member #1 or Member #2.

Committee Members on Dissertation Committees: Each Dissertation Committee must have at least two members in addition to the Chair. The Chair, Member #1, and Member #2 must have graduate faculty status and be relevant to the student's field of study. In addition, Member #1 must be full-time faculty at George Mason University. Member #2 may be from George Mason University or external to the University.

Additional committee participants may be added. Committee service by other qualified individuals inside or outside the university may be requested by the student's LAU/program (see section below, Committee Service by Personnel other than Tenure or Tenure-Track Faculty at George Mason University).

Students should refer to the policies and procedures for their degree program for any specific guidelines for graduate Dissertation Committee service within the LAU/program.

Committee Service by Personnel other than Tenured or Tenure-Track Faculty at George Mason University: Personnel with suitable academic training and research experience who are not George Mason University full time, tenured, or tenure track faculty may be recommended for inclusion on a graduate student Dissertation Committee. This category includes personnel from outside George Mason University as well as Research Faculty, Administrative/Professional Faculty, Instructors, Affiliate Faculty, Adjunct Faculty, Retired or Emeritus Faculty, and Term Faculty at George Mason University. Such personnel must have an appropriate terminal degree. Inclusion of personnel with comparable experience in place of a terminal degree is requested by the student's Dissertation Committee Chair and the Dean/Dean's designee and approved by the Associate Provost for Graduate Education.

Full-time term or administrative/professional faculty members at George Mason University may serve as Dissertation Committee Chairs as long as they are members of the graduate faculty. Other personnel may be added to the committee as Co-chair, Member #2, or an additional member. Additional members need only be approved by the Graduate Program/LAU. Inclusion of committee members in the other categories is requested by the student's Dissertation Committee Chair and Graduate Program Director and approved by the Dean/Dean's designee; all such personnel must be appointed to graduate faculty by the Office of the Provost. If such members are on a temporary appointment there should be assurance that they will be available throughout the student's degree. They may share dissertation supervision responsibilities, and enjoy voting rights and privileges. A curriculum vitae for the proposed committee member must be included with the request for graduate faculty status and the particular advantages of including this person on the committee should be cited. Once approved for graduate faculty status, a new request is not required for service on additional committees. Faculty, staff, and students are urged to check the online list of approved graduate faculty members.

Individual programs may have more restrictive policies. If so, those restrictions apply.

Refer to the policies and procedures of the degree program for information on how to change membership of previously established dissertation committees.

Committee Structure

Membership	Minimum Required Attributes
Chair (required member)	• Full-time Mason Faculty
	• Graduate Faculty
	• Member of the program's core faculty
	• Faculty relevant to student's field of Study
Member #1 (required member)	• Full-time Mason Faculty
	• Graduate Faculty
	• Faculty in any Mason LAU
	• Faculty relevant to student's field of study
Member #2 (required member)	• Graduate Faculty; and,
	• Faculty relevant to student's field of study; and EITHER:
	• Faculty in any Mason LAU OR
	• External to Mason
Member #3 (if required by program)	• Graduate Faculty; and,
	• Faculty relevant to student's field of study: and EITHER:
	• Faculty in any Mason LAU or
	• External to Mason
Co-chair (if present)	• Graduate faculty; and, EITHER
	• Faculty in any Mason LAU OR
	• External to Mason

Additional members (if present)	• Approval by Dissertation Committee Chair, Graduate Program Director

AP.6.10.6 Dissertation Registration (998, 999)

Students working on dissertation research (999) must register for a minimum of 3 credits of 999 per semester (excluding summers) until they have completed the minimum number of credits of 998 and 999 required by the university and their degree program. Then, they must register for 1 credit of 999 until the dissertation is complete and has been successfully submitted to the library. See AP.6.2 Full-time and Half-time Classification (https://catalog.gmu.edu/policies/academic/graduate-policies/) for more information. Students registered in 998 or 999 are graded IP until work in 998 or 999, respectively, is complete; at that time they are graded S/NC, and previous IP grades are updated by the Office of the University Registrar to reflect the final S or NC grade.

All registration for doctoral dissertation research (999) must be planned with the dissertation director and approved by the dean or director of the school, college, or institute. Dissertation research (999) is open only to doctoral students who have advanced to candidacy. Once enrolled in 999, students must maintain continuous registration in 999 each semester until the dissertation is complete and has been successfully submitted to the library, excluding summers. Students who defend in the summer must be registered for at least 1 credit of 999 in the summer. Individual doctoral programs may require continuous registration beginning with 998. Graduation candidates who miss the library deadline for dissertation submission, but do submit successfully before the next semester begins, do not have to register for 999 in that next semester, but must apply for graduation in order to have their degree conferred.

It is the student's responsibility to complete registration for dissertation proposal (998) or research (999) prior to the first day of classes for the semester. If this date is missed, students must still enroll in these courses via Add or Late Schedule Adjustment procedures and are subject to Late Registration fees. Failing to register on time in a particular semester does not alter the requirement for continuous registration in 999.

AP.6.10.7 Doctoral Dissertation

A dissertation is required for the doctor of philosophy degree and most professional doctoral degrees. The dissertation is a written piece of original thinking that demonstrates doctoral candidates' mastery of subject matter, methodologies, and conceptual foundations in their chosen field of study. This is generally achieved through consideration of a problem on the boundaries of knowledge in the discipline.

The director of the dissertation committee is primarily responsible for directing the doctoral candidate's research and guiding the preparation of the written dissertation. After the dissertation committee is appointed, the student should begin discussions with the director to define a suitable problem for the dissertation. Before the student may enroll in doctoral dissertation research (999), the dissertation proposal must be approved by the dissertation committee and evidence of approval sent to the unit dean or director for approval. Before that time, the student may enroll in proposal research (998).

Guidelines for the content and general format of doctoral dissertations are in the *Thesis, Dissertation, or Project Guide*. Consult a doctoral coordinator to determine which additional reference manuals are suitable.

AP.6.10.8 Doctoral Defense

As soon as all degree requirements have been satisfied, including completion of the doctoral dissertation, the doctoral candidate may request a doctoral defense. Approval to hold a defense is given by the doctoral dissertation committee, coordinating with the program director/chair. Notice of a defense must be circulated to the university community two weeks before the defense date. The public defense should demonstrate the candidate's maturity of judgment and intellectual command of the chosen branches of the field of study.

At the close of the final defense, the dissertation committee makes final judgments for approving the dissertation. The doctoral candidate is responsible for making all required changes promptly, submitting the original and required copies, and obtaining signatures. Final approval for the dissertation is given by the doctoral dissertation committee and program director/chair.

For a dissertation to be approved, all members of the committee must sign. If a committee member refuses to do so, the student or any member of the committee may petition the unit dean or director for a review and ruling. The dean or director may seek the advice of outside reviewers to provide an assessment of the work. The final decision is that of the dean or director and is not subject to appeal.

AP.6.10.9 Dissertation Submission and Fees

On or before the dissertation submission deadline for any semester, each student will submit a CD with a complete electronic copy of his/her dissertation (signed Signature Sheet through Curriculum Vitae) as a PDF to University Dissertation & Thesis Services (UDTS). The PDF will be uploaded into the Mason Archival Repository Service (MARS). At the time of final submission, the student will also turn in completed versions of the Transmittal Sheet, ETD Submission Form, and MARS Agreement.

For degree conferral in a particular semester, the above materials must be submitted to the library by 5:00 p.m. on the Friday before the last day of class in that semester. (For specific deadlines and more information, please see the University Registrar's website (http://registrar.gmu.edu).)

Under circumstances determined by the student's school, college, and/or program, a student may petition to delay embargo all or part of his/her dissertation, preventing online access to it for a period of time (2 years, 5 years, or 10 years). A student may choose to embargo his/her work in order to avoid potential contract disputes with future publishers or to protect intellectual property. Not all schools, colleges, and/or programs will permit a student to embargo his/her work, and both the student's dissertation chair and the graduate associate dean of the school/college must approve the student's petition. Upon approval of an embargo, the dissertation chair, the graduate associate dean, and the student must all sign the embargo approval form. The student must turn in the signed embargo form to UDTS at the time of submission of his/her dissertation and all other materials. The UDTS Coordinator will confirm with both the dissertation chair and the graduate associate dean that they signed the submitted form. A hard copy of the confirmation will be retained by the UDTS Coordinator. At the time the work is uploaded to MARS and/or ProQuest, the author will receive an email notification, with an official PDF attached, stating that the embargo will begin and end on a certain date, and advising the author that it is his/her responsibility to keep track of the embargo lift date. The author will further be advised that it is his/her responsibility to notify the UDTS Coordinator via email (udts@gmu.edu) that he/she wants to lift the embargo prior to the termination date, or that he/she wants to renew the embargo (or institute a new limit). In the form, the author will also be advised that he/she should retain this form and place it in the care of his/her attorney, next of kin, or other appropriate

designee. In case of death, incapacity, or other similar circumstance, it is up to the author's estate, power of attorney, or other appropriate designee to ensure that the embargo continues.

If the student wishes to extend the embargo past the dissertation's release date, the student is required to secure the approval of the graduate associate dean of the student's college/school at the time of the extension request. Students can request a renewal period of 2 years, 5 years, or 10 years. If approved, the student must notify UDTS via email (udts@gmu.edu) of his/her intention to extend the embargo. The UDTS Coordinator will confirm with the associate dean that the embargo extension has been approved, and will retain copies of both the student's request and the associate dean's confirmation that the embargo can be extended.

Dissertations embargoed for any period will be accessible electronically on-campus in Special Collections UNLESS the student/author can provide evidence that the document should NOT be reviewed for a certain period. Permission to restrict access on-campus for such period or fully may be granted by the Associate Provost for Graduate Education. Only under extreme circumstances will a student's work be considered by the Associate Provost for Graduate Education for such an embargo. A student must have proof that publication of his/her work poses a danger to themselves, national security, or similar scenario.

Doctoral students are also required to submit their dissertations to ProQuest through University Microfilms International (UMI). Submission will take place through the UMI Administrator site (www.etdadmin.com/gmu (http://www.etdadmin.com/gmu/)). Traditional submission, in which the dissertation is available only through ProQuest's subscription service, costs nothing. Open Access submission, in which the dissertation is available through ProQuest's Open Access site, costs $95. Students can also opt to register their dissertations with the U.S. Copyright Office via the Administrator; doing so costs $44, payable to ProQuest. Students can also choose to purchase their own bound copies through the Administrator. The student is responsible for any aforementioned fees, which can be paid by credit or debit card. At the time of final submission, the UDTS Coordinator will confirm that the student has uploaded his/her dissertation through the Administrator.

Doctoral students also must complete a Survey of Earned Doctorates. This form must also be turned in to the UDTS Coordinator at the time of final submission.

Once a student has submitted the final (i.e. defended, formatted, and signed) version of his/her project, thesis, or dissertation to University Dissertation & Thesis Services (UDTS), subsequent edits WILL NOT BE ALLOWED EXCEPT under the following circumstances:

1. A formatting error has been introduced into the PDF document when converting from another document type that affects the meaning of the dissertation. For example: in the process of formatting the document into a PDF, all of the ampersands (&) have disappeared and the error is not discovered until after final submission to UDTS. Re-submission would not be allowed to revise margins, fonts, or other non-substantive items.
2. Incidence of fraud or plagiarism. The relevant college/school must conduct a review of the thesis or dissertation and determine an appropriate course of action in accordance with the university catalog and approved by the Dean. If the approved course of action includes allowing the student to resubmit a corrected version of a thesis or dissertation, the UDTS Coordinator must be informed in writing by an appropriate college/school or LAU official.

UDTS will not allow corrections of theses and dissertations for the following:

- Rewording the Dedication, Acknowledgments, Abstract, or Biography.
- Correction of citations or quotations.
- Addition of new text, or deletion of existing text, in the body.
- Correction of misspellings or grammar issues.
- Replacing, adding, or deleting Tables, Figures, or Equations.
- Correction of any other minor errors or omissions.

AP.6.10.10 University Dissertation and Thesis Services

University Dissertation and Thesis Services (UDTS) facilitates completion and submission of dissertations, theses, and graduate-level projects. The program assists Mason students in all stages of production. The UDTS website (http://thesis.gmu.edu), provides students with useful tools, including downloadable templates of necessary elements, forms required for the submission process, and links to related web sites. Students completing a thesis or dissertation are required to complete a format review. UDTS is located in Fenwick Library, Special Collections and Archives, Wing 2C. For more information, contact the university dissertation and thesis coordinator at 703-993-2222.

AP.6.11 Graduate Council

The Graduate Council is an advisory and legislative board on matters of graduate education whose purpose is to promote excellence in all graduate programs. The Council advises the Provost regarding academic policies governing graduate education; approval of new and revised graduate courses, programs and degrees; review and assessment of graduate programs; planning and attainment of graduate education strategic goals; and policies and resources for graduate student support. The Office of the Provost administers university graduate policies for the Graduate Council.

AP.6.12 Graduate Faculty

There are two types of graduate faculty at George Mason University, active and legacy, graduate faculty. Individuals attain active graduate status through their rank as tenured or tenure-track Mason faculty members or through a nomination process. Once active, graduate faculty status applies across the institution. A list of active graduate faculty will be maintained by the Office of the Provost.

Mason tenured and tenure-track faculty are automatically granted active graduate faculty status upon employment. They maintain that status throughout their employment as tenure-line faculty, unless explicitly designated otherwise. Administrative service does not affect the active graduate faculty status of tenured or tenure-track faculty.

Each local academic unit that administers graduate degrees may, at its discretion and at any time, nominate individuals that hold a terminal degree for active graduate faculty status. These individuals may be Mason employees or individuals external to the university. Through this process, active graduate faculty status will be granted for a term of three years unless explicitly designated shorter. The process to nominate individuals for active graduate faculty status is coordinated through the Office of the Provost. Individuals, who are within a year or less of their active graduate faculty status expiring, may be renewed through the same process. Local academic units, with approval of their Dean, may rescind graduate faculty status for individuals that they nominated.

If active graduate faculty status lapses due to retirement, separation, or expiration of a term of active graduate faculty status, the individual may move into legacy graduate faculty status. As a legacy graduate faculty member, the individual maintains their ability to serve on student committees on which they are already a member, but they may not be added to new committees (or re-added to existing committees if removed). In cases of separation of tenured and tenure- track faculty, the terms of the separation will indicate if the individual receives legacy graduate faculty status. In cases of individuals nominated for graduate faculty status, the nominating local academic unit determines their eligibility for legacy graduate faculty status at the time of nomination. Local academic units may impose additional restrictions on eligibility for legacy graduate faculty status.

Individuals may, at any time, resign from graduate faculty status, active or legacy, and such resignations are considered permanent. Individuals in legacy graduate faculty status are removed from status once the students whose committees they serve on have either (i) graduated, (ii) resigned, (iii) been terminated, (iv) become inactive, or (v) have reformed their committees without the individual in question.

AP.7 Research Policies

Research Development, Integrity and Assurance Office

Website: oria.gmu.edu

AP.7 Research Policies

ON THIS PAGE

- AP.7.1 Human Subjects Research (https://catalog.gmu.edu/policies/academic/research/#text)
- AP.7.2 Animal Use in Research (https://catalog.gmu.edu/policies/academic/research/#text)
- AP.7.3 Misconduct in Research and Scholarship (https://catalog.gmu.edu/policies/academic/research/#text)
- AP 7.4 Research Conflicts of Interest (https://universitypolicy.gmu.edu/policies/financial-conflicts-of-interest-in-university-contracts-with-businesses-under-virginia-law/)
- AP 7.5 Copyright in University Works (https://universitypolicy.gmu.edu/policies/copyright-in-university-works/)
- AP 7.6 Ownership and Maintenance of Research Records (https://universitypolicy.gmu.edu/policies/ownership-and-maintenance-of-research-records/)

Office of Research:

www2.gmu.edu/research (https://www2.gmu.edu/research/)

https://provost.gmu.edu/academics-and-research/research-and-scholarship (https://provost.gmu.edu/academics-and-research/research-and-scholarship/)

AP.7 Research Policies

AP.7.1 Human Subjects Research

All research activities involving human subjects or identifiable, private human subjects data conducted by faculty, staff, or students must be submitted to Mason's Institutional Review Board (https://oria.gmu.edu/topics/human-subjects/submit-an-application/) for review and approval before initiation of the activity. (See University Policy 4017 (https://universitypolicy.gmu.edu/policies/research-involving-human-subjects/#:~:text=This%20policy%20covers%20all%20faculty,as%20well%20as%20unfunded%20research).) All application forms are available in IRBNet and must be submitted through the Institutional Review Board via IRBnet (http://irbnet.org). IRB staff can be reached for consultations and assistance at IRB@gmu.edu. All student research must be supervised by a faculty member. The faculty member will serve as the Principal Investigator for the research and will assume responsibility for the legal and ethical conduct of the work. Additional approval by the Confidential Student Contact Information (https://oiep.gmu.edu/institutional-effectiveness/surveys/request/) committee is required if Mason students' contact information is needed to conduct the research.

For further information see the Office of Research Integrity and Assurance's website: https://oria.gmu.edu/.

AP.7.2 Animal Use in Research

All work with live vertebrate animals, and with selected higher-level invertebrate animals, whether for research, teaching, or testing, must be approved by the Institutional Animal Care and Use Committee (IACUC) prior to initiation of the work. All use of animals at Mason must be carried out under the supervision of a faculty member who is qualified and experienced in the work being conducted and assumes responsibility for legal and ethical conduct. As with applications to the IRB, applications to the IACUC are submitted through IRBNet. Further information concerning research with animal subjects is available at https://oria.gmu.edu/topics/animal-subjects/. The university has developed a comprehensive policy and procedures to govern research with animal subjects. (See University Policy 4004 (https://universitypolicy.gmu.edu/policies/occupational-health-and-safety-program-for-animal-care-and-use-personnel/).)

For further information see the Office of Research Integrity and Assurance's website: https://oria.gmu.edu/.

AP.7.3 Misconduct in Research and Scholarship

George Mason University is committed to the highest standards of ethical research and scholarship. All faculty, staff, and students are responsible for conducting research and scholarship in an ethical manner. The university has developed a comprehensive policy and procedures to address allegations of misconduct: University Policy 4007 (http://universitypolicy.gmu.edu/policies/misconduct-in-research-and-scholarship/).

For further information see the Office of Research Integrity and Assurance's website: https://oria.gmu.edu/.

AP.7.4 Research Conflicts of Interest

Those conducting sponsored research are subject to the requirements of University Policy 4001, which helps to ensure that the design, conduct, or reporting of research will not be biased by any conflicting financial interest of an Investigator.

For further information see the Office of Research Integrity and Assurance's website: https://oria.gmu.edu/.

AP.7.5 Patents and Copyright in University Works

An invention made by a student who is not engaged in fulfilling his or her responsibilities as a university employee is owned by the student, with few exceptions as described in University Policy 4003 (https://

universitypolicy.gmu.edu/policies/patenting-university-inventions/). Student rights to work done at the University in their capacity as a student, as a university employee, and in their individual capacity are described in University Policy 4002 (https://universitypolicy.gmu.edu/policies/copyright-in-university-works/): "Copyright in University Works."

For further information, contact the Office of Technology Transfer's website: ott.gmu.edu (https://ott.gmu.edu/).

AP.7.6 Ownership and Maintenance of Research Records

Records created by university employees and students as a result of scholarly inquiry and that are necessary to validate research findings are subject to Virginia and Federal law, as well as funding entities' policies and procedures. All research records are the property of the University; generally, researchers may retain a copy of any research record he or she creates. Proper research record maintenance is also a critical aspect of conducting ethical and responsible research and scholarship. Requirements related to these issues are set out in University Policy 4011 (https://universitypolicy.gmu.edu/policies/ownership-and-maintenance-of-research-records/): "Ownership and Maintenance of Research Records."

For further information, see the University Records Management Office's website: https://recordsmanagement.gmu.edu/ and the Office of Research Integrity and Assurance's website concerning responsible conduct of research and research misconduct: https://oria.gmu.edu/.

General Policies

Below is a list of policies which the University community most commonly refers to.

All university policies are available online (http://universitypolicy.gmu.edu).

George Mason University is committed to providing equal opportunity and an educational and work environment free from any discrimination on the basis of race, color, religion, national origin, sex, disability, veteran status, sexual orientation, gender identity, gender expression, age, marital status, pregnancy status or genetic information. It is the policy of the university to provide an academic and work environment free from sexual harassment. Please see the following policies for more information.

- 1201 - Non-Discrimination Policy (http://universitypolicy.gmu.edu/policies/non-discrimination-policy/)
- 1202 - Sexual Harassment Policy (http://universitypolicy.gmu.edu/policies/sexual-harassment-policy/)
- 1203 - Non-Discrimination and Reasonable Accommodation on the Basis of Disability (http://universitypolicy.gmu.edu/policies/non-discrimination-and-reasonable-accommodation-on-the-basis-of-disability/)

The Responsible Use of Computing (RUC) Policy applies to all academic and operational departments and offices at all university locations owned or leased. The policies and procedures provided herein apply to all Mason faculty, staff, students, visitors and contractors.

- 1301 - Responsible Use of Computing (http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/)

All faculty, staff, and students who park on property owned or operated by the university must display a valid permit or park in a parking deck and pay an hourly or daily rate.

- 1108 - Motor Vehicle Parking (http://universitypolicy.gmu.edu/policies/motor-vehicle-parking/)

Academic Policies

- 3002 - Cross-level Listing of Undergraduate/Graduate Courses (https://universitypolicy.gmu.edu/policies/cross-level-listing-of-undergraduategraduate-courses/)
- 3003 - Reporting and Approval of Academic Actions Constituting Substantive Change (https://universitypolicy.gmu.edu/policies/reporting-and-approval-of-academic-actions-constituting-substantive-change/)
- 3004 - Verification of Student Identity in Distance Education (https://universitypolicy.gmu.edu/policies/verification-of-student-identity-in-distance-education/)
- 3005 - Faculty Credential Evaluation and Documentation (https://universitypolicy.gmu.edu/policies/faculty-credential-evaluation-and-documentation/)
- 3011 - Credit Hours (https://universitypolicy.gmu.edu/policies/credit-hours/)

Other Regulations

Other policies pertaining to safety and security:

- 1120 - Weapons on Campus (http://universitypolicy.gmu.edu/policies/weapons-on-campus/)
- 2208 - Workplace Violence (http://universitypolicy.gmu.edu/policies/workplace-violence/)

Annual Security Report

Mason's 2020 Annual Security and Fire Safety Report is a combined report that includes, but is not limited to: campus safety and security policy disclosures; statistics for Clery Act crimes for University property, adjacent property, and non-university property owned or controlled by the University for the previous three years; and fire statistics for on-campus student housing facilities for the previous three years. To view a copy of the report, go to the website (https://police.gmu.edu/central-records/annual-security-report/). Paper copies of this report are available at any police facility.

Student Rights and Responsibilities

Policies and Procedures Affecting All Students

Knowledge of University Policies

Each student is responsible for knowing Mason's rules, regulations, requirements, administrative policies and Academic Policies. This catalog is the normal repository of academic policy statements, but corrections, changes, or interpretations can be promulgated by other means, including electronic publication.

When the university or one of its academic units changes course requirements, grading procedures, or criteria for acceptance into particular programs, academic standing, or graduation, the changes apply

to all students enrolled at the time of implementation of the change and thereafter.

Students have certain choices regarding the set of degree requirements under which they graduate, as detailed in the Catalog Requirements for Degrees in AP.4 Degree Application, Conferral and Graduation. PDFs of all previous catalogs may be found online (http://catalog.gmu.edu/archives/). Additionally, the Special Collections and Archives section of the Fenwick Library has copies of all previous catalogs. They may not be checked out, but may be photocopied. Any student in doubt about an academic matter should consult a faculty advisor or dean.

Students are subject to the university's stated policies regarding patents and copyrights. These policies are available online *(*http://osp.gmu.edu*).*

Catalog Requirements for Degrees

Catalog year refers to the setting of course and non-course requirements within academic programs as stated in the school and college section of a specific catalog. However, catalog year does not set academic policies other than program requirements in place. Not all programs and degree components are available in all catalogs. For any one degree, all requirements must be met as stated in a single catalog. The only exception is that Bachelor's degree students may select a minor from another catalog year for which they are eligible, as noted below.

Bachelor's degree candidates may choose to graduate under the terms of any catalog in effect during their enrollment in degree status. Students who have been inactive for two or more years or who have attended another institution without prior approval from their academic dean or director must graduate under a catalog in effect at or after their re-admission and during their enrollment in degree status.

Master's and doctoral degree candidates who have been continuously enrolled may choose to graduate under the terms of any catalog in effect during their enrollment in degree status. Students who have been inactive more than one year, however, may be required by their program to graduate under a catalog in effect after they have been granted permission to re-enroll. In no case may a student choose the requirements of a future catalog year that take effect after the student's degree is anticipated.

Mason ID Card

Fairfax Campus: Student Union I, 1203
Phone: 703-993-1004

Science and Technology Campus: Beacon Hall, Room BE 1034
Phone: 703-993-7040

Arlington Campus: Van Metre Hall, 220
Phone: 703-993-9095

Loudoun Campus: 21335 Signal Hill Plaza, Suite 130
Phone: 703-993-4350

Web: masonid.gmu.edu (http://masonid.gmu.edu)

Email: masonid@gmu.edu

After registering, each student should obtain a Mason ID card. It must be presented to use library services and is required for admission to university events and when using facilities after normal operating hours. It is not transferable and is valid as long as the student has active status.

Official Communication with Students

Web: masonlive.gmu.edu (http://masonlive.gmu.edu)

Mason uses electronic mail to provide official information to students. Examples include notices from the library, notices about academic standing, financial aid information, class materials, assignments, questions, and instructor feedback. Students are responsible for the content of university communication sent to their Mason e-mail account and are required to activate that account and check it regularly. Students are also expected to maintain an active and accurate mailing address in order to receive communications sent through the United States Postal Service.

Chosen Name and Pronouns Policy

Web: University Policy 1143 (http://universitypolicy.gmu.edu/policies/preferred-name-policy/)

A student may designate and use a Chosen Name and Pronouns for University purposes, except when use of a legal name is required by the University or by law.

A student may designate a Chosen Name and Pronouns in University information systems only when such systems allow for such designation.

The University will ordinarily use a student's Chosen Name and Pronouns in university communications and reporting except when use of a legal name is required by the University or by law. By way of example but not limitation, Chosen Names will be reflected on class rosters, in Blackboard, in Patriot Web (including Degree Works), and in directory listings.

A student's legal name shall be used for billing, verification of enrollment, payroll (W-2s), official transcripts, communication with external authorities, or as otherwise required by the University or by law. The University may identify students by both Legal Name and Chosen name at any time.

A student may not use a Chosen Name for any kind of misrepresentation. A student may not use profanity in a Chosen Name.

Free Speech at Mason

At George Mason University we include and embrace a multitude of people and ideas in everything we do and protect the freedom of all members of our community to seek truth and express their views. Freedom of expression in an intellectually and culturally diverse environment provides all members of our community the opportunity to learn, grow, and contribute to our shared mission to create a more just, free, and prosperous world. George Mason University is committed to protecting free speech and free expression on its campus and in its education programs.

Being exposed to competing perspectives is essential for questioning our assumptions, testing our beliefs and refining our knowledge. Our goal as a community must be to create an environment where we can engage in difficult and challenging conversations with civility and mutual respect, where confronting opposing ideas and perspectives becomes an opportunity to learn from and with each other. For more information and access to specific policies, please visit our website (https://www2.gmu.edu/1stAmendment/) (https://www2.gmu.edu/1stAmendment) dedicated to free speech at Mason. If you believe your freedom of speech or expression has been disrupted,

you may report an incident of disruption of constitutionally protected speech by going to the website and clicking “Submit a report”.

Mason facilities are intended primarily for the use of its students, faculty, and employees in their efforts to advance the educational mission of the university. No use shall be permitted that is unlawful, threatens the safety of the Mason community, or is inconsistent with the mission of the university. In maintaining a safe campus, in which its students, faculty, and employees can advance the educational mission of Mason without disruption, the university may establish constitutionally permissible time, place and manner restrictions on the use of its facilities and property (e.g., registration requirements, times when use is permitted, limitations on amplified sound). These can be found in University Policies 1103 (https://universitypolicy.gmu.edu/policies/space-utilization-and-scheduling/), 1109 (https://universitypolicy.gmu.edu/policies/poster-posting/), 1140 (https://universitypolicy.gmu.edu/policies/utilization-of-facilities-by-the-general-public/), and other applicable policies and procedures. These policies and procedures ensure that Mason can focus on its educational mission, provide a safe environment for learning, and preserve the aesthetics of its campus.

Change of Status, Address

Each student is required to provide Mason with current contact and identifying information, including permanent and local addresses, telephone numbers, and legal name. Each student must also maintain the university e-mail account assigned at the time of admission. Students are responsible for official communications directed to Mason e-mail accounts. For more information, check the website (http://masonlive.gmu.edu).

Addresses should be updated over the Internet using Patriot Web. Name and Social Security number changes require official documentation and must be processed in person at the Office of the University Registrar or with the original copy of a notarized request.

Appeals of Academic Procedures

Students have the right to seek an exception to academic policy and appeal adverse decisions regarding those requests. The academic exception and appeals process begins in the academic unit. Each academic unit at Mason has a written statement of that unit's academic exception and appeal process on file in the dean or director's office. Undergraduate students initiate appeals of unit decisions with the Associate Provost for Undergraduate Education. Graduate students initiate appeals of adverse decisions with the Associate Provost for Graduate Education. *The Provost's Office does not consider, and this procedure does not apply to, grade appeals or appeals of Honor Committee decisions*.

Undergraduate Appeals

The Provost's Office may refer cases to the University Academic Appeals Committee. The committee consists of five faculty members, including at least one member of the Faculty Senate and the provost (or designee), who serves *ex officio*, in a nonvoting capacity. The committee hears only those cases where procedural irregularities or a questionable application of university policies is demonstrable, or when the provost or the committee deems the case relevant to the application of university-wide policies. The burden of proof rests with the student, who must provide clear and convincing documentation to support the contention that the decision was unfair based on the criteria stated above. The committee's decision is final. The University Academic Appeals Committee is not charged to hear grade appeals or appeals of Honor Committee decisions.

Graduate Appeals

Specific procedures regarding exceptions to graduate academic policies, including how to appeal an adverse decision, can be found here (https://provost.gmu.edu/academics-and-research/graduate-education/) on the Office of the Provost and Executive Vice President’s website under Graduate Education. All appeals must be in writing, and they must demonstrate that the student has exhausted all options within the academic unit.

Student Requests for Academic Actions

All requests for academic actions, such as special permissions or exceptions to published academic regulations, must be submitted to the head of the unit in which the student's program is housed, for example, the department chair, institute director, or school or college dean. Forms and instructions on how to initiate an academic action are available in the academic unit and on the unit's web site. For undergraduate exploratory/undeclared/undecided students, non-degree, guest matriculant or exchange student, your appeal is processed through the Mason Care Network, located in SUB I, Suite 3600. Students will be informed of the average wait time for decisions on academic actions undertaken within their units. Those who need assistance with the academic actions process may consult their academic advisor, department coordinator, or their school/college's academic affairs office.

Academic Assessment

The regular evaluation of student learning, perceptions, and achievements is fundamental to the continuous improvement of Mason’s academic programs. All academic programs at Mason, including Mason Core, have student learning outcomes that are assessed periodically. Student work in various courses may be used for such assessments. Student anonymity is assured and grades will not be affected. Student participation is an essential component of the improvement process, and students may be asked to engage in a variety of assessment activities including surveys and focus groups.

Students may contact the Office of Institutional Effectiveness and Planning (OIEP) at oiep@gmu.edu (oira@gmu.edu) with questions or concerns about assessment activities at Mason. Additional information can be found on the OIEP website (https://oiep.gmu.edu/).

Student Work, Intellectual Property

University Policies 4002 (https://universitypolicy.gmu.edu/policies/copyright-in-university-works/) and 4003 (http://universitypolicy.gmu.edu/policies/patenting-university-inventions/) control ownership of copyrightable works and patentable inventions made at Mason. Generally, Mason does not assert ownership of copyrightable works and patentable inventions made by students (who are not also Mason employees) to fulfill the requirements of a particular course. Mason generally owns copyrightable works and patentable inventions made by students who are not employees if they are made in the course of sponsored research or with substantial use of significant university resources. If a student (undergraduate or graduate) is also an employee (such as a research or teaching assistant), Mason generally owns copyrightable works and patentable inventions made as part of that student's employment responsibilities. Students with questions are encouraged to consult the policies and to contact the Office of Technology Transfer, ott@gmu.edu or 703.993.8933.

Student Conduct and the University Community

Office of Student Conduct
Student Union Building I, Room 4100
Phone: 703-993-6209
Fax: 703-993-2893
Web: studentconduct.gmu.edu (http://studentconduct.gmu.edu)

Students enrolling in the university assume an obligation to conduct themselves in a manner compatible with the university's function as an educational institution. The Code of Virginia (Section 23-9.2:3) confers on the university the responsibility for maintaining order within the university and the right to adjudicate referrals where students are alleged to have violated the Code of Student Conduct.

Students may learn more about the Code of Student Conduct by accessing it here (https://studentconduct.gmu.edu/university-policies/code-of-student-conduct/).

The Office of Student Conduct addresses referrals regarding the conduct of Mason students and their guests. Questions regarding student conduct policies should be directed to the Office of Student Conduct, SUB I, Room 4100, 703-993-6209; their website (https://studentconduct.gmu.edu); or via email at osc@gmu.edu.

Privacy of Student Records

Office of the University Registrar
Student Union I, Room 2101
Phone: 703-993-2441
Email: registrar@gmu.edu
Web: ferpa.gmu.edu (https://ferpa.gmu.edu)

Each year, Mason informs students of the Family Educational Rights and Privacy Act (FERPA) of 1974. The university intends to comply fully with this act, which protects the privacy of education records, establishes the right of students to inspect and review their education records, and provides guidelines for amending inaccurate or misleading data through informal and formal hearings. Students also have the right to file complaints with the Family Policy Compliance Office (U.S. Department of Education) concerning alleged failures by Mason to comply with the act.

The Notification of Rights under FERPA and the Public Notice Designating Directory Information detail students' rights and the procedures implemented by the university to comply with FERPA.

FERPA is a federal law that affords students certain rights with respect to their education records. Specifically, it affords students the right to:

1. inspect and review their education record;
2. request the amendment of inaccurate or misleading records;
3. consent to disclosure of personally identifiable information contained in their education record to a third party; and
4. file a complaint with the Family Policy Compliance Office of the U.S. Department of Education concerning alleged failures of the university to comply with the act.

George Mason University strives to fully comply with this law by protecting the privacy of student records and judiciously evaluating requests for release of information from those records. FERPA authorizes the release of "directory information" without the student's prior consent under certain conditions, which are set forth in the act. George Mason University has defined its "directory information" in accordance with the law. Please visit the FERPA website (https://ferpa.gmu.edu) for additional information about student privacy and FERPA.

Public Notice Designating Directory Information

Directory Information:

Directory Information may be disclosed by the university without the student's prior consent under the conditions set forth in the Family Educational Rights and Privacy Act of 1974 (FERPA). Directory information is information that Mason may disclose, but is not required to do so.

University Policy 1122 (https://universitypolicy.gmu.edu/policies/ferpa-compliance/): FERPA Compliance defines directory information at Mason:

- Student Name
- *Student ID (G Number)
- *Date of Birth
- Major Field of Study
- Dates of Attendance
- Enrollment Status
- Previous Institutions
- Class Level
- Degrees and Awards Received
- Photographs
- Participation in Officially Recognized Sports and Activities
- Weight and Height of Athletes

***Limited Directory Information:** Student ID number and Date of Birth are considered to be limited directory information, which may be used for verification purposes only, and not released as directory information.

As of July 1, 2018, the Code of Virginia Section 23.1-405(C) prohibits George Mason University from disclosing a student's email, address or telephone number under the exception in the Family Educational Rights and Privacy Act (FERPA) for directory information or the Virginia Freedom of Information Act (FOIA) unless the student has affirmatively consented in writing to the disclosure.

Beginning on July 1, 2019, HB2449 provides an amendment to 23.1-405(C). This amendment allows for the disclosure of a student's email, address or telephone number to other students enrolled in the institution for educational purposes or institution business and the student has not opted out of such disclosure.

George Mason does not disclose social security numbers, grades, grade point averages, class schedules, academic actions nor the number of credits enrolled in or earned unless the student has signed a consent form.

Preventing Disclosure of Student Information: Currently enrolled students may withhold disclosure of directory information under FERPA. To withhold disclosure, students must complete the Request to Prevent Disclosure of Directory Information Form. The form may be submitted at any time throughout the year and will immediately affect prospective disclosures. Mason assumes that failure on the part of any student to specifically request the withholding of a category of directory information indicates individual approval for disclosure.

Confidential (Private) Hold: Prevents disclosure of all student information. A student who elect this hold must conduct all university business in person with a photo ID or via their official Mason email

address. No student information will be released over the phone.
Students in this category may still use interactive web and other electronic systems, such as Patriot Web, for transactions (including registration) which are protected by a secured login. Confidential status does not convey a right to be anonymous in the classroom or to impede routine classroom communication and interactions. A student with a confidential status should expect to be identified in class by name, and to have their Mason email address used for class purposes. A student must remove this hold in order for their name to appear in the commencement or convocation program.

Honor Code and System

LaShonda Anthony, Director

Office of Academic Integrity
Student Union I, Suite 4100

Phone: 703-993-6209
Fax: 703-993-2893

Email: oai@gmu.edu
Website: oai.gmu.edu

Mason shares in the tradition of an honor system that has existed in Virginia since 1842. Mason's Honor System was inaugurated in 1963 when the college was a satellite of the University of Virginia. The code is an integral part of university life. On the application for admission, students sign a statement agreeing to conform to and uphold the Honor Code. Students are responsible, therefore, for understanding the code's provisions. In the spirit of the code, a student's word is a declaration of good faith acceptable as truth in all academic matters. Cheating and attempted cheating, plagiarism, lying, and stealing in academic matters constitute Honor Code violations. To maintain an academic community according to these standards, students and faculty members must report all alleged violations to the Honor Committee.

The Honor Committee has the primary duty of espousing the values of the Honor Code. Its secondary function is to sit as a hearing committee on all alleged violations of the code.

Honor Code

To promote a stronger sense of mutual responsibility, respect, trust, and fairness among all members of the George Mason University community and with the desire for greater academic and personal achievement, we, the student members of the university community, have set forth this honor code: **Student members of the George Mason University community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work**.

A full reading of the Honor Code and the associated system can be found at our website (http://oai.gmu.edu).

Please note there is a separate process for individuals accused of research misconduct. As it states in policy 4007, "Allegations of academic misconduct against graduate students are governed solely by the university honor code, except for:

1. research activities as defined above regardless of sponsorship; and
2. master's theses and doctoral dissertations, both of which are governed by this policy.

Allegations of academic misconduct against undergraduate students are governed solely by the university honor code, except for sponsored research activities which are governed by this policy." Questions related to research misconduct that fall under this category should be directed to the Office of Research Integrity and Assurance at the following link: https://rdia.gmu.edu/topics-of-interest/research-misconduct/.

Honor Committee

The Honor Committee is selected to promote academic integrity as a core value for our university community. Members of the committee also serve on hearing panels established to investigate and resolve alleged violations of the code. The Antonin Scalia Law School has an Honor Committee that is independent from the rest of the university's Honor Committee. Information about the Scalia Law School honor system can be found by clicking this link (http://www.law.gmu.edu/academics/honor_code/) (http://www.law.gmu.edu/academics/honor_code).

Membership will be limited to 100 members who apply for membership. Undergraduate members must have no Honor Code violations, maintain a cumulative GPA of 2.66, be in good academic standing, and successfully complete the training and orientation program. Graduate members must meet all of the requirements above with the exception of maintaining a cumulative GPA of 3.00. Faculty and Administrative Faculty members must hold at least a master's degree. Information on how to apply can be found here (https://oai.gmu.edu/honor-committee-recruitment/) (https://oai.gmu.edu/honor-committee-recruitment/).

The committee is advised by the staff of the Office of Academic Integrity. The Office provides administrative oversight for the Honor Committee and the integrity process at Mason.

Student Responsibilities

Students are responsible for ensuring the work they are submitting is their own work. This includes checking to make sure that any information that was not their own creation is properly attributed to the original source, as well as working within the guidelines provided by the professor of the class regarding submitted work. Facilitating misconduct in the form of providing unauthorized resources, tests, or solutions for others is a violation of the honor code and will be dealt with as such. Additionally, students should request an explanation of any aspect of the professor's policies regarding the Honor Code that they do not fully understand. Students have an obligation to encourage respect among their fellow students for the provisions of the code. This includes an obligation to report violations by other students to the Honor Committee.

Faculty Responsibilities

At the beginning of each semester, faculty members have the responsibility of explaining to their classes their policy regarding the Honor code. They must also explain the extent to which aid, if any, is permitted in academic work. Faculty members are also responsible for including in their syllabus an academic integrity statement as outlined by the Provost's office at the start of each academic semester. Additional language should include what constitutes acceptable behavior for the course they are teaching.

Procedures for Reporting Violations and Record Keeping

All suspected violations must be reported to the Office of Academic Integrity in a timely manner. Instructions on how to submit a referral can be found on the office's website (http://oai.gmu.edu). The student

will be notified in writing that a referral has been made and meet with a staff member in the office to review the case materials and decide the next course of action. Findings of responsibility in Honor Code cases are maintained by the Office of Academic Integrity in accordance with the Library of Virginia Records Management schedule.

STUDENT SERVICES

- Academic Advising

- Sarah R. Squire, Advising Coordinator, Undergraduate Education

Academic advising and success coaching **at George Mason University are integral parts of the educational and developmental process that enhance student success. An exemplary Mason Graduate is an engaged, reflective citizen and well-rounded scholar who is prepared to act. Mason commits to supporting holistic success across the student experience, connecting students to campus resources, and helping students set and achieve academic, career, and personal goals.**

Academic Advising

Academic Advisors at Mason are assigned to students based on their declared major, and this relationship begins during Orientation. Students are recommended to meet with their Academic Advisorat least once#per#semester#to discuss questions or concerns.

Advisors assist students with:

- navigating undergraduate education at Mason;
- transitioning to college;
- setting academic goals and making connections to career goals;
- learning about available academic Mason resources;
- understanding Mason academic policies and procedures;
- accessing and using the degree audit tool, Degree Works;
- selecting courses for the student's class schedule;
- checking on progress towards degree completion, and much more.

Individual departments establish their own advising processes; students are encouraged to check with their departments for the appropriate procedures and to determine how to access academic advising. Students can use the Current Advising Services website (https://advising.gmu.edu/mason-advisors/keep-advising/) to locate their School or College advising website. In addition, the advisor locator is available online to assist students with finding their academic advisor and determining how to schedule a meeting with their advisor.

With their advisors, students plan and make informed decisions regarding their academic programs in order to meet the general university degree requirements and specific requirements within their major and minor fields. It is the student's responsibility to read this catalog and know and fulfill the requirements of a specific baccalaureate degree. To assist in the advising process, Mason provides a computerized degree evaluation, Degree Works. Students should access their individualized reports through Patriot Web. It remains the student's responsibility to seek approval for any program change so the computerized degree plan may be kept current.

Students changing majors are encouraged to meet with an advisor in the new major. Students considering changing majors can also meet with an Exploratory Success Coach in the Mason Care Network to explore their options. They may change majors by filing out a Change/Declaration of Academic Program Form available from the Office of the University Registrar. This form must first be signed by an advisor in the School or College offering the major before it is submitted to the Office of the University Registrar.

Students can explore majors and minors using the "Find Your Program" tool in this Catalog.

Exploratory and Undeclared Students

Students who have not declared a major (or who have been terminated from their major) are assigned an Exploratory Success Coach within the Mason Care Network. Students are encouraged to make appointments with their Exploratory Success Coach for information about general degree requirements, major exploration, policies, procedures, getting connected on campus, and other concerns. More information can be found on the Mason Care Network website.

Health Professions Advising

Web: prehealth.gmu.edu (http://prehealth.gmu.edu)

Health Professions Advising collaborates with campus colleagues to assist students in their pursuit of postgraduate work in a medical field (allopathic and osteopathic medicine, dentistry, optometry, physician assistant, pharmacy, physical therapy, occupational therapy, communication sciences, and veterinary medicine). The Health Professions Advising Coordinator provides information and tools which will help pre-health students achieve success in the application process to a professional school.

Patriot Pre-Law Advising

Web: scharprelaw.gmu.edu (https://scharprelaw.gmu.edu/)

The Patriot Pre-Law Program prepares students for the law-school application process and for success in law school.

The goals are to:

- bring law school admissions deans to campus so they can help students understand what it takes to be accepted
- help undergraduates select courses that will develop skills to succeed as pre-law students, law-school students, and practicing lawyers
- offer programming to prepare students for the Law School Admissions Test, a high-stakes exam that dictates where students can go to law school
- provide specialized attention to the law school personal statement, which most law schools use instead of a face-to-face interview.
- guide students toward resources that will help them select the best law school for their needs and determine how to fund it.

Interested students are encouraged to visit the pre-law program website or contact Professor Phillip Mink at pmink@gmu.edu.

Office of Fellowships

Web: fellowships.gmu.edu (https://honorscollege.gmu.edu/academics/fellowships/)

The Office of Fellowships helps highly motivated undergraduates and recent alumni of all majors to find, prepare for, and apply for nationally competitive scholarships and fellowships. Past winners have been active leaders in their fields and have been involved in research, community service, or creative projects. A team of program officers and graduate students will assist you in identifying and preparing applications for nationally competitive fellowships to support your academic, professional, and public service goals. Throughout the academic year, the office provides information sessions, workshops, individual advising, and other events to connect students to fellowship opportunities.

Continuing and Professional Education

3351 Fairfax Drive
Suite 448, Founders Hall
MS 2G2, Arlington, VA 22201

Phone: (703) 993-2109
Email: cpeinfo@gmu.edu
Website: cpe.gmu.edu

Administration

- Marc Austin, Executive Director, Continuing and Professional Education and Academic Ventures

Continuing and Professional Education seeks to support learning opportunities, certifications, credential attainment and training for the entry to mid-level staff and management professional.

Supported program activities include contracted academic credit programs, noncredit public programs and seminars, online courses, professional certificate programs, continuing education units (CEUs), on-site contract training programs, special professional development events and programs, special workforce development programs, and training center facilities. Continuing and Professional Education seeks to support learning opportunities, certifications, credential attainment and training for the entry to mid-level staff and management professional.

Continuing and Professional Education prepares students for a changing employment landscape and lifelong learning by helping them take advantage of Mason faculty and resources and create opportunities for upskilling and earning industry-backed certifications to help them advance careers, earning potential and knowledge of technical fields in rapidly changing industries and governmental agencies.

Additionally, Continuing and Professional Education supports the learning and development needs of corporations and agencies in their efforts to provide their staff with professional development and certification programs, tailored to attract and retain critical talent and workforce in cost-effective, high impact ways.

Learn more about Continuing and Professional Education's current program information, offerings and capabilities on their website (https://cpe.gmu.edu/). You can also reach Continuing and Professional Education by phone at 703-993-2109.

With over 30 years of experience providing workforce and professional development training, Mason Continuing and Professional Education is committed to growing and enhancing course offerings as we continue to offer quality programming that supports and engages the diverse interests and professional objectives of those we serve.

Green Leaf Programs and Courses

Website: sustainabilitystudies.gmu.edu

Green Leaf Programs and Courses

A "Green Leaf" course or academic program focuses on learning about sustainability, i.e., meeting our present needs without compromising the ability of future generations to meet their own needs.

See the Sustainability Studies website (http://sustainabilitystudies.gmu.edu/greenleaf/) for more information.

Programs

Green Leaf academic programs focus on sustainability, usually including a required set of Green Leaf courses in order to cover the social, economic and environmental dimensions of sustainability. Each is a vital contributor to Mason's sustainability across the curriculum.

Undergraduate Degrees

- Atmospheric Sciences, BS
- Civil and Infrastructure Engineering, BS
- Geology, BS
- Environmental and Sustainability Studies, BA (CHSS)
- Environmental Science, BS
- Geology, BA
- Global Affairs, BA
- Health, Fitness, and Recreation Resources, BS: Concentration in Parks and Outdoor Recreation
- Tourism and Events Management, BS

- Integrative Studies, BS: Concentration in Applied Global Conservation (AGCN)

Undergraduate Minors and Certificates

- Atmospheric Science Minor
- Conservation Studies Minor (CHSS)
- Earth Science Minor
- Environmental Policy Minor[1]
- Geology Minor
- Global Affairs Minor[1]
- Paleontology Minor
- Sustainable Enterprise Minor
- Sustainability Studies Minor

Bachelor's/Accelerated Master's Program

- Bachelor's Degree (Green Leaf)/Environmental Science and Policy, Accelerated MS
- Bachelor's Degree (any)/Interdisciplinary Studies, Accelerated MAIS (Energy and Sustainability Concentration)[1]
- Bachelor's Degree (any)/Global Affairs, Accelerated MA[1,2]

Graduate Degrees

- Climate Dynamics, PhD
- Environmental Science and Policy, MS
- Environmental Science and Public Policy, PhD
- Global Affairs, MA[1]
- Interdisciplinary Studies, MAIS: Concentration in Energy and Sustainability

[1] Meets Green Leaf criteria when options are selected to ensure coverage of "people, planet and prosperity" across the program's curriculum.

[2] Meets the Green Leaf criteria when the Master's degree is paired with a Green Leaf Bachelor's degree.

Courses

The Green Leaf designation recognizes offerings that contribute significantly to students' understanding and practice of sustainability. These offerings extend beyond environmental management, natural resources protection and conservation studies alone as Mason's Green Leaf curricula comprise both sustainability-*focused* and sustainability-*related* courses.

Sustainability- *Focused* Courses

Sustainability-*focused* courses provide valuable grounding in the concepts and principles of sustainability. These courses educate students about how different dimensions of sustainability relate to and support each other in theory and practice. In addition, these courses help equip students with the skills to weave together disparate components of sustainability in addressing complex issues.

Sustainability- *Related* Courses

Sustainability-*related* courses help build knowledge about a component of sustainability or introduce students to sustainability concepts during part of the course. They may complement sustainability-focused courses by providing students with in-depth knowledge of a particular aspect or dimension of sustainability (such as the natural environment) or by providing a focus area (such as renewable energy) for a student's sustainability studies, or they may broaden students' understanding of sustainability from within different disciplines.

Living Learning Communities

Office of Living Learning Community Development

Hanover Hall
Fairfax Campus

Phone: 703-993-6674
Email: LLC@gmu.edu
Website: http://llc.gmu.edu/

Living Learning Communities (LLCs) are collaborative partnerships between academic departments, individual Mason faculty, housing and residence life staff, and the division of University Life. Students who enroll in an LLC take one or more classes together and live on campus as a group in the same residence hall. In addition to their common coursework, groups of students in LLCs interact with each other and their faculty or staff coordinators through numerous out-of-class programs and activities. LLC options exist for both first-year and upper-division undergraduate students who choose to live on campus. For more information, please visit the website. (http://llc.gmu.edu)

Mason Impact

Bethany M. Usher, Associate Provost for Undergraduate Education

228 Johnson Center
Fairfax Campus

Phone: 703--993-3794
Email: MasonUE@gmu.edu
Website: UGE.gmu.edu

Mason Impact

Mason impacts students, and students impact the world!

Mason Impact (https://provost.gmu.edu/initiatives/mason-impact/) is George Mason University's commitment to offer every student transformative learning experiences. Mason Impact offers high-impact opportunities to all students, designed to develop problem-solving, critical thinking, and communication skills, and preparing them to make a real impact in the world. Mason Impact is grounded in a strong education that explores how knowledge is created and used, investigates local and global challenges from multiple perspectives, and helps students develop relevant questions. Mason Impact Projects allow students to use inquiry methods to answer their questions and learn to communicate their results. These experiences are transformative; students are introduced to a more complicated and interesting world in which they can have an impact. Mason Impact offers experiences and projects in Global Education (http://studyabroad.gmu.edu), Civic Engagement (https://provost.gmu.edu/initiatives/mason-impact/community-engagement-and-civic-learning-cecl/), Research (https://oscar.gmu.edu), and Entrepreneurship (https://provost.gmu.edu/initiatives/mason-impact/career-industry-and-entrepreneurship-entr/). (https://provost.gmu.edu/initiatives/mason-impact/entr/) Students who successfully complete Mason Impact projects and/or participate in study abroad earn special transcript notations highlighting their experiences.

Office of Community Engagement and Civic Learning (CECL)

The Office of Community Engagement and Civic Learning (https://provost.gmu.edu/initiatives/mason-impact/community-engagement-and-civic-learning-cecl/) facilitates
collaboration between Mason faculty, staff, students, alumni, and the community for the mutually beneficial exchange of knowledge, resources, and service in the context of partnership and reciprocity.
CECL offers several opportunities for engaging with civic and community learning including:

- Funding undergraduate community engaged research and service opportunities through the Summer Team Impact Opportunity and Undergraduate Research Scholars Program
- Supporting courses with a Civic Engagement component through Mason Impact
- Offering Federal Work Study community engaged research assistantships
- Facilitating campus wide programming around voter engagement and participatory democracy
- Connecting students with faculty mentors doing community engaged research and teaching

Office of Entrepreneurship and Innovation (ENTR)

Entrepreneurship and innovation is a featured part of the (https://provost.gmu.edu/initiatives/mason-impact/)Mason Impact experience and is vital to our economy and our communities. As a world-class research institution, Mason has an important role to play in educating the next generation of entrepreneurs and business leaders. Becoming an entrepreneur when you're still in school has some built-in advantages.

If you are thinking about starting a business or have a breakthrough invention, our personalized approach will connect you with the resources to move your business forward. Our team of experts will also help find and facilitate access to capital for promising initiatives.

You'll also have the opportunity to test your ideas, learn what works and what doesn't, and pivot early to avoid costly mistakes. Our programs will teach you to approach problems with a lean mindset.

We'll help you with:

- Concept definition.
- Intellectual property protection.
- Company formation.
- Business planning.

- Product-market fit.
- Go-to-market planning.
- Financial modeling.
- Co-founder/partner recruitment.
- Fundraising.

Office of Student Scholarship, Creative Activities, & Research (OSCAR)

The Office of Student Scholarship, Creative Activities, & Research (OSCAR) is home to Mason's award-winning undergraduate research program, connecting undergraduate students and faculty through course-based , co-curricular, and independent scholarly projects. Undergraduate research is a featured Mason Impact (https://uge.gmu.edu/mason-impact/https://provost.gmu.edu/initiatives/mason-impact/) experience.

OSCAR offers several programs that make scholarship central to the undergraduate experience at Mason, by:

- Helping undergraduates students find faculty mentors
- Funding undergraduate research and creative projects through the Undergraduate Research Scholars Program and Summer Team Impact Opportunities
- Providing funding for travel to conferences through the Undergraduate Student Travel Fund
- Supporting Research, Scholarship Intensive Courses and Mason Impact (https://masonoscar.knack.com/oscar-courses/#impact-courses-full-list/) Courses
- Hosting the annual Celebration of Student Scholarship and Impact
- Offering OSCAR Federal Work Study Research Assistantships

Please visit our website (http://oscar.gmu.edu/) for more information.

Office of Military Services

The mission of the Office of Military Services at Mason is to assist veterans, active duty service members, guardsmen, reservists, and dependents in making a successful transition into the Mason community. Our goal is to help these students in a number of capacities including counseling and advising on benefits, academic and admissions advising, and career transition. Few schools have a dedicated staff to help transition from a military environment to college life and we are proud to be able to assist our students in any way.

Located within the Office of Admissions, the Office of Military Services understands personally that the transition to student life can be challenging, yet rewarding. Along with the entire university community, we are grateful to you and your family members for your service to our country. We are dedicated to providing the services you need to successfully navigate this transition.

To schedule a time to meet with a Transition Coordinator, email military@gmu.edu or call 703-993-1316.

The Virginia State Approving Agency (SAA), is the approving authority of education and training programs for Virginia. Our office investigates complaints of GI Bill beneficiaries. While most complaints should initially follow the school grievance policy, if the situation cannot be resolved at the school, the beneficiary should contact our office via email saa@dvs.virginia.gov.

Veteran Student Resident Tuition Rates

George Mason University complies with veteran student regulations regarding tuition rates. The following individuals shall be charged the in-state rate, or otherwise considered a resident, for tuition purposes:

- A Veteran using educational assistance under either chapter 30 (Montgomery G.I. Bill — Active Duty Program) or chapter 33 (Post-9/11 G.I. Bill), of title 38, United States Code, who lives in the Commonwealth of Virginia while attending a school located in the Commonwealth of Virginia (regardless of his/her formal State of residence) and enrolls in the school within three years of discharge from a period of active duty service of 90 days or more.
- Anyone using transferred Post-9/11 GI Bill benefits (38 U.S.C. § 3319) who lives in the Commonwealth of Virginia while attending a school located in the Commonwealth of Virginia (regardless of his/her formal State of residence) and enrolls in the school within three years of the transferor's discharge from a period of active duty service of 90 days or more.
- A spouse or child using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b)(9)) who lives in the Commonwealth of Virginia while attending a school located in the Commonwealth of Virginia (regardless of his/her formal State of residence) and enrolls in the school within three years of the Service member's death in the line of duty following a period of active duty service of 90 days or more.
- An individual using educational assistance under chapter 31, Vocational Rehabilitation and Employment (VR&E) who lives in the Commonwealth of Virginia while attending a school located in the Commonwealth of Virginia (regardless of his/her formal State of residence) effective for courses, semesters, or terms beginning after **March 1, 2020**.
- Anyone described above while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same institution. The person so described must have enrolled in the institution prior to the expiration of the three-year period following discharge or release as described above and must be using educational benefits under either chapter 30, chapter 33, or chapter 31 of title 38, United States Code.

Veterans Benefits and Transition Act of 2018

Pursuant to the Veterans Benefits and Transition Act of 2018, section 3679 of title 38, United States Code, effective August 1, 2019 George

Mason University will not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrow additional funds, on any covered individual because of the individual's inability to meet his or her financial obligations to the institution, when the delay is due to the delayed disbursement funding from VA under chapter 31 or 33. Mason will permit any covered individual to attend or participate in their course of education during the period beginning on the date on which the individual provides to the educational institution a certificate of eligibility for entitlement to educational assistance under chapter 31 or 33 (a "certificate of eligibility" can also include a "Statement of Benefits" obtained from the Department of Veterans Affairs' (VA) website–eBenefits (https://www.ebenefits.va.gov/ebenefits/homepage), or a VAF 28-1905 form for chapter 31 authorization purposes) and ending on the earlier of the following dates:

1. The date on which payment from VA is made to the institution.
2. 90 days after the date Mason certifies tuition and fees following the receipt of the certificate of eligibility.

Mason requires covered individuals to take the following additional actions:

1. Submit a certificate of eligibility for entitlement to educational assistance no later than the first day of a course of education.
2. Submit a written request to use such entitlement.
3. Provide additional information necessary to the proper certification of enrollment by the educational institution.

Students are responsible for additional payment(s) or the payment of fees for the difference between the amount of the financial obligation and the amount of the VA education benefit disbursement in the following cases:

1. The covered individual will receive less than 100% tuition reimbursement based on the Certificate of Eligibility or written request of entitlement provided by the covered individual, or

A hold or late fee may be assessed if timely payment is not made in the following cases:

1. A covered individual fails to make timely payments for balances incurred for housing, meal plans, or other fees or charges that are not eligible for payment by the Veterans Administration

Military Activation Policy

In accordance with the "Virginia Tuition Relief, Refund, and Reinstatement Guidelines," Mason students in the uniformed services under call or order to active duty, after the beginning of a semester or summer session have two options they may consider with the dean's office of their school of enrollment and Office of the University Registrar in determining their enrollment status with the University:

1. Students may withdraw from courses in which they are enrolled as of the effective date of the call or order to report to active duty. When this option is selected, a credit of tuition and fees, and any pre-paid tuition, room, or board deposits, will be made to the student's account. Students will receive a pro-rated credit of dining service and housing contract charges. Financial aid awards that were credited to the student's account will be recovered by the University in the amount of tuition and fees, dining, or housing credit. Loans used to cover the remaining charges will be subject to normal repayment procedures. For students receiving Title IV funds, financial aid recovery will be subject to requirements for return of Title IV funds to the federal government.
2. Students may take a grade of incomplete in all courses. Students may request an incomplete grade for military deployment, mobilization, or duty changes occurring in the final three (3) weeks of the course if they have satisfactorily completed more than 50% of the course requirements. The conditions for completing course work and receiving a regular grade should be agreed to between the student, course instructors, and the appropriate dean's office of the school in which the student is enrolled. A copy of the military orders must be provided to the Office of the University Registrar as documentation. The deadline for removing an incomplete given on the basis of military service is the last day of the subsequent term, which includes the summer session. This option requires joint agreement of the student and faculty member(s). Faculty and departments are encouraged to take additional steps to accommodate short absences due to military obligations. If a joint agreement can't be reached, students may withdraw from the course and are eligible to receive a 100% reduction of tuition charges after withdrawal is approved for classes that have been discontinued.

Please coordinate requests under the Military Activation Policy with the Office of Military Services. The Office of Military Services will assist with the processes in accordance with current policies. Students will need to discuss their situation with the appropriate representative form their dean's office in consultation with Student Accounts and the Office of the University Registrar. A copy of the active duty orders are required.

Regardless of the option selected above, the following provisions govern reinstatement to the University upon release or return from service in the uniformed services. Students that have a leave of absence under the military activation policy are entitled to reinstatement, to their program of study (if available), without having to reapply for admission if (1) they return to the University after a cumulative absence of not more than five years, and (2) they provide notice of intent to return to the University not later than three years after the completion of the period of service. (Exceptions to these time periods may be found in the Higher Education Opportunity Act (HEOA) of 2008.) Throughout the entire process, former students/students will have access to counseling to determine the impact of absence from the program, to evaluate the ability to resume study, and to assess options when a program is no longer available or suitable.

Applicants to the University who have accepted an offer of admission but who have not yet registered in a degree program may defer admission for up to two consecutive semesters by making a request in writing to the Office of Military Services. To request a deferment for longer than two consecutive semesters, a copy of the military orders must be provided with the written request.

For further information, students should contact the Office of Military Services at (703) 993-8243.

Virginia Military Survivors and Dependents Education Program

The Virginia Military Survivors and Dependents Education Program provides education benefits to qualified children between the ages of 16 and 29, and spouses of military service members killed, missing in action, taken prisoner as a result of military service in an armed conflict, or veterans discharged or released under conditions other than dishonorable who served in the Armed Forces of the United States,

Reserves of the Armed Forces of the United States, or Virginia National Guard, and due to such service, became at least 90 percent disabled.

The military service member must have established domicile, or had a physical presence, in Virginia for at least five years immediately prior to the date on which the admission application was submitted by or on behalf of the applicant to a Virginia public college or university; or

In the case of a deceased military service member:

The military service member must have established domicile, or had a physical presence, in Virginia on the date of death and for at least five years immediately prior to date of death; or

The surviving spouse or surviving parent must have established domicile, or had a physical presence, in Virginia for five years immediately prior to the date on which the admission application was submitted by or on behalf of the applicant to a Virginia public college or university.

Education benefits include tuition and fee waivers, and a stipend for room and board charges, books and supplies, and other expenses. Program and application information may be found on the Virginia Department of Veterans Services website.

The Virginia State Approving Agency (SAA), is the approving authority of education and training programs for Virginia. Our office investigates complaints of GI Bill beneficiaries. While most complaints should initially follow the school grievance policy, if the situation cannot be resolved at the school, the beneficiary should contact our office via email saa@dvs.virginia.gov**.**

Reserve Officer's Training Corps (ROTC)

Army ROTC

2121 Recreation & Athletic Complex
Phone: 703-993-2706
Fax: 703-993-2708
Web: arotc.gmu.edu (http://arotc.gmu.edu)

Administration
Lieutenant Colonel Michael Nelson, U.S. Army
Professor of Military Science

The Army Reserve Officers' Training Corps (ROTC) is an elective program offering qualified students the opportunity to earn a commission as an officer in the U.S. Army, Army National Guard, or U.S. Army Reserve while pursuing a baccalaureate or graduate degree as a full-time student. The program emphasizes student learning and participation in applied leadership, leadership theory, decision making, management skills, time management, ethics and military law, logistics, military roles and national objectives, strategic and tactical planning and principles, and basic military knowledge and skills. The George Mason Army ROTC Patriot Battalion began in 1982, achieved independent status in 2000, and frequently conducts training with colleges and universities throughout Maryland, Virginia, and the District of Columbia.

Enrollment

Enrollment in Military Science (MLSC) courses is open to all students at the Basic Course Level. Freshmen (MLSC 100 Introduction to Army/ROTC and MLSC 102 Leadership Skills II), sophomore (MLSC 200 Self/Team Development and MLSC 202 Leadership Skills IV), and junior (MLSC 300 Applied Leadership I and MLSC 302 Applied Leadership II) classes are awarded 1 credit each. Senior classes (MLSC 400 Leadership and Management and MLSC 402 Leadership and Ethics) earn 3 credits each. No military service obligation is incurred by enrolling in the freshman and sophomore level Army ROTC courses. Courses can be dropped or added, as with any elective course at Mason.

The four-year program is organized into two successive phases: the Basic Course and the Advanced Course. For students seeking the opportunity to earn a commission as an officer, several entry methods and participation strategies can be used. A minimum of four semesters must remain in the student's academic curriculum to complete commissioning requirements; these semesters may be part of either a full-time undergraduate or graduate degree. Course descriptions appear under Military Science (MLSC) in the Courses section of this catalog. Cadets must meet established academic standards. A student must maintain an overall GPA of at least 2.00 to earn commissioning credit for ROTC.

Contracted and scholarship cadets of any level are required to pass the Army Physical Fitness Test (APFT) once each semester. Physical training (PT) is conducted three times each week (Monday/Wednesday/Friday from 6:30 to 8 a.m.). All contracted and scholarship cadets are required to attend physical training.

Basic Course Curriculum

The Basic Course curriculum is a four-course series (MLSC 100 Introduction to Army/ROTC, MLSC 102 Leadership Skills II, MLSC 200 Self/Team Development, and MLSC 202 Leadership Skills IV), usually taken in the freshman and sophomore years. Each class awards 1 academic credit. The Basic Course trains students map reading, land navigation, first aid, physical fitness, leadership, ethics, and communication skills. Each lecture class meets once a week for 75 minutes. Course materials and access to required publications are provided free of charge to all enrolled students. Uniforms and equipment are also issued to students at no cost, but students must return them when withdrawing from or completing the program. In addition students not participating in summer training are required to store their uniforms and equipment with ROTC Supply over the summer break.

Mason's Army ROTC program has numerous experiential aspects. The MLSC Leadership Laboratory section encompasses several different activities. Students enrolling in any ROTC lecture class must enroll in the required lab section. Only the Professor of Military Science can waive Laboratory enrollment in certain circumstances, such as scheduling conflicts.

All Laboratory sections meet as a combined unit on Thursdays from 1:30 to 4:15 p.m. During this time, Cadets train in a variety of hands-on, practical leadership skills and military tasks, ranging from drills and ceremonies to squad and platoon tactics.

Army ROTC also organizes numerous optional events, including field training exercises (FTXs), rappelling, orienteering, formal social events and military related field trips. The unit has an organized color guard, drill team and an intercollegiate Ranger Challenge competition team. Students also have the opportunity to attend official Army training courses such as basic airborne training and the air assault course. Enrolled students typically become progressively more involved to enhance their training, develop esprit de corps, and take part in social aspects of the program.

Advanced Course Curriculum

The Advanced Course consists of a four-course series (MLSC 300 Applied Leadership I, MLSC 302 Applied Leadership II, MLSC 400 Leadership and Management, and MLSC 402 Leadership and Ethics) taken during the junior and senior years. MLSC 300 Applied Leadership I and MLSC 302 Applied Leadership II earn 1 credit each, while MLSC 400 Leadership and Management and MLSC 402 Leadership and Ethics earn 3 credits each. Enrollment in the ROTC advanced course requires that students enter into a contract to serve as a commissioned officer in the active or reserve component of the U.S. Army upon graduation. Many graduates elect to apply for service on active duty although ROTC also offers the opportunity of service in either the Army Reserve or Army National Guard.

The 300-level courses emphasize squad and platoon leadership, tactics, and preparation for Advanced Camp. Advanced Camp is a five-week training and evaluation event conducted during the summer at Fort Knox, Kentucky. Successful completion is a prerequisite for commissioning. Cadets typically attend Advanced Camp in the summer between their junior and senior years; however, they may attend after their senior year if necessary. Salary, travel expenses, and room and board are all provided during the course.

Satisfactory completion of an approved military history course is also required. The department of History and Art History offers a number of 300-level survey courses on the American military experience that satisfy this requirement. Permission of the Professor of Military Science is required prior to substituting any other course.

Upper division ROTC students are also expected to participate in peer mentoring as part of their leadership development. The ROTC peer mentorship program helps students assimilate into the program and helps students prioritize their time to ensure they remain in good academic standing.

The 400-level courses are considered to be the transition phase to becoming an officer in the U.S. Army. These courses focus on leadership, staff operations, logistics, military law, and ethics. Seniors are expected to organize and attend an additional one-hour staff and training meeting per week as part of their leadership experience and duties. Planning and implementation of training becomes the primary focus for seniors in required laboratories.

Enrollment in the advance course ROTC classes requires that certain prerequisites be met. For more information, see the Courses section of this catalog.

Earning a Commission

There are several methods by which students may enter Army ROTC to earn a commission as a second lieutenant on graduation:

- Traditional students may complete the four-year program.
- Sophomores may dual-enroll in both years of MLSC freshman and sophomore level instruction to satisfy the lower-level division requirement in a single academic year. A member of the ROTC cadre must sign a time conflict approval form in order for students to enroll in both freshmen and sophomore lecture sections, as well as the leadership laboratory.
- Veterans with prior college credits may enter directly into the upper-division sequence (if academically aligned as a junior).
- Sophomores may apply to attend a four-week Basic Camp - between the sophomore and junior years to gain experience equivalent to the basic course. Medical, physical and academic standards must be met prior to attending Basic Camp. Students should contact the Recruiting Operations Office in the ROTC department to determine eligibility.
- Graduate students entering a two year program are also eligible to attend Basic Camp prior to start of their graduate studies. Students should contact the Recruiting Operations Officer in the ROTC department to

Education delays for graduate study also may be approved for Cadets seeking training as physicians, lawyers or ministers based on needs of the Army. Non-U.S. citizens may participate freely in the lower-division ROTC courses, but must earn U.S. citizenship prior to enrollment in courses requiring a contractual obligation to serve as a commissioned officer.

Scholarship Programs

Two-, three-, and four-year ROTC scholarships are available to freshmen, sophomores, and juniors in all majors on a competitive basis as well as to graduating seniors who wish to pursue a two-year master's degree. Students must have a minimum cumulative GPA of 2.50 to apply and be under age 31 when commissioned. Scholarships pay 100 percent of tuition, an annual book allowance of $1,200, and a stipend of $420 per month during the school year, all tax free.

A two or three year Guaranteed Reserve Forces Duty scholarship is available that guarantees reserve duty upon graduation and commissioning. Students should contact the Recruiting Operations Officer in the ROTC department to determine eligibility.

High school students interested in four-year scholarships should apply online (http://www.goarmy.com/rotc/)no later than December 15 of their senior year for a scholarship that would start in the fall semester of their freshman year at Mason. Contact the Recruiting Operations Officer for details.

Many students participate in ROTC as non-scholarship cadets. A non-scholarship cadet cannot enter into a contract to receive a commission until the sophomore year (to include completing MLSC 100 Introduction to Army/ROTC and MLSC 102 Leadership Skills II or equivalent credit.) For the sophomore, junior, and senior years, non-scholarship contracted students receive a monthly stipend.

Air Force ROTC

AFROTC Detachment 330
2125 Cole Student Activities Building
University of Maryland
College Park, MD 20742-1021
Phone: 301-314-3242

Enrollment

The Air Force Reserve Officers' Training Corps (AFROTC) provides two programs for college men and women to earn a commission as a second lieutenant in the U.S. Air Force while completing their university degree requirements. To enter the AFROTC program, students should contact 301-314-3242 or go online (http://www.afrotc.umd.edu). Mason students register for the appropriate courses through the Consortium Office located in SUB I, Room 2101. Attendance at courses, located at the University of Maryland, is mandatory. Carpools among Mason cadets are usually available.

Four-Year Program

This program is comprised of a General Military Course (GMC) and a Professional Officer Course (POC). The first two years (GMC), normally for freshmen and sophomores, give a general introduction to the Air Force and its various career fields. Students enrolled in the GMC program incur no obligation and may elect to discontinue the program at any time. The final two years, the POC concentrate on the development of leadership skills and the study of U.S. defense policy. Students must compete for acceptance into the POC. Students enrolled in the last two years of the program regardless of scholarship status will receive a monthly stipend. Juniors receive $450 a month and seniors receive $500 a month.

Three-Year Program

This program is normally offered to prospective sophomores but may be taken by seniors and graduate students. The academic requirements for this program are identical to the four-year program, and students receive the same benefits in their POC years. Student will take both the freshmen and sophomore class to make up the missed first year. Students must start the fall semester of their sophomore year to be eligible for the three-year program. Graduate students should contact the detachment 301-314-3242 for graduate student entrance requirements.

Scholarships

Scholarships are available in many fields and are based on merit. Those selected receive tuition, lab expenses, incidental fees, and a book allowance, plus a nontaxable monthly allowance. For the most up to date information about scholarships available contact the detachment or visit their website (http://afrotc.com/scholarships/).

AFROTC Awards

AFROTC cadets are eligible for numerous local, regional, and national awards. Many of these awards include monetary assistance for school.

Arlington Campus
703-993-4863

Visit website for current clinic operation status

Website: shs.gmu.edu

Student Health Services provides easily accessible and affordable health care to all enrolled students in a caring and confidential environment. We offer a wide variety of services (https://shs.gmu.edu/) to keep Mason students healthy. Visit shs.gmu.edu (https://shs.gmu.edu) for up-to-date information about changes to clinic operations, services, or requirements due to the coronavirus pandemic.

Immunization Requirements

All newly admitted or newly readmitted students are required to submit the Mason Immunization Record Form. Students born after December 31, 1956, must provide documented proof that they have been immunized against certain communicable diseases. Students born before December 31, 1956 are only required to complete the Tuberculosis screening section on the Immunization Record Form.

Immunization Record Deadlines

Fall and Spring semesters each have set deadlines. Visit shs.gmu.edu/immunizations **(**http://shs.gmu.edu/immunizations/**) for dates.**

Students must complete pages 1-2 and a health care provider must complete the remaining sections of the Immunization Record Form. Residential students must complete page 6. Students must submit completed immunization records to the Immunization Office by the deadline. A late fee will be charged and a hold will be placed on the student's Patriot Web account if immunization records or documentation are incomplete. A completed Immunization Record Form is necessary for students to live on-campus.

Immunization requirements are mandated by the Commonwealth of Virginia and George Mason University policy #6004 (http://universitypolicy.gmu.edu/policies/immunization-policy/). Student Health Services is responsible for collecting and maintaining students' immunization records.

Required Immunizations

Tuberculosis: Tuberculosis (TB) screening is required for all students. If TB testing is needed it must be completed within 3 months of the first day of classes for the semester.

Tdap: Must submit proof of Tetanus/diphtheria/Acellular Pertussis (Tdap) vaccination after age 11. Must also show proof of Tetanus and diphtheria (TD)/Tdap within the last 10 years if Tdap vaccine was administered more than 10 years ago. A titer lab report is not accepted.

MMR: Two doses each of measles, mumps, rubella, after 1967 OR the combination MMR (after 1971), OR a laboratory report of a titer documenting positive immunity to each of the diseases.

Hepatitis B: Students are required to submit proof of vaccination or immunity against Hepatitis B disease OR they must sign a waiver. Student Health Services highly recommends this vaccination series.

Meningococcal: Meningococcal Conjugate vaccine administered between the ages of 16-21 OR submit a signed waiver. Student Health highly recommends students living on campus or participating in sports receive this vaccine.

The Mason Immunization Record Form can be found on the Student Health Services website (http://shs.gmu.edu/immunizations/). Immunization records must be in English.

Immunization Submission

Submit the immunization record form to the Immunization Office through the secure patient portal online or by mail. Submission details are on the form.

Students must complete pages 1-2 and a health care provider must complete the remaining sections of the Immunization Record Form. Residential students must complete page 6. Transcription service is available for a fee at Student Health.

If a student is not able to provide appropriate documentation, immunizations and/or titers are also available for a fee. Once records are submitted and a student has received a secure message in the patient portal indicating a missing immunization, students can call the

Immunization Office (http://shs.gmu.edu) at 703-993-2135 to schedule an appointment for needed immunizations. Contact the Immunization Office for questions about immunization requirements, submission, or vaccine prices.

Online submission:
https://gmu.medicatconnect.com

Office location:
SUB 1, Rooms 2347 - 2349

Mailing Address:
George Mason University Student Health Services
4400 University Drive, MS 2D3
Fairfax, Virginia 22030

Students are responsible for ensuring immunization records are submitted and complete by the deadline. Students will receive notification about incomplete or missing immunization requirements through their Mason email account. The notice will direct the student to log into the secure patient portal (https://gmu.medicatconnect.com) for more information.

Minor Consent

A parent/legal representative signature is required for a minor (a student under age 18 at the time classes begin). A minor consent must be on file at Student Health Services to receive most health services. This minor consent is on the immunization record form. If a minor student chooses to sign the hepatitis B or meningococcal waiver on the immunization record form, a parent/legal representative signature is also required.

Student Health Services

Student Health is staffed by dedicated doctors, nurse practitioners, and nurses who provide diagnosis and treatment of illness and minor injuries and health and wellness counseling for all enrolled students.

There is no charge to be seen by a healthcare provider. There are fees for supplies, immunizations, lab testing, medications and procedures. Call to schedule an appointment or speak with a nurse. If Student Health Services is closed, call 703-993-2831 to speak with the free nurse advice service.

Student Health Insurance Plan

George Mason University offers a student health insurance plan which is available to eligible undergraduate and graduate students who would like to purchase health insurance. F-1 and J-1 Visa students are automatically enrolled in the Mason health insurance plan under University Policy #6002 (https://universitypolicy.gmu.edu/policies/health-insurance-requirement-for-international-f-1-and-j-1-visa-students/). A dental insurance plan is available for purchase for all eligible students. Details about the plans are online (http://shs.gmu.edu/insurance/).

Success Coaching

3600 Student Union Building I
MSN 2C4

Phone: 703-993-2470
Email: masoncn@gmu.edu
Website: mcn.gmu.edu

Administration

- Adrienne White, Director, Mason Care Network

Success coaching and academic advising **at George Mason University are integral parts of the educational and developmental process that enhance student success. Mason is committed to supporting holistic success across the student experience, connecting students to campus resources, and helping students set and achieve academic, career, and personal goals.**

Success Coaching

Success Coaches discuss aspects of a student's life which impact their academic performance, including but not limited to the following:

- School community
- Effectiveness
- Commitment to graduation
- Career
- Managing commitments
- Finances
- Health & support
- Academics

Success Coaches will meet with students to discuss these eight focus areas and how they influence their student experience at Mason. Success Coaches work closely with campus resources, Academic Advisors, and the student to develop success plans to enhance and improve a student's performance and confidence in each area.

All incoming freshmen students have an assigned Success Coach; however, all Mason undergraduate students will have access to a Success Coach. Students can locate their coaches via the Coach Locator.

Students can make an appointment with their Success Coach through Navigate Mason or the MCN website, mcn.gmu.edu. Referrals to the MCN can be done via email at masoncn@gmu.edu or call 703-993-2470.

New, Exploratory, and Undeclared Students

In addition to coaching, the MCN unit also provides academic advising for exploratory, undeclared, and non-degree seeking students. Students who are unsure of their major or just not quite sure what field to pursue have an assigned Exploratory Academic Advisor, who also serves as their Success Coach.

Students new to Mason will be expected to meet with their assigned Success Coach during the first semester to develop a plan for success, including discussions about major fit, career paths, campus resources, Mason Impact activities, time management, physical and mental health, finances, and campus activities. Success coaches are located within the Mason Care Network central office in SUB1, or within an academic unit. Exploratory students who have not declared a major, as well as students who have been terminated from their major, will be assigned to a student success coach housed in the Mason Care Network unit. This success coach will serve as the student's academic advisor and

success coach. Students are encouraged to make appointments with coaches for information about general degree requirements, major exploration, policies, procedures, getting connected on campus, and other concerns. All academic actions and exceptions to policy for exploratory, undeclared, and non-degree students should be initiated by meeting with a success coach. More information can be found on the Mason Care Network website.

Referrals to MCN can be done via email at masoncn@gmu.edu or call 703-993-2470. Students can also make an appointment with their Success Coach through Navigate Mason or the MCN website, mcn.gmu.edu.

- Clyde W. Grotophorst, Associate University Librarian for Digital Strategies and Systems
- John C. Walsh, Associate University Librarian for Learning, Research and Engagement

Research Services and Instruction

Library faculty work with instructional and research faculty and students in specific academic programs and departments to promote and use new resources, consult with faculty about acquiring specific scholarly resources, assist graduate students with thesis or dissertation research, develop and maintain research guides, support online courses, collaborate in offering research programs and scholarly events, and conduct instructional and training sessions for all levels of library users—students, faculty and staff.

Instructional Services

The libraries provide a variety of onsite and online instructional services tailored to the curricular and academic programs of the university's schools and colleges. Library instruction ranges from workshops to classes, and is aligned with and embedded in the university's undergraduate and graduate curricula. Technology-rich instructional venues are available in all of the libraries.

Research & Consultation Services

Expert library faculty provide research and consultative assistance, both in-person and virtually, to students, faculty and staff at any stage of the research process. Research support ranges from class assignments to lengthier research projects, to capstone course and graduate degree requirements (i.e., thesis or dissertation), to digital humanities, data and GIS support, to research and scholarship leading to publication and related scholarly communications. For help in a specific discipline, consult the website (http://library.gmu.edu/ask/request/).

Scholarly Resources

Library research materials in various formats are housed on the Fairfax Campus at the Fenwick Library; on the Arlington Campus at the Arlington Campus Library (Van Metre Hall); and on the Science and Technology Campus at the Mercer Library (Colgan Hall). The Antonin Scalia Law School Library, on the Arlington Campus (Hazel Hall), is administered separately, but maintains close programmatic and service coordination with all of Mason's libraries. Combined resources, including the law library, total in the millions of holdings and accessible research materials and include: print books and bound journal volumes; e-books; online journals and proceedings; electronic databases; online audiovisual items; multimedia materials; microform units; print government documents (U.S., Virginia, and European Union); maps; and significant holdings of manuscripts, special collections, and archives.

Mason's integrated library information system and its discovery layer interface access an online catalog, circulation, and course-reserves information. The system can be used in any of the libraries from campus locations on the network or via the web. Electronic course reserves are provided through Blackboard (Bb), the university's learning management system. The Libraries' website (http://library.gmu.edu), (http://library.gmu.edu), offers access to a variety of networked digital resources and electronically mediated services, including a virtual reference service.

George Mason University libraries' resources are significantly supplemented by the following current affiliations:

- The Virtual Library of Virginia (VIVA) Program, a Virginia funded electronic and resource-sharing program for public higher-education institutions;
- The Washington Research Library Consortium (WRLC), whose other members include American, Catholic, Gallaudet, Georgetown, George Washington, Howard, Marymount, and District of Columbia universities, provides resource sharing services;
- The Association of Southeastern Research Libraries, which includes the 36 largest university libraries in a 10-state region;
- The Center for Research Libraries - Global Resources Network, a Chicago-based research library, along with its affiliate Linda Hall Library of Engineering and Technology (Kansas City, MO), whose multimillion volume holdings comprise specialized and uniquely held materials in North America;
- HathiTrust Digital Library, a partnership of academic and research institutions, offering a collection of millions of titles digitized from libraries around the world; and
- The international Online Computer Library Center (OCLC) extensive computerized system and network facilitate national and international library resource-sharing activities and shared cataloging of scholarly material worldwide.

An intercampus delivery service is available for students and faculty requesting materials held at any Mason campus library. Materials not held by Mason can be obtained by direct borrowing from WRLC institution libraries via the Consortium Loan Service, and other research libraries via interlibrary loan, or, when required, commercial delivery services.

Expanded academic support services also include the following:

Digital Scholarship Center

Web: dsc.gmu.edu (http://dsc.gmu.edu)

The Digital Scholarship Center (DiSC) is the library's most sophisticated response to the interdisciplinary research, teaching and learning needs of our digital researchers. The focus is on supporting scholarly or academic activities conducted or enhanced through the use of data and digital technologies. DiSC staff and affiliates deliver digital research services, and the center itself offers a technology-rich environment where discovery, exploration, collaboration and, ultimately, learning occur.

Data Services & GIS

An integrated service supporting faculty and students engaged in data-centric research (e.g., social science data sets, polling, census, geospatial data, and data archives). Services include consultations, training and assistance with finding and using data, conducting data collection and analysis, using statistical and qualitative software packages, and geographic information systems (GIS). Other assistance offered includes advice on creating funder-mandated data management plans, research data repository services (Dataverse) and access to government information, data, and maps.

Digital Humanities

The field of digital humanities is a broad one, encompassing multiple disciplines within the humanities. At a basic level, digital humanities simply refers to the use of digital tools and methods to further scholarship. At its more complex, digital humanities involves re-imagining the way we approach original textual sources, electronic texts and data, research, narrative, and the publication and interpretation of scholarship.

To support digital scholarship in the field of digital humanities, the Digital Scholarship Center (DiSC) provides a variety of services; offering workshops, providing one-on-one consultations and in-classroom instruction sessions on digital humanities platforms, software, and skills. DiSC provide support for Omeka users. The computer lab offers access to requisite hardware, such as scanners and a HoverCam, as well as software, including Gephi, Palladio, Voyant, and GIS. DiSC also has access to content from selected full text primary source databases in a form that can be used for text mining and analysis.

Digital Projects Lab

One of two labs in the Digital Scholarship Center, the Digital Projects Lab is designed, configured and equipped to support and encourage collaborative work on digital research projects. Lab support, in certain instances, is also provided virtually.

Virtual Reference

Web: library.gmu.edu/ask (http://library.gmu.edu/ask/)

This service provides a virtual, real-time, reference service which allows staff to provide reference service to students, faculty and staff remotely.

Mason Publishing

Phone: 703-993-3636

Web: library.gmu.edu/masonpublishing (http://library.gmu.edu/masonpublishing/)

The Mason Publishing Group provides support and resources to the George Mason University community for creating, curating, and disseminating scholarly, creative, and educational works. Mason Publishing includes a cluster of publishing-related activities such as the George Mason University Press, scholarly communication and copyright, Open Educational Resources, University Dissertation & Thesis Services, Mason's institutional repository (MARS), electronic journal hosting and publishing, and data publication.

George Mason University Press

Phone: 703-993-3636
Web: publishing.gmu.edu/press (https://publishing.gmu.edu/press/)

A component of Mason Publishing, the George Mason University Press publishes in a variety of disciplines ranging from literature to public policy. The Press seeks to promote access to scholarly works that concern the university, other area organizations, and the history, politics and culture of the region.

Scholarly Communications and Copyright Resources

Phone: 703-993-2544 or 2427
Web: publishing.gmu.edu/communication (https://publishing.gmu.edu/communication/)

Integrated within Mason Publishing, this service provides guidance, assistance, and education on copyright, open access, and scholarly communications issues. Specifically, this office provides assistance with the application of fair use of proprietary content used in teaching, electronic course reserves, and online education; student assignments; open access and university publishing and support; and promoting faculty scholarship and collaborations. Workshops and class instruction on these topics and others are available year-round, upon request.

Open Educational Resources (OER)

Phone: 703-993-2544
Web: oer.gmu.edu (https://oer.gmu.edu/)

Through the Mason Publishing program, the libraries provide a "one-stop-shop" for university faculty interested in understanding the purpose of OER, finding and using OER, and assistance finding resources to adapt or develop OER for teaching university classes on their own terms.

University Dissertation and Thesis Services

Phone: 703-993-2222
Web: thesis.gmu.edu (http://thesis.gmu.edu)

The University Dissertation and Thesis Service (UDTS) assists students and academic units in the dissertation, thesis, and graduate-level project process by helping students meet all university requirements and deadlines for submission of work. The UDTS web site provides useful tools such as the university's *Thesis, Dissertation, or Project Guide*, containing downloadable templates of necessary elements, forms required for the submission process, and links to related web sites. UDTS also assists graduate students through individual consultation and informational workshops.

Mason Archival Repository Service

Phone: 703-993-3742
Web: mars.gmu.edu (http://mars.gmu.edu)

Another facet of Mason Publishing, the Mason Archival Repository Service (MARS) serves as an institutional repository and provides a stable digital archive for scholarly and research materials of lasting value held by Special Collections Research Center or produced by Mason faculty, students, and staff. Staff provide expert advice on digital

archiving these materials, file formats, copyright issues, long-term management of archived materials, and issues pertaining to scholarly communication.

Special Collections Research Center

Web: scrc.gmu.edu (http://sca.gmu.edu)

Located within the Fenwick Library in a state-of-the-art space, this unit acquires, documents, preserves, and provides access to primary research collections and documents. Special Collections Research Center's (SCRC) services, collections and programs support the teaching and research activities of George Mason University and also serve the community at large. With unique print and digitized collections that offer outstanding opportunities for research with original sources, holdings focus on Mason's academic areas of strength, as well as the development of the Washington-Northern Virginia metro area. The collections – in large part, rare and exceptional materials – encompass broad areas such as: humanities and social sciences; Northern Virginia and regional history; oral histories; politics and government; prints and photographs; Reston, Virginia; science and technology; theater and performing arts; transportation and planning; university archives and history. SCRC houses the university's records management program and, through its oral history program, undertakes the creation of audiovisual documentary resources.

