

TS EAMCET 2026: Post-Exam Guide

Steps, Scores, and Admission Roadmap

1. Immediate Steps After the Exam

Response Sheet & Preliminary Key

Shortly after the exam, the convener releases your response sheet. Cross-check this with the Preliminary Key to estimate your raw score.

Raising Objections

If you find any errors in the official answer key, you have a 2-3 day window to submit objections online with supporting evidence.

Results & Rank Card

The final results will include your 'Normalized Score' and 'State Rank'. Download and print your Rank Card; it is the most vital document for counselling.

2. Marks vs Rank & College Targets

A "good score" typically depends on the branch you want. For Computer Science (CSE) in top colleges, aim for a rank below 5,000.

Marks (Out of 160)	Expected Rank	Likely College/Course Category
140+	1 - 500	Top University Colleges (JNTU/OU) - All Branches
120 - 139	501 - 2,500	CBIT, VNR VJIET, Vasavi - Premium Branches
100 - 119	2,501 - 10,000	GRIET, MGIT, BVRIT - Popular Branches
80 - 99	10,001 - 25,000	Reputed Private Colleges - Core & Tech Branches
60 - 79	25,001 - 50,000	Standard Private Engineering Colleges

Marks (Out of 160)	Expected Rank	Likely College/Course Category
Below 60	50,000+	Regional Colleges / Non-CS Branches

3. The Counselling Process (Brief)

- 1. Registration:** Pay the processing fee on the official portal and book a slot for verification.
- 2. Certificate Verification:** Attend the Help Line Center (HLC) for physical document checking.
- 3. Web Options:** Log in and enter your college preferences in order (1, 2, 3...). Save and freeze.
- 4. Seat Allotment:** Check the portal for your allotted college based on your rank and category.
- 5. Reporting:** Self-report online and then visit the college to confirm your admission.
