Tips for Choosing a CAT Coaching Institute

- Compare faculty experience and teaching methodology, not just brand name.
- Ask for a trial class before enrolling, and check recent batch results/percentiles.
- Confirm whether the fee includes test series, study material, and GD/WAT/PI training.
- Check batch size - smaller batches usually mean more personalized attention.
- Always get the current fee structure and any ongoing discount directly from the institute, since online listings are often outdated.