University Records Management

Phone: 703-993-2201

A part of the Special Collections Research Center, this service assists university academic and administrative departments with retention and disposition of institutional records, both print/physical and digital, in accordance with Virginia state laws, policies, and guidelines. University Records Management offers online guidance, as well as in-person workshops, instruction sessions, and records evaluations to assist faculty and staff. University Records Management maintains an on-site records center where inactive paper records may be stored and university records are properly disposed.

Libraries

Library Locations

Fenwick Library

Phone: 703-993-2240

Designed to LEED silver standards, the Fenwick Library, George Mason University's main research library, provides services, learning spaces, digital technology and resources for the Mason community. The modern, bright facility accommodates individual study as well as group collaboration. The majority of the University Libraries' volumes are located in Fenwick Library. General circulating materials are available on floors three through five, with periodicals and government documents on the first floor. The state-of-the-art Special Collections Research Center is located on the second floor. Compact shelving on the first, third, and fourth floors allow for increased capacity of the Libraries' print collection, freeing up space for research, study, and collaboration.

Located on the first floor, the Information Desk is a unified full-service assistance desk, providing a single point of contact for research questions and access to collections in Fenwick Library. It is located in the Atrium as you enter the library. Laptops are available for checkout from a dispenser. The addition provides 30 group study rooms, each equipped with white boards and monitors. A handful of MediaScape collaboration study rooms allow up to 4 students to share their laptop screens simultaneously. Also, two "One Button Studio" presentation practice rooms are designed to allow students a space to practice and revise oral presentations.

Fenwick Library offers a number of both instructional and seminar spaces. The first floor rooms can be combined to accommodate up to 80 students, and the fourth floor instruction space is a sandbox for exploring innovative classroom technology. Two exhibition and gallery spaces showcase student and faculty art, as well as items from the Special Collections Research Center.

The second floor houses the Research Commons, a space designed to bring together much of the research activity in the Libraries in a collaborative and multi-disciplinary environment. The Research Commons includes a large open area for group study and collaboration, the Special Collections Research Center, the Digital Scholarship Center, the Music Library, University Dissertation and Thesis Services, tutoring space for the Writing Center, and the offices of most of the University Libraries' subject specialist librarians.

The fifth floor graduate study zone includes Graduate Study Carrels and the Dissertations Writers' reserved spaces; quiet spots designed to give graduate students a place to pursue their research and writing. A graduate student silent reading room is also available on the fifth floor.

Assistive technologies are available onsite (for individuals with disabilities).

Arlington Campus Library

Phone: 703-993-8188

This library, located on the second and third floors of Van Metre Hall, is a full-service research facility supporting the teaching and research needs of Mason faculty, students, and staff on the Arlington Campus. Consistent with this campus' distinct areas of academic specialization at the graduate level, the library's collection emphasizes

public policy, international commerce, economics, management of nonprofit organizations, conflict resolution and arts management. The library has significant research materials holding and is a depository of European Union documents. Intercampus delivery of circulating materials from other library sites is available. Library staff can provide research assistance and instruction for students, faculty, and staff in identifying and using research resources, which continue to grow in breadth and depth. Assistive technologies are available for people with disabilities.

Mercer Library

Phone: 703-993-8340

This library, located on the first floor of Colgan Hall, supports Mason faculty, students, and staff in the programs and courses offered on the Science and Technology Campus, including applied information technology; biotechnology, bioinformatics, and biodefense; education; environmental sciences and policy; Governor's School @ Innovation Park; health, fitness and recreation resources; molecular and microbiology; tourism; and visual and performing arts. This library also supports faculty and students in the Smithsonian Mason School of Conservation on the Front Royal Campus.

The library provides access to university-wide electronic resources, with an emphasis on instruction and assistance with information resources and research. The library fosters partnerships to provide information services to the rapidly expanding corporate and technology presence in Prince William County. Assistive technologies for people with disabilities are available.

Antonin Scalia Law School Library

Phone: 703-993-8120 (circulation desk)

Administration
Deborah M. Keene, Associate Dean, Library and Technology

The law library, located in Hazel Hall, supports the Antonin Scalia Law School and has a collection of over 476,000 print and microfiche volumes with an emphasis on law and economics, intellectual property, corporate and securities law, regulatory law, and Virginia law. The library also provides access to electronic law resources including *LexisNexis*, *Westlaw*, *HeinOnline*, *Index to Legal Periodicals*, *Bloomberg Law* and *BNA Premier* and is a selective depository for U.S. Government documents. The law library is open to all members of the university community. Most of the collection does not circulate, but many of the books in the treatise collection are available for checkout by all faculty, students, and staff.

University Scholars Program

Honors College

D205 Buchanan Hall

Phone: 703-993-1110
Website: honorscollege.gmu.edu/admissions/university-scholars

The University Scholars are selected from among the most outstanding students invited to the Honors College. This award is the highest academic distinction that Mason offers to undergraduate students and is given annually to top high school seniors admitted to the university. Each year the University Scholars Program enrolls approximately 20 new first-year students, each of whom receives a scholarship covering the full cost of tuition over four years. Students receiving this award have exemplary records of academic achievement, and they have demonstrated intellectual vision and creativity, the potential to solve problems and overcome obstacles, and a commitment to meaningfully contributing to their communities. Applications must be submitted by Mason's Early Action deadline to receive priority consideration for the scholarship.

The University Scholars reside in a common residence hall their first year and share the Dr. Noreen McGuire Prettyman University Scholars Lounge. Students enrolled in the University Scholars Program participate in a dynamic learning community that provides opportunities for intellectual, cultural, and social engagements.

University Studies

Jacquelyn L. Nash, Associate Director, UNIV Courses and Programs, Undergraduate Education

228 Johnson Center

Fairfax Campus

Phone: 703-993-3223
Email: jhilldru@gmu.edu

Web: transitions.gmu.edu (http://transitions.gmu.edu/)

University Studies (UNIV) Courses and Programs' mission is to assist and mobilize students to craft a successful college experience and prepare for their future. Our courses serve all undergraduate students as they transition into college, determine their major and solidify their career path, become strong scholars and student leaders, and prepare for life after college. The curriculum in the first year is supported by Peer Advisors who co-teach UNIV 100 Introduction to Mason.

Please see all UNIV course offerings (UNIV 100-496) in this catalog (https://catalog.gmu.edu/courses/univ/). In addition to first-year transition courses, topics include: career education, academic success, transfer student transition, undergraduate research, well-being, student leadership, and more.

RESEARCH

- Office of Student Scholarship, Creative Activities, & Research (OSCAR)
- Research and Scholarship Intensive Courses
- The Office of Research, Innovation, and Economic Impact

The Office of Research, Innovation, and Economic Impact

5200 Merten Hall
Fairfax Campus

Phone: 703-993-2268
Fax: 703-993-8871

Administration

- Aurali Dade, Interim Vice President for Research, Innovation, and Economic Impact

The Office of Research, Innovation, and Economic Impact (ORIEI) has overall responsibility for the university's research enterprise. Working in an atmosphere characterized by its commitment to generate new knowledge through research and scholarship and to seed and support entrepreneurship and innovation to benefit society, Mason's researchers and scholars conduct their work in an array of disciplines and subject areas. ORIEI works to promote and optimize the success and impact of these endeavors and to create an environment that sustains the highest standards of ethical research and scholarship.

Office of Student Scholarship, Creative Activities, & Research (OSCAR)

Bethany M. Usher, Associate Provost for Undergraduate Education

228 Johnson Center
Fairfax Campus

Phone: 703-993-3794
Email: oscar@gmu.edu
Website: oscar.gmu.edu/

Office of Student Scholarship, Creative Activities, & Research (OSCAR)

The Office of Student Scholarship, Creative Activities, and Research (http://oscar.gmu.edu) (OSCAR) is home to Mason's award-winning undergraduate research program, connecting undergraduate students and faculty through course-based, co-curricular, and independent scholarly projects. Undergraduate research is a featured Mason Impact (https://provost.gmu.edu/initiatives/mason-impact/) experience.

OSCAR offers several programs that make scholarship central to the undergraduate experience at Mason, by:

- Helping undergraduate students find faculty mentors
- Helping students find research opportunities
- Funding undergraduate research and creative projects through the Undergraduate Research Scholars Program and Summer Team Impact Program
- Providing funding for travel to conferences and other events through the Undergraduate Student Travel Fund
- Supporting Research, Scholarship Intensive courses and Mason Impact (https://provost.gmu.edu/initiatives/mason-impact/) courses
- Hosting the annual Celebration of Student Scholarship and Impact
- Offering OSCAR Federal Work Study Research Assistantships

Please visit our website (http://oscar.gmu.edu) for more information.

Research and Scholarship Intensive Courses

Office of Student Scholarship, Creative Activities, & Research (OSCAR)

Fairfax Campus

Phone: 703-993-3794
Email: oscar@gmu.edu
Website: oscar.gmu.edu

These courses give students an authentic research or creative experience as part of the Mason Impact (https://masonimpact.gmu.edu). In Research and Scholarship (RS) Intensive courses, students and faculty have a unique opportunity to partner as they merge teaching with the creation of new knowledge. By participating in one of these classes, students are actively involved in a project that is the central focus of the class. Students help define the project, take responsibility for carrying it out, and present the results to a broader audience. These classes are identified on student transcripts with an RS designation.

RS Courses

The following courses have been designated Research and Scholarship intensive (RS)

Code	Title	Credits
ARTH 440	RS: Advanced Studies in Renaissance and Baroque Art	3
ARTH 460	RS: Advanced Studies in 20th-Century European Art	3
ARTH 472	RS: Advanced Studies in 20th-Century Latin American Art	3
ARTH 482	RS: Advanced Studies in Asian Art	3
ARTH 495	RS: Objects and Archives in Art History	3
ASTR 402	RS: Methods of Observational Astronomy (Mason Core)	4
AVT 483	RS: Art and Interactivity	3
BENG 395	RS: Mentored Research in Bioengineering	1-3

BENG 493	RS: Senior Advanced Design Project II	3
BIOL 379	RS: Ecological Sustainability (Mason Core)	4
BIOL 491	Selected Topics in Biology Laboratory Techniques	1-2
BIOL 499	RS: Research in Biology	6-9
BIS 490	RS: Senior Project (Mason Core)	4
CHEM 439	RS: Atmospheric Chemistry II: Air Analysis Techniques	3
COMM 491	RS: Honors Research Project in Communication	3
COMM 498	RS: Research Projects in Communication	3
CONF 490	RS: Integration (Mason Core)	3
CONS 490	RS: Integrated Conservation Strategies (Mason Core)	3
CONS 491	RS: Conservation Management Planning (Mason Core)	4
COS 401	RS: Discipline Based Education Research	2-3
CRIM 492	RS: Honors Seminar II	3
DANC 362	RS: Directed Choreography	1
ECE 493	RS: Senior Advanced Design Project II (Mason Core)	2
ECON 495	RS: Honors Thesis in Economics (Mason Core)	3-6
ENGH 401	RS: Honors Thesis Writing Seminar (Mason Core)	3
ENGH 417	RS: Topics in Folklore Research (Mason Core)	3
ENGH 458	RS: Topics in Literary Research (Mason Core)	3
ENGH 470	RS: Topics in Film/Media History (Mason Core)	3
ENGH 484	RS: Writing Ethnography (Mason Core)	3
ENGH 486	RS: Writing Nonfiction for Publication (Mason Core)	3
EVPP 378	RS: Ecological Sustainability (Mason Core)	4
FNAN 498	RS: Contemporary Topics in Finance	3
GAME 332	RS: Story Design for Computer Games	3
GGS 463	RS: GIS Analysis and Application	3
HHS 492	RS: Internship in Clinical Research	3
HIST 499	RS: Senior Seminar in History (Mason Core)	3
LING 480	RS: First Language Acquisition (Mason Core)	3
MATH 406	RS: Honors Thesis in Mathematics II	3
MKTG 481	RS: Marketing in the Nonprofit Sector	3
MUSI 489	Music Technology Capstone	3
NEUR 405	RS: Laboratory Methods in Behavioral Neuroscience	3
NEUR 406	Zebrafish Neurodevelopment Laboratory	3
PSYC 492	RS: Psychology Honors III	3
RHBS 490	RS: Clinical Research Internship	3
SOCI 481	RS: Honors Seminar in Sociology II	3
SOCI 485	RS: Sociological Analysis and Practice (Mason Core)	3
SOCW 472	RS: Integrative Methods in Social Action and Social Change (Mason Core)	3
UNIV 491	RS: Students as Scholars Individualized Scholarly Experience	0-9
UNIV 495	RS: Undergraduate Research Scholars Program Seminar	0-1
UNIV 496	RS: Undergraduate Research Scholars Program Continuation	0
WMST 411	RS: Feminist Research Practice	3

TUITION & FEES

Office of Student Accounts

4400 University Drive, MS 2E2
Fairfax, VA 22030

Phone: 703-993-2484
Fax: 703-993-2490

Website: studentaccounts.gmu.edu

General Guidelines

- Students are responsible for maintaining a current mailing address in their student record on Patriot Web (https://patriotweb.gmu.edu), and for activating and checking their George Mason University e-mail accounts to receive official university communications.
- All students are required to accept George Mason University's Student Financial Responsibility Agreement prior to registering for classes each semester. The agreement outlines financial terms and conditions associated with course registration. Students are responsible for withdrawing from all classes that they do not intend to complete by the deadlines listed in the Semester Calendar. Students must confirm withdrawals and class drops; full or partial liability may apply. George Mason University does not cancel classes for nonpayment or nonattendance.
- Refer to the Payment Schedule and the Semester Calendar on the Student Accounts Office (https://studentaccounts.gmu.edu/) web site for payment due dates and tuition penalties for dropping classes after the start of the semester. Classes that do not meet for the full semester have non-standard liability deadlines, which can be found on the part-of-term chart of the Semester Calendar.
- Payments are due in the Cashier's Office (https://cashiersoffice.gmu.edu/), Student Union Building I, Room 1501, on or before 4:30 p.m. on due dates, regardless of postmark if mailed. Check and credit card payments made through the Bill and Payment system must be completed by 10:30 p.m. to be considered in that day's business. Bills are provided electronically only, approximately thirty (30) days prior to the semester start, to students and authorized payers. Bills are not provided for individual class registration and schedule adjustments. Students must check Patriot Web for balance due, verify registration, and pay through the Bill and Payment system or at the Cashier's Office by the due date. Failure to receive a reminder bill confirming charges does not waive the requirement for payment when due.
- Students who have not completed the financial aid process must be prepared to pay for their courses by the tuition due date or a late payment fee will be charged. The amount of financial aid accepted and processed will be reflected in your account balance. If the amount of aid awarded is less than the charges, the difference must be paid by the tuition due date. Federal work-study awards cannot be deducted from your balance. Financial aid recipients must also notify their financial aid counselor if they drop courses below the minimum required credits for their financial aid award. Class registrations or schedule adjustments after financial aid has disbursed may result in a balance due. Students are responsible for checking their balance after all schedule adjustments.
- Out-of-state students with pending domicile requests are responsible for payment at the out-of-state rate. Students who are later determined to be in-state can request reimbursement for the difference in tuition rates.
- Non-returning students are responsible for withdrawing from their courses for the semester and ensuring they do not have an outstanding balance on their account. Any documentation or intent made to university departments that you are not returning does not withdraw you from the registered courses.
- Some Mason degree programs include academic credits that students must earn at other academic institutions. Students enrolling for such credits assume all financial responsibility with the other institutions.

Semester Tuition Charges and Related Fees

Approved tuition rates and fees are available June 1. For more information, call the Student Accounts Office at 703-993-2000 or go online (https://studentaccounts.gmu.edu). Students are charged tuition rates for registered courses according to their academic level and program; graduate rates vary by academic program.

Please Note: Many courses require additional course fees and/or lab fees. Refer to the Student Accounts Office website (https://studentaccounts.gmu.edu/tuition/) for up-to-date information on these fees.

New Student Fees

All new degree seeking students pay a New Student Fee. The fee is a mandatory, nonrefundable, one-time charge that is assessed when a new student registers for classes, regardless of orientation attendance or future enrollment status. The current fee amount is listed on the Student Accounts Office website: https://studentaccounts.gmu.edu/tuition-fees/.

Mandatory Student Fee

This is a mandatory fee based on credit enrollment. The Mandatory Student Fee supports the maintenance of facilities and buildings, auxiliary services, intercollegiate athletics, campus shuttle, academic services, student activities, and health services.

Payment Information

Payment Deadline

Payment is due the first day of the semester. Payments received at the Cashier's Office by 4:30 p.m. Monday to Friday will be considered in that day's business. Check and credit card payments made through the Bill and Payment system must be completed by 10:30 p.m. to be considered in that day's business. To confirm receipt of payment and balance due on account, go to Patriot Web (https://patriotweb.gmu.edu).

Methods of Payment

Cash

We do not accept cash payments.

Check

Online, mail or drop box. Make check payable to George Mason University, with student ID number written on front. Third-party checks are not accepted. Checks must be payable in U.S. dollars. A $50 return check fee will be charged for checks returned unpaid by the bank for any reason.

Credit Card
Online only. Visa, MasterCard, American Express or Discover Card. There is a 2.85 percent convenience fee for credit card payments, which is nonrefundable. A $50 returned item fee will be charged for credit or debit card reversals (charge-backs).

Delivery Methods
Online
Bill and Payment system, online checks or credit cards

Drop Box (no cash payments)
Adjacent to Cashier's Office, SUB I, hallway outside Room 1501

U.S. Mail
George Mason University, P.O. Box 76475, Baltimore, MD 21275-6475. Allow 10 business days for delivery by the due date, and postmarks are not considered a receipt of payment.

Overnight Delivery by Courier: Lockbox Services 76475, Wells Fargo Bank, Attn: George Mason University Lockbox 76475, 7175 Columbia Gateway Dr., Columbia, MD 21046

Semester Payment Plan
Mason payment plans are available online only for students who want to budget their accounts.

Payment plans have a $25 contract fee charged each semester. The contract fee is non-refundable and must be paid at the same time as the payment plan is agreed to within the Bill + Payment System. For more information, call the Student Accounts Office at 703-993-2000 or go to https://studentaccounts.gmu.edu/payment-plans/.

Failure to pay the deferred balance by the payment plan due date will result in a financial hold, a late fee of 10% (up to $125), collection activity, and may prevent future eligibility of the payment plan.

Third-Party Billing Authorizations
Students using a third-party billing authorization will be charged a $25 processing fee. Students must provide the third-party authorization or government training voucher to the Student Accounts Office, or fax it to 703-993-2460 before the payment due date (for payment schedule by semester, please see https://studentaccounts.gmu.edu/calendars/. Students are responsible for any payment default by the sponsoring agency. Call 703-993-2000 for a copy of third-party billing requirements, or check online (http://studentaccounts.gmu.edu/third-party-billing-office/).

Penalties
A late registration fee of $125 is automatically assessed to students who add their first class on the first day of the semester or after. It does not apply to students already enrolled prior to the start of the semester who make schedule adjustments. Wait-listed classes are not considered class registration. Late registration fees are nonrefundable and will not be removed, regardless of enrollment status.

Any class registration after the deadline to add classes, if approved by the academic department, is subject to a $125 late registration fee. Late class registrations require an account in good standing.

Past due balances are subject to a late payment fee that is 10 percent of the balance due, up to $125.

Registrations will not be canceled for nonpayment or nonattendance. Students must withdraw from all classes that they do not plan to complete by the payment due date to avoid the late payment fee on those classes.

Returned Checks
Per Commonwealth of Virginia statute, a $50 return item fee will be charged for each item (checks, debit/credit card reversals) returned by the bank unpaid. Repeat returned payments may result in the restriction of the online payment option for future semesters. Payments for past due balances and/or to release holds for registration that are later returned unpaid by a financial institution may result in the immediate suspension of services and the cancellation of classes. Returned checks that create a balance will be sent a written or electronic notice, and a financial hold will be placed on the account until the balance is paid in full. Certified fund payments by cashier's check are required for immediate hold release. Waiting periods will apply for other payment methods.

Financial Good Standing; No Holds on Record
Financial good standing and a university record clear of holds are required for students to receive services. Services, including but not limited to transcript issuance, diploma release, class registration (add, drop, withdrawal, etc.), and/or housing and meal plans, will not be provided to students with a financial balance due or a hold of any kind on their record. Holds are based on outstanding obligations and may be financial. Examples include unpaid Student Health charges, fines owed to the Mason libraries, parking and other administrative holds.

Students in noncompliance with payment deadlines as of the end of the semester will be required to submit a financial guarantee or prepayment prior to future registration. The return of the prepayment by a financial institution will result in the immediate suspension of services.

Collections
Per the Virginia Debt Collection Act (§2.2-4800 et seq.), all delinquent accounts with past due balances are assigned to authorized collection agencies each semester. Failure to meet financial obligations to the university will result in other collection procedures, which include account referral to credit reporting bureaus, private collection agencies, the Commonwealth of Virginia Department of Taxation, and the Office of the Attorney General. Past due accounts are subject to garnishments, liens, and judgments and the withholding of money from tax refunds. In addition to late fees and interest, delinquent accounts will be assessed additional collection costs up to thirty percent of the past due balance, reasonable attorney fees, and other administrative costs. Once an account is referred to a collection agency, payment must be made to the agency, not the University.

Course Withdrawals
Students are required to pay full or partial tuition for courses they withdraw from after the last day to drop with full tuition refund, including withdrawals to change from one section of a course to another section. For more information, see the tuition liability dates in the Semester Calendar.

Refund Policies
Direct Deposit Refunds
Students may sign up for direct deposit for expedited refunds by completing the direct deposit authorization form located on the Student Accounts Office website. Direct deposit refunds are sent electronically to the student's bank account. Direct deposit refunds are not available for Parent PLUS loans.

Refund for Credit Balances

In cases where tuition charges are less than the payments on the student's account, a refund of the overpayment may be requested. To initiate the refund process, a Refund Request form is completed and submitted to the Student Accounts Office. Credit balances are also reviewed and refunds processed throughout the semester, regardless of refund request forms. NOTE: Students should not overpay accounts with an expectation a credit balance will pay for future semester charges.

Refunds will be processed according to the last method of payment received:

- Flywire payments are sent via direct deposit or check.
- Payments made by check require a seven day waiting period. The waiting period may be waived if proof of check clearance is presented, such as a canceled check copy or bank statement showing that the check cleared the account.
- Credit card payments are credited back to the credit card that was most recently used for payment.

Note: Refund checks may take up to four weeks for processing and mail delivery, are made payable to the student, and are mailed to the address listed in the student record. In person check pick up is not available.

Financial Aid Refunds

Credit balances from financial aid awards will automatically generate a refund, which will be sent via direct deposit if authorized by the student. A refund request form is not needed for financial aid disbursement refunds, except in cases of schedule adjustments after aid has been posted. Students who do not opt for direct deposit will receive check refunds mailed to the address on file in their student record. Check refunds require more processing time than a direct deposit refund.

Special Registration

Students not enrolled in a credit-bearing course, but whose academic department certifies that they are pursuing an activity related to Mason matriculation, can retain active status by having the Office of the University Registrar process a registration for the Special Registration course (ZREG 200). A $45 fee is charged for this course, and students must pay this fee before the University Registrar's office will process the registration. Written approval of the student's academic department chair is required. This special registration allows students to retain their library and computer privileges, receive a student ID, and buy a parking decal. Students must have active status to apply for or receive a degree, take an exam, or participate in cooperative education. Students pursuing a master's or doctoral degree must maintain continuous enrollment. For more information, see AP.6 Graduate Policies.

International Student Health Insurance

Health insurance is required for all F-1 and J-1 visa holders, and nonpayment may result in class cancellation. For more information, refer to the Admission of International Students section.

Music Instruction

Private music instruction is arranged through the School of Music on a fee-paying basis. Refer to the Student Accounts Office web site for up to date fee information. This fee is non-refundable.

In-State Tuition

To be eligible for in-state tuition, a student must have been domiciled in Virginia for at least one full year before the semester for which in-state tuition is sought, or qualify through statutory exception. A person establishes domicile by demonstrating physical presence and the intention to remain indefinitely in accordance with the Code of Virginia and the domicile guidelines. Copies of the guidelines and other applicable state laws are available from the Office of the University Registrar (https://registrar.gmu.edu/students/domicile/).

Domicile Change

Domicile classification is determined at the time of a student's admission. To be considered for in-state status when applying to the university, students must file an application for in-state rates.

New and currently enrolled students classified as out-of-state who believe they qualify for in-state tuition after being admitted must file a domicile appeal form with the Office of the University Registrar no later than the first day of classes for the semester in which in-state rates are sought. Appeal forms are available from the Office of the University Registrar (https://registrar.gmu.edu/students/domicile/).

Students whose appeals are denied have the right to seek further review of their status by the Office of the University Registrar or the Domicile and Tuition Classification Appeals Committee. These requests must be filed in the manner articulated in denial letters. Forms are available from the Office of the University Registrar and the web site. In addition, students should be aware that university procedures for appealing domicile decisions have been established pursuant to state law and are subject to change. Out-of-state students with an appeal pending at the time of tuition billing are responsible for payment of tuition at that rate. Students subsequently determined to be in-state may request reimbursement of overpayment from the Office of Student Accounts. Also, any student who fraudulently or knowingly provides false information in an attempt to evade payment of out-of-state tuition will be charged out-of-state tuition for each term or semester attended and may be subject to dismissal from the institution.

For more information regarding in-state eligibility, contact the Domicile Appeals Administration in the Office of the University Registrar in Student Union Building I, Suite 2101; phone: 703-993-2464; e-mail: domicile@gmu.edu.

Tuition Surcharge: 125 Percent of Degree

Undergraduate students who have established Virginia domicile and eligibility for in-state tuition will be subject to a surcharge if they exceed 125 percent of the credits required to complete a degree. The surcharge will be determined by the State Council for Higher Education in Virginia.

The following courses and credit hours shall be excluded in calculating the 125 percent credit threshold: remedial courses; transfer credits from another college or university that do not meet degree requirements for Mason Core courses or the student's chosen program of study; advanced placement or international baccalaureate credits that were obtained while in high school or another secondary school program; and dual enrollment, college-level credits obtained by the student prior to receiving a high school diploma.

Expenses

Housing

Housing and Residence Life
Piedmont/Tidewater Hall Ground Floor
Phone: 703-993-2720 (Main Office Number)
Web: housing.gmu.edu (http://housing.gmu.edu)

The university offers a variety of housing options to meet the diverse needs of students living on campus. Upper-class students may choose from suites, suites with kitchens, and townhouses. Most freshmen live in traditional-style residence hall rooms that accommodate two, three, and four students. Room rates are subject to approval on an annual basis by the Board of Visitors. Rates for the 2021-2022 academic year should be available on or before May 1, 2021. Please refer to the Housing and Residence Life web site for rate information. All students in housing must provide a prepayment, which is credited back to the student in the fall. Housing assignments, including single rooms, are made on a priority and space-available basis. The web site provides extensive information about housing programs and services and includes floor plans for most student rooms.

Students living on campus are required to sign an academic year agreement. Releases from the agreement are generally granted only in cases of hardship and involve a financial penalty. For more information, contact Housing and Residence Life.

Living Learning Communities (LLCs) are collaborative partnerships between academic departments, individual Mason faculty, housing and residence life staff, and the division of University Life. For more information, please visit the housing website (https://housing.gmu.edu/learning-communities/).

Mason Dining

Mason Dining
Southside Dining Hall, First Floor
Phone: 703-993-3300
Web: dining.gmu.edu (http://dining.gmu.edu)

Mason Dining is proud to serve the Mason community with over 36 restaurants, kiosks and carts among the Arlington, Fairfax, and Science and Technology campuses. Southside and Ike's, located on the Fairfax campus, offers extensive menus with the highest quality ingredients and seasonal produce. Mason Dining is committed to nutrition, wellness, and sustainability.

Meal Plans and Mason Money

Meal Plan & Mason Money Office
Student Union I, Room 1203
Phone: 703-993-2870
Web: masondining.sodexomyway.com/meal-plans (https://masondining.sodexomyway.com/meal-plans/) or masonid.gmu.edu/about-mason-money/ (https://masonid.gmu.edu/about-mason-money/)

Both resident meal plans and optional Patriot meal plans are available for students to purchase. These plans allow for tax-exempt dining and are billed to the student account. Most students living on campus are required to participate in the resident meal plan program. Meal plan policies and prices are available on the website (http://mealplans.gmu.edu).

Mason Money can be accessed with the Mason ID. It's accepted at various venues on campus and also with participating merchants off campus. Funds can be deposited online (https://masonid.gmu.edu/about-mason-money/#mason-money-tabs-tab-2), at any of the four Mason Money Stations located among three campuses, or the Mason Money office.

Parking Services

Fairfax Campus, Sandy Creek Parking Office
Phone: 703-993-2710

Arlington Campus, 219 Van Metre Hall
Phone: 703-993-8146

Science and Technology Campus, 112 Colgan Hall

Phone: 703-993-4808

Web: transportation.gmu.edu (https://transportation.gmu.edu/)

Students who park their vehicles on university property must register them with Parking Services and pay a fee for a parking permit. Permits are available on an annual, semester, or summer basis. For permit sales, fine payments, special requests, or problems, go to any Parking Services Office. Most services are available on-line (http://parking.gmu.edu). The Fairfax Campus Sandy Creek Parking Office hours are 8:30 a.m. to 7 p.m. Monday through Thursday and 8:30 a.m. to 5 p.m. on Friday. See the website (http://parking.gmu.edu) for current information and rates.

Financial Aid

Office of Student Financial Aid

Student Union Building (SUB) I, First Floor

Phone: 703-993-2000
Fax: 703-993-2350

Email:
Website: https://www2.gmu.edu/financial-aid

The Office of Student Financial Aid provides a variety of services to help students finance their education; including, financial aid advising, exploring funding resources, and financial assistance. Student financial aid awards may consist of grants, scholarships, work-study, and loans. Awards are based primarily on financial need, although there are some alternative financial aid sources available for those who may not qualify for need-based financial assistance.

The Office has a comprehensive listing of various scholarship opportunities for students to research on the Office of Student Financial Aid's website. Students are encouraged to review the scholarship information often due to the listings being updated continuously and apply early in order to meet deadlines.

The Office is open 9:00 a.m. to 5:00 p.m., Monday through Friday. Financial Aid Counselors are available daily by phone, e-mail or personal appointment. Students can also receive financial aid services through the Mason Student Services Center (MSSC).

Each year, to apply for financial aid, both new and currently enrolled students must complete a Free Application for Federal Student Aid (FAFSA). **George Mason University's Federal Title IV school code for the FAFSA is 003749**. Priority consideration for all sources of financial aid is

given to those students whose financial aid applications and all required verification documents are on file with the Office of Student Financial Aid by **January 15**. To meet this priority filing date, students should file the FAFSA as soon as possible after October 1st of the previous year (e.g. October 2021 for the 22-23 academic year). The FAFSA is filed online (http://www.fafsa.gov).

Financial aid for summer is generally limited to students who have remaining Federal Loan eligibility for the year, or who are eligible for Federal Pell Grant. Summer is considered a "trailer" term at the university. Contact the Office of Student Financial Aid for specifics regarding eligibility and availability of aid.

Financial Aid Programs

The University administers the following federal, state, and other aid programs:

Federal Programs

These include the Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Work-Study (FWS), Federal Subsidized Direct Loans, Federal Unsubsidized Direct Loans, Federal PLUS Loans for parents of dependent students (DPLUS) and Federal Grad PLUS Loans for Graduate students (DGPLUS). For more information, go to the Office of Student Financial Aid home page (http://financialaid.gmu.edu).

State Financial Aid Programs for Undergraduate Virginia Residents

Eligibility for all state programs is determined based on the student's FAFSA and financial need. State grant funds are limited, so adherence to the January 15 priority filing date is critical.

Virginia Commonwealth Award

This program is open to undergraduate students who have demonstrated financial need, are enrolled at least half-time, and are domiciliary residents of Virginia.

Virginia Guaranteed Assistance Program (VGAP)

This program is a component of the Virginia Commonwealth Award Program that is open to students who have demonstrated academic achievement in high school and have graduated from a Virginia high school. VGAP awards are renewable for up to four years. Students must advance a grade level before receiving a subsequent VGAP award. Students must be enrolled full-time to receive VGAP.

Graduate Student Assistance

Assistantships, fellowships, and scholarships exclusive of the federal financial aid programs identified earlier are administered by the individual graduate programs. Students interested in pursuing graduate assistantships, fellowships, or scholarships should contact their graduate program directly.

All financial aid recipients are responsible for becoming familiar and complying with applicable federal and state regulations, and university policies.

All students receiving financial aid must be enrolled in an eligible degree or certificate program; maintain satisfactory academic progress (SAP) as defined by the Office of Student Financial Aid in accordance with federal guidelines (see below); be a U.S. citizen or eligible non-citizen as defined by the U.S. Department of Education and all male students must be registered with Selective Service.

Satisfactory Academic Progress (SAP) Standards

Federal legislation governing the administration of federal programs requires colleges and universities to define and enforce standards of academic progress for students receiving or applying for financial aid. To comply with this legislation, the Office of Student Financial Aid has established a formal satisfactory academic progress policy. For detailed information, go to the Office of Student Financial Aid home page (http://financialaid.gmu.edu) or contact the Office of Student Financial Aid directly.

Return of Title IV Funds

The Office of Student Financial Aid is required by federal law to re-calculate federal financial aid eligibility for students who completely withdraw from all classes, drop out, are dismissed, or take a leave of absence prior to completing a payment period or term. According to the regulations, the amount of Federal Title IV awarded to a student must be re-calculated in these situations and any portion of the financial aid received that is considered to be "unearned" must be returned to the Title IV Program(s) from which it was received. Any student considering dropping or withdrawing from all courses, should contact their assigned Financial Aid Counselor immediately regarding possible adjustments to their financial aid.

Emergency Loan Programs

George Mason University has established an emergency loan account funded by the Gerson Trust.

This emergency loan is designed for enrolled students that encounter unexpected emergencies and is not meant to pay for tuition and fees. This is a short-term, interest free loan and students may borrow up to $1000. Repayment is due in 90 days. Applications may be obtained from the Office of Student Financial Aid.

Certificate Programs that Qualify for Financial Aid (Gainful Employment)

The qualifying undergraduate certificate programs include:

- Accounting Undergraduate Certificate
- Secondary Education - Biology Undergraduate Certificate
- Secondary Education - Chemistry Undergraduate Certificate
- Secondary Education - Computer Science Undergraduate Certificate
- Secondary Education - Earth Science Undergraduate Certificate
- Secondary Education - English Undergraduate Certificate
- Secondary Education - Mathematics Undergraduate Certificate
- Secondary Education - Physics Undergraduate Certificate

The qualifying graduate certificate programs include:

- Adapted Curriculum Concentration within the Special Education Graduate Certificate
- Advanced Biomedical Sciences Graduate Certificate
- Art Education Licensure Graduate Certificate
- Applied Behavior Analysis Graduate Certificate
- Autism Spectrum Disorders Graduate Certificate

- Business Analytics Graduate Certificate
- College Teaching Graduate Certificate
- Data Analytics Graduate Certificate
- Early Childhood Education PK-3 Graduate Certificate
- Early Childhood Special Education Graduate Certificate
- Education Leadership Graduate Certificate
- Foreign Language Licensure Graduate Certificate
- Forensics Graduate Certificate
- General Curriculum Concentration within the Special Education Graduate Certificate
- Geospatial Intelligence Graduate Certificate
- Health Informatics and Data Analytics Graduate Certificate
- Higher Education Administration Graduate Certificate
- Learning Technologies: E-Learning Graduate Certificate
- Music Education Licensure PK-12 Graduate Certificate
- Nutrition Graduate Certificate
- School Psychology Graduate Certificate
- Secondary Education Licensure Graduate Certificate
- Teaching English as a Second Language Graduate Certificate
- Teaching Theatre PK-12 Graduate Certificate

Administration

- Charles R. Kreitzer, Executive Director, Online Operations

Distance Education

Distance or online education provides students with the opportunity to take the same classes offered on campus through different delivery methods such as fully online synchronous and asynchronous classes, or hybrid and blended classes (learn more). Currently enrolled Mason students can take online courses. There is no separate application process. Registration and financial aid work in the same way for online and face-to-face courses. Please note however that some online graduate programs require admission into the program to take classes, and others run on a modular calendar which restricts enrollment across calendars.

Many fully online courses may be completed at home, while stationed abroad, or when traveling. For students who work, intern, commute, or even live on campus, online courses offer an active and collaborative learning environment while allowing for greater scheduling flexibility.

Online Courses

Hundreds of undergraduate and graduate courses are offered online each semester, including summer. Course interactions can take place synchronously (same time, different locations) or asynchronously (different times, different locations).

Mason Core: For undergraduate students, Mason offers online course options for most Mason Core requirements [excluding ENGH 100 Composition for Multilingual Writers (Mason Core) and certain Synthesis/Capstone courses]. Offerings vary by semester. Contact your advisor each semester to plan your course schedule.

For a full list of online courses, see the website (http://masononline.gmu.edu/programs-courses/courses/).

Online Programs

Mason currently offers more than 70 fully online or hybrid programs, including bachelor's degrees, master's degrees, graduate certificates, and undergraduate certificates and minors.

For a full list of online programs, visit the website. (http://masononline.gmu.edu/programs-courses/all-programs/)

INTERNATIONAL PROGRAMS AND RESOURCES

Global Education Office

Johnson Center, Room 235
Phone: 703-993-2154
Fax: 703-993-2153
Web: http://www.gmu.edu/depts/cge/
E-mail: GoAbroad@gmu.edu

Administration
Brian Gibson, Director

The Global Education Office offers students the opportunity to develop critical and creative skills and challenge their assumptions about themselves and other cultures in an educational environment by offering study abroad programs of varying lengths, academic emphases, and locations. Through study abroad, students discover new cultures, sharpen language skills, and travel while earning credit. Study options include faculty-led, short-term courses and intensive language programs; semester and year-long Mason-sponsored programs; and international internship programs. Most programs are open to Mason undergraduate and graduate students and short-term programs are also open to faculty, staff, and the general public.

The Global Education Office also offers a wealth of resources to help students create a personalized international educational experience, including general advising sessions about study abroad and internship options; one-on-one student advising; transfer of approved international program credits; a resource library of travel books; international and diplomatic community programming, and advising to international students from partner schools.

George Mason University Korea

Mason Korea building, Incheon Global Campus
119-4 Songdomunhwa-ro Yeonsu-gu
Incheon Korea 21985
Phone: +82 032-626-5000

Administration
Dr. Robert Matz, Campus Dean
Kelley E. Chung, Associate Dean, Admissions and Enrollment
Dr. Shannon Davis, Associate Dean, Academic and Faculty Affairs
Yorgun Marcel, Associate Dean, Student Affairs

To enhance Mason's global presence and increase accessibility to a Mason education, the university o#ers academic programs in Songdo, South Korea on the Incheon Global Campus.

George Mason University Korea (Mason Korea) o#ers bachelor degree programs in business, economics, global affairs, computer game design, computational data sciences, and conflict analysis and resolution. Academic program requirements and standards are identical to those on the US campuses. Students based in Mason Korea travel to the Fairfax campus during their 6th and 7th or 7th and 8th semesters. In addition, US-based Mason students may pursue study for a semester or year at the Mason Korea campus.

Office of International Programs and Services

Student Union I, Suite 4300
Phone: 703-993-2970
Fax: 703-993-2966
Web: oips.gmu.edu (http://oips.gmu.edu)

Administration
Judith A. vanBever-Green, MEd, Executive Director

The Office of International Programs and Services (OIPS) provides services on both regulatory and cultural topics. Staff members provide regulatory information related to non-immigrant status and have been designated by the university to issue and sign immigration documents and paperwork on behalf of the institution. OIPS advisors are available at scheduled walk-in times and by appointment to discuss any concern and to provide practical assistance to students and scholars as they adjust to U.S. culture. OIPS conducts a comprehensive orientation program for new international students and offers social and cultural programming throughout the fall and spring semesters. Most notably, the staff and student volunteers work to internationalize campus life for all members of the Mason community through programs and outreach designed to connect people from different global cultures with one another for meaningful dialogue and cultural learning.

INTO George Mason University and the Mason Global Center

Ángel Cabrera Global Center
Phone: 703-993-4501
Fax: 703-993-4502
E-mail: INTOmason@gmu.edu (INTO@gmu.edu)

Website: https://intomason.gmu.edu

Building on a thirty-two year tradition of excellence in English language and language-supported education at Mason, the INTO George Mason University joint venture was established in 2014. This venture marks the fifth INTO University Partnership in the United States.

Located in the Ángel Cabrera Global Center, Mason offers academic International Year One, Pathways and English language development programs administered by the Academic Division of the INTO Mason joint venture. Personalized support tailored to international students' educational, social and cultural needs prepares them to progress with confidence as degree-seeking students. INTO Mason provides international students with learning experiences and services that promote academic, professional and personal success. International Year One and Pathways programs are available to students interested in studying in a wide range of degree programs at both the graduate and undergraduate levels. An Academic English program is available to students looking to develop their language proficiency on a short term basis or as they complete the application process for a pathway or direct admission. All of the innovative International Year One, Pathways and English language programs offered at INTO Mason are delivered by highly qualified university faculty.

- Karyn Kessler, Ph.D., Academic Director

INTO George Mason University and the Ángel Cabrera Global Center

Our Mission

As an integral member of the George Mason University community, INTO Mason creates vibrant experiences for international students through transformational learning opportunities tailored to meet specific linguistic, academic and cultural needs.

Overview

Located in the Ángel Cabrera Global Center, INTO Mason supports the outstanding academic programs offered by the university with

- a welcoming, interconnected community of students from across the U.S. and the world;
- strong student support programs; and
- state-of-the-art facilities with technology-assisted learning.

The innovative International Year One, Graduate Pathways and Academic English language programs offered at the Center are delivered by highly qualified Mason teaching faculty. INTO Mason also provides a breadth of academic preparation and support services designed specifically to meet the unique needs of its international students.

Academic Programs, Services & Administration

George Mason University offers academic International Year One and Pathways programs at the Fairfax, Arlington, Science and Technology, and Songdo campuses as well as English Language programs based in Fairfax. All programs are administered through the Academic Division of INTO Mason, which functions as the academic department for English Language studies and services university-wide—reporting directly to the University Provost through the Academic Innovations and New Ventures unit.

Academic Programs

There are three standing academic programs administered through the Academic Division of the INTO Mason joint venture:

- Undergraduate International Year One Program
- Graduate International Pathways Program
- Academic English Program

Each program has a specific curriculum and guidelines as indicated in the special sections for each program in the catalog.

Academic Advising and Services

Personalized support tailored to international students' educational, social, and cultural needs prepares them to progress with confidence as degree-seeking students. Programs operating through INTO Mason at the US-based campuses, also provide international students with learning experiences and services that promote academic, professional, and personal success.

Academic Administration

- Karyn E. Kessler, Ph.D., *Academic Director*
- Bonnie Sylwester, Ph.D., *Assistant Director, Academic Initiatives and Assessment*
- James Jones, *Assistant Director, Advising & Academic Services*
- Benjamin Elwood, *Program Manager, Academic English*
- Christina Brady, *Assistant Director, Undergraduate Education & Global Partnerships*
- Steven Harris-Scott, Ph.D*., Assistant Director, Graduate Education and Faculty Affairs*
- Kathy Rossell, *Learning Resource Center Coordinator*

Faculty

Highly qualified, full-time, George Mason University faculty regularly teach in the International Year One, Graduate Pathways and English Language Programs.

English Language Faculty

Term Assistant Professors: Kessler, Karyn and Sanchez, Deborah

Term Instructors: Brady, Christina; Driscoll, David; Elwood, Benjamin; Kim, Esther; Kirsch, Jane; Kozumplik, Thomas; Lilley, Timothy; Miller, Laura; Musfeldt, Scott; Namubiru, Esther; Paez, Bonny; Richardson, Mary; Rottenberg, Lori; Simmons, Noele; and Smith, Michael.

Humanities Faculty

Term Assistant Professors: Graham, Robert; Harris-Scott, Steven; Lewis, Amy; Rose, Todd and Weinstein, Aimee.

Term Instructors: Jones, James.

Affiliated Faculty: Coleson, Michael (Mathematics); Doestch-Kidder, Sharon (English); Habib, Anna (English); Mack, Marissa (English); Mills, Mallory (Business); Moteaabed, Shora (Business); Savage, James (English).

Center Facilities & Administration

Facilities: many Academic English students may live in the Ángel Cabrera Global Center (ACGC) their first year. The ACGC opened in August 2014 and is the primary home for INTO George Mason University. This community connects domestic and international students for academic, language, cultural, and social exchange. The building includes residential accommodations for up to 270 international and domestic students; 17 classrooms; 100+ computers; wireless Internet throughout the center; a learning resource center with study materials, books, DVDs, and periodicals; a dining facility; lounge areas for meetings and study groups; and open spaces for socializing.

Administration

- Todd Rose, Ph.D., *Executive Director*
- Julia Pfaff, *Operations Manager*
- Jessica Biddle, *Student Experience Director*

- Nana Bonsu, *Marketing & Recruitment Manager*
- Darshana Rogers, *Enrollment Manager*
- Nathan Dougan, *Senior Systems Integration Manager*
- Anne Owl, *Human Resource Manager*

Student Services & Orientation

Student Services

The INTO Mason Student Services provide a range of co-curricular programs and services promoting social and personal well-being. Upon arrival at Mason, the team helps students settle in to life in Fairfax and provides social opportunities and a variety of resources tailored to the specific needs of international students.

International Student Orientation

Orientation involves a variety of important events that prepare students to be successful at Mason, including information about maintaining visa status, registering for Mason classes, health requirements, and insurance coverage. All students must attend the INTO Mason Student Orientation in order to enroll in classes.

Undergraduate

Undergraduate International Year One Program

The Undergraduate International Year One (INYO) Program combines academic coursework, English language support, and academic skills development in a carefully constructed program designed to prepare students for rigorous Mason degree programs. For most students, participation in INYO will not add more time to the completion of their bachelor's degree.

Three types of Undergraduate International Year One programs are available:

- **One Term Program (Accelerated)**: This program is a single term of study. Upon completion of all progression requirements, students will move on to their degree-seeing program as second-semester freshmen (up to 16 credits).
- **Two Term Program (Standard)**: This program is designed to lead students through their first year of study. Upon completion of all progression requirements, students will move on to their degree-seeking program as second-year, freshman (up to 29 credits) or as sophomore students (30 or more credits).
- **Three Term Program (Comprehensive):** This program is designed especially for International students who want to start earning credits toward their bachelor's degree at a US university while improving their English skills. Upon completion of all progression requirements, students will move on to their degree-seeking program as second-year, freshman (up to 29 credits) or as sophomore students (30 or more credits).

The Undergraduate International Year One Program is designed for students who:

- Desire to study for an undergraduate degree in the U.S.
- Need to improve their English language skills
- May have slightly lower GPAs than required of direct-entry students
- Desire additional academic, language, and cultural support in order to succeed during their first year at a U.S. university
- Any or all of the above

Administered through INTO Mason in partnership with the academic units across the university, the courses in the various Undergraduate International Year One programs are taught by highly qualified Mason instructional faculty members and supported by International Year One academic advisors.

Students enrolled in any Undergraduate International Year One program should review the program's student guidebook for specific details related to program requirements and expectations.

Admission

Admission to the Undergraduate International Year One (INYO) Program is offered to international and multilingual students by two methods:

- Students may apply directly through the INTO Mason admissions process OR
- By referral from the University Admissions Office due to not having met the grade point average, English language proficiency, or other requirements for direct admission.

The Undergraduate International Year One Program entry requirements are as follows:

- High school diploma
- 2.5 minimum high school GPA equivalent based on the applicant's country/institutional scale
- Documentation demonstrating the minimum English language proficiency levels:
  - One Term (Accelerated) International Year One Program:
    - TOEFL iBT 80 (17 minimum subscores in reading and writing)
    - IELTS 6.5 (6.0 minimum subscores in reading and writing)
    - PTE Academic 53
    - Successful completion of or waiver from Academic English Level 5
  - Two Term (Standard) International Year One Program:
    - TOEFL iBT 60 (13 minimum subscores in reading and listening)
    - IELTS 5.5 (5.5 minimum subscores in reading and listening)
    - PTE Academic 45
    - Successful completion of or waiver from Academic English Level 4
  - Three Term (Comprehensive) International Year One Program:
    - TOEFL iBT 50 (10 subscores)
    - IELTS 5.0 (4.5 subscores)
    - PTE Academic 41
    - Successful completion of or waiver from Academic English Level 3

Students should review the specific requirements by International Year One Program online (http://www.intostudy.com/mason/) for details.

Progression into Degree Status

Each International Year One (INYO) program has specific progression requirements for completion. These typically include a minimum grade point average and minimum individual course grades (no grades of W, NC, or I are permitted). Students should refer to the website (http://

www.intostudy.com/en-gb/universities/george-mason-university/) for specific IYO program requirements. Students admitted to the university through an Undergraduate IYO program are required to complete all program requirements in order to maintain continuous enrollment.

Dismissal/Termination Appeals Process for INTO Mason Students

Students who do not meet all requirements for matriculation to their desired degree program at the end of their final term will be reviewed for termination from their Undergraduate International Year One program. Terminated students may initiate one of the following an academic action requests in writing:

1. request an exception to the program policy,
2. request to change to an alternate International Year One program, and/or
3. request an extension to continue studying as an Undergraduate International Year One Extender student for one additional term.

All terminated student academic action requests must be submitted in writing to the academic advising staff located in the Mason Global Center within 14 days of notification. Requests should provide an explanation and supplementary documentation. Students who earn two unsatisfactory grades of C or lower will be ineligible to continue as an Extender. Students who fail to meet the program requirements after an extension will be reviewed for dismissal from the university.

Decisions on these requests are reviewed and approved at the discretion of the Academic Director. In some cases, additional reviews by the Associate Provost for Undergraduate Education or Academic Initiatives and Services may be required.

Reenrollment and Readmission

Due to the nature of the Undergraduate International Year One Program as both English language development and academic coursework, students are subject to a limited reenrollment policy. Students who do not enroll after the first term or withdraw for reasons other than poor academic performance may request to reenroll in an International Year One program the following term (e.g., spring) to continue making progress toward meeting program requirements, with advance permission from the Academic Director. Students who do not enroll for two consecutive terms (e.g., spring and fall) must apply for readmission to the program and be re-assessed for language proficiency. Summer terms are counted for students whose initial enrollment begins in Spring semester.

Available Year One Programs & Majors

There are five Undergraduate International Year One programs available:

- Business, leading to 5 undergraduate concentrations in the School of Business
- Engineering, Computing & Statistics, leading to 10 undergraduate majors in the Volgenau School of Engineering
- Humanities and Social Sciences, leading to 21 undergraduate majors in the College of Humanities and Social Sciences and the College of Visual and Performing Art's School of Music
- Human and Social Development, leading to 7 undergraduate majors in the College Health and Human Services, the College of Education and Human Development's School of Recreation and Tourism, and the School of Conflict Analysis and Resolution
- Science, leading to 13 undergraduate majors in the College of Science

Each program allows students to progress to preapproved undergraduate degree programs. For a full listing of specific academic programs associated with a specific International Year One Program, students should refer to the website (http://www.intostudy.com/mason/)for specific requirements.

Business

One Term Program Curriculum (Accelerated): Required Courses

Code	Title	Credits
ENGH 100	Composition for Multilingual Writers (Mason Core)	4
MATH 108	Introductory Calculus with Business Applications (Mason Core)	3
ECON 103	Contemporary Microeconomic Principles (Mason Core)	3
UNIV 100	Introduction to Mason	1

Graduate

Graduate International Pathways

The Graduate International Pathways are pre-master's programs that provide international students paths to various graduate degrees at George Mason University. The pathways give students the academic foundation, essential language skills, and cultural knowledge to successfully move on to their master's degree programs. There are one and two term options available for most pathways along with "Bridge" options for students with certain 3-year bachelor's degrees for many of the pathways. For most students, enrolling in a Graduate International Pathway will add one or two additional semesters to their overall master's degree program.

There are currently 46 Graduate International Pathways available to graduate students. Each pathway allows students to progress to pre-approved graduate degree programs at GMU. The pathways are administered in partnership with the following nine Schools and Colleges at George Mason University. For more information on the specific pathways to degrees in each School or College, click on the links below:

- INTO Mason: Engineering Graduate Pathways
- INTO Mason: Humanities and Social Sciences Graduate Pathways
- INTO Mason: Education and Human Development Graduate Pathways
- INTO Mason: Health and Human Services Graduate Pathways
- INTO Mason: College of Science Graduate Pathways
- INTO Mason: Visual and Performing Arts Graduate Pathways
- INTO Mason: School of Business Graduate Pathways
- INTO Mason: Conflict Analysis and Resolution Graduate Pathways
- INTO Mason: Policy and Government Graduate Pathways

Graduate International Pathways are designed for international students who:

- Need further English language development
- Require a fourth year of undergraduate study
- Fall short of meeting the minimum GPA or admission test score requirements
- Need to improve study skills for success in their chosen field of study
- Any or all of the above

Administered through INTO Mason in partnership with the academic units across the university, the courses in each Graduate International Pathway are taught by highly qualified Mason instructional faculty members and supported by International Pathways academic advisors.

Admission

Admission to Graduate International Pathways are offered to international and multilingual students by two methods:

- Students may apply directly through the INTO Mason admissions process OR
- By referral from graduate admissions due to not having met the grade point average, English language proficiency, or other requirements for direct admission (cascade).

The minimum documentation required for admission include: application, mark sheets/transcripts (in English and the original language), degree certificates (in English and the original language) and other required items as stated in the program catalog supplement.

Graduate International Pathway entry requirements are usually as follows:

- An undergraduate degree equivalent to a U.S. bachelor's degree in a relevant field as specified by the particular International Pathways program;
- 2.75 minimum high school GPA equivalent based on the applicant's country/institutional scale; and
- Documentation demonstrating the minimum English proficiency levels as specified by the particular pathway. The general minimum scores are as follows:
  - One Term (Accelerated) and Bridge International Pathways:
    - TOEFL iBT: 80 – 85 overall (variable minimum subscores required)
    - IELTS: 6.5 overall (variable minimum subscores required)
    - IELA: 175 overall (variable minimum subscores required)
    - Duolingo: 110 overall

- Successful completion of or waiver from Academic English Level 6
- Two Term (Standard) International Pathways:
  - TOEFL iBT: 70 - 75 overall (variable minimum subscores required)
  - IELTS: 6.0 - 6.5 overall (variable minimum subscores required)
  - IELA: 165 - 175 overall (variable minimum subscores required)
  - Duolingo: 100 overall
  - Successful completion of or waiver from Academic English Level 5
- Three Term (Comprehensive) International Pathway in Accounting:
  - TOEFL iBT: 60 overall (13 minimum subscores required)
  - IELTS: 5.5 overall (5.5 minimum subscores required)
  - IELA: 155 overall (155 minimum subscores required)
  - Duolingo: 90 overall
  - Successful completion of or waiver from Academic English Level 4

Students who hold three year baccalaureate degrees may be eligible for select Graduate International Pathways Bridge programs. Students should review the specific requirements for each pathway at the INTO Study website (http://www.intostudy.com/en-gb/universities/george-mason-university/).

Curriculum

Prescribed courses for the Graduate International Pathways programs include approximately 10 - 14 credits for One-Term pathways and 20 - 25 credits for Two-Term pathways. The intent of these courses is to prepare students for the demands of the Mason graduate curriculum. Further, the prescribed courses may include up to 12 credits of coursework toward the student's graduate degree during their International Pathways term(s) of study.

One Term (Accelerated) pathways include the following courses:

Code	Title	Credits
EAP 508	Graduate Communication in the Disciplines III	4
INYO 504	Accelerated Graduate Transitions for International Students	3
EAP 405	Special Topics in Advanced English for Academic Purposes	1-6

In addition to the core coursework listed above, students will also take:

Code	Title	Credits
Appropriate coursework toward graduate program		3-6

Students whose graduate degree program requires the GRE prior to completing their pathway will also be required to take:

Code	Title	Credits
Preparation for the Graduate Record Examination (specified by International Pathway degree program)		
Students will take one of the following:		
INYO 095	Quantitative Preparation for the Graduate Record Examination	
INYO 096	Verbal and Quantitative Preparation for the Graduate Record Examination	
INYO 097	Verbal, Quantitative, and Academic Writing Preparation for the Graduate Record Examination	

Two Term (Standard) pathways include the following courses:

Code	Title	Credits
INYO 501	Graduate Transitions for International Students I	2
INYO 502	Graduate Transitions for International Students II	2
EAP 405	Special Topics in Advanced English for Academic Purposes	2-4
EAP 506	Graduate Communication in the Disciplines I	4
EAP 507	Graduate Communication in the Disciplines II	4
EAP 098	Individualized Language Instruction	0

In addition to the coursework listed above, students will also take:

Code	Title	Credits
Appropriate coursework toward graduate program		6-12

Students whose graduate degree program requires the GRE prior to completing the International Pathways program will also be required to take:

Code	Title	Credits
Preparation for the Graduate Record Examination (specified by International Pathway degree program)		
Students will take one of the following:		0
INYO 095	Quantitative Preparation for the Graduate Record Examination	
INYO 096	Verbal and Quantitative Preparation for the Graduate Record Examination	
INYO 097	Verbal, Quantitative, and Academic Writing Preparation for the Graduate Record Examination	

Three Term (Comprehensive) Accounting pathway includes the following courses:

Code	Title	Credits
Initial term of study:		
AE 050	Level 5 Core	
AE 051	Level 5 Oral Comm Skills	
ACCT 330	Financial Accounting I	3
Total Credits		3

Code	Title	Credits
Upon successful completion of the first term, students will follow the Two Term (Standard) Accounting pathway curriculum during their second and third terms of study.		

Progression into Degree Status

Each Graduate International Pathway has specific progression requirements for completion. These typically include a minimum grade point average and minimum individual course grades (no grades of NC or I are permitted). Students should refer to the INTO Study website (http://www.intostudy.com/en-gb/universities/george-mason-university/) for

specific requirements. Students admitted to the university through a Graduate International Pathway program are required to complete all program requirements in order to maintain continuous enrollment.

Dismissal/Termination Appeals Process for INTO Mason Students

Students who do not meet all requirements for matriculation to their desired degree program at the end of their final term will be reviewed for termination from their Graduate International Pathway. Terminated students may initiate one of the following an academic action requests in writing:

1. request an exception to the program policy,
2. request to change to an alternate Graduate International Pathway, and/or
3. request an extension to continue studying as a Graduate International Pathways Extender student for one additional term.

All terminated student academic action requests must be submitted in writing to the academic advising staff located in the Mason Global Center within 14 days of notification. Requests should provide an explanation and supplementary documentation. Students who earn two unsatisfactory grades of C or lower will be ineligible to continue as an Extender. Students who fail to meet the program requirements after an extension will be reviewed for dismissal from the university.

Decisions on these requests are reviewed and approved at the discretion of the Academic Director. In some cases, additional reviews by the Associate Provost for Graduate Education or from a College Dean may also be required.

Re-enrollment and Re-admission

Due to the nature of the Graduate International Pathways as both English language development and academic coursework, students are subject to a limited re-enrollment policy. Students who do not enroll after the first term or withdraw for reasons other than poor academic performance may request to re-enroll in a Graduate International Pathway program the following term (e.g., spring) to continue making progress toward meeting program requirements, with advance permission from the Academic Director. Students who do not enroll for two consecutive terms (e.g., spring and fall) must apply for readmission to the program and be re-assessed for language proficiency. Summer terms are counted for students whose initial enrollment begins in Spring semester.

Academic English

Academic English Program

Administered by INTO George Mason University's English Language Programs, the Academic English (AE) Program prepares international students for university study in the United States. AE is a non-credit program designed to develop the English skills needed for successful communication, cultural integration, and participation in the academic environment of the university.

Admission

Students who apply to the AE Program must submit an application, application fee, and required documents through INTO Mason. In order to qualify for admission to the AE Program, students must demonstrate that they have earned at least a high school diploma.

Students have the option to apply for the AE or an International Year One (IYO) Program. Students who apply to an International Year One Program but do not demonstrate entry language requirements are given an individual pre-arrival study plan that provides an estimate of the number of Academic English terms to complete in order to fulfill International Year One entry requirements (AE + IYO). This pre-arrival study plan is only an estimate; an updated post-arrival study plan with a minimum of one term of AE will be provided to AE + IYO students after taking the INTO Mason Placement Test.

For more information about International Year One admission requirements, see Undergraduate International Year One Program or Graduate International Year One Program.

Program Outcomes

After successfully completing the upper levels of the Academic English program, students will be able to do the following:

- Interact comfortably in the U.S. classroom with professors and fellow students
- Understand U.S. values in an academic setting
- Present their spoken and written ideas accurately and effectively in English
- Write research papers with proper use of citations and references
- Use the Internet and Mason library databases to conduct academic research
- Read, understand, and critically evaluate academic texts
- Understand and use vocabulary common to academic disciplines
- Take useful and accurate notes in academic lectures and presentations
- Develop and deliver oral presentations

Program Structure

The Academic English Program is offered three terms per year: Fall (15 weeks of instruction), Spring (15 weeks of instruction), and Summer (10 weeks of instruction). Upon arrival, all Academic English students are given a language proficiency assessment to determine their AE level placement. In order to be eligible for full-time status, students must be enrolled in a minimum of 18 hours of non-credit AE coursework per week. AE courses are offered at eight levels of proficiency regularly throughout the year.

AE faculty are highly qualified with significant teaching experience and master's and doctoral degrees in TESOL or related fields. The program is also supported by academic advisors experienced in working with multilingual speakers of English and the Student Experience staff, who help students utilize university resources and engage in the Mason experience through opportunities to participate in campus and local community groups/programs.

Curriculum

In keeping with the current literature on second language acquisition and pedagogy, the Academic English curriculum is aligned with the Common European Framework of Reference scales (CEFR), American Council on The Teaching of Foreign Languages (ACTFL) Proficiency Guidelines 2012, and the Pearson Global Scale of English (GSE) Learning Objectives for Academic English. Curricular objectives and learning outcomes for each of the eight AE levels are geared toward an exit goal that is one level higher than the entrance level.

AE Level	CEFR Entrance	CEFR Exit	ACTFL Entrance	ACTFL Exit	GSE Academic Entrance	GSE Academic Exit
7	B2+	C1	Advanced High	Superior	68-75	76-84
6	B2	B2+	Advanced Mid	Advanced High	59-67	68-75
5	B1+	B2	Advanced Low	Advanced Mid	51-58	59-67
4	B1	B1+	Intermediate High	Advanced Low	43-50	51-58
3	A2+	B1	Intermediate Mid	Intermediate High	37-42	43-50
2	A2	A2+	Intermediate Low	Intermediate Mid	30-36	37-42
1	A1+	A2	Novice High	Intermediate Low	22-29	30-36
Foundat	A1	A1+	Novice Mid	Novice High	16-21	22-29

All students, regardless of level, take one Core, one Oral Communication Skills (OCS), and one or two Elective courses for a minimum of 18 classroom hours per week. Core courses focus on reading and writing with additional attention to written grammar and vocabulary. OCS courses focus on listening and speaking with additional attention to pronunciation and oral grammar and vocabulary. Elective courses offer students a variety of content-based and skills-based instruction and can be selected by students enrolled in co-requisite Core or OCS courses.

Grading System for Academic English

Throughout the semester, students are assessed on how well they have met curricular learning outcomes. Midterm and final grades for all Academic English courses are submitted to the University as letter grades.

Letter Grade	Percent Grade	Quality Points	Type
A+	97-100	4.00	Passing
A	93-96	4.00	Passing
A-	90-92	3.67	Passing
B+	87-89	3.33	Passing
B	83-86	3.00	Passing
B-	80-82	2.67	Passing
C+	77-79	2.33	Failing
C	73-76	2.00	Failing
C-	70-72	1.67	Failing
D	60-69	1.00	Failing
F	0-59	0.00	Failing

Grade point average (GPA) is an important factor in determining program-to-program progression and evaluating academic standing.

In-Program Level Progression

In Core and OCS courses, students must receive a final grade of at least 80% in order to advance to the next level of Core/OCS. If a student has performed exceptionally well in Core/OCS, the instructor may submit an AE Level Skip Form requesting that the student skip a Core/OCS level in the subsequent semester.

Program-to-Program Progression

In order for an AE + Year One student to progress to his/her planned Year One program, the student must earn for the most current AE semester a 2.5 or higher term GPA and a final passing grade (A+, A, A-, B+, B, or B-) of specified levels of Core and OCS. AE-only students must meet the same language requirements for progression and submit other documentation as required by the prospective Year One program.

AE students applying for direct admission to George Mason University must earn a passing final grade (A+, A, A-, B+, B, or B-) in specified levels of Core and OCS to meet entry language proficiency requirements.

AE Language Requirements for INTO Mason International Year One programs and Mason Direct Admission

Program	Language Requirement 1	Language Requirement 2	Language Requirement
Undergraduate International Year One (Three Term/ Comprehensive)	Passing Grade in AE 030: Level 3 Core	Passing Grade in AE 031: Level 3 OCS	AE Term GPA ≥ 2.5
Undergraduate International Year One (Two Term/ Standard)	Passing grade in AE 040: Level 4 Core	Passing grade in AE 041: Level 4 OCS	AE Term GPA ≥ 2.5
Undergraduate International Year One (One Term/ Accelerated)	Passing grade in AE 050: Level 5 Core	Passing grade in AE 051: Level 5 OCS	AE Term GPA ≥ 2.5
Direct Undergraduate Admission	Passing grade in AE 060: Level 6 Core	Passing grade in AE 061: Level 6 OCS	
Graduate International Year One (Three Term/ Comprehensive)	Passing grade in AE 040: Level 4 Core	Passing grade in AE 041: Level 4 OCS	AE Term GPA ≥ 2.5
Graduate International Year One (Two Term/ Standard)	Passing grade in AE 050: Level 5 Core	Passing grade in AE 051: Level 5 OCS	AE Term GPA ≥ 2.5
Graduate International Year One (One Term/ Accelerated)	Passing grade in AE 060: Level 6 Core	Passing grade in AE 061: Level 6 OCS	AE Term GPA ≥ 2.5
Direct Graduate Admission	Passing grade in AE 070: Level 7 Core	Passing grade in AE 071: Level 7 OCS	

* Information in the chart above only shows program eligibility based on language proficiency requirements met.

Academic English students may not level skip directly into an International Year One (IYO) program or direct admission the following semester. Even if a student is approved to skip into an Academic English level beyond what is required for the desired IYO program or direct admission, the student must complete the subsequent semester in the AE Program first. Students also have the option of submitting official TOEFL/IELTS/PTE Academic scores to George Mason University in lieu of meeting the AE program-to-program progression requirements, but must still maintain good standing in the AE Program.

Attendance and Academic Probation

In order to make progress in developing academic language skills, students are expected to attend classes regularly and remain in good academic standing.

Attendance

An AE student who exceeds 15% absences in any course will be placed on attendance probation. If the student exceeds 15% absences in any course the following semester, the student is subject to termination for non-attendance from the AE program and George Mason University. Subsequently, the student will be terminated in the Student and Exchange Information System (SEVIS) and will no longer have valid F-1 visa status.

Academic Progress

Students are expected to make satisfactory progress in developing their language skills and may not attempt the same Core or OCS course more than three times. Academic progress is determined primarily through term GPA. Students whose GPAs fall below 2.5 will be given a warning, placed on probation, and/or terminated from the AE Program and George Mason University:

A student earns a term GPA below 2.5.	INTO Mason Academic Services e-mails the student that s/he is on Academic Warning for the next semester.
A student on Academic Warning earns a term GPA below 2.5.	The student receives an e-mail and hand-delivered letter from INTO Mason Advising & Academic Services stating that s/he is on Academic Probation for the next semester. Before being permitted to register for AE classes, the student must meet with their assigned academic advisor and sign an Academic Probation contract. Students who refuse the contract or who violate the conditions of the contract will be dismissed immediately. Students who follow the terms of the contract and complete a successful semester will be removed from Academic Probation and considered in good standing.
A student on Academic Probation earns a term GPA below 2.5.	The student is terminated from the AE Program and George Mason University.

Termination Appeals Process for INTO Mason Students

All termination appeals must be submitted in writing to the INTO Mason Academic Services office located in the Mason Global Center within 14 days of notification. Requests should provide an explanation and supplementary documentation. Students who fail to meet the program requirements after an additional semester will be reviewed for termination from the university.

Decisions on these requests are reviewed and approved at the discretion of the Academic Director. In some cases, additional reviews by the Associate Provost for Academic Initiatives and Services may also be required.

Reenrollment and Readmission

Academic English students who do not enroll after the first term or withdraw for reasons other than poor academic performance (e.g., spring and fall) must apply for readmission to the program and be reassessed for language proficiency upon return.

INTO Mason: Business Graduate Pathways

Requirements

Graduate International Pathways to master's degrees in the School of Business

INTO Mason provides four Graduate International Pathways for international students to enter various graduate degrees in the School of Business at George Mason University. The pathways give students the academic foundation, essential language skills, and cultural knowledge to successfully move on to their master's degree programs. For most students, enrolling in a Graduate International Pathway will add one or two additional semesters to their overall master's degree program.

The following are the available Graduate International Pathways at INTO Mason to degrees in the School of Business at GMU:

- Accounting
- Business Administration (MBA)
- (Business) Management
- Real Estate Development

The following are the types of pathways available:

- **One Term pathways (Accelerated)**: These pathways lead students through their first semester of graduate school. Upon completion of all matriculation requirements, students will move on to their degree-seeking program often with several graduate credits completed as determined by the graduate degree program. Three of the four Business pathways have one-term options available (all except Accounting).
- **Two Term pathways (Standard)**: These pathways lead students through their first year of graduate school. Upon completion of all matriculation requirements, students will move on to their degree-seeking program often with several graduate credits completed as determined by the graduate degree program. All four Business pathways have two-term options available.
- **Three Term pathway (Comprehensive):** This pathway is currently only available to students enrolling in the Accounting pathway and is designed to start students a semester earlier than the standard two-term pathway. In their first semester, students take Academic English classes along with one Accounting pre-requisite class and a language support class. Their second and third semesters then follow the standard two-term pathway in Accounting.
- **Bridge pathways**: These pathways provide foundational coursework designed to substitute for an additional year of undergraduate academic coursework, to render students with three-year baccalaureate degrees eligible to move on to their graduate degree program. Students will often move on to those degree-seeking programs with several graduate credits completed as determined by the graduate degree program. All four Business pathways have Bridge options available.

Graduate International Pathways are designed for international students who:

- Need further English language development. Students who require a moderate amount of English language support can enter all available International Pathways to strengthen their language proficiency and ensure their long-term academic success
- Require a fourth year of undergraduate study. Students who hold three-year baccalaureate degrees that are not formally evaluated as equivalent to a four-year U.S. bachelor's degree may enter many Graduate International Pathways. For these students, their pathway acts as a "bridge" enhancing their international educational background with academic coursework to meet the eligibility for admission to a GMU graduate degree program
- Fall short of meeting the minimum GPA or admission test score requirements
- Need to improve study skills for success in their chosen field of study
- Any or all of the above

Administered through INTO Mason in partnership with the academic units across the university, the courses in each Graduate International Pathway are taught by highly qualified Mason instructional faculty members and supported by International Pathways academic advisors.

Students enrolled in any Graduate International Pathway should review the program's student guidebook for specific details related to program requirements and expectations.

INTO Mason: Conflict Analysis and Resolution Graduate Pathways

Requirements

Graduate International Pathway to master's degree in the School of Conflict Analysis and Resolution

INTO Mason provides one Graduate International Pathway for international students to enter the Jimmy and Rosalynn Carter School for Peace and Conflict Resolution at George Mason University. The pathway gives students the academic foundation, essential language skills, and cultural knowledge to successfully move on to their master's degree program. For most students, enrolling in a Graduate International Pathway will add one or two additional semesters to their overall master's degree program.

The following is the available Graduate International Pathway at INTO Mason to the School of Conflict Analysis and Resolution at GMU:

- Conflict Analysis and Resolution

The following are the types of pathways available:

- **One Term pathway (Accelerated)**: This pathway leads students through their first semester of graduate school. Upon completion of all matriculation requirements, students will move on to their degree-seeking program often with several graduate credits completed as determined by the graduate degree program.
- **Two Term pathway (Standard)**: This pathway leads students through their first semester of graduate school. Upon completion of all matriculation requirements, students will move on to their degree-seeking program often with several graduate credits completed as determined by the graduate degree program.
- **Bridge pathway**: This pathway provides foundational coursework designed to substitute for an additional year of undergraduate academic coursework, to render students with three-year baccalaureate degrees eligible to move on to their graduate degree program. Students will often move on to their degree-seeking program with several graduate credits completed as determined by the graduate degree program.

Graduate International Pathways are generally designed for international students who:

- Need further English language development. Students who require a moderate amount of English language support can enter all available International Pathways to strengthen their language proficiency and ensure their long-term academic success
- Require a fourth year of undergraduate study. Students who hold three-year baccalaureate degrees that are not formally evaluated as equivalent to a four-year U.S. bachelor's degree may enter many Graduate International Pathways. For these students, their pathway acts as a "bridge" enhancing their international educational background with academic coursework to meet the eligibility for admission to a GMU graduate degree program
- Fall short of meeting the minimum GPA or admission test score requirements
- Need to improve study skills for success in their chosen field of study
- Any or all of the above

Administered through INTO Mason in partnership with the academic units across the university, the courses in each Graduate International Pathway are taught by highly qualified Mason instructional faculty members and supported by International Pathways academic advisors.

Students enrolled in any Graduate International Pathway should review the program's student guidebook for specific details related to program requirements and expectations.

INTO Mason: Education and Human Development Graduate Pathways

Requirements

Graduate International Pathways to master's degrees in Education and Human Development

INTO Mason provides five Graduate International Pathways for international students to enter various graduate degrees in the College of Education and Human Development (CEHD) at George Mason University. The pathways give students the academic foundation, essential language skills, and cultural knowledge to successfully move on to their master's degree programs. For most students, enrolling in a Graduate International Pathway will add one or two additional semesters to their overall master's degree program.

The following are the available Graduate International Pathways at INTO Mason to degrees in the College of Education and Human Development at GMU:

- Curriculum and Instruction with concentration in Early Childhood and Elementary Education

- Educational Psychology
- Special Education with concentration in Early Childhood and Elementary Education
- Special Education without concentration
- Sport and Recreation Studies

The following are the types of pathways available:

- **One Term pathways (Accelerated)**: These pathways lead students through their first semester of graduate school. Upon completion of all matriculation requirements, students will move on to their degree-seeking program often with several graduate credits completed as determined by the graduate degree program. All five CEHD pathways have one-term options available.
- **Two Term pathways (Standard)**: These pathways lead students through their first year of graduate school. Upon completion of all matriculation requirements, students will move on to their degree-seeking program often with several graduate credits completed as determined by the graduate degree program. All five CEHD pathways have two-term options available.
- **Bridge pathways**: These pathways provide foundational coursework designed to substitute for an additional year of undergraduate academic coursework, to render students with three-year baccalaureate degrees eligible to move on to their graduate degree program. Students will often move on to those degree-seeking programs with several graduate credits completed as determined by the graduate degree program. All five CEHD pathways have Bridge options available.

Graduate International Pathways are designed for international students who:

- Need further English language development. Students who require a moderate amount of English language support can enter all available International Pathways to strengthen their language proficiency and ensure their long-term academic success
- Require a fourth year of undergraduate study. Students who hold three-year baccalaureate degrees that are not formally evaluated as equivalent to a four-year U.S. bachelor's degree may enter many Graduate International Pathways. For these students, their pathway acts as a "bridge" enhancing their international educational background with academic coursework to meet the eligibility for admission to a GMU graduate degree program
- Fall short of meeting the minimum GPA or admission test score requirements
- Need to improve study skills for success in their chosen field of study
- Any or all of the above

Administered through INTO Mason in partnership with the academic units across the university, the courses in each Graduate International Pathway are taught by highly qualified Mason instructional faculty members and supported by International Pathways academic advisors.

Students enrolled in any Graduate International Pathway should review the program's student guidebook for specific details related to program requirements and expectations.

INTO Mason: Engineering Graduate Pathways

Banner Code: IN-MS-P012

Requirements

Graduate International Pathways to master's degrees in the Volgenau School of Engineering

INTO Mason provides sixteen Graduate International Pathways for international students to enter various graduate degrees in the Volgenau School of Engineering (VSE) at George Mason University. The pathways give students the academic foundation, essential language skills, and cultural knowledge to successfully move on to their master's degree programs. For most students, enrolling in a Graduate International Pathway will add one or two additional semesters to their overall master's degree program.

The following are the available Graduate International Pathways at INTO Mason to degrees in the Volgenau School of Engineering at GMU:

- Applied Information Technology
- Bioengineering
- Biostatistics
- Civil and Infrastructure Engineering
- Computer Engineering
- Computer Science
- Data Analytics Engineering
- Digital Forensics
- Electrical Engineering
- Information Security and Assurance
- Information Systems
- Operations Research
- Software Engineering
- Statistical Science
- Systems Engineering
- Telecommunications

The following are the types of pathways available:

- **One Term pathways (Accelerated)**: These pathways lead students through their first semester of graduate school. Upon completion of all matriculation requirements, students will move on to their degree-seeking program often with several graduate credits completed as determined by the graduate degree program. All VSE pathways have one-term pathway options available.
- **Two Term pathways (Standard)**: These pathways lead students through their first year of graduate school. Upon completion of all matriculation requirements, students will move on to their degree-seeking program often with several graduate credits completed as determined by the graduate degree program. All VSE pathways have two-term pathway options available.
- **Bridge pathways**: These pathways provide foundational coursework designed to substitute for an additional year of undergraduate academic coursework, to render students with three-year

baccalaureate degrees eligible to move on to their graduate degree programs. Students will often move on to those degree-seeking programs with several graduate credits completed as determined by the graduate degree program. Almost all (14) of the sixteen (16) VSE pathways have Bridge pathway options available (all except Operations Research and Systems Engineering).

Graduate International Pathways are designed for international students who:

- Need further English language development. Students who require a moderate amount of English language support can enter all available Graduate International Pathways to strengthen their language proficiency and ensure their long-term academic success
- Require a fourth year of undergraduate study. Students who hold three-year baccalaureate degrees that are not formally evaluated as equivalent to a four-year U.S. bachelor's degree may enter many Graduate International Pathways. For these students, their pathway acts as a "bridge" enhancing their international educational background with academic coursework to meet the eligibility for admission
- Fall short of meeting the minimum GPA or admission test score requirements
- Need to improve study skills for success in their chosen field of study
- Any or all of the above

Administered through INTO Mason in partnership with the academic units across the university, the courses in the Graduate International Pathways are taught by highly qualified Mason instructional faculty members and supported by International Pathways academic advisors.

Students enrolled in any Graduate International Pathway should review the program's student guidebook for specific details related to program requirements and expectations.

Program Requirements

The following Graduate International Pathways are offered by INTO Mason in collaboration with the Volgenau School of Engineering:

Applied Information Technology Graduate Pathway

The following grid is for the first semester of the standard, 2-semester pathway into the Master's of Science in Applied Information Technology degree:

Code	Title	Credits
Standard semester 1 of 2		
EAP 506	Graduate Communication in the Disciplines I	4
INYO 501	Graduate Transitions for International Students I	2
Language Support Course [1]		0-2
Required Major Course(s): [2]		3-6
AIT 502	Programming Essentials	
AIT 512	Algorithms and Data Structures Essentials	
AIT 524	Database Management Systems	
AIT 542	Fundamentals of Computing Platforms	
Total Credits		9-14

1. Students will be assigned a second major course by the program on the basis of English language placement results upon arrival. The second major course will be assigned if student places into the equivalent of AE Level 6 (or higher) and the type of language support course will be adjusted accordingly.
2. AIT 512, 524, and 542 can be taken in any order so it will depend on which ones are offered in a given semester and if the student has the requisite knowledge to take them. AIT 502 will be required in addition to these courses if the student does not have all of the necessary skills in programming languages such as Java to take the higher-level AIT courses. These courses are sometimes delivered online and may be restricted when students are in the Pathway program.

The following grid is for the second semester of the standard, 2-semester pathway into the Master's of Science in Applied Information Technology degree:

Code	Title	Credits
Standard semester 2 of 2		
EAP 507	Graduate Communication in the Disciplines II	4
INYO 502	Graduate Transitions for International Students II	2
Language Support Course [1]		0
Required Major Courses [2]		6
AIT 502	Programming Essentials	
AIT 512	Algorithms and Data Structures Essentials	
AIT 524	Database Management Systems	
AIT 542	Fundamentals of Computing Platforms	
Total Credits		12

1. Continuing students may be required to take an additional language support course.
2. AIT 512, 524, and 542 can be taken in any order so it will depend on which ones are offered in a given semester and if the student has the requisite knowledge to take them. AIT 502 will be required in addition to these courses if the student does not have all of the necessary skills in programming languages such as Java to take the higher-level AIT courses. These courses are sometimes delivered online and may be restricted when students are in the Pathway program.

The following grid is for the single semester of the accelerated, 1-semester pathway into the Master's of Science in Applied Information Technology degree:

Code	Title	Credits
Accelerated semester 1 of 1		
EAP 508	Graduate Communication in the Disciplines III	4
INYO 504	Accelerated Graduate Transitions for International Students	3
Language Support Course [1]		0
Required Major Courses: [2]		6
AIT 502	Programming Essentials	
AIT 512	Algorithms and Data Structures Essentials	
AIT 524	Database Management Systems	

AIT 542	Fundamentals of Computing Platforms	
Total Credits		13

1 One-semester (Accelerated) students will be placed into language support courses depending on their entrance test scores when they arrive.

2 AIT 512, 524, and 542 can be taken in any order so it will depend on which ones are offered in a given semester and if the student has the requisite knowledge to take them. AIT 502 will be required in addition to these course if the student does not have all of the necessary skills in programming languages such as Java to take the higher-level AIT courses. These courses are sometimes delivered online and may be restricted when students are in the Pathway program.

The following grid is for the first semester of the Bridge, 2-semester pathway into the Master's of Science in Applied Information Technology degree for students with certain 3-year degrees:

Code	Title	Credits
Bridge semester 1 of 2		
EAP 506	Graduate Communication in the Disciplines I	4
INYO 501	Graduate Transitions for International Students I	2
Upper-level Undergraduate Mason Core Course [1]		3
Required Major Courses [2]		3
AIT 502	Programming Essentials	
AIT 512	Algorithms and Data Structures Essentials	
AIT 524	Database Management Systems	
AIT 542	Fundamentals of Computing Platforms	
Total Credits		12

1 Bridge students will take two upper-level undergraduate Mason Core courses instead of or in addition to select Pathway and/or major courses, one in each semester of the pathway. These two courses substitute for a "fourth year" of undergraduate study as is required by American colleges and universities.

2 AIT 512, 524, and 542 can be taken in any order so it will depend on which ones are offered in a given semester and if the student has the requisite knowledge to take them. AIT 502 will be required in addition to these courses if the student does not have all of the necessary skills in programming languages such as Java to take the higher-level AIT courses. These courses are sometimes delivered online and may be restricted when students are in the Pathway program.

The following grid is for the second semester of the Bridge, 2-semester pathway into the Master's of Science in Applied Information Technology degree for students with certain 3-year degrees:

Code	Title	Credits
Bridge semester 2 of 2		
EAP 507	Graduate Communication in the Disciplines II	4
INYO 502	Graduate Transitions for International Students II	2
Upper-level Undergraduate Mason Core Course [1]		3
Required Major Course [2]		3
AIT 502	Programming Essentials	
AIT 512	Algorithms and Data Structures Essentials	
AIT 524	Database Management Systems	
AIT 542	Fundamentals of Computing Platforms	
Total Credits		12

1 Bridge students will take two upper-level undergraduate Mason Core courses instead of or in addition to select Pathway and/or major courses, one in each semester of the pathway. These two courses substitute for a "fourth year" of undergraduate study as is required by American colleges and universities.

2 AIT 512, 524, and 542 can be taken in any order so it will depend on which ones are offered in a given semester and if the student has the requisite knowledge to take them. AIT 502 will be required in addition to these courses if the student does not have all of the necessary skills in programming languages such as Java to take the higher-level AIT courses. These courses are sometimes delivered online and may be restricted when students are in the Pathway program.

Bioengineering Graduate Pathway

The following grid is for the first semester of the standard, 2-semester pathway into the Master's of Science in Bioengineering degree:

Code	Title	Credits
Standard semester 1 of 2		
EAP 506	Graduate Communication in the Disciplines I	4
INYO 501	Graduate Transitions for International Students I	2
Language Support Course [1]		0-2
Required Major Course(s): [2]		3-6
BENG 525	Neural Engineering	
BENG 538	Medical Imaging	
BENG 541	Biomaterials	
BENG 550	Advanced Biomechanics	
Total Credits		9-14

1 Students will be assigned a second major course by the program on the basis of English language placement results upon arrival. The second major course will be assigned if student places into the equivalent of AE Level 6 (or higher) and the type of language support course will be adjusted accordingly.

2 BENG 525, 538, 541, and 550 can be taken in any order so it will depend on which ones are offered in a given semester.

The following grid is for the second semester of the standard, 2-semester pathway into the Master's of Science in Bioengineering degree:

Code	Title	Credits
Standard semester 2 of 2		
EAP 507	Graduate Communication in the Disciplines II	4
INYO 502	Graduate Transitions for International Students II	2
Language Support Course [1]		0
Required Major Courses: [2]		6

BENG 525	Neural Engineering	
BENG 538	Medical Imaging	
BENG 541	Biomaterials	
BENG 550	Advanced Biomechanics	
Total Credits		12

1 Continuing students may be required to take an additional language support course.

2 BENG 525, 538, 541, and 550 can be taken in any order so it will depend on which ones are offered in a given semester.

The following grid is for the single semester of the accelerated, 1-semester pathway into the Master's of Science in Bioengineering degree:

Code	Title	Credits
Accelerated semester 1 of 1		
EAP 508	Graduate Communication in the Disciplines III	4
INYO 504	Accelerated Graduate Transitions for International Students	3
Language Support Course [1]		0
Required Major Courses: [2]		6
BENG 525	Neural Engineering	
BENG 538	Medical Imaging	
BENG 541	Biomaterials	
BENG 550	Advanced Biomechanics	
Total Credits		13

1 One-semester (Accelerated) students will be placed into language support courses depending on their entrance test scores when they arrive.

2 BENG 525, 538, 541, and 550 can be taken in any order so it will depend on which ones are offered in a given semester.

The following grid is for the first semester of the Bridge, 2-semester pathway into the Master's of Science in Bioengineering degree for students with certain 3-year degrees:

Code	Title	Credits
Bridge semester 1 of 2		
EAP 506	Graduate Communication in the Disciplines I	4
INYO 501	Graduate Transitions for International Students I	2
Upper-level Undergraduate Mason Core Course [1]		3
Required Major Course: [2]		3
BENG 525	Neural Engineering	
BENG 538	Medical Imaging	
BENG 541	Biomaterials	
BENG 550	Advanced Biomechanics	
Total Credits		12

1 Bridge students will take two upper-level undergraduate Mason Core courses instead of or in addition to select Pathway and/or major courses, one in each semester of the pathway. These two courses substitute for a "fourth year" of undergraduate study as is required by American colleges and universities.

2 BENG 525, 538, 541, and 550 can be taken in any order so it will depend on which ones are offered in a given semester.

The following grid is for the second semester of the Bridge, 2-semester pathway into the Master's of Science in Bioengineering degree for students with certain 3-year degrees:

Code	Title	Credits
Bridge semester 2 of 2		
EAP 507	Graduate Communication in the Disciplines II	4
INYO 502	Graduate Transitions for International Students II	2
Upper-level Undergraduate Mason Core Course [1]		3
Required Major Course: [2]		3
BENG 525	Neural Engineering	
BENG 538	Medical Imaging	
BENG 541	Biomaterials	
BENG 550	Advanced Biomechanics	
Total Credits		12

1 Bridge students will take two upper-level undergraduate Mason Core courses instead of or in addition to select Pathway and/or major courses, one in each semester of the pathway. These two courses substitute for a "fourth year" of undergraduate study as is required by American colleges and universities.

2 BENG 525, 538, 541, and 550 can be taken in any order so it will depend on which ones are offered in a given semester.

INTO Mason: Health and Human Services Graduate Pathways

Requirements

Graduate International Pathways to master's degrees in Health and Human Services

INTO Mason provides five Graduate International Pathways for international students to enter various graduate degrees in the College of Health and Human Services (CHHS) at George Mason University. The pathways give students the academic foundation, essential language skills, and cultural knowledge to successfully move on to their master's degree programs. For most students, enrolling in a Graduate International Pathway will add one or two additional semesters to their overall master's degree program.

The following are the available Graduate International Pathways at INTO Mason to degrees in the College of Health and Human Services at GMU:

- Health Informatics
- Health Systems Management
- Nutrition
- Public Health
- Social Work

The following are the types of pathways available:

- **One Term pathways (Accelerated)**: These pathways lead students through their first semester of graduate school. Upon completion of all matriculation requirements, students will move on to their degree-seeking program often with several graduate credits completed as determined by the graduate degree program. Four of the five CHHS pathways have one-term options available (all except Social Work).
- **Two Term pathways (Standard)**: These pathways lead students through their first semester of graduate school. Upon completion of all matriculation requirements, students will move on to their degree-seeking program often with several graduate credits completed as determined by the graduate degree program. All five CHHS pathways have two-term options available.

