

Design Awareness Topics for Design Entrance Exam

In any Design Entrance Test, questions asked are to check creativity, observation skills, design thinking, spatial observation, design awareness, etc. The questions in the design exams are asked from various areas, such as **mathematics, general knowledge, language, design aptitude test**, etc. To be successful in the test, one must have a thorough knowledge of the exam pattern and syllabus. He must have an idea of what is going on in the design world. Which design event is going on? Which fashion designer has launched a new collection? Which color is in? Which trend is trending? Which design trend is going on?, etc.
