

SET Syllabus (Latest)

Check here the SET Syllabus 2026 PDF and get detailed section-wise topics for SET exam. Know the key topics to prepare for Quantitative Aptitude, General English, General Knowledge and Logical and Analytical Reasoning.

The SET syllabus is prescribed by Symbiosis International University which includes section-wise topics and sub topics that the candidates should study to prepare for the SET exam.

There are four sections in the SET question paper based on **quantitative, verbal, analytical, logical abilities and general awareness**.

SET Syllabus Overview

SET question paper consists of four sections:

- Quantitative Ability
- General English
- General Knowledge
- Logical and Analytical Reasoning

Important Topics of SET Syllabus

Section 1: General English

The General English section of the SET exam tests the candidate's hold over the English language and proficiency. To ace this section, students should focus on improving their vocabulary and grammar use. Check below the important topics of General English in the SET exam.

Important Topic	Sub-topic
Vocabulary	Synonyms and Antonyms
Reading Comprehension	Reading passages based on inferences
Grammar	Sentence Completion, Prepositions, Conjunctions, Nouns, Pronouns, Modifiers, Tenses, Proper Usage of Words, Adverbs, Verbs, Parallelism
Other Topics	Idioms and Phrases, Etymology and Roots, Direct and Indirect Speech, Para jumbles, Foreign Words

Section 2: Quantitative Aptitude

The Quantitative Ability sections of the SET exam tests the candidate's understanding mathematics and numerical ability. The important SET topics for the QA sections are as follows:

Important Topic	Sub-Topic
Number System	HCF & LCM, Surds & Indices, Factors, Simplification, Properties of Numbers, Finding Unit Digit, Roots
Algebra	Simple and Quadratic Equations, Logarithm, Functions & Graphs, Algebraic Formulae, Linear Equations, Inequalities
