

KMAT SYLLABUS

KMAT question paper includes three sections – Verbal Ability and Reading Comprehension, Quantitative Ability and Logical Reasoning. KMAT exam is conducted in pen-paper mode and the duration of exam is 120 minutes. The total number of questions asked in the exam are 120 equally divided among each section; therefore, the test-takers should focus on speed and accuracy to solve maximum questions in the exam.

KMAT syllabus for both MBA/PGDM and MCA courses is same. We have listed below section wise units of KMAT syllabus.

Syllabus for Verbal Ability and Reading Comprehension (VARC)

The section includes English Grammar and Usage to test candidates understanding of the language. To fare well in this section, candidates should prepare below mentioned topics:

VARC Syllabus for KMAT	
Grammar	Vocabulary
Sentence completion	Synonyms
Antonyms	Comprehension of passages
Para Jumble	Fill in the blanks
Idioms	Understanding of Passages
Phrases	Expressions
Language Skills	Choice of Appropriate words

Syllabus for Quantitative Ability (QA)

The section tests candidates' skills in arithmetic, calculation, data interpretation, etc. Below are the topics to prepare for this section:

QA Syllabus for KMAT	
Numerical calculations	Arithmetic problems
Algebra	Geometry
Trigonometry & Parts of Mathematics	Interpretation of tables
Common graphs & charts	Quantitative Reasoning
Number systems	Modern Mathematics
Ratio and Proportion	Time and Speed
Percentage	Interest

Syllabus for Logical Reasoning (LR)

In this section, the candidates' analytical and decision-making skills are tested by questions based on coding, series, data arrangement, statement-conclusion etc. The section carries 40 MCQs based on the following topics:

LR Syllabus for KMAT
