

IIAD DAT Syllabus

Event	IIAD Selection Criteria
IIAD entrance exam (iDAT)	In the written entrance exam, candidates are judged mainly on their visual ability, cultural awareness and logical thinking.
IIAD entrance exam (iMAT)	In the iMAT written entrance exam, candidates are judged mainly on their language, logical reasoning and creative thinking.
Studio Simulation round	In the studio simulation round, candidates have to work in groups to make a 3D model using the given material. They are evaluated on their skills of making, creative thinking, problem-solving and teamwork.
Portfolio assessment round	Portfolio can include work like drawings/ sketches/ paintings, art collages, web design, digital design, graphic design, needlework, three-dimensional projects, sculpture and/or photography. The official website informs, "A portfolio need not match professional standards, but must reflect a candidate's interest and aptitude for design as well as a flair for visual expression and overall aesthetic sensibility."