Graduate International Pathways are designed for international students who:

- Need further English language development. Students who require a moderate amount of English language support can enter all available International Pathways to strengthen their language proficiency and ensure their long-term academic success
- Fall short of meeting the minimum GPA or admission test score requirements
- Need to improve study skills for success in their chosen field of study
- Any or all of the above

Administered through INTO Mason in partnership with the academic units across the university, the courses in each Graduate International Pathway are taught by highly qualified Mason instructional faculty members and supported by International Pathways academic advisors.

Students enrolled in any Graduate International Pathway should review the program's student guidebook for specific details related to program requirements and expectations.

INTO Mason: Humanities and Social Sciences Graduate Pathways

Banner Code: IN-MA-P001

Requirements

Graduate International Pathways to master's degrees in Humanities and Social Sciences

INTO Mason provides three Graduate International Pathways for international students to enter various graduate degrees in the College of Humanities and Social Sciences (CHSS) at George Mason University. The pathways give students the academic foundation, essential language skills, and cultural knowledge to successfully move on to their master's degree programs. For most students, enrolling in a Graduate International Pathway will add one or two additional semesters to their overall master's degree program.

The following are the available Graduate International Pathways at INTO Mason to degrees in the College of Humanities and Social Sciences at GMU:

- Economics
- Global Affairs
- Linguistics

The following are the types of pathways available:

- **One Term pathways (Accelerated)**: These pathways lead students through their first semester of graduate school. Upon completion of all matriculation requirements, students will move on to their degree-seeking program often with several graduate credits completed as determined by the graduate degree program. One CHSS pathways the one-term option available (Economics only).
- **Two Term pathways (Standard)**: These pathways lead students through their first year of graduate school. Upon completion of all matriculation requirements, students will move on to their degree-seeking program often with several graduate credits completed as determined by the graduate degree program. All CHSS pathways have two-term options available.
- **Bridge pathways**: These pathways provide foundational coursework designed to substitute for an additional year of undergraduate academic coursework, to render students with three-year baccalaureate degrees eligible to move on to their graduate degree program. Students will often move on to those degree-seeking programs with several graduate credits completed as determined by the graduate degree program. Two of the three pathways have Bridge options available (all except Linguistics).

Graduate International Pathways are designed for international students who:

- Need further English language development. Students who require a moderate amount of English language support can enter all available International Pathways to strengthen their language proficiency and ensure their long-term academic success
- Require a fourth year of undergraduate study. Students who hold three-year baccalaureate degrees that are not formally evaluated as equivalent to a four-year U.S. bachelor's degree may enter many Graduate International Pathways. For these students, their pathway acts as a "bridge" enhancing their international educational background with academic coursework to meet the eligibility for admission to a GMU graduate degree program
- Fall short of meeting the minimum GPA or admission test score requirements
- Need to improve study skills for success in their chosen field of study
- Any or all of the above

Administered through INTO Mason in partnership with the academic units across the university, the courses in each Graduate International Pathway are taught by highly qualified Mason instructional faculty members and supported by International Pathways academic advisors.

Students enrolled in any Graduate International Pathway should review the program's student guidebook for specific details related to program requirements and expectations.

Program Requirements

The following Graduate International Pathways are offered by INTO Mason in collaboration with George Mason University's College of Humanities and Social Sciences:

Economics Graduate Pathway

The following grid is for the first semester of the standard, 2-semester pathway into the Master of Arts in Economics degree:

Code	Title	Credits
Standard semester 1 of 2		
EAP 506	Graduate Communication in the Disciplines I	4
INYO 501	Graduate Transitions for International Students I	2
Language Support Course [1]		0-2
ECON 630	Mathematical Economics I [2]	3
Total Credits		9-11

1. Students will be assigned a second major course by the program on the basis of English language placement results upon arrival.
2. A degree in economics is not required but it is encouraged that applicants should have satisfactorily completed the following before enrolling in graduate courses: [1] Intermediate microeconomics (ECON 306), [2] Intermediate macroeconomics (ECON 311), [3] at least one semester of calculus (MATH 113 or equivalent), and [4] at least one semester of statistics (OM 210 or STAT 250 and STAT 350, or equivalent). Depending on the academic background of the student, s/he may be required to take one or more of these pre-requisite classes during the pathway, which will be determined in consultation with an advisor. Any pre-requisites taken will not count toward the MA in Economics degree.

The following grid is for the second semester of the standard, 2-semester pathway into the Master of Arts in Economics degree:

Code	Title	Credits
Standard semester 2 of 2		
EAP 507	Graduate Communication in the Disciplines II	4
INYO 502	Graduate Transitions for International Students II	2
Language Support Course [1]		0
Required Major Courses (students will take two of the following courses): [2]		6
ECON 535	Survey of Applied Econometrics	
ECON 615	Macroeconomic Theory	
ECON 5---	Economics Elective [3]	
ECON 6---	Economics Elective [3]	
Total Credits		12

1. Continuing students may be required to take an additional language support course.
2. A degree in economics is not required but it is encouraged that applicants should have satisfactorily completed the following before enrolling in graduate courses: [1] Intermediate microeconomics (ECON 306), [2] Intermediate macroeconomics (ECON 311), [3] at least one semester of calculus (MATH 113 or equivalent), and [4] at least one semester of statistics (OM 210 or STAT 250 and STAT 350, or equivalent). Depending on the academic background of the student, s/he may be required to take one or more of these pre-requisite classes, which will be determined in consultation with an advisor. Any pre-requisites taken will not count toward the MA in Economics degree.
3. ECON Electives will be chosen in consultation with advisors.

The following grid is for the single semester of the accelerated, 1-semester pathway into the Master of Arts in Economics degree:

Code	Title	Credits
Accelerated semester 1 of 1		
EAP 508	Graduate Communication in the Disciplines III	4
INYO 504	Accelerated Graduate Transitions for International Students	3
Required Major Courses (students will take two of the following courses): [1]		6
ECON 630	Mathematical Economics I	
ECON 611	Microeconomic Theory	
ECON 5---	Economics Elective [2]	
ECON 6---	Economics Elective [2]	
Total Credits		13

1. A degree in economics is not required but it is encouraged that applicants should have satisfactorily completed the following before enrolling in graduate courses: [1] Intermediate microeconomics (ECON 306), [2] Intermediate macroeconomics (ECON 311), [3] at least one semester of calculus (MATH 113 or equivalent), and [4] at least one semester of statistics (OM 210 or STAT 250 and STAT 350, or equivalent). Depending on the academic background of the student, s/he may be required to take one or more of these pre-requisite classes, which will be determined in consultation with an advisor. Any pre-requisites taken will not count toward the MA in Economics degree.
2. ECON Electives will be chosen in consultation with advisors.

The following grid is for the first semester of the Bridge, 2-semester pathway into the Master of Arts in Economics degree for students with certain 3-year degrees:

Code	Title	Credits
Bridge semester 1 of 2		
EAP 506	Graduate Communication in the Disciplines I	4
INYO 501	Graduate Transitions for International Students I	2
Upper-level Undergraduate Mason Core Course [1]		3
ECON 630	Mathematical Economics I [2]	3
Total Credits		12

1 Bridge students will take two upper-level undergraduate Mason Core courses instead of or in addition to select Pathway and/or major courses, one in each semester of the pathway. These two courses substitute for a "fourth year" of undergraduate study as is required by American colleges and universities.

2 A degree in economics is not required but it is encouraged that applicants should have satisfactorily completed the following before enrolling in graduate courses: [1] Intermediate microeconomics (ECON 306), [2] Intermediate macroeconomics (ECON 311), [3] at least one semester of calculus (MATH 113 or equivalent), and [4] at least one semester of statistics (OM 210 or STAT 250 and STAT 350, or equivalent). Depending on the academic background of the student, s/he may be required to take one or more of these pre-requisite classes, which will be determined in consultation with an advisor. Any pre-requisites taken will not count toward the MA in Economics degree.

The following grid is for the second semester of the Bridge, 2-semester pathway into the Master of Arts in Economics degree for students with certain 3-year degrees:

Code	Title	Credits
Bridge semester 2 of 2		
EAP 507	Graduate Communication in the Disciplines II	4
INYO 502	Graduate Transitions for International Students II	2
Upper-level Undergraduate Mason Core Course [1]		3
ECON 535	Survey of Applied Econometrics [2]	3
Total Credits		12

1 Bridge students will take two upper-level undergraduate Mason Core courses instead of or in addition to select Pathway and/or major courses, one in each semester of the pathway. These two courses substitute for a "fourth year" of undergraduate study as is required by American colleges and universities.

2 A degree in economics is not required but it is encouraged that applicants should have satisfactorily completed the following before enrolling in graduate courses: [1] Intermediate microeconomics (ECON 306), [2] Intermediate macroeconomics (ECON 311), [3] at least one semester of calculus (MATH 113 or equivalent), and [4] at least one semester of statistics (OM 210 or STAT 250 and STAT 350, or equivalent). Depending on the academic background of the student, s/he may be required to take one or more of these pre-requisite classes, which will be determined in consultation with an advisor. Any pre-requisites taken will not count toward the MA in Economics degree.

INTO Mason: Policy, Government and International Affairs Graduate Pathways

Requirements

Graduate International Pathways to master's degrees in the Schar School of Policy and Government

INTO Mason provides two Graduate International Pathways for international students to enter various graduate degrees in the Schar School of Policy and Government at George Mason University. The pathways give students the academic foundation, essential language skills, and cultural knowledge to successfully move on to their master's degree programs. For most students, enrolling in a Graduate International Pathway will add one or two additional semesters to their overall master's degree program.

The following are the available Graduate International Pathways at INTO Mason to degrees in the Schar School of Policy and Government at GMU:

- International Commerce and Policy
- Public Policy

The following is the type of pathway available:

- **Two Term pathways (Standard)**: These pathways lead students through their first year of graduate school. Upon completion of all matriculation requirements, students will move on to their degree-seeking program often with several graduate credits completed as determined by the graduate degree program. Both Schar School pathways have two-term options available.

Graduate International Pathways are designed for international students who:

- Need further English language development. Students who require a moderate amount of English language support can enter all available International Pathways to strengthen their language proficiency and ensure their long-term academic success
- Require a fourth year of undergraduate study. Students who hold three-year baccalaureate degrees that are not formally evaluated as equivalent to a four-year U.S. bachelor's degree may enter many Graduate International Pathways. For these students, their pathway acts as a "bridge" enhancing their international educational background with academic coursework to meet the eligibility for admission to a GMU graduate degree program
- Fall short of meeting the minimum GPA or admission test score requirements
- Need to improve study skills for success in their chosen field of study
- Any or all of the above

Administered through INTO Mason in partnership with the academic units across the university, the courses in each Graduate International Pathway are taught by highly qualified Mason instructional faculty members and supported by International Pathways academic advisors.

Students enrolled in any Graduate International Pathway should review the program's student guidebook for specific details related to program requirements and expectations.

INTO Mason: Science Graduate Pathways

Requirements

Graduate International Pathways to master's degrees in the College of Science

INTO Mason provides nine Graduate International Pathways for international students to enter various graduate degrees in the College of Science (COS) at George Mason University. The pathways give students the academic foundation, essential language skills, and cultural knowledge to successfully move on to their master's degree programs. For most students, enrolling in a Graduate International Pathway will add one or two additional semesters to their overall master's degree program.

The following are the available Graduate International Pathways at INTO Mason to degrees in the College of Science at GMU:

- Applied and Engineering Physics
- Bioinformatics and Computational Biology
- Bioinformatics Management
- Computational Science
- Earth Systems Science
- Environmental Science and Policy
- Forensic Science
- Geographic and Cartographic Sciences
- Mathematics

The following are the types of pathways available:

- **One Term pathways (Accelerated)**: These pathways lead students through their first semester of graduate school. Upon completion of all matriculation requirements, students will move on to their degree-seeking program often with several graduate credits completed as determined by the graduate degree program. Eight of the nine COS pathways have one-term options available.
- **Two Term pathways (Standard)**: These pathways lead students through their first semester of graduate school. Upon completion of all matriculation requirements, students will move on to their degree-seeking program often with several graduate credits completed as determined by the graduate degree program. All nine COS pathways have two-term options available.

Graduate International Pathways are designed for international students who:

- Need further English language development. Students who require a moderate amount of English language support can enter all available International Pathways to strengthen their language proficiency and ensure their long-term academic success
- Fall short of meeting the minimum GPA or admission test score requirements
- Need to improve study skills for success in their chosen field of study
- Any or all of the above

Administered through INTO Mason in partnership with the academic units across the university, the courses in each Graduate International Pathway are taught by highly qualified Mason instructional faculty members and supported by International Pathways academic advisors.

Students enrolled in any Graduate International Pathway should review the program's student guidebook for specific details related to program requirements and expectations.

INTO Mason: Visual and Performing Arts Graduate Pathways

Requirements

Graduate International Pathways to master's degrees in the College of Visual and Performing Arts

INTO Mason provides four Graduate International Pathways for international students to enter various graduate degrees in the College of Visual and Performing Arts (CVPA) at George Mason University. The pathways give students the academic foundation, essential language skills, and cultural knowledge to successfully move on to their master's degree programs. For most students, enrolling in a Graduate International Pathway will add one or two additional semesters to their overall master's degree program.

The following are the available Graduate International Pathways at INTO Mason to degrees in the College of Visual and Performing Arts at GMU:

- Arts Management
- Music

The following are the types of pathways available:

- **One Term pathways (Accelerated)**: These pathways lead students through their first semester of graduate school. Upon completion of all matriculation requirements, students will move on to their degree-seeking program often with several graduate credits completed as determined by the graduate degree program. The Music pathway has the one-term option available.
- **Two Term pathways (Standard)**: These pathways lead students through their first year of graduate school. Upon completion of all matriculation requirements, students will move on to their degree-seeking program often with several graduate credits completed as determined by the graduate degree program. Both CVPA pathways have two-term options available.
- **Bridge pathways**: These pathways provide foundational coursework designed to substitute for an additional year of undergraduate academic coursework, to render students with three-year baccalaureate degrees eligible to move on to their graduate degree program. Students will often move on to those degree-seeking programs with several graduate credits completed as determined by the graduate degree program. The Arts Management pathway only has the Bridge option available.

Graduate International Pathways are designed for international students who:

- Need further English language development. Students who require a moderate amount of English language support can enter all available

International Pathways to strengthen their language proficiency and ensure their long-term academic success

- Require a fourth year of undergraduate study. Students who hold three-year baccalaureate degrees that are not formally evaluated as equivalent to a four-year U.S. bachelor's degree may enter many Graduate International Pathways. For these students, their pathway acts as a "bridge" enhancing their international educational background with academic coursework to meet the eligibility for admission to a GMU graduate degree program
- Fall short of meeting the minimum GPA or admission test score requirements
- Need to improve study skills for success in their chosen field of study
- Any or all of the above

Administered through INTO Mason in partnership with the academic units across the university, the courses in each Graduate International Pathway are taught by highly qualified Mason instructional faculty members and supported by International Pathways academic advisors.

Students enrolled in any Graduate International Pathway should review the program's student guidebook for specific details related to program requirements and expectations.

Program Requirements

The following Graduate International Pathways are offered by INTO Mason in collaboration with George Mason University's College of Visual and Performing Arts:

Computer Game Design Graduate Pathway

The following grid is for the first semester of the standard, 2-semester pathway into the Master of Arts in Computer Game Design degree:

Code	Title	Credits
Standard semester 1 of 2		
EAP 506	Graduate Communication in the Disciplines I	4
INYO 501	Graduate Transitions for International Students I	2
Language Support Course [1]		0-2
One of the following GAME courses will likely be taken: [2,3]		3
GAME 610	Game Production	
GAME Course		
GAME 605	Game Design Graduate Seminar	1
Total Credits		10-12

1. Students will be assigned a language support course on the basis of English language placement results upon arrival.
2. There is no preferred degree for this pathway but evidence of computer programming knowledge in Python, Java, C, C#, or C++ (a minimum of 3 credits' worth) is preferred. If an applicant does not have this, they can take a computer programming course during their pathway.
3. A portfolio is required for admittance to this pathway displaying the applicant's skills in computer game design. Depending on the review of the portfolio by the Computer Game Design program, additional pre-requisite classes in Computer Game Design may be required.

The following grid is for the second semester of the standard, 2-semester pathway into the Master of Arts in Computer Game Design degree:

Code	Title	Credits
Standard semester 2 of 2		
EAP 507	Graduate Communication in the Disciplines II	4
INYO 502	Graduate Transitions for International Students II	2
Language Support Course [1]		0
Two of the following GAME Courses will likely be taken: [2,3]		6
GAME 610	Game Production	
GAME Class(es)		
GAME 605	Game Design Graduate Seminar	1
Total Credits		13

1. Continuing students may be required to take an additional language support course.
2. There is no preferred degree for this pathway but evidence of computer programming knowledge in Python, Java, C, C#, or C++ (a minimum of 3 credits' worth) is preferred. If an applicant does not have this, they can take a computer programming course during their pathway.
3. A portfolio is required for admittance to this pathway displaying the applicant's skills in computer game design. Depending on the review of the portfolio by the Computer Game Design program, additional pre-requisite classes in Computer Game Design may be required.

The following grid is for the single semester of the accelerated, 1-semester pathway into the Master of Arts in Computer Game Design degree:

Code	Title	Credits
Accelerated semester 1 of 1		
EAP 508	Graduate Communication in the Disciplines III	4
INYO 504	Accelerated Graduate Transitions for International Students	3
Two of the following GAME Courses will likely be taken: [2,3]		6
GAME 610	Game Production	
GAME Course(es)		
GAME 605	Game Design Graduate Seminar	1
Language Support Course [1]		0
Total Credits		14

1. Students will be assigned a language support course on the basis of English language placement results upon arrival.
2. There is no preferred degree for this pathway but evidence of computer programming knowledge in Python, Java, C, C#, or C++ (a minimum of 3 credits' worth) is preferred. If an applicant does not have this, they can take a computer programming course during their pathway.
3. A portfolio is required for admittance to this pathway displaying the applicant's skills in computer game design. Depending on the review of the portfolio by the Computer Game Design program, additional pre-requisite classes in Computer Game Design may be required.

The following grid is for the first semester of the Bridge, 2-semester pathway into the Master of Arts in Computer Game Design degree for students with certain 3-year degrees:

Code	Title	Credits
Bridge semester 1 of 2		
EAP 506	Graduate Communication in the Disciplines I	4
INYO 501	Graduate Transitions for International Students I	2
Upper-level Undergraduate Mason Core Course [1]		3
One GAME Course will likely be taken: [2,3]		3
GAME 610	Game Production	
GAME Course		
GAME 605	Game Design Graduate Seminar	1
Total Credits		13

1. Bridge students will take two upper-level undergraduate Mason Core courses instead of or in addition to select Pathway and/or major courses, one in each semester of the pathway. These two courses substitute for a "fourth year" of undergraduate study as is required by American colleges and universities.
2. There is no preferred degree for this pathway but evidence of computer programming knowledge in Python, Java, C, C#, or C++ (a minimum of 3 credits' worth) is preferred. If an applicant does not have this, they can take a computer programming course during their pathway.
3. A portfolio is required for admittance to this pathway displaying the applicant's skills in computer game design. Depending on the review of the portfolio by the Computer Game Design program, additional pre-requisite classes in Computer Game Design may be required.

The following grid is for the second semester of the Bridge, 2-semester pathway into the Master of Arts in Computer Game Design degree for students with certain 3-year degrees:

Code	Title	Credits
Bridge semester 2 of 2		
EAP 507	Graduate Communication in the Disciplines II	4
INYO 502	Graduate Transitions for International Students II	2
Upper-level Undergraduate Mason Core Course [1]		3
One of the following GAME Courses will likely be taken: [2,3]		3
GAME 610	Game Production	
GAME Course		
GAME 605	Game Design Graduate Seminar	1
Total Credits		13

1. Bridge students will take two upper-level undergraduate Mason Core courses instead of or in addition to select Pathway and/or major courses, one in each semester of the pathway. These two courses substitute for a "fourth year" of undergraduate study as is required by American colleges and universities.
2. There is no preferred degree for this pathway but evidence of computer programming knowledge in Python, Java, C, C#, or C++ (a minimum of 3 credits' worth) is preferred. If an applicant does not have this, they can take a computer programming course during their pathway.
3. A portfolio is required for admittance to this pathway displaying the applicant's skills in computer game design. Depending on the review of the portfolio by the Computer Game Design program, additional pre-requisite classes in Computer Game Design may be required.

MASON CORE

Bethany Usher, Associate Provost for Undergraduate Education

Office of the Provost

Phone: 703-993-3794
Website: masoncore.gmu.edu

Overview

The Mason Graduate is an Engaged Citizen and Well-Rounded Scholar who is Prepared to Act.

The Mason Core is Mason's general education program that builds the foundation for The Mason Graduate. All undergraduates seeking a baccalaureate degree must complete Mason Core requirements. The Mason Core provides a breadth of liberal education courses, complementing the depth of knowledge and skills they build in their majors and minors. Additional requirements for specific degree programs can be found in the college or school sections of this catalog.

The Mason Core prepares students for work in their majors and minors, for their careers, and for life-long learning. Foundation courses build key knowledge and skills needed for academic success. Exploration courses provide a breadth of learning across the university. Integration courses include upper-division courses that are designed to integrate knowledge and skills learned from Foundation and Exploration courses into the major. Courses are designed around learning outcomes that help develop the qualities we expect of all students graduating with a Bachelor's degree from George Mason University.

All undergraduates seeking a baccalaureate degree must complete Mason Core requirements. Additional requirements for specific degree programs can be found in the college or school sections of this catalog.

Note: The course list reflects approved courses as of press time. Please visit the Mason Core website (https://masoncore.gmu.edu/recently-approved-courses-2/) for the most recent list of courses as the list is update throughout the academic year. Students may also find these courses by searching by Mason Core attributes in Patriot Web during registration.

Foundation Requirements (12 credits)

Foundation requirements help ensure that students master the tools and techniques necessary to succeed in college and throughout their lives and careers. These courses emphasize skills—in writing, speaking, and working with numbers and technology—that can be applied to any major field of study and career goal.

Written Communication (3 credits, lower-level)

Learning Outcomes:

Students develop the ability to use written communication as a means of discovering and expressing ideas and meanings: in short, employing writing as a way of thinking. Students begin this process at the Foundation level in English 101 (100 for ESL students) and build higher-level skills at the Integration level in English 302. Writing will be emphasized in many courses throughout a student's career, and at least one course in every student's major is designated "writing intensive" (Integration level).

Required:

The following courses as well as an approved writing-intensive course in the major.

Code	Title	Credits
ENGH 100	Composition for Multilingual Writers (Mason Core)	4
ENGH 101	Composition (Mason Core)	3

Oral Communication (3 credits)

Learning Outcomes:

1. Students will demonstrate understanding of and proficiency in constructing and delivering multiple message types.
2. Students will understand and practice effective elements of ethical verbal and nonverbal communication.
3. Students will develop analytical skills and critical listening skills.
4. Students will understand the influence of culture in communication and will know how to cope with cultural differences when presenting information to an audience. Students develop the ability to use oral communication as a way of thinking and learning, as well as sharing ideas.

Required:

COMM 101 should be taken by all students unless their degree program specifies a different requirement. Students will be expected to continue developing oral communication skills in additional Mason Core courses as appropriate.

Code	Title	Credits
COMM 100	Public Speaking (Mason Core)	3
COMM 101	Fundamentals of Communication (Mason Core)	3
DANC 454	Methods of Teaching Dance (Mason Core)	3
INTS 101	Narratives of Identity (Mason Core)	6
INTS 202	Public Speaking and Critical Thinking Skills (Mason Core)	4

Quantitative Reasoning (3 credits)

Learning Outcomes:

1. Students are able to interpret quantitative information (i.e., formulas, graphs, tables, models, and schematics) and draw inferences from them.
2. Given a quantitative problem, students are able to formulate the problem quantitatively and use appropriate arithmetical, algebraic, and/or statistical methods to solve the problem.
3. Students are able to evaluate logical arguments using quantitative reasoning.
4. Students are able to communicate and present quantitative results effectively.

Required:

One approved course.

Code	Title	Credits
CDS 292	Introduction to Social Network Analysis (Mason Core)	3

EDRS 220	Introduction to Applied Quantitative Analysis (Mason Core)	3
HNRT 125	Applied Quantitative Reasoning (Mason Core)	3
MATH 106	Quantitative Reasoning (Mason Core)	3
MATH 108	Introductory Calculus with Business Applications (Mason Core)	3
MATH 110	Introductory Probability (Mason Core)	3
MATH 111	Linear Mathematical Modeling (Mason Core)	3
MATH 113	Analytic Geometry and Calculus I (Mason Core)	4
MATH 115	Analytic Geometry and Calculus I (Honors) (Mason Core)	4
MATH 124	Calculus with Algebra/Trigonometry, Part B (Mason Core)	3
MATH 125	Discrete Mathematics I (Mason Core)	3
MATH 272	Mathematics for the Elementary School Teachers II (Mason Core)	3
SOCI 313	Statistics for the Behavioral Sciences (Mason Core)	4
STAT 250	Introductory Statistics I (Mason Core)	3

Information Technology and Computing (3 credits)

Learning Outcomes:

Information technology and computing can significantly augment humans' ability to produce, consume, process, and communicate information. Thus, students need to understand ways to use such technology to enhance their lives, careers, and society, while being mindful of challenges such as security, source reliability, automation, and ethical implications. These factors have made it essential for students to understand how to effectively navigate the evolving technological landscape. IT courses offered in the majors may focus on disciplinary applications and concerns of information technology.

IT courses meet the following learning outcomes:

1. Students will understand the principles of information storage, exchange, security, and privacy and be aware of related ethical issues.
2. Students will become critical consumers of digital information; they will be capable of selecting and evaluating appropriate, relevant, and trustworthy sources of information.
3. Students can use appropriate information and computing technologies to organize and analyze information and use it to guide decision-making.
4. Students will be able to choose and apply appropriate algorithmic methods to solve a problem.

Required:

One approved 3-credit course that meets all IT requirements or an approved sequence of courses that meet all IT requirements.

Courses meeting IT requirements

Code	Title	Credits
ANTH 395	Work, Technology, and Society: An IT Perspective	3
AVT 110	Digital Design Studio	3
AVT 180	New Media in the Creative Arts	3
CDS 130	Computing for Scientists	3
CS 100	Principles of Computing	3
CS 112	Introduction to Computer Programming	4
CYSE 130	Introduction to Computing for Digital Systems Engineering	3
ELED 257	Integrating Technology in PreK-6	3
GOVT 300	Research Methods and Analysis	4
HIST 390	The Digital Past	3
INTS 203	Inquiry for Action: Facilitating Change (Mason Core)	6
INTS 249	Digital Literacy	4
IT 104	Introduction to Computing	3
MIS 303	Introduction to Business Information Systems	3
MUSI 259	Music in Computer Technology	3
PHYS 251	Introduction to Computer Techniques in Physics	3
SOCI 410	Social Surveys and Attitude and Opinion Measurements	3
SYST 130	Introduction to Computing for Digital Systems Engineering	3
The following must be taken in sequence:		
PSYC 300	Statistics in Psychology	4
PSYC 301	Research Methods in Psychology	4
PSYC 372	Biopsychology	3

Exploration Requirements (22 credits)

Exploration requirements help ensure that students become acquainted with the broad range of intellectual domains that contribute to a liberal education. By experiencing subject matter and ways of knowing in a variety of fields, students will be better able to synthesize new knowledge, respond to fresh challenges, and meet the demands of a complex world.

The course list reflects approved courses as of press time. See the most current list (https://masoncore.gmu.edu/recently-approved-courses-2/) for updates.

Note: Beginning Fall 2014, certain courses within the Mason Core can count for more than one category, if approved by the Mason Core committee. Students will be allowed to double count two courses (up to six credit hours) to fulfill their Mason Core requirements. Courses that qualify for double counting will be listed in their individually approved sections. Students may not double count credits in Oral Communication, Written Communication, or Quantitative Reasoning categories.

Arts (3 credits)

Mason courses in the film making, visual and performing arts stress generative, inquiry based learning through direct aesthetic and creative experience in the studio environment. Art history courses address the intrinsic relationship of personal and cultural creativity, and the manifestation of aesthetics, visual culture and visual narrative within historical contexts.

Learning Outcomes:

Students who successfully complete a course in the Arts category must meet the first learning outcome and a minimum of two of the remaining four learning outcomes:

1. Demonstrate an understanding of the relationship between artistic process, and a work's underlying concept, and where appropriate, contexts associated with the work.
2. Identify and analyze the formal elements of a particular art form using vocabulary and critique appropriate to that form.
3. Analyze cultural productions using standards appropriate to the form, as well as the works cultural significance and context.
4. Analyze and interpret the content of material or performance culture through its social, historical, and personal contexts.
5. Engage in generative artistic processes, including conception, creation, and ongoing critical analysis.

Required:
One approved course.

Code	Title	Credits
ARTH 101	Introduction to the Visual Arts (Mason Core)	3

Global Understanding (3 credits)

Learning Outcomes:

The goal of the global understanding category is to help students see the world from multiple perspectives, reflect upon their positions in a global society, and be prepared for future engagement as global citizens. While it may include a historical perspective, global understanding courses focus primarily on a contemporary understanding of one's place in a global society.

Courses in this category must meet a minimum of three of the following learning outcomes:

1. Identify and articulate one's own values and how those values influence their interactions and relationships with others, both locally and globally.

2. Demonstrate understanding of how the patterns and processes of globalization make visible the interconnections and differences among and within contemporary global societies.

3. Demonstrate the development of intercultural competencies.

4. Explore individual and collective responsibilities within a global society through analytical, practical, or creative responses to problems or issues, using resources appropriate to the field.

Note: A student may also meet the Global Understanding requirement through a full-semester study abroad or 12-15 credit hour program; shorter-term study abroad courses must include and meet the learning outcomes listed below and be evaluated prior to departure.

Required:

One approved course.

Literature (3 credits)

Learning Outcomes:

1. Students will be able to read for comprehension, detail, and nuance.
2. Identify the specific literary qualities of language as employed in the texts they read.
3. Analyze the ways specific literary devices contribute to the meaning of a text.
4. Identify and evaluate the contribution of the social, political, historical, and cultural contexts in which a literary text is produced.
5. Evaluate a critical argument in others' writing as well as one's own.

Required:

One approved course.

Natural Science (7 credits total)

The Mason Core natural sciences courses engage students in scientific exploration; foster their curiosity; enhance their enthusiasm for science; and enable them to apply scientific knowledge and reasoning to personal, professional and public decision-making. Lab courses must meet all five learning outcomes. Non-lab courses must meet learning outcomes 1 through 4.

Learning Outcomes:

1. Understand how scientific inquiry is based on investigation of evidence from the natural world, and that scientific knowledge and understanding: a) evolves based on new evidence, and b) differs from personal and cultural beliefs.
2. Recognize the scope and limits of science.
3. Recognize and articulate the relationship between the natural sciences and society and the application of science to societal challenges (e.g., health, conservation, sustainability, energy, natural disasters, etc.).
4. Evaluate scientific information (e.g., distinguish primary and secondary sources, assess credibility and validity of information).
5. Participate in scientific inquiry and communicate the elements of the process, including: a) making careful and systematic observations, b) developing and testing a hypothesis, c) analyzing evidence, and d) Interpreting results.

Required:

Two approved science courses. At least one course will include laboratory experience.

Note: PHYS 170/270 when accompanied by PHYS 161/261 can be used to fulfill a 4-credit lab science requirement.

Social and Behavioral Sciences (3 credits)

Learning Outcomes:

The following three learning outcomes are required goals of disciplinary or interdisciplinary courses:

1. Explain how individuals, groups or institutions are influenced by contextual factors;
2. Demonstrate awareness of changes in social and cultural constructs;
3. Use appropriate methods and resources to apply social and behavioral science concepts, terminology, principles and theories in the analysis of significant human issues, past or present.

Required:

One approved course.

Western Civilization/World History (3 credits)

Learning Outcomes:

Courses must meet at least three of the five learning outcomes.

1. Demonstrate familiarity with the major chronology of Western civilization or world history.
2. Demonstrate the ability to narrate and explain long-term changes and continuities in Western civilization or world history.
3. Identify, evaluate, and appropriately cite online and print resources.
4. Develop multiple historical literacies by analyzing primary sources of various kinds (texts, images, music) and using these sources as evidence to support interpretation of historical events.
5. Communicate effectively— through speech, writing, and use of digital media—their understanding of patterns, process, and themes in the history of Western civilization or the world.

Required:

One approved course.

Code	Title	Credits
HIST 100	History of Western Civilization (Mason Core)	3
HIST 125	Introduction to World History (Mason Core)	3
INTS 102	Global Networks and Communities (Mason Core)	6

Transfer students may substitute one of the following for HIST 100 History of Western Civilization (Mason Core)

Code	Title	Credits
HIST 101	Foundations of Western Civilization	3
HIST 102	Development of Western Civilization	3
HIST 301	Classical Greece	3
HIST 302	Classical Rome	3
HIST 304	Western Europe in the Middle Ages	3
HIST 305	The Renaissance	3
HIST 306	The Reformation	3
HIST 308	Nineteenth-Century Europe	3

HIST 312	Nationalism in Eastern Europe	3
HIST 314	History of Germany	3
HIST 322	Modern Britain	3
HIST 388	Topics in European History	3
HIST 436	European Society and Culture: 19th and 20th Centuries	3

Transfer students may substitute one of the following for HIST 125 Introduction to World History (Mason Core)

Code	Title	Credits
HIST 202	Freshman/Sophomore Seminar in Global History	3
HIST 387	Topics in Global History (Mason Core)	3-6

Integration Requirements (9 credits)

Written Communication (3 credits, upper-level)

Learning Outcomes:

Students develop the ability to use written communication as a means of discovering and expressing ideas and meanings: in short, employing writing as a way of thinking. Students begin this process at the Foundation level in ENGH 101 Composition (Mason Core) (ENGH 100 Composition for Multilingual Writers (Mason Core) for ESL students) and build higher-level skills at the Integration level in ENGH 302 Advanced Composition (Mason Core). Writing will be emphasized in many courses throughout a student's career, and at least one course in every student's major is designated "writing intensive" (Integration level).

Required:

The following course as well as an approved writing-intensive course in the major.

Code	Title	Credits
ENGH 302	Advanced Composition (Mason Core)	3

Writing-Intensive Course Requirement (usually 3 credits)

As part of the university's commitment to student writers in all undergraduate programs, at least one upper-division course in each major has been designated as fulfilling the "writing intensive" (WI) requirement.

The following courses have been approved to meet the writing-intensive requirement.

NOTE: students MUST select the course approved for their major. See specific degree program for details.

Code	Title	Credits
ACCT 461	Assurance and Audit Services	3
ACCT 493	Financial Planning and Wealth Management Capstone	3

Synthesis or Capstone Experience Requirement (minimum 3 credits)

The purpose of the synthesis course is to provide students with the opportunity to synthesize the knowledge, skills and values gained from the Mason Core curriculum. Synthesis courses strive to expand students' ability to master new content, think critically, and develop life-long learning skills across the disciplines. While it is not feasible to design courses that cover "all" areas of general education, synthesis courses should function as a careful alignment of disciplinary goals with a range of Mason Core learning outcomes.

Learning Outcomes for Synthesis:

The Mason Core synthesis course must address outcomes 1 and 2, and at least one outcome under 3. Upon completing a synthesis course, students will be able to:

1. Communicate effectively in both oral and written forms, applying appropriate rhetorical standards (e.g., audience adaptation, language, argument, organization, evidence, etc.)
2. Using perspectives from two or more disciplines, connect issues in a given field to wider intellectual, community or societal concerns
3. Apply critical thinking skills to:
   a. Evaluate the quality, credibility and limitations of an argument or a solution using appropriate evidence or resources, OR,
   b. Judge the quality or value of an idea, work, or principle based on appropriate analytics and standards

Required: One approved course.

Note: The course list reflects approved courses as of press time. See the most current list (https://masoncore.gmu.edu/recently-approved-courses-2/) for updates.

THR 496	Text in Production (Mason Core)	3

The purpose of the capstone course or sequence of courses is to provide a high impact, culminating element of an undergraduate education, helping students develop a more comprehensive and integrative understanding of their area of study and to utilize critical thinking skills. Capstone courses provide students opportunities to apply and demonstrate their knowledge and generally involve integrative /applied/ experiential projects. Student learning in a Capstone course is assessed using a set of identified learning outcomes, and for critical thinking, as defined by the American Association of Colleges & Universities.
While each academic degree program defines its learning outcomes, a Capstone course or sequence should follow these guidelines:

- Minimum of 3 credits
- Later in the curriculum, after a student has taken at least 85 credits, and at the 400 course level
- No more than 35 students in the course or equivalent instructional/ mentored support
- Emphasis on experiential/applied/integrative learning
- Allow students to apply critical thinking skills
- Learning outcomes defined by the degree program

Required: One approved upper-division course. Please speak with an advisor to determine the appropriate course to fulfill your major's requirement.

- Anthony Hoefer, Assistant Dean

The Honors College

The Honors College focuses attention on the excellence of Mason's student body and highlights the full spectrum of opportunities for academic achievement, professional development, and public service that Mason offers our most highly-motivated undergraduates. The Honors College provides talented students in all majors an enriched academic and social environment that enhances their college experience. Participation in challenging and innovative programs encourages student leadership and active engagement in local, national, and global communities.

Through the resources of the Honors College, the university provides students the support to excel academically and to pursue life-long goals. Included in these resources is the Honors College curriculum, which offers challenging courses that fulfill general education requirements. Senior faculty, including Mason's Robinson Professors, teach small classes of students taking the curriculum. A select group of entering students is invited to become part of the University Scholars, a community of learners and leaders who receive Mason's most competitive merit-based scholarships. All Honors College students have access to the Office of Fellowships, which provides advice and information to high-achieving Mason undergraduates and recent alumni about the application process for nationally competitive fellowships.

The benefits of being part of the Honors College include participating in a diverse living-learning community. Community programs include special lectures, events, and excursions on and off campus, as well as opportunities to take advantage of internships and cultural programs in Washington, D.C.

All students in the Honors College receive individualized academic advising, priority registration, and opportunities for close interaction with faculty for one-on-one mentoring and graduate and professional advising.

Faculty

Honors students have the opportunity to study with some of Mason's most accomplished teachers and scholars from disciplines across the university, including Mason's Robinson Professors.

Admissions & Policies

Admissions

Admission to the Honors College is based on a holistic review of each student's academic performance as well as any other information included in the general application, such as rigor of coursework, standardized test scores, class rank, essay response, teacher recommendations, outstanding leadership, and commitment to community service. Space is limited in each class, and admissions criteria may vary according to the applicant pool in any given year.

Admission to the Honors College requires an application and is open to both incoming first-year and transfer students.

Policies

Continuation in Honors

A student whose GPA falls below 2.00 (1.80 in the first or second semester) will be placed on academic warning and may be ineligible to continue in the Honors College. Students are required to take and pass with a grade of "C" or higher either HNRS 110 Principles of Research and Inquiry or HNRS 302 Principles of Research and Inquiry for Transfer Students in their first semester in the Honors College to maintain their Honors College status.

Honors students are expected to maintain high standards of academic integrity and personal conduct. Students may be asked to withdraw from the program for a violation of the University Honor Code or any other conduct that reflects adversely on the Honors College.

Students who leave the Honors College before completion of the curriculum must meet Mason Core requirements and college-level requirements for their particular degree programs. On leaving the college and before registering for Mason Core courses, students should be advised on equivalencies between the honors courses they have completed and Mason Core requirements.

Transfer of Honors Credits

Because of the sequential and integrated nature of the program, honors courses may not correspond exactly to courses used to fulfill Mason Core requirements. A list of equivalencies is available in the Honors College office.

Requirements

Honors Curriculum

Starting in their first semesters on campus, Honors College students are challenged to identify, articulate, and evaluate multiple perspectives on questions of cultural, scientific, or global significance and to consider evidence that broadens their understanding and challenges their beliefs.

The Honors College inquiry-driven curriculum provides exceptionally motivated students with an alternative to the Mason Core. The Honors College curriculum allows students increased opportunities to pursue minors and other individual interests such as extended research. Students may also take honors sections of selected major courses as well as upper division courses offered by the Honors College. Beyond the Honors College requirements, students must satisfy all requirements of their college and major and Mason undergraduate program requirements for admissions, residency, credit hours, quality, and upper level credits.

Students who complete their Honors College curriculum with a GPA of 3.00 or higher and with no more than one C- or D in HNRS courses will receive a designation of *Honors College Requirements Completed* on their transcripts. Students whose GPA falls below 3.00 or who have a C- or D in multiple HNRS courses may complete the honors curriculum to satisfy

Mason Core requirements but will not receive honors recognition on their transcripts.

Students must take a minimum of 12 credits of HNRS courses from the Honors College at Mason. Students must also complete the *Foundations*; *Inquiry in the Arts, Humanities, & Social Sciences*; *Civic Engagement*; *Multi-Disciplinary Challenges* requirements.

Foundations

Introduction to Inquiry and Research: Honors students are introduced to methods for formulating, articulating, pursuing, and communicating research questions and the subsequent findings. **Students must take one of the following during their first semester as an Honors College student**:

Code	Title	Credits
HNRS 110	Principles of Research and Inquiry	4
or		
HNRS 302	Principles of Research and Inquiry for Transfer Students	3

Inquiry in the Arts, Humanities, & Social Sciences

Students will pursue answers to focused questions in the arts, humanities, and social sciences. Specific topics will vary by semester and section. (12 credits)

Code	Title	Credits
HNRS 122	Reading the Arts (Topic Varies)	
HNRS 130	Identity, Community, and Difference (Topics Vary)	
HNRS 131	Contemporary Social Issues (Topic Varies)	
HNRS 240	Reading the Past (Topic Varies)	

Civic Engagement

Students will explore their roles and responsibilities in society and/or identify and address issues of public or community concern. Specific topics will vary by semester and section (3 credits).

Code	Title	Credits
HNRS 260	Society and Community Engagement Topics (Topics Vary)	3
or		
HNRS 261	Community Connection Practicum (Topics Vary)	3

Multi-Disciplinary Challenges

Students will address complex challenges through scholarly research (HNRS 360) or experiential learning (HNRS 361). Specific topics will vary by semester and section. (3 credits)

Code	Title	Credits
HNRS 360	Multi-Disciplinary Topics (Topic Varies)	3
or		
HNRS 361	Multi-Disciplinary Practicum (Topic Varies)	3

Honors College Electives

Students are encouraged to explore fields in more depth through approved departmental honors courses.

Code	Title	Credits

CS 390	Research and Project Design Principles in Computing	
ECON 103	Contemporary Microeconomic Principles (Mason Core) (Honors section only)	
ENGR 107	Introduction to Engineering (Mason Core) (Honors section only)	
HHS 492	RS: Internship in Clinical Research	
MATH 116	Analytic Geometry and Calculus II (Honors)	
MATH 215	Analytic Geometry and Calculus III (Honors)	
MATH 216	Theory of Differential Equations	
PHYS 160	University Physics I (Mason Core) (Honors section only)	
PHYS 260	University Physics II (Mason Core) (Honors section only)	
STAT 250	Introductory Statistics I (Mason Core) (Honors section only)	
STAT 350	Introductory Statistics II (Honors section only)	
UNIV 495	RS: Undergraduate Research Scholars Program Seminar	

Additional Requirements

- **Quantitative Reasoning**: Honors students must take at least one approved Quantitative Reasoning course. The Honors College quantitative reasoning requirement mirrors the mathematics or quantitative reasoning requirement of the student's college and

major. Students whose college and major do not have a quantitative reasoning or mathematics requirement must take one of the following courses:

Code	Title	Credits
CDS 292	Introduction to Social Network Analysis (Mason Core)	3
HNRT 125	Applied Quantitative Reasoning (Mason Core)	3
HNRT 225	Applied Calculus	3
MATH 108	Introductory Calculus with Business Applications (Mason Core)	3
MATH 110	Introductory Probability (Mason Core)	3
MATH 111	Linear Mathematical Modeling (Mason Core)	3
MATH 113	Analytic Geometry and Calculus I (Mason Core)	4
MATH 115	Analytic Geometry and Calculus I (Honors) (Mason Core)	4
MATH 124	Calculus with Algebra/Trigonometry, Part B (Mason Core)	3
MATH 125	Discrete Mathematics I (Mason Core)	3
SOCI 313	Statistics for the Behavioral Sciences (Mason Core)	4
STAT 250	Introductory Statistics I (Mason Core)	3

- **Science**: The Honors College science requirement mirrors the science requirement of a student's college and major.
- **Foreign Language:** Students pursuing BA degrees may have a foreign language requirement.
- Beyond the Honors College requirements, students must satisfy all requirements of their college and major and Mason undergraduate program requirements for admissions, residency, credit hours, quality, and upper-level credits.

About Us

- Located in Arlington just a few miles from downtown Washington D.C.
- Provides top-ranked programs in law, including the fourth best part-time JD program in the country.
- Established 1972 as the International School of Law in Washington, D.C.; merged with George Mason University in 1979 to become George Mason University School of Law
- In July 2016, the school was renamed the Antonin Scalia Law School.
- Occupies the 150,000 square-foot Hazel Hall, opened in 1999.
- Accredited by the American Bar Association (https://www.americanbar.org/) (ABA)
- Member of the Association of American Law Schools (https://www.aals.org/contact/) (AALS)
- Host to research programs and centers:
  - Law and Economics Center (http://www.masonlec.org/)
  - Center for the Protection of Intellectual Property (https://cpip.gmu.edu/)
  - Global Antitrust Institute (https://gai.gmu.edu/)
  - C. Boyden Gray Center for the Study of the Administrative State (https://administrativestate.gmu.edu/)
  - National Security Institute (https://nationalsecurity.gmu.edu/)
  - Liberty & Law Center (https://libertycenter.gmu.edu/)

- Ivory Berry, Assistant Dean for Student Success

College Code: E1

The College of Education and Human Development (CEHD) is committed to excellence, innovation, and collaboration in research and the preparation of professionals for the highest levels of practice and service in diverse schools, organizations, and communities.

CEHD provides leadership in transforming schools, organizations, and communities through research, teaching, and collaboration. CEHD faculty members prepare scholars and practitioners through multidisciplinary programs of study that facilitate the understanding, integration, and application of knowledge. Through research activities, faculty and students expand and refine the knowledge base for teaching and learning. In response to the richness and complexity of a pluralistic society, CEHD infuses diversity into academic programs and research. The faculty develops and supports knowledgeable, caring, and reflective professionals who facilitate excellence and equity for all learners. CEHD students and faculty demonstrate their growth and development in ways meaningful to their communication and professional organizations. Innovative programs and the integration of technology provide opportunities for students to develop, examine, evaluate, and practice professional knowledge, skills, and dispositions.

Undergraduate Degrees, Minors, and Certificates

CEHD offers undergraduate degrees, minors, and certificates. The School of Sport, Recreation and Tourism Management within the College of Education and Human Development collaborates with the College of Humanities and Social Sciences, the School of Business, the College of Science, the Volgenau School of Engineering, the College of Visual and Performing Arts, and the Jimmy and Rosalynn Carter School for Peace and Conflict Resolution to offer minors in interdisciplinary areas of study. Students may elect to take a minor in addition to their major field of study. For policies governing all minors, see AP.5.3.4 Minors.

In addition, School of Education collaborates with the College of Science (Departments of Atmospheric, Oceanic, and Earth Sciences; Biology; Chemistry and Biochemistry; Mathematical Sciences; and Physics and Astronomy), the College of Humanities and Social Sciences (Department of English) and the Volgenau School of Engineering (Department of Computer Science) to offer undergraduate secondary education certificates and the College of Visual and Performing Arts (Schools of Music and Theater) to provide programs in music and theater education that can lead to VA teaching licensure. CEHD also collaborates with School of Integrative Studies to support three interdisciplinary degree concentrations which prepare students for graduate study in education.

Graduate Degrees and Certificates

CEHD offers one doctoral degree, as well as master's degrees and graduate certificates.

Requirements & Policies

Policies

In addition to the policies stated in Academic Policies, the following policies and procedures apply to all students in the college.

Communication Policy

All correspondence from the program, school, college, and university administration is sent to the student's official Mason e-mail account. Students must use their Mason e-mail account to communicate with their programs and other administrative units.

CEHD Academic Policies

Students are ultimately responsible for their academic progress towards their degrees and/or certificates. They are strongly advised to consult Academic Policies for information concerning university-wide requirements for degree and non-degree students in addition to those for this college. Students with questions regarding academic policies and college-level requirements should contact the CEHD Student and Academic Affairs Office (Thompson Hall, Suite 2200; 703-993-2080; cehdsaa@gmu.edu). Additional policy information and forms are available online. (http://cehd.gmu.edu/saa/)

CEHD Grading Policy

All CEHD undergraduate and graduate students are held to the university grading policies as described in AP.3 Grading. Those students enrolled in a CEHD licensure program have higher minimum grade requirements which are detailed in each specific program's page.

Grade Appeals

For courses taken within the College of Education and Human Development, students may appeal grades that they believe were assigned unjustly or were based on unclear criteria in accordance with Academic Policies. Students who would like to contest a course grade should first contact their instructor for clarification. If a mutually satisfactory resolution is not reached, the student may submit a formal grade appeal to the CEHD Office of Student and Academic Affairs (SAA) for program-level and/or college review. For more information regarding the grade appeal process, please refer to the SAA website (http://catalog.gmu.edu//cehd.gmu.edu/students/policies-procedures/).

Study Elsewhere

Once enrolled in degree status at Mason, undergraduate students with fewer than 60 hours of transfer coursework (not including registration through the Consortium of Universities of the Washington Metropolitan Area or coursework completed through the Global Education Office) may take up to twelve credits of coursework in CEHD disciplines at another institution. Students with 60 or more hours of transfer coursework are not permitted to take additional coursework in CEHD disciplines at another institution. A student may seek permission for additional hours beyond these limits for summer registration if his/her permanent residence is more than fifty miles from the Fairfax campus. Students who enroll elsewhere without advance written permission will not receive transfer credit for the coursework taken at another institution unless they re-apply for admission to Mason as transfer applicants and meet all priority deadlines. Re-admission is not guaranteed and transfer credit is awarded based upon course equivalencies in effect at the time of re-admission. Courses previously attempted at Mason (including withdrawals) cannot be taken elsewhere.

Professional Teacher Licensure

CEHD is responsible for professional courses, special standards, and licensure recommendations for students completing state-approved (Virginia) licensure programs that prepare teachers, administrators, counselors, and related-instructional personnel.

Initial teacher licensure is available at the undergraduate level in elementary education, early childhood education for diverse learners, special education, and secondary education: biology, chemistry, computer science, earth science, English, health and physical education, mathematics, music, and physics. Initial teacher licensure is available at

the graduate level in art, early childhood, elementary, English as a second language, foreign language, secondary, and theater arts. The Special Education Program offers initial teacher licensure through graduate certificates that include Adapted Curriculum, General Curriculum, and Visual Impairments.

For more information please contact the CEHD Office of Admissions (Thompson Hall, Suite 1700; 703-993-2892; cehdgrad@gmu.edu). Additional information is available online (http://cehd.gmu.edu/admissions/).

Notes on Background Checks and Licensure

The majority of Mason CEHD programs require multiple field experiences. Our school and agency partners require Mason students to be fingerprinted and pass a criminal background check prior to field experience work. Students must assume the risk that classes may be deferred and their program delayed due to the individual severity of notations on such a check and review by individual agencies.

George Mason University will verify completion of the requirements of a Virginia Department of Education (VDOE) state-approved preparation program at the graduate or undergraduate level. Such verification does not guarantee the issuance of Virginia Collegiate Professional, Postgraduate Professional, or Pupil Personnel license from the Commonwealth of Virginia. It is solely the student's responsibility to comply with all requirements for licensure by the Commonwealth. Under Virginia law, a social security number is required for licensure.

Academic Units

- School of Education
- School of Kinesiology
- School of Sport, Recreation and Tourism Management

School of Education

Phone: 703-993-2892
Email: preteach@gmu.edu
Website: cehd.gmu.edu

Overview

The School of Education (SOED) offers a doctoral degree, several master's and bachelor's degrees, as well as many accelerated master's programs, minors, undergraduate and graduate certificates. Within each degree program students have the option to choose a concentration that best meets their interests or needs. Additionally, students may pursue coursework leading to initial teacher licensure. Students can pursue a Master's degree and one graduate certificate concurrently.

Collaborative Undergraduate Degree Licensure Programs

SOED supports undergraduate students from a variety of disciplines interested in education and teacher licensure. Collaborative undergraduate degree licensure programs are available including undergraduate certificates and the music and theater programs below. For more information, contact us (preteach@gmu.edu) or visit our website (http://cehd.gmu.edu/undergraduate/think-you-want-to-be-a-teacher/).

Concentration in Music Education (PK–12)

The BM in Music with a concentration in Music Education allows students to obtain certification to teach in Virginia public school systems. Students may follow an instrumental or choral/general music emphasis in the curriculum. For details, see School of Music.

Concentration in Theater Education (PK-12)

Upon successful completion of the requirements for a BA in Theater with a concentration in Theater Education for Theater Arts PK-12, students may pursue coursework that will allow them to attain licensure to teach Theater Arts in Virginia public school systems. For details, see School of Theater.

Collaborative Graduate Degree Licensure Programs

Teaching Theatre Licensure (PK-12)

Upon successful completion of the requirements for a Teaching Theatre PK-12 Graduate Certificate, students can obtain licensure to teach Theater in Virginia public school systems. For details, see School of Theater.

Visual Arts Licensure (PK-12)

Upon successful completion of the requirements for an Art Education Graduate Certificate, students can obtain licensure to teach Art in Virginia public school systems. For details, see School of Art.

Accelerated Master's Programs

The Graduate School of Education collaborates with undergraduate programs to offer accelerated Master's programs. For more information, see the website. (http://cehd.gmu.edu/bachelors-accelerated-masters-program/)

Add-On Endorsement in Special Education, General Curriculum Graduate Certificate

Banner Code: E1-CERG-EDGC

Academic Advising

Phone: 703-993-3670
Email: speced@gmu.edu
Website: https://education.gmu.edu/special-education/teacher-licensure/special-education-general-add-on

This certificate is designed for elementary and secondary education teachers. Coursework provides knowledge and skills for working with students with disabilities, and meets Virginia Department of Education (VDOE) requirements for teachers endorsed in elementary education (such as early/primary education preK-3 or elementary education preK-6) or in English, history and social sciences, mathematics, biology, chemistry, Earth science, or physics to add a grade level endorsement in special education: general curriculum.

Admissions & Policies

Policies

The VDOE add-on endorsement is grade-level specific and requires a current VDOE endorsement in elementary education (such as early/primary education preK-3 or elementary education preK-6) or in English, history and social sciences, mathematics, biology, chemistry, Earth science, or physics.

Students who have completed graduate or undergraduate coursework equivalent to certificate coursework prior to admission to this program may request that some courses in this certificate be waived. Students who are eligible to waive coursework must complete a minimum of 12 credits to graduate. Students must earn a B- or better in all coursework.

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-8).

Requirements

Certificate Requirements

Total credits: 16

This certificate may be pursued on a full-or part-time basis.

Coursework

Code	Title	Credits
EDSE 501	Introduction to Special Education	3
EDSE 544	Adapted Instructional Methods and Transition for Secondary Learners [1]	3
or EDSE 627	Assessment	
EDSE 641	Instructional Strategies for Reading and Writing	3
EDSE 643	Instructional Strategies for Math	3
EDSE 662	Consultation and Collaboration	3
EDCI 790	Internship in Education	1
Total Credits		16

[1] Students seeking to add an endorsement to an elementary license must take EDSE 627. All others must take EDSE 544.

American Sign Language Minor

Banner Code: ASL

Academic Advising

Phone: 703-993-3670
Email: speced@gmu.edu
Website: education.gmu.edu/special-education/american-sign-language

Overview

The American Sign Language (ASL) minor will provide students with the skills and knowledge to work with the Deaf community.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 17

Students must successfully complete EDSE 115 American Sign Language (ASL) I or its equivalent prior to enrolling in coursework.

Counseling Graduate Certificate

Banner Code: E1-CERG-CNSL

Academic Advising

Phone: 703-993-2087
Email: counsel@gmu.edu
Website: https://education.gmu.edu/counseling/counseling-licensure-post-masters-graduate-certificate

This 15-credit certificate is designed for individuals who possess a master's degree in counseling from George Mason and seek 15 credits of post-graduate coursework to meet licensure requirements as a Virginia Professional School Counselor or Virginia Licensed Professional Counselor. Applicants should review licensure requirements for becoming a Virginia Licensed Professional Counselor and verify course equivalency with the Virginia Board of Counseling (see Board of Counseling content area list online (http://www.dhp.virginia.gov/counseling/)).

Available Concentrations

Concentration in School Counseling (Post-Master's)

This 15-credit concentration is designed for individuals who possess a master's degree in counseling and seek 15 credits of post-graduate coursework to meet licensure requirements as a Virginia Professional School Counselor.

Concentration in Clinical Mental Health Counseling (Post-Master's)

This 15-credit concentration is designed for individuals who possess a master's degree in counseling and seek 15 credits of post-graduate coursework to meet licensure requirements as a Virginia Licensed Professional Counselor. Applicants should review licensure requirements for becoming a Virginia Licensed Professional Counselor and verify course equivalency with the Virginia Board of Counseling (see Board of Counseling content area list online (http://www.dhp.virginia.gov/counseling/)).

Admissions & Policies

Admissions

- An admissions interview is required, but may be waived for a Mason graduate in good standing.
- Applicants must have an earned Master's in Counseling with a primary focus in Community Agency/Clinical Mental Health Counseling or School Counseling; other applicable areas of counseling considered upon review.

Policies

Individuals interested in pursuing a license in school counseling or as a Licensed Professional Counselor (LPC) should submit a full application. This is a competitive and holistic process in which the faculty will conduct a full transcript review and admissions interview.

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Requirements

Certificate Requirements

Total credits: 15

This certificate may be pursued on a part-time basis only.

Concentration in School Counseling (Post Master's) (SCPM)

Students studying for the MEd in Counseling may also meet Virginia School Counselor licensure requirements through coursework offered under the MEd's School Counseling PK-12 concentration. Students must successfully complete (pass) a minimum of nine counseling and development credits with a grade of B or better prior to enrolling in practicum or internship.

Coursework

Code	Title	Credits
EDCD 606	Counseling Children and Adolescents	3
EDCD 613	Introduction to School Counseling	3

EDCD 626	Principles and Practices of School Counseling	3

This master's program emphasizes the integration of theory and practice and culminates with internships in an appropriate setting. Students may choose one of two concentrations: Clinical Mental Health Counseling or School Counseling.

Admissions & Policies

Policies

Grading

Students enrolled in this degree program must earn a B or higher in counseling courses and in all licensure coursework, including practicum and internship courses. Students are permitted to repeat a course only once.

For policies governing all graduate programs, see AP.6 Graduate Policies.

Requirements

(formerly E1-MED-CNDV)

Degree Requirements

Total credits: 60

Core Coursework

Code	Title	Credits
EDCD 525	Advanced Human Growth and Development	3
EDCD 601	Introduction to Research in Counseling	3
EDCD 602	Foundations in Counseling	3
EDCD 603	Counseling Theories and Practice	3
EDCD 604	Assessment and Appraisal in Counseling	3
EDCD 606	Counseling Children and Adolescents	3
EDCD 608	Group Processes and Analyses	4
EDCD 609	Counseling Skills and Strategies for Adults	3
EDCD 610	Career and Educational Counseling	3
EDCD 619	Trauma and Crisis Counseling	3
EDCD 628	Counseling and Social Justice	3
EDCD 656	Diagnosis and Treatment Planning for Mental Health Professionals	3
EDCD 660	Multicultural Counseling	3
Total Credits		40

Concentration in Clinical Mental Health Counseling (CMH)

Students studying for the MEd in Counseling may also meet Virginia Licensed Professional Counselor licensure requirements through coursework offered under the MEd's Clinical Mental Health Counseling concentration. Students must complete the following Licensed Professional Counselor courses listed below.

Code	Title	Credits
EDCD 652	Introduction to Substance Abuse Counseling	3
EDCD 654	Counseling and Ethics in Community Agencies	3
EDCD 658	Couples and Family Counseling	3
EDCD 750	Practicum in Mental Health Counseling	3
EDCD 792	Internship in Mental Health Counseling I	3
EDCD 793	Internship in Mental Health Counseling II	3
Electives selected from EDCD courses or permission of advisor		2
Total Credits		20

Concentration in School Counseling (SC)

Students studying for the MEd in Counseling may also meet Virginia School Counselor licensure requirements through coursework offered under the MEd's School Counseling concentration. Students must complete the following Virginia Professional School Counselor courses listed below.

Code	Title	Credits
EDCD 611	Introduction to Ethical and Legal Issues in School Counseling	3
EDCD 613	Introduction to School Counseling	3
EDCD 626	Principles and Practices of School Counseling	3
EDCD 751	Practicum in School Counseling	3
EDCD 794	Internship in School Counseling I	3
EDCD 795	Internship in School Counseling II	3
Electives selected from EDCD courses or permission of advisor		2
Total Credits		20

Available Concentration

Concentration in International Baccalaureate (IB) in Teaching and Learning

This 15-credit concentration provides advanced professional development for teachers on the philosophy, elements, and assessments of the Primary Years Programme (PYP), Middle Years Programme (MYP), and Diploma Programme (DP). The coursework focuses on the theory, pedagogy, and research under-girding the International Baccalaureate programs. Upon completion of the coursework, teachers may apply to the IB organization for the IB certificate in teaching and learning.

Admissions & Policies

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Requirements

Certificate Requirements

Total credits: 15

This certificate may be pursued on a full-or part-time basis.

Concentration in International Baccalaureate (IB) in Teaching and Learning (IBTL)

Students must earn a B or higher in all coursework.

Coursework

Code	Title	Credits
EDUC 621	Teaching and Learning in the International Baccalaureate Programme	3
EDUC 622	Curriculum Development across IB Programs	3
EDUC 623	Models and Strategies for Teaching and Learning in IB Schools	3
EDUC 624	Assessment and Learning in IB Schools	3
EDUC 626	Inquiry into Action: IB Teachers, Learners, and Schools	3
Total Credits		15

Notes

Upon completion of this graduate certificate, teachers may apply to the International Baccalaureate (IB) organization for the IB certificate in teaching and learning.

Email: cehdsaa@gmu.edu

This master's degree is offered to students preparing for initial teacher licensure, advanced teacher education, or ancillary educational programs.

Requirements

Degree Requirements

Total credits: 30-39

Concentrations are listed within the subject areas listed below. Each concentration wholly describes the requirements for the degree and the concentration. Students should choose one concentration.

Concentration Areas

- Advanced Studies in Teaching and Learning (ASTL)
- Assistive Technology
- Teaching Culturally & Linguistically Diverse & Exceptional Learners
- Early Childhood and Elementary Education
- Learning Technologies
- Literacy/Reading
- Mathematics Specialist Leader
- Secondary Education (6–12)
- Transformative Teaching

Advanced Studies in Teaching and Learning (ASTL)

The ASTL Concentrations are for practicing teachers and other educators with one or more years of teaching experience who want to continue to grow professionally. The program is comprised of two components: 12 credits in Education Core focused on advanced

pedagogy and professional learning, plus 18-21 credits in an area of specialization, called the Concentration. The successful completion of these two program components comprises the master's degree. All 18 Concentrations provide advanced, graduate-level coursework taught by experienced faculty in that specialization area. The courses, aligned with the National Board for Professional Teaching Standards, help teachers think and practice as board-certified teachers. The program develops teacher-leaders who take an inquiry stance on their educational practice and lead from the classroom and beyond as they contribute to ongoing school improvement and educational change. While developing expertise in a content area and increasing their understanding of culturally and linguistically diverse students and families, teachers reflect critically on issues of equity and social justice and use systematic inquiry to inform decision-making and effect change.

Experienced teachers and other educators with or without a master's degree may apply for the master's degree program. The ASTL program also provides an option for teachers who to earn a Gifted Education Graduate Certificate.

MEd Requirements Common to all ASTL Concentrations

Code	Title	Credits
EDUC 606	Education and Culture	3
EDUC 612	Inquiry into Practice	2
EDUC 613	How Students Learn	3
EDUC 614	Designing and Assessing Teaching and Learning	2
EDUC 615	Educational Change	2
Total Credits		12

Concentration in ASTL: Advanced International Baccalaureate Research (AIB)

This concentration provides advanced professional development for teachers on the philosophy, elements, and assessments of the Primary Years Programme (PYP), Middle Years Programme (MYP), and Diploma Programme (DP). The coursework focuses on the theory, pedagogy, and research undergirding the International Baccalaureate programs. The combination of the ASTL IB Concentration coursework and the ASTL Core coursework result in the International Baccalaureate Advanced Award in Teaching and Learning Research.

Coursework

Code	Title	Credits
EDUC 621	Teaching and Learning in the International Baccalaureate Programme	3
EDUC 622	Curriculum Development across IB Programs	3
EDUC 623	Models and Strategies for Teaching and Learning in IB Schools	3
EDUC 624	Assessment and Learning in IB Schools	3
EDUC 626	Inquiry into Action: IB Teachers, Learners, and Schools	3
EDUC 627	Contemporary Issues and Trends in IB	3
Total Credits		18

Concentration in ASTL: Designing Digital Learning in Schools (ADDL)

This concentration is offered to practicing teachers who wish to gain the necessary knowledge and skills for integrating digital learning and K–12 curricular knowledge outcomes. The concentration is framed by four learning outcomes: investigation of the theory and practice of digital learning, connection of digital learning and knowledge outcomes, use of design principles and processes to inform practice, knowledge of a range of technologies appropriate for PreK-12 learners.

Coursework

Code	Title	Credits
EDIT 780	Principles of School-Based Design	3
EDIT 781	Designing for Information Using	3
EDIT 782	Designing for Literacy	3
EDIT 783	Designing for Problem Solving	3
EDIT 784	Designing for Community Participation	3
EDIT 787	Teacher Leadership and Advocacy for Digital Learning	3
Total Credits		18

Concentration in ASTL: Diversity and Exceptionality in PK-12 Schools (ADEP)

This concentration joins graduate courses in Special Education, Gifted Education, and Second Language Learning. It is designed for general education teachers who seek to enhance their professional knowledge and skills related to students with disabilities, students who demonstrate advanced capabilities in various domains, and English Learners.

Coursework

In consultation with an advisor, choose 6 courses (18 credits) from among the following, with the goal of selecting at least one course from each area.

Code	Title	Credits
Select 6 courses from the following:		18
Students with Disabilities who Access the General Curriculum		
EDAT 524	Universal Design for Learning	
EDSE 501	Introduction to Special Education	
EDSE 502	Classroom Management and Applied Behavior Analysis	
EDSE 503	Language Development and Reading	
EDSE 540	Characteristics of Students with Disabilities who Access the General Curriculum	
EDSE 628	Elementary Reading, Curriculum, Strategies for Students Who Access the General Education Curriculum	
EDSE 629	Secondary Curriculum and Strategies for Students with Disabilities who Access the General Curriculum	
EDSE 662	Consultation and Collaboration	
Gifted		
EDCI 621	Introduction to Gifted and Talented Learners	
EDCI 622	Curriculum and Instructional Strategies for Gifted Learners	
EDCI 624	Advanced Assessment and Evaluation of Gifted Learners	
English for Speakers of Other Languages		

EDCI 630	Supporting English Learners in PK-12 Schools	
Total Credits		18

Concentration in ASTL: Early Childhood Education (AECE)

This concentration provides advanced professional development in preschool through third grade content and includes two required courses and four electives. The concentration focuses on advancing the professional knowledge of practicing teachers who teach and work with diverse young children and their families.

Coursework

Code	Title	Credits
ECED 601	Frameworks for Early Childhood Education	3
ECED 685	Applied and Teacher Research in Early Childhood Education	3
or ECED 691	Policy Perspectives in Early Childhood Education	
Electives		
Select four courses from the following:		12
Any graduate ECED course(s)		
EDCI 630	Supporting English Learners in PK-12 Schools	
EDRD 630	Literacy Foundations and Instruction for Diverse Populations: Birth through Middle Childhood	
Total Credits		18

Concentration in ASTL: Mathematics K-8 (AMTK)

This concentration combines the study of mathematics content appropriate for kindergarten through eighth grade with the study of mathematics education research, curriculum, leadership, and assessment.

Coursework

Code	Title	Credits
MATH 610	Number Systems and Number Theory for K-8 Teachers	3
MATH 611	Geometry and Measurement for K-8 Teachers	3
MATH 612	Probability and Statistics for K-8 Teachers	3
MATH 613	Algebra and Functions for K-8 Teachers	3
MATH 614	Rational Numbers and Proportional Reasoning for K-8 Teachers	3
Electives		
Select one from the following:		3
EDCI 645	Curriculum Development in Mathematics Education	
EDCI 646	Mathematics Education Leadership for School Change	
EDCI 666	Research in Mathematics Teaching	
Total Credits		18

Concentration in ASTL: French (AFRN)

This concentration provides advanced professional development and language study for practicing world language teachers of French. The 18 concentration credits include a combination of modern language courses and targeted electives.

Coursework

Code	Title	Credits
Literature [1]		
Select 6 credits from the following:		6
FREN 515	Topics in Medieval French Literature and Culture	
FREN 516	Topics in Renaissance French Literature and Culture	
FREN 517	Topics in Seventeenth-Century French Literature and Culture	
FREN 518	Topics in Eighteenth-Century French Literature and Culture	
FREN 519	Topics in Nineteenth-Century French Literature and Culture	
FREN 520	Topics in Twentieth and Twenty-First-Century French Literature and Culture	
FREN 550	Special Topics	
FREN 551	Topics in Francophone Sub-Saharan Literature and Culture	
FREN 553	Topics in North African Francophone Literature and Culture	
FREN 554	Topics in Francophone Caribbean Literature and Culture	
FREN 555	Special Topics related to Francophone Literature and Culture	
FREN 557	Topics in Quebec and French-Canadian Literature and Culture	
FREN 567	Special Topics related to French and Francophone Literature and Culture	
Language and Linguistics		
Select 6 credits from the following in consultation with an advisor:		6
FREN 562	Stylistics	
FREN 563	History of the French Language	
FREN 564	Advanced Translation	
FREN 565	Special Topics Related to the French Language	
FREN 570	French and Francophone Cinema	
FREN 575	Grammatical Analysis	
Electives		
Select 6 credits from the courses above or below in consultation with an advisor: [2]		6
FRLN 510	Bibliography and Research in Foreign Languages and Literature	
FRLN 525	Literary Translation	
FRLN 550	Special Topics	
FRLN 565	Theory of Translation	
FRLN 572	Integrating Technology into Language Learning	
FRLN 573	Basic Issues in Language Pedagogy	
FRLN 575	Heritage Language Education	
FRLN 590	Internship and Seminar in Translation	
FRLN 620	Literary Theory and Criticism	

FRLN 660	Approaches to the Study of Language	
FRLN 670	Topics in Language Learning and Teaching	
Total Credits		18

1 Courses may be substituted with advisor-approved literature-related electives in French. Courses must cover two different chronological periods or Francophone regions in consultation with an advisor.

2 Courses may be substituted with advisor-approved language and literature-related electives.

Concentration in ASTL: Spanish (ASPN)

This concentration provides advanced professional development and language study for practicing world language teachers of Spanish. The 18 concentration credits include a combination of modern language courses and targeted electives.

Coursework

Code	Title	Credits
SPAN 502	Hispanic Sociolinguistics	3
SPAN 510	Methods of Literary and Cultural Studies	3
Electives		
Select 12 credits from the following: [1]		12
SPAN 501	Applied Spanish Grammar	
SPAN 505	Applied Spanish Stylistics in Multilingual and Multimodal Contexts	
SPAN 512	Mass Media and Popular Culture	
SPAN 520	Studies in Medieval Spanish Literature	
SPAN 525	Studies in Renaissance Literature	
SPAN 530	Studies in the Literature of the Golden Age	
SPAN 540	Studies in 20th-Century Literature	
SPAN 544	Spanish-Language Film, Television, and Digital Media	
SPAN 545	Studies in Hispanic Literature	
SPAN 551	Special Topics in Spanish	
SPAN 560	Studies in Spanish American Poetry	
SPAN 565	Studies in Spanish American Drama	
SPAN 570	Language Politics and Policy	
SPAN 571	Methods and Curriculum Design for Teaching Spanish	
SPAN 576	Advanced Translation	
SPAN 580	Contemporary Hispanic Institutions	
SPAN 635	Seminar in Don Quixote	
SPAN 650	Seminar in Twentieth-Century Drama	
SPAN 655	Seminar in Twentieth-Century Prose	
SPAN 670	Seminar in Spanish American Prose	
SPAN 675	Seminar in Literature and Art	
SPAN 680	Seminar in Literature and Society	
SPAN 685	Seminar in Literature and Ideas	
FRLN 575	Heritage Language Education	
FRLN 670	Topics in Language Learning and Teaching	
Total Credits		18

1 Courses may be substituted with advisor-approved language and literature-related electives.

Concentration in ASTL: Gifted Education (AGIE)

This concentration provides advanced professional development through endorsement or master's degree for teachers of gifted students. The concentration meets NAGC/CEC graduate standards and focuses on culturally diverse, multilingual, twice exceptional, and traditionally defined gifted students and programs.

Students must earn a B- or higher in all coursework.

Coursework

Code	Title	Credits
EDCI 621	Introduction to Gifted and Talented Learners	3
EDCI 622	Curriculum and Instructional Strategies for Gifted Learners	3
EDCI 623	Supporting the Social Emotional Needs of Gifted Learners	3
EDCI 624	Advanced Assessment and Evaluation of Gifted Learners	3
Electives		**6**
Select two courses (6 credits) from the following: [1]		
EDCI 625	Contemporary Issues and Trends in Gifted Education	
EDCI 626	Action Research in Gifted Education	
EDCI 627	Advanced Practicum in Gifted Education [2]	
EDCI 630	Supporting English Learners in PK-12 Schools	
EDCI 660	Integrated STEM Teaching	
EDUC 608	Teacher Leadership for Professional Learning	
Total Credits		18

1 Courses may be substituted with advisor approval.

2 The EDCI 627 Advanced Practicum in Gifted Education or one year of successful full-time teaching with gifted students in an accredited public or non-public school is required for the Virginia Add-On Endorsement in Gifted Education (VA Licensure Regulations for School Personnel, 2018).

Concentration in ASTL: History/Social Science (AHSS)

This concentration is designed for educators at all grade levels who seek to strengthen their professional practice of teaching, while also deepening and broadening their content knowledge of history and/or the social sciences.

Coursework

Code	Title	Credits
Choose 18 credit hours from advisor-approved electives in History, Geography, and/or Sociology/Anthropology. Courses may be substituted with advisor-approved elective.		18
Total Credits		18

Concentration in ASTL: Individualized (AATL)

This individualized concentration is developed in concert with a student's advisor to provide coursework in a student's specialized area that is not provided in other ASTL concentrations. The student works

with the program director to design a program of study that provides individualized learning experiences in an area of expertise relevant to one's professional educational setting.

Coursework

Code	Title	Credits
Select 18 credits selected in consultation with advisor.		18
Total Credits		18

Concentration in ASTL: Literacy PK–12 Classroom Teachers (AP12)

This concentration includes three required literacy courses and three approved electives in ESOL, special education, psychology, secondary and elementary education, early childhood, writing, and other areas. The coursework includes theory and strategies in literacy and reading for teachers in any discipline, PK–12.

Coursework

Code	Title	Credits
EDRD 630	Literacy Foundations and Instruction for Diverse Populations: Birth through Middle Childhood	3
EDRD 631	Literacy Foundations and Instruction for Diverse Populations: Adolescence Through Adulthood	3
EDRD 632	Literacy Assessments and Interventions for Groups	3
Electives		
Select 9 credits from the following: [1]		9
EDCI 630	Supporting English Learners in PK-12 Schools	
EDRD 633	Literacy Assessments and Interventions for Individuals [2]	
EDRD 637	Supervised Literacy Practicum [2]	
EDSE 662	Consultation and Collaboration	
EDSE 627	Assessment	
Total Credits		18

[1] Students may choose an alternate elective with advisor approval.

[2] Must be taken concurrently

Concentration in ASTL: Literacy: Reading Specialist (ALRS)

This concentration provides a state-approved sequence of courses that can lead to eligibility for the K-12 Reading Specialist endorsement in Virginia. (Additional state licensure requirements include an initial teaching license, a satisfactory score on the Reading for Virginia Educators: Reading Specialist exam, and at least three years of teaching experience under contract.) Coursework helps teachers develop an in-depth understanding of literacy development across the lifespan, instructional and assessment strategies for individuals and groups of students, and provides preparation as Reading Specialist. Students must earn a B- or higher in all licensure coursework.

Coursework

Code	Title	Credits
EDRD 630	Literacy Foundations and Instruction for Diverse Populations: Birth through Middle Childhood	3
EDRD 631	Literacy Foundations and Instruction for Diverse Populations: Adolescence Through Adulthood	3
EDRD 632	Literacy Assessments and Interventions for Groups	3
EDRD 633	Literacy Assessments and Interventions for Individuals [1]	3
EDRD 634	School-Based Leadership in Literacy	3
EDRD 635	School-Based Inquiry in Literacy	3
EDRD 637	Supervised Literacy Practicum [1]	3
Total Credits		21

[1] Must be taken concurrently

Concentration in ASTL: Secondary Mathematics Education, Grades 6-12 (AMT6)

This concentration provides advanced professional development in mathematics teaching and learning for practicing middle and high school mathematics teachers. The coursework focuses on current research in mathematics education, inquiry, technology, and a community of mathematics practice.

Coursework

Code	Title	Credits
EDCI 666	Research in Mathematics Teaching	3
EDCI 702	Internship in Mathematics Education	3
MATH 601	Analysis I for Teachers	3
MATH 604	Geometry for Teachers	3
or MATH 614	Rational Numbers and Proportional Reasoning for K-8 Teachers	
MATH 607	Algebraic Structure for Teachers	3
MATH 608	Problem Solving in Mathematics	3
Total Credits		18

Concentration in ASTL: Physical Education (APED)

This concentration provides coursework in research design, curriculum development, collaborative supervision, research in pedagogy, and advanced adapted content. It is designed for practicing PE teachers seeking to improve their professional knowledge and teaching performance for improving student learning.

Coursework

Code	Title	Credits
PHED 660	Research Reading Seminar in Physical Education	3
PHED 670	Analysis of Teaching in Physical Education	3
PHED 672	Curriculum and Assessment in Physical Education	3
PHED 673	Motor Development for Special Populations	3
PHED 680	Mentoring and Supervising in Physical Education	3
Electives		
Select one course from the following: [1]		3
EDCI 630	Supporting English Learners in PK-12 Schools	

EDUC 608	Teacher Leadership for Professional Learning	
EFHP 610	Advanced Exercise Physiology	
EFHP 611	Movement and Fitness Assessment	
EFHP 614	Advanced Exercise Nutrition	
EFHP 618	Exercise and Sport Psychology	
HEAL 516	Program Development and Resources in Health Education	
Total Credits		18

[1] Students may choose an alternate elective with advisor approval.

Concentration in ASTL: Science K-12 (AS12)

This concentration provides advanced professional development in science teaching and learning for practicing elementary, middle, or high school science teachers.

Coursework

Code	Title	Credits
EDCI 663	Research in Science Teaching	3
EDCI 670	Advanced Methods in Science Teaching	3
EDCI 671	Innovations in Science Teaching	3
EDUC 547	Scientific Inquiry and the Nature of Science	3
Electives		
Select six credits of science coursework with advisor approval.		6
Total Credits		18

Concentration in ASTL: Science, Technology, Engineering, and Mathematics (STEM) (ASTM)

This concentration provides advanced professional development in science, technology, engineering and mathematics teaching and learning for practicing elementary, middle, or high school science teachers.

Coursework

Code	Title	Credits
EDCI 660	Integrated STEM Teaching	3
In consultation with advisor, choose an additional 5 courses (15 credits) from the following, with the goal of selecting at least one course from each area:		15
Designing Digital Learning in Schools		
EDIT 780	Principles of School-Based Design	
EDIT 781	Designing for Information Using	
EDIT 782	Designing for Literacy	
EDIT 783	Designing for Problem Solving	
Math Education Leadership		
EDCI 644	Mathematics Learning and Assessment (K-8)	
EDCI 645	Curriculum Development in Mathematics Education	
EDCI 646	Mathematics Education Leadership for School Change	
MATH 610	Number Systems and Number Theory for K-8 Teachers	
MATH 611	Geometry and Measurement for K-8 Teachers	
MATH 612	Probability and Statistics for K-8 Teachers	
MATH 613	Algebra and Functions for K-8 Teachers	
MATH 614	Rational Numbers and Proportional Reasoning for K-8 Teachers	
Science		
EDCI 663	Research in Science Teaching	
EDCI 670	Advanced Methods in Science Teaching	
EDCI 671	Innovations in Science Teaching	
Total Credits		18

Concentration in ASTL: Special Education (ASPE)

This concentration provides advanced expertise for educators, administrators, and other professionals providing services to individuals with special needs.

Coursework

Code	Title	Credits
Select 18 credits of Special Education (EDSE) and/or Assistive Technology (EDAT) coursework in consultation with advisor.		18
Total Credits		18

Concentration in ASTL: Teacher Leadership (ATL)

This concentration provides advanced professional development in school leadership. The educational leadership coursework focuses on teachers as leaders in their classrooms, teams, departments, programs, and schools.

Coursework

Code	Title	Credits
EDLE 610	Leading Schools and Communities	3
EDLE 620	Organizational Theory and Leadership	3
EDLE 636	Adult Motivation and Conflict Management in Education Settings: A Case Study Approach	3
EDLE 690	Using Research to Lead School Improvement	3
EDEP 591	Data-Driven Decision Making for Continuous Educational Improvement	3
or EDLE 618	Supervision and Evaluation of Instruction	
EDUC 608	Teacher Leadership for Professional Learning	3
Total Credits		18

Assistive Technology

The Assistive Technology program prepares educators and other professionals to work with individuals with disabilities, service providers, and family members. Graduates will use technology to assist individuals to function more effectively in school, home, work, and community environments.

Concentration in Assistive Technology (AT)

Coursework

Code	Title	Credits
EDAT 510	Introduction to Assistive Technology	3
EDAT 521	Augmentative Communication	3
EDAT 522	Assistive Technology for Individuals with Sensory Impairments	3
EDAT 523	Accessibility and Input Modifications	3
EDAT 524	Universal Design for Learning	3
EDAT 525	Software and Mobile Applications for Individuals with Disabilities	3
EDAT 527	Assistive Technology for Independent Living and Employment	3
EDAT 610	Designing Adapted Environments	3
EDAT 649	Assistive Technology Assessment	3
EDSE 590	Special Education Research	3
or EDIT 590	Educational Research in Technology	
Total Credits		30

Teaching Culturally & Linguistically Diverse & Exceptional Learners

The Teaching Culturally and Linguistically Diverse and Exceptional Learners (TCLDEL) is a Master of Education (MEd) program in Curriculum and Instruction designed to prepare teachers to work with culturally and linguistically diverse learners in the U.S. and around the world. The TCLDEL concentrations focus on a variety of student needs with special emphasis on language learners. Whether you are entering the field of education or have been a teacher for a number of years, TCLDEL concentrations can provide you with the knowledge, skills, and dispositions to support learning effectively, respond to diverse learners' needs, and create more equitable and socially just classrooms in U.S. and international contexts. TCLDEL has concentrations that lead to Virginia state licensure in ESOL, foreign languages, and elementary education as well as non-licensure options in the fields of IB and TESOL.

Initial Virginia state licensure concentrations include:

- PK-6 Virginia state licensure in Elementary Education focused specifically on teaching in international school contexts; and
- PK-12 Virginia state licensure to teach English to Speakers of Other Languages (ESOL);
- PK-12 Virginia state licensure to teach one of the following foreign languages: Arabic, Chinese, French, German, Japanese, Latin, Korean, and Spanish.

Non-licensure concentrations include:

- International Baccalaureate (IB) Education, which provides coursework for the IB certificate in teaching and learning (authorized by the IB). Upon completion of the coursework, teachers may apply to the IB organization for the IB certificate in teaching and learning.
- English to Speakers of Other Languages (ESOL) Education for licensed PK-12 teachers; and
- Teaching English to Speakers of Other Languages (TESOL) across the life span (PK-Adult) for diverse classrooms in the U.S. and around the world (100% online).

Concentration in English to Speakers of Other Languages (ESOL) Education (PK-12 Licensure) (ESLI)

Coursework

Code	Title	Credits
EDCI 510	Linguistics for PreK-12 ESOL Teachers	3
EDCI 516	Bilingualism and Language Acquisition Research	3
EDCI 519	Methods of Teaching Culturally and Linguistically Diverse Learners	3
EDCI 520	Assessment of Language Learners	3
EDCI 776	Consultation and Collaboration in Diverse K-12 Settings	3
EDCI 777	Research to Practice	3
EDCI 793	Internship in Education: PK-12 ESL/ESOL Education	6
EDRD 515	Language and Literacy in Global Contexts	3
EDRD 610	Content Literacy for English Language Learners, PK-12	3
EDUC 511	Child and Adolescent Development in Global Contexts	3
EDUC 537	Introduction to Culturally Linguistically Diverse Learners	3
Total Credits		36

Concentration in English to Speakers of Other Languages (ESOL) Education (PK-12 Non-Licensure) (ESNL)

Coursework

Code	Title	Credits
EDCI 510	Linguistics for PreK-12 ESOL Teachers	3
EDCI 516	Bilingualism and Language Acquisition Research	3
EDCI 519	Methods of Teaching Culturally and Linguistically Diverse Learners	3
EDCI 520	Assessment of Language Learners	3
EDCI 776	Consultation and Collaboration in Diverse K-12 Settings	3
EDCI 777	Research to Practice	3
EDRD 515	Language and Literacy in Global Contexts	3
EDRD 610	Content Literacy for English Language Learners, PK-12	3
EDUC 511	Child and Adolescent Development in Global Contexts	3
EDUC 537	Introduction to Culturally Linguistically Diverse Learners	3
Total Credits		30

Concentration in Arabic Foreign Language Education (PK-12 Licensure) (ARLE)

Coursework

Code	Title	Credits
EDCI 516	Bilingualism and Language Acquisition Research	3
EDCI 520	Assessment of Language Learners	3

EDCI 560	Methods of Teaching in Foreign/World Languages	3
EDCI 684	Advanced Methods of Teaching Foreign/ Second Languages in PK-12 Schools	3
EDCI 776	Consultation and Collaboration in Diverse K-12 Settings	3
EDCI 777	Research to Practice	3
EDCI 794	Internship in Education: PK-12 Foreign/ World Language Education	6
EDRD 515	Language and Literacy in Global Contexts	3
EDRD 620	Reading/Writing in Foreign/World Languages	3
EDUC 511	Child and Adolescent Development in Global Contexts	3
EDUC 537	Introduction to Culturally Linguistically Diverse Learners	3
Total Credits		36

Concentration in Chinese Foreign Language Education (PK-12 Licensure) (CHLE)

Coursework

Code	Title	Credits
EDCI 516	Bilingualism and Language Acquisition Research	3
EDCI 520	Assessment of Language Learners	3
EDCI 560	Methods of Teaching in Foreign/World Languages	3
EDCI 684	Advanced Methods of Teaching Foreign/ Second Languages in PK-12 Schools	3

Concentration in Early Childhood Education for Diverse Learners Licensure (ECLI)

This 30- to 36-credit concentration offers required coursework for teacher licensure in Early/Primary Education PreK-3. Students who have completed graduate or undergraduate coursework equivalent to concentration coursework prior to admission to this program may request that some courses in this concentration be waived. Students who are eligible to waive coursework must complete a minimum of 30 graduate-level credits to graduate. A grade of B- or better must be earned in all coursework.

In addition to the ECED concentration coursework, students must complete specific content area coursework in English, mathematics, science, and the social sciences as well as mandated state/accreditation assessments.

Concentration in Elementary Education (ELED)

The 39-credit concentration and initial licensure component provides professionals with the specialized knowledge, skills, and dispositions needed to meet the educational needs of students attending today's elementary schools. Specific content and endorsement courses are required; all courses are taught in cohorts only. Two cohort models (one- or two-semester internships) provide flexibility for all students. The two-semester internship cohort begins each spring and fall semester; the one-semester internship cohort begins each summer semester. Contact the Elementary Program for additional information.

All students are required to submit and successfully complete a series of performance-based assessments. These assessments include content knowledge, pedagogical skills, and dispositions.

Students enrolled in this concentration must earn a B or higher in all coursework.

Coursework

Code	Title	Credits

ELED 790	Internship in Elementary Education [2]	
ELED 790	Internship in Elementary Education [3]	
Total Credits		32-39

[1] Year-long internship: students must register for 3 credits in the fall and 6 credits in the spring. Semester-long internship and intensive cohort: students must register for 6 credits during their internship and complete 3 credits of elective coursework. See below for elective course options

[2] applicable for yearlong interns, 3 credits

[3] study abroad in Cambridge, 3 credits

Learning Technologies

The concentration with an instructional technology focus provides professionals the specialized knowledge and skills needed to apply a wide range of learning technologies to achieve educational and instructional goals in P12 schools. The concentration combines current theoretical models and research-based practice with practical, hands-on experiences to cultivate the design of innovative and engaging learning opportunities and instructional applications using state-of-the-art technologies. The concentration serves the various needs and interests of P12 teachers including blended learning, online learning, and the integration of technology in schools.

Literacy/Reading

A master's degree and one graduate certificate are available to teachers in grades K-12 who are interested in gaining additional expertise in literacy/reading instruction and leadership. Courses combine current theory with practical, hands-on experience. A graduate certificate focusing on literacy coaching is also available for current reading specialists or literacy leaders. Literacy is also available as a primary or secondary specialization in the PhD in Education degree program.

