

MASTER OF COMMERCE

DURATION: 2 years/4 semesters

Programme Description:

The MCOM (A&T / I&RM) programme aims at equipping students with advanced and specialised knowledge of the core commerce courses with creativity and problem-solving skills through innovative pedagogy and activities. The Corporate workplace demands digital skills like computer programming, data analytics and visualisation, generative AI and these skills are acquired by MCom (A&T / I&RM) graduates through Python Programming for Data Analysis, Quantitative Techniques and Business Analytics courses. Industry certifications on Financial Modelling using Excel and Creating Dashboards through Power BI are offered as add-on courses to students. Corporate and Academic Training and Personality development programmes are organised every week as part of the skill development. The students of MCom (A&T / I&RM) undergo 6 weeks of industry internship and 30 hours of social sensitisation programme as part of the experiential learning. The third and fourth semesters offer electives in ‘Accounting and Taxation’ & ‘Insurance and Risk Management’. Students can also pursue professional certifications by enrolling for the CMA and CISI courses offered by IMA (USA) and CISI (UK) and courses offered through the Bloomberg terminal.

Objectives:

1. Apply knowledge of accounting theories and principles for financial control and management of organizations.
