Postgraduate Research

at Trinity College Dublin, the University of Dublin

Trinity is recognised as one of the world's leading research-intensive universities and its research continues to address issues of global, societal and economic importance.

Applying for a Masters by Research or PhD at Trinity

As a truly international university, we welcome applications from prospective postgraduate students globally and we hope you will consider choosing Trinity for your postgraduate research.

1. Find a Potential Academic Supervisor

Once you have identified your research area, the next step is to make contact with academic staff in relevant fields and identify a potential supervisor: www.tcd.ie/research

2. Make Contact with Potential Academic Supervisor

Contact potential academic supervisors with a brief research proposal or idea, demonstrating your interest and relevant experience in the research area. If an academic staff member is willing to support your application for a PhD position, they will direct you to the school's online application page. Please note that some schools at Trinity have specific guidelines for applying for a PhD position. It is important to check the Schools' webpage for any additional information at: www.tcd.ie/courses/postgraduate/postgraduate-research

3. Submit your Application

You will need to submit your application by following the guidelines given to you by your potential supervisor. Your application will need to include a detailed research proposal, as well as transcripts, proof of English proficiency, CV and any other relevant document. Your application is then reviewed by the relevant School. The Dean of Graduate Studies conducts the final review and issues approval subsequent to meeting all criteria.

4. Explore Funding Opportunities

Once you find an academic willing to supervise your research, they will be best placed to advise you of relevant funding opportunities through Irish and European funding agencies. Additionally, you may also:

- Contact scholarship awarding bodies in your home country for possible PhD funding options.
- Review Trinity's postgraduate awards which are available only to students intending to register for full-time higher research degrees (i.e. PhD). www.tcd.ie/study/international/scholarships/postgraduate
- Contact the Regional Manager for your country for information on other opportunities: www.tcd.ie/global/people/#Recruitment

A Sustainable Campus

Trinity is committed to tackling the global challenges of climate change and biodiversity loss for a healthy, sustainable future. As a Nature Positive university, we are putting environmental sustainability at the heart of our education, research and campus life.

Do you want to be a future leader?

The world is experiencing a period of rapid environmental and social change, which poses risks and opportunities for us all. The leaders and workforce of the future need to be equipped to handle these transitions in a just and sustainable way. To gain the knowledge, skills and resilience that will be needed, Trinity offers students a range of ways to learn about sustainability and to develop the kind of innovative thinking and adaptability that will be needed.

During Green Week each year, we hold the Sustainability Leadership Awards where student leaders from across campus are acknowledged for their commitment to sustainability on campus and in their community.

Education – how can I learn more about sustainability?

As well as addressing sustainability in subject specific ways as part of the curriculum of your chosen course at Trinity, students will gain the skills and competencies for sustainable development through cross-disciplinary modules. All students in Trinity will develop the

knowledge, skills and attitudes to think, plan and act with responsibility and compassion for themselves, each other and the planet.

Trinity now has four Fellows in Education for Sustainable Development who help to embed sustainability in a wide variety of curriculums across campus.

Green Week

This week-long festival during Semester 2 is a focal point of activity across campus. It involves student-focused events such as a careers expo.
