First Semester
Fundamentals of Programming
Computer Organization
Database Management Systems
Mathematics for Computer Application
Communication Skills
Disaster Management
Third Semester
Microprocessor Programming and Interfacing
Relational DBMS
Web Designing
Computer Networks
Startup and Entrepreneurship
Teaching Scheme
Fifth Semester
Android Application Development
Advanced Java
Analysis & Design of Algorithms
Computer Graphics
Data Communication
Software Project - 1
Seven Semester
Cloud Computing
Machine Learning
Internet of Things
Industry Internship - 1

Second Semester
Object Oriented Programming
Data Structures
Operating Systems
Advanced Mathematics for Computer Applications
Environmental Studies
Fourth Semester
Software Engineering
Java Programming
Information Security
Programming in Python
Career & Personality Development
Sixth Semester
Cyber Security
Software Project Management
Wireless Sensor Networks
Data Mining
Soft Computing
Project - 2
Eight Semester
Industry Internship-2
