English for Academic Purposes (EAP) prepares students for study at Southern Cross University. EAP builds on existing English language abilities in reading, writing, speaking and listening. It then develops students' academic and digital literacy practices, including: researching, referencing, note taking, using the Southern Cross University Learning Management System and giving presentations. The length of EAP studies will depend on a student's English language level at application. Successful completion of EAP provides direct entry to a range of Southern Cross University degrees. Southern Cross University offers a wide range of subjects across business, marketing, tourism, hospitality, information technology, Australian cultural and Indigenous studies, social welfare, humanities, environmental science, engineering, marine science, and health and exercise science. Students can select units that complement their degree or explore new areas of interest, all while experiencing life on either our vibrant Gold Coast campus or our more immersive Lismore campus.

Our Study Abroad program also features distinctive learning experiences across both locations. On the Gold Coast, students enjoy a dynamic coastal lifestyle just minutes from world-famous beaches, alongside access to industry-relevant programs in business, tourism, education, and health. At our Lismore campus, students can connect with the world's oldest living culture through Gribi College of Indigenous Australian Peoples, engage with the local community through volunteering or projects such as the Koala Hospital, and take part in environmental science field trips to World Heritage rainforest, and national parks across the Northern Rivers region. rainforest, marine parks or national parks in our surrounding regions.

# See Australia while you study

# Academic requirements

The minimum academic requirement for undergraduate degrees is displayed in the 'Academic Score by Country' shown on the International Future Students admission requirements tab of the website.

For postgraduate degrees, assessment is made on an equivalent Australian Bachelor degree plus any other course-specific requirements.

Advanced standing refers to previous study undertaken which may reduce the duration of your degree. You need to apply for advanced standing at the time of application.

When assessing applications against the relevant Academic Standards, the University will use accepted educational resources, including Australian Education International – National Office of Overseas Skills Recognition (NOOSR), United Kingdom National Recognition Information Centre (UK ENIC), University Admissions Centre (UAC) Assessment of Qualifications Manual and the Queensland Tertiary Admissions Centre (QTAC) Schedule to establish the Australian equivalent of an applicant's overseas qualifications.