Concentration in Literacy Leadership for Diverse Schools: K-12 Reading Specialist (LLDR)

This concentration is designed for teachers with at least 1 year of classroom experience and includes a 21-credit sequence of courses in literacy/reading instruction and leadership, 3 credits in research methodology, and 9 credits in courses related to diverse learners (English as a second language [ESL], special education, or an individualized program). Completion of all requirements earns students a master's degree in curriculum and instruction plus eligibility for the K-12 Reading Specialist endorsement in Virginia. (Additional state licensure requirements include an initial teaching license, a satisfactory score on the Reading for Virginia Educators: Reading Specialist exam, and at least 3 years of teaching experience under contract). Some coursework in ESL and/or special education may be applied toward add-on licenses in those areas.

Students must earn a B- or higher in all licensure coursework.

1. Must be taken concurrently
2. Check course descriptions for prerequisites. Substitutions must be approved by your advisor.

Mathematics Specialist Leader

Concentration in Mathematics Specialist Leader (K-8) (MSPL)

This 30-credit concentration is designed for working professionals. Students study mathematics content and pedagogy, teaching, curriculum and professional development. They also explore school-based leadership issues in mathematics education. The internship is an individual experience designed and developed in consultation with a faculty advisor or mentor. This program includes all coursework required for Virginia mathematics specialist (K-8) endorsement. Students must earn a B- or higher in all program coursework. Graduates who apply for this endorsement must have three years of successful teaching experience at the time of application.

Coursework

MATH 613	Algebra and Functions for K-8 Teachers	3
MATH 614	Rational Numbers and Proportional Reasoning for K-8 Teachers	3
Total Credits		30

Secondary Education (6–12)

The secondary education concentrations with a licensure component are designed to meet the needs of individuals who wish to be licensed or need to satisfy the requirements of a provisional license to teach at the secondary level. Specific endorsement areas are biology, chemistry, computer science, earth science, English, history and social science, mathematics, and physics. Note: only six credits (in total) may be taken as non-degree or transferred (with coordinator approval) from another accredited institution.

Grading Policy

Students enrolled in this degree program must earn a B or higher in all coursework.

Field Experience

Clinical experiences in public schools will be required throughout the program (a maximum of 15-30 clock hours per course or 45 clock hours per term). Arrangements will be made at the beginning of each term.

Internship Options

A 6-credit 16-week daytime internship is required for completion of the state-approved licensure program.

Two options are available to meet the needs of most individuals:

- Student teaching internship: A one-term daytime internship in the classroom of a mentor teacher. Teacher candidate assumes co teaching and independent teaching responsibilities.
- On-the-job internship: Available only to students who are employed as full-time provisionally licensed teachers and teaching in their endorsement area in an accredited middle or secondary school and want to complete a master's degree. In lieu of an internship, provisionally licensed teachers may choose to use their full-time teaching to satisfy the experience requirement for a full license; however, the 35-credit master's degree requires that 6 credits of approved coursework be substituted for the internship.

Transformative Teaching

Concentration in Transformative Teaching (TTCH)

The Transformative Teaching program is a unique fully online, 30-credit master's degree cohort program for working educators who want to further develop their anti-racist, social justice-oriented teaching and leadership skills. The program offers a seamless experience between your work as an educator and your engagement with the course material and participation in the cohort. We build a learning community through a thoughtful sequence of courses and a core faculty team that supports and scaffolds the development of cohort members throughout the 2-years.

The program provides experienced educators with opportunities that help them to: (1) continually identify and rethink the routines and assumptions that shape their work; (2) critically reflect upon and improve their practice with the support of a learning community of peers and faculty (3) design thoughtful and constructive responses to the obstacles that inhibit teaching and student learning; (4) develop the skills and dispositions to commit to a career as an educator; and (5) be leaders in their schools, their professional associations, and their communities as anti-racist, civically-engaged advocates for educators and students.

Experienced educators with or without a master's degree may apply for the 30-credit master's degree program.

Biology, BA or BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Biology Concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA or BS in Biology (degree without concentration) and an MEd in Curriculum and Instruction (Secondary Education Biology concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/) in an accelerated time-frame after satisfactory completion of a minimum of 143 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

This accelerated option is offered jointly by the Biology Undergraduate Program and the School of Education.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
EDRD 619	Literacy in the Content Areas	3
EDUC 547	Scientific Inquiry and the Nature of Science	3
SEED 522	Foundations of Secondary Education	3
SEED 540	Human Development and Learning: Secondary Education	3
SEED 573	Teaching Science in the Secondary School	3
SEED 673	Advanced Methods of Teaching Science in the Secondary School	3
SEED approved elective		

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Chemistry, BA or BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Chemistry Concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's option and obtain a BA or BS in Chemistry (degree without concentration) and an MEd in Curriculum and Instruction (Secondary Education Chemistry concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/) in an accelerated time-frame after satisfactory completion of a minimum of 143 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

This accelerated option is offered jointly by the Department of Chemistry and Biochemistry and the School of Education.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
EDRD 619	Literacy in the Content Areas	3
EDUC 547	Scientific Inquiry and the Nature of Science	3
SEED 522	Foundations of Secondary Education	3
SEED 540	Human Development and Learning: Secondary Education	3
SEED 573	Teaching Science in the Secondary School	3
SEED 673	Advanced Methods of Teaching Science in the Secondary School	3
SEED approved elective		

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Computer Science, BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Computer Science Concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BS in Computer Science (degree without concentration) and an MEd in Curriculum and Instruction (Secondary Education Computer Science concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/)in an accelerated time-frame after satisfactory completion of a minimum of 143 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

This accelerated option is offered jointly by the Department of Computer Science (https://catalog.gmu.edu/colleges-schools/engineering/computer-science/computer-science-bs/) and the School of Education (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
EDRD 619	Literacy in the Content Areas	3
SEED 522	Foundations of Secondary Education	3
SEED 540	Human Development and Learning: Secondary Education	3
SEED 566	Teaching Computer Science in the Secondary School	3
SEED 676	Advanced Methods of Teaching Computer Science in the Secondary School	3
SEED approved elective		

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

English, BA or Creative Writing, BFA/Curriculum and Instruction, Accelerated MEd (Secondary Education English Concentration)

Overview

Highly-qualified Mason undergraduates may be admitted to the bachelor's/accelerated master's option and obtain a BA in English or a BFA in Creative Writing and an MEd in Curriculum and Instruction (Secondary Education English concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/)in an accelerated time-frame after satisfactory completion of a minimum of 143 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

This accelerated option is offered jointly by the Department of English and the School of Education (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
EDCI 570	Teaching Young Adult Literacy in a Multicultural Setting	3
EDRD 619	Literacy in the Content Areas	3
SEED 522	Foundations of Secondary Education	3
SEED 540	Human Development and Learning: Secondary Education	3
SEED 569	Teaching English in the Secondary School	3
SEED 669	Advanced Methods of Teaching English in the Secondary School	3
SEED approved elective		

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Geology, BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Earth Science Concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BS in Geology (https://catalog.gmu.edu/colleges-schools/science/physics-astronomy/physics-bs/) and an MEd in Curriculum and Instruction (Secondary Education Earth Science concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/)in an accelerated time-frame after satisfactory completion of a minimum of 143 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/) for policies related to this program.

This accelerated option is offered jointly by the Department of Atmospheric, Oceanic, and Earth Sciences (https://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/) and the School of Education (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (https://catalog.gmu.edu/policies/academic/graduate-policies/#text).

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
EDRD 619	Literacy in the Content Areas	3
EDUC 547	Scientific Inquiry and the Nature of Science	3
SEED 522	Foundations of Secondary Education	3
SEED 540	Human Development and Learning: Secondary Education	3
SEED 573	Teaching Science in the Secondary School	3
SEED 673	Advanced Methods of Teaching Science in the Secondary School	3
SEED approved elective		

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

History, BA/Curriculum and Instruction, Accelerated MEd (Secondary Education History and Social Science Concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's option and obtain a BA in History and an MEd in Curriculum and Instruction (Secondary Education History and Social Science concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/)in an accelerated time-frame after satisfactory completion of a minimum of 143 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

This accelerated option is offered jointly by the Department of History and Art History and the School of Education.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
EDRD 619	Literacy in the Content Areas	3
SEED 522	Foundations of Secondary Education	3
SEED 540	Human Development and Learning: Secondary Education	3
SEED 567	Teaching Social Studies in the Secondary School	3
SEED 667	Advanced Methods of Teaching Social Sciences in the Secondary School	3
SEED approved elective		

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Integrative Studies, BA (Social Science for Education Concentration)/Curriculum and Instruction, Accelerated MEd (Secondary Education History and Social Science Concentration)

Overview

Highly-qualified Mason undergraduates may be admitted to the bachelor's/accelerated master's option and obtain a BA in Integrative Studies (concentration in social science for education) and an MEd in Curriculum and Instruction (Secondary Education History and Social Science concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/)in an accelerated time-frame after satisfactory completion of a minimum of 143 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

This accelerated option is offered jointly by the School of Integrative Studies and the School of Education.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
EDRD 619	Literacy in the Content Areas	3
SEED 522	Foundations of Secondary Education	3
SEED 540	Human Development and Learning: Secondary Education	3
SEED 567	Teaching Social Studies in the Secondary School	3
SEED 667	Advanced Methods of Teaching Social Sciences in the Secondary School	3
SEED approved elective		

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Mathematics, BA or BS/Curriculum and Instruction, Accelerated MEd, (Secondary Education Mathematics Concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA or BS in Mathematics and an MEd in Curriculum and Instruction (Secondary Education Mathematics concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/)in an accelerated time-frame after satisfactory completion of a minimum of 143 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

This accelerated option is offered jointly by the Department of Mathematical Sciences and the School of Education.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://

catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
EDRD 619	Literacy in the Content Areas	3
SEED 522	Foundations of Secondary Education	3
SEED 540	Human Development and Learning: Secondary Education	3
SEED 572	Teaching Mathematics in the Secondary School	3
SEED 672	Advanced Methods of Teaching Mathematics in the Secondary School	3
SEED approved elective		

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Physics, BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Physics Concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BS in Physics and an MEd in Curriculum and Instruction (Secondary Education Physics concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/)in an accelerated time-frame after satisfactory completion of a minimum of 143 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degrees for policies related to this program.

This accelerated option is offered jointly by the department of Physics and Astronomy and the School of Education.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
EDRD 619	Literacy in the Content Areas	3
EDUC 547	Scientific Inquiry and the Nature of Science	3
SEED 522	Foundations of Secondary Education	3
SEED 540	Human Development and Learning: Secondary Education	3
SEED 573	Teaching Science in the Secondary School	3
SEED 673	Advanced Methods of Teaching Science in the Secondary School	3
SEED approved elective		

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Bachelor's Degree (any)/Curriculum and Instruction, Accelerated MEd (Arabic Foreign Language Education (PK-12 Licensure) Concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA or BS in any degree area and an MEd in Curriculum and Instruction (Arabic Foreign Language Education (PK-12 Licensure) concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/)in an accelerated time-frame after satisfactory completion of a minimum of 144 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits and additional unit-specific criteria (see Application Requirements and Deadlines) (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
EDCI 516	Bilingualism and Language Acquisition Research	3
EDCI 520	Assessment of Language Learners	3
EDCI 560	Methods of Teaching in Foreign/World Languages	3
EDRD 515	Language and Literacy in Global Contexts	3
EDUC 511	Child and Adolescent Development in Global Contexts	3
EDUC 537	Introduction to Culturally Linguistically Diverse Learners	3

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Bachelor's Degree (any)/Curriculum and Instruction, Accelerated MEd (Chinese Foreign Language Education (PK-12 Licensure) Concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA or BS in any degree area and an MEd in Curriculum and Instruction (Chinese Foreign Language Education (PK-12 Licensure) concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/)in an accelerated time-frame after satisfactory completion of a minimum of 144 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria (see Application Requirements and Deadlines) (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

EDUC 511	Child and Adolescent Development in Global Contexts	3
EDUC 537	Introduction to Culturally Linguistically Diverse Learners	3

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Bachelor's Degree (any)/Curriculum and Instruction, Accelerated MEd (Early Childhood Education for Diverse Learners (Licensure) Concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA or BS in any degree area and an MEd in Curriculum and Instruction (Early Childhood Education for Diverse Learners (Licensure) concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/) in an accelerated time-frame after completion of 144 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria (see Application Requirements and Deadlines) (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following (to be determined by the student and their advisor):

Advanced Standing Courses (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) **(up to 12 credits)**

Code	Title	Credits
ECED 501	Developmental Pathways of Diverse Learners, Birth-Adolescence	3
ECED 502	Foundations of Language and Literacy for Diverse Prekindergarten and Kindergarten Learners	3
ECED 503	Inclusive Curriculum for Young Learners: Planning Instruction and Guidance	3
ECED 504	Engaging Families of Diverse Young Learners	3
ECED 512	Language and Literacy Assessment and Instruction for Diverse Primary Grade Learners	3
ECED 513	Integrating Social Studies Across the Content Areas for Diverse Young Learners	3
ECED 515	Mathematics for Diverse Young Learners	3
ECED 516	Science for Diverse Young Learners	3

ECED approved elective

Reserve Graduate Credit Courses (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) **(up to 6 credits)**

Code	Title	Credits
ECED 504	Engaging Families of Diverse Young Learners	3
ECED 511	Assessment of Diverse Young Learners	3
ECED 512	Language and Literacy Assessment and Instruction for Diverse Primary Grade Learners	3
ECED 513	Integrating Social Studies Across the Content Areas for Diverse Young Learners	3
ECED 515	Mathematics for Diverse Young Learners	3
ECED 516	Science for Diverse Young Learners	3

ECED approved elective

Bachelor's Degree (any)/Curriculum and Instruction, Accelerated MEd (Elementary Education Concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA or BS in any degree area and an MEd in Curriculum and Instruction (Elementary Education concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/) in an accelerated time-frame after satisfactory completion of 138 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria (see Application Requirements and Deadlines) (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following:

Advanced Standing Courses **(**https://catalog.gmu.edu/policies/academic/graduate-policies/#text**) (up to 12 credits)**

Code	Title	Credits
ELED 542	Foundations of Elementary Education	3
ELED 543	Children, Family, Culture, and Schools, ages 4-12 Years	3
ELED 544	Introduction to Elementary Methods and Management	3
ELED 555	Literacy Teaching and Learning in Diverse Elementary Classrooms I	3

Reserve Graduate Credit Courses **(**https://catalog.gmu.edu/policies/academic/graduate-policies/#text**) (up to 6 credits)**

Code	Title	Credits
ELED 545	Differentiating Elementary Methods and Management	3
ELED 552	Mathematics Methods for the Elementary Classroom	3
ELED 553	Science Methods for the Elementary Classroom	3
ELED 554	Methods of Teaching Social Studies and Integrating Fine Arts in the Elementary Classroom	3
ELED 556	Literacy Teaching and Learning in Diverse Elementary Classrooms II	3

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Bachelor's Degree (any)/Curriculum and Instruction, Accelerated MEd (English to Speakers of Other Languages (ESOL) Education (PK-12 Licensure) Concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA or BS in any degree area and an MEd in Curriculum and Instruction (English to Speakers of Other Languages (ESOL) Education (PK-12 Licensure) concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/) in an accelerated time-frame after satisfactory completion of 144 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements

and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria (see Application Requirements and Deadlines) (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
EDCI 510	Linguistics for PreK-12 ESOL Teachers	3
EDCI 516	Bilingualism and Language Acquisition Research	3
EDCI 519	Methods of Teaching Culturally and Linguistically Diverse Learners	3
EDRD 515	Language and Literacy in Global Contexts	3
EDUC 511	Child and Adolescent Development in Global Contexts	3
EDUC 537	Introduction to Culturally Linguistically Diverse Learners	3

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Bachelor's Degree (any)/Curriculum and Instruction, Accelerated MEd (English to Speakers of Other Languages (ESOL) Education (PK-12 Non-Licensure) Concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA or BS in any degree area and an MEd in Curriculum and Instruction (English to Speakers of Other Languages (ESOL) Education (PK-12 Non-Licensure) concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/) in an accelerated time-frame after satisfactory completion of 138 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. EDUC 511	Child and Adolescent Development in Global Contexts	3
EDUC 537	Introduction to Culturally Linguistically Diverse Learners	3

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Bachelor's Degree (any)/Curriculum and Instruction, Accelerated MEd (Spanish Foreign Language Education (PK-12 Licensure) Concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA or BS in any degree area and an MEd in Curriculum and Instruction (Spanish Foreign Language Education (PK-12 Licensure) concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/) in an accelerated time-frame after satisfactory completion of 144 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria (see Application Requirements and Deadlines) (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
EDCI 516	Bilingualism and Language Acquisition Research	3
EDCI 520	Assessment of Language Learners	3
EDCI 560	Methods of Teaching in Foreign/World Languages	3
EDRD 515	Language and Literacy in Global Contexts	3
EDUC 511	Child and Adolescent Development in Global Contexts	3
EDUC 537	Introduction to Culturally Linguistically Diverse Learners	3

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Early Childhood Education for Diverse Learners Minor

Academic Advising

Phone: 703-993-3844
Email: earlyed@gmu.edu
Website: education.gmu.edu/early-childhood/academics/undergraduate-minor-early-childhood-education-diverse-learners

This 15-credit minor provides undergraduate students with background knowledge in Early Childhood Education for Diverse Learners. Completing this minor partially fulfills requirements for licensure in Early Childhood Education, PK-3 and Early Childhood Special Education in Virginia.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Early Childhood Education for Diverse Learners, BSEd

Banner Code: E1-BSED-ECDL

Phone: 703-993-3844
Email: earlyed@gmu.edu
Website: https://education.gmu.edu/early-childhood/

This bachelor's degree provides students with the opportunity to develop a strong cross-disciplinary foundation as well as specialized knowledge to work with culturally, linguistically, ability, and socioeconomically diverse young children, families, and other professionals. The courses in the major ensure that students engage in a well-rounded, cohesive program of studies that prepares them to be high-quality early childhood educators. Students may select one of the optional teacher licensure concentrations (i.e., Early Childhood Special Education, Early/Primary Education PreK-3, Early Childhood Special Education and Early/Primary Education PreK-3) or a non-licensure sequence to fulfill the requirements for the BSEd in Early Childhood Education for Diverse Learners.

Admissions & Policies

Admissions

Students entering as freshmen with an interest in majoring in Early Childhood Education for Diverse Learners will initially be accepted into the Early Childhood Education for Diverse Learners, BSEd, without concentration.

Four-Year Students

To declare a concentration in Early Childhood Special Education (Licensure), four-year students must:

- complete a minimum of 45 credits
- attain a cumulative GPA of 2.50.

To declare a concentration in Early/Primary Education PreK-3 (Licensure) or and Early/Primary Education PreK-3 (Dual Licensure), four-year students must:

- complete a minimum of 45 credits
- attain a cumulative GPA of 2.50

Degree-Seeking Transfer Students

To declare a concentration in Early Childhood Special Education (Licensure), transfer students must:

- complete a minimum of 45 credits
- earn a cumulative GPA of 2.50 at previous institution or complete 12 credits at Mason with a 2.50 GPA

To declare a concentration in Early/Primary Education PreK-3 (Licensure) or Early/Primary Education PreK-3 (Dual Licensure), transfer students must:

- complete a minimum of 45 credits
- earn a cumulative GPA of 2.50 at previous institution or complete 12 credits at Mason with a 2.50 GPA

Policies

Students in the licensure concentrations must maintain at least a 2.50 GPA and earn a C or better in their program core and concentration coursework. Prior to applying for internships, students in all licensure concentrations, must successfully complete:

- Emergency First Aid, CPR and AED certification or training
- Virginia Communication & Literacy Assessment (VCLA)
- Praxis Core Math, SAT Math or ACT Math

Students enrolled in the Early/Primary Education PreK-3 Licensure or Early/Primary Education PreK-3 (Dual Licensure) concentration must also complete the following:

- Praxis Elementary Education: Multiple Subjects (prior to applying for internship)
- Reading for Virginia Educators: Elementary and Special Education (prior to completing internship)

Licensure testing requirements are determined by the Commonwealth of Virginia and may change at any time. If changes to these requirements occur, students must meet the current testing and licensure requirements as set forth in the legal Code of Virginia.

4-Year Plan

Bachelor of Science in Education in Early Childhood Education for Diverse Learners Sample Plan of Study

The sample plan below is a recommended sequencing of courses based on pre-requisites and scheduling. This may not fit every student's needs and is a guideline, not a requirement. Students should confirm major requirements with their academic advisor and with PatriotWeb Degree Evaluation to ensure they enroll in the proper courses and are on track to graduate.

Without Concentration

Early Childhood Education (PK-3) Licensure Graduate Certificate

Banner Code: E1-CERG-EPK3

Academic Advising

Phone: 703-993-3844
Email: earlyed@gmu.edu
Website: https://education.gmu.edu/early-childhood/

This certificate offers required coursework for teacher licensure in Early/ Primary Education PreK-3. This certificate prepares individuals to work with children, prekindergarten through third grade, and their families.

Admissions & Policies

Admissions

In addition to the ECED concentration coursework, students must complete specific content area coursework in English, mathematics, science, and the social sciences as well as mandated state/accreditation assessments.

The following courses are prerequisites to admission:

Code	Title	Credits
ECED 401	Developmental Pathways of Diverse Learners, Birth-Adolescence	3
or ECED 501	Developmental Pathways of Diverse Learners, Birth-Adolescence	
ECED 402	Foundations of Language and Literacy for Diverse Prekindergarten and Kindergarten Learners	3
or ECED 502	Foundations of Language and Literacy for Diverse Prekindergarten and Kindergarten Learners	
ECED 403	Inclusive Curriculum for Young Learners: Planning Instruction and Guidance	3
or ECED 503	Inclusive Curriculum for Young Learners: Planning Instruction and Guidance	
ECED 404	Engaging Families of Diverse Learners, Birth – Grade 6	3
or ECED 504	Engaging Families of Diverse Young Learners	

Policies

Students who have completed equivalent graduate or undergraduate coursework prior to enrollment may request that some courses in this certificate be waived. Students who are eligible to waive coursework must complete a minimum of 15 credits to graduate. Students must earn a B- or better in all coursework.

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Requirements

Certificate Requirements

Total credits: 24

This certificate may be pursued on a full-or part-time basis.

Coursework

Code	Title	Credits
ECED 511	Assessment of Diverse Young Learners	3
ECED 512	Language and Literacy Assessment and Instruction for Diverse Primary Grade Learners	3
ECED 513	Integrating Social Studies Across the Content Areas for Diverse Young Learners	3
ECED 515	Mathematics for Diverse Young Learners	3
ECED 516	Science for Diverse Young Learners	3
ECED 781	Seminar in Early Childhood Education	3
Select one from the following:		6
ECED 790 & ECED 795	Internship with Diverse Preschool Children and Internship in Kindergarten - Third Grade	
ECED 788	Internship in Early Childhood Education Prekindergarten-Third Grade

Banner Code: E1-CERG-SPEC

Academic Advising

Phone: 703-993-3844
Email: earlyed@gmu.edu
Website: https://education.gmu.edu/early-childhood/

This certificate offers required coursework for teacher licensure in Early Childhood Special Education. This certificate prepares individuals to work with children with disabilities, birth through age five, and their families.

Admissions & Policies

Admissions

In addition to the ECED concentration coursework, students must complete mandated state/accreditation assessments.

The following courses are prerequisites for admission:

Code	Title	Credits
ECED 401	Developmental Pathways of Diverse Learners, Birth-Adolescence	3
or ECED 501	Developmental Pathways of Diverse Learners, Birth-Adolescence	
ECED 402	Foundations of Language and Literacy for Diverse Prekindergarten and Kindergarten Learners	3
or ECED 502	Foundations of Language and Literacy for Diverse Prekindergarten and Kindergarten Learners	
ECED 403	Inclusive Curriculum for Young Learners: Planning Instruction and Guidance	3
or ECED 503	Inclusive Curriculum for Young Learners: Planning Instruction and Guidance	
ECED 404	Engaging Families of Diverse Learners, Birth – Grade 6	3
or ECED 504	Engaging Families of Diverse Young Learners	

Policies

Students who have completed graduate or undergraduate coursework equivalent to certificate coursework prior to admission to this program may request that some courses in this certificate be waived. Students who are eligible to waive coursework must complete a minimum of 12 credits to graduate.

A grade of B- or better must be earned in all coursework.

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Requirements

Certificate Requirements

Total credits: 24

This certificate may be pursued on a full-or part-time basis.

Coursework

Code	Title	Credits
ECED 505	Introduction to Early Childhood Special Education	3

Available Concentrations

Concentration in Data Literacy

This 12-credit online concentration prepares teachers, building-level and district-level leaders to create, analyze and interpret a variety of student performance assessments in order to improve instruction and student learning. The four carefully-sequenced courses for the certificate focus on developing meaningful teacher-created and classroom-based student assessments, interpreting both informal and formal assessment data, and using those data in making curricular decisions. Practicing teachers and other school leaders have the opportunity to apply assessment and decision-making skills to their own classrooms or schools. Credits earned for the certificate may be applied toward the Educational Psychology, MS.

Concentration in Program Evaluation

This 16-credit concentration prepares individuals seeking evaluation positions in educational organizations, government, and non-government agencies. Grounded in evaluation theory and practice, the program of study includes coursework in qualitative, quantitative, and evaluation methodologies that culminates in an internship. Students will acquire a skill set to engage in program evaluation and an appreciation for the distinct nature of evaluation work. Credits earned for the certificate may be applied toward the Educational Psychology, MS or the PhD in Education based on faculty approval.

Admissions & Policies

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Education Leadership Graduate Certificate

Banner Code: E1-CERG-EDLE

Academic Advising

Phone: 703-993-3633
Email: edleprog@gmu.edu
Website: education.gmu.edu/education-leadership/academics/education-leadership-graduate-certificate

This certificate, a state-approved (Virginia) sequence of courses leading to the Administration and Supervision PreK-12 endorsement area, is designed for educators who already hold a valid teaching license and already have a master's degree from a regionally accredited university. The program emphasizes an understanding of the complexities of change in schools, communities, and organizations. Participants are expected to develop and demonstrate the knowledge, skills, and dispositions necessary to create and maintain learning environments that value diversity, continual knowledge acquisition, instructional

leadership, innovative and ethical decision-making, reflective practice, and successful achievement of all school-aged youth.

This graduate certificate may be pursued on a part-time or full-time basis and may be added as a secondary program of study by current Mason students who meet the admission requirements and are enrolled in non-licensure graduate programs. This certificate option is available to students enrolled in the Education Leadership program and not in the Education Leadership with Special Education Concentration (SELE).

Admissions & Policies

https://masononline.gmu.edu/programs/education-leadership-independent-school-leadership-concentration-med/

This 30-credit master's degree prepares candidates for leadership and management positions in a variety of educational settings. The program emphasizes an understanding of the complexities of change in schools, communities, and organizations. Participants are expected to develop and demonstrate the knowledge, skills, and dispositions necessary to create and maintain learning environments that value diversity, continual knowledge acquisition, instructional leadership, innovative and ethical decision making, reflective practice, and successful achievement of all school-aged youth.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (https://catalog.gmu.edu/admissions/graduate-policies/).

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies (https://catalog.gmu.edu/policies/academic/graduate-policies/).

Requirements

Degree Requirements

Total credits: 30

Core Requirements

Code	Title	Credits
EDLE 610	Leading Schools and Communities	3
EDLE 616	Curriculum Development and Evaluation	3
EDLE 618	Supervision and Evaluation of Instruction	3
EDLE 620	Organizational Theory and Leadership	3
EDLE 636	Adult Motivation and Conflict Management in Education Settings: A Case Study Approach	3
EDLE 690	Using Research to Lead School Improvement	3

MEd without Concentration

Grades of B- or better are required for licensure.

Code	Title	Credits
EDLE 612	Education Law	3
EDLE 614	Managing Financial and Human Resources	3
EDLE 634	Contemporary Issues in Education Leadership	3
EDLE 791	Internship in Educational Leadership [1]	3
Total Credits		12

[1] The internship is integral to the MEd and provides an opportunity to synthesize and apply the knowledge and practice the skills identified in the Educational Leadership Constituency Consortium Standards through substantial, sustained work in educational settings.

MEd with Concentration in Independent School Leadership (non-licensure) (ISL)

This concentration is a non-licensure path within the Education Leadership program with a focus on the unique leadership and instructional needs of directors, heads of schools, and other

professionals responsible for the growth and management of independent and private schools. Like other candidates in the Education Leadership program, students will develop and demonstrate the knowledge, skills, and dispositions necessary to create and maintain learning environments that value diversity, instructional leadership, innovative and ethical decision-making, reflective practice, and the successful achievement of all students, with an emphasis on the independent school context.

Total Credits		12

MEd with Concentration in International School Leadership Research (ISLR)

The 30 credit International School Leadership Research (MEd Concentration in Education Leadership) option is a non-licensure path within the Education Leadership program with a focus on the unique leadership and instructional needs of directors, heads of schools, and other professionals responsible for the growth and management of international schools, including IB schools. Students will develop and demonstrate the knowledge, skills, and dispositions necessary to create and maintain learning environments that value diversity, instructional leadership, innovative and ethical decision-making, reflective practice, and the successful achievement of all students, with an emphasis on the international school context and the leadership requirements of International Baccalaureate schools and communities. This concentration within the MEd in Education Leadership meets the International Baccalaureate Organization's standards for both the International Baccalaureate Educator Certificate in Leadership Practice and the International Baccalaureate Educator Certificate in Leadership Research.

Education Policy Graduate Certificate

Banner Code: E1-CERG-EPOL

Website: https://education.gmu.edu/education-policy/education-policy-graduate-certificate

Overview

The innovative Education Policy Graduate Certificate is designed to meet the needs of students with an interest in improving educational opportunities and student outcomes through federal, state, and local policy. The 15-credit program focuses on the study of education policy, including how decisions are made at various levels of government, how decision makers use educational research and evidence, and how to influence the decision-making process. Open to all students, regardless of their experience level, the program examines pressing challenges facing our education system, from preschool and K-12 through college and beyond, and prepares students to engage effectively with policymakers and stakeholders and to help shape and influence education policy.

The field of education policy needs professionals who can understand and analyze problems, think critically, and come up with creative and pragmatic solutions to address tough challenges in the world of education. Whether interested in pursuing a career in government, the education sector, think tanks, or nonprofit organizations, the Education Policy Graduate Certificate is meant to set students on the path to impacting education policy.

Admissions & Policies

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Education, PhD

Banner Code: E1-PHD-EDUC

Academic Advising

Phone: 703-993-2011
Email: cehdphd@gmu.edu
Website: https://education.gmu.edu/phd-in-education

This program is designed to advance professional study to develop research-informed expertise in a selected field of professional education. As a program of doctoral study, it emphasizes theory and research as much as it does practice, breadth of study as much as depth, and process as well as knowledge. It seeks to develop both knowledge and the skills useful in educational roles as well as the abilities to analyze and respond to problems in their relationships to various educational concerns.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study. See Graduate Admissions Policies.

Eligibility and Application Requirements

Admission is highly-selective and applicants must fulfill all admission requirements: a minimum of three years of successful experience as a practitioner in an educational setting, baccalaureate and master's (or equivalent) degrees from accredited institutions, demonstrated high intellectual capability and leadership potential, three letters of recommendation and GRE general test scores including the writing assessment.

For more information, call the PhD Office at 703-993-2011. Completed applications must be submitted by January 15 for fall admission, or by October 1 for spring admission. To apply, see Graduate Admissions (https://www2.gmu.edu/admissions-aid/how-apply/graduate/).

Policies

For policies governing all doctoral degrees, see AP.6.10 Requirements for Doctoral Degrees.

Program of Study

A written program of study which lists all courses required to complete the program is used to verify that students have met all requirements at graduation. If changes are made in the program of study after its approval, the changes must be made in writing and submitted to the Office of the University Registrar with the Advancement to Candidacy paperwork.

Reduction of Credit

Students must have a master's degree before being admitted to the PhD. As such, admitted students will receive a reduction of 9 credits.

Requirements

Code	Title	Credits
Students receive a reduction of 9 credits based on their earned Master's degree.		9
Total Credits		9

Dissertation Proposal and Research

Advancement to Candidacy

Upon successful completion of all coursework and the comprehensive portfolio assessment, students are advanced to candidacy and enroll in EDUC 998 Doctoral Dissertation Proposal. Students enrolled in the Kinesiology Concentration enroll in KINE 998 Doctoral Dissertation Proposal.

Dissertation

Once enrolled in EDUC 998 Doctoral Dissertation Proposal or KINE 998 Doctoral Dissertation Proposal, students must maintain continuous registration in at least 1 credit; once enrolled in EDUC 999 Doctoral Dissertation Research or KINE 999 Doctoral Dissertation Research, students must follow the university continuous registration policy as specified in AP.6.10.6 Dissertation Registration.

Code	Title	Credits
Minimum 12 credits of		12
EDUC 998	Doctoral Dissertation Proposal [1]	
or KINE 998	Doctoral Dissertation Proposal	
EDUC 999	Doctoral Dissertation Research [2]	
or KINE 999	Doctoral Dissertation Research	
Total Credits		12

1. Students must register for 3 credits the first semester enrolled in EDUC 998 Doctoral Dissertation Proposal or KINE 998 Doctoral Dissertation Proposal. Students preparing their proposal must register for 1 credit each semester thereafter until the proposal has been successfully defended.
2. Students must register for 3 or 6 credits the first semester enrolled in EDUC 999 Doctoral Dissertation Research or KINE 999 Doctoral Dissertation Research and must register for at least 1 credit thereafter until all work has been completed including the semester in which the degree is conferred.

PhD without Concentration

All students are required to create electronic portfolios to define academic and professional goals; formulate specific plans to achieve those goals through coursework, research experiences, and field-based activities; demonstrate growth in understanding the specializations and how knowledge in them is advanced through inquiry; synthesize and reflect upon the process and results of learning activities; modify goals and plans as needed based on academic and reflective self-evaluation as well as feedback from the student's Program Advisory Committee and demonstrate readiness to proceed to the dissertation phase of the program.

The first portfolio review must be completed when 18 credits have been completed or before the end of the third semester. The second portfolio review must be scheduled at the completion of 36 credit hours. When students complete the coursework phase of the program, a final meeting is held with the Program Advisory Committee. This meeting is the context for conducting the comprehensive portfolio assessment, a formal evaluation of a student's readiness to proceed to the dissertation phase of the program which is analogous to the traditional doctoral comprehensive exam.

Program Advisory Committee

Students choose a program advisory committee of three George Mason University faculty members prior to the end of their second semester. It is chaired by the student's major advisor who represents the student's primary specialization. One member must represent the student's secondary emphasis. The major functions of this committee include assessing the student's goals, interests and academic needs, approving the program of study, monitoring the student's progress through the program and evaluating the student's three portfolio reviews.

Primary Specialization

Professional specializations include: early childhood education, education leadership, education policy, educational psychology, higher education, international education, learning technologies design research, literacy and reading, mathematics or science education leadership, multilingual/multicultural education, research methodology, science education research, special education, and teaching and teacher education.

Code	Title	Credits
Students select course work based on their area of specialization. They may choose EDUC 994 and EDUC 890 to broaden their professional expertise. These internships must be taken in a setting that differs from the student's work setting, and includes 100 clock hours of work.		18-24
Total Credits		18-24

Secondary Specialization

Code	Title	Credits
Students may develop a secondary specialization from coursework offered within CEHD or coursework offered within other Mason units, in consultation with their advisor. [1]		3-18
Total Credits		3-18

1. In some situations, students can receive a reduction of 9 additional credits from their master's toward fulfillment of the secondary specialization requirement if their master's degree area of study is not the same as their doctoral specialization area and it aligns with their program of study. Students make this decision in consultation with their program advisory committee members. Students who do not receive this additional credit reduction must take at least 12 credits in the secondary specialization area.

Concentration in Kinesiology (KNES)

Kinesiology Core

Code	Title	Credits

Banner Code: E1-MS-EDP

Academic Advising

Phone: 703-993-3679
Email: edpsych@gmu.edu
Website: https://education.gmu.edu/educational-psychology/academics/

This master's program is designed to offer professionals and students the opportunity to apply principles of learning, cognition, and motivation to vital problems in the area of education; develop a solid understanding of research, assessment, and evaluation methodologies; and develop an analytical and scholarly approach to critically assessing theoretical perspectives, research, and practice within and across content domains. By participating in a supportive and collegial environment with faculty from numerous educational disciplines and expertise, students are expected to develop the skills to meet the needs of diverse populations and design and implement effective educational programs appropriate for a broad range of cultural contexts.

Admissions & Policies

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies.

Requirements

Degree Requirements

Total credits: 30

Students must complete a minimum of 30 credits in one of four concentrations. Each concentration offers students the option of a thesis or a project to fulfill the research requirement.

Concentration in Assessment, Evaluation, and Testing (EDPA)

Concentration in Teacher Preparation (EDPT)

Individuals pursuing the Educational Psychology, MS Concentration in Teacher Preparation must be admitted into one of the following teacher licensure certificate programs prior to completion of MS coursework:

- Secondary Education Licensure Graduate Certificate
- Special Education Graduate Certificate (Concentrations in General Curriculum K-12, Adapted Curriculum K-12, or Visual Impairments Licensure PK-12)
- International ESOL/ESL Teacher Education Graduate Certificate, Concentration in ESOL/ESL Special Education

Students apply three courses (9 credits) from the certificate towards the MS degree in educational psychology with the expectation that they will complete the teacher certification program.

Bachelor's Degree (any)/Educational Psychology, Accelerated MS (Assessment, Evaluation, and Testing Concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA or BS in any degree area and an MS in Educational Psychology (Assessment, Evaluation, and Testing concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/educational-psychology-ms/) in an accelerated time-frame after satisfactory completion of a minimum of 138 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/) for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (https://catalog.gmu.edu/policies/academic/graduate-policies/#text).

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria (see Application Requirements and Deadlines) (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MS program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
EDEP 550	Theories of Learning and Cognition	3
EDEP 551	Principles of Learner Motivation	3
EDEP 632	Human Development	3
EDRS 531	Educational and Psychological Measurement	3
EDRS 590	Education Research	3
EDRS 620	Quantitative Inquiry in Education	3
EDRS 621	Qualitative Inquiry in Education	3

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Bachelor's Degree (any)/Educational Psychology, Accelerated MS (Learning and Decision-Making in Leadership Concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA or BS in any degree area and an MS in Educational Psychology (Learning and Decision-Making in Leadership concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/educational-psychology-ms/)in an accelerated time-frame after satisfactory completion of a minimum of 138 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/) for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (https://catalog.gmu.edu/policies/academic/graduate-policies/#text).

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria (see Application Requirements and Deadlines) (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MS program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

This bachelor's degree provides teacher candidates with the specialized knowledge, skills, and dispositions needed to meet the educational needs of students in grades PreK-6. The robust, well-rounded program of study includes general and content-specific methods courses designed to prepare reflective teachers who are responsive to students' diverse needs and ready to advance the 21st Century classroom. A strong partnership with local PK-6 schools ensures that teacher candidates are immersed in classroom settings with elementary students throughout their teacher preparation program. Graduates recognize and adapt to students' needs, interests and readiness levels through innovative, research-based pedagogical practices.

Admissions & Policies

Admissions

Students interested in majoring in Elementary Education are initially enrolled as BPRE, or Pre-Elementary Education. They must meet certain requirements and successfully complete the appropriate application form to be admitted to the BSEd in Elementary Education.

The requirements for admission to the BSEd in Elementary Education from BPRE status are:

- 2.50 overall GPA
- Within 9 credits of completing the Mason Core requirements
- Complete a Content Area Coursework review

Policies

Students in the BSEd in Elementary Education must maintain at least a 2.50 GPA and earn a C or better in their coursework. Prior to applying for internship, students must successfully complete:

- Emergency First Aid, CPR and AED certification or training
- Virginia Communication & Literacy Assessment (VCLA)
- Praxis Core Math, SAT Math or ACT Math
- Reading for Virginia Educators: Elementary and Special Education
- Praxis Subject Assessment for Elementary Education
- Completion of Content Area Coursework

Licensure testing requirements are determined by the Commonwealth of Virginia and may change at any time. If changes to these requirements occur, students must meet the current testing and licensure requirements as set forth in the legal Code of Virginia.

Termination from Program Policy:

Termination from the major may be imposed as a result of excessive repeating of required courses without achieving the minimum standard, and for other evidence of continued failure to make adequate progress toward completion of the major, including failure to maintain at least a 2.5 cumulative GPA and failure to exhibit professional dispositions (https://cehd.gmu.edu/teacher/professional-disposition/).

A grade of C or higher is required in each of the Elementary Education major courses (see Requirements section in this catalog for list of 17 required major courses). Students will not be permitted to make more than three graded attempts to achieve a C or higher in each course. Once a student has attempted a major course twice unsuccessfully, they must meet with an academic advisor in order to develop a success plan and receive an override to register for the third attempt. Those who do not successfully complete a major course within three attempts will be terminated from the major.

Students have the right to appeal termination from major by following the CEHD academic appeal process (https://cehd.gmu.edu/students/policies-procedures/undergraduate/).

Health Promotion Minor

Banner Code: HPR

Academic Advising

Phone: 703-993-2060
Email: srht@gmu.edu
Website: https://kinesiology.gmu.edu/health-promotion-minor/

The Health Promotion minor introduces students to the professional activity of specialists within the health promotion field. Coursework involves theory, practical application, and selective coursework to increase health science knowledge and to explore current issues in health promotion. The minor complements majors in Kinesiology, Community Health, Integrative Studies, Communication, and other programs.

This minor is available to all Mason undergraduate students.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 18

Human Development and Family Science Minor (CEHD)

Banner Code: HDFS

Academic Advising

Phone: 703-993-6610
Email: HDFS@gmu.edu
Website: hdfs.gmu.edu/human-development-family-science/minor

This 15-credit interdisciplinary minor is available to all Mason undergraduate students and provides background knowledge in human development and family science, specifically addressing how diverse children and adults develop, adapt, and function within the contexts of their families, communities and society.

This minor is a joint program with coursework selected from both the College of Education and Human Development (CEHD) and the College of Humanities and Social Sciences.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Total credits: 15

Core Course

Code	Title	Credits
HDFS 200	Individual and Family Development (Mason Core)	3
HDFS 400	Advanced Family Processes (Mason Core)	3
Total Credits		6

Electives

Code	Title	Credits
Select at least one course from each of the two component areas (development and diversity) below		6
A third elective may be selected from any component or with permission of an HDFS advisor		3
Total Credits		9

To reflect the interdisciplinary nature of the HDFS minor, two courses must have prefixes from disciplines outside of your major area of study (e.g., for PSYC majors, two courses must come from CEHD prefixes: ATEP, ECED, EDUC, HEAL, PHED; for ECED majors, two courses must come from CHSS prefixes: ANTH, INTS, PSYC, SOCI).

Development

Code	Title	Credits
Select at least one from the following:		
ECED 401	Developmental Pathways of Diverse Learners, Birth-Adolescence	
EDUC 302	Human Growth and Development	
INTS 312	Images and Experiences of Childhood: Social Construct, Literature, and Film	
INTS 316	Introduction to Childhood Studies (Mason Core)	
INTS 319	Contemporary Youth Studies (Mason Core)	
PSYC 211	Developmental Psychology (Mason Core)	
PSYC 313	Child Development	
PSYC 314	Adolescent Development	
PSYC 415	Psychological Factors in Aging	
SOCI 360	Youth Culture and Society (Mason Core)	

Diversity

Code	Title	Credits
Select at least one from the following:		
ANTH 332	Cross-Cultural Perspectives on Globalization (Mason Core)	
ATEP 205	Cultural Competence	
ECED 405	Introduction to Early Childhood Special Education	
EDUC 203	Disability in American Culture (Mason Core)	
HEAL 350	Interventions for Populations and Communities at Risk	
HDFS 301	The Hospitalized Child and Family	
INTS 320	Construction of Differences: Race, Class, and Gender (Mason Core)	
INTS 336	Poverty, Wealth and Inequality in the US (Mason Core)	
INTS 362	Social Justice and Human Rights (Mason Core)	
PSYC 379	Applied Cross-Cultural Psychology (Mason Core)	
SOCI 308	Race and Ethnicity in a Changing World (Mason Core)	
SOCI 355	Social Inequality (Mason Core)

Website: hdfs.gmu.edu/human-development-family-science

This degree prepares its graduates to use family-centered and strengths-based approaches to support the health and well-being of individuals and families in diverse communities. Graduates will have a strong interdisciplinary foundation in the HDFS field and competencies in 10 areas as established by the National Council on Family Relations, including:

- internal dynamics of relationships and families
- human growth and development
- family-and community-based program planning, implementation, and evaluation
- social policies and laws affecting families
- family diversity
- research methodology
- professional ethics as related to the HDFS field

The HDFS curriculum prepares students to effectively engage with families across the lifespan and in a variety of service settings and professions, from early childhood education and care to family law and policy advocacy.

Our program prepares students to critically analyze complex family issues, advocate for families in schools, communities, and in the policy arena, and address social-structural factors contributing to and influencing family functioning, health, and well-being (e.g., poverty and wealth inequality, immigration and illegalization, family homelessness, incarceration, family violence, and discrimination and structural violence such as racism, nationalism, or heterosexism). Students are required to complete a 6-credit internship and integrate research training with service fieldwork. Such an experience is a critical component of HDFS student development and will further prepare our students for graduate education and diverse careers in the human development and family science field.

The HDFS program is a joint academic degree program sponsored by the College of Education and Human Development (CEHD) and the College of Humanities and Social Sciences (CHSS).

International ESOL/ESL Teacher Education Graduate Certificate

Banner Code: E1-CERG-IETE

Academic Advising

Phone: 703-993-3173
Email: TCLDEL@gmu.edu

Available Concentrations

Concentration in ESOL/ESL Special Education

This concentration offers coursework for students and professionals seeking crossover training in ESL/ESOL and special education.

Concentration in International Special Education (PK-12)

This concentration is designed for pre-service and in-service international teachers and educators who desire additional training in special education. All coursework may be applied to the MEd in Special Education and will count towards Virginia licensure in special education K-12.

Concentration in PK-12 for Practitioners

This concentration prepares educators for both domestic and international teaching assignments working with culturally and linguistically-diverse learners. It provides courses for licensed teachers to earn an add-on endorsement in English as a second language (ESL) PK-12, also known as English for speakers of other languages (ESOL). Candidates whose first language is not English may be required to pass an oral and written proficiency assessment in English to meet state licensure requirements and national professional standards.

Admissions & Policies

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Requirements

Certificate Requirements

Total credits: 15-21

This certificate may be pursued on a full-or part-time basis.

Students pursuing this graduate certificate may choose from any of the following concentrations:

Concentration in ESOL/ESL Special Education (EESE)

This concentration may only be pursued on part-time basis.

Code	Title	Credits
Coursework		
EDCI 516	Bilingualism and Language Acquisition Research	3

EDCI 519	Methods of Teaching Culturally and Linguistically Diverse Learners	3
EDCI 520	Assessment of Language Learners	3
EDSE 501	Introduction to Special Education	3
or EDSE 540	Characteristics of Students with Disabilities who Access the General Curriculum	
EDSE 503	Language Development and Reading	3
Select one from the following:		3
EDSE 628	Elementary Reading, Curriculum, Strategies for Students Who Access the General Education Curriculum	
EDSE 629	Secondary Curriculum and Strategies for Students with Disabilities who Access the General Curriculum	
Total Credits		18

Concentration in International Special Education (PK-12) (ISED)

This concentration may only be pursued on a part-time basis.

Students must earn grades of B or higher in all coursework. Most coursework has some field experience component.

Code	Title	Credits
Coursework		
EDCI 776	Consultation and Collaboration in Diverse K-12 Settings	3
EDSE 501	Introduction to Special Education	3
EDSE 502	Classroom Management and Applied Behavior Analysis	3

Email: LearnTech@gmu.edu
Website: learntech.gmu.edu

This master's program is designed to equip students in various industry contexts to work collaboratively with business leaders and subject matter experts to identify opportunities and recommend solutions to address learning needs; apply new and emerging technologies to design, develop, and implement innovative solutions to learning and performance problems; and monitor and evaluate the effectiveness of learning interventions using metrics, measures and analytics that align with business objectives. Students will be able to perform these functions individually and as part of interdisciplinary design teams using a variety of methodologies, learning technologies and digital courseware development packages.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study. See Graduate Admissions Policies.

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies.

Website: learntech.gmu.edu

Available Concentrations

There are three available concentrations, two of which meet the needs of K-12 educators interested in teaching in blended as well as fully online learning environments, and one focused on learning designers working in industry, government, and the non-profit sector. All three concentrations are offered fully online.

Concentration in Blended and Online Learning in Schools

This concentration meets the needs of K-12 educators interested in teaching in blended as well as fully online learning environments. The concentration is offered fully online.

Concentration in Designing Digital Learning in Schools

This concentration is offered to practicing teachers who wish to gain the necessary knowledge and skills for integrating digital learning and K–12 curricular knowledge outcomes. The concentration is framed by four learning outcomes: investigation of the theory and practice of digital learning, connection of digital learning and knowledge outcomes, use of design principles and processes to inform practice, and knowledge of a range of technologies appropriate for PreK-12 learners.

Concentration in E-Learning

This concentration provides professionals with specialized knowledge in instructional design and e-learning practices that utilize current and emerging technologies to meet education and training goals in communities, government agencies, and corporate settings. Courses are offered totally online.

Admissions & Policies

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Requirements

Certificate Requirements

Total credits: 15-18

This certificate may be pursued on a full-or part-time basis.

Students pursuing this graduate certificate may choose from any of the following concentrations:

Concentration in Blended and Online Learning in Schools (BOLS)

Total credits: 15

This concentration may be pursued on a part-time basis only.

Website: https://education.gmu.edu/literacy-and-reading/academics/literacy-coaching-graduate-certificate (https://education.gmu.edu/literacy-and-reading/academics/literacy-coaching-graduate-certificate/)

The Literacy/Reading Instruction Graduate Certificate offers coursework to prepare teachers who already hold a master's degree to serve as literacy leaders, reading specialists, or literacy coaches in K-12 settings.

Available Concentrations

Concentration in Reading Specialist (K-12)

The Reading Specialist (K-12) concentration is designed for teachers who already have a master's degree and are interested in developing the expertise needed to serve as literacy leaders. Coursework helps teachers develop an in-depth understanding of literacy development across the lifespan, instructional and assessment strategies for individuals and groups of students, and provides preparation as a Reading Specialist. Successful completion of this state-approved sequence of courses can lead to eligibility for the K-12 Reading Specialist license in Virginia. Additional state requirements for the license include holding a master's degree, having an initial teaching license, earning a satisfactory score on the Reading for Virginia Educators: Reading Specialist exam, and having at least three years of teaching experience under contract.

Concentration in Literacy Coaching

The Literacy Coaching concentration is designed for current Reading Specialists or others with a strong background in literacy who want to more effectively support teachers' professional learning, and ultimately student achievement, through literacy coaching. Coursework provides an in-depth understanding of adult learning, effective professional development techniques, strategies for supporting collaboration and communication, using data to foster change, ways to more effectively use technology when working with teachers, and issues of diversity and equity in literacy instruction.

Admissions & Policies

Admissions

Students enrolling in the Literacy Coaching concentration must hold either a Master's degree in Literacy (or closely-related field) or license/endorsement as a Reading Specialist.

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Requirements

Certificate Requirements

Total credits: 12-21

This certificate may be pursued on a part-time basis only.

Concentration in Reading Specialist (K-12) (RSPC)

Coursework

Students enrolled in this program must earn a B- or higher in all coursework.

Academic Advising

Phone: 703-993-3670
Email: speced@gmu.edu
Website: https://education.gmu.edu/special-education/teacher-licensure/general-curriculum#general

This minor provides undergraduate students with background knowledge in teaching students with mild disabilities. Completing this minor partially fulfills requirements for licensure in Special Education in Virginia.

Admissions & Policies

Policies

At least eight credits must be unique to this minor and may not be used to fulfill requirements of the student's major, concentration, an undergraduate certificate, or another minor. Students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Website: https://education.gmu.edu/health-and-physical-education/

Overview

Completing this degree fulfills requirements for licensure in Health and Physical Education (PK-12) in Virginia. Students complete a student teaching experience in their final semester.

Admissions & Policies

Admissions

Four-Year Students

Students entering as freshmen with an interest in majoring in physical education will initially be accepted with BPRE status (Pre-Bachelor in Health and Physical Education). Students must successfully complete a minimum of 45 credits and attain a cumulative GPA of 2.50 to apply to the BSED in Physical Education Program. In addition:

- Recommended: submit passing score of 150 for the Praxis Core Academic Skills for Educators in Math (5732) and 470 composite score on VCLA Reading and Writing or passing scores on approved substitute tests
- have earned passing grades in
  - BIOL 124 Human Anatomy and Physiology
  - BIOL 125 Human Anatomy and Physiology
  - PHED 202 Teaching Skillful Movement C or better
- have earned at least 10 professional points (https://rht.gmu.edu/health-and-physical-education/professional-development-plan/).

Degree-Seeking Transfer Students

Transfer students can apply for BSEd status by having:

- earned a minimum of 45 credits from their previous institution with a cumulative GPA of 2.50 or by completing 12 credits at Mason with a minimum of a 2.50 GPA;
- Recommended passing scores of 150 for the Praxis Core Academic Skills for Educators in Math (5732) and 470 composite score on VCLA Reading and Writing or passing scores on approved substitute tests.
- have earned passing grades in
  - BIOL 124 Human Anatomy and Physiology
  - BIOL 125 Human Anatomy and Physiology
  - PHED 202 Teaching Skillful Movement C or better
- earned at least 10 professional points (https://rht.gmu.edu/health-and-physical-education/professional-development-plan/).

Policies

For policies governing all undergraduate degrees, see the AP.5 Undergraduate Policies section of the catalog.

Student Teaching Internship

To enroll in PHED 415 Student Teaching in Physical Education (Mason Core), physical education majors must:

- have a minimum 2.50 GPA in the last 60 credits of coursework
- have passed and electronically submitted test scores for the VCLA and PRAXIS II exams to George Mason University and provide a paper copy of the test scores to the internship coordinator
- have satisfactorily completed all required Mason core and professional concentration courses
- have successfully completed an emergency First Aid, CPR and AED certification or training.

The application must be completed one full semester before taking PHED 415 Student Teaching in Physical Education (Mason Core). Application deadlines are listed below and forms are located online (http://rht.gmu.edu/programs/phed/student_teaching/).

Application Deadlines

- Fall Semester—February 1
- Spring Semester—September 1

Select 9 credits in electives.		9
Total Credits		82

1 Requires a grade of C or better.

2 Students must complete student teaching (PHED 415 Student Teaching in Physical Education (Mason Core) within 5 years of completing PHED 202 Teaching Skillful Movement. If more than five years has lapsed from taking PHED 202 Teaching Skillful Movement and student teaching (PHED 415 Student Teaching in Physical Education (Mason Core), students will have to retake this foundational course before they can student-teach.

Professional Development and Fitness Requirement

Students must earn at least 10 professional development points (https://rht.gmu.edu/health-and-physical-education/professional-development-plan/) to achieve BSEd status and 20 additional points to apply for student teaching. Professional development points may be earned by attending or volunteering at various events and activities.

Additionally, students will be expected to achieve and maintain the healthy zone of health related fitness as measured by FitnessGram® throughout their program. Accommodations will be made for students with documented physical disabilities.

Psychology, MA (CEHD)

Banner Code: E1-MA-PSYC

Academic Advising

Phone: 703-993-5127
Email: nbeadles@gmu.edu
Website: education.gmu.edu/school-psychology/

The School Psychology program which consists of the MA in Psychology, concentration in School Psychology and the School Psychology Graduate Certificate, is committed to preparing graduate students to practice psychology in educational and clinical settings that serve children, adolescents, and their families. The program is approved by the School Psychology Training Programs of the National Association of School Psychologists (NASP). Students who successfully complete the concentration and the certificate will be eligible for licensure in Virginia by the state Board of Education and certification or licensure in other states as a school psychologist.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions. Fifteen credits of undergraduate psychology courses are required (General, Statistics, Research Methods/Experimental, Abnormal, and Developmental).

Policies

For policies governing all graduate degrees, see Graduate Policies.

With the approval of the academic program coordinator, division director and CEHD Office of Student and Academic Affairs, a maximum of 21 credits may be reduced based on a previously-conferred graduate degree.

Phone: 703-993-3696
Email: seed@gmu.edu
Website: education.gmu.edu/secondary-education-6-12/academics/secondary-education-biology-undergraduate-certificate

This 23-credit certificate is available only to students pursuing a BA (https://catalog.gmu.edu/colleges-schools/science/biology/biology-ba/)or BS (https://catalog.gmu.edu/colleges-schools/science/biology/biology-bs/) in Biology. Students who complete both the BA (https://catalog.gmu.edu/colleges-schools/science/biology/biology-ba/)or BS (https://catalog.gmu.edu/colleges-schools/science/biology/biology-bs/) in Biology and this certificate will be considered *Virginia state-approved educator preparation program completers* and will be eligible for recommendation for an initial VA teaching license in Secondary Education (6-12) Biology.

Admissions & Policies

Admissions

Students applying for this undergraduate certificate as a secondary program must have satisfied the following requirements:

- enrolled in the BA or BS in Biology program
- a minimum cumulative GPA of 3.00
- an official College of Education and Human Development review of discipline-specific content competencies coursework
  (note: a minimum grade of C (2.00) must have been attained in such coursework completed at Mason).
  See website (https://cehd.gmu.edu/teacher/think-you-want-to-be-a-teacher/) for more information on the admissions process.

Policies

Prior to application for internship, students are required to complete all discipline-specific content competency (https://cehd.gmu.edu/endorse/) requirements, pass licensure assessments, and have earned a grade of B (3.00) or better in all licensure coursework.

Requirements

Website: education.gmu.edu/secondary-education-6-12/academics/secondary-education-earth-science-undergraduate-certificate

This 23 credit certificate is available only to students pursuing a BS in Earth Science (https://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/earth-science-bs/). Students who complete both the BS in Earth Science (https://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/earth-science-bs/) and this certificate will be considered *Virginia state-approved educator preparation program completers* and will be eligible for recommendation for an initial VA teaching license in Secondary Education (6-12) Earth Science.

Admissions & Policies

Admissions

Students applying for this undergraduate certificate as a secondary program must have satisfied the following requirements:

- enrolled in the BS in Earth Science program
- a minimum cumulative GPA of 3.00
- an official College of Education and Human Development review of discipline-specific content competencies coursework

(note: a minimum grade of C (2.00) must have been attained in such coursework completed at Mason).
See website (https://cehd.gmu.edu/teacher/think-you-want-to-be-a-teacher/) for more information on the admissions process.

Policies

Prior to application for internship, students are required to complete all discipline-specific content competency (https://cehd.gmu.edu/endorse/) requirements, pass licensure assessments, and have earned a grade of B (3.00) or better in all licensure coursework.

Requirements

Certificate Requirements

Total credits: 23

This certificate may be pursued on a full-or part-time basis.

Website: https://education.gmu.edu/special-education/teacher-licensure/adapted-curriculum#adapted

This minor provides undergraduate students with background knowledge in teaching students with severe disabilities. Completing this minor partially fulfills requirements for licensure in Special Education in Virginia.

Admissions & Policies

Policies

At least eight credits must be unique to this minor and may not be used to fulfill requirements of the student's major, concentration, an undergraduate certificate, or another minor. Students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Available Concentrations

Concentration in Adapted Curriculum (K-12)

This 36-credit concentration offers required coursework for Virginia teacher licensure in Special Education: Adapted Curriculum. This concentration prepares individuals to work with students who have severe disabilities and who require significant support and specialized instruction to make progress in communication skills, reading, math, and life skills.

Concentration in General Curriculum (K-12)

This 33-credit concentration offers required coursework for Virginia teacher licensure to individuals who will be working with students with disabilities who access the general curriculum. The concentration prepares individuals to work with students with disabilities who take Standards of Learning tests (SOLs).

Concentration in Visual Impairments Licensure (PK-12)

This 35-credit concentration provides teacher candidates with the tools they need to work with students who are blind and visually impaired, including those who have multiple disabilities and diverse learner characteristics. Candidates will gain skills and knowledge to support students in a variety of settings, including general and special education, in core content, and the Expanded Core Curriculum. This concentration is designed for candidates seeking Virginia initial teacher licensure in visual impairments (PK–12).

Admissions & Policies

Policies

Students who have completed graduate or undergraduate coursework equivalent to certificate coursework prior to admission to this program may request that some courses in this certificate be waived. Students who are eligible to waive coursework must complete a minimum of 15 credits to graduate. Students must earn a B- or better in all coursework.

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Requirements

Certificate Requirements

Total credits: 33-36

This certificate may be pursued on a full-or part-time basis.

Students pursuing this graduate certificate may choose from any of the following concentrations:

Academic Advising

Phone: 703-993-3670
Email: speced@gmu.edu
Website: education.gmu.edu/special-education/professional-studies/special-education-leadership

This certificate provides training for educators who administer program implementation efforts for learners with exceptional needs. It is designed for those who have an interest in becoming special education directors, program coordinators, school building administrators, department chairs, or lead teachers; however, opportunities beyond special education also exist.

This graduate certificate is a cohort-only program in which students begin and end the program together as a group. It may only be pursued on a part-time basis.

Admissions & Policies

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Special Education, BSEd

Banner Code: E1-BSED-EDSE

Phone: 703-993-3670
Email: speced@gmu.edu
Website: https://education.gmu.edu/special-education/degree-options

This bachelor's degree is designed to prepare both educators for the classroom and individuals working in a special education context outside of the classroom with the specialized skills and content knowledge needed to support the needs of individuals with disabilities. Students may focus their program on a specific area in the field by completing a teacher licensure concentration (i.e., Teaching Students with Disabilities who Access the General Curriculum K-12, Teaching Students with Disabilities who Access the Adapted Curriculum K-12, Teaching Students with Blindness and Visual Impairments PK-12) or a non-licensure sequence to fulfill the requirements for the BSEd in Special Education degree program.

Admissions & Policies

Admissions

Students with an interest in majoring in Special Education will initially be accepted into the Special Education, BSEd, without concentration.

Four-Year Students

To declare a concentration in General K-12 Licensure, Adapted K-12 Licensure, or Blindness and Visual Impairments PK-12 Licensure, four-year students must:

- complete a minimum of 45 credits
- attain a cumulative GPA of 2.50

Degree-Seeking Transfer Students

To declare a concentration in General K-12 Licensure, Adapted K-12 Licensure, or Blindness and Visual Impairments PK-12 Licensure, transfer students must:

- complete a minimum of 45 credits
- earn either a cumulative GPA of 2.50 from their previous institution or a minimum of a 2.50 GPA of at least 12 credits at Mason

Policies

Students in the licensure concentrations must maintain at least a 2.50 GPA and earn a C or better in their program core and concentration coursework. Prior to applying for internships students in all licensure concentrations, must successfully complete:

- Emergency First Aid, CPR and AED certification or training.
- Virginia Communication & Literacy Assessment (VCLA)
- Praxis Core Math, SAT Math or ACT Math

Students enrolled in the General K-12 Licensure concentration must also complete:

- Reading for Virginia Educators: Elementary and Special Education

Students enrolled in the Blindness and Visual Impairments PK-12 Licensure concentration must also complete:

- Praxis II: Braille Proficiency
- Reading for Virginia Educators: Elementary and Special Education

Licensure testing requirements are determined by the Commonwealth of Virginia and may change at any time. If changes to these requirements occur, students must meet the current testing and licensure requirements as set forth in the legal Code of Virginia.

4-Year Plan

Bachelor of Science in Education, Special Education Sample Plan of Study

The sample plan below is a recommended sequencing of courses based on pre-requisites and scheduling. This may not fit every student's needs and is a guideline, not a requirement. Students should confirm major requirements with their academic advisor and with PatriotWeb Degree Evaluation to ensure they enroll in the proper courses and are on track to graduate.

This master's degree is designed to prepare both educators for the classroom and individuals working in a special education context outside of the classroom with the specialized skills and content knowledge needed to support the needs of individuals with disabilities. Students may focus their program on a specific area in the field by completing a licensure or non-licensure certificate program in conjunction with the MEd and using certificate coursework to fulfill the elective credits for the MEd degree program.

MEd with concentration in Early Childhood Special Education (Non-licensure) (SPEC)

This concentration is for professionals who already hold an early childhood special education teacher license or are interested in working in an early childhood special education context outside the classroom. Students who wish to seek early childhood education licensure are advised to consider completing the Early Childhood Special Education Licensure graduate certificate program in conjunction with the MEd. Students may use their certificate coursework to fulfill the elective credits for the MEd degree program.

MEd with concentration in Early Childhood Special Education Licensure (SPCL)

This 36-credit concentration offers required coursework for teacher licensure in Early Childhood Special Education. Students who have completed graduate or undergraduate coursework equivalent to concentration coursework prior to admission to this program may request that some courses in this concentration be waived. Students who are eligible to waive coursework must complete a minimum of 30 graduate-level credits to graduate. A grade of B- or better must be earned in all coursework.

In addition to the ECED concentration coursework, students must complete mandated state/accreditation assessments.

Accelerated Master's

Bachelor's Degree (any)/Special Education, Accelerated MEd

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA or BS in any degree area and an MEd in Special Education (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/special-education-med/#text)in an accelerated time-frame after satisfactory completion of a minimum of 138 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/) for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (https://catalog.gmu.edu/policies/academic/graduate-policies/#text).

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria (see Application Requirements and Deadlines) (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
EDSE 501	Introduction to Special Education	3
EDSE 517	Computer Applications for Special Populations	3
Select one from the following:		3
EDSE 503	Language Development and Reading	
EDSE 557	Foundations of Language and Literacy for Diverse Learners	
EDSE 625	Applied Behavior Analysis: Verbal Behavior	
EDSE approved elective		

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Bachelor's Degree (any)/Special Education, Accelerated MEd (Early Childhood Special Education (Licensure) Concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA or BS in any degree area and an MEd in Special Education (Early Childhood Special Education (Licensure) concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/special-education-med/#text)in an accelerated time-frame after satisfactory completion of a minimum of 144 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/) for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (https://catalog.gmu.edu/policies/academic/graduate-policies/#text).

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria (see Application Requirements and Deadlines) (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following (to be determined by the student and their advisor):

Advanced Standing Courses (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) **(up to 12 credits)**

Code	Title	Credits

Academic Advising

Phone: 703-993-3670
Email: speced@gmu.edu
Website: https://education.gmu.edu/special-education/teacher-licensure/visual-impairments#visual

This minor provides undergraduate students with background knowledge in teaching students with visual impairments. Completing this minor partially fulfills requirements for licensure in Special Education in Virginia.

Admissions & Policies

Policies

At least eight credits must be unique to this minor and may not be used to fulfill requirements of the student's major, concentration, an undergraduate certificate, or another minor. Students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

School of Kinesiology

Website: https://kinesiology.gmu.edu/

Overview

The School of Kinesiology (SOK) offers one doctoral concentration, two master's degrees, one graduate certificate, one bachelor's/accelerated master's program, one undergraduate degree and one minor. The SOK strives to develop a global reputation for delivering exceptional instruction, conducting research of consequence, and providing service to the community to enhance overall societal well-being. The SOK educates high-quality professionals through a variety of innovative experiential learning opportunities to improve the physical performance, health, and well-being of the community across the lifespan. This is done by fostering interdisciplinary collaboration and using evidence- based practices to develop professional leaders.

Graduate Programs

The PhD in Education with a Kinesiology concentration cultivates research-based educators and practitioners to be critical thinkers and apply evidence-based (research-based) practice principles to preserve and enhance human movement in all settings and populations, promote optimal health and enhanced quality of life through physical activity, and provide rewarding learning experiences, through the conduct and dissemination of exemplary scholarship and preparation of professionals committed to service.

The MS in Athletic Training (MSAT) is a professional, entry-level program that prepares students to become certified athletic trainers with the clinical knowledge, skills, and professional attitudes that will enable them to deliver health care effectively to diverse patients in a variety of clinical settings, with an emphasis on the pediatric population. The MSAT is accredited by the Commission on Accreditation of Athletic Training Education (CAATE).

The MS in Kinesiology provides students with an evidence-based approach to the study of Kinesiology, becoming data scientists who collect, analyze, interpret and present data regarding human movement. Graduates fill positions such as sport scientists, biomechanical and physiology researchers, clinical exercise physiologists and directors of strength and conditioning.

Bachelor's Degree

The BS in Kinesiology is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP. American College of Sports Medicine sponsored) and holds national program recognition status from the National Strength and Conditioning Association (NSCA-ERP). Students are exposed to a multidisciplinary, evidence-based approach to the study of human movement, utilizing classroom, laboratory, and experiential learning environments. Emphasis is placed upon the development of future professionals with strong scientific knowledge in health, wellness, and performance across the lifespan.

Website: https://kinesiology.gmu.edu/athletic-training/masters-in-athletic-training-msat

This is a professional preparation program for aspiring athletic training healthcare professionals.

The program provides students with a strong foundation of the competencies and proficiencies (knowledge, skills and attitudes) and educational clinical experiences that comply with the Commission on Accreditation of Athletic Training Education (CAATE) standards for professional athletic trainer preparation. Because of increasing employment opportunities in youth athletic leagues and school settings, students also engage in pediatric sports medicine coursework to address the special needs of this patient population. Students will deliver care to diverse patient populations at a variety of clinical practicum education sites.

Successfully completing the program will prepare a student to become a nationally certified, athletic training Board of Certification (BOC®), Virginia Board of Medicine licensed athletic trainer.

Admissions & Policies

Admissions

Application Requirements

- Completed Application for Graduate Study or Application through ATCAS
- GRE is optional

- Personal goals statement (up to 500 words), covering the following items: academic and occupational background, the development of your interest in athletic training, reasons for wanting to enter this program, qualities you possess which will enhance functioning as an athletic trainer, career objective(s)
- Two recommendations from professional references
- Proof of current Emergency Cardiac Care (CPR/AED) Certification at the level of Healthcare Professional
- Grade of "C" or better in the following courses:

Code	Title	Credits
Anatomy and Physiology		6-8
Exercise Physiology		3
Research Methods		3
Basic Nutrition		3
Medical Terminology		3
Biology		3
Chemistry		3
Physics		3
Psychology		3
Statistics		3

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies.

Requirements

Degree Requirements

Total credits: 65

All courses should be taken at Mason. Transfer credit requests will be evaluated on an individual basis. Students wanting to transfer courses into the MSAT must meet with the MSAT program director to engage in an evaluation of courses. Course transfers are at the discretion of the program.

The MSAT requires a grade of B or higher in all MSAT required coursework. In the first nine credits of the program, one course with a grade of B- or C may be allowed. Students must maintain current Health Care Provider Emergency Cardiac Care (ECC) and First Aid certifications.

ATEP 676	Athletic Training Practicum 4 (university/ high school; 300 hours)	4
ATEP 686	Athletic Training Practicum 5 (450-600 hours)	6
Total Credits		15

Special Requirements

Fees and Expenses

ATEP course fees are published on the Mason Student Accounts website (https://studentaccounts.gmu.edu/tuition-fees/) (see College of Education and Human Development Courses Fees). All tuition and fees are handled through the Student Accounts Office (https://studentaccounts.gmu.edu/). For additional information on housing, transportation, and other costs please see the Admissions Paying for College website. (https://www2.gmu.edu/admissions-aid/paying-college/)

Technical Standards

After admission to the MSAT, students must submit a technical standards certification statement, located on the MSAT website, indicating that they have read, understand, and can meet the technical standards for athletic training students, either with or without accommodation. These standards outline the essential functional tasks that students must be able to perform to enroll in and complete the program. Students requiring special accommodations are encouraged to contact the Office of Disability Services (http://ds.gmu.edu/).

Health Examinations and Certifications

Athletic training students are required to have evidence of completion of the three hepatitis B immunizations, a titer report indicating positive immunity, or a signed waiver. Students choosing not to complete hepatitis B immunizations will be required to sign a declination waiver. Some practicum sites require proof of tuberculosis screening in accordance with current U.S. Public Health Service recommendations. Students will be responsible for any costs associated with such screenings. All MSAT students must complete annual blood-borne

pathogens and infectious disease exposure training offered in the practicum courses. All students must have proof of current Emergency Cardiac Care (CPR/AED Certification at the level of a Healthcare Professional (e.g. American Heart Association's Basic Life Support for Healthcare Professionals, the Emergency Care & Safety Institute (ECSI)) and First Aid Certification. For additional information about MSAT academic policies and procedures refer to the MSAT website (https://kinesiology.gmu.edu/athletic-training/masters-in-athletic-training-msat/) and individual course syllabi.

Background Check

Students will be required to undergo a criminal background check at the student's expense, upon admission to the MSAT. Most practicum sites require an additional background check before engaging in patient treatment. These may also be at the student's expense, and the cost may vary. The Clinical Education Coordinator will provide instructions to complete the background check. If a criminal background check fails to meet the requirements of a student's assigned practicum site, the student will be withdrawn from the practicum site and if a new site cannot be found due to failing the criminal background check the student will be prohibited from completion of the MSAT curriculum. Students are encouraged to disclose any criminal background incidences to the MSAT Director and Clinical Education Coordinator prior to beginning the MSAT program, to determine if the incidence(s) might be detrimental to placement at a practicum site.

Transportation Responsibilities

It is the responsibility of the MSAT student to arrange transportation to and from their assigned practicum course sites. It is recommended that students have personal transportation. A limited number of sites are accessible via public transportation. In the case that a practicum site is not accessible by public transportation and the student does not have a car, it is suggested the student take public transportation as far as possible and then take a taxi to the site. The student is responsible for all transportation fees including but not limited to gas, parking, bus, metro, taxi and other transportation expenses. Students that have financial difficulty are encouraged to meet with a financial aid advisor to seek additional assistance.

Summer Courses

Students are required to engage in MSAT summer courses on-line and face-to-face on campus. Housing and travel arrangements are the responsibility of the student.

Kinesiology Minor

Banner Code: KNES

Academic Advising

Phone: 703-993-5261
Website: https://kinesiology.gmu.edu/kinesiology/minor/

This 18-credit minor in kinesiology compliments many other majors at the University, especially those focusing on the health sciences. Students who minor in kinesiology will gain a base knowledge of human movement and the factors which affect it. Along with required courses, students will be able to select nine credits of electives that will best suit their interests.

Admissions & Policies

Admissions

This minor is available to all Mason undergraduate students except those earning a BS in Kinesiology.

Policies

Eight credits of coursework must be unique to the minor and may not be used to fulfill requirements of the student's major, concentration, an undergraduate certificate, or another minor. Students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Academic Advising

Phone: 703-993-5261
Website: https://kinesiology.gmu.edu/kinesiology/kinesiology-degree-requirements

This degree in kinesiology is a demanding science-based program designed to prepare students for a career in clinical exercise, coaching, corporate fitness, exercise and sport psychology, medical and exercise equipment sales, personal training, sport and exercise nutrition, sport science, or wellness/fitness management. The Kinesiology (KINE) program provides students with a strong science foundation for post-graduate specialized study in kinesiology or professional schools (e.g., chiropractic, medical, physical therapy). The KINE program has a comprehensive approach to the study of human movement. Three separate internship experiences totaling 700 hours provide KINE students with the opportunity to apply evidence-based knowledge and its practical application in general fitness, clinical and sports performance settings.

The KINE degree is designed to assist students in their preparation for nationally-recognized certifications, specifically those offered by the American College of Sports Medicine (ACSM) and the National Strength and Conditioning Association (NSCA). See Admissions and Policies for details.

Admissions & Policies

Policies

Certification

Students are required to challenge either the ACSM-Certified Exercise Physiologist (EP-C) or the NSCA-Certified Strength and Conditioning Specialist (CSCS) exam by the 7th week of the semester in which they are enrolled in KINE 490 Kinesiology Internship III (Mason Core). All exam registration fees are the responsibility of the student. Scores must be reported to the KINE Internship Coordinator before students can receive credit for KINE 490 Kinesiology Internship III (Mason Core).

GPA and Grading

Students are required to maintain a minimum cumulative GPA of 2.5 each semester and to receive a grade of C or better in all major coursework (BIOL 124 Human Anatomy and Physiology, BIOL 125 Human Anatomy and Physiology, STAT 250 Introductory Statistics I (Mason Core), as well as all Professional Sequence courses). Failure to do so will result in probation or termination from the KINE program. The Kinesiology Academic Advisor is available to assist KINE students with course registration and academic plans. It is expected that KINE students will meet with their Academic Advisor each semester that they are enrolled at GMU.

Select an additional 14 credits from any of the courses in the university catalog.		14
Electives		
Total Credits		14

Special Requirements

Fees and Expenses

All KINE courses have a per credit fee of $15. Fees cover the following:

- laboratory supplies and equipment
- clinical supplies
- internship attire

Technical Standards

This degree is academically-rigorous with a significant experiential learning component, which places specific demands and requirements on its students. After admission into the KINE program, students must submit a technical standards certification statement indicating that they have read, understand, and can meet the technical standards for KINE students, either with or without accommodation. These standards outline the essential functional tasks that students must be able to perform to enroll in and complete the program. Students requiring special accommodations are encouraged to contact the Office of Disability Services (http://ds.gmu.edu/).

Health Examinations and Certifications

KINE students are required to obtain a health examination and immunizations before beginning the internship phase of the program. Evidence of completion of the three hepatitis B immunizations and proof of tuberculosis screening in accordance with current U.S. Public Health Service recommendations must be provided. Costs associated with said screenings are to be assumed by the KINE student. Those who choose not to complete hepatitis B immunizations will be required to sign a declination waiver. All students must have Emergency Cardiac Care (CPR, AED) and First Aid certifications before entering their first internship experience and must maintain these certifications through the remainder of the KINE degree program.

Background Check

Students may be required to undergo a criminal background check prior to the first internship experience. Students must assume the risk that classes may be deferred and their program delayed due to the individual severity of notations on such a check and review by individual agencies. Students are encouraged to disclose any criminal background incidences to the KINE Program Coordinator prior to internship placement.

4-Year Plan

Bachelor of Science in Kinesiology Sample Plan of Study

The sample plan below is a recommended sequencing of courses based on pre-requisites and scheduling. This may not fit every student's needs and is a guideline, not a requirement. Students should confirm major requirements with their academic advisor and with PatriotWeb Degree Evaluation to ensure they enroll in the proper courses and are on track to graduate.

(To be supplemented by Mason Core and Electives)

Email: jmarti38@gmu.edu
Website: https://kinesiology.gmu.edu/kinesiology/ms-kinesiology

Kinesiology is a multi-dimensional field that includes specialized areas such as biomechanics, exercise physiology, motor behavior, athletic training, and sports medicine. The purpose of the MS in Kinesiology is to produce graduates who are movement and exercise specialists. The program uses an evidence-based approach that provides an advanced understanding of scientific evidence and research methods that addresses physical activity related aspects of general well-being, chronic disease, and human performance. Students learn how to become data scientists who collect, analyze, interpret and present data regarding human movement. Our students gain hands on experience using state of the art technology located in the SMART Lab (https://smartlab.gmu.edu/).

Graduates are able to work in private and government sectors which may be characterized as clinical, athletic, and military environments. Our graduates fill positions such as sport scientists, biomechanical and physiology researchers, clinical exercise physiologists, and directors of strength and conditioning.

Accelerated Master's

Bachelor's Degree (any)/Kinesiology, Accelerated MS

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BS or BA in any degree area and an MS in Kinesiology (https://catalog.gmu.edu/colleges-schools/education-human-development/school-kinesiology/kinesiology-ms/#text) in an accelerated time-frame after satisfactory completion of a minimum of 144 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/) for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (https://catalog.gmu.edu/policies/academic/graduate-policies/#text).

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria (see Application Requirements and Deadlines) (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MS program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- 3.0 content area GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
KINE 600	Scientific Foundation of Applied Kinesiology	3
KINE 601	Advanced Exercise Physiology	3
KINE 602	Movement and Fitness Assessment	3
KINE 603	Applied Biomechanics	3
KINE 604	Motor Control and Learning	3
KINE 605	Research Methods in Kinesiology	3

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Tactical Athlete Strength, Conditioning and Injury Prevention Graduate Certificate

Banner Code: E1-CERG-TSCI

Phone: 703-993-7607
Email: jmarti38@gmu.edu
Website: kinesiology.gmu.edu/kinesiology/graduate-certificate

The term Tactical Athlete (TA) can refer to firefighters, police officers, emergency medical personnel, and soldiers in all branches of the military. The unique physical requirements of the TA require high levels of fitness and the ability to perform strenuous tasks with little to no warning. For all TA fields, fitness testing, fitness, and injury prevention are inherently part of the culture. The United States Bureau of Labor reports average to above average growth of firefighters, police, and military occupations over the next decade. According to data from 2015 there are 1.1 million (345,000 career, 815,000 volunteer) firefighters, over 800,000 police officers, and more than 1.2 million active duty military in the US.

The Tactical Athlete Strength, Conditioning and Injury Prevention Graduate Certificate features a 6 course, 18 credit, 100% online curriculum. The mission of the certificate program is to provide graduates with foundational knowledge, skills and abilities to become leaders in tactical strength, conditioning and injury prevention. The curriculum covers content focused on improving the health, fitness and resiliency of emergency responders (i.e. Tactical Athletes). Upon graduation students will be prepared for a variety of positions (Strength and Conditioning Coach, Athletic Trainer, Health and Fitness Coordinator) or to pursue a graduate degree.

Admissions & Policies

Admissions

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions. For specific information about this program, see Graduate Application Deadlines and Requirements on the College website (https://kinesiology.gmu.edu/prospective-students/apply-to-cehd/deadlines/).

School of Sport, Recreation and Tourism Management

Website: https://srtm.gmu.edu/

Overview

The School of Sport, Recreation and Tourism Management (SRTM) offers one master's degree, one graduate certificate, one bachelor's/accelerated master's program, two undergraduate programs, one undergraduate certificate, five minors, and six interdisciplinary minors with other units.

Graduate Programs

The MS in Sport and Recreation Studies meets the growing need for professionals and academics through concentrations in the areas of Recreation Administration, Sport and Leisure Studies, Sport Management, and Individualized Study in Sport, Recreation and Tourism.

Graduate certificates are available in International Sport Management and Sports Coaching.

Undergraduate Programs

The BS in Health, Fitness, and Recreation Resources, with concentrations in Sport Management, Parks and Outdoor Recreation, and Therapeutic Recreation provide professional preparation in these exciting growth areas. Sport Management prepares capable graduates able to apply creative communication, leadership, and managerial skills in an array of positions in the $1.3 trillion sport sector, including sales, marketing, public relations, operations, facilities, and event management. The Parks and Outdoor Recreation and Therapeutic Recreation concentrations are accredited by the Council on Accreditation for Parks, Recreation, Tourism, and Related Professions (COAPRT), and prepare students for supervisory and management careers in private and public parks and recreation systems (clinical and community). Therapeutic Recreation graduates implement interventions and rehabilitation activities to enhance the quality of life for special populations. Parks and Outdoor Recreation graduates plan and implement community recreation programs, lead outdoor activities, and manage the uses of natural and cultural resources.

The BS in Tourism and Events Management degree prepares students to become future managers and leaders in one of the world's largest and most diverse industries: tourism, events and hospitality. Our Tourism and Events Management (TEM) major focuses on the management,

planning, implementation, marketing, and evaluation of tourism, events and hospitality businesses.

Minors

SRTM offers minors in sport coaching, sport management, tourism and events management, hospitality management and recreation management.

Interdisciplinary Minors

In addition to school-based minors, the SRTM offers several minors in interdisciplinary areas of study. These minors require coursework from two or more disciplines and are administered by inter-unit faculty groups. The minors include:

Event Technical Production

The Event Technical Production Minor is offered jointly by the School of Sport, Recreation and Tourism Management and the School of Theater in the College of Visual and Performing Arts. Students will learn how to plan, manage and execute live events and presentations.

Sport Analytics

The Sports Analytics Minor is offered jointly by the School of Sport, Recreation and Tourism Management, School of Business, College of Science, and Volgenau School of Engineering.

Sport and American Culture

The Sport and American Culture Minor is offered jointly by the School of Sport, Recreation and Tourism Management and Department of History and Art History. Students will learn about sport and its interconnection with other societal institutions.

Sport and Computer Game Design

The Sport and Computer Game Design Minor is offered jointly by the School of Sport, Recreation and Tourism Management and the Computer Game Design Program in the College of Visual and Performing Arts. This minor provides a combined introductory look at both the sports and computer game industries.

Sport and Conflict Resolution

The Sport and Conflict Resolution Minor offered by the School of Sport, Recreation and Tourism Management and the Jimmy and Rosalynn Carter School for Peace and Conflict Resolution.

Sport Communication

The Sport Communication Minor is offered jointly by the School of Sport, Recreation and Tourism Management and the Department of Communication.

Coaching Minor

Banner Code: COCH

Academic Advising

Phone: 703-993-5200
Email: srht@gmu.edu
Website: srtm.gmu.edu/sport-management/degree-options/coaching-minor

This minor has been designed for Mason students interested in the coaching profession at all age and ability levels, including future high school teachers who also want to coach. With this selection of courses, students will be introduced to foundational concepts in sport psychology, philosophy, pedagogy, nutrition, athletic training and physiology as well as important sport industry business concepts. Coaching minors will complete their work with a field experience in sport coaching.

This minor is available to all Mason undergraduate students.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Event Technical Production Minor (CEHD)

Banner Code: EVTP

Academic Advising

Phone: 703-993-6079
Email: theater@gmu.edu
Website: https://srtm.gmu.edu/tourism-and-events-management/degree-options/event-technical-production-minor

This minor is offered jointly with the College of Visual and Performing Arts (School of Theater).

This minor, available to all Mason undergraduate students, offers the opportunity to study special event management and event technologies, design and production for installations and special events. Students will gain insights into industry standards and practices regarding planning, managing, and executing live events and presentations. The required courses in this minor provide students with a foundational overview of management and production. Students can complement that knowledge with specific electives that meet their individual interests in events and areas of design and technology.

Admissions & Policies

Policies

University policy states that students must earn 8 distinct credits that are not used for their major toward their minor, with a minimum grade of 2.00 earned in all courses applied to the minor. For policies governing all minors, see AP.5.3.4 Minors.

This 120-credit degree allows students to specialize in one of three varied concentrations:

- Concentration in Parks and Outdoor Recreation (Green Leaf program)
- Concentration in Sport Management
- Concentration in Therapeutic Recreation

Admissions & Policies

Policies

For policies governing all undergraduate degrees, see Academic Policies. Students should also review Mason Core requirements.

Internship Application

The internship is a 12-credit capstone course taken at the end of a student's academic program. Students must have earned 90 credit hours and met the specific prerequisites for their concentration to be eligible for the internship (see PRLS 490 Recreation Management Internship (Mason Core), and SPMT 490 Internship (Mason Core). The internship is designed to be a capstone experience for each student in his or her specific concentration area.

The internship process begins with a mandatory meeting hosted by the internship coordinator. During the preliminary phase students will develop learning goals and consult with faculty on viable internship sites. Once the internship site has been selected, the student must complete 400 hours of an applied experience in their field of study for Sport Management and Parks and Outdoor Recreation. Therapeutic Recreation (TR) requires a 560-hour, sixteen consecutive week field placement experience in therapeutic recreation services under a certified therapeutic recreation therapist (CTRS) using the therapeutic recreation process.

Throughout the internship for all programs, the student will be monitored by a site supervisor (CTRS for therapeutic recreation), as well as a university supervisor, to facilitate a meaningful experience.

Requirements

Degree Requirements

Total credits: 120

This is a Green Leaf program.

Concentration in Parks and Outdoor Recreation (POR)

This concentration within the Recreation Management program explores the contribution of recreation and parks to public well-being and quality of life. The curriculum includes courses in natural resources management, outdoor recreation programming, and environmental education. The Recreation Management program is accredited by the Council on Accreditation of Parks, Recreation, Tourism and Related Professions. Graduates of this career ready program are employed in national, state, and local recreation and park agencies, non-profit organizations, and private and commercial operations. Students complete both a supervised practicum and internship in professional settings.

Concentration in Sport Management (SPMT)

This concentration enhances the professional development of liberal arts-educated students, thereby preparing them to assume entry-level managerial positions in the multi-billion dollar sport industry, including private enterprises, government or public employment sectors, nonprofit or voluntary agencies, and commercial sport ventures. Preparation in sport marketing, sales, finance, ethics, sport communications, economics, law, operations, planning, and program leadership fosters the skills that enhance students' acquisition and advancement in sport management careers. An integral part of the program is the opportunity to complete two field experiences in sport organizations: a part-time practicum and a full-time internship.

Concentration in Therapeutic Recreation (TR)

This concentration within the Recreation Management program teaches a holistic approach to the treatment for people with disabilities across the lifespan. Completion of the therapeutic recreation (TR) foundation, issues, processes, programming and assessment courses to name a few, as well as an internship supervised by a Certified Therapeutic Recreation Specialist (CTRS), prepares graduating seniors to sit for the national exam sponsored by the National Council for Therapeutic Recreation Certification (http://nctrc.org/) and become a CTRS. The Recreation Management program is accredited by the Council on Accreditation of Parks, Recreation, Tourism and Related Professions. Graduates find employment in clinical and community settings; senior and adult health care; non-profit organizations; and schools.

Accelerated Master's

Bachelor's Degree (any)/Sport and Recreation Studies, Accelerated MS

Overview

Qualified Mason undergraduates may be admitted to a bachelor's/accelerated master's program and obtain a BA or BS in any degree area and a MS in Sport and Recreation Studies (https://catalog.gmu.edu/

colleges-schools/education-human-development/school-sport-recreation-tourism-management/sport-recreation-studies-ms/).

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (https://catalog.gmu.edu/policies/academic/graduate-policies/#text).

