

# NEET PG 2026 Syllabus

Subject-wise | Topic-wise | Weightage | Important Topics

<b>Exam</b>	NEET PG 2026 (National Eligibility cum Entrance Test – Postgraduate)
<b>Conducted by</b>	National Board of Examinations in Medical Sciences (NBEMS)
<b>Purpose</b>	Admission to MD / MS / PG Diploma courses in India
<b>Parts</b>	Pre-clinical   Para-clinical   Clinical
<b>Total Subjects</b>	14 subjects across 3 parts

## Part 1 — Pre-Clinical Subjects

Pre-Clinical subjects form the foundation of medical knowledge, covering the basic sciences studied in the first years of MBBS. A strong command of these subjects is essential for all clinical reasoning in NEET PG.

Subject	Topics Covered
<b>Anatomy</b>	General Embryology, Histology, Osteology, Arthrology, Neuroanatomy, Head and Neck, Back, Thorax, Upper Limb, Abdomen, Pelvis and Perineum, Lower Limb
<b>Physiology</b>	General Physiology, Nerve and Muscle Physiology, Blood Physiology, Gastrointestinal System, Cardiovascular System, Respiratory System, Excretory System, Endocrine and Reproductive Systems, Nervous System, Special Senses
<b>Biochemistry</b>	Concepts of Biochemistry, Carbohydrate Chemistry and Metabolism, Enzymes, Amino Acids and Proteins, Lipids, Molecular Biology, Miscellaneous topics

## Part 2 — Para-Clinical Subjects

Para-Clinical subjects bridge basic science and clinical practice. They explain the mechanisms of disease, drug action, and medicolegal aspects that are directly tested in NEET PG.

Subject	Topics Covered
<b>Pathology</b>	Cell Injury, Inflammation, Immunity, Genetics, Hematology, Neoplasia, Systemic Pathology
<b>Pharmacology</b>	General Pharmacology, Autonomic Drugs, Chemotherapy, CNS Drugs, Cardiovascular Drugs, Antibiotics
<b>Microbiology</b>	Immunology, Bacteriology, Virology, Mycology, Parasitology
<b>Forensic Medicine</b>	Medical Jurisprudence, Autopsy, Injury, Poisoning, Sexual Offenses, Legal Medicine

Subject	Topics Covered
<b>Social &amp; Preventive Medicine</b>	Epidemiology, Communicable and Non-Communicable Diseases, Health Programs, Nutrition, Family Planning

### Part 3 — Clinical Subjects (Highest Weightage)

Clinical subjects carry the highest weightage in NEET PG. These subjects focus on diagnosis, management, and patient care across all major specialties.

Subject	Topics Covered
<b>General Medicine</b>	Infectious diseases, Cardiovascular diseases, Respiratory diseases, Gastrointestinal diseases, Neurology, Endocrinology, Rheumatology, Nephrology, Hematology
<b>General Surgery</b>	Trauma, Burns, Surgical infections, Wound healing, Head and neck surgery, Abdominal surgery, Urology, Pediatric surgery, Plastic surgery, Oncology
<b>Obstetrics &amp; Gynecology</b>	Antenatal care, Labor and delivery, Postnatal care, Gynecological disorders, Family planning, Menopause
<b>Pediatrics</b>	Neonatology, Growth and development, Pediatric infections, Nutritional disorders, Common pediatric diseases
<b>ENT</b>	Ear disorders, Nose and sinus diseases, Throat diseases, Head and neck cancers
<b>Ophthalmology</b>	Eye anatomy, Common eye diseases, Cataracts, Glaucoma, Retinal disorders
<b>Psychiatry</b>	Mental health disorders, Psychotic disorders, Mood disorders, Substance abuse, Child and adolescent psychiatry

### Subject-wise Weightage

The table below shows the approximate number of questions from each subject based on past exam trends and faculty analysis. Clinical subjects together account for over 50% of the paper.

Subject	Approx. Questions	Part
Anatomy	16	Pre-Clinical
Physiology	16	Pre-Clinical
Biochemistry	13	Pre-Clinical
Pathology	17	Para-Clinical
Pharmacology	13	Para-Clinical
Microbiology	13	Para-Clinical
Forensic Medicine	17	Para-Clinical

Subject	Approx. Questions	Part
Social and Preventive Medicine	5	Para-Clinical
General Medicine	30	Clinical
General Surgery	40	Clinical
Obstetrics & Gynecology	20	Clinical
Pediatrics	3	Clinical
ENT	30	Clinical
Ophthalmology	3	Clinical

### High-Priority Topics to Focus On

These are the topics that appear most frequently across NEET PG exam years. Prioritise them in your revision schedule:

Subject	High-Priority Topics
<b>Anatomy</b>	General Anatomy, Embryology, Histology
<b>Physiology</b>	Blood, Circulatory System, Respiratory System
<b>Biochemistry</b>	Enzymes, Metabolism, Clinical Biochemistry
<b>Pathology</b>	General Pathology, Systemic Pathology
<b>Pharmacology</b>	Autonomic Drugs, Chemotherapy
<b>Microbiology</b>	Bacteriology, Virology, Immunology
<b>Forensic Medicine</b>	Injury, Medicolegal Aspects
<b>Social &amp; Preventive Medicine</b>	Epidemiology, Immunization
<b>General Medicine</b>	Infectious Diseases, Cardiovascular Diseases
<b>General Surgery</b>	Trauma, Surgical Infections
<b>Obstetrics &amp; Gynecology</b>	Antenatal Care, Labor and Delivery
<b>Pediatrics</b>	Neonatology, Growth and Development
<b>ENT</b>	Ear Disorders, Nose and Throat Diseases
<b>Ophthalmology</b>	Eye Anatomy, Common Eye Conditions

Note: Weightage figures above are approximate, based on past years' question distribution and expert feedback. Always refer to the official NBE/NATBOARD notification for the most current information. This document is prepared by Shiksha.com for student reference only.