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MS program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
PRLS 501	Introduction to Natural Resources Law	3
PRLS 613	Strategic Leadership in Recreation Administration	3
SPMT 551	Sport in the Global Marketplace	3
SPMT 611	Sport Marketing and Sales	3
SPMT 612	Economics and Financial Management in the Sport Industry	3
SPMT 613	Strategic Leadership in Sport Organizations	3
SPMT 614	Legal Issues in Sport	3
SPMT 616	Sport Operations, Venues, and Event Management	3
SRST 598	Special Topics	1-6
SRST 606	Foundations of Sport and Recreation Studies	3

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Bachelor's Degree (selected)/ Environmental Science and Policy, Accelerated MS

Overview

This bachelor's/accelerated master's degree program allows academically strong undergraduates with a commitment to advance their education to obtain a Green Leaf-designated bachelor's degree and the Environmental Science and Policy, MS (https://catalog.gmu.edu/colleges-schools/science/environmental-policy/environmental-science-policy-ms/) degrees within an accelerated timeframe. Upon completion of this 141 credit accelerated program, students will be exceptionally well prepared for entry into their careers or into a doctoral program in the field or in a related discipline.

Students are eligible to apply for this accelerated program once they have earned at least 60 undergraduate credits and can enroll in up to 18 credits of graduate coursework after successfully completing 75 undergraduate credits. This flexibility makes it possible for students to complete a bachelor's and a master's in five years.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees. For policies governing all graduate degrees, see AP.6 Graduate Policies. For more information on undergraduates enrolling in graduate courses, see AP.1.4.4 Graduate Course Enrollment by Undergraduates (https://catalog.gmu.edu/policies/academic/registration-attendance/#text).

Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Graduate Admission Policies section of this catalog.

Important application information and processes for this accelerated master's program can be found here (https://www2.gmu.edu/admissions-aid/how-apply/accelerated-masters/).

The GRE exam is not required for this accelerated master's program.

Students should submit three letters of recommendation (at least one from a former professor or someone with a PhD), a recent resume, a statement of interest/research goals and interests (including information on the candidate's proposed MS research), and a letter from their advisor (see Graduate Advisor section below) stating that the advisor agrees to take on the candidate as an MS student, how the candidate would be a good fit for them and why candidate's research topic would be suitable.

Students with an overall GPA of at least 3.20 who are pursuing any Green Leaf-designated major or minor may apply to this accelerated master's program after completing two semesters of chemistry (including CHEM 211 General Chemistry I (Mason Core) and CHEM 212

General Chemistry II (Mason Core) and three semesters of biology, including a course in ecology, or the equivalent, for example:

Code	Title	Credits
Select one of the following options:		13
Option 1:		
BIOL 213	Cell Structure and Function (Mason Core)	
BIOL 214	Biostatistics for Biology Majors	
BIOL 308	Foundations of Ecology and Evolution	
Option 2:		
EVPP 210	Environmental Biology: Molecules and Cells	
EVPP 301	Environmental Science: Biological Diversity and Ecosystems	
EVPP 302	Environmental Science: Biomes and Human Dimensions	
EVPP 305	Environmental Microbiology Essentials	
EVPP 306	Environmental Microbiology Essentials Laboratory	
Option 3:		
CONS 401	Conservation Theory	
CONS 402	Applied Conservation	
6 credits of BIOL or CONS electives		

Graduate Advisor

By at least the beginning of their senior year, students should seek out a faculty member in the Department of Environmental Science and Policy who is willing to serve as their advisor. This advisor will aid the student in choosing the appropriate graduate courses to take and help to prepare the student for graduate studies. Admission into a research-oriented master's concentration is dependent upon securing the agreement of a faculty advisor. Faculty from a variety of departments and colleges at George Mason University (called "program faculty") can serve as master's advisors. Potential students are encouraged to speak with the graduate program coordinator in the department to obtain guidance on this issue.

Accelerated Option Requirements

After the completion of 75 undergraduate credits, students may complete 3 to 12 credits of graduate coursework that can apply to both the undergraduate and graduate degrees.

In addition to applying to graduate from the undergraduate program, students in the accelerated program must submit a bachelor's/accelerated master's transition form (available from the Office of the University Registrar (https://registrar.gmu.edu/forms/)) to the College of Science's Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us/) by the last day to add classes of their final undergraduate semester. Students should enroll for courses in the master's program in the fall or spring semester immediately following conferral of the bachelor's degree, but should contact an advisor if they would like to defer up to one semester.

Students must maintain an overall GPA of 3.00 or higher in all graduate coursework and should consult with their faculty advisor to coordinate their academic goals.

Reserve Graduate Credits

Accelerated master's students may also take up to 6 graduate credits as reserve graduate credits. These credits do not apply to the undergraduate degree, but will reduce the master's degree by up to 6 credits. With 12 graduate credits counted toward the undergraduate degree plus the maximum 6 reserve graduate credits, the credits necessary for the graduate degree can be reduced by up to 18.

Graduate Course Suggestions

The following list of suggested courses is provided for general reference. To ensure an efficient route to graduation and post-graduation readiness, students are strongly encouraged to meet with an advisor before registering for graduate-level courses.

Code	Title	Credits
EVPP 518	Conservation Biology	3
EVPP 529	Environmental Science Communication	3
EVPP 621	Overview of Biodiversity Conservation	3
EVPP 635	Environment and Society	3

Hospitality Management Minor

This minor is offered jointly with Computer Game Design.

It offers academic preparation in an industry that has seen rapid expansion in the sale, design, and production of sport-related games around the world. The required courses provide students with a foundational overview of the sports industry, the sport management academic discipline, and computer game design. Students can complement that knowledge with the selection of courses in these two disciplines that meet their individual interests.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Sport and Conflict Resolution Minor (CEHD)

Banner Code: SCNR

Phone: 703-993-4165
Email: ugradcar@gmu.edu
Website: https://srtm.gmu.edu/sport-management/degree-options/sport-and-conflict-resolution-minor

There has been a real growth in the establishment of non-profit organizations that use 'sport for development', sport to bring diverse communities together and also 'sport for peace' organizations in high conflict areas of the world. This minor will help prepare students to work for organizations dedicated to using sports for development, community building and peace. It provides students with a cross section of courses in sports management and conflict resolution. Courses in sports management frame the sports industry in a philosophical, ethical, cultural and business context. Conflict resolution courses will introduce students to foundational concepts in the study of human conflict, the analysis of conflict and problem solving techniques for helping to resolve conflict.

This is an interdisciplinary minor offered by the Jimmy and Rosalynn Carter School for Peace and Conflict Resolution and the School of Sport, Recreation and Tourism Management.

Admissions & Policies

Admissions

This minor is available to all Mason undergraduate students.

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Accelerated Master's

Bachelor's Degree (any)/Sport and Recreation Studies, Accelerated MS

Overview

Qualified Mason undergraduates may be admitted to a bachelor's/accelerated master's program and obtain a BA or BS in any degree area and a MS in Sport and Recreation Studies (https://catalog.gmu.edu/colleges-schools/education-human-development/school-sport-recreation-tourism-management/sport-recreation-studies-ms/).

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (https://catalog.gmu.edu/policies/academic/graduate-policies/#text).

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MS program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
PRLS 501	Introduction to Natural Resources Law	3
PRLS 613	Strategic Leadership in Recreation Administration	3
SPMT 551	Sport in the Global Marketplace	3
SPMT 611	Sport Marketing and Sales	3
SPMT 612	Economics and Financial Management in the Sport Industry	3
SPMT 613	Strategic Leadership in Sport Organizations	3
SPMT 614	Legal Issues in Sport	3
SPMT 616	Sport Operations, Venues, and Event Management	3
SRST 598	Special Topics	1-6

SRST 606	Foundations of Sport and Recreation Studies	3

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Sport Communication Minor (CEHD)

Banner Code: SCOM

Academic Advising

Phone: 703-993-5200
Email: srht@gmu.edu
Website: https://srtm.gmu.edu/sport-management/degree-options/sport-communication-undergraduate-minor/

This minor offers students the opportunity to examine important and timely sports-related issues in an ethical context as well as analyze sports from cross-cultural perspectives. Students will gain an understanding of sport mass media, sport communication, sports reporting, interpersonal and organizational communication, and the impact each has in our global society. The courses cover theory and practice in cross-platform communication, sports ethics and theoretical underpinnings, public relations, and marketing. The minor provides applied fundamentals for students seeking employment in the commercial world of sports (areas such as management or promotion of athletic organizations) and in sports media. The sport communication minor is offered jointly with the Department of Communication in the College of Humanities and Social Sciences.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Core Courses

Code	Title	Credits
COMM 303	Writing across the Media	3
COMM 320	Business and Professional Communication	3
SPMT 201	Introduction to Sport Management	3
or SPMT 304	Sport, Culture, and Society	
SPMT 430	Sport Communication	3
Total Credits		12

Electives

Code	Title	Credits
Select two electives from the following: [1]		6
COMM 204	Introduction to Public Relations	
COMM 305	Foundations of Intercultural Communication (Mason Core)	
COMM 351	News Writing and Reporting	
COMM 356	Video: Performance and Writing	
COMM 359	Media Management	
COMM 361	Online Journalism	
COMM 371	Sports Writing and Reporting	
COMM 372	Sports and the Media	
SPMT 201	Introduction to Sport Management	
SPMT 302	Philosophical and Ethical Dimensions of Sport	
SPMT 304	Sport, Culture, and Society	
SPMT 318	Diversity and Inclusion Issues in Sport	
SPMT 405	Sport Venues and Events	
SPMT 412	Sport Marketing and Sales	
SPMT 420	Economics and Finance in the Sport Industry	
SPMT 440	Global Perspectives in Sport	
SPMT 455	Governance and Policy in Sport Organizations	
Total Credits		6

[1]
- Special topics courses, when relevant, may be used to fulfill this requirement with the prior written approval of the director.
- Depending on which courses students took as a required course (above), they may use either SPMT 201 Introduction to Sport Management or SPMT 304 Sport, Culture, and Society as an elective.
- COMM majors are required to take one elective SPMT course.

Sport Management Graduate Certificate

Academic Advising

Phone: 703-993-5200
Email: mgnoleba@gmu.edu
Website: srtm.gmu.edu/sport-recreation-studies/

Concentrations

Students complete the certificate by choosing one of the following concentrations:

Concentration in International Sport Management

This concentration offers students the opportunity to study the managerial aspects of international sport enterprises. Theoretically-grounded sport management skills will be examined and applied within the global context of the sport industry.

Concentration in Sport Coaching

This concentration provides students the opportunity to prepare for a career in coaching. Theoretically-grounded content addresses advanced skills applied to a variety of coaching situations.

Admissions & Policies

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Requirements

Certificate Requirements

Total credits: 15

This certificate may be pursued on a full-or part-time basis.

Students pursuing this graduate certificate may choose from any of the following concentrations:

Concentration in International Sport Management (ISPM)

Academic Advising

Phone: 703-993-5200
Email: srht@gmu.edu
Website: https://srtm.gmu.edu/sport-management/degree-options/minor/

This minor introduces students to the sports industry and the sport management academic discipline. Students will learn about the principles of finance, economics, policy, and governance as they relate to sports organizations. They will then have the opportunity to choose from a series of sport management courses to complete the minor, based on their area of theoretical or practical interest.

Admissions & Policies

Admissions

This minor is available to all Mason undergraduate students, with the exception of those enrolled in the Health, Fitness, and Recreation Resources, BS with a concentration in Sport Management.

Policies

Eight credits of coursework must be unique to the minor and students should complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Academic Advising

Phone: 703-993-5200
Email: srht@gmu.edu
Website: https://srtm.gmu.edu/sport-management/degree-options/sport-analytics-minor

This minor provides students with a foundational understanding of the sports industry coupled with the study of how data can be used in the world of sports to enable teams, leagues, and other sports businesses to acquire an advantage over their competitors. With the successful completion of this minor, students should be able to use various statistical models and other analytic tools to help sports organizations improve performance in some of the following areas: season ticket sales, luxury box sales, marketing, talent identification, scouting of opponents, the prediction of industry trends, and customer service.

This minor is offered jointly with the School of Business, College of Science, and Volgenau School of Engineering.

Admissions & Policies

Admissions

The B.S. in Tourism and Events Management degree prepares students to become future managers and leaders in one of the world's largest and most diverse industries: tourism, events and hospitality. Our Tourism and Events Management (TEM) major focuses on the management, planning, implementation, marketing, and evaluation of tourism, events, and hospitality businesses. Courses in Tourism and Events Management are designed to provide a variety of management competencies and fieldwork experiences, which lay the foundation for a successful career in the wide and dynamic world of tourism, events, and hospitality.

This is a Green Leaf Program.

Administration

- Germaine Louis, Dean
- Robert Weiler, Senior Associate Dean, Academic Affairs
- Rosemary Higgins, Associate Dean, Research
- Kimberly Holmes, Associate Dean, Student Affairs
- Catherine Tompkins, Associate Dean, Faculty Affairs

College Code: HH

Recognized as the “health college” of George Mason University, the College of Health and Human Services (CHHS) offers highly specialized interdisciplinary undergraduate and graduate degree programs that prepare students for professional careers aimed at improving the public’s health and well-being across the lifespan, while eliminating health disparities and promoting social justice. Graduates from our programs work in official health and social agencies, non-governmental health organizations, private industry, colleges and universities, and in a variety of clinical health care settings.

CHHS offers undergraduate and graduate degree programs in community health, global health, health administration, health informatics, health policy, health system management, nursing, public health and social work and selected academic minors, concentrations, and graduate certificates. To learn more about our degree programs, please visit https://chhs.gmu.edu/academics (https://chhs.gmu.edu/academics/) or call the CHHS Office of Student Affairs at 703-993-1901.

Throughout the year, CHHS hosts degree program information sessions to interested students. For dates and times and registration information, visit the Prospective Student Information Sessions (https://chhs.gmu.edu/admissions/prospective-student-information-sessions/) website.

Academic Programs

CHHS is committed to educating the next generation of health professionals, researchers, and educators. Our School of Nursing produces more new RNs each year than any other program in Virginia, and these graduates have one of the state's highest pass rates on the nursing licensure exam. Through the PhD program in nursing, the college is helping to fill the need for nursing faculty and researchers, and through the DNP program, provides an opportunity for nurses to become experts as nurse practitioners, nurse administrators, or nurse educators. The Department of Health Administration and Policy prepares students for careers as leaders of health care organizations and as health policymakers at the state and national levels, while the Department of Global and Community Health trains public health practitioners with a global reach, who can intervene and improve the health of local and international populations. The Department of Nutrition and Food Studies integrates education, research, and outreach in preparing students to improve the health and well-being of populations through food and nutrition. The Department of Social Work educates undergraduate and graduate students to be professional social workers practicing in either community organizations or clinical settings. The CHHS academic units offer a variety of specializations within degree programs, including gerontology, epidemiology and biostatistics, health informatics, clinical social work, and conflict analysis and resolution.

Faculty

College Faculty

Professors

Alemi, Cheskin, Cuellar, Drews-Botsch, Gerber, Griffin, Guccione, Higgins, Hong, Jacobsen, Kitsantas, Kubik, Louis, Maddox, Metcalf, Roess, Rome, Rose, Tompkins, Weiler, Wolf-Branigin

Associate Professors

Requirements & Policies

Policies

Professional Conduct Policy

All CHHS students are expected to conduct themselves professionally at all times. This means that certain behavior is prohibited, including verbal abuse, insubordination, and behavior that threatens the safety of a client, another student, a faculty member, or other health care provider when the behavior occurs within the context of an academic program. CHHS reserves the right to place on probation, suspend, or terminate any student in its programs who engages in such conduct. Students disciplined for such reasons have the right to appeal to their department chair or director.

Student Affairs

The Office of Student Affairs supports students, faculty, and staff members on a variety of admissions, academic, and policy issues. Student Affairs is involved in recruiting new students; pre-admissions advising; processing applications for graduate programs and undergraduate nursing programs; and conducting orientations for newly admitted students.

Student Affairs maintains the college's student records; reviews and recommends action on student requests for exceptions to academic policy; processes standard academic actions; and approves student records for degree completion prior to graduation. Student grade appeals fall under university policy as described in AP.3.9 Grade Appeals.

Each CHHS student is assigned an academic advisor, with whom he or she should meet at least once per semester in order to ensure that program requirements are met. The assigned advisor may be a faculty member, a departmental program coordinator, or an advisor in the Office of Student Affairs.

Student Responsibility

All students are required to have an active Mason e-mail account (https://its.gmu.edu/service/masonlive-email-for-students/) and to update any change of address on-line through Patriot Web (https://patriotweb.gmu.edu/). The college will not communicate with students via a personal e-mail address, so it is important that students check their Mason e-mail regularly. Students are responsible for knowing the university academic policies and the policies governing their program as stated in the university catalog. They are also responsible to know the semester academic calendar including withdrawal deadlines; to review

their Mason transcript on-line to ensure transfer of credit accuracy; and to monitor their degree progression through the degree evaluation tool on Patriot Web (https://patriotweb.gmu.edu/).

Background Checks

Many clinical agencies and practicum sites mandate that students working there have a criminal background check. All students enrolled in the School of Nursing are required to complete a criminal background check prior to beginning the program. Students enrolled in other CHHS programs may be required to complete background checks before entering a practicum environment. Information obtained from the background check is strictly confidential but may result in a student's inability to perform clinical or practicum activities and, therefore, will disqualify the student from entering or continuing in the program. School of Nursing students are sent information regarding the criminal background check process, and associated fees, upon admission. Other students are informed individually as they are considered for practicum activities requiring background checks. Students are responsible for notifying the assistant dean of student affairs of any arrests, regardless of adjudication, that occur after acceptance and during enrollment in the program. Failure to promptly notify the assistant dean of student affairs may be grounds for termination from the program.

Health Records

To comply with the policies established by the Commonwealth of Virginia, all students must provide current immunization records to the university's Student Health Services at the time of admission to the college. Immunizations may be obtained through Student Health Services (http://shs.gmu.edu/) on any of the Mason campuses. All students in the School of Nursing also must submit immunization records to the School of Nursing at the time of admission. Additional documentation of good health may be required.

Students should keep copies of their health records should agencies require them for clinical and practicum assignments. All costs associated with immunizations and certifications are the student's responsibility.

Insurance and Liability

Students are strongly advised to maintain health insurance coverage at all times. All students enrolled in the School of Nursing are required to maintain health insurance at all times. A student health insurance plan (http://shs.gmu.edu/insurance/) is available to eligible students through Mason. Students are responsible for their own health care, including emergency care, and CHHS assumes no financial responsibility for the health care of students. Enrolled students who are performing internships and similar experiential learning as a required part of their academic programs are considered agents of the university. They are covered for professional liability by the Commonwealth of Virginia Risk Management Plan (http://risk.gmu.edu/) while engaged in their prescribed educational duties.

Academic Outreach

The mission of the Office of Academic Outreach is to provide off-campus graduate coursework that supports the continued professional development and competency of practicing health professionals. This purpose is accomplished through collaborative relationships with expert health and instructional resources—individual and organizational—both internal and external to the University.

Academic Policies

Students should become familiar with the university's general academic policies in addition to those specific to each academic unit. See Academic Policies.

Graduate Admission

Admission decisions are made by the faculty committee on admissions of the respective graduate programs. Denial of admission is not subject to appeal. Applicants denied admission to a program are not permitted to enroll in courses in that program through Non-Degree Studies.

If an applicant is offered graduate admission, the college reserves the right to withdraw that offer of admission or to terminate a student in a graduate program if:

- During his or her academic studies, the admitted applicant has a significant drop in academic performance or fails to graduate with a degree prior to the first day of classes for the term admitted.
- There has been a misrepresentation in the application process.
- Prior to the first day of classes for the term admitted, the college learns that the admitted applicant has engaged in behavior that indicates a serious lack of judgment or integrity, irrespective of the outcome of any disciplinary process related to such behavior.

The university further reserves the right to require the applicant to provide additional information (and/or authorization for the release of information) about any such matter.

Non-Degree Enrollment

Non-degree status enables students who have no immediate degree objective or may need to satisfy prerequisites for admission to a degree program to enroll in courses for which they are qualified without seeking formal admission to a degree program. Applicants should be aware of the fact that non-degree admission does not guarantee enrollment in any specific course or future degree program. Enrollment in specific courses is based on eligibility criteria and availability of space in courses. **In some areas of study, enrollment may be restricted or prohibited.**

Non-degree applications and their established deadlines are available online through the Office of Admission (https://www2.gmu.edu/admissions-aid/). Detailed information regarding non-degree admission policies and procedures can be found in Non-Degree Enrollment.

The Department of Global and Community Health, the Department of Health Administration and Policy, the Department of Nutrition and Food Studies, and the Department of Social Work welcome non-degree students in their classes on a space-available basis. Programs in the College of Health and Human Services which have course restrictions are listed below.

Graduate Non-Degree Restrictions

All Graduate Programs

Students may take a maximum of 9 credit hours in non-degree studies. A student cannot graduate or receive a degree while in non-degree studies. Non-degree graduate students may not register for classes numbered 800 or higher.

Nursing, MSN

A student may be eligible to enroll in approved non-degree MSN courses when space is available if the student:

- Has not applied for the MSN program and has not been previously denied admission to the MSN program;
- Holds a BSN from an accredited college and achieved a cumulative degree GPA of 3.00;
- Holds a current RN license.

MSN non-degree students may not take classes numbered 800 or higher. In addition, they may take a maximum of 9 credit hours in non-degree studies.

Undergraduate Non-Degree Restrictions

Nursing, BSN

Students must be admitted into the BSN program in order to register for undergraduate nursing (NURS) courses.

Academic Units

- Department of Global and Community Health
- Department of Health Administration and Policy

Administration

- Carolyn Drews-Botsch, Chair

The Department of Global and Community Health (GCH) brings together faculty and students from the disciplines of biostatistics, epidemiology, environmental health, and the behavioral and social sciences. The educational mission of GCH is to provide high-quality undergraduate and graduate degrees and certificates in the core disciplines of community, global, and public health that prepare students to enter the domestic and global public health workforce. The research mission of GCH is to conduct innovative research that addresses pressing and emerging domestic and global health problems and security threats. Establishing partnerships that promote and protect health and well-being, especially among underserved and disadvantaged populations, is the principal focus of our service mission.

Faculty

Department Faculty

Professors

Drews-Botch (chair), Higgins (associate dean for research), Griffin, Jacobsen, Louis (dean), Metcalf, Roess, Weiler (senior associate dean for academic affairs)

Associate Professors

Bloom, Gupta, Lindley, Pollack, Poms, Weinstein (Center for the Study of Chronic Illness and Disability, director), Winter

Assistant Professors

Carmack, Catona, Chin, Fleming, Krall, Rossheim, von Fricken, Williams

Administrative Faculty

Beckwith

Emeriti

Baghi, Howell, Sluzki

Requirements & Policies

Requirements

Academic Advising

Each student is assigned an academic advisor who is a faculty member within their academic department or a professional academic advisor within the Office of Student Affairs (OSA). Academic advisor assignments are listed on the CHHS website (https://chhs.gmu.edu/students/academic-advising/), and students are expected to meet with their advisor regularly (at least once each semester) to seek advice about academic schedules and program plans. Students also should meet with their advisor if they are experiencing academic difficulty.

Student Responsibilities

All students are responsible for knowing the requirements of their major as specified in the university catalog for their catalog year; academic deadlines outlined in the semester academic calendar (http://registrar.gmu.edu/calendars/); and university policies and procedures as stated in the catalog.

Students also should run their own degree evaluation (http://registrar.gmu.edu/students/degree-evaluation/) to identify graduation requirements and progress towards their degree. While academic advisors can give advice to students, **students are responsible for the academic planning decisions they make**. Academic advisors cannot be held responsible for mistakes made by students in selecting courses that may not count toward their degree and thus delay a desired graduation date.

Programs

- Community Health, BS
- Global Health Minor
- Global Health, MS

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/global-and-community-health-advisors (https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/global-and-community-health-advisors/)

Website: https://publichealth.gmu.edu

Community, global, and public health are the fastest growing, most exciting, and versatile areas of study on college campuses across the United States today. Community health is the applied science of protecting and improving the health and well-being of individuals, families, populations, and communities using evidence-based health promotion and disease prevention programs and policies. Accredited by the Council on Education for Public Health (CEPH), the BS in Community Health prepares students with the knowledge and understanding of community and public health systems, issues and policies related to health promotion, and health education and disease prevention in populations of all sizes. Community, public, and global health specialists work with a variety of health-related organizations and are expected to confront complex behavioral, cultural and social health and well-being issues at the local, national and global levels.

Community Health students develop the competencies and skills necessary for entry-level positions in a variety of professional settings such as local, state, and federal health and social service agencies and non-governmental and voluntary health organizations, health care, and private industry. Students completing this degree are eligible for and strongly encouraged to take the Certified Health Education Specialist (CHES) exam.

The BS in Community Health is unique in that it provides a solid foundation for students interested in pursuing graduate degrees in public health or advanced training in a health profession (see the Clinical Science concentration).

Optional Concentrations

Students may wish to complete an optional concentration in Global Health, Clinical Science, Nutrition, or Physical Activity and Public Health. Selection of a concentration is not required.

Global Health Concentration

The Global Health concentration focuses on understanding diseases and other health security threats reflecting the new global landscape, such as tobacco use and obesity, and emerging pandemics such as COVID-19, avian influenza, and Ebola. Students complete the required coursework for the BS in Community Health and specialized coursework in global health in addition to interdisciplinary coursework. This concentration is designed for students interested in public health at the global level and is particularly focused on improving health conditions in less developed countries.

Clinical Science Concentration

The Clinical Science concentration prepares students for graduate clinical training in a health profession field such as medicine, dentistry, nursing, optometry, occupational and physical therapy, and pharmacy. This concentration provides students the flexibility to design their curriculum to satisfy prerequisites for these programs. Students choosing this option are encouraged to check coursework requirements for their desired health profession because such requirements vary.

Nutrition Concentration

The Nutrition concentration provides students interested in nutritional health with a strong knowledge base in factors affecting individual, community, and global nutrition, as well as the tools to plan effective interventions.

Physical Activity and Public Health Concentration

Numerous public health burdens such as cardiovascular disease, diabetes, cancer, and depression can be prevented, delayed, or managed with proper physical activity. The Physical Activity and Public Health concentration prepares students to effectively advocate for policies, programs, and legislation that enables equitable opportunities for physical activity across all levels of society. The completion of this concentration prepares students to take the Physical Activity and Public Health Specialist certification.

Admissions & Policies

Policies

- For all policies governing bachelor's degrees, see A.5.3.2 Requirements for Bachelor's Degrees.
- A criminal background check and proof of vaccination status may be required of students prior to beginning the internship if required by the internship organization.
- A minimum grade of C must be earned in all major courses.
- Students must check with their advisor to ensure that all requirements have been met prior to graduation and should assess their own degree evaluation in Patriot Web each semester.

Requirements

Degree Requirements

Total credits: 120

```
Students must fulfill all requirements for bachelor's degrees,
 including the Mason Core requirements.
```

Mason Core

Code	Title	Credits
Written Communication [1]		
ENGH 101	Composition (Mason Core)	3
ENGH 302	Advanced Composition (Mason Core) (social science section recommended)	3
Oral Communication		
COMM 100	Public Speaking (Mason Core)	3
or COMM 101	Fundamentals of Communication (Mason Core)	
Quantitative Reasoning		
Any Mason Core Quantitative Reasoning course		3-4
Information Technology		
Any Mason Core Information Technology course		3-7
Literature		
Any Mason Core Literature course		3
Arts		
Any Mason Core Arts course		3
Natural Science [2]		

Any Mason Core non-lab science course [3]		3
Any Mason Core lab science course		4
Western Civilization		
Any Mason Core Western Civilization course		3
Global Understanding		
GCH 205	Global Health (Mason Core)	3
Social and Behavioral Sciences		
Any Mason Core Social and Behavioral Sciences course		3
Total Credits		30-42

1 Nonnative speakers of English with limited proficiency in the language may substitute ENGH 100 for ENGH 101. Students must attain a minimum grade of C in ENGH 100 or ENGH 101, as well as in ENGH 302, to fulfill degree requirements.

2 Only for students who choose the Global Health concentration, Nutrition concentration, or no concentration. Students in the Clinical Science concentration complete the Mason Core Natural Science requirement within their concentration courses.

3 The recommended course for students in the Nutrition and Physical Activity and Public Health concentrations is NUTR 295 Introduction to Nutrition (Mason Core). This is a prerequisite for required courses in these concentrations.

Required Courses

Code	Title	Credits
Select one of the following:		8
BIOL 124 & BIOL 125	Human Anatomy and Physiology and Human Anatomy and Physiology	
RHBS 270 & RHBS 271	Applied Human Anatomy and Physiology I and Applied Human Anatomy and Physiology II	
Total Credits		8

Community Health Major Core

Completion of this curriculum also prepares students to sit for the Certified Health Education Specialist (CHES) exam.

Code	Title	Credits
GCH 300	Introduction to Public Health	3
GCH 310	Health Behavior Theories	3
GCH 332	Health and Disease	3
GCH 335	Applied Health Statistics	3
GCH 350	Health Promotion and Education	3
GCH 360	Health and Environment	3
GCH 376	Health Ethics, Leadership, and Advocacy	3
GCH 380	Public Health Research Methods	3
GCH 411	Health Program Planning and Evaluation (fulfills writing intensive requirement)	3
GCH 412	Fundamentals of Epidemiology	3
GCH 445	Social Determinants of Health	3
GCH 465	Community Health Capstone (Mason Core)	3
or GCH 466	Physical Activity in Public Health Capstone	
Total Credits		36

Completing the Degree without a Concentration

Students completing the BS without a concentration follow the coursework outlined below.

Code	Title	Credits
Additional Courses		
Select nine credits of 300- or 400-level courses from the following		9
GCH		
HAP		
HEAL		
NUTR		
RHBS		
Other 300- or 400-level course approved by advisor		
General Electives		
Select 30 credits of General Electives		30
Total Credits		39

Global Health Concentration (GLOH)

The optional global health concentration enables students to look at public health issues through a global lens and increases understanding of the differences in health, well-being, disease, and interventions that exist within an international context.

Code	Title	Credits
Concentration Courses		
GGS 101	Major World Regions (Mason Core)	3
or GGS 103	Human Geography (Mason Core)	
or GGS 340	Health Geography	
GCH 305	Introduction to OneHealth	3
GCH 405	Global Health Interventions: History and Systems	3
GCH 406	Global Health Interventions: Emerging Issues	3
GCH 426	Global Emerging Infectious Diseases	3
One 3-credit 300- or 400-level GCH course		3
General Electives		
Select 21 credits of General Electives		21
Total Credits		39

Clinical Science Concentration (CLNS)

The optional clinical science concentration prepares students to apply for graduate programs in fields such as medicine, physical therapy, occupational therapy, dentistry, pharmacy, and optometry. This concentration does not guarantee entrance into a graduate health professional program. It is important to note that, depending on the type of graduate program in which a student is interested, additional coursework may be required. It is the student's responsibility to determine the essential criteria for admission to their target schools in consultation with the health professions advising office.

Code	Title	Credits
Concentration Courses		
Select a minimum of 20 credits of the following:		20

BIOL 103 & BIOL 105	Introductory Biology II-Survey of Cell and Molecular Biology (Mason Core) and Introductory Biology II Laboratory (Mason Core) [1]
BIOL 213	Cell Structure and Function (Mason Core) [1]
BIOL 246 & BIOL 306	Introductory Microbiology and Biology of Microorganisms Laboratory
BIOL 305 & BIOL 306	Biology of Microorganisms and Biology of Microorganisms Laboratory
BIOL 311	General Genetics
BIOL 483	General Biochemistry
CHEM 211 & CHEM 213	General Chemistry I (Mason Core) and General Chemistry Laboratory I (Mason Core) [1]
CHEM 212 & CHEM 214	General Chemistry II (Mason Core) and General Chemistry Laboratory II (Mason Core) [1]
CHEM 313 & CHEM 315	Organic Chemistry I and Organic Chemistry Lab I
CHEM 314 & CHEM 318	Organic Chemistry II and Organic Chemistry Lab II
PHYS 243 & PHYS 244	College Physics I (Mason Core) and College Physics I Lab (Mason Core) [1]
PHYS 245 & PHYS 246	College Physics II (Mason Core) and College Physics II Lab (Mason Core) [1]
General Electives	
Select 26 credits of General Electives	26
Total Credits	46

[1] At least 8 of these credits must be selected from these courses to fulfill the Mason Core Natural Science requirement.

Nutrition Concentration (NUTR)

The optional nutrition concentration provides students interested in nutritional health with a strong knowledge base in factors affecting individual, community, and global nutrition, as well as the tools to plan effective interventions.

Code	Title	Credits
Concentration Courses		
NUTR 315	Fundamentals of Cooking	3
NUTR 410	Introduction to Food Safety and Defense	3
NUTR 420	Strategies for Nutrition Education	3
NUTR 421	Community Nutrition	3
NUTR 422	Nutrition throughout the Life Cycle	3
NUTR 423	Nutrition and Chronic Illnesses	3
NUTR 451	Nutrition Assessment	3
Nutrition Electives		
Students should select from the following list or get advisor approval:		3
ANTH 366	Food and Human Evolution	
GCH 497	Pre-Internship Seminar	
GCH 498	Global and Community Health Internship	
NUTR 383	Taste and Place	
NUTR 414	Food, Culture, Nutrition and the Mediterranean Diet	
NUTR 435	Urban Agriculture	
NUTR 466	Nutrition and Weight Management: Obesity, Anorexia, and Bulimia	
NUTR 494	Special Topics in Nutrition and Food Studies	
General Electives		
Select 15 credits of General Electives		15
Total Credits		39

Physical Activity and Public Health (PAPH)

Numerous public health burdens such as cardiovascular disease, diabetes, cancer, and depression can be prevented, delayed, or managed with proper physical activity. The optional physical activity and public health concentration prepares students to effectively advocate for policies, programs, and legislation that enables equitable opportunities for physical activity across all levels of society. Students in this concentration should take GCH 466 Physical Activity and Public Health Capstone. The completion of this concentration prepares students to take the Physical Activity and Public Health Specialist certification.

Code	Title	Credits
Concentration Courses		
KINE 200	Methods of Exercise Instruction	3
KINE 310	Exercise Physiology I	3
KINE 320	Principles of Human Nutrition	3
or NUTR 295	Introduction to Nutrition (Mason Core)	
KINE 350	Exercise Prescription and Programming	3
KINE 370	Exercise Testing and Evaluation	3
KINE 380	Exercise Prescription and Programming for Special Populations	3
ATEP 300	Functional Anatomy	3
GCH 410	Physical Activity and Public Health	3

Select 18 hours of general electives		18
Total Credits		42

4-Year Plan

Bachelor of Science in Community Health Sample Plan of Study

Detailed four year plans can be found at https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/program-planning-advising-sheets (https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/program-planning-advising-sheets/)

Global Health Minor

Banner Code: GLOH

Academic Advising

Website: chhs.gmu.edu/students/academic-advising/undergraduate-advising/global-and-community-health-advisors

The global health minor requires 18 credits of coursework and is designed to increase students' awareness of the major health problems and issues that transcend national boundaries. Students develop an understanding of the critical global health concerns that affect health equity and health care for all people worldwide. Students examine the public health implications of globalization and learn to think critically about how specific global health challenges may be solved in culturally appropriate ways. The minor will enhance the education of students who are planning to work in a variety of settings with a global health focus, including health care, government, education, and non-governmental organizations.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising (https://chhs.gmu.edu/students/academic-advising/graduate-advising/)

Email: gch@gmu.edu
Website: https://publichealth.gmu.edu

Graduates of this program will have the knowledge base and skills to work and conduct research within the global health environment. This degree incorporates epidemiology, biostatistics, sociocultural influences on health and behavior, global health systems, communicable and non-communicable diseases of global importance, and migrant health to prepare students to conduct global health-related research. Through coursework and thesis research, students will be prepared to work in the diverse cultural and multidisciplinary environments inherent in global health. Graduates will be prepared to work in international health organizations such as nongovernmental organizations (NGOs), governmental organizations, and multilateral organizations, or may choose to pursue a research pathway and continue toward a terminal degree.

Admissions & Policies

Admissions

Requirements

Admission to the program is competitive, and a variety of criteria are evaluated in the admission process, including:

- undergraduate academic performance and recent post-baccalaureate coursework (transcripts)
- professional and volunteer experience
- statement of goals and objectives
- letters of recommendation

Previous undergraduate coursework in statistics, anthropology, sociology, and natural sciences is helpful. Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and apply using the online Schools of Public Health Application System (http://www.sophas.org/) (SOPHAS). Applications are considered for the fall semester only. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/).

Policies

Transfer of Credit

Transfer credit is governed by the AP.6.5.3 Graduate Transfer of Credit policy and the AP.6.9 Requirements for Master's Degrees policy, and transfer credit must be approved by the program director and the dean. **Students who enroll initially through non-degree studies should seek academic advising through the department prior to taking a course and plan to submit their application to the MS program in their first semester of study.**

Requirements

Degree Requirements

Total credits: 42

Students must achieve a 3.00 GPA to graduate from the master's program. A graduate course in which a grade of C or below is earned may be repeated only once. Graduate students may repeat no more than two courses. The required thesis provides students an opportunity to work closely with a GCH faculty member to systematically investigate a problem or issue with global health implications.

Public Health Graduate Certificate

Banner Code: HH-CERG-PUBH

Academic Advising

Website: chhs.gmu.edu/students/academic-advising/graduate-advising#gch

The Graduate Certificate in Public Health provides working professionals and graduate students an opportunity to advance their career and education in public health at their own pace on either a full- or part-time basis in two areas of concentration:

Generalist Concentration

The Public Health Graduate Certificate - Generalist Concentration, allows students to take up to six core classes required of the Master's in Public Health (MPH) program. This program is ideally suited for those with public health-related experience or for students seeking to enhance a graduate degree program. For students planning to apply to the MPH degree program, a simplified application is available for those completing the Public Health Generalist certificate who have earned a grade of "B" or better in all coursework.

Leadership and Management Concentration

The Public Health Graduate Certificate - Leadership Management Concentration, prepares students to apply the principles of public health leadership, stewardship and policy implementation to manage state and local health departments and various non-profit organizational and community health program initiatives. Students learn leadership strategies, public health regulatory requirements, public program management tools and policy development skills necessary to function in public health systems in the United States.

Admissions & Policies

Admissions

Applicants must meet the admission standards and application requirements specified in Graduate Admissions and must apply using the online Schools of Public Health Application System (http://www.sophas.org/) (SOPHAS). Applications are considered for the fall and spring semesters. For more information about the application requirements and deadlines, visit the CHHS Admissions website

(https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/).

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Requirements

Certificate Requirements

Total credits: 18

This certificate may be pursued on a full-or part-time basis.

Students must complete all requirements listed within a concentration. Minimum GPA of 3.0 is required in all courses applied to the Certificate in Public Health.

Generalist Concentration (GLST)

Code	Title	Credits
Required Courses

Public Health Minor

Banner Code: PUBH

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/global-and-community-health-advisors

The minor in public health offers students the opportunity to study concepts and principles related to disease prevention, health promotion, and injury control. The minor provides students with a basic understanding of each of the core areas of public health, introduces students to career opportunities in the fields of global and community health, and prepares students for admission to graduate programs in public health.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Public Health, MPH

Banner Code: HH-MPH-PUBH

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising (https://chhs.gmu.edu/students/academic-advising/graduate-advising/)

Website: https://publichealth.gmu.edu

Accredited by the Council on Education for Public Health (CEPH), the 42 credit-hour Master of Public Health (MPH) degree program is designed to prepare students with the foundational public health knowledge and competencies to address the most pressing and emerging health problems and concerns nationally and globally. Graduates are prepared to work in a variety of employment sectors including local, state, and federal health and social service agencies, non-governmental and voluntary health organizations, health care, and private industry. Students may choose from seven highly specialized concentrations:

- Community Health Promotion
- Epidemiology
- Food Security and Nutrition
- Global Health
- Health Policy
- Public Health Communication
- Public Health Practice (offered 100% online only)

In accordance with the CEPH accreditation standards, students are required to complete coursework in the public health core and one concentration, as well as fieldwork for the applied practice experience.

As a CEPH-accredited program, all graduates are eligible to sit for the Certified in Public Health (CPH) examination.

Admissions & Policies

Admissions

Admission decisions are based on a review of:

- undergraduate academic performance and recent post-baccalaureate coursework (transcripts)
- professional and volunteer experience
- statement of goals and objectives
- letters of recommendation

Some background in statistics, biology, and the social sciences is preferred. Applicants must meet the admission standards and application requirements specified in Admissions. Applications must be submitted using the online Schools of Public Health Application System (http://www.sophas.org/) (SOPHAS). Applications are considered for the fall semester only. For more information about application requirements and deadlines, please visit the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/).

Food Security and Nutrition Concentration

To be admitted to the Food Security and Nutrition Concentration, students must have taken NUTR 295 Introduction to Nutrition (Mason Core) or a substitute approved by the Department of Nutrition and Food Studies.

Public Health Practice Concentration

To be admitted to the Public Health Practice Concentration, students must have at least two years' work experience in a health-related field.

Policies

Transfer of Credit

Transfer credit is governed by the policies outlined in AP.6.5.3 Graduate Transfer of Credit and AP.6.9 Requirements for Master's Degrees, and transfer credit must be approved by the program director and the dean. **Students who enroll initially through non-degree studies should seek academic advising through the department before taking a course and should plan to submit their application to the MPH program in their first semester of study.**

Requirements

Degree Requirements

Total credits: 42

Students must complete 42 credits of graduate coursework with at least a 3.00 GPA in order to graduate. Each course listed below can be used to fulfill only one requirement toward the MPH degree. A graduate course in which a grade of C or below is earned may be repeated only once. Graduate students may repeat no more than two courses.

Public Health Core

Code	Title	Credits
GCH 500	Foundations of Public Health	3
GCH 604	Fundamentals of Epidemiology and Biostatistics	3
GCH 609	Community Assessment and Partnerships	3
GCH 611	Health Program Planning and Evaluation	3
GCH 645	U.S. and Global Public Health Systems	3
HAP 635	Role of Government in Health Care and Public Health	3
HAP 680	Applied Public Health Leadership and Management	3
Total Credits		21

Practicum Requirements

This required 200-hour practicum gives students the opportunity to practice and improve professional skills in a supervised setting. Students must have completed at least 21 credits toward the degree program in order to be eligible for their practicum.

The requirements to complete the practicum are in three courses over two semesters, as follows:

Code	Title	Credits
GCH 780	Practicum Seminar	0
GCH 790	Practicum in Public Health	3
GCH 792	Integrative Learning Experience	0
Total Credits		3

Concentration

Students must complete one concentration.

Concentration in Community Health Promotion (CMHP)

Students examine the social and behavioral determinants associated with the most pressing health problems in order to improve population health through the design, implementation, and evaluation of health promotion programs. Graduates of this concentration are eligible to sit for the Certified Health Education Specialist (CHES®) exam.

Advisor-approved elective course		
Total Credits		18

Concentration in Health Policy (HTHP)

Students address the nature and importance of policy and policy-making in today's public health system in order to engage with public health and advocacy organizations on policy issues and to analyze and support policy approaches in an era of scarce public resources and ever-changing priorities. Students are introduced to the context and process for policy-making in public health, including the current political, economic, and legal environment for health policy and the basic elements of the public policy-making process.

Code	Title	Credits

Accelerated Master's

Bachelor's Degree (any)/Public Health, Accelerated MPH

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's (BAM) program and obtain any bachelor's degree and an MPH in Public Health in an accelerated time-frame after satisfactory completion of a minimum of 150 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (https://catalog.gmu.edu/policies/academic/graduate-policies/).

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies and Bachelor's/Accelerated Master's Degree policies. For information specific to this accelerated master's program, see the Department of Global and Community Health's Accelerated Bachelor's/MPH (https://publichealth.gmu.edu/program/view/495566/) website.

Students will be considered for admission into the BAM Pathway after completion of at least 60 credits with a minimum overall 3.25 GPA, and:

- A completed application form (available at the admissions website);
- A career goal statement, between 500 and 750 words in length, that addresses the following:
  - Why are you applying to Mason's MPH program, and the concentration you chose?
  - How will earning an MPH help you achieve your professional goals?
  - What have you learned from successes and/or challenges in your past educational, professional, and/or personal experiences? Please use specific examples, as applicable.
- Two academic letters of recommendation, one of which must come from a Department of Global and Community Health faculty member. The second letter may come from an employer if a student has had significant public health related experience.

Students may submit their application to the BAM Pathway after completion of the following classes:

Code	Title	Credits
GCH 300	Introduction to Public Health	3
ENGH 302	Advanced Composition (Mason Core)	3
STAT 250	Introductory Statistics I (Mason Core) [1]	3

1 Students may take any Mason Core Quantitative Reasoning course

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MPH program if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition Form (http://registrar.gmu.edu/wp-content/uploads/BAMT.pdf):

- 3.00 overall GPA
- 3.00 GPA in graduate-level coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

Students may take up to four graduate level courses (12 credits) that count as advanced standing. These courses also substitute for BS in Community Health major-specific degree requirements. To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following:

Code	Title	Credits
GCH 500	Foundations of Public Health [1]	3
GCH 604	Fundamentals of Epidemiology and Biostatistics [2]	3
GCH 609	Community Assessment and Partnerships [3]	3
GCH 611	Health Program Planning and Evaluation [4]	3
Total Credits		12

1 Substitutes for a BS in Community Health elective

2 Substitutes for GCH 335 Applied Health Statistics

3 Substitutes for GCH 376 Health Ethics, Leadership, and Advocacy

4 GCH 609 Community Assessment and Partnerships is a required prerequisite. Substitutes for GCH 411 Health Program Planning and Evaluation

Reserve Graduate Credit

While still undergraduates, students in the accelerated master's program may take up to 6 additional graduate credits. These "reserve credits" do not apply to the student's undergraduate degree but may later be applied to their master's degree, using the Bachelor's/Accelerated Master's Transition Form (http://registrar.gmu.edu/wp-content/uploads/BAMT.pdf).

Code	Title	Credits
GCH 645	U.S. and Global Public Health Systems	3
HAP 635	Role of Government in Health Care and Public Health	3
Total Credits		6

The ability to take courses, including those not listed above, for reserve graduate credit is available to all high-achieving undergraduates with the permission of the department. See AP.1.4.4 Graduate Course Enrollment by Undergraduates.

Public Health, PhD

Banner Code: HH-PHD-PUBH

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising (https://chhs.gmu.edu/students/academic-advising/graduate-advising/)

The Doctor of Philosophy (PhD) in Public Health prepares students to think critically as public health scientists, develop subject matter expertise and analytical skills to become successful independent researchers, and respond to the most pressing public health challenges facing Virginia, the nation, and the world.

The program provides doctoral students with a substantive public health knowledge base accompanied by advanced training in research methods and data analysis. Students develop competencies related to synthesizing the scientific literature on the social and behavioral determinants that influence public health and associated health disparities. Students receive individualized research and professional mentoring necessary to ensure their success as public health scholars. The program also requires all students to complete a teaching practicum, which includes an opportunity to independently teach a variety of public health courses to prepare them for successful careers in academia.

Graduates are prepared to work as researchers, prevention scientists, epidemiologists, and evaluation specialists in a variety of employment sectors including, colleges and universities, local, state, and federal official health agencies, non-government health organizations, health care systems, and private entities such as contract research organizations, consultant management firms, and industry-based associations.

The PhD in Public Health offers two concentrations:

Epidemiology

Students pursing the concentration in Epidemiology examine the distribution and determinants of health-related conditions in populations to ameliorate disease, disability, and other health problems. Students in this concentration develop the substantive knowledge and methodologic tools needed for designing and analyzing etiologic research focusing on understanding observed disparities and etiology of heath conditions.

Social and Behavioral Sciences

The Social and Behavioral Science concentration prepares students to analyze the social and behavioral determinants of population health and well-being. Using social/behavioral theoretical frameworks, students learn how to design and evaluate multi-level public health interventions aimed at preventing disease, promoting health and well-being, and eliminating health disparities.

Admissions & Policies

Admissions

Requirements

Students must have an earned baccalaureate and/or graduate degree from an institution of higher education accredited by a Mason-recognized U.S. institutional accrediting agency or international equivalent verified from official transcripts. Expectation of an earned baccalaureate and/or graduate degree from an institution of higher education accredited by a Mason-recognized U.S. institutional accrediting agency or international equivalent, prior to the first day of classes for the term for which the student is applying, will also meet this requirement. Students with a master's degree will have preference for admission, but exceptional post-baccalaureate candidates will be considered. Applicants must meet the admission standards and application requirements specified in Graduate Admissions (https://catalog.gmu.edu/admissions/graduate-policies/) and must apply using SOPHAS (http://www.sophas.org/). For application deadlines and detailed application requirements, refer to the CHHS admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/). Students must submit transcripts, resume/CV, GRE scores, and three letters of recommendation. TOEFL scores are required for applicants from foreign institutions, as required by the university.

Policies

Reduction of Credit

Students who enter with a master's or other advanced degree may have the credit requirement reduced by up to 30 credits for previous coursework that closely corresponds with doctoral program requirements. The credit reduction will be recommended by the Director of Doctoral Studies in consultation with the doctoral advisor.

Time requirements

Students must complete all requirements for the PhD in Public Health within 9 calendar years from the time of first enrollment as a doctoral student. PhD students are expected to progress steadily toward their degree and to complete all coursework, the qualifying exam and dissertation proposal defense in order to advance to candidacy within no more than 6 years.

Qualifying Exam

The qualifying exam will be written exam offered once per academic year. The exam must be taken at the first opportunity following completion of core courses (excluding: GCH 890, HAP 824 and HHS 850). Any student failing the qualifying exam will be offered a second opportunity to pass the exam. A second failure will result in dismissal from the program. Students must pass the qualifying exam in order to be eligible to sign up for GCH 998 Doctoral Dissertation Proposal and to undertake the Oral Dissertational Proposal Defense.

Dissertation Proposal Defense

The written dissertation proposal and oral defense of proposal will constitute of Dissertation Proposal Defense. The student's Dissertation Committee will assess the student's success and preparedness for undertaking dissertation research. The Dissertation Committee may pass the student unconditionally, request additional work before passing the

student, or fail the student. A student who fails the oral examination will be given one additional attempt. Students failing the oral dissertation proposal defense twice will be dismissed from the Program.

Advancement to Candidacy

Students who complete all core and concentration course requirements and pass the Defense of Proposal advance to candidacy. A student must advance to candidacy before registering for GCH 999 Doctoral Dissertation.

Dissertation

With the approval of the Director of Doctoral Studies, students may change advisors at any point prior to beginning work on their dissertation proposal. At the time the student begins the dissertation process, the PhD Advisor becomes the Dissertation Mentor, and Chair of the Dissertation Committee. Dissertation Mentors must hold a graduate faculty appointment in the Department of Global and Community Health, or be designated as Public Health program graduate faculty, and have successfully completed their three-year review.

The Director of Doctoral Studies must approve the Dissertation Committee. The committee must have at least three members, each of whom must be a full-time member of the graduate faculty. At least one other member of the Dissertation Committee must be a faculty member in the College of Health and Human Services (CHHS). The third member of the committee may be from CHHS or another academic unit at George Mason University. Additional members may be added with approval of the Director of Doctoral Studies and may include scholars from outside Mason.

After advancement to candidacy, the PhD Public Health student must complete an approved dissertation. The Dissertation represents a substantial body of scholarship that advances the scientific understanding related to an important public health question or concern. The Dissertation is presented and evaluated in two components: a written document and an oral defense of dissertation. The final evaluation of the Dissertation is made by the Committee after the Dissertation Defense. The Committee may decide to pass the student unconditionally, request additional work, or fail the student.

Requirements

Degree Requirements

Total credits: 72

Overview

The purpose of the PhD program in Public Health is to prepare students for research careers in academia, government agencies, non-governmental organizations, and private-sector entities that support population health. The degree includes two concentrations of specialized study:

- Epidemiology
- Social and Behavioral Sciences

Requirements

The PhD Public Health comprises 72 credits. This includes 24 credits in the Public Health and Research Core, 12 credits toward dissertation requirements, and 21 credits of concentration coursework and 15 credits of approved elective coursework within their concentration area.

Public Health and Research Core

Code	Title	Credits
Core Classes		
GCH 700	Social and Ecological Determinants of Health	3
GCH 712	Introduction to Epidemiology	3
GCH 726	Advanced Methods in Epidemiology I	3
GCH 804	Biostatistics for Public Health I	3
GCH 805	Biostatistics for Public Health II	3
GCH 830	Research Grant Writing for Public Health	3
GCH 890	Doctoral Seminar	3
HAP 824	Social Determinants of Health: A Multilevel Evidence-Based Approach	3
Faculty Preparation (0-6 credits)		
HHS 850	Teaching Practicum in Public Health [1]	0-6
Total Credits		**24**

[1] Students must take HHS 850 twice. Students may elect zero (0) credit hours at no tuition cost, or students may elect 3 credits to maintain full-time enrollment status.

Concentration in Epidemiology (EPID)

Code	Title	Credits

Department of Health Administration and Policy

Phone: 703-993-1929
Website: hap.gmu.edu

Administration

- P. J. Maddox, Chair

The mission of the Department of Health Administration and Policy (HAP) is to provide innovative education, service, and research that contribute to improving the quality of care and delivery of healthcare services. The department accomplishes this mission by preparing professionals for careers as executives and managers in acute and ambulatory care and senior housing/assisted living organizations, as well as specialists in health informatics, healthcare risk management, and health policy.

The research and scholarly activities of the department contribute to basic and applied knowledge about the organization, management, financing, and performance of U.S. health systems and public health services; the development and management of health information systems; and the development and analysis of evidence-based U.S. health policy to foster innovation and public accountability and contribute to ensuring access to cost-effective, high-quality health services. The department works with consumers, stakeholders, students, faculty, alumni, research funders, and the community to ensure rigorous, relevant educational programs (including post-graduate professional development), service activities, and the development and timely dissemination of research. Part-time students are encouraged to take at least 6 credits per semester to promote timely completion of the program.

Nichols

Requirements & Policies

Requirements

Academic Advising

Each student is assigned an academic advisor who is a faculty member within their academic department or a professional academic advisor within the Office of Student Affairs (OSA). Academic advisor assignments are listed on the CHHS website (https://chhs.gmu.edu/students/academic-advising/), and students are expected to meet with their advisor regularly (at least once each semester) to seek advice about academic schedules and program plans, internships, and career guidance. Students also should meet with their advisor if they are experiencing academic difficulty or personal challenges or if they are feeling overwhelmed.

All students are responsible for knowing the requirements of their major as specified in the university catalog for their catalog year; academic deadlines outlined in the semester academic calendar (http://registrar.gmu.edu/calendars/); and university policies and procedures as stated in the catalog.

Students also should run their own degree-evaluation (http://registrar.gmu.edu/students/degree-evaluation/) to identify graduation requirements and progress towards their degree. While academic advisors can give advice to students, students are responsible for the academic planning decisions they make. Academic advisors cannot be held responsible for mistakes made by students in selecting courses that may not count toward their degree and thus delay a desired graduation date.

Programs

- Health Administration, BS
- Health Informatics and Data Analytics Graduate Certificate
- Health Informatics, MS
- Health Information Technology Minor
- Health Services Research, PhD
- Health Systems Management, MHA

- Health and Medical Policy, MS

Health Administration, BS

Banner Code: HH-BS-HADM

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/health-administration-and-policy-advisors

The BS in Health Administration prepares students to work in a variety of settings, including hospitals; clinics; community health, home care, long-term care, and managed care organizations; physician practices; information technology, medical technology and supply organizations; advocacy organizations and professional associations; the insurance industry; and consulting firms.

The program may be completed on a full- or part-time basis leading to completion of the objectives of the undergraduate BS program.

Concentrations are offered in health systems management, assisted living/senior housing administration, and health informatics.

Health Systems Management Concentration

The concentration in health systems management prepares graduates to serve in entry-level management, administrative and support positions in a variety of health-related organizations and settings.

Assisted Living/Senior Housing Administration Concentration

The concentration in assisted living/senior housing administration prepares graduates to serve in entry-level administrative and support positions within independent living, assisted living, and continuing care retirement communities.

Health Informatics Concentration

The concentration in health informatics prepares graduates in theory and methods for using information processing methods in healthcare organizations.

Admissions & Policies

Policies

Program Requirements

- A criminal background check is generally required of all students prior to beginning their internship.
- Students must fulfill all requirements for bachelor's degrees, including the Mason Core requirements. For all policies governing bachelor's degrees, see A.5.3.2 Requirements for Bachelor's Degrees.
- Students should enroll in HAP 201 Health Professions Careers and HAP 301 Health Care Delivery in the United States during their first semester in the program.
- HAP 498 Health Administration Internship (Mason Core) and HAP 465 Integration of Professional Skills and Issues (Mason Core) are to be completed during the student's final semester. The final semester is defined as the final 15 academic credits of the academic schedule.
- Students must check with their advisor to ensure that all requirements have been met prior to graduation.

Minimum Grade Requirements

A minimum grade of C must be obtained in all major requirements (58 - 64 credits). A minimum grade of C must also be obtained in ECON 103 in order for a student to enroll in HAP 425. In the health informatics concentration, a maximum of 6 credits of C grades in major requirements (64 credits) is permitted. Students in the health informatics concentration who earn more than 6 credits of C grades in the major requirements courses must either repeat one of the courses in which they earned a C and earn a C+ or higher or change programs or concentrations.

Requirements

Degree Requirements

Total credits: 120

Students must fulfill all requirements for bachelor's degrees, including the Mason Core requirements.

Total Credits		38

1 Nonnative speakers of English with limited proficiency in the language may substitute ENGH 100 for ENGH 101. Students must attain a minimum grade of C in ENGH 100 or ENGH 101, as well as in ENGH 302, to fulfill degree requirements.

2 Business-designated sections of ENGH 302 Advanced Composition (Mason Core) are recommended.

3 Health Informatics concentration students must attain a minimum grade of B in IT 104 to fulfill degree requirements. Students in the Assisted Living/Senior Housing Administration concentration or Health Systems Management concentration must attain a minimum grade of C to fulfill degree requirements. Transfer students may substitute IT 103.

Required Courses

Code	Title	Credits
HAP 201	Health Professions Careers [1]	3
HAP 202	Medical Terminology	3
Select one from the following:		3
PSYC 100	Basic Concepts in Psychology (Mason Core)	
PSYC 211	Developmental Psychology (Mason Core)	
PSYC 231	Social Psychology (Mason Core)	
HAP 290	Lifestyle Management	
GOVT 103	Introduction to American Government (Mason Core)	
Total Credits		9

1 HAP 201 is to be taken during the student's first semester in the program.

Concentration in Assisted Living/Senior Housing Administration (ASHA)

Code	Title	Credits
Major Requirements		
HAP 301	Health Care Delivery in the United States [1]	3
GCH 300	Introduction to Public Health	3
HAP 309	Healthcare Accounting	3
HAP 310	Healthcare Ethics	3
HAP 312	Healthcare Law	3
HAP 360	Introduction to Health Information Systems	3
HAP 392	Human Resources Management in Healthcare	3
HAP 395	Healthcare Finance	3
HAP 396	Strategic Health Management and Planning	3
HAP 403	Assisted Living/Senior Housing Management and Philosophy	3
HAP 404	Senior Housing Sales and Marketing	3
HAP 416	Leadership and Management of Health Systems I	3
HAP 417	Leadership and Management of Health Systems II	3
HAP 425	Health Economics and Policy	3
HAP 465	Integration of Professional Skills and Issues (Mason Core) (fulfills synthesis and writing intensive requirements) [2]	3
HAP 489	Pre-Internship Seminar (Mason Core) [3]	3
HAP 498	Health Administration Internship (Mason Core) [4]	4
Select two from the following:		6
GCH 480	Health Maintenance and Health Aspects of Aging	
NUTR 422	Nutrition throughout the Life Cycle	
SOCW 435	Introduction to Gerontology	
PSYC 415	Psychological Factors in Aging	
PSYC 418	Death, Dying, and Grieving	
EDAT 410	Introduction to Assistive Technology	
CHHS Electives		
6 credits must include 200-level or above courses from the following:		6
GCH courses		
HAP courses		
HHS courses		
NURS courses		
NUTR courses		
RHBS courses		
SOCW courses		
Non-CHHS courses pre-approved for substitution by the concentration coordinator		
General Electives		
Electives are at the student's discretion		9
Total Credits		73

1 HAP 301 is to be taken during the student's first semester in the program.

2 HAP 465 may only be taken within the final 15 credits of the curriculum.

3 HAP 489 may only be taken in the semester immediately prior to HAP 498.

4 HAP 498 may only be taken within the final 15 credits of the curriculum. Students in HAP 498 complete an internship as identified and approved by the concentration coordinator during HAP 489. Under special circumstances and upon recommendation by the course instructors and the student's advisor, students may be excused by the department chair from taking HAP 489 and HAP 498. Such students are required to take alternative courses that are pre-approved by the student's advisor and worth at least 7 credits.

Concentration in Health Informatics (HINF)

A maximum of 6 credits of C grades earned in the major requirements courses (64 credits) may be applied to the health informatics concentration. Students who earn more than 6 credits of C grades must either repeat one of the courses in which they earned a C and earn a C+ or higher or change programs or concentrations.

Such students are required to take alternative courses that are pre-approved by the student's advisor and worth at least 7 credits.

4-Year Plan

Bachelor of Science in Health Administration Sample Plan of Study

Detailed four year plans can be found at https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/program-planning-advising-sheets (https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/program-planning-advising-sheets/)

Health and Medical Policy, MS

Banner Code: HH-MS-HMP

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#hap

The master's program in health and medical policy prepares students to become analysts and informed decision-makers at the local, state, and national levels, to be policy consultants, to support the work of foundations, or to engage with public health and advocacy organizations in the U.S. and abroad. Students are expected to graduate with the knowledge and skills needed to analyze health policy issues; examine health system approaches; formulate new policies; and support policy development in health care financing, healthcare delivery system innovations, and the allocation of scarce resources.

Students will learn how health care services in the U.S. are delivered and paid for, how well the U.S. health care system performs from an individual and societal perspective, and how various key stakeholders influence the formation and development of health policy.

Admissions & Policies

Admissions

Requirements

Applicants must meet the admission standards and application requirements specified in Graduate Admissions and must apply using the online Application for Graduate Admission (https://www2.gmu.edu/admissions-aid/). The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/).

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies.

Transfer of Credit

Students may transfer a maximum of 12 credits from graduate courses taken at other institutions or taken at Mason in non-degree status. Transfer credit is subject to university and college policies and must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department and should submit their application to the MS program in their first semester of study.

Requirements

Degree Requirements

Total credits: 42

Core Courses

Health and Social Policy Minor

Banner Code: HSP

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/health-administration-and-policy-advisors

The minor in health and social policy introduces students to the context and process for public policymaking in health care and social services. Students will examine the current environment for health and social policy, learn the basic elements of the public policymaking process, and apply this knowledge in a practical research endeavor. This minor is a joint program offered by the Department of Health Administration and Policy and the Department of Social Work. This minor is not intended to be for students with a major in health administration as many of the required courses overlap with the required minor coursework.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students should complete all coursework with a minimum GPA of 2.00. Students should be familiar with university-wide requirements for minors described in AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 18

Students will take five (5) core courses and one (1) elective course in an area of health and social policy interest.

Required Courses

Code	Title	Credits
HAP 301	Health Care Delivery in the United States	3
HAP 312	Healthcare Law	3
or SOCW 400	Legal and Ethical Issues in Human Services	
HAP 442	Introduction to Health Care Politics and Policy	3
GCH/SOCW 445	Social Determinants of Health	3
HAP 445	Introduction to Health Services Research	3
or SOCW 471	Research in Social Work	
Total Credits		15

Elective

Code	Title	Credits

HAP 290	Lifestyle Management	
HAP 310	Healthcare Ethics	
HAP 395	Healthcare Finance	
SOCW 410	Alcohol and Substance Abuse: Policies and Programs	
SOCW 415	Child and Family Welfare	
SOCW 435	Introduction to Gerontology	
GCH 405	Global Health Interventions: History and Systems [1]	
Total Credits		3

[1] GCH 405 requires a prerequisite course: GCH 205 Global Health (Mason Core)

Health Informatics and Data Analytics Graduate Certificate

Banner Code: HH-CERG-HIDA

Academic Advising

Website: hap.gmu.edu/program/view/19933

This certificate prepares clinicians, health care managers, statisticians, epidemiologists, computer programmers, data analysts, and other professionals in analysis of complex health care data, including data extracted from electronic health records, claims data, and consumer generated data. Since electronic health records and related data repositories are becoming increasingly more massive, the certificate emphasizes topics related to big data analysis. Data mining, propensity scoring, and other advanced analytic techniques covered in the certificate can handle complex problems typically found in observational data: large, multidimensional and multi-type data sets, with many confounding issues and noise. These techniques can be computationally efficient on large scale analysis and intelligent in predicting an outcome.

This certificate qualifies for Title IV Federal Financial Aid.

Admissions & Policies

Admissions

Applicants must hold a bachelor's degree from a an institution of higher education accredited by a Mason-recognized U.S. institutional accrediting agency or international equivalent and must have a minimum of a 3.0 GPA to be considered. Applicants must meet the admission standards and application requirements specified in Graduate Admissions and must apply using the online Application for Graduate Admission (https://www2.gmu.edu/admissions-aid/). The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/).

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Requirements

Certificate Requirements

Total credits: 18

This certificate may be pursued on a full-or part-time basis.

Students must complete at least 18 credits of required courses with a grade of B or better. The course content and syllabi are also available at the program website (https://hap.gmu.edu/program/health-informatics-and-data-analytics-graduate-certificate/) and by contacting hap@gmu.edu.

Required Courses

Code	Title	Credits
Students must complete six of the following:		**18**
HAP 618	Computational Tools in Health Informatics	
HAP 671	Health Care Databases	
HAP 719	Advanced Statistics in Health Services Research I	
HAP 720	Health Data Integration	
HAP 725	Statistical Process Control in Healthcare	
HAP 777	Health Data Visualization	
HAP 780	Data Mining in Health Care	
HAP 823	Comparative Effectiveness Analysis using Observational Data	
HAP 880	Advanced Health Data Mining	
Total Credits		18

Health Informatics, MS

Banner Code: HH-MS-HINF

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#hap

The purpose of the degree is to provide students with a graduate education to advance careers as leaders and innovators in health informatics. The program combines healthcare, medical and information technology domains, and places particular emphasis on the interdisciplinary collaboration between these fields. We prepare health informatics professionals with knowledge of healthcare industry and technology solutions, in conjunction with practical skills needed in this dynamically evolving field. The program's goal is to prepare graduates to be able to effectively analyze complex health data, manage evolving health information systems (ranging from evaluation of information needs to design, development, acquisition, implementation, operation and improvement) and support the increased adoption and use of electronic health records.

This 30-36 credit graduate degree program prepares students to become health information systems specialists, health data analysts, health care managers and consultants. Graduates of the program may be employed in health information technology firms, health care/service organizations and their business partners, as well as public health entities. Students learn about emerging technologies likely to impact delivery of health services in the future. The program provides a basis for students who wish to continue their education toward a doctoral degree in health informatics or a related field. The program consists of three concentrations: Health Data Analytics, Health Informatics Management and Population Health Informatics.

The MS in Health Informatics degree is offered via a regular on-campus or premium priced all-online delivery format. The curriculum in both programs is the same, but students must matriculate through only one pathway. Separate application processes are used for online and on-campus programs. Most courses in the on-campus program are taught in the evening at Mason's Fairfax Campus, with some courses available in hybrid or online formats. On-campus students can complete their degree at their own pace provided that they do so within six years of starting the program. The online premium-priced program is offered in a flexible, compressed schedule online format. In the all-online program, courses are taken one at a time, in an accelerated 8-week format, and follow a prescribed sequence.

Concentrations

Health Data Analytics Concentration

The Health Data Analytics Concentration provides students with deep understanding of health data, analytic methods, and data mining, as well

as data science skills applied to clinical, administrative and consumer-generated health data.

Health Informatics Management Concentration

The Health Information Management Concentration provides students with knowledge and skills needed to manage evolving health information systems (ranging from evaluation of information needs to design, development, acquisition, implementation, operation and improvement) and support the increased adoption and use of electronic health records.

Population Health Informatics Concentration

The Population Health Informatics Concentration provides students with knowledge and skills needed to collect, analyze and manage population-level data, as well as understanding of electronic tools used in population health. Managing the health of populations requires the involvement of both organizations and individuals within a community and is viewed as a promising model to not only improve health outcomes but also reduce cost. The concentration content starts by addressing traditional public health information needs and then moves on to sophisticated business analytics and data governance to support the goals of accountable care organizations, integrated care networks, and value-based purchasing programs.

Admissions & Policies

Admissions

Requirements

Applicants must hold a BA or BS degree or equivalent from an institution of higher education accredited by a Mason-recognized U.S. institutional accrediting agency or international equivalent. Although the field or major is not a criterion for admission, the applicants are expected to have taken basic-level computer science/technology, mathematics, and statistics, and be familiar with these fields. Students who do not meet these requirements may be required to take additional prerequisite courses. Clinicians are encouraged to apply. An undergraduate grade point average of 3.25 (on a 4.0 scale) or above is preferred.

Applicants must meet the admission standards and application requirements specified in Graduate Admissions and must apply using the online Application for Graduate Admission (https://www2.gmu.edu/admissions-aid/). The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/).

Furthermore, although experience is not required, applicants with at least 1 year of professional work experience in a medical or health-related organization OR 1 year of work experience in information technology in any sector are preferred.

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies.

Transfer of Credit

Students may transfer a maximum of 12 credits from graduate courses taken at other institutions or taken at Mason in non-degree status. Transfer credit is subject to university and college policies and must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department and should submit their application to the MS program in their first semester of study.

Students with Undergraduate Program in Health Informatics

Students coming from Health Informatics undergraduate programs may request substitution of selected courses with more advanced courses if they received at least B+ in equivalent undergraduate courses.

Requirements

Degree Requirements

Total credits: 30-36

Core Courses

Code	Title	Credits
HAP 618	Computational Tools in Health Informatics [1]	3
HAP 670	Introduction to Health Informatics	3
HAP 671	Health Care Databases	3
HAP 672	Health Data: Vocabulary and Standards	3
HAP 678	Introduction to the U.S. Health System [2]	3
Total Credits		9-15

1. HAP 618 Computational Tools in Health Informatics may be waived for student with strong computing skills and/or a degree in computer science.
2. HAP 678 may be waived for student with strong health administration background.

Health Data Analytics Concentration (HDAN)

Code	Title	Credits
HAP 719	Advanced Statistics in Health Services Research I	3
HAP 780	Data Mining in Health Care	3
HAP 823	Comparative Effectiveness Analysis using Observational Data	3
Electives		**6**

Population Health Concentration (HIP)

Code	Title	Credits
HAP 717	Population Health Informatics	3
HAP 718	Consumer Health Informatics	3
GCH 712	Introduction to Epidemiology	3
Electives		**6**
Select two of the following:		
GGS 650	Introduction to GIS Algorithms and Programming	
HAP 730	Health Care Decision Analysis	
HAP 774	Artificial Intelligence in Health	
HAP 780	Data Mining in Health Care	
Total Credits		15

Practicum or Thesis

After completing coursework, and with permission of advisor, students choose between the Capstone Practicum and Master's Thesis. Both options require two semesters to complete.

Code	Title	Credits
Select one option from the following:		
Practicum Option		
HAP 789	Pre-Capstone Professional Development Seminar	3
HAP 790	Capstone Practicum in Health Systems Management	3
Thesis Option		
HAP 799	Master's Thesis	6
Total Credits		6

Accelerated Master's

Bachelor's Degree (Any)/Health Informatics, Accelerated MS

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a bachelor's degree in any discipline and an MS in Health Informatics in an accelerated time-frame after satisfactory completion of a minimum of 141 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (https://catalog.gmu.edu/policies/academic/graduate-policies/).

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies and Bachelor's/Accelerated Master's Degree policies. For information specific to this accelerated master's program, see department website (https://hap.gmu.edu/academics/health-informatics/health-informatics-ms/admissions/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits and students must submit two letters of recommendation from a faculty member.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MS program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

3.25 overall GPA

3.50 GPA in major coursework

Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following:

Advanced Standing Courses: (substitutes are possible for major-specific BS Health Administration degree required courses, or as a required CHHS elective)

Code	Title	Credits
HAP 670	Introduction to Health Informatics [1]	3
HAP 671	Health Care Databases [2]	3
HAP 672	Health Data: Vocabulary and Standards [3]	3
HAP 745	Health Care Security Policy [4]	3
HAP 713	Project Management in Health Information Technology [5]	3
Any 500, 600, or 700 level course listed in MSHI program. [6]		

1. Substitutes *for* HAP 360 Introduction to Health Information Systems
2. Substitutes *for* HAP 361 Health Databases.
3. Substitutes for HAP 459 Health Data Standards and Interoperability.
4. Substitutes *for* HAP 462 Privacy and Security in Health Informatics.
5. Substitutes *for* HAP 460 Information Technology Project Management.
6. Electives

Students can replace HAP 489 and HAP 498 with 7 credits of graduate courses approved by advisor if enrolled in the BS in Health Administration. Only 6 of the 7 credits are applied towards MS program.

Reserve credit courses:

Students may take 500, 600 and 700 level courses listed in MSHI program to be used for reserve credit with approval from their BAM advisor.

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Academic Advising

Website: chhs.gmu.edu/students/academic-advising/undergraduate-advising/health-administration-and-policy-advisors

The minor in health information technology introduces students, in a non-technical context, to the utilization of health information management in the professional arena of health care management and policy. Students will examine the current and projected role of health information management in the delivery of health care and development of health policy and apply this information in a practical research endeavor.

Admissions & Policies

Policies

At least 12 credits must be unique to the minor and cannot be used to fulfill the program of study requirements of the student's major, concentration, undergraduate certificate, or another minor, and students must complete all coursework with a minimum GPA of 2.00. Students should be familiar with university-wide requirements for minors described in AP.5.3.4 Minors.

Requirements

Health Services Research, PhD

Banner Code: HH-PHD-HSR

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#hap (https://chhs.gmu.edu/students/academic-advising/graduate-advising/#hap)

Administration

- Panagiota (Yiota) Kitsantas, PhD, Program Director

The purpose of the PhD program in Health Services Research is to prepare graduates to be scholars, educators, researchers, and leaders in higher education, health care and service organizations, health care consulting firms, government and nonprofit organizations, and private businesses that support or regulate the health service industry.

The degree has the following two specialized programs of study (concentrations):

- Knowledge Discovery and Health Informatics
- Health Systems and Policy

Admissions & Policies

Admissions

Requirements

Students must have a master's degree or other advanced degree (i.e., MD, JD, PhD or equivalent) from an institution of higher education accredited by a Mason-recognized U.S. institutional accrediting agency or international equivalent before being admitted to the 72-credit PhD program.

Applicants must meet the admission standards and application requirements specified in Graduate Admissions and must apply using the online Application for Graduate Admission (https://www2.gmu.edu/admissions-aid/apply-now/). For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/).

Policies

Reduction of Credit

Students who enter with a master's or other advanced degree may have the credit requirement reduced by up to 30 credits for previous coursework that closely corresponds with doctoral program requirements. The credit reduction decision will be made by the doctoral advisor and requires approval of the doctoral program director. Requests for reduction of credit are reviewed only after acceptance to the doctoral program.

Time Requirements

Students must complete all requirements for the PhD in Health Services Research within 9 calendar years from the time of first enrollment as a doctoral student in the program. PhD students are expected to progress steadily toward their degree and to complete all coursework and comprehensive and field exams in order to advance to candidacy within no more than 6 years.

Requirements

Total credits: 72

Core Courses

Code	Title	Credits
HAP 671	Health Care Databases	3
HAP 742	Health Policy Development and Analysis	3
HAP 761	Philosophy of Science and Research Methods	3
HAP 780	Data Mining in Health Care	3
HAP 819	Advanced Statistics in Health Services Research II	3
HAP 824	Social Determinants of Health: A Multilevel Evidence-Based Approach	3
HAP 835	Causal Inference in Health Services Research	3
HAP 846	Advanced Health Economics	3
HAP 850	Health Informatics Research	3
HAP 865	Health Services Research Seminar	3
Total Credits		30

Concentration and Electives

Students take additional courses in one of two concentration domains: Knowledge Discovery and Health Informatics or Health Systems and Policy. Doctoral-level electives outside of CHHS or concentration-related content areas may be taken as approved by the student's academic advisor. A maximum of 6 credits of 600-level courses may be applied to the degree.

Concentration in Knowledge Discovery and Health Informatics (KDHI)

Code	Title	Credits
Select 30 credits from the following:		30
HAP 618	Computational Tools in Health Informatics	
HAP 672	Health Data: Vocabulary and Standards	
HAP 730	Health Care Decision Analysis	
HAP 719	Advanced Statistics in Health Services Research I	
HAP 720	Health Data Integration	
HAP 745	Health Care Security Policy

Total Credits	30

Comprehensive Exams

Two comprehensive examinations will determine whether the student has the necessary knowledge and skills to undertake dissertation work. These examinations must be taken within one year of completion of all coursework (except for dissertation sequence courses).

Advancement to Candidacy

Students who complete all core and concentration course requirements, pass the comprehensive exams, and successfully defend the dissertation proposal can advance to candidacy. A student must advance to candidacy status before taking the dissertation credits.

Dissertation Sequence Courses

Code	Title	Credits
Complete at least 12 credits:		**12**
HAP 998	Doctoral Dissertation Proposal	
HAP 999	Doctoral Dissertation (at least 6 credits)	
Total Credits		12

Dissertation

After advancement to candidacy, the HSR PhD student must complete an approved dissertation. The student must seek and obtain the approval of the HSR PhD Program Director on the selection of his/her Dissertation Chair and committee members. The committee must have at least three members, each of which must be a full-time member of the graduate faculty. The Chair must hold an appointment in the Department of Health Administration and Policy (HAP) and be approved by the Program Director. The second member of the dissertation committee may be a member of either the HAP Department or the College of Health and Human Services (CHHS), and the third member of the committee may be from CHHS, other academic unit at George Mason University, or from outside of Mason. A fourth member of the committee may be appointed, from another academic unit or from outside Mason, with the approval of the Program Director.

Within twelve months of passing the comprehensive examinations, the student must submit a draft of the dissertation proposal to the Dissertation Chair and committee. The proposal shall describe the proposed research as directed by the Chair and Committee. The proposal must provide a detailed literature review that provides the context and rationale for the research objectives, state the dissertation objective(s), and describe the proposed study design and analytic methods. An oral proposal defense must be scheduled with dissertation committee members who have agreed to serve. During the oral proposal defense, the student will describe their proposed research and address questions by the committee members. At the oral defense, the Dissertation Committee determines approval or disapproval of the proposal. Committee disapproval is accompanied by written recommendations for improving the proposed research with expectations for resubmission.

Health Systems Management, MHA

Banner Code: HH-MHA-HSMG

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#hap

The master of health administration (MHA), health systems management program is accredited by the Commission on Accreditation of Healthcare Management Education (http://cahme.org/) (CAHME). The United States Department of Education and Council on Higher Education Accreditation have granted formal recognition to CAHME as the only organization to accredit master's level health care management programs in the United States and Canada. This master's program prepares future executives to assume leadership positions in health care organizations. We prepare health care professionals with strategic, business, analytic, and decision-making skills needed to successfully navigate the evolving health care industry.

This program prepares students to work as leaders and executive-level managers in evolving health systems, or as consultants and managers of health-related organizations. The curriculum was developed in response to the demand for advanced health management preparation for a variety of health care and allied health professionals to be employed in both the public and private sectors of health care.

Admissions & Policies

Admissions

Requirements

Applicants must hold a bachelor's degree from an institution of higher education accredited by a Mason-recognized U.S. institutional accrediting agency or international equivalent and have a minimum of a 3.0 GPA to be considered. Admission to the program is competitive, and a variety of criteria are evaluated in the admission decision. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/). Applicants are evaluated based on past academic performance (including prior academic degrees and courses taken), letters of recommendation, personal professional goal statement and professional experience. Work experience in the healthcare industry is preferred, but not required for admission. The application materials are

used to determine the applicant's "match" with the program and potential for success in graduate studies. Applicants who are deemed to meet the above criteria are required to have a brief personal interview with faculty. Applicants who are unable to attend a personal interview will be interviewed through video conferencing technology.

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies.

Transfer of Credit

Students may transfer a maximum of 12 credits from graduate courses taken at other institutions or taken at Mason in non-degree status. Transfer credit is subject to university and college policies and must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department and should submit their application to the MHA program in their first semester of study.

Program Format

The MHA in Health Systems Management is offered in both on-campus and online delivery formats. The curriculum is the same whether you are studying online or on campus, but students must apply to and matriculate through only one pathway.

Most courses in the on-campus program are taught in the evening at Mason's Fairfax Campus. Additionally, some courses are offered on Saturdays, a few are offered at the Arlington Campus, and a small percentage can be taken online. Students can complete their degree at their own pace provided that they do so within six years of starting the program.

The online premium priced program is offered in a flexible, online format, which mirrors the CAHME-accredited on-campus program. Courses are taken one at a time in an accelerated 8 week format.

English Language Test Score Thresholds

International students whose scores on the English Language Tests are below the thresholds required by the program must take EAP 508 Graduate Communication in the Disciplines III (Credits: 4) in their first semester of study and earn a grade of B (3.0) or higher. This will add 4 credits to the 47 credit hour program for a total of 51 credits.

Test	Overall	Listening	Reading	Writing	Speaking
TOEFL IBT	100	24	26	24	23
TOEFL PBT	610	59	60	62	
TOEFL CBT	253	24	25	26	N/A
PTE	65+	Subsections 68+			
IELTS	7	7	6.5	7	6.5

Requirements

Degree Requirements

Total credits: 47-51

The program of study comprises 47-51 credits grouped into two phases of study. International students whose scores on the English Language Tests are below the thresholds required by the program are required to take EAP 508 - Graduate Communication in the Disciplines III (http://catalog.gmu.edu/preview_course_nopop.php?catoid=29&coid=308575) (Credits: 4) in their first semester of study and earn a grade of B (3.0) or higher. This will increase the degree requirements for these students from 47 to 51 credits.

Required Courses

Accelerated Master's

Bachelor's Degree (BS Health Administration)/Health Systems Management, Accelerated MHA

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BS in Health Administration

(Health System's Management Concentration and Assisted Living/ Seniors Housing Concentration) and an MHA in Health Systems Management in an accelerated time-frame after satisfactory completion of a minimum of 155 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies and Bachelor's/ Accelerated Master's Degree policies. For information specific to this accelerated master's program, see department website (https://hap.gmu.edu/program/view/19950/) .

Students must submit two professional letters of recommendation and a personal statement, have a 3.25 GPA, and a 3.50 GPA in all major coursework.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 15 HAP undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MA/MS program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

3.25 overall GPA

3.50 GPA in major coursework

Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses may choose from the following:

Advanced Standing Courses: (substitutes for these major-specific BS degree required courses, or as a required CHHS elective)

Code	Title	Credits
HAP 702	Managerial Accounting in Health Care [1]	3
HAP 703	Financial Management in Health Systems [2]	3
HAP 707	Human Resource Management in Healthcare [3]	3
HAP 715	Health Economics [4]	3

1 Can count as CHHS elective in BS Health Administration degree.

2 Substitutes *for* HAP 395 Healthcare Finance.

3 Substitutes for HAP 392 Human Resources Management in Healthcare.

4 Substitutes *for* HAP 425 Health Economics and Policy.

Please consult the undergraduate program coordinator and graduate program director regarding further questions about course substitutions.

Reserve Credit Courses: (Graduate courses that undergraduate students can take, up to 6 credits, that will only count for the graduate degree requirements).

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree policies.

Senior Housing Administration Minor

Banner Code: SHA

Academic Advising

Website: chhs.gmu.edu/students/academic-advising/undergraduate-advising/health-administration-and-policy-advisors

The minor introduces students to the context and foundational knowledge required for administrative or managerial work within residential communities for older adults - including independent living, assisted living, Alzheimer's/memory care, and continuing care retirement communities. Students will examine the current U.S. health care and senior housing environment, best practices in day-to-day management and marketing of senior housing communities, and have the opportunity to gain additional understanding of ethical, legal, and gerontological issues applicable to aging populations. Health Administration majors may pursue either the concentration in Senior Housing Administration or complete senior housing coursework to fulfill elective requirements for other concentrations in the degree.

Admissions & Policies

Admissions

The minor is available only to students outside of the Health Administration major.

Policies

At least 12 credits must be unique to the minor and cannot be used to fulfill the program of study requirements of the student's major, concentration, undergraduate certificate, or another minor. Students must complete all coursework with a minimum GPA of 2.00. Students should be familiar with university-wide requirements for minors described in AP.5.3.4 Minors.

Department of Nutrition and Food Studies

Phone: 703-993-4628
Website: nutrition.gmu.edu

Administration

- Lawrence Cheskin, Chair

The overarching mission of the Department of Nutrition and Food Studies (NUTR) is to inform students and the public about the role of food and nutrition in improving health and well-being among local and global populations through the integration of education, research, and outreach. The educational mission is to provide undergraduate and graduate degrees and certificates in food and nutrition-related studies. The research mission is to promote, develop and support research programs that help define and address food and nutritional issues. The outreach mission is to increase the awareness of food and nutrition-related issues among local and global communities, support local and global food and nutrition initiatives, and enhance collaboration among individuals and organizations to improve nutrition and health-related outcomes. Part-time students are encouraged to take at least 6 credits per semester to promote timely completion of the program.

Assistant Professors

Bethija, LaCharite, Wagner

Requirements & Policies

Requirements

Academic Advising

Each student is assigned an academic advisor who is a faculty member within their academic department or a professional academic advisor within the Office of Student Affairs (OSA). Academic advisor assignments are listed on the CHHS website (https://chhs.gmu.edu/students/academic-advising/), and students are expected to meet with their advisor regularly (at least once each semester) to seek advice about academic schedules and program plans, internships, and career guidance. Students also should meet with their advisor if they are experiencing academic difficulty or personal challenges or if they are feeling overwhelmed.

All students are responsible for knowing the requirements of their major as specified in the university catalog for their catalog year; academic deadlines outlined in the semester academic calendar (http://registrar.gmu.edu/calendars/); and university policies and procedures as stated in the catalog.

Students also should run their own degree-evaluation (http://registrar.gmu.edu/students/degree-evaluation/) to identify graduation requirements and progress towards their degree. While academic advisors can give advice to students, students are responsible for the academic planning decisions they make. Academic advisors cannot be held responsible for mistakes made by students in selecting courses that may not count toward their degree and thus delay a desired graduation date.

Programs

- Nutrition Minor
- Nutrition, MS

Food Systems Minor

Banner Code: FOOD

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/nutrition-and-food-studies-advisor

The minor in food systems is designed to provide students from a range of disciplines with the knowledge and skills to understand how factors of the food system affect the health of a community (e.g., nutrition, food security, inequity, agriculture, food safety). Using a systems approach, students will study the interrelating components, drivers, and outcomes in the national and global food systems, including the obesity epidemic, food security, and the environmental impact of agriculture.

Admissions & Policies

Policies

To complete the minor, students are required to pass at least 15 credits of undergraduate coursework. At least six credits must be completed at Mason, and no more than three credits of C- or D in the minor are accepted. Eight credits of coursework must be unique to the minor.

Students should be familiar with university-wide requirements for minors described in AP.5.3.4 Minors.

Nutrition Graduate Certificate

Banner Code: HH-CERG-NUTR

Academic Advising

Website: chhs.gmu.edu/students/academic-advising/graduate-advising#nfs

Available Concentrations

Students pursuing the graduate certificate in nutrition may choose from one of the following concentrations:

- Community Nutrition
- Food Security

This certificate qualifies for Title IV Federal Financial Aid.

Concentration in Community Nutrition

The graduate certificate in nutrition with a concentration in community nutrition prepares students to apply nutrition principles and the latest scientific evidence and methods of nutrition to health practice and research among different populations. The program emphasizes understanding the role of nutrition in population health and well-being and the development of skills required in the practice, analysis, and interpretation of nutrition-related information and data among individuals and populations. Students will acquire competencies in the following areas:

- public health nutrition framework
- nutritional assessment and monitoring
- research design and methodology
- planning and evaluation of nutrition programs

Concentration in Food Security

The graduate certificate in nutrition with a concentration in food security provides knowledge and tools in the areas of nutrition, food studies, geography, and geoinformation science to prepare students for careers in food security and safety. The program includes courses in nutrition, food security, food safety, and GIS and remote sensing, and the program will give students insight into the determinants of food security in developing and industrialized countries, the roots of vulnerabilities of populations most at-risk, and programs involved in food security research and interventions worldwide.

Admissions & Policies

Admissions

Applicants must meet the admission standards and application requirements specified in Graduate Admissions and must apply using the Application for Graduate Admission (https://www2.gmu.edu/admissions-aid/). The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/).

Concentration in Community Nutrition

Previous undergraduate coursework in natural sciences, nursing, health science, and sociology is helpful.

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Concentration in Community Nutrition

A maximum of 3 credits in equivalent coursework taken at another college or university can be applied toward the certificate.

Requirements

Certificate Requirements

Total credits: 18

This certificate may be pursued on a full-or part-time basis.

To earn the certificate, students must complete all requirements listed within a concentration and earn a minimum GPA of 3.00 in the 18 credits of graduate coursework, with no more than 3 credits with a grade of C.

Nutrition Minor

Banner Code: NUTR

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/nutrition-and-food-studies-advisor

The minor in nutrition is intended to increase knowledge of nutrition issues for students from all disciplines. Students pursuing degrees related to nutrition, health, and education may be interested in completing this minor.

Note: This minor is *not* equivalent to the registered dietitian license and does not provide a license to practice therapeutic nutrition.

Admissions & Policies

Policies

To complete the minor, students are required to pass at least 15 credits of undergraduate coursework. At least 6 credits must be completed at Mason, and no more than 3 credits of C- or D in the minor are accepted.

Students should be familiar with university-wide requirements for minors described in AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: minimum 15

Students are required to take an introductory nutrition course such as NUTR 295 Introduction to Nutrition (Mason Core) before beginning coursework in this minor.

Nutrition, MS

Banner Code: HH-MS-NUTR

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#nfs

The master's in nutrition emphasizes a skill-set tailored to expanding nutrition-related needs. Students learn to assess, evaluate, and intervene in the most current and relevant nutrition issues. The curriculum prepares graduates to work for agencies, businesses, and organizations that seek to improve nutrition at the local, national, and global level. This program also prepares students to engage in further study for research careers in nutrition.

Admissions & Policies

Admissions

Requirements

Applicants must meet the admission standards and application requirements specified in Graduate Admissions and must apply using the online Application for Graduate Admission (https://www2.gmu.edu/admissions-aid/). For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/).

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies.

Transfer of Credit

Transfer credit is governed by university transfer of credit policy and the university requirements for master's degrees, and transfer credit must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department prior to taking a course and plan to submit their application to the MS in Nutrition program in their first semester of study.

NUTR 620	Nutrition Education	3
NUTR 522	Nutrition Across the Lifespan	3
NUTR 515	Fundamentals of Cooking	3
NUTR 642	Macronutrients	3
NUTR 644	Micronutrients	3
NUTR 670	Nutrition Research Methods	3
NUTR 675	Nutrition Program Development, Interventions and Assessments	3
NUTR 626	Food Systems	3
GCH 601	Introduction to Biostatistics	3
or HAP 602	Statistics in Health Services Management	
NUTR 583	Food and Culture [1]	3
Total Credits		30-33

[1] Required only for students who will complete the Practicum Option

Elective

All electives must be approved by advisor.

Code	Title	Credits
Select one from the following elective courses in any topic area.		**3**
Cultural Competency:		
NUTR 530	Introduction to Wine and Beer	
NUTR 630	Global Nutrition	
ANTH 699	Contemporary Issues in Sociocultural Anthropology [1]	
Nutrition Intervention, Programs, and Policy:		
NUTR 566	Nutrition and Weight Management	
NUTR 608	Perspectives on Food Security	
NUTR 610	Food Safety and Defense	
NUTR 611	Food and Nutrition Security Policy	
Nutrition Research:		
GCH 752	Nutritional Epidemiology	
GCH 804	Biostatistics for Public Health I	
GCH 805	Biostatistics for Public Health II	
HAP 719	Advanced Statistics in Health Services Research I	
RHBS 710	Applied Physiology I	
RHBS 711	Applied Physiology II	
Total Credits		3

[1] ANTH 699 may be selected only when topic is focused on food and human evolution.

Capstone Experience

Students must complete either the Practicum or Thesis option.

Practicum Option

The practicum option entails a supervised practical application of previously studied theory through fieldwork. Students will be required to engage for a minimum of 200 contact hours per practicum in a nutrition-related organization under the guidance of a preceptor and a faculty advisor. Students must attend one seminar course, complete a project while working in the agency, and produce a formal report and presentation during the practicum. Students will enroll in the Pre-Practicum course the semester prior to conducting the practicum. In their final semester, students will enroll in the Nutrition Practicum.

Code	Title	Credits
NUTR 788	Pre-Practicum Seminar	0
NUTR 790	Nutrition Practicum	3
Total Credits		3

Thesis Option

The thesis option is a research project incorporating an original design to test a theory and resulting in a final written thesis. The topic must fall within one of the areas of faculty expertise within the department, including: food science, food studies, global nutrition, public health nutrition, nutrition policy, nutrition assessment, and chronic disease and nutrition. Students may register for the thesis only with approval from their advisor and after they have completed at least 18 credits of the program.

Students in the master's thesis option are required to work with a committee of three faculty members. It is the responsibility of the student to form a committee at least 9 months before the desired graduation. The thesis director and at least one of the committee members must be members of the Department of Nutrition and Food Studies faculty, but the third member may or may not be from the Department. Students must take two thesis classes (6 credits total) while working on their thesis. Students must develop a proposal and have it approved by their committee and by the appropriate University committees, such as the Human Subjects Review Board, before undertaking the project. The thesis must conform to the format stated within Mason's University Libraries guidelines.

Department of Rehabilitation Science

Phone: 703-993-1950
Website: rehabscience.gmu.edu

Administration

- Rosemary Higgins, Interim Chair

Rehabilitation Science is an interdisciplinary field of study that seeks to understand the relationships among chronic illness, function, and disability and to improve the quality of life for those individuals who live with a chronic condition. This field draws its body of knowledge from multiple disciplines spanning the physiological, health, and social sciences in order to approach the individual who lives with or is at risk of disability as a complete person with a full appreciation of the biopsychosocial environment in which that person functions.

Faculty

Departmental Faculty

Professors

Guccione, Higgins (interim chair)

Department of Social Work

Phone: 703-993-4247
Website: socialwork.gmu.edu

Administration

- Emily Ihara, Chair

The mission of the Department of Social Work (SOCW) is to promote human well-being by ensuring economic and social justice, as well as human rights for all. The department accomplishes this mission by providing an academically rigorous education that nurtures and develops social work leaders, scholars, and practitioners to serve diverse populations, engage in critical thinking, challenge injustice, and implement interventions grounded in theory and science.

The research and scholarly activities of the department contribute to basic and applied social science research that investigates systemic inequities in power and unequal access to resources. The department aims to solve individual, family, and social problems by identifying and developing effective interventions rooted in scientific theory and collaborates with community members, social service agencies, governmental stakeholders, students, faculty, alumni, and research funders to cultivate community partnerships, enhance capacity, and provide technical expertise to human service organizations caring for diverse local, national, and global communities.

Undergraduate

The mission of the BSW Program is to prepare entry-level generalist social work professionals who will demonstrate ethical leadership in innovative multidisciplinary practice, social reform, and research in diverse communities. Students are provided a range of opportunities to develop a broad knowledge and skills base consistent with the systems and strengths perspectives. They are expected to practice using core social work values and to examine and resolve ethical dilemmas. Classroom and field experiences prepare students to be competent in the use of relevant new technologies and in culturally sensitive, generalist social work practice.

Graduate

The mission of the MSW program is to prepare social workers for advanced professional practice bringing excellent interpersonal, technological, research, and communication skills to the human service delivery system. The MSW program builds upon a foundation of generalist social work knowledge and skills that integrates micro and macro theory and practice and emphasizes empowerment and systems transformation. This foundation equips students to enhance human

well-being and to promote social and economic justice through ethical professional practice with culturally diverse individuals, families, groups, organizations, and communities. Graduates will be prepared to work collaboratively with individuals, families, and communities to stimulate positive change through clinical practice, advocacy, social and political action, and address local, national, and global challenges.

Field Placement

The Department of Social Work will make reasonable efforts to work with a student to secure an appropriate field placement, but it does not guarantee a placement. A student with a criminal history may find it difficult to obtain a field placement or employment in a human service agency depending on the specific charge. It is possible that a student with a criminal background may not be able to be placed in a field practicum or complete their degree program. The Criminal Background Policy is available on the Social Work Department website. (https://socialwork.gmu.edu/)

Program Completion

Part-time students are encouraged to take at least 6 credits per semester to promote timely completion of the program.

Requirements & Policies

Policies

Academic Advising

Each student is assigned an academic advisor who is a faculty member within their academic department or a professional academic advisor within the Office of Student Affairs (OSA). Academic advisor assignments are listed on the CHHS website (https://chhs.gmu.edu/students/academic-advising/), and students are expected to meet with their advisor regularly (at least once each semester) to seek advice about academic schedules and program plans, internships, and career guidance. Students also should meet with their advisor if they are experiencing academic difficulty or personal challenges or if they are feeling overwhelmed.

All students are responsible for knowing the requirements of their major as specified in the university catalog for their catalog year; academic deadlines outlined in the semester academic calendar (http://registrar.gmu.edu/calendars/); and university policies and procedures.

Students also should run their own degree-evaluation (http://registrar.gmu.edu/students/degree-evaluation/) to identify graduation requirements and progress towards their degree. While academic advisors can give advice to students, students are responsible for the academic planning decisions they make. Academic advisors cannot be held responsible for mistakes made by students in selecting courses that may not count toward their degree and thus delay a desired graduation date.

Programs

- Aging Studies Minor
- Gerontology Graduate Certificate
- Health and Social Policy Minor
- Social Work Minor
- Social Work, BSW
- Social Work, MSW

Aging Studies Minor

Banner Code: AGES

Academic Advising

Website: chhs.gmu.edu/students/academic-advising/undergraduate-advising/social-work-advisors

The minor in aging studies combines theoretical and applied coursework in aging with the student's undergraduate curriculum in any department of the university. Because aging studies is by definition multidisciplinary, students are required to take coursework outside their major field.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. Students should be familiar with university-wide requirements for minors described in AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 15

Required Courses

Code	Title	Credits
SOCW 435	Introduction to Gerontology	3
HHS 432	Healthy Aging	3

Total Credits		3

Gerontology Graduate Certificate

Banner Code: HH-CERG-GERO

Academic Advising

Website: masononline.gmu.edu/programs/gerontology-graduate-certificate/

This graduate certificate combines theoretical and applied coursework in aging with the student's graduate curriculum in any department. Because gerontology is by definition multidisciplinary, students are required to take coursework outside their major field.

Admissions & Policies

Admissions

Applicants must meet the admission standards and application requirements specified in Graduate Admissions and must apply using the Application for Graduate Admission (https://www2.gmu.edu/admissions-aid/). The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/).

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Requirements

Certificate Requirements

Total credits: 15

This certificate may be pursued on a full-or part-time basis.

To earn the certificate, students must earn a minimum GPA of 3.00 in the 15 credits of coursework outlined below, with no more than 3 credits with a grade of C.

Required Courses

Code	Title	Credits

Total Credits		3

Health and Social Policy Minor

Banner Code: HSP

Website: https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/health-administration-and-policy-advisors

The minor in health and social policy introduces students to the context and process for public policymaking in health care and social services. Students will examine the current environment for health and social policy, learn the basic elements of the public policymaking process, and apply this knowledge in a practical research endeavor. This minor is a joint program offered by the Department of Health Administration and Policy and the Department of Social Work.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students should complete all coursework with a minimum GPA of 2.00. Students should be familiar with university-wide requirements for minors described in AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 18

Students will take five (5) core courses and one (1) elective course in an area of health and social policy interest.

Social Work, BSW

Banner Code: HH-BSW-SOCW

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/social-work-advisors

This program prepares students for beginning generalist professional practice in social work at the baccalaureate level and has been granted full accreditation by the Council on Social Work Education. All students are expected to abide by the Code of Ethics of the National Association of Social Workers.

No academic credit toward field experience or coursework is given based on previous work or life experience. Students are required to successfully complete 450 hours of supervised field practicum in agencies approved by the Department of Social Work. The Department of Social Work will make reasonable efforts to work with a student to secure an appropriate field placement, but it does not guarantee a placement. The social work

program does *not* offer all of the required courses during the evening hours, so students should meet with their academic advisor to develop a plan to complete coursework for the degree. Field placements generally require availability during regular daytime hours.

Admissions & Policies

Admissions

Admission Requirements

To be admitted to the social work program, a student must have

1. completed at least 45 credits with a GPA of 2.50 or higher;
2. completed or be registered in:

Code	Title	Credits
BIOL 103	Introductory Biology II-Survey of Cell and Molecular Biology (Mason Core)	3
ENGH 101	Composition (Mason Core)	3
SOCI 101	Introductory Sociology (Mason Core)	3
PSYC 100	Basic Concepts in Psychology (Mason Core)	3

3. earned at least a C in:

Code	Title	Credits
SOCW 200	Introduction to Social Work (Mason Core)	3
SOCW 357	Methods of Social Work Intervention I	3
SOCW 361	Methods of Social Work Intervention I: Laboratory	3
And at least two of the following courses:		
SOCW 311	Building Professional Social Work Skills	3
SOCW 312	Knowledge Building for Helping Professionals	3
SOCW 375	Human Behavior and the Family Life Course (Mason Core)	3
SOCW 380	Changing Social Policies and Systems	3
SOCW 390	Analytic Methods for Social Work Research	3

4. be enrolled in all other required 300-level SOCW courses; and
5. submitted an application for the social work major and the senior field practicum by the deadline stated on the BSW admissions website (https://socialwork.gmu.edu/admissions/undergraduate-admissions/).

The student's application for admission to the social work major is reviewed for action by social work faculty members. A personal interview may be required.

There is no admission to the social work program in the summer. Students who have not met all criteria for admission to the major will not be considered for admission until the next academic year.

Policies

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies.

Program Requirements

To earn a bachelor's degree in social work, students must earn a grade of C or above in all Social Work classes applied to the major and must achieve a GPA of 2.50 overall. Class attendance is required in all Social Work courses. Before beginning SOCW 495 Field Practicum and Seminar I, students must successfully complete all required 200- and 300-level courses with a grade of C or above.

The Social Work faculty evaluates student performance periodically and may require students to withdraw from the program when, in their judgment, performance is not satisfactory. The decision is based on the quality of academic and field performance, as well as on personal fitness for the profession of social work. Students have the right to appeal.

A student with a criminal history may find it difficult to obtain a field placement or employment in a human service agency depending on the specific charge. It is possible that a student with a criminal background may not be able to be placed in a field practicum or complete their degree program. The Criminal Background Policy is available on the Social Work Department website (https://socialwork.gmu.edu/).

Immunization and Fees

All students who are enrolled in a course that requires a field placement (SOCW 495 Field Practicum and Seminar I and SOCW 496 Field Practicum and Seminar II) must have an annual tuberculosis screening (PPD). In addition, students must complete the entire hepatitis B immunization series in accordance with current U.S. Public Health Service recommendations. The cost of immunizations is the responsibility of the student. The majority of agencies used for field placements require fingerprinting, a criminal background check (may be more extensive than the university requirement), and a child protective services check. Any cost related to these requirements is the responsibility of the student.

Writing Intensive Requirement

The university requires all students to complete at least one course designated "writing intensive" in the 300 level or above. Students majoring in social work fulfill this requirement by successfully completing SOCW 471 Research in Social Work.

Total Credits		32-34

[1] Six credits must be in social work at the 400- or 500-level, not including courses listed above; SOCW 499 Independent Study in Social Work may be used to satisfy an additional 1 to 3 credits toward general electives.

Notes

SOCW 357 Methods of Social Work Intervention I and SOCW 361 Methods of Social Work Intervention I: Laboratory (only offered in the fall semester) are prerequisites to SOCW 358 Methods of Social Work Intervention II and SOCW 362 Methods of Social Work Intervention II: Laboratory (only offered in the spring semester). Graduation may be delayed if courses are not taken in proper sequence.

Selected Social Work electives are offered each semester on a rotating basis.

4-Year Plan

Bachelors of Social Work in Social Work Sample Plan of Study

Detailed four year plans can be found at https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/program-planning-advising-sheets (https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/program-planning-advising-sheets/)

Social Work, MSW

Banner Code: HH-MSW-SOCW

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#sw

George Mason's accredited Master of Social Work (MSW) program, which began in fall 2002, prepares students for advanced social work practice. The MSW program builds upon a foundation of generalist social work knowledge and skills that integrates micro and macro theory and practice and emphasizes empowerment and systems transformation. This foundation equips students to enhance human well-being and to promote social and economic justice and human rights through ethical professional practice with culturally diverse individuals, families, groups, organizations, and communities.

Once the generalist curriculum (30 credit hours) is complete, students choose a specialization in Children, Youth, and Families (CYF) or Adults and Healthy Aging (AHA). Graduates will be prepared to strengthen their communities, stimulate positive change through advocacy, social, and political action, and help meet local, national, and global challenges. All social work students are expected to abide by the Code of Ethics of the National Association of Social Workers. No academic credit towards field experience or coursework is given based on previous work or life experience.

The MSW degree is offered via a regular on-campus or fully online delivery format. The curriculum in both programs is the same, but students must matriculate through only one pathway. Separate application processes are used for on-campus and online programs. On-campus students can complete their degree in a two-, three-, or four-year plan of study. All courses are sequenced and must be taken in the order designated. Students should meet with their academic advisor to ensure timely completion of all degree requirements. The fully online program is offered in a flexible 8-week schedule format, and courses are taken in a prescribed sequence, one at a time, except during semesters when students are in their field practicum.

In both program options, students are required to successfully complete 1,050 hours of supervised field practicum in agencies approved by the Department of Social Work: 450 hours during the generalist year and 600 hours during the specialized practice year. Field placements generally require availability during regular daytime hours. The Department of Social Work will make reasonable efforts to work with a student to secure an appropriate field placement, but it does not guarantee a placement.

Admissions & Policies

Admissions

Requirements

Applicants must meet the admission standards and application requirements specified in Graduate Admissions and apply using the online Application for Graduate Admission (http://admissions.gmu.edu/). The application process is competitive, and applications for the on-campus program are considered for the fall semester only. In addition to holding an undergraduate degree from an institution of higher education accredited by a Mason-recognized U.S. institutional accrediting agency or international equivalent, applicants must have a minimum of 30 undergraduate credits in the liberal arts to include at least 3 credits in each of the following: English composition, history or government, social sciences, and statistics. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/).

Requirements for MSW students with Advanced Standing

Students with a BSW degree who demonstrate superior academic achievement and excellence in social work practice may apply for advanced standing. Advanced standing students begin the MSW Program in the summer and upon successfully completing SOCW 674, move directly into the specialized practice curriculum. Advanced standing students must successfully complete 600 hours of supervised field practicum in agencies approved by the Department of Social Work.

All other academic policies for the advanced standing program are identical to those for the traditional MSW Program.

Advanced standing applicants must meet the admission standards and application requirements specified in Graduate Admissions and must apply using the online Application for Graduate Admission (https://www2.gmu.edu/admissions-aid/). The application process is competitive, and applications are considered for the fall admissions cycle only, with advanced standing students beginning courses in the summer. In addition to holding a BSW in Social Work earned within the past five years from a program accredited by the Council on Social Work Education, applicants must have a minimum of 30 undergraduate credits in the liberal arts to include at least 3 credits in each of the following: English composition, history or government, social sciences, and statistics. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/).

Policies

Transfer of Credit

Students who began MSW programs at another CSWE-accredited MSW program may transfer a maximum of 29 graduate credits into the MSW program.

Transfer credit is subject to university and college policies and must be approved by the program director and the dean. Students must note on the MSW Departmental Form and MSW Application Checklist that they are applying as transfer students.

Non-Degree Students

Admission to the on-campus MSW program is offered once a year for the fall semester only. Non-degree students may apply through the Office of Admissions (http://admissions.gmu.edu/nonDegree/) and be admitted in the fall and spring and, as space allows, enroll in classes as appropriate. Please contact the program director for more information.

Program Requirements

Students must earn a grade of B- or above in each course and must achieve a GPA of 3.0 over all courses applied to the degree. A prerequisite must be satisfied with a B- or better before registering for the next course in a sequence. A course in which the student earns a C may be repeated once. No more than 6 total credits of C may be repeated overall.

Social work faculty members evaluate each student's performance periodically and may terminate the student from the program when, in their judgment, performance is not satisfactory. The decision is based on the quality of academic and field performance, as well as on personal fitness for the profession of social work. The student has the right to appeal.

A student with a criminal history may find it difficult to obtain a field placement or employment in a human service agency depending on the specific charge. It is possible that a student with a criminal background may not be able to be placed in a field practicum or complete their degree program. The Criminal Background Policy is available on the Social Work Department website (https://socialwork.gmu.edu/).

Insurance Coverage

Students engaged in internships are covered for liability under the Commonwealth of Virginia's Self-Insured Liability Insurance Plan and covered for medical malpractice under the Medical Malpractice Insurance Plan, as established by the Department of General Services, Division of Risk Management. Only practicum activities that have been determined by the field instructor to be part of the course are covered. Students are encouraged to obtain professional liability coverage through the National Association of Social Workers, although this additional coverage is optional.

Immunizations

All students who are enrolled in a course that requires a field placement (SOCW 672, SOCW 673, SOCW 696, SOCW 698) must have an annual tuberculosis screening (PPD). In addition, students must complete

the entire Hepatitis B immunization series in accordance with current U.S. Public Health Service recommendations. Any cost related to these requirements is the responsibility of the student. Students can register for field classes prior to the completion of the immunizations, but documentation of completion must be submitted to the Social Work Department office no later than one month after the beginning of the semester. Immunizations are program requirements and must be completed by the student even if they are not required by the agency.

Requirements

Degree Requirements

Total credits: 60

In order to graduate with the MSW degree, students must successfully complete the generalist courses and the courses for one specialization. Before beginning Specialization Courses, students must complete **all** Generalist Courses.

Generalist Courses

Dual Degree Options

Conflict Analysis and Resolution, MS and Social Work, MSW Dual Degree

The Department of Social Work and the Jimmy and Rosalynn Carter School for Peace and Conflict Resolution have joined forces to offer a three year dual-degree program. Students can earn both an MSW and an MS in Conflict Analysis and Resolution while taking advantage of the diversity of the Washington, D.C., metropolitan area and the university's proximity to the nation's capital. This is the only dual-degree program of its kind.

Admission Requirements

Applicants must meet the admission standards and application requirements specified in Graduate Admissions and apply using the online Application for Graduate Admission (http://admissions.gmu.edu/). The application process is competitive, and applications are considered for the fall semester only.

Students interested in the 3-year dual degree program submit one online Application for Graduate Admission (http://admissions.gmu.edu/), select the MSW in Social Work as a primary program, and submit all application support materials to the Office of Graduate Admission in the College of Health and Human Services. Applicants should communicate their interest in completing the dual degree program in their essays, and recommendations should address the dual program interest. Students must be admitted to both programs in the same semester (fall only) to be admitted to the dual degree program.

For application deadlines and detailed application requirements please refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/). Interested students should consult the MSW program website (https://socialwork.gmu.edu/program/view/19658/), the MSW program, and the MSW program director for additional information prior to applying.

Transfer of Credit

Transfer credit is governed AP.6.5.3 Transfer of Credit and AP.6 Graduate Policies. Transfer credits must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department prior to taking a course and plan to submit their application to the dual degree program as soon as possible.

Please refer to the Transfer of Credit policy for the MSW in Social Work for departmental policy governing courses taken at another institution and the maximum number of credits allowed.

School of Nursing

Phone: 703-993-1901 (Undergraduate)

703-993-1961 (Graduate)

Website: nursing.gmu.edu

Administration

- Martha Kubik, Director

The School of Nursing is a teaching/learning organization with a national and international academic reputation, grounded in sound general education. It develops and supports a diverse faculty who are visionary and competent practitioners, scholars, and researchers, excellent in teaching in academic and practice settings, and responsive to the needs of students and the community. Specifically, the nursing programs

prepare graduates to function as providers, coordinators, and managers of care and for leadership, advanced practice, and nurse scholar roles, as well as members of the nursing profession. Graduates of the School of Nursing are prepared to function as interdisciplinary health professionals and citizens who provide leadership, care, and service to the community. The School promotes health and well-being through its programs and centers, engaging in scholarly activities and research with the aim of maximum health for all people. Part-time students are encouraged to take at least 6 credits per semester to promote timely completion of the program.

Requirements & Policies

Policies

Academic Advising

Each student is assigned an academic advisor who is a faculty member within their academic department or a professional academic advisor within the Office of Student Affairs (OSA). Academic advisor assignments are listed on the CHHS website (https://chhs.gmu.edu/students/academic-advising/), and students are expected to meet with their advisor regularly (at least once each semester) to seek advice about academic schedules and program plans, internships, and career guidance. Students also should meet with their advisor if they are experiencing academic difficulty or personal challenges or if they are feeling overwhelmed.

All students are responsible for knowing the requirements of their major as specified in the university catalog for their catalog year; academic deadlines outlined in the semester academic calendar (http://registrar.gmu.edu/calendars/); and university policies and procedures as stated in the catalog.

Students also should run their own degree-evaluation (http://registrar.gmu.edu/students/degree-evaluation/) to identify graduation requirements and progress towards their degree. While academic advisors can give advice to students, students are responsible for the academic planning decisions they make. Academic advisors cannot be held responsible for mistakes made by students in selecting courses that may not count toward their degree and thus delay a desired graduation date.

Nursing Education Graduate Certificate

Banner Code: HH-CERG-NUED

Academic Advising

Website: nursing.gmu.edu/program/view/19938

This program combines foundation courses in education with courses in the principles and practices of nursing education. It prepares students to function in nursing educational roles in academic and nonacademic settings.

Admissions & Policies

Admissions

Applicants must hold a master's degree in nursing. Applicants must meet the admission standards and application requirements specified in Graduate Admissions and apply using the Application for Graduate Admission (https://www2.gmu.edu/admissions-aid/). Acceptance to the nursing program is contingent upon admission to the university. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/) website.

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Requirements

Certificate Requirements

Total credits: 15

This certificate may be pursued on a part-time basis only.

Candidates must have 15 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate.

Required Courses

Code	Title	Credits
NURS 716	Principles of Assessment and Evaluation in Nursing Education	3
NURS 726	Perspectives in Nursing Education	3
NURS 727	Application of Nursing Education Principles to Curriculum and Program Development	3
NURS 728	Practicum and Seminar in Nursing Education I	3
NURS 729	Practicum and Seminar in Nursing Education II	3
Total Credits		15

Notes:
Students who qualify for a 3-credit practicum because of their educational experience may choose the remaining 3 credits from courses designated by the graduate nursing program.

Nursing, BSN

Banner Code: HH-BSN-NURS

Academic Advising

Website: https://chhs.gmu.edu/program/nursing-bsn

The Bachelor of Science in Nursing (BSN) Program is accredited by the Virginia State Board of Nursing and the Commission on Collegiate Nursing Education. The undergraduate nursing program prepares students to deliver superior nursing care and provide leadership in nursing in the increasingly complex and challenging field of modern health care. Graduates are in demand as professional nurses in hospitals, long-term care facilities, and community health and other health care agencies. The program emphasizes health promotion and disease prevention, capitalizing on early detection of potential health problems, health maintenance in ambulatory and acute-care agencies, and preparation for the managerial responsibilities of nursing.

The School of Nursing offers four pathways to complete the BSN, all of which lead to completion of the objectives of the undergraduate program. The traditional pathway is a two-year curriculum following the completion of the Mason Core and prerequisite requirements. An accelerated RN-to-BSN pathway for students holding current registered nurse (RN) licenses may be completed in one year (full-time) following completion of the Mason Core and prerequisite requirements. The accelerated, second degree pathway is a 12-month curriculum for students holding a baccalaureate degree outside of nursing. The traditional and accelerated pathways in nursing must be completed on a full-time basis. An accelerated Veteran LPN-to-BSN pathway is offered for licensed LPNs seeking to pursue a BSN and earn their RN license. The Veteran LPN-to-BSN pathway is designed to build upon the skills and knowledge gained through an LPN program and previous military health training and must be completed on a full-time basis. Students can complete this pathway in 12 months following completion of the nursing prerequisite requirements.

Admissions & Policies

Admissions

General Requirements

To be admitted to the BSN program, students must complete a pre-nursing curriculum during their first two years and be admitted to junior standing. Students admitted in the traditional and accelerated, second degree pathways will enter the program in the fall of their junior year and at that point are considered nursing majors. Students admitted to the RN-to-BSN pathway may enter in the fall or spring semester. Students admitted to the Veteran LPN-to-BSN pathway may enter in the fall semester only.

Application to the BSN program is a process involving two applications: the George Mason University Undergraduate Application and the BSN Departmental Application. (Currently enrolled Mason students need only apply using the BSN Departmental Application.) Acceptance to the nursing program is contingent upon admission to the university, but *admission to the university does not guarantee admission to the nursing program*. Application to the BSN major is a competitive admission process. Prospective applicants are responsible to meet all BSN admission requirements at the time of application. Meeting the minimum requirements does not guarantee admission into the nursing program—it only allows an application to be considered. Students who are interested in pursuing a major in nursing are strongly encouraged to attend an information session provided by the CHHS Office of Student Affairs for advising prior to applying to the nursing major.

Attendance at the first meeting of all nursing courses (lectures, on-campus laboratories, and agency laboratories) is mandatory.

Traditional BSN Pathway Requirements

To be eligible to apply for the traditional BSN program, applicants must have achieved a minimum GPA of 3.00 in the designated nursing prerequisite coursework and must have earned a C or better in each of the following courses:

Code	Title	Credits
Anatomy and Physiology		
BIOL 124	Human Anatomy and Physiology	
BIOL 125	Human Anatomy and Physiology	
Microbiology		
BIOL 246	Introductory Microbiology	
BIOL 306	Biology of Microorganisms Laboratory	
Statistics		
Nutrition		
NUTR 295	Introduction to Nutrition (Mason Core)	
Developmental Psychology		
Bioethics		
PHIL 309	Bioethics (Mason Core)	

Applicants must have completed two of the three science prerequisite courses (anatomy and physiology I, anatomy and physiology II, and microbiology) by the submission date of the BSN Departmental Application. Coursework in anatomy and physiology and microbiology cannot be more than five years old by the time of BSN enrollment. Additional eligibility requirements include a grade of C or better in all Mason Core courses and electives. All nursing prerequisites, Mason Core,

and electives must be complete by the end of Mason's spring term before starting the program.

Application to the BSN program is a process involving two applications: the George Mason University Undergraduate Application and the BSN Departmental Application. (Currently-enrolled Mason students need only apply using the BSN Departmental Application.) Acceptance to the nursing program is contingent upon admission to the university. Admission to the university does not guarantee admission to the nursing program. See the CHHS undergraduate admissions website (https://nursing.gmu.edu/admissions/bsn-admissions/) for the latest information on applications and deadlines.

Application to the BSN major is a competitive admission process. Meeting the minimum requirements does not guarantee admission into the nursing program - it only allows an application to be considered in the review process.

The traditional BSN pathway is a full-time program beginning in the fall semester and is completed in two years (four semesters).

Accelerated, Second Degree BSN Pathway Requirements

The Accelerated, Second Degree BSN Pathway is designed for applicants already holding a bachelor's degree who are interested in pursuing an undergraduate degree in nursing. This full-time accelerated program begins in the fall semester and is completed in 12 months.

Applicants must have a baccalaureate degree from an accredited college or university and must have earned a minimum cumulative GPA of 2.85 in their first degree. The non-nursing baccalaureate degree must be completed by the end of the spring semester of the year a student desires to be considered for fall admission.

Applicants to the second degree pathway must have achieved a minimum GPA of 3.00 in the designated nursing prerequisite coursework and must have earned a C or better in each of the following courses:

Code	Title	Credits
Anatomy and Physiology		
BIOL 124	Human Anatomy and Physiology	
BIOL 125	Human Anatomy and Physiology	
Microbiology		
BIOL 246	Introductory Microbiology	
BIOL 306	Biology of Microorganisms Laboratory	
Statistics		
Nutrition		
NUTR 295	Introduction to Nutrition (Mason Core)	
Developmental Psychology		
Bioethics		
PHIL 309	Bioethics (Mason Core)	

Applicants must have completed two of the three science prerequisite courses (anatomy and physiology I, anatomy and physiology II, and microbiology) by the submission date of the BSN Departmental Application. Course work in anatomy and physiology and microbiology cannot be more than five years old by the time of BSN enrollment.

Application to the BSN program is a process involving two applications: the George Mason University Undergraduate Application and the BSN Departmental Application. (Currently enrolled Mason students need only apply using the BSN Departmental Application.) Acceptance to the nursing program is contingent upon admission to the university. Admission to the university does not guarantee admission to the nursing program. See the CHHS undergraduate admissions website (https://nursing.gmu.edu/admissions/bsn-admissions/) for the latest information on applications and deadlines.

Application to the BSN major is a competitive admission process. Meeting the minimum requirements does not guarantee admission into the nursing program - it only allows an application to be considered in the review process.

RN-to-BSN Pathway Requirements

The Accelerated RN-to-BSN Pathway allows RNs to progress quickly through the program through online coursework while meeting the objectives of the undergraduate curriculum. On completion of the Mason Core requirements and designated nursing prerequisites, RN students can complete the BSN in two semesters of full-time study. The program can also be completed on a part-time basis.

RN students must satisfy all Mason Core requirements and designated nursing prerequisites. For some students, the Mason Core requirements (except ENGH 302 Advanced Composition (Mason Core)) may be met by completing the Associate's degree (i.e., AA – Associate of Arts, AS – Associate of Science, or AA&S – Associate of Arts and Science) from the Virginia community college system with a qualifying GPA and specific admissions criteria. The Associate of Applied Science (AAS degree) does not waive Mason Core requirements. Contact Mason's general Office of Admissions for more information and see the Guaranteed Admission Agreement (http://admissions.gmu.edu/transfer/gaa.asp) for details. RN-licensed students enrolled in the RN-to-BSN pathway are required to submit a copy of their current state-based/US license prior to the first day of class. RN-licensed students must maintain current licensure throughout the academic program.

Application to the BSN program is a process involving two applications: the George Mason University Undergraduate Application and the BSN Departmental Application. (Currently enrolled Mason students need only apply using the BSN Departmental Application.) Acceptance to the nursing program is contingent upon admission to the university. Admission to the university does not guarantee admission to the nursing program. See the CHHS undergraduate admissions website (https://nursing.gmu.edu/admissions/bsn-admissions/) for the latest information on applications and deadlines.

Students admitted with a prior bachelor's degree are required to complete at least 30 hours at Mason beyond the first degree. Students should meet with their academic advisor to review degree requirements.

Application to the BSN major is a competitive admission process. Meeting the minimum requirements does not guarantee admission into the nursing program - it only allows an application to be considered in the review process.

Mason Veterans Program in Nursing and Co-enrollment in Nursing Program

The Mason Veterans Program in Nursing and Co-enrollment in Nursing Program allow students to complete a Bachelor of Science in Nursing (BSN) degree online while concurrently enrolled in an Associate of Applied Science nursing degree (AAS Nursing) program at a partner community college. Nursing classes in the CEP are offered online in seven-week and full-semester formats.

Students take the NCLEX (National Council Licensure Examination) after completing their AAS in nursing while enrolled in Mason's BSN program. After a student passes the NCLEX and upon successful completion of NURS 336, students are awarded 33 nursing transfer credits toward their BSN degree. Students complete Mason's BSN program the semester following graduation with the AAS degree.

Application Process
Admission to the Mason Veterans Program in Nursing or Co-enrollment in Nursing Program involves two applications: the George Mason University Undergraduate Application (https://www2.gmu.edu/admissions-aid/apply-now/) and the BSN Departmental Application. The BSN Departmental Application, instructions, and deadlines are available online (https://nursing.gmu.edu/admissions/bsn-admissions/). Please use the Transfer Search Engine (http://admissions.gmu.edu/transfer/transferCreditSearch.asp) to check course equivalency.

Eligibility Guidelines
To be eligible to apply for the Co-enrollment in Nursing Program, applicants must:

- Receive admission to Mason
- Provide a copy of a letter of admission to a pre-licensure nursing program at a partner community college
- Provide proof of enrollment in a partner community college AAS-Nursing program (i.e., copy of an unofficial transcript)
- Have completed all Mason nursing prerequisite courses at any regionally accredited institution with a grade of C (not C-) or better in EACH course by the completion of the AAS Nursing program at the partner community college
- Mason Core and elective courses may be completed at any regionally accredited institution and can still be in progress at the time of admission. These courses must be completed with a grade of C (not C-) or better in EACH course prior to completing the CEP. ENGH 302 must be completed at Mason.
- Earn a cumulative GPA of 3.0 at partner community college institution
- Submit an online BSN departmental application and non-refundable fee through online payment system by the deadlines. See the CHHS undergraduate admissions website (https://nursing.gmu.edu/admissions/bsn-admissions/) for the latest information on applications and deadlines.

In addition, to be eligible to apply for the Mason Veterans Nursing Program, applicants must be a veteran of the US military.

Veteran LPN-to-BSN Pathway Requirements

The accelerated Veteran LPN-to-BSN Pathway is for LPNs seeking to pursue a BSN and earn their RN license. The Veteran LPN-to-BSN program is designed to build upon the skills and knowledge gained through an LPN program and previous military health training. Students can complete this concentration in 12 months following completion of the prerequisite requirements. The program must be completed on a full-time basis.

To be eligible to apply for the Veteran LPN-to-BSN Pathway, applicants must be a veteran of the US military and have a current LPN license. Applicants must have achieved a minimum GPA of 3.00 in the designated nursing prerequisite coursework and must have earned a C or better in each of the following courses:

Code	Title	Credits
Anatomy and Physiology		
BIOL 124	Human Anatomy and Physiology	
BIOL 125	Human Anatomy and Physiology	
Microbiology		
BIOL 246	Introductory Microbiology	
BIOL 306	Biology of Microorganisms Laboratory	
Statistics		
Nutrition		
NUTR 295	Introduction to Nutrition (Mason Core)	
Developmental Psychology		
Bioethics		
PHIL 309	Bioethics (Mason Core)	

Applicants must have completed two of the three science prerequisite courses (anatomy and physiology I, anatomy and physiology II, and microbiology) by the submission date of the BSN Departmental Application. Coursework in anatomy and physiology and microbiology cannot be more than five years old by the time of BSN enrollment. Additional eligibility requirements include a grade of C or better in all Mason Core courses and electives. All nursing prerequisites must be complete by the end of Mason's spring term before starting the program.

Application to the BSN program is a process involving two applications: the George Mason University Undergraduate Application and the BSN Departmental Application. (Currently enrolled Mason students need only apply using the BSN Departmental Application.) Acceptance to the nursing program is contingent upon admission to the university. Admission to the university does not guarantee admission to the nursing program. See the CHHS undergraduate admissions website (https://nursing.gmu.edu/admissions/bsn-admissions/) for the latest information on applications and deadlines.

Application to the BSN major is a competitive admission process. Meeting the minimum requirements does not guarantee admission into the nursing program - it only allows an application to be considered in the review process.

Policies

Degree Requirements

Students must fulfill all requirements for bachelor's degrees, including the Mason Core requirements. For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies.

Writing Intensive Requirement

Mason requires all students to complete at least one 300- or 400-level "writing intensive" course as designated by their department. Students majoring in nursing fulfill this requirement by successfully completing NURS 465.

Academic Grade Standards

The passing grade is a C+ or above in undergraduate nursing didactic courses in the School of Nursing. A grade of satisfactory (S) is the passing grade for NURS 305, NURS 310, NURS 312, NURS 344, NURS 351, and NURS 455. After admission to junior-year standing and to the nursing program, a student who earns a grade of C or below must repeat the course and earn a grade of a C+ or above in that course. This will alter or halt further progression in the nursing program and affect the expected graduation date. A student may repeat only one nursing

course, one time. A student who fails to earn a grade of C+ or above in the repeated course is terminated from the BSN nursing program. In addition, earning a grade of C or below in a second nursing course results in termination from the BSN nursing program. Termination from any one of the nursing undergraduate pathways constitutes termination from the undergraduate (BSN) nursing major in the School of Nursing.

Because of the sequential nature of the nursing curriculum, students are not allowed to progress to the next semester of nursing course work while a grade of "IN" (incomplete) remains on their academic record. A passing grade must be recorded before beginning the next semester's courses. Academic dismissal is governed by university policy.

Professional Conduct Policy

All students in the School of Nursing are expected to adhere to the Professional Conduct Policy of the College of Health and Human Services.

Appeal Process

Although faculty members in the nursing program are generally the best judges of a student's professional performance, there may be times when a student believes a grade is unfair. Students in the School of Nursing wishing to appeal a grade are expected to follow the Mason guidelines for grade appeals.

NCLEX Readiness Preparation and Testing

Throughout the BSN program, all students, with the exception of RN-to-BSN students, participate in preparation for the NCLEX-RN licensing exam through opportunities provided during nursing courses. These opportunities are included as integrated components of select courses and include practice NCLEX-style exams and content-specific testing. A final cumulative assessment exam is given toward the end of the program to provide the student with guidance about their chance for success on the licensing exam. A final course in critical thinking and test-taking strategies is required in the senior year, and remediation in select content areas may be required as a component of this course.

Special Requirements

Fees and expenses related to the nursing program include: skills laboratory fee, standardized testing and course materials, uniforms, stethoscope, name pin, books, CPR certification, health forms, health insurance, immunizations, and criminal background check fees. *The availability of personal transportation to and from clinical agencies is required of all students.* For a summary of all current fees and estimated expenses, see the School of Nursing website (https://nursing.gmu.edu/).

All BSN students are required to obtain a health clearance and complete the immunizations required by Mason as listed in the Student Health Services section of the Mason catalog. In addition, the BSN program has additional health and immunization requirements to meet the requirements of its clinical agency partners. See the Undergraduate Program, School of Nursing website for the most current information. *Students are not allowed into any clinical setting without the completed immunization series as prescribed by Mason or the School of Nursing and may have an offer of admission withdrawn for inability to meet these requirements.* The School of Nursing reviews health records and reserves the right to refuse admission or continued enrollment to any student who is unable to comply with these requirements.

All students must have CPR certification before entering the first clinical nursing course and maintain it through the remainder of the program. The American Heart Association Basic Life Support - Health Care Provider is required. On-line renewal of CPR certification is not accepted. Any cost incurred is the responsibility of the student.

All students must have current health insurance before entering the first clinical nursing course and maintain it through the remainder of the program. All students are required to have an active Mason e-mail account.

No student or faculty member will be discriminated against or denied admission to the nursing program for the sole reason that the student or faculty member has been exposed to, infected with, or diagnosed with HIV or HBV. All students are expected to practice Universal Precautions with all clients, and failure to do so will result in termination from the nursing major. In the event that a student is exposed to body fluids of a client during a clinical experience or practicum, procedures and appropriate reports are completed according to institutional and nursing policies. Information related to exposure or infection is confidential, and dissemination of such information is based on the need-to-know criteria that apply in health care situations. HIPAA and FERPA regulations apply. A complete and detailed HIV/HBV policy is available in the CHHS Office of Student Affairs.

RN-licensed students enrolled in the RN-to-BSN pathway and LPN-licensed students enrolled in the Veteran LPN-to-BSN pathway are required to submit a copy of their current license prior to the first day of class. RN-licensed students and LPN-licensed students must maintain current licensure throughout the academic program.

Accelerated, Second Degree BSN Pathway (SEC)

Students who are eligible for an alternative pathway to the BSN must meet the nursing course requirements for the pathway to which they have been admitted rather than those for the traditional BSN pathway. Candidates for the degree must present at least 120 credits via:

- Mason Core requirements, to be satisfied by the initial degree and fulfilled through transfer credit.
- Designated nursing prerequisites
- Concentration requirements below

Concentration Requirements

Code	Title	Credits
NURS 305	Application of Basic Nursing Techniques	1
NURS 309	Introduction to Basic Nursing Care	3
NURS 310	Application of Basic Nursing Care	4
NURS 319	Pathophysiological Basis for Nursing Care of Individuals and Small Groups	4

NURS 343	Pharmacology	3
NURS 350	Application of Nursing Care for Individuals and Small Groups	4
NURS 351	Application of Intermediate Nursing Technologies	1

NURS 419	Pathophysiological Basis for Nursing Care of Individuals and Small Groups II	4
NURS 425	Comprehensive Health Assessment	3
NURS 427	Advanced Technologies for the Accelerated Pathway	1
NURS 428	Community Health Clinical for the Accelerated Pathway	2
NURS 429	Preceptorship for the Accelerated Pathway	3
NURS 436	Leadership and Management of Health Care	3
NURS 440	Community Health and Epidemiology	3
NURS 453	Research in Nursing	3
NURS 465	Examination and Integration of Professional and Health Care Issues (Mason Core)	3
Total Credits		47

Accelerated RN-to-BSN Pathway (RN)

Candidates for the degree must present at least 120 credits. A minimum of 30 credits must be earned at Mason to fulfill requirements for graduation. These include:

Code	Title	Credits
Mason Core and general electives		57
Concentration-specific requirements		24
ENGH 302	Advanced Composition (Mason Core)	3
Electives earned at Mason		3
"Credit by Exam"		33
Total Credits		120

For some students, the Mason Core requirements (except ENGH 302 Advanced Composition (Mason Core)) may be met by completing the Associate's degree (i.e., AA – Associate of Arts, AS – Associate of Science, or AA&S – Associate of Arts and Science) from an approved Virginia community college with a qualifying GPA and specific admissions criteria. The Associate of Applied Science (AAS degree) does not waive the Mason Core requirements. Contact Mason's general Office of Admissions for more information and see the Guaranteed Admission Agreement (http://admissions.gmu.edu/transfer/gaa.asp) for details.

4-Year Plan

Bachelor of Science in Nursing Sample Plan of Study

Detailed four year plans can be found at https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/program-planning-advising-sheets (https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/program-planning-advising-sheets/)

Nursing, DNP

Banner Code: HH-DNP-NURS

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#nurs

The Doctor of Nursing Practice (DNP) is the terminal practice degree in the profession. The objective of the program is to prepare graduates for the highest level of nursing practice. Emphasis will be placed on evaluating and applying the evidence that supports practice, understanding and creating practice delivery systems based on patient outcomes, and assuming leadership roles in practice settings. The curriculum will allow students with diverse nursing academic and clinical backgrounds the flexibility to enter a program of study tailored to their future professional goals. In the curriculum, five concentrations are available. The concentrations are configured into two foci as recommended by the American Academy of Colleges of Nursing (AACN) *Essentials of Doctoral Education for Advanced Nursing Practice (2006),* the guidance document for DNP programs. The two foci are:

1. Care of individuals with three concentrations, Family Nurse Practitioner, Adult-Gerontology Nurse Practitioner, and Psychiatric Mental Health Nurse Practitioner; and
2. Care of aggregates with Advanced Clinical Nursing and Administration in Nursing concentrations.

The DNP program is approved by the Virginia State Board of Nursing and accredited by the Commission on Collegiate Nursing Education. The nurse practitioner concentrations have been approved by the state boards of nursing and medicine in Virginia.

Admissions & Policies

Admissions

Requirements

Applicants must meet the admission standards and application requirements specified in Graduate Admissions and must apply using the online Application for Graduate Admission (https://www2.gmu.edu/admissions-aid/). Applicants must be graduates of accredited baccalaureate (BSN) programs in nursing. Applicants for the master's to DNP curriculum must also have a master's degree in nursing or a related field. All applicants must submit a copy of their current state-based/US nursing license and show evidence of at least one year of experience as an RN prior to admission. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/).

Policies

Transfers Between Programs or Concentrations

Approval from the school and college is required for students who wish to transfer between concentrations of the DNP or who wish to resign from the DNP and transfer to the MSN program.

Students must meet the institutional requirements stated in AP.6 Graduate Policies.

Transfer of Credit

Students may transfer a maximum of 9 credits into the DNP program from graduate courses taken at other institutions or taken at Mason in non-degree status, including courses offered through the college's Academic Outreach program. Transfer credit is governed by university transfer of graduate credit policy and the university requirements for doctoral degrees, and transfer credit must be approved by the program director and the dean. Students who enroll initially through non-degree studies or the Academic Outreach program should seek course advising through the department and should submit their application to the DNP program as soon as possible after beginning their study in non-degree status.

Reduction of Credit

Students who come into the master's to DNP program will complete 72 credits, including up to 30 hours of relevant graduate credit awarded for past master's-level courses.

Time Requirements

The total time to degree will not exceed eight (8) calendar years for BSN to DNP students and will not exceed six (6) calendar years for master's to DNP students.

Academic Termination

Academic termination is governed by university policy described in AP.6.6.2 Academic Termination. Additionally, a failing grade of F in a practicum course may result in termination from the program. Any graduate course in which a student earns a C grade or below must be repeated to earn a grade of B or better. A course may be repeated only once. A student may also be terminated from the program due to a finding of violation of the university Honor Code or after demonstrating a significant lack of progress.

Grading

Consistent with the university, the DNP program does not provide a D grade. Final grades for all DNP courses are submitted to the university as letter grades.

Grade	Quality Points	Graduate Courses
A (90-100%)	4.00	Passing
B (80-89%)	3.00	Passing
C (70-79%)	2.00	Failing
F (69% or lower)	0.00	Failing

A graduate course in which a grade of C or below is earned must be repeated to earn a grade of B or better. A course may be repeated only once. Graduate students (both master's and doctoral) may repeat no more than two courses in their total program of study.

Practicum Hour Requirements

The DNP degree requires a minimum of 1,000 practice hours. The 1,000 hours of precepted or mentored practice are distributed among introductory and upper-level graduate courses. Variable hours in the clinical practicums (NURS 921 and NURS 922) will assure a minimum total of 1,000 clinical hours prior to DNP graduation.

Master's to DNP students can transfer in up to 600 hours (depending on the number of hours they accrued during their master's program). The number of clinical hours a student is awarded on admission is based on transcripts and course descriptions. Faculty will review clinical credits earned as part of the master's degree to determine the number of clinical hours awarded.

Total Credits		36

DNP Project

The final step in completion of the degree is the implementation of a DNP project in the practice inquiry courses. The proposal for this project must be prepared with ample time for submission to the Human Subjects Review Board at George Mason University. One School of Nursing faculty member will serve as chair for the project. The student must demonstrate competence of the *AACN Essentials of Doctoral Education for Advanced Nursing Practice (2006)* by planning, developing, and implementing a scholarly DNP project that uses evidence to inform practice.

Code	Title	Credits
NURS 980	Practice Inquiry I	4
NURS 981	Practice Inquiry II	4
Total Credits		8

Master's to DNP Curriculum

Students in the master's to DNP program will complete 72 credits. Up to 30 hours of relevant graduate credit may be awarded for past master's-level courses, and students will complete the remaining minimum of 42 additional credits following the curriculum below.

The core essentials build on previous master's education and must be completed in the first year of full-time study or two years of part-time study. They prepare the student to develop and implement the DNP project in the final two semesters of study. The core essentials for master's to DNP students will be individualized based on the content from the student's master's degree academic program.

Students must complete 1,000 hours of precepted or mentored practice including those obtained during previous master's education (individually awarded based on evaluation of master's clinical hours up to 600 hours). Students also must take additional electives to meet the total requirement of 72 credits required to complete the program.

Students may add one of the following concentrations to their DNP application: Adult-Gerontology Nurse Practitioner, Family Nurse Practitioner, Psychiatric Mental Health Nurse Practitioner, Nursing Administration, or Advanced Clinical Nursing.

Level II Core Essentials Courses

Code	Title	Credits
NURS 654	Nursing Administration Financial Management	3
NURS 715	Nursing Informatics Inquiry	3
NURS 758	Nursing Research and Biostatistics II	3

NURS 808	Translating Nursing and Health Care Research into Evidence-Based Policy	3

Electives

If needed, elective courses should be taken to complete the required 42 program credits. All electives must be approved by the advisor prior to the start of the course.

Nursing, MSN

Banner Code: HH-MSN-NURS

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#nurs

The Master of Science in Nursing (MSN) program is approved by the Virginia State Board of Nursing and accredited by the Commission on Collegiate Nursing Education. The program prepares nurses for a variety of leadership and practice roles in the health care system. The adult gerontology and family nurse practitioner primary care concentrations have been approved by the state boards of nursing and medicine in Virginia. The nursing administration concentration prepares nurses to be leaders in health care organizations. The nurse educator concentration prepares graduates for educational positions in health care organizations.

Admissions & Policies

Admissions

Requirements

Applicants must meet the admission standards and application requirements specified in Graduate Admissions and must apply using the online Application for Graduate Admission (https://www2.gmu.edu/admissions-aid/). Applicants must be graduates of an accredited baccalaureate (BSN) program in nursing, except for the applicants to the RN-to-MSN program. In addition, applicants must have an active state-based/US license as a registered nurse (RN), a current CPR card, and documented work experience as an RN. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/).

Policies

Transfers Between Concentrations

Approval from the school and college is required for students who wish to transfer between concentrations of the MSN. Students must meet the residency requirements stated in AP.6.9 Requirements for Master's Degrees.

Transfer of Credit

Students may transfer a maximum of 9 credits into the MSN program from other institutions or taken at Mason in non-degree status, including graduate courses offered through the CHHS Academic Outreach program. Transfer credit is subject to university policies found in AP 6.5.3 Transfer of Credit and college policies and must be approved by the program director and the dean/director of the School of Nursing. Students who enroll initially through non-degree studies or the Academic Outreach program should seek course advising through the School of Nursing and should submit their application to the MSN program in their first semester of study.

Special Requirements

Additional fees and expenses related to the nursing graduate program may include: laboratory fee, standardized testing and course materials, name pin, books, CPR certification, health forms, health insurance, immunizations, and criminal background check fees. **All students must provide their own personal transportation to and from clinical agencies.** For a summary of all current fees and estimated expenses, see the School of Nursing website.

All MSN students are required to obtain a health clearance and complete the immunizations required by George Mason University as listed in the Student Health Services section of the catalog. Additional health and immunization requirements are imposed by clinical agency partners. The additional health requirements are included in the School of Nursing welcome letter. See the Graduate Program, School of Nursing website (https://nursing.gmu.edu/) for the most current information. **Students are not allowed into any clinical setting without the completed immunization series as prescribed by Mason's School of Nursing.** The School of Nursing will refuse admission or continued enrollment to any student who is unable to comply with these requirements. No student will attend practicum courses unless all the requirements for CPR, health exams, immunizations, and criminal background checks are met. Students must be in the process of completing a hepatitis B immunization series when they enroll for their first practicum course

All students must have CPR certification before entering their first course and maintain it through the remainder of the program. The American Heart Association Basic Life Support - Health Care Provider is required. Any cost incurred is the responsibility of the student.

All students must have current health insurance before entering the first practicum nursing course and maintain it through the remainder of the program. All students are required to have an active Mason e-mail account.

No student or faculty member will be discriminated against or denied admission to the nursing program for the sole reason that the student or faculty member has been exposed to, infected with, or diagnosed with HIV or HBV. All students are expected to practice Universal Precautions with all clients, and failure to do so will result in termination from the nursing major. In the event that a student is exposed to body fluids of a client during a clinical experience or practicum, procedures and appropriate reports are completed according to institutional and nursing policies. Information related to exposure or infection is confidential, and dissemination of such information is based on the need-to-know criteria that apply in health care situations. HIPAA and FERPA regulations apply. A complete and detailed HIV/HBV policy is available in the CHHS Office of Student Affairs.

MSN students are required to submit a copy of their current RN license prior to the first day of class and must maintain licensure throughout the academic program.

Professional Conduct

All students in the School of Nursing are expected to adhere to the Professional Conduct Policy of the College of Health and Human Services.

Appeal Process

Although faculty members in the nursing program are generally the best judges of a student's professional performance, some students may feel that the faculty member's judgment is unfair. Students in the School of Nursing wishing to appeal a grade are expected to follow the Mason guidelines for grade appeals, found in AP 3.9 Grade Appeals.

Honor System and Code

The School of Nursing supports academic integrity and follows the standards and procedures as described in the University catalog and available online (http://oai.gmu.edu/).

Academic Termination

Academic termination is governed by university policy described in AP.6.6.2 Academic Termination. Additionally, a failing grade of "F" in a practicum course may result in termination from the program. Any graduate course in which a student earns a C grade or below must be repeated to earn a grade of B or better in order to progress. A course may be repeated only once. A student may also be terminated from the program due to a finding of violation of the university Honor Code or after demonstrating a significant lack of progress.

Grading

Throughout the semester, students are assessed on how well they have met curricular outcomes. Consistent with the university, the MSN in Nursing program does not provide a D grade. Final grades for all MSN in Nursing courses are submitted to the university as letter grades.

Grade	Quality Points	Graduate Courses
A (90-100%)	4.00	Passing
B (80-89%)	3.00	Passing
C (70-79%)	2.00	Failing
F (69% or lower)	0.00	Failing

A graduate course in which a grade of C or below is earned must be repeated to earn a grade of B or better in order to progress, and a course may be repeated only once. Graduate students (both master's and doctoral) may repeat no more than two courses in their total program of study.

Curriculum

The master's program in nursing requires 39 to 49 graduate credits. Of these, a 15-credit core consists of coursework in the theoretical and ethical foundations of nursing, nursing research and biostatistics, nursing informatics, and the organization of nursing and health care delivery systems. The remaining 24-34 credits are satisfied by completing one of the concentrations:

Code	Title	Credits
Nursing Administration Concentration		24
Advanced Clinical Nursing Concentration		27-30
Nurse Educator Concentration		26
Adult Gerontology Nurse Practitioner Concentration		34
Family Nurse Practitioner Concentration		34

Actual practicum course hours may exceed those listed in the catalog. Actual practicum hours will meet the requirements for certification purposes. Requirements in the catalog reflect the minimum number of credits or practicum hours.

Requirements

Degree Requirements

Total credits: 39-49

Students must complete all Level I courses and the requirements for one concentration.

MSN Level I Core Courses (Required of all students)

Code	Title	Credits
NURS 665	Theoretical and Ethical Foundations Related to Nursing	3
NURS 715	Nursing Informatics Inquiry	3
NURS 757	Nursing Research and Biostatistics I	3
NURS 758	Nursing Research and Biostatistics II	3
NURS 688	Organization of Nursing and Health Care Delivery Systems	3
Total Credits		15

Concentration in Adult Gerontology Nurse Practitioner in Primary Care (AGNP)

Code	Title	Credits
Level II Courses Core

NURS 727	Application of Nursing Education Principles to Curriculum and Program Development	3
NURS 728	Practicum and Seminar in Nursing Education I	3
NURS 729	Practicum and Seminar in Nursing Education II	3
Elective Courses		
Select three credits in Nursing or related disciplines.		3
Total Credits		26

RN-to-MSN Pathway

This pathway allows RNs who have completed the Mason Core requirements (as listed in the undergraduate RN-to-MSN Pathway

described in the Nursing, BSN program) and have demonstrated substantial involvement in professional nursing within the past two years to earn the MSN degree. Students entering a concentration through this pathway must meet all the requirements for admission to that concentration.

In addition to fulfilling admission requirements for degree status at Mason, applicants must:

1. Hold a current state-based/US license to practice nursing.
2. Be graduates of an accredited nursing program.
3. Have earned a 3.00 GPA in
   a. the nursing prerequisites,
   b. the nursing curriculum from the graduating institution, and
   c. Mason Core/general education courses at an accredited institution.
4. Demonstrate involvement in professional nursing within the past two years as an RN in clinical practice.

Students in the RN-to-MSN pathway are required to take the following bridge course:

Code	Title	Credits
NURS 440	Community Health and Epidemiology	3

After completion of the bridge course, students choose one of the concentrations and meet all requirements of the graduate program.

Nursing, PhD

Banner Code: HH-PHD-NURS

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#nurs

The PhD in Nursing program builds on the MSN degree and requires a total of 78 credit hours of work (a minimum of 48 credit hours beyond the master's). The objective of the program is to prepare nursing scholars who will pursue intellectual inquiry and conduct research for the purpose of extending knowledge to contribute to the health of all populations. Graduates of the program conduct independent and collaborative research, advance nursing science, and provide leadership to the nursing profession.

Admissions & Policies

Admissions

Requirements

Applicants must meet the admission standards and application requirements specified in Graduate Admissions (http://catalog.gmu.edu/admissions/graduate-policies/) and must apply using the online Application for Graduate Admission (https://www2.gmu.edu/admissions-aid/). Nursing PhD applicants must hold a Master's degree in nursing from an accredited program equivalent to 30 credits or a Master's degree in a related health field with a baccalaureate degree in nursing. Applicants also must hold a valid, current nursing license in a U.S. state or territory; waivers for international applicants will be determined by the PhD program director. Applicants must have a 3.00 GPA or higher on a 4.00 scale in their Master's program. Applicants also must have completed a graduate-level course in statistics with a final grade of 3.00 or higher. The application process is competitive, and applications are considered for the fall semester only. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/).

Policies

Reduction of Credit

Students must have a Master's degree before being admitted to the PhD in Nursing program. Up to 30 hours of relevant graduate credit may be awarded for past Master's-level courses. Students will complete the minimum of 48 additional credits following the curriculum below.

Transfer of Credit

Students may transfer a maximum of 9 credits into the program from graduate courses taken at other institutions or taken at Mason in non-degree status, including courses offered through the college's Academic Outreach program. Transfer credit is governed by university transfer of graduate credit policy and the university requirements for doctoral degrees, which can be found in AP.6 Graduate Policies (http://catalog.gmu.edu/policies/academic/graduate-policies/). Transfer credit must be approved by the PhD program director. Students who intend to apply to the PhD program and enroll initially through non-degree studies or the Academic Outreach program should seek course advising through the PhD program director and apply to the PhD program as soon as possible.

Program Requirements

To complete the PhD in Nursing, students must:

- Complete the program of study outlined in the PhD curriculum.
- Pass a written doctoral candidacy comprehensive examination after completing all PhD course requirements, except NURS 998 Doctoral Dissertation Proposal and NURS 999 Doctoral Dissertation.
- Pass the oral dissertation proposal defense within 2 years of advancement to candidacy and submit a dissertation proposal approved by the doctoral dissertation committee.
- Pass the final oral dissertation defense and submit a doctoral dissertation. Consistent with university graduate academic policy, final approval of the dissertation must be given by the doctoral dissertation committee, the PhD program director, the Director of the School of Nursing, and the Dean of the college. The dissertation is submitted in the approved format to University Libraries.
- Complete application material for graduation in accordance with prevailing Mason policies.

Professional Conduct

All students in the School of Nursing are expected to adhere to the Professional Conduct Policy (http://catalog.gmu.edu/colleges-schools/health-human-services/#requirementspoliciestext) of the College of Health and Human Services.

Grading

Throughout the semester, students are assessed on how well they have met curricular outcomes. Consistent with the university, the PhD in Nursing program does not provide a D grade. Final grades for all PhD in Nursing courses are submitted to the university as letter grades.

Grade	Quality Points	Graduate Courses
A (90-100%)	4.00	Passing
B (80-89%)	3.00	Passing
C (70-79%)	2.00	Failing
F (69% or lower)	0.00	Failing

Time Requirements

Students must complete all requirements for the PhD in Nursing within 9 calendar years from the time of first enrollment as a doctoral student in the program or with provisional status. Students must advance to candidacy within 4.5 years from the start of the program. Once students advance to candidacy, they must defend their oral proposal within 2 years. PhD students are expected to progress steadily towards their degree.

Academic Termination

A degree-seeking student can be terminated from the PhD in Nursing program for reasons including, but not limited to, the following:

- after earning unsatisfactory grades (below a 3.00) in two core courses. Any core course in which a student earns a grade below a 3.00 must be repeated and may prevent the student from progressing any further in coursework; a core course may be repeated only once. A student may not repeat more than one course. Any cognate course in which a student earns a grade below 3.00 will not be counted towards the 9 credits needed to meet the cognate requirement for the PhD program.
- after not passing the comprehensive exam on the second attempt.
- after demonstrating a significant lack of progress.
- a finding that the student has violated the university Honor Code (http://catalog.gmu.edu/policies/honor-code-system/).

Requirements

Degree Requirements

Total credits: 78

The PhD in Nursing program of study is based on the student's interests and career goals and on the expertise of the faculty. A student develops their program of research through core coursework, cognate courses, and dissertation research.

Scientific Base/Research Core

Code	Title	Credits
NURS 804	Advanced Quantitative Data Analysis for Healthcare Research I	3
NURS 805	Advanced Quantitative Data Analysis for Healthcare Research II	3
HHS 810	Systematic Reviews of Health Research	3
NURS 814	Theory and Design in Health Science	3
HHS 818	Advanced Ethics of Health Research	3
HHS 825	Conducting and Publishing Health Research	3
NURS 860	Measurement Theories in Healthcare Research	3
NURS 920	Qualitative Research in Nursing and Health Care	3
NURS 930	Quantitative Methods in Nursing and Health Care	3
Total Credits		27

Cognate Courses

Students must complete a cohesive set of doctoral-level (700 or higher) cognate courses selected with their academic advisor or the PhD program director to contribute to their program of research. A minimum of 9 credits of cognate courses must be completed prior to taking the comprehensive exam.

Code	Title	Credits
Complete nine credits of cognate courses		9
Total Credits		9

Dissertation

Advancement to Candidacy

The student must complete all coursework and pass the comprehensive examination to advance to candidacy for the doctoral degree. The Doctoral Program Director of the School of Nursing will approve the student's program of study and recommend advancement to candidacy to the director of the School of Nursing, who will render final approval for candidacy. A student who is unsuccessful in passing the comprehensive examination will be provided only one additional opportunity to sit for the examination after completing a remediation plan approved by the program director. A student who fails the comprehensive examination a second time will be terminated from the program.

Dissertation

The final requirement for the PhD degree in nursing is the submission of an acceptable dissertation. The dissertation will be a report of an original, independent research project completed by the student and approved by the dissertation committee.

Credits

During the process of writing the dissertation proposal, students must initially register for a minimum of 3 credits of NURS 998 Doctoral Dissertation Proposal; the student may repeat NURS 998 for variable credit until the proposal is successfully defended. The student must initially register for at least 3 credits of NURS 999 Doctoral Dissertation. Once the student has completed the required combined minimum of 12 credits of 998 and/or 999, they must register for at least 1 credit per semester until they have successfully completed the dissertation. The University guidelines for dissertation registration (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-10-6) (998, 999) provide additional guidance.

Code	Title	Credits
At least 12 credits of		12
NURS 998	Doctoral Dissertation Proposal [1]	
NURS 999	Doctoral Dissertation [2]	
Total Credits		12

1 Students must enroll for 3 credits the first time NURS 998 Doctoral Dissertation Proposal is taken.

2 Students must register for at least 3 credits of NURS 999 per semester until completing a total of 12 credits for 998 and 999 combined.

Dissertation Committee

With the advice of the PhD program director, and approval of the Director of the School of Nursing, the student will select a dissertation committee, composed of at least 3 members of the graduate faculty (as defined by the university), who will direct the dissertation research. The committee will be composed of a chair and at least two additional members who meet the criteria as established by university policy A.P.6.10.5 Dissertation Committee (http://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-10-5).

Dissertation Proposal

The student, in consultation with the dissertation committee, will write an acceptable dissertation proposal. If an acceptable proposal cannot be completed within the first semester the student is registered for the course, the student may continue working on the proposal under the direction of the committee, registering for at least one credit of NURS 998 Doctoral Dissertation Proposal each semester until the proposal is approved. Once the student has successfully defended their dissertation proposal before the dissertation committee, the student will be eligible to register for NURS 999 Doctoral Dissertation.

Dissertation Research

The dissertation will be a written report of original research in a content area of significance to the discipline of Nursing. As defined by the university, the dissertation demonstrates the candidate's mastery of the subject matter, methodologies, and conceptual foundations in their chosen field of study. The PhD in Nursing program requires that the dissertation meet the guidelines and content as specified by the University Library and also include at least two publishable manuscripts as approved by the dissertation committee. After the dissertation committee gives preliminary approval of the dissertation, the chair and PhD program director will schedule a final public defense of the dissertation. A copy of the dissertation must be provided to the PhD program director and dissertation committee members at least two weeks before the scheduled final dissertation defense. At the close of the public defense, the committee makes a final judgment regarding approval of the dissertation.

The dissertation must be approved by the PhD program director. Students who defend in the summer semester must be registered for at least one credit of NURS 999 Doctoral Dissertation for that summer semester. The student, with the approval of the chair and the PhD program director, is responsible for completing the application for graduation and submitting the final dissertation to the University Library by the appropriate deadlines. Failure to meet the required deadlines will result in the student not graduating during the intended semester.

Psychiatric Mental Health Nurse Practitioner Graduate Certificate

Banner Code: HH-CERG-PMHN

Academic Advising

Website: nursing.gmu.edu/program/view/21578

This certificate prepares students for the Psychiatric Mental Health Nurse Practitioner (PMHNP) role through formal study in the theory and practice of advanced practice psychiatric nursing in a variety of practice settings within the healthcare delivery system. Graduates will be eligible for prescriptive authority and will have the potential to perform a variety of mental health services including medication management and psychotherapy. Course and practice content focus on the assessment and management of serious mental illness.

Certification and Role

Graduates of this post-master's certificate are eligible to sit for the Psychiatric Mental Health Nurse Practitioner national certification examination given by the American Nurses Credentialing Center.

Admissions & Policies

Admissions

Applicants must hold a master's degree in nursing. Applicants must meet the admission standards and application requirements specified in the Graduate Admissions section of the catalog and apply using the Application for Graduate Admission (https://www2.gmu.edu/admissions-aid/). Acceptance to the nursing program is contingent upon admission to the university. The application process is competitive, and applications are considered for the fall semester only. For application deadlines and detailed application requirements, please refer to CHHS Admissions (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/).

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Requirements

Certificate Requirements

Total credits: 23

This certificate may be pursued on a full-or part-time basis.

Candidates must complete 23 graduate credits with a minimum GPA of 3.00 in course work and no more than 3 credits with a grade of C to earn the certificate.

Required Courses

Code	Title	Credits
NURS 632	Pathogenesis of Mental Disorders	3
NURS 633	Individual Psychotherapy	3
NURS 634	Group, Family and Couple Psychotherapy	1
NURS 743	Clinical Psychopharmacology	3
NURS 782	Psychiatric Nurse Practitioner Practicum I	4
NURS 783	Psychiatric Nurse Practitioner Seminar I	2
NURS 784	Psychiatric Nurse Practitioner Practicum II	5
NURS 785	Psychiatric Nurse Practitioner Seminar II	2
Total Credits		23

Additional Coursework for Certification

Applicants who are not already certified as a nurse practitioner will be required to complete the following courses to sit for certification upon graduation:

Code	Title	Credits
NURS 714	Health Assessment in Clinical Practice	2
NURS 724	Health Assessment Practicum	1
NURS 761	Pharmacotherapeutics	3
NURS 769	Physiology and Pathophysiology in Advanced Practice	3
Total Credits		9

College of Humanities and Social Sciences

6100 Horizon Hall
Fairfax Campus
MSN: 3A3

Phone: 703-993-8720
Website: chss.gmu.edu

Administration

- Ann Ardis, Dean
- Lisa Breglia, Senior Associate Dean for Undergraduate Affairs
- Marguerite Rippy, Associate Dean for Graduate Academic Affairs
- Michele Schwietz, Associate Dean for Research
- Jaime Lester, Associate Dean of Faculty Development and Strategic Initiatives
- Felicia Carr, Assistant Dean for Strategic Communications and Marketing
- Eleanor Weis, Director of Development
- Daniel Collier, Director of IT and Web Development
- Kim Dight, Executive Director of Finance and Human Resources

College Code: LA

The College of Humanities and Social Sciences (CHSS) is composed of 10 departments and 9 major interdisciplinary programs. The college is also home to the School of Integrative Studies, which offers an innovative interdisciplinary major. The college has a distinguished faculty of more than 400, including recipients of the Pulitzer Prize and Guggenheim Fellowship.

Undergraduate Programs

At the undergraduate level, all programs emphasize challenge, opportunity, and success. They challenge students to think critically and creatively and to go beyond what is required by pursuing research experiences, minors, double majors, honors in the major, and accelerated master's degree programs, which enable them to earn both an undergraduate and a graduate degree, often within five years. They provide many opportunities beyond the classroom including study abroad programs, service learning, internships, and career-enhancing courses and minors, all of which will help prepare them for success beyond college.

Graduate Programs

At the graduate level, programs of study provide opportunities for career development and advancement, professional education, participation in research, and personal fulfillment.

All programs encourage the exploration of contemporary issues through a dynamic curriculum that fosters an informed understanding of real world problems. The college provides students with an education that enables them to think critically, adapt to the changing conditions of society, and provide informed leadership to future generations.

Bachelor's/Accelerated Master's Degree Options

Many graduate programs offer highly-qualified undergraduates the opportunity to apply to accelerated master's degree programs. Students accepted into an accelerated master's degree program obtain both a bachelor's and a master's degree after satisfactory completion of 138 - 144 credits (number of required credits depends on the degree program).

For more information see AP.6.7 Bachelor's/Accelerated Master's Degrees and the specific degree listing.

The college offers accelerated master's degrees in these disciplines:

- Anthropology
- Art History
- Communication
- Criminal Justice
- Economics
- English with a concentration in folklore studies
- English with a concentration in linguistics
- Foreign Languages with a concentration in Spanish
- Foreign Languages with a concentration in Spanish/Bilingual-Multicultural Education
- Global Affairs
- History
- Interdisciplinary Studies with a concentration in computational social science
- Interdisciplinary Studies with a concentration in energy and sustainability
- Interdisciplinary Studies with a concentration in religious studies
- Interdisciplinary Studies with a concentration in social entrepreneurship
- Interdisciplinary Studies with a concentration in social justice and human rights
- Interdisciplinary Studies with a concentration in war and the military in society
- Interdisciplinary Studies with a concentration in women and gender studies
- Middle East and Islamic Studies
- Philosophy
- Psychology with a concentration in cognitive and behavioral neuroscience
- Sociology

Minors and Interdisciplinary Minors

The College of Humanities and Social Sciences has more than 60 minors, some of which are offered jointly with other units in the university. Minors require between 15 and 21 credits, and all but 8 of those credits

usually can be used simultaneously to fill other requirements. The college encourages all students to declare a minor, if they can. A minor can complement the major, enhance career preparation, allow students to develop a secondary area of expertise, or give them a chance to explore a passion.

The college offers two types of minors: disciplinary and interdisciplinary. The coursework for disciplinary minors comes mainly from a single discipline. Disciplinary minors are offered by one of the 10 departments in the college.

Interdisciplinary minors require coursework from two or more disciplines and are administered by interdepartmental faculty groups, often including faculty from across the university.

All minors in the college are available to students in any major in the university. For policies governing all minors, see AP.5.3.4 Minors.

Disciplinary Minors

- Arabic
- Anthropology
- Art History
- Chinese
- Clinical Psychology
- Communication
- Criminology, Law and Society
- Developmental Psychology
- Economics
- English
- Forensic Psychology
- French
- German Studies
- Health Communication
- Health Psychology
- History
- Industrial/Organizational Psychology
- Intelligence Studies
- Italian Studies
- Journalism
- Judaic Studies
- Korean Studies
- Latin
- Linguistics
- Philosophy
- Philosophy and Law
- Professional Experience in Communication
- Professional and Technical Writing
- Psychology
- Religious Studies
- Russian
- Sociology
- Spanish
- Teaching English as a Second Language

Interdisciplinary Minors

- African and African American Studies
- Ancient History and Mediterranean Archaeology
- Asia-Pacific and Northeast Asian Studies
- Conservation Studies (offered jointly with the College of Science)
- Childhood Studies
- Classical Studies
- Digital Humanities
- Film and Media Studies
- Folklore and Mythology
- Global Affairs
- Health, Disease, and Culture
- Human Development and Family Science (offered jointly with the College of Education and Human Development)
- Immigration Studies
- Islamic Studies
- Japanese Studies
- Latin American Studies
- Leadership
- LGBTQ Studies
- Medieval Studies
- Middle East Studies
- Native American and Indigenous Studies
- Nonprofit Studies
- Photojournalism (offered jointly with the College of Visual and Performing Arts)
- Political Communication (offered jointly with the Schar School of Policy and Government)
- Political Philosophy
- Social Innovation
- Social Justice and Human Rights
- Sport and American Culture (offered jointly with the School of Recreation, Health, and Tourism)
- Sport Communication (offered jointly with the School of Recreation, Health, and Tourism)
- STEM in Society
- Sustainability Studies (offered jointly with the College of Science)
- Well-Being
- Women and Gender Studies

Requirements & Policies

Policies for All Students

The requirements for each academic program offered by the college are described in the sections for the sponsoring departments and programs. All students are subject to the policies stated in Academic Policies. Additional policies and procedures for students in the college are presented in this section.

Mason uses only Mason e-mail accounts to communicate with enrolled students. Students should activate their Mason e-mail account, use it to communicate with their department and other administrative units, and check it regularly for important information.

Registration and Degree Audit

Students are responsible for correctly registering for courses and paying all tuition and fees by the official university registration and payment deadlines. Instructors do not have the authority to add students to

courses, and students may not sit in on classes for which they are not registered. All students should verify the accuracy of their enrollment before the end of the add period and should check Patriot Web (https://patriotweb.gmu.edu/) to verify that they are registered for the classes that they think they are.

All students are responsible for reviewing their own transcripts and degree audits regularly to ensure that they are correct and that they are on track to meet all their requirements.

Withdrawal

Students are responsible for all courses in which they remain officially enrolled once the drop period has ended. Instructors do not have the authority to withdraw students from classes. Withdrawals after the published deadlines require the approval of the relevant dean (undergraduate academic affairs or graduate academic affairs) and are allowed only for full semesters at a time (a withdrawal from all enrolled courses). Withdrawals are only permitted for non-academic reasons; no withdrawals can be approved for academic reasons. When submitting a withdrawal request, students must provide verifiable, third-party documentation for the reason for the withdrawal. Requests for withdrawals should be submitted as early in the semester as possible; withdrawal requests submitted after the last day of classes are rarely approved.

Grade Appeals

Grade appeals should be made to the department or program following the process specified in AP.6.9 Grade Appeals. If they are resolved within the department or program, that unit is the final level of appeal. The departmental decision may be appealed to the dean only on the basis of procedural irregularity. Undergraduate students should address such appeals through the Office of Undergraduate Academic Affairs and graduate students through the Office of Graduate Academic Affairs. If the grade appeal is not resolved within the department or program, the chair makes a recommendation to the dean, who makes the final determination. The decision of the dean is not subject to review or further appeal.

Accommodations for Students with Disabilities

Students with documented disabilities should contact the Office of Disability Services (http://ods.gmu.edu/) to open a file and learn more about accommodations that may be available to them.

Policies for Undergraduate Students

The college offers 17 Bachelor of Arts (BA) degrees, 4 Bachelor of Science (BS) degrees, a Bachelor of Fine Arts in Creative Writing (BFA), and a Bachelor of Individualized Study (BIS) degree.

All students must complete 120 credits, of which at least 45 must be in upper-level courses (numbered 300 and above). At least one course at the 300 or 400 level must be designated "writing intensive."

Students should consult the Mason Core and College Requirements for information concerning the ways they can fulfill Mason Core and college requirements for undergraduate degrees. Transfer students are encouraged to meet with their academic advisor prior to registering for classes to review their transcripts and course equivalencies. In some cases, students may need to earn more than 120 credits to complete all of their requirements.

The college cooperates with the Jimmy and Rosalynn Carter School for Peace and Conflict Resolution (Carter School) to provide courses from various disciplines in the college toward a BA, BS, and minor in conflict analysis and resolution. More information about the Carter School undergraduate degree programs can be found in the Jimmy and Rosalynn Carter School for Peace and Conflict Resolution.

Questions about Academic Policies for Undergraduates

Students with questions about exceptions to academic policies and about college requirements should contact the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu/) (703-993-8725; chssdean@gmu.edu).

Additional policy information and forms are available online from the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu/).

Academic Load

Students should review university policies regarding academic load in AP.1.2 Academic Load.

In order to be considered for an overload, students must fulfill all of the following criteria:

- Be in good academic standing;
- Have completed the prior semester with no course grades below "C" and with a minimum term GPA of 2.50;
- Have a cumulative GPA of 2.50 or higher;
- Have demonstrated the ability to handle an increased and demanding courseload while maintaining high performance in a previous semester at Mason; and
- Have no remaining incompletes (INs) from a previous semester.

Freshmen and transfer students in their first semesters are not given permission for overloads as they have yet to establish an academic record at George Mason University.

If approved for an overload, the student is responsible for adding the additional class(es) and paying for the related tuition by the official university deadlines.

Excluded Courses and Credits

Students are encouraged to take advantage of the many excellent courses available at Mason to broaden their educational experience or strengthen their background; however, some credits earned may not satisfy any degree requirements. Only MLSC courses at the 400-level can be used for credit for a degree in the college; credit for other MLSC courses may not be used toward a CHSS degree. At most 3 credits of 100-level RECR coursework may be taken to satisfy the degree requirements of any CHSS major, and these courses will be applied toward a students general electives. Whenever there is uncertainty, students must consult with an academic advisor in their department.

Qualifying CLEP credits may apply to a degree in the College of Humanities and Social Science if those credits were awarded and reported prior to matriculation at Mason. After matriculation, students are limited to taking and applying credits for the CLEP exam in "Information Systems & Computer Applications". Students with a qualifying score on this exam will be awarded credit for IT 104T. Students receiving credit for IT 104T, who are subject to a prior catalog year, must still meet the university Information Technology ethics requirement. The Office of Admissions will continue to evaluate transfer credit for CLEP exams for new students applying to the University. Current students should contact their CHSS academic advisor with any questions regarding CLEP credit.

University Consortium

Students should review university policies regarding the University Consortium under AP.1.4 Special Registration Procedures in the Academic Policies section. Students who have attempted or failed a course at Mason are not permitted to take the equivalent course through the consortium under any circumstances. All consortium registration requests must be submitted to the dean's office at least 3 weeks prior to the first day of classes for the relevant semester at Mason.

Permission to Study Elsewhere

Once enrolled in degree status at Mason, students with fewer than 60 hours of transfer coursework (not including registration through the Consortium of Universities of the Washington Metropolitan Area or coursework completed through the Global Education Office) may take up to 8 hours of coursework at another institution of higher education accredited by a Mason-recognized U.S. institutional accrediting agency or international equivalent. Students with 60 or more hours of transfer coursework are not permitted to take additional coursework at another institution. A student may seek permission for additional hours beyond these limits for summer registration if his/her permanent residence is more than 50 miles from the George Mason University Fairfax campus. See AP.1.4.2 Permission to Study Elsewhere for additional information.

In addition to the university cumulative GPA requirement of 2.00, CHSS students requesting course elsewhere permission must have a previous semester GPA of 2.00 or higher.

Study Abroad

In order to be considered for study through Mason Study Abroad (http://masonabroad.gmu.edu/), students must plan well in advance and receive prior, written permission from the dean. Students must also meet all of the following criteria:

- Meet all eligibility requirements for their program as specified by Mason Study Abroad (http://masonabroad.gmu.edu/) including course prerequisites and minimum GPA;
- Must have a minimum cumulative GPA of 2.50 *after* prior semester grades post to record; and
- Have completed the necessary forms and have obtained all required signatures and course equivalencies.

Students in danger of probation, suspension, or dismissal should plan very carefully before requesting to study abroad. Students with a cumulative GPA below 2.50 (after grades from prior term are posted to transcript) will not be permitted to study abroad.

Leave of Absence

All undergraduate students who are planning an absence from George Mason University must submit a formal request for Leave of Absence to the Office of the University Registrar. See AP.1.8 Undergraduate Leave of Absence for full university policy.

Reserve Graduate Credit

Approval to register for reserve graduate credit (earned credit held in reserve to apply later toward a graduate degree) is given only to Mason seniors within 15 credits of completing undergraduate study who have successfully completed all course prerequisites. In addition, this privilege is normally extended only to seniors who have completed at least 12 credits at the university, have a cumulative GPA of 3.00 or better, and have a major in the department offering the course. Approval for reserve graduate credit is limited to 6 credits and does not imply approval for admission into a Mason graduate program or that credit earned will be accepted at another graduate school.

Withdrawals

Students should review AP.1.5 Withdrawal for more information. Courses for which a withdrawal is approved receive a grade of "W."

Students should be aware of the potential consequences of withdrawing on their academic standing. Though credits graded "W" do not affect a student's GPA, they do count towards the total attempted hours. The total attempted hours and cumulative GPA together determine a student's academic standing. These are explained in AP.5.2 Academic Standing.

Academic Clemency

Students should review the university policies in AP.5.2.9 Academic Clemency.

To be considered for clemency, students must meet all of the following criteria:

- Be absent from George Mason for a minimum of three consecutive calendar years;
- Provide a detailed explanation for why they were unsuccessful in those courses and how they have made changes to ensure their academic progress upon their return;
- Submit their request within 12 months of the first day of the re-enrollment term;
- Complete at least 6 credits during their first 12 months back at George Mason; and
- Earn a minimum GPA of 2.50 each semester back prior to making the clemency request with no individual grade below 2.00.

If the last three minimum academic requirements are not met, clemency will not be allowed under any circumstances.

Appeals Process

Students may appeal departmental decisions concerning academic actions to the Office of Undergraduate Academic Affairs. They may appeal decisions of the Office of Undergraduate Academic Affairs to the Dean's Council, a committee composed of college deans and faculty members. Students may appeal decisions of the Dean's Council to the Student Policies and Appeals Committee, a standing committee elected by the college faculty. These levels of appeal are subject to the limits below concerning the final level of appeal for each type of academic action. Students who feel that the college appeal process was conducted unfairly may appeal to the Provost's Office as specified in Appeals of Academic Procedures.

The grade appeal process is discussed above.

Departments set the requirements for the majors and minors that they administer. Substitutions and waivers of these requirements require the approval of the Office of Undergraduate Academic Affairs. When a department denies a substitution or waiver of a requirement, the denial may be appealed to the Office of Undergraduate Academic Affairs on the basis of procedural irregularity only. That office is the final level of appeal.

The Dean's Council is the final level of appeal for course overloads, consortium registration, study elsewhere, and withdrawals after the drop deadline within the semester. Appeals of these decisions may be made to the Student Policies and Appeals Committee on the basis of

procedural irregularity only, and the committee is the final level of appeal on procedural grounds.

Student Policies and Appeals Committee is the final level of appeal for college-level requirements, retroactive actions (adds, withdrawals, and graduation), and return from suspension and dismissal. This committee is the final level of approval.

There is no waiver or appeal of satisfactory performance standards [minimum grades or grade point average (GPA)] that have been set by the department or program faculty for the courses in their major or minor.

Students should file all appeals in a timely manner, usually within the semester in which the original decision is rendered, but no later than the final day of classes of the following semester.

Teacher Licensure

Students who plan to seek teacher licensure and become K–12 teachers should consult College of Education and Human Development and attend an information session early in their undergraduate career. For more information, call 703-993-2892, e-mail cehdgrad@gmu.edu, or see the College of Education and Human Development webpage (http://gse.gmu.edu/).

Second Bachelor's Degree

Students should review Application for a Second Bachelor's Degree and AP.5.3.3 Second Bachelor's Degrees for more information. Students pursuing a second bachelor's degree concurrently with their first bachelor's degree at Mason must meet all the college-level requirements if they differ from the requirements in the college of their first major.

Students pursuing a second bachelor's degree in the college after already having received one or more bachelor's degrees are considered to have met all of the Mason Core requirements. Students pursuing a bachelor of science degree do not have additional college-level requirements. Students pursuing a bachelor of arts degree in the college must complete these additional college-level requirements: one additional 3-credits course each in philosophy or religious studies, in social and behavioral science, and in non-western culture (for a total of 9 credits). They must also demonstrate proficiency in a foreign language through the intermediate level. For more information about college-level requirements see Mason Core and College Requirements.

Minors

Students may elect to take a minor in addition to their major field of study. For policies governing all minors, AP.5.3.4 Minors. Students interested in earning a minor should complete the appropriate section of the Change/Declaration of Academic Program form and submit it to the Office of the University Registrar. See All about Minors (http://chss.gmu.edu/minors/) for more information.

College-Level Requirements for Undergraduate Students

Bachelor of Arts

The BA degree provides students with a breadth of knowledge as well as the necessary skills to make in-depth study of a major truly meaningful. In addition to the Mason Core program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college-level requirement may also be used simultaneously to satisfy other requirements (Mason Core requirements or requirements for the major).

- Philosophy or religious studies: 3 credits fulfilled by any course in philosophy or religious studies (PHIL, RELI) except for, PHIL 323 Classical Western Political Theory, PHIL 324 Modern Western Political Theory, PHIL 327 Contemporary Western Political Theory, PHIL 393 Humanities College to Career, PHIL 460 Senior Seminar in Philosophy, Politics, and Economics. PHIL 253 Philosophy and Literature (Mason Core) and RELI 235 Religion and Literature (Mason Core) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature requirement.
- Social and behavioral science: 3 credits in addition to the university-wide requirement in social and behavioral science for a total of 6 credits. The two courses used to fulfill the combined college and university requirements must be from different disciplines in the social and behavioral sciences. This requirement may be fulfilled by completing any course in ANTH, CRIM, ECON, GOVT, HIST (except HIST 100 History of Western Civilization (Mason Core) or HIST 125 Introduction to World History (Mason Core)), LING, PSYC, or SOCI and these courses in GGS:

Code	Title	Credits
GGS 101	Major World Regions (Mason Core)	3
GGS 103	Human Geography (Mason Core)	3
GGS 110	Introduction to Geoinformation Technologies	3
GGS 301	Political Geography (Mason Core)	3
GGS 303	Geography of Resource Conservation (Mason Core)	3
GGS 304	Population Geography (Mason Core)	3
GGS 305	Economic Geography	3
GGS 306	Urban Geography	3
GGS 315	Geography of the United States	3
GGS 316	Geography of Latin America	3
GGS 320	Geography of Europe	3
GGS 325	Geography of North Africa and the Middle East	3
GGS 330	Geography of the Soviet Succession States	3
GGS 357	Urban Planning	3
GGS 380	Geography of Virginia	3

- Foreign language: intermediate-level proficiency in one foreign language. This requirement may be fulfilled by completing a course in a foreign language numbered 202 (or higher level courses taught in the language) or achieving a satisfactory score on an approved proficiency test. A three course sequence (12 credits) in American Sign Language (EDSE 115 American Sign Language (ASL) I, EDSE 116 American Sign Language (ASL) II, and EDSE 219 American Sign Language (ASL) III) will also meet the foreign language requirement. Students who are already proficient in a second language may be eligible for a waiver of this requirement. Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu/).
- Non-Western culture: 3 credits of an approved course in the study of a non-Western culture in addition to the course used to fulfill the Mason Core requirement in global understanding. A course used to fulfill the Mason Core global understanding requirement may not be simultaneously used to satisfy this college-level requirement. A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core requirements, college-level requirements, or requirements for the major). Additional information

on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu/).

Requirements for each major are listed in the departmental sections.

Bachelor of Science

The BS degree provides students with a more intensive approach to the core technical questions of their majors. This curriculum has a reduced number of courses in humanities and social sciences in comparison with the BA degree to allow students to achieve greater depth in their majors. Students in Humanities and Social Sciences pursuing a BS must complete the Mason Core program. Requirements for each major are listed in the departmental sections.

Transfer Students

Admitted and enrolled transfer students who have completed an AA, AS, or AA&S degree from the Virginia Community College System (VCCS) and have been offered admission to Mason by the Office of Admissions may be eligible for a waiver of all George Mason University's lower level Mason Core requirements in accordance with the Guaranteed Admission Agreement. Students eligible for this waiver are still required by the university to complete ENGH 302 Advanced Composition (Mason Core) and a synthesis course. Transfer students who have been offered admission under the terms of the Guaranteed Admission Agreement and are pursuing a degree in this college are considered to have met all college requirements except for proficiency in a foreign language (required of BA students).

Policies for Graduate Students

The college offers 16 master's degrees, plus a master of arts in interdisciplinary studies (MAIS), a master of fine arts in creative writing (MFA), and 9 doctoral degrees.

Graduate Admission

Admission decisions are made by the faculty committee of the respective graduate program. Denial of admission is not subject to appeal. Applicants denied admission to a program are not permitted to enroll in courses in that program.

If an applicant is offered graduate admission, the college reserves the right to withdraw that offer of admission if:

- During his or her academic studies, the admitted applicant has a significant drop in academic performance or fails to graduate with a degree prior to the first day of classes for the term admitted.
- There has been a misrepresentation in the application process.
- Prior to the first day of classes for the term admitted, the college learns that the admitted applicant has engaged in behavior that indicates a serious lack of judgment or integrity, irrespective of the outcome of any disciplinary process related to such behavior.
- For students admitted to an accelerated master's program, the student does not maintain satisfactory progress in his or her undergraduate program, does not receive a minimum grade of 3.00 in the graduate classes taken as an undergraduate, or otherwise does not meet the conditions specified on the application and admission letter.

The university further reserves the right to require the applicant to provide additional information (and/or authorization for the release of information) about any such matter.

Provisional Admission

Students provisionally admitted to their graduate degree program are not eligible to enroll in consortium coursework or study at another institution until the conditions of the provisional contract have been met. Provisionally admitted students are also not eligible to participate in any study abroad programs until the conditions of the provisional contract have been met. Transfer of credit requests for coursework taken in non-degree status at Mason or from another institution prior to admission will not be considered until the provisional contract has been fulfilled.

Academic Load

Graduate students can enroll in up to 12 credits of coursework each semester. Non-degree students can enroll in up to 10 credits of coursework each semester.

Non-Degree Enrollment

Graduate non-degree students may enroll in 500, 600, and 700 level courses. In exceptional cases graduate non-degree students in the College of Humanities and Social Sciences may request to enroll in an 800-level course if they have an appropriate academic or professional background and have the written permission of the course instructor, director of the graduate program offering the course, and the graduate dean.

University Consortium

Students should review university policies regarding the University Consortium AP.1.4 Special Registration Procedures.

Eligible students may enroll in courses at any of the institutions in the Consortium of Universities in the Washington Metropolitan area. Students are limited to one consortium course per semester, with a career maximum of 6 credits. To register for a consortium course, students must have an overall GPA of at least 3.00 and be in good academic standing. Students with grades of IN on their record or who earned

grades of C or F in the most recent semester are not eligible to register for a consortium course. Students who have received a grade less than 3.00 in a consortium course are not permitted to enroll in additional consortium courses. Newly admitted graduate students are not permitted to enroll in consortium courses during their first semester of graduate study. Students who wish to enroll in consortium courses during their second semester of study must wait until the grades for the previous semester have been posted.

Transfer of Credit

To be eligible for transfer, credits must have been earned at an accredited graduate degree-granting institution (and applicable to a graduate degree at that institution) or at Mason while in non-degree status. Courses accepted for transfer credit must have been completed within six years of the admission term and with a minimum grade of 3.00. Courses with grades of P or S are not accepted for transfer unless the official transcript indicates that the grade is equivalent to a 3.00 (B) or better. Some programs have more stringent standards on transfer of credit; students should contact their graduate program for specific information.

Reduction of Credit

Doctoral and master's students in the college may request a reduction of credit based on a previously conferred graduate degree. Not all master's programs in the college permit reduction of credit and some programs limit the number of credits that can be reduced. Further details and related restrictions can be found in AP.6.5.2 Reduction of Credits.

Credit from Other Institutions

Students must obtain all approvals, including course equivalencies, prior to enrolling in any coursework at another institution. All appropriate paperwork must be submitted to the Office of the University Registrar by the last day to add during the academic term the course meets. Students enrolling in courses at other institutions with different drop/add timetables must still abide by Mason's drop/add deadlines in terms of acquiring necessary approvals.

Dissertation Committee

The college follows university policies regarding dissertation committees. See AP.6.10.5 Dissertation Committee.

Dissertation (999) Registration

Doctoral students must be advanced to candidacy before they may enroll in 999. Students must register for 999 before the add deadline published in the Academic Calendar by the Office of the University Registrar (http://registrar.gmu.edu/). Once doctoral students begin registering for 999, they must enroll in at least 3 credits of 999 each semester (excluding summers) until they have completed the total number of dissertation credits required on their individual program of study. Once enrolled in 999, all doctoral students must maintain continuous enrollment in 999 until they deposit their approved dissertation in the University Library. If they have completed the number of dissertation credits required on their program of study, they may maintain continuous enrollment by registering for only 1 credit of 999. Please see AP.6.10.6 Dissertation Registration (998, 999).

Time Limit for Doctoral Students

Total time to degree will not exceed nine (9) calendar years from the time of first enrollment as a doctoral degree-seeking student in a program of the college. Doctoral students are expected to progress steadily toward their degree and to advance to candidacy within no more than six (6) years.

Students who do not meet published time limits because of compelling circumstances may petition their program and the graduate dean for a single extension of one calendar year at any point during their program. If such an extension is granted, the total time limit for completion of the degree will not exceed ten (10) years. Requests for extension of time limits should explain the extenuating circumstances that prevented timely completion of the degree and a timeline for completing the remaining work within the limits of the extension. The request should include a letter from the student's graduate program director indicating program support for the extension and confirmation that the work can be completed within the limits of the extension.

Please see AP.6.10.1 Time Limit.

Graduate Appeals of Termination

All graduate students should be familiar with the university polices on termination as stated in AP.6.6.2 Academic Termination. Students who meet the criteria for termination may submit a written appeal to the Office of Graduate Academic Affairs. Appeals should include all relevant information on the basis for appeal, as well as any appropriate documentation. Appeals of termination are reviewed at the beginning of each semester by a faculty committee. The ruling of that committee represents the final decision of the college.

African and African American Studies Program

3167 Horizon Hall
Fairfax Campus

Phone: 703-993-4414

Website: aaas.gmu.edu

The African and African American Studies Program offers an interdisciplinary minor open to students in all majors.

Students who pursue this minor examine the cultural, historical, economic, and political dimensions of people of African descent in America, the Caribbean, Africa, and throughout the Diaspora. Students learn theories and methodologies that are used to examine the complex dynamics of race, class, gender, and ethnicity in America. Through the coursework for this program, students develop critical and analytical approaches to societal issues because they are addressed through a variety of academic disciplines.

Students are encouraged to do an internship as part of the minor to further enhance their education and provide them with valuable preparation for the workforce.

African American Studies Research and Resource Center

The goal of the African American Studies Research and Resource Center (Paul Robeson Room) is to facilitate new ways for George Mason University students to learn about the African diaspora. As part of their academic and community involvements, students often need to address issues related to African and African American Studies. The center offers them opportunities for hands-on experience with African and African American life. It has been instrumental in assisting students, faculty, staff, and the community in finding resources to accomplish this goal.

The center sponsors a lecture series and a scholar-in-residence program and offers research and resources support for the Mason community.

Fairfax Campus

Website: aaas.gmu.edu/programs/LA-MINOR-LA-AFAM/

In this minor, students will examine the cultural, historical, economic, and political dimensions and experiences of people of African descent in America, the Caribbean, Africa, and throughout the Diaspora. Students will learn theories and methodologies that are used to examine the complex dynamics of race, class, gender, and ethnicity in America. Through this minor, students are able to develop critical and analytical approaches to societal issues because such issues are addressed and delineated through a variety of academic disciplines.

Students are encouraged to do an internship as part of the minor to further enhance their education and provide them with valuable preparation for the workforce.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Cultural Studies Program

4260 Chain Bridge Road
Fairfax, VA 22030

Phone: 703-993-2851
Website: culturalstudies.gmu.edu

The Cultural Studies Program is distinctive in several respects. While similar programs at other universities are based in a department, the program at Mason has a truly interdisciplinary foundation, drawing on faculty members from 14 different departments across the university. The program explicitly links the social sciences and the humanities by combining their methods of interpretation to explore the production, distribution, and consumption of cultural objects in their social contexts. With particular focus on theory and method in crafting this linkage, the program addresses contemporary issues of nationality, class, race, and gender and opens the scope of scholarly inquiry to all forms of culture, past and present.

Undergraduate Programs

Cultural studies does not have an undergraduate program, but supports the interdisciplinary undergraduate program in global affairs as well as a special topics course in cultural studies. CULT 320 Globalization and Culture is a core requirement for students majoring in global affairs. CULT 390 Topics in Cultural Studies is a course whose content will change from offering to offering and may be of special interest to global affairs majors.

Graduate Programs

The doctoral program in cultural studies trains students for scholarship and teaching. The core curriculum includes an introduction to cultural studies and a methods course, as well as courses on political economy, gender and sexuality, critical race studies, science and technology, social institutions, and visual and performance culture.

All students develop field specializations in two areas of cultural studies. The particular strengths of the program are visual culture, media, and new media studies; political economy and globalization; and gender and sexuality studies.

Related Master's Degrees

Applicants to the doctoral degree in cultural studies must already hold a master's degree. Students interested in pursuing the PhD in cultural studies at Mason who do not meet this requirement might wish to consider one of the related master's degrees at Mason (anthropology, English, history, foreign languages, philosophy, and sociology). The required master's degree may be taken from any institution of the student's choice.

Funding

The program offers teaching assistantships and fellowships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded

assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

Programs

- Cultural Studies, PhD

Cultural Studies, PhD

Banner Code: LA-PHD-CULT

Academic Advising

Email: cultural@gmu.edu
Website: culturalstudies.gmu.edu/programs/la-phd-cult

The PhD in Cultural Studies combines theory and method with practice and concrete case studies. Students' research projects are individualized, as should be the case when research is not confined to the objects and methods of a single discipline. The program's emphasis is in the development of intellectual mastery and professional competence, while training students for scholarship and teaching. Most graduates go on to careers as university professors. Others pursue careers in cultural advocacy, museum work, and related areas.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions. Applicants must already have earned a master's degree in a relevant field. For further information specific to the PhD in Cultural Studies, see Application Requirements

and Deadlines (https://culturalstudies.gmu.edu/programs/la-phd-cult/application/).

Policies

For policies governing all graduate degrees, see Graduate Policies.

Reduction of Credit

Students must have a master's degree before being admitted to the PhD. Most students receive a reduction of study of 30 credits based on their previous master's degree.

Academic Performance Standards

Students are required to maintain a minimum cumulative GPA of 3.33 for all coursework, with no unsatisfactory grades. Students who fail to meet this standard at any point will be given a warning and one semester to raise their GPA to the 3.33 minimum. Students who fail to meet this minimum standard for two consecutive or non-consecutive semesters will be terminated from the program.

Requirements

Degree Requirements

Total credits: 78-81

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Doctoral Coursework

Code	Title	Credits
Core Courses		
CULT 802	Histories of Cultural Studies	3
CULT 804	Histories of Cultural Studies II	3
CULT 806	Research Seminar in Cultural Studies	3
CULT 808	Student/Faculty Colloquium in Cultural Studies [1]	1
Theory		
Select a minimum of one course from the following:		3
CULT 810	Culture and Political Economy	
CULT 814	Social Construction of identity	
CULT 820	After Colonialism	
Topic		
Select a minimum of one course from the following:		3
CULT 812	Visual Culture	
CULT 816	Science/Technology	
CULT 818	Social Institutions	
Total Credits		18

[1] Students must take CULT 808 Student/Faculty Colloquium in Cultural Studies a minimum of 3 times

Field Requirements

Under the guidance of faculty advisory committees, students define two fields that point topically and theoretically toward teaching interests, dissertation research, and related forms of professional development. If doctoral level coursework is not available in a given area, students may take one independent study (CULT 870 Independent Study) to support the development of the field.

Code	Title	Credits
Field One		
CULT 880	Field Concentration [1]	3
Two relevant courses from theory or topic courses not used to fulfill the previous requirements or from special topics courses.		6
Field Two		
CULT 880	Field Concentration [1]	3
Two relevant courses from theory or topic courses not used to fulfill the previous requirements or from special topics courses.		6
Total Credits		18

[1] Must be taught by that field's primary advisor.

Field Statements

Students demonstrate competence in each of their two chosen fields by producing and orally defending a field statement that consists of a comprehensive, critical literature review.

The field statements and the defense constitute the candidacy exam for the PhD.

Methodology

Code	Title	Credits
Students must take one course in a relevant methodology in which they are not already trained		3
Total Credits		3

Students choose the specific course from program or departmental graduate offerings (600 level or above) under the guidance of their faculty advisory committee.

A course chosen to fulfill the credits for a field requirement, if relevant, may be used to meet the methodology requirement with permission of the faculty advisory committee. Students who do not take a relevant and approved methodology course in partial fulfillment of a field requirement need to take a methodology course (3 credits) to fulfill this requirement. They will have a degree total of 81 credits.

Proficiency in a Foreign Language

Students are required to demonstrate proficiency in at least one foreign language before being permitted to defend the doctoral dissertation proposal.

Electives

Code	Title	Credits
Students can complete the 78 credit requirement through credits of additional coursework chosen in consultation with an advisor		0-30
Total Credits		0-30

Advancement to Candidacy

To advance to candidacy, students must successfully complete all coursework required on their approved program of study and demonstrate proficiency in a foreign language. Students must also

successfully complete two written field statements and pass an oral comprehensive exam based on them.

Dissertation

Once enrolled in CULT 998 Doctoral Dissertation Proposal, students in this degree program must maintain continuous registration in CULT 998 Doctoral Dissertation Proposal or CULT 999 Doctoral Dissertation each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in CULT 999 Doctoral Dissertation, students must follow the university's continuous registration policy. Students who defend in the summer must be registered for at least 1 credit of CULT 999 Doctoral Dissertation.

Students must complete a minimum of 3 credits of CULT 999 Doctoral Dissertation. They may apply a maximum of 12 dissertation credits (CULT 998 Doctoral Dissertation Proposal and CULT 999 Doctoral Dissertation combined) to the degree.

Code	Title	Credits
Dissertation Research		12
CULT 998	Doctoral Dissertation Proposal	
CULT 999	Doctoral Dissertation (minimum of 3 credits)	
Total Credits		12

Department of Communication

5200 Horizon Hall
Fairfax Campus

Phone: 703-993-1090
Website: communication.gmu.edu

Undergraduate Programs

The department offers a Bachelor of Arts in Communication, which prepares students for future graduate study or professional positions in such fields as human relations and organizational communication, media and journalism, political communication, and public relations.

Students majoring in communication complete a concentration from one of the following areas: interpersonal and organizational communication, journalism, media production and criticism, political communication, or public relations.

Bachelor's/Accelerated Master's Program

The department offers highly qualified undergraduate majors in communication the opportunity to apply to an accelerated master's degree program in communication. If accepted, students will be able to earn both the undergraduate and graduate degrees after satisfactory completion of 141 credits, generally within five years.

Internships

The department has an active internship program. Many students pursue an internship during their junior and/or senior year to earn credit while gaining practical experience with public relations firms, national and international businesses, associations, or government agencies.

Student Activities

All students are encouraged to participate in the following communication-related student activities: Communication Ambassadors, Debate, Forensics, Fourth Estate (student journalism), GMView, Mason Cable Network, Public Relations Student Society of America (PRSSA), Lambda Pi Eta, Society of Professional Journalists (SPJ), or WGMU.

Minors

The department offers minors in communication, health communication, journalism, political communication, professional experience in communication, and sport communication. The political communication minor is offered jointly with the Schar School of Policy and Government, and the sport communication minor is offered jointly with the School of Recreation, Health, and Tourism in the College of Education and Human Development. The photojournalism minor is offered jointly with the School of Art in the College of Visual and Performing Arts. Department faculty also participate in these minors:

- Film and Media Studies Minor
- Well-Being Minor
- Women and Gender Studies Minor

Students majoring in communication may also choose to minor in any discipline that offers an undergraduate minor.

Graduate Programs

The department offers both MA and PhD degrees in communication with three major areas of emphasis: strategic communication, health communication, and science communication. The programs provide students with a strong foundation in communication theory and research while at the same time encouraging students to apply their skills in the public, private, and nonprofit sectors.

The faculty in strategic communication, drawing on their expertise in organizational, public relations, and political communication theory and research, teach courses on planning, developing, executing, and evaluating public communication campaigns and interventions. Faculty in health communication teach courses which explore the relationship between communication practices and the health and well-being of individuals and communities. This includes how to improve cooperation and coordination between health care providers and consumers, how to effectively utilize health information technologies, and how to develop influential health promotion campaigns. The faculty in science communication offer courses designed to improve students' knowledge of the particular challenges involved in making science and technology understandable to a variety of audiences, as well as exploring solutions to those challenges. Science communicators work in media and in other organizations and agencies involved in promoting and disseminating science, as well as facilitating public engagement in considering science-related issues.

Strategic, health, and science communication are three of the most rapidly expanding specialties within the broad field of communication. Graduates of these programs find a very welcoming employment market for their expertise.

Funding

The department offers graduate teaching and research assistantships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

Communication Minor

Banner Code: COM

Academic Advising

5200 Horizon Hall
Fairfax Campus

Email: cdadvice@gmu.edu
Website: communication.gmu.edu/programs/la-minor-comm-com

The minor in communication provides useful knowledge of human resources management, advertising, marketing, public relations/political campaign management, events management, speech writing, media production, or journalism.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must earn a minimum grade of 2.00 in all courses applied to the minor. COMM 100 Public Speaking (Mason Core), COMM 101 Fundamentals of Communication (Mason Core), or COMM 487 Washington Media Institute cannot be used toward the minor. For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Core Courses

Code	Title	Credits
COMM 200	Communication Theory	3
Select two courses from the following:		6
COMM 300	Rhetorical Theory and Criticism	
COMM 301	Relational Communication Theory	
COMM 302	Media Theory	
COMM 305	Foundations of Intercultural Communication (Mason Core)	
Select one public-presentation (PPI) course from the following: [1]		3
COMM 210	Voice and Articulation	
COMM 310	Performance for Communication Arts	
COMM 320	Business and Professional Communication	
COMM 356	Video: Performance and Writing	
COMM 440	Ceremonial Speech Writing and Performance	
Total Credits		12

[1] Other courses that are PPI may be applied to this requirement with prior written approval of the director of the minor. COMM 100 Public Speaking (Mason Core) or COMM 101 Fundamentals of Communication (Mason Core) cannot be used toward the minor.

Electives in Communication

[1] COMM 100 Public Speaking (Mason Core), COMM 101 Fundamentals of Communication (Mason Core), or COMM 487 Washington Media Institute cannot be used toward the minor.

Communication, BA

Banner Code: LA-BA-COM

5200 Horizon Hall
Fairfax Campus

Email: cdadvice@gmu.edu
Website: communication.gmu.edu/programs/la-ba-com

Communication is the study of basic human social processes: the creation and dissemination of meaning and information. The major prepares students for graduate study or professional positions in such fields as interpersonal and organizational communication, journalism, media production and criticism, political communication, and public relations. Students develop skills and knowledge that put them at the edge of a rapidly changing communication industry. Majors learn to construct and evaluate messages across platforms—web, print, audio and visual.

Admissions & Policies

Policies

Students pursuing this degree must complete 39 credits within the major, with a minimum grade of C in each course.

Of the 39 credits applied to the major, no more than 10 credits may be from courses listed in the Degree Requirements. In addition to 12 credits of core courses, students take 21 credits of courses in a concentration and 6 credits of additional communication courses. Of these last 27 credits, at least 12 credits must be at the 300-400 level, no more than 6 credits may be in COMM 450 Internship in Communication, and no more than 3 credits may be in COMM 452 Media Production Practicum. COMM 479 Digital Media and Web Design Capstone cannot be used toward the major.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies.

Requirements

Degree Requirements

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Core Courses

Code	Title	Credits
COMM 200	Communication Theory	3
COMM 300	Rhetorical Theory and Criticism [1]	3
COMM 305	Foundations of Intercultural Communication (Mason Core)	3
COMM 400	Research Methods in Communication [2]	3
Total Credits		12

[1] Must first complete COMM 200 Communication Theory with a grade of C or better.

[2] Must first complete six credits from COMM 300 Rhetorical Theory and Criticism, COMM 301 Relational Communication Theory, or COMM 305 Foundations of Intercultural Communication (Mason Core) with a grade of C or better.

Concentration

Students must complete coursework in one concentration. Students may also declare a second concentration. No more than six credits can count between the two declared concentrations and no credits used within the declared concentration(s) can be used to satisfy communication elective credits. Students must declare a concentration before they earn more than 75 credits. Transfer students with 60 or more credits are encouraged to declare a concentration by the end of their first semester. COMM 399 Special Topics in Communication or other special topics courses from other concentrations may be applied toward a concentration when the topic is relevant to the concentration with prior written approval of the undergraduate director.

Writing-Intensive Requirement

The university requires all students to complete at least one course designated as writing intensive in their majors at the 300 level or above. Students majoring in communication fulfill this requirement by successfully completing COMM 300 Rhetorical Theory and Criticism.

Additional Electives

Any remaining credits may be completed with elective courses to bring the degree total to 120.

Upper Level Requirement

Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

College Level Requirements for the BA Degree

In addition to the Mason Core program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core requirements or requirements for the major).

Philosophy or Religious Studies

Code	Title	Credits
Select 3 credits from the following:		3
PHIL [1]		
RELI		

[1] Note that the following courses may not be used to fulfill this requirement:

- PHIL 323 Classical Western Political Theory
- PHIL 324 Modern Western Political Theory
- PHIL 327 Contemporary Western Political Theory
- PHIL 393 Humanities College to Career
- PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core), RELI 235 Religion and Literature (Mason Core), and RELI 333 Spiritual Autobiography (Mason Core) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature requirement.

Social and Behavioral Sciences

Code	Title	Credits
Select 3 credits of social and behavioral sciences from the following (additional to the Mason Core social and behavioral sciences requirement) [1]		3
ANTH		
CRIM		
ECON		
GOVT		
HIST [2]		
LING		
PSYC		
SOCI		
Or choose from the following GGS courses:		
GGS 101	Major World Regions (Mason Core)	
GGS 103	Human Geography (Mason Core)	
GGS 110	Introduction to Geoinformation Technologies	
GGS 301	Political Geography (Mason Core)	
GGS 303	Geography of Resource Conservation (Mason Core)	
GGS 304	Population Geography (Mason Core)	
GGS 305	Economic Geography	
GGS 306	Urban Geography	
GGS 315	Geography of the United States	
GGS 316	Geography of Latin America	
GGS 320	Geography of Europe	
GGS 325	Geography of North Africa and the Middle East	
GGS 330	Geography of the Soviet Succession States	
GGS 357	Urban Planning	
GGS 380	Geography of Virginia	

[1] The two courses used to fulfill the combined college and Mason Core requirements must be from different disciplines in the social and behavioral sciences.

[2] HIST 100 History of Western Civilization (Mason Core) and HIST 125 Introduction to World History (Mason Core) may not be used to fulfill this requirement.

Foreign Language

Code	Title	Credits
Intermediate-level proficiency in one foreign language, fulfilled by: [1]		
Completing 3 credits in a foreign language numbered 202 (or higher level courses taught in the language)		
Or achieving a satisfactory score on an approved proficiency test		
Or completing the following ASL three course sequence:		
EDSE 115	American Sign Language (ASL) I	
EDSE 116	American Sign Language (ASL) II	
EDSE 219	American Sign Language (ASL) III	

[1] Students who are already proficient in a second language may be eligible for a waiver of this requirement. Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu/).

Non-Western Culture

Select 3 credits of an approved course in the study of a non-Western culture (additional to the Mason Core requirement in global understanding)

Code	Title	Credits
Select 3 credits (additional to Mason Core Global Understanding requirement) [1]		
ANTH 114	Introduction to Cultural Anthropology (Mason Core)	3
ANTH 300	Civilizations	3
ANTH 302	Peoples and Cultures of Latin America (Mason Core)	3
ANTH 307	Ancient Mesoamerica (Mason Core)	3
ANTH 308	Peoples and Cultures of the Middle East (Mason Core)	3
ANTH 309	Peoples and Cultures of India (Mason Core)	3
ANTH 313	Myth, Magic, and Mind (Mason Core)	3
ANTH 314	Zombies	3

RUSS 354	Contemporary Post-Soviet Life (Mason Core)	3

[1] A course used to fulfill the Mason Core global understanding requirement may not be simultaneously used to satisfy this college-level requirement. A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core requirements, college-level requirements, or requirements for the major). Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu/).

Mason Core

Some Mason Core requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core requirements.

Code	Title	Credits
Foundation Requirements		
Written Communication (ENGH 101)		3
Oral Communication		3
Quantitative Reasoning		3
Information Technology and Computing		3
Exploration Requirements		
Arts		3
Global Understanding		3

[1] Most programs include the writing-intensive course designated for the major as part of the major requirements; this course is therefore not counted towards the total required for Mason Core.

[2] Minimum 3 credits required.

4-Year Plan

Bachelor of Arts in Communication Sample Plan of Study

A sample four year graduation plan and degree planning worksheet can be found at https://academicaffairs.chss.gmu.edu/undergraduate-students/advising/advising-sheets (https://academicaffairs.chss.gmu.edu/undergraduate-students/advising/advising-sheets/). The plan is a recommended sequencing of courses based on prerequisites and scheduling. This may not fit every student's needs and is a guideline, not a requirement. Students should confirm major requirements with their academic advisor each semester and with their PatriotWeb Degree Evaluation to ensure they enroll in the proper courses and are on track to graduate.

Honors

Honors in the Major

Highly-qualified students may pursue advanced coursework leading to graduation with honors in the major.

Eligibility

Students are eligible to apply for honors coursework if they meet the following requirements:

- Completion of a minimum of 75 credit hours, including COMM 200 Communication Theory and two of COMM 300 Rhetorical Theory and Criticism, COMM 301 Relational Communication Theory, COMM 302 Media Theory, COMM 305 Foundations of Intercultural Communication (Mason Core).
- Minimum GPA of 3.25 in all coursework completed at George Mason.
- GPA of 3.50 in all communication coursework completed at George Mason and applied to the major.

Honors coursework in communication is a fall-spring sequence. Applications may be submitted by eligible students for fall semester enrollment. The deadline is March 15 each spring, for the sequence beginning the following fall. Student eligibility will be dependent on the GPA at the time of application. If accepted to pursue honors coursework, the student must then enroll in COMM 490 Honors Research Methods in Communication. Under the guidance of the COMM 490 Honors Research Methods in Communication instructor, the student will complete a research prospectus for an honors project to be implemented in the following semester in COMM 491 RS: Honors Research Project in Communication.

Honors Requirements

To remain eligible for honors coursework, the student must

- receive a grade of 3.00 (no lower than B) in COMM 490 Honors Research Methods in Communication;
- have the research prospectus approved by the COMM 490 Honors Research Methods in Communication instructor and the honors director; and
- maintain an overall GPA of 3.25 and a minimum GPA of 3.50 in all COMM coursework completed at George Mason University and applied to the major.

In the following semester, the student enrolls in COMM 491 RS: Honors Research Project in Communication. The student conducts his/her research and prepares a written project conforming to the standards set by the instructor. Upon completion of the project, the COMM 491 RS: Honors Research Project in Communication instructor and the honors director will determine if the project is of honors quality, which is then indicated by the grade earned in COMM 491 RS: Honors Research Project in Communication. For honors designation, the student must achieve an average grade of 3.50 across COMM 490 Honors Research Methods in Communication and COMM 491 RS: Honors Research Project in Communication and must also maintain minimum GPA eligibility requirements outlined above.

Accelerated Master's

The accelerated master's program below specifies the BA in communication as a feeder degree for its program. Many other

accelerated master's programs are available for any bachelor's degree at Mason. See the full list of degrees (http://catalog.gmu.edu/programs/#filter=filter_24) with accelerated programs at George Mason.

Communication, BA/Communication, Accelerated MA

Overview

Highly qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA in Communication and an MA in Communication in an accelerated time-frame after satisfactory completion of a minimum of 141 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degrees for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies and Bachelor's Accelerated Master's Degree policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (http://communication.gmu.edu/programs/LA-MA-ACEL-COM/application/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits.

Accelerated Master's Admission Requirements

Students already admitted to the BAM Pathway will be admitted to the MA program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- Minimum overall GPA of 3.25
- Minimum grade of B in each advanced standing course
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following:

Advanced Standing courses (up to 12 credits with a minimum grade of B in each)

COMM 600 Introduction to Graduate Studies (3 credits)
COMM 602 Theories and Research of Mass Communication (3 credits)
COMM 605 Intercultural Communication (3 credits)
COMM 615 Political Communication (3 credits)
COMM 620 Health Communication (3 credits)
COMM 630 Theories of Public Relations (3 credits)
COMM 632 Persuasion Theory (3 credits)
COMM 634 Theories of Interpersonal Communication (3 credits)
COMM 635 Organizational Communication (3 credits)
COMM 636 Communication Consulting (3 credits)
COMM 637 Risk Communication (3 credits)
COMM 639 Science Communication (3 credits)
COMM 640 Controversies in Science Communication (3 credits)
COMM 641 Advanced Communication Skills for STEM (3 credits)
COMM 642 Science and the Public (3 credits)
COMM 644 Analysis and Criticism of Science Journalism (3 credits)
COMM 653 Graduate Seminar in Instructional Communication (3 credits)
COMM 660 Climate Change and Sustainability Communication Campaigns (3 credits)
COMM 670 Social Marketing (3 credits)
COMM 690 Special Topics in Communication (3 credits)

Reserve Graduate Credit courses (up to 6 credits) taken while an undergraduate and will only count for the graduate degree program

All courses listed above as advanced standing can be used for reserve graduate credit.

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degrees.

Communication, MA

Banner Code: LA-MA-COM

5200 Horizon Hall
Fairfax Campus

Email: commgrad@gmu.edu
Website: communication.gmu.edu/programs/la-ma-com

As the environment for public and private communication becomes increasingly complex, organizations rely more and more heavily on thoughtful and effective communication professionals. To this end, Communication MA students may choose to specialize in strategic communication/public relations, health communication or science communication. They may also choose an individualized specialization in communication studies according to their interests. Across all specializations, students receive a strong foundation in communication theory and learn to design, execute, and interpret rigorous communication research. Students are challenged to apply communication knowledge to help solve problems and to address important social issues.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified by Graduate Admissions. For information specific to the MA in communication, see Application Requirements and Deadlines (http://communication.gmu.edu/programs/LA-MA-COM/application/).

Admission to the graduate program in communication is competitive.

Policies

For policies governing all graduate degrees, see Graduate Policies.

Transfer of Credit/Reduction of Credit

Students may request transfer of up to 15 hours of graduate coursework from graduate non-degree status or from graduate study at another institution, or request a reduction of credit up to 6 hours based on a previously conferred graduate degree. Students should carefully review AP.6.5 and the policies governing graduate transfer of credit and reduction of credit. Transfer and reduction of credit is subject to the approval of the program director and graduate dean.

Requirements

Degree Requirements

Total credits: 33

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Students complete two program core courses, two methods courses, two theory courses, two specialization and at least three elective courses (or 9 credits), of which 3 credits may be thesis.

Students must choose from one area of specialization (strategic communication/public relations, health communication, science communication, or individualized communication studies). Specific requirements are described below.

Core Courses

Code	Title	Credits
Two Core Courses		
COMM 600	Introduction to Graduate Studies	3
COMM 798	Communication Studies Project (only 3 credits can apply to the degree)	3
Two Methods Courses		
COMM 650	Research Methodologies in Communication (required course)	3
Select one course from the following:		3
COMM 725	Qualitative Methods	
COMM 750	Research Methods II	
COMM 775	Media Content Analysis	
Other graduate level methods course, taken in COMM or elsewhere, as approved by graduate director.		
Two Theory Courses		
Select two theory courses from the following:		6
COMM 602	Theories and Research of Mass Communication	
COMM 605	Intercultural Communication	
COMM 615	Political Communication	
COMM 620	Health Communication	
COMM 630	Theories of Public Relations	
COMM 632	Persuasion Theory	
COMM 634	Theories of Interpersonal Communication	
COMM 635	Organizational Communication	
COMM 637	Risk Communication	
COMM 639	Science Communication	
COMM 642	Science and the Public	
COMM 660	Climate Change and Sustainability Communication Campaigns	
COMM 706	Strategic Communication	
COMM 735	Crisis Communication	
Total Credits		18

Specializations

Students complete the degree by completing 6 credits of coursework in one of the four specializations and an additional 9 elective credits in any graduate coursework, to include an optional thesis. Courses outside the department require the prior written approval of the program director.

Available Specializations

- Strategic Communications/Public Relations Specialization
- Health Communication Specialization
- Science Communication
- Individualized Communication Studies specialization

Strategic Communications/Public Relations Specialization

The specialization in strategic communication/public relations requires a minimum of two courses from the list below. A course taken as a part of the general program cannot be duplicated in credits, but it can count as a course required for the specialization. Additional credits may be met through electives.

Code	Title	Credits
Two Specialization Courses		
Select two specialization courses from the following:		6
COMM 590	Seminar in Communication [1]	
COMM 602	Theories and Research of Mass Communication	
COMM 615	Political Communication	
COMM 630	Theories of Public Relations	
COMM 632	Persuasion Theory	
COMM 636	Communication Consulting	
COMM 637	Risk Communication	
COMM 642	Science and the Public	
COMM 660	Climate Change and Sustainability Communication Campaigns	
COMM 670	Social Marketing	
COMM 690	Special Topics in Communication [1]	
COMM 696	Directed Readings and Research	
COMM 706	Strategic Communication	
COMM 716	International Public Relations	
COMM 735	Crisis Communication	
COMM 820	Health Communication Campaigns	
COMM 890	Special Topics in Communication [1]	
Optional Thesis [2]		
Three credits of		3
COMM 799	Master's Thesis	
Electives [3]		
Six to nine additional credits chosen from:		6-9
Courses from the list above		
Any other graduate COMM courses		

Up to 6 credits of coursework from other departments with prior written approval of the program director.	
Total Credits	15

1 When topic is strategic communication, as approved by program director.

2 Students who do not choose to complete a thesis will take additional credits of elective. Students who choose to write a thesis should be aware of the policies governing theses as stated in AP.6.9.3 Master's Thesis. If a thesis is chosen, students must follow the thesis enrollment policy of the university and, once enrolled in COMM 799 Master's Thesis, maintain continuous enrollment.

3 Students choosing to write a thesis take 6 credits of electives. Those opting out of a thesis take 9 credits.

Health Communication Specialization

The specialization in health communication requires a minimum of two courses from the list below. A course taken as a part of the general program cannot be duplicated in credits, but it can count as a course required for the specialization. Additional credits may be met through electives.

Code	Title	Credits
Two Specialization Courses		
Select two specialization courses from the following:		6
COMM 590	Seminar in Communication [1]	
COMM 620	Health Communication	
COMM 632	Persuasion Theory	
COMM 690	Special Topics in Communication [1]	
COMM 696	Directed Readings and Research	
COMM 705	Intercultural Health and Risk Communication	
COMM 720	Consumer-Provider Health Communication	
COMM 721	E-Health Communication	
COMM 820	Health Communication Campaigns	
COMM 890	Special Topics in Communication [1]	
Optional Thesis [2]		
Three credits of		3
COMM 799	Master's Thesis	
Electives [3]		
Six to nine credits chosen from:		6-9
Additional courses from the list above		
Any other graduate COMM course		
Up to 6 credits of coursework from other departments with prior written approval of the program director.		
Total Credits		15

1 When topic is health communication as approved by program director.

2 Students who do not choose to complete a thesis will take additional credits of elective courses. Students who choose to write a thesis should be aware of the policies governing theses as stated in AP.6.9.3 Master's Thesis. If a thesis is chosen, students must follow the thesis enrollment policy of the university and, once enrolled in COMM 799 Master's Thesis, maintain continuous enrollment.

3 Students choosing to write a thesis take 6 credits of electives. Those opting out of the thesis take 9 credits.

Science Communication Specialization

Students who wish to focus their graduate study in science communication complete the following requirements.

Code	Title	Credits
Two Specialization Courses		
Select two specialization courses from the following:		6
COMM 637	Risk Communication	
COMM 639	Science Communication	
COMM 640	Controversies in Science Communication	
COMM 641	Advanced Communication Skills for STEM	
COMM 642	Science and the Public	
COMM 644	Analysis and Criticism of Science Journalism	
COMM 660	Climate Change and Sustainability Communication Campaigns	
COMM 696	Directed Readings and Research	
Optional Thesis [1]		
Three credits of		3
COMM 799	Master's Thesis	
Electives [2]		
Six to nine credits chosen from:		6-9
Additional courses from the list above		
Any other graduate COMM course		
Up to 6 credits of coursework from other departments with prior written approval of the program director.		
Total Credits		15

1 Students who do not choose to complete a thesis will take additional credits of elective courses. Students who choose to write a thesis should be aware of the policies governing theses as stated in AP.6.9.3 Master's Thesis. If a thesis is chosen, students must follow the thesis enrollment policy of the university and, once enrolled in COMM 799 Master's Thesis, maintain continuous enrollment.

2 Students choosing to write a thesis take 6 credits of electives. Those opting out of the thesis take 9 credits.

Individualized Communication Studies specialization

Students pursuing a specialization in individualized communication studies design a program of courses to reflect their interests.

Code	Title	Credits
Two Specialization Courses		
Select from the following: [1]		6
COMM 590	Seminar in Communication	
COMM 690	Special Topics in Communication	
COMM 890	Special Topics in Communication	
Optional Thesis [2]		
Three credits of		3
COMM 799	Master's Thesis	
Electives		
Six to nine credits chosen from: [3]		6-9
Additional courses from the list above		

Any other graduate COMM course	
Up to 6 credits of coursework from other departments with prior written approval of the program director.	
Total Credits	15

1 Two courses in a field of specialization are chosen in consultation with an advisor or the program director. These courses may include select special topics courses shown above as approved by the program director.

2 Students who do not choose to complete a thesis will take additional credits of elective courses. Students who choose to write a thesis should be aware of the policies governing theses as stated in AP.6.9.3 Master's Thesis. If a thesis is chosen, students must follow the thesis enrollment policy of the university and, once enrolled in COMM 799 Master's Thesis, maintain continuous enrollment.

3 Students choosing to write a thesis take 6 credits of electives. Those opting out of the thesis take 9 credits.

Accelerated Master's

Communication, BA/Communication, Accelerated MA

Overview

Highly qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA in Communication and an MA in Communication in an accelerated time-frame after satisfactory completion of a minimum of 141 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degrees for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies and Bachelor's Accelerated Master's Degree policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (http://communication.gmu.edu/programs/LA-MA-ACEL-COM/application/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits.

Accelerated Master's Admission Requirements

Students already admitted to the BAM Pathway will be admitted to the MA program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- Minimum overall GPA of 3.25
- Minimum grade of B in each advanced standing course
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following:

Advanced Standing courses (up to 12 credits with a minimum grade of B in each)

COMM 600 Introduction to Graduate Studies (3 credits)
COMM 602 Theories and Research of Mass Communication (3 credits)
COMM 605 Intercultural Communication (3 credits)
COMM 615 Political Communication (3 credits)
COMM 620 Health Communication (3 credits)
COMM 630 Theories of Public Relations (3 credits)
COMM 632 Persuasion Theory (3 credits)
COMM 634 Theories of Interpersonal Communication (3 credits)
COMM 635 Organizational Communication (3 credits)
COMM 636 Communication Consulting (3 credits)
COMM 637 Risk Communication (3 credits)
COMM 639 Science Communication (3 credits)
COMM 640 Controversies in Science Communication (3 credits)
COMM 641 Advanced Communication Skills for STEM (3 credits)
COMM 642 Science and the Public (3 credits)
COMM 644 Analysis and Criticism of Science Journalism (3 credits)
COMM 653 Graduate Seminar in Instructional Communication (3 credits)
COMM 660 Climate Change and Sustainability Communication Campaigns (3 credits)
COMM 670 Social Marketing (3 credits)
COMM 690 Special Topics in Communication (3 credits)

Reserve Graduate Credit courses (up to 6 credits) taken while an undergraduate and will only count for the graduate degree program

All courses listed above as advanced standing can be used for reserve graduate credit.

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degrees.

Communication, PhD

Banner Code: LA-PHD-COM

5200 Horizon Hall
Fairfax Campus

Email: commgrad@gmu.edu
Website: communication.gmu.edu/programs/la-phd-com

The PhD in Communication explores key issues in the discipline such as communicating complex information, social influence and behavior change, the digital divide, public advocacy, intercultural sensitivity, media literacy, and national security. The PhD program offers three major areas of emphasis: health communication, science communication, and strategic communication. Faculty and students conduct research concerning health communication, risk communication, climate change communication, science communication, crisis management, organizational communication, media systems, public communication

campaigns, new information technologies, communication policy, and media advocacy.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions. For information specific to the PhD in Communication, see Application Requirements and Deadlines (http://communication.gmu.edu/programs/LA-PHD-COM/application/).

Policies

For policies governing all graduate degrees, see Graduate Policies.

Reduction of Credit

For students entering the doctoral program with a master's degree, the number of required credits may be reduced by a maximum of 30 credits, subject to approval of the program faculty and the dean. Requests for reduction of credit are reviewed only after acceptance to the doctoral program.

Program Requirements

To receive the PhD in Communication, students must complete a minimum of 90 credits, 60 beyond the master's degree, including core courses in theory and research methods, coursework in substantive fields of study, and a research practicum. Following completion of all required coursework, students must pass a written qualifying examination and an oral defense of it, after which they are advanced to candidacy by the dean and complete a dissertation, an original and independent research project.

If specific requirements are waived, students must complete substitutions, which are recorded on their Program of Study. All substitutions to degree requirements must be approved by the graduate committee.

Requirements

Degree Requirements

Total credits: 90

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Core Courses

Four Theory Courses

Code	Title	Credits
COMM 700	Building Social Science Theory	3
Select one additional theory course from the following:		3
COMM 602	Theories and Research of Mass Communication	
COMM 605	Intercultural Communication	
COMM 632	Persuasion Theory	
COMM 634	Theories of Interpersonal Communication	
COMM 635	Organizational Communication	
Select two additional theory courses from the following:		6
COMM 602	Theories and Research of Mass Communication	
COMM 605	Intercultural Communication	
COMM 620	Health Communication	
COMM 630	Theories of Public Relations	
COMM 632	Persuasion Theory	
COMM 634	Theories of Interpersonal Communication	
COMM 635	Organizational Communication	
COMM 639	Science Communication	
COMM 642	Science and the Public	
COMM 706	Strategic Communication	
Total Credits		12

Three Research Methods Courses

Code	Title	Credits
Methods Course		
COMM 650	Research Methodologies in Communication	3
Specialized Methods Course		
Select 3 credits from the following:		3
COMM 725	Qualitative Methods	
COMM 750	Research Methods II	
COMM 775	Media Content Analysis	
One additional course at the 700-level or above. [1]		3
Total Credits		9

[1] This course should be chosen to help prepare for the dissertation and must be approved by the graduate committee.

Substantive Field of Study

Students choose one of the following substantive fields of study.

Health Communication

Code	Title	Credits
Select three courses from the following:		9
COMM 620	Health Communication	
COMM 705	Intercultural Health and Risk Communication	
COMM 720	Consumer-Provider Health Communication	
COMM 820	Health Communication Campaigns	
Select three elective courses chosen with approval of the advisor and director		9
Total Credits		18

Science Communication

Code	Title	Credits
Select three courses from the following:		9
COMM 632	Persuasion Theory	
COMM 639	Science Communication	
COMM 642	Science and the Public	
COMM 660	Climate Change and Sustainability Communication Campaigns	

Select three courses chosen with approval of the advisor and director	9
Total Credits	18

Strategic Communication

Code	Title	Credits
Select three courses from the following:		9
COMM 630	Theories of Public Relations	
COMM 705	Intercultural Health and Risk Communication	
COMM 706	Strategic Communication	
COMM 735	Crisis Communication	
Select three elective courses chosen with approval of the advisor and director		9
Total Credits		18

One Research Practicum

Code	Title	Credits
COMM 701	Communication Science Research Practicum	3
Total Credits		3

Elective Courses

Code	Title	Credits
Students complete the remaining credits through additional elective courses chosen in consultation with an advisor		0-30
Total Credits		0-30

Advancement to Candidacy

To advance to candidacy, students must complete all coursework required on their approved program of study. Students must also successfully pass a written qualifying exam and an oral qualifying exam. In addition, students must have a dissertation committee appointed by the Dean's Office as well as an approved proposal. Evidence of the approved proposal must be on file in the Dean's Office before a student can advance to candidacy.

Dissertation

Once enrolled in COMM 998 Doctoral Dissertation Proposal, students in this degree program must maintain continuous registration for at least 1 credit. Once enrolled in COMM 999 Doctoral Dissertation Research, student must maintain continuous registration each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in COMM 999 Doctoral Dissertation Research, students must follow the university's continuous registration policy as specified in AP.6.10.6 Dissertation Research. Students who defend in the summer must be registered for at least 1 credit of COMM 999 Doctoral Dissertation Research.

Students complete a minimum of 3 credits of COMM 998 Doctoral Dissertation Proposal and 3 credits of COMM 999 Doctoral Dissertation Research. They must apply a minimum of 18 dissertation credits (COMM 998 Doctoral Dissertation Proposal and COMM 999 Doctoral Dissertation Research combined) to the degree. Because of the continuous registration policy, students may be required to register for additional credits of these courses.

Code	Title	Credits
At least eighteen credits of the following:		18
COMM 998	Doctoral Dissertation Proposal	
COMM 999	Doctoral Dissertation Research	
Total Credits		18

Health Communication Minor

Banner Code: HCOM

Academic Advising

5200 Horizon Hall
Fairfax Campus

Email: cdadvice@gmu.edu
Website: communication.gmu.edu/programs/la-minor-la-hcom

Health communication, one of the fastest growing fields in the broader communication discipline, addresses how communication intersects with all aspects of health (social, mental, and physical).

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must earn a minimum grade of 2.00 in all courses applied to the minor. For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Core Courses

2 When relevant, may be taken as elective with prior written approval of the director of the minor.

Photojournalism Minor (CHSS)

Banner Code: PHOJ

Academic Advising

5200 Horizon Hall
Fairfax Campus

Email: cdadvice@gmu.edu

The photojournalism minor explores photography as a journalistic storytelling medium. Offered jointly by the Department of Communication and the School of Art, the minor prepares students to bear witness through the lens of a camera; to examine the world around them, pose questions and inform audiences. Students gain proficiency with digital photo technology, develop reporting skills, apply visual storytelling principles, and examine the ethical and legal challenges of capturing stories in a mediated society.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must earn a minimum grade of 2.00 in all courses applied to the minor. For policies governing all minors, see AP.5.3.4 Minors.

Political Communication Minor (CHSS)

Banner Code: PCOM

Academic Advising

5200 Horizon Hall
Fairfax Campus

Email: cdadvice@gmu.edu
Website: communication.gmu.edu/programs/la-minor-comm-pcom

This interdisciplinary minor is offered jointly by the Schar School of Policy and Government and the Department of Communication.

Political communication explores the interaction among members of the public, the media, advocacy groups, and politicians in a democratic society. This minor uses a diverse approach to questions of how mass and interpersonal communication influence democratic functioning, including:

1. how political actors use strategic messaging to persuade and mobilize the public;
2. how citizens make sense of these messages and their impact on engagement, deliberation, efficacy, knowledge, and participation;
3. the role of the mass media in facilitating or hindering this relationship;

Political communication includes explicitly political activities like voting and political campaigns. It also encompasses any issue of public debate or deliberation, including culture and social movements.

Admissions & Policies

Admissions

This minor is available to all Mason undergraduate students with the exception of communication majors pursuing a concentration in political communication.

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. A minimum of 6 COMM credits and a minimum of 6 GOVT credits are required. For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Courses from the Schar School of Policy and Government may be substituted in the cultural politics, persuasion theory, or political process categories, with the permission of the minor director.

Professional Experience in Communication Minor

Banner Code: PCM

Academic Advising

5200 Horizon Hall
Fairfax Campus

Email: cdadvice@gmu.edu
Website: communication.gmu.edu/programs/la-minor-comm-pcm

This minor is designed for undergraduate students who wish to augment their main academic program with an intense experiential learning semester in professional and career media. Students attend the Washington Media Institute program in Washington, DC and are taught by Mason faculty, Washington Media Institute leaders and practitioners. Enrollment in the program carries a premium fee added to normal tuition.

The minor is available only to students who are accepted into the program by application to the Department of Communication, and enroll in credits dedicated to the Washington Media Institute Mason Semester, a semester-long program held in Washington Media Institute in Washington, DC.

Admissions & Policies

Admissions

The minor is available only to students who are accepted into the program by application to the Department of Communication, and enroll in credits dedicated to the Washington Media Institute Mason Semester, a semester-long program held in Washington Media Institute in Washington, DC.

Policies

Students pursuing this minor must complete all course offerings with a minimum grade of 2.00 in each course. All fifteen credits of coursework must be unique to the minor.

For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 15

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Coursework

Students complete five required courses, offered as individualized sections of COMM 487 Washington Media Institute. Specific course titles may vary from semester to semester. Examples are Entrepreneurial Media and Journalism and Social Justice. Various seminars, a technology workshop and internship may also be offered.

Code	Title	Credits
Take five sections of the following under different titles.		15

Science Communication Graduate Certificate

Banner Code: LA-CERG-SCMN

Brittany Sanders

5200 Horizon Hall

Email: bsander7@gmu.edu
Website: https://sciencecommunication.gmu.edu/programs/la-cerg-scmn

This certificate, designed for graduate students and professionals with or without a communication background, explores how science communication research informs best practices within diverse, applied settings (and vice-versa). Spanning the intersection of research and practice, graduates strengthen science communication efforts geared toward various audiences and support effective science-related decision making within academic, government, and non-profit sectors, among others.

This graduate certificate may be pursued on a part-time or full-time basis.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions.

Policies

All course choices included in this certificate must be approved by the department.

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Requirements

Certificate Requirements

Total credits: 15

This certificate may be pursued on a full-or part-time basis.

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Sport Communication Minor (CHSS)

Banner Code: SCOM

Academic Advising

5200 Horizon Hall
Fairfax Campus

Email: cdadvice@gmu.edu
Website: communication.gmu.edu/programs/la-minor-comm-scom

This minor offers students the opportunity to examine important and timely sports-related issues in an ethical context as well as analyze sports from cross-cultural perspectives. Students will gain an understanding of sport mass media, sport communication, sports reporting, interpersonal and organizational communication, and

the impact each has in our global society. The courses cover theory and practice in cross-platform communication, sports ethics and theoretical underpinnings, public relations, and marketing. The minor provides applied fundamentals for students seeking employment in the commercial world of sports (areas such as management or promotion of athletic organizations) and in sports media. The sport communication minor is offered jointly with the School of Recreation, Health, and Tourism in the College of Education and Human Development.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

- Special topics courses, when relevant, may be used to fulfill this requirement with the prior written approval of the director.
- Depending on which courses students took as a required course (above), they may use either SPMT 201 Introduction to Sport Management or SPMT 304 Sport, Culture, and Society as an elective.
- COMM majors are required to take one elective SPMT course.

Department of Criminology, Law and Society

Phone: 703-993-8315
Website: cls.gmu.edu/

Criminology, Law and Society is a dynamic, multidisciplinary unit. Students at the graduate and undergraduate level develop strong foundations in research, methods, theories and systems of justice, criminology and crime policy, security, and law and society. They graduate with the knowledge and skills needed to understand the causes and consequences of crime and injustice, the responses by criminal and civil justice institutions, and what works to improve social conditions among affected individuals, communities, organizations, and countries.

Undergraduate Programs

Criminology, Law and Society, BS

The bachelors of science in criminology, law and society provides students with a focused study of criminology, law and society and the social, human, and moral problems raised in the justice field. The BS degree prepares students for careers in law enforcement, corrections, the courts, investigations, juvenile justice, private and homeland security, and related social and human services. Students who earn the BS degree either gain work experience in a criminal justice agency, or complete a minor in a related field to enhance their study of justice.

Criminology, Law and Society, BA

The bachelors of arts in criminology, law and society provides students with the opportunity to acquire a broader liberal arts education while studying criminology, law and society. The BA degree prepares students for careers in a range of justice, social service, and human services fields. It also provides a strong background for law school or graduate study in criminal justice or criminology.

Internships

The department supports an active internship program, which places students in justice and related organizations throughout the Washington metropolitan area. Students can gain valuable work place experience while earning credit toward their degree.

Graduate Programs

The department offers a master's and a doctoral degree in criminology, law and society and a master's degree in criminal justice. These degrees draw on a strong multidisciplinary faculty who teach a wide range of courses in their specialties. These programs take advantage of Mason's proximity to the many justice organizations at the federal, state, and local levels. The curriculum is structured to give students the skills they need to do policy-relevant research. They will be able to work with local and

national agencies concerned with justice and security to put those skills to use.

Funding

The department offers graduate teaching and research assistantships awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and, like all graduate students, show satisfactory progress toward their degree.

Criminal Justice, MS

Banner Code: LA-MS-CJUS

Academic Advising

354 Enterprise Hall
Fairfax Campus

Email: clsgrad@gmu.edu
Website: https://cls.gmu.edu/programs/la-ms-cjus

The MS in Criminal Justice prepares students to acquire jobs or advance their careers in the field of criminal justice policy and practice. Students receive the scientific foundations and practical insights required to evaluate, select, and implement criminal justice policies and practices that are effective, efficient, and fair. They also learn data analysis skills that equip them with the knowledge required for many policy-oriented and front-line operational positions. Criminal Justice, MS graduates are prepared to be leaders and change agents in the criminal justice field.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions. For information specific to the MS degree in criminal justice, see Application Requirements and Deadlines (https://cls.gmu.edu/programs/la-ms-cjus/application/) on the departmental website.

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies.

Accelerated Master's

Bachelor's Degree (any)/Criminal Justice, Accelerated MS

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA/BS in a chosen major and an MS in Criminal Justice in an accelerated time-frame after satisfactory completion of a minimum of 138 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degrees for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies and Bachelor's/Accelerated Master's Degrees policies. For information specific to this degree, see the department's website (https://cls.gmu.edu/programs/la-ms-acel-cjus/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, 15 upper-level credits completed at Mason, and a minimum overall GPA of 3.50.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MS program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form.

- Minimum overall GPA of 3.25
- Minimum grade of B in each advanced standing course
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following:

Advanced Standing courses (up to 12 credits with a minimum grade of B in each)

Courses include any graduate CRIM course with the exception of CRIM 517 Research Practicum in Justice Policy and Practice.

Accelerated master's students will work with undergraduate and graduate advisors to select courses for their plan of study.

Reserve Graduate Credit courses (up to 6 credits) taken while an undergraduate and will only count for the graduate degree program

Any graduate CRIM course with the exception of CRIM 517 Research Practicum in Justice Policy and Practice

For more detailed information on coursework and timeline requirements see AP 6.7 Bachelor's/Accelerated Master's Degrees policies.

Website: cls.gmu.edu/programs/la-minor-cls-cls

Through the minor in criminology, law and society, students develop knowledge of the principles, institutions, and practices of the systems for administering justice. It provides a solid foundation for students seeking to supplement their major area of study, to develop knowledge and skills needed for justice-related occupations, or to lay the foundation for law school or graduate study in the justice field. Students obtain an overview of the justice system and develop advanced knowledge of selected features of the justice system.

Students should plan their course of study with a criminology, law and society advisor assigned by the program.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. No more than 6 credits of CRIM 485 Study Abroad can be applied to the minor. The minor must be approved by the advisor before graduation.

For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 15

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Core Course

Code	Title	Credits
CRIM 100	Introduction to Criminal Justice (Mason Core)	3

Electives

Code	Title	Credits
Select 12 credits from the following: [1]		12
CRIM courses [2]		
INTS 417	Human Trafficking and Smuggling [2]	
Total Credits		12

1. At least nine credits must be upper-level. CRIM 479 Preparation for Internship, CRIM 480 Internship, CRIM 498 Research Practicum, and CRIM 499 Independent Study may not be used to fulfill this requirement. A maximum of 6 credits of CRIM 485 Study Abroad can be applied to the minor.
2. A maximum of 6 credits of INTS 417 Human Trafficking and Smuggling and/or CRIM 490 Special Topics when topic is Human Trafficking can be applied to the minor.

Criminology, Law and Society, BA

Banner Code: LA-BA-CLS

354 Enterprise Hall
Fairfax Campus

Website: cls.gmu.edu/programs/la-ba-cls

The BA in Criminology, Law and Society provides a focused study of the justice system and social, human, and moral problems raised in the justice field. This course of study prepares students for careers in law enforcement, corrections, the courts, investigations, juvenile justice, private and homeland security, and related social and human services. The BA in Criminology, Law and Society is well-suited for students who wish to study the field while branching out into related areas of study.

Admissions & Policies

Policies

Students pursuing this degree must complete 42 credits within the major, with a minimum GPA of 2.00. Students may apply a maximum of 18 credits of transferable ADJ courses from the Virginia Community College System (VCCS) or comparable courses at another community college to fulfill the degree requirements. Once a student matriculates at Mason, no courses may be taken at another institution without prior written approval from the program and the dean.

No more than 12 credits of CRIM 485 Study Abroad can be applied to the major. No more than 15 credits of CRIM 490 Special Topics can be applied to the major.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies.

Requirements

or GOVT 460	Surveillance and Privacy in Contemporary Society	
CRIM 462	Law Enforcement and Homeland Security	
CRIM 475	Theory and Politics of Terrorism	

CRIM 490	Special Topics (when topic is appropriate with permission of undergraduate director) [1]
INTS 417	Human Trafficking and Smuggling [1]

[1] A maximum of 6 credits of INTS 417 Human Trafficking and Smuggling and/or CRIM 490 Special Topics when topic is Human Trafficking can be applied to the major.

Writing-Intensive Requirement

The university requires all students to complete at least one course designated "writing intensive" in their majors at the 300 level or above. Students majoring in criminology, law and society fulfill this requirement by successfully completing CRIM 495 Capstone in Criminology, Law and Society (Mason Core). Students should complete ENGH 302 Advanced Composition (Mason Core) before taking the writing-intensive course in the major or take the two courses simultaneously.

Upper Level Requirement

Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

Additional Electives

Any remaining credits may be completed with elective courses to bring the degree total to 120.

College Level Requirements for the BA Degree

In addition to the Mason Core program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core requirements or requirements for the major).

Philosophy or Religious Studies

Code	Title	Credits
Select 3 credits from the following:		3
PHIL [1]		
RELI		

[1] Note that the following courses may not be used to fulfill this requirement:

- PHIL 323 Classical Western Political Theory
- PHIL 324 Modern Western Political Theory
- PHIL 327 Contemporary Western Political Theory
- PHIL 393 Humanities College to Career
- PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core), RELI 235 Religion and Literature (Mason Core), and RELI 333 Spiritual Autobiography (Mason Core) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature requirement.

Social and Behavioral Sciences

Code	Title	Credits
Select 3 credits of social and behavioral sciences from the following (additional to the Mason Core social and behavioral sciences requirement) [1]		3
ANTH		
CRIM		
ECON		
GOVT		
HIST [2]		
LING		
PSYC		
SOCI		
Or choose from the following GGS courses:		
GGS 101	Major World Regions (Mason Core)	
GGS 103	Human Geography (Mason Core)	
GGS 110	Introduction to Geoinformation Technologies	
GGS 301	Political Geography (Mason Core)	
GGS 303	Geography of Resource Conservation (Mason Core)	
GGS 304	Population Geography (Mason Core)	
GGS 305	Economic Geography	
GGS 306	Urban Geography	
GGS 315	Geography of the United States	
GGS 316	Geography of Latin America	
GGS 320	Geography of Europe	
GGS 325	Geography of North Africa and the Middle East	
GGS 330	Geography of the Soviet Succession States	
GGS 357	Urban Planning	
GGS 380	Geography of Virginia	

[1] The two courses used to fulfill the combined college and Mason Core requirements must be from different disciplines in the social and behavioral sciences.

[2] HIST 100 History of Western Civilization (Mason Core) and HIST 125 Introduction to World History (Mason Core) may not be used to fulfill this requirement.

Foreign Language

Code	Title	Credits
Intermediate-level proficiency in one foreign language, fulfilled by: [1]		
Completing 3 credits in a foreign language numbered 202 (or higher level courses taught in the language)		
Or achieving a satisfactory score on an approved proficiency test		
Or completing the following ASL three course sequence:		
EDSE 115	American Sign Language (ASL) I	
EDSE 116	American Sign Language (ASL) II	
EDSE 219	American Sign Language (ASL) III	

[1] Students who are already proficient in a second language may be eligible for a waiver of this requirement. Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu/).

Non-Western Culture

Select 3 credits of an approved course in the study of a non-Western culture (additional to the Mason Core requirement in global understanding)

Code	Title	Credits
Select 3 credits (additional to Mason Core Global Understanding requirement) [1]		
ANTH 114	Introduction to Cultural Anthropology (Mason Core)	3
ANTH 300	Civilizations	3
ANTH 302	Peoples and Cultures of Latin America (Mason Core)	3
ANTH 307	Ancient Mesoamerica (Mason Core)	3
ANTH 308	Peoples and Cultures of the Middle East (Mason Core)	3
ANTH 309	Peoples and Cultures of India (Mason Core)	3
ANTH 313	Myth, Magic, and Mind (Mason Core)	3
ANTH 314	Zombies	3
ANTH 330	Peoples and Cultures of Selected Regions: Non-Western	3
ANTH 332	Cross-Cultural Perspectives on Globalization (Mason Core)	3
ANTH 381	Medical Anthropology	3
ANTH 396	Issues in Anthropology: Social Sciences (Mason Core)	3
ARAB 360	Topics in Arabic Cultural Production	3
ARAB 420	Survey of Arabic Literature	3
ARAB 440	Topics in Arabic Religious Thought and Texts (Mason Core)	3
ARTH 203	Survey of Asian Art (Mason Core)	3

RUSS 354	Contemporary Post-Soviet Life (Mason Core)	3

[1] A course used to fulfill the Mason Core global understanding requirement may not be simultaneously used to satisfy this college-level requirement. A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core requirements, college-level requirements, or requirements for the major). Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu/).

Mason Core

Some Mason Core requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core requirements.

Code	Title	Credits
Foundation Requirements		
Written Communication (ENGH 101)		3
Oral Communication		3
Quantitative Reasoning		3
Information Technology and Computing		3
Exploration Requirements		
Arts		3
Global Understanding		3
Literature		3
Natural Science		7
Social and Behavioral Sciences		3
Western Civilization/World History		3
Integration Requirements		
Written Communications (ENGH 302)		3
Writing-Intensive [1]		3
Synthesis/Capstone [2]		3
Total Credits		40

[1] Most programs include the writing-intensive course designated for the major as part of the major requirements; this course is therefore not counted towards the total required for Mason Core.

[2] Minimum 3 credits required.

4-Year Plan

Bachelor of Arts in Criminology, Law and Society Sample Plan of Study

A sample four year graduation plan and degree planning worksheet can be found at https://academicaffairs.chss.gmu.edu/undergraduate-students/advising/advising-sheets (https://academicaffairs.chss.gmu.edu/undergraduate-students/advising/advising-sheets/). The plan is a recommended sequencing of courses based on prerequisites and scheduling. This may not fit every student's needs and is a guideline, not a requirement. Students should confirm major requirements with their academic advisor each semester and with their PatriotWeb Degree Evaluation to ensure they enroll in the proper courses and are on track to graduate.

Honors

Honors in the Major

Highly-qualified students may pursue advanced work leading to graduation with honors in the major. Students admitted to the honors program in the major take a two-course sequence: CRIM 491 Honors Seminar I and CRIM 492 RS: Honors Seminar II. To graduate with honors in criminology, law and society, students must complete both courses with a minimum GPA of 3.50 in the two courses.

Criminology, Law and Society, BS

Banner Code: LA-BS-CLS

354 Enterprise Hall
Fairfax Campus

Website: cls.gmu.edu/programs/la-bs-cls

Criminology, Law and Society provides a focused study of the justice system and social, human, and moral problems raised in the justice field. This course of study prepares students for careers in law enforcement, corrections, the courts, investigations, juvenile justice, private and homeland security, and related social and human services. The BS degree provides students a focused approach, requiring more courses within the field of criminology. Students who earn the BS degree either gain work experience in a criminal justice agency or complete a minor in a related field to enhance their study of justice.

Admissions & Policies

Policies

Students pursuing this degree with an internship must complete 60 major credits. Students who complete an approved minor need 45 major credits, plus 15-20 credits in the minor, some of which may overlap with the major credits. Students who pursue a minor must meet with an advisor in the minor program to verify minor requirements and add the minor to their record.

A minimum GPA of 2.00 is required. Students may apply a maximum of 18 credits of transferable ADJ courses from the Virginia Community College System (VCCS) or comparable courses at another community college to fulfill the degree requirements. Once a student matriculates at Mason, no courses may be taken at another institution without prior written approval from the program and the dean.

No more than 12 credits of CRIM 485 Study Abroad can be applied to the major. No more than 15 credits of CRIM 490 Special Topics can be applied to the major. A maximum of 6 credits of INTS 417 Human Trafficking and Smuggling and/or CRIM 490 Special Topics can be applied to the major.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies.

Requirements

CRIM 405	Law and Justice around the World (Mason Core)	
CRIM 460	Surveillance and Privacy in Contemporary Society	
or GOVT 460	Surveillance and Privacy in Contemporary Society	
CRIM 462	Law Enforcement and Homeland Security	
CRIM 475	Theory and Politics of Terrorism	
CRIM 490	Special Topics (when topic is appropriate with permission of undergraduate director) [1]	
INTS 417	Human Trafficking and Smuggling [1]	
Total Credits		15

1 A maximum of 6 credits of INTS 417 Human Trafficking and Smuggling and/or CRIM 490 Special Topics when topic is Human Trafficking can be applied to the major.

Concentration in Law and Society (LAWS)

Code	Title	Credits
Select 15 credits from the following:		15
CRIM 220	Introduction to Law and Society	
CRIM 301	Public Law and the Judicial Process	
or GOVT 301	Public Law and the Judicial Process	
CRIM 308	Human Rights and Justice	
CRIM 325	Hate Crime	
CRIM 405	Law and Justice around the World (Mason Core)	
CRIM 406	Family Law and the Justice System	
CRIM 407	Advanced Topics in Law and Society	
CRIM 408	Criminal Courts	
CRIM 422	Controversial Legal Issues	
CRIM 423	Constitutional Law: Civil Rights and Liberties	
or GOVT 423	Constitutional Law: Civil Rights and Liberties	
CRIM 430	Criminal Law	
CRIM 460	Surveillance and Privacy in Contemporary Society	
or GOVT 460	Surveillance and Privacy in Contemporary Society	
CRIM 490	Special Topics (when topic is appropriate with permission of undergraduate director) [1]	

INTS 417	Human Trafficking and Smuggling [1]	
Total Credits		15

[1] A maximum of 6 credits of INTS 417 Human Trafficking and Smuggling and/or CRIM 490 Special Topics when topic is Human Trafficking can be applied to the major.

Writing-Intensive Requirement

The university requires all students to complete at least one course designated "writing intensive" in their majors at the 300 level or above. Students majoring in criminology, law and society fulfill this requirement by successfully completing CRIM 495 Capstone in Criminology, Law and Society (Mason Core). Students should complete ENGH 302 Advanced Composition (Mason Core) before taking the writing-intensive course in the major or take the two courses simultaneously.

Upper Level Requirement

Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

Additional Electives

Any remaining credits may be completed with elective courses to bring the degree total to 120.

Mason Core

Some Mason Core requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core requirements.

Code	Title	Credits
Foundation Requirements		
Written Communication (ENGH 101)		3
Oral Communication		3
Quantitative Reasoning		3
Information Technology and Computing		3
Exploration Requirements		
Arts		3
Global Understanding		3
Literature		3
Natural Science		7
Social and Behavioral Sciences		3
Western Civilization/World History		3
Integration Requirements		
Written Communications (ENGH 302)		3
Writing-Intensive [1]		3
Synthesis/Capstone [2]		3
Total Credits		40

[1] Most programs include the writing-intensive course designated for the major as part of the major requirements; this course is therefore not counted towards the total required for Mason Core.

[2] Minimum 3 credits required.

4-Year Plan

Bachelor of Science in Criminology, Law and Society Sample Plan of Study

A sample four year graduation plan and degree planning worksheet can be found at https://academicaffairs.chss.gmu.edu/undergraduate-students/advising/advising-sheets (https://academicaffairs.chss.gmu.edu/undergraduate-students/advising/advising-sheets/). The plan is a recommended sequencing of courses based on prerequisites and scheduling. This may not fit every student's needs and is a guideline, not a requirement. Students should confirm major requirements with their academic advisor each semester and with their PatriotWeb Degree Evaluation to ensure they enroll in the proper courses and are on track to graduate.

Honors

Honors in the Major

Highly qualified students may pursue advanced work leading to graduation with honors in the major. Students admitted to the honors program in the major take a two-course sequence: CRIM 491 Honors Seminar I and CRIM 492 RS: Honors Seminar II. To graduate with honors in criminology, law and society, students must complete both courses with a minimum GPA of 3.50 in the two courses.

Criminology, Law and Society, MA

Banner Code: LA-MA-CLS

Academic Advising

354 Enterprise Hall
Fairfax Campus

Email: clsgrad@gmu.edu
Website: cls.gmu.edu/programs/la-ma-cls

The MA in Criminology, Law and Society prepares students to conduct high-quality scientific research in the criminal justice field. Students learn cutting-edge social science methods and data analysis skills for advancing knowledge in the social sciences and for making a difference in the development and evaluation of justice policies and practices. The MA in Criminology, Law and Society prepares students to pursue advanced graduate studies at the doctoral level or for positions that require rigorous research skills.

For a related program, see Criminology, Law and Society, PhD

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admission section of this catalog. For information specific to the MA in Criminology, Law and Society, see Application Requirements and Deadlines (http://cls.gmu.edu/programs/la-ma-cls/application/) on the departmental web site.

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies.

Requirements

Degree Requirements

Total credits: 30

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Required Coursework

Core Courses

Code	Title	Credits
CRIM 700	Values, Ethics, and Criminal Justice Policy	3
CRIM 710	Criminological Theory	3
CRIM 720	Law and Social Science	3
CRIM 740	Justice Organizations	3
CRIM 760	Evidence-Based Crime Policy	3

Analytical Methods Courses

Code	Title	Credits
CRIM 780	Research Methods	3
CRIM 782	Statistics I	3
CRIM 783	Statistics II	3
Total Credits		9

Thesis

Students must apply 6 credits of thesis to the degree. A thesis proposal must be submitted to the graduate director prior to registering for thesis credits. The master's thesis must be defended orally before a committee of three faculty. The committee chair and at least one member must be CLS graduate faculty.

Students must follow the thesis enrollment policy of the university and once enrolled in CRIM 799 Master's Thesis, maintain continuous enrollment as specified in Academic Policies.

Code	Title	Credits
CRIM 799	Master's Thesis	6

Criminology, Law and Society, PhD

Banner Code: LA-PHD-CLS

Academic Advising

354 Enterprise Hall
Fairfax Campus

Email: clsgrad@gmu.edu
Website: cls.gmu.edu/programs/la-phd-cls

The PhD in Criminology, Law and Society is designed to produce top academic scholars and leaders in policy and applied settings. Students coming to this program seek to make a difference in the development and evaluation of policy using cutting edge social science methods. The program provides a rigorous course of study that will prepare students to do research, teach, develop and test policies, and administer agencies and programs designed to administer law, deliver justice, reduce crime, and enhance domestic security.

For a related program, see Criminology, Law and Society, MA

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions. For information specific to the PhD degree in Criminology, Law and Society, see Application Requirements and Deadlines (http://cls.gmu.edu/programs/application/LA-PHD-CLS/) on the departmental website.

Policies

For policies governing all graduate degrees, see Graduate Policies.

Master's Degree

Students admitted to the doctoral program without a master's degree need to earn the MA in Criminology, Law and Society as a component of the doctoral degree. The requirements for the MA degree are included in the requirements for the PhD listed below. When beginning the doctoral program students should add the master's degree as a secondary program using the Secondary Program Application (https://registrar.gmu.edu/wp-content/uploads/GSMA-Graduate-Secondary-Masters-Application-032020.pdf) and then apply online (http://registrar.gmu.edu/students/graduation/process/) to graduate the semester prior to meeting all requirements for the master's degree.

Requirements

Electives

Code	Title	Credits
Select 21-30 credits of electives from criminology, law and society courses offered by the department. [1]		21-30

[1] Students who take fewer than 30 elective credits will have accordingly more dissertation credits. Students may substitute 3-6 credits of non-CRIM courses with prior written approval of the director of the graduate program.

One Professionalization Course

Code	Title	Credits
CRIM 797	Professionalization Seminar	0
Total Credits		0

Major Area Paper

Students must write and have approved a major area paper.

Students are not eligible to submit a major area paper until they have successfully completed 36 credits.

Advancement to Candidacy

To advance to candidacy, students must complete all coursework required on their approved program of study. Students must also successfully write and have approved a major area paper. In addition, students must have a dissertation committee appointed by the Dean's Office and have defended their dissertation proposal.

Dissertation

Dissertation Committee

The student's committee is composed of at least four faculty members. Three of the four must be members of the graduate faculty in criminology, law and society. The fourth must be from another program at Mason or from outside the university. The faculty member serving as the chair of the committee must be a member of the graduate faculty in criminology, law and society.

Dissertation Research

Once enrolled in CRIM 998 Doctoral Dissertation Proposal, students in this degree program must maintain continuous registration in CRIM 998 Doctoral Dissertation Proposal or CRIM 999 Doctoral Dissertation Research each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in CRIM 999 Doctoral Dissertation Research, students must follow the university's continuous registration policy as specified in AP.6.10.6 Dissertation Registration. Students who defend in the summer must be registered for at least 1 credit of CRIM 999 Doctoral Dissertation Research.

Students may apply to this degree a minimum of 3 and a maximum of 6 credits of CRIM 998 Doctoral Dissertation Proposal and a minimum of 12 and a maximum of 21 credits of CRIM 999 Doctoral Dissertation Research. They may apply a maximum of 24 dissertation credits (CRIM 998 Doctoral Dissertation Proposal and CRIM 999 Doctoral Dissertation Research combined) to the degree. Because of the continuous registration policy, students may be required to register for additional credits of these courses. Students who take fewer than 24 dissertation credits will have accordingly more elective credits.

Code	Title	Credits
Select 15-24 credits from the following:		15-24
CRIM 998	Doctoral Dissertation Proposal	
CRIM 999	Doctoral Dissertation Research	
Total Credits		15-24

The final requirement is a dissertation of original research representing a significant contribution to the field, which should be publishable in a referred journal or a quality press.

Intelligence Studies Minor

Banner Code: ISTU

Academic Advising

354 Enterprise Hall
Fairfax Campus

Website: https://cls.gmu.edu/programs/la-minor-cls-istu

This minor is designed for students who are interested in careers in homeland security or other intelligence-related fields. This minor focuses on developing the skills of intelligence analysis, including research, writing, briefing, and analytical tradecraft. Students explore ethical issues in the field and new developments in the analysis of intelligence information.

The curriculum fosters a broad knowledge of content in several disciplines valued by employers in homeland security and intelligence-related fields. The minor offers students sufficient flexibility to pursue

their primary interests while also preparing themselves for careers in intelligence analysis.

Students who are American citizens may apply for an internship in intelligence analysis at the Federal Bureau of Investigation or other agencies. Credits earned for an internship are in addition to those required for the minor and do not contribute toward completion of the minor. Students who intend to apply for the internship should begin the application process no later than September of their sophomore year, since the security clearance process can take a year or more. Students may wish to participate in the Clearance Ready Program offered through Career Services. Information can be found at https://careers.gmu.edu/students/find-job-or-internship/clearance-ready-program. (https://careers.gmu.edu/students/find-job-or-internship/clearance-ready-program/) Students in this minor are strongly encouraged to pursue advanced training in Arabic, Chinese, or Russian.

Admissions & Policies

Policies

Twelve credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. This minor is multidisciplinary in nature and requires coursework from at least two different academic departments. It must be approved by the advisor before graduation. A maximum of 6 credits of CRIM 485 Study Abroad can be applied to the minor.

For policies governing all minors, see AP.5.3.4 Minors.

Requirements

(formerly NTLA)

Minor Requirements

Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Students should plan their course of study with a criminology, law and society advisor assigned by the program.

Core Courses in the Minor

Code	Title	Credits
CRIM 310	Introduction to the Intelligence Community	3
CRIM 312	Intelligence Analysis Techniques	3
Total Credits		6

Electives in the Minor

The electives must consist of courses from at least two different departments (two different subject prefixes).

Code	Title	Credits
Select four electives from the following:		12
ANTH 114	Introduction to Cultural Anthropology (Mason Core)	
ANTH 312	Political Anthropology (Mason Core)

STAT 344	Probability and Statistics for Engineers and Scientists I	
STAT 350	Introductory Statistics II	
Special topics courses may be approved if they are relevant to the field of intelligence studies [2]		

Other courses as approved by minor director	
Total Credits	12

1 A maximum of 3 credits of INTS 417 can be applied to the minor.

2 Contact minor director for approval of specific sections of special topics courses.

Department of Economics

D150 Buchanan Hall
Fairfax Campus

Phone: 703-993-1151
Website: economics.gmu.edu

Undergraduate Programs

The department offers a bachelor of arts (BA) and a bachelor of science (BS) degree in economics. The bachelor of science degree program is designed for students who desire a more technical program with a stronger emphasis on economic and quantitative analysis. It is especially appropriate for students who anticipate a career as an economic analyst in government, consulting, trade associations, or private sector positions that emphasize economic research and analysis. The requirements are also suitable for students planning postgraduate education in economics or more quantitative business administration programs.

Students interested in careers in the business world can pursue a concentration in managerial economics within the BS in Economics.

The BA in Economics is designed for students with an interest in the liberal arts. It is appropriate for those who prefer a less quantitative degree program and may be especially suitable for students planning to attend law school or graduate programs in business or public administration.

Bachelor's/Accelerated Master's Program

The department offers highly qualified undergraduates the opportunity to apply to an accelerated master's degree program in economics. If accepted, students will be able to earn both an undergraduate and a graduate degree after satisfactory completion of 138 credits, generally within five years.

Graduate Programs

The department offers a master's and a doctoral degree in economics. The department is noted for its emphasis on comparative institutional analysis and its focus on the relations among economic, political, and legal institutions. This is reflected in the specializations associated with the department: experimental economics, Austrian economics, public choice, constitutional political economy, law and economics, and new institutional economics.

Funding

The department offers graduate teaching and research assistantships and fellowships that are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students with assistantships must register for a minimum of 6 credits a semester and, like all students, demonstrate satisfactory progress toward their degree.

Economics Minor

Banner Code: ECON

Academic Advising

D150 Buchanan Hall
Fairfax Campus

Website: economics.gmu.edu/programs/la-minor-econ-econ

Economics is an essential tool for understanding the complexities of modern society. Economics analyzes how people with limited resources make choices and how we might make better choices. A minor in economics is an extremely flexible and marketable choice. Whether a student's primary interest is in business, communications, policy, data management, international studies, or engineering, a minor in economics provides an additional edge in the workplace.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 21

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Core Courses

Code	Title	Credits
ECON 103	Contemporary Microeconomic Principles (Mason Core) [1]	3
ECON 104	Contemporary Macroeconomic Principles (Mason Core) [1]	3
ECON 306	Intermediate Microeconomics	3
Total Credits		9

[1] Must be completed with a minimum grade of C.

Electives

Code	Title	Credits
Select four electives from courses in economics at the 3xx or 4xx level [1]		12
Total Credits		12

[1]
- ECON 385 International Economic Policy may not be used to fulfill this requirement.
- With permission of the department chair or undergraduate director, a course in a closely-related field may be substituted for 3 credits of economics electives. A course in statistics is highly-recommended, and BUS 210 Business Analytics I or STAT 344 Probability and Statistics for Engineers and Scientists I may be substituted for up to 3 credits of economics electives.
- A minimum of nine credits of upper-level economics courses must be taken at Mason.

Economics, BA

Banner Code: LA-BA-ECON

D150 Buchanan Hall
Fairfax Campus

Website: economics.gmu.edu/programs/la-ba-econ

Economics is about more than money and profits. It is a way of looking at the world through the lens of incentives, choices, and markets to help uncover new solutions to the persistent problems in our society. This economic perspective sheds light on important issues in the areas of production, education, crime, the environment, international trade, immigration, health care, economic growth, poverty, and more. The Bachelor of Arts in Economics is designed for students with a strong interest in the liberal arts. It is appropriate for those who prefer a less quantitative degree program than the Bachelor of Science in Economics and may be especially appropriate for students planning to attend law school or graduate programs in business or public administration.

Admissions & Policies

Policies

Students pursuing this degree must complete a minimum of 48 credits of required coursework with a minimum GPA of 2.00. Students in the concentration in philosophy, politics, and economics complete a minimum of 70 credits. Students must also complete ECON 103 Contemporary Microeconomic Principles (Mason Core) and ECON 104 Contemporary Macroeconomic Principles (Mason Core) with at least a 2.00 (C) in each.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies.

Requirements

Degree Requirements

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Some economics courses may fulfill the Mason Core requirement in global understanding or the college requirement in non-Western culture. Check with the departmental advising office for more information.

Total Credits		3

Writing-Intensive Requirement

The university requires all students to complete at least one course designated as "writing intensive" in their majors at the 300 level or above. Students majoring in economics fulfill this requirement by successfully completing one of the following courses:

Code	Title	Credits
ECON 355	The Political Economy of Nonprofit Institutions	
ECON 365	Topics in Economic History	
ECON 395	Effective Writing in Economics	
ECON 435	Economics of Energy	
ECON 470	Economics of Regulation	
ECON 485	Smithian Political Economy I	

Upper Level Requirements

Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

Additional Electives

Any remaining credits may be completed with elective courses to bring the degree total to 120.

College Level Requirements for the BA Degree

In addition to the Mason Core program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core requirements or requirements for the major).

Philosophy or Religious Studies

Code	Title	Credits
Select 3 credits from the following:		3
PHIL [1]		
RELI		

[1] Note that the following courses may not be used to fulfill this requirement:

- PHIL 323 Classical Western Political Theory
- PHIL 324 Modern Western Political Theory
- PHIL 327 Contemporary Western Political Theory
- PHIL 393 Humanities College to Career
- PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core), RELI 235 Religion and Literature (Mason Core), and RELI 333 Spiritual Autobiography (Mason Core) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature requirement.

Social and Behavioral Sciences

Code	Title	Credits
Select 3 credits of social and behavioral sciences from the following (additional to the Mason Core social and behavioral sciences requirement) [1]		3
ANTH		
CRIM		
ECON		
GOVT		
HIST [2]		
LING		
PSYC		
SOCI		
Or choose from the following GGS courses:		
GGS 101	Major World Regions (Mason Core)	
GGS 103	Human Geography (Mason Core)	
GGS 110	Introduction to Geoinformation Technologies	
GGS 301	Political Geography (Mason Core)	
GGS 303	Geography of Resource Conservation (Mason Core)	
GGS 304	Population Geography (Mason Core)	
GGS 305	Economic Geography	
GGS 306	Urban Geography	
GGS 315	Geography of the United States	
GGS 316	Geography of Latin America	
GGS 320	Geography of Europe	
GGS 325	Geography of North Africa and the Middle East	
GGS 330	Geography of the Soviet Succession States	
GGS 357	Urban Planning	
GGS 380	Geography of Virginia	

[1] The two courses used to fulfill the combined college and Mason Core requirements must be from different disciplines in the social and behavioral sciences.

[2] HIST 100 History of Western Civilization (Mason Core) and HIST 125 Introduction to World History (Mason Core) may not be used to fulfill this requirement.

Foreign Language

Code	Title	Credits
Intermediate-level proficiency in one foreign language, fulfilled by: [1]		
Completing 3 credits in a foreign language numbered 202 (or higher level courses taught in the language)		
Or achieving a satisfactory score on an approved proficiency test		
Or completing the following ASL three course sequence:		
EDSE 115	American Sign Language (ASL) I	
EDSE 116	American Sign Language (ASL) II	
EDSE 219	American Sign Language (ASL) III	

[1] Students who are already proficient in a second language may be eligible for a waiver of this requirement. Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu/).

Non-Western Culture

Select 3 credits of an approved course in the study of a non-Western culture (additional to the Mason Core requirement in global understanding)

Code	Title	Credits
Select 3 credits (additional to Mason Core Global Understanding requirement) [1]		
ANTH 114	Introduction to Cultural Anthropology (Mason Core)	3
ANTH 300	Civilizations	3
ANTH 302	Peoples and Cultures of Latin America (Mason Core)	3
ANTH 307	Ancient Mesoamerica (Mason Core)	3
ANTH 308	Peoples and Cultures of the Middle East (Mason Core)	3
ANTH 309	Peoples and Cultures of India (Mason Core)	3
ANTH 313	Myth, Magic, and Mind (Mason Core)	3
ANTH 314	Zombies	3

ANTH 330	Peoples and Cultures of Selected Regions: Non-Western	3
ANTH 332	Cross-Cultural Perspectives on Globalization (Mason Core)	3
ANTH 381	Medical Anthropology	3
ANTH 396	Issues in Anthropology: Social Sciences (Mason Core)	3
ARAB 360	Topics in Arabic Cultural Production	3
ARAB 420	Survey of Arabic Literature	3

RUSS 354	Contemporary Post-Soviet Life (Mason Core)	3

[1] A course used to fulfill the Mason Core global understanding requirement may not be simultaneously used to satisfy this college-level requirement. A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core requirements, college-level requirements, or requirements for the major). Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu/).

Mason Core

Some Mason Core requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core requirements.

Code	Title	Credits
Foundation Requirements		
Written Communication (ENGH 101)		3
Oral Communication		3
Quantitative Reasoning		3
Information Technology and Computing		3
Exploration Requirements		
Arts		3
Global Understanding		3
Literature		3
Natural Science		7
Social and Behavioral Sciences		3
Western Civilization/World History		3
Integration Requirements		
Written Communications (ENGH 302)		3
Writing-Intensive [1]		3
Synthesis/Capstone [2]		3
Total Credits		40

[1] Most programs include the writing-intensive course designated for the major as part of the major requirements; this course is therefore not counted towards the total required for Mason Core.

[2] Minimum 3 credits required.

4-Year Plan

Bachelor of Arts in Economics Sample Plan of Study

A sample four year graduation plan and degree planning worksheet can be found at https://academicaffairs.chss.gmu.edu/undergraduate-students/advising/advising-sheets (https://academicaffairs.chss.gmu.edu/undergraduate-students/advising/advising-sheets/). The plan is a recommended sequencing of courses based on prerequisites and scheduling. This may not fit every student's needs and is a guideline, not a requirement. Students should confirm major requirements with their academic advisor each semester and with their PatriotWeb Degree Evaluation to ensure they enroll in the proper courses and are on track to graduate.

Honors

Honors in the Major

Students pursuing departmental honors must complete 6 hours of ECON 495 RS: Honors Thesis in Economics (Mason Core) culminating with an original work of research and an oral presentation. Requirements for departmental honors are in addition to the coursework required for the major. Students must complete ECON 495 RS: Honors Thesis in Economics (Mason Core) with a grade of B or higher to receive departmental honors.

Economics majors who have completed 90 credits with an overall GPA of 3.50 and a GPA of 3.50 within the major are eligible to apply. Not all applicants who meet the minimum requirements are guaranteed acceptance.

Applications will be available starting May 1st of each year. Applications are due by August 1st.

To be accepted into the program and enroll in ECON 495 RS: Honors Thesis in Economics (Mason Core) students must submit a research proposal. Research proposals can be developed independently or by completing ECON 494 Introduction to Independent Research in Economics with a grade of B or higher. Completion of ECON 494 Introduction to Independent Research in Economics is not required for departmental honors.

Accelerated Master's

Many accelerated master's programs are available for any bachelor's degree at Mason, including this one. See the full list of degrees (http://catalog.gmu.edu/programs/#filter=filter_24) with accelerated programs at George Mason.

Bachelor's Degree (any)/Economics, Accelerated MA

Overview

Highly qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA/BS in a chosen major and an MA in Economics in an accelerated time-frame after satisfactory completion of a minimum of 138 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Polices and Bachelor's/Accelerated Master's Degree policies. For information specific to this accelerated program, see Application Requirements and Deadlines (https://economics.gmu.edu/programs/LA-MA-ACEL-econ/) on the departmental website.

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits with a minimum overall GPA of 3.25, and a grade of B or better in coursework applied to the major.

The following courses are recommended as preparation for the graduate-level courses students will be able to take for advanced standing:

- ECON 306 Intermediate Microeconomics
- ECON 311 Intermediate Macroeconomics
- At least one semester of calculus with analytic geometry
- Two-semester sequence of statistics
- ECON 345 Introduction to Econometrics

Students who are accepted in the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MA in economics program if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- Minimum overall GPA of 3.25
- Minimum grade of B in each advanced standing course
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following:

Advanced Standing courses (up to 12 credits with a minimum grade of B in each)

ECON 535 Survey of Applied Econometrics (3 credits)
ECON 611 Microeconomic Theory (3 credits)
ECON 612 Microeconomic Theory II (3 credits)
ECON 615 Macroeconomic Theory (3 credits)
ECON 630 Mathematical Economics I (3 credits)

Reserve Graduate Credit courses (up to 6 credits) taken while an undergraduate and will only count for the graduate degree program

ECON 535 Survey of Applied Econometrics (3 credits)
ECON 611 Microeconomic Theory (3 credits)
ECON 612 Microeconomic Theory II (3 credits)
ECON 615 Macroeconomic Theory (3 credits)
ECON 623 American Economic History (3 credits)
ECON 630 Mathematical Economics I (3 credits)
ECON 676 Comparative Economic Systems (3 credits)
ECON 695 Special Topics in Economics (3 credits)

For more detailed information on coursework and timeline requirements see AP.6.7 Bachelor's Accelerated Master's Degree policies.

Economics, BS

Banner Code: LA-BS-ECON

D150 Buchanan Hall
Fairfax Campus

Website: economics.gmu.edu/programs/la-bs-econ

Economics is about more than money and profits. It is a way of looking at the world through the lens of incentives, choices, and markets to help uncover new solutions to the persistent problems in our society. This economic perspective sheds light on important issues in the areas of production, education, crime, the environment, international trade, immigration, health care, economic growth, poverty, and more. The Bachelor of Science in Economics provides a stronger emphasis on quantitative analysis. Students prepare for a career as an analyst in government, consulting, trade associations, or other private sector positions, and for graduate school in economics or more quantitative business administration programs.

Admissions & Policies

Policies

Students pursuing this degree must complete a minimum of 59 credits of required coursework with a minimum GPA of 2.00. Students completing a concentration will complete additional credits.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies.

Requirements

Degree Requirements

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Some economics courses may fulfill the Mason Core requirement in global understanding. Check with the departmental advising office for more information.

Core Courses without Concentration

Required Courses

Code	Title	Credits
ECON 103	Contemporary Microeconomic Principles (Mason Core) (with a grade of C or above)	3
ECON 104	Contemporary Macroeconomic Principles (Mason Core) (with a grade of C or above)	3

ECON 306	Intermediate Microeconomics	3
ECON 309	Economic Problems and Public Policies	3
ECON 311	Intermediate Macroeconomics	3
ECON 345	Introduction to Econometrics	3
MATH 113	Analytic Geometry and Calculus I (Mason Core)	4
MATH 114	Analytic Geometry and Calculus II	4
Total Credits		26

Statistics

Code	Title	Credits
Select one from the following: [1]		6
STAT 250 & STAT 350	Introductory Statistics I (Mason Core) and Introductory Statistics II	
STAT 344 & STAT 354	Probability and Statistics for Engineers and Scientists I and Probability and Statistics for Engineers and Scientists II	
Total Credits		6

[1] With departmental permission, BUS 210 Business Analytics I and BUS 310 Business Analytics II may also be substituted for the two required courses in statistics; however, a two-course sequence of STAT 250 Introductory Statistics I (Mason Core) and STAT 350 Introductory Statistics II OR STAT 344 Probability and Statistics for Engineers and Scientists I and STAT 354 Probability and Statistics for Engineers and Scientists II is highly recommended for students who wish to pursue graduate study in economics.

Additional Course

Code	Title	Credits
ACCT 203	Survey of Accounting	3
or STAT 362	Introduction to Computer Statistical Packages	
Total Credits		3

Electives without Concentration

Code	Title	Credits
Electives		
Select 18 credits of electives from courses in economics at the 300 or 400 level [1]		18
Select 6 credits of electives from courses in economics at the 400 level or higher.		6
Total Credits		24

[1] ECON 385 International Economic Policy may not be used to fulfill this requirement.
If ECON 340 Introduction to Mathematical Economics is chosen as an elective, students need not take the 4-credit course MATH 114 Analytic Geometry and Calculus II; however, MATH 114 Analytic Geometry and Calculus II is strongly recommended for students considering graduate school in economics since it is required for admission to most graduate programs. An additional calculus course beyond MATH 114 Analytic Geometry and Calculus II is also advisable for students considering graduate study in economics.

Optional Concentrations

Students interested in a degree in economics with a concentration will complete the coursework for one of the concentrations below.

Available Concentrations

- Concentration in Managerial Economics (MECN)
- Concentration in Philosophy, Politics, and Economics (PPE)

Concentration in Managerial Economics (MECN)

Students who wish to focus their BS in economics for application in the business world may choose to pursue a concentration in managerial economics. They complete 62 credits, 10 of which may be used also to fulfill Mason Core requirements.

Required Courses

Code	Title	Credits
ECON 103	Contemporary Microeconomic Principles (Mason Core)	3
ECON 104	Contemporary Macroeconomic Principles (Mason Core)	3
ECON 306	Intermediate Microeconomics	3
ECON 308	Managerial Economics and Strategy	3
ECON 309	Economic Problems and Public Policies	3
ECON 310	Money and Banking	3
ECON 311	Intermediate Macroeconomics	3
ECON 345	Introduction to Econometrics	3
Total Credits		24

Statistics

Code	Title	Credits
Select one from the following: [1]		6
STAT 250 & STAT 350	Introductory Statistics I (Mason Core) and Introductory Statistics II	
STAT 344 & STAT 354	Probability and Statistics for Engineers and Scientists I and Probability and Statistics for Engineers and Scientists II	
Total Credits		6

[1] With departmental permission, BUS 210 Business Analytics I and BUS 310 Business Analytics II may also be substituted for the two required courses in statistics; however, a two-course sequence of STAT 250 Introductory Statistics I (Mason Core) and STAT 350 Introductory Statistics II OR STAT 344 Probability and Statistics for Engineers and Scientists I and STAT 354 Probability and Statistics for Engineers and Scientists II is highly recommended for students who wish to pursue graduate study in economics.

Required Courses in Math, Accounting, and Information Technology

Code	Title	Credits
ACCT 203	Survey of Accounting	3
MATH 113	Analytic Geometry and Calculus I (Mason Core)	4
MATH 114	Analytic Geometry and Calculus II [1]	4
Total Credits		11

[1] ECON 340 Introduction to Mathematical Economics may not be substituted for MATH 114 Analytic Geometry and Calculus II for the concentration

Two Required Courses in Business Writing

Code	Title	Credits
BUS 103	Develop Professional Skills I: Foundational Elements	3
BUS 303	Develop Professional Skills II: Advanced Elements	3
Total Credits		6

Electives in Economics [1]

Code	Title	Credits
Select 9 credits from the following:		9
ECON 321	Economics of Labor	
ECON 370	Economics of Industrial Organization	
ECON 390	International Economics	
ECON 412	Game Theory and Economics of Institutions	
ECON 415	Law and Economics	
ECON 420	International Money and Finance	
ECON 421	Financial Economics	
ECON 496	Special Topics in Economics	
Total Credits		9

Additional Electives in Economics

Code	Title	Credits
Select 6 credits of electives in economics from courses at the 300 and 400 level or higher. [2]		6
Total Credits		6

[1] At least 6 credits of electives in economics must be at the 400 level.

[2] ECON 385 International Economic Policy may not be used to fulfill this requirement.

Elective not in Economics

Code	Title	Credits
Select one elective from the following:		3
BULE 303	Legal Environment of Business	
FNAN 303	Financial Management	
MGMT 303	Principles of Management	
MKTG 303	Principles of Marketing	
MIS 303	Introduction to Business Information Systems	
OM 303	Operations Management	
Total Credits		3

Concentration in Philosophy, Politics, and Economics (PPE)

This is a high credit concentration for students interested in a program that explores the interdisciplinary connections between philosophy, political science, and economics.

Required Courses in Economics

Code	Title	Credits
ECON 103	Contemporary Microeconomic Principles (Mason Core)	3
ECON 104	Contemporary Macroeconomic Principles (Mason Core)	3
ECON 306	Intermediate Microeconomics	3
ECON 311	Intermediate Macroeconomics	3
ECON 345	Introduction to Econometrics	3
Choose one of the following:		3
ECON 412	Game Theory and Economics of Institutions	
ECON 403	Austrian Economics	
ECON 410	Public Choice	
ECON 415	Law and Economics	
Total Credits		18

Statistics

Code	Title	Credits
Select one from the following: [1]		6
STAT 250 & STAT 350	Introductory Statistics I (Mason Core) and Introductory Statistics II	
STAT 344 & STAT 354	Probability and Statistics for Engineers and Scientists I and Probability and Statistics for Engineers and Scientists II	
Total Credits		6

[1] With departmental permission, BUS 210 Business Analytics I and BUS 310 Business Analytics II may also be substituted for the two required courses in statistics; however, a two-course sequence of STAT 250 Introductory Statistics I (Mason Core) and STAT 350 Introductory Statistics II OR STAT 344 Probability and Statistics for Engineers and Scientists I and STAT 354 Probability and Statistics for Engineers and Scientists II is highly recommended for students who wish to pursue graduate study in economics.

Required Courses in Math and Information Technology

Code	Title	Credits
MATH 113	Analytic Geometry and Calculus I (Mason Core)	4
MATH 114	Analytic Geometry and Calculus II	4
Total Credits		8

Electives

Code	Title	Credits
Select 18 credits of electives in economics at the 300 and 400 level or higher. [1]		18
Total Credits		18

[1] ECON 385 International Economic Policy may no be used to fulfill this requirement. If ECON 340 Introduction to Mathematical Economics is chosen as an elective, students need not take the 4-credit course MATH 114 Analytic Geometry and Calculus II; however, MATH 114 Analytic Geometry and Calculus II is strongly recommended for students considering graduate school in economics since it is required for admission to most graduate programs. An additional calculus beyond MATH 114 Analytic Geometry and Calculus II is also advisable for students considering graduate study in economics.

Philosophy

Code	Title	Credits
PHIL/GOVT 324	Modern Western Political Theory	3
or PHIL/GOVT 327	Contemporary Western Political Theory	
PHIL 357	Philosophy of the Social Sciences	3
or PHIL 371	Philosophy of Natural Sciences	
PHIL 358	Ethics and Economics	3
or PHIL 311	Philosophy of Law	
PHIL 429	Advanced Topics in Social and Political Philosophy	3
Total Credits		12

Public and International Affairs

Code	Title	Credits
GOVT 103	Introduction to American Government (Mason Core)	3
GOVT/PHIL 323	Classical Western Political Theory	3
GOVT 422	Constitutional Interpretation	3
GOVT 467	Current Issues in Economic Policy	3
Total Credits		12

Capstone Experience Course

Code	Title	Credits
GOVT 469	Philosophy, Politics, and Economics	3
or PHIL/ECON 460	Senior Seminar in Philosophy, Politics, and Economics	
Total Credits		3

Writing-Intensive Requirement

The university requires all students to complete at least one course designated as "writing intensive" in their majors at the 300 level or above. Students majoring in economics fulfill this requirement by successfully completing:

Code	Title	Credits
Select one from the following:		3
ECON 355	The Political Economy of Nonprofit Institutions	
ECON 365	Topics in Economic History	
ECON 395	Effective Writing in Economics	
ECON 435	Economics of Energy	
ECON 470	Economics of Regulation	
ECON 485	Smithian Political Economy I	
Total Credits		3

Upper Level Requirements

Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

Additional Electives

Any remaining credits may be completed with elective courses to bring the degree total to 120.

Mason Core

Some Mason Core requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core requirements.

Code	Title	Credits
Foundation Requirements		
Written Communication (ENGH 101)		3
Oral Communication		3
Quantitative Reasoning		3
Information Technology and Computing		3
Exploration Requirements		
Arts		3
Global Understanding		3
Literature		3
Natural Science		7
Social and Behavioral Sciences		3
Western Civilization/World History		3
Integration Requirements		
Written Communications (ENGH 302)		3
Writing-Intensive [1]		3
Synthesis/Capstone [2]		3
Total Credits		40

1 Most programs include the writing-intensive course designated for the major as part of the major requirements; this course is therefore not counted towards the total required for Mason Core.

2 Minimum 3 credits required.

4-Year Plan

Bachelor of Science in Economics Sample Plan of Study

A sample four year graduation plan and degree planning worksheet can be found at https://academicaffairs.chss.gmu.edu/undergraduate-students/advising/advising-sheets (https://academicaffairs.chss.gmu.edu/undergraduate-students/advising/advising-sheets/). The plan is a recommended sequencing of courses based on prerequisites and scheduling. This may not fit every student's needs and is a guideline, not a requirement. Students should confirm major requirements with their academic advisor each semester and with their PatriotWeb Degree Evaluation to ensure they enroll in the proper courses and are on track to graduate.

Honors

Honors in the Major

Students pursuing departmental honors must complete 6 hours of ECON 495 RS: Honors Thesis in Economics (Mason Core) culminating with an original work of research and an oral presentation. Requirements for departmental honors are in addition to the coursework required for the major. Students must complete ECON 495 RS: Honors Thesis

in Economics (Mason Core) with a grade of B or higher to receive departmental honors.

Economics majors who have completed 90 credits with an overall GPA of 3.50 and a GPA of 3.50 within the major are eligible to apply. Not all applicants who meet the minimum requirements are guaranteed acceptance.

Applications will be available starting May 1st of each year. Applications are due by August 1st.

To be accepted into the program and enroll in ECON 495 RS: Honors Thesis in Economics (Mason Core) students must submit a research proposal. Research proposals can be developed independently or by completing ECON 494 Introduction to Independent Research in Economics with a grade of B or higher. Completion of ECON 494 Introduction to Independent Research in Economics is not required for departmental honors.

Accelerated Master's

The accelerated master's program below specifies the BS in Economics as a feeder degree for its program. It is important to note, however, that many accelerated master's programs are available for any bachelor's degree at Mason. See the full list of degrees (http://catalog.gmu.edu/programs/#filter=filter_24) with accelerated programs at George Mason.

Bachelor's Degree (any)/Economics, Accelerated MA

Overview

Highly qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA/BS in a chosen major and an MA in Economics in an accelerated time-frame after satisfactory completion of a minimum of 138 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Polices and Bachelor's/Accelerated Master's Degree policies. For information specific to this accelerated program, see Application Requirements and Deadlines (https://economics.gmu.edu/programs/LA-MA-ACEL-econ/) on the departmental website.

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits with a minimum overall GPA of 3.25, and a grade of B or better in coursework applied to the major.

The following courses are recommended as preparation for the graduate-level courses students will be able to take for advanced standing:

- ECON 306 Intermediate Microeconomics
- ECON 311 Intermediate Macroeconomics
- At least one semester of calculus with analytic geometry
- Two-semester sequence of statistics
- ECON 345 Introduction to Econometrics

Students who are accepted in the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MA in economics program if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- Minimum overall GPA of 3.25
- Minimum grade of B in each advanced standing course
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following:

Advanced Standing courses (up to 12 credits with a minimum grade of B in each)

ECON 535 Survey of Applied Econometrics (3 credits)
ECON 611 Microeconomic Theory (3 credits)
ECON 612 Microeconomic Theory II (3 credits)
ECON 615 Macroeconomic Theory (3 credits)
ECON 630 Mathematical Economics I (3 credits)

Reserve Graduate Credit courses (up to 6 credits) taken while an undergraduate and will only count for the graduate degree program

ECON 535 Survey of Applied Econometrics (3 credits)
ECON 611 Microeconomic Theory (3 credits)
ECON 612 Microeconomic Theory II (3 credits)
ECON 615 Macroeconomic Theory (3 credits)
ECON 623 American Economic History (3 credits)
ECON 630 Mathematical Economics I (3 credits)
ECON 676 Comparative Economic Systems (3 credits)
ECON 695 Special Topics in Economics (3 credits)

For more detailed information on coursework and timeline requirements see AP.6.7 Bachelor's Accelerated Master's Degree policies.

BS (selected)/Statistical Science, Accelerated MS

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program (BAM) and obtain an undergraduate BS degree and the Statistical Science, MS in an accelerated time-frame after satisfactory completion of a minimum of 138 credits.

Admitted students are able to use up to 12 graduate credits in partial satisfaction of requirements for the undergraduate degree. Upon completion and conferral of the bachelor's degree and with satisfactory performance (grade of 'B' or better) in each of the graduate courses, students are given advanced standing in the master's program.

See AP.6.7 Bachelor's/Accelerated Master's Degrees for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

No specific undergraduate BS degree is required. Students enrolled in any BS degree may apply to the accelerated Statistical Science, MS program **if such an accelerated** Statistical Science, MS **pathway is allowable from the student's BS program, which will be determined by the academic advisors of both the BS and MS programs.**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies and Bachelor's/Accelerated Master's Degree policies.

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits with an overall GPA of 3.0.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific prerequisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the Statistical Science, MS program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- Completion of Mason's requirements for undergraduate degree conferral (graduation) and completion of application for graduation.
- An overall GPA of 3.00.
- Completion of the following Mason courses each with a grade of C or better.

Code	Title	Credits
MATH 213	Analytic Geometry and Calculus III	3
MATH 203	Linear Algebra	3
or MATH 321	Abstract Algebra	
STAT 250	Introductory Statistics I (Mason Core)	3
or STAT 344	Probability and Statistics for Engineers and Scientists I	
STAT 346	Probability for Engineers	3
or MATH 351	Probability	
STAT 362	Introduction to Computer Statistical Packages	3

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, students complete all credits satisfying degree requirements for the BS and MS programs, with up to twelve credits overlap chosen from the following graduate courses:

Code	Title	Credits
STAT 544	Applied Probability	3
STAT 554	Applied Statistics I	3
STAT 560	Biostatistical Methods	3
STAT 574	Survey Sampling I	3
STAT 663	Statistical Graphics and Data Exploration I	3

All graduate course prerequisites must be completed prior to enrollment. Each graduate course must be completed with a grade of B or better to apply toward the MS degree.

While still in undergraduate status, a maximum of 6 additional graduate credits may be taken as reserve graduate credit and applied to the master's program. Reserve graduate credits do not apply to the undergraduate degree.

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degrees policies.

Degree Conferral

Students must apply the semester before they expect to complete the BS requirements to have the BS degree conferred. In addition, at the beginning of the student's final undergraduate semester, students must complete a Bachelor's/Accelerated Master's Transition form that is submitted to the Office of the University Registrar and Graduate Recruitment and Enrollment Services. At the completion of MS requirements, a master's degree is conferred.

Economics, MA

Banner Code: LA-MA-ECON

Academic Advising

D150 Buchanan Hall
Fairfax Campus

Email: econgrad@gmu.edu
Website: economics.gmu.edu/programs/la-ma-econ

The Master of Arts in Economics is noted for its emphasis on comparative institutional analysis and its concentration on the relationships among economic, political, and legal institutions. The specific areas associated with the department include experimental economics, Austrian economics, public choice, constitutional political economy, law and economics, and new institutional economics. The program strengthens students' knowledge of economic theory and improves their skills in applying the theory to economic problems. Graduates are qualified to read and judge other research and conduct their own, either individually or as members of government or business teams. They are also prepared to write policy analyses. Students who plan to pursue a PhD in Economics should apply directly to the doctoral program.

The MA in Economics is offered as an on-campus delivery format or as a fully online delivery format. Separate application processes are used for each delivery format and students must matriculate though only one delivery format for the entire completion of degree. Students must complete the MA in Economics degree within six years from time of first admission.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate

study as specified in Graduate Admissions. For information specific to the MA in economics, see Application Requirements and Deadlines (http://economics.gmu.edu/programs/application/LA-MA-ECON/) on the departmental website.

Policies

Students must earn a minimum GPA of 3.00 in coursework applied to the degree. No more than two courses with a grade of 2.00 may be applied toward the degree.

For policies governing all graduate degrees, see AP .6 Graduate Policies

Transfer Credits

Students may request to transfer a maximum of 12 credits for prior graduate course work (not applied to a previous graduate degree) subject to approval by the graduate director and dean in accordance with the Program Policies of the department and AP.6.5.3 Transfer of Credit.

Reduction of Credit

This program does not permit a reduction of credit based on a previously conferred graduate degree.

Requirements

Degree Requirements

Total credits: 30

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Core Courses

In place of core courses shown below, students admitted to the PhD in Economics who have added the MA as a secondary degree to their record must substitute ECON 637 Econometrics I, ECON 811 Microeconomic Theory I, ECON 812 Microeconomic Theory II, ECON 715 Macroeconomic Theory I, and ECON 830 Mathematical Economics I or ECON 831 Mathematical Economics II.

Code	Title	Credits
ECON 535	Survey of Applied Econometrics	3
ECON 611	Microeconomic Theory	3
ECON 612	Microeconomic Theory II	3
ECON 615	Macroeconomic Theory	3
ECON 630	Mathematical Economics I	3
Total Credits		15

Electives

Students complete 15 credits of electives.

Code	Title	Credits
On-Campus Students		
Select 15 credits of ECON electives [1]		15
Online Students		
Select 12 credits of restricted electives [2]		12
ECON 690	MA Economics Capstone	3

1. On-campus students may substitute up to a maximum of 6 credits or two courses outside economics in closely related fields with prior written approval of the MA director. On-campus students have the option of writing a thesis for 6 credits in lieu of 6 credits of electives.
2. Online students select electives from online ECON 695 Special Topics in Economics courses. The thesis option is not available for online students.

Students admitted to the PhD in Economics who have added the MA as a secondary degree to their record must apply ECON 816 Macroeconomic Theory II as one of the five electives applied to the MA degree.

Comprehensive Exam - On-campus Students

Students must pass one MA comprehensive exam in applied economic theory. This exam is offered twice each year. Students admitted to the PhD in Economics who are seeking the MA as secondary degree must pass both the PhD micro and the PhD macro qualifying exams, which will satisfy the requirement for the MA comprehensive exam.

Capstone Course - Online Students

Online students must successfully complete ECON 690 MA Economics Capstone in lieu of the comprehensive exam.

Thesis (Optional) - On-campus Students only

Students must complete a minimum of six credits of ECON 799 Master's Thesis. Once enrolled in 799, students in the economics master's program must maintain continuous registration each semester (excluding summers) until the thesis is submitted to and accepted by the University Libraries, as specified in AP.6.9.3 Master's Thesis. Because of the continuous registration policy, more than six ECON 799 credits may be required for thesis completion. Students who defend in the summer must be registered for at least one credit of 799.

Students who choose to complete a thesis take six fewer elective credits.

Code	Title	Credits
Thesis Option		6
ECON 799	Master's Thesis	
Total Credits		6

Accelerated Master's

Bachelor's Degree (any)/Economics, Accelerated MA

Overview

Highly qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA/BS in a chosen major and an MA in Economics in an accelerated time-frame after satisfactory completion of a minimum of 138 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Polices and Bachelor's/Accelerated Master's Degree policies. For information specific to this accelerated program, see Application Requirements and Deadlines (https://economics.gmu.edu/programs/LA-MA-ACEL-econ/) on the departmental website.

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits with a minimum overall GPA of 3.25, and a grade of B or better in coursework applied to the major.

The following courses are recommended as preparation for the graduate-level courses students will be able to take for advanced standing:

- ECON 306 Intermediate Microeconomics
- ECON 311 Intermediate Macroeconomics
- At least one semester of calculus with analytic geometry
- Two-semester sequence of statistics
- ECON 345 Introduction to Econometrics

Students who are accepted in the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MA in economics program if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- Minimum overall GPA of 3.25
- Minimum grade of B in each advanced standing course
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following:

Advanced Standing courses (up to 12 credits with a minimum grade of B in each)

ECON 535 Survey of Applied Econometrics (3 credits)
ECON 611 Microeconomic Theory (3 credits)
ECON 612 Microeconomic Theory II (3 credits)
ECON 615 Macroeconomic Theory (3 credits)
ECON 630 Mathematical Economics I (3 credits)

Reserve Graduate Credit courses (up to 6 credits) taken while an undergraduate and will only count for the graduate degree program

ECON 535 Survey of Applied Econometrics (3 credits)
ECON 611 Microeconomic Theory (3 credits)
ECON 612 Microeconomic Theory II (3 credits)
ECON 615 Macroeconomic Theory (3 credits)
ECON 623 American Economic History (3 credits)
ECON 630 Mathematical Economics I (3 credits)
ECON 676 Comparative Economic Systems (3 credits)
ECON 695 Special Topics in Economics (3 credits)

For more detailed information on coursework and timeline requirements see AP.6.7 Bachelor's Accelerated Master's Degree policies.

Economics, PhD

Banner Code: LA-PHD-ECON

Academic Advising

D150 Buchanan Hall
Fairfax Campus

Email: econgrad@gmu.edu
Website: economics.gmu.edu/programs/la-phd-econ

The economics PhD prepares students for careers in academia, business, and government. Core courses train students in modern theory and quantitative techniques, while field courses stress the application of theory to relevant economic problems. Dissertation work requires students to master and apply the skills of original research. With an emphasis on writing for publication, many students have had articles accepted and published in professional journals while in the graduate program. Research in the department covers a broad spectrum, from problems of immediate policy importance to fundamental questions of economic and social organization.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions. For information specific to the PhD in economics, see Application Requirements and Deadlines (http://economics.gmu.edu/programs/application/LA-PHD-ECON/) on the departmental web site.

Policies

Students must earn a minimum GPA of 3.00 in coursework applied to the degree. No more than two courses with a grade of 2.00 may be applied toward the degree.

For policies governing all graduate degrees, see AP .6 Graduate Policies.

Reduction of Credit

Students who enter with a master's degree may have their credit requirement reduced by up to 30 credits, depending on the department's judgment about the degree of closeness of that work to work that would have been taken at George Mason University. Reduction also requires approval of the dean. Requests for reduction of credit are reviewed only after acceptance to the doctoral program.

Program of Study

All students must have an approved program of study as specified in AP.6.10.3 Program of Study.

Requirements

Degree Requirements

Total credits: 72

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Core Courses

Code	Title	Credits
ECON 637	Econometrics I	3
ECON 715	Macroeconomic Theory I	3
ECON 811	Microeconomic Theory I	3
ECON 812	Microeconomic Theory II	3
ECON 816	Macroeconomic Theory II	3
ECON 830	Mathematical Economics I	3
or ECON 831	Mathematical Economics II	
Total Credits		18

Electives

Code	Title	Credits
Select 30-42 credits of electives from economics courses in any of the fields offered by the department [1]		30-42
Total Credits		30-42

[1] Students may substitute up to a maximum of 6 credits of courses outside economics in closely related fields with prior written approval of the director of the graduate program. ECON 695 Special Topics in Economics cannot be applied toward PhD requirements.

Qualifying Exams

Students must successfully pass qualifying exams in microeconomics and macroeconomics.

Field Exams

Students must successfully pass field exams in two knowledge areas. Subject to course availability, the department offers courses in the following fields of study on which the knowledge area field exams will be based. Because the specific courses offered each year vary, students should consult the department for the courses that can be used for each field.

- Austrian economics
- Constitutional political economy
- Economic history
- Economic sociology and political economy
- Experimental economics
- Industrial organization
- Individualized field exam
- Institutions and development
- Law and economics
- Monetary theory
- Public choice
- Smithian political economy

Advancement to Candidacy

To advance to candidacy, students must complete all coursework required on their approved program of study and all exams. In addition, students must have a dissertation committee appointed by the dean as well as an approved proposal. Evidence of the approved proposal must be on file in the Dean's Office before a student can advance to candidacy.

Dissertation

Students must complete a minimum of 12 credits of doctoral proposal (998) and doctoral dissertation research (999), including at least three credits of 999. A maximum of 24 credits of 998 and 999 may be applied to the degree. Once enrolled in 998, students in the economics doctoral program must maintain continuous registration in 998 or 999 each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries, as specified in AP.6.10.6 Dissertation Registration. Because of the continuous registration policy, students may be required to register for additional dissertation credits beyond the maximum 24 credits. Students who defend in the summer must be registered for at least one credit of 999.

Code	Title	Credits
Dissertation Research		12-24
ECON 998	Doctoral Dissertation Proposal Research.	
ECON 999	Doctoral Dissertation Research (minimum of 3 credits)	
Total Credits		12-24

Department of English

4200 Horizon Hall
Fairfax Campus

Phone: 703-993-1160
Website: english.gmu.edu

Undergraduate Programs

The department offers a bachelors of arts degree in English and a bachelor of fine arts degree in creative writing.

English, BA

The bachelors of arts degree in English is a versatile major with seven concentrations designed to meet students' individual interests and career objectives. English majors can also do an internship in technical writing or linguistics. Students interested in becoming teachers can participate in a program offered in conjunction with the College of Education and Human Development that allows undergraduates to simultaneously complete their BA in English and their licensure requirements to teach English at the secondary school level in Virginia.

English majors learn to read critically and write carefully in classes that are uniquely small for a university the size of Mason. Students develop these abilities not only through reading traditional texts but also through the use of technologies such as blogs, wikis, and multimedia production. Because English majors have excellent skills in written and oral communication, research, critical thinking, and focused creativity they are well prepared for any career - teaching, journalism, creative writing, management, law, and more.

Creative Writing, BFA

The bachelor of fine arts degree in creative writing encourages freedom of thought, speech, and inquiry. Through its innovative courses, the program enables students to exercise analytical and imaginative thinking. Through its combined classroom and work-world curriculum, it prepares students to make well-founded ethical decisions. The degree offers three concentrations allowing for the opportunity to learn the conventions of several genres.

300-level courses in English and linguistics teach the foundational principles for a field of study, include courses of broad scope, and provide an introduction to a genre, literary period, or methodology.

400-level courses in English and linguistics provide an in-depth approach to a field of study, a single genre, literary period, or methodology. They include special topics classes and English honors classes. Some 400-level courses require ENGH 305 Dimensions of Writing and Literature as a prerequisite.

English with a Second Major

Students can combine a major in English with a second major. Students interested in this option are encouraged to discuss their plans with their English advisor. See section AP.5.3.7 Credit for More than One Undergraduate Major in Undergraduate Policies.

Minors

The department offers a minor in English, which is available to students in any major at Mason.

Faculty from English coordinate or co-coordinate the minors: Film and Media Studies, Folklore and Mythology, Linguistics, Native American and Indigenous Studies, Professional and Technical Writing, and Teaching English as a Second Language.

Bachelor's/Accelerated Master's Program

The department offers highly qualified undergraduates in any major the opportunity to apply to an accelerated master's of arts degree program in English with a concentration in linguistics or a concentration in folklore studies (https://catalog.gmu.edu/colleges-schools/humanities-social-sciences/english/english-ma/#acceleratedmasterstext). If accepted, students will be able to earn an undergraduate degree in their chosen major and a graduate degree in English with a concentration in linguistics after satisfactory completion of 138 credits, generally within five years.

Undergraduates in Graduate Courses

The English Department permits qualified undergraduates to enroll in its graduate courses numbered 500 through 699. They may apply these credits to their undergraduate degree or mark them for reserve graduate credit. See the department for details on how to register.

Graduate Programs

The department offers graduate programs in the study and practice of literature, writing, rhetoric, and linguistics, as well as course work in related fields such as folklore, film, and cultural studies. The master's of arts degree in English provides concentrations in literature, cultural studies, professional writing and rhetoric, the teaching of writing and literature, and linguistics. The department also has a terminal degree, the master of fine arts in creative writing, with concentrations in fiction, poetry, and nonfiction. Also offered are doctoral programs in linguistics and writing and rhetoric.

The department offers graduate certificates in folklore studies, professional writing and editing with a concentration in professional and technical writing, college teaching with a concentration in English pedagogy, and teaching English as a second language. Students may take these as stand-alone certificates or pursue them concurrently with a graduate degree program. In many cases part of the course work for a certificate may also count toward a degree. Students must apply and be admitted to a graduate certificate program.

Faculty from the department coordinate the concentration in folklore studies in the master's degree in interdisciplinary studies (MAIS).

Funding

The department offers teaching assistantships and fellowships awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must show satisfactory progress toward their degree.

Writing Center

The Writing Center (http://writingcenter.gmu.edu/) offers one-on-one conferencing during all stages of the writing process. Writing Center tutors, who are graduate teaching assistants in the English Department, have been trained in current methods of composition instruction. They help clients overcome writing anxiety, develop organizational and revision skills, and learn useful strategies for editing their own work. To learn more about the Writing Center services or to schedule an appointment, students should consult the Writing Center website (http://writingcenter.gmu.edu/).

Northern Virginia Writing Project

The Northern Virginia Writing Project (NVWP) (https://nvwp.gmu.edu/) is a professional development organization dedicated to improving writing instruction, writing practice, and learning at all educational levels, and to developing teacher leaders across the disciplines.

Each summer, selected teachers attend an intensive four-week institute where they demonstrate successful teaching methods, develop their own writing lives, and study the latest research and theory on the learning and teaching of writing. After the summer institute, participants receive the designation of Teacher Consultant and join over 900 other teachers in carrying out the work of the NVWP. The NVWP is an affiliate of the National Writing Project and one of the six sites of the Virginia Writing Project.

College Teaching Graduate Certificate (ENGL)

Banner Code: LA-CERG-CTCH

Academic Advising

4200 Horizon Hall
Fairfax Campus

The certificate in College Teaching is designed for graduate students who are planning a career in undergraduate education. The program offers courses that enhance pedagogical skills and explore pedagogical assessment or scholarship with the use of technology in instruction.

This certificate program qualifies for Title IV Federal Financial Aid.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions.

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Concentration in English Pedagogy
This concentration in the graduate certificate in college teaching requires 18 credits. Students must achieve a minimum grade of 3.00 in each course.

Concentration in Higher Education Pedagogy
This concentration in the graduate certificate in college teaching requires 18 credits.

Requirements

Certificate Requirements

Total credits: 18

This certificate may be pursued on a full-or part-time basis.

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Students pursuing this graduate certificate must choose either a concentration in English pedagogy or a concentration in higher education pedagogy.

Concentration in English Pedagogy (EPGY)

Creative Writing, BFA

Banner Code: LA-BFA-CW

4200 Horizon Hall
Fairfax Campus

Website: creativewriting.gmu.edu/programs/la-bfa-cw

The Bachelor of Fine Arts in Creative Writing is one of only thirty BFAs in creative writing available nationwide. With three concentrations to choose from (fiction, poetry, nonfiction), the BFA is structured to give students ample opportunity to learn to write and think creatively while also developing the vocational writing skills that are desperately needed in the workplace. All students pursuing a BFA are strongly advised to complete on-site workplace internships in writing-intensive environments, and finish the degree with a submission of a portfolio of work as part of a final-semester capstone course, with final approval from the faculty.

Admissions & Policies

Admissions

Acceptance into the program is competitive. Admission to the university does not guarantee admission to the BFA program.

After acceptance to Mason, students who wish to pursue a major in creative writing should inform the academic coordinator in the English department or the director of the creative writing program of their interest in the program and should seek evaluation of any prior coursework as well as guidance on courses to take and the sequence in which to take them. In the program, students enroll in a series of courses intended to introduce them to all forms of creative writing, and then they select a core set of courses built around a specialization in fiction, nonfiction or poetry, along with upper-level writing, literature and advanced studies courses.

Students planning to enter the BFA program are initially designated as "pre-BFA" until they have successfully completed the requirements for full admission. Full admission requires a minimum of three creative writing courses successfully completed with a grade point average (GPA) of 3.00 or higher in those courses. Alternatively, students who have taken creative writing courses at another institution or in their early undergraduate coursework at Mason may gain full admission status to the BFA program on the strength of recommendations from the instructors in those courses, subject to departmental approval, which is obtained from the Mason creative writing faculty and the director of the creative writing program.

A student admitted to the university and intending to enter the BFA program may designate a major in English and complete English major courses before attempting to move into admitted BFA status. Meeting minimum requirements does not guarantee admission to full BFA status.

Policies

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies.

Students pursuing this degree must complete 45 credits (15 courses) in English/Linguistics beyond ENGH 300 Cover to Cover (not including ENGH 302 Advanced Composition (Mason Core)) with a minimum GPA of 2.00.

At the discretion of the department, transfer students may substitute transferred lower level creative writing classes for some BFA requirements.

With permission of the department, BFA students may select a substitute for concentration required coursework from the list of courses approved for the writing or literature elective requirement. Substitutions must be justified as specifically relevant to the student's study. Concentration substitutions will not satisfy more than one requirement within the major.

Requirements

Degree Requirements

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Students will complete 21 credits of BFA core requirements, 12 credits from one of 3 concentrations, and 12 credits in English department requirements. 300-level courses in English and linguistics teach the foundational principles for a field of study, include courses of broad scope, and provide an introduction to a genre, literary period, or methodology. 400-level courses in English and linguistics provide an in-depth approach to a field of study, a single genre, literary period, or methodology. They include special topics classes and English honors classes. Some 400-level courses require ENGH 305 Dimensions of Writing and Literature as a prerequisite.

Students should consult with an English department advisor to learn ways in which the Mason Core requirements can also satisfy college-level requirements or the BFA.

Core Courses in the Major

Code	Title	Credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated "writing intensive" in their majors at the 300 level or above. Students majoring in creative writing may fulfill this requirement by successfully completing ENGH 305 Dimensions of Writing and Literature.

Upper Level Requirement

Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

Additional Electives

Any remaining credits may be completed with elective courses to bring the degree total to 120.

College Level Requirements for the BA Degree

In addition to the Mason Core program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core requirements or requirements for the major).

Philosophy or Religious Studies

Code	Title	Credits
Select 3 credits from the following:		3
PHIL [1]		
RELI		

[1] Note that the following courses may not be used to fulfill this requirement:
- PHIL 323 Classical Western Political Theory
- PHIL 324 Modern Western Political Theory
- PHIL 327 Contemporary Western Political Theory
- PHIL 393 Humanities College to Career
- PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core), RELI 235 Religion and Literature (Mason Core), and RELI 333 Spiritual Autobiography (Mason Core) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature requirement.

Social and Behavioral Sciences

Code	Title	Credits
Select 3 credits of social and behavioral sciences from the following (additional to the Mason Core social and behavioral sciences requirement) [1]		3
ANTH		
CRIM		
ECON		
GOVT		
HIST [2]		
LING		
PSYC		
SOCI		
Or choose from the following GGS courses:		
GGS 101	Major World Regions (Mason Core)	
GGS 103	Human Geography (Mason Core)	
GGS 110	Introduction to Geoinformation Technologies	
GGS 301	Political Geography (Mason Core)	
GGS 303	Geography of Resource Conservation (Mason Core)	
GGS 304	Population Geography (Mason Core)	
GGS 305	Economic Geography	
GGS 306	Urban Geography	
GGS 315	Geography of the United States	
GGS 316	Geography of Latin America	
GGS 320	Geography of Europe	
GGS 325	Geography of North Africa and the Middle East	
GGS 330	Geography of the Soviet Succession States	
GGS 357	Urban Planning	
GGS 380	Geography of Virginia	

[1] The two courses used to fulfill the combined college and Mason Core requirements must be from different disciplines in the social and behavioral sciences.

[2] HIST 100 History of Western Civilization (Mason Core) and HIST 125 Introduction to World History (Mason Core) may not be used to fulfill this requirement.

Foreign Language

Code	Title	Credits
Intermediate-level proficiency in one foreign language, fulfilled by: [1]		
Completing 3 credits in a foreign language numbered 202 (or higher level courses taught in the language)		
Or achieving a satisfactory score on an approved proficiency test		
Or completing the following ASL three course sequence:		
EDSE 115	American Sign Language (ASL) I	
EDSE 116	American Sign Language (ASL) II	
EDSE 219	American Sign Language (ASL) III	

[1] Students who are already proficient in a second language may be eligible for a waiver of this requirement. Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu/).

Non-Western Culture

Select 3 credits of an approved course in the study of a non-Western culture (additional to the Mason Core requirement in global understanding)

Code	Title	Credits
Select 3 credits (additional to Mason Core Global Understanding requirement) [1]		
ANTH 114	Introduction to Cultural Anthropology (Mason Core)	3

Social and Behavioral Sciences		3
Western Civilization/World History		3
Integration Requirements		
Written Communications (ENGH 302)		3
Writing-Intensive [1]		3
Synthesis/Capstone [2]		3
Total Credits		40

[1] Most programs include the writing-intensive course designated for the major as part of the major requirements; this course is therefore not counted towards the total required for Mason Core.

[2] Minimum 3 credits required.

4-Year Plan

Bachelor of Fine Arts in Creative Writing Sample Plan of Study

A sample four year graduation plan and degree planning worksheet can be found at https://academicaffairs.chss.gmu.edu/undergraduate-students/advising/advising-sheets (https://academicaffairs.chss.gmu.edu/undergraduate-students/advising/advising-sheets/). The plan is a recommended sequencing of courses based on prerequisites and scheduling. This may not fit every student's needs and is a guideline, not a requirement. Students should confirm major requirements with their academic advisor each semester and with their PatriotWeb Degree Evaluation to ensure they enroll in the proper courses and are on track to graduate.

Honors

Honors in the Major

Highly qualified students in the BFA in Creative Writing program may pursue advanced work leading to graduation with honors in the major. To graduate with honors in the major, students must complete a two-course honors sequence and receive a minimum GPA of 3.50 in all courses counted toward the major and, separately, a minimum GPA of 3.50 in their honors courses. Honors courses may simultaneously satisfy concentration and distribution requirements in the major.

Students may satisfy the honors course sequence in one of the following ways:

- BFA students may take two sections of ENGH 400 Honors Seminar
- BFA students may take one section of ENGH 400 Honors Seminar and ENGH 401 RS: Honors Thesis Writing Seminar (Mason Core)

BFA students may write a creative honors thesis in ENGH 401 RS: Honors Thesis Writing Seminar (Mason Core). BFA students may substitute ENGH 495 Capstone and Thesis (Mason Core) for ENGH 401.

Students interested in pursuing honors in the major should consult the English Department for more information.

Accelerated Master's

The accelerated master's program listed below specifies the BFA in creative writing as a feeder degree for its program. It is important to note, however, that many accelerated master's programs are available for any bachelor's degree at Mason. See the full list of degrees (http://catalog.gmu.edu/programs/#filter=filter_24) with accelerated programs at George Mason. In addition, as a student with a BFA in creative writing you may be particularly interested in the accelerated MA in English with a concentration in linguistics.

English, BA or Creative Writing, BFA/ Curriculum and Instruction, Accelerated MEd (Secondary Education English Concentration)

Overview

Highly-qualified Mason undergraduates may be admitted to the bachelor's/accelerated master's option and obtain a BA in English or a BFA in Creative Writing and an MEd in Curriculum and Instruction (Secondary Education English concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/)in an accelerated time-frame after satisfactory completion of a minimum of 143 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

This accelerated option is offered jointly by the Department of English and the School of Education (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
EDCI 570	Teaching Young Adult Literacy in a Multicultural Setting	3
EDRD 619	Literacy in the Content Areas	3
SEED 522	Foundations of Secondary Education	3
SEED 540	Human Development and Learning: Secondary Education	3
SEED 569	Teaching English in the Secondary School	3
SEED 669	Advanced Methods of Teaching English in the Secondary School	3
SEED approved elective		

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Creative Writing, MFA

Banner Code: LA-MFA-CW

Academic Advising

4200 Horizon Hall
Fairfax Campus

Email: englgrad@gmu.edu
Website: creativewriting.gmu.edu/programs/la-mfa-cw

The MFA in creative writing is a three-year residency program offering tracks in fiction, nonfiction, and poetry. Students in the program are members of a literary community that includes a student-organized program of readings, potluck dinners with faculty, three journals, a student-run publisher—Stillhouse Press—and the annual Fall for the Book literary festival. Resident faculty members include recipients of prestigious writing awards such as the Guggenheim Foundation, the Yale Series of Younger Poets, the Lannan Foundation, the Whiting Foundation and the National Endowment for the Arts, among others.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions. For information specific to the MFA in creative writing, see Application Requirements and Deadlines (http://english.gmu.edu/programs/application/LA-MFA-CW/) on the departmental website.

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies.

Reduction of Credit

With the approval of the MFA faculty, the program director, and the dean, the number of credits required for an MFA may be reduced by a maximum of 23 credits on the basis of graduate course work before admission.

Requirements

Degree Requirements

Total credits: 48

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Core Courses

Literature

Code	Title	Credits
Literature		
Select two to four courses in consultation with an advisor [1]		6-12
Craft Seminars		
Six to twelve credits of		6-12
ENGH 608	Craft Seminars [2]	
Workshop		**1**

ENGH 699	Visiting Writers	
Total Credits		13-25

1 ENGH 798 Directed Reading and Research may not be used to fulfill this requirement.

2 This course may be repeated for credit.

Concentration in Fiction (FIC)

Code	Title	Credits
ENGH 566	Forms of Fiction	3
Writing Workshops		9
ENGH 618	Fiction Writing Workshop	
ENGH 751	Advanced Workshop in Fiction Writing	
Total Credits		12

Concentration in Nonfiction Writing (NFW)

Code	Title	Credits
ENGH 506	Research for Narrative Writing [1]	3
ENGH 565	Forms of Nonfiction	3
Writing Workshops		9
ENGH 616	Nonfiction Writing Workshop	
ENGH 752	Advanced Workshop in Nonfiction Writing	
Total Credits		15

1 Students should enroll the first semester it is offered after they enter the program.

Concentration in Poetry (POE)

Code	Title	Credits
ENGH 564	Form of Poetry	3
Writing Workshops		9
ENGH 617	Poetry Writing Workshop	
ENGH 750	Advanced Workshop in Poetry Writing	
Select at least one course in another genre (fiction or nonfiction) [1]		3
Total Credits		15

1 This requirement may be filled by a section of ENGH 608 Craft Seminars in another genre.

Poetry Exam

Students in poetry must pass a written MFA exam based on the authors they have chosen. The authors are selected in collaboration with the writing faculty any time after completing 12 credits of course work and before completing 32 credits. The exam must be completed at least one semester before the student registers for the final 3 credits of thesis.

Electives

Code	Title	Credits
Select up to 15 credits from electives in consultation with the writing program faculty [1]		15
Total Credits		15

1 The number of electives will vary according to the number of literature courses and workshops that students take.

Thesis

ENGH 798 Directed Reading and Research may not be used as thesis preparation. Students who want to register for thesis credits in the summer need the permission of the thesis committee.

Students should be aware of the university policies governing theses. They must follow the thesis enrollment policy and once enrolled in ENGH 799 Thesis, maintain continuous enrollment. These policies are specified in AP.6.9.3 Master's Thesis.

Code	Title	Credits
Thesis		6
ENGH 799	Thesis	
Total Credits		6

Digital Media and Web Design Minor (CHSS)

Banner Code: DMWD

Academic Advising

4200 Horizon Hall
Fairfax Campus

Email: english@gmu.edu
Website: english.gmu.edu/programs/

This minor provides students with opportunities to learn and apply advanced strategies for website design, content development, and user interaction and accessibility in website creation. Students interested in pursuing a career in digital media and web content design and management will develop a portfolio that demonstrates their skills, competencies and products produced throughout the minor.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must earn a minimum grade of 2.00 in all courses applied to the minor. For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

English Minor

Banner Code: ENGL

Academic Advising

4200 Horizon Hall
Fairfax Campus

Website: english.gmu.edu/programs/la-minor-engl-engl

This minor provides students with a strong background in writing and critical thinking and will also introduce them to significant literary and cultural documents.

Admissions & Policies

Policies

Prerequisite for the minor in English is satisfaction of the Mason Core requirement in literature. The minor must be approved by the English department academic coordinator before graduation.

ENGH 302 Advanced Composition (Mason Core) may not be applied to the minor.

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

ENGH 305 Dimensions of Writing and Literature is not required for the minor but is strongly encouraged.

Total Credits		12-15

Students have the option of choosing courses to form a focus for the minor. Examples include: American literature, British literature, creative writing, cultural studies, drama, fiction, film and media studies, folklore, literary criticism, poetry, and world literature. Students should consult with the English undergraduate advisor to design a minor program to meet their educational goals and interests.

[1] ENGH 302 Advanced Composition (Mason Core) **may not** be applied to the minor.

English, BA

Banner Code: LA-BA-ENGL

4200 Horizon Hall
Fairfax Campus

Website: english.gmu.edu/programs/la-ba-engl

The Bachelor of Arts in English offers students the opportunity to study literature, creative writing, film and media studies, writing and rhetoric, linguistics, folklore and mythology, and cultural studies. Of these seven concentrations, students pursue one or two that best match their interests and career objectives. Students are encouraged to pursue internships related to their concentrations and receive faculty mentorship throughout that process. In fact, English classes are kept small so faculty members may provide students with personalized attention. Students write in a range of traditional and digital forms and in a variety of contexts; student work culminates in a research project written for the major capstone course in their concentration. For students who want to challenge themselves even further, there is an Honors Program in English, which includes a thesis option, as well as other opportunities to pursue advanced research or creative projects; for those who want to become teachers, there is a bachelor's/accelerated master's program that English offers in conjunction with the College of Education and Human Development.

Admissions & Policies

Policies

Students pursuing this degree must complete 36 credits in English/Linguistics beyond ENGH 300 (not including ENGH 302) with a minimum GPA of 2.00. At least 12 credits (including the capstone requirement) must be at the 400 level.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies.

Requirements

Degree Requirements

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

300-level courses in English and linguistics teach the foundational principles for a field of study, include courses of broad scope, and provide an introduction to a genre, literary period, or methodology.

400-level courses in English and linguistics provide an in-depth approach to a field of study, a single genre, literary period, or methodology. They include special topics classes and English honors classes. Some 400 level courses require ENGH 305 Dimensions of Writing and Literature as a prerequisite.

Students choose at least one and no more than two of seven concentrations.

Students should consult with an English Department advisor to learn ways in which the Mason Core requirements can also satisfy college-level requirements for the English major.

Core Courses in the Major

Required Courses

Code	Title	Credits
Threshold Course		
ENGH 301	The Fields of English	3
Field Introduction Courses		
ENGH 305	Dimensions of Writing and Literature	3
Select 3 credits from the following: [1]		3
LING 306	General Linguistics (Mason Core)	
ENGH 315	Folklore and Folklife (Mason Core)	
ENGH 318	Introduction to Cultural Studies	
ENGH 372	Introduction to Film (Mason Core)	
ENGH 380	Introduction to Writing and Rhetoric	
ENGH 396	Introduction to Creative Writing (Mason Core)	
Theory Course		
ENGH 308	Theory and Inquiry	3
Capstone Course		
Select 3 credits from the following:		3
ENGH 401	RS: Honors Thesis Writing Seminar (Mason Core)	
ENGH 417	RS: Topics in Folklore Research (Mason Core)	
ENGH 458	RS: Topics in Literary Research (Mason Core)	
ENGH 470	RS: Topics in Film/Media History (Mason Core)	
LING 480	RS: First Language Acquisition (Mason Core)	
ENGH 484	RS: Writing Ethnography (Mason Core)	
ENGH 486	RS: Writing Nonfiction for Publication (Mason Core)	
Total Credits		15

[1] For many students this requirement will be met within the concentration. Those students will complete an additional 3 credit ENGH course above ENGH 302 Advanced Composition (Mason Core).

English Department Requirements

Courses taken to fulfill this requirement may simultaneously satisfy a concentration. Special topics courses, when relevant, may be used to fulfill this requirement with the prior written approval of the department.

Code	Title	Credits
Literature before 1800		
Select 3 credits from the following:		3
ENGH 320	Literature of the Middle Ages	
ENGH 321	English Poetry and Prose of the 16th Century	
ENGH 322	Shakespeare	
ENGH 323	Shakespeare: Special Topics

ENGH 488	Topics in Writing and Rhetoric	
ENGH 489	Proposal Writing and Development	
Total Credits		12

Writing Intensive Requirement

The university requires all students to complete at least one course designated "writing intensive" in their majors at the 300 level or above. Students majoring in English fulfill this requirement by successfully completing:

Code	Title	Credits
ENGH 305	Dimensions of Writing and Literature	3
Total Credits		3

Upper Level Courses

Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

Additional Electives

Any remaining credits may be completed with elective courses to bring the degree total to 120.

College Level Requirements for the BA Degree

In addition to the Mason Core program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core requirements or requirements for the major).

Philosophy or Religious Studies

Code	Title	Credits
Select 3 credits from the following:		3
PHIL [1]		
RELI		

1 Note that the following courses may not be used to fulfill this requirement:

- PHIL 323 Classical Western Political Theory
- PHIL 324 Modern Western Political Theory
- PHIL 327 Contemporary Western Political Theory
- PHIL 393 Humanities College to Career
- PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core), RELI 235 Religion and Literature (Mason Core), and RELI 333 Spiritual Autobiography (Mason Core) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature requirement.

Social and Behavioral Sciences

Code	Title	Credits
Select 3 credits of social and behavioral sciences from the following (additional to the Mason Core social and behavioral sciences requirement) [1]		3
ANTH		
CRIM		
ECON		
GOVT		
HIST [2]		
LING		
PSYC		
SOCI		
Or choose from the following GGS courses:		
GGS 101	Major World Regions (Mason Core)	
GGS 103	Human Geography (Mason Core)	
GGS 110	Introduction to Geoinformation Technologies	
GGS 301	Political Geography (Mason Core)	
GGS 303	Geography of Resource Conservation (Mason Core)	
GGS 304	Population Geography (Mason Core)	
GGS 305	Economic Geography	
GGS 306	Urban Geography	
GGS 315	Geography of the United States	
GGS 316	Geography of Latin America	
GGS 320	Geography of Europe	
GGS 325	Geography of North Africa and the Middle East	
GGS 330	Geography of the Soviet Succession States	
GGS 357	Urban Planning	
GGS 380	Geography of Virginia	

1 The two courses used to fulfill the combined college and Mason Core requirements must be from different disciplines in the social and behavioral sciences.

2 HIST 100 History of Western Civilization (Mason Core) and HIST 125 Introduction to World History (Mason Core) may not be used to fulfill this requirement.

Foreign Language

Code	Title	Credits
Intermediate-level proficiency in one foreign language, fulfilled by: [1]		
Completing 3 credits in a foreign language numbered 202 (or higher level courses taught in the language)		
Or achieving a satisfactory score on an approved proficiency test		
Or completing the following ASL three course sequence:		
EDSE 115	American Sign Language (ASL) I	
EDSE 116	American Sign Language (ASL) II	
EDSE 219	American Sign Language (ASL) III	

[1] Students who are already proficient in a second language may be eligible for a waiver of this requirement. Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu/).

Non-Western Culture

Select 3 credits of an approved course in the study of a non-Western culture (additional to the Mason Core requirement in global understanding)

Code	Title	Credits
Select 3 credits (additional to Mason Core Global Understanding requirement) [1]		
ANTH 114	Introduction to Cultural Anthropology (Mason Core)	3
ANTH 300	Civilizations	3
ANTH 302	Peoples and Cultures of Latin America (Mason Core)	3
ANTH 307	Ancient Mesoamerica (Mason Core)	3

RELI 374	Islamic Thought (Mason Core)	3
RELI 375	Qur'an and Hadith	3
RELI 379	Islamic Law, Society, and Ethics	3
RELI 387	Islam, Democracy, and Human Rights	3
RELI 490	Comparative Study of Religions (Mason Core)	3
RUSS 353	Russian Civilization (Mason Core)	3
RUSS 354	Contemporary Post-Soviet Life (Mason Core)	3

[1] A course used to fulfill the Mason Core global understanding requirement may not be simultaneously used to satisfy this college-level requirement. A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core requirements, college-level requirements, or requirements for the major). Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu/).

Mason Core

Some Mason Core requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core requirements.

Code	Title	Credits
Foundation Requirements		
Written Communication (ENGH 101)		3
Oral Communication		3
Quantitative Reasoning		3
Information Technology and Computing		3
Exploration Requirements		
Arts		3
Global Understanding		3
Literature		3
Natural Science		7
Social and Behavioral Sciences		3
Western Civilization/World History		3
Integration Requirements		
Written Communications (ENGH 302)		3
Writing-Intensive [1]		3
Synthesis/Capstone [2]		3
Total Credits		40

[1] Most programs include the writing-intensive course designated for the major as part of the major requirements; this course is therefore not counted towards the total required for Mason Core.

[2] Minimum 3 credits required.

4-Year Plan

Bachelor of Arts in English Sample Plan of Study

A sample four year graduation plan and degree planning worksheet can be found at https://academicaffairs.chss.gmu.edu/undergraduate-students/advising/advising-sheets (https://academicaffairs.chss.gmu.edu/undergraduate-students/advising/advising-sheets/). The plan is a recommended sequencing of courses based on prerequisites and scheduling. This may not fit every student's needs and is a guideline, not a requirement. Students should confirm major requirements with their academic advisor each semester and with their PatriotWeb Degree Evaluation to ensure they enroll in the proper courses and are on track to graduate.

Honors

Honors in the Major

Highly qualified students in the BA in English program may pursue advanced work leading to graduation with honors in the major. To graduate with honors in the major, students must complete a two-course honors sequence and receive a minimum GPA of 3.50 in all courses counted toward the major and, separately, a minimum GPA of 3.50 in their honors courses. Honors courses may simultaneously satisfy concentration and distribution requirements in the major.

Students may satisfy the honors course sequence in one of the following ways:

- BA students may take two sections of ENGH 400 Honors Seminar
- BA students may take one section of ENGH 400 Honors Seminar and ENGH 401 RS: Honors Thesis Writing Seminar (Mason Core)

BA students with a concentration in creative writing may write a creative honors thesis in ENGH 401 RS: Honors Thesis Writing Seminar (Mason Core). In special cases, BA students with a concentration in creative writing may apply to the Honors Coordinator and ENGH 495 instructor for permission to use ENGH 495 as a substitute for ENGH 401.

Students interested in pursuing honors in the major should consult the English Department for more information.

Accelerated Master's

The accelerated master's program below specifies the BA in English as a feeder degree for its program. Many accelerated master's programs are available for any bachelor's degree at Mason. See the full list of degrees (http://catalog.gmu.edu/programs/#filter=filter_24) with accelerated programs at George Mason. In addition, as a student with a BA in English you may be particularly interested in the accelerated MA in English with a concentration in folklore studies or a concentration in linguistics.

English, BA or Creative Writing, BFA/ Curriculum and Instruction, Accelerated MEd (Secondary Education English Concentration)

Overview

Highly-qualified Mason undergraduates may be admitted to the bachelor's/accelerated master's option and obtain a BA in English or a BFA in Creative Writing and an MEd in Curriculum and Instruction (Secondary Education English concentration) (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/curriculum-instruction-med/)in an accelerated time-frame after satisfactory completion of a minimum of 143 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

This accelerated option is offered jointly by the Department of English and the School of Education (https://catalog.gmu.edu/colleges-schools/education-human-development/school-education/).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (https://catalog.gmu.edu/admissions/graduate-policies/) and Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program/).

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits, and additional unit-specific criteria.

Students who are accepted into the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits and course-specific pre-requisites.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MEd program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- 3.0 overall GPA
- Completion of specific undergraduate coursework
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following which can be taken as Advanced Standing or Reserve Graduate credit (https://catalog.gmu.edu/policies/academic/graduate-policies/#text) (to be determined by the student and their advisor):

Code	Title	Credits
EDCI 570	Teaching Young Adult Literacy in a Multicultural Setting	3
EDRD 619	Literacy in the Content Areas	3
SEED 522	Foundations of Secondary Education	3
SEED 540	Human Development and Learning: Secondary Education	3
SEED 569	Teaching English in the Secondary School	3
SEED 669	Advanced Methods of Teaching English in the Secondary School	3
SEED approved elective		

For more detailed information on coursework and timeline requirements, see AP.6.7 Bachelor's/Accelerated Master's Degree (https://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-7) policies.

Bachelor's Degree (any)/English, Accelerated MA (Folklore Studies Concentration)

Overview

Highly qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA/BS in their chosen major and an MA in English with a concentration in folklore studies in an accelerated time-frame after satisfactory completion of a minimum of 138 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Polices and Bachelor's/Accelerated Master's Degree policies. For information specific to this accelerated master's program, see the department's website.

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits and a minimum overall GPA of 3.50 or above.

Students who are accepted in the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MA program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- Minimum overall GPA of 3.50
- Minimum grade of B in each advanced standing course
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following:

Advanced Standing courses (up to 12 credits with a minimum grade of B in each)

- FOLK 501 Advanced Introduction to Folklore and Folklife
- FOLK 510 Folklore and Ethnographic Research Methods
- FOLK 550 Topics in Public and Applied Folklore
- FOLK 560 Topics in Genre and Theory
- FOLK 570 Topics in Regional Folklore Studies
- FOLK 601 Folklore Theory and History
- FOLK 690 Field School for Cultural Documentation

Reserve Graduate Credit courses (up to 6 credits) taken while an undergraduate and will only count for the graduate degree program

- FOLK 501 Advanced Introduction to Folklore and Folklife
- FOLK 510 Folklore and Ethnographic Research Methods
- FOLK 550 Topics in Public and Applied Folklore
- FOLK 560 Topics in Genre and Theory
- FOLK 570 Topics in Regional Folklore Studies
- FOLK 601 Folklore Theory and History
- FOLK 690 Field School for Cultural Documentation

For more detailed information on coursework and timeline requirements see AP.6.7 Bachelor's Accelerated Master's Degree policies.

Bachelor's Degree (any)/English, Accelerated MA (Linguistics Concentration)

Overview

Highly qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA/BS in a chosen major and an MA in English with a concentration in linguistics in an accelerated time-frame after satisfactory completion of a minimum of 138 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Polices and Bachelor's/Accelerated Master's Degree policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://linguistics.gmu.edu/programs/LA-MA-ACEL-ENGL/) on the departmental website.

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits

Students who are accepted in the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MA program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- Minimum overall GPA of 3.25
- Completion of LING 306 General Linguistics (Mason Core) and one other upper-division LING course.
- Minimum grade of B in each advanced standing course
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following:

Advanced Standing courses (up to 12 credits with a minimum grade of B in each)

Students who have already taken the undergraduate equivalents of these courses, before entering the BAM program, can substitute other graduate-level LING courses, as needed, with the approval of the academic advisor.

LING 580 First Language Acquisition (3 credits)
LING 687 Syntax I (3 credits)
LING 688 Semantics and Pragmatics I (3 credits)
LING 689 Morphology (3 credits)
LING 690 Phonology I (3 credits)
LING 693 Phonetics (3 credits)

Reserve Graduate Credit courses (up to 6 credits) taken while an undergraduate and will only count for the graduate degree program

500- or 600-level LING courses (https://catalog.gmu.edu/courses/ling/)

For more detailed information on coursework and timeline requirements see AP.6.7 Bachelor's Accelerated Master's Degree policies.

English, MA

Banner Code: LA-MA-ENGL

Academic Advising

4200 Horizon Hall
Fairfax Campus

Email: englgrad@gmu.edu
Website: english.gmu.edu/programs/la-ma-engl

The Master of Arts in English at Mason offers students the opportunity to enhance their skills of reading, writing, research and teaching with courses that encompass the wide range of contemporary English studies. Students can work in and across concentrations in literature, professional writing, rhetoric, cultural studies, film, folklore, linguistics, and the teaching of writing and literature. It offers the MA in field-specific concentrations as well as the opportunity to combine a concentration in one field with a certificate from another one. Many students use the MA for professional enhancement, or as an entry into teaching, professional writing, or doctoral study.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions. For information specific to the MA in English, see Application Requirements and Deadlines (http://english.gmu.edu/programs/application/LA-MA-ENGL/) on the departmental website.

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies.

Satisfactory Progress

Students have six years to complete the MA. Students writing a thesis must have an approved proposal by the end of their fifth year as an MA candidate in English and may not make significant changes to that proposal during their sixth year. By the end of the first semester of their sixth year, thesis students need to demonstrate that they have completed their research and are well advanced in developing their analysis and argument, generally by submitting to their advisors a completed rough draft of the thesis or evidence that they have completed their fieldwork and analysis. A student may be dropped from the program if, in the judgment of the thesis advisor and graduate director, evidence of satisfactory progress on the thesis has not been provided by the end of the first semester of a student's sixth year.

Requirements

Degree Requirements

Total credits: 30

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Students pursuing this degree must successfully complete 30 credits in one concentration as specified below.

Students in the concentrations of cultural studies, linguistics, literature, and teaching of writing and literature must demonstrate intermediate proficiency in a foreign language in one of the following ways: submitting an undergraduate (or continuing education) transcript that includes courses corresponding to intermediate proficiency; completing a Mason foreign language course numbered 202 or higher; passing a proficiency exam administered by the English department.

Concentration in Cultural Studies (CULT)

Code	Title	Credits
Required Courses		
ENGH 500	Research in English Studies	3
ENGH 676	Introduction to Cultural Studies	3
CULT 802	Histories of Cultural Studies	3
Two Courses		
Select 6 credits from the following:		6
ENGH 551	Introduction to Literary Theory	
ENGH 665	Seminar in Global Culture	
ENGH 670	Seminar in Film and Media Studies	
ENGH 675	Feminist Theory and Criticism	
ENGH 685	Selected Topics, Movements, or Genres of Literature in English [1]	
ENGH 705	Literary Theory and Criticism [1]	
Three to Five Courses of Literature		
Select 9-15 credits from the following:		9-15
ENGH 511	Graduate Literature Survey	
ENGH 513	Topics in Literary and Cultural Studies	
ENGH 526	Special Topics in the History and Criticism of Children's Literature	

ENGH 590	Topics in Folk Narrative	
ENGH 591	Topics in Folklore Studies	
ENGH 642	Seminar in British Literature	
ENGH 644	Seminar in American Literature	
ENGH 646	Seminar in Advanced Research	
ENGH 661	Seminar in African-American Literature	
ENGH 665	Seminar in Global Culture	
ENGH 670	Seminar in Film and Media Studies	
ENGH 681	Advanced Topics in Folklore Studies	
ENGH 685	Selected Topics, Movements, or Genres of Literature in English	
ENGH 705	Literary Theory and Criticism	
ENGH 790	Projects in Literary Studies	
Optional Project or Thesis		
Select 3-6 credits of a project or a thesis from the following:		3-6
Project: [2]		
ENGH 790	Projects in Literary Studies (3 credits)	
Thesis: [3]		
ENGH 799	Thesis (6 credits)	
Total Credits		30

1. ENGH 685 Selected Topics, Movements, or Genres of Literature in English, and ENGH 705 Literary Theory and Criticism may be repeated once with permission of the director of graduate studies.
2. Students who choose a project take 3 fewer credits of literature.
3. Students who choose a thesis take 6 fewer credits of literature.

Concentration in Folklore Studies (FLKS)

Code	Title	Credits
Core Courses		
FOLK 501	Advanced Introduction to Folklore and Folklife	3
FOLK 510	Folklore and Ethnographic Research Methods	3
FOLK 601	Folklore Theory and History	3
Required Courses		
FOLK 550	Topics in Public and Applied Folklore	3
FOLK 560	Topics in Genre and Theory	3
FOLK 570	Topics in Regional Folklore Studies	3
Electives		
Choose 6 credits from the following. These topics courses can be repeated for credit when topic differs from the topic taken to meet the required course requirement above.		6
FOLK 550	Topics in Public and Applied Folklore	
FOLK 560	Topics in Genre and Theory	
FOLK 570	Topics in Regional Folklore Studies	
Courses outside of FOLK when topic is related and with approval of graduate director.		
Experiential Learning		
FOLK 690	Field School for Cultural Documentation	3
or FOLK 699	Internship	
Capstone		
FOLK 790	Project	3
or FOLK 799	Thesis	
Total Credits		30

Concentration in Linguistics (LING)

The linguistics concentration combines courses in linguistics with courses in some related area of language study, such as teaching English as a second language, bilingual education, or foreign language teaching. This course of study is designed to prepare students for teaching in one of these fields or for doctoral work. The certificate in teaching English as a second language (TESL) can be earned concurrently.

Code	Title	Credits
Core Courses		
LING 580	First Language Acquisition	3
LING 690	Phonology I	3
LING 692	Phonology II	3
LING 785	Semantics and Pragmatics	3
LING 786	Syntax I	3
LING 787	Syntax II	3
Electives		
Select 12 credits of electives [1]		12
Total Credits		30

1. In consultation with an advisor, chosen from courses that reflect one or more areas of language study. Electives can be in such areas as linguistics, the teaching of reading or writing, literary criticism, bilingual education, or a foreign language, and may include 6 credits of thesis.

Concentration in Literature (LIT)

Code	Title	Credits
Required Courses [1]		
ENGH 500	Research in English Studies	3
ENGH 551	Introduction to Literary Theory	3
Literature		
Select 18 credits from the following: [2]		18
ENGH 511	Graduate Literature Survey	
ENGH 513	Topics in Literary and Cultural Studies	
ENGH 526	Special Topics in the History and Criticism of Children's Literature	
ENGH 590	Topics in Folk Narrative	
ENGH 591	Topics in Folklore Studies	
ENGH 642	Seminar in British Literature	
ENGH 644	Seminar in American Literature	
ENGH 646	Seminar in Advanced Research	
ENGH 661	Seminar in African-American Literature	
ENGH 665	Seminar in Global Culture	
ENGH 670	Seminar in Film and Media Studies	
ENGH 681	Advanced Topics in Folklore Studies	
ENGH 685	Selected Topics, Movements, or Genres of Literature in English	
ENGH 705	Literary Theory and Criticism	
ENGH 790	Projects in Literary Studies	
Two Electives or Thesis		**6**
Select 6 credits of Electives [3]		

ENGH 799	Thesis	
Total Credits		30

1 Must be taken in the first 12 credits of the degree. Another course in literary theory and criticism may substitute for ENGH 551 Introduction to Literary Theory with prior written approval of the graduate director.

2 Courses fulfilling this requirement must include at least three 600-level ENGH seminars. Graduate seminars involve focused study of a topic with significant attention to scholarship in the field.

3 Electives taught within the English department may be taken without permission of the graduate director. A maximum of six credits of related study outside the department may substitute for the equivalent number of elective credits, with permission of the graduate director.

4 Students who choose a thesis take 6 fewer credits of literature or electives.

Concentration in Professional and Technical Writing (PTW)

Code	Title	Credits
Required Courses		
ENGH 501	Introduction to Professional and Technical Writing [1]	3
ENGH 502	Research Methods in Professional and Technical Writing	3
ENGH 503	Theory and Practice of Editing	3
ENGH 505	Document Design	3
Professional Writing		
Select 9 credits from the following:		9
ENGH 504	Internship	
ENGH 506	Research for Narrative Writing	
ENGH 507	Web Authoring and Design	
ENGH 508	Digital Rhetoric	
ENGH 509	Proposal Writing and Development	
ENGH 609	Online Writing	
ENGH 611	Studies in Rhetoric	
ENGH 612	Cultures of Professional Writing	
ENGH 613	Technical Communication	
ENGH 615	Proseminar in Composition Instruction	
ENGH 689	Advanced Proposal Writing	
ENGH 690	Special Topics in Writing and Rhetoric	
ENGH 696	Northern Virginia Writing Project Teacher/ Research Seminar	
ENGH 697	Composition Theory	
Theory		
Select 3 credits from the following:		3
ENGH 508	Digital Rhetoric	
ENGH 551	Introduction to Literary Theory	
ENGH 611	Studies in Rhetoric	
ENGH 675	Feminist Theory and Criticism	
ENGH 676	Introduction to Cultural Studies	
Electives in English		
Select 0-3 credits of electives in English		0-3
Project or Thesis		
Select 3-6 credits of a project or thesis		3-6
Project: [2]		
ENGH 797	Projects in Professional Writing and Rhetoric (3 credits)	
Thesis:		
ENGH 799	Thesis (6 credits)	
Total Credits		30

1 ENGH 501 Introduction to Professional and Technical Writing should be taken in the first semester of study, if possible.

2 Students who choose a project take one additional elective of 3 credits.

Concentration in the Teaching of Writing and Literature (TWL)

Code	Title	Credits
Research Courses		
ENGH 500	Research in English Studies	3
ENGH 602	Pedagogical Research	3
Teaching Writing		
Select 3 credits from the following:		3
ENGH 615	Proseminar in Composition Instruction	
ENGH 695	Northern Virginia Writing Project Inservice Program [1]	
ENGH 699	Visiting Writers [2]	
Teaching Literature		
Select 3 credits from the following:		3
ENGH 610	Proseminar in Teaching the Reading of Literature [3]	
ENGH 695	Northern Virginia Writing Project Inservice Program [1]	
Composition Theory		
ENGH 697	Composition Theory	3
or ENGH 611	Studies in Rhetoric	
Literature Courses		
Select 6 credits from courses in the Literature Concentration		6
Linguistics Course		
Select 3 credits from the following. [4]		3
LING 520	Introduction to Linguistics	
LING 507	Field Work in Applied Linguistics	
LING 521	Applied Linguistics: Teaching English to Speakers of Other Languages (TESOL)	
LING 522	English Grammar and Pedagogy	
EDCI 519	Methods of Teaching Culturally and Linguistically Diverse Learners	
LING 581	Psycholinguistics	
Electives		
6 credits of electives		6
Optional Thesis		
Select 6 credits of thesis in place of elective requirement.		
ENGH 799	Thesis (6 credits)	
Total Credits		30

[1] Offered only to full-time teachers through school district contracts.

[2] NVWP Summer Institute, open to full-time teachers on an invitation basis.

[3] Open to non-TAs in the spring semester.

[4] Note all courses, with exception of LING 520 Introduction to Linguistics, have prerequisites.

Accelerated Master's

Bachelor's Degree (any)/English, Accelerated MA (Folklore Studies Concentration)

Overview

Highly qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA/BS in their chosen major and an MA in English with a concentration in folklore studies in an accelerated time-frame after satisfactory completion of a minimum of 138 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Polices and Bachelor's/Accelerated Master's Degree policies. For information specific to this accelerated master's program, see the department's website.

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits and a minimum overall GPA of 3.50 or above.

Students who are accepted in the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MA program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- Minimum overall GPA of 3.50
- Minimum grade of B in each advanced standing course
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following:

Advanced Standing courses (up to 12 credits with a minimum grade of B in each)

- FOLK 501 Advanced Introduction to Folklore and Folklife
- FOLK 510 Folklore and Ethnographic Research Methods
- FOLK 550 Topics in Public and Applied Folklore
- FOLK 560 Topics in Genre and Theory
- FOLK 570 Topics in Regional Folklore Studies
- FOLK 601 Folklore Theory and History
- FOLK 690 Field School for Cultural Documentation

Reserve Graduate Credit courses (up to 6 credits) taken while an undergraduate and will only count for the graduate degree program

- FOLK 501 Advanced Introduction to Folklore and Folklife
- FOLK 510 Folklore and Ethnographic Research Methods
- FOLK 550 Topics in Public and Applied Folklore
- FOLK 560 Topics in Genre and Theory
- FOLK 570 Topics in Regional Folklore Studies
- FOLK 601 Folklore Theory and History
- FOLK 690 Field School for Cultural Documentation

For more detailed information on coursework and timeline requirements see AP.6.7 Bachelor's Accelerated Master's Degree policies.

Bachelor's Degree (any)/English, Accelerated MA (Linguistics Concentration)

Overview

Highly qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA/BS in a chosen major and an MA in English with a concentration in linguistics in an accelerated time-frame after satisfactory completion of a minimum of 138 credits.

See AP.6.7 Bachelor's/Accelerated Master's Degree for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies.

BAM Pathway Admission Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Polices and Bachelor's/Accelerated Master's Degree policies. For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://linguistics.gmu.edu/programs/LA-MA-ACEL-ENGL/) on the departmental website.

Students will be considered for admission into the BAM Pathway after completion of a minimum of 60 credits

Students who are accepted in the BAM Pathway will be allowed to register for graduate level courses after successful completion of a minimum of 75 undergraduate credits.

Accelerated Master's Admission Requirements

Students already admitted in the BAM Pathway will be admitted to the MA program, if they have met the following criteria, as verified on the Bachelor's/Accelerated Master's Transition form:

- Minimum overall GPA of 3.25
- Completion of LING 306 General Linguistics (Mason Core) and one other upper-division LING course.
- Minimum grade of B in each advanced standing course
- Successfully meeting Mason's requirements for undergraduate degree conferral (graduation) and completing the application for graduation.

Accelerated Pathway Requirements

To maintain the integrity and quality of both the undergraduate and graduate degree programs, undergraduate students interested in taking graduate courses must choose from the following:

Advanced Standing courses (up to 12 credits with a minimum grade of B in each)

Students who have already taken the undergraduate equivalents of these courses, before entering the BAM program, can substitute other graduate-level LING courses, as needed, with the approval of the academic advisor.

LING 580 First Language Acquisition (3 credits)
LING 687 Syntax I (3 credits)
LING 688 Semantics and Pragmatics I (3 credits)
LING 689 Morphology (3 credits)
LING 690 Phonology I (3 credits)
LING 693 Phonetics (3 credits)

Reserve Graduate Credit courses (up to 6 credits) taken while an undergraduate and will only count for the graduate degree program

500- or 600-level LING courses (https://catalog.gmu.edu/courses/ling/)

For more detailed information on coursework and timeline requirements see AP.6.7 Bachelor's Accelerated Master's Degree policies.

Film and Media Studies Minor

Banner Code: FILM

Academic Advising

4200 Horizon Hall
Fairfax Campus

Phone: 703-993-2768
Website: english.gmu.edu/programs/la-minor-la-film

This interdisciplinary minor explores mass culture in its visual manifestations and helps students develop an informed awareness of culture and media, ideological tendencies, and effects on daily experience. Committed to interdisciplinary studies, the program addresses the increasing complexity and multiplicity of visual cultures and offers students the tools with which to read a variety of texts, including film, television, video, and new media.

Most coursework is offered through the Departments of Communication and English, with other courses available through the Department of Modern and Classical Languages and the Film and Video Studies Program. The two required courses provide an introduction to the languages of film and popular media and modes of analysis appropriate to each. They are prerequisites for all advanced work in the minor. Students select four additional courses designed to introduce a more specialized level of study. Students may decide to focus on film, television, or the study of mass culture, or they may choose some mix of courses that suits their interests.

Faculty

Cynthia Fuchs, Program Director

Thomas Britt, Film and Video Studies; Giovanna Chesler, Film and Video Studies; Mark Cooley, Art and Visual Technology; Jeremy Freer, School of Music; Timothy Gibson, Communication; Carma Hinton, Robinson Professor; Alison Landsberg, History and Art History; Carla Marcantonio, English; David Miller, Communication; Janine Ricouart, Modern and Classical Languages; Jessica Scarlata, English; Benjamin Steger, Film and Video Studies; Gail Scott White, Art and Visual Technology; Martin Winkler, Modern and Classical Languages.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Core Courses

Code	Title	Credits
ENGH 372	Introduction to Film (Mason Core)	3
COMM 380	Media Criticism	3
Total Credits		6

Electives

AVT, COMM, and FAVS majors can only use 6 elective credits from their home department toward the Film and Media Studies minor. Only six credits total for any students may be FAVS courses.

Code	Title	Credits
Select 12 credits from the following:		12
AVT 377	Cyberpunk	
CHIN 320	Contemporary Chinese Film	
COMM 208	Introduction to Media Production	
COMM 302	Media Theory	
COMM 350	Mass Communication and Public Policy	
COMM 358	Multi-Camera Studio Production	
COMM 360	Digital Postproduction	
COMM 364	Videography	
COMM 365	Gender, Race, and Class in the Media	

COMM 366	Visual Communication
COMM 372	Sports and the Media
COMM 452	Media Production Practicum
COMM 456	Comparative Mass Media (Mason Core)
ENGH 318	Introduction to Cultural Studies [1]
ENGH 319	Popular Culture [1, 2]
ENGH 362	Global Voices (Mason Core) [1, 2]
ENGH 370	Introduction to Documentary (Mason Core)
ENGH 371	Television Studies (Mason Core)
ENGH 418	Cultural Constructions of Sexualities [1]
ENGH 419	Topics in Popular Literature [1]
ENGH 470	RS: Topics in Film/Media History (Mason Core) [2]
ENGH 472	Topics in Film/Media Theory [2]
ENGH 474	Topics in Film/Media Studies [2]
ENGH 499	Independent Study [1]
FAVS 225	Introduction to World Cinema (Mason Core)
FAVS 250	Business of Film and Television
FAVS 300	Global Horror Film (Mason Core)
FAVS 352	Ethics of Film and Video (Mason Core)
FAVS 399	Special Topics in Film and Video Studies [2]
FREN 470	French and Francophone Cinema [1]
FRLN 331	Contexts for Global Cinema (Mason Core)
JAPA 320	Japanese Cinema
MUSI 301	Music in Motion Pictures (Mason Core)
RUSS 470	Topics in (Post) Soviet Film [1]
Total Credits	12

1 Requires prior written approval of the FAMS director.

2 May be repeated when topic is different.

3 Cannot be used by FAVS majors towards this minor.

Folklore and Mythology Minor

Banner Code: FOLK

Academic Advising

4200 Horizon Hall
Fairfax Campus

Website: english.gmu.edu/programs/la-minor-la-folk

Stories told in both sacred and secular contexts, along with festivals, foods, music, material objects, and other traditional art forms, continue to influence our lives. This interdisciplinary minor offers students tools to explore the compelling meanings within these seemingly simple, everyday cultural texts, and helps them become more aware of the ways these texts are used by individuals and institutions for various goals. Students study folklore and mythology by juxtaposing the multiple viewpoints of anthropology, art history, classical studies, literary studies, and religious studies.

Faculty

Burek, Dakake, Decaroli, Gatling (coordinator), Gilman, Lattanzi Shutika, Usher, Winkler

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. A course used to fulfill the 3 credits of literature required for Mason Core may not also be applied to the minor. To avoid duplication of courses, English majors who choose this minor may not select the English Department's folklore and mythology concentration.

For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: minimum 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Core Courses

Code	Title	Credits
Required course:		3
ENGH 315	Folklore and Folklife (Mason Core)	
Select at least one course from the following:		3-15
ENGH 316	Topics in Myth and Literature	
ENGH 412	Topics in Folklore Studies	
ENGH 414	Folklore and the Supernatural	
ENGH 415	Folk Arts and Folk Artists	
ENGH 416	Ethnicity and Migration in Folklore	
Total Credits		6-18

Elective

Code	Title	Credits
Select at most four courses from the following:		0-12
ANTH 114	Introduction to Cultural Anthropology (Mason Core)	
ANTH 313	Myth, Magic, and Mind (Mason Core)	
ANTH 345	Ritual and Power in Social Life	
ANTH 375	Culture, Power, History	
ANTH 380	Language and Culture	
ARTH 102	Symbols and Stories in Art (Mason Core)	
ARTH 319	Art and Archaeology of the Ancient Near East (Mason Core)	
ARTH 321	Greek Art and Archaeology (Mason Core)

CLAS 250	Classical Mythology (Mason Core)	

CLAS 340	Greek and Roman Epic (Mason Core)
CLAS 390	Topics in Classical Literature and Culture (when the topic is Greek Myth and Literature)
ENGH 417	RS: Topics in Folklore Research (Mason Core)
ENGH 459	Internship (when an approved internship in folklore)
ENGH 484	RS: Writing Ethnography (Mason Core)
ENGH 499	Independent Study
RELI 100	The Human Religious Experience (Mason Core)
RELI 211	Religions of the West (Mason Core)
RELI 212	Religions of Asia (Mason Core)
RELI 240	Death and the Afterlife in World Religions
Total Credits	0-12

Folklore Studies Graduate Certificate

Banner Code: LA-CERG-FLKS

Academic Advising

4200 Horizon Hall
Fairfax Campus

Website: english.gmu.edu/programs/la-cerg-flks

The certificate in folklore studies enables students to explore the processes of tradition that move through multiple expressive forms, such as folktales, folk beliefs, folk medicine, folk art, folksong, and literature. A discipline based on ethnographic fieldwork, folklore studies offers students a chance to work in communities and collect living traditional materials that are critical to human identity and values. Interdisciplinary by nature, folklore thrives on local particularities as well as compelling global connections.

This certificate prepares students for careers in cultural agencies, governmental organizations, and teaching institutions, and advanced study in folklore and in the humanities.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions. For information specific to the graduate certificate in folklore studies, see Application Requirements and Deadlines (http://english.gmu.edu/programs/la-cerg-flks/application/).

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Requirements

Certificate Requirements

Total credits: 18

This certificate may be pursued on a full-or part-time basis.

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Core Courses

Code	Title	Credits
FOLK 501	Advanced Introduction to Folklore and Folklife	3
FOLK 510	Folklore and Ethnographic Research Methods	3
FOLK 601	Folklore Theory and History	3
Total Credits		9

Electives

Code	Title	Credits
Select 3 courses (9 credits) from the following: [1]		9
FOLK 550	Topics in Public and Applied Folklore	
FOLK 560	Topics in Genre and Theory	
FOLK 570	Topics in Regional Folklore Studies	
FOLK 690	Field School for Cultural Documentation	
Total Credits		9

[1] FOLK 550, 560, and 570 may be repeated for credit when the topic is different.

Linguistics Minor

Banner Code: LING

Academic Advising

4200 Horizon Hall
Fairfax Campus

Email: english@gmu.edu
Website: english.gmu.edu/programs/la-minor-la-ling

Linguistics is the scientific study of language. Language is studied descriptively, theoretically, computationally, psychologically, and as a social phenomenon. The field of linguistics thus informs and is informed by many other areas of study, including philosophy, psychology, sociology, computer science, the study of individual languages and literature, literary studies, and education.

This minor introduces the fundamental concepts of modern linguistic theory and explores how these concepts relate to various other disciplines.

Faculty

Back, Goldin, Jones, Leeman, Levine, Morrill, Roman-Mendoza, Serafini, Weinberger (director), Wulf

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 15

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Linguistics, PhD

Banner Code: LA-PHD-LING

Academic Advising

4200 Horizon Hall
Fairfax Campus

Email: english@gmu.edu

Website: english.gmu.edu/programs/la-phd-ling

The PhD in Linguistics trains students in the science of language. Students become specialists in the core areas of linguistics-- phonology, syntax, and semantics --and learn to integrate this core with the study of second language acquisition. The program prepares students for positions in academia, industry, government, and a host of organizations concerned with language and second language acquisition. Graduates may become research and teaching professors, administrators of language-learning programs, and consultants in computational linguistic research.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions.

For specific information, see Application Requirements and Deadlines (http://linguistics.gmu.edu/programs/application/LA-PHD-LING/).

Policies

For policies governing all graduate degrees, see Graduate Policies.

Reduction of Credit

For students entering the doctoral program with a master's degree, the number of required credits may be reduced by a maximum of 30 credits, subject to approval of the program faculty and the dean. Requests for reduction of credit are reviewed only after acceptance to the doctoral program.

Requirements

Degree Requirements

Total credits: 72

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

EDCI 569	Teaching English in the Secondary School	
Total Credits		15

Advancement to Candidacy

To advance to candidacy, students must complete all coursework required on their approved program of study. Students must also successfully pass a written qualifying exam and an oral qualifying exam. In addition, students must have a dissertation committee appointed by the Dean's Office as well as an approved proposal. Evidence of the approved proposal must be on file in the Dean's Office before a student can advance to candidacy.

Dissertation

Once enrolled in LING 999 Doctoral Dissertation, students must follow the university's continuous registration policy as specified in AP.6.10.6 Dissertation Research. Students who defend in the summer must be registered for at least 1 credit of LING 999 Doctoral Dissertation.

Students apply to this degree a minimum of 12 dissertation credits (LING 998 Doctoral Dissertation Proposal and LING 999 Doctoral Dissertation combined) with at least 3 credits of LING 999 Doctoral Dissertation. Because of the continuous registration policy, students may be required to register for additional credits of these courses.

Code	Title	Credits
Dissertation Research		12
LING 998	Doctoral Dissertation Proposal	
LING 999	Doctoral Dissertation

Total Credits		9

Native American and Indigenous Studies Minor

Banner Code: NAIS

Academic Advising

4200 Horizon Hall
Fairfax Campus

Website: english.gmu.edu/programs/la-minor-la-nais

Native American and indigenous studies is an interdisciplinary field of study committed to understanding both the unity and the diversity of present and past Native American tribes, cultures, and experiences. This interdisciplinary minor will help students think critically and respectfully about the complex dynamics of Native American cultures, considered both individually and comparatively. In addition to practicing and developing critical thinking and writing skills, students in this interdisciplinary minor will learn how value systems operate in different cultures, examine the roots of conflict and resolution across a broad historical and cultural spectrum, better understand the importance of language as a means of cultural expression, and heighten their appreciation of the unique status of present-day Native American tribes as nations with certain sovereign powers within the boundaries of the United States.

In addition to a required course that introduces key concepts, events, figures, and methodological approaches, students take five 3-credit elective courses from no fewer than three departments. The coursework for this minor enables students to examine Native American cultures from a variety of disciplinary perspectives, including those that are anthropological, historical, artistic, philosophical, and political.

Faculty

Anderson (coordinator), Benitez, Bristol, Karush, Scully, Snead

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.

No more than two courses from a single department can be applied to the minor. No more than 3 credits can be applied to both Mason Core requirements and the minor.

Requirements

Minor Requirements

Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

SOCI 308	Race and Ethnicity in a Changing World (Mason Core)	
Total Credits		15

[1] Special topics courses and summer field work offerings, when relevant, may be used to fulfill elective credits for the minor with prior written approval of the NAIS coordinator.

Professional and Technical Writing Minor

Banner Code: PTW

Academic Advising

4200 Horizon Hall
Fairfax Campus

Website: english.gmu.edu/programs/la-minor-la-ptw

This minor provides students with opportunities to learn and apply advanced strategies for writing academic, professional, and civic documents. Students examine the theoretical, interdisciplinary, and professional aspects of writing and develop their expository, persuasive, organizational, and stylistic skills through close analysis of rhetorical situations and the features and approaches of successful writing. The strong communication and analytical skills developed while earning this minor contribute to student success in a wide variety of professional careers as well as graduate education.

The minor is a valuable asset for students interested in working in media organizations, trade and professional associations, and non-profit organizations related to the arts, schools, and social change. It is also beneficial to students interested in careers in business, science, engineering, accounting, and many others that demand strong writing and communication skills for promotion and advancement.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors.
